IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF WISCONSIN

- -

WILLIAM WHITFORD, et al.,

Plaintiffs,

vs. Case No.
15-CV-421-bbc

GERALD NICHOL, et al.,

Defendants.

- -

Deposition of JEFF YLVISAKER
Friday, March 11, 2016
1:34 p.m.
at
STATE OF WISCONSIN DEPARTMENT OF JUSTICE
17 West Main Street
Madison, Wisconsin

Reported by Kaila M. Macek, RMR

Deposition of JEFF YLVISAKER, a witness in the above-entitled action, taken at the instance of the Plaintiffs, pursuant to Chapter 804 of the Wisconsin Statutes, before Kaila M. Macek, Registered Merit Reporter and Notary Public, State of Wisconsin, at STATE OF WISCONSIN DEPARTMENT OF JUSTICE, 17 West Main Street, Madison, Wisconsin, on the 11th day of March, 2016, commencing at 1:34 p.m. and concluding at 3:29 p.m.

TRANSCRIPT OF PROCEEDINGS

JEFF YLVISAKER, called as a witness herein, having been first duly sworn on oath, was examined and testified as follows:

E X A M I N A T I O N

BY MR. EARLE:

Q Okay. Welcome.
A Thank you.
Q Why don't you state your first name and spell your last name for the record.
A My name is Jeff Ylvisaker, Y-L-V-I-S-A-K-E-R.
Q Do you mind if I call you Jeff, or would you --
A Jeff is just fine.
Q Jeff is just fine. Good.

Okay. Jeff, you're here as the designated deponent on behalf of the legislative technology services bureau.

A Correct.
Q Do you understand that?
A Yes, I do.
Q And showing you what's been marked as Exhibit No. 1. Oh, wait.

MR. EARLE: Doug, what number are we on after yesterday? Brian, do you remember?

Go off the record for a moment.

(A discussion is held off the record.)
(Exhibit No. 46 was marked for identification.)
BY MR. EARLE:
Q Showing you what's been marked as Exhibit No. 46 sequentially numbered in this case. Have you seen this document before?
A Yes, I have.
Q Okay. And this is a subpoena, 30(b)(6) subpoena, with four topics; correct?
A Yes.
Q Did you have an opportunity to review those four topics?
A Yes.
Q And you're here prepared to testify on each of those four topics?
A Yes.
Q Okay. And it's my understanding you brought some documents with you today?
A I did.
Q Okay. And those are being Bates numbered as we're talking and will be delivered to the room shortly; is that correct?
A That's my understanding. Yes.
Q Okay. And we're going to just get started, then --
A Okay.

Page 6

Q -- while we're waiting for those documents.
You were previously deposed in connection with redistricting; correct?
A That's true.
Q And that deposition occurred on April 29th of 2013; correct?
A Yes.
Q Did you review that deposition in preparation for today?
A I did.
Q Okay. And that deposition had seven exhibits attached to it; correct?
A I can't -- I can't say that I'm positive how many --
Q Okay. Well --
A -- exhibits are attached to it.
Q Showing you -- let's mark as number 47 the transcript of that deposition.
(Exhibit No. 47 was marked for identification.)
BY MR. EARLE:
Q Showing you what's been marked Exhibit 47. Is this a copy of the 30 (b)(6) videotaped deposition that you participated in on April 29th, 2013?
A It certainly appears to be.
Q Okay. And drawing your attention to the -- page No. 3. There's a list of exhibits on there. Does

Page 7

that refresh your recollection as to the number of exhibits that were involved in your prior deposition?
A Yes.
Q There were seven exhibits; correct?
A Correct.
Q Okay. And those included Exhibit No. 1, being the subpoena issued to the senate in -- during that time in that case; correct?
A I see that. Yes.
Q And the -- Exhibit No. 2 is a chart that you had prepared, a single-page chart; correct?
A Yes.
Q And Exhibit No. 3 was the subpoena issued to the state assembly; correct?
A Correct.
Q Exhibit No. 4 was the subpoena issued to the LTSB; correct?
A Correct.
Q And Exhibit No. 5 was a compendium of documents that you had brought to that deposition; correct?
A Correct.
Q And that is the exhibit that contained some configuration records and some service records; correct?
A Correct.

Page 8

Q And then Exhibit No. 6 was a copy of a declaration you had previously issued in the Baldus case; correct?
A Yes.
Q And Exhibit No. 7 was an e-mail with some attachments; correct?
A Correct.
Q Okay. Drawing your attention to Exhibit No. 7 --
(Exhibit No. 48 was marked for identification.)
BY MR. EARLE:
Q Showing you what's been marked as Exhibit 48 in this case, which was Exhibit No. 7 in your prior deposition.
A I understand.
Q Okay. Can you identify that document, please?
A It will take me a few moments.
Q Sure.
A Could you ask me the question again?
Q Could you identify the exhibit, please.
A I can identify it as the Exhibit No. 7 from the previous deposition from 4/29/2013.
Q You would agree that Exhibit No. 7 is a preservation notice issued to the legislature for documents relevant to the redistricting litigation dated -- the letter on my letterhead is April 10th, 2012, directed

Page 9

to Eric McLeod and Dan Kelly; is that correct?
A Yes.
MR. ST. JOHN: Objection. Form.
BY MR. EARLE:
Q Okay. And --
MR. EARLE: We can go off the record.
(A discussion is held off the record.)
MR. EARLE: Back on the record.
Off the record we had a brief discussion about a stipulation that has been worked up between the parties with regards to a -- an agreement whereby Mark Lanterman will provide a declaration of -- reflecting his forensic review of the images of the various computers that were -- that were used in the redirecting process.
There were three computers and nine hard drives, one of which was not accessible for purposes of imaging. And we'll get into the details of that in a -- of those specific computers in the course of this deposition.
But the parties have agreed in principle to that material -- to the authenticity of those documents while preserving all evidentiary objections beyond authenticity to the defendants in the case, and that Mr. Lanterman will be made

Page 10

available for deposition by the defendants if they so choose. And in the event that it's necessary, Mr. Lanterman will be made available after the cutoff of discovery, and those details will be spelled out in the stipulation.

Does that accurately reflect our agreement at this point?

MR. KEENAN: Yes, I believe it does.

MR. EARLE: Okay. Good.

BY MR. EARLE:

Q With that in mind, okay.

And going back to the exhibit before you, Exhibit 48, you had previously seen the preservation letter?

A Yes.

Q And you understood that the preservation letter meant that documents needed to be preserved for purposes of this litigation -- of the prior litigation? I'm sorry.

A Yes.

Q Now, as part of your prior deposition, you prepared a chart; correct?

A I believe that I did. I would -- what I did in preparation for this was I read this whole thing, but I did not find every exhibit and review those.

Page 11

Q Okay.

A So --

Q Did you find Exhibit No. 2?

A No. I didn't specifically look for it.

(Exhibit No. 49 was marked for identification.)

BY MR. EARLE:

Q Showing you what's been marked as Exhibit No. 2 to your prior deposition, and it's Exhibit No. 49 in this deposition. Does that refresh your recollection?

A Yes, it does.

Q Okay. And this is an exhibit that you prepared; correct?

A Certainly looks that way.

Q Okay. And I just want to establish some basics as we go forward in this deposition using this exhibit as a mechanism to accomplish that objective.

There were three computers that were assigned to the republicans in the decennial redistricting beginning in -- near the end of 2010, 2011; correct?

MR. KEENAN: Object to the form.

A The -- they were deployed in, according to this, in the summer of 2010.

Q Okay.

Page 12

A Two of them in the summer of 2010 and the third one in March of 2011.

Q Now, you're pointing on Exhibit 49 as you -- as you speak; correct?

A Yes.

Q And those were the three computers that were deployed to the republicans in the legislature; correct?

A Yes.

Q And there were three computers that were deployed to the democrats at approximately the same time; correct?

A No. Not three.

Q Okay. How many computers were deployed to the democrats?

A One per caucus, so one to the senate democrats and one to the assembly democrats.

Q Okay. So two --

A Around the same time, you know, that we had deployed the initial two to the senate republicans and the assembly republicans.

Q Were there any differences in the computers that were deployed to the different caucuses?

A The first four computers that were deployed should have been virtually identical; that is, the same hard drives, the same computer itself, the same external

Page 13

hard drive, the same software, the same data. So those first four, one to each caucus, should have been basically identical.

The one that was subsequently deployed to the senate republicans was deployed later, in which case it was a different model, but it should have really been as similar as possible beyond that.

Q And that third computer you're referring to is the one that has the code WRK32864; correct?

A That is correct.

Q And that was deployed to Tad Ottman; correct?

A Correct.

Q But it was actually used by Joseph Handrick; correct?

A I don't know the answer to that question.

Q Okay. That's fine. All right.

Now, before we go much further, let's just -- let's -- I'd like to establish one thing that -- the deposition transcript that you reviewed, which is Exhibit No. 47, is that accurate, everything that's in there?

A I would say that, yeah, as I read it yesterday and today, that it seemed to be -- I mean, as far as I know, it's accurate. And I just don't remember all of the specifics, so I was kind of refreshing my memory with some of these things as I read it. But

Page 14

as far as I know, it should be perfectly accurate to the best of my knowledge.

Q Okay. And the reason I ask that is I don't want to have to go through and repeat all these questions and get all those same answers. And since this is an exhibit in this case and you reviewed it prior to this deposition, you, in effect, have just now ratified the content of Exhibit 47 as if it were taken in this deposition; is that okay?

A That is fine.

Q Okay. Good. All right. And I'm going to go back over specific points as we go through it.

A Okay.

Q But I -- that makes life a lot easier for everybody here.

A Sounds good.

Q Okay. So I just want to identify the basics here, then. So at first you deployed two computers to the republicans: One to the assembly, one to the democrats. The assembly computer went to Adam Foltz?

A Yes.

Q The senate computer went to Tad Ottman?

A Correct.

Q And the code for the Ottman computer was WRK32587 correct?

Page 15

A Correct.

Q And the code for the Adam Foltz computer was WRK32586; correct?

A Correct.

Q Okay. And each of those two computers had external hard drives attached to them?

A Correct.

Q Okay. And the Ottman computer was deployed to Michael Best & Friedrich on July 15, 2010; correct?

A Yes.

Q And that had one external hard drive attached to it?

A Yes.

Q Okay. How did that external hard drive work with relationship to that computer?

A So it should have been connected via a USB drive to it. And then the purposes -- the reason why it was there was to provide a place for the end user to back data up to or perhaps to transfer data -- well, they could do whatever they wanted, really, since it was connected via a USB drive.

But we basically put it in place for auxiliary storage and backup of the redistricting plans.

Q Okay. And in your deposition on April 29th of 2013, you described how those external hard drives were

Page 16

configured to automatically back up the hard drive that they were attached to on a schedule; correct?

A Yes.

Q Okay. And it's your understanding, based on the configuration of the service records of those computers, that that backup function was not impaired at any point in time during the redistricting process; correct?

A I don't know if I did or can claim that it wasn't impaired or, you know, shut off temporarily or -- so I don't know if I can answer that question.

I think I can answer and say that we deployed it with however I described it inside here, but how it stayed, I couldn't say.

Q So the end user could have interrupted the backup function at any point in time?

A As I understand it, yes.

Q And that would be an intentional action as opposed to an accident that would require service --

MR. ST. JOHN: Object to form.

BY MR. EARLE:

Q -- correct? Let me rephrase that.

Account -- not accounting for intentional disconnection or intentional adding of other stuff onto the external hard drive, if there was a

Page 17

malfunction between the external hard drive and the computer in terms of scheduled backup functions, you received no such calls; correct?

A Oh, not that I'm aware of.

Q Okay. Okay. Now, if -- if a backup was interrupted because it was -- the external hard drive was disconnected and therefore could not back up the computer on the schedule and then was subsequently reconnected, would the backup that occurred subsequent to the reconnection cover material that had not been previously backed up?

A Kind of. So the way that something like that would presumably work is that you have your computer, and then you have your external hard drive. And the -- you would not back up the entire contents of your computer to the external hard drive. Ideally, you probably would have just a particular folder of things that -- your work product that you were interested in backing up.

So what it would probably be -- probably be the case is that this folder, anything you put in that folder, once a night, you know, if that's what it was set to, would be then copied here.

So if the -- if that was working, you know, for weeks and then there was a disconnection

Page 18

and then a re -- for, say, a week, and say you changed -- you changed -- you made plans, put things in there, took things out, when you went to, you know, reconnect it and then the backup ran again, it would just kind of take a snapshot of what was ever available in the folder that you were backing up.

Q At the point of the backup?

A At the point of the backup, like a Polaroid.

Q Got you. Okay.

Now, it's possible that the end user could disconnect that external hard drive and download other documents directly onto the external hard drive; correct?

A Can you -- would you ask that one more time?

MR. EARLE: Read the question.

(Record was read back as requested.)

Now, it's possible that the end user could disconnect that external hard drive and download other documents directly onto the external hard drive; correct?

A While the hard drive is connected, you could just move -- you could copy a file from your computer to the hard drive. You wouldn't specifically disconnect it. However, you could disconnect it and then reconnect it and then write to it. But -- yeah.

Page 19

Q Could you disconnect the external hard drive, take it somewhere else, download material onto the external hard drive, and then reconnect it?

A Yes.

Q Okay. And is it possible that the material on the external hard drive that had been added to it, would that stay in the external hard drive and not be backed up onto the -- would that be reflected on the hard drive itself of the computer that it was connected to?

A To the best of my knowledge, there should not have been a mechanism intentionally put in place that would copy data from the external hard drive and put it onto the computer itself.

Q Okay. So if there were something on an external hard drive that was not on the computer itself, there might be at least two possible explanations for that: One being that material had been deleted from the hard drive itself, and the other being that material could have been added onto the external hard drive and not the computer itself; is that correct?

MR. KEENAN: Object to form.

MR. ST. JOHN: Object to form. And object, speculation.

Go ahead and answer, if you can.

Page 20

A Well, the question seemed to be complicated. I think what you asked is if the contents of the external hard drive didn't reflect -- didn't match with the content here --

Q "Here" meaning the computer or hard drive itself?

A The computer or hard drive itself -- how could something like that happen?

Q That's a better question. I'll withdraw the prior question. We'll go with that one.

A Something -- I mean, a person could just put a file on here, on the external hard drive, because the -- it wasn't just for backups. They could put things on there just to store them because these files are really big.

Or they -- if they were, in fact, which I feel like it had to be the case, that the external hard drive was only backing up from a limited location on the computer, that the -- that target folder, that the content there was just changed over time. You know what I mean?

Like if you have a downloads folder and your downloads folder is backing up every single night to the external hard drive on your computer, you may decide at some point that you don't want "Chrome install" anymore and delete that, in which

Page 21

case then they're different.

Q Okay. We'll get into that in more detail. I just want to understand.

I see that you brought some documents back in.

MR. EARLE: We can go off the record.

(A discussion is held off the record.)

(Exhibit No. 50 was marked for identification.)

MR. ST. JOHN: If you want to refer to this exhibit by page number, there are numbers on the lower right-hand corner, Peter.

BY MR. EARLE:

Q I see that they're Bates stamped -- Exhibit 50 is Bates stamped 1 through 38; is that correct?

A Yes.

Q Okay. All right.

Now, you have just tendered the documents that you brought with you to this deposition; correct?

A I did.

Q Would you describe what the documents are?

A Yes. There's a number of them here. Some of them are multiple pages as one document.

Q Okay.

A Should I go through them one-by-one?

Page 22

Q Yes, please.
A The first document, starting on page 1, is configuration item -- basically a document from our asset management system that has some information about a physical piece of hardware for hard drive HDD32575, and that consists of 5 pages, 1 through 5.
Q And that is the hard drive that was assigned to Tad Ottman; correct?
A Yes.
Q Okay. So the WRK number for that is WRK32587; correct?
A Yes.
Q Okay.
A All right. That's --
Q Continue.
A -- Document 1.
Q What does it -- what does this document tell you?
A Oh, I'm sorry. Okay. This document right here, it talks about the -- I guess the life cycle of a particular asset. And so this particular asset is an external hard drive, and it tells us when we purchased it. On page 3, it says "purchase date, December 18 '09." And this -- we bought these -- there may be another exhibit --
Q And we don't need to repeat the testimony that you

Page 23

provided -- your prior testimony about how this particular hard drive -- external hard drive was deployed because you covered that in your prior testimony; correct?
A Okay. So just focus on --
Q Right.
A Okay. Sorry. All right.
So basically, yeah, this hard drive had been assigned to Tad Ottman. And then I -- the records I see on here that are why I brought this document today is because I see that on page 1 it says "Version: Packed and ready to shred on 12/9/13." And then down towards the bottom on remark, it says "For GIS redistricting project, Ottman, Tad, shredded 5/21."
Q That's 5/21 of what year?
A 2015.
Q 2015. Were there any specific events that led to this being shredded on 5/21/15?
A Yes.
Q Could you describe what those events were?
A So the -- the standard protocol for LTSB in the life cycle of computer equipment is when we purchase it, we prepare it, we deploy it; once it's done being used and it will not be used in any other way, then

Page 24

we decommission it.
We are not allowed to sell -- the legislature is not allowed to sell, like, to an asset recovery service. What we have to do is we have to take the computers and give them to UW SWAP, and then they sell it; and then that money, you know, goes back to the budget fund.
But instead of spending a lot of time, because it would take a lot of time to shred -- to wipe -- instead of sending the hard drives -- instead of wiping hard drives and sending the hard drives, I made the decision years ago to shred every hard drive, like literally send it through a metal grinding machine and shred it. That way, I know that none of the data that was on those hard drives are going to end up at a school or in Brazil or -- from anyone who bought it from SWAP.
So as a standard protocol, we do that. When a machine is done, we disassemble it, insofar as we take the hard drives out and then we have the shell. And then what we do is we have a bin that we put the hard drives in, and we have a bigger bin that we put the computer shells in.
And then periodically when they fill up, one of them, the bin that goes -- we call up SWAP and

Page 25

say, "Hey. Come here and pick this up, please." They come, they take all the stuff away.
The hard drives, we wait for that to fill up enough, and really we --
Q You're talking about the bin to fill up enough?
A Yeah, the bin to fill up with hard drives that are to be destroyed.
And so in this particular case, as I see from this document and from my recollection, we determined, you know, that these could be decommissioned in December of 2013 and then started taking the steps to decommission this -- this particular hard drive and the other one -- or, this hard drive and computer associated with Tad Ottman and the other external hard drive and computer assigned to Tad Ottman -- do you want me to read the numbers or no?
Q Sure.
A Okay. The hard drive was HDD32579. That's the external hard drive that was the second computer that was assigned to Tad Ottman. And then the computer itself was WRK32864.
Q Thank you for that. I want to understand that a little better, then.
So the HDD number refers to the external

Page 26

hard drive that's attached to the computer itself, which is referred to by the WRK number; is that correct?

A Correct. The "HD" is "hard drive." "Hard disk drive" is probably why there's two Ds. And the "WRK" stands for "work station."

Q Okay. So -- okay. So when we talk about the Tad Ottman computer, WRK32587, we would refer to the external hard drive attached to that computer as HDD3257?

A 75.

Q 75. Right. Yeah. I'm sorry.

A 575. Yeah. Sorry.

Q I'll reread it.

A There's a lot of numbers. I'm sorry.

Q HD32575; correct?

A HDD32575.

Q Good. Okay. Yes.

And the policy for shredding that you just described, that preexisted the redistricting litigation; correct?

A Yes.

Q That's been in place for a long time?

A Yes. I can't remember the exact date that was put into place, but it's been a standard protocol for a

Page 27

number of -- many years. Before this started.

Q Okay. Okay.

A In fact, the -- if I may just add, the legislature periodically replaces desktop computers and laptop computers. And we -- at the end of 2014 and the very beginning of 2015, we did a laptop replacement project.

And so since we knew we were going to do that, we knew that we were going to end up with, you know, 180, 200, you know, however many hard drives from that project because we take the laptop back -- take a laptop, put it here, take the hard drive out, put it here. We tell SWAP to come pick up the laptops at some point.

We waited for the entire project to complete -- the entire laptop replacement project to complete before making a visit to the Cascade -- you know, the company -- there's a document in here that describes this -- Cascade Asset Management to do the shredding.

So in that case, it wasn't like a bin filled up specifically, but we knew that there was going to be a big project with a lot of hard drives, and we waited until that project was complete to complete.

Page 28

And then I'm sure we'll get to this, but then we shredded -- according to this document, which is Exhibit 50, page 22, there's a certificate of destruction/notice of recycling activity that describes what -- basically what we did on 5/21 of 2015.

My staff member Christopher took these hard drives, 232 hard drives listed on page 23, 232 hard drives, and had them shredded through a process called "witnessed shredding," which means my staff member, as in per instruction, watches them -- from the moment he leaves the LTSB, he doesn't stop anywhere on the way to the place, goes to the place, and while he's at the place, he watches them and watches them go through the grinder.

And they go through this grinder, and then he gets to look at this pile of metal fragments, and then they give us a certificate telling us that such a thing happened.

Q So on page 22, which computer is this attached to?

A On page 22, which computer is this attached to?

Q Yeah. Which computer is referenced as having been destroyed on page 22?

A Well, this would have been a lot of computers. This would have been a lot of computers. The

Page 29

redistricting hard drives for these computers that we're talking about today were part of this.

Q Okay. Where in Exhibit 50 is the document that -- if there is one, that would indicate that Tad Ottman's WRK32587 computer hard drive and external hard drive HDD32575 were included in that batch?

A It's in here. It will take me just a moment to find it.

All right. On Exhibit 50, there's a document on page 12, which is upside down, and on page 11 that I added some notes to. So there's a document -- it's an Excel file -- page 12. It's an Excel file. I copied the Excel file and then I opened it up and I added notes to it for my own reference here. That -- those notes really replicate Exhibit 49 in terms of which computer was assigned to whom.

And so what this document here, 12, represents is my hardware inventory manager Chris noting which hard drives were -- from the redistricting project were going to be part of the trip to Cascade to have them shredded.

You'll -- if you count these things, you'll know there's more on here because some of them are on here more than once. So, for example, Tad's

Page 30

machine was WRK32587. You know, it's on here twice because there were two hard drives.

Q I'm sorry. Start -- do that one again.

A On -- so on this list here, there's -- halfway down, it says 3258 -- or, WRK32587, and then below it, it says WRK32587. That would be representative of the two hard drives.

Q That were in there?

A That were in that original computer. Because there were, if you remember --

Q Right.

A -- there were two hard drives per thing because they were, you know, redundant. And so, for example, below that, WRK32586 and WRK32586 are the ones that were assigned to Adam.

I don't know exactly why, but if you go to the bottom of the list, you can see that it says WRK32587 again. I don't know why he put the name on there again.

But we also have on here HDD32575, and that is towards the top. It's the fourth one. HDD32575. It says "senate republican," and then that one does appear again down on the list, HDD32575.

So some of them were on the list more than once. In the case, you know, of the WRK32587, it's

Page 31

because there's two hard drives in there.

And then you can see from looking at this list that HDD32574, the external hard drive assigned to Adam Foltz, was part of this batch. The computer itself, WRK32586, is part of that batch. And then also the hard drive HDD32579, the second external hard drive assigned to Tad Ottman, was part of this batch, as well as the hard drives for WRK32864, the second redistricting computer assigned to Tad Ottman.

So this step was taken just because there was a little more of a sensitive nature to these hard drives. Perhaps anticipation of me meeting with you today. I don't know.

But just because everyone knew that there was a sensitive nature to these things, you know. So we just, before taking them to get them shredded, he recorded this here.

Q Okay. Who is Michael Keene?

A Oh, Michael Keene is a fellow at the -- who works at the legislative reference bureau who also had a redistricting computer deployed to him during the redistricting process as part of the bill drafting process. And so we, you know, shredded his hard drive and I guess noted that, as well.

Q Okay. And was there a similar process to -- used for

Page 32

the hard drives that were deployed -- the two hard drives -- the -- would have been six hard drives that were deployed to the democrats?

A Oh, no. Because those machines have not been decommissioned.

Q The democrat machines have not been decommissioned?

A Correct.

Q Okay. Where are they?

A Is that -- okay.

As far as I know, they're both deployed to the -- each of the -- to -- one is deployed to a senate democrat, one is deployed to an assembly democrat.

Q Okay.

A I could -- I did not prepare a bunch of knowledge on those items because they weren't in here. I just know that they have not been decommissioned.

And I would say that, to the best of my memory right now, the senate democrat one is in Senator Miller's office, probably sitting on the floor somewhere collecting dust, and the other one is very likely either in Representative Kessler's office or at LTSB. But they were not decommissioned.

Q Okay. What was the mechanism by which the decision to decommission these hard drives, the republican

Page 33

hard drives, made?

A I will look through Exhibit 5 -- 50 and find the document that describes that. I think you can go to page 38, the last page.

So what I have here on Exhibit 50, page 38, is an e-mail. It's really two parts. There's an e-mail that I sent to Tad Ottman on December 5th of 2013. And shall I read the --

Q Yes, please.

A It says -- the subject is "computer decommission." And I say, "Good afternoon, Tad. Please confirm my understanding of your recent request. On Friday, 11/15/2013, you informed me that the litigation hold on the redistricting computers assigned to Senator Fitzgerald's office has been released. You also authorized LTSB to decommission the computers and related external hard drives. Once I receive confirmation from you, I will proceed. Thank you."

And then -- that was sent on December 5th. The top part of page 38 is Tad's response, and that was sent the same day, just about half hour later, and he said, "That is my understanding of the issue (as explained in the attached e-mail from Cindy Buchko.) You can proceed with decommissioning of the computer." And then there's an attachment of an

Page 34

e-mail from Cindy Buchko, which is in here.
Q Where is that?
MR. ST. JOHN: The attachment is not part of the records. We have a privilege log that explains what the document is.
The document is a -- the attachment contains e-mails between Attorney Buchko; Attorney Pyper; Jeff is on the first e-mail in the string, but it's a string e-mail; Tad is on the e-mail, Tad Ottman; Adam Foltz is on the e-mails.
The subject matter in the e-mails is -- the e-mails are titled "final order," and the conversation in the e-mails relates to responsibilities that people have to preserve records.
MR. EARLE: Okay. So that's a communication of counsel to the legislature -- outside counsel to the legislature to Ottman and Foltz?
MR. ST. JOHN: Correct. To legislative employees, all of whom were being represented by Whyte Hirschboeck at the time, and as well as LTSB.
MR. EARLE: Okay.
MR. ST. JOHN: There are no other -- the privilege log will list all individuals who are on

Page 35

those communications.
(Exhibit No. 51 was marked for identification.)
MR. EARLE: Exhibit 51 has been marked. This is the privilege log? This is the document you were just referring to, Kevin; is that correct?
MR. ST. JOHN: That is correct.
MR. EARLE: Okay. Thank you.
BY MR. EARLE:
Q Okay. Drawing your attention to page 16. You there? Can you explain what that is?
A Page 16 of Exhibit 50?
Q Yes.
A An e-mail. The first e-mail in this chain is an e-mail from me to Chris, my inventory manager and -- dated July 20, 2015. And basically -- I'll read the e-mail.
Computer -- the subject is "computers to SWAP." "Chris, the next time you send equipment to UW SWAP, please send WRK32586 and WRK32587. The hard drives have already been taken care of, and these shells are old and barely functional. Please be sure to remove the asset tags and any other labels that we applied. Thank you." And then Chris responded right away and said, "Thanks, Jeff."
And basically this document demonstrates

Page 36

that the computer shells for 86 and 87 -- well, the computers themselves, but not the hard drives -- we already talked about the hard drives -- were eventually -- were sent to SWAP.
Q And that means you were given -- they were turned over to UW, that process you described earlier?
A Correct. The process we have to go through instead of an asset recovery sort of process.
Q Focusing on -- let me find myself here. Hold on a second.
Your prior Exhibit No. 5, I forgot what exhibit number that is here, which we marked earlier --
A Oh. This is 50.
Q Yeah. Exhibit -- Exhibit 5 has not been marked.
(Exhibit No. 52 was marked for identification.)
MR. EARLE:
Q Showing you what's been marked as Exhibit No. 51, I believe --
THE REPORTER: 52.
Q -- 52, which was Exhibit 5 in your prior deposition.
A Okay.
Q Which is a -- has some subpoenas on the top of it. But further in, it contains documents similar to those you've produced here today; correct?

Page 37

A I would like to take a moment to just look at it.
Q Sure.
A I think you asked me if Exhibit 52 is some documents that are similar to --
Q Similar. Yes.
A -- the ones I brought before. The answer is yes.
Q Okay. And Exhibit -- Exhibit 52 includes work orders and configuration documents as of the date of your prior deposition; correct?
A Yes.
Q Okay. And drawing your attention to four pages from the back of Exhibit 52. There's a work order ID 29, 180. Do you see it there?
A 29, 180. Yes.
Q Okay. Is there a copy of that in the material you brought here today?
A No. I don't believe -- no. I don't believe I brought any work orders. I did not bring any work orders today.
Q Okay. Okay. I know it's been a long time. Do you want to take a moment to review that real quickly?
A Review this particular work order?
Q Yeah. Sure.
A Okay.
I have read that work order.

Page 38

Q Okay. I guess the question I have is this work order describes a request from Tad Ottman to replace two -- or swap out two computers that he was using as of January 28th of 2013; correct?
A Yes.
Q And the two computers that are -- that he wants to swap out, the old ones were WRK32587, which Tad was using, and WRK 32864 from the conference room of that senate office, along with two corresponding hard drives, HDD32575, HDD32579; correct?
A Correct.
Q Okay. And those were the redistricting computers that had been assigned to Tad Ottman; correct?
A Correct.
Q Okay. And the external hard drives that had been assigned to Tad Ottman; correct?
A Correct.
Q Okay. And so those hard drives were then -- then came into the custody of LTSB and they were replaced with new computers; correct?
A Yes.
Q Okay. The question I have is were the contents of the computers that were removed downloaded onto the new computers that were swapped in?
A Very unlikely. I would say the answer is no because

Page 39

we prepared the computers, and then it seems like we went over there, dropped off the computers, and then took back the other computers and then put them in a cage.
The process of copying, if we were copying data from something to something else, would take time and coordination, and I think that would have been recorded in here.
So as far as I can tell -- and it -- we just gave them two new computers and then took back these computers and then we put them in the cage.
Q Okay. And it's your testimony that had data and material -- documents on the old computers been downloaded onto the new computers, that would have been recorded in the work order?
A If that had happened during this process, then it should have been recorded in the work order.
Q Okay. Okay.
MR. EARLE: Let's take a short break. I have to assemble a set of documents here.
(A recess is taken from 2:37 p.m. to 2:46 p.m.)
MR. EARLE: Back on the record.
MR. ST. JOHN: Are these to be marked? Do you want these marked?
MR. EARLE: So this is going to be marked.

Page 40

I'm sorry. That's your copy.
(Exhibit No. 53 was marked for identification.)
BY MR. EARLE:
Q Showing you what's been marked as Exhibit No. 53.
Mr. Ylvisaker, I will represent to you, as you're aware, the hard drives were imaged by Mark Lanterman. You knew that as of the last deposition; correct?
A Correct.
Q Okay. And you made the hard drives available so that Mark Lanterman could image them, and all of that is covered in your prior deposition; correct?
A Correct.
Q Okay. And we won't go through that.
What you have before you is a spread -- two spreadsheets that are identical, as far as I can tell, created by Mark Lanterman reflecting the two hard drives in WRK32586, and these are -- which is the Adam Foltz computer; correct?
A WRK32586, responsive spreadsheets, yes, that is the computer that was assigned to Adam Foltz.
Q That's correct. And there were two hard drives in that computer; correct?
A Correct.
Q Therefore, you have -- at the bottom, you'll see it

Page 41

says 004WRK32586, and there's a subsequent spreadsheet behind that one that's 005, the same WRK number, reflecting both hard drives?
A I see that.
Q Okay. So what I understand -- what I understand and I'll represent to you is that this represents Mark Lanterman's extraction of spreadsheets from that computer. And just listing the files that correspond to the criteria of files that have extensions of XLSX or XLSM or -- I think that's -- that's it. Do you see that there?
A I see that.
Q Okay. And now the -- if you look at the -- on the first page of the exhibit that's marked, okay, about halfway down, you'll see that there is a spreadsheet that's called "PlanComparisons.xlsm."
A I see that.
Q And this is a spreadsheet that was created on May 9, 2011, at 5:59 p.m.; do you see that?
A I see that it's -- that number is in the column called "created." Yes.
Q Okay. And if you go to the next page of that exhibit --
MR. POLAND: Actually, I think it says 5:39, doesn't it?

Page 42

MR. EARLE: 5:39. I'm sorry. What did I say?
MR. POLAND: You said 5:59.
MR. EARLE: I'm sorry. 5:39. Thank you.
BY MR. EARLE:
Q And the -- and then if you go to the second page, page 3 of the same exhibit, if you go down to the same location on that page where it says "PlanComparisons.xlsm," you can see that it was accessed, according to Mark Lanterman, on 7 -- I mean, 4/27/2012, at 4:50 p.m. You there?
A I see that.
Q And if we go to page 5, we can see that PlanComparisons.xlsm was modified on 4/27/2012 at 4:50 p.m.; do you see that?
A I see that.
Q If we go to page 7, we can see that PlanComparisons.xlsm had a file path that was /users/afoltz/desktop/projects/PlanComparisons.xlsm; do you see that?
A That's on page 7?
Q Yes. Right in the middle.
A I see that.
Q Go to page 9. PlanComparisons.xlsm consisted of 95.88 kilobytes?

Page 43

A I see that.
Q It was authored by A. Foltz; correct?
A I see that.
Q And it was last saved by A. Foltz; correct?
A I see that.
Q Okay. Keep going. If you go to the same location on page 11, we can see that PlanComparisons.xlsm was office created -- has an office created date of 5/2/11 at 6:13 p.m. Do you see that?
A I see that.
Q And if you go to page 13, we can see that PlanComparisons.xlsm has an office last printed date of 4/23/2012 at 12:12 p.m.; correct?
A I see that.
Q And if we go to page 15, we see that PlanComparisons.xlsm has an office last saved date of April 27, 2012, at 4:50 p.m.; correct?
A I see that.
Q And then if we go to the reference document, I will represent to you that PlanComparisons.xlsm is attached to that exhibit.
Give you a clip there so you can keep it together after you're done.
Can you open that spreadsheet up. I have some questions about that.

Page 44

A There appears to be more than one --
Q Yes.
A -- thing here; right?
Q Yes. And I will represent to you that the pages you have before you represent the entirety of the file that corresponds to that file path.
A That's what you're telling me.
Q Yes. And I know you can't verify that at this point, but I want you to assume that fact, okay.
If you look at the first page of that, at the top is a spreadsheet that says "Milwaukee_Gaddie_4_16_11_ V1_ B." All right. Do you see that there?
A I see that.
Q And I'll represent to you that this exhibit, this document, was the subject of a deposition two days ago with Keith Gaddie, okay, and -- who is -- who is a consultant to the legislature.
At the second page of the -- is captioned, at the top, "Statewide2_Milwaukee_Gaddie_4_16_11_V1_B," and the third page is "final map," with the assembly districts listed in chronological order 1 through 99; do you see that?
A I see that.

Page 45

Q Fourth page is "final map" with the assembly districts listed in rank order of republican concentration; I'll represent that to you.
A Okay.
Q Okay. Now, I guess my question has to do with the last page. The last page of this document is captioned "Kessler map."
A I see that.
Q Okay. Now, I want to ask you are you aware of any circumstance under which Adam Foltz, using the computer assigned to him, WRK32586, could have acquired a copy of a document captioned "Kessler maps"?
A Could you ask the question one more time? I'm sorry.
(Record was read back as requested.)
Now, I want to ask you are you aware of any circumstance under which Adam Foltz, using the computer assigned to him, WRK32586, could have acquired a copy of a document captioned "Kessler maps".
A I'm not.
Q Okay. Could Adam Foltz, using the network system that the legislature has that you describe in your deposition of April 29, 2013, have accessed the computer assigned to Fred Kessler?

Page 46

MR. ST. JOHN: Objection. Speculation. Go ahead. Answer the question.
BY MR. EARLE:
Q I'll refine the question. I'll restate it.
A Okay.
Q Keeping in mind your knowledge of how the legislature's computer networks work and the ability of a person signing onto one computer to access information on other computers within the legislature that you described in some detail on April 29th, 2013, is it -- is it possible using those procedures and those computer networks that you have created for a user such as Adam Foltz to access the content of a computer used by a -- by Fred Kessler?
A It should not be possible unless a person knew the other person's credentials. I mean, thus then signed on as the person. But the permissions should not allow person A to access person B's computer by the design and continual efforts of LTSB to maintain a -- the work environment. So it should not be possible.
Q And in your deposition on April 29th, 2013, you describe in some detail how the security of these computers is maintained; correct?
A You're referring to the deposition I had on 4/29 --
Q Yeah.

Page 47

A I describe some of the detail of it. Yes.
Q And, you know -- and I draw your attention to page 105 through 107 where you discuss the -- the security related to computer access. Do you want to review that very quickly?
I mean, I draw -- I would draw your attention specifically to page 105, line 21, where you're testifying that as a hypothetical, you -- you use Jared Bender, one of your staff people, as a hypothetical to illustrate your point.
You said, "Now, if someone else, Jared Bender, were to come over and log onto my computer with his credentials, then what will -- what it will do, it will create a world for him. If he tries to access my data, he will not be able to because it's locked down. So even though we both can log onto the computer, my data on the local computer is locked away from Jared."
Did I read that correctly?
A Yes. You're reading that correctly.
Q Okay. And that's your understanding of how those computers work; correct?
A Yes.
Q And that's the reason why using the network provided through the LTSB, Adam Foltz could not have logged

Page 48

onto a computer assigned to Fred Kessler and accessed the data on that computer; correct?
A Should not be able to.
Q Unless he had Fred Kessler's credentials?
MR. ST. JOHN: Objection. Foundation.
BY MR. EARLE:
Q Correct?
A If a person had someone else's credentials, then they can do what they can do. And, I mean, there's room for things that we don't know, you know.
Q Right.
A As technology professionals, it's -- you know, things are possible that we don't know.
Q That's correct. And I'm not asking you to speculate. I'm just trying --
MR. ST. JOHN: Peter, if I could, just for one second. This whole line of questioning has been about speculation. We are two hours into the -- from the beginning of this deposition time period. These questions have nothing to do with the topics of the deposition.
I would appreciate it if we could get through the topics from the deposition and not ask the witness to engage in hypothetical what-ifs that LTSB is not on notice for, nor would appear to serve

Page 49

any purpose.
MR. EARLE: Okay. And we're going to get through this very quickly.
BY MR. EARLE:
Q So the universe of possible avenues for a document that may have come from Fred Kessler's computer or data that may have come from Fred Kessler's computer would be to -- using the credentials of the other person, Fred Kessler, accessing the computer directly; correct? That's one possibility --
A Yes.
Q -- that you just described?
A If you have someone else's credentials, you could access the computer directly.
Q Or Fred Kessler could give Ottman permission and provide the data to him; correct?
A You said Ottman, but I think you meant --
Q I mean -- right. Adam Foltz. So Fred Kessler could have simply provided the data to Adam Foltz. That's a possibility; correct?
A Yes.
Q Can you think of any other -- another possibility could be that the LTSB somehow set up a pathway, and we've established that that's not possible; correct?
A It's theoretically possible, but no one should do

Page 50

that ever.
Q Okay.
A I mean, as a theoretical possibility, you know, sure, it's a possibility.
Q Okay.
A But I would be very surprised if something like that were to happen because everyone who works at LTSB understands their role very well.
Q And the likelihood of that is near -- nearly impossible; correct?
A Correct. Very near zero.
Q Very near zero. Okay. All right. Okay. Pause for a moment.
(A recess is taken from 3:02 to 3:08 p.m.)
(Exhibit No. 54 was marked for identification.)
BY MR. EARLE:
Q All right. Showing you what's been marked as Exhibit No. 54. I understand you've never seen these documents before, but I want to ask you some questions similar to the last set I asked you about Exhibit 53.
If you look at -- I will represent to you this represents a printout of a spreadsheet created by Mark Lanterman that consists of 12 -- consists of 13 -- 12 pages of spreadsheets with XLS or XLSX or

Page 51

XLSM file extensions that were on the external hard drive for Adam Foltz associated with computer WRK32586.
And that -- if you want to just kind of mark with a red pencil here, if you will, on the exhibit itself to make it easier for you, ID No. 4. Okay.
A (Witness complies.)
Q Which has a file name of C/users/afotlz/desktop/workspace/Kessler/Kessler_map_data/asm.xls. And then 15, number 15, which is -- I'll just read the last part of it. It's /Kessler/passone_key.xls. And if you look at number 30, the last denominations on the file path are Kessler/ASM_jobs.XLS. 34 is kessler/asm.xls, and on the second -- on the second page on number 41, it's -- the -- it's /redistricting/Kessler_plan, and then a series of numbers, _final.xls. Do you see those there?
A I do.
Q Yep. And I'll represent to you that the documents that would correspond to each of those are attached to the exhibit and are labeled at the bottom.
I want to ask you a series of questions as to is it possible for this material to appear on the external hard drive of Adam Foltz through the three

Page 52

mechanisms that we discussed earlier? Adam Foltz accessing Fred Kessler's computer directly, your answer would be the same as you answered before when I asked you --
MR. ST. JOHN: Object. Form.
BY MR. EARLE:
Q -- in the context of the prior exhibit?
MR. ST. JOHN: Objection. Form.
BY MR. EARLE:
Q I'll withdraw that question.
Is it possible for Adam Foltz, without having Fred Kessler's credentials, to access files on his computer of this nature?
MR. ST. JOHN: Objection. Form.
THE WITNESS: I don't know what that means. Does that mean I can still answer?
BY MR. EARLE:
Q You can answer. He just thinks my question is not worded right.
A I think it's theoretically possible. I mean -- could you please reask the question again.
(Record was read back as requested.)
Is it possible for Adam Foltz, without having Fred Kessler's credentials, to access files on his computer of this nature?

Page 53

A I would say that our system is designed specifically not to allow something like this, but I can't say with absolute certainty that a person couldn't figure something out.
Q Is it possible for the LTSB to have provided a pathway for Adam Foltz to obtain that information from Fred Kessler's computer?
A Again, theoretically possible, but very, very, very, very, very unlikely.
Q Just about zero percent possibly; correct?
A Yes.
Q Okay. It's possible that Fred Kessler could have provided this information to Adam Foltz; correct?
A Yes.
Q Can you think of any other way that Adam Foltz could have gotten this information with your knowledge of how these computers are set up?
MR. ST. JOHN: Objection.
BY MR. EARLE:
Q Using his computer?
MR. ST. JOHN: Objection. Form.
Objection. Foundation.
MR. KEENAN: Join in the objections.
A First, I'm not even sure what that information is, you know what I mean. So at the moment, it's just a

Page 54

name, but, I mean, nothing is certain, so I couldn't make any absolute statements.
BY MR. EARLE:
Q But no procedure using the systems in place set up by the LTSB that you are aware of would allow for this to occur outside of the --
MR. ST. JOHN: Objection. Form.
BY MR. EARLE:
Q -- possibilities we discussed earlier?
MR. ST. JOHN: Objection. Form.
Objection. Foundation.
A Making sure I don't have any double negatives in there, but our -- the legislature's system should not allow people to access each other's data.
Q Okay.
MR. EARLE: Let's take a quick break here.
(A recess is taken from 3:14 p.m. to 3:19 p.m.)
(Exhibit No. 55 was marked for identification.)
BY MR. EARLE:
Q Showing you what's been marked as Exhibit No. 55. This is a similar spreadsheet for the -- for the spreadsheets with the file extensions of XLS and XLM, XLSM for the Ottman computer, which is WRK32587.
And it's just a short question. If you turn to page 19 --

Page 55

A I'm on page 19.
Q Okay. And hold on a second. If you look down the page, three down, there's a file that's called "assembly base." It's repeated multiple times. But of the versions has a file path, which is the third one down, /users/tottman.WISLEG/Dropbox. And there's a whole series of Dropbox files on here.
And the question I have is are these computers that are issued by the legislature set up so that a user, an end user, can store material on Dropbox and pull it down onto their computer?
A Yes. I would say nowadays any computer could move a -- move a file back and forth because you can do that through the Web browser. And so a person could log onto Dropbox on any Internet connected -- or, log you know, onto the Internet on an Internet connected device, go to a Web browser, and then you could pull something from your Dropbox or put something on your Dropbox.
Q So in that kind of a circumstance, an end user could store files in Dropbox, work on them on their computer, and never have them actually on the computer itself?
A That gets a little bit more complicated because it seems that you would have to -- they'd have to come

Page 56

down to the computer in order to work on them on the computer. And then, you know -- could you ask the question again?
(Record was read back as requested.)
So in that kind of a circumstance, an end user could store files in Dropbox, work on them on their computer, and never have them actually on the computer itself?
A Well, I think when you say "work on them on the computer," then the document is on the computer.
Q Well, if you've accessed the document through the Internet in Dropbox, you don't actually have to download it onto the computer itself, do they?
A I think it depends on the file -- the application that you're using. So, for example, maybe -- and I'm not 100 percent sure right now -- but maybe something like Microsoft Word or Outlook, Excel, could reside locally on your computer, and then you could open up a file on Dropbox and it stays on Dropbox.
But when it comes to some other programs, like a program like Auto Bound or some mapping software, it seems like it might be different. I would have to study that to find out the real answer.
But it seems like the data has to at least leave Dropbox, the data has to come down to the

Page 57

computer, and the question is does the application write it locally ever, just use it in memory, and then write it back to Dropbox? I guess, now that I've talked myself through this, it's hard to answer that question.
Q Okay.
A You'd have to know the particular program.
Q Okay. Last question I have is the -- I think it was one of the topics, the fourth topic, perhaps.
Did you do any forensic imaging of any of these issues -- these computers that we've been discussing here today after your last deposition?
A No.
Q Okay.
MR. EARLE: Do you have anything else?
(A discussion is held off the record.)
BY MR. EARLE:
Q When you looked for documents responsive to the subpoena, did you look for documents in the Dropbox files that Ottman and Foltz had?
A When I looked for documents responsive to this thing today, did I look in the Dropbox locations for Tad and --
Q Yeah.
A No.

Page 58

Q When you did the same thing on -- for the April 29th, 2013, deposition, did you look in the Dropbox associated with Tad Ottman?
A No.
MR. EARLE: We're done.
MR. KEENAN: I just have a few questions.
E X A M I N A T I O N
BY MR. KEENAN:
Q And we've met before, but I'm Brian Keenan. I represent the defendants in this case.
Do you know whether Adam Foltz and Tad Ottman used Dropbox on the computers that we've been talking about today?
A I -- this -- today is the very first time I have heard the word "Dropbox" used in this context.
Q So you don't know whether they actually used Dropbox?
A I don't know if they did or not.
Q You don't know whether, if they used the Dropbox program, whether there would have been a -- whether they would have needed to download a program from Dropbox such that it would also stay on the computer's hard drive?
A You mean download Dropbox?
Q Mr. Earle was asking questions about whether, if going through Dropbox, a copy would stay at the

Page 59

Dropbox site or be downloaded on the computer.
A Of a particular work product, would the work product stay in the Dropbox or come onto the computer?
Q Yes. There was those set of questions. And you don't know whether that was the case, if Adam or Tad used Dropbox, so you don't know what would have happened, whether those files would have stayed on Dropbox or --
A Correct. I don't know what would have happened.
Q Who is Tony Van Der Wielen?
A Tony Van Der Wielen is the team manager for the geographic information system's team at LTSB.
Q Can you explain what that team is?
A Oh, yes. The GIS team is the geographic -- the team that handles the geographic data for the legislature. So we make maps for them and prepare, like, postal route information or standardized mailing addresses. We publish maps on our website.
One of the other things that that team does is it works with the US Census Bureau, you know, throughout the decade. But the legislature, and Tony in particular, has been designated in years past, the -- I think the term is "redistricting data liaison" or the "US" -- it's probably better to say that -- I think the actual term would be the "US

Page 60

Census Bureau data liaison," which, once the census occurs, then the census bureau processes its data for a year and then they give it to the states and then the states use that for redistricting.
Tony Van Der Wielen is the point of contact for the state of Wisconsin. And then we -- him and his team would also be the team that's responsible for working with the -- each caucus and going through a process of determining what redistricting software the legislature should use and then building the redistricting computers; that is, actually installing, you know, picking them out, designing them. "I want two hard drives," "I want an external hard drive," "I want this kind of graphics card," and then, you know, get those machines, install the necessary software, and then on an ongoing basis provide technical support to those machines.
Q All right. So he is involved on behalf of LTSB in working with the legislature on the redistricting process?
A Yes.
Q Okay. And if -- I'm looking at Exhibit 54, and I'm on -- if you look at the bottom, it's page 7 of 12.
A Page 7 of 12.

Page 61

Q And sometimes it says "Van Der Wielen, Tony;" do you see that in, like, lines 25 and 26?
A I see that.
Q Okay. So would it be your understanding that's referring to Mr. Van Der Wielen that we've been talking about?
A Yes.
Q And I also see some references to TB -- capital T, large V, capital V, and then small A-N-D-E-R-W. What's your understanding of who that would refer to?
A I believe that this -- Tony J. Van Der Wielen and T. Van Der W. are references in this document to Tony Van Der Wielen of my staff.
Q Okay.
MR. KEENAN: That's all the questions I have.
MR. POLAND: Kevin, do you have anything?
MR. ST. JOHN: I don't have any questions. You're done.
Well, unless you guys have any -- no. We're done. Thank you.
(Proceedings concluded at 3:29 p.m.)

AO 88A (Rev. 02/14) Subpoena to Testify at a Deposition in a Civil Action

UNITED STATES DISTRICT COURT

for the

Western District of Wisconsin

WILLIAM WHITFORD, et al.

Plaintiff

v.

GERALD NICHOL, et al.

Defendant

Civil Action No. 14-CV-421-bbc

SUBPOENA TO TESTIFY AT A DEPOSITION IN A CIVIL ACTION

To: Wisconsin Legislative Technology Services Bureau, 17 W. Main St., #200, Madison, WI 53703

(Name of person to whom this subpoena is directed)

☑ *Testimony:* **YOU ARE COMMANDED** to appear at the time, date, and place set forth below to testify at a deposition to be taken in this civil action. If you are an organization, you must designate one or more officers, directors, or managing agents, or designate other persons who consent to testify on your behalf about the following matters, or those set forth in an attachment:

See Exhibit A attached. The deposition will be taken pursuant to Fed. R. Civ. P., Rule 30(b)(6).

Place: Law Office of Peter Earle, LLC 839 N. Jefferson St., Suite 300 Milwaukee, WI 53202	Date and Time: March 2, 2016 at 11:30 AM.

The deposition will be recorded by this method: Stenographic and audiovisual.

☑ *Production:* You, or your representatives, must also bring with you to the deposition the following documents, electronically stored information, or objects, and must permit inspection, copying, testing, or sampling of the material:

The following provisions of Fed. R. Civ. P. 45 are attached – Rule 45(c), relating to the place of compliance; Rule 45(d), relating to your protection as a person subject to a subpoena; and Rule 45(e) and (g), relating to your duty to respond to this subpoena and the potential consequences of not doing so.

Date: 2/12/2016

Additional information regarding attempted service, etc.:

Federal Rule of Civil Procedure 45 (c), (d), (e), and (g) (Effective 12/1/13)

(c) Place of Compliance.

(1) ***For a Trial, Hearing, or Deposition.*** A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

(A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or

(B) within the state where the person resides, is employed, or regularly transacts business in person, if the person

(i) is a party or a party's officer; or

(ii) is commanded to attend a trial and would not incur substantial expense.

(2) ***For Other Discovery.*** A subpoena may command:

(A) production of documents, electronically stored information, or tangible things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and

(B) inspection of premises at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) ***Avoiding Undue Burden or Expense; Sanctions.*** A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction—which may include lost earnings and reasonable attorney's fees—on a party or attorney who fails to comply.

(2) ***Command to Produce Materials or Permit Inspection.***

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing, or sampling any or all of the materials or to inspecting the premises—or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

(i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.

(ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) ***Quashing or Modifying a Subpoena.***

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

(i) fails to allow a reasonable time to comply;

(ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);

(iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

(iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

(i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

(i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and

(ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) ***Producing Documents or Electronically Stored Information.*** These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) ***Claiming Privilege or Protection.***

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

(i) expressly make the claim; and

(ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

(g) Contempt.

The court for the district where compliance is required—and also, after a motion is transferred, the issuing court—may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

For access to subpoena materials, see Fed. R. Civ. P. 45(a) Committee Note (2013).

EXHIBIT A

DEFINITIONS

In the topics listed below, the following terms shall have the meaning as specified:

1. "Redistricting computers" shall refer to the three computers issued by the Legislative Technology Services Bureau and used to develop the legislative district maps in the 2011 redistricting process in Wisconsin. This includes all hard drives and storage devices at any time connected, internally or externally, to the central processing units of the redistricting computers.

TOPICS

Pursuant to the provisions of Rule 30(b)(6) of the Federal Rules of Civil Procedure, the Wisconsin Legislative Technology Services Bureau (LTSB) is required to designate one or more persons who consent to testify on its behalf about all information known or reasonably available to the LTSB regarding the matters set forth in the Topics listed below:

1). All metadata related to the original spread sheets of which PDF copies were marked as Exhibit 111 and Exhibit 112 during the deposition of Adam Foltz on February 1, 2012, copies of which are attached hereto and incorporated herein by reference, including, but not limited to metadata identifying the author, the date of creation, the author of any modifications, and the dates of any modifications.

2). Electronic copies of the original spread sheets in native format of which PDF copies were marked as Exhibit 111 and Exhibit 112 during the deposition of Adam Foltz on February 1, 2012, copies of which are attached hereto and incorporated herein by reference.

3). All efforts taken to preserve data and records related to the redistricting process that resulted in the passage of 2011 Act 43 on the redistricting computers between March 13, 2013 and March 2, 2016.

4). Any forensic or other analysis conducted on the redistricting computers between March 13, 2013 and March 2, 2016.

Dear Eric and Dan: Attached please find a preservation letter and a copy of the verified complaint that had been previously filed on behalf of my clients, Voces de la Frontera and Christine Neumann-Ortiz, with the Dane County District Attorney regarding violations of Article IV, sec. 10 of the Wisconsin Constitution and the Wisconsin Open Meetings Statute. The letter is to put each of you, your respective law firms, and your clients on notice of the need to preserve relevant evidence which is described in further detail in the letter given the likelihood of litigation in the near future. It is my intent to be sure that each of you are on fair notice to preserve all potential evidence in your possession, custody and control as well as that in the possession, custody and control of your clients. Please do not hesitate to contact me about the scope of the likely issues that will be in dispute in the anticipated litigation. Thank you for your attention to this matter. Peter Earle

Re: NOTICE OF PRESERVATION DEMAND

Dear Eric & Dan:

Please consider this letter to be a notice of my client's preservation demand as detailed below on your clients, specifically, the Wisconsin State Senate and Assembly by Scott L. Fitzgerald and Jeff Fitzgerald, respectively, as well as Scott L. Fitzgerald, Jeff Fitzgerald, their respective legislative staff members, including but not limited to Tad Ottman, and Adam Foltz, the 58 members of the Wisconsin State Assembly who signed secrecy agreements with the law firm of Michael Best & Friedrich between March 31, 2011 and June 2, 2011, the 17 members of the Wisconsin State Senate, who signed secrecy agreements with the law firm of Michael Best & Friedrich between April 6, 2011, and May 10, 2011, the legislative staff of each of the aforementioned legislators, and any other person who is employed by any of the foregoing persons or have been retained by any of the foregoing persons or the law firm of Michael Best & Friedrich in connection with the redistricting process that led to the adoption of act 43, including but not limited to Joseph Handrick, James Troupis, and Sara Troupis.

As you are aware, my clients, Voces de la Frontera and Christine Neumann-Ortiz filed a verified complaint with the District Attorney for Dane County on February 5, 2012, alleging violations of Article IV, §10 of the Wisconsin Constitution and the Wisconsin Open Meetings Statute, §§19.96 and 19.97, et seq, Wis. Stats. A copy of the verified complaint is attached and the contents are incorporated herein for purposes of the adequacy of this preservation demand. As it is likely that the subject matter alleged in the attached verified complaint will result in litigation this letter serves to put you and your clients on notice that you and they are under a duty to preserve all potentially relevant data, documents, electronically stored information (ESI), and other evidence under your respective possession, custody and control, including, but not limited to all computer hard drives, e-mail systems (both public and private), data storage devices, files, and specifically the hard drives and back up storage devices for the computers used by Tadd Ottman, Adam Foltz, and Joseph Handrick while working on the redistricting process leading to the adoption of Act 43 at Michael, Best & Friedrich. Thank you for your attention to this matter.

Sincerely,

Peter Earle

VERIFIED COMPLAINT OF VOCES DE LA FRONTERA AND CHRISTINE NEUMANN ORTIZ ALLEGING VIOLATIONS OF ARTICLE IV, § 10 OF THE WISCONSIN CONSTITUTION AND THE OPEN MEETINGS STATUTE, §§ 19.96 AND 19.97, WIS.STATS.

NOW COME the complainants, Voces de la Frontera, Inc., and Christine Neumann Ortiz, and as and for a verified complaint pursuant to Wis. Stat. §§ 19.81, et. seq., Wis. Stats., allege violations of Article IV, § 10 of the Wisconsin Constitution and the Open Meetings Law as follows:

1. That Voces de la Frontera, Inc., is a membership based organization that seeks to advance the civil rights, electoral participation and economic conditions of Wisconsin's Latino community. In light of these objectives, Voces de la Frontera filed an action on October 31, 2011, seeking to enforce the protections afforded by the Voting Rights Act of 1965, §2, to its members, as well as to the larger Latino community and all citizens in general alleging that the legislative redistricting plan adopted by the Legislature of the State of Wisconsin on July 20, 2011, and signed by the Governor on August 9, 2011, unlawfully deprives the Latino community of Milwaukee's near south side of an effective voting majority in any of the newly created assembly districts despite the fact that the Latino community is sufficiently numerous and geographically compact to allow for at least one assembly district with an effective voting majority. See *Voces de la Frontera, Inc., et al v. Michael Brennan, et al*, Case No 11-C-1011, U.S. District Court for the Eastern District of Wisconsin. As a result of deposition testimony and documents uncovered in the course of discovery in said case, Voces de la Frontera, Inc., has become aware of egregiously unlawful conduct by Scott Fitzgerald and Jeff Fitzgerald and the other individuals identified below and said unlawful conduct being subject to the exclusive enforcement procedures delineated in §19.97, Wis. Stats., the undersigned complainants

file this verified complaint. Voces de la Frontera is a not for profit corporation organized under the laws of the State of Wisconsin with its principal place of business at 1027 South 5th Street, Milwaukee, Wisconsin.

2. Christine Neumann Ortiz is an adult resident of the State of Wisconsin and is the Executive Director of Voces de la Frontera.
3. This verified complaint is made by Christine Neumann Ortiz on behalf of and in her official capacity as Executive Director of Voces de la Frontera, Inc., as well as in her individual capacity as an adult resident of the State of Wisconsin.
4. Jeff Fitzgerald is the presiding officer of the Wisconsin Assembly, said entity being a governmental body within the meaning of §§ 19.82(1) and 19.87, and his principal office is located at Room 211 West, State Capitol, Madison, Wisconsin.
5. Adam Foltz is a legislative aide to Jeff Fitzgerald and was assigned to work on the legislative redistricting process under the supervision and direction of Attorney Eric McLeod at the law offices of Michael, Best & Friedrich, LLP, One South Pinckney Street, Suite 700, Madison, Wisconsin, 54703
6. Scott Fitzgerald is the presiding officer of the Wisconsin Senate, said entity being a governmental body within the meaning of §§ 19.82(1) and 19.87, and his principal office is located at Room 211 South, State Capitol, Madison, Wisconsin.
7. Tad Ottman is a legislative aide to Scott Fitzgerald and was assigned to work on the legislative redistricting process under the supervision and direction of Attorney Eric McLeod at the law offices of Michael, Best & Friedrich, LLP, One South Pinckney Street, Suite 700, Madison, Wisconsin, 54703

8. Eric M. McLeod is an attorney and partner with the law firm of Michael, Best & Friedrich, LLP, (MBF) with an office at One South Pinckney Street, Suite 700, Madison, Wisconsin, 54703. Mr. McLeod and MBF were hired by Scott Fitzgerald to serve as attorney for the Wisconsin State Senate and by Jeff Fitzgerald to serve as attorney for the Wisconsin State Assembly in connection with matters relating to the reapportionment of the Wisconsin state legislative districts arising out of the 2010 census. Mr. McLeod was retained to represent the entire legislature as an entity at taxpayer expense. In fulfillment of this task, Mr. McLeod supervised and directed the daily work of Adam Foltz and Tad Ottman in the course of planning, drafting, negotiating, and gaining the favorable vote commitments of a majority of legislators sufficient to obtain passage of Act 43. Mr. McLeod assigned office space within the law office of Michael Best & Friedrich, LLP, which was occupied by Adam Foltz and Tad Ottman and provided desks, computer equipment, telephones, and staff support. Said office space was ten feet away from the office of Mr. McLeod. Jeff Fitzgerald and Scott Fitzgerald contracted with Mr. McLeod for the express purpose of cloaking the entire redistricting process behind a veil of secrecy within the law office of Michael, Best & Friedrich, LLP., and under a bogus assertion of attorney client privilege and attorney work product protection. Attached to this verified complaint and incorporated by reference as if fully set forth herein is Exhibit A, the Declaration of Eric M. McLeod filed with the US District Court in connection with the litigation reference in paragraph one above. Also attached to this verified complaint and incorporated by reference as if fully set forth herein are transcripts of the depositions of Adam Foltz taken in said litigation on December 21, 2011, and on

February 1, 2012, and of Tadd Ottman also taken in said litigation on December 22, 2011, and on February 2, 2012.

9. Under the direction and supervision of Mr. McLeod, Tad Ottman met with 17 Republican members of the Wisconsin State Senate and asked that each senator sign a secrecy agreement captioned "Confidentiality and Nondisclosure Related to Reapportionment." The secrecy agreement indicated that McLeod had "instructed" Mr. Ottman to meet with certain members of the Senate to discuss the reapportionment process and that said conversations were to be considered subject to the attorney client and attorney work product privileges. Each of the 17 senators signed the secrecy agreements between April 6, 2011, and May 10, 2011, and each thereby agreed not to disclose the fact and/or contents of the discussions or any draft documents within their possession related to reapportionment. The individual meetings occurred at Mr. Ottman's office at Michael, Best and Friedrich. Attached to this verified complaint as Attachment C are true and accurate copies of the 17 secrecy agreements signed by the Republican senators.

10. Under the direction and supervision of Mr. McLeod, Adam Foltz met with 58 Republican members of the Wisconsin State Assembly and asked that each representative sign a secrecy agreement captioned "Confidentiality and Nondisclosure Related to Reapportionment." The secrecy agreement indicated that McLeod had "instructed" Mr. Foltz to meet with certain members of the Assembly to discuss the reapportionment process and that said conversations were to be considered subject to the attorney client and attorney work product privileges. Each of the 58 representatives signed the secrecy agreements between March 31, 2011 and June 2, 2011, and each thereby agreed not to

disclose the fact and/or contents of the discussions or any draft documents within their possession related to reapportionment. The individual meetings occurred at Mr. Foltz's office at Michael, Best and Friedrich. Attached to this verified complaint as Attachment D are true and accurate copies of the 58 secrecy agreements signed by the Republican representatives.

11. On June 19, 2011, Adam Foltz sent a memorandum to each of the 58 Republican representatives who had signed a secrecy agreement with a map and description of their reapportioned district, including a comparison of vote totals under the old district and under the new district for Scott Walker in 2010 , JB Van Hollen in 2010 and 2006, John McCain in 208 and George Bush in 2004. The memorandum was marked "privileged and confidential" and was subject to the secrecy agreement. True and accurate copies of the e-mails and maps are attached to this verified complaint as Attachments E.

12. On June 20, 2011, Adam Foltz drafted a document captioned "General Talking Points" which he described during his sworn deposition testimony on February 1, 2012, as talking points to guide the discussion at each of the individual meetings he had with each member of the Assembly who had previously signed a secrecy agreement. The talking points memo stated that the redistricting bill was a "placeholder map" and that "if the Senate comes back in the majority, we ***may*** come back and adjust." Mr. Foltz testified at his deposition that the preceding sentence was referring to the then pending recall elections that were scheduled for August 9, 2011. The talking points memo also stated that "***Public comments on this map may be different than what you hear in this room. Ignore the public comments***." The talking points memo then explicitly stated that the previously signed secrecy agreement applied to the individual meeting between Mr. Foltz

and each individual Republican representative. Mr. Foltz testified that he met individually with each Republican representative at Michael Best & Friedrich between June 20, 2012, and July 7, 2012. The purpose of each individual meeting was to obtain the agreement of each Republican representative to vote in support of Act 43. A copy of the "General Talking Points" document is attached to this verified complaint as Attachment B.

13. Tad Ottman conducted similar individual meetings with each senator who had previously signed a secrecy agreement with the intent to obtain the agreement of each Republican senator to vote in support of Act 43.

14. That as a direct result of the secrecy agreements entered into amongst the Republican members of the legislature, the legislative process concerning the legislative reapportionment was conducted in secret and out of the public view and the view of other legislators at the private law offices of Michael, Best & Friedrich, LLP. As facilitated by Mr. McLeod, a secret agreement was achieved amongst a majority of legislators to vote in favor of Act 43. The individual secret meetings at the law office of Michael Best, & Friedrich described in paragraphs 12 and 13 constituted a walking quorum in violation of the Open meetings Law and Article IV, § 10 of the Wisconsin Constitution.

15. The manifest purpose of Article IV, § 10, of the Wisconsin Constitution is to prevent state legislative business from being conducted in secret except in extremely limited circumstances, none of which would apply to this case. See *State v. Fitzgerald*, 2011 WI 43, ¶¶ 13, 51, 67, 334 Wis.2d 70, 78, 91, 95 (2011).

16. The public policy behind the Wisconsin Open Meetings Law as stated in § 19.81, Wis. Stats., is as follows:

> "In recognition of the fact that a representative government of the American type is dependent upon an informed electorate, it is declared to be the policy of this state that the public is entitled to the fullest and most complete information regarding the affairs of government as is compatible with the conduct of government business,"
>
> "To implement and insure the public policy herein expressed, all meetings of all state and local governmental bodies shall be publically held in places reasonably accessible to members of the public and shall be open to all citizens at all times unless otherwise expressly provided by law."
>
> "In conformance with article IV, section 10, of the constitution, which states that the doors of each house shall remain open, except when the public welfare requires secrecy, ***it is declared to be the intent of the legislature to comply to the fullest extent with this subchapter.***"

17. In *State v. Fitzgerald*, 2011 WI 43, ¶¶ 13, 51, 67, 334 Wis.2d 70, 78, 91, 95 (2011), the Wisconsin Supreme Court limited judicial review of legislative compliance with the Open Meetings Law to cases such as this in which the conduct of the legislature also violates Article IV, § 10 of the Wisconsin Constitution.

18. The secret agreement to plan, negotiate and vote for Act 43 was achieved through a walking quorum of individual secret meetings described in paragraphs eight through fourteen above, and as a result produced a predetermined outcome, thus rendering the publicly held meetings a mere formality. See *State ex rel Lynch v. Conta*, 71 Wis.2d 662, 687 (1976); *State ex rel Newspapers v. Showers*, 135 Wis.2d 77, 92 (1987).

19. The secret agreement to plan, negotiate and vote for Act 43 was achieved through a walking quorum of individual secret meetings described in paragraphs eight through fourteen above, did not constitute a partisan caucus within the meaning of § 19.87(3), Wis. Stats., because the secret agreements and secret meetings were directed, coordinated, and supervised by Eric McLeod, who was paid by the taxpayers and was

operating as private outside counsel representing the entire Wisconsin State Senate and Assembly.

20. All the conduct of Jeff Fitzgerald, Scott Fitzgerald, the other legislators who signed secrecy agreements and participated in secret meetings which were facilitated, coordinated and supervised by Eric McLeod, and Adam Foltz, and Tad Ottman described in paragraphs eight through nineteen above was knowing conduct within the meaning of §19.96, Wis. Stats., and as such is subject to the forfeitures described in said subchapter.

21. The blatant egregiousness of the intentional effort by Scott Fitzgerald and Jeff Fitzgerald to hide from the public the true nature of the secret redistricting process under the guise of a bogus cloak of attorney client privilege and through the individual secrecy agreements between each individual Republican legislator and the attorney hired on the pretext of representing the entire legislature at the expense of all the taxpayers of the state is so repugnant to the public policy of the State of Wisconsin as expressed in Article IV, § 10 of the Wisconsin Constitution and in §19.81, Wis. Stats, that the public interest in enforcing the state constitution and the Open Meetings Law far outweighs any interest in maintaining the validity of Act 43. Accordingly, the overwhelming interest of the taxpayers and voters of the State of Wisconsin support invalidation of Act 43 pursuant to §19.97(3), Wis. Stats.

22. This verified complaint is made to the District Attorney of Dane County, Wisconsin under §§ 19.97(1), (2), and (3), Wis. Stats., which authorize the district attorney of the county in which the violation takes place to file an action to recover the forfeiture provided in Wis. Stat. Sec. 19.96, Wis. Stats., and to void the action taken in violation of the statute and the state constitution.

WHEREFORE, the complainants pray that the District Attorney for Dane County, Wisconsin, timely institute an action against the Government Accountability Board to enjoin the implementation of Act 43 on the grounds that said statute is void on the grounds that it was enacted in violation of Article IV, § 10 of the Wisconsin Constitution and the applicable provisions of the Open Meetings Law and further institute an action for statutory forfeitures against Scott Fitzgerald, Jeff Fitzgerald and each legislator who knowingly entered into secret agreements with Attorney Michael McLeod to secretly plan, negotiate, and ultimately votefor the adoption of Act 43 upon the next occurrence of a lawful opportunity to initiate such an action in light of the provisions of Article IV, § 15, of the Wisconsin Constitution.

To: Sewell, Christopher <Christopher.Sewell@legis.wisconsin.gov>
Subject: Computers to Swap

Chris,

The next time you send equipment to UW Swap, please send WRK32586 and WRK32587. The hard drives have already been taken care of and these shells are old and barely functional.

Please be sure to remove the asset tags and any other labels that we applied.

Thank you,

Jeff Ylvisaker

Cascade Asset Management, LLC certifies that the electronic equipment received from the customer's United States location(s)* and as described above is being processed in compliance with federal, state and local regulations and in accordance with the e-Stewards Standard for Responsible Recycling. As a Certified e-Stewards Recycler, Cascade is annually audited to ensure conformance to the requirements of the e-Stewards Standard, which demands reuse of only tested and working equipment, demanufacture of equipment in safe and healthy work conditions, full traceability of the final recovery of each material to ensure its proper recycling so that no hazardous waste ends up in developing countries, and no use of prison labor. (Please reference www.cascade-assets.com/about/e-stewardscert.html for valid Certification and more details).

Additionally, all data are being destroyed through electronically wiping the device or physically destroying the device in compliance with privacy protection programs, such as HIPAA and other customer requirements. Any personal or corporate identification markers on equipment are destroyed. "Media Security" refers to how media are to be processed for destruction. "Standard" refers to a one-pass NIST compliant wipe attempt on reusable media, "3-Pass" refers to a three-pass DoD 5220.22-M compliant overwrite attempt on reusable media, and "Destroy DSD" refers to no reuse of media. If media cannot be successfully sanitized through data overwrite, they are shredded and destroyed by Cascade.

Please see "Terms & Conditions" in your Master Service Agreement (if applicable) or at www.cacade-assets.com/terms for additional warranties and protections afforded to you by Cascade as a provider of this IT Asset Disposition Service. *Equipment collected outside the United States is processed according to the terms established directly between Cascade and the customer.

Ylvisaker, Jeff

From: Ottman, Tad
Sent: Thursday, December 5, 2013 4:38 PM
To: Ylvisaker, Jeff
Subject: RE: Computer Decommission

That is my understanding of the issue (as explained in the attached email from Cindy Buchko.)

You can proceed with decommissioning the computer.

RE: Final Order

From: Ylvisaker, Jeff
Sent: Thursday, December 05, 2013 4:11 PM
To: Ottman, Tad
Subject: Computer Decommission

Good Afternoon Tad,

Please confirm my understanding of your recent request.

On Friday, 11/15/2013, you informed me that the litigation hold on the redistricting computers assigned to Senator Fitzgerald's office has been released. You also authorized LTSB to decommission the computers and related external hard drives.

Once receive confirmation from you, I will proceed.

Thank you,

Jeff Ylvisaker
Director
Legislative Technology Services Bureau
