Redistricting Plans in Florida

- Committee staff has revised the redistricting plans that were published on November 10 and workshopped the week of November 15.
- In revising the plans, staff followed the instruction from the select subcommittee, and looked for improvements and consistency in the application of the various trade-offs presented in the maps.
- Impacts of the revisions are mainly to the utilization of political and geographic boundaries, with some improvements in visual compactness and cities kept whole.
- Districts retained the same numbers from the original maps.
