**LEGISLATIVE DEFENDANTS’ RESPONSE TO
PLAINTIFFS’ “SUPPLEMENTAL REPLY BRIEF CONCERNING THEIR FIRST
AND SECOND MOTIONS TO COMPEL”**

INTRODUCTION

Plaintiffs’ filing¹ at 6:30 pm Friday, April 26, 2019, stoops to a new low.

Plaintiffs use electronic files from a dead man’s computer (obtained from his estranged out-of-state daughter through a subpoena to her local lawyer) which Plaintiffs have thus far refused to produce without filtering to smear the leadership of the North Carolina legislature. Specifically, they pass off unauthenticated and possibly attorney-client privileged expert witness work product of the late Dr. Hofeller as legislative work towards the 2017 Plans. And despite spending the last few weeks reviewing these files instead of producing them to the other parties, Plaintiffs make their baseless assumptions *without providing even a scintilla of evidence that the Legislative Defendants were aware of any of the files*. Despite Plaintiffs’ best effort, the intended smear falls flat. Instead, their baseless attack demonstrates why Legislative Defendants’ approach to their

¹ Legislative Defendants note that this filing was not authorized by the court. While styled as a “reply” to the Plaintiffs’ first and second motions to compel, that is false as those motions are no longer pending.

supplemental document production is the right approach and why Plaintiffs' unreasonable demands should be rejected by the court.

I. The Premise of Plaintiffs' Smear is Unsupported.

The premise of Plaintiffs' smear is that the unauthenticated and possibly attorney-client privileged files on the alleged computer of Dr. Hofeller were authorized by Legislative Defendants, or that Legislative Defendants had knowledge of them. There is no evidence either is true. Dr. Hofeller was a nationally acclaimed mapdrawer who worked in dozens of states including North Carolina. There is no reason not to think Dr. Hofeller worked on concepts for districts in many of the states he worked for even when he was not retained to do so. Despite being given access to apparently all of Dr. Hofeller's personal files by his estranged daughter², Plaintiffs did not provide one single file indicating that the Legislative Defendants authorized or were aware of any of the maps or charts Plaintiffs highlighted. Thus, nothing in the materials is inconsistent with Legislative Defendants' assertions that they did not begin drawing the 2017 Plans until July 2017.

The maps included in Plaintiffs' filing itself appear to disprove Plaintiffs' theory. For instance, the map on the left hand side of page 4 appears to be of districts in the western part of the State, districts that were not changed in 2017. Moreover, the maps on page 5 of districts in Wake and Mecklenburg counties do not even resemble the districts ultimately enacted. The map

² Plaintiffs' smear is all the more inappropriate when one considers the fact that any Google search would reveal the strained relationship between Dr. Hofeller and his daughter. One article, available at https://www.wvgazette.com/news/cops_and_courts/mother-takes-toddler-from-legal-guardians/article_710d1828-e0e0-5c7b-966e-c1e979575060.html, recounts a serious custody issue between Dr. Hofeller and his daughter regarding Dr. Hofeller's grandchild. Somehow after his death, Dr. Hofeller's daughter apparently came into possession of his computer and Plaintiffs then subpoenaed his daughter through a local lawyer. Plaintiffs do not offer the court any assurances that the information on Dr. Hofeller's alleged computer is authentic or that it was not tampered with prior to its production to Plaintiffs. Plaintiffs also do not offer any assurance or facts to show that these items were legally obtained by Dr. Hofeller's daughter nor do they establish a chain of custody.

on page 6 also does not resemble the enacted districts, and despite Plaintiffs' insinuation about Rep. Lewis' district, that district is not shown in its entirety.

The search results obtained by Legislative Defendants as explained in their response to Plaintiffs' "supplemental brief" also undermines Plaintiffs' claims. Using the expansive search terms over the two-year period advocated by Plaintiffs yielded over 33,000 documents, the vast majority of which appear to be unrelated to this case. Legislative Defendants thus recommended applying the search term "Hofeller" to those 33,000 documents to identify possibly truly responsive documents. Plaintiffs allege that the files they highlight in their "reply" came from Dr. Hofeller. Obviously, if such files were included in any of the 39 individual custodian email accounts Legislative Defendants searched, then they would have come from Dr. Hofeller. Searching "Hofeller" would be the most likely way to determine if any of these files had been requested or received by the Legislative Defendants. However, when Legislative Defendants ran the term "Hofeller" against the 33,000 documents, there were only 334 non-privileged hits, and none of those hits produced any of the files, or anything close to any of the files, highlighted by Plaintiffs.

II. The Files Reviewed by Plaintiffs May Be Privileged Expert Witness Materials.

Many of the files in Plaintiffs' brief may also have an innocuous but damaging explanation for Plaintiffs—they may be protected expert witness files produced by Dr. Hofeller in his expert work for the defendants in *Covington v. NC*. In August 2016, the *Covington* court issued its merits decision finding certain districts unconstitutional. That ruling kicked off a series of filings regarding the remedy and whether a special election should be ordered. (*Covington*, Civil Action No. 1:15-cv399, Docs. 124, 128, 129, 132, 136, 137, 140) (M.D.N.C.)).

During the litigation over the remedy, Dr. Hofeller was retained to provide a declaration regarding the significant changes to districts that would be required. To that end, on October 31, 2016, Dr. Hofeller submitted a declaration to the *Covington* court detailing the substantial changes that would need to be made to the legislative plans in any redraw, including significant changes to the county groupings. (*Covington* Doc. 137-1, attached as Exhibit A). Obviously, Dr. Hofeller had been working on this declaration for some time before it was filed. His work on that declaration was protected by the attorney-client and expert work product privileges. Many of the files highlighted by Plaintiffs in their brief obviously pertain to this work by Dr. Hofeller. This raises numerous grave issues.

First, rather than supporting Plaintiffs' baseless attacks, many of the files in Plaintiffs' brief are likely protected work product created by Dr. Hofeller as part of his expert witness duties in the *Covington* case. Based on the filings in *Covington*, Dr. Hofeller was asked to determine the new county groupings that would be required for any redraw, including what specific districts would need to be redrawn. It is not surprising, then, that the personal files Plaintiffs obtained from his estranged daughter would include files related to the county groupings and districts within those new county groupings. Rather than demonstrating that the legislature was engaged in redistricting in 2016, these files simply show that the legislature, through its retained expert, was defending itself during the *Covington* case.

Next, and even more concerning, is that Plaintiffs have reviewed Dr. Hofeller's personal files without any apparent regard to whether they were purloined privileged documents. Plaintiffs have steadfastly refused to provide the entirety of Ms. Hofeller's productions to the parties, despite Legislative Defendants' request.³ Had Plaintiffs' produced these files to Legislative Defendants,

³ Plaintiffs' claim that they have offered to provide files to Legislative Defendants is a ruse. They have only offered to provide filtered files. But that is the basis of Legislative Defendants' objection in the first

then Legislative Defendants could have reviewed the files for anything obviously privileged and notified Plaintiffs. Instead, Plaintiffs have reviewed the files, and produced some of them in a public filing, without any inquiry as to their possible privileged nature. Given the work Dr. Hofeller was performing as an expert in late 2016 as described above, it is very likely that Plaintiffs have violated the attorney-client and work product privilege of the Legislative Defendants.

The court should direct Plaintiffs to immediately produce the entirety of Dr. Hofeller's files to Legislative Defendants and admonish Plaintiffs from further filing of documents that may be privileged without first consulting with Legislative Defendants. Plaintiffs' cavalier use of Dr. Hofeller's files to attack the Legislative Defendants is inappropriate and should be rejected.

III. The Files Demonstrate the Legitimacy of Legislative Defendants' Search.

As explained by Legislative Defendants in their response to Plaintiffs' supplemental brief, Legislative Defendants, in trying to compromise with Plaintiffs, ran expansive search terms against Plaintiffs' proposed expansive date range of August 2016 through November 2018. That search returned over 33,000 documents, and Legislative Defendants' testing of that data demonstrates that the vast majority of those documents are nonresponsive and have nothing to do with this case.

Normally in cases of this nature, the parties will negotiate new search terms or a new date range to discern terms and dates that are most likely to produce responsive data. Contrary to Plaintiffs' brief, *this* is how "civil litigation works." The parties work cooperatively to find search terms and date ranges that will produce responsive information without undue burden to either party. Plaintiffs in this case obstinately refuse to cooperate as litigants normally cooperate. They insist that Legislative Defendants perform a futile and wasteful review of 33,000 likely nonresponsive documents.

place. There is no telling what files have been filtered out, including any exculpatory files. Plaintiffs should be compelled to comply with Rule 45(d1) and produce the files as required by the rule.

However, Plaintiffs' smear tactic demonstrates the wisdom of Legislative Defendants' approach. Using the expansive search terms over the two-year period advocated by Plaintiffs yielded over 33,000 documents, the vast majority of which are likely nonresponsive. Legislative Defendants thus recommended applying the search term "Hofeller" to those 33,000 documents to identify possibly truly responsive documents. Plaintiffs allege that the files they highlight in their "reply" came from Dr. Hofeller. Obviously, if such files were included in any of the 39 individual custodian email accounts Legislative Defendants searched, then they would have come from Dr. Hofeller. Searching "Hofeller" would be the most likely way to determine if any of these files had been requested or received by the Legislative Defendants. Legislative Defendants remain willing to use other targeted search terms to find responsive documents. It would appear that Plaintiffs are in the best position to know what targeted search terms to use given their possession of the personal files of Dr. Hofeller obtained from his estranged daughter. The court should direct Plaintiffs to cooperate with Legislative Defendants in compromising on search terms to yield likely responsive documents.

Respectfully submitted this the 29th day of April, 2019.

CORRECTED DECLARATION OF THOMAS B. HOFELLER, PH.D.
(October 31, 2016)

Thomas Brooks Hofeller, under penalty of perjury, declares the following:

1. I am a recognized expert in the fields of districting and reapportionment in the United States. I have been retained, as an independent consultant, through counsel by Intervenor-Defendants to provide expert testimony in this case. My hourly rate is \$300 per hour.

QUALIFICATIONS

2. I set forth here a summary of my experience that is most relevant to this testimony. The full range of my professional qualifications and experience is included in my resume, which is attached as Appendix 1.

3. I am a Partner in Geographic Strategies, LLC, located in Columbia, South Carolina. Geographic Strategies provides redistricting services including database construction, strategic political and legal planning in preparation for actual line drawing, support services and training on the use of geographic information systems (GIS) used in redistricting, analysis of

plan drafts, and actual line-drawing when requested. The corporation and its principals also provide litigation support.

4. I hold a Ph.D. from Claremont Graduate University, where my major fields of study were American political philosophy, urban studies and American politics. I hold a B.A. from Claremont McKenna College with a major in political science.

5. I have been involved in the redistricting process for over 46 years, and have played a major role in the development of computerized redistricting systems, having first supervised the construction of such a system for the California State Assembly in 1970-71.

6. I have been active in the redistricting process leading up to and following each decennial census since 1970. I have been intimately involved with the construction of databases combining demographic data received from the United States Census Bureau with election information which is used to determine the probable success of parties and minorities in proposed and newly enacted districts. Most of my experience has been related to congressional and legislative districts, but I have also had the opportunity to analyze municipal and county-level districts.

7. I served for a year and one half as Staff Director for the U. S. House Subcommittee on the Census in 1998-99.

8. I was Staff Director of the Subcommittee when the Census Bureau was proposing to substitute the American Community Survey (ACS) for the use of the decennial long form questionnaire in the 2000 and previous decennial Censuses. The long form was not used in the 2010 Decennial Census.

9. I have drafted and analyzed plans in most states including, but not limited to, California, Nevada, Arizona, New Mexico, Colorado, Texas, Oklahoma, Kansas, Missouri,

Minnesota, Wisconsin, Illinois, Indiana, Ohio, Arkansas, Mississippi, Louisiana, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, New York, New Jersey and Massachusetts.

10. In this decennial round of redistricting, I have already been intensely involved in Texas, Alabama, North Carolina, Virginia and Massachusetts. As much of my consulting activities involve work in states subject to the provisions of Section 5 of the Voting Rights Act. I am very familiar with the data used to analyze the expected performance of redrawn and newly created minority districts. Although I am not an attorney, I regularly advise clients about the characteristics of minority districts in their plans, and whether or not they are meeting the requirements of both Sections 2 and 5 of the Voting Rights Act.

11. I have given testimony as an expert witness in a number of important redistricting cases including, but not limited to, Gingles v. Edmisten, 590 F. Supp. 345 (N.D.N.C. 1984), *aff'd in part and rev'd in part* Thornburg v. Gingles 478 U.S. 30 (1986); State of Mississippi v. United States, 490 F. Supp. 569 (D.C.D.C. 1979); Shaw v. Hunt, 92-202-CIV-5-BR, U.S. District Court for the Eastern District of North Carolina, Raleigh Division (1993-4); Ketchum v. Byrne, 740 F.2d 1398, *cert. denied* City Council of Chicago v. Ketchum, 471 U.S. 1135 (1985), *on remand*, Ketchum v. City of Chicago 630 F. Supp. 551 (N.D. Ill. 1985); and Arizonans for Fair Representation v. Symington, CIV 92-0256, U.S. District Court Arizona (1992), *aff'd mem. sub nom.* Arizona Community Forum v. Symington, 506 U.S. 969 (1992), David Harris v. Patrick McCrory, Civil Action No. 1:13 CV-00949 (United States District Court, Middle District of North Carolina Durham Division 2013), North Carolina State Conference of the NAACP v. Patrick Lloyd McCrory, 1:13 CV-658 (United States District Court, Middle District of North

Carolina 2013) and *Sandra Little Covington v. State of North Carolina* 1:15-CV-00399 (United States District Court, Middle District of North Carolina 2016),

12. I have done considerable work regarding compactness as a criterion in redistricting maps, including but not limited to a work I coauthored in *The Journal of Politics*, “Measuring Compactness and the Role of a Compactness Standard in a Test for Partisan and Racial Gerrymandering.” *Id.*, Vol. 52, No. 4 (Nov., 1990), pp. 1155-1181 (with Richard G. Niemi, Bernard Grofman, and Carl Carlucci).

13. In that work, my co-authors and I discussed the advantages and limitations of various measures of compactness as well as differing definitions. As we stated in the article, “disputes about compactness will be numerous... there are those who would dismiss it outright as well as those who believe in it passionately.” We further noted that “whatever turns out to be its utility as a districting standard, we hope that we have sufficiently clarified the concept so as to stimulate more rational, enlightened discussion of its merits and faults as well as further study of its supposed effects.”

14. Both prior and subsequent to my co-authorship of the *Journal of Politics* article, I have regularly advised state legislatures and others regarding the concept of compactness and regarding the compactness of specific districts and districting plans.

DATA AND SOFTWARE

15. Census Data used in this report comes from the United States Bureau of the Census’ 2010 Redistricting Data File and the 2010 Decennial Census TIGER File, both released following the 2010 Decennial Census. No data containing election results or voter registration was used to prepare this report.

16. All the information I used has been incorporated into a geographic information system called “Maptitude for Redistricting”, a product which is offered by Caliper Corporation, based in Newton, Massachusetts. The maps included in this report have all been produced using Maptitude, and tables were produced using census and election data extracted from Maptitude and reformatted using Microsoft Excel. Other reports, such as compactness reports and core constituency reports were also produced using Maptitude.

OBJECTIVES OF DECLARATION

17. I have been asked by Defendants to compare the Whole County Groups (WCGs) used to draft the current legislative districts for North Carolina, known as the “Rucho Senate 2” Plan, enacted as Session Law 2011-402 on July 27th, 2011 (2011 Enacted Senate Plan), and “Lewis-Dollar-Dockham 4” Plan (Lewis-Dollar-Dockham 3, as amended), enacted as Session Law 2011-404 on July 28th, 2011 (2011 Enacted House Plan), with the Optimal¹ WCGs mandated by the North Carolina Supreme Court’s *Stephenson* decisions handed down prior to this redistricting cycle. These would be the Optimal WCGs used for any new General Assembly plans drafted subsequent to the Court’s 2016 decision in the *Covington* case. This analysis will identify the 2011 Enacted Plan’s WCGs for both the North Carolina House and Senate which will be replaced with new Optimum WCGs, along with the districts which will require redrafting as a result of such a switch. Furthermore, this analysis will also identify districts in WCGs which will remain the same but will require redrafting because these WCGs contain districts which the court has judged to be illegal. In summary, 35 out of 50, or 75 percent of the Senate

¹ The term “Optimal”, used in reference to WCGs, refers to the grouping of counties determined by strict application of the North Carolina Supreme Court’s order on how whole counties must be grouped together for purposes of legislative redistricting in conformance with the *Stephenson* decision, without modifications in order to comply with the requirements for construction of majority-minority districts in compliance with the U. S. Supreme Court’s order in *Bartlett v. Strickland*.

districts must be redrafted and 81 out of 120, or 67.5 percent, of the House districts must be redrafted.

NORTH CAROLINA'S LEGISLATIVE REDISTRICTING RULES ARE UNIQUE

18. The North Carolina Constitutional Amendment and the North Carolina Supreme Court's Stephenson decision are an anti-gerrymandering provision which severely limits the General Assembly's discretion in the construction of legislative maps. Most redistricting decisions are made by mechanical application of the formula to individual county populations from the Decennial Census. The maps provided in this report represent an application of formula result using the 2010 Decennial Census. Unlike most redistrict line-drawing decisions, where there are many ways to draft the line, there is only one correct solution to the use of the Whole County Provision.

WHOLE COUNTY GROUP NAMING CONVENTION

19. On both the tables and maps contained in this report I have assigned names to WCGs which contain three two-digit numbers separated by hyphens. The first number is the unique WCG number. The second number is the number of whole counties contained in the WCG. The third number is the number of legislative districts which must be drawn with that group.

SENATE WHOLE COUNTY GROUPS

20. Map 1 shows the location of the 29 WCGs which must be used to conform to the Optimum WCG structure. Map 2 shows the location of the 26 WCGs which were used in the 2011 Enacted Senate Plan. Map 3 divides the Senate Optimum into three classes. The first class of WCGs, colored green, will remain unchanged and also contain no districts determined to be illegal by the court. The second class of WCGs, colored yellow, will also remain unchanged but

the districts within them must be redrafted because the court has found some of the districts within the group to be illegal. The third class of WCGs, colored white, have been changed from the WCGs used in the 2011 Enacted Plan requiring that all the districts within them must be redrafted.

21. Table 1 lists all the Senate Optimum WCGs with additional information. The color coding on Table 1 is the same as the found on Map 3. The Group name, or ID, has also been parsed into 3 columns showing the group number, the number of counties in that group, and the number of districts in the group. A summary of the information contained on the table appears at the bottom.

HOUSE WHOLE COUNTY GROUPS

22. Map 4 shows the location of the 41 WCGs which must be used to conform to the Optimum WCG structure. Map 5 shows the location of the 36 WCGs which were used in the 2011 Enacted House Plan. Map 6 divides the House Optimum into three classes. The first class of WCGs, colored green, will remain unchanged and also contain no districts determined to be illegal by the court. The second class of WCGs, colored yellow, will also remain unchanged but the districts within them must be redrafted because the court has found some of the districts within the group to be illegal. The third class of WCGs, colored white, have been changed from the WCGs used in the 2011 Enacted Plan requiring that all the districts within them must be redrafted.

23. Table 2 lists all the House Optimum WCGs with additional information. The color coding on Table 2 is the same as the found on Map 6. The Group name, or ID, has also been parsed into 3 columns showing the group number, the number of counties in that group, and

the number of districts in the group. A summary of the information contained on the table appears on page 2 of the table.

NUMBER OF COUNTIES – COMPARING ENACTED TO OPTIMUM WCGs

24. Table 3 shows, for each General Assembly Chamber, the degree to which the 2011 Enacted Plans' WCGs compare to the Optimum WCGs in conformance to the dictates of the North Carolina Supreme Court's *Stephenson* decision. This table lists the number of counties per WCG from 1 to 20 for each Chamber's two grouping plans (Enacted and Optimal). For each grouping plan, the number of 1-county groups, 2-county groups, 3-county groups, and so on, are listed for each of the four WCGs discussed in this report (House Optimum, 2011 House Enacted, Senate Optimum and 2011 Senate Enacted). For example the table shows that there are 12 one-county groups, 17 two-county groups and 4 three-county groups in the new Optimum whole county grouping structure. In contrast, there were 11 one-county groups, 15 two-county groups, and 4 three-county groups in the 2011 Enacted Plan whole county grouping structure. The Optimum grouping structure is in greater conformance with the strict mandate of the *Stephenson* decision.

GENERAL CONCLUSIONS

25. While considerable complexity exists in drawing within the multi-district groupings, many of the districts in rural areas are entirely contained within single-district groupings and are self drawing. In the Senate map most of the districts in the rural eastern part of the state are in this category. All three of the Senate districts currently held by African-American incumbents are in this category. The three districts in question are the only districts within WCGs 15-03-01, 23-06-01 and 12-02-01. WCG 15-03-01 (2011 SD 4) becomes 47.46% BVAP and 46.15% NHWVAP. WCG 23-06-01 (2011 SD

3) becomes 44.36% BVAP and 51.04% NHWVAP. WCG12-02-01 (2011 SD 5) becomes 32.94% BVAP and 59.81% NHWVAP.

26. Similarly for the House of Representatives a number of single district groupings self draw in the rural eastern part of the state. This includes two districts which existed in their same configuration in the enacted plan, 17-02-01 and 40-02-01, both of which are majority minority districts. One of these districts, 17-02-01 (2011 HD 27) is currently represented by a NHW incumbent. Other districts currently held by African-American incumbents in the House in the rural eastern part of the state are more severely affected. Wilson County, which is adjacent to the districts mentioned above (and which is included in 2011 HD 24), also self draws as grouping 41-01-01 and has a BVAP of 38.11% and a NHWVAP 51.26%. In several other groupings in the eastern rural part of the state, application of the county line traverse rule within the groupings, the exact rule that was the subject of the *Pender County* case, reductions in the BVAP similar to those for Wilson County will occur. These groupings are 15-02-03, 14-02-02, 04-07-07, 18-02-02 and 19-03-03. The changes in these county groups will impact 2011 HDs 5, 7, 12, 21, and 48. Because the *Stephenson* case requires a drawing formula there is no way to avoid these results under the North Carolina Constitution.

27. Significant changes will have to be made in the whole county groupings to bring the new General Assembly Plans into maximum conformity with the *Stephenson* decision.

28. The two-week period which was given by the court to redraft the 2016 Congressional Plan only required redrafting of 13 districts, which also did not require the affirmative votes of the congressional incumbents affected by the new plan. In contrast, the

drafting of 36 new Senate districts and 81 new House districts, in strict conformity to the *Stephenson* whole county grouping criterion, is a far more complicated task facing the General Assembly than when it redrew the congressional map in early 2016.

Stated and signed under penalty of perjury on October 31, 2016.

Thomas Brooks Hofeller, Ph.D.

| Total Groups | 41 | 36 | 29 | 26 |

Note: The word "group" refers to whole county groups.

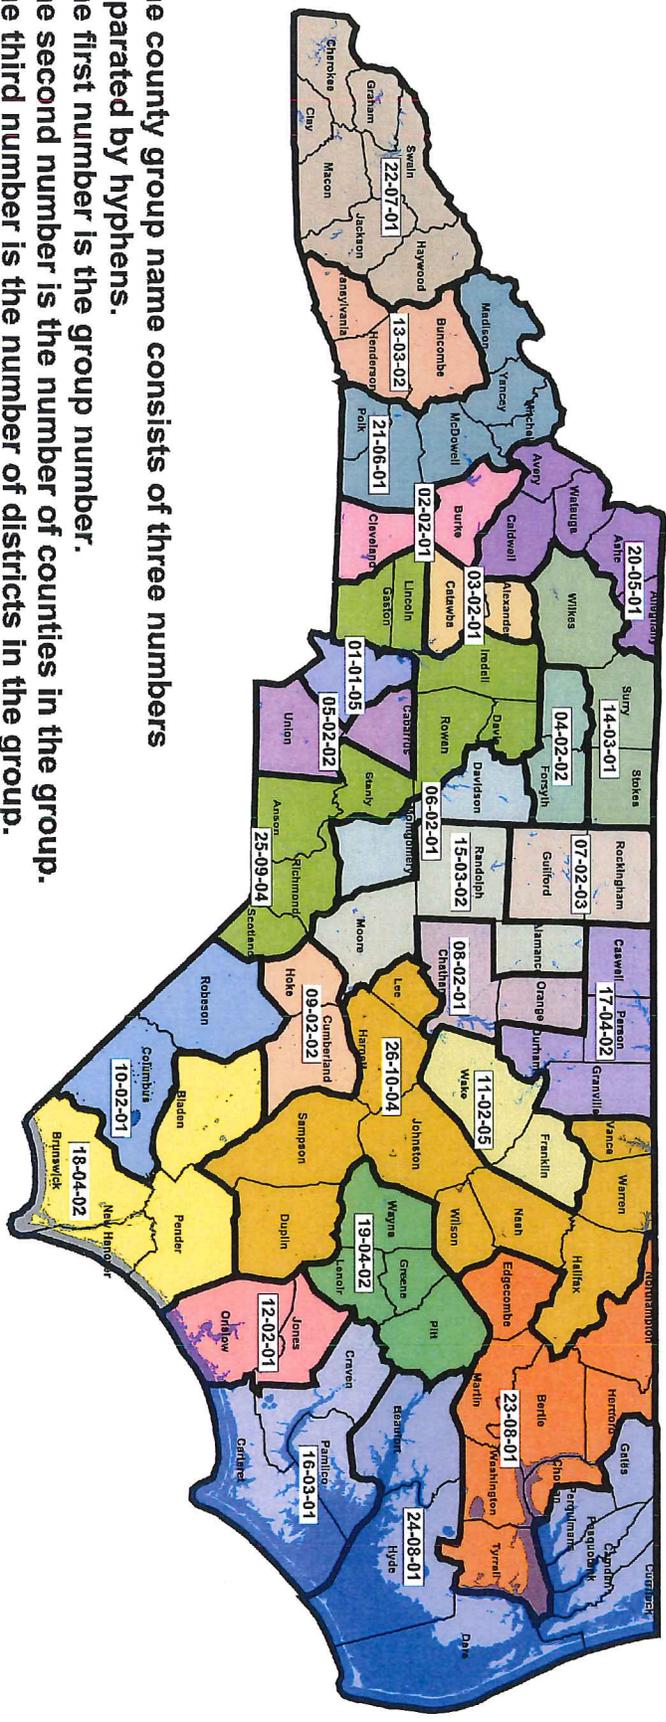

Note: The changes in the number of groups from between the 2016 Optimum and Enacted groups is due to the harmonization process between the Whole County Requirement and VRA requirements followed in the 2011 Plans.

MAP 1 Optimum County Groups For Senate

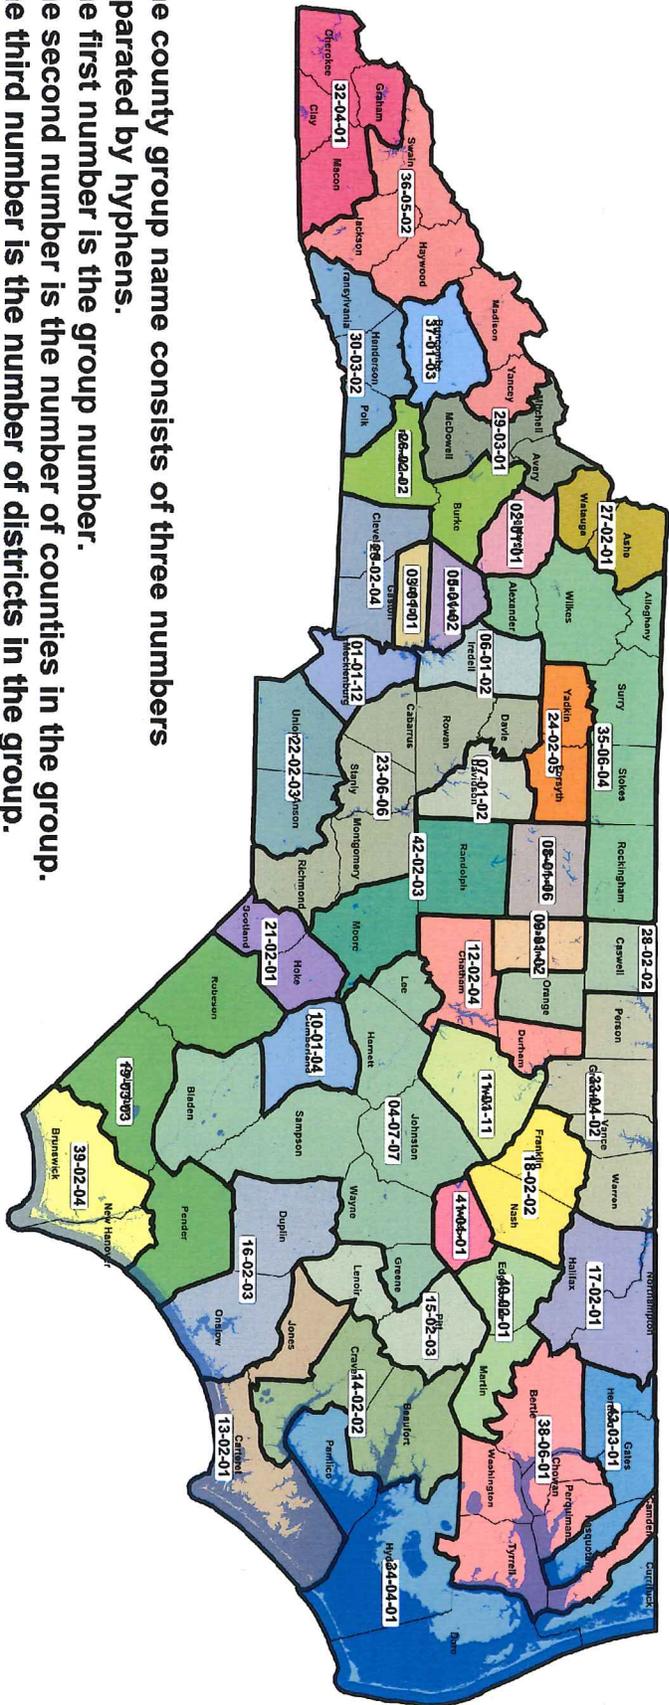

The county group name consists of three numbers separated by hyphens.
 The first number is the group number.
 The second number is the number of counties in the group.
 The third number is the number of districts in the group.

MAP 2 County Groups For 2011 Enacted Senate Plan

The county group name consists of three numbers separated by hyphens.
 The first number is the group number.
 The second number is the number of counties in the group.
 The third number is the number of districts in the group.

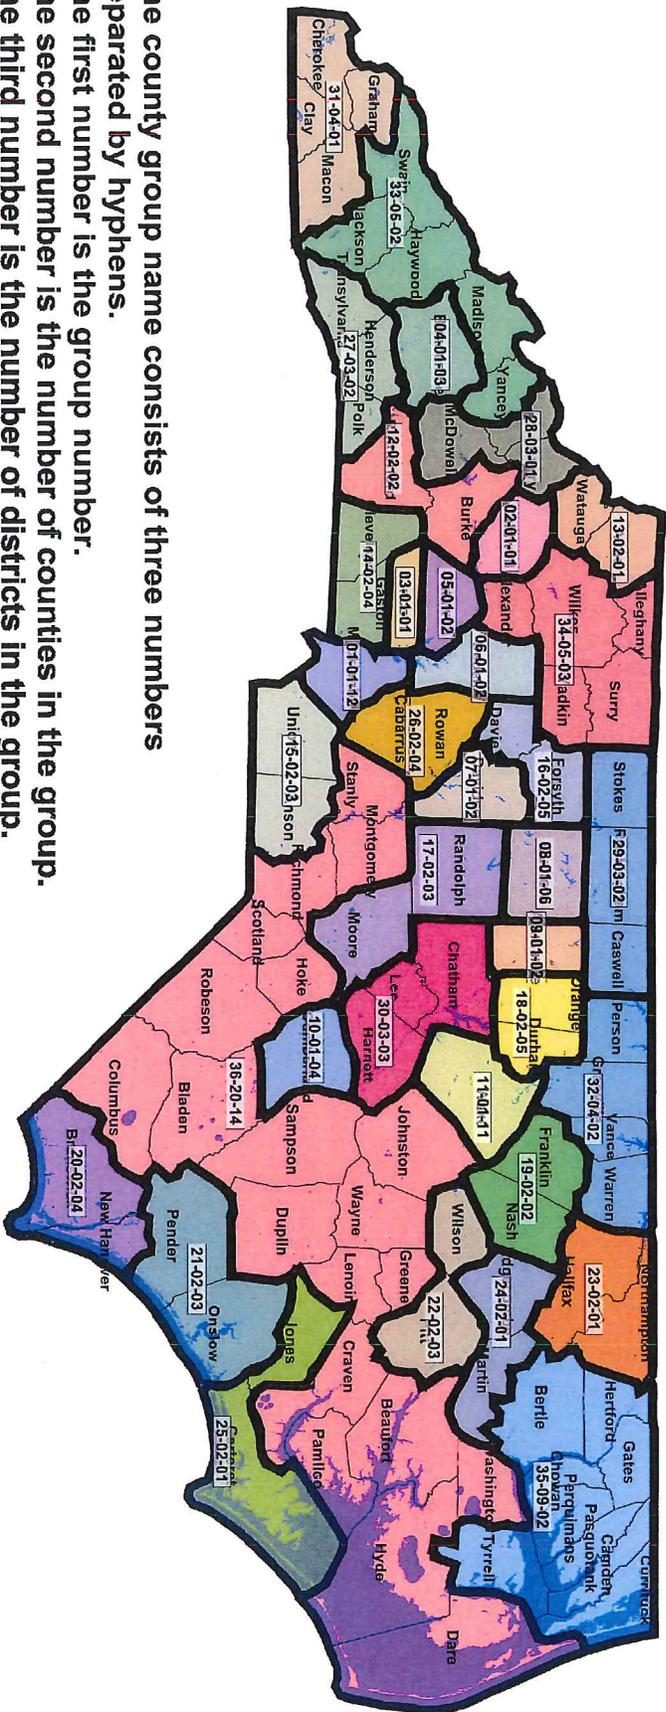

MAP 4 Optimum County Groups For House

The county group name consists of three numbers separated by hyphens.
 The first number is the group number.
 The second number is the number of counties in the group.
 The third number is the number of districts in the group.

MAP 5 County Groups For 2011 Enacted House Plan

The county group name consists of three numbers separated by hyphens.
 The first number is the group number.
 The second number is the number of counties in the group.
 The third number is the number of districts in the group.

Appendix 1

RESUME

Thomas Brooks Hofeller, Ph.D.

6701 Pointe Vista Circle, Raleigh, North Carolina 27615

Home: (984) 202-5193 – Cell: (703) 623-0764

Qualifications:

A varied career in government, business, academia and politics. Positions of significant responsibility, requiring intelligence, scholarship, communications skills, creativity and leadership include

- ◆ Successful completion of a Doctorate in Government requiring research and writing skills and the ability to communicate in an academic setting. Also includes a firm grounding in the philosophical and political roots of the American Governmental System.
- ◆ Litigation support and courtroom experience as a qualified expert witness in federal court. Clear presentation of difficult demographic and statistical concepts – making them understandable to non-technical audiences.
- ◆ Strategic and tactical analysis of political and demographic data for campaigns and political organizations. Understanding of survey design and interpretation, political resource targeting, list development and use of direct mail.
- ◆ Experience in management and information systems – including database construction, geographic information systems and creation of user interfaces that allow access by persons without extensive computer skills.
- ◆ Senior executive management of an office within a large government agency, planning and directing operations of a staff with a diverse number of missions while coordinating activities ranging across an entire agency.
- ◆ Setting up a new U. S. House subcommittee and conducting oversight, developing legislation and interacting with leadership. Experience in statistical, demographic and budgetary analysis.
- ◆ Creating and managing small businesses, including budgeting, human resources, facilities management, accounting and shareholder interface.

Areas of Expertise:

- ◆ **Redistricting:** Over 50 years of experience in the redistricting field. Development of computerized redistricting systems. Analysis of census and political data used for redistricting. Drafting of plans for congressional, legislative and local districts in multiple states. Submission of numerous expert reports and trial testimony as an expert witness.
- ◆ **Operations:** Recruiting, training and directing staffs for existing and newly instituted projects in government and national political organizations. Private sector experience as a business owner and CAO. Proven ability to organize and direct multiple projects with

effective use of delegation. Able to function as a team player in both management and support positions.

- ◆ **Communications:** Ability to develop and deliver engaging and informative presentations involving difficult concepts and issues to decision-makers, the public and press. Effective in preparation of affidavits and exhibits as well as giving depositions and delivering courtroom testimony.
- ◆ **Information Technology:** Expertise in analysis of complex technical problems involving large amounts of data – both for analysis and practical use in business, government and politics. Able to break down information and develop effective solutions. Ability to interface between highly technical personnel and management.
- ◆ **GIS:** Considerable experience in integration of mapping and data (geographic information systems).
- ◆ **Budget & Programs:** Experience in budget formulation and managing accurate accounting systems in the private and public sectors.

Education:

- ◆ **Claremont Graduate University**, Claremont, CA – Ph.D. in Government - 1980
- ◆ **Claremont McKenna College**, Claremont CA – B. A. in Political Science - 1970
- ◆ **U. S. Navy, Electronics School**, Treasure Island, CA, Graduate -1966

Publications:

- ◆ Thomas S. Engeman, Edward J. Erlar and Thomas B. Hofeller (1980). **The Federalist Concordance**. Chicago: University of Chicago Press.
- ◆ Grofman, Bernard and Hofeller, Thomas B (1990). “**Comparing the Compactness of California Congressional districts Under Three Different Plans**”. In Bernard Grofman (ed) *Political Gerrymandering and the Courts*. New York: Agathon.
- ◆ Richard Niemi, Bernard Grofman, Thomas Hofeller, and Carl Carlucci (1990). **Measuring the Compactness and the Role of a Compactness Standard in a Test for Partisan Gerrymanderings**”. *Journal of Politics*.
- ◆ **Reports and affidavits prepared for, and testimony in, numerous court cases** (listed below).

References:

Current and recent employer references are available and will be furnished upon request.

Experience:

Geographic Strategies LLC
7119 Marine Drive
Alexandria, Virginia 22307

Partner

May 2011 – present

- Geographic Strategies provides redistricting services clients including database construction, strategic political and legal planning in preparation for actual line drawing, support services and training on the use of geographic information systems (GIS) used in redistricting, analysis of plan drafts, and actual line-drawing when requested. The corporation and its principals also provide litigation support.

State Government Leadership Foundation
 1800 Diagonal Road, Suite 230

Redistricting Consultant **April 2011 – April 2012**

Alexandria, VA 22314

Contracting Officer: J. Christopher Jankowski
 Executive Director
 (571-480-4861)

- Retained as a consultant to state legislatures and statewide elected officials in all aspects of their work on the 2011-2012 redistricting process.

Areas of consultation:

- ◆ Develop strategic and tactical plans for Legislatures and statewide elected officials to develop and defend redistricting plans for legislative and congressional districts.
- ◆ Providing assistance in actual redistricting plan drafting and analysis.
- ◆ Providing a linkage between complex legal standards and their practical application to plan drafting in difficult political and technical environments.
- ◆ Provide assistance in redistricting litigation
- ◆ Identification of specialized GIS software, database and hardware systems to be used by stakeholders.
- ◆ Ongoing strategic, technical and legal support to those involved in redistricting in all states.
- ◆ Development of a clearinghouse of redistricting activities throughout the nation and analysis of the effects of the process on future elections.

**REPUBLICAN NATIONAL
COMMITTEE**

310 First Street, S.E.

Washington, DC 20003

Redistricting Consultant

May 2009 – April 2011

Contracting Officer: John Phillippe
RNC Chief Counsel
(202) 863-8638

□ Retained as a consultant to recreate a new department to coordinate the redistricting activities of the National Committee and the greater GOP community in preparation and execution of the 2011 redistricting Areas of responsibility and to support the Committee’s 2011 through 2012 redistricting efforts:

- ◆ Developed a strategic plan for the Committee to best position itself for maximum success in this highly competitive process.
- ◆ Liaison and training with members of Congress, legislators, key statewide officials, state parties and other divisions within the Committee to ensure a high level of political, technical and legal preparation.
- ◆ Recruitment and training of a technical and legal staff.
- ◆ Providing a linkage between complex legal standards and their practical application to plan drafting in difficult political and technical environments
- ◆ Identification of specialized GIS software, database and hardware systems to be used by the Committee and other stakeholders.
- ◆ Ongoing strategic, technical and legal support to members of congress and those involved in redistricting in all states, including plan drafting.
- ◆ Development of a clearinghouse of redistricting activities throughout the nation and analysis of the effects of the process on future elections.

**DEPARTMENT OF
AGRICULTURE
FARM SERVICE AGENCY**

1400 Independence Avenue

Washington, DC 20250

**Associate Administrator
for Operations and
Management**

June 2004 – January 2009

Supervisor: Teresa C Lasseter, Administrator
Farm Service Agency
(229) 890-9127

□ Associate Administrator providing management and oversight to staff with diverse missions supporting the activities of the entire Farm Service Agency (FSA).

Areas of responsibility:

- ◆ Provides oversight and guidance to the 1,100 person staff of the Deputy Administrator for Management. These functions include management services, human resources, financial management, budgeting, and information technology.

- ◆ Directs the activities of the Office of Civil Rights which performs all of the EEO functions for the Agency, as well managing FSA’s diversity programs.
- ◆ Provides oversight and guidance to the Office of Business and Program Integration. This office supports a wide range of cross-cutting activities including economic policy analysis, strategic planning, outreach, state and county office review, county service center integration, emergency planning, county office reviews and audits, e-Government, and program appeals and litigation.
- ◆ Has primary oversight of the business realignment process underway in the Agency. This realignment includes such projects as Agency-wide enterprise architecture development, field office realignment, and concurrent changes to the Agency’s business processes. This realignment is necessary to allow the Agency to meet the present and future challenges involved in providing the best possible customers service and implementation the President’s Management Agenda.
- ◆ Spearheads the ongoing reform of the FSA county committee election system which included the drafting of guidelines just published in the Federal Register.

**DEPARTMENT OF
AGRICULTURE
FARM SERVICE AGENCY**
1400 Independence Avenue

**Director, Office of
Business and Program
Integration**

Apr. 2003 – June 2004

Washington, DC 20250

Supervisor: Verle Lanier, Associate Administrator for
Operations and Management (retired)
(301) 424-5776

- Director of a senior level office directing the activities of subordinate staffs with diverse missions supporting the overall activities of the Farm Service Agency.

Areas of responsibility:

- ◆ Provided oversight and guidance to the 75-person staff of the Office of Business and Program Integration. This office supported a wide range of cross-cutting activities including economic policy analysis, strategic planning, outreach, state and county office review, county service center integration, emergency planning, county office reviews and audits, e-Government, and program appeals and litigation.
- ◆ Directed the development of administrative strategies essential to the successful management of e-Government initiatives. Coordinated citizen-centered eGovernment initiatives.
- ◆ Provided centralized direction for the Agency’s strategic plan in compliance with the Government Performance and Results Act of 1993.
- ◆ Coordinated outreach efforts for all FSA programs to enhance participation of small or limited resource farmers and ranchers to provide equal access to programs striving to acquire and maintain economic viability for family farmers and ranchers.

- ◆ Directed the preparation of policies and dockets on national program determinations to be submitted for CCC Board consideration and Federal Register publications.

**REPUBLICAN NATIONAL
COMMITTEE**

Redistricting Director

Jul. '99 – Mar. 2003

310 First Street, S.E.

Washington, DC 20003

Supervisor: Thomas Josefiak, former RNC Chief Counsel
(703) 647-2940

- Hired to create a new department to coordinate the redistricting activities of the National Committee mandated by the release of data from the 2000 Decennial Census.

(See the description of present position.)

**U. S. HOUSE SUBCOMMITTEE
ON THE CENSUS**

Staff Director

Feb. '98 - Jul. '99

Supervisor: Hon. Dan Miller, Chairman
(202) 225-5015

- Staff Director at inception of this oversight subcommittee, created by the House in February of 1998, to monitor the preparations for and the execution of the 2000 Decennial Census. Directed all day-to day operations of the subcommittee including:

- ◆ Recruitment and training of a staff for a new subcommittee.
- ◆ Liaison with the Director and Senior Staff of the Census Bureau, the Department of Commerce, and U.S. Senate Staff involved in census oversight.
- ◆ A complete examination of the preparations underway at the Census Bureau for conduct of the 2000 Decennial Census.
- ◆ An examination of the proposed statistical methods proposed by the Bureau to improve coverage of the Census.
- ◆ Reviewed and made recommendations to the Chairman and House Leadership regarding census policy.
- ◆ Coordination with Government Accounting Office personnel involved in census oversight.
- ◆ Preparation and support for oversight hearings conducted by the members of the Subcommittee.
- ◆ Interface between the academic statistical community and the subcommittee in the development of census policy.
- ◆ Liaison with census stakeholders in general, with particular attention to members of the Decennial Census Advisory Committees.

**U. S. HOUSE COMMITTEE
ON HOUSE OVERSIGHT**

Professional Staff

Nov. '97 - Feb. '98

Supervisor: Hon. William M. Thomas, Chairman
(202) 225-2915

- Involved in the oversight activities of the Committee that supervises the operations of the U.S. House of Representatives. Advised the Chairman and House Leadership on congressional policy with regard to all census operations prior to the establishment of the Subcommittee on the Census

PARTES CORPORATION**Director of Administration Mar. '96 - Nov. '97**

Kirkland, Washington

Supervisor: Mark Schnitzer, Chairman

- Chief Administrator of a software development company specializing in the creation of databases used by investment professionals to analyze information on securities.

Information was downloaded, parsed, and reformatted from the Securities and Exchange Commission's EDGAR database and other relevant sources. Was responsible for all administrative functions of the corporation including:

- ◆ Procurement, renovation and management of facilities housing the company.
- ◆ All human resource activities.
- ◆ Accounting and payroll.
- ◆ Liaison with attorneys and shareholders.

CAMPAIGN MAIL & DATA, INC Professional Staff**Nov. '93 - Mar. '96**

Falls Church, Virginia

Supervisor: John Simms, President
(703) 790-8676

- Supervised development and maintenance of geographic databases that were integrated with the company's various political and commercial lists. Created a new department that collected and converted voter lists from states, counties and towns.

**NATIONAL REPUBLICAN
CONGRESSIONAL COMMITTEE****Redistricting Director Mar. '89 - Nov. '93**320 First Street, S.E.
Washington, DC 20003

Supervisor: Maria Cino, Chief of Staff

- Created a new department to coordinate the redistricting activities of the NRCC and provide support to all GOP members of the U.S. House and their staffs.

Areas of responsibility:

- ◆ Recruitment and training of a technical staff.

- ◆ Development of specialized GIS software, databases and hardware systems to be used by the Committee and members of Congress.

**REPUBLICAN NATIONAL
COMMITTEE**

MIS Director

Jan. '82 – Mar. 89

310 First Street, S.E.
Washington, DC 20003

- Transformed the Committee's computer capabilities from a single mainframe system operated completely within a computer division into a building-wide network, utilized by all divisions and from remote locations. Supervised all the Committee's data processing activities, including database and software development. Directed research activities involving analyses of demographic and election data. Primary computer consultant to the GOP's state and county party organizations.

**ROSE INSTITUTE OF STATE
AND LOCAL GOVERNMENT**

Associate Director

1973 – 1981

Claremont McKenna Collège
Claremont, California

- Co-Founder of this Southern California research center specializing in the examination of current financial and political issues affecting California's state and local governments. Supervised staff and day-to-day operations, directed software and database development, managed research projects and assisted in fundraising.

**COMPASS SYSTEMS, INC.
AND LOCAL GOVERNMENT**

Vice President

1970 – 1973

San Diego, California

- Part of the management team that developed the first computerized geographic mapping and data retrieval system used by the California State Assembly for redistricting and demographic analysis. Directly supervised programming and database development staffs.

UNITED STATES NAVY

Petty Officer 2nd Class

1965 – 1969

- Electronics Technician. Served on USS Porterfield, DD682, in Tonkin Gulf operations during Vietnam War. (Honorable Discharge)

Summary of Participation in Lawsuits:

Shaw v. Hunt, 92-202-CIV-5-BR, U.S. District Court for the Eastern District of North Carolina, Raleigh Division (1993-4)

This case was the second trial phase following the U.S. Supreme Court's reversal of the lower court in Shaw v. Reno (1993). Prepared alternative plans for presentation to the court. Prepared political and demographic analyses of the state's plans, along with numerous exhibits supporting the plaintiffs' complaints. Gave a deposition and served as plaintiffs' primary expert witness at trial.

Arizonans for Fair Representation v. Symington, CIV 92-0256, U.S. District Court Arizona (1992),
aff'd mem. sub nom. Arizona Community Forum v. Symington, 506 U.S. 969 (1992)

Prepared an affidavit evaluating the three major plans submitted to court for redistricting of Arizona's six congressional districts. Plans were examined with regard to all major redistricting criteria. Also examined minority voting strength in proposed new sixth district in State Senate Plan. Gave expert testimony in trial phase. Drafted a new map for presentation in court that was adopted, with minor changes, by the three-judge panel.

De Grandy v. Wetherell, No 92-40015-WS, U.S. District Court Florida (1992)

Prepared model plans and submitted affidavits evaluating alternative plans for two of the parties in the congressional phase of the case and gave testimony on the political and voting rights implications of various other plans. Presented an affidavit and gave expert testimony in the legislative phase of the case for the De Grandy plaintiffs.

Good v. Van Straten, 800 F. Supp. 557, U.S. District Court Eastern & Western Michigan (1992)

Prepared compactness analysis of plans submitted to court to redistrict Michigan's congressional districts. Gave testimony on compactness theories and other relevant redistricting criteria.

Pope v. Blue, U.S. District Court Western District of North Carolina (1992)

Prepared an affidavit containing compactness analysis and political analysis of the plan passed by North Carolina Legislature and approved by U.S. Department of Justice.

Ketchum v. Byrne, 740 F.2d 1398, cert. denied City Council of Chicago v. Ketchum, 471 U.S. 1135 (1985), on remand, Ketchum v. City of Chicago 630 F. Supp. 551 (N.D. Ill. 1985)

Consultant to African-American plaintiffs (P.A.C.I.). Assisted in building Plaintiffs' political and demographic database, performed a racial and ethnic analysis of City of Chicago, gave a deposition, and testified in court.
