9 Q. Okay. I hate to hear that, but so can -- what  
10 -- can you give me an example of what you're talking  
11 about?

12 A. Oh, sure. Someone told my son that they should  
13 have -- that "if this was a little bit not too long  
14 ago, I would have owned you, boy."

15 Q. If this was several years back. I don't --

16 A. "I would have -- I would have owned you boy."  
17 And the principal sent him back to class. I was not  
18 made aware of this. Recently my son, who's in middle  
19 school, was searched for a gun because he made a  
20 conversation between him and his friend. They were  
21 talking about math work.

22 Q. Uh-huh.

23 A. Him and a Hispanic boy and their white  
24 counterpart student said, "They only did that to y'all  
25 because y'all were Black and Mexican." And so I went

1 | to the school. The principal searched my son with a  
2 | police officer present.

3 | Q. Uh-huh.

4 | A. I never got a phone call. All of this happened  
5 | before lunch. She called -- pulled him out of class  
6 | three times. It was not until my husband and myself  
7 | went up there the first thing the next morning, "Oh, we  
8 | were just about to call you," after my son has already  
9 | felt some type of way and he was never apologized to.  
10 | In fact, he was told if he had been forthcoming, then  
11 | none of this would have happened.

12 | Q. Did they say forthcoming about what, though?  
13 | What was he withholding?

14 | A. Forthcoming because when they asked him did he  
15 | have -- was he walking down the hallway talking about a  
16 | gun, he was like, "No. What are you talking about?"  
17 | He was completely obliv- -- oblivious --

18 | Q. Yeah.

19 | A. -- to what they were talking about.

20 | Q. Did they give you any i- -- why -- any  
21 | indication --

22 | A. And so --

23 | Q. -- as to why they believed he had a gun?

24 | A. And they said -- yeah. "And it was a .32, as a  
25 | matter of fact." And I was like, "What is a .32?"

1 Q. I don't know.

2 A. She said, "Well, I had to look that up. That  
3 is a pistol. That's why we searched him." And he was  
4 not forthcoming by saying that he was walking down the  
5 hallway talking to another student when you were  
6 accusing him of having a gun. So it wasn't him not  
7 being forthcoming about it. He didn't know what you  
8 were talking about.

9 Q. Uh-huh.

10 A. So -- and since then I have had to put both of  
11 my children in counseling, even though I have educated  
12 them on things like this that is possible to happen.

13 Q. Uh-huh.

14 A. So I also had another man chase my child down  
15 the sidewalk.

16 Q. As in on a foot race?

17 A. As in a foot race.

18 Q. And do you have any idea what that was -- why  
19 he was doing that?

20 A. A white man chased my son down and said that he  
21 -- he was -- he wasn't even in the neighborhood they  
22 were visiting -- that he was tired of them being  
23 disruptive. That was they first time there.

24 Q. He was -- I'm sorry?

25 A. Tired of them being dis- --

1 Q. Tired of them. Okay.

2 A. -- being disruptive every day. That was their  
3 first time there.

4 Q. Was this in a neighborhood someplace?

5 A. It was in a neighborhood.

6 Q. Did you ever speak to this individual that  
7 chased your son?

8 A. No.

9 Q. Do you know who it is?

10 A. Oh, yeah. I later learned that he committed  
11 suicide.

12 Q. Sounds like he had some emotional problems.

13 A. That's not easy to explain to a 6-year-old  
14 who's running down the street crying --

15 Q. Was he a --

16 A. -- because a grown man is chasing him.

17 Q. Was he a -- I assume he was a white guy?

18 A. He sure was.

19 Q. Yeah. Well, yeah. None of that sounds any  
20 good to me. Are there any other instances that you  
21 want to mention?

22 A. I -- I don't have to continue to expose the  
23 several incidents that have happened with my personal  
24 children.

25 Q. Uh-huh.

1 A. But there has been plenty.

2 Q. Is this -- do they all sort of relate to the  
3 League City area and -- and/or attending IS -- ISD?

4 A. Not all in ISD. Some in -- that -- they're all  
5 in the League City area. I never experienced that in  
6 West Texas City. I've never experienced it ever as a  
7 child, so I didn't even think of it even being an  
8 option --

9 Q. Uh-huh.

10 A. -- until we were there, so --

11 Q. Okay.

12 A. I've had someone remove their child from -- and  
13 that didn't go forward -- remove their child from  
14 Friendswood ISD because of the things that were being  
15 said to their child.

16 Q. So this was a minority student that were --

17 A. This was a Black student --

18 Q. Black student who left the --

19 A. -- who -- who left Friendswood ISD because of  
20 the way that their child was being treated -- with only  
21 being treated a certain way whenever it was track  
22 season. Then they were -- because they were winning  
23 races. They were treated in a much nicer way.

24 Q. I guess I'm not -- not clear on that. It --  
25 are you saying they -- they left during track season

1 | because --

2 | A. No. They left -- she did not re-enroll her

3 | child --

4 | Q. Uh-huh.

5 | A. -- into Friendswood ISD because of the

6 | treatment that they were receive -- that her child was

7 | receiving. She only got praise or acknowledgment when

8 | she was running track.

9 | Q. Okay. So this is a female?

10 | A. A female Black student.

11 | Q. And you're saying so after the track season was

12 | over --

13 | A. Before track season ever -- she was enduring  
14 | things. Then track season happened that they took  
15 | note, "Oh, there's a shift in environment whenever  
16 | she's benefiting to help you win races."

17 | Q. Uh-huh.

18 | A. But then when that stopped, then it was back  
19 | that -- so that next school year --

20 | Q. Was this at the high school level?

21 | A. This was high school.

22 | Q. Recent?

23 | A. That was very recent.

24 | Q. Okay.

25 | A. And a relative of Mr. Armstrong.

1 Q. Interesting.

2 A. Very much so.

3 Q. As -- okay. Speaking of the county -- the  
4 commissioners, do you believe that the elected county  
5 commissioners have been sort of unresponsive to the  
6 needs of minority communities, specifically Black and  
7 Latino residents?

8 A. What time period are you speaking of?

9 Q. Well, let's -- let's talk about the last ten  
10 years.

11 A. If you going to the community of the Black and  
12 Latino, specifically Precinct 3, they praise  
13 Commissioner Holmes.

14 Q. People within the Precinct 3?

15 A. The seniors, every -- I -- they speak of --  
16 speak highly of the things --

17 Q. Uh-huh.

18 A. My grandmother speaks highly of the things that  
19 he has done.

20 Q. Right. And he hasn't been unresponsive to the  
21 community. Would you agree?

22 A. I would agree.

23 Q. Okay. And then what about the other  
24 commissioners? Do you know whether they've been  
25 responsive to the community or not?

1 A. I don't know that.

2 Q. Okay. And then let's expand it beyond the  
3 county commission and talk about other elected  
4 officials that you are aware of. Generally speaking,  
5 do the -- the account -- the government officials that  
6 you know in Galveston County, they -- they typically  
7 -- are they typically fairly responsive --

8 A. From what I --

9 Q. -- to the needs of the minorities?

10 A. From -- from what I -- in the last ten years?

11 Q. Yes, ma'am.

12 A. Oh, okay. Ten years is beyond my scope as a  
13 NAACP president. That was -- now, as an individual --

14 Q. Well, again, from 2013 to -- to today is where  
15 the area we're focusing on, so --

16 A. From 2013 to today?

17 Q. And the -- I could restate it, if it would be  
18 helpful.

19 A. I think that from what I have been informed  
20 upon, minorities go to Commissioner Holmes for help  
21 whether they're in his precinct or not.

22 Q. Uh-huh. And that -- so do you have any -- any  
23 belief as to whether other elected officials, other  
24 than the county commissioners we already -- already  
25 asked you about, do they -- do you have any belief that

1 -- and just in general, elected officials in Galveston  
2 County have not been responsive to the needs of the  
3 minority community? Is there any examples you can  
4 provide, or do you believe --

5 A. That they're not -- that they haven't been  
6 responsive?

7 Q. Yes, ma'am.

8 A. No. I -- I can't provide you with any examples  
9 that they haven't been. I can just speak to the fact  
10 that I know that minorities go directly to Commissioner  
11 Holmes one way or another, even if they are not a part  
12 of his precinct to get some type of guidance or advice  
13 or whatever it is --

14 Q. Okay.

15 A. -- to get a solution.

16 Q. All right. So I just have -- there's one last  
17 area of question. There's -- the -- the -- the  
18 complaint filed in the case maintains that Commissioner  
19 Holmes was not included, involve -- or involved in the  
20 redistricting process in 2021.

21 A. Uh-huh.

22 Q. Do you -- do you believe that to be true?

23 A. That's what he stated.

24 Q. Okay. Yeah. That's what -- that was my next  
25 question. You -- what's the basis for -- for that

1 allegation?

2 A. That's what he stated.

3 Q. That's -- okay. And is there any place else  
4 that -- that -- any other person who's told you that,  
5 other evidence that you have of that?

6 A. That's what --

7 MS. CHEN: Object --

8 A. -- he stated. I think that if he would have  
9 been more informed, maybe he would have made a post  
10 like Judge Henry -- is that the judge name that made  
11 that post to motivate and have people out doing things,  
12 making comments on the Web site as well.

13 Q. (BY MR. RUSSO) Uh-huh.

14 A. Had he been more informed or more included --

15 Q. Okay.

16 A. -- I think he would have been more proactive.

17 MR. RUSSO: All right. Well, I  
18 appreciate your time.

19 THE WITNESS: Thank you.

20 MR. RUSSO: Thank you very much for being  
21 here today, and I'm going to pass the witness.

22 THE WITNESS: Okay.

23 MR. RUSSO: So --

24 MS. CHEN: And I will reserve questions  
25 for trial. Like to read and sign the transcript, and

1 with that, I think we can be done.

2 THE VIDEOGRAPHER: Going off the record,

3 5:39.

4 (The deposition concluded at 5:39 p.m.)

1 THE VIDEOGRAPHER: Good morning.  
2 We're going on the record at 9:16 a.m. Central time  
3 on February the 24th, 2023. Please note that this  
4 deposition is being conducted virtually. The  
5 quality of the recording depends on the quality of  
6 the camera and the internet connection of the  
7 participants. What is seen from the witness and  
8 heard on screen is what will be recorded. The audio  
9 and video recording will continue to take place  
10 unless all parties agree to go off the record.

11 This is the video-recorded deposition  
12 of Dianna Martinez, taken in the matter of the  
13 Honorable Terry Petteway, et al. versus Galveston  
14 County, et al., filed in the United States District  
15 Court for the Southern District of Texas, Civil  
16 Action No. 3:22-CV-00057.

17 My name is Jason Hopkins. I'm the  
18 videographer. Our court reporter is Tamara Chapman.  
19 Our concierge today is Michael Toth. We are all  
20 from the firm Veritext Corporate Services.

21 I'm not related to any party in this  
22 objection, nor am I financially interested in the  
23 outcome. If there are any objections to the  
24 proceedings, please state them at the time of your  
25 appearance.

1 Counsel, please state your  
2 appearances and affiliations for the record,  
3 beginning with the noticing attorney, after which  
4 our court reporter may swear in the witness and we  
5 may proceed.

6 MS. SMITH: Well, I'm K'Shaani Smith.  
7 I'm appearing on behalf of plaintiff, the United  
8 States, in this matter.

9 MS. JAYARAMAN: I'm Tharuni  
10 Jayaraman, also appearing on behalf of the United  
11 States.

12 MS. OLALDE: Angela Olalde appearing  
13 on behalf of the witness and the defendants in this  
14 case.

15 We also have Jordan Raschke Elton,  
16 who is also appearing on behalf of the defendants.

17 Are the other plaintiffs' present,  
18 plaintiffs' counsel?

19 MS. RICHARDSON: Yes. Sorry. I  
20 didn't know if we were presenting ourselves yet.  
21 Valencia Richardson on behalf of the Petteway  
22 plaintiffs today. Thank you.

23 MS. SPOTO: And Adrienne Spoto on  
24 behalf of NAACP plaintiffs.

25 MS. CHEN: Sarah Chen also for NAACP

1 plaintiffs.

2 MR. FORERO: Mateo Forero appearing  
3 on behalf of Ms. Martinez and the defendants.

4 DIANNA GARZA MARTINEZ,  
5 having been first duly sworn, testified as follows:

6 EXAMINATION

7 BY MS. SMITH:

8 Q. Good morning, Ms. Martinez. Thank you  
9 for joining us today. Can you state your full name  
10 for the record, please.

11 A. My name is Dianna Garza Martinez.

12 Q. My name is K'Shaani Smith. I represent  
13 the United States, the plaintiffs in this matter.  
14 I'm going to ask you questions this morning and then  
15 counsel for the other plaintiff groups may ask you  
16 some questions as well after I'm done.

17 We're going to do our best to reduce any  
18 overlap in our questions so that we don't keep you  
19 any longer than necessary.

20 First, have you ever been deposed before?

21 A. I have not.

22 Q. So I'll briefly go through a few  
23 expectations of how this deposition -- deposition  
24 should proceed.

25 First, the court reporter making the

1 record will need you to make verbal responses to all  
2 of my questions, as opposed to shaking your head or  
3 nodding your head. Can you do that?

4 A. Yes.

5 Q. To make a clear record it is important  
6 that we do not interrupt each other or talk over one  
7 another. I'll do my best not to interrupt you when  
8 you're responding. And I'll ask that you wait until  
9 I finish my question, and that you're -- when your  
10 counsel finishes their objection before giving your  
11 answer. Can you do that?

12 A. Yes.

13 Q. If I ask a question that you do not  
14 understand, please let me know and I will clarify or  
15 rephrase. If you do not ask for clarification, I  
16 will assume that you understood my question and that  
17 you are answering the question that I have asked.

18 Do you understand that?

19 A. I do.

20 Q. Your lawyer may object to some of my  
21 questions. Unless she instructs you not to answer,  
22 you must still answer the question.

23 Do you understand that?

24 A. I understand.

25 Q. As we're going through the question and

1 you -- you realize that you want to add something,  
2 additional information to a prior question, just let  
3 me know and we can go back and do that.

4 Does that make sense?

5 A. Yes.

6 Q. Likewise, if you realize that you want to  
7 clarify something in one of your answers that you  
8 gave previously, you can just let me know and we can  
9 go back to that. Does that make sense?

10 A. Yes.

11 Q. Okay. Is there any reason that you might  
12 not be able to give full and truthful testimony  
13 today?

14 A. No.

15 Q. Are you currently on any medication that  
16 might affect your testimony?

17 A. No.

18 Q. Have you consumed any alcohol today?

19 A. No.

20 Q. Do you understand that you can't  
21 communicate with anyone else about this deposition,  
22 whether in person, by email, text message, Zoom  
23 chat, or any other means about your testimony or the  
24 questions that I'm asking while your deposition is  
25 being taken today, other than consulting with your

1 attorney?

2 A. I understand.

3 Q. If you need a break at any point during  
4 the deposition, please let me know, and we will  
5 accommodate that. However, if there is a pending --  
6 a question pending, I will ask that you respond to  
7 that question before we take the break.

8 Does that make sense?

9 A. Yes.

10 Q. Did you do anything to prepare for this  
11 deposition today?

12 A. I met with counsel previously.

13 Q. And how long did you meet with counsel?

14 A. Maybe four to five hours perhaps.

15 Q. How many times did you meet with your  
16 counsel?

17 A. Once.

18 Q. When was that?

19 A. Wednesday, February 22nd, 2023.

20 Q. Was any --

21 THE STENOGRAPHER: Go ahead. After  
22 you finish this opening line of question, I would  
23 like to go off the record one second and make a  
24 minor adjustment to the witness's audio, if you  
25 wouldn't mind. But go ahead and finish your intro.

1 I didn't want to interrupt that. I was trying -- I  
2 didn't know when you would finish, but if you can  
3 just take a pause before you get into the  
4 deposition, the other part of the deposition. Okay?

5 THE VIDEOGRAPHER: Totally agree.

6 MS. SMITH: We can do that now.

7 THE STENOGRAPHER: Okay. Thank you.

8 THE VIDEOGRAPHER: All right. The  
9 time is 9:24 a.m. We're off the record.

10 (Break.)

11 THE VIDEOGRAPHER: We're back on the  
12 record. The time is 9:28 a.m.

13 MS. SMITH: Ms. Chapman, can you read  
14 me back the last question.

15 (The requested material was read.)

16 Q. Was anyone other than your attorney  
17 present during the meeting?

18 A. No.

19 Q. Did you review any documents in  
20 preparation for this deposition?

21 A. I did.

22 Q. What documents?

23 A. Email exhibits.

24 Q. Do you recall which ones?

25 A. I don't.

1 Q. Do you recall how many?

2 A. Perhaps less than five.

3 Q. Why did you review them?

4 MS. OLALDE: I'm just going to  
5 instruct the witness not to talk about any --

6 MS. SMITH: Oh.

7 MS. OLALDE: -- conversations that  
8 she had with her counsel during any deposition  
9 preparation.

10 Otherwise you can answer, if you  
11 know.

12 A. I will go with that --

13 Q. Okay.

14 A. -- recommendation.

15 Q. So you can't answer why you reviewed them  
16 without divulging privileged information?

17 A. It's deposition prep.

18 Q. Okay.

19 MS. SMITH: Counsel, I'd like to ask  
20 whether these documents that Ms. Martinez reviewed  
21 were produced.

22 MS. OLALDE: They all have been, yes.

23 Q. Do you know what this litigation is  
24 about?

25 A. I do.

1 Q. What is your understanding of the  
2 allegations in this case?

3 A. I understand that it's, I believe, Terry  
4 Petteway versus Galveston County in the  
5 redistricting matter.

6 Q. And are you familiar with the term  
7 "redistricting"?

8 A. Slightly.

9 Q. What is your understanding of  
10 "redistricting," without giving any sort of legal  
11 conclusion or analysis?

12 A. After -- it would be the mapping and  
13 precinct and voting precincts that are relative to  
14 Galveston County.

15 Q. Thank you. Are you aware that other  
16 individuals have been deposed in this matter?

17 A. I am.

18 Q. Did you speak with any of those  
19 deponents?

20 A. No.

21 Q. Are there any other ways that you  
22 prepared for this deposition?

23 A. No.

24 Q. Did you bring any documents with you  
25 today?

1 A. No.

2 Q. Now I'd like to ask some questions about  
3 your personal background. Where were you born?

4 A. Galveston, Texas.

5 Q. How long have you lived here?

6 A. I was born on (unintelligible).

7 Q. What year were you born, if you don't  
8 mind me asking?

9 A. 1981.

10 THE STENOGRAPHER: Just a second. I  
11 just want to know if anyone else -- you can't tell  
12 that we're having trouble hearing, but I just -- I  
13 didn't really hear -- I heard "I was born" and I  
14 didn't hear the rest of it. So -- you know, and the  
15 witness's voice is dropping quite a bit on some  
16 answers. Like when she says -- it sounds like "yes"  
17 (whispering) and that's how it sounds sometimes  
18 because her voice is dropping.

19 THE VIDEOGRAPHER: Ms. Chapman, let's  
20 go off the record again and see if Michael can help  
21 us out, if you guys don't mind.

22 The time is 9:32 a.m. We're off the  
23 record.

24 (Break.)

25 THE VIDEOGRAPHER: We're back on the

1 record. The time is 9:37 a.m.

2 MS. SMITH: Ms. Chapman, can you read  
3 the question back.

4 (The requested material was read.)

5 Q. If you don't mind answering the question,  
6 please?

7 A. I was born in 1981.

8 Q. Have you lived anywhere other than  
9 Galveston?

10 A. No.

11 Q. I'd like to talk a little bit about your  
12 educational background. What high school did you  
13 graduate from?

14 A. O'Connell Catholic High School.

15 Q. And what year did you graduate from high  
16 school?

17 A. 1999.

18 Q. Did you attend any other high schools?

19 A. I did not.

20 Q. Did you pursue any education after high  
21 school?

22 A. I did.

23 Q. Did you attend college?

24 A. I did.

25 Q. Where did you go to college?

1 A. Galveston College.

2 Q. Did you graduate?

3 A. I did not.

4 Q. How many years of college education did  
5 you obtain?

6 A. Approximately three.

7 Q. What was your major?

8 A. Business and teaching. I couldn't make  
9 up my mind.

10 Q. Okay. Did you have a minor?

11 A. I did not.

12 Q. Did you pursue any special  
13 certifications?

14 A. I did not.

15 Q. Okay. Have you pursued any training  
16 programs or --

17 A. No.

18 Q. Okay. Have you enrolled in any  
19 continuing education programs?

20 A. I have not.

21 Q. Now, I'd like to ask you a little bit  
22 about your employment history. What is your current  
23 employment?

24 A. I work for Galveston County.

25 Q. What is your position?

1 A. I am the senior policy and constituent  
2 advisor, title.

3 Q. Okay. Is that position within Judge Mark  
4 Henry's office?

5 A. Yes.

6 Q. When did you start working in Judge  
7 Henry's office?

8 A. October 2012.

9 Q. Before working for Judge Henry, where did  
10 you work previously?

11 A. I was a stay-at-home mom.

12 Q. Have you worked for any other elected  
13 official?

14 A. I have not.

15 Q. Have you ever worked in any other  
16 government entity?

17 A. I have not.

18 Q. And what is your race or ethnicity? Or  
19 how do you identify racially?

20 A. I identify as Hispanic.

21 Q. Now, I'm going to ask you some questions  
22 about your current employment in Judge Henry's  
23 office. You mentioned that your current role is  
24 senior policy advisor and cont- -- constituent  
25 advisor. What are your responsibilities in this

1 role?

2 A. My responsibilities in the office are the  
3 agenda coordination. I also provide administrative  
4 assistance. Budget reconciliation for our office's  
5 expenses that are pertaining to veteran's treatment  
6 court and commissioners court.

7 Q. Okay. Under your administrative  
8 responsibilities, what does that include?

9 A. Mail, gathering all of the documents that  
10 would be included in commissioners court, thwart  
11 emails and direct contact with our departments that  
12 are going to be requesting items to be removed and  
13 approved for commissioners court.

14 Handling the software that we utilize to  
15 compile our agendas as well as securing language and  
16 backup that eventually it is posted for public.

17 Q. And what software do you all use for the  
18 agenda?

19 A. SIRE Agenda Management.

20 Q. Would you mind spelling that?

21 A. S-I-R-E.

22 Q. Did your role change over time while  
23 still working as -- in Judge Henry's office?

24 A. It did.

25 Q. What was your previous title?

1 A. Agenda coordinator/receptionist in 2012.

2 Q. Uh-huh.

3 A. And then executive assistant/office  
4 coordinator.

5 Q. Okay. What were your responsibilities as  
6 executive assistant/office coordinator?

7 A. Scheduling, more of the meetings  
8 scheduling and coordination as far as outside of  
9 commissioners court.

10 Q. When you say meeting scheduling, what  
11 meetings are you referring to?

12 A. Those that would fall under Judge Henry's  
13 calendar and at the time also Commissioner Clark's  
14 calendar and Commissioner Billman's calendar.

15 Q. And you stated your previous role before  
16 then was -- what did you say -- I'm sorry?

17 A. Office coordinator.

18 Q. Before the office coordinator?

19 A. It was receptionist/agenda coordinator.

20 Q. Okay. And what were your  
21 responsibilities in that role?

22 A. The same. Well, minus the -- more of the  
23 administrative, executive administrative side. So,  
24 in 2012, it was receptionist/agenda coordinator and  
25 then upon the retirement of our executive assistant,

1 I assumed her responsibilities as well as agenda  
2 coordination. And then, in 2019, my title was  
3 upgraded after a compensation and salary study.

4 Q. And why did you decide to start working  
5 in Judge Henry's office?

6 A. I was a stay-at-home mom and I made the  
7 decision that it was time to go back to work, so I  
8 made the decision to apply for that open position.

9 Q. As senior policy advisor -- well, I want  
10 to get your title right. Is it senior policy and  
11 constituent advisor?

12 A. It's senior policy and constituent  
13 advisor.

14 Q. Okay. Great. Thank you.

15 As senior policy and constituent advisor,  
16 who is your direct supervisor?

17 A. Judge Henry.

18 Q. Do you report to Tyler Drummond in any  
19 way?

20 A. Yes.

21 Q. What is your understanding of Tyler  
22 Drummond's role?

23 A. He's our chief of staff.

24 Q. Do you know what his responsibilities  
25 are?

1           A.     I couldn't list them all, but he does  
2     assist Judge Henry in the office with, you know,  
3     matters relative under his duties as chief of staff,  
4     but I -- I don't -- I couldn't give you an  
5     affirmative list off the top of my head.

6           Q.     Do you supervise anyone?

7           A.     I do not.

8           Q.     So you're the senior advisor. Is there a  
9     junior advisor?

10          A.     There is not.

11          Q.     When you were the office coordinator and  
12     executive assistant, who was your director  
13     supervisor then?

14          A.     Judge Henry.

15          Q.     And at that time did you also report to  
16     Tyler Drummond?

17          A.     I transitioned into that role in 2014.  
18     Tyler came to the county in 2015. So I direct  
19     reported to Judge Henry, and just evolved to seeking  
20     direction from both.

21          Q.     Okay.

22          A.     Uh-huh.

23          Q.     So before Tyler Drummond began working  
24     for Judge Henry in 2015, was there another chief of  
25     staff that you reported to at that time?

1 A. No.

2 Q. And when you were the office coordinator,  
3 was there a senior policy and constituent advisor at  
4 that time?

5 A. No.

6 Q. Who else do you work with in Judge  
7 Henry's office?

8 A. I work with Linda Liechty, she's our  
9 senior executive assistant. I work with Tyler  
10 Drummond our chief of staff. I work with Veronica  
11 VanHorn, she's our legal services coordinator. And  
12 Zach Davidson, he was our communications director  
13 and is now currently our director of governmental  
14 relations.

15 Q. How often do you communicate with them?

16 A. With Veronica and Linda, daily. We kind  
17 of cover those administrative tasks. I work  
18 directly with Veronica for agenda coordination.

19 And Tyler and Zach, I would say maybe  
20 once a week. Zach maybe every two weeks.

21 Q. And how often do you communicate with  
22 Judge Henry?

23 A. Once every two weeks. Right before  
24 agenda postings.

25 Q. And how do you typically communicate with

1 the other employees in Judge Henry's office?

2 A. Veronica is located in our 722 building  
3 in Galveston, so I see here personally. Linda  
4 offices at 131 Pecan. So usually it's through email  
5 or through our work phone.

6 Q. And what about Zach Davidson?

7 A. Through usually email or work phone.

8 Q. How about Tyler Drummond?

9 A. The same, email and work phone.

10 Q. And lastly, how do you typically  
11 communicate with Judge Henry?

12 A. Email and work phone.

13 Q. And do you work in the office?

14 A. I do.

15 Q. Do all of Judge Henry's staff work in  
16 person in an office?

17 A. Yes.

18 Q. But there are different office locations?

19 A. Correct.

20 Q. And I'm sorry, which office location are  
21 you located?

22 A. I'm in Galveston. That's 722 Moody, 21st  
23 Street, Galveston, Texas.

24 Q. You're really close to me.

25 A. Uh-huh.

1 Q. Okay. Do you have any regularly  
2 recurring tasks --

3 A. Yes.

4 Q. I just want to finish the question --

5 A. I apologize.

6 Q. -- just for the record --

7 A. Yes.

8 Q. -- so it's clear.

9 Do you have any regularly recurring tasks  
10 that you complete for Judge Henry?

11 A. The regular occurring task that I  
12 complete would be the agenda posting which are  
13 regular meetings are scheduled every two weeks.

14 Q. Do you have any regularly occurring tasks  
15 for judge -- sorry --

16 Do you have any regularly reoccurring  
17 tasks for Tyler Drummond?

18 A. I do not.

19 Q. Do you have any long-term projects that  
20 you have to complete?

21 A. Currently just working on our new agenda  
22 software that we are implementing, configuration,  
23 and implementing for go live that I'm currently  
24 working on.

25 Q. Okay. How are your tasks communicated to

1 you?

2 A. Since the agenda is reoccurring, I know  
3 that those are, you know, reoccurring calendar and  
4 statutory guidelines that I meet. So I go in the  
5 beginning of the year and make those calendar  
6 invites to make sure that we meet the statutory  
7 deadlines for court. Second nature.

8 Q. So how do you stay organized to timely  
9 complete those tasks? Is that what you're referring  
10 to with the calendar invites?

11 A. Yes. So I would work directly with  
12 departments that submit their language and their  
13 requests for court, and so my duty is to go in and  
14 make sure that their backup documentation and our  
15 court processes, as far as items being on agenda,  
16 are complete and ready to be added to the draft  
17 before posting the final agenda in commissioners  
18 court. A lot of backed-up documentation so that's  
19 timely to go in and make sure everything is legible  
20 and ready to be posted.

21 Q. Okay. Other than calendar invites or  
22 reminders do you use anything else to keep  
23 organized?

24 A. No, just my email notification system,  
25 flagging systems that I save to make sure I organize

1 those folders or any email requests that I may have  
2 for an agenda if the person is out of office and  
3 they need assistance. And I make sure that those  
4 items are added for the draft electronically.

5 Q. Do you ever receive any assignments over  
6 the phone?

7 A. Yes.

8 Q. And what types of assignments do you  
9 receive over the phone?

10 A. An example would be we're having a  
11 veteran's treatment court, graduation, or veteran's  
12 treatment court meetings. I might have to set up,  
13 you know, the coordination of that at the building  
14 that that's going to take place at. If we have, you  
15 know, maybe we also coordinate the different  
16 locations, conference rooms and meetings in our  
17 buildings. So I would get those notifications via  
18 email.

19 Q. All right. Do you ever receive those  
20 communications over the phone?

21 A. Yes.

22 Q. And what about tasks (unintelligible)?

23 A. Rarely, no.

24 Q. And do you ever receive those sorts of  
25 tasks or assignments in person?

1           A.       Sometimes they may be. We have court  
2 every two weeks, and that's when I would see Judge  
3 Henry or Tyler in person. But they're usually  
4 relative to commissioners court which is really my  
5 primary function.

6           Q.       And when you receive those sort of  
7 in-person tasks from Tyler or Judge Henry, how do  
8 you remember what those tasks are?

9           A.       I would usually add any type of request  
10 to my calendar and have a tickler to remember.

11          Q.       Do you take notes of those conversations  
12 with Judge Henry or Tyler Drummond?

13          A.       Not really.

14          Q.       So you add -- I don't want to do an  
15 asked-and-answered situation here.

16                   I just want to clarify. So when you have  
17 in-person conversations with Judge Henry or Tyler  
18 Drummond that are related to assignments, you add  
19 them to your calendar for a tickler. Right?

20          A.       Yeah, That's correct. I would use my  
21 Outlook to note any type of deadline that I have to  
22 keep that task.

23          Q.       And how long do you keep those ticklers?

24          A.       I -- once the task is complete, I would  
25 usually then delete or save it if it was a

1 reoccurring task.

2 Q. Okay. It's my understanding that Judge  
3 Henry's office is responsible for scheduling regular  
4 commissioner court meetings. Is that correct?

5 A. That's correct.

6 Q. And are you involved in the process of  
7 scheduling commissioners court meetings?

8 A. I am.

9 Q. And what is your role?

10 A. We have reoccurring meetings every two  
11 weeks. Those are on my calendar, and I notate my  
12 own internal deadline for departments to adhere to,  
13 as well as any special meetings that may be  
14 requested in between those, and I also have internal  
15 deadlines that I organize for those meetings.

16 Q. Do you coordinate with anyone at the  
17 county courthouse when setting up regular  
18 commissioner court meetings?

19 A. Regular meetings are for example, IT, who  
20 records those meetings that they have those ticklers  
21 on their calendar, they are reoccurring monthly  
22 meetings -- week -- or biweekly meetings.

23 Q. Is there anyone else that you coordinate  
24 with?

25 A. For regular meetings that are scheduled?

1 Q. Yes.

2 A. No, not that I can think of.

3 Q. Okay. Are constables typically present  
4 at regular commissioners court meetings?

5 A. We have a deputy at regular commissioners  
6 court meetings that is present.

7 Q. And it's just him or that deputy is  
8 present?

9 A. At our building in 722 we have an on-duty  
10 deputy.

11 Q. It is also my understanding that Judge  
12 Henry's office is responsible for scheduling special  
13 commissioners court meetings. Is that correct?

14 A. Yes.

15 Q. Are you involved in the process of  
16 scheduling special meetings?

17 A. Yes.

18 Q. And what is your role?

19 A. Since it falls outside of the regular  
20 meeting, I would secure a quorum with the court and  
21 make sure that our IT and county clerk is aware.  
22 Our county clerk and IT know and have the regular  
23 meetings on their calendar, but if it would fall  
24 outside of that, I would communicate with them to --  
25 to add that to their calendar and make sure they're

1 present or have a member of their team there to  
2 conduct the meeting.

3 Q. And how do you go about securing a quorum  
4 during court?

5 A. I would reach out to the commissioners to  
6 confirm their availability for a special meeting.  
7 And if -- and work with their scheduling to secure  
8 three commissioners present.

9 Q. Do you have a sense of how often special  
10 meetings are held?

11 A. Can you clarify that?

12 Q. Sure. Say, in a given month, how many  
13 special meetings would be requested? No, let me  
14 strike that. There's a better way to phrase it.

15 In a given month, how many special  
16 meetings would be scheduled?

17 A. I'm trying to make sure that I answer the  
18 question --

19 Q. Sure.

20 A. -- efficiently.

21 Currently we have one regular meeting and  
22 one special meeting that occurs.

23 Q. Okay.

24 A. So we have one regular meeting, it  
25 usually happens at the beginning of the month, and

1 | one special meeting at the end of the month.

2 | Q. Okay. Okay. So when we were talking  
3 | about regular commissioners meetings, commissioners  
4 | court meetings previously, and you stated that they  
5 | sort of reoccur every two weeks.

6 | A. Uh-huh.

7 | Q. Just so I'm clear, one of those meeting  
8 | is a regular meeting, and the other meeting is  
9 | considered a special meeting.

10 | A. Uh-huh.

11 | Q. Is that right?

12 | A. That's correct.

13 | Q. Okay. So how often would you say a  
14 | special meeting is held?

15 | A. Once a month currently.

16 | Q. Okay. And who determines where a special  
17 | meeting is held?

18 | A. You -- the directive of where a special  
19 | meeting is, usually from Judge Henry.

20 | Q. Are there any factors that Judge Henry  
21 | considers when determining the location of the  
22 | special meeting?

23 | MS. OLALDE: Objection; calls for  
24 | speculation.

25 | You can answer.

1 A. Usually there is --

2 MS. OLALDE: You can answer. To the  
3 extent that you know, you can absolutely answer.

4 A. Okay. So location, as far as the special  
5 meeting or, you know, depending on what the  
6 commissioner's availability is. Also, the -- you  
7 know, if we're having a special meeting for payroll,  
8 if we have a holiday, for example, we would have  
9 that meeting in our -- we would -- I would add a  
10 special meeting for that item that might be one or  
11 two items versus our regular meeting docket. And so  
12 they would meet in League City if that would be more  
13 appropriate as far as the length, I guess, of the  
14 meeting.

15 Q. Why would -- if you know, why would the  
16 League City location be more appropriate --

17 A. Well --

18 Q. -- depending on the length of the  
19 meeting?

20 A. Appropriate probably isn't the right  
21 word, but just more feasible if there's maybe  
22 payroll only on a item if we have a holiday meeting.  
23 And that Friday before, we have to hold a special  
24 meeting to approve that payroll because payroll is a  
25 part of our agenda. Then they may not drive to

1 Galveston to have a five second meeting versus a  
2 full docket meeting.

3 Q. Okay. And when you say "they," you're  
4 referring to the commissioners and Judge Henry?

5 A. Correct.

6 Q. Okay. And you mentioned a holiday  
7 meeting. What is that?

8 A. So, for example, this Monday was  
9 President's Day. That would normally be a regular  
10 meeting for commissioners court. Our payroll has to  
11 be approved prior to Tuesday payroll date. So it  
12 would be moved to the Friday before. And that would  
13 be like a payroll only or a payroll and maybe less  
14 than a handful of items.

15 Q. Thank you. You may have answered this  
16 already. I apologize.

17 But do you coordinate with anyone at the  
18 location that Judge Henry chooses when setting up  
19 the special commissioners court meeting?

20 A. Yes.

21 Q. Okay. Who do you coordinate with?

22 A. The -- if the special meeting is in  
23 League City, I would coordinate with our county  
24 clerk to make sure she's available or her backup to  
25 take minutes. I would coordinate with our IT

1 department, to make sure that they would be present.

2 And I would coordinate with the -- Judge McCumber,  
3 who -- that's her courtroom. And we would utilize  
4 her courtroom. Her assistant.

5 Q. All right. Could you spell Ms. McCumber,  
6 please?

7 A. M-C-C-U-M-B-E-R.

8 Q. Thank you. Will you coordinate with  
9 anyone else?

10 A. Not that I can think of.

11 Q. Are constables typically present at  
12 special meetings, outside of the county courthouse?

13 A. In the special meeting location, yes.

14 Q. Okay.

15 A. There is not an on-duty deputy there, so  
16 they're housed in that building. So I do contact  
17 them as well.

18 Q. How many constables typically are present  
19 at a special meeting?

20 A. I believe one, typically. I believe.

21 Q. Are you required to attend commissioner  
22 court meetings?

23 A. I am not.

24 Q. Do you attend -- do you attend them?

25 A. If the meeting is in Galveston, which is

1 in the same building that I work in, I do attend.  
2 If the meeting is in League City, I don't usually  
3 attend. But I would usually watch them on stream,  
4 on live stream.

5 Q. When you attend commissioners court  
6 meetings, do you take notes?

7 A. I would take notes if an item was  
8 deferred or needed to be added back on, if an item  
9 needed to be deferred to a later date, perhaps if a  
10 department head wasn't there. So I would just make  
11 sure to put that in that electronic -- you know,  
12 make a note in my electronic folder.

13 Q. Do you also take notes when you watch the  
14 live feed of commissioner court meetings that are  
15 held in League City?

16 A. If I was sitting at my desk watching that  
17 live stream, I would use that agenda to just mark  
18 anything that might have been approved or deferred,  
19 the same as in person.

20 Q. And you mentioned that you add your notes  
21 to your calendar ticklers.

22 A. Uh-huh.

23 Q. Do you keep those ticklers when you take  
24 notes regarding commissioners court meetings?

25 A. I use the physical agenda that I've

1 noted, if something's been pulled and discussed or  
2 approved. I use that as just my reminder for the  
3 next meeting. I go in and make sure that if there  
4 is something that was deferred, perhaps a  
5 commissioner -- the judge asked a department head to  
6 defer that item, I would check my software to make  
7 sure that they did add that item on the agenda.

8 So I just compare and make sure that  
9 there's some type of placeholder, if it's  
10 applicable, unless -- it's up to the department. If  
11 the department had an item deferred and they need  
12 more information, then it's up to that department to  
13 make sure that they get it on.

14 But if it's directed towards me, because  
15 that does happen in court, "Dianna, make sure this  
16 comes back on the agenda," then I would make sure to  
17 read my notes and make sure I added that placeholder  
18 personally.

19 Q. Where do you keep those notes when you  
20 handwrite them?

21 A. Just the agenda itself I printed, and I  
22 keep a log of those at work.

23 Q. Okay. And how do you organize them?

24 A. They are sitting in a file folder, and I  
25 put the last one on top. So I just know to pull --

1       yeah, I usually like to keep maybe a month's worth,  
2       just to make sure. And then as I -- we get further,  
3       I can discard those because we're -- we moved on.  
4       (Sotto voce).

5               Q.       Thank you.

6                       MS. SMITH: Counsel, to the extent  
7       that those notes existed at the time of our  
8       discovery request, were those notes searched as part  
9       of the document collection?

10                      MS. OLALDE: I will confirm with  
11       counsel who did that initial request, because I  
12       wasn't involved with that.

13                      MS. SMITH: Okay. Thank you.

14               Q.       Have you ever seen minutes from  
15       commissioners court meetings?

16               A.       Minutes are on our public website. So I  
17       do access the public minutes, because once contracts  
18       are approved, we do need executed documents, which  
19       is -- you know, departments do contact us to provide  
20       executed documents. So I'm familiar with the  
21       minutes on the public website.

22               Q.       Do you attend any -- do you attend any  
23       other meetings with Judge Henry, outside of  
24       commissioners court meetings?

25               A.       I used to attend veteran's treatment

1 court meetings when they were in Galveston, but  
2 Linda Liechty kind of has taken over more of that  
3 admin role as far as setting up our veteran's  
4 treatment court meetings, and also like the  
5 graduations for participants and so forth.

6 So she handles that -- that kind of falls  
7 more under that executive assistant role now.

8 Q. When you were the office coordinator, you  
9 attended those veteran's court treatment meetings  
10 more regularly?

11 A. More reg- -- not so much the meetings,  
12 but coordinating the graduations. Those would occur  
13 maybe quarterly. And so we would set up  
14 refreshments and, you know, the IT facilities would  
15 set up trash cans and so forth, and -- just  
16 coordinating the logistics of the meetings.

17 Q. In your current role are you involved in  
18 scheduling meetings for Judge Henry outside of  
19 commissioners court meetings?

20 A. Not typically.

21 Q. Who does that now?

22 A. Our executive assistant, Linda Liechty.

23 Q. When you were the office coordinator,  
24 were you involved in scheduling meetings for Judge  
25 Henry outside of special -- or outside of

1 commissioners court meetings?

2 A. Yes.

3 Q. Okay. Did you send out calendar invites?

4 A. I did.

5 Q. Were you invited to those meetings?

6 A. Not necessarily, no.

7 Q. Were you required to attend the meetings  
8 that were scheduled for Judge Henry?

9 A. No.

10 Q. Currently in your role, and perhaps in  
11 your -- no. Strike that.

12 While working for Judge Henry as office  
13 coordinator, were you included on calendar invites  
14 for meetings?

15 A. Occasionally I would be. I know that  
16 there was still -- like when Linda transitioned over  
17 to that position, as a courtesy they would copy both  
18 of us on it, just to make sure that we didn't miss  
19 anything for him.

20 Q. Were you required to attend those  
21 meetings?

22 A. No.

23 Q. So why were you included as an invitee  
24 for those meetings?

25 A. Is -- can you be more specific --

1 Q. Sure.

2 A. -- because --

3 Q. Yeah.

4 A. -- like --

5 Q. Sure. I'll strike that.

6 A. Okay.

7 Q. You mentioned that one of your  
8 responsibilities is to draft the agenda for  
9 commissioners court meetings. Correct?

10 A. Correct.

11 Q. Does anyone else draft the agendas?

12 A. If I am out, Linda Liechty is my backup.  
13 She would assist with drafting that. Typically I am  
14 the one who drafts those, unless there's something  
15 that comes up or I'm in the middle of something.  
16 But it's just Linda and myself.

17 Q. How do you know what the agenda of a  
18 particular commissioners court meeting will be?

19 A. How do I know it will --

20 Q. What the agenda will be.

21 A. I don't. The departments have their  
22 user ID and login. So they go in -- if -- whatever  
23 pending business they may have, contracts, memos,  
24 retirement resolutions, whatever that may be, they  
25 would go in and add those items. And then I would

1 produce that draft.

2 So I don't know if there would be one  
3 item or ten items, just depending on what their  
4 needs are, their time needs. And then -- yeah, then  
5 I would draft that.

6 Q. Okay. Let me just make sure I  
7 understand.

8 Could you walk me through the -- the  
9 drafting of an agenda --

10 A. Sure.

11 Q. -- (unintelligible).

12 A. I would create a meeting date and the  
13 users that are requesting items on court, they also  
14 have the agenda court dates, and they are aware of  
15 their court deadline, so that -- our office has an  
16 internal deadline that would allow me to, you know,  
17 proofread and provide that to Judge Henry before and  
18 still allow for that 72-hour meeting notice. So I  
19 have my own internal deadline.

20 And those departments would add their  
21 language and backup. And then once they meet that  
22 deadline, we typically don't allow, you know, any  
23 additions and we can then pop -- you know,  
24 electronically compile that. I would provide that  
25 copy to Judge Henry and Tyler, and they would review

1 that, and once that was reviewed and approved, then  
2 I would move forward to compile a final meeting  
3 agenda and upload that, and then make a website  
4 announcement for the public. And then I would  
5 physically post those meeting notices at our  
6 building.

7 Q. Okay. And when you receive backup  
8 documents from other departments, are those also  
9 uploaded with the agenda, the finalized agenda?

10 A. Yes.

11 Q. When you're drafting an agenda for topics  
12 introduced by the commissioners court, who drafts  
13 those agenda items?

14 A. A commissioner would either pick up the  
15 phone and say please add a placeholder on the  
16 agenda, this is the item I would like to add. Or  
17 they might send me an email and say could you please  
18 add this placeholder to the agenda.

19 Q. And who determines what language is used  
20 to describe the agenda item?

21 A. They would provide a descriptive language  
22 piece that they would add, based on the request that  
23 they need.

24 Q. So individual commissioners do not log  
25 into that agenda software and write their own agenda

1 items. Correct?

2 A. Correct. They would provide that in an

3 email. Or if not, I would receive that by phone.

4 And usually when they call, I try to log in right

5 then and there so I don't forget, and add it, based

6 on what they've requested from me to add as their

7 placeholder.

8 Q. Okay. Does anyone review the draft

9 agendas?

10 A. Yes.

11 Q. And who is that?

12 A. Judge Henry and Tyler.

13 Q. Is -- are you required to receive

14 approval from Judge Henry or Tyler before uploading

15 or -- sorry -- yes, uploading the agenda to the

16 website?

17 A. Yes.

18 Q. Okay. So I would like to show you a

19 document that is labeled Tab 1.

20 MS. SMITH: Michael, if you wouldn't

21 mind uploading that to Exhibit Share.

22 MS. OLALDE: I'm sorry. It's small

23 on her screen. Is it -- can it be --

24 THE WITNESS: There we go. I closed

25 the --

1 MS. OLALDE: Okay.

2 Q. Can you see it in Exhibit Share?

3 A. I do.

4 Q. Okay. Great.

5 MS. OLALDE: We see it in the video  
6 but not in Exhibit Share.

7 MR. TOTH: It's now in the marked  
8 exhibits folder.

9 MS. OLALDE: Got it. Thank you.

10 Q. So I'd like this document to be marked as  
11 Exhibit 1.

12 (Exhibit 1 was marked.)

13 Q. Ms. Martinez, would you mind reading it,  
14 and kind of scrolling through the document, please?

15 MS. OLALDE: You can -- yeah, either  
16 way. You can do it here or there.

17 THE WITNESS: Okay.

18 MS. OLALDE: She has access to  
19 scroll?

20 MS. SMITH: Yes.

21 MS. OLALDE: Okay.

22 MS. SMITH: Okay. Do you have  
23 Exhibit Share up?

24 MS. OLALDE: I didn't put it on hers  
25 because it's too complicated.

1 MS. SMITH: Sure.

2 MS. OLALDE: So I've got it here if  
3 you'd like to scroll anywhere.

4 THE WITNESS: Okay.

5 Q. Okay. And when I ask you questions, I'll  
6 direct you to certain pages that will show up on the  
7 video.

8 A. Okay. And you would like me to read this  
9 first.

10 Q. Yeah just scroll through it, the  
11 documents there so you will see what I'm talking  
12 about.

13 A. (Pause.)

14 Okay.

15 Q. Okay. So on the first page there's an  
16 email. Do you see that?

17 A. I do.

18 Q. In that email it says: Kindly confirm if  
19 you have any changes and I will post.

20 A. Uh-huh, yes.

21 Q. What do you mean by "post" in that email?

22 A. I will post the final agenda to meet that  
23 72-hour statutory deadline for a meeting -- for a  
24 proper meeting notice.

25 Q. And where are agendas posted?

1 A. They are posted on the Galveston County  
2 main public website and they are also posted  
3 physically at 722 Moody public notice display.

4 Q. And when are agendas posted?

5 A. They're posted 72 hours prior. Which for  
6 a Monday meeting, for example, would be --  
7 statutorily would be Friday by 8:30 --

8 Q. Uh-huh.

9 A. -- but I like to post them Thursday  
10 evenings typically just to avoid -- our software is  
11 kind of old so we do have some issues, so just to be  
12 proactive and get those posted timely.

13 So to answer your question, Thursday  
14 at -- in the evening before I leave, I like to post.

15 Q. Do you ever post agendas earlier than the  
16 Thursday before a Monday meeting?

17 A. It's not really typical because ideally  
18 departments would have all of their items in on  
19 time, but that's not usual. So usually it -- it is  
20 that Thursday, I would say.

21 Q. Okay. And you also post additional  
22 backup materials for your agendas that call for it?

23 A. The backup is posted on our main website.  
24 We -- that goes hand in hand with our SIRE Agenda  
25 Management. We have a public page and that public

1 page will include a agenda as far as the actual  
2 agenda, for example, if it's a ten-page agenda, but  
3 there's also a pocket link that the public can click  
4 on and that's where they would be able to review the  
5 agenda and click on a specific item that they were  
6 looking for that -- that backup documentation,  
7 respectively.

8 Q. Okay. So if I were looking at an agenda,  
9 would the agenda item be hyperlinked?

10 A. So we have three -- currently, in our  
11 current system, we have three options. There is an  
12 agenda hyperlink and then there is an agenda packet.  
13 So the agenda hyperlink you would have to click on  
14 that item directly and it would take you hyperlinked  
15 to that specific item. But if you click on the  
16 packet, you could actually view the packet in its  
17 entirety. So if it's 800, a thousand pages, then it  
18 would be -- so you have access to the same, it's  
19 just one's HTML and one's, like, PDF packet.

20 Q. Thank you.

21 A. Uh-huh.

22 Q. So scrolling through Exhibit 1 with this  
23 email, did you also post the proposed voting  
24 precinct map on the second page?

25 A. I believe so.

1 Q. And how do you determine what additional  
2 material must be posted with an agenda?

3 A. If an -- how do I determine?

4 Q. What additional material must be posted  
5 with an agenda? So, for example, with this email --

6 A. Okay.

7 Q. -- that we're looking at in Exhibit 1 --

8 A. Uh-huh.

9 Q. -- how did you know that you had to also  
10 post the Proposed Voting Precincts that's attached  
11 to this email?

12 A. I was emailed by engineering with the map  
13 and I'm not sure what their directive was, but they  
14 were to contact me and provide that so that I could  
15 upload that to the language that was in this case  
16 requested by Commissioner Clark.

17 Q. And how is that communicated to you?

18 A. I don't recall specifically, but I know  
19 for this meeting Nathan and I had talked about  
20 making sure that he had it, you know, before that  
21 statutory deadline, which would be similar if we  
22 have a special meeting, for example, and, you know,  
23 let's say a commissioner or Judge Henry says we're  
24 going to have a special meeting, this is an item  
25 that's going to be added, you're going to get the

1 language and backup from this department, please,  
2 you know, communicate with them, that way you get  
3 your language and backup and make sure you let them  
4 know that we have to meet that deadline. And then I  
5 would be in communication with that department that  
6 would then provide that.

7           Once I would upload -- if they uploaded  
8 it or I added an item as far as language, then I  
9 would provide that draft to the judge and confirm  
10 that this is, in fact, the item that you've  
11 requested and the backup that goes respectively with  
12 that item.

13           Q.     Okay. And -- how do you know that  
14 another department would be emailing you,  
15 Ms. Martinez?

16           A.     Well, I don't -- our office doesn't  
17 handle engineering maps, so, yeah, I wouldn't be  
18 able to tell you, but I know that once I got the  
19 call from Commissioner Clark that he was requesting  
20 this item on the agenda, he explained to me that I  
21 would need to get in touch with Nathan. And Nathan  
22 works in engineering and their department handles  
23 the mapping so --

24           Q.     I see.

25           A.     Yeah.

1 Q. When you say "Nathan," you mean Nathan  
2 Sigler?

3 A. That's correct.

4 Q. Thank you.

5 Do agendas change after they've been  
6 posted online?

7 A. They can, but I typically don't like to  
8 do that which is why I try to do the Thursday just  
9 to make sure. There have been occasions where we've  
10 had to add an additional item or revise maybe the  
11 language, but that's not typical.

12 But I definitely prefer to post them and  
13 have them ready just because of the software issues  
14 we've had were end of life, I much rather prefer to  
15 confirm as in this email that -- or any agenda item  
16 that it's -- that it is the correct and final before  
17 I have to put it up and take it down.

18 Q. How does the process work for changing an  
19 agenda after it's been posted?

20 A. It can't be changed if past that 72-hour  
21 notice. So we have a tight window as well. If I  
22 post it on Thursday and I get a notification Friday  
23 that we have to take it down, you know, it would be,  
24 perhaps, a department head might contact me and say  
25 we need to, you know, tweak this language or

1 perhaps, you know, we didn't provide adequate  
2 backup, whatever the case may be specifically, but  
3 they would contact me, which is not good for the  
4 agenda coordinator because you've already posted it  
5 and you'd have to take it down. But it would just  
6 be a notification that we need to make a revision.

7 Q. Uh-huh.

8 A. If it's after 9:30 that Friday, I  
9 wouldn't be able to take it down, it would just be  
10 posted as-is so...

11 It would usually be a verbal call because  
12 it's pressing, so they would contact Linda Liechty.

13 Q. Are agenda items deferred?

14 A. They are.

15 Q. Under what circumstances are they  
16 deferred?

17 A. I -- if a commissioner would need  
18 additional information, if there's a question about  
19 a contract, if -- there may be a missing document or  
20 there's not specific -- that would be up to the  
21 commissioners court to decide so...

22 Q. Can any commissioner defer an item, to  
23 your knowledge?

24 A. Yes.

25 Q. And while you observe these commissioners

1 court meetings you notate that an item has been  
2 deferred?

3 A. Yes.

4 Q. Okay.

5 A. My -- my notes would be the same as the  
6 county clerk's. You know, she -- she then goes and  
7 adds those in the minutes, so I would just make sure  
8 to mirror what she's writing and I could go back  
9 and, you know, just confirm that we're all on the  
10 same page, so...

11 Q. So you can refer to the minutes to know  
12 what item has been deferred?

13 A. Uh-huh, yes.

14 Q. Okay. During your employment with  
15 judge -- with Judge Henry, do you recall drafting  
16 any ag- -- agenda items related to redistricting?

17 A. No, not other than the agenda itself, but  
18 drafting -- can you clarify?

19 Q. Sure.

20 Based on my understanding of what you  
21 said, please clarify or correct me if I'm wrong,  
22 when the commissioners court would like to add an  
23 item to an agenda, you draft that language based on  
24 what they tell you to write or based on your  
25 understanding of what would be discussed. Is that

1 correct?

2 A. I don't like to assume, that's why I  
3 always try to get them to give me that directive  
4 while I have them on the phone. I'll converse with  
5 them I'm adding this item to the agenda. They'll  
6 provide that language. I repeat that language.  
7 It's just second nature for me because I don't want  
8 to -- you know, I don't -- I don't want to post the  
9 agenda and take it down. So it's a lot of back --  
10 backend work.

11 So they know sometimes I may ask them  
12 more than once just to make sure that I'm  
13 understanding what their request is. I don't want  
14 to interpret, I want to make sure I understand their  
15 request as if -- as correct as possible --

16 Q. Okay.

17 A. -- so...

18 Q. Thank you.

19 Okay. So during your time working for  
20 Judge Henry, do you recall writing agenda items  
21 related to redistricting?

22 A. No.

23 Q. Okay.

24 MS. SMITH: I would like to pull up  
25 Tab 2. And it will be marked as Exhibit 2.

1 (Exhibit 2 was marked.)

2 Q. Okay. Could you look through this  
3 document just to familiarize yourself with what it  
4 is?

5 A. Sure. And I don't have my glasses --

6 Q. Okay.

7 A. -- if I'm squinting.

8 (Pause.)

9 Okay.

10 MS. OLALDE: (Unintelligible).

11 A. (Pause.)

12 Okay.

13 Q. Is this an agenda for a commissioners  
14 court meeting scheduled for January 25th, 2021?

15 A. That's correct.

16 Q. Did you draft this agenda?

17 A. I did.

18 Q. Could you please look at the last page of  
19 the agenda?

20 A. Okay. I'm on the last page.

21 Q. Okay. Do you see the letter E?

22 A. I do.

23 Q. It says: Consideration of approval of  
24 engagement of counsel for redistricting based on  
25 2020 census?

1 A. I do.

2 Q. Does that refresh your recollection of  
3 drafting an agenda item related to redistricting?

4 A. It does not.

5 Q. Okay.

6 A. Because departments add their items.

7 Q. Uh-huh.

8 A. This item is under general counsel.

9 Q. Uh-huh.

10 A. And that item would be added by our legal  
11 services coordinator. Those would all fall under  
12 general counsel. So I recall seeing this item on  
13 the agenda because I review the entire agenda.

14 Q. Uh-huh.

15 A. But all of those items that are on there  
16 are conversations with counsel and they are added on  
17 the item- -- not all of them, all of the time, but  
18 most of the time our legal services coordinator  
19 would add those items on the agenda.

20 Q. Okay.

21 A. But not all the time. There could be a  
22 request where a commissioner might add me -- ask me  
23 to add something.

24 Q. Uh-huh.

25 A. But these would fall under that

1       respective department.

2           Q.     Okay.  So here on Page 8, No. 64, it says  
3       General counsel.  So the items listed under the  
4       64 --

5           A.     Would typically be added or requested by  
6       general counsel.

7           Q.     Okay.

8           A.     Uh-huh.

9           Q.     And you stated that the legal services  
10       coordinator --

11          A.     Uh-huh.

12          Q.     -- would add them?

13          A.     Uh-huh.

14          Q.     And do you know who the legal services  
15       coordinator was at this time?  May have added --

16                       (Simultaneous speaking.)

17          A.     Yes.  Veronica VanHorn.  Now, I can't say  
18       specifically that she might have added it.  If she  
19       would have been out of the, you know, out of the  
20       court that day or out of work, you know, off that  
21       day, if I would have gotten the directive to add  
22       this from general counsel, then I would have added  
23       that item.  But doesn't -- I don't recall.  But,  
24       yes, it does fall under the general counsel.  And so  
25       action agendas, all of the departments have the

1 option to add their own under action.

2 Q. (Unintelligible) a lot about agendas?

3 A. Yes.

4 Q. I see. Oh, I see. Action agenda is at  
5 the bottom of Page 7?

6 A. Those -- yes. Those are under -- under  
7 the consent agenda.

8 Q. Thank you. Very clear, right. Okay.

9 Are you aware of when the commissioners court began  
10 their redistricting practice?

11 A. Can you be more specific?

12 Q. Sure. Are you aware of when Judge Henry  
13 and the other commissioners began considering  
14 redrawing the commissioners court maps and  
15 precincts? Are you aware of the time frame when  
16 that occurred?

17 A. When -- your first question was, am I  
18 aware when it began?

19 Q. Yes.

20 A. No.

21 Q. Are you aware of the general time frame  
22 when that was occurring?

23 A. Based on commissioners court agenda items  
24 requested, I -- to my knowledge, when it was brought  
25 to my attention, probably the fall of 2021.

1 Q. Okay.

2 MS. SMITH: Okay. I'd like to show  
3 Ms. Martinez Tab 3. That will be marked as  
4 Exhibit 3. And I believe that would be marked.  
5 (Unintelligible) and submit 3.

6 (Exhibit 3 was marked.)

7 Q. If you wouldn't mind, well, once it's  
8 been marked, if you wouldn't mind perusing it very  
9 briefly.

10 MR. TOTH: Okay. It's in the marked  
11 exhibits folder now. It's Exhibit 3.

12 A. (Pause.)

13 Okay. I've seen it.

14 Q. So these are minutes from the  
15 January 25th, 2021, commissioners court meeting.  
16 Right?

17 A. Yes.

18 Q. Could you please look at the  
19 second-to-last page, Agenda Item 61(e), I believe.

20 A. 61(e)?

21 Q. Oh, sorry. 64(e). It's at the bottom of  
22 Page 10 of this PDF.

23 A. I see it.

24 Q. Do you see where it says: Item deferred  
25 by County Judge Henry?

1 A. I do.

2 Q. Based on your own personal knowledge, do  
3 you know why this item was deferred?

4 A. I don't.

5 Q. Thank you.

6 MS. SMITH: You can take that down.

7 Q. Do you know who Paul Ready is?

8 A. I do.

9 Q. Who is he?

10 A. General counsel for Galveston County.

11 Q. Without telling me the substance of any  
12 of your conversations with him, how often are you in  
13 contact with him, if at all?

14 A. I couldn't routinely quantify that. But  
15 I would say I see him generally at court, maybe once  
16 a month, you know, when we have court in Galveston.  
17 It depends on if an item is requested, and he's  
18 providing that language and backup documentation.  
19 But I would say maybe once a month, I would say.

20 Q. Without telling me the substance of any  
21 of your conversations, were you in contact with  
22 Mr. Ready during this 2021 redistricting practice,  
23 when you became aware of it?

24 A. Yes.

25 Q. How often were you in contact with him,

1 without telling me the substance of your  
2 conversation?

3 A. During that time?

4 Q. Yes.

5 A. I would say maybe once a week, maybe.

6 Q. Now, was that amount of contact with him  
7 more often than usual?

8 A. It would depend on if he was working on  
9 something specifically and needed to, you know,  
10 request an item, as I mentioned earlier if  
11 Veronica's out, he needs to make sure that we add an  
12 item. It just depends. You know, if she's out of  
13 the office, he'll contact me to make sure that his  
14 items are, you know, requested on there. But it  
15 just depends. You know, currently I might see him  
16 once a month. Next week, there might be a contract  
17 that a department head is checking status on. And I  
18 might need to reach out to him and ask him if  
19 Veronica is not available.

20 MS. OLALDE: Just -- you would ask  
21 him and -- just wait for a question.

22 THE WITNESS: Okay.

23 A. Just typically once a week, if in that  
24 time.

25 THE WITNESS: Thank you.

1 MS. OLALDE: That's okay. You're  
2 okay.

3 Q. I would like to show you Tab 4. And I  
4 will mark it as Exhibit 4.

5 (Exhibit 4 was marked.)

6 Q. Would you mind scrolling through this  
7 email and the attachments --

8 A. Okay.

9 Q. -- to it?

10 A. (Pause.)

11 Okay.

12 Q. In the middle of the first page, there is  
13 an email from you to Mr. Ready, Tyler Drummond, Mark  
14 Henry, and Veronica VanHorn. Is that accurate?

15 A. Yes.

16 Q. The email from you states: Attached is a  
17 fully executed engagement letter after court  
18 approval.

19 Do you see that?

20 A. I do.

21 Q. And you looked through the pages attached  
22 to it. Correct?

23 A. I did.

24 Q. On Page 3 of this document, do you see a  
25 letter dated January 20th, 2021?

1 A. I do.

2 Q. Do you recall seeing this letter before?

3 A. As part of the commissioners court  
4 backup.

5 Q. When did you first see the letter?

6 A. I don't recall.

7 Q. As you review this letter, are you aware  
8 of what the letter is for?

9 A. I am not.

10 Q. Okay. We can stop showing that document.  
11 I would like to show you a document labeled Tab 14.  
12 I would like to mark it as Exhibit 5.

13 (Exhibit 5 was marked.)

14 Q. Let's see.

15 MS. OLALDE: Whichever one is easier  
16 for you.

17 THE WITNESS: If it's just a  
18 one-pager.

19 MS. OLALDE: Is one page?

20 MS. SMITH: No, it's several pages.

21 THE WITNESS: I'm sorry.

22 MS. OLALDE: No worries.

23 MS. SMITH: Sure.

24 A. (Pause.)

25 Okay.

1 Q. Okay. Do you see an email from Brandy  
2 Chapman to you dated April 5th, 2021?

3 A. Yes.

4 Q. And the subject line of the email is:  
5 Commissioners court 4/5/21. Is that right?

6 A. Yes.

7 Q. And the email states: Dianna, attached  
8 are fully executed copies of Agenda Items 11 and 13  
9 for your records.

10 Is that right?

11 A. Yes.

12 Q. Could you scroll through the attached  
13 documents very quickly? (Unintelligible) on --

14 A. Yes.

15 Q. Okay. And you'll see on the second page  
16 a letter dated January 20th, 2021?

17 A. Uh-huh.

18 Q. Does this look like the letter that we  
19 previously discussed in Exhibit 4?

20 A. Based on the letterhead it looks --  
21 appears to be.

22 Q. And you see that it says, in the  
23 regarding line: Holtzman Vogel --

24 I can't pronounce that name. But it says  
25 engagement letter?

1 A. Yes.

2 Q. Okay. Do you have an understanding of  
3 what the engagement is in this letter?

4 A. I do not.

5 Q. Okay. We can take that exhibit down.

6 I'd like to show you Tab 5. And we can  
7 mark that as Exhibit 6.

8 (Exhibit 6 was marked.)

9 A. All right.

10 Q. If you wouldn't mind just quickly  
11 scrolling through this document.

12 A. Sure.

13 (Pause.)

14 Okay.

15 Q. Okay. So this is an agenda for a  
16 commissioners court meeting scheduled for April 5th,  
17 2021. Is that right?

18 A. Correct.

19 Q. Did you draft this agenda or any items on  
20 it, rather?

21 A. I draft -- I compiled the document,  
22 but -- is that your question?

23 Q. No. When you say you "compiled the  
24 document," what do you mean?

25 A. Electronically gather all of the

1 requesting department's information to create the  
2 draft and final agenda.

3 Q. Okay. Okay. Could you look at Page 2 of  
4 this document, Agenda Item 11?

5 A. Okay.

6 Q. It says: Consideration of approval of an  
7 engagement of counsel based on 2020 census submitted  
8 by county judge.

9 Did you draft that agenda item?

10 A. Submitted by the county judge. That  
11 would have been the directive of the county judge or  
12 our chief of staff. I would -- it would come  
13 directly from our office.

14 Q. Right. So did you enter this language  
15 into the agenda system?

16 A. That's correct.

17 Q. Okay. And who told you what to write for  
18 this agenda item?

19 A. I don't recall specifically, but it would  
20 have been Judge Henry or Tyler Drummond.

21 Q. Do you recall why they asked you to  
22 include it, to the extent you have any personal  
23 knowledge about it?

24 A. No.

25 Q. Okay. I'd like to direct your attention

1 to the previous exhibit.

2 THE WITNESS: Excuse me.

3 MS. OLALDE: Do you want some water?

4 THE WITNESS: Yeah.

5 Q. Exhibit 5.

6 A. Uh-huh.

7 Q. As we discussed, this email includes

8 fully executed copies of Agenda Item 11.

9 Is this January 20th, 2021, letter,

10 included in Exhibit 5, related to Agenda Item 11 on

11 Exhibit 6?

12 MS. OLALDE: And, Counsel, for the

13 record, the January 5th, is that the Holtzman Vogel,

14 just so that we're clear?

15 MS. SMITH: I'll rephrase.

16 MS. OLALDE: Thank you.

17 MS. SMITH: Sure.

18 Q. So looking at the letter in Exhibit 5 --

19 A. Okay.

20 Q. -- dated January 20th, 2021.

21 A. Okay.

22 Q. Is this related to Agenda Item 11 on the

23 April 5th, 2021, agenda?

24 A. So is --

25 MS. OLALDE: Objection -- objection;

1 vague. Calls for speculation.

2 A. Okay. So you're asking does this letter,  
3 the January 20th, '21 letter, is that relative to --  
4 can we go back?

5 Q. Well, let me rephrase. Okay.

6 So as we discussed, when uploading agenda  
7 items, or rather -- no, strike that.

8 As we discussed when uploading the agenda  
9 onto the public website, you receive backup  
10 documents that must be posted along with the agenda.

11 Is that correct?

12 A. That's correct.

13 MS. OLALDE: Objection. Go ahead.  
14 Just give me a second to get an objection out there.  
15 But go ahead.

16 Q. Okay. In the email in Exhibit 5 on  
17 Page 1, Brandy Chapman writes to you: Attached are  
18 fully executed copies of Agenda Items 11 and 13 for  
19 your records.

20 Right?

21 A. That's what her email states.

22 Q. And the subject line of this email is:  
23 Commissioners Court 4/5/21.

24 Correct?

25 A. Yes.

1 Q. What is your understanding of this email  
2 to you?

3 A. When an item is added to the  
4 commissioners court agenda, if it falls under county  
5 judge or general counsel, those fully executed  
6 documents are scanned and provided to us for our  
7 records as a fully executed contract.

8 So she's going to provide those as  
9 final -- that will be uploaded to the minutes. This  
10 is your final copy. This is your minutes final  
11 document, your fully executed.

12 Q. Okay. And these fully executed agenda  
13 items, 11 and 13, what agenda are they for, to your  
14 knowledge?

15 A. Based on the subject, 4/5/21.

16 Q. You mean the 4/5/21 commissioners court  
17 meeting?

18 A. Correct.

19 Q. All right. And you see an attachment, it  
20 says: 11.pdf, 13.pdf?

21 A. Yes.

22 Q. Looking at the first document attached to  
23 this email, would this first document, the letter  
24 dated January 20th, 2021, be the PDF that is labeled  
25 "11.pdf"?

1 A. Yes.

2 Q. Okay. So the January 20th, 2021, letter  
3 is related to Agenda Item 11 for commissioners court  
4 meeting on April 5th, 2021?

5 MS. OLALDE: Objection.

6 Q. Is that correct?

7 MS. OLALDE: Calls for speculation.

8 You can answer to the extent you have  
9 personal knowledge.

10 A. Based on Brandy's email that she's  
11 providing to me, she -- her -- the context of her  
12 email says that: The executed copies for No. 11 and  
13 13 are provided for your records.

14 It appears that No. 11 is the letter,  
15 with the letterhead.

16 Q. The January 20th, '21 letter. Correct?

17 A. It appears so.

18 Q. Okay. Now, looking back at Exhibit 6 on  
19 Page 2, referring to Agenda Item 11, where it says  
20 "consideration of approval of an engagement of  
21 counsel based on 2020 census submitted by county  
22 judge," is the January 20th, 2021, letter that  
23 Brandy Chapman sent to you the document that was  
24 uploaded for this agenda item?

25 A. It appears to be.

1 Q. Okay. Now, you looked at this  
2 January 20th, 2021, letter. Correct?

3 You said it today.

4 A. Yes.

5 Q. Do you know who Dale Oldham is?

6 A. I do not.

7 Q. Okay. There's no question before you  
8 (phonetic).

9 MS. OLALDE: Whenever you get to a  
10 stopping point, if we could just take a quick  
11 break --

12 MS. SMITH: Sure.

13 MS. OLALDE: -- for the restroom.

14 MS. SMITH: We can stop now.

15 MS. OLALDE: Okay.

16 THE VIDEOGRAPHER: We can take a  
17 break now?

18 MS. SMITH: Yes.

19 THE VIDEOGRAPHER: Okay. The time is

20 11:06 20 a.m. We're off the record.

21 (Break.)

22 THE VIDEOGRAPHER: We're back on the  
23 record. The time is 11:19 a.m.

24 MS. SMITH: Ms. Chapman, could you  
25 read the last question I asked?

1 THE STENOGRAPHER: Yes. I'm sorry.

2 I just put food in my mouth.

3 (The requested material was read.)

4 Q. Okay. I'd like to show you a document  
5 that's labeled Tab 6, and will be marked as  
6 Exhibit 7.

7 (Exhibit 7 was marked.)

8 MS. OLALDE: That's just a one-page.  
9 Correct?

10 MS. SMITH: Yes.

11 MS. OLALDE: If you want to make it  
12 bigger, is that easier for you?

13 THE WITNESS: That's fine.

14 Q. In the subject line at the top of this  
15 page it states: Invitation: Galveston County  
16 redistricting @ Wednesday, December 16th --  
17 December 16, 2020, 10:00 a.m. to 11:00 a.m. CST.

18 Do you see that?

19 A. I do.

20 Q. A few lines down, attendees, it lists you  
21 and Tyler Drummond. Do you see that?

22 A. I do.

23 Q. Did you receive this calendar invite?

24 A. I don't recall.

25 Q. Do you have any reason to believe you did

1 not receive it?

2 A. It might not have been direct to my  
3 email. It might have come across my desk because I  
4 have access to Judge Henry's. We're on a -- like a  
5 group -- anything that's -- may come across his  
6 meetings -- or his calendar invites may come across  
7 mine, but I don't recall seeing this direct to mine.

8 Q. So what do you mean when you say invite  
9 to Judge Henry might come across your desk?

10 A. I have access to his calendar, so that  
11 might come across on his calendar. But I -- I'm on  
12 that list -- like IT has it set up to where I have  
13 access. So that's the only reason I would assume  
14 this would come across with my name on it.

15 Q. So does Tyler -- do you know whether  
16 Tyler Drummond also has access to Judge Henry's  
17 calendar?

18 A. I believe so.

19 Q. Do you know whether Linda Liechty has  
20 access to Judge Henry's calendar?

21 A. I believe so.

22 Q. Do you know whether Linda Liechty was  
23 working for Judge Henry on December 16th, 2020?

24 A. Yes.

25 Q. Do you have a sense of why Linda

1 Liechty's name is not listed as an attendee?

2 A. I don't.

3 Q. So where it says "attendees," is your  
4 understanding that your name is listed there because  
5 you have access to Judge Henry's calendar?

6 MS. OLALDE: Objection; asked and  
7 answered.

8 Q. You can answer the question.

9 A. It was asked and answered.

10 Q. No, you have to answer the question.

11 MS. OLALDE: Hold on. Hold on.

12 MS. SMITH: Okay.

13 MS. OLALDE: Don't, you know, push  
14 her. You can answer the question. I have to make  
15 my objections for the record, but you can answer the  
16 question.

17 A. I don't recall seeing this come across my  
18 email calendar. I can only assume that it did  
19 because I have access to Judge Henry's calendar. I  
20 did not -- I don't recall this. This doesn't look  
21 familiar to me.

22 Q. I'm not sure that was the question.

23 MS. SMITH: Ms. Chapman, could you  
24 read back my last question?

25 THE STENOGRAPHER: Just one second.

1 You keep catching me at a bad time, sorry, as far as  
2 food.

3 (The requested material was read.)

4 A. Yes.

5 Q. Because you are listed as an attendee,  
6 were you required to attend this meeting?

7 A. No.

8 Q. Did you attend this meeting?

9 A. No.

10 Q. Why not?

11 A. I wasn't aware of this meeting. But in  
12 my role, I wouldn't attend a redistricting meeting.

13 Q. Why not?

14 A. This is not part of my role, my current  
15 duties would not be communicating with general  
16 counsel regarding redistricting, that would not fall  
17 under my -- my role.

18 Q. Did it fall under your role as office  
19 coordinator?

20 A. It did not.

21 MS. OLALDE: Objection; asked and  
22 answered.

23 Q. Well, you stated your current role which  
24 is senior policy and constituent advisor. Your  
25 prior role is office coordinator?

1 MS. OLALDE: And she's already  
2 testified that she hasn't worked with redistricting  
3 and this is dated --

4 MS. SMITH: In her current role.

5 MS. OLALDE: -- and this is dated in  
6 2020.

7 MS. SMITH: Okay.

8 Q. So I'm going to take that down and show  
9 you a document labeled as Tab 7.

10 MS. SMITH: It's one page.

11 MS. OLALDE: Okay.

12 (Exhibit 8 was marked.)

13 Q. We can zoom in on the top of that page.  
14 Okay. In the subject line at the top it states:  
15 Accepted conference call re: Redistricting;  
16 attendees: Judge Henry, Commissioner Apffel, Paul  
17 Ready and Dale Oldham?

18 MS. OLALDE: Just a second. I'm  
19 going to download it.

20 THE WITNESS: Oh. I can --

21 MS. OLALDE: You want to see this  
22 one?

23 THE WITNESS: No, that's fine.

24 A. I do see that. That's correct.

25 MS. OLALDE: I just have this little

1 window.

2 A. I see that.

3 Q. It states that this meeting occurred on  
4 September 8th, 2021, does that sound accurate based  
5 on what you see?

6 A. Yes.

7 Q. And the location is -- oh, in the  
8 location line it states that: Linda will initiate  
9 the call in.

10 Right?

11 A. Correct.

12 Q. Do you have an idea of who Linda might  
13 be?

14 A. Linda Liechty is our executive office  
15 assistant.

16 Q. Okay.

17 A. Uh-huh.

18 Q. And a few lines down, it states  
19 "Attendees." And it lists you and Tyler Drummond.  
20 Do you see that?

21 A. I see it.

22 Q. Did you receive this calendar invite?

23 A. I don't recall.

24 Q. Do you know why you received this  
25 calendar invite? Sorry.

1 MS. SMITH: Sorry. (Unintelligible).

2 Q. Okay. Strike that.

3 Do you have an understanding of why you  
4 are listed as an attendee on this calendar invite?

5 A. I do not.

6 Q. Are you aware of any other meetings  
7 between Dale Oldham and Judge Henry regarding  
8 redistricting other than the two calendar invites  
9 that you've seen today?

10 A. I do not.

11 Q. Are you aware of any meetings between  
12 Dale Oldham and Tyler Drummond?

13 A. I do not.

14 Q. Are you aware of any meetings between  
15 Dale Oldham and any other commissioners?

16 A. Not to my knowledge.

17 Q. Do you work with any of the other  
18 commissioners in your role?

19 A. I do. Uh-huh.

20 Q. What work do you do with them?

21 A. Commissioners court agenda.

22 Q. Uh-huh.

23 A. So if they have any requests, they would  
24 go through me as I add all of their requests.

25 Q. And that's the extent of your work with

1 the commissioners?

2 A. Yes, ma'am.

3 Q. Do you know who Thomas Bryan is?

4 A. I do not.

5 Q. Now, I'd like to show you a document

6 labeled Tab 8 and we'll mark that as Exhibit 9.

7 (Exhibit 9 was marked.)

8 A. (Pause.)

9 Okay.

10 Q. This is an email from you to Mark Henry  
11 copying Tyler Drummond?

12 A. Yes.

13 Q. Your email to Judge Henry states: Kindly  
14 see draft for Friday's special meeting.

15 Do you see that?

16 A. Yes.

17 Q. Do you recall drafting the agenda that's  
18 attached to this email?

19 A. Yes.

20 Q. Who told you what to include in the draft  
21 agenda?

22 A. That would have been either Judge Henry  
23 or Tyler Drummond.

24 Q. And how did they communicate that to you,  
25 the requirement to draft this agenda?

1           A.     It would have most likely been, you know,  
2     verbally since this is a special meeting.

3           Q.     Verbally in person?

4           A.     Verbally over the phone.

5           Q.     Based on looking at this email, do you  
6     have a sense of when you were told to draft this  
7     agenda?

8           A.     I don't have an exact date in mind for  
9     2021, but definitely 72 hours prior to that meeting  
10    notice requirement.

11          Q.     Okay. I'm going to direct your attention  
12    to Page 3. Now, I'd like to direct your attention  
13    to Page 2. Do you see Agenda Item No. 3(a)?

14          A.     Yes.

15          Q.     The agenda item states: County Judge,  
16    consideration of an order establishing new  
17    commissioners precinct boundaries.

18                    Is that right?

19          A.     Correct.

20          Q.     Who told you this specific language to  
21    include in -- for this agenda?

22          A.     I would have -- I don't recall. It would  
23    have been Judge Henry, Tyler, or general counsel.

24          Q.     General counsel tells you an -- an agenda  
25    item for the county judge?

1 A. (Nods.)

2 Q. How often does that happen?

3 A. It would be often. General counsel is an  
4 action header on our agenda.

5 Q. Well, this agenda is listed under "County  
6 Judge."

7 A. Uh-huh.

8 Q. And in a prior agenda we looked at  
9 together today, the agenda item header was "General  
10 Counsel"?

11 A. Correct.

12 Q. How do you determine -- how is it  
13 determined whether an agenda -- an agenda item would  
14 be listed under general counsel rather than county  
15 judge?

16 MS. OLALDE: Objection; calls for  
17 speculation.

18 You can answer.

19 A. That would be by the directive of the  
20 county judge.

21 Q. So the county judge would tell you  
22 whether it should be listed under county judge or  
23 general counsel?

24 A. Upon his review of the draft agenda, he  
25 may make those changes.

1 Q. Okay. So are there ever instances, to  
2 your knowledge, that the general counsel enters  
3 agenda items under county judge rather than general  
4 counsel?

5 A. General counsel has requested items to go  
6 under the county judge.

7 Q. How often is that? I think you might  
8 have answered that before, but...

9 A. It's hard to quantify that.

10 Q. But it's not unusual?

11 A. It's not unusual. Uh-huh.

12 Q. And, in this case, you don't know whether  
13 it was Judge Henry or the general counsel who told  
14 you the language to include under 3(a). Right?

15 A. In this case, I don't recall which --  
16 whether it was County Judge Mark Henry or general  
17 counsel.

18 Q. To your knowledge, did Tyler Drummond  
19 review this draft agenda?

20 A. Yes.

21 Q. How do you know that?

22 A. I send all drafts to Tyler and Judge  
23 Henry.

24 Q. Okay. So --

25 A. Most of the time.

1 Q. So in this email you're -- it's directed  
2 to a judge and Tyler is copied. Right?

3 A. I don't have an email in front of me.

4 Q. Oh, sorry. We'll have to scroll up.

5 A. Yes.

6 Q. And even though the email is only copying  
7 Tyler, he would still review an agenda, to your  
8 knowledge?

9 A. To my knowledge.

10 Q. Okay. To your knowledge, did Judge Henry  
11 review this agenda?

12 A. Yes.

13 Q. To your knowledge, did Judge Henry  
14 approve it?

15 A. Yes.

16 Q. Okay. And where was this agenda posted  
17 once it was finalized?

18 A. On our public website and physically  
19 posted at our building for public display.

20 Q. And do you recall when the agenda was  
21 posted?

22 A. It would have been 72 hours prior to the  
23 November 12th, so on or about November 9th before  
24 1:30 p.m.

25 Q. Previously we discussed instances where

1 you post the agenda on Thursday nights before a  
2 Monday meeting. Are you able to post agendas prior  
3 to the 72-hour requirement for special meetings?

4 A. It's required that I post a special  
5 meeting or any meeting 72 hours prior.

6 Q. Right. My question is, are there  
7 instances where you post agendas prior to 72 hours,  
8 like more than 72 hours before the special meeting  
9 like you do with some regular meeting?

10 A. I always post agendas prior to 72 hours  
11 and would generally like to post them within a --  
12 it's custom that I would post them within that time  
13 and maybe the -- a time frame to where we have  
14 included everything that needs to be on there.

15 So I always post 72 hours prior perhaps,  
16 you know, less than 12 hours before. It's -- due to  
17 our process, it's usually the day before the 72-hour  
18 notice to cap- -- to make sure we capture everything  
19 and don't have to leave anything out.

20 Q. Thank you.

21 MS. OLALDE: Ms. Smith, I'm going to  
22 move her video -- her -- her video blocks are  
23 blocking some of the callouts, so I'm going to move  
24 that for her.

25 MS. SMITH: Uh-huh.

1 MS. OLALDE: If that's okay with you?

2 MS. SMITH: That's fine.

3 MS. OLALDE: Perfect. Sorry.

4 Q. Do you know whether you posted any  
5 additional materials with this agenda?

6 A. Can you rephrase the question for me?

7 Q. Do you know whether you posted any backup  
8 material with this agenda?

9 A. Yes.

10 Q. What material was that?

11 A. The backup documentation respective to  
12 each item.

13 Q. Can you be more specific?

14 A. Items 1, 2, and 3. Any relative backup  
15 documentation that would correlate with that item.

16 Q. Do you recall what the relevant backup  
17 documentation was for Item 3A?

18 A. I don't specifically, context, but I'm  
19 going to -- I don't recall, but I would say that it  
20 would be relative to that item. No. -- oh.

21 MS. OLALDE: You can scroll on this  
22 one.

23 THE WITNESS: Yeah.

24 Q. Have you completed your answer?

25 A. Uh-huh. Yes.

1 Q. Okay. Thanks. How did you determine  
2 what additional material must be posted with this  
3 particular agenda item?

4 A. With this particular item, the department  
5 that would be working with us as far as the mapping  
6 so I can -- if I recall correctly, it probably would  
7 have been engineering who would have provided us  
8 with the backup documentation that would go -- that  
9 could correlate with this item specifically.

10 Q. And earlier we discussed you receiving a  
11 call from Commissioner Clark about who you needed to  
12 communicate with in a different department regarding  
13 that. In this particular case with this agenda  
14 item, do you recall who communicated with you that  
15 you needed to coordinate with another department to  
16 upload maps?

17 A. Based on my recollection, I -- it was a  
18 verbal request from Tyler -- from Tyler Drummond on  
19 behalf of the county judge.

20 Q. And the verbal request was communicated  
21 over the phone?

22 A. Correct.

23 Q. Are you aware of any discussion regarding  
24 holding a special meeting regarding Agenda Item 3(a)  
25 prior to November 12th, 2021?

1 A. I am not.

2 Can you rephrase that for me? I'm sorry.

3 Q. Sure. Are you aware of any discussions  
4 about holding a special meeting regarding Agenda  
5 Item 3(a) earlier than November 12th, 2021?

6 A. Yes.

7 Q. Okay. Who discussed it with you?

8 A. It would have been Tyler Drummond on  
9 behalf of Judge Henry.

10 Q. What was the substance of those  
11 discussions?

12 A. Posting a special meeting for  
13 approximately a couple of days prior to this 12th  
14 meeting.

15 Q. What do you mean? I'm sorry. I didn't  
16 understand?

17 A. Posting a special meeting around the time  
18 frame of November 12th.

19 Q. By posting a special meeting, you mean  
20 scheduling it before 11 -- or November 12th --

21 A. Around this time frame. Posting a  
22 special meeting relative to this item around that  
23 time frame.

24 Q. Earlier than November 12th, 2021?

25 A. If my memory serves me right, it was

1 around this time frame.

2 Q. Okay. I'd like to show you a document  
3 marked as Tab 9. And we'll mark it as Exhibit 10.

4 (Exhibit 10 was marked.)

5 MS. OLALDE: Is it one page?

6 MS. SMITH: It's three pages.

7 MS. OLALDE: Okay.

8 A. (Pause.)

9 Okay.

10 Q. Okay. This is an email from you to Tyler  
11 Drummond dated November 5th, 2021. Is that right?

12 A. Correct.

13 Q. Okay. Your email to Tyler Drummond  
14 states: Please see attached draft and let me know  
15 if you have any changes.

16 Is that right?

17 A. Correct.

18 Q. Do you recall drafting the agenda for  
19 special commissioners court meeting scheduled for  
20 February 9, 2021, that's attached to this email?

21 A. Yes.

22 Q. Who told you what to include in this  
23 draft agenda?

24 A. I discussed it with legal counsel.

25 Q. All right.

1 A. Yes.

2 Q. Over the phone?

3 A. Yes. I believe so, over the phone.

4 Q. Okay. Did you have any discussion about  
5 it in person?

6 A. No.

7 Q. Okay. Did you have any discussion about  
8 it via email?

9 A. I believe so.

10 Q. Okay. Looking at the draft agenda, I  
11 believe on the next page, second page, Agenda  
12 Item 3(a). Do you see that?

13 A. I do.

14 Q. Okay. It says: Consideration of an  
15 order establishing new commissioners precinct  
16 boundaries.

17 Do you see that?

18 A. Correct.

19 Q. Is this the same agenda item that we  
20 discussed in the prior exhibit?

21 A. What exhibit number are you referring to?

22 Q. 9.

23 MS. OLALDE: Would you like to see  
24 that?

25 THE WITNESS: Uh-huh.

1 A. No.

2 Q. How do you know it's different?

3 A. There's a 3(a) on this draft and there's  
4 a 3(a) and (b) on the previous one.

5 Q. I'm referring only to 3(a). Is the 3(a)  
6 in Exhibit 9 the same as the 3(a) in Exhibit 10?

7 A. It appears to be.

8 Q. What is your understanding of what the  
9 court would be considering -- or discussing, rather,  
10 in Agenda Item 3(a)?

11 A. I didn't have or don't have -- I didn't  
12 have at the time, any knowledge of -- in-depth  
13 knowledge of what this request was. Other than the  
14 language itself establishing new commissioners  
15 precinct boundaries.

16 Q. And -- I might get an asked-and-answered  
17 objection, but was this agenda item in Exhibit 10,  
18 you received the language from general counsel.  
19 Correct?

20 MS. OLALDE: Objection; asked and  
21 answered.

22 You can answer.

23 A. General counsel provided language for --

24 MS. OLALDE: For the record, she's  
25 viewing Exhibit 9 on one screen because she --

1 because of a prior question, and I know that you  
2 have the call-out of Exhibit 10 on the screen. So  
3 just for the record, that's what's going on.

4 A. So which one are you asking me about?

5 Q. Exhibit 10. That should be on --

6 A. This screen.

7 Q. This screen in front of you, yes?

8 A. What's on my screen was provided to me by  
9 general counsel.

10 Q. Okay. Now, let's look at the other  
11 screen that has Exhibit 9. Who provided you the  
12 language for agenda item 3(a) there?

13 A. General counsel. The --

14 Q. You also told me that Tyler Drummond  
15 called you and told you what language to include  
16 right here (unintelligible).

17 A. I will clarify. I received a call from  
18 Tyler Drummond to advise that we would be needing to  
19 post a special meeting, and that I would receive  
20 information from general counsel.

21 Q. Okay. And general counsel -- well --

22 Did general counsel advise you as to  
23 which government -- or county entity that would need  
24 to provide you documents as backup for this agenda  
25 item?

1 MS. OLALDE: I'm going to object to  
2 the disclosure of any conversations with Paul Ready  
3 as general counsel for the county and instruct you  
4 not to answer as the substance of those  
5 conversations.

6 MS. SMITH: Okay.

7 Q. To your knowledge, did Tyler Drummond  
8 review the draft agenda in Exhibit 10?

9 MS. OLALDE: Objection; calls for  
10 speculation.

11 You can answer. It's all right.

12 A. You're talking about this one? Okay.

13 Q. (Unintelligible)?

14 A. Okay. It's okay. It's okay. I believe  
15 he did.

16 Q. Okay. To your knowledge, did Tyler  
17 Drummond edit the draft agenda?

18 A. I don't believe he did.

19 Q. Now, please read Agenda Item 3(b).

20 MS. OLALDE: This is Exhibit 10.

21 Correct?

22 MS. SMITH: Yes.

23 A. (Pause.)

24 Okay.

25 Q. Was this agenda item included in the

1 November 10th -- strike that.

2 Was this agenda item included in the  
3 November 10th -- strike that.

4 Was this agenda item included in the  
5 November 12th, 2021, agenda in Exhibit 9?

6 MS. OLALDE: This is Exhibit 10. And  
7 that is also Exhibit 10, correct, on the screen?

8 MS. SMITH: Probably, yeah.

9 MS. OLALDE: Okay. So we'll -- we'll  
10 go back to Exhibit 9 on the screen so that you can  
11 look.

12 MS. SMITH: I should have print them  
13 out for you.

14 MS. OLALDE: That's okay.

15 A. (Pause.)

16 They are not the same.

17 Q. That's not what I asked. I asked whether  
18 3(b) was included in the November 12th, '21 -- 2021  
19 agenda?

20 A. It was not.

21 Q. Okay. Do you know why it was not  
22 included?

23 A. I do not.

24 Q. Would someone have told you to remove it?

25 A. I don't recall.

1 Q. Do you see any other differences between  
2 the November 9 agenda and the November 12th agenda?  
3 So comparing Exhibits 9 and 10?

4 MS. OLALDE: Do you want her to read  
5 through both of the agendas and tell you what the  
6 differences are?

7 MS. SMITH: Can she see any  
8 differences?

9 Q. I mean, you noticed the differences  
10 between 3(a) and 3(b). 3(b) not being -- 3(b) not  
11 be included on November --

12 A. Okay. Now, that part was removed. So  
13 now I can see both.

14 MS. OLALDE: Can we have something  
15 specific to ask her? Don't ask her to compare  
16 documents, please. If you have a specific question,  
17 she can answer.

18 Q. Do you know why the special meeting did  
19 not occur on November 9th, 2021?

20 MS. OLALDE: Objection; asked and  
21 answered.

22 You can answer.

23 A. I believe it was my ability to secure a  
24 quorum.

25 Q. Why weren't you able to secure a quorum?

1 | A. I have to secure three commissioners or a  
2 | judge to be present. If I cannot secure that based  
3 | on their schedule, then we wouldn't be able to hold  
4 | the meeting.

5 | Q. So you weren't able to secure the quorum  
6 | because three were not available. Is that right?

7 | A. It would have been schedule related, to  
8 | my knowledge.

9 | Q. The schedules of the commissioners and  
10 | Judge Henry?

11 | A. Correct.

12 | Q. Returning back to Exhibit 10. The date  
13 | of the email to Tyler Drummond regarding the  
14 | November 9 special meeting agenda was November 5th,  
15 | 2021. Correct?

16 | A. Yes.

17 | Q. Referring back to Exhibit 9, your email  
18 | to Judge Henry regarding the November 12th special  
19 | meeting agenda is dated November 9th. Correct?

20 | MS. OLALDE: Objection; asked and  
21 | answered.

22 | A. Correct.

23 | Q. Why did you wait until November 9th to  
24 | object -- to update the November 12th special  
25 | meeting agenda?

1 A. That's 72 hours prior to the 12th. I  
2 would have sent that to Judge Henry and Tyler for  
3 review.

4 Q. Could the agenda have been updated  
5 sooner?

6 MS. OLALDE: Objection; calls for  
7 speculation.

8 You can answer.

9 A. I would post a meeting when it is  
10 complete, when I have received all of the  
11 information that's pertaining to that item. So I  
12 would have posted the meeting when the language and  
13 backup was complete.

14 Q. I'm not asking about posting. I'm asking  
15 about updating it. Why didn't you update the  
16 November 12th special meeting agenda sooner than  
17 November 9th?

18 A. We didn't hold the November 9th. That  
19 was a draft. That was not a meeting.

20 Q. I didn't say it was a meeting. Why  
21 didn't you update the November 12th special meeting  
22 draft agenda prior to November 9th?

23 A. I don't recall.

24 Q. If the agenda were updated sooner, could  
25 you have posted it more than three days before the

1 November 12th special meeting?

2 MS. OLALDE: Objection; calls for  
3 speculation.

4 A. If it were updated sooner, I could have  
5 posted it. I would update it at the direction of  
6 our office, so...

7 I wouldn't myself be the one updating any  
8 language or backup documentation. I would do that  
9 upon the completion of that. And that happened to  
10 be November 9th.

11 (Exhibit 11 was marked.)

12 Q. Okay. I'd like to show you a document  
13 marked as Tab 10. I'll mark it as Exhibit 11. I  
14 don't think we'll be going back and forth between  
15 the two (unintelligible). Life will be a bit  
16 easier.

17 Okay. This document is three pages. If  
18 you wouldn't mind scrolling through those three  
19 pages.

20 A. Okay.

21 Q. Do you see an email from Nathan Sigler to  
22 you dated November 9th, 2021, around the second half  
23 of the first page?

24 A. Yes.

25 Q. How often do you communicate with Nathan

1 Sigler?

2 A. Not often.

3 Q. And by what means do you communicate with  
4 him? By phone?

5 A. By phone, by email.

6 Q. In person?

7 A. Not usually.

8 Q. Via text message?

9 A. No.

10 Q. Via instant messenger, if you-all have  
11 that?

12 A. No.

13 Q. What is generally the substance of your  
14 communications with Mr. Sigler?

15 A. I don't generally communicate with  
16 Mr. Sigler. County businesswise I don't.

17 Q. To your knowledge, does Mr. Sigler  
18 communicate directly with Judge Henry?

19 MS. OLALDE: Objection; calls for  
20 speculation.

21 A. I couldn't confirm that.

22 Q. To your knowledge, does Mr. Sigler  
23 communicate directly with Tyler Drummond?

24 MS. OLALDE: Same objection.

25 A. I wouldn't be able to confirm that.

1 Q. Did you attend any meetings with Nathan  
2 Sigler and Judge Henry?

3 A. I did not.

4 Q. Did you schedule any meetings between  
5 Judge Henry and Mr. Sigler?

6 A. No.

7 Q. Did you attend any meetings with  
8 Mr. Sigler and Mr. Drummond?

9 A. I did not.

10 Q. Did you schedule any meetings with  
11 Mr. Sigler and Mr. Drummond?

12 A. No, ma'am.

13 Q. Okay. Looking back at this Exhibit 11,  
14 and scrolling down to the third page, where at the  
15 top it says: Map 1 Commissioner Precincts.

16 A. I see it.

17 Q. What is your understanding of the  
18 attachment to this email that you forwarded to Tyler  
19 Drummond?

20 MS. OLALDE: Objection; vague.

21 You can answer.

22 A. Yeah, can you be more specific?

23 Q. What is your understanding of the Map 1  
24 Commissioner Precinct document that you forwarded to  
25 Tyler Drummond?

1           A.     My understanding was that this item was  
2 relative to the language that I was directed to add  
3 to the agenda.

4           Q.     Which agenda?

5           A.     The November --

6                     MS. OLALDE:   You can scroll.

7           A.     The November 12th meeting.

8           Q.     Agenda Item 3A?

9                     MS. OLALDE:   Which agenda is the  
10 agenda for November 12th?

11                    MS. SMITH:    9.

12                    MS. OLALDE:   Exhibit 9?

13           A.     I believe so.

14           Q.     To your understanding, why did Mr. Sigler  
15 send the map to you?

16           A.     I don't know who his directive came from.  
17 I know he contacted me.   And I know Commissioner  
18 Clark asked me to put a placeholder on the agenda.  
19 But if my memory serves me correct, I don't believe  
20 it was this one.   I believe it was a later agenda.

21                    I can't say for certain, but he was  
22 directed to send me the backup documentation that --  
23 for the language that was provided to me.

24           Q.     And why did you forward the map to Tyler  
25 Drummond?

1 A. For his review.

2 Q. Why did he need to review it, to your  
3 knowledge?

4 MS. OLALDE: Objection; still calls  
5 for speculation.

6 But you can answer to the extent you  
7 know.

8 A. I send all backup -- I'm sorry -- I send  
9 all draft agendas to both Tyler and Judge Henry. So  
10 that would be routine.

11 Q. Was this map, Map 1 Commissioner  
12 Precinct, posted with the November 12th, 2021,  
13 special meeting agenda?

14 A. You said November 12th?

15 Q. Yes.

16 A. I believe so.

17 Q. Did you attend the November 12th, 2021,  
18 special meeting?

19 A. I did not.

20 Q. Why not?

21 A. That special meeting occurred at our  
22 League City office, and I generally attend meetings  
23 that are in the Galveston location.

24 Q. Did you observe it via live stream?

25 A. I did.

1 Q. Do you recall the discussion regarding  
2 Agenda Item 3A?

3 A. I do.

4 Q. What do you recall about the discussion  
5 regarding Agenda Item 3?

6 A. I recall members of the public signing up  
7 to speak on behalf of their -- to make a public  
8 comment regarding this item.

9 Q. Do you recall any of the comments that  
10 were made?

11 A. I do.

12 Q. Could you tell me any that you recall,  
13 sitting here today?

14 A. I recall constituents discussing their  
15 concerns, and I recall constituents making their  
16 public comment in favor, and also constituents  
17 making their comments opposing the proposed action.

18 Q. Did you have a sense of whether the  
19 majority -- strike that.

20 Were there constables present at the  
21 meeting?

22 A. I'm aware of one constable that was  
23 present, based on the video and my request for  
24 security.

25 Q. Why did you request their presence?

1 A. There's not a deputy on duty in that  
2 building, so I always reach out to them to advise of  
3 a special meeting that would fall outside of the  
4 regular meeting.

5 Q. Of the speakers of the members of the  
6 public, who opposed the maps discussed in Agenda  
7 Item 3? Do you recall why they opposed the maps?

8 A. Based on the recording on the live  
9 stream, I recall some constituents were concerned  
10 about their representation in the precinct.

11 Q. Do you recall why -- strike that.  
12 Of the speakers, the members of the  
13 public who spoke in favor of one or both of them, do  
14 you recall why they were in favor or the reason that  
15 they gave in favor?

16 A. I believe I recall that they were in  
17 favor of the representation of the mapping -- the  
18 concerns for their precinct, like they were -- they  
19 were in favor of it because -- I believe it was --  
20 yeah, I don't recall.

21 Q. Okay. Moving on. We can take this  
22 exhibit down.

23 Do you know Commissioner Robin Armstrong?

24 A. I do.

25 Q. When did he join the commissioners court,

1 if you know?

2 A. I don't know the specific date, but it  
3 was after Commissioner Clark had passed away.

4 Q. Do you know how he was -- strike that.  
5 Was he appointed to the court?

6 A. I believe so.

7 Q. Who appointed him?

8 A. The commissioners court.

9 Q. To your knowledge, when did Judge Henry  
10 start the process of looking for someone to fill  
11 Commissioner Clark's empty seat?

12 MS. OLALDE: Objection; calls for  
13 speculation.

14 A. I'm not certain. Commissioner Clark was  
15 ill. I'm not sure.

16 Q. Did Judge Henry ever discuss Commissioner  
17 Armstrong's appointment with you?

18 A. No.

19 Q. Do you know whether Judge Henry  
20 considered any other candidates before Armstrong's  
21 appointment?

22 A. I don't.

23 I'm sorry. I know I should speak up. I  
24 need to --

25 MS. OLALDE: It's the microphone.

1 A. Okay.

2 Q. We're nearing the end.

3 A. This noise is (demonstrating).

4 Q. It's very irritating, yes. I'm sorry.

5 A. No, no. It's like -- it's like -- it's  
6 rocking me here. I'm sorry.

7 Q. It's fine. And if you want to take a  
8 break, we can.

9 A. I'm good. Thank you.

10 Q. Before Commissioner Armstrong was  
11 appointed, had Judge Henry ever mentioned him to  
12 you?

13 A. No.

14 Q. Before Commissioner Armstrong was  
15 appointed, were you aware of any communications  
16 between him and Judge Henry?

17 A. I am not.

18 Q. Before Commissioner Armstrong was  
19 appointed did Tyler Drummond ever discuss his  
20 appointment with you?

21 A. No.

22 Q. Before Commissioner Armstrong's  
23 appointment were you aware of any communications  
24 between Mr. Drummond and Commissioner Armstrong?

25 A. No.

1 Q. During the process of filling -- during  
2 the process of filling the late Ken Clark's seat,  
3 did Judge Henry ever mention that Commissioner  
4 Armstrong was black?

5 MS. OLALDE: Objection; calls for  
6 speculation and vague.

7 Just to clarify, are you asking --  
8 mentioning to Ms. Martinez or --

9 MS. SMITH: Yes.

10 MS. OLALDE: Okay. Sorry.

11 MS. SMITH: I apologize. I will  
12 rephrase.

13 Q. During the process of Commissioner  
14 Armstrong's appointment and filling the late Ken  
15 Clark's seat on the court, did Judge Henry ever  
16 mention to you that Commissioner Armstrong was  
17 black?

18 A. No.

19 Q. During the process of appointing  
20 Commissioner Armstrong and filling the seat of the  
21 late Ken Clark's seat on the court, did Mr. Drummond  
22 ever mention to you that Commissioner Armstrong is  
23 black?

24 A. No.

25 Q. Do you know who Commissioner Stephen

1 Holmes is?

2 A. I do.

3 Q. Have you ever spoken to him?

4 A. Yes.

5 Q. Have you ever done any work for him?

6 A. Could you clarify?

7 Q. Sure.

8 Have you ever added an -- added an agenda  
9 item for him?

10 A. Yes.

11 Q. Do you recall what that agenda item was?

12 A. It's been ten years and, you know,  
13 sometimes I get -- I couldn't give you specifics.

14 Q. Okay.

15 A. There was a lot.

16 Q. Sure.

17 Have you had any other commissioners  
18 court-related interactions with Stephen Holmes  
19 besides adding agenda items?

20 A. In addition to commissioners court, can  
21 you just clarify that for me?

22 Q. Sure.

23 Have you had any other commissioners  
24 court-related interactions with Commissioner Holmes  
25 besides adding agenda items for him?

1 A. Yes.

2 Q. What were those interactions?

3 A. Off the top of my head, National Day of  
4 Prayer, we scheduled him as a speaker and present  
5 resolutions. I worked with his coordinator to set  
6 that up. Board-related items for our commissioners  
7 court agenda boards. Well, no, that's agenda  
8 related, but...

9 Q. Any other interaction work related?

10 A. Not off the top of my head.

11 Q. Okay. Has Judge Henry ever talked to you  
12 about Stephen Holmes?

13 A. Can you be more specific?

14 Q. Has Judge Henry ever spoken to you about  
15 Stephen Holmes as a commissioner and his performance  
16 as a commissioner?

17 A. No.

18 Q. Has Judge Henry ever spoke with you about  
19 Commissioner Holmes' requested agenda items?

20 A. I believe so.

21 Q. And what was the substance of those  
22 conversations?

23 A. There's numerous agenda items but if  
24 there's an item that might be on the consent agenda,  
25 for example that won't go under a specific

1 commissioner, he might ask who requested that item  
2 to go on the agenda and then I would clarify who.

3 Q. Do you have a sense of Judge Henry's  
4 relationship with Commissioner Holmes?

5 A. I would say professional.

6 Q. Are you aware of any communications  
7 between Judge Henry and Commissioner Holmes?

8 A. Could you be more specific?

9 Q. Are you aware of any communications  
10 between Judge Henry and Commissioner Holmes related  
11 to redistricting?

12 A. I am not aware.

13 Q. We're in the home stretch. At least with  
14 me.

15 A. Okay.

16 Q. I assume you know who Commissioner Apffel  
17 is?

18 A. I do.

19 Q. And have you ever spoken to him?

20 A. I have.

21 Q. Have you ever done any work for him like  
22 the work that you've done for Commissioner Holmes?

23 A. Yes.

24 Q. Could you tell me a bit about the work  
25 that you've done for him?

1           A.     Similarly, I have scheduled him to be  
2     present and present a resolution for National Day of  
3     Prayer or perhaps a retirement for a constituent  
4     that might be in his precinct. I might arrange the  
5     delivery of a resolution to him so that he can  
6     present it at such function.

7                     If there are county invoices for  
8     contracts that he may want to check the status on, I  
9     might do that for him if it's related to his  
10    precinct.

11           Q.     Do you have a sense of Judge Henry's  
12    relationship with Commissioner Apffel?

13           A.     I would say the same. Business  
14    professional.

15           Q.     Are you aware of any communications  
16    between Judge Henry and Commissioner Ap- -- Apffel  
17    related to redistricting?

18           A.     Not to my knowledge.

19           Q.     Moving on to Commissioner Giusti. I  
20    assume you know who he is as well?

21           A.     Correct.

22           Q.     And have you ever spoken to him?

23           A.     I have.

24           Q.     And have you ever done any work for him  
25    similar to the work that you've done for

1 Commissioners Apffel and Holmes?

2 A. Yes, ma'am.

3 Q. Is it similar to the type of work that  
4 we've discussed already?

5 A. Yes, ma'am.

6 Q. Is there any other work that you've done  
7 for him specifically that differs?

8 A. No.

9 Q. Are you aware of any communications  
10 between Judge Henry and Commissioner Giusti related  
11 to redistricting?

12 A. Not that I know of.

13 Q. We spoke about Commissioner Clark and you  
14 mentioned that he has called you regarding agenda  
15 items. Is that right?

16 A. Correct.

17 Q. Have you done any other work with him  
18 just prior to his passing?

19 A. Yes.

20 Q. Is that work similar to the work that  
21 we've discussed regarding the other commissioners?

22 A. Yes.

23 Q. Is there any other work that differs from  
24 what we discussed? Are there any other  
25 commissioners?

1           A.     Just calendaring. He would have -- he  
2 had an assistant off and on. So if he didn't, he  
3 would ask -- ask me to coordinate his calendar.

4           Q.     Did you have a sense of his -- or  
5 Commissioner Clark's relationship with Judge Henry?

6           A.     Business professional.

7           Q.     I notice you're smiling, I wonder what  
8 that smile is about?

9           A.     Just -- he's -- it's not relative to  
10 that, he's gone and so --

11          Q.     Sure.

12          A.     -- I just -- it's just -- you know, you  
13 work with someone for a long time so...

14          Q.     I hear you.

15          A.     Yeah.

16          Q.     Are you aware of any communications that  
17 Judge Henry had with Commissioner Clark related to  
18 redistricting?

19          A.     I'm sorry. You said conversations?

20          Q.     Communications.

21          A.     Oh. Communications. Not that I'm aware  
22 of.

23          Q.     I have one last question. In the  
24 beginning, hours ago, we discussed the amount of  
25 special meetings that typically occur.

1 A. Okay.

2 Q. And in that discussion that we had, you  
3 stated that there was one regular meeting per month  
4 and a special meeting (unintelligible)?

5 A. Correct.

6 Q. Is that a new development or --  
7 (unintelligible) is that a new development?

8 A. It's a newer development.

9 Q. When did that -- the scheduling of one  
10 regular, one special meeting per month occur? When  
11 did that start?

12 A. It really started around COVID.

13 Q. Uh-huh.

14 A. And then I would say it evolved a little  
15 more around like May of last year.

16 Q. And what about COVID required there to be  
17 one regular meeting and one special meeting per  
18 month?

19 A. It was just social distancing concerns  
20 and the ability for commissioners at that time to  
21 attend court via Zoom. But just specifically just  
22 social distancing concerns.

23 Q. And you said this policy developed a bit  
24 more in May?

25 A. I'd say around like May of last year.

1 THE WITNESS: Excuse me.

2 Q. And what was that development?

3 A. There was a -- there was a -- a

4 discussion about it in court around that time that

5 it might be a good idea to -- and that was 2022.

6 The public discussion that they had that it might be

7 good to hold a meeting in Galveston and hold some in

8 League City.

9 Q. Let me just check with my colleague very  
10 quickly.

11 Okay. Thank you for answering my  
12 questions today. I'd like to yield you to my  
13 co-plaintiffs, if they have any questions.

14 MS. SPOTO: Yes.

15 EXAMINATION

16 BY MS. SPOTO:

17 Q. So Adrienne Spoto for the NAACP  
18 plaintiffs. Hi, nice to meet you. Do you want to  
19 take a break?

20 A. I'm good right now.

21 Q. Okay.

22 THE STENOGRAPHER: Your audio  
23 sounds -- I can hear you, but it sounds a little bit  
24 funny. I don't know if it's worth anybody -- you  
25 can just keep on going. You just sound a little

1 robotic. I'm not sure how to describe it, but --

2 MS. SPOTO: So do we want to go off  
3 the record maybe real quick to sort of get that  
4 sorted out from the start?

5 THE STENOGRAPHER: Well, as long as  
6 you're okay with it, the witness can hear you,  
7 that's fine. I just want to let you know. What do  
8 you think, Jason?

9 THE VIDEOGRAPHER: I hear it too.  
10 But also, we're at an hour and 13 minutes and we  
11 probably need to take a break in at least 15. Do  
12 you want to just take it now?

13 MS. SPOTO: We can take it now.

14 THE VIDEOGRAPHER: Yep. The time is  
15 12:32 15 p.m. We're off the record.

16 (Break.)

17 THE VIDEOGRAPHER: We're back on the  
18 record. The time is 1:27 p.m.

19 Q. Hi again, Ms. Martinez, as I said, I'm  
20 Adrienne Spoto representing the NAACP plaintiffs.  
21 And I have a few more questions for you I'll try not  
22 to repeat any of the topics and answers you've  
23 already provided.

24 A. Okay.

25 Q. So to start off, you -- you mentioned

1 earlier that -- that you're involved in the process  
2 of creating the backup, the meeting packets --

3 A. Yes.

4 Q. -- for commissioner agendas?

5 A. Yes.

6 Q. Great. So I believe that you said the  
7 departments generally send you information to  
8 include and you include that information?

9 A. If it's a regular meeting, they have  
10 access to add that item. If it's a special meeting,  
11 those are closed and they would be sent directly to  
12 our office.

13 Q. All right. Generally are there ever any  
14 times with regular meetings where you would be the  
15 one to add that in the backup?

16 A. Yes.

17 Q. And what times are those?

18 A. If there's a, for example, a department,  
19 a user, it would be their point of contact to add  
20 their items if they are going to be out of the  
21 office on leave. They might contact me and say, Can  
22 you please add these items to the agenda for me. Or  
23 they'll -- they'll state that they've added all of  
24 the items that they've received so far, but if their  
25 department head has anything additional, can they

1 contact me directly and therefore I'd add them for  
2 them. Excuse me.

3 Q. Generally if you are asked to include an  
4 item in the backup, would you include that  
5 document -- or strike that.

6 Is there any reason you wouldn't include  
7 a document in the backup if you were asked to?

8 A. Can you -- I don't want to say rephrase,  
9 but can you elaborate?

10 Q. Sure. So let's say when someone in one  
11 of the departments sends you a document and asks can  
12 you include this as the backup for agenda item so  
13 and so, or as the backup -- in the backup for this  
14 meeting, would you generally then go add that  
15 document into the backup?

16 A. Generally, yes.

17 Q. And are there -- are there circumstances  
18 you wouldn't?

19 A. Yes.

20 Q. And could you elaborate on what those  
21 are?

22 A. If the -- so, for example, we have a  
23 C.A.R. form which is part of our agenda process,  
24 where reviewing departments sign off on that. So if  
25 that document is not complete, I might omit that, or

1 if it's not completed, but we know we have a  
2 deadline but we have to add it for the 72-hour  
3 notice, then we have to provide the court final  
4 document for review prior to court, but it's not  
5 included in that meeting. That would be an example  
6 of not including it.

7 Q. And does anyone review the meeting backup  
8 before it's posted, or -- or do they just review the  
9 agenda itself?

10 A. If there's a specific item that they're  
11 looking at and they would like the review -- they  
12 reviewed the draft, and they're requesting the  
13 backup before I post it to the public, then yes.  
14 But that's where our C.A.R. form comes into play  
15 because all of those respective departments -- so,  
16 for example, those sign-offs, the department heads  
17 themselves, purchasing, legal, budget, auditor, they  
18 all sign off on it, and that item is then placed on  
19 the agenda. So the court, that's their process to  
20 make sure that when they get down to court they can  
21 make review and approve it in good faith.

22 Q. Okay. Just to make sure we have the  
23 record clear, is C.A.R. form an abbreviation for  
24 something?

25 A. Contract approval requests. But it's --

1 Okay.

2 Q. Oh, go on.

3 A. On, that's right. That's correct.

4 (Exhibit 12 was marked.)

5 Q. I'd like to go ahead and pull up Tab 3  
6 and have it marked as Exhibit 12.

7 MS. OLALDE: Is this a different  
8 Tab 3 than --

9 MS. SMITH: Yes.

10 MS. OLALDE: Thank you.

11 MS. SPOTO: Sorry. Mine -- mine are  
12 numbered separately from DOJ's.

13 MS. OLALDE: Sorry. Thank you.

14 MS. SPOTO: Thank you for clarifying.

15 Q. So are you seeing the document?

16 A. Uh-huh. Is it one page?

17 Q. This one might -- this one I think also  
18 includes attachments.

19 A. Okay.

20 Q. So it will be several pages. But --

21 MS. OLALDE: Usually it takes a few  
22 sections --

23 MS. SPOTO: Sure.

24 MS. OLALDE: -- for it to pop in and  
25 I'm getting it in a scrollable format for her right

1 now.

2 MS. SPOTO: Wonderful.

3 Q. So while that's getting set up, if you  
4 look at this document, it looks like it's an email  
5 from Paul Ready to you sent April 1st, 2021, at  
6 7:20 p.m. Does that sound right?

7 A. The email -- yes, at 7:20 p.m.

8 Q. And the subject line is: FWD:  
9 Engagement letter.

10 Right?

11 A. Correct.

12 Q. Do you remember receiving this email?

13 A. I do.

14 Q. Great. And looking at the contents, Paul  
15 says: The attached document is the backup for the  
16 redistricting counsel agenda item. I have reviewed  
17 it and approve.

18 Did I read that right?

19 A. Yes.

20 Q. Okay. And if we scroll down, I think it  
21 should appear, on the next page will be the  
22 attachment, and this is the January 20th, 2021,  
23 engagement letter subject line: Holtzman Vogel --

24 I also cannot pronounce that third name.

25 -- "Torchinsky PLLC engagement letter."

1 Is that right?

2 A. Yes.

3 Q. All right. And do you remember -- do you  
4 remember receiving this attachment?

5 A. Yes.

6 Q. Okay.

7 A. Yeah.

8 Q. Got it. Now, if we could pull up Tab 4.  
9 That will be exhibit -- marked as Exhibit 12. And  
10 this one is more than -- more than one page.

11 MS. OLALDE: Exhibit 13. Right?

12 MS. SPOTO: Exhibit 13. Sorry. I  
13 had been keeping track, but didn't start writing for  
14 my own.

15 (Exhibit 13 was marked.)

16 Q. So Exhibit 13, Tab 4. All right. So  
17 looking at the first page, it indicates: Agenda  
18 April 5th 2021, 9:30 a.m.

19 Right?

20 A. Okay.

21 Q. And are you able to see the -- the full  
22 document yet?

23 MS. OLALDE: Not yet. Just one  
24 second.

25 MS. SPOTO: Okay. And I don't mean

1 to rush. If you would just let me know when you've  
2 got that pulled up.

3 MS. OLALDE: It says "generating file  
4 preview." It may take a while.

5 Q. We can start going through maybe the  
6 version on --

7 MS. OLALDE: Can you allow --

8 MS. SPOTO: -- that shared screen.

9 MS. OLALDE: -- allow Ms. Martinez to  
10 scroll?

11 MS. SPOTO: Will that work? I think  
12 that's a technical question. So I don't know how to  
13 do that.

14 MR. TOTH: Are you not seeing it in  
15 Exhibit Share yet?

16 MS. OLALDE: I clicked on it, and  
17 usually it will do a circle and a little black  
18 screen before it pops up. And now it just said  
19 "general file preview may take a while."

20 MS. SPOTO: It is a large file. So  
21 you might have to download it.

22 MR. TOTH: She -- if she --

23 MS. OLALDE: (Unintelligible)  
24 megabytes. Okay.

25 MR. TOTH: If you want me to scroll

1 through this for her, I can. She can just tell me  
2 next page, next page, next page and I can do it.

3 MS. OLALDE: Hold on a second, if you  
4 can.

5 MR. TOTH: Up at the top, there is a  
6 download button.

7 MS. SPOTO: Do we want to go off the  
8 record while we sort this out?

9 MS. OLALDE: If we could just get  
10 this thing to pop up, that would be great. I just  
11 didn't know you were going to have a 30-megabyte  
12 exhibit. Or if you can email it or...

13 MS. SPOTO: I could email it. It  
14 won't be the marked version if I email it, but I  
15 don't know that that'll be faster though.

16 THE VIDEOGRAPHER: Do you guys want  
17 to go off?

18 MS. SPOTO: Let's go off the record.

19 THE VIDEOGRAPHER: The time 1:38 p.m.  
20 let's go off the record.

21 (Break.)

22 THE VIDEOGRAPHER: We're back on the  
23 record. The time is 1:41 p.m.

24 Q. So you're now seeing the full document.  
25 Right?

1 A. Yes.

2 Q. Okay. And if you scroll to Page 7,  
3 you'll see a page labeled: Agenda Item No. 1(d)?

4 A. Okay.

5 Q. Okay. So does this look like the PDF  
6 version of the meeting backup?

7 A. Yes.

8 Q. Great. And I think we already touched on  
9 this before the break, but just to make sure this is  
10 the -- this looks like the meeting backup for the  
11 April 5th, 2021, commissioners court meeting.  
12 Right?

13 A. It appears to be, yes.

14 Q. All right. And then looking at Page 2 of  
15 that document?

16 A. Okay.

17 Q. No. 11. That's the language you were  
18 looking at earlier. Right? Consideration of  
19 approval of an engagement of counsel based on 2020  
20 census submitted by county judge?

21 A. Okay.

22 Q. So does that -- that -- strike that.  
23 So -- so that Agenda Item No. 11, it  
24 doesn't use the word "redistricting," does it?

25 A. No, it does not.

1 Q. And it doesn't identify who the potential  
2 counsel are to be engaged. Right?

3 A. Correct.

4 Q. Okay. So this one's going to be a bit of  
5 a jump in the document to Page 237. When you get  
6 there let me know. If you prefer to scroll or if  
7 you just want to type 237 on the option to jump to  
8 that page. So just let me know when you get there.

9 A. Okay. I'll let you know in a second.

10 You said 237?

11 Q. Yes. It should say "Agenda Item No. 9"?

12 A. Okay. I'm here.

13 Q. All right. So you look on this page, it  
14 says "Agenda Item No. 9," right?

15 A. Yes.

16 Q. Okay. If you scroll down two pages -- as  
17 you scroll down you'll see an item, and then you  
18 scroll down another page, and you'll see the label  
19 "Agenda Item No. 10"?

20 A. Yes.

21 Q. Okay. And then if you scroll down,  
22 you'll see another document. And then the next  
23 page, Page 241, it says "Agenda Item No. 12."  
24 Right?

25 A. Yes.

1 Q. All right. So we saw documents for  
2 Agenda Items 9, 10, and 12.

3 A. Uh-huh.

4 Q. Right? But we didn't see one for Item  
5 No. 11.

6 A. Okay.

7 Q. Correct?

8 A. On this screen I'm looking at --

9 Q. Uh-huh.

10 A. -- I do not see one for Item No. 11.

11 Q. All right. So there was no backup item  
12 for the agenda consideration of approval of  
13 engagement of counsel.

14 MS. OLALDE: Objection.

15 Q. Right?

16 MS. OLALDE: Objection; calls for  
17 speculation.

18 To the extent you know, you can  
19 answer.

20 A. It appears that way.

21 Q. Do you know why it wasn't included?

22 A. Not specifically. If an item is --  
23 generally if an item is not included in the backup,  
24 it's because it's not completed, the review isn't  
25 completed. But I -- I can't give you specifics for

1 this item.

2 Q. Okay. We can go ahead and close that  
3 exhibit. So you also mentioned before generally  
4 there will be one regular meeting a month held at  
5 that 722 Moody location in Galveston. Right?

6 MS. OLALDE: Objection; asked and  
7 answered.

8 Q. You can answer.

9 A. Yes.

10 Q. All right. And there would be one  
11 special meeting a month. Right?

12 MS. OLALDE: Objection; asked and  
13 answered.

14 A. Yes.

15 Q. And would that one special meeting a  
16 month always be at Calder Annex in League City?

17 A. Typically.

18 Q. Typically.

19 So when you started working for Judge  
20 Henry, what was the practice of when and where to  
21 hold regular meetings versus special meetings?

22 A. In 2012, biweekly regular meetings were  
23 in Galveston. And any special meeting that might  
24 fall outside of that biweekly would be -- it could  
25 be either Galveston or League City.

1 Q. Do you -- do you remember how often those  
2 special meetings would be in Galveston versus League  
3 City?

4 A. At that time I'd guesstimate we'd have a  
5 special meeting once every couple of months or so --  
6 I'd be guessing -- back in 2012.

7 Q. Okay. So jumping ahead to fall of 2021.

8 A. Okay.

9 Q. Were there still the two regular meetings  
10 per month at the 722 Moody location?

11 A. There was always one regular meeting at  
12 the 722 Moody location. And during the fall of  
13 2021, they were probably a mix. I know earlier I  
14 mentioned that during COVID that kind of was really  
15 affected by that.

16 So fall of 2021 it was more common to  
17 have special meetings, in addition to the regular  
18 meetings more common -- commonly occurring compared  
19 to 2012.

20 Q. And then around May 2022 is when you  
21 shifted fully to one meeting per month at 722 Moody  
22 and one meeting per month at Calder Annex?

23 MS. OLALDE: Objection --

24 Q. Is that --

25 MS. OLALDE: -- asked and answered.

1 Q. -- right?

2 A. That sounds right. Uh-huh.

3 Q. So are you aware that the Texas  
4 government code sets the default meeting locations  
5 for commissioners court's regular meetings at the  
6 county seat?

7 MS. OLALDE: Objection to the extent  
8 it calls for any legal conclusion.

9 A. I'm not aware.

10 Q. All right. Is the 722 Moody location the  
11 county seat of Galveston, do you know?

12 A. That's correct.

13 Q. And are you aware that the Texas  
14 government code requires special meetings to be --  
15 to be held in a building providing public access  
16 that can accommodate the number of persons expected  
17 to attend that meeting?

18 MS. OLALDE: Objection to the extent  
19 counsel's question calls for a legal conclusion.

20 Q. Are you aware, to your knowledge?

21 MS. OLALDE: Same objection.

22 Q. Are you aware of that?

23 MS. OLALDE: Same objection.

24 Q. You can answer.

25 A. To my knowledge.

1 Q. And how do you determine how many people  
2 are expected to attend a meeting?

3 A. I wouldn't be able to -- to quantify  
4 that. There's no way of telling if -- one item we  
5 may receive multiple people and ten items might  
6 receive, you know, less. There's no way that I  
7 would be able to quantify that.

8 Q. Do you ever ask Judge Henry how many  
9 people he might expect to attend a meeting?

10 A. No.

11 Q. Do you ever ask Tyler Drummond how many  
12 people he might expect to attend a meeting?

13 A. Maybe.

14 Q. Do you remember if you asked Tyler  
15 Drummond how many people he expected to attend the  
16 November 12th, 2021, meeting?

17 A. Not specific numbers, no. I've never --  
18 I'm not going to say I've never. I haven't -- I  
19 don't recall asking Tyler for a specific meeting how  
20 many people he anticipated to attend.

21 Q. All right. And then for that meeting did  
22 you have any expectation or sense of how many people  
23 might attend?

24 A. I did not.

25 Q. Were you aware, during the 2021

1 | redistricting, that the county had an online portal  
2 | where people could submit public comments about the  
3 | proposed maps?

4 | A. On the day of the meeting I did hear some  
5 | of the constituents mention that they had submitted  
6 | their comments on that November -- I believe that  
7 | November 12th meeting.

8 | Q. But do you think that -- did you have any  
9 | awareness of that before the November 12th meeting?

10 | A. I did not.

11 | Q. All right. Did you know that during the  
12 | 2011 redistricting process, hundreds of people  
13 | attended public hearings about redistricting?

14 | A. No.

15 | Q. So how did you decide to choose the  
16 | Calder Annex location for the November 12th  
17 | redistricting meeting?

18 | MS. OLALDE: Objection; asked and  
19 | answered.

20 | A. I don't choose the location of the  
21 | meeting.

22 | Q. Okay. I'll rephrase.

23 | Do you know how Judge Henry decided to  
24 | choose the Calder Annex?

25 | MS. OLALDE: Objection; asked and

1 answered.

2 A. I do not.

3 Q. Were you aware that the Calder Annex was  
4 under construction during November 2021?

5 A. I was not.

6 Q. All right. And did you take any steps to  
7 ensure that there was adequate space for attendees  
8 at that November 12th meeting?

9 A. Could you clarify?

10 Q. Sure. Did you -- did you take any steps,  
11 ahead of that November 12th, 2021, meeting, to  
12 ensure there would be adequate space for -- for  
13 members of the public to attend?

14 A. Not anything different than our usual  
15 meetings that take place at Calder, which would just  
16 be having facilities set up, table seating and  
17 tables for the commissioners because it's -- with  
18 social distancing they got used to sitting socially  
19 distant.

20 So I would communicate that with our  
21 facilities department and let them know that we  
22 would be having a meeting that would fall outside of  
23 the regular and if we could get that set up. But  
24 not outside of that.

25 Q. Sorry. Just give me a little bit to look

1 through my notes here.

2 (Pause.)

3 Okay. You talked a bit earlier about the  
4 process for posting meeting agendas. I believe you  
5 said they're posted on the county public web page  
6 and then physically at 722 Moody.

7 A. Yes.

8 Q. Right? And just to clarify, are you the  
9 one who does that physical posting as well or is  
10 that someone else?

11 A. It is I. Uh-huh. Yes.

12 Q. Okay. So are notices of meetings also  
13 sent out via email?

14 A. That's correct.

15 Q. And who's responsible for sending those  
16 emails?

17 A. I send them out.

18 Q. All right. So could you walk me through  
19 a little bit about the order of those three steps,  
20 the posting on the websites, the sending out email  
21 notices, and physical posting. Like do they happen  
22 in a particular order?

23 A. Yes.

24 Q. And what is that order?

25 A. Once the agenda is -- the final is

1 | approved, then I would publish that final copy to --  
2 | in our software that then publishes through our SIRE  
3 | public page that is linked on our Galveston County  
4 | website.

5 |           And then once I upload that, that's where  
6 | that HTML and packet is available. Then I would go  
7 | into our county website. I would add the meeting  
8 | date and time and the agenda. So that would be an  
9 | announcement that would be on our main page.

10 |           And then once that announcement is  
11 | completed, then I would go downstairs to our display  
12 | for public meeting notices and I would physically  
13 | post one at the back of our building and in the  
14 | front of our building as well.

15 |           Q.     And then at what point in that process  
16 | are the emails sent out?

17 |           A.     Oh, I'm sorry. I would -- so it would be  
18 | published. Then I would send out the -- or I would  
19 | upload the announcement, I would send the email out,  
20 | and then on my way out of the building I would  
21 | publish those notices physically before I left the  
22 | parking lot.

23 |           Q.     Okay. Could you estimate, like, about  
24 | how much time passes between publishing the agenda  
25 | through your software and sending out the emails?

1           A.     Typically it's within the hour. I would  
2     guess it would be within the hour.

3           Q.     Could we pull up Tab 8, which will be  
4     Exhibit 14.

5                     (Exhibit 14 was marked.)

6           MS. SPOTO: All right. And this one  
7     is also more than one page, but shorter than the  
8     last exhibit.

9           MS. OLALDE: Shorter than 600 pages?

10          Q.     All righty. Are you able to see the full  
11     document on your end yet?

12                     MS. OLALDE: Just one second.

13                     MS. SPOTO: Okay. Yeah.

14                     MS. OLALDE: Okay.

15          Q.     All right. So if you look at this, it's  
16     an email from Linda Liechty, sent out on Tuesday,  
17     November 9th, 2021, at 1:39 p.m. Is that right?

18          A.     That's right.

19          Q.     And the subject line is: Commissioners  
20     court special meeting agenda November 12th.

21                     Right?

22          A.     Correct.

23          Q.     And then there's a whole bunch of names  
24     in the bcc field. Right?

25          A.     Yes.

1 Q. So -- so is this one of those emails

2 sending out the -- the meeting agendas?

3 A. Yes.

4 Q. And is this about, like, typically how

5 they would look?

6 A. Yes.

7 Q. Do you remember why Linda was the one to

8 send out this email instead of you?

9 A. Yes. I was hosting -- I was holding a

10 class for our -- a coworker who was out of the

11 office and I was downstairs in our commissioners

12 court. It was a safety course so to meet deadline

13 she emailed this out. I'm a- -- I'm believing

14 because I know we had the November 9th, I think the

15 November 12th meeting was two, I believe, so she

16 would have sent that out to meet that -- to send out

17 the email within that 72-hour period. So she sent

18 it out to our distribution list. This is a notice.

19 This is a typical notice that would go out to

20 internally and external folks that require -- that

21 request to be on this distribution list.

22 Q. Okay. So -- so like who gets on the

23 list, like people request to be added to it?

24 A. Yes.

25 Q. Is there anyone automatically on the

1 list?

2 A. Elected officials, department heads,  
3 users who submit their items on the agenda.

4 Q. All right. Do you remember, was Linda  
5 also the one who -- who handled the publishing the  
6 agenda online and the web page or did she just sent  
7 out the email?

8 A. I believe she just sent out the email.

9 Q. Okay. So were you the one who still  
10 handled the website?

11 MS. OLALDE: Objection; asked and  
12 answered.

13 A. Typically, it would have been me. I  
14 believe it was my -- it was me.

15 Q. All right. And then could we scroll down  
16 to the attachment?

17 A. Okay.

18 Q. Okay. And so this is the special meeting  
19 agenda for that November 12th, 2021, meeting.

20 Right?

21 A. Uh-huh. I see it.

22 Q. All right. And so it says: Special  
23 meeting agenda November 12th, 2021, 1:30 p.m.

24 Right?

25 A. That's correct.

1 Q. All right. If you give me just a little  
2 bit here to look over.

3 All right. I think we can take down that  
4 exhibit and those are all the questions that I had  
5 for you. So thank you so much. And I will turn it  
6 over to Petteway counsel.

7 EXAMINATION

8 BY MS. RICHARDSON:

9 Q. Hi, Dianna, good afternoon. Valencia  
10 Richardson for Petteway plaintiffs. Before I get  
11 started, I don't have that many more questions as I  
12 think K'Shaani and Adrienne covered the vast  
13 majority of mine. But before we get started, do you  
14 want to take about a five-minute break since we've  
15 been -- it's been about an hour or do you want to  
16 just keep going? It's up to you.

17 A. Keeping going if you're okay.

18 Q. Okay. Great. Just a few follow-up  
19 questions. This won't take long. Mine won't take  
20 long, I promise.

21 What commissioners court precinct do you  
22 live in?

23 A. I believe it used to be 2, on my end 2.  
24 I think it's 2.

25 Q. Oh, and I can clarify, since, you know,

1 the different lines are the subject of this lawsuit.

2 Which were you in before it changed in 2021?

3 A. Two.

4 Q. And then, are you still in 2 after the  
5 change?

6 A. Yes.

7 Q. Okay. Thank you for that clarification.

8 MS. RICHARDSON: Does the concierge  
9 have access to my private folder on Exhibit Share?  
10 If not, I can mark it myself.

11 MR. TOTH: Which one is it?

12 MS. RICHARDSON: The Kingpin Legal  
13 Center folder?

14 MR. TOTH: Yes, I have access.

15 MS. RICHARDSON: Okay. Perfect.

16 Would you mind marking Tab F in my  
17 folder as, I guess this is Exhibit 15.

18 MR. TOTH: Yes, that's correct.

19 (Exhibit 15 was marked.)

20 MR. TOTH: Give me one second and  
21 I'll pull it up also.

22 MS. RICHARDSON: Thank you so much.

23 Q. Okay. I'll give you a chance to review  
24 this email, let me know when you're ready?

25 A. Is it a one-pager?

1 Q. Yes, I believe so.

2 A. Okay.

3 MS. OLALDE: Valencia, can you make  
4 it any bigger?

5 MS. RICHARDSON: I can -- yes. Oh,  
6 well, I don't have access to the screen share, so...

7 MS. OLALDE: Okay.

8 MS. RICHARDSON: I think it's  
9 Michael, the concierge, is doing it for us. All  
10 right. And then we can scroll. Totally understand.  
11 I can't see these screens either.

12 A. (Pause.)

13 Okay.

14 Q. Okay. Ms. Martinez, what is this email?

15 A. This is my notification to the  
16 constable's office since we don't have a full-duty  
17 deputy like we do at 722 and they are housed in that  
18 building, I always send them a notification if any  
19 special meeting is going to happen and if -- if the  
20 constable could be present there for security.

21 Q. Okay.

22 A. That's my typical routine.

23 Q. So is that why you invited Constable West  
24 in particular?

25 A. It's his office, he's the constable in

1 that building. So I --

2 Q. (Unintelligible).

3 A. -- if he isn't available, then he would  
4 delegate that, but I leave that -- that's his -- at  
5 his direction.

6 Q. Okay. Do you ever request assistance  
7 from any other constables?

8 A. No, because he's the only constable  
9 office in that building so it --

10 Q. (Unintelligible).

11 I'm sorry, I interrupted you. What were  
12 you saying?

13 A. Go ahead.

14 Q. Oh, you can finish your answer. I'm  
15 sorry.

16 A. I'm good.

17 Q. You just said he was the only -- he's the  
18 only what, I'm sorry?

19 A. Correct. His office is housed in that  
20 building and since we -- the sheriff's office  
21 doesn't have a full-time deputy on duty there like  
22 we do at 722, I would reach out to them routinely if  
23 we have a special meeting to make sure that we have  
24 a deputy present for the public meeting.

25 To answer your question, his -- he is the

1 | only -- his office is the only constable office in  
2 | that building for that precinct so that's why I  
3 | reach out to him specifically.

4 | Q. And by "precinct," do you mean  
5 | commissioners court precinct or constable precinct?

6 | A. Constable precinct.

7 | Q. Okay. Thank you.

8 | Were there any safety concerns requiring  
9 | constable assistance for the November 12th meeting?

10 | A. Not anything out of the ordinary. I -- I  
11 | always request a constable to be there at every  
12 | meeting.

13 | Q. Why do you request a constable to be  
14 | there at every meeting?

15 | A. Because that is standard at our 722  
16 | meeting lo- -- meeting location. We have one deputy  
17 | that's full -- that's his duty and he is just  
18 | outside of the court, that is standard practice.

19 | Q. Ms. Martinez, you -- you said that you've  
20 | been working with -- for the county since 2012. Is  
21 | that correct?

22 | A. Yes, ma'am.

23 | Q. Do you recall any of the prior  
24 | redistricting sessions?

25 | A. I don't. I came to work in October 2012

1 for the county. So I was employed basically more  
2 towards the end, so I don't recall.

3 Q. Do you recall the ongoing -- the lawsuit  
4 that was ongoing against -- challenging the  
5 commissioners court precincts at that time?

6 A. Vaguely. I do remember executive  
7 sessions that would -- may appear. I would think  
8 that's probably where I would recall that language.

9 Q. What -- what do you recall about it?

10 A. They would appear on the agenda book.

11 Q. Do you recall the content of any of  
12 those -- those meetings?

13 A. I wouldn't be privy to an executive  
14 session meeting behind closed doors.

15 Q. Okay. Do you recall the 2013 lawsuit  
16 that was filed against the justice of the peace and  
17 constable districts or precincts rather?

18 A. I do remember that vaguely. There were,  
19 I believe, if I'm not mistaken, workshops JPs did  
20 discuss their concerns.

21 Q. What concerns were discussed?

22 A. I remember vaguely pay -- pay --  
23 salaries. Salaries specifically.

24 Q. When do you recall those conversations  
25 occurring?

1           A.     At the very beginning of my tenure. So  
2 probably -- I couldn't be specific. Maybe  
3 October -- I'm sorry, maybe 2013 or '14 perhaps.

4           Q.     Okay. And thank you. Yeah, I'm not  
5 asking you to guess, to the best of your knowledge.  
6 This isn't a guessing game. So thank you for that.

7                     Do you recall anything else about the  
8 commissioners court lawsuit back then?

9           A.     I don't.

10          Q.     Can we mark Tab A as Exhibit 16?

11                     (Exhibit 16 was marked.)

12          Q.     Actually, sorry, you've seen this one.  
13 So let's just skip that one and mark Tab B, sorry,  
14 not A, I guess Exhibit 17. We'll just have two --  
15 two duplicate exhibits.

16                     Okay. And I'll let you scroll, this  
17 should be multiple pages. Just let me know when  
18 you're ready?

19          A.     (Pause.)

20                     Okay.

21          Q.     Actually, I made a mistake. You did not  
22 review that. I want to go back to Exhibit 16 and  
23 have you review those so we'll talk about both these  
24 exhibits at the same time.

25          A.     Okay.

1 MS. OLALDE: Give me one second. I  
2 will pull it up. Tab A, Exhibit 16?

3 MS. RICHARDSON: Tab A, Exhibit --  
4 yes, this one, the one that's on the screen. I  
5 couldn't --

6 MS. OLALDE: Yeah.

7 MR. TOTH: That's correct. That's  
8 16.

9 MS. OLALDE: Thank you.

10 A. (Pause.)

11 Okay.

12 Q. Do you -- we'll start with Exhibit 16  
13 just to keep the record clean. Do you -- can you  
14 tell me what this email is?

15 A. Monday, July 23rd, 2018, 3:46 p.m.

16 Q. Uh-huh?

17 A. Would have been a letter that was  
18 received in our office mailed to the 722 address  
19 that I would have scanned over to the judge and  
20 Tyler.

21 Q. And do you see in later pages the  
22 attachment to that email?

23 A. I do.

24 Q. Do you recognize that document?

25 A. I don't.

1 Q. And I'll represent to you it was attached  
2 to the email above. So you -- did you send this  
3 document to Tyler Drummond in the email above? We  
4 can go back to Page 1. Yeah, Tyler and Judge Henry,  
5 rather.

6 A. Yes.

7 Q. Okay. These -- do you review the letters  
8 before you send them out to the judge?

9 A. I don't.

10 Q. Okay. Would you -- you would have been  
11 one to have received that letter that was attached  
12 to the email?

13 A. It is mailed to our county seat location.  
14 So when those letters come in and it's addressed to  
15 Judge Henry, he's over at our 131 Pecan address. So  
16 I would scan that letter, based on who it was  
17 addressed to, and I would copy Tyler on the email  
18 for their review. But in my role, I wouldn't review  
19 the context of the letter in my role.

20 Q. Okay. Did you -- do you recall receiving  
21 other letters like this at the time?

22 A. I couldn't tell you for certain.

23 (Exhibit 17 was marked.)

24 Q. Okay. And now we'll skip to Exhibit 17.  
25 Okay. And do you recall this -- can you tell us

1 what this email is?

2 A. I think we need to go back.

3 (Unintelligible) what exhibit number is this?

4 Q. 17, the very last exhibit and the last  
5 exhibit of the day so...

6 A. Yea.

7 (Pause.)

8 This would have been a letter that I  
9 would have received -- Commissioner Clark didn't  
10 have an assistant for a long time. So a lot of  
11 times, all of the commissioner's mail comes to 722.  
12 So this would have been a letter that I would have  
13 received and scanned over to him. It was addressed  
14 not -- yeah, addressed to him.

15 Q. Okay. Can you go to the next page? The  
16 letter that's attached. Did you review this letter  
17 before you sent it to him?

18 A. I did not.

19 Q. Do you recall if Commissioner Clark got  
20 letter -- other letters regarding redistricting that  
21 you sent to him at the time?

22 A. I don't.

23 Q. Okay.

24 A. To touch on that again, if his -- if he  
25 did have an assistant, when I did get mail, I would

1 hand that off to the assistant. If he didn't have  
2 an assistant, I would open it and scan it. Because  
3 over the time, there -- I very well could have  
4 received it, but I wouldn't have opened it. I would  
5 have given it to his assistant. During this time, I  
6 received this for him and scanned it.

7 Q. Thank you for that clarification. Did  
8 you receive any redistricting correspondence from  
9 any -- or to -- on behalf of any commissioner,  
10 rather?

11 A. Not to my recollection. I would -- I  
12 think -- not for redistricting. I don't believe so.

13 Q. All right. Other than the -- other than  
14 Judge Henry and in this case Commissioner Clark?

15 A. (Nods.)

16 Q. Okay. Did you communicate with any other  
17 commissioners regarding the 2021 redistricting  
18 process at all?

19 A. No.

20 Q. Okay. Okay. So a couple more questions.  
21 We can take this exhibit down. Final exhibit of the  
22 day.

23 Ms. Martinez, do you believe there's a  
24 history of discrimination in Galveston County? And  
25 I'll clarify. Do you believe there's a history of

1 racial discrimination in Galveston County?

2 A. Galveston County, the -- the location?

3 Galveston County my employer?

4 Q. Actually, thank you. Let's -- let's say

5 start with Galveston County the location?

6 A. There could be.

7 Q. What do you understand the history of  
8 discrimination to be in the -- in Galveston County  
9 as a whole?

10 A. I'm not really qualified to explain that  
11 in -- what's the word I'm looking for -- in detail.  
12 Can you clarify more? Can you rephrase it?

13 Q. I absolutely can. Based on your personal  
14 experience in the county and knowledge of the county  
15 as someone who's lived there her whole life, do you  
16 think -- what do you think the history of racial  
17 discrimination in Galveston County as a whole is?

18 MS. OLALDE: Objection to the extent  
19 it calls for speculation.

20 But you can answer.

21 A. You're asking me personally? I don't  
22 really have a experience to the explain that, but  
23 I'm sure it's possible that it could exist, if  
24 that's what you're asking.

25 Q. Okay. Now, I'll go to county. Do you

1 believe there's a history of racial discrimination  
2 in county, the entity, your employer?

3 A. Are you asking me personally?

4 Q. Yes.

5 A. Personally, no.

6 Q. Okay. Do you believe that some minority  
7 residents of Galveston County may still be  
8 experiencing disadvantages from the effects of past  
9 discrimination?

10 MS. OLALDE: Objection; calls for  
11 speculation, broad.

12 Q. You can answer.

13 A. Can you clarify?

14 Q. Sure. Do you believe that minorities in  
15 Galveston County as a result of the -- we discussed  
16 the history of racial discrimination, suffer from  
17 disadvantages as a result?

18 MS. OLALDE: Same objections.

19 A. It could be possible.

20 Q. Okay.

21 MS. RICHARDSON: Okay. I have no  
22 further questions. I pass the witness to the  
23 defendants.

24 MS. OLALDE: And we will reserve our  
25 questions.

1 THE VIDEOGRAPHER: All right.

2 Nothing further the time is 2:50 -- 2:25 p.m. we're  
3 off the record.

4 (Deposition concluded at 2:25 p.m.)

5 THE STENOGRAPHER: I just have a  
6 quick question. Who gets a copy of the transcript?

7 MS. OLALDE: Defendants would like  
8 one, please.

9 MS. SMITH: DOJ would like one as  
10 well.

11 THE VIDEOGRAPHER: Does anybody need  
12 the video?

13 MS. OLALDE: Yes, please.

14 THE STENOGRAPHER: And does anybody  
15 need a rough draft? I know a couple people got  
16 realtime, but do you guys need a rough draft?

17 MS. SMITH: Yes, please, DOJ.

18 MS. OLALDE: Defendants do not need  
19 one, but we do ask to read and sign, please.

4 RE: Honorable Terry Petteway Et Al. v. Galveston County Et Al.

5 2/24/2023, Dianna Martinez (#5763497)

6 The above-referenced transcript is available for  
7 review.

8 Within the applicable timeframe, the witness should  
9 read the testimony to verify its accuracy. If there are  
10 any changes, the witness should note those with the  
11 reason, on the attached Errata Sheet.

12 The witness should sign the Acknowledgment of  
13 Deponent and Errata and return to the deposing attorney.  
14 Copies should be sent to all counsel, and to Veritext at  
15 erratas-cs@veritext.com

16  
17 Return completed errata within 30 days from  
18 receipt of testimony.

19 If the witness fails to do so within the time  
20 allotted, the transcript may be used as if signed.

P R O C E E D I N G S

THE REPORTER: Good morning. My name is Kyla Buchan; I am the reporter assigned by Veritext to take the record of this proceeding. We are now on the record at 9:49 a.m. central.

This is the deposition of Dale Oldham taken in the matter of Honorable Terry Petteway, et al. v. Galveston County, et al. on Friday, June 23, 2023.

I am a notary authorized to take acknowledgments and administer oaths in Texas. Parties agree that I will swear in the witness remotely.

The reporter is located in Austin, Texas, and the witness is located in Galveston, Texas.

Additionally, absent an objection on the record before the witness is sworn, all parties and the witness understand and agree that any certified transcript produced from the recordings of this proceeding:

- is intended for all uses permitted under applicable procedural and evidentiary rules and laws in the same manner as a deposition recorded by stenographic means; and

1 - shall constitute written stipulation  
2 of such.

3 This proceeding will be recorded via  
4 video technology by Patrick Salvant.

5 At this time will counsel in attendance  
6 please identify yourself for the record, beginning  
7 with the taking attorney.

8 MR. GABER: Good morning. Mark Gaber  
9 on behalf of the Petteway plaintiffs. I have with me  
10 my colleagues, Valencia Richardson, Alexandra Copper,  
11 Simone Leeper, and Neil Baron.

12 And we have, as well, one of our summer  
13 interns, Brendan Nigro, who will be observing. And we  
14 also have Bernadette Reyes.

15 MS. REYES: Good morning.

16 MR. GABER: I think that's it for us.

17 MS. CHEN: Good morning. For NAACP  
18 plaintiffs, Sarah Chen, joined by Joaquin Gonzalez,  
19 Hilary Haris Klein, Adrienne Spoto, Rich Mancino,  
20 Diana Vall-Llobera, Molly Zhu, and also summer law  
21 clerks David Segal and Lauren McNerney.

22 MS. SMITH: On behalf of the United  
23 States, I'm K'Shaani Smith. I'm joined with my  
24 colleague, Tharuni Jayaraman.

25 MR. RUSSO: On behalf of the

1 defendants, Joe Russo Jr. here. Looks like we have  
2 Angie Olalde, Jordan Raschke, Joe Nixon, I think Mateo  
3 Forero. And I think that's it.

4 THE REPORTER: Okay. Thank you.

5 Hearing no objection, I will now swear  
6 in the witness.

7 Mr. Oldham, please raise your right  
8 hand.

9 WHEREUPON,

10 DALE OLDHAM,  
11 called as a witness and having been first duly sworn  
12 to tell the truth, the whole truth, and nothing but  
13 the truth, was examined and testified as follows:

14 THE REPORTER: Thank you.

15 You may proceed.

16 EXAMINATION

17 BY MR. GABER:

18 Q Good morning, Mr. Oldham. My name is Mark  
19 Gaber. I'm an attorney at the Campaign Legal Center,  
20 and I represent the Petteway plaintiffs in this case.

21 And I'll be the first person taking your  
22 deposition today. There will be two others for the  
23 other plaintiff groups, as well. Could you please  
24 state your name for the record?

25 A Dalton L. Oldham, Jr., Esquire.

1 Q And Mr. Oldham, have you been deposed  
2 before?

3 A I have.

4 Q How many times?

5 A Three times previously.

6 Q And what were the nature of those cases?

7 A Well, the first one was my parents' divorce.

8 The second one was -- was the -- a redistricting  
9 matter in North Carolina. And then the most recent  
10 one was in the Alexander case in South Carolina.

11 Q And is the Alexander case from South  
12 Carolina, is that from this redistricting cycle?

13 A It is.

14 Q And the North Carolina case, when was that?

15 A No, that was from a previous cycle.

16 Q Now, you are an attorney; right?

17 A Correct.

18 Q I assume you've taken depositions before.

19 A I have.

20 Q Okay. So I don't need to spend a lot of  
21 time with the rules, I don't think with you, but I'll  
22 just remind you that most importantly we need to aim  
23 not to talk over one another, so our court reporter  
24 can transcribe all of our words accurately.

25 And if at some point during the deposition

1 you need a break, please let us know. I'd only ask  
2 that you answer the pending question, and then we can  
3 go on to take a break. Does that work for you?

4 A That'll be fine.

5 Q Are you represented by counsel today?

6 A Mr. Russo is here. He is representing the  
7 county. I do not have additional counsel here today.

8 Q Do you have an attorney-client relationship  
9 with Mr. Russo?

10 A I would consider that I have an  
11 attorney-client relationship with the county. I would  
12 hope Mr. Russo is looking after my best interest, but  
13 I -- I might question that.

14 Q But he's not -- Mr. Russo I gather is not  
15 formally your personal attorney.

16 A He is not my personal attorney.

17 Q Okay. What about any of the other attorneys  
18 on behalf of the county? Do any of them represent you  
19 personally?

20 A No, they do not.

21 Q Could you tell me a little bit about how  
22 you're employed or about your work?

23 A Well, I was originally contacted by Paul  
24 Ready, who was the county attorney here, because I had  
25 represented Galveston County when Beirne, Maynard,

1 Parsons associated me for this case back in 2010, and  
2 then again for the Justice of the Peace and Constable  
3 Districts in 2013, 2014.

4 He seemed reasonably pleased with my work.  
5 Beirne, Maynard, Parsons no longer exists, and the  
6 counsel from Beirne, Maynard, Parsons were no longer  
7 in the private practice of law at that time.

8 And they contacted me and see if I would be  
9 willing to take on the case again. I told them that I  
10 obviously wouldn't do it myself -- by myself, but I'd  
11 be happy to associate other firms that I work with.

12 And that's generally the way I work.

13 And at that time, one of the firms that I  
14 worked with was Holtzman, Vogel. And I suggested  
15 them, and called Holtzman, Vogel to see if they'd be  
16 interested. And they said they were. And then we  
17 worked out a representation agreement.

18 Q And I guess that's helpful specifically for  
19 this case. But more generally, what is the nature of  
20 your employment or the nature of your business?

21 A I generally -- I -- I do do some other  
22 cases. I, oddly enough, have a car wreck going on at  
23 the moment, but -- but typically I restrict my  
24 practice to election law.

25 Q And are you a solo practitioner? Do you

1 have an LLP or what's the --

2 A I am a solo practitioner. I have an LLC.

3 Q And where is that registered?

4 A South Carolina.

5 Q And what's the name of the LLC?

6 A Dalton L. Oldham, Esquire. It's located in  
7 Lexington County, South Carolina.

8 Q How long have you had that practice there?

9 A Probably -- well, under that name I've had  
10 it for probably since 2011.

11 Q And that's --

12 A I can go back and check to be sure. And I  
13 also practiced previously with some other people in  
14 2006. But -- but yeah. I think that's -- that's been  
15 since 2011.

16 Q And before you started your solo practice, I  
17 think you mentioned some folks in 2006. What was the  
18 nature of that?

19 A Well, that was a shared space arrangement  
20 with some guys in -- in Columbia, but I left that to  
21 become counsel to the chairman of the Federal Election  
22 Commission, and --

23 Q When was that?

24 A That was 2008, 2010, about that.

25 Q And how long, roughly did you have that

1 position?

2 A About two years.

3 Q Who was the chairman at the time?

4 A That was Don McGahn.

5 Q And then after that role -- again,

6 Mr. McGahn went on to the White -- does he work at the

7 White House? No. Not that --

8 A Yeah. Well, he -- he worked at the White

9 House well, after that.

10 Q Well, after that.

11 A Yeah. He was still on the commission when I

12 left.

13 Q Okay. And then after you left there, is

14 that when you went and started the solo practice?

15 A I started that practice and I started

16 representing various other entities. So yes.

17 Q Now in terms of your election law work, I

18 guess starting back in the 2011 timeline, did it

19 mostly focus on redistricting? Did you do other sorts

20 of election work? I see that you worked at the FEC.

21 Did you do some campaign finance advising?

22 A I do some campaign finance. Most of my work

23 has -- has been redistricting over the last few years.

24 I have a strong redistricting background. I've been

25 doing redistricting since 1989. But I'll --

1 Q Any other --

2 A -- do some campaign finance, yes.

3 Q Any other kind of election or campaign  
4 advisor?

5 A I'll do -- I do some recount work. I do  
6 some election administration work. It just kind of  
7 depends. And apparently -- I still do a car wreck  
8 every now and then too.

9 Q I was going to say, hopefully you weren't in  
10 a car wreck.

11 A No, I wasn't, but not real happy with  
12 Nationwide right now.

13 Q So it sounds like you have extensive  
14 experience in redistricting, you said going back to  
15 1989. What was the first redistricting thing that you  
16 worked on?

17 A Well, you want to talk about the first  
18 redistricting thing I worked on or do you want to talk  
19 about when I first got involved in it big time as an  
20 attorney? I mean, the first redistricting thing I got  
21 involved in, I wasn't even in law school yet.

22 Q Okay. What was that?

23 A That was when the South Carolina Senate was  
24 being litigated in 1984. But -- but in 1989, I became  
25 associate counsel at the Republican National

1 Committee, and that was -- one of my principal tasks  
2 there was redistricting.

3 Q And was that -- were you actually involved  
4 in litigating any cases in that role or was that sort  
5 of keeping an eye on them and reporting to the RNC?

6 A Both.

7 Q What are some cases that you've litigated  
8 for redistricting matters?

9 A Well, there's both litigation and written  
10 briefs on. I mean, I've written briefs in most of the  
11 major cases since the 1990s in one way, or shape, or  
12 another, whether they're amicus or whether they're one  
13 of the principal briefs or not.

14 But, you know, I was involved in South  
15 Carolina cases in the 1990s. I was back involved in  
16 Smith v. Beasley in those two cases in the middle  
17 '90s, Abrams v. Johnson in Georgia. They're actually  
18 way too numerous to mention.

19 Q Now during the 2011 redistricting cycle, I  
20 understand you worked on behalf of Galveston County  
21 and on the redistricting of the county maps. Is that  
22 right?

23 A Yes.

24 Q Did you have other similar engagements on  
25 behalf of other governmental entities anywhere in the

1 country?

2 A Yes.

3 Q What were some of those?

4 A I would prefer not to discuss what my other  
5 clients are. I don't think that's really relevant.

6 MR. RUSSO: Yeah. Let me just  
7 interpose the objection in relation to attorney-client  
8 privilege.

9 I'd caution the witness not to disclose  
10 the client representations that aren't matter of  
11 public record.

12 Obviously, specific conversations  
13 between you and those clients are off the table, as  
14 well.

15 But subject to that objection, you can  
16 move forward, Counsel.

17 BY MR. GABER:

18 Q And just so I understand, and this is my  
19 questions about the 2011 cycle right now. Are you  
20 willing to name the jurisdictions that you worked on  
21 redistricting as a either advisor or in some other  
22 capacity for the 2011 cycle?

23 MR. RUSSO: Well, again, to the extent  
24 that he's working as an advisor, as, you know, an  
25 attorney, specifically on those matters, it's not

1 public record. He's not going to discuss today.

2 And to the extent that, you know, he's  
3 part of a pleading, signed the pleading as counsel,  
4 that's a different matter. But, you know, in terms of  
5 representations of specific clients that are not part  
6 of the public record, we will not discuss those today.

7 BY MR. GABER:

8 Q And just for the record, Mr. Oldham, if you  
9 can give me an answer, are you saying that you're not  
10 willing to discuss --

11 A I think discussion of who clients are and  
12 aren't is a violation of attorney-client privilege.  
13 And I'm relying on Mr. Russo's statement.

14 Q And same question with respect to the 2021  
15 redistricting cycle. I know that obviously you're  
16 here because you represented Galveston County. Were  
17 there other governmental entities or cities, towns,  
18 states, legislatures that you conducted redistricting  
19 work for in the 2021 cycle?

20 MR. RUSSO: Yeah. Again, Counsel,  
21 we're going to object to the disclosure on the basis  
22 of attorney-client and potentially work product  
23 privileges.

24 To the extent that you have Mr. Oldham  
25 signing off on a pleading against a matter of public

1 record, but in terms of who he's been engaged to deal  
2 with redistricting matters on behind the scenes, we're  
3 not going to discuss that today.

4 BY MR. GABER:

5 Q So my question was just are there other  
6 governmental entities that you did redistricting work  
7 for?

8 MR. RUSSO: Counsel, you know that's  
9 answering the question.

10 MR. GABER: Well, I think that the  
11 question of whether there are any does not disclose  
12 any particular clients or any privilege.

13 In fact, that's the type of information  
14 that would be required to be produced on a privilege  
15 log if you had responsive documents about it. I don't  
16 know, Mr. Russo, if you have a --

17 MR. RUSSO: Yeah. We're interposing  
18 objection in terms of discussion of other clients, you  
19 know, unrelated to this case. So that's our  
20 objection.

21 BY MR. GABER:

22 Q All right. In the 2011 cycle, did you enter  
23 an appearance on behalf of any governmental entities  
24 in a redistricting matter?

25 A Well, certainly did here in Galveston

1 County.

2 Q Any others?

3 A You know, I would have to go back and look.

4 I don't honestly know the answer to that right away.

5 I -- I suspect there were a couple, but I'm not sure.

6 Well, I'll take that back. I'm fairly certain I did

7 in Virginia, but I'm not absolutely certain there.

8 Q And is that -- who would that have been on  
9 behalf in Virginia?

10 A House of Delegates.

11 Q And for the 2021 cycle, aside from  
12 Galveston, are there other governmental clients who  
13 you've entered an appearance on behalf of in court or  
14 otherwise publicly announced your representation?

15 A I don't think so.

16 Q And with respect to your retainer by other  
17 governmental entities to which Counsel has objected,  
18 are any of those retentions for governmental entities  
19 protected by some sort of confidentiality provision?  
20 Normally governmental hiring is a matter of public  
21 matter.

22 A Yeah. I don't -- I don't think I have a  
23 governmental entity contract at this time, other than  
24 this one.

25 Q I gather you're licensed in South Carolina.

1 Is that right?

2 A That's correct. And that's the only  
3 jurisdiction I'm licensed in.

4 Q Okay. And has your law practice always been  
5 in South Carolina or were you otherwise in other  
6 places at some point?

7 A It's always been in South Carolina. I have  
8 worked in Washington, DC extensively from time to  
9 time, but I have -- unlike most people, I have not  
10 caught Potomac fever. I really don't like the place,  
11 and my wife hates it even more than I do.

12 Q Well, many people feel that way, but I find  
13 it to be a lovely city.

14 A Yeah.

15 Q It's changed a lot over the years.

16 A It has.

17 Q All right. So I understand from the  
18 internet that you've also done work on behalf of the  
19 Republican National Committee. Is that right?

20 A That is correct.

21 Q Are you a member of the RNC?

22 A I'm not quite sure what you mean by member  
23 of the RNC. I mean, I'm certainly not a member of the  
24 committee. I would have to be elected to be a member  
25 of the committee, so I'm not -- I'm not sure how to

1 answer that question.

2 Q Okay. So you're not a committee member. Do  
3 you have any other roles, official or unofficial, with  
4 the RNC?

5 MR. RUSSO: Again, let me interpose the  
6 objection in terms of the potential there's an  
7 attorney-client relationship that's undisclosed and  
8 it's not on the public record.

9 Other than that, the witness can  
10 answer.

11 THE WITNESS: I -- I have from time to  
12 time had relationships with the RNC as attorney for  
13 the RNC.

14 BY MR. GABER:

15 Q Okay. What about during the 2021  
16 redistricting cycle? Any work for the RNC?

17 MR. RUSSO: Same objection in terms of  
18 the attorney-client privileged relationships.

19 But yes, if it's a matter of public  
20 record, you can answer.

21 THE WITNESS: I'm relying on my  
22 lawyer's statement.

23 BY MR. GABER:

24 Q Okay. So you're not going to answer with  
25 respect to the 2021 cycle for the RNC?

1 A No.

2 Q What about the National Republican  
3 Redistricting Trust? Is that an entity with which  
4 you're familiar?

5 A I know who they are. Yes, I do. And same  
6 response.

7 Q Okay. So with respect to the 2021  
8 redistricting cycle, you won't answer whether you've  
9 done any work with the National Republican  
10 Redistricting Trust?

11 MR. RUSSO: Same objection in terms of  
12 attorney-client privileges and relationships there.

13 BY MR. GABER:

14 Q And what about the organization Fair Lines  
15 America? Are you familiar with them?

16 A I am, but same response. I'm familiar with  
17 Campaign Legal Center too.

18 Q To my knowledge you've not done any legal  
19 work for the Campaign Legal Center, but I have not  
20 been here for the duration of the organization's life,  
21 so I could be wrong about that.

22 A Knew Trevor Potter very well.

23 Q Yes. What about -- so you do know Adam  
24 Kincaid?

25 A I do know Adam Kincaid. Yes.

1 Q And is that -- have you worked with  
2 Mr. Kincaid on redistricting matters?

3 A Well, I've -- I have worked with Mr. Kincaid  
4 before. I mean, that's actually in the Alexander  
5 transcripts. Yes, I've worked with with Adam before.

6 Q And what's the nature of your work with  
7 Mr. Kincaid?

8 MR. RUSSO: Let me interpose objection  
9 related to, again, attorney-client privilege and  
10 relationships that are undisclosed not as a matter of  
11 public record. And again, the additional privilege  
12 may be First Amendment depending on association with  
13 those individuals.

14 But other than that, the witness can  
15 answer.

16 THE WITNESS: I stand on my attorney's  
17 statement.

18 BY MR. GABER:

19 Q Do you have -- have you represented Adam  
20 Kincaid as an attorney?

21 MR. RUSSO: Same objection in terms of  
22 attorney-client privilege and undisclosed  
23 relationships.

24 MR. GABER: So I guess in order to  
25 understand the scope or the nature of the privilege

1       assertion, you know, you can't not answer whether  
2       you've represented someone.

3               MR. RUSSO:  Actually, you can not  
4       answer that question, particularly to the extent that  
5       the representation has not been disclosed publicly and  
6       the individual who asked to retain you has not  
7       provided counsel the ability to disclose that  
8       relationship.

9               And again, we're not talking about --  
10       understand, we're not talking about this case.  We're  
11       talking about representations of people, you know, who  
12       are unrelated to this specific situation.  So you got  
13       to be pretty careful about those conversations.

14              MR. GABER:  All right.  I'm going to  
15       disagree with you about the protection over the  
16       identity of clients and the existence of an  
17       attorney-client relationship.

18              That is information that is necessary  
19       in order to determine whether or not there is in fact  
20       a cognizable privilege claim.  And I think the case  
21       law is pretty clear on that.

22              But obviously if that's your  
23       instruction to the witness today, there's nothing I  
24       can do about that.

25       //

1 BY MR. GABER:

2 Q So, Mr. Oldham, are you not going to answer  
3 whether or not you have represented Mr. Kincaid?

4 A I will stand on Counsel's statement.

5 Q Do you -- I read about or saw that there was  
6 some sort of entity called Geographic Strategies that  
7 you may have worked with in the past. Is that right?

8 A I own Geographic Strategies.

9 Q Okay. And is Geographic Strategies an  
10 entity that exists today?

11 A On paper. It has done no work in four or  
12 five years.

13 Q And where is that entity registered?

14 A In the same place my law firm is.

15 Q Was it at any point registered in North  
16 Carolina?

17 A No.

18 Q Okay. And what was the nature of its  
19 business?

20 A Its business was a subsidiary, so that I  
21 could engage in a certain amount of profit sharing  
22 with Dr. Hofeller.

23 Q And a subsidiary of what?

24 A Of my law practice. It only worked for  
25 clients that I had out of my law practice. That was

1 the only purpose of it.

2 Q Was Mr. Hofeller -- did I pronounce that  
3 right? Is it Hofeller?

4 A Hofeller.

5 Q Hofeller. Was Mr. Hofeller a member? Was  
6 it an LLC?

7 A It was an LLC. He was principal in the LLC,  
8 but I always held a majority share, and I was the  
9 president of the LLC.

10 Q And what was Mr. Hofeller's role for that?

11 A Dr. Hofeller's role was to work as an expert  
12 in matters, which I had, that he could provide  
13 expertise to me in the representation of clients.

14 Q And was it primarily map drawing or did he  
15 do other roles, as well?

16 A He did other roles, as well.

17 Q What were those roles?

18 A Bivariate regression analysis, ecological  
19 inference, demographic study, host of demography type  
20 work that could help me better understand a case or a  
21 situation.

22 Q And the regression analysis and the  
23 ecological inference, was that to do racially  
24 polarized voting analysis?

25 A Do racially polarized voting analysis,

1 sometimes politically polarized voting analysis, but  
2 all the -- all the methods for -- all the questions  
3 for which you would use those -- those statistical  
4 methods.

5 He was -- he was very good in all of those.

6 He was also probably the best compactness expert I  
7 knew.

8 Q After Dr. Hofeller's passing, did you  
9 replace him with another demographer or someone?

10 A Geographic Strategies has done no work since  
11 Dr. Hofeller's passing. That's why it's a paper shell  
12 without Dr. Hofeller. And -- and I have -- I have  
13 created no such association with another expert like  
14 Dr. Hofeller. It's kind of -- I do it ad hoc these  
15 days.

16 Q What did you do to prepare for today's  
17 deposition?

18 A We've had a couple of days of prep with  
19 Mr. Russo and his colleagues here at Gerz [sic].  
20 Yeah. And -- and I've reviewed a variety of documents  
21 that they've shown me, emails, et cetera.

22 Q How many hours would you say you've met with  
23 folks at the firm there to prepare?

24 A Sixteen, twenty.

25 Q And who has been involved in -- aside from

1 Mr. Russo, who's been involved in those meetings?

2 A You know, I'm not sure of everyone. I know  
3 Jordan over here has been, Angie has been, I think  
4 Mateo's been in here, Sean Sheie [ph]. Whether  
5 there's been other people in here, I'm not sure.

6 Q And I guess that's question I should have  
7 asked you at the beginning. Since we're on Zoom for  
8 this deposition, who's physically in the room there  
9 with you?

10 A Jordan and Mr. Russo.

11 Q Okay. Anyone else?

12 A That's it.

13 Q And when did you arrive in Galveston?

14 A Late on Tuesday night.

15 Q Have you reviewed any deposition transcripts  
16 from this litigation?

17 A I don't think I have. That's -- I've seen a  
18 lot of stuff, so -- but I don't think I have.

19 Q All right. What about pleadings in the  
20 case? Have you read complaints, or answers, or  
21 amended complaints, or the like?

22 A I read the order on privilege. I've read  
23 the subpoena. I read a few pages out of a couple of  
24 the expert reports. I haven't seen the summary  
25 judgment motions. I -- I've -- you know, that's most

1 of what I've seen in terms of the pleadings.

2 Q Have you seen the -- or read the District  
3 Court's order denying the motions to dismiss in the  
4 case?

5 A I have not.

6 Q And which experts' reports have you taken a  
7 look at?

8 A A little bit of Dr. Barreto's. I'm not sure  
9 which expert that was that I was looking at that had  
10 used the AP numbers, and also had the -- the high --  
11 the 88 polarization for the non-Hispanic white for  
12 Trump. But I've seen a couple of those. I've seen  
13 some pages out of that.

14 Q When you say, "AP numbers," are you talking  
15 about the any part racial group?

16 A Yes -- yes.

17 Q Aside from Dr. Barreto and the two  
18 categories you just described, the any part, whichever  
19 expert used that and whichever expert had the 88  
20 percent white support for Trump, are there any other  
21 expert reports that you've reviewed?

22 A No, I don't think so at this point.

23 Q Now, you haven't been disclosed as an expert  
24 in this case. And am I correct that you don't intend  
25 to offer any expert opinion in this case?

1 A Other than law.

2 Q Well, the judge may not let you do that.

3 A I understand that. But to be quite honest  
4 with you, I don't really know that much about this  
5 case except for my legal analyses and recommendations.  
6 And if it were up to me, I wouldn't be offered as a  
7 witness.

8 Q And tell me a little bit more about that.

9 A About what?

10 Q About if it were up to you, you wouldn't be  
11 offered as a witness. Why is that?

12 A I think I am revealing client confidences,  
13 and -- and I'm very uncomfortable with it. And I feel  
14 like I'm revealing legal analysis that I gave in  
15 confidence to clients, and -- and I'm not comfortable  
16 with that either. Counsel is very much aware that I  
17 am very opposed to testifying.

18 Q Okay. Are you aware that we reached out to  
19 Counsel and --

20 A I am.

21 Q -- said that we would withdraw the subpoena  
22 for this deposition if you're --

23 A I'm not happy with Counsel. He knows that.

24 MR. RUSSO: Let him finish the  
25 question.

1 MR. GABER: Just so the record is  
2 clear, the statement from Plaintiffs was that if  
3 Mr. Oldham's declaration, which was filed with the  
4 court already, were to be admitted as an exhibit, and  
5 if Defendants were not to call Mr. Oldham as a  
6 witness, that the plaintiffs would withdraw the  
7 deposition subpoena.

8 BY MR. GABER:

9 Q Is that your understanding of what was  
10 offered?

11 A Yes.

12 Q Do you intend to testify at the trial in  
13 this case?

14 A Well --

15 MR. RUSSO: Let me just interpose an  
16 objection to the extent that there is discussion of  
17 trial strategy.

18 You know, other than that, you can  
19 respond. Your own intentions.

20 THE WITNESS: Well, my own intentions  
21 are -- I don't know that I necessarily have a choice,  
22 but that's -- that will be an ongoing topic.

23 BY MR. GABER:

24 Q Do you understand the trial is scheduled to  
25 begin on August 7th of this year?

1 A I do.

2 Q And where will you physically be a resident  
3 of at that time?

4 A Well, I'll be a resident of South Carolina.

5 Q And do you intend to be available to testify  
6 at the trial if you are asked or subpoenaed to do so?

7 A I won't necessarily avoid it. But this is  
8 a -- and -- and this is a touchy client --  
9 attorney-client situation at the moment, so I'm not  
10 going to go into details about it. But no. I'm a  
11 very reluctant witness.

12 Q Are you -- so I think it's the case that you  
13 are still listed on the docket as a counsel in this  
14 case.

15 A Absolutely.

16 MR. RUSSO: Let him finish the  
17 question.

18 Go ahead. Sorry about that, Mark.

19 MR. GABER: No, it's okay.

20 BY MR. GABER:

21 Q So you are a counsel of record in this case;  
22 right? And --

23 A Yes. And still get the emails. Well --

24 THE REPORTER: -- one person at a time;  
25 okay?

1 MR. RUSSO: Yeah. Hang on, Mark. Let  
2 me just interpose an objection to the extent that --  
3 because I don't believe that Mr. Oldham was added as  
4 part of a pleading.

5 I think -- my personal view of it is I  
6 believe that it was a carryover from the prior  
7 2012-2013 suit, in which Plaintiffs tried to  
8 reinvigorate that action and file this case.

9 And from my perspective, you know, the  
10 Court included all the people that were on the prior  
11 pleadings in this case. So I just want to clarify  
12 that point and make sure that the witness is aware of  
13 it.

14 MR. GABER: I think that that is  
15 correct.

16 BY MR. GABER:

17 Q And, I guess, my question then is, is that  
18 the case that this is -- that your appearance in the  
19 matter is a carryover from the 2011 matter? Or have  
20 you been -- I mean, obviously, you don't tell me what  
21 you've -- but have you been a litigation counsel for  
22 the county in this current litigation?

23 A Not at this point. No.

24 Q And I asked a compound question. So I  
25 gather that you're not, at this point, litigation

1 counsel in this case for the defendants. Is that  
2 right?

3 MR. RUSSO: Well, again, I think it's  
4 clear that he hasn't been retained for this specific  
5 matter. But, again, he's here because he was retained  
6 to get the county through the redistricting effort,  
7 and so that's sort of our response.

8 BY MR. GABER:

9 Q Do you intend to withdraw your appearance on  
10 the record as litigation counsel in the current  
11 matter?

12 A I don't know what my exact status is. And  
13 I'm not completely certain, without consulting a few  
14 people in South Carolina, what I would be ethically  
15 allowed to do in that situation. We are a little  
16 tighter on dropping clients than other states. It's  
17 hard to fire a client in South Carolina.

18 Q Were you actually litigation counsel in the  
19 prior case? Did you attend -- you attended the trial  
20 and whatnot?

21 A I actually conducted Dr. Barreto's  
22 cross-examination in his deposition.

23 Q Is that what led you to pick his report to  
24 be one to look at in this case?

25 A Yeah.

1 THE REPORTER: Sorry. Was that a yes?

2 THE WITNESS: That was a yes.

3 BY MR. GABER:

4 Q All right. So we talked a little bit about  
5 the expert reports, the privilege order, and the  
6 subpoena. And I think you mentioned that you looked  
7 at a host of documents in prep for this deposition.  
8 Can you describe for me what are the documents that  
9 you reviewed?

10 A Largely emails, some notes of other -- that  
11 have been produced in discovery, you know, some charts  
12 and spreadsheets. At this point they've all kind  
13 of -- kind of melded in there together a little bit.  
14 Ask me some specifics, I can probably tell you.

15 Q Did you look at any maps?

16 A I looked at a few maps. Yes. I've seen a  
17 few maps.

18 Q And which maps were those?

19 A I've seen the 2010 maps. I've -- or the  
20 2011 maps. I've seen the first maps that were  
21 produced for the county. I've seen the final maps  
22 that were produced for the county. I've seen a couple  
23 of the -- your experts' proposed remedial maps.

24 I've seen -- that's -- I think that's pretty  
25 much most of the maps I've seen.

1 Q And just so the record is clear, when I ask  
2 and when you answer about maps, I assume we're talking  
3 about the Galveston County redistricting maps.

4 A Right. Correct.

5 Q And you mentioned the first maps that were  
6 produced for the county. And my understanding is that  
7 there are a number of maps that were produced that  
8 were not shared with commissioners. Is that your  
9 understanding, as well?

10 A No.

11 Q Okay. Tell me how that's wrong.

12 A I mean, there may be some things that are in  
13 development. But the -- the maps that were shared  
14 with the commissioners were essentially the first  
15 drafts that were done by Tom Bryan, per the -- the  
16 criteria that are provided for him.

17 You know, there's -- did a little bit of  
18 cleanup in terms of cleaning up some water blocks and  
19 cleaning up some one-person, one-vote commodities,  
20 and, you know, non-contiguous blocks that got  
21 assigned.

22 But, you know, essentially, it's -- you  
23 know, they're not versions, they're, you know, getting  
24 the process through to that map. Do you understand  
25 what I'm saying?

1 Q Yeah.

2 A So I don't think there are a whole lot of,  
3 you know, versions, so to speak.

4 Q You also mentioned, I think, spreadsheets.

5 For preparation for today, did you review some of the  
6 spreadsheets that Mr. Bryan had produced during his  
7 map making process?

8 A Some of his and -- and, you know, the first  
9 stats that we had. Yes, I did review those.

10 Q And then emails, you said. Are these emails  
11 that counsel for the county asked you to look at or  
12 are they ones that --

13 A Yeah.

14 Q Yes?

15 A Yes. Emails counsel for the county asked me  
16 to look at.

17 Q Did you do any of your own searching through  
18 your own records to prepare for today?

19 A No. I had provided my computer to Holtzman  
20 Vogel, and they had downloaded all the files that I  
21 had, and did the search according to your terms.

22 Q Okay. And so that was in the -- when you  
23 received the first discovery request --

24 A Yeah -- yeah. So that would've been  
25 everything I had.

1 Q Okay. What about -- aside from meeting with  
2 Counsel, have you spoken -- since the engagement, you  
3 know, back in the fall of 2021, have you spoken with  
4 any people associated with Galveston County? So the  
5 commissioners, the county judge, Mr. Bryan, or anyone  
6 else?

7 MR. RUSSO: I'm going to object.  
8 Assumes facts not in evidence.

9 Go ahead.

10 THE WITNESS: Not very much.

11 BY MR. GABER:

12 Q Who have you spoken to in that period since  
13 the redistricting ended in the fall of 2021?

14 A Counsel for the county.

15 Q Aside from Counsel, have you spoken with  
16 Judge Mark Henry, for example?

17 A Other than a "Merry Christmas" text, no.

18 Q All right. How about any of the other  
19 commissioners, the four commissioners?

20 A No.

21 Q Did you -- are you friendly with Judge  
22 Henry?

23 A I know him. I wouldn't consider myself a  
24 close friend of Judge Henry's, but I know him. I like  
25 him. I think he's an excellent person, and I've

1 enjoyed working with him in the past.

2 Q How long have you known him?

3 A Since 2010.

4 Q Are you being paid for your time testifying  
5 today?

6 A I'm supposed to be.

7 Q And is that -- sort of under what  
8 contractor, or arrangement, or how is that --

9 A Contract originally between Holtzman Vogel  
10 and the county.

11 Q All right. And what is the payment  
12 arrangement of that, an hourly rate or what is that?

13 A Well, I think we may still have to figure  
14 that out, but I'm -- I'm hoping to get \$350 an hour.

15 Q All right. Well, then we'll try to go all  
16 seven hours for you.

17 A At least you'd be consistent, I guess.  
18 They've already racked up a pretty good bill.

19 Q So that's my next question. How did you get  
20 paid for your work in the map drawing --

21 A I haven't been paid yet.

22 MR. RUSSO: Again, let him finish the  
23 question.

24 THE WITNESS: Yeah.

25 //

1 BY MR. GABER:

2 Q All right. So you've not been paid yet. Do  
3 you know why that is?

4 A Well, I'm not completely certain, but we'll  
5 work on that.

6 Q Have you sent an invoice for your time?

7 A I -- the original first fee was a flat fee.  
8 It was not a -- it was not an hourly fee.

9 Q And what was the amount of that flat fee?

10 A I think it was \$90,000, but that wasn't  
11 supposed to all go to me.

12 Q Who else would that go to?

13 A It would go to some other people at Holtzman  
14 Vogel and to Tom Bryan.

15 Q What portion would go to you?

16 A I think we're still working on that.

17 Q Do you have a -- what is your request for  
18 the portion that would go to you?

19 A Well, I know it keeps going up every day.

20 Q Where are we at now?

21 A I think that's part of an ongoing  
22 negotiation. I don't think that's -- that's a subject  
23 for this deposition.

24 Q All right. Well, I'm happy to mediate it.

25 What about -- so has Mr. Bryan been paid, to your

1 | understanding?

2 | A I have no idea.

3 | Q And what about Holtzman Vogel? And I gather

4 | your -- is it the case that the 90,000 is to cover

5 | Holtzman Vogel's work not as litigation counsel, but

6 | during the sort of map -- process?

7 | A Correct -- correct.

8 | Q And is it your understanding that the county

9 | has not paid that 90,000 to any entity yet?

10 | A No, that is not my understanding.

11 | Q What is your understanding?

12 | A My understanding is incomplete, but I

13 | believe the county has made a payment on that.

14 | Q All right. And to whom did that payment go,

15 | to your understanding?

16 | A Holtzman Vogel.

17 | MR. RUSSO: Objection. Calls for

18 | speculation.

19 | BY MR. GABER:

20 | Q So you believe that the county paid Holtzman

21 | Vogel \$90,000? Is that --

22 | A They paid them something. I don't know what

23 | it is.

24 | Q All right. You have not seen any of that

25 | money yet?

1 A I have not.

2 Q Now, the original amount was a flat fee. Is  
3 there an additional arrangement beyond that flat fee  
4 for --

5 A Hourly, yes.

6 Q And what was the term of -- like, how much  
7 was to be covered by the flat fee for your work and  
8 when were the hourly payments supposed to kick in?

9 A Once we actually got the map through, and  
10 then finished the map, and gave them the map, that  
11 covered the -- the 90,000. Everything after that was  
12 going to be on an hourly basis.

13 Q And why was there -- do you know why there  
14 was an expectation that there would be additional work  
15 after the map was done?

16 MR. RUSSO: Objection. Calls for --  
17 assumes facts not in evidence.

18 THE WITNESS: He made the objection.  
19 I'm going to have to --

20 BY MR. GABER:

21 Q Well, that's not one you don't get to answer  
22 about. So unless he instructs you not to answer on a  
23 privileged ground.

24 MR. RUSSO: Yeah. It's not a privilege  
25 issue. It's -- I don't --

1 THE WITNESS: Do you want me to answer  
2 it?

3 MR. RUSSO: Assumes facts not in  
4 evidence. That's the objection.

5 To the extent you understand the  
6 question, you can answer.

7 THE WITNESS: Repeat your question.

8 BY MR. GABER:

9 Q Right. So the arrangement, as I understand  
10 it, was that there would be a 90,000 flat fee to get  
11 you through the actual map drawing process, and then  
12 after that, any additional payments would be on an  
13 hourly basis. Is that right?

14 A Correct.

15 Q And what was your understanding of why there  
16 was an expectation that there could be additional  
17 payments on an hourly basis after the map drawing  
18 process ended?

19 A Well, that's easy. You're here. Litigation  
20 was assumed. Litigation was ongoing. I mean, at that  
21 point, the Petteway case had not been completely  
22 resolved.

23 The section 2 part had been dismissed from  
24 the bench, but there was still the question on the  
25 14th Amendment that we had briefed in a post-trial

1 brief that Judge Costa didn't rule on until relatively  
2 recently.

3 Given the fact he didn't do anything, it  
4 kind of told us we had already won, but technically it  
5 was still out there.

6 Q And the hourly rate is 350. Is that  
7 correct?

8 A Yes.

9 Q Is that -- do you have a written agreement  
10 with the county in that regard?

11 A Well, our -- our -- the written agreement is  
12 through Holtzman Vogel. I was associated through  
13 Holtzman Vogel in this case. That goes back to my  
14 original comments that I couldn't do the case without  
15 a larger firm. And I had a couple of firms in mind,  
16 but my recommendation was Holtzman Vogel.

17 Q How many hours have you extended since the  
18 map drawing ended that you would seek an hourly rate  
19 for?

20 A I'd have to go back and check. I think  
21 probably at least 40.

22 Q And so I think you mentioned earlier that  
23 you'd done about 16 to 20 hours of preparation for  
24 this deposition. Is that included in the 40?

25 A Yes.

1 Q And then the balance would be?

2 A What we're going to do this afternoon and  
3 some other stuff I've done beforehand.

4 MR. GABER: All right. We, I think,  
5 now I've been going for an hour. I'm happy to keep  
6 going, or if you'd like a break, we can do that. Or  
7 the court reporter.

8 THE WITNESS: We can push forward for a  
9 little bit further.

10 MR. GABER: Okay.

11 THE WITNESS: Probably need one in  
12 about a half hour.

13 BY MR. GABER:

14 Q All right. That sounds good. I'll make a  
15 note for 11:15 your time. All right. So I want to go  
16 back to the 2011 process a little bit with Galveston  
17 County. How did you get involved -- you know,  
18 retained by Galveston to work on redistricting back in  
19 2011?

20 A Well, I had a prior existing relationship  
21 with Trey Trainor and Joe Nixon at Beirne, Maynard &  
22 Parsons. They wanted to do some election law issue  
23 stuff. Didn't really have the expertise in shop.

24 And I agreed to -- you know, if they could  
25 get election law clients, I would provide that

1 expertise for them. And they proceeded to get a  
2 number of clients in Texas, and I assisted them on  
3 those cases.

4 Q Now, I gather from our previous exchange  
5 that you're not going to tell me who those other  
6 clients were. Is that right?

7 A That would be correct. Yes.

8 Q Okay. But they were retained by Galveston  
9 County. Is that --

10 A They were retained by Galveston County, and  
11 I provided them with expertise on -- on the law in  
12 their dealings with Galveston County.

13 Q All right. And so can you explain a little  
14 bit more about the work that you did on the 2011 map  
15 or the process for Galveston?

16 A Well, Joe and Trey did most of the initial  
17 work with Galveston County. I provided them with some  
18 guidance on the law. I also provided them with what I  
19 thought was an appropriate strategy to deal with  
20 pre-clearance.

21 It was a standard practice at that time for  
22 my clients to seek both an administrative  
23 pre-clearance and a declaratory judgment in District  
24 Court for the District of Columbia.

25 That tended to work fairly well and stopped

1 the Department of Justice from their typical response  
2 of just doing an automatic 60-day extension on their  
3 pre-clearance submissions.

4 We ultimately -- they did deny  
5 pre-clearance, but we actually -- I conducted  
6 negotiations with DOJ that ultimately got that map  
7 pre-cleared. And that was really when I started to  
8 pay a lot of attention to Galveston County.

9 Q When you said, "Joe," earlier, is that Joe  
10 Nixon?

11 A It is.

12 Q And Trey is Trey Trainor?

13 A It is Trey Trainor. Yes.

14 Q Was there a declaratory action filed for --

15 A Yeah, there was, but we didn't need to  
16 proceed with it, 'cause DOJ withdrew their objection.

17 Q And was that after the map was modified?

18 A Yes, but not very much. It was -- it -- the  
19 modifications were very minor.

20 Q What were those modifications?

21 A We put a building in that Commissioner  
22 Holmes wanted that wasn't in there. We added -- we  
23 cut a few precincts that had not previously been cut  
24 in order to gain some more African-American  
25 population, the -- that were along the edges of his

1 district.

2 That bumped his African-American population  
3 up slightly, but really just slightly. But it was --  
4 they were clearly cuts that were solely designed to  
5 get African-American pop.

6 Q Any other changes that you recall?

7 A No. That was pretty much it. It was very  
8 minor.

9 Q And so I gather you're pretty familiar with  
10 the geographic map of Galveston County.

11 A Well, I'm roughly familiar with the map of  
12 Galveston County. I have a lot of maps in my head.  
13 But -- but yes. I'm -- I'm roughly familiar with it.

14 Q And precinct 3, that's Commissioner Holmes'  
15 precinct. Is that right?

16 A Yes. I prefer to refer to that as a  
17 district as opposed to a precinct, because I don't  
18 like the confusion that results between that and  
19 voting precincts. That's a Texas thing. It can be  
20 very confusing.

21 Q I will endeavor -- to the extent we spend  
22 time talking about it, I'll endeavor to either say  
23 district or commissioner precinct and specified voting  
24 precincts.

25 A Yeah -- yes.

1 Q And so you understood or you understood at  
2 the time, right, that Commissioner Holmes'  
3 commissioner precinct 3 was a majority minority  
4 district?

5 A No. I disagree with that. Commissioner  
6 Holmes' district is crossover seat. I mean, it's --  
7 the African-American percentage in it has always been  
8 in the low 30s. It is certainly a seat that  
9 Commissioner Holmes can win.

10 It's certainly a Democrat seat. I don't  
11 think there's sufficient proof of cohesive voting  
12 between Hispanics and African-Americans to call that a  
13 coalition seat. It is -- it is a crossover seat.

14 Q Now, we're talking about the seat that  
15 existed after the 2011 --

16 A That's even true of the one that existed in  
17 2011. Remember, we're drawing that to a section 5  
18 standard, we're not drawing that to a section 2  
19 standard. So the issue is retrogression.

20 I mean, you could make an argument that  
21 retrogression at that point should only be  
22 retrogression of majority minority districts, but that  
23 issue was specifically accepted out of the Bartlett  
24 case.

25 You know, so there wasn't a -- the holdings

1 in Bartlett didn't necessarily apply to section 5  
2 standards -- retrogression standards.

3 And that was something that was, you know,  
4 probably going to get decided in a later case, but of  
5 course, we never got to that because of what happened  
6 in Shelby County. So but that was an ongoing issue.

7 Actually, now we get into one of those  
8 things where I don't feel comfortable about what I was  
9 discussing with clients, but since we're going there,  
10 you know, I discussed it with client at the time.

11 And -- but my recommendation was it didn't  
12 make sense to go down that road and -- and fight that  
13 issue. You've got a retrogression case in front of  
14 you. DOJ is going to object.

15 They're going to draw a certain hard line on  
16 this. They may or may not be right. Do you really  
17 want to be the test case for that?

18 Then my recommendation to the client was  
19 "No, you do not want to be the test case for that.  
20 You want to go ahead and draw to the standard that DOJ  
21 is trying to get you to draw to, because it's no skin  
22 off your nose, and -- and get through this."

23 Q And the client there, that's Galveston  
24 County Commission?

25 A Yeah -- yeah

1 Q When you said it's, "No skin off your nose,"

2 what did you mean by that?

3 A You're going to get to draw the other seats.

4 Draw Holmes' seat, make DOJ happy, make Holmes happy,

5 you know, march on and don't run the risk of having a

6 court draw your map for you. It's good sense. It's

7 good advice.

8 Q There was -- aside from your advice to that

9 regard, was there -- there was an effort -- there was

10 a move, within the commissioners or within the county,

11 to have that be the test case to see whether the --

12 A I don't -- are you done?

13 Q No. To see whether the crossover or

14 coalition standards that applied to section 5, whether

15 those would -- or rather that Bartlett would apply to

16 section 5. Is that correct?

17 MR. RUSSO: And let me just object to

18 as vague and ambiguous.

19 Mark, are you talking about the 2011

20 map right now?

21 MR. GABER: Yeah. So the negotiations

22 that occurred about the 2011 map.

23 MR. RUSSO: Okay.

24 BY MR. GABER:

25 Q And maybe I may have not done a good job of

1 asking that question. So I gather from the fact that  
2 you were giving this advice that there was a press  
3 among someone to carry the case forward, not draw the  
4 district that Commissioner Holmes wanted back in 2011,  
5 and see whether Bartlett would apply to section 5.

6 A I don't think that was really the case. I  
7 mean, it was not a hard argument to make. You know,  
8 there was certainly public support at that time for  
9 keeping all the islands together in Galveston Island  
10 and Galveston City together.

11 But that was a completely different map than  
12 the one they had already put out there. They'd  
13 already tried to put a map that would obtain  
14 pre-clearance out there.

15 The DOJ made an objection that, to some  
16 degree to me, looked like they hadn't fully thought it  
17 out. They just made an objection, because they'd run  
18 out of time on 60 days, because when we made the  
19 changes, they were not terribly significant. That  
20 being said, every last one of them was highly racial.

21 Q Say that again. Every last one of --

22 A Every last one of the changes that DOJ  
23 sought was highly racial.

24 Q So aside from -- I think you said it was a  
25 crossover district, because you didn't think that

1 | there was cohesion between black and Hispanic voters.

2 | Is that --

3 | A Correct.

4 | Q So setting that aside for the moment, in  
5 | terms of the actual number of people, did you  
6 | understand that if you added together the black and  
7 | Hispanic voting age population or citizen voting age  
8 | population of the district at the time in 2011, that  
9 | it was in fact over 50 percent minority?

10 | A I think citizen voting age population is  
11 | impossible to know.

12 | The -- the voting age population, yes, but  
13 | of course we all know the voting age population is not  
14 | the actual voting strength there or the -- and -- and  
15 | it's not clear that when you actually do the actual  
16 | citizen population, when you do the actual voting  
17 | strength, whether that really is, even if you add them  
18 | together, that number.

19 | Q Now, I gather you've not done any analysis  
20 | of your own on ecological RPV, racially polarized  
21 | voting, analysis in Galveston County.

22 | A I have not conducted my own ecological  
23 | regression or ecological inference on that subject,  
24 | no --

25 | Q Okay. That's not a subject that you would

1 | intend to opine on at trial in this case?

2 | A Not a subject I intend to opine on. You  
3 | know, to the extent that I am looking at other  
4 | people's and making a legal judgment off of it,  
5 | certainly.

6 | Q That would -- but that sort of judgment,  
7 | that would just be based on what?

8 | A Well, it'd be based on my knowledge as an  
9 | attorney who has worked in this area, who has worked  
10 | extensively using those methods.

11 | And, you know, I'm quite familiar with how  
12 | experts do those calculations, how they make those  
13 | calculations, what proper methods are, what improper  
14 | methods are, and when they're fudging their numbers  
15 | and when they're not fudging their numbers, and when  
16 | they have good data, and when they don't have good  
17 | data.

18 | And -- and I know all of -- you know, I've  
19 | looked at that in a number of -- number of reports  
20 | through the years. That's one of the reasons people  
21 | hire me is that I can -- you know, unlike a lot of  
22 | people who read expert reports and they go, "Oh, well,  
23 | I guess he says that," I can read between the lines.

24 | Q All right. And so this is my only chance to  
25 | talk to you. So I'm trying to understand for purposes

1 of this case, you've not done any sort of -- you have  
2 not been disclosed as an expert by county; right?

3 A I don't think I'm going to be -- well, I'll  
4 leave that to Mr. Russo.

5 MR. RUSSO: He's not disclosed in this  
6 case as sort of the expert the same way Alford and  
7 Owens have been disclosed.

8 I mean, I think part of the problem  
9 you're going to have Mark, is he was obviously  
10 involved in the drawing of the maps, which is why he  
11 is here, back in '21. So to the extent there's expert  
12 analysis and it's legal analysis, I think that's where  
13 you're going to, you know, have an issue, so.

14 MR. GABER: Well --

15 THE WITNESS: -- go ahead.

16 BY MR. GABER:

17 Q So have you been asked to provide any sort  
18 of expert opinion in this case?

19 A I haven't been asked to provide an expert  
20 opinion. I mean, I have certain legal opinions and --  
21 and legal analyses. Those legal opinions and those  
22 legal analyses rely on my reading of other people's  
23 reports.

24 Q And so you have not done any sort of  
25 racially polarized voting analysis; correct?

1 A Not on my own, no.

2 Q And have you -- done any other sort of  
3 analysis of districts in terms of compactness measures  
4 or the like? Have you done any of that type of  
5 analysis?

6 A Not independently. No. I mean, that's --  
7 that's my point. I don't do those analyses. I do  
8 read other people's analyses and understand how to  
9 read them. And I can use my knowledge of the law and  
10 my knowledge of how they do that to reach an  
11 appropriate legal conclusion. That's what I do.

12 Q And that's in your role as a lawyer in  
13 cases; right?

14 A Yes.

15 Q All right. Did you do or have done -- or  
16 did you have done, a racially polarized voting  
17 analysis in the 2011 process when you were working for  
18 Galveston County?

19 A I certainly didn't do one. I'm trying to  
20 recall. I don't know if one was done prior to that or  
21 not. I'm -- I'm inclined to think no, but I don't  
22 know. So I'm not going to -- I'm not going to answer  
23 that with any level of certainty.

24 Q Tell me, what do you know about the sort of  
25 geographic makeup of the demography of Galveston

1 County?

2 A Well, it's one of the faster growing  
3 counties in the area. It's becoming more and more of  
4 a suburban Houston county than it has been in the  
5 past. You can see that by the high growth trends in  
6 the northern part of the county.

7 You -- you know, you also kind of see it  
8 from where all the commissioners are coming from at  
9 this point. They're all kind of coming from the  
10 northern end of the county, because that's where most  
11 the pop is.

12 It is moving further south. I think it will  
13 probably continue to move further south as the  
14 northern end builds out and Houston's exurbs --  
15 suburbs and exurbs move towards Galveston Island.  
16 That's going to be something that's going to continue  
17 to be there.

18 It's higher income than most -- than a lot  
19 of the counties you see in Texas. That's a reflection  
20 of the high suburban population.

21 You see a relatively normal mix of Hispanic  
22 white, non-Hispanic white, African-American, Asian in  
23 the county. I mean, the African-American is right at  
24 the national average. So -- and if you look at  
25 Hispanic white, non-Hispanic white, it's pretty

1 consistent for Texas.

2 You know, it is -- one of the more

3 interesting things about it in terms of its Hispanic

4 is it's the Hispanic white and the non-Hispanic white

5 is very thoroughly integrated.

6 There are no extreme case precincts that

7 I've been able to find for Hispanic white, and not

8 terribly much for non-Hispanic white for that matter.

9 The only extreme case precincts that seem to

10 exist in the county are African-American. You know,

11 that's one of the statistical problems with doing

12 analyses in this county.

13 Q And what is your understanding of where in

14 the county the African-American population is

15 centered?

16 A Well, then you get into an interesting

17 conundrum, because there's the issue of where is the

18 African-American population centered versus what are

19 the high percentages? And that can be a little bit

20 different, because even that has a certain level of

21 integration to it.

22 So, I mean, if you're looking at high

23 percentages, there's some pockets up in the -- up in

24 the north in the Dickinson area, and there's a couple

25 of pockets around Hitchcock. You know, some pockets

1 around Texas City and a couple of pockets down on the  
2 island.

3 But the pockets are not enough to do a  
4 district. You have to actually start pulling in a lot  
5 more African-American pop that exists in more  
6 integrated precincts than -- than where those pockets  
7 are. And that's the only way you can make numbers to  
8 actually produce a district.

9 Q And --

10 A You understand the distinction?

11 Q What did you do or what have you done to  
12 come to that conclusion? Sort of what work did you do  
13 to analyze that?

14 A Well, that's largely from my first look at  
15 it in 2010, and then a -- a glance at where we are in  
16 terms of how the numbers have progressed going into  
17 2020. I mean, the -- the African-American population  
18 in this county actually reduced from 2010 to 2020.

19 And -- which isn't a real shock, but, you  
20 know, is to some people. But it's not surprising,  
21 given the demographic growth of this county.

22 Q And do you mean reduced as a percentage of  
23 the total or as --

24 A As a percentage. Not in raw number, no.

25 Q And to take the look and, I guess, to learn

1 | where the concentrations in particular of the  
2 | African-American population were back in 2011, is that  
3 | from, like, you know, can see maps that have, like,  
4 | shading where they show where the populations are? Is  
5 | that the kind of resource?

6 | A Yeah. They did -- the raw numbers don't  
7 | tell you very much, but, you know, for the  
8 | African-American population there doesn't appear to  
9 | have been a whole lot of movement. I mean, you -- you  
10 | look at that population from 2010 and where it is  
11 | today, it's pretty much the same place.

12 | Q And did you -- so in looking after the 2020  
13 | census, I gather similarly you would've looked at some  
14 | sort of map that showed where the African-American  
15 | population was concentrated.

16 | A Not a whole lot, because as you looked --  
17 | when you saw the gross numbers for African-American  
18 | from this decade to the previous decade, you could  
19 | pretty much tell that there had not been very much  
20 | movement. It was -- it was static.

21 | Q And so it was your understanding that they  
22 | had -- that population was still in the same sort of  
23 | geographic location in Galveston County --

24 | A Yeah. Because you can -- you can look at  
25 | the percentages for each one of the districts, match

1 | them against their stats from 2010, and you can see  
2 | they're tracking each other. They're correlating.

3 | And that's an indication you ain't got a  
4 | whole lot of movement. You don't need to look at much  
5 | else once you've seen that. That's not normally the  
6 | case. It was the case here.

7 | Q And so that was a comparison you did of, I  
8 | guess, the demographic makeup of the plan, the 2011  
9 | plan, comparing its 2011 demographic numbers with what  
10 | you saw after the 2020 census?

11 | A Correct.

12 | Q And that showed you that the demography of  
13 | the four districts had largely stayed the same?

14 | A Well --

15 | MR. RUSSO: Objection. Vague and  
16 | ambiguous. Misstates testimony.

17 | But go ahead.

18 | THE WITNESS: Largely stayed the same  
19 | for African-American.

20 | BY MR. GABER:

21 | Q And what about for Hispanic residents?

22 | A Some growth there. There's some growth in  
23 | the Hispanic white. There's some growth in the -- you  
24 | know, the white generally got larger. And that didn't  
25 | appear to be nearly as static --

1 Q Describe for me what you mean by nearly as  
2 static.

3 A Well, there's movement. You see changes in  
4 those percentages from district to district, whereas  
5 you didn't see real changes in the African-American  
6 from district to district. Do you understand the  
7 difference?

8 Q I think, maybe. So is one thing you saw  
9 that the Hispanic population had increased across all  
10 four districts?

11 A It had increased to some degree across most  
12 of the districts. There actually haven't been that  
13 much change in district 3. District 3 was the most  
14 static of all the districts, which was also the reason  
15 why it was the underpopulated district.

16 Q So district 3's Hispanic population and its  
17 African-American population had generally stayed the  
18 same?

19 A It had grown some, but it had not really  
20 changed tremendously in terms of proportions. The --  
21 the -- and -- and it was clearly the slowest growth  
22 district in the county.

23 Q When did you have a chance to kind of do  
24 this first analysis of the demographic makeup?

25 A It took a while to get numbers. I don't

1 know. Probably early September.

2 Q And that's 2021; right?

3 A Yeah.

4 Q And where did you -- how did you -- like,  
5 what format did this take? Well, how did you get the  
6 data?

7 A I think the first time I got the data was in  
8 a spreadsheet.

9 Q And that was, like, a breakdown of each  
10 commissioner precinct and its demographic makeup?

11 A Yeah. How much over and under ideal  
12 district size it was, Hispanic white, non-Hispanic  
13 white, African-American, Asian, TPOP, and VAP. And  
14 that allowed for comparison against the previous  
15 numbers.

16 Q Did you -- what did you have in terms of a  
17 resource for the previous numbers?

18 A Well, had -- that was data that was actually  
19 relatively easy to get, because that was data that  
20 had -- you know, at that point -- Bureau has that. I  
21 mean, the numbers that are hard to get are the new  
22 ones.

23 Q Yeah. And that was -- the legacy data came  
24 out in late August, and the -- would it have been  
25 after the more user-friendly version came out in

1     September?

2             A     It's after the more user-friendly version  
3     comes out.

4             Q     You were --

5                     THE REPORTER: -- jump in really quick.  
6     I'm sorry.

7                     Mr. Oldham, I can't get your testimony  
8     if you talk at the same time.

9                     THE WITNESS: Oh, I'm sorry.

10                    THE REPORTER: Thank you.

11                    THE WITNESS: My fault. I apologize.

12     I -- I am always sympathetic to the task of court  
13     reporters. It is very difficult, and we don't pay you  
14     enough attention.

15     BY MR. GABER:

16             Q     Thank you pal. And I will try not to talk  
17     over you, as well. And was this the sort of, like,  
18     first look that you did after the -- in September?  
19     Was that before you started working with Mr. Bryan?

20             A     Yes.

21             Q     Had you worked with Mr. Bryan prior to this?

22             A     No. I had not. He's a new demographer map  
23     drawer for me, but I liked him a great deal.

24             Q     And I wanted to ask one clarifying question  
25     back on the 2011 pre-clearance process.

1 A Yes.

2 Q The work you did there, that was on the  
3 commissioner mount; right?

4 A In 2011. I worked later on the -- on the  
5 Justice of the Peace and Constable Districts.

6 Q And when would that have been?

7 A I want to say 2013. I think -- I think the  
8 map was drawn in 2013, and the -- the trial took place  
9 in 2014. But I'm -- I'm not going to swear to that.  
10 But it's in that -- it's in that range.

11 MR. GABER: All right. We're at our  
12 time that you had requested for a break. So let's go  
13 ahead and take that. Is ten minutes good for you?

14 THE WITNESS: Sure. I think that'll be  
15 fine. Unless Mr. Russo has a better --

16 THE VIDEOGRAPHER: Okay. We are off  
17 the record at 11:16 a.m. This is the end of file  
18 number 1.

19 (Off the record.)

20 THE VIDEOGRAPHER: We're back on the  
21 record at 11:37 a.m. This is the beginning of file  
22 number 2.

23 BY MR. GABER:

24 Q Mr. Bryan, during the -- or not Mr. Bryan.  
25 I'm sorry. That was earlier this week. Mr. Oldham,

1 during the 2021 map drawing process for Galveston  
2 County, did you have any contact with any of the  
3 attorneys from the Public Interest Law Foundation?

4 A Not that I recall. No.

5 Q I know Mr. Nixon had worked with you in the  
6 past on the 2011 process. Was he involved at all in  
7 the 2021 process?

8 A No, because during 2021 process he was still  
9 working for Commissioner Trainor at the Federal  
10 Election Commission.

11 Q All right. And just a little bit more on  
12 the fee arrangements. Had it been your expectation to  
13 have received payment by now?

14 A Yes.

15 Q And when did you expect to have received  
16 payment?

17 A Some time ago.

18 Q Like, in 2021?

19 A Closer to that. Yeah.

20 Q And just to this point today, as of your  
21 testimony today, you've not gotten paid?

22 A No. I have not.

23 Q Have you raised that issue?

24 A I hope -- I hope for that to be remedied  
25 very shortly.

1 Q Is that something you've discussed with the  
2 Holtzman Vogel folks during the deposition?

3 A I discussed with the number of folks  
4 including Holtzman Vogel. Yes.

5 Q And did that issue come up this week in your  
6 deposition prep conversations?

7 MR. RUSSO: I'm going to object to the  
8 extent you're mischaracterizing testimony.

9 You can answer if you can.

10 THE WITNESS: Only tertiarily, but  
11 it's -- but it came up. Yes.

12 BY MR. GABER:

13 Q And is that -- have you discussed the  
14 absence of payment with anyone who was actually, like,  
15 at the county?

16 A They've -- I've been assured that I will be  
17 paid.

18 Q And who made that assurance?

19 A That assurance has been made by Holtzman  
20 Vogel. And -- and I'm -- I'm assuming that it will be  
21 honored.

22 Q And what about, like, anyone from the county  
23 commission or the staff?

24 A County commission has not addressed me  
25 directly. No.

1 Q All right. And Judge Henry, has he talked  
2 about this with you?

3 A I have not talked with Judge Henry except  
4 for -- because it's been -- I've been told not to talk  
5 to Judge Henry. So I have not talked to Judge Henry  
6 except for the Christmas greeting since 2021.

7 Q Who told you not to talk to Judge Henry?

8 A Counsel in this case. Not Mr. Russo.

9 Q And -- say that again.

10 A Not Mr. Russo, but counsel in this case.

11 MR. RUSSO: Let me just object and make  
12 sure the witness is aware there are still  
13 attorney-client communications protected in this case,  
14 particularly those that, you know, come up after the  
15 passage of the mapping.

16 So, you know, again, watch the inquiry  
17 into attorney-client privileged communications.

18 BY MR. GABER:

19 Q Yeah. Who is the counsel who you are  
20 referencing just now?

21 MR. RUSSO: Let me object.

22 Don't answer that question again. He's  
23 asking about attorney-client privileged information.

24 MR. GABER: Well, just so I understand,  
25 I think Mr. Oldham has testified he doesn't have any

1 attorney-client relationship with any of the other  
2 lawyers in the case.

3 MR. RUSSO: Well, he's still under  
4 engagement with the Holtzman firm in connection with  
5 the work that was conducted back in '21. And he's  
6 testifying as to communications that have been between  
7 those lawyers. So again, that's the objection.

8 BY MR. GABER:

9 Q Are there any other witnesses, or  
10 commissioners, or county employees that you've been  
11 advised not to speak to?

12 MR. RUSSO: Same objection.

13 Don't answer that.

14 BY MR. GABER:

15 Q Is it your expectation that soon after your  
16 deposition is done today in the coming days or weeks  
17 that you'll finally get that payment?

18 A Yes.

19 Q All right. So I want to turn to the 2021  
20 process for Galveston redistricting. I think you said  
21 that -- was it Paul Ready who reached out to you  
22 initially?

23 A Yes. It was.

24 Q And when about was that?

25 A I don't know. Relatively early in the year.

1 I don't know the exact date. But he reached out to  
2 me. I think there's an email that actually outlines  
3 the date, but he reached out to me and -- and asked if  
4 I would be interested.

5 Q And I gather you told him yes?

6 A I did. With limitations. You know, it's --  
7 I explained to him the situation that BMP didn't exist  
8 anymore, and obviously couldn't do it through them,  
9 and I'd have to think of somebody else to do it  
10 through. I had to check with some people first to see  
11 if some other people would be interested.

12 Q Aside from Holtzman Vogel, who else had you  
13 considered as, you know, being potential partners?

14 A I think that's particular speculation.  
15 I'll -- I mean, I will say I called Holtzman Vogel  
16 first.

17 Q And who at Holtzman Vogel did you reach out  
18 to?

19 A Jason Torchinsky.

20 Q And maybe you said this earlier, but you'd  
21 worked with Mr. Torchinsky and the Holtzman Vogel firm  
22 before?

23 A Yes. Many times. Way, way, way back in the  
24 day Jason was my clerk.

25 Q And what were you retained to do for

1 Galveston County Redistricting?

2 A I was retained to provide legal advice  
3 regarding the -- the process and the drawing of the  
4 map, same thing the firm was retained for. And then  
5 to represent the -- the county in subsequent  
6 litigation, essentially just as I had been 2010 and  
7 2013. Different firm.

8 Q And what was the kind of client relationship  
9 like? I mean, who were you -- who did you report to  
10 on the client side?

11 A Typically Mr. Ready. I occasionally talked  
12 to commissioners, but more often than not it was Paul  
13 Ready.

14 Q Is he a employee of the county or does he  
15 have a private practice?

16 A You need -- to ask Mr. Russo.

17 Q All right. But at the time you didn't have  
18 any understanding of that difference?

19 A No.

20 Q And so your instructions primarily came from  
21 Mr. Ready. Is that right?

22 A Correct.

23 Q And after you were retained for the 2021  
24 process, like, what did you do? What was your first  
25 sort of steps to begin your work?

1 A Well, there wasn't much to do until we got  
2 some numbers we could actually work with. So prior to  
3 that, there's really not very much that you're able to  
4 do.

5 You're -- you're sitting there at that point  
6 wondering when the bureau is actually going to produce  
7 numbers. And that was a big problem in every  
8 jurisdiction in 2021.

9 Q And so those came out. There was the legacy  
10 ones in August we mentioned. There was the  
11 user-friendly in September.

12 It seems to me, from looking at some of the  
13 documents and talking to folks, that there's a sort of  
14 month-long period then between when the user-friendly  
15 data came out in mid-September and when Mr. Bryan was  
16 retained in mid-October. Does that sound about right  
17 to you?

18 A Yeah. Probably by the time we got to work  
19 with Bryan. But, you know, after the data comes out,  
20 there's still other things we have to do before you  
21 can actually get to a map.

22 Q And what were those things?

23 A Well, first off, I need to look at the  
24 initial data, and do a section 2 analysis, and -- and,  
25 you know, look at what at least that data tells me.

1 Then the other big thing we got to do once  
2 I -- once we kind of figure out where -- what the  
3 ground is, I've got to talk to commissioners and get  
4 their input on what they want to do.

5 That process -- the last commissioner to  
6 give us his input, and we were kind of waiting for,  
7 was Commissioner Holmes. That was towards the end of  
8 September. At that point, you're at a situation where  
9 you can start to draw.

10 Q All right. So I want to sort of walk  
11 through all three of those things. Or I think the  
12 last two are sort of one thing. But the first was to  
13 look at the initial data and do a section 2 analysis.  
14 What did you do for that?

15 A Well, I had a number of things. The -- the  
16 initial thing that you're trying to figure out is do  
17 you have a strong basis in evidence for drawing a  
18 section 2 remedial district?

19 The important thing to remember is we do not  
20 have section 5 as a -- as a legal basis at this point.  
21 So while Bartlett didn't apply in 2011, it does apply  
22 in 2021.

23 So you've also got -- Hill at that point.  
24 You've got Covington. You've got a whole bunch of  
25 cases that have -- have, if not changed the standard,

1 have certainly -- certainly modified it considerably,  
2 you know, going all the way back to Abrams v. Johnson.

3 But it's -- you've had some serious changes  
4 in -- in where the law is at that point, and you've  
5 got to take all of those into account.

6 Then you have to look at what evidence you  
7 have. The only -- the only evidence that you had of  
8 polarization and coalitional voting is that that you  
9 had during the -- the Petteway case.

10 That's Dr. Barreto's material, which I was  
11 intimately familiar with, and, you know, had been  
12 pretty thoroughly discredited during the trial.

13 So as you started to look at it and you  
14 looked at the comparison of the numbers between 2011  
15 and 2020, it's fairly obvious that under the Bartlett  
16 standard you're dealing with crossover district there.  
17 You're not dealing with coalition district.

18 And then you add in the fact that in 2011,  
19 the district 3 had been very specifically drawn on  
20 race. It wasn't just the predominant basis. It was  
21 the only basis, particularly after DOJ made its  
22 negotiations, so -- which is very much like the  
23 situation in Abrams v Johnson.

24 So at the end of the day, we had to come up  
25 with an analysis of what could be done. The obvious

1 question was could we do a least changes map? That  
2 would to a large degree depend on what the thoughts of  
3 the commissioners were.

4 And that was one of the reasons for going  
5 out and asking the commissioners "Okay. What's your  
6 wish list of what you want?"

7 And -- and each of the commissioners gave me  
8 a wish list. Had conversations with each one of them,  
9 myself and Paul Ready. I made a point of making sure  
10 Paul Ready was in on every one of these conversations.

11 And we got from each individual commissioner  
12 assuring them that without their discussion with it we  
13 weren't going to reveal it to the other commissioners,  
14 what they had asked for. And we got a -- a list of  
15 each one of them's wants and not wants. Some were  
16 very specific. Some were not.

17 Q I'll get to the commissioner meetings in a  
18 minute, but I do want to walk through a little bit  
19 more specifically some of the section 2 analysis. So  
20 it sounds to me like you reviewed Dr. Barreto's report  
21 from the prior Petteway case. Is that right?

22 A Yes.

23 Q And when did you take a look at that report?

24 A Oh, I had probably looked at that report  
25 before we actually got to September. I mean, I --

1 I -- that was -- that was kind of old hat stuff, and  
2 it was something I could actually look at before I  
3 actually got numbers.

4 I mean, viewed it again in light of the  
5 numbers, but -- but it was something I looked at  
6 before we got to that stage.

7 Q And what in particular in it were you  
8 looking at?

9 A Well, I was just reminding myself -- in  
10 Dr. Barreto's original report he had provided both  
11 bivariate regression analysis and ecological  
12 inference.

13 Almost all of his bivariate regression  
14 analyses were out of bounds. His confidence intervals  
15 were terrible. And as you began to look at it, his  
16 results were inconsistent, as came out at trial.

17 His results were inconsistent with the  
18 situation that you would see otherwise at the state,  
19 and came up with very high polarization rates, not  
20 only for Hispanics, but for non-Hispanic whites, as  
21 well as Hispanic whites.

22 And they were unrealistic. They didn't  
23 match what you would see in other parts of the state  
24 of Texas. That actually got asked by Judge Costa from  
25 a bench, who cast a great deal of doubt on the ideas

1 that Barreto was suggesting on -- on those votes.

2 I mean, you could see votes from the Rio

3 Grande Valley that didn't match the numbers that

4 Dr. Barreto was producing. You could see polling

5 data, et cetera.

6 Which would seem to indicate that -- you

7 know, it's hard to imagine that somehow Galveston

8 County is this odd outlier of where Hispanics and --

9 and non-Hispanic whites are just completely different

10 from the state of Texas.

11 So it's -- you're more inclined to view that

12 that is actually a statistical problem inside the data

13 that is -- largely results from the fact that there

14 are no extreme case precincts in Galveston County.

15 That is one of the things I looked for right

16 off the bat to see if that in fact changed, but it

17 doesn't appear to be that in fact has changed.

18 You're still dealing with county where the

19 Hispanic white and non-Hispanic white are very

20 thoroughly integrated in their housing patterns, and

21 therefore you can't get an extreme case precinct to

22 check your -- your bivariate or ecological regression

23 analysis.

24 The ecological regression analyses -- I

25 mean, the -- the ecological inference analyses give a

1 | report, but there's always a phenomenon with  
2 | Dr. King's analysis that he uses kind of an artificial  
3 | limit under a curve to -- to force results that are in  
4 | bounds.

5 | And that's one of the reasons I've always  
6 | liked bivariate better, is it really indicates when  
7 | you get an out of bounds result. You can see it in  
8 | confidence and it'll get reflected in confidence  
9 | intervals from time to time.

10 | But it's -- it's a sign that the reports as  
11 | the Court found in the Petteway case, were simply not  
12 | reliable.

13 | I also got reminded of the fact that  
14 | Dr. Barreto had, in his original deposition to me,  
15 | repeatedly stated that he had gotten political data  
16 | from the -- from the census reports. I gave him four  
17 | chances to correct that during the deposition. He  
18 | never did.

19 | We did an interrogatory. They never gave us  
20 | where that political data came from. And it was only  
21 | at trial that he corrected himself and -- and admitted  
22 | that it had not come from the Census Bureau, because  
23 | Census Bureau simply doesn't report political data.

24 | You always have to get it from a third-party vendor.

25 | So it was -- the report was thoroughly

1 |       discredited and was unusable in order to use it as a  
2 |       strong basis in evidence.

3 |       Q     Two questions about that. So once you came  
4 |       to that conclusion, was that roughly -- was that --  
5 |       you said it was maybe before the data came out in  
6 |       September. Is that right?

7 |       A     Yeah. I had looked at that kind of as a  
8 |       prelude.

9 |       Q     All right. Would that been, like --

10 |       A     And then -- then when I got the data, you  
11 |       know, one of the things I was looking for was to see  
12 |       if there's an extreme case precinct, and there wasn't.  
13 |       You know what -- by extreme case precinct.

14 |       Q     So after you came to that conclusion about  
15 |       Dr. Barreto's report, did you do anything to do your  
16 |       own analysis or retain someone to do an analysis?

17 |       A     We did not retain someone to do an analysis.  
18 |       I don't think at that point it was really incumbent  
19 |       upon us to try and prove Barreto was somehow right  
20 |       when we'd already seen the report and we already knew  
21 |       the errors in it.

22 |               And the systematic problems that you're  
23 |       going to have in doing any Hispanic -- Hispanic white,  
24 |       non-Hispanic white polarization report.

25 |               I mean, I -- I would suggest to you that

1 it's extremely difficult, if not impossible, given the  
2 data sets that are available today to actually get an  
3 accurate read on that number in Galveston County.

4 Q So there was no -- Dr. Barreto's report,  
5 though, was the only racially polarized voting study  
6 that you had to look at?

7 A It was the only one available at the time.

8 Q All right. And no additional one was  
9 conducted?

10 A No additional one was conducted. But any  
11 additional one, including the ones that have been  
12 conducted so far, are going to really be able to  
13 escape that problem.

14 Q And that's, in your view, because of the  
15 lack of the homogenous Hispanic precinct?

16 A Correct. Yes. Homogenous or extreme case.  
17 They're -- they're essentially referring to the same  
18 thing. It's a slight difference, but not much. You  
19 don't have to be homogenous, but you need to be somewhat  
20 close.

21 Q But is it the case that the question that  
22 you were looking at was whether there could be a  
23 district drawn that was majority black and Hispanic  
24 together --

25 A Well -- was something beyond that.

1 MR. RUSSO: -- mischaracterizes  
2 testimony.

3 Go ahead.

4 THE WITNESS: Yeah -- yeah.

5 What I'm looking for something  
6 different than that, because you've got to prove a lot  
7 more than that.

8 What I'm looking for is, is there an  
9 ability to prove that there's a cohesive voting  
10 pattern between non-Hispanic -- between Hispanic  
11 whites and African-Americans, that they are choosing  
12 the same candidate of choice?

13 That's a slightly different analysis  
14 from the way you're trying to frame it. And -- and I  
15 would suggest mine complies with the law.

16 MR. GABER: I actually had just hadn't  
17 finished my question.

18 THE WITNESS: Yeah.

19 BY MR. GABER:

20 Q I was going to get to the Gingles two part  
21 of it. But the framework you're operating under is, I  
22 gather, the Fifth Circuit. You know, are you aware or  
23 were you aware that the Fifth Circuit has held that  
24 coalition districts, you know, can --

25 A I'm aware of the Fifth Circuit precedent.

1 And it's not only the Fifth Circuit. There's  
2 obviously the -- the difference in the Sixth Circuit  
3 and, you know, there's a couple of differences in some  
4 of the other circuits.

5 But I think it's worth noting that in  
6 Bartlett, at least, while coalitional voting, whether  
7 a coalition district is definitely legal or not, was  
8 not -- was not raised, because it wasn't subject  
9 matter in the -- in the decision.

10 It was certainly left open that a coalition  
11 district could be a -- a section 2 district. So yeah.  
12 I'm looking at it.

13 Q And just for the court reporter's benefit,  
14 we do have to try to let each other finish the  
15 question or the answer before we start. But at the  
16 time, you know, I gather you understood that the Fifth  
17 Circuit's precedent is what controlled what Galveston  
18 County would be responsible for doing.

19 A I'm certainly looking at Fifth Circuit  
20 precedent as the -- the most important precedent.  
21 Absolutely. That -- that doesn't mean that the other  
22 is not informative, if you understand what I'm saying.  
23 I mean, we're trying to be good lawyers here.

24 Q Aside from Dr. Barreto's report then, am I  
25 correct that there was nothing else done to look at

1 the question of cohesive voting block between black  
2 and Hispanic voters in Galveston County?

3 A No. And -- and frankly, after examining  
4 Dr. Barreto's report, I didn't think there was a  
5 tremendous amount of value in doing that, simply  
6 because of the data problem that I discussed.

7 After I looked at the initial data outlay, I  
8 was very consciously looking for whether you want to  
9 call it a homogeneous precinct or a extreme case  
10 precinct.

11 I was looking for something that might could  
12 provide you a check and get you more reliable data  
13 than what Dr. Barreto had done. It doesn't exist.

14 And as a result of that, probably the  
15 ability to look at that and -- and obtain what you're  
16 asking for is probably impossible.

17 Q So, you know, we're talking now about the  
18 second Gingles prong; right?

19 A Yes, to some extent. You're also talking  
20 polarized voting, because even though it's also very  
21 difficult to show cohesion because of this problem,  
22 it's also very difficult to show polarized voting  
23 between -- between Hispanic whites and non-Hispanic  
24 whites.

25 Q Did you do any particular analysis of the

1 first Gingles prong after the data came out?

2 A I'm not quite sure what you're asking. Can  
3 you be --

4 Q Well, so it sounds like the analysis for the  
5 second Gingles prong was to look at Dr. Barreto's  
6 report. What, if anything, did you do to determine  
7 whether or not the first Gingles prong could be met in  
8 Galveston County --

9 A You're talking about in terms of the  
10 compactness of a -- of a potential remedial district?

11 Q Whether a majority minority district could  
12 be drawn, you know, with a -- that was reasonably  
13 configured.

14 A Well, the problem is, if you're going to  
15 draw such a district, the dispersion of the Hispanics  
16 makes drawing a Hispanic seat pretty much impossible.

17 The question then occurs, can you draw a  
18 African-American seat? If you can draw an  
19 African-American seat that -- you can't draw a  
20 majority minority African-American seat. It's  
21 simply -- there's simply not enough population.

22 In fact, there's a real problem if you were  
23 to go about trying to draw an African-American seat,  
24 because you've got a De Grandy issue.

25 I mean African-American population is about

1 13 percent in the county, roughly. Don't have it  
2 right off the top of my head, but I think that's  
3 pretty darn close.

4 And you're talking about 25 percent of  
5 seats. I mean, that's obviously about twice  
6 proportionality. That's going to ring all kinds of  
7 alarm bells under under De -- under De Grandy  
8 analysis.

9 You start to look at it from that  
10 perspective. So you have to -- you have to look at it  
11 from a Hispanic perspective. Hispanics are actually a  
12 larger minority group in Galveston County, and -- but  
13 you can't draw a Hispanic seat.

14 So you're going to always have to draw one  
15 that is really a crossover for African-Americans.  
16 That's really the only kind of minority seat you can  
17 draw, because you have to get the -- the  
18 African-Americans pooled together.

19 And of course the problem with that was  
20 illustrated in 2010. When you drew that map, you  
21 really -- and particularly after DOJ got involved, I  
22 mean, it turned race from, you know, probably  
23 predominant criteria to the only criteria. And so you  
24 got a real problem in the way you have to put those  
25 together.

1 Add in the fact when you're drawing the  
2 African-American population, you got to get those hard  
3 concentrations we talked about earlier.

4 But then you also have to get in a lot of  
5 precincts where -- and -- and blocks where -- you  
6 know, because you're having to cut precincts to get to  
7 a lot of this, particularly in 2010 you did.

8 You're going for a lot of blocks that are in  
9 a lot of territory where it's not majority minority.  
10 It's not majority black, but at least it's not all  
11 white. So you're sitting there trying to find 30, 40  
12 percent blocks that you can add in, so that you can  
13 make numbers.

14 And that becomes a problem in and of itself  
15 too. So, I mean, it becomes a serious compactness  
16 issue on drawing a majority minority district, because  
17 of one, your Hispanic dispersion, and two, the small  
18 number of African-Americans you have.

19 Three, the fact that you got to reach all  
20 over the county to get the African-Americans together,  
21 because you have to go all the way from Dickinson down  
22 to -- down really into Galveston Island.

23 I mean, I -- I -- one of the things I saw  
24 the other day was that -- that one proposed remedial  
25 district that they can go into Galveston Island that

1 used the AP, and probably once you pull the AP out  
2 isn't even going to be majority minority. You know,  
3 that's cute.

4 But you -- you go and it's just extremely  
5 hard to do that without running a district that looks  
6 like the one that we drew in 2011 -- that was drawn in  
7 2011 that ran from Dickinson through a narrow neck  
8 down a corridor, popped a couple of wings out to get  
9 some more, and then drove in and got the eastern end  
10 of -- of Galveston Island. About the best -- you can  
11 do.

12 Q Sorry. Can I ask just a clarifying  
13 question? When you say, "Crossover district" --

14 A Yeah.

15 Q -- who are the voters that you're saying are  
16 crossing over there? Is it Hispanic voters or white  
17 voters?

18 A Both. I think it's probably both.

19 Q All right. And when we talk about a  
20 coalition district, we're talking about a district  
21 where black and Hispanic voters would vote in  
22 coalition together and form a majority. Is that sort  
23 of the vernacular?

24 A Well, they vote -- coalition but they  
25 also --

1 MR. RUSSO: -- let him finish.

2 THE WITNESS: Okay -- okay. Go ahead.

3 BY MR. GABER:

4 Q Just so we are using the same words, I want  
5 to make sure that that's -- would that be your  
6 understanding in this context --

7 A Well, I'm -- I'm using -- go ahead. Finish.

8 Q Of a coalition district.

9 A Well, let me just -- the definition I'm  
10 using is the ones that come out of Bartlett and come  
11 out of some of the other cases. And the -- and the  
12 key to that is not merely that they vote for a similar  
13 candidate at the general election level. They have to  
14 have the same preferred candidate of choice.

15 And, you know, it's not clear at all, and I  
16 would say impossible to prove, that Hispanics have the  
17 same preferred candidate of choice as the  
18 African-Americans here.

19 But moreover, given the -- the nature of the  
20 data that you have and how you're trying to do the  
21 polarization analysis, it seems fairly clear that the  
22 way you get to a majority in this district is that a  
23 significant number of the non-Hispanic white, a  
24 significant number of the Hispanic, not necessarily  
25 majority on both sides, but certainly, you know,

1       there, comes over and votes for the African-American  
2       candidate of choice in these elections, and that  
3       allows that candidate to win.

4           Q     Did you have a conclusion when you were  
5       doing the section 2 analysis as to even roughly the  
6       percentage of Hispanic voters who cast their ballots  
7       in the same direction as black voters?

8           A     It's very difficult to tell with this data.  
9       If you use -- if you use data from elsewhere in the  
10      state, you could anticipate anywhere from 65 percent  
11      to 50 percent. But this is general election, mind  
12      you. Very different from primary. Very, very, very  
13      different from primary.

14                But in general election, you could  
15      anticipate somewhere between 35 to 50 percent of the  
16      Hispanics. But you can also generally expect about 25  
17      to 40 percent of the non-Hispanic white.

18                So at the end of the day, you're staring at  
19      a district that is relying on crossover vote for the  
20      African-American candidate to win in the general  
21      election. That's not that shocking.

22                That's a number that, you know, is not too  
23      out of line with the district that was in Bartlett.

24                I mean, you know, you're talking about a  
25      district Bartlett that was, like, 42 percent

1 African-American where you didn't even have a real  
2 Hispanic component, and it was still getting enough  
3 crossover vote for the African-American to win if he  
4 could win the Democrat primary.

5 Q And so the assumption that you're making,  
6 and I gathered this a little bit from the discussion  
7 of Dr. Barreto's report -- one of the criticisms you  
8 had of Dr. Barreto was that he was showing numbers for  
9 Hispanic support for the black-preferred candidate  
10 that varied from what you saw in other jurisdictions  
11 in the state of --

12 A Well, it is not only -- it's not only that,  
13 but there's the flip side of that. He's showing --  
14 which is one of the things that makes you think why he  
15 was getting out of bounds results, is he's got the  
16 opposite problem on the other side.

17 He's showing much higher polarization rates  
18 for the non-Hispanic white than are normal in the  
19 state of Texas.

20 Q And so, I guess, I got a little confused  
21 with some of the numbers that you just gave, because I  
22 think you might have transposed what -- so you said 35  
23 to 50 percent Hispanic. That is for -- that's  
24 Hispanic support for the white preferred candidate is  
25 what you would expect --

1           A     Yeah. That's -- the -- go ahead.

2           Q     And I'll just -- so 35 to 50 percent  
3 Hispanic support in favor of the white-preferred  
4 candidate. That's still the statewide number?

5           A     In -- in this situation, yes. And that  
6 would generally be the Republican candidate. But  
7 you -- and -- and it'll vary from location to  
8 location.

9                     But it does not -- the demographics of  
10 Galveston would tell you it's not going to be an  
11 outlier. If anything, it's going to be an outlier the  
12 other way.

13                    I mean, you're not -- you're not talking  
14 about -- you're talking about generally high income  
15 Hispanic here. You're talking about older Hispanic  
16 that has been in country a good long time. You're  
17 talking about Hispanic that is generally citizen.

18                    This is not looking at the neighborhoods on  
19 the south side of San Antonio. This is -- this is  
20 looking at the suburbs that are on the northwest side  
21 of San Antonio, and they got very different numbers.

22           Q     And so the range that you would expect  
23 for -- or that you expected when you were looking at  
24 Dr. Barreto's analysis in 2021 was that the Hispanic  
25 support for the black-preferred candidate would be in

1 the 50 to 65 percent range? That was sort of your  
2 assumption?

3 A It wasn't an assumption, but -- and -- and  
4 I'm not saying that it would be, but I'm saying that  
5 to report something like 88, 90 percent is pretty  
6 incredible. I mean, you don't see those kind of  
7 numbers hardly anywhere.

8 Q And the -- but your expectation was that the  
9 Hispanic voters -- the majority, at least, of the  
10 Hispanic voters were casting their ballots in the same  
11 direction as the black voters in Galveston?

12 MR. RUSSO: Objection. Calls for  
13 speculation.

14 Go ahead.

15 THE WITNESS: Yeah. May have been.  
16 You can't tell from this data. This data doesn't  
17 provide you that. And that's exactly the issue we  
18 brought before Judge Costa. And -- and, you know,  
19 that's why Judge Costa disregarded this evidence.

20 BY MR. GABER:

21 Q When you say that Judge Costa disregarded  
22 the evidence, what do you point to for that  
23 conclusion?

24 A Well, the fact that he dismissed the section  
25 2 claim from the bench. And the real issue of the

1 section 2 claim was the Hispanic constable over in the  
2 Texas City area. And if he had agreed with  
3 Dr. Baretto's analysis, we shouldn't have won the  
4 section 2 issue from the bench.

5 Q All right. Was it your conclusion that the  
6 white voters in Galveston County were voting in a  
7 polarized manner from the black voters?

8 A Well --

9 MR. RUSSO: Wait a minute.

10 Objection. It's vague and ambiguous.

11 What time period are you talking about?

12 MR. GABER: Sure.

13 And I mean to talk about, I think, the  
14 September time period when you were doing the section  
15 2 and analysis prior to the map drawing.

16 MR. RUSSO: Twenty-one?

17 MR. GABER: Twenty-one. Yeah.

18 THE WITNESS: That depends on how you  
19 want to define "Polarized." I mean, are most of the  
20 African-American voters, almost all of the  
21 African-American voters, voting for the Democrat  
22 candidate? Yes.

23 Are a majority of the non-Hispanic  
24 white voters voting against the Democratic candidate  
25 or for the Republican candidate? Yes.

1           There get to be a lot of questions as  
2           to what you're going to -- what you're going to call  
3           in terms polarized. And of course, the real question  
4           is whether it's legally significant or not.

5           If you're using a Brennan analysis,  
6           there -- there's certainly the suggestion that that  
7           is -- that is viable.

8           But we've had plenty of cases, even the  
9           cases that have found using general election data is  
10          okay to prove this, that have said the -- the  
11          probative-ness of general election data is  
12          substantially less than primary data, because you  
13          can't separate out the -- the political effect that's  
14          causing that.

15          Like I said, this is one of those  
16          issues that's a little fuzzy out there. But even  
17          looking at it from that perspective, you haven't got  
18          good data even using their general election data.

19          That having been said, it's clear  
20          African-Americans are voting in a particularly block  
21          voting way, cohesive, if you prefer that term. But  
22          they are definitely voting in that manner. Whether  
23          they face polarized voting within the Democratic  
24          primary or not, not a question.

25          Whether it's -- whether that -- but it

1 doesn't seem to matter in a district where they have  
2 30 percent of the -- of -- of the population, because  
3 they're going to probably make up the majority of the  
4 Democratic primary anyhow, given low participation  
5 rates from other groups in the Democratic primary in  
6 this state.

7 But if you look at -- but it's not  
8 possible, because you can change primaries here. It's  
9 an open primary.

10 But if you look at that for a -- in  
11 terms of polarization, you're making a deeper  
12 analysis, and it's difficult to make that from the  
13 general election data, and it's particularly difficult  
14 to make it from general election data here, because of  
15 the problems we've already discussed.

16 So yes. I think -- I think there's  
17 definitely block voting on the part of  
18 African-Americans. It would be the group you would  
19 look at first.

20 But you don't have to look at them very  
21 far, because it's only 13 percent of the county, and  
22 you can't get them more than, like, 32 percent in a --  
23 33 on a extremely good day in any given district. And  
24 that's probably drawing a district that really doesn't  
25 meet Gingle standards.

1 BY MR. GABER:

2 Q Now, I want to talk a little bit about the  
3 phone call -- or I don't know if they were -- were  
4 they phone calls that you had with commissioners or  
5 was that Zoom? What was that?

6 A Well, it depends on when you're talking. If  
7 you're talking about when I'm getting the information  
8 from the commissioners, those were phone calls, I  
9 think.

10 Q Yeah. So I want to start with those. So  
11 was that in -- was that September of 2021, as well?

12 A Yeah. That's in September after we've given  
13 them the overall county data, and -- and that's now  
14 general knowledge to everyone. And we're now asking  
15 them for what they want.

16 Q All right. And so I think you said that  
17 Mr. Ready was on each of those calls. Is that right?

18 A Yeah. That is correct.

19 Q Was anyone else aside from each individual  
20 commissioner a party to those calls?

21 A No. It was just myself, Mr. Ready, and the  
22 individual commissioner.

23 Q All right. And did you speak to all four of  
24 the commissioners at the time and Judge Henry?

25 A Correct.

1 Q I want to walk through each of those. For  
2 Judge Henry, what did you discuss with Judge Henry?

3 A Well, Judge Henry was the one person who  
4 from the very beginning wanted a geographically-based  
5 map. And -- and -- which, as we would discover later  
6 in the calls, put him a little bit at odds with the --  
7 odds with the rest of them.

8 But he was the one person who wanted  
9 geographically-based map.

10 He had this, to some degree, dated from 2010  
11 when people had raised it during the public hearings  
12 in 2010, when the newspaper requested it, that  
13 Galveston Island, and Pelican Island, and Bolivar be  
14 put together in a single district, and -- and to end  
15 the split of Galveston Island and Pelican Island.

16 The -- the -- and he was still of a mind to  
17 do something that was geographically based. That  
18 was -- that becomes the basis of map 2.

19 Q And is this something that Judge Henry  
20 offered to you in the first phone call you had with  
21 him in September of 2021?

22 A Well, it's something he -- that was his  
23 want.

24 Q What else did he ask about or suggest in  
25 that meeting?

1 A Well, he didn't want any commissioners  
2 paired, which is a legitimate thing. And -- and there  
3 are a lot of -- lot of good reasons not to pair  
4 commissioners, not least of which is it gets very  
5 messy as to how the elections are going to go.

6 And you've got to be careful not to pair --  
7 since they have staggered terms, you don't want to be  
8 comparing one commissioner from one stagger with the  
9 one from a different stagger. It's the easiest way to  
10 do it, is just not pair them.

11 And -- but he wanted that to follow a  
12 general kind of, you know, geographic -- draw the  
13 district with the -- he understood that there wasn't  
14 going to be enough population on the islands to carry  
15 the district, but just, you know, get it to where  
16 it -- take it in, and get it to where it could be.

17 And you are obviously going to have to find  
18 a commissioner. When we look at it a little bit  
19 later, it's kind of obvious who that commissioner has  
20 to be. And then draw one for the Bay, draw a -- a  
21 Houston suburbs district in the north, and then kind  
22 of west-central. And -- and that becomes the basis  
23 for map 2.

24 Q Any other requests from Judge Henry?

25 A That was pretty much it.

1 Q All right. What about Commissioner Giusti?

2 A He wanted -- the key thing he wanted -- that  
3 he asked for was not to remove his parents from the  
4 district.

5 So we got his parents' address, and later  
6 Tom would -- would geocode that on his map. So he --  
7 that was his key thing and "Don't change my district  
8 any more than you have to," which was going to become  
9 a theme.

10 Q Anything else from Commissioner Giusti?

11 A That was pretty much it. He was in some  
12 ways an easy one.

13 Q All right. So then what about Commissioner  
14 Clark?

15 A Also not that difficult. His principal  
16 response was the same as -- as Giusti's: "I -- I want  
17 to change as little as I can."

18 He suggested a precinct that was right below  
19 Commissioner Holmes' home that could be given to  
20 Commissioner Holmes. He would be -- he would be happy  
21 with that to help him with his population.

22 But he asked us basically not to take his --  
23 he knew he was going to have to lose population, but  
24 he didn't want to lose any more than he had to.

25 And he was okay with the cut that was going

1 to take place in a precinct we already had to cut,  
2 because of the 5,000 voter limitations.

3 So that was principally his request. So he  
4 did ask for a couple of precincts on the -- on the  
5 more eastern end of his district to stay in it. But  
6 that was -- that was his request.

7 Q Any other requests from Commissioner Clark?

8 A That was pretty much it. I mean, he was not  
9 what I would call unreasonable.

10 Q All right. And what about Commissioner  
11 Apffel?

12 A He had two things he wanted -- well, three  
13 things he wanted. He had two precincts he asked for  
14 very specifically in the northwest portion of his  
15 district that weren't in his district. They were in  
16 Commissioner Clark's district. He wanted those  
17 removed.

18 They actually somewhat conflicted with what  
19 Commissioner Clark wanted. But -- and he wanted  
20 Pelican and Bolivar out of his district. I think he  
21 had the idea that we give him enough pop to let him  
22 take those other two. And then he wanted to keep  
23 everything else. He was wrong on the pop, though.

24 Q Any other requests from Commissioner Apffel?

25 A That was -- that was his request.

1 Q On any of these calls we've talked about,  
2 were you mostly in listening mode or were you saying  
3 things in response?

4 A I was completely in listening mode.

5 Q All right. And what about Mr. Ready?

6 A Mr. Ready was also in listening mode,  
7 because I didn't want -- this was -- this was their  
8 opportunity to tell us what they wanted without their  
9 fellow commissioners knowing what they were asking  
10 for, because they get somewhat nervous about asking  
11 for things in front of the other ones.

12 They're politicians. They don't want to say  
13 they want specific things, and they want other people  
14 out of their district. You never want to say to  
15 someone you want someone out of your district.

16 Q Right. What about -- so we've talked  
17 through -- I think I asked you that. That was sort of  
18 everything that Commissioner Apffel asked about?

19 A Yeah. That was his list.

20 Q What about your meeting with Commissioner  
21 Holmes?

22 A Well, in our first meeting with Commissioner  
23 Holmes, Commissioner Holmes wouldn't give us his wish  
24 list. And -- and as a result, we were kind of waiting  
25 on Commissioner Holmes to actually provide us with --

1 with his results.

2 He would call -- he would set up a call

3 later, and -- and Paul and I would talk to him again.

4 At that point he had very specific requests,

5 individual block type requests.

6 He had it scoped out by streets. He wanted

7 to go down, he wanted to move the lines around in

8 his -- on the edges of his district with Commissioner

9 Apffel's district, and -- and have those very specific

10 changes put in.

11 Q And can you say something more specifically

12 about what the specific requests were?

13 A Not right offhand. I mean, they are all

14 incorporated into map 1. We took his specific

15 request, we gave them -- Bryan put all of them in.

16 And if they aren't all in, it's a mistake. But put

17 them all in.

18 So that's not to say that's exactly the

19 district he wanted to draw, because we also put

20 Pelican Island and Bolivar in there. But he got

21 everything he actually asked for in map 1, or at least

22 that was our intention.

23 Q Okay. So after you had met with all four of

24 the -- and was that everything that Commissioner

25 Holmes asked for?

1 A That's everything Commissioner Holmes asked  
2 for.

3 Like I said, he had the most specific list  
4 of the lot of them, which kind of told us -- and we  
5 would kind of think this again later when I  
6 actually -- when Tom actually put them in, and I got  
7 to see Tom's draw -- he had probably gone to someone  
8 and had a map drawn.

9 None of the rest of them had done that,  
10 because you can tell that some stuff was off with  
11 theirs.

12 Q And so then after this, is that kind of  
13 roughly when -- was there something else that happened  
14 between these calls and when Mr. Bryan was retained?

15 A Not really. At this point we're ready to  
16 draw.

17 Q All right. And who identified Mr. Bryan as  
18 the person to do this?

19 A That was hired -- he was hired by Holtzman  
20 Vogel.

21 I don't know who the specific counsel at  
22 Holtzman Vogel was, but from the very beginning of the  
23 contract I had told Jason that he was going to need to  
24 find a demographer, because I didn't really have one  
25 these days. And so, he is going to have to pick

1 somebody up.

2 I knew he was working with a variety of  
3 people, and I suggested some names. He -- Bryan  
4 actually wasn't one of the names I suggested, but he  
5 did a very good job, I thought.

6 Q And when was the first -- do you recall when  
7 the first conversation you had with Mr. Bryan was?

8 A Not exactly, but it was early in the month  
9 of October.

10 Q Was he on vacation when you first --

11 A Yeah. I think that was what held him up a  
12 little bit was he was on vacation when -- when they  
13 first got him.

14 But I -- I didn't talk to him other than say  
15 hello while he was on vacation. I mean, I didn't  
16 deliver him any of the information at all. The  
17 information was delivered once he got back.

18 Q And what is it that you told Mr. Bryan when  
19 you finally spoke to him more substantively? What did  
20 you tell him to do?

21 A Well -- well, first off, we put Giusti's  
22 parents in the -- in the map, and of course they ended  
23 up near the edge of the line. Of course. Which meant  
24 you weren't going to be moving anything on the line  
25 between Holmes and -- and his district on Galveston

1 Island at map 1.

2 The instructions were to basically take the  
3 requests from the commissioners and see if it was  
4 possible to do a least changes map that would  
5 incorporate, if not all, most of the commissioners'  
6 individual requests.

7 And what you're really seeing is most of the  
8 time this doesn't work, because the commissioners make  
9 requests that are -- or the electeds make requests  
10 that are contradictory to one another in a way that  
11 they can't really be melded together.

12 I was actually reasonably surprised that  
13 when you put these together, you could give almost  
14 everything to every commissioner. You obviously  
15 couldn't get them everything, but each commissioner  
16 could get pretty much what he had specifically asked  
17 for.

18 Q And that's in the least change?

19 A Yeah. In -- in map 1. Yeah. I mean, we  
20 gave most everybody -- you know, there's always one  
21 thing you didn't get. But we gave most of everything  
22 everybody had asked for. It was a good compromise,  
23 least changes map.

24 Q And was that your sense from the  
25 commissioners, as well, when they saw -- because you

1 presented this --

2 A When we presented it? Yeah.

3 MR. RUSSO: -- let him finish his  
4 question.

5 THE WITNESS: Yeah. Sorry. Go ahead.

6 Well, when we presented it, is that  
7 what you're asking?

8 MR. GABER: Yeah. exactly.

9 THE WITNESS: Each commissioner that  
10 saw the -- each one of the individual commissioners  
11 that had a district when they saw the least changes  
12 map was reasonably pleased with how that came out.  
13 Each had a little pick here and there, but each was  
14 pretty much reasonably pleased.

15 BY MR. GABER:

16 Q Now, what about map 2? What were the -- or,  
17 you know, it wasn't originally called that, I know,  
18 but the sort of -- the first instructions to Mr. Bryan  
19 about the second map that wasn't the least changes  
20 map, what were those instructions?

21 A Well, it's map 2, because literally that's  
22 the second one he did. But yeah. map 2, the  
23 instructions were fairly simple, following --  
24 following Judge Henry's kind of -- kind of request,  
25 put all of the islands together. Okay?

1           You're basically -- whereas before you're  
2           working from the existing map and you're making  
3           changes to everybody's district per their request,  
4           this time you just take the map off, and you leave the  
5           commissioners' houses on. That's just -- block it all  
6           off.

7           Then you put the islands together. Then,  
8           coming across at the transportation corridor at I-45,  
9           you come across the -- the causeway, and you try to  
10          get to a commissioner's house without it looking too  
11          ragged, without creating a little corridor down the  
12          west side of the county.

13          And try to get to a commissioner's -- see if  
14          you can get to a commissioner's house without the pop  
15          drag preventing you from being able to get there.

16          When you're looking at that, Giusti becomes  
17          almost the de facto guy that you've got to get to,  
18          because he's the only one that -- he's the one that  
19          lives the farthest south.

20          The others -- I mean, one of the -- one of  
21          the problems is all of the commissioners tend to live  
22          in the northern part of the county, and Giusti is the  
23          closest to the island. And the question obviously  
24          became whether he could get there or not.

25          But if you can get to Giusti, you get to

1 Giusti, and draw as good a looking district as you can

2 to get to Giusti in.

3 If you look at his first draft of map 2,

4 Giusti is in the last precinct. He's in the one

5 that's at the absolute top of it, trying to go as much

6 whole precincts as you can through there.

7 And then you draw your Bay district, which

8 is essentially taking the rest of Galveston Bay, and

9 start working your way inland from there, and -- until

10 you fill that up.

11 And then you do your -- your Houston

12 suburbs, Harris County Suburbs district along the

13 north. And then what's left is west and central, and

14 that goes in. And those are your four districts.

15 Q And is this sort of literally the type of

16 instruction that you gave to Mr. Bryan?

17 A Yeah. Pretty much what I told him.

18 Q Did you tell him anything else about --

19 A Well, the one key thing was "Don't pair any

20 incumbents." You've got to have an incumbent in each

21 district.

22 Q Any other instructions about what he should

23 do with map 2?

24 A No. That's pretty much it.

25 Q Did you give him any instructions as to what

1 the purpose of map 2 was?

2 A Draw a geographically-based map --  
3 geographically-sensible-based map that, you know,  
4 reflects the general geographic communities of the --  
5 of the county.

6 Q And was that sort of a summation of it? It  
7 was a geographically-based map, and there was no other  
8 kind of rationale for this?

9 MR. RUSSO: Objection. Vague and  
10 ambiguous as to time.

11 You can answer.

12 THE WITNESS: That was -- those were my  
13 instructions.

14 BY MR. GABER:

15 Q Did those instructions change at any point  
16 from when you first talked to him about map 2 --

17 A My instructions didn't change. No.

18 Q You didn't add any additional instructions  
19 at any point?

20 A No. I mean, the map he produced is pretty  
21 much the map we first submitted. I mean, this was  
22 true of both map 1 and map 2. There's some cleanup of  
23 water blocks that have to be done.

24 There's a few cleanup of, you know,  
25 unallocated geography that ends up in there that

1 happens in any draw. And -- and so he had to do a  
2 little bit of cleanup, but that's pretty much what he  
3 first drew.

4 Q And then throughout the -- so from when he  
5 first drew it, and then there was some, you know, as  
6 you said, cleanup, did you give him specific  
7 instructions along the way for how to do that cleanup?

8 A Well, only when it really comes to water  
9 blocks, because occasionally water blocks are really  
10 screwy. They can mess up your compactness for no good  
11 reason, and they shouldn't even be included in -- in  
12 how you look at that and particularly how it scores.

13 So just trying to get the blocks to -- you  
14 know, this goes to a dispute that jurisdictions always  
15 have with the bureau about.

16 "Could you please bother to give us some  
17 more reasonable water blocks than what you give us?  
18 Because, you know, we get fingers jutting into things  
19 simply because you were too lazy to cut another water  
20 block for us."

21 So yeah. I looked at a few of those, and  
22 was like "Yeah. Let's do it this way rather than  
23 that."

24 Q And did some of that come from feedback from  
25 the commissioners after you showed them the map?

1           A     No -- no. That's -- that's all trying to  
2     just make it look a little better.

3           Q     And there were a couple iterations before  
4     you showed it to the commissioners. Is that right?

5           A     On map 2?

6           Q     Yeah. On map 2.

7           A     I don't think so. I mean, may have been,  
8     but I don't think so. I mean, I think if you're  
9     looking at iterations, it's probably cleanup work.

10          Q     And then what -- at some point you then  
11     showed the maps to the commissioners. Is that right?

12          A     Correct. I -- I flew down, and we showed  
13     the -- the maps individually to all of the  
14     commissioners.

15          Q     So you were there in person for that?

16          A     There in person for that. And same routine,  
17     myself and Paul Ready.

18          Q     All right. And when did those meetings  
19     happen?

20          A     Oh, probably shortly after Tom had the maps  
21     in October.

22          Q     And did you meet with them individually with  
23     Mr. Ready, or were some of them together in a group,  
24     or how did that look?

25          A     I believe they were all individually with

1 Mr. Ready.

2 Q All right. And was there some data  
3 associated with the maps that you showed them, as  
4 well?

5 A Yes. We -- we showed them a spreadsheet  
6 on -- on all of the maps.

7 Q And that was the spreadsheet that Mr. Bryan  
8 had created?

9 A Yes.

10 Q All right. And so what did -- and those  
11 conversations -- did you talk with the county judge  
12 too at that time?

13 A Yes.

14 Q All right. So what did Judge Henry have to  
15 say about the draft maps?

16 A He liked map 2. You know, he -- he was --  
17 that was his favorite.

18 Q And did he say why?

19 A Well, did what he wanted to -- it to. But,  
20 you know, that was certainly his favorite, was map 2.

21 Q And was that -- was it the geography or  
22 what --

23 A Well, I think it was probably more the  
24 geography than anything else.

25 Q Anything else that he commented about map 2?

1           A     Not that I recall. I mean, he -- he was  
2     pretty enthusiastic, but yeah.

3     Q     Anything that you said to him additionally  
4     about map 2 that you recall?

5     A     I mean, I -- I told him that, you know, it's  
6     geographically-based criteria. We specifically did  
7     not use race in drawing it. We did not use race in  
8     drawing either map.

9           That was -- that was an adamant instruction  
10    that I made to -- to Tom Bryan, that I wanted no  
11    racial data up for him to look at while he was drawing  
12    either of these maps, because I was very conscious of  
13    trying -- one, I didn't want map 2 to be done on that.  
14    I wanted it to be done strictly on the geographic  
15    criteria, as instructed.

16           But more importantly, on map 1, I did not  
17    want any racial data used on map 1, because I had  
18    already come to the conclusion that the best way to  
19    legally defend map 1 was as a least changes map. And  
20    -- and I did not want to racialize that map and create  
21    the possibility of a Shaw type suit.

22           Q     And so that was an instruction to Mr. Bryan  
23    that you gave to him. Was that at the same time you  
24    told him all the other stuff from the commissioners?

25           A     Yes.

1 Q All right. And any other -- instructions?

2 MR. RUSSO: Wait. Let him finish.

3 Sorry.

4 MR. GABER: Yeah. What was your --

5 THE WITNESS: Yeah. Do not use any  
6 racial data in drawing that map. Do not put it on the  
7 screen. Look -- look at the -- look totally at the --  
8 at the one-person, one-vote.

9 BY MR. GABER:

10 Q All right. Were there any other  
11 instructions that you gave to Mr. Bryan beyond the  
12 racial data instruction and the instructions about  
13 what the commissioners had said they wanted?

14 A No. That's -- those were his instructions  
15 on what to do.

16 Q Okay. Did Judge Henry in his meeting say  
17 anything about map 1?

18 A Other than he much preferred map 2, and he  
19 wanted that one to be the one that would go through.  
20 He did suggest that map 1 was still a racial  
21 gerrymander.

22 I, you know, said, "We're trying to get away  
23 from that." But that was -- he did suggest that it  
24 was still a racial gerrymander.

25 Q Did he say why?

1 A Well, he had some reasonable basis for that.

2 I mean, from 2011 it was pretty obvious that if you  
3 didn't have a section 5 standard to protect it, it  
4 was -- it wasn't going to survive racial gerrymander.

5 It was going to be a real problem avoiding a racial  
6 gerrymander on that case.

7 And -- and I wouldn't disagree with him on  
8 that. The -- the question was could you actually  
9 legitimately unhook it and make it a politically-based  
10 map, as opposed to making it a race-based map? And --  
11 and, you know, that is something that can be defended  
12 if you can get the political support for it.

13 Q Now, what about your meeting with  
14 Commissioner Giusti? What did he say about the draft  
15 maps?

16 A Well, he liked map 1. He was unhappy about  
17 his political performance in map 2. I wasn't  
18 surprised by that.

19 Q What do you mean by political performance?

20 A Well, he went from the most Republican  
21 district in the county to the least Republican  
22 district in the county.

23 Q And what else did he say about map 1?

24 A Well, we'd given him pretty much everything  
25 he wanted, and he was reasonably happy with that.

1 Q All right. And anything more about map 2?

2 A That was his principal objection to map 2.

3 Otherwise, he didn't -- he didn't -- he wasn't that

4 upset with it, but -- because he didn't mind having

5 the -- having Galveston Island, but he didn't like the

6 political performance of the map.

7 Q Anything else from him?

8 A That's -- that's all I recall right now.

9 Q All right. What about -- did you meet again

10 with Commissioner Clark?

11 A Yes.

12 Q And what did he have to say?

13 A Well, he was adamant. He hated map 2.

14 Q And why was that?

15 A He liked map 1. He wasn't -- he wasn't

16 unhappy. We -- he wasn't completely happy we took the

17 precincts from him in the -- in the -- in the

18 Northwest, but he -- overall he was okay with that.

19 But he was extremely unhappy with map 2.

20 Well, he had a completely different

21 political objection from Commissioner Giusti, because

22 Commissioner Clark had a very good Republican district

23 in -- in map 2.

24 Turns out, though, since most of it had

25 previously been in Giusti's seat, not his, because he

1 had to pick up that territory he couldn't -- that Tom  
2 couldn't reach when he got -- when he had filled up  
3 Giusti's seat, all of that went over to Clark.

4 Well, Clark was absolutely convinced he was  
5 going to get primaried and he was going to lose. And  
6 he wanted significant changes made to the -- to the --  
7 to the district if 2 was going to go forward. But he  
8 was -- he was very upset with map 2.

9 He said that was going to take him off the  
10 commission. And -- and his objections were something  
11 you couldn't dispute, but you also couldn't see by  
12 looking at any data, because he's talking about  
13 individuals, and individual groups, potential  
14 opponents, that sort of thing.

15 His problem went with the Republican  
16 performance district. In some minds -- in some ways  
17 in his mind it was too Republican, because it had  
18 Republicans that were going to oppose him.

19 Q Any other complaints from Commissioner  
20 Clark?

21 A That's pretty much it. That was -- trust  
22 me, that was enough.

23 Q All right. What about Commissioner Apffel?

24 A Well, Commissioner Apffel wasn't completely  
25 happy with 2 either. And he then let us know why he

1 had wanted those two precincts in the Northwest,  
2 which -- that he hadn't completely told us why he had  
3 wanted them.

4 Turns out his wife had found a nice housing  
5 lot where they wanted to build a house in the second  
6 one of those. He needed the other one to get there.

7 And -- and he wanted -- he needed those two  
8 precincts in his district. And of course when we did  
9 the geographic criteria, Tom wasn't conscious of -- of  
10 the ask and not ask, and -- and so they weren't in  
11 there.

12 And -- and so he wanted the house in -- the  
13 new -- the new house in. If he told us that to begin  
14 with, we would've moved his house to that spot. So  
15 that was his objection. Otherwise, he was happy.

16 Q Otherwise, he was okay with map 2?

17 A Yeah.

18 Q What did he have to say about map 1?

19 A He liked map 1. I had to explain to him  
20 about the Texas City stuff. And I -- and I told him,  
21 you know, that -- I didn't tell him Holmes had  
22 actually requested it, because I didn't want to reveal  
23 that at that point.

24 But I did tell him, you know, we looked at  
25 the math and he really needed to lose that, the

1 territory he lost in the Dickinson, League City area,  
2 in order to get himself to where he could get those  
3 two precincts he wanted.

4 And -- and frankly, he also needed to lose  
5 Bolivar and Pelican Island, because that's the only  
6 way the math would work. And it was the only way the  
7 math would work.

8 Q Okay. Anything else from Commissioner  
9 Apffel about the maps?

10 A That's pretty much everything.

11 Q What about your meeting with Commissioner  
12 Holmes?

13 A Commissioner Holmes' immediate response when  
14 we showed up was "Only one of these maps do I like,"  
15 and that was map 1. I wasn't surprised by that  
16 response. But I think he recognized we had given him  
17 everything he had asked for.

18 We had given him something else he didn't  
19 want, Bolivar and Pelican, and he mentioned the fact  
20 that he didn't want them.

21 You know, I explained -- again, I didn't  
22 want to explain to him the issue with Apffel or that  
23 if we didn't give them to him, that would mean we were  
24 granting none of Apffel's requests.

25 And -- and I didn't want to put any

1 commissioner in the situation where we had asked them  
2 for their requests and then we just totally stiffed  
3 one of them.

4 So he pretty much had to get Bolivar and  
5 Pelican. It frankly made the cuts look -- in -- in --  
6 down there in that region look a little less racial  
7 too.

8 I -- you know, it didn't really affect his  
9 political performance, because the amount of people in  
10 there was so small, it wasn't going to change it, and  
11 I think he probably recognized that.

12 I did inform him at the time that if he  
13 could get support for it amongst the other  
14 commissioners, it's not real hard to reverse that one.

15 We can do it within numbers without a whole  
16 lot of grief, because it was -- it was obvious he had  
17 contacted somebody to draw him a map, and that was the  
18 basis of his changes.

19 And they'd gotten up over the minimum level  
20 they needed to change, and they just stopped. That  
21 was why he had room to take on those two pieces and  
22 still give him all -- all -- and he's in the slowest  
23 growth district in the county.

24 So if you're going to have one that's higher  
25 than the others, you want that one to be the high one,

1 not the low one, which was what he was going to be  
2 otherwise.

3 So there was a one-person, one-vote aspect  
4 to it. There was a Larios aspect to it, and it made  
5 the most sense, and it was more likely to get  
6 political support.

7 Q And what did Commissioner Holmes say about  
8 map 2, if anything?

9 A Well, he hated it. And, like I said, not  
10 surprising. But he -- he made it adamant that he  
11 didn't -- didn't like it.

12 I pointed out to him at the time that I  
13 thought I could defend both maps, but I could not  
14 defend -- because he made the suggestion that  
15 retrogression was still in play. And I corrected him  
16 on that.

17 And I did not think that retrogression --  
18 that Voting Rights Act could defend a map based on the  
19 Voting Rights Act. But I did think it could defend  
20 one based on these changes. And -- and he needed to  
21 find two commissioners that would support him on that.

22 Q And you told him that?

23 A I did. I didn't tell him that, from my  
24 previous conversations, I thought there were two  
25 commissioners possibly out there, because that's not

1 my -- that would've been me overstepping my bounds.

2 Q All right. And these conversations that  
3 we've just been talking about that happened after --  
4 where you're showing the draft, was there any  
5 discussion about what other commissioners had said or  
6 not said?

7 A I am specifically not sharing Commissioner  
8 confidences. I'm not sharing Holmes' confidences with  
9 the other commissioners. I'm not sharing the other  
10 commissioners' confidence with the other  
11 commissioners. I only do that if they relieve me and  
12 allow me to go do that.

13 Q All right. Aside from what we talked about  
14 with Commissioner Holmes, was there anything else that  
15 he said to you about the draft maps?

16 A That's pretty much it. I mean he -- he made  
17 it very clear he didn't -- didn't like map 2. And he  
18 made it -- you know, he was -- he -- I at least got  
19 the indication that while he didn't like having  
20 Bolivar and Pelican Island, he was okay with that.  
21 And that was the impression I left the meeting with.

22 But at that point, you know, I did -- I did  
23 tell him, you know, if he wants to draw more maps or  
24 if he wants to take Bolivar and Pelican Island out,  
25 particularly if he can get support from other

1 commissioners, we will do that and we won't tell the  
2 other commissioners what's going on.

3 That he can get access to Tom, and I will  
4 just, you know, I will always be looking to make sure  
5 we have a map that I feel like is defensible, because  
6 that's the key thing, is to have one that's  
7 defensible.

8 But he could have access to Tom Bryan and he  
9 could have access to my expertise. But he never took  
10 advantage of that afterwards.

11 Q What about the other commissioners? Was the  
12 same offer of access to Tom Bryan given to them?

13 A Yes -- yes.

14 Q Did any of them reach out separately to Tom  
15 Bryan?

16 A Nobody reached out separately to Tom Bryan.  
17 I wanted them to contact Tom through me, because I  
18 wanted to know what they were doing with Tom.

19 Q Right.

20 A But, you know, we weren't going to tell the  
21 other commissioners unless they said it's okay to tell  
22 the other commissioners.

23 Q And did anyone go through you to talk to Tom  
24 Bryan?

25 A Well, yes. And after that, phase 2 of this

1 operation starts, or I could say phase 3, but  
2 certainly phase 2 of the drawing operation starts.

3 MR. RUSSO: Hey, Mark, if we could take  
4 a short break, what I'd like to do is just go ahead  
5 and, like, order lunch because I'm going to have to  
6 get it brought in.

7 MR. GABER: Okay.

8 MR. RUSSO: Maybe five minutes,  
9 because, you know, I don't want to take a lunch break  
10 right now, but, you know, I'm not sure it'll happen in  
11 the near future and I'd rather the food be here.

12 MR. GABER: Yeah.

13 MR. RUSSO: Would you be okay to take  
14 five and then come right back?

15 MR. GABER: Yeah. That works for me.

16 THE VIDEOGRAPHER: Okay. We are off  
17 the record at 1:05 p.m. This is the end of file  
18 number 2.

19 (Off the record.)

20 THE VIDEOGRAPHER: We're back on the  
21 record at 1:29 p.m. This is the beginning of file  
22 number 3.

23 BY MR. GABER:

24 Q Mr. Oldham, you had mentioned a phase 2 or  
25 phase 3, and I want to get to -- move to that. I want

1 to ask a couple questions, some other loose ends  
2 first, though.

3 Who did you view as Mr. Bryan's client? Was  
4 that you? Was that Holtzman Vogel? Who was his  
5 client?

6 A Well, to a certain extent, it's the client  
7 of the attorneys. I mean, he's hired through the  
8 attorneys. He's there to help us help the -- help the  
9 commissioners' court -- so, I mean, the -- the client.  
10 He's -- he's reporting to the attorneys.

11 Q Okay. Now, you had said that there were --  
12 we had gotten -- after the meetings where you showed  
13 the commissioners the draft maps, you got the feedback  
14 from that. And then you said there was phase 2 or  
15 phase 3. What did you mean by that?

16 A Well, the question was whether -- what --  
17 but at least in terms of the map drawings itself, it's  
18 kind of phase 2. You know, you've had earlier phases  
19 prior to this, but we've gotten down to the  
20 nitty-gritty of drawing maps at this point.

21 And -- and we did still have some situations  
22 where we're trying to actually divide the precincts  
23 that we had to meet the 5,000 voter on that were  
24 internal to districts.

25 We -- we clicked the ones that were external

1 to districts already, but we didn't click the ones  
2 that were internal to districts. So we were still  
3 trying to work through some of that.

4 But at this stage what happens is now  
5 commissioners start to make changes to map 2.  
6 Essentially, Judge Henry is going and getting votes.

7 And -- and -- so the first one that comes  
8 is -- is Apffel. And he wants to get his new house  
9 site in the map from -- into map 2. And so Tom and I  
10 get together with him and Tom starts to do some work.

11 First thing we got to do is find out exactly  
12 where the house is or it's going to be, and then  
13 figure out how it can be done, and -- and make sure  
14 that the line is actually a -- a usable line.

15 That was all found. It was added in. The  
16 changes were made that got his house into his district  
17 in map 2. And at that point, I think he was on board  
18 with Judge Henry at that point.

19 Q Do you recall where specifically that house  
20 site is?

21 A Not right off the bat, but if you look -- if  
22 you look up there, there's a cut precinct on the  
23 Northwest edge. That's it.

24 Q And which district is that?

25 A In the district that Apffel represents now.

1 I think that's district 1. And -- and --

2 Q And so the precinct was split to get that  
3 house site?

4 A To get that house site.

5 Q All right. The --

6 A It's barely in.

7 Q And do you know if he's moved to that house?

8 A I do not.

9 Q All right. Now was this --

10 A If his wife is like mine, he has.

11 Q This process of getting Commissioner Apffel  
12 satisfied by getting his new house into his  
13 commissioner precinct, how did the communication about  
14 that happen? Was that -- did you go to him and say,  
15 "Hey, let's --

16 A No -- no. He -- Paul Ready contacted me  
17 and --

18 Q What did Paul say?

19 A Well, he just told me that Apffel wanted to  
20 make some changes. And I got Tom Bryan scheduled in,  
21 and got a Zoom together, and -- and Bryan shared the  
22 map and -- and made the changes to get the district in  
23 there -- I mean to get the house into the district.

24 Q Okay. Do you remember when about that  
25 meeting or that this happened with Commissioner

1 Apffel?

2 A Not exactly. It's not too long after we  
3 presented the maps, but it's after I got back home.

4 Q How long were you in Galveston for these  
5 meetings?

6 A Not very long.

7 Q Couple of days?

8 A Yeah. I mean, I came down, saw all the  
9 commissioners and went back.

10 Q So after Commissioner Apffel's house issue  
11 was addressed, what happened next?

12 A Well, then the question is to deal with  
13 Commissioners Giusti and -- and Clark. And I think it  
14 kind of -- kind of went to Clark first, but after that  
15 they kind of started a little bit of it together.

16 And the question -- Clark had very specific  
17 things he wanted. And they were not -- and it was not  
18 anything that you could tell from the data, because  
19 Clark knew individual people's names. He -- he, you  
20 know, talked about certain groups.

21 None of us knew what any of that meant, but  
22 I'm not disputing anything that he thought. I mean,  
23 he knew that ground better than anybody else knew that  
24 ground. And he knew who his potential primary  
25 opponents were better than anybody else would've known

1 what his primary opponents were.

2 So you weren't -- you couldn't dispute him  
3 on any of that. And he had very specific precincts,  
4 locations, et cetera, he wanted out and he wanted in.

5 He got some of it. Some of it was going to  
6 put him out of one-person, one-vote, and couldn't let  
7 him have that.

8 You know, some of it started to violate  
9 criteria too much. Couldn't let him have that. But  
10 at the end of the day, he was copacetic with the map  
11 that ultimately is the map, the version of map 2 that  
12 gets passed.

13 In the process, he manages to give Giusti  
14 back some of his -- the -- the Republican precincts he  
15 didn't want.

16 Q And so the Republican precincts that  
17 Commissioner Clark didn't want, I gather those were  
18 the voting precincts he had identified as where  
19 potential primary opponents lived?

20 A Yes.

21 MR. RUSSO: Speculation.

22 But to the extent --

23 THE WITNESS: Speculation, but he --  
24 yeah. I mean, it's clearly the ones he wanted out.

25 //

1 BY MR. GABER:

2 Q And to the extent he was talking to you  
3 about his reasons, it was because of who he had  
4 identified as potential primary opponents?

5 MR. RUSSO: It calls for speculation.  
6 And asked and answered.

7 A Yeah. There were -- yeah. It was that and  
8 people who would -- who could oppose him, you know, in  
9 terms of voters and candidates. Yeah.

10 Q And giving those voting precincts to  
11 Commissioner Giusti made Commissioner Giusti happy?

12 A Correct.

13 Q Any other comments from Commissioner Clark  
14 at this point on map 2?

15 A Once it gets -- I don't know that Clark was  
16 ever completely happy, but he certainly becomes  
17 copacetic and -- and is on board with map 2 at that  
18 point. At that point, Apffel, Giusti, and Clark are  
19 all on board with map 2.

20 Q Now, so for Commissioner Apffel, he is  
21 resolved with his concerns, because his new home site  
22 is in map 2.

23 A He was the easy one to make happy.

24 Q All right. He had been -- when you first  
25 met with Commissioner Apffel, he liked map 1?

1 A He liked map 1, because it had his house --

2 the new House site in it, and map 2 did not.

3 Q Did he give you any other reason for why he

4 was good with going with map 2 now?

5 A No. That was pretty much it.

6 Q All right. And for Commissioner Clark, he

7 became copacetic you said. He still preferred map 1.

8 Is that the case?

9 A Well, I think it is deep down in his heart,

10 but he didn't want to -- he didn't want to be, you

11 know, the guy still --

12 MR. RUSSO: I just object to

13 speculation.

14 THE WITNESS: Yeah -- yeah. It's

15 speculation.

16 He's right. It's speculation. It's

17 my -- it's my trying to read where he was.

18 BY MR. GABER:

19 Q I guess that's what I'm -- so I am

20 interested in that. What was your read on where he

21 was?

22 MR. RUSSO: Objection. Speculation.

23 A I think he was -- felt like he had gotten

24 enough, and -- and, you know, he was now ready to

25 vote for map 2.

1 Q Okay. So commissioners -- it seems all of  
2 the commissioners, Clark, Apffel, Holmes, and Giusti,  
3 that their starting preference was map 1, but then  
4 some changes were made to map 2 to get them okay with  
5 that version.

6 A That would appear to be correct.

7 Q And that was all driven by -- from your  
8 perspective, from Judge Henry?

9 A Again, that's speculation on my point -- my  
10 part, but --

11 MR. RUSSO: Object to speculation.

12 THE WITNESS: Yeah. It -- you know, it  
13 came from somewhere.

14 BY MR. GABER:

15 Q But from your meetings, Judge Henry was the  
16 only one who saw map 2 and said, "Hey, that's what I  
17 want."

18 A From the initial meetings.

19 Q Did you have any conversations with Judge  
20 Henry about Commissioner's Apffel's home site?

21 A Not that I'm completely recalling. At -- at  
22 the very first, when Apffel first -- I don't know if  
23 it was Judge Henry or Paul Ready who -- who told me,  
24 you know, Apffel -- and that was when we first learned  
25 that his reason for wanting those two precincts in map

1 1 was the house.

2 And -- and that may have come -- I can't  
3 really recall whether it came from Henry or whether it  
4 came from Ready. But then, you know, when we got  
5 Apffel in the room, Apffel was prepared to tell us  
6 exactly where it was.

7 Q What did Mr. Ready have to say? We've  
8 talked a little bit about, you know, what the  
9 commissioners asked for and Judge Henry. What was  
10 Mr. Ready's role in these conversations?

11 A Well, it was partly to guide me through the  
12 commissioners. It was partly to make sure I was not  
13 alone with any of the commissioners at the time. It's  
14 obviously, someone they already had a relationship  
15 with.

16 And -- but he very seldom offered specific  
17 comment or advice during -- during the meetings. And,  
18 you know, so there wasn't a whole lot in that sort of  
19 situation.

20 He would relay things to me when -- you  
21 know, for instance, like, when we were going to go  
22 have Commissioner Apffel there and -- and go ahead and  
23 have those redraws.

24 I do know Mr. Ready was very sensitive to  
25 the idea that we were never to have more than two

1 | commissioners in the room, which I understand. And we

2 | very seldom had two commissioners in a room.

3 | Q Yeah. What were those instances where there

4 | were two commissioners?

5 | A Well, most of them were with Giusti and

6 | Clark in the room when they were over there.

7 | Q Do you know why it was that pairing?

8 | A Well, because the changes were happening

9 | very much between their two seats, between their two

10 | districts.

11 | Q And do you have a rough sense of the timing

12 | in terms of this -- kind of where we've gone from

13 | talking individually to each commissioner to the

14 | effort to get votes for map 2. When is this effort

15 | happening?

16 | A This effort is happening not too terribly

17 | long after I go down and present the maps to all of

18 | the commissioners, because, you know, at that point

19 | that was kind of the starting gun for the politics.

20 | Q And is that, like, late October?

21 | A Yeah -- yeah. End of October. I'm not sure

22 | exactly on the time, but in -- in that neighborhood.

23 | Q Now there were also Zoom meetings -- or for

24 | the in-person meetings that we just talked a little

25 | bit about, was Mr. Bryan involved in any of those?

1 A For the in-persons at the -- when we  
2 presented the maps?

3 Q Right.

4 A That was just myself and Ready.

5 Q There came a time, though, when he was  
6 involved in some additional meetings. Is that right?

7 A Well, that's this process.

8 Q I see.

9 A He was involved in every one of these.

10 Q Okay. So he's on there on the Zoom with you  
11 and the commissioners?

12 A Yeah. He's the key guy in a lot of ways.

13 Q Yeah. All right. Was there anyone else on  
14 those Zoom meetings at the time?

15 A Usually myself, Paul Ready and the  
16 commissioner involved. Sometimes it may have been  
17 some of the commissioners' staff, but, you know, it  
18 was principally those guys.

19 Q All right. And what was Holtzman Vogel's  
20 role at this point?

21 A Well, Holtzman Vogel's role in this part of  
22 it is largely through myself and Tom Bryan.

23 Q Were any of the Holtzman Vogel attorneys on  
24 those Zoom meetings with the commissioners?

25 A We may occasionally have had Phil on, but I

1 don't think we had them on that many times.

2 Q Were there conversations with Commissioner  
3 Holmes while this sort of effort to get support for  
4 map 2 was ongoing?

5 A Holmes did not contact us again after the  
6 presentation on the 19th.

7 Q Did anyone -- did you reach out to  
8 Commissioner Holmes at all?

9 A I did not, but I didn't reach out to any of  
10 the others either.

11 Q All right. So that was all them coming to  
12 you?

13 A Yeah. It's them coming to me through Ready.

14 Q So they would first talk to Mr. Ready.  
15 Mr. Ready would contact you, and then a Zoom would be  
16 set up?

17 A Right.

18 Q Did you have more than one Zoom meeting with  
19 any of them in this phase?

20 A I think we probably had more than one  
21 with -- with Clark, not with Apffel. I mean, Apffel  
22 we solved in one -- one fell swoop. His was an easier  
23 one to do.

24 Q Was it actually, like, on the screen? Was  
25 the map on the screen while you were meeting with

1 Commissioner Apffel?

2 A Yes.

3 Q And did Mr. Bryan make the change to get his  
4 house site into the district at that time?

5 A He made the change while everybody watched.

6 Q All right. And Commissioner Apffel said,  
7 "That's great. I'm good with that now"?

8 A That's pretty much how that went. I  
9 wouldn't -- I wouldn't use those exact words, but  
10 that's the gist of it.

11 He -- you know, once -- once he was assured  
12 that -- he could see it, and he understood it, and  
13 understood that was his house site, he's like "I'm  
14 fine with this map now." Yeah. That was the gist of  
15 it.

16 Q At this point, did you have a position as to  
17 which map should be adopted?

18 A Not my place.

19 Q All right. And so you weren't suggesting  
20 that to anyone?

21 A No. At this point I'm just trying to make  
22 sure that whatever map they end up doing, they don't  
23 take it out of the place -- because when they're  
24 drawn, I think we can defend either map. But I'm  
25 trying to make sure they don't take it to a place

1 where that isn't going to be the case anymore.

2 Q Was anyone -- were any of the commissioners  
3 asking for additional changes to map 1 during these  
4 meetings?

5 A Not at this point.

6 Q Was it your sense that, at this point, that  
7 map 1 was not really in contention anymore?

8 A I wouldn't say that was truly the case until  
9 Giusti and Clark were on board. At that point, yes.  
10 At that point it was clear to me which way the  
11 commission would be going.

12 Q And roughly what was the timeframe when  
13 Giusti and Clark got on board with map 2?

14 A I'm not exactly sure, but it's in that --  
15 that late October period.

16 Q Okay. And any other -- aside from the  
17 moving of the precincts that Commissioner Clark had  
18 identified to move out the voting precincts and the  
19 splitting of the precinct to get commissioner Apffel's  
20 home site, were there any other changes along those  
21 lines to particular voting precincts that were  
22 occurring at this point?

23 A They -- yeah. You had to make some changes  
24 to make one-person, one-vote room for what Clark was  
25 trying to do and what Giusti was trying to do, but

1 more Clark.

2 And -- and so you had to -- that was one of  
3 the things Clark didn't seem to completely grasp was  
4 it's great to say you want this and you don't want  
5 that, but they're not equal pieces.

6 And -- and, you know, when you want this and  
7 you want that, then Bryan has got to find something  
8 that he can also shift to make the numbers come up to  
9 someplace that's going to make me happy with the  
10 numbers.

11 And -- and you can't just throw things out  
12 of one-person, one-vote that, because, "Well, I want  
13 that one and not that one." And that took a little  
14 doing.

15 And so there were other things that had to  
16 change in order to keep him with what he wanted, and  
17 what he didn't want, and get us to one-person,  
18 one-vote.

19 Q Was there a -- aside from the, like, plus or  
20 minus 5 percent that's allowed generally in cases, was  
21 there sort of a target population deviation?

22 A Well, I was trying to keep it a little  
23 closer. And I was trying to keep the high district --  
24 the -- the slow growth district higher -- districts  
25 higher than what I thought would be fast -- you know,

1 | what we -- we had seen previously as being fast growth  
2 | districts.

3 | There's a Larios concern in that, but there  
4 | was -- there was also the aspect that I was concerned  
5 | about differential privacy. I still have some  
6 | concerns about differential privacy and -- and the  
7 | possibility that there -- there will be a  
8 | non-differential privacy data set released eventually.

9 | And I wanted the -- I wanted at least a  
10 | decent chance of a differential privacy data set not  
11 | throwing one of the districts out of -- out of  
12 | one-person, one-vote.

13 | That's a difficult thing to actually gauge  
14 | exactly where it is. But I thought we did a  
15 | reasonably decent job of being able to accommodate the  
16 | risk of a -- of a differential privacy data set,  
17 | not -- not forcing you to have to redraw a plan in the  
18 | middle of decade.

19 | Q Was it -- did you land at a number as a goal  
20 | in terms of the plus or minus deviation?

21 | A Well, more of a -- more -- it's a little  
22 | more district-specific than that. Because if it's a  
23 | district that I thought was likely to be more affected  
24 | by differential privacy and was -- had a chance of  
25 | being lower, I try and run it a little higher.

1           And if it was a district that I thought  
2           might be a little high in the differential privacy  
3           data, I tend to run it a little -- little lower.

4           So -- but I wasn't -- I was trying not to  
5           get too close to the edges in certain -- certain  
6           cases. But I was trying -- you know, there were  
7           certain things that you could guess were going to be  
8           more affected by differential privacy than others.

9           Q     And what were those attributes?

10          A     Those -- well, obviously one of the things  
11          that -- that gets in there are both the Hispanics and  
12          to a certain degree African-Americans.

13          And because -- you know, it used to be it  
14          wasn't a big problem, because when they were doing  
15          data swapping, you're only changing the  
16          characteristics. You're not changing the numerosity.  
17          So it never changes the numbers.

18          And moreover, the characteristic isn't very  
19          far away. It's over -- you know, it's in an adjacent  
20          block or, you know, no more than a couple of blocks  
21          away from where they swapped the data from.

22          So the odds are pretty good that in most  
23          draws you're going to get that back in anyhow. It's  
24          not a problem. But the biggest thing was there's no  
25          numerosity issues.

1           The problem with differential privacy is you  
2           don't know where it got moved to. And it can be great  
3           distances away.

4           And -- and there's a tendency, frankly,  
5           to -- to flip pop in a way that's throwing in stuff to  
6           make certain -- to hide things in certain minorities'  
7           blocks. And, you know, they're not as worried about  
8           it in a -- in a -- in a very evenly-divided block.

9           And so you are worried about your  
10          homogeneous blocks being made less homogeneous.  
11          And -- and to use your language, or your extreme case  
12          blocks being made less extreme, because that's the  
13          ones the algorithm is going to spot.

14          And it's going to try and shove some pop in  
15          from somewhere else to -- to hide the fact that it's  
16          got homogeneous data in it, characteristic data.

17          And that, of course, meant that there could  
18          be some extra non-Hispanic white, even Hispanic white  
19          tossed in Holmes' -- in some of Holmes' spots. I was  
20          conscious of this fact.

21          Q       And so just help me through the -- because  
22          I'm not sure I totally understand yet how the math of  
23          that would work out. So the idea is that in  
24          Commissioner -- around where Commissioner Holmes lives  
25          or -- is it in the, like, concentrated

1 African-American precincts?

2 A It's going to be in the ones that are more  
3 concentrated. Commissioner Holmes doesn't live in one  
4 of those, but it's going to be in the ones that are  
5 more concentrated. It's the -- it's the idea that the  
6 bureau doesn't want revelation of characteristic data.

7 So what the bureau does under differential  
8 privacy is there is a scramble, a mathematical  
9 algorithmic scramble of numbers.

10 I think this is absolutely obnoxious and  
11 everybody that works in this area, regardless of which  
12 side you're on, should think that this is something  
13 that needs to be stopped. But it can have -- the more  
14 homogeneous the block is, the more likely it is to try  
15 and get disguised by the algorithm.

16 Q And does that happen by adding people who  
17 don't live there or reducing?

18 A Can happen either way, but what usually  
19 happens if you've got a very homogeneous block --  
20 let's say it's -- you got 100 African-Americans in  
21 there -- it's going to probably try to shove something  
22 in there, so that it's not obvious they're all  
23 African-American.

24 Q And so the response then to this -- when you  
25 were balancing the population would be to increase --

1 | what was the response? Was it to increase the size of  
2 | the districts with those precincts?

3 | A Yeah. When you look at Holmes' seat, you've  
4 | got two issues. One, you already know it's a slow  
5 | growth seat.

6 | The other is -- and, you know, go past the  
7 | Larios issues for a second. But you also know  
8 | differential privacies got a chance of making that  
9 | district a little higher than -- than it actually is.

10 | So if you get a non-differential privacy  
11 | dataset, that district may end up with a lower  
12 | population than it currently shows.

13 | So if he's down near the bottom of your  
14 | deviations, there's a greater chance it's going to  
15 | fall out. You see what I'm saying?

16 | Q Yeah. So I guess sort of the rubric then  
17 | that you were doing was to add additional people to  
18 | the districts that contained those larger extreme case  
19 | concentrated black voting precincts, make them larger  
20 | according to the 2020 census on the notion that  
21 | perhaps those people didn't actually exist, and so the  
22 | population was more equal?

23 | A Correct.

24 | Q And for --

25 | A Well, I wasn't getting crazy about it

1 either, because, you know, it's -- this is the  
2 ultimate guesswork.

3 Q Right. And the same assumption, I guess,  
4 doesn't apply to the more concentrated white  
5 precincts, because there's just more of them in the  
6 country?

7 A Well -- yeah. You can if it's more  
8 concentrated but your situation in those are if you've  
9 got a good mix, like, you've got a Hispanic,  
10 non-Hispanic white mix, it's less likely to get  
11 scrambled.

12 Q So around --

13 A They'll probably still get -- some extent,  
14 but.

15 Q Say it's, like, a 70 percent white  
16 non-Hispanic precinct, that's not part of the extreme  
17 case category; right?

18 A Yeah. That's not as nearly as -- the idea  
19 is to hide personal data.

20 Q And so this primarily would've been  
21 Galveston County -- this sort of consideration of  
22 population equality taking into account differential  
23 privacy, this primarily was about the primarily black  
24 voting precincts in the county.

25 A Yeah. Those are the only ones you really

1 | got that are extreme. Well, like I said, didn't get  
2 | carried away with it either.

3 | Q Okay. So we've had the meetings with  
4 | Commissioner Giusti, Clark, and Apffel. Did you meet  
5 | again with Judge Henry during this time period when  
6 | the kind of Apffel house fix was happening and the  
7 | Clark primary opponent fix was happening? Were there  
8 | other meetings with Judge Henry?

9 | A We may have had a couple of discussions with  
10 | Judge Henry, and -- and he might have popped his head  
11 | in a couple of times on -- on some of the individual  
12 | commissioner meetings that there were too.

13 | But the -- you know, he was -- we were  
14 | pretty much set at that point. He was prepared to  
15 | bring the -- the new map up to -- up to the commission  
16 | and get a vote.

17 | Q So Judge Henry, he knew that you were there  
18 | and that you were having -- not there. He knew that  
19 | you were having the Zoom calls with the commissioners  
20 | at this point?

21 | MR. RUSSO: Calls for speculation.

22 | A You know, I don't absolutely know that. I  
23 | think he probably was.

24 | Q And you said he popped in -- yeah. You said  
25 | he popped in -- these were Zoom meetings at this

1 point; right?

2 A Right. Yeah.

3 Q Did he come up on the Zoom screen do you  
4 mean or did he pop into the room where one of the  
5 commissioners was?

6 A He usually popped into the room.

7 Q So he is, like, physically there with  
8 whatever commissioner it is that you're on the Zoom  
9 with?

10 A Yeah. And then he'd pop out.

11 Q Okay. Did he have any commentary when he  
12 popped in?

13 A Not a whole lot. No. Because it was mainly  
14 for the commissioners and getting them happy.

15 Q But I think it's -- did you say that there  
16 wasn't another -- aside from those pop-ins, there  
17 wasn't any other, like, dedicated Zoom meeting with  
18 Judge Henry?

19 A Not that I recall. I'm not going to say  
20 that there wasn't, but not that I recall.

21 Q Okay. Now, and we're still in October at  
22 this point?

23 A Yeah. I mean, most of this got decided  
24 before the end of the month.

25 Q Okay. And I think you said you didn't --

1 | there were no more conversations with Commissioner

2 | Holmes that you had.

3 | A No.

4 | Q Have you had a conversation with

5 | Commissioner Holmes since then?

6 | A No. I don't believe I have.

7 | Q Did you talk with him much during the 2011

8 | process?

9 | A No. I did not talk with him very much

10 | during 2011 process. I actually didn't talk that much

11 | with the commissioners period during 2011 process.

12 | I did have one meeting with all the

13 | commissioners during the negotiation process that was

14 | held there in Galveston, because we were doing the

15 | negotiations in Galveston.

16 | But almost all of the contact with the

17 | commissioners up until we got to the negotiation

18 | process with DOJ was between Joe Nixon, and

19 | Mr. Trainor, and the commissioners.

20 | Q All right. So after these October meetings,

21 | what did you do next on the project?

22 | A Well, we started -- we, again, did a little

23 | bit of cleanup, but at that point it was -- Tom Bryan

24 | put together a final map, sent them the block

25 | assignment file, and it was time to post it on the --

1 on the internet for comment.

2 Q And there was -- I know that there was a --  
3 I've seen some documents that suggest that there was a  
4 period of time where there were some, like, issues or  
5 dissatisfaction from the county from Mr. Ready with  
6 some of the work product or the form of various  
7 documents. Can you tell me a little bit about that?

8 A Mr. Ready and I got into a dispute about  
9 what we had contracted to do and what we had not  
10 contracted to do.

11 Mr. Ready was under the false assumption  
12 that Beirne, Maynard & Parsons had done the metes and  
13 bounds in 2010, 2011. They had not.

14 But he was determined that that was  
15 something we were going to do, and that was something  
16 we should have done, and should do. And I told him  
17 that no, that was done by the county before and it is  
18 the county's responsibility.

19 And in fact, I double checked with Mr. Nixon  
20 and Mr. Trainor, and they not only told me that it  
21 was -- that they had not done it, it had not been done  
22 by Beirne, Maynard & Parsons, but had been done by  
23 Mr. Ready's predecessor, his county attorney, and the  
24 county's GIS office.

25 And that more or less solidified the

1 position that this is y'all's job, not ours.

2 Q And was Mr. Ready satisfied with that sort  
3 of investigation?

4 A No.

5 Q What did he have to say about it?

6 A Well, he sent a couple of nastygrams, and I  
7 basically backed out of the conversation at that time,  
8 and left it to Phil Gordon.

9 Q Okay. Do you know how that got resolved?

10 A I do not know the final -- well, I do know  
11 that the county ended up doing it. That much I do  
12 know.

13 Q Did you do anything to help with the  
14 preparation for the public meeting that the -- where  
15 the plan was sort of presented and where the votes  
16 happened?

17 A Not a great deal. I couldn't get down to  
18 Galveston for that. I gave some advice on how to  
19 conduct it. The -- the -- but most of that is done by  
20 Paul -- by Paul Ready.

21 Q What was your advice on how to conduct the  
22 meeting?

23 A Well, my advice, as it always is, is to try  
24 and garner as much comment as time will allow you to  
25 garner. And if you can't garner it through public

1 meetings, which they had a real timeframe problem in  
2 this case in terms of doing that, get as much as you  
3 can through the internet.

4 And -- and try and get as much comment as  
5 you can, and -- and go through it and try and see  
6 what's there, review it. At that time, I was not able  
7 to go through all of the -- all the comment, but Paul  
8 was filtering it for me.

9 And -- and I got -- I received a few of what  
10 they considered the more pertinent comments and  
11 some -- some feedback on what the general level of  
12 comments were.

13 Q And what was that assessment?

14 A Well, the first -- the first thing they told  
15 me was that most of the comment was favorable to the  
16 geographically-based plan, the map 2, which was -- you  
17 know, that's a good sign.

18 They passed a few things onto me that -- you  
19 know, concerns that had been expressed. They asked  
20 some questions about, you know, "How much more do we  
21 need to do meetings?"

22 And I said, "Well, it's one of those kind of  
23 moving targets. You want to do as many meetings as  
24 timeframes will allow." And -- and of course you've  
25 got a problem, because you have a very short

1 | timeframe.

2 | And it ended up, they had less time than was  
3 | originally anticipated, 'cause we had -- there had  
4 | been communications with Austin about when the state  
5 | would complete its process, because that was going to  
6 | be key as to when they needed to complete their  
7 | process.

8 | And really kind of up until November I kind  
9 | of thought we were going to have 'til the end of  
10 | December, and then suddenly discovered they didn't.  
11 | And --

12 | Q And when you said, "Have more meetings,"  
13 | that's the public meetings for the members of the  
14 | public to come?

15 | A Right. Yeah.

16 | Q Now, the public meeting that happened was  
17 | sometime in mid-November. Does that sound right?

18 | A Somewhere in there. It may have been  
19 | earlier than that, but I don't know when it was.

20 | Q By the time the meeting happened, the  
21 | majority of the commissioners and the judge were set  
22 | on voting for map 2; right?

23 | A Well --

24 | MR. RUSSO: Objection. Misstates prior  
25 | testimony.

1 THE WITNESS: Yeah. I mean, you don't  
2 know how they're ultimately going to vote, but  
3 certainly they had seen the -- the maps. And at least  
4 many of the initial objections to the map had been  
5 rectified in their minds.

6 BY MR. GABER:

7 Q It was your sense prior to this meeting that  
8 it was pretty clear that map 2 was going to get the  
9 vote?

10 MR. RUSSO: Objection. Calls for  
11 speculation.

12 A Yeah. That's -- that's requiring me to make  
13 a political call of what I think is going on. I mean,  
14 it is beyond what I'm supposed to be doing.

15 Q Well, this is a discovery deposition, so  
16 I'm -- allowed to ask you what you think.

17 A Yeah. Well, the problem is you don't know  
18 what might crop up and change their mind. I mean, you  
19 know, yeah, they've expressed they're okay with it,  
20 but, you know, not too long before that they'd  
21 expressed their sharp disagreement with it. So, you  
22 know, things change.

23 Q Did you -- go ahead.

24 A No -- no. That's -- that's it. Go ahead.

25 Q Did you give any other advice aside -- with

1 | respect to having of the public meeting, aside from  
2 | having as many meetings as possible and getting public  
3 | input over the internet?

4 | A Well, those are your two best ways of  
5 | getting -- getting input. You know, make sure you  
6 | publish the maps.

7 | But the key thing is -- is -- it's pretty  
8 | standard public meeting sort of stuff at that point.

9 | You know, make sure everybody has the  
10 | opportunity to produce written comments, you know,  
11 | keep the talk time down, so that everybody can  
12 | actually talk, but leave them the ability to  
13 | supplement anything they want to say in writing, so  
14 | that they can get everything in front of you.

15 | You know, have a good way to review it.

16 | And, you know, it's just -- it's typical -- you know,  
17 | get all the access to all the things you would do for  
18 | any other public meeting.

19 | Q Was there any discussion ever of having a  
20 | public meeting before the map drawing started?

21 | A Given the timeframes that we had and getting  
22 | the commissioners to exactly where they -- the  
23 | information they wanted before they wanted to make  
24 | decisions, that was really not a -- not a thing that  
25 | was going to be viable.

1 And there wasn't much purpose in a public  
2 meeting until you had data. I mean, the commissioners  
3 themselves exemplified that, because they didn't have  
4 any idea of what the data was actually going to look  
5 like.

6 So, you know, their attitudes as to what  
7 they wanted, needed, what was going to happen changed  
8 after the data showed up, surprise, surprise.

9 Q What about in the timeframe after, like,  
10 mid-September, once the data was out and we knew what  
11 the benchmark plans, population deviation was? Was  
12 there a consideration at that point of having a  
13 meeting to get public input into the process?

14 MR. RUSSO: Object to characterization  
15 of facts. Assume facts not in evidence.

16 A Well, I mean, part of it was you were -- you  
17 were pushing along at that point, so putting that  
18 together would've been a little tricky, frankly.

19 And -- and, you know, you really get your  
20 better public comment once there's a solid "Okay,  
21 these are proposals. Which do you like better? What  
22 changes would you make in one of them if you -- if you  
23 wanted changes?"

24 And gives you a much better, more realistic  
25 comment than "What do y'all want?" I mean, because

1 then people just start speculating all over the place.

2 Q Did you give any feedback or advice -- I  
3 guess advice, not feedback. Did you give any advice  
4 in terms of the physical sort of conduct of the  
5 meeting, where it should be, or what the setup should  
6 be or the like?

7 A Well, not a whole lot. I mean, Galveston  
8 County is relatively easy. It's not like you're doing  
9 state of Texas, where you got to go -- you really do  
10 have to do regional meetings if you're going to do  
11 meetings, because -- or you got to do them on the  
12 internet, because it's so big.

13 And Galveston is a county that's -- you  
14 know, while it's got a pretty sizable population --  
15 it's not huge, but it's got a sizable population -- it  
16 is not that big from end to end.

17 So, you know, if you hold it in the -- in  
18 county council -- excuse me. I -- I misspoke. I was  
19 going back to South Carolina for a second.

20 But if you hold it in the commissioner's  
21 court chamber, you're relatively close to everybody  
22 that's in the county. It's not like it's a huge  
23 burden.

24 Q Any advice in terms of the time to allow  
25 folks to talk or that sort of thing?

1 MR. RUSSO: Objection. Asked and  
2 answered.

3 A Yeah. Back to what I said before, you know,  
4 just set some time limits, so you don't have people  
5 just dominating the meeting, particularly if they're  
6 doing repetitive things.

7 But make sure they have the ability to  
8 supplement their comments, either through the internet  
9 or through written comments, so that they get  
10 everything in.

11 But, you know, you can't -- you can't allow  
12 somebody to get up there and filibuster your meeting.  
13 And that's really just a function of "How many people  
14 you got there that day? Can you let them talk long or  
15 can you -- or do you need to keep them to five  
16 minutes?"

17 Q And what about the timing of the conduct of  
18 the vote on the map? Did you give any advice about  
19 when that should occur in relation to the public  
20 meeting?

21 MR. RUSSO: Are you talking about time  
22 of day? Sorry, Mark.

23 MR. GABER: No. I mean, well, maybe.

24 BY MR. GABER:

25 Q But I more was referring to just generally

1 when should the public -- when should the vote happen  
2 on the map in relation to when should the public  
3 meeting or meetings happen?

4 A Well, that was really keyed by -- by what  
5 the state of Texas was going to make the timeline. So  
6 if you could go longer, you would go longer. If you  
7 couldn't go longer, you would -- you would do it in a  
8 way that you complied with the state of Texas  
9 timeline.

10 MR. GABER: Okay. Mr. Russo, I would  
11 like to take a lunch break. It's on the East Coast  
12 and it's 3:00 here now for me at least -- 3:20. Are  
13 y'all ready for a lunch break?

14 MR. RUSSO: Yeah. Perfect.

15 MR. GABER: Okay. How long would y'all  
16 like?

17 MR. RUSSO: Thirty minutes will be --

18 MR. GABER: Thirty minutes?

19 MR. RUSSO: Thirty minutes. Does that  
20 work for you?

21 MR. GABER: That sounds good to me. So  
22 that'd be 3:50 or 2:50 your time.

23 MR. RUSSO: Yeah. That's fine.

24 MR. GABER: All right.

25 Thank you, everyone.

1 THE VIDEOGRAPHER: We are off the  
2 record at 2:20 p.m. This is the end of file number 3.  
3 (Off the record.)

4 THE VIDEOGRAPHER: We're back on the  
5 record at 3:05 p.m. This is the beginning of file  
6 number 4.

7 BY MR. GABER:

8 Q Good afternoon, Mr. Oldham. Welcome back.  
9 Were you involved in any of the Texas statewide  
10 redistricting litigation from 2011 onward?

11 MR. RUSSO: Let me object to the extent  
12 that you're looking for information of -- again, not  
13 public record on terms of -- on the basis of  
14 attorney-client privilege.

15 Other than that you can answer.

16 THE WITNESS: Well, 2011 -- I don't  
17 know what -- you need to -- I -- I really don't know  
18 how to answer that particularly with involved. That's  
19 a -- that's a pretty broad topic.

20 BY MR. GABER:

21 Q Okay. Were you an attorney in  
22 any of those cases?

23 A No. I was not an attorney of record in any  
24 of those cases.

25 Q Have you read the decision? Did you read

1 Abbott v. Perez or --

2 A Oh yes. Absolutely. I read every Supreme  
3 Court case in this area. I read most court appeals  
4 cases in this area.

5 I'm not going to say I catch every one of  
6 them, but I catch -- I try to catch every one of them.  
7 I definitely catch all the Supreme Court cases,  
8 though. And I read a goodly portion of the district  
9 court cases.

10 Q There were a number of -- you know, you  
11 probably are aware, and tell me if you weren't, but  
12 the Texas 2011 redistricting generated quite a bit of  
13 litigation. Are you aware of that?

14 A Yes.

15 Q And so that was, you know, the Perez vs.  
16 Perry case was sort of the consolidated case. You're  
17 familiar with that?

18 A Yes. I'm not sure I -- I know exactly which  
19 phase you're referring to, but I -- I'm -- I'm  
20 familiar with the cases as they went through. Yes.

21 Q There was the initial phase when  
22 pre-clearance hadn't happened yet, and that went up to  
23 the Supreme Court from the section 5 enforcement  
24 remedial decision from the three-judge court in San  
25 Antonio. Do you recall that?

1 A Yes, I do. Then the three-judge court was  
2 overruled by the Supreme Court, and -- and they had to  
3 put in different remedial -- a interim map.

4 Q The interim map you recall was eventually  
5 adopted with some tweaks, I think, for the state house  
6 map, maybe by the legislature in 2013?

7 A Correct. I think that's generally correct.  
8 Yes.

9 Q And then there was litigation after that  
10 point about the 2011 plans. Do you recall that?

11 A I do recall that. I'm not quite sure where  
12 you're heading with this.

13 Q I don't know if I am either, but we'll find  
14 out. So then after that there was more litigation  
15 about the 2013 plans.

16 A There was an awful lot of litigation in  
17 Texas. There's an old joke that -- that Texas makes  
18 far more redistricting law than it should be allowed.

19 Q I think that's right. And that's the --  
20 ultimately, that gets up to the Supreme Court, and  
21 that's the Abbott vs. Perez case from, like, 2018. Do  
22 you recall that?

23 A Right. That's -- that's much later. Yes.

24 Q Okay. Do you --

25 A That's why I'm saying I'm not sure which

1 iteration you're referring to, because there's one  
2 pretty much every -- at least every two years, if not  
3 every year.

4 Q Along the way you've kept up with these  
5 decisions?

6 A Yeah. I've been following those. Yes. I  
7 was following them.

8 Q So one of the aspects of the final Supreme  
9 Court decision, the Abbott vs. Perez case, was about  
10 Congressional District 35. Are you familiar with that  
11 district?

12 A Not necessarily from the number. Where is  
13 it?

14 Q This is -- and I can -- I'll show it to you.  
15 Do you see on your screen there?

16 A No. I don't see a thing on my screen.

17 Q Oh, okay. Maybe --

18 A I've got a black screen.

19 Q My picture has frozen on my side, so it  
20 looks like it's loading. So maybe let's just give it  
21 a second here. Anything come up yet?

22 A No.

23 Q All right. Let me see. It may not even let  
24 me stop that sharing.

25 THE VIDEOGRAPHER: I can stop it for

1 you.

2 MR. GABER: Great.

3 THE WITNESS: Technology is wonderful.

4 MR. GABER: There's a spinning thing on  
5 my screen, so that may -- virtual connectivity  
6 interruption -- I'm still frozen on my side. I  
7 might -- who is the host of this meeting?

8 THE VIDEOGRAPHER: That would be the --  
9 me, the videographer, and the court reporter. I can  
10 stop it for you if you need me to.

11 MR. GABER: I'm thinking maybe I  
12 should -- if we could -- the record for a second.  
13 Maybe if I sign out and sign back in.

14 THE VIDEOGRAPHER: Sure -- sure.

15 MR. GABER: Because I'm frozen on this  
16 side.

17 THE VIDEOGRAPHER: Okay.

18 MR. GABER: Let me do that. Thanks.

19 THE VIDEOGRAPHER: We're off the record  
20 at 3:11 p.m.

21 (Off the record.)

22 THE VIDEOGRAPHER: We're back on the  
23 record at 3:12 p.m.

24 BY MR. GABER:

25 Q All right. So technology is not going to

1 work on my end, but C35 is the district that stretches  
2 sort of along the quarter of I-35 from San Antonio up  
3 into Austin.

4 And it's the district that the state  
5 defended itself against a Shaw challenge, saying that  
6 it had substantial basis of evidence to believe that  
7 section 2 required that drawing of a Hispanic majority  
8 district. Does that sound familiar to you?

9 A Sounds vaguely familiar to me, but I'm --  
10 I'm not -- I'm not sure where -- where you're headed  
11 with it, because I don't -- you know, I don't -- I  
12 don't have a picture of the district in my head.

13 Q It was represented by Congressman Lloyd  
14 Doggett until recently. He then ran in a adjacent  
15 district that was drawn following the 2021  
16 redistricting. Are you familiar with Congressman  
17 Doggett's district?

18 A I am familiar with Congressman Doggett and  
19 vaguely recall his -- his district. I recall the  
20 district that he had at one point that ran from Rio  
21 Grande Valley up to Travis County too. I don't know  
22 that I know exactly what the one you're talking about  
23 here looked like.

24 Q Sure. But I guess the point I'm trying to  
25 get at is from your familiarity with the court

1 | decisions about Texas redistricting, I gather that you  
2 | were familiar with the fact that the courts who have  
3 | assessed these plans have generally ruled in some part  
4 | of the state or another that there's been a  
5 | requirement under section 2 for Hispanic opportunity  
6 | districts. Are you familiar, just generally?

7 | A Well, I wouldn't -- I wouldn't phrase them  
8 | as opportunity districts. I'd phrase them as majority  
9 | minority -- majority minority remedial districts.

10 | And certainly that -- that has been the  
11 | case. We've also had several instances where those  
12 | districts have been found to be racial gerrymanders  
13 | and -- and to violate the first Gingles prong, so --  
14 | as in 25, for instance.

15 | So it's a little bit of a mixed bag, but  
16 | certainly there have been situations where you've had  
17 | single race-based districts that you've had that have  
18 | been found to be remedial districts.

19 | Q And the reference to District 25 that that's  
20 | the LULAC vs. Perry case from 2006; right?

21 | A Yes. Correct.

22 | Q And if I'm remembering correctly, the issue  
23 | there was that there were, I want to say, six or seven  
24 | Hispanic majority districts that the Supreme Court  
25 | found were required under section 2, but that CD 25,

1 because it stretched from McAllen up to Austin, that  
2 it was connecting to communities that had insufficient  
3 similarities.

4 A Well, the -- the last part is the more  
5 correct part, the -- the idea that the -- the McAllen  
6 Hispanics and the Travis County Hispanics lacked a  
7 community of interest.

8 And since they were running -- even though  
9 it was whole counties all the way up to Travis, that  
10 was -- that constituted a racial gerrymander and did  
11 not meet the compactness prong of -- of Gingles.

12 Q I could quibble with you a little bit. I  
13 don't think they found that it was a racial  
14 gerrymandered. I think they found that it was  
15 insufficient to replace another DRA-required district  
16 in the plan. Does that --

17 A Yes. The -- the other district -- you know,  
18 you can read the Roberts dissent. He points out that  
19 district is actually less compact than the one that  
20 they knocked down. So --

21 Q That was CD 23?

22 A Twenty-three, thirty-two. My dyslexia may  
23 prevent me from getting that right -- seat.

24 Q Yeah. So that's CD 23. And the other  
25 finding there was that was a violation of section 2,

1 right, that it had been drawn with too low of a  
2 Hispanic majority, such that there wasn't a real  
3 opportunity, even though the voting age population  
4 Hispanic was above 50 percent?

5 A Correct.

6 Q In all of these decisions where there's been  
7 a finding that a section 2 Hispanic majority district  
8 was required, the predicate finding is that there's  
9 racially polarized voting between Hispanic voters and  
10 non-Hispanic white voters in the district; right?

11 A Yes.

12 Q And that's been the case, you know, across  
13 the decades in terms of court decisions about  
14 redistricting in Texas. Is that --

15 A That's true of whatever minority you may be  
16 analyzing under section 2.

17 Q And that's -- you know, that fact of those  
18 findings of polarization between Hispanic and  
19 non-Hispanic white voters, that's a fact that you've  
20 generally been aware of for your career; right?

21 A Yes.

22 Q I am going to try something, but I hope it  
23 doesn't crash the computer again. But give me one  
24 moment. I'm going to try sending -- are you at a  
25 laptop there, Mr. Oldham?

1 A Well, I'm at Mr. --

2 MR. RUSSO: Yes. There's a laptop in  
3 front of him.

4 MR. GABER: Okay. So rather than doing  
5 this with screenshare, because that froze my computer,  
6 I'm going to try to have you open something through  
7 the chat, but just give me one moment, please. I have  
8 to save it first.

9 THE VIDEOGRAPHER: The chat function,  
10 it doesn't work. You'd have to email it to them.

11 MR. GABER: Oh, okay.

12 Mr. Russo, can I email you? Is it your  
13 laptop there? If I send you an email, can you open it  
14 there?

15 MR. RUSSO: It's not in my email. I'm  
16 not sure. How did we log onto that?

17 MR. RUSSO: You can try doing it  
18 through Jordan. Would be --

19 What's the problem with the chat  
20 function?

21 THE VIDEOGRAPHER: I -- I think it's  
22 disabled.

23 THE REPORTER: Yeah. It just doesn't  
24 let you, like, open documents or send documents  
25 through the chat.

1 MR. GABER: Okay. So I should email  
2 Jordan?

3 MR. RUSSO: Hey, Mark, send it to me,  
4 and we'll get it open on a sort of side computer if  
5 that works.

6 MR. GABER: All right. Yeah. That's  
7 perfect. I just sent it to Jordan, but I'll send it  
8 to you too. And I promise this is the only thing I'm  
9 going to -- I think -- all right. I just sent it,  
10 Mr. Russo. So you should get it here shortly.

11 THE REPORTER: Are you going to mark  
12 this as an exhibit?

13 MR. GABER: I will. Yes. This will be  
14 Oldham Exhibit 1. And I'll send it to you too.

15 (Oldham Exhibit 1 was marked for  
16 identification.)

17 THE WITNESS: Okay.

18 BY MR. GABER:

19 Q Do you see it there? This is a map of the  
20 enacted Galveston plan, map 2 --

21 A Yes -- yes.

22 Q -- with the precinct numbers.

23 A Yes.

24 Q Could I have you -- I would do this on the  
25 screen, but I cannot. So can you zoom into the area

1 where Commissioner Apffel's home site is located?

2 A Oh, I don't know if I can manage to do that  
3 right off here, but I -- I know roughly where it is.

4 Q It looks to me that it's precinct 000490.  
5 That's the split precinct between --

6 A I believe that to be correct, but I don't  
7 absolutely know that to be correct, but I'm blowing it  
8 up here, but that's -- I believe that would be  
9 correct, simply because it's split.

10 Q And that's the only one that's split in that  
11 region; right?

12 A Yeah. And I think that's their reason --  
13 that's the reason.

14 Q Okay. And one other thing I wanted to ask  
15 you about. I'm going to send Mr. Russo a copy of your  
16 declaration from this case. And just let me know when  
17 you got that on the screen there.

18 (Exhibit 2 was marked for  
19 identification.)

20 A I think we have it now. So they got to make  
21 it bigger. I do not have the best eyes in the world.

22 Q Nor do I.

23 A Yeah. Okay. What? I've got it here.

24 Q All right. Do you recognize this as your  
25 declaration --

1           A     It appears to be. I've got it fairly well  
2     blown up, but it appears to be it. Yes.

3           Q     Did you draft this or did someone else do  
4     the drafting for you?

5           A     It was originally drafted, and I reviewed  
6     it.

7           Q     Okay. I want to see if you could take a  
8     look at paragraphs 10 and 11, and then let me know  
9     when you've had a chance to take a look at those.

10          A     Yeah. I see those.

11          Q     In paragraph 11 you not that -- you say,  
12     "Importantly, these maps were never shown to  
13     commissioners, or county Judge Henry, or any of their  
14     respective staff members." I just wanted to ask you,  
15     what was the significance of that? Why does it say,  
16     "Importantly"?

17          A     Well, I looked at those maps basically to  
18     see what the -- what the lay of the land was in terms  
19     of where the districts were. That wasn't -- you know,  
20     "Baseline maps" was probably a poor choice of words.

21                   I mean, it's essentially the initial maps --  
22     the maps that we currently had existed, and -- and  
23     giving me the stats off of those maps.

24          Q     And then in paragraph 15, if you could take  
25     a look at that.

1 A Yeah.

2 Q So it was your conclusion after, I guess,  
3 October 21st that both map 1 and map 2 complied with  
4 the U.S. Constitution and the Voting Rights Act?

5 A Well, I didn't -- yes, 'cause I didn't think  
6 we -- we -- I'm not drawing -- I want to emphasize not  
7 drawing map 1 as a Voting Rights Act remedial map. I  
8 felt like the only way we could defend map 1 was as a  
9 least changes map.

10 But I emphasized to all of my clients, all  
11 the commissioners, that I felt like both maps were  
12 defensible. Slightly different bases, but I thought  
13 both maps were defensive. And if they decided to pass  
14 either one, we could defend it.

15 MR. GABER: All right. Mr. Oldham, I  
16 do not have any further questions for you.

17 I am going to -- hopefully I got you  
18 enough time for your billing for today, but I'm going  
19 to pass you off to my colleague, who represents the  
20 Texas NAACP, Ms. Chen, for questions from her. It was  
21 very nice to meet you, and thanks for the time.

22 THE WITNESS: Thank you. Same here.

23 EXAMINATION

24 BY MS. CHEN:

25 Q Good afternoon, Mr. Oldham.

1           A     Good afternoon, Ms. Chen. How are you  
2     doing?

3           Q     I am doing well. It's nice to meet you. I  
4     was wondering if you wanted a break of any kind before  
5     jumping into more questions or shall we keep going?  
6     We could do a --

7           A     I probably got about -- I probably got about  
8     30 more minutes of tea left.

9           Q     All right. I'll keep an eye on the clock  
10    and we'll aim for 30 minutes. I am trying, as I go,  
11    to eliminate questions that Mr. Gaber has already  
12    asked, and so bear with me if there are some pauses.  
13    But I'm really not trying to keep you here too much  
14    longer.

15          A     Well, I appreciate that fact.

16          Q     So just to, you know, start off, what modes  
17    of communication do you normally use in your  
18    redistricting work, phone, text, email?

19          A     I normally -- I normally use phone calls.  
20    I'm a very -- I'm an old person and getting older.  
21    And -- and I don't normally use a lot of the new  
22    technology. I'm getting better, but -- but it's not  
23    something that I generally do.

24          Q     All right. So not often texting?

25          A     Not -- well, particularly at that point,

1 I've gotten a new phone, and I text more with the new  
2 phone, because it has a gizmo on it that I kind of  
3 like. I can speak to it and it'll text.

4 But as long as it involved pressing little  
5 buttons with my arthritic thumbs, no. I did not like  
6 texting.

7 Q And then in terms of email, you primarily  
8 use the dloesq@aol.com email address. Is that right?

9 A Correct. Please don't spread that around.

10 Q Are there any others?

11 A There is DLOESQ1, but that's only because  
12 that's one I've set up to give grocery stores and  
13 other spamming operations, so that they don't clutter  
14 up DLOESQ.

15 Q There's not, like, an official RNC or  
16 Geographic Strategies, a Holtzman Vogel email address?

17 A No. I don't have a Holtzman Vogel email  
18 address. Geographic Strategies has never had an email  
19 address. I had an RNC address a while back, but I  
20 haven't had that in some time.

21 Q Okay. And then what about an Excite.com  
22 email address?

23 A No.

24 Q Yahoo.com?

25 A No.

1 Q SCbar.org?

2 A No. Yeah. I can just tell you right now,  
3 in case you missed the old part, AOL is all there is.

4 Q Great. And then generally speaking, in your  
5 work with the RNC, did you do any of that work also in  
6 association with Holtzman Vogel?

7 A No.

8 Q That was through your solo practice?

9 A That was through my solo practice. Yes.

10 Q Or as a staff member of the RNC?

11 A Or as a staff member.

12 Q All right. Great. Thank you. So just  
13 going back to the 2011 Galveston County Commissioner's  
14 Court redistricting process, do you recall that  
15 Beirne, Maynard, Parsons presented at a workshop for  
16 Galveston County in April 2011?

17 A Yeah. I think they may have. I don't -- I  
18 don't remember exactly, but yes. I think they may  
19 have.

20 Q Were you present at that workshop?

21 A I may been. I -- I don't know that it was a  
22 workshop for Galveston County, but I remember there  
23 was some little meet and greet sort of thing that Trey  
24 and Joe set up that was designed to solicit business.

25 Q So -- were there other counties there,

1 perhaps?

2 A I think so. I don't know exactly who was  
3 there.

4 Q But were there any other law firms there or  
5 was it, you know --

6 A No. It was -- it was the -- it was intended  
7 to get business for Beirne, Maynard, Parsons. It  
8 was -- it was -- it was a marketing opportunity on  
9 their part.

10 THE REPORTER: Ms. Chen, I didn't hear  
11 the end of your question.

12 MS. CHEN: I just wondered if it was  
13 any other firms were there or if it was just for BMP,  
14 Beirne, Maynard --

15 THE WITNESS: It was just for BMP.

16 BY MS. CHEN:

17 Q And you may have answered this already, but  
18 prior to being hired, did you know any of the members  
19 of Commissioner's Court?

20 A Well, do you mean this time or in 2010?

21 Q -- in 2010 and 2011.

22 A 2010, 2011, no. I didn't know anybody.

23 Q So I am going to try to share my screen now  
24 just to show you the retainer agreement. Hopefully  
25 this works. And if not, then I'll resort to email,

1 like Mark did. Can you see the document on your  
2 laptop or perhaps on somebody else's laptop?

3 (Exhibit 3 was marked for  
4 identification.)

5 A Yours is better, but --

6 Q I can zoom in if needed,

7 A Please. Okay. Yeah. I don't think I've  
8 ever seen this before, but yeah.

9 Q Does this look like the retainer agreement?  
10 So you've never seen the retainer agreement that was  
11 entered into by Joseph Nixon on behalf of BMP with  
12 Galveston County in 2011?

13 A No. I just knew Joe had done it.

14 Q Okay. Does this look like Joe's signature  
15 and like it might be an accurate --

16 A I -- yeah, I can't tell you for certain. I  
17 don't have any reason to doubt it, but, you know.

18 Q This was -- well, I'll present to you this  
19 was produced by the defendants, by the county in this  
20 case. So I think just to move along, we have the  
21 client representation terms here, but I really wanted  
22 to get to the exhibit here that talks about the scope  
23 of work of the firm.

24 A Yeah.

25 Q And, you know, the first line says that the

1 firm would produce an analysis of and presentation to  
2 the Commissioner's Court of the 2010 census data in  
3 preparation of initial consultation. Was that  
4 something that you worked on?

5 A No.

6 Q Do you know who did?

7 A It would've been Trey and Joe.

8 Q And then also a presentation to the  
9 Commissioner's Court regarding the necessary steps in  
10 the process.

11 A Again, Trey and Joe.

12 Q And to your knowledge, would this have been  
13 in public in open Commissioner's Court?

14 A I have no idea.

15 Q All right. The next line talks about  
16 obtaining input from County Commissioners on their  
17 precincts, and similarly for Justice of the Peace and  
18 Constable Precincts. Was that something that you were  
19 involved in?

20 A No.

21 Q How about number 4, providing timelines and  
22 tasks per timelines?

23 A Again, that was Trey and Joe.

24 Q Five is preparing the proposed plans, maps,  
25 drawings and data tables.

1           A     Also, again, Trey and Joe.

2           Q     Six, presentation at any notice  
3 commissioner's court meetings or public hearings of  
4 any preliminary plan maps, drawings, or data tables  
5 for approval.

6           A     That would've been Trey and Joe.

7           Q     Seven is preparation and submission of final  
8 submission documents, such as the final approved  
9 redistricting plan for commissioner's precincts, JP  
10 and Constable Precincts to the U.S. --

11          A     That I saw and reviewed.

12          Q     Okay. So was that -- would you say that was  
13 your primary involvement in Galveston County in 2011?

14          A     Well, there was also the question of the  
15 filing in federal court of the declaratory judgment,  
16 as well, and -- and then the subsequent negotiation  
17 with Department of Justice over the pre-clearance and  
18 the contacts with Department of Justice regarding  
19 pre-clearance.

20          Q     So then to point 8, making periodic  
21 presentations to Commissioner's Court and at public  
22 hearings throughout the terms of this agreement. Did  
23 you make those presentations?

24          A     No. That was largely Trey and Joe. There  
25 was one meeting near the end that I attended, but for

1 the most part that was Trey and Joe, because they were  
2 here. I was not.

3 Q Do you recall what that meeting at the end  
4 was about that you attended?

5 A The negotiations that we were -- that were  
6 ongoing with the Department of Justice.

7 Q And did those take place in DC or in  
8 Galveston?

9 A In Galveston.

10 Q And then the final point of the scope of  
11 work is "Represent Galveston County and members of the  
12 Commissioner's Court in event of litigation." I  
13 believe you said that you were involved there.

14 A Correct.

15 Q Great. Thank you. I'll stop sharing. So  
16 in 2011, did you speak with commissioners or the  
17 county judge about their preferences regarding the  
18 maps?

19 A No.

20 Q All of those preferences were conveyed to  
21 Trey and Joe?

22 A Those were conveyed to Trey and Joe.

23 Q And you are aware that they presented a  
24 preliminary demographic report about the result of the  
25 2010 census in Commissioner's Court?

1 A I am. Yeah.

2 Q Do you recall what criteria were used to  
3 draw the preliminary redistricting proposals in 2011?

4 A I don't.

5 Q But in terms of drafting the section 5  
6 pre-clearance submission, would you say you were the  
7 primary drafter?

8 A No. Primary drafter was Trey Trainor.

9 Q But did you review the submission before it  
10 was sent to the Department of Justice?

11 A I reviewed the submission. Yes.

12 Q Are you aware currently of any inaccuracies  
13 or mistakes in that letter for submission?

14 A No, but I hadn't seen the letter in 12  
15 years. So -- and I've seen a lot of DOJ section 5  
16 submissions. No, I don't know what's in it.

17 Q So you did not review it before entering the  
18 2021 engagement with Galveston County?

19 A No. I have not reviewed the section 5  
20 letter that was submitted. No. I did not review it.

21 Q Did you attend any of the five public  
22 hearings in the 2011 redistricting process?

23 A Like I said, the only one I attended, there  
24 was a public hearing near the end that I was at. That  
25 was the only one I was at.

1 Q Were you aware that at least one of those  
2 hearings had over 300 attendees?

3 MR. RUSSO: Objection. Calls for  
4 speculation.

5 A I don't know how many attendees they had.

6 Q So that was not something you discussed with  
7 the other attorneys or with the Commissioner's Court  
8 members, the number of attendees or comments made at  
9 the public hearings?

10 A I may have been aware of something at the  
11 time, but it was -- you know, I understand there  
12 were -- there were lots comments, but I don't --

13 Q And do you recall that there were no public  
14 redistricting criteria discussed or adopted in 2011?

15 MR. RUSSO: Misstates the testimony.  
16 Assumes facts not in evidence.

17 A Yeah. I -- I have no idea. Okay?

18 Q Okay. That's fine. Let me see. So based  
19 on your testimony that you weren't involved in  
20 drafting the maps considered first by the  
21 commissioner's court in 2011, you don't know that --  
22 you know, Judge Henry wasn't speaking to you when he  
23 said that the previous map was good enough and he  
24 didn't want you to start from scratch?

25 MR. RUSSO: -- objection. Calls for

1 for -- I'm sorry. Assumes facts not in evidence.

2 THE WITNESS: Yeah. I'm not even quite  
3 sure what you're asking.

4 BY MS. CHEN:

5 Q That's all right. It states in the  
6 pre-clearance letter, and we can pull it up if needed,  
7 that Judge Henry said that the map from 2011 was good  
8 enough and that he hoped that the map makers would not  
9 start from scratch. Was that something that you were  
10 aware of

11 A Good enough for what?

12 Q Good enough to be the maps that they voted  
13 on.

14 MR. RUSSO: Objection. Calls --  
15 assumes facts not in evidence.

16 A In --

17 MR. RUSSO: The record speaks for  
18 itself.

19 THE WITNESS: Yeah.

20 MS. CHEN: Sorry. Mr. Russo, I can't  
21 quite hear you. Do you mind speaking louder?

22 MR. RUSSO: Objection. Assumes facts  
23 not in evidence. The document speaks for itself.

24 Do you hear that?

25 MS. CHEN: Yes. Thank you.

1 BY MS. CHEN:

2 Q So you do not recall hearing that from Judge  
3 Henry?

4 A I'm still not even sure what timeframe  
5 you're talking about.

6 Q We are still talking about 2011, but I  
7 will -- let's see. You know, in the interest of time,  
8 I will move on. Did you consult with any  
9 representatives from the black or Hispanic communities  
10 in Galveston about the 2011 commissioners map during  
11 the redistricting process?

12 A No.

13 Q Did you review the DOJ's 2012 letter  
14 rejecting pre-clearance --

15 A I did.

16 Q -- over the Commissioner's Court precincts  
17 before beginning your engagement in 2021?

18 A Well, I was aware of it from twenty -- 2012.  
19 That was a letter I was intimately familiar with.  
20 Went and dealt with that negotiations with DOJ.

21 Q Did you review it again at any time after  
22 the 2020 census in relation to your 2021 engagement  
23 with Galveston County?

24 A I didn't -- I was aware enough of what was  
25 in there and how it applied. I mean, it's a -- it's a

1 section 5 letter. It's not a section 2 letter.

2 Q Okay. So now we'll just jump to 2021. When  
3 Paul Ready reached out to you in November 2020 about  
4 taking Galveston County on as a client again, what  
5 were some of the considerations you weighed in  
6 deciding whether to agree to that retention?

7 A Well, I'm not sure -- again, I'm not  
8 completely sure what that -- that means. I mean,  
9 obviously it's a question of whether I have time to do  
10 it.

11 There's also the question of, you know, am I  
12 going to -- what group am I going to be doing it with?  
13 I was a little bit sensitive to the fact that Trey was  
14 gone, Joe was gone, and they were people that I kind  
15 of liked. And I didn't want them kind of left in a  
16 lurch.

17 So I had to go see if I could find someone  
18 else that was interested in doing it with me.

19 Q To put a finer point on it, you know, you  
20 described state clients. You described a lot of  
21 redistrict matters and being very busy. And so I was  
22 just wondering if there were, you know, any good  
23 reasons for you not to take on Galveston or if  
24 Galveston was maybe small fry for you.

25 MR. RUSSO: Object. Vague and

1       ambiguous.

2             A     Vague and ambiguous in a way to cheaply  
3       insult the client.

4             Q     So you did not consider the size of the  
5       county or do you not consider the scope when taking on  
6       this representation?

7             A     I consider size and scope, and I consider  
8       the need of the client.

9             Q     And then do you recall in November 2020 when  
10      Ready first reached out to you that he sent a version  
11      of the Galveston County standard retainer agreement  
12      and also a copy of the 2010 BMP agreement we just  
13      looked at?

14            A     I did. I forwarded all of that over to  
15      Holtzman Vogel, because it was going to have to be a  
16      Holtzman Vogel decision in a Holtzman Vogel document.

17            Q     Did you have any input for Holtzman Vogel  
18      about what you wanted the retainer agreement to look  
19      like?

20            A     Some, but those were largely price issues.

21            Q     And then do you recall setting up a Zoom  
22      with Mr. Ready, Judge Henry and Judge Henry's chief of  
23      staff, Tyler Drummond, in December of 2020?

24            A     Well, be careful when you say -- use the  
25      words "Set up" and "Me." I never set up a Zoom.

1 Someone else sets up a Zoom and I attend it; okay?

2 Which did you miss the old part earlier?

3 Yeah. I think we had a Zoom at some point.

4 We had -- had a number of Zooms throughout this  
5 process. They kind of all zoomed together. But I  
6 wouldn't be surprised if we had a Zoom meeting at that  
7 point.

8 Q So right now, can you specifically recall

9 attending a December 2020 Zoom with Judge Henry?

10 A Not immediately, but -- but it's -- you

11 know, I thought my first contact with them was

12 probably early 2021, but, you know, it could have been

13 as early as December of 2020.

14 Q Okay. Just to make clear, I will show my  
15 screen and mark it as an exhibit what I'm referring to  
16 to find the December 16th date. And that is this  
17 email that was sent with the subject "Galveston County  
18 Redistricting" by Paul at Ready Law. That would be  
19 county counsel, Paul Ready.

20 And DLOESQ, that's your email address, with  
21 Paul initiating a call to occur --

22 (Exhibit 4 was marked for  
23 identification.)

24 A Surprise, surprise. I didn't initiate the  
25 call.

1 Q And thank you for clarifying. Do you  
2 remember if they asked you what services you would  
3 provide in that call?

4 A You know, I don't think we -- we got into  
5 that level of detail. I think the -- you know, the  
6 initial calls were largely would I be interested,  
7 could I still do it, what's the setup.

8 At that point, I hadn't, you know, confirmed  
9 that I had co-counsel. So I wouldn't have gotten very  
10 deep into anything, 'cause I wasn't going to -- my  
11 co-counsel was going to have to set up terms. I  
12 wasn't going to do terms and then have co-counsel say,  
13 "I'm not going to do it at that -- that base."

14 'Cause I can do things at different rates  
15 than other people can do, 'cause it's just me.

16 THE REPORTER: Ms. Chen, I'm so sorry.  
17 Can I just take one second? I'm having a technical  
18 issue with my software. Can you give me one minute?

19 MS. CHEN: Yeah. Of course.

20 THE REPORTER: Thanks. Okay. you can  
21 continue. Sorry.

22 MS. CHEN: Oh, thank you.

23 BY MS. CHEN:

24 Q So safe to say y'all did not discuss  
25 redistricting yet or any sorts of map preferences in

1 that early December call.

2 A No. That was just to kind of feel out what  
3 we could do, whether I could do it, that sort of thing  
4 sort of thing.

5 Q And then Holtzman Vogel then sent the county  
6 an engagement letter on January 20, 2021. Does that  
7 sound familiar?

8 MR. RUSSO: Objection. Assumes facts  
9 not evidence.

10 A Somewhere in 2021. I'm not sure exactly  
11 what the date is.

12 Q All right. I will share my screen again,  
13 and we can mark this also as an exhibit.

14 MS. CHEN: I believe this is 4 or is it  
15 3?

16 THE REPORTER: Should be 4 [sic].

17 MS. CHEN: Four. Thank you.

18 (Exhibit 5 was marked for  
19 identification.)

20 BY MS. CHEN:

21 Q The date is January 20, '21, sent to Paul  
22 Ready at Galveston County regarding Holtzman Vogel  
23 Josefiak Torchinsky PLLC Engagement Letter. Is this  
24 something you've seen before?

25 A I have -- believe I have seen this. They

1 got my firm name wrong, but that's okay.

2 Q Oh no. I see that. And to your  
3 knowledge -- I'm scrolling through now -- does this  
4 represent the entire retention agreement that you  
5 entered here that's signed by Mark Henry?

6 A I'm going to assume so, but I -- you know,  
7 you kind of scrolled through it. I really don't --  
8 you know.

9 Q I can leave it up for a little bit longer.

10 A What part do you want me to focus on?

11 Q No. I just wanted to address Mr. Russo's  
12 objection that the fact was not in evidence, the date  
13 that the retention letter was sent. So I have no more  
14 questions about this document.

15 A Okay.

16 Q I did want to know, though, if Holtzman  
17 Vogel sent any sort of proposal or brochure, to your  
18 knowledge, to the county that described its firm,  
19 services.

20 A I have no idea.

21 Q And do you know if anyone from the county  
22 spoke directly with any Holtzman Vogel attorneys or  
23 were those conversations mediated through you?

24 A I think at times they did talk to Holtzman  
25 Vogel attorneys. I think they talked to Jason and

1 they talked to probably Phil Gordon from time to time  
2 to time.

3 Q Was it -- and this was -- and did they do so  
4 before the retention agreement was signed or sent, or  
5 do you you know the timeline for that?

6 A I'm not sure of the timeline for that. I  
7 think it's possible they talked beforehand. I mean,  
8 I -- I called Jason not too long after that initial  
9 meeting with them and asked if they'd be interested.  
10 And he said they would be.

11 So then it was a question of figuring out  
12 price and everything. And that was more on Jason and  
13 Phil's end than mine.

14 Q Did you speak with Mark Henry again after  
15 the December 2020 Zoom and prior to Holtzman Vogel and  
16 you being retained?

17 A I don't think I talked to Henry. I may have  
18 talked to Paul. I let them know that Holtzman Vogel  
19 was in fact interested and -- and was willing --  
20 seemed to be willing to do it. And have -- they'd  
21 have to come to terms on a price.

22 Q Got it. So then later -- so when did you  
23 become aware that the 2020 census data would be  
24 released?

25 A Would -- or that it was going to get delayed

1 or what?

2 Q I guess working backwards from the August  
3 12, 2021, release date for the redistricting data that  
4 we now know it was released on, when did you become  
5 aware that the data would be released on August 12th?

6 A August. I'm not sure exactly, but it wasn't  
7 too long before that. We were -- we -- you got to  
8 understand, we had gone through a couple of these  
9 where we thought there was going to be a data release,  
10 and then there wasn't a data release, and the Bureau  
11 was having its problems.

12 There's lots of speculation on why that was.  
13 I won't go into it here. But when the data was going  
14 to be released, I mean, at least initially before the  
15 Biden Administration started, the -- the thinking was  
16 going to be that they were going to release by April.  
17 That was what the bureau was saying.

18 And then you got the delay right after the  
19 Biden Administration came in, because of the  
20 discussion about discrepancies occurring during the  
21 deduping process that changed the household resolution  
22 rate from the best it had been in 50 years to the  
23 worst it had been in 50 years.

24 And it's really hard to explain how a  
25 deduping could have caused that, but there it is.

1 And, you know, it's long been rumored they had a great  
2 deal of trouble instituting differential privacy,  
3 because the algorithm didn't work.

4 So we don't know exactly, but there's lots  
5 of speculation as to why and how it took that long.  
6 It was, in my mind, irresponsible.

7 MS. CHEN: Sorry. Mr. Oldham.

8 I'll have to object as nonresponsive.

9 BY MS. CHEN:

10 Q But I'll ask a different way. Since you  
11 brought up differential privacy, you were concerned  
12 about the lawsuit filed in the Middle District of  
13 Alabama delaying --

14 A I was -- yes. I was.

15 Q And were you following that lawsuit closely?

16 A Very.

17 Q And aware also that some of the Holtzman  
18 Vogel attorneys on this case were also the lead  
19 counsel in that matter for plaintiff?

20 A Very much so. Yes.

21 Q And so were you aware that on July 2nd a  
22 joint motion for stay was filed between the U.S.  
23 Government and Alabama in that case that notes that  
24 the Census Bureau planned to release redistricting  
25 data on August 1, 2021?

1           A     Yes. I am aware of that. And -- that was  
2           certainly something we thought might happen. We also  
3           weren't certain it was going to happen.

4           Q     Was that more of, like, a metaphysical  
5           uncertainty and that anything can happen or did you --  
6           or what --

7           A     Well, we had heard release dates -- or prior  
8           to this that didn't get hit. So there was -- there  
9           was not a tremendous level of confidence. Let's just  
10          put it that way.

11          Q     But then on July 8th, the Court did grant  
12          that motion to stay. And so that case was stayed.  
13          And the expectation was -- unless something delayed  
14          that release date, the planned release date was August  
15          12th.

16          A     That was what was hoped. Of course, you'll  
17          notice when they got there then the data was kind of  
18          difficult to use.

19          Q     Did you download that data, the PL94177  
20          redistricting --

21          A     I did not. I didn't have a system for  
22          downloading it. Other people did, though. But I  
23          didn't have a system for downloading it.

24          Q     Did you communicate with anyone at Galveston  
25          County that census data was available in some format

1 in mid-August?

2 A We talked about availability of census data.  
3 I was actually trying to find someone with the initial  
4 census data that had been able to translate it, and  
5 get it into a usable format. I was having a great  
6 deal of difficulty finding someone that was capable of  
7 doing that.

8 Q Can you say a little bit more about what  
9 kind of capability would be needed and what kind of  
10 person you were looking for?

11 A Well, you're looking for someone -- some  
12 degree like Tom Bryan. But you're looking for someone  
13 who has the software, has the -- has the knowledge of  
14 how to work the data files, particularly the so-called  
15 legacy data files, and -- and get those loaded up in a  
16 system that can then produce accurate reports.

17 Q So wasn't that data called legacy data,  
18 because it was in the same format as in the last  
19 decade?

20 A Well, you would think --

21 MR. RUSSO: Objection. Calls for  
22 speculation --

23 THE WITNESS: That's fine.

24 You would think that, but it wasn't  
25 true.

1 BY MS. CHEN:

2 Q And so you had difficulty finding somebody  
3 who was going to be able to process that data in  
4 sometime in August?

5 A Correct -- correct.

6 Q But you had already been searching for that  
7 person?

8 A I had been searching for someone who had  
9 been able to process the data.

10 Q And then when the data was released, as what  
11 the Bureau calls with a full toolkit on September 16,  
12 2021 --

13 A This so-called user-friendly data. Yeah.

14 Q Right. Did you access the data then?

15 A I didn't access it directly, but I was -- I  
16 was able to get data from other suppliers. Yes.

17 Q Yeah. You said earlier you received data  
18 about Galveston County for the first time in September  
19 in a spreadsheet format. Is that right?

20 A Yes. I'm not sure exact date, but yes.

21 Q And that spreadsheet had racial  
22 demographic -- total population and also racial  
23 demographic breakdowns; right?

24 A Yes.

25 Q Do you recall who sent you that spreadsheet?

1 A That came from Fair Lines.

2 Q Do you remember who from Fair Lines sent  
3 that spreadsheet?

4 A Well, it came from Fair Lines. That's Adam  
5 Kincaid's operation. I'm not sure who actually ended  
6 up doing it. But they were the first people that I  
7 knew of that had been able to make the data work.

8 Q Got it. Let me show my screen again to show  
9 you something we'll mark Exhibit 5 [sic]. Is this the  
10 email that you're talking about from Adam Kincaid sent  
11 on September 14, 2021, to your email address, subject  
12 "Galveston Report" --

13 (Exhibit 6 was marked for  
14 identification.)

15 A Correct. Yeah. That --

16 MR. RUSSO: Let her finish.

17 THE WITNESS: Yeah. I believe that's  
18 correct.

19 BY MS. CHEN:

20 Q And September 14th, this was sent to you  
21 before the kind of user-friendly census data was  
22 published on September 16th; right?

23 A Correct.

24 Q And did you -- and you said this came from  
25 Fair Lines. I see here the signature for Adam

1 Kincaid. It says, "National Republican Redistricting

2 Trust." Are those the same entity or?

3 A They're not the same entity. But my

4 mistake. I thought it actually came from Fair Lines.

5 Q No worries. Is there a chance there was

6 another set of data that you received from Fair Lines?

7 A I -- I don't think so. The two

8 organizations share data.

9 Q Got it. And so did you request Mr. Kincaid

10 to send you this data about Galveston?

11 A I asked Adam if he had been able to process

12 the census data, and -- and he said that he had. And

13 I said if he had, please send me this.

14 Q And let me try to change my screen a little

15 bit to show the whole attachment. But this is -- oh,

16 it's not cooperating. But this is the attachment with

17 the data that you referenced?

18 A Yes. Appears to be. Yes.

19 Q Great. And so to your knowledge, did Adam

20 have this data already prepared or did it have to be

21 specially prepared and packaged to send to you?

22 A Well, I'm not quite sure what you mean by

23 specially prepared. Adam had -- you know, my

24 understanding was Adam had -- had managed to figure

25 out how to crack the -- the code to produce the data.

1 And I'm sure this individual report had to be done  
2 individually.

3 But I don't know what -- how much broader  
4 data he had available, because I didn't ask him right  
5 then. I was interested in getting my hands on  
6 something for Galveston County.

7 Q Got it. Thank you. And then at this point,  
8 after receiving this data on September 14, 2021, you  
9 said you had also looked at some information from the  
10 2011 redistricting process and from the Petteway  
11 litigation, including Dr. Barreto's report.

12 A Yeah. In those cases, though, that's --  
13 that's more looking at reports. That's -- that's a  
14 little different beast.

15 This is actually -- this is really when you  
16 can begin to -- to look at what you're going to do  
17 with drawing this map, 'cause now you -- now you're  
18 beginning to understand how much each district is  
19 going to actually need in terms of population.

20 Now you understand what the total  
21 demographic is for the county. This is -- this is  
22 your starting point essentially in a lot of ways.

23 Q Did you look at any American Community  
24 Survey or other projected population change data?

25 A Not a big believer in projected population

1 data. You can look at American Community Survey for  
2 characteristics.  
3 But trying to get a number off of -- a -- an  
4 accurate number of what population's going to be in a  
5 given county or in -- particularly in a given district  
6 is kind of a fool's errand with the ACS, so no.

7 Q And so you had talked about meeting with the  
8 commissioners and Judge Henry in September to, you  
9 know, do some fact finding, hear their preferences for  
10 what they wanted to see on their maps. In those  
11 meetings, did you provide any demographic data or  
12 analysis?

13 A Well, we had already provided to them at  
14 that point how much everybody was up, how much  
15 everybody was down, because there've been lots of  
16 speculation on that prior to that. Most of it was  
17 wrong, which wasn't a shock.

18 And so they -- at that point, they all knew  
19 how much they were up and how much they were down.  
20 And -- and so that gave them all an idea of "You need  
21 to gain X or you need to lose X."

22 And -- and so now you got -- "Tell us what  
23 you want in light of that. Not what you want in light  
24 of your pie in the sky, in light of 'You need this  
25 amount of pop. You need to lose this amount of pop.'

1 What do you want to have happen to your seat?"

2 Q Did you make a plan to make a demographic  
3 presentation in an Open Commissioner's Court meeting,  
4 like Joe and Trey did in 2011?

5 MR. RUSSO: Objection. Assumes facts  
6 not in evidence.

7 You're talking about demographic data  
8 only?

9 MS. CHEN: Yes.

10 MR. RUSSO: I'm sorry, did you respond  
11 to that? Are you talking about demographic data only?

12 MS. CHEN: Yes.

13 THE WITNESS: We had an exigency of  
14 time that didn't exist in 2011, so we're trying to  
15 proceed a pace with this. We didn't know exactly how  
16 much time or how little time we had.

17 So we're trying to get this information  
18 to the commissioners as rapidly as possible and get  
19 their response as rapidly as possible.

20 BY MS. CHEN:

21 Q Right. You had said earlier that up until  
22 the end of November you thought that you had until the  
23 end of December to redistrict. Is that accurate?

24 A Yeah. It was about that timeframe. It  
25 was -- 'cause we didn't think Texas was going to

1 get -- the state was going to operate as fast as it  
2 ended up operating.

3 I'd been in contact with Paul and the guys  
4 in -- in Galveston, and the read had been that there  
5 would be additional time from Austin, but it was --

6 Q But isn't it right that the Texas special  
7 session on redistricting concluded in mid-October, and  
8 at that point you would've known in mid-October --

9 A I don't think it was actually -- the session  
10 may have ended in October, but I don't think we knew  
11 that the time limit was going to end up being what it  
12 was until a week or so after that.

13 Q So still by the end of October and not the  
14 end of November; correct?

15 A I didn't say at the end of November. I'm  
16 sorry if you misheard that. I didn't say at the end  
17 of November.

18 Q Okay. So you meant the end of October.

19 A Yeah.

20 Q At this point, besides speaking with members  
21 of the Commissioner's Court in September of 2021, what  
22 else did you do to familiarize yourself with Galveston  
23 County to prepare for map drawing?

24 A Well, the -- the map drawing, per se, was  
25 not going to be mine. Map drawing was going to be Tom

1 Bryan's. What I'm actually trying to do at that point  
2 is determine -- make an analysis under section 2 as to  
3 what requirements there are or there aren't -- there  
4 aren't at that point.

5 And also to examine, you know, how you can  
6 get to a defensible map. What's the position of  
7 the -- of the prior existing map? What's -- what is  
8 existing and the possible maps that we have.

9 And that's -- you know, as I described  
10 earlier, as I began to do that legal analysis, I  
11 reached the legal conclusions that I did.

12 Q Did you ever look at communities of interest  
13 in Galveston?

14 A To some degree, but the communities of  
15 interest, you know, aside from the racial aspects of  
16 it, are not that critical to the section 2 analysis.

17 MS. CHEN: I think you had said you  
18 wanted to take a break. I think we've gone a little  
19 bit over. Do you want to do that now? We can take  
20 ten.

21 THE WITNESS: Sure. My tea is starting  
22 to get low.

23 MS. CHEN: All right. Thank you.

24 THE WITNESS: Thank you.

25 THE VIDEOGRAPHER: We are off the

1 record at 4:12 p.m. This is the end of file number 4.

2 (Off the record.)

3 THE VIDEOGRAPHER: We're back on the  
4 record at 4:37 p.m. This is the beginning of file  
5 number 5.

6 MS. CHEN: Welcome back. I hope you  
7 didn't bring too much tea, because I don't have a ton  
8 left for you.

9 THE WITNESS: Good.

10 MR. RUSSO: He's running low.

11 THE WITNESS: I mean, yeah. I'm  
12 getting tired.

13 MS. CHEN: Aren't we all? It is  
14 Friday. So I don't have a ton left. I just want to  
15 clarify a few things about the map drawing phases of  
16 the 2021 redistricting process.

17 THE WITNESS: Sure.

18 BY MS. CHEN:

19 Q I think we discussed that Holtzman Vogel  
20 first reached out to Thomas Bryan on October 15th. Is  
21 that right?

22 A I think that's right. It's somewhere around  
23 in that -- that neighborhood. Yeah.

24 Q And then --

25 A Well, no. I think they reached out to him

1 earlier than that, but I think we -- we actually  
2 started the draw on around October 15th. But I -- I  
3 could be wrong on that, but I think that's correct.  
4 He was initially on vacation. Had wait for him to get  
5 back

6 Q And then you spoke with him or saw those  
7 initial maps on Zoom on October 17th. If -- you can't  
8 remember the exact date, that's fine --

9 A I can't remember exact date, but it's in  
10 that neighborhood somewhere. Yeah.

11 Q Okay. And then I have that you met with  
12 each commissioner in person on October 19th. That was  
13 the Galveston visit, October 19th.

14 A That's when -- that's when I flew down.

15 Q And just to clarify, you did speak with each  
16 commissioner about the changes that they had wanted to  
17 see, and clarified that map 1 pretty much had those  
18 changes incorporated in map 1?

19 A Yes. I mean, like I said, not everybody got  
20 absolutely everything, but everybody got, I think,  
21 most of everything they asked for.

22 Q Do you recall if Commissioner Holmes asked  
23 you to provide copies of the map proposals and  
24 underlying data or the demographic data?

25 A Well, I think we provided that to him.

1 Q Okay. So do you know when or in what format  
2 you provided that data --

3 A I can't tell you exactly when, but I -- I  
4 would feel pretty sure it was either in a PDF and a  
5 spreadsheet. But at some point, I'm -- I'm pretty  
6 sure he got that map. I mean, I had a PDF of it -- I  
7 had a map show him when we came down there, a PDF of  
8 it.

9 Q And was that -- would you have sent that to  
10 him or would you have sent that to somebody else to  
11 send to him?

12 A Well, I'd have to have Tom Bryan sending the  
13 stuff electronically. I could provide a print. If I  
14 had a printout from Tom, I could do it, but Tom would  
15 have to send it. Not me. I don't -- I don't have the  
16 software or the machinery for that.

17 Q Okay. And it's your recollection that  
18 somebody would've also sent demographic data that  
19 Commissioner Holmes requested?

20 A I think at some point somehow he -- we got  
21 it to him. Yeah.

22 Q And then to what you called the phase 2  
23 meetings to address additional concerns with map 1 and  
24 map 2 in particular, were those meetings all via Zoom,  
25 or via phone, or what medium?

1           A     Well, they would've had to have had a Zoom  
2     component, because, you know, some people were in  
3     rooms. But had to have a Zoom component, because the  
4     principal person that had to be in that meeting was  
5     Tom Bryan.

6           And Tom would've participated by -- by Zoom  
7     and would've been sharing a screen with his map, so  
8     that we could all see the map and see what the changes  
9     were that were being made.

10          Q     Right. So all of those changes and concerns  
11     were made in real time communicating via Zoom?

12          A     Yes.

13          Q     Okay. There were none that were relayed  
14     maybe through text or a call that then, you know --

15          A     Not that I remember. I mean, most -- those  
16     are pretty much the commissioner involved, Tom,  
17     myself, Paul Ready, sometimes maybe Phil Gordon, and,  
18     you know, occasionally some staff that I probably  
19     didn't know who the heck they were.

20                 And basically sitting there looking at the  
21     screen, and the commissioner is telling Tom what he  
22     wants to do, and Tom is looking at it and doing it,  
23     and then we see numbers.

24                 And if I feel it's falling out of  
25     one-person, one-vote too far, I may yip. But we're

1 basically continuing the process until they're happier  
2 with the map.

3 Q In those meetings or in any prior meetings,  
4 did anyone ever ask you to create a map that unified  
5 Galveston Island, Pelican Island, and the Bolivar  
6 Peninsula, and also keep Precinct 3 more similar in  
7 its core in the county?

8 A No.

9 Q That was not requested?

10 A That was not requested.

11 Q And did you ever consider offering  
12 additional options to Commissioner's Court besides the  
13 two that it sounds like were quite fully formed from  
14 the beginning, based off of the preferences that you  
15 had heard from the commissioners, and only required  
16 tweaks at the edges?

17 A Well, I don't know how fully formed they  
18 were. I don't think -- certainly as it turned to the  
19 map 1, I don't know that commissioners had any idea  
20 how their requests were actually going to fit  
21 together.

22 Frankly, I didn't have an idea of how their  
23 requests were going to fit together until Tom put them  
24 in. But then I had an idea of how they fit together.  
25 I was actually kind of delightfully surprised.

1 The -- the -- those concepts that come from  
2 the commissioners. You know, one of them  
3 individually, and actually being able to put together,  
4 and actually work.

5 The other one from a -- well, from the  
6 county judge, that was a different criteria. Had we  
7 had a request for another type of draw, we would've  
8 thrown that into the mix.

9 Q Do you mean just a request from another  
10 commissioner, or could that request have come from the  
11 public?

12 A Well, it -- we would've -- we would've  
13 needed it to come from a commissioner or a  
14 commissioner would've had to have asked that, you  
15 know, "I've got a request from the public to do this."  
16 We certainly would've done it at that point.

17 Q Did you convey to the commissioners or to  
18 Judge Henry that that was an option, that they could  
19 request a different map proposal from the ones you had  
20 already provided?

21 MR. RUSSO: Objection. Vague.

22 Are you talking about from the  
23 commissioners or from the public?

24 MS. CHEN: Either. It sounds like  
25 either was possible, as long as it was conveyed

1 through a commissioner; right?

2 BY MS. CHEN:

3 Q So did you convey that that was an option  
4 that the commissioners could request, like about  
5 proposal 3?

6 A We told commissioners, you know, "If you've  
7 got something you want, you can -- you can provide it  
8 to us."

9 I mean, I actually specifically told Holmes  
10 that if he wanted to try and do some adjustments where  
11 he had other maps, that we would do that, and we would  
12 not -- unless he told us he wanted it done that way,  
13 would not tell the other commissioners what he wanted  
14 and what he was wanting to work on. He chose not to  
15 take us up on that.

16 Q Did you -- when you looked at the online  
17 public comments about the map proposals, you said that  
18 Paul Ready was filtering those for you. Is that  
19 right?

20 A Yes.

21 Q How was he sending them to you?

22 A Well, he would occasionally either tell me  
23 about them or -- or he may have sent me one or two. I  
24 don't know. If they did, they came to the email. I  
25 can't rightly remember, but he did tell me about

1 certain proposals.

2 And he told me about overall aspects of  
3 them, 'cause he told me that map 2 was garnering the  
4 most public support.

5 And -- and he, you know, talked about a  
6 couple of things regarding additional hearings. And,  
7 you know, we discussed what I said earlier to -- was  
8 it to Mr. Mark? Was that -- was that -- or Gaber?  
9 What I said earlier about the issue on hearings.

10 Q So was that then over the phone? He was  
11 telling you this over the phone?

12 A That -- that would've been -- these would've  
13 all -- would've been over the phone --

14 Q Did Mr. Ready pass on any comments  
15 expressing concern that map 2 diluted the votes of  
16 racial minorities?

17 A Well, I'm -- I'm certain there was, but  
18 the -- the -- that goes back to the earlier assessment  
19 that I had made already at that point, that the Voting  
20 Rights Act -- there wasn't a Voting Rights Act  
21 district there. It was a crossover seat.

22 And that the real danger, if you were going  
23 to try and get a map that looked like the current --  
24 the -- the map -- the district 3 from 2011, that was  
25 going to need to be passed as a least changes map, so

1 that we could unhook it from the -- from the racial  
2 gerrymandering problem that had occurred in 2011.

3 Because it was clearly at that time drawn  
4 solely on the basis of race. It wasn't just  
5 predominant. It was pretty much solely. And -- and  
6 trying to be able to back away from that.

7 Commissioner Holmes was unable to get -- or  
8 didn't try -- I don't know -- unable to get two more  
9 votes.

10 Q I think that mostly covers what I wanted to  
11 ask you. Just a final few questions, you know, I have  
12 to ask. Sorry about this. Is there any reason you  
13 might not be able to give full and truthful testimony  
14 today?

15 A No.

16 Q Are you currently on any medication that may  
17 affect your testimony or have you consumed any  
18 alcohol?

19 A I have not consumed any alcohol. And the  
20 medication that I'm currently on is cream and  
21 ointments for my rather severe psoriatic condition.

22 MR. RUSSO: NT.

23 THE WITNESS: Yeah. NT.

24 BY MS. CHEN:

25 Q Thank you. And then did you speak with

1 Mr. Russo or any other counsel for the county during  
2 your breaks during the deposition today?

3 A Well, just a moment ago we had a discussion  
4 about getting my boarding pass for Southwest.

5 Q I hope you got a good boarding position.

6 A Not at the moment. I don't know.

7 Q Well, good luck with that. Did you at any  
8 point today in your breaks discuss the substance of  
9 your testimony with county counsel?

10 A No.

11 Q And then are you aware that other  
12 individuals have already been deposed in this matter?

13 A I am.

14 Q Did you speak with any of them about the  
15 testimony they gave?

16 A No.

17 Q And you had talked about reviewing some  
18 documents before this deposition. Did you look at  
19 handwritten notes by Commissioner Holmes?

20 A I did.

21 Q And besides reviewing these documents and  
22 the 16 or so hours of preparation with your counsel,  
23 are there any other ways that you prepared for this  
24 deposition?

25 A Isn't that enough?

1 MS. CHEN: All right. I have  
2 potentially tortured you enough. Thank you for your  
3 time.

4 THE WITNESS: Yes.

5 MS. CHEN: I have no further questions.

6 THE WITNESS: Thank you, Ms. Chen. I  
7 hope you have a blessed day.

8 MS. SMITH: The United States doesn't  
9 have any questions for this witness at this time.

10 THE WITNESS: Thank you.

11 MR. RUSSO: Y'all passing?

12 MS. SMITH: Yes.

13 MR. RUSSO: Okay. We have a couple  
14 questions on direct.

15 THE WITNESS: Cut me a break, Joe.

16 MR. RUSSO: Let's see if I can get  
17 video up here.

18 THE REPORTER: And, Mr. Russo, if you  
19 can make sure you speak up, so we can hear you.

20 MR. RUSSO: Yeah. I'll do my best,  
21 because, again, I'm using his microphone to ask  
22 questions. All right.

23 EXAMINATION

24 BY MR. RUSSO:

25 Q So, Mr. Oldham, you testified earlier about

1 receiving some data -- I think it came from

2 Mr. Kincaid in around September 14th of 2021?

3 A Yes. Somewhere in that neighborhood. Yes.

4 Q And I think that the data actually had some  
5 specific demographics data in it for Galveston County,  
6 if I'm correct. Is that --

7 A It did. It had -- it had county data, and  
8 it had a comparison of the districts from the 2010  
9 cycle with what they looked like after the 2020  
10 census.

11 Q Okay. And did you use that data for the  
12 purpose of doing or performing a section 2 analysis?

13 A That was part of my section 2 analysis. I  
14 mean, it was a -- it was a -- it's a big starting  
15 point, 'cause that immediately tells you the overall  
16 data for the county, what the overall minority  
17 percentages are for the county, what they are in each  
18 of the districts, and in many ways, the most the  
19 important aspect, how much each district had to gain  
20 or lose.

21 Q All right. And the last thing you stated,  
22 when you're talking about how much the county and the  
23 districts had to gain or lose, you're talking about  
24 the overall population or something?

25 A Yeah. TPOP. That's a -- some districts

1 were what you would call fat. Others were thin. It  
2 tells you where the fat ones are, the thin ones are,  
3 and what's got to kind of -- you know, how population  
4 has to move around the county to make up for that.

5 And -- and gives you a good idea of what the  
6 possibilities are and really the -- kind of the scope  
7 of the shifts that are going to have to happen between  
8 districts.

9 Q Okay. And do you look at that for the  
10 purposes of applying with the one-man, one-vote  
11 principle --

12 A Well, it applies to both. You've got to  
13 have that for the one-person, one-vote, but it also  
14 applies to -- to minority pop.

15 I mean, this is not to say this is what  
16 happened here, but let's say you have a majority  
17 minority district somewhere, and it's wildly  
18 underpopulated after the census, and you don't have  
19 adjoining minority pop to put into it.

20 That district is probably impossible to  
21 save. So it -- it plays both ways. It -- is part  
22 of all of the analyses.

23 Q Okay. Did you use the data from Mr. Kincaid  
24 to conclude that there's no strong basis in evidence  
25 that you needed to consider race?

1           A     Yes.  That was part -- this was part of that  
2     ultimate conclusion.  I mean, it -- it -- as I  
3     discussed earlier, when --

4                   THE REPORTER:  Am I saying your name  
5     right, Gaber?

6                   MR. GABER:  Gaber.  Yes.

7                   THE WITNESS:  Thank you.

8                   When I was answering his questions  
9     earlier, it goes into that analysis in determining  
10    that you -- you didn't have a section 2 district here.  
11    You didn't have the ability to draw a section 2  
12    remedial district.  And -- and that we would be far  
13    better off to go race blind.

14                   MR. MANCINO:  Note an objection.  
15    Leading question to that last question and answer  
16    BY MR. RUSSO:

17                  Q     Did you conclude as a result of your section  
18    2 analysis that there was no strong basis in evidence  
19    that you needed to consider race to comply with  
20    section 2?

21                  A     Yes.

22                  Q     Why is that important in connection with the  
23    redistricting effort?

24                  A     Well, it -- it changes totally how you're  
25    going to actually look at your draw.  It also changes

1 totally how you're going to deal with district 3.

2 I mean, immediately with district 3, if  
3 you -- you're going to have an immediate racial  
4 gerrymandering problem if you continue to try and draw  
5 that as -- as a race-based district, which was one of  
6 the reasons we tried to basically unhook it from its  
7 past and -- and do it as a least changes map.

8 I felt like it was defensible as a least  
9 changes map, and -- and made an effort to try and  
10 leave that as an option.

11 Q Okay. Let me see if I can sort of sum up  
12 with the analysis. The section 2 analysis was sort of  
13 your first step. Is that true?

14 A Yes. The first step in getting us really  
15 cranking at that point. Yes.

16 Q Okay. And after you performed the section 2  
17 analysis, you concluded that the county didn't need to  
18 consider race in redrawing the districts?

19 A I concluded that we -- that -- that it would  
20 be very dangerous that the map drawer actually used  
21 race in his -- in his draw. And I instructed him very  
22 specifically to never put racial distributions up on  
23 the -- on the map while he was drawing, and to draw  
24 only using non-race criteria.

25 Q Okay. And what impact did your conclusion

1 about the section -- on the section 2 analysis have on  
2 your view of what should happen with the old precinct  
3 3 configuration?

4 A Well, it goes back what I said. You're  
5 going to have to have on all the basis for defending a  
6 continuation of that district.

7 Having received all the results from the  
8 individual commissioners and having discovered that  
9 you could put them together in a way that would  
10 actually configure, I believe -- it was my opinion at  
11 that time that a least changes map that's based on  
12 incumbent preservation, preservation of courts,  
13 existing districts, these are maps that have been  
14 defended before -- those are considered non-racial  
15 criteria by the court -- that we could defend a map of  
16 that type.

17 There's obviously a potential that someone  
18 would come along and -- and attack it on a -- a racial  
19 gerrymander, but it was -- it was something I  
20 considered defensible.

21 Q So based upon your, I guess, past knowledge  
22 of the prior redistricting case and resolution of that  
23 case, and then the additional analysis you did in  
24 2021, was it your conclusion that old precinct 3 was a  
25 racial gerrymander?

1           A     Yes.

2                         MR. GABER:  Objection.  Leading.

3     BY MR. RUSSO:

4           Q     And did -- well, let me ask you this way.

5     Did --

6           A     Well, let's -- go ahead.

7           Q     -- next question.  To your recollection,  
8     was, you know, old precinct 3 at the time -- well,  
9     strike that question.  I think we covered that issue.

10                    Let me move to your sort of conversations  
11     with the commissioner or really with Commissioner  
12     Holmes.  Would you agree with the allegation that  
13     Commissioner Holmes was shut out of the redistricting  
14     process?

15           A     Absolutely not.  And first off, we sought  
16     the same level of input initially from him that we did  
17     from everyone else.  When we actually drew the map 1,  
18     just as we had for -- you know, if you look at his --  
19     his district in map 1, he probably gets as much and  
20     more than anybody does in map 1 of what he asked for.

21                    And we actually drew his first, partly  
22     because he gave us more specific criteria than the  
23     others, but, you know, he got everything he asked for,  
24     but we did add two things that he didn't want.  But  
25     that was kind of necessary.

1           We had taken things from Apffel because of  
2           his request that Apffel had asked for. So we had --  
3           you know, if we didn't -- if we didn't give Apffel  
4           something that he wanted, we were basically going to  
5           say he was going to be the one guy that was going to  
6           get nothing, and that -- we didn't want to do that  
7           either.

8           So -- so at the end of the day, he, you  
9           know, did fairly well with map 1. Map 2 was not a  
10          question of -- of -- that map was -- was done for  
11          Judge Henry. Wasn't done for any of the other  
12          commissioners.

13          The -- in terms of not shutting him out, I  
14          specifically offered and -- and offered Tom, you know,  
15          to continue to work on -- on the maps if he wanted to  
16          do that. He didn't -- didn't take advantage of that.

17          Q     Did Judge Henry or any of the commissioners  
18          ever instruct you to exclude Commissioner Holmes from  
19          the redistricting process?

20          A     No.

21          Q     Did anyone from the staff or anyone else  
22          with the county instruct you to exclude Commissioner  
23          Holmes?

24          A     No.

25          Q     Did you exclude Commissioner Holmes from the

1       redistricting --

2           A       I did not.  It's always a delicate process  
3 when you're representing a body, because you have a  
4 certain ethical responsibility to all the  
5 commissioners.

6                   And that's -- that's the primary thing that  
7 your -- your ethical duty is to.  But you also have a  
8 certain -- certain responsibility for individuals,  
9 which was one of the reasons I was trying to respect  
10 their confidentiality in the first part of that  
11 process.

12                   So no.  I would never have excluded  
13 Commissioner Holmes.  I wouldn't have felt that  
14 would've been appropriate.

15           Q       Okay.  Earlier when you were asked about the  
16 section 2 analysis, I think you referred to your  
17 answers -- and the records will speak for itself --  
18 but I think you referred to "We concluded" -- you used  
19 the term "We concluded" in the analysis.  Was there  
20 any "We" other than you doing it?

21           A       Yeah.  I -- my wife accuses me of using the  
22 royal "We" occasionally too.  She's probably right.

23           Q       But to what extent -- I mean, I guess just  
24 may ask you a question outright.  Were you the one  
25 conducting the section 2 analysis?

1           A     I was the one conducting section 2 analysis.  
2     That's correct.

3           Q     All right. To your recollection, did any of  
4     the, you know, commissioners ask you for racial  
5     demographic data in connection with the redistricting  
6     effort?

7           A     I believe Commissioner Holmes asked for that  
8     data.

9           Q     Did anyone else -- any of the other  
10    commissioners?

11          A     None of the other commissioners did

12          Q     Did Judge Henry ask you for racial data?

13          A     No. And I'm -- I'm fairly certain we  
14    provided it to the Commissioner Holmes

15          Q     Earlier Counsel asked you, as well, about  
16    the retainer of -- on this case and, I think, you  
17    know, outstanding, I guess, bills for past work. What  
18    I want to ask you is, I mean, has anyone promised you  
19    payment for past work based upon you showing up to  
20    testify today?

21          A     No.

22          Q     Okay. You're not here -- are you here  
23    testifying in the hopes of obtaining payment for --

24          A     No. On -- under the ethical constraints,  
25    the bar of South Carolina, I'm not sure I have any

1 choice.

2 THE REPORTER: Mr. Russo, I didn't hear  
3 the end of your question. You said payment for what?

4 MR. RUSSO: Past work.

5 THE WITNESS: Thank you.

6 BY MS. CHEN:

7 Q There's just one more thing to ask you  
8 about. There's been some discussion about your  
9 thoughts on the commissioners' views of the maps, and  
10 I guess, potentially where you thought they would be  
11 in terms of vote prior to voting in November of 2021.  
12 Do you recall that conversation?

13 A Yes, I do.

14 Q To your recollection, do you recall that --  
15 is that -- as you said here today, do you remember  
16 that the commissioners getting together, talking to  
17 each commissioner, and sort of knowing amongst the  
18 four voting members, plus Judge Henry, or any of those  
19 groups that they had discussed outside of the meeting  
20 which map they were going to vote for in any way?

21 A No.

22 MR. GABER: Object to form.

23 THE WITNESS: I didn't know any of  
24 that. I mean, I'm looking at commissioners  
25 individually as we're drawing the maps, and they're

1 saying they're happy with that -- how the map has been  
2 redrawn. Everything else is admittedly speculation on  
3 my part.

4 MR. RUSSO: All right. We'll reserve  
5 remainder for trial. Pass the witness back.

6 MR. GABER: I do have some questions  
7 based on that examination.

8 EXAMINATION

9 BY MR. GABER:

10 Q Did you prepare any sort of written  
11 memorandum with your section 2 analysis that you --

12 A I did not.

13 Q Why not?

14 A One was time. One was at that point I -- I  
15 didn't want to -- I didn't see a need for it at that  
16 point. I wanted Tom to draw it as race blind a way as  
17 is humanly possible.

18 Q And you talked a little bit about -- I think  
19 you said that you wanted to make sure that one guy  
20 didn't get -- that one guy nothing of his request from  
21 the map drawing.

22 A Right.

23 Q Is that right?

24 A Yeah. Apffel. Yes.

25 Q Once it became clear that that Apffel, and

1 Clark, and Giusti were being accommodated with their  
2 requests in map 2, was there any effort to go to  
3 Commissioner Holmes and see how map 2 could be  
4 modified to accommodate some of his requests?

5 A Well --

6 MR. RUSSO: Object. That's vague and  
7 ambiguous.

8 And speculation, unless you're just  
9 talking about what Mr. Oldham knows.

10 THE WITNESS: Well, I'm going to say I  
11 didn't go to any of those commissioners, nor did Tom.  
12 Those commissioners came to us, and -- and requested  
13 that the -- that the alterations be made.

14 BY MR. GABER:

15 Q I think you said earlier that Judge Henry  
16 started his effort to advocate among that set of  
17 commissioners, at least, to vote for map 2. Did you  
18 have any basis to know whether Commissioner Holmes was  
19 clued into that --

20 A I have -- yeah.

21 MR. RUSSO: Wait.

22 Let me object as it mischaracterizes  
23 the testimony and assume facts not in evidence.

24 But you can answer other than that.

25 THE WITNESS: I have no basis to know

1 that. It's -- Ready would contact us and we'd set up  
2 a meeting.

3 BY MR. GABER:

4 Q So we'd have to talk to Mr. Ready to know  
5 what was being communicated in terms of Judge Henry's  
6 advocacy for map 2 to the commissioners.

7 MR. RUSSO: I mean, again, object to  
8 speculation. Assumes facts not in evidence.

9 A Assuming he knows.

10 Q But you see the point I'm making; right?

11 A No. I see the point you're making. I mean,  
12 the point is my contact point is Ready.

13 Q Right. And if Commissioner Holmes was not  
14 clued in to the fact that other commissioners were  
15 having accommodations made for them in map 2 and he  
16 wasn't, that he may not have had no reason to request  
17 that meeting with you?

18 MR. RUSSO: Object. Assumes facts not  
19 in evidence. Calls for speculation.

20 Could just talk with Commissioner  
21 Holmes.

22 THE WITNESS: Yeah. I mean, I don't  
23 know the answers.

24 BY MR. GABER:

25 Q During any of the breaks, did Mr. Russo

1 discuss with you the questions that he planned on

2 asking in his examination?

3 A No. Not -- not what he just asked. I

4 actually suggested to Mr. Russo that he shouldn't ask

5 me any questions.

6 MR. RUSSO: Reminder -- not to disclose

7 attorney --

8 THE WITNESS: Hence my comment a moment

9 ago.

10 MR. GABER: All right. I have no

11 further questions. I'll pass the witness.

12 THE WITNESS: Yes.

13 MS. CHEN: -- NAACP Plaintiffs.

14 MS. SMITH: Nothing for the United

15 States.

16 THE WITNESS: Think the ball is in your

17 court, Joe.

18 MR. RUSSO: Nothing further from us.

19 Reserve for trial.

20 Thank y'all for showing up on a Friday

21 and staying a little late.

22 THE REPORTER: Just real quick. Before

23 we go off the record, Mr. Russo, did you want to order

24 a copy of the transcripts?

25 MR. RUSSO: Yes. We do. Oh, one other

1 thing I want to mention for folks -- it looks like  
2 there's some new folks on the -- that were on the  
3 deposition, this deposition.

4 Again, depositions are subject to, of course,  
5 a protective order for a period of time and  
6 disclosure.

7 I don't think it's going to happen, but  
8 just given that there are new folks on here and  
9 listening in, whether it be clerks or otherwise, we've  
10 got an obligation to keep the deposition in-house.

11 MR. MANCINO: I'm not quite sure I  
12 understand. Are you designating this transcript as  
13 confidential?

14 MR. RUSSO: No. What I'm saying is, is  
15 that the protective order automatically protects this  
16 transcript for at least ten days. And if we need to  
17 discuss anything that's confidential, we can approach  
18 the Court with it.

19 MR. MANCINO: Thank you.

20 THE WITNESS: And I don't normally feel  
21 the need to do this as a witness, but I'm not waiving  
22 my right to read and correct.

23 MR. RUSSO: Yeah. We would like to  
24 read and sign.

25 THE WITNESS: Since I hadn't heard it

1 yet.

2 THE REPORTER: Okay. Great. And then,  
3 Ms. Chen, did you want to order a copy of the  
4 transcript?

5 MS. CHEN: I don't think we'll need to  
6 at this time. Thank you.

7 THE REPORTER: Okay. And then does  
8 anyone else want to order a copy of the transcript?

9 MR. GABER: Oh, we -- the Petteway  
10 plaintiffs will.

11 THE REPORTER: Yes you have it.

12 Okay. Great. We can go off the  
13 record.

14 THE VIDEOGRAPHER: Okay. We are off  
15 the record at 5:12 p.m. This is the end of file  
16 number 5.

17 (Signature reserved.)

18 (Whereupon, at 5:12 p.m., the  
19 proceeding was concluded.)

4 RE: Honorable Terry Petteway et al. v. Galveston County et al.

5 6/23/2023, Dale Oldham (#5959807)

6 The above-referenced transcript is available for  
7 review.

8 Within the applicable timeframe, the witness should  
9 read the testimony to verify its accuracy. If there are  
10 any changes, the witness should note those with the  
11 reason, on the attached Errata Sheet.

12 The witness should sign the Acknowledgment of  
13 Deponent and Errata and return to the deposing attorney.  
14 Copies should be sent to all counsel, and to Veritext at  
15 cs-ny@veritext.com.

16  
17 Return completed errata within 30 days from  
18 receipt of testimony.

19 If the witness fails to do so within the time  
20 allotted, the transcript may be used as if signed.

P R O C E E D I N G S

\* \* \* \* \*

VIDEOGRAPHER: Good morning. We are going on the record at 10:00 a.m. on April 11th, 2023. Please note that this deposition is being conducted virtually. The quality of the recording depends on the quality of the camera and internet connection of participants. What is seen from the witness and heard on the screen is what will be recorded.

Audio and video recording will continue to take place unless all the parties agree to go off the record.

This is Media Unit 1 of the video-recorded deposition of Kassra Oskooii, taken by Counsel for the Defendant in the matter of the Honorable Terry Petteway, et al. versus Galveston County, et al.

This case is filed in the United States District Court for the Southern District of Texas, the Galveston Division, Case Number 322-cv-00057.

1 My name is Dan Reidy from the firm  
2 Veritext Legal Solutions, and I'm the  
3 videographer. The court reporter is Felicia  
4 Newland from the firm Veritext Legal Solutions.

5 I'm not authorized to administer an  
6 oath, I'm not related to any party in this  
7 action, nor am I financially interested in the  
8 outcome. If there are any objections to  
9 proceeding, please state them at the time of your  
10 appearance.

11 Counsel and all present  
12 including -- will now state their appearances and  
13 affiliations for the record, beginning with the  
14 noticing attorney.

15 MR. SHEEHY: Yes. Good morning. My  
16 name is Shawn Sheehy, from the law firm of Holtzman  
17 Vogel, in Washington D.C. And I represent the  
18 Defendants in this matter, Galveston County, et al.

19 And with me today are my  
20 colleagues, Mr. Mateo Forero and Ms. Sharon  
21 Norwood.

22 Will Counsel for the Petteway

1 Plaintiffs please note their appearance if  
2 they're on?

3 Will Counsel for the NAACP  
4 Plaintiffs please note their appearance for the  
5 record?

6 MR. GONZALEZ: This is Joaquin  
7 Gonzalez for the NAACP Plaintiffs. And also with  
8 me is Molly Zhu.

9 MR. SHEEHY: Good morning.

10 And will Counsel for the Department  
11 of Justice please note their appearance for the  
12 record.

13 MS. JAYARAMAN: Good morning. This  
14 is Tharuni Jayaraman on behalf of the United  
15 States.

16 MR. SHEEHY: And will any other  
17 Counsel for the Defendants please note their  
18 appearance for the record?

19 Okay. So, Ms. Newland, will you  
20 please swear in the witness?

21 \* \* \* \* \*

22

1 Whereupon,

2 KASSRA A.R. OSKOOII

3 was called as a witness and, having been first duly  
4 sworn, was examined and testified as follows:

5 EXAMINATION BY COUNSEL FOR DEFENDANTS

6 BY MR. SHEEHY:

7 Q Professor, good morning. Would you  
8 please say and spell your name for the record?

9 A Yes. Kassra, K-A-S-S-R-A, A. R.  
10 Oskooii, O-S-K-O-O-I-I.

11 Q Thank you, Professor.

12 And where do you reside, Professor?

13 A I reside in the state of Delaware, in  
14 the city of Wilmington.

15 Q Have you ever lived in Texas,  
16 Professor?

17 A No, I have not lived in Texas.

18 Q Okay. We are taking the deposition  
19 today by Zoom. I know that we have a stenographer  
20 and we also have a videographer. Is anybody else  
21 on Zoom recording this deposition in any way?

22 A Not to my knowledge, no.

1 MR. SHEEHY: Counsel for NAACP,  
2 anybody recording this deposition in any other way?

3 MR. GONZALEZ: No.

4 MR. SHEEHY: Counsel for the  
5 Department of Justice, anybody recording this  
6 deposition in any other way?

7 MS. JAYARAMAN: No, we are not.

8 MR. SHEEHY: Okay. Thank you.

9 BY MR. SHEEHY:

10 Q Professor Oskooii, I know that the  
11 Zoom has a mute function. I'm going to ask you not  
12 to use mute unless it is clear that we have gone  
13 off the record. Understood?

14 A Yes.

15 Q And one of the ground rules I'll get  
16 to, but I'll -- I'll just throw this one out there.  
17 Today we have a stenographer taking a verbatim  
18 transcription of our deposition today. This will  
19 require audible yes or no answers to my questions.

20 Do you understand?

21 A Yes.

22 Q Okay. We can't -- you know, in

1 normal conversation, especially because we see each  
2 other, we can nod our head yes and shake our head  
3 no, but for the court reporter, we'll need audible  
4 responses.

5 Sound fair?

6 A Sounds fair. And understood.

7 Q Excellent. Thank you.

8 And where are you taking this  
9 deposition right now?

10 A In my room.

11 Q Okay. Is anybody else in the room  
12 with you who is not on camera?

13 A No.

14 Q Do you have any applications open on  
15 your computer right now?

16 A I have Zoom open on my computer right  
17 now.

18 Q Okay. Do you have any other windows  
19 opened on your computer right now?

20 A Not -- not open on my computer on the  
21 screen, no.

22 Q Okay. Do you have any windows

1 available to you that you can click on right now?

2 A I have my e-mail for Safari that --  
3 that is open always in the background.

4 Q Is there -- so here's what I'm  
5 getting at, Professor, I don't want anybody to be  
6 able to communicate with you during this  
7 deposition, so I don't want any e-mail open --

8 A Okay.

9 Q -- any texting functions open. I  
10 just -- I don't want anybody to be able to  
11 communicate with you during the deposition.

12 A Sure.

13 Q Okay.

14 A The only reason that I had the e-mail  
15 open was just in case I get disconnected, I could  
16 access the link to get back in, but I can close  
17 that, if that's what --

18 Q Yes.

19 A I can definitely do that. There's  
20 nothing else that's open anyway, so let me -- give  
21 me a second to --

22 Q That sounds --

1 A -- also close all Safari windows.

2 Q That's fine. Thank you very much,  
3 Professor.

4 A Yeah, of course. No problem at all.  
5 So I did close the e-mail and Safari windows.

6 Q Okay. And the other question that I  
7 have is do you have any other functions on your  
8 computer that are open that if I asked you a  
9 question, you could quickly look it up or search  
10 the answer?

11 Are any of those functions available  
12 to you right now?

13 A No.

14 Q Okay. That's fine.

15 Do you have a phone or a tablet or  
16 any other device within eyesight that someone could  
17 use to communicate with you?

18 A I have my phone nearby on do not  
19 disturb and silent.

20 Q Okay. Do you mind turning your phone  
21 off during this deposition?

22 I don't want anyone being able to

1 send you a text message to coach you on your  
2 testimony today.

3 A Yeah, I mean do not disturb  
4 essentially means off. Nobody can reach me --

5 Q Okay.

6 A -- except in cases of emergency, in  
7 case, you know, my wife would --

8 Q Okay.

9 A -- need to reach me. That's why I  
10 have the do not disturb, but I -- I have it  
11 completely put away on this side. I can't even  
12 see. Only SOS, they could potentially reach me.

13 Q Okay. That's -- I'm fine with that.  
14 All right.

15 MR. SHEEHY: Let's go ahead and put  
16 his subpoena up.

17 BY MR. SHEEHY:

18 Q So, Professor Oskooii, I'm going to  
19 put in front of you here momentarily a copy of the  
20 subpoena in this case. And we're going to mark  
21 this as Oskooii Exhibit 1.

22

1 (OskooiiDeposition Exhibit Number 1  
2 marked for identification.)

3 THE WITNESS: Okay.

4 BY MR. SHEEHY:

5 Q Thank you.

6 Professor Oskooii, while we're  
7 putting the -- or getting the subpoena ready, have  
8 you ever had your deposition taken before?

9 A No.

10 Q This is the first time you've been  
11 deposed?

12 A Yes.

13 Q Okay. Well, I will be asking you  
14 questions today about the opinions you expressed in  
15 your report from January 13th, 2023. If at any  
16 time today my questions are unclear, please let me  
17 know and I can explain or rephrase the question.  
18 Sound fair?

19 A Sounds good.

20 Q I will say my one caveat to that is  
21 if you answer the question that I asked, I'm going  
22 to assume that you understood my question. Sound

1 fair?

2 A Sounds fair.

3 Q Okay. While I'm asking questions  
4 today, your attorney, Mr. Gonzalez, might object to  
5 my question, but you will still need to give an  
6 audible answer to the question. Those objections  
7 are preserved for a later time. Understood?

8 A Yes.

9 Q Okay. The only exception to this  
10 would be if Mr. Gonzalez instructs you not to  
11 answer a question on the basis of a privilege of  
12 some sort. Okay. Understood?

13 A Yes.

14 Q Okay. I don't -- I don't anticipate  
15 that happening today, but you never know.

16 Professor, just so you know, this --  
17 this is not a marathon. I don't intend to keep you  
18 sitting in that chair for hours on end. This is a  
19 civil action, so we'll try to keep it civil. So  
20 look, let me know if at any time today you need to  
21 take a break, stretch your legs, use the restroom.  
22 It's 11:00 a.m. on the east coast, if you need to

1 take a break for lunch, let me know. You know, I'm  
2 happy to accommodate. Understood?

3 A Yes. And thank you.

4 Q Thank you.

5 My only caveat to that would be if I  
6 ask you a question or if I'm in the middle of sort  
7 of similar questions, I'm just going to ask that  
8 you give an audible response to those questions  
9 before we go on the break.

10 Sound fair?

11 A Yes.

12 Q Okay. Okay. Do you understand that  
13 you're under oath today?

14 A Yes.

15 Q And do you understand that the oath  
16 you took has the same effect as if you were  
17 testifying in court?

18 A Yes.

19 Q Okay. Is there any reason that you  
20 can think of today that you would not be able to  
21 provide truthful answers to my questions?

22 A No.

1 Q How did you prepare for your  
2 deposition today?

3 A I looked over my report, the January,  
4 I believe, 13th report, the first report. And I  
5 also looked over my rebuttal report. And reviewed  
6 those two to try to refresh my memory of the  
7 opinions that I provided in those two reports. And  
8 I also met with the plaintiff attorneys. And those  
9 are the two -- two ways I prepared for the  
10 deposition.

11 MR. GONZALEZ: I'll just remind you  
12 to not share the substance of any of our  
13 conversations.

14 THE WITNESS: Understood.

15 MR. SHEEHY: Thank you, Mr. Gonzalez.  
16 I appreciate that.

17 BY MR. SHEEHY:

18 Q So, Professor, do you mind if we take  
19 a -- just a quick break? We just want to figure  
20 out the Exhibit Share real quick. I think it's  
21 probably a good stopping point before we go any  
22 further.

1 A No problem.

2 Q All right. Thank you, Professor.  
3 We'll -- we'll come right back.

4 VIDEOGRAPHER: We're going off the  
5 record. The time on the video is 11:14 a.m.

6 (Recess from 11:14 a.m. to 11:20 a.m.)

7 VIDEOGRAPHER: We're back on the  
8 record. The time on the video is 10:20 a.m. (sic).

9 BY MR. SHEEHY:

10 Q Thank you very much. And thank you  
11 for your patience, Professor Oskooii.

12 MR. GONZALEZ: Sorry, Counsel. When  
13 I click on the link in the chat it's saying  
14 "permission denied."

15 MR. SHEEHY: So I think, again,  
16 Mr. Gonzalez, what we're going to do is we're just  
17 going to share the screen, so you should be able to  
18 see Exhibit 1 up on the screen right now.

19 MR. GONZALEZ: I think we'd like a  
20 copy though of the exhibit as well.

21 MR. SHEEHY: Okay. We can -- we can  
22 try and send that around.

1                   TECH SUPPORT: You can just drop a  
2 PDF in the chat.

3                   MR. GONZALEZ: Yeah, that works, if  
4 you all want to drop a PDF in the chat. The link  
5 that Sharon just shared in the chat is working.

6                   MR. SHEEHY: Okay. So everybody has  
7 a copy of the -- of Exhibit 1?

8                   MR. GONZALEZ: I believe so, yes.

9                   MR. SHEEHY: Okay. Mr. Gonzalez,  
10 you're able to open that link to Exhibit 1?

11                   MR. GONZALEZ: Yes.

12                   MR. SHEEHY: Okay. Before I ask  
13 Professor Oskooii questions about Exhibit 1, I  
14 noticed additional people had joined, particularly  
15 from the Petteway Plaintiffs. Could Counsel for  
16 the Petteway Plaintiffs please state their name for  
17 the record?

18                   MS. REYES: Yes. Hi. Bernadette  
19 Reyes on behalf of the Petteway Plaintiffs.

20                   MS. COPPER: This is Alexandra Copper  
21 on behalf of the Petteway Plaintiffs.

22                   MR. SHEEHY: And did I see Michael

1 Rios join as well?

2 MR. RIOS: Yes. This is Mike Rios on  
3 behalf of the Petteway Plaintiffs.

4 MR. SHEEHY: And are you -- Mr. Rios,  
5 forgive me, are you an -- are you an attorney for  
6 the Petteway Plaintiffs?

7 MR. RIOS: I'm an expert.

8 MR. SHEEHY: Oh, okay. So you're  
9 Professor Rios, one of the experts for the Petteway  
10 Plaintiffs?

11 MR. RIOS: Right. Mr. Rios. Thank  
12 you.

13 MR. SHEEHY: Okay. Has anybody else  
14 joined who has not announced themselves for the  
15 record?

16 MS. CHEN: This is Sarah Chen for the  
17 Petteway Plaintiffs.

18 MR. SHEEHY: Good morning, Ms. Chen.

19 Anybody else?

20 All right.

21 BY MR. SHEEHY:

22 Q So, Professor Oskooii, we have

1 Exhibit 1 placed up on the screen for you. We can  
2 go ahead and scroll through that. This is a copy  
3 of your deposition notice in this case.

4 Have you reviewed this notice?

5 A Yes, I glanced at it, if memory  
6 recalls.

7 Q Did you review this notice in  
8 preparation for your deposition today?

9 A Not in great detail, no. I think I  
10 just glanced at it.

11 Q Okay. No, that's fine. I just  
12 wanted to make sure you received it.

13 A Yes, it was forwarded.

14 Q Okay. Before we went on break we  
15 were discussing how you prepared for your  
16 deposition today, correct?

17 A Yes.

18 Q And you said you reviewed your  
19 reports, your January 13th report. Is that  
20 correct?

21 A Yes.

22 Q And you said you reviewed your

1 April 4th rebuttal report. Is that correct?

2 A Yes.

3 Q And you said you met with your  
4 attorneys?

5 A Yes.

6 Q And who -- specifically which  
7 attorneys did you meet with?

8 And to put everybody at ease, please  
9 don't disclose the communications you had with  
10 those attorneys, I'm just asking you to tell me  
11 who -- which of the attorneys you met with.

12 A Sure. Mr. Gonzalez and Ms. Chen.

13 Q Approximately how long did you meet  
14 with Mr. Gonzalez and Ms. Chen?

15 A I would say about three and a half  
16 hours or so.

17 Q Okay. Have you -- when were you  
18 first retained in this case?

19 A I believe sometime, if I'm not  
20 mistaken, October, but I don't recall the exact  
21 time.

22 Q And that would be October of 2022 or

1 2021?

2 A 2022.

3 Q October 2022.

4 Since you were retained in October of  
5 2022, have you discussed the opinions expressed in  
6 your January 13th, 2023 report with anyone other  
7 than your attorneys?

8 A No.

9 Q You didn't discuss the opinions  
10 expressed in your January 2023 report with  
11 Professor Barreto?

12 A No.

13 Q You didn't express -- or you didn't  
14 discuss your opinions expressed in your  
15 January 2023 report with Professor Trounstine?

16 A No.

17 Q In preparing your January 13th, 2023  
18 report, did you have discussions with Professor  
19 Barreto?

20 A Could you clarify what you mean by  
21 discussions?

22 Q Well, I prefaced the question with --

1 and by the way, thank you. That's exactly the type  
2 of clarification I'm looking for.

3 I prefaced the question with in  
4 preparation for your report -- your January 13th,  
5 2023 report. So let me say it this way: As you  
6 were considering the opinions expressed in your  
7 January 13th, 2023 report, did you have discussions  
8 with Professor Barreto about those considerations?

9 MR. GONZALEZ: Objection. Form.

10 BY MR. SHEEHY:

11 Q You can answer, Professor.

12 A Sure. So the answer will be no to  
13 that question.

14 Q Okay. Between October of 2022, when  
15 you were retained, to the present, today, have you  
16 had discussions with Professor Barreto about this  
17 case?

18 A No, not that I recall. I did not  
19 have any discussions about the specifics of this  
20 case.

21 Q Did you have any discussions with  
22 Professor Barreto about this case generally?

1           A       I wouldn't call it discussion. I  
2 think we became both aware that we're both expert  
3 witnesses in this case, and that is all.

4           Q       How did you two become aware that you  
5 were experts in this case?

6           A       Dr. Barreto and I have worked on  
7 previous cases. He was also my graduate advisor.  
8 And since we have worked on previous cases and  
9 we're currently working on another case, we shared  
10 that information to make sure that if we are both  
11 expert witnesses in a case, so that we don't even  
12 accidentally talk about the details of that case.

13          Q       What is the other case that you and  
14 Professor Barreto are currently working on?

15          A       There is a case in Florida that we're  
16 currently working on.

17          Q       And what is the case name?

18          A       I would have to look at the specific  
19 names, but I believe it's Common Cause against -- I  
20 forget the -- the name of the specific party, but  
21 it's about the Florida's enacted congressional map.

22          Q       Between October of 2022 to the

1 present, did any of your discussions with Professor  
2 Barreto impact your analysis in your January 13th,  
3 2023 report?

4 A No.

5 Q Have you reviewed Professor Barreto's  
6 January 13th, 2023 report in this case?

7 A No.

8 Q Same question for Professor  
9 Trounstine. Do you know Professor Trounstine?

10 A I knew of her, yes.

11 Q Have you spoken with her between  
12 October 2022 and the present?

13 A No.

14 Q Have you corresponded with Professor  
15 Trounstine between October -- October 2022 and the  
16 present?

17 A No.

18 Q Okay. Have you spoken about this  
19 case other than your attorneys -- forgive me.

20 Have you spoken about this case with  
21 anyone other than your attorneys?

22 A I have not spoken about any specific

1 details of this case, but in the process of working  
2 on the other cases, I've been asked what cases I  
3 have worked on. And that is the extent to which I  
4 have communicated anything about this case.

5 Q Okay. Did you speak to anyone to  
6 obtain facts that you expressed in your expert  
7 report?

8 A Could you clarify again?

9 Are you drawing a distinction between  
10 plaintiff attorneys and all others who are not part  
11 of this case?

12 Q No, I'm not. I would include your  
13 attorneys in that question.

14 A I see. Understood.

15 As I mentioned in my reports, I  
16 obtained shapefiles for the demonstrative  
17 commissioner precinct maps. And I believe the  
18 other shapefiles from the attorneys. So that will  
19 be what one could consider information or facts  
20 that I received from the attorneys of the  
21 Plaintiffs.

22 Q And did any of your discussions with

1 anyone, including your attorneys, impact your  
2 assumptions that are in your report?

3 MR. GONZALEZ: And I'm just going to  
4 caution the witness, you know, as you just did with  
5 facts that were provided or if you adopted an  
6 opinion from the attorneys, you can disclose that,  
7 but you -- don't disclose any other substance of  
8 the conversations.

9 MR. SHEEHY: Thank you, Mr. Gonzalez.

10 THE WITNESS: Okay. So sorry, could  
11 you repeat that question once more -- one more time  
12 for me?

13 BY MR. SHEEHY:

14 Q Oh, of course. Of course.

15 In -- from October of 2022 to the  
16 present, have any discussions that you have had  
17 with anyone, including counsel, impacted your  
18 analysis or the opinions expressed in your  
19 January 13th, 2023 report?

20 A No. If you're asking if anything  
21 that they have said influenced my opinions, I would  
22 say no.

1 Q Okay. So you were retained in  
2 October of 2022, correct?

3 A I -- I believe around that time. I  
4 would have to go back and look at the retainer  
5 agreement that I signed to, but yeah, I believe  
6 that's accurate, or about, yeah.

7 Q When did you start working on your  
8 January 13th, 2023 report?

9 A I started working on the report after  
10 I was retained.

11 Q Okay. Did you start working in  
12 November of 2022?

13 A I believe I worked on and off  
14 throughout the time that I was retained all the way  
15 through when I submitted the report.

16 Q How many hours did you spend drafting  
17 your January 13th, 2023 report?

18 A I would have to look to see, but if I  
19 had to give you an estimate, I would say --  
20 including all the data collection analysis, not  
21 just the report writing, I would have to say about  
22 90 or so hours, but, you know, that's just an

1 estimate.

2 Q And where did you collect the data  
3 from?

4 A So I collected data from two primary  
5 sources. One was the redistricting hub that  
6 provides demographic and election data, which I  
7 reported in my January 13 report, and also data  
8 from the Texas Legislative Council Capitol Data  
9 Portal. And then as I mentioned previously, I also  
10 retained map shapefiles from the attorneys of  
11 Plaintiffs.

12 Q Okay. And what were you instructed  
13 to do in this case?

14 A I'm not sure "instructed" is perhaps  
15 the right way of saying. I was asked to examine  
16 whether racially polarized voting patterns exist in  
17 Galveston County such that Black and  
18 Latino/Hispanic voters are politically cohesive.

19 Q Were you asked to do anything else?

20 A And write a report against post  
21 analysis.

22 Q All right. Now, you also submitted a

1 rebuttal report in this case, correct?

2 A Yes.

3 Q And that rebuttal report is dated  
4 April 4th, 2023?

5 A I believe so. I'll have to take your  
6 word for it. Yeah, I don't recall the exact date,  
7 but it sounds right.

8 Q Okay. And I believe you submitted a  
9 corrected version of that report this morning. Is  
10 that correct?

11 A Yes.

12 Q In preparing that report, did you  
13 have any discussions with Plaintiffs' counsel?

14 MR. GONZALEZ: And, again, I'll  
15 caution the witness not to reveal the substance of  
16 the conversations.

17 THE WITNESS: I will have to say yes,  
18 especially in terms of the correction.

19 BY MR. SHEEHY:

20 Q Okay. So let's -- we'll break that  
21 up.

22 You filed a report on April 4th, so

1 that's your first rebuttal report, so let's just  
2 talk -- let's focus on that one for the moment.

3 In preparing that report, did you  
4 have discussions with counsel for the Plaintiffs?

5 MR. GONZALEZ: Again same caution.

6 THE WITNESS: Yes.

7 BY MR. SHEEHY:

8 Q And did those conversations with  
9 Plaintiffs' counsel communicate facts or data to  
10 you?

11 A No.

12 Q Did those conversations impact the  
13 assumptions that you expressed in your April 4th,  
14 2023 rebuttal report?

15 MR. GONZALEZ: Objection. Form.

16 BY MR. SHEEHY:

17 Q You can answer.

18 A Could you clarify the difference  
19 between opinion assumptions so I don't get confused  
20 by the question?

21 Q Certainly. And I think I -- perhaps  
22 I can just rephrase.

1                   Did the conversations with counsel in  
2 preparation for your April 4th, 2023 rebuttal  
3 report have any bearing on the substance of your  
4 report?

5                   A       No.

6                   Q       Okay.

7                   MR. GONZALEZ: I would object to the  
8 form.

9 BY MR. SHEEHY:

10                  Q       The -- your corrected report, you  
11 said you had -- you said especially for your  
12 corrected report, you had communications with  
13 counsel, correct?

14                  A       Well, insofar as identifying the  
15 correction.

16                  Q       And you identified the correction?

17                  A       Yes.

18                  Q       Was that the extent of your  
19 conversations with counsel about the April 4th,  
20 2023 corrected report?

21                  MR. GONZALEZ: I would, again,  
22 caution you to not reveal --

1 THE WITNESS: Yes.

2 MR. GONZALEZ: -- the substance.

3 BY MR. SHEEHY:

4 Q All right. So let's go back to your  
5 January 13th, 2023 report.

6 MR. SHEEHY: If we could go ahead and  
7 introduce that as an exhibit. We are going to mark  
8 this as Oskooii Exhibit 2.

9 (Oskooii Deposition Exhibit Number 2  
10 marked for identification.)

11 MR. SHEEHY: And if we could go to  
12 page 30, please. Or maybe a little -- a little bit  
13 more. The next page actually. Perfect.

14 BY MR. SHEEHY:

15 Q Professor Oskooii, is this -- is this  
16 your signature on your January 13th, 2023 report?

17 A Yes.

18 Q And we can go back to page -- I guess  
19 page 2, if we could, please. And is this -- I  
20 mean, we can -- we can scroll through it, but does  
21 this look like a true and accurate copy of your  
22 January 13, 2023 report?

1           A       Yes, it looks that way.

2           Q       Okay. We'll be going through it  
3 more, so if you see something that, you know, maybe  
4 you submitted another corrected report and I missed  
5 it, just let me know. Not -- I'm not here to trip  
6 you up.

7                   MR. GONZALEZ: Sorry to interrupt,  
8 Counsel, but we are -- we can view the exhibits,  
9 but we're not able to download them. And I think  
10 we want to get our --

11                   MR. SHEEHY: Yeah, that's fine.

12                   MR. GONZALEZ: -- own copy.

13                   MR. SHEEHY: Sure. Sure,  
14 Mr. Gonzalez, we can go ahead and send that to you.

15                   MR. GONZALEZ: Okay. Thank you.  
16 And, hey, Steven, the chat works if that's the  
17 easiest way.

18 BY MR. SHEEHY:

19           Q       You said you reviewed your  
20 January 13th, 2023 report in preparation for your  
21 deposition today?

22           A       Yes.

1 Q Okay. In reviewing the report, is  
2 there anything that you would add to it?

3 A No.

4 Q Is there anything that you would  
5 delete from that report?

6 MR. GONZALEZ: Objection. Form.

7 THE WITNESS: Not that I can think  
8 of, no.

9 BY MR. SHEEHY:

10 Q Setting aside your April 4th, 2023  
11 rebuttal report, is it your testimony that the  
12 January 13th, 2023 report represents all of the  
13 opinions you intend to express in this case?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: So I can answer that,  
16 correct?

17 MR. SHEEHY: Yes. Yes.

18 MR. GONZALEZ: Yes, go ahead if you  
19 understood.

20 THE WITNESS: I would say all of the  
21 opinions based on the facts and information that  
22 were known to me when I submitted that report are

1 known to me currently. But should any additional  
2 information come to light that I was not aware of,  
3 I reserve the right to supplement the opinions  
4 provided in that January 13 report.

5 BY MR. SHEEHY:

6 Q Okay. So absent -- absent any  
7 additional facts that would impact your racial --  
8 racially polarized voting analysis, the  
9 January 13th, 2023 report contains all of the  
10 opinions you intend to express in this case?

11 MR. GONZALEZ: Objection to form.

12 You can answer.

13 THE WITNESS: Sure.

14 Absent any additional information  
15 or facts, yes, this -- these would be my  
16 opinions.

17 BY MR. SHEEHY:

18 Q And should any additional facts come  
19 to light, would you intend to submit an additional  
20 expert report?

21 MR. GONZALEZ: I'll object to form.

22 You can answer.

1 MR. SHEEHY: Yeah. And thank you,  
2 Mr. Gonzalez. I'll -- I'll just rephrase that  
3 question.

4 BY MR. SHEEHY:

5 Q Should additional facts come to light  
6 in this case that impacts your racially polarized  
7 voting analysis, would you submit an additional  
8 expert report to account for those facts?

9 A So you would -- you would like me to  
10 speculate on whether I would do something in the  
11 future?

12 Q Well, you're telling me that you  
13 reserve the right to express additional opinions  
14 should additional facts come to light, correct?

15 A Yes, I reserve the right. Yes.

16 Q And I guess I'm asking, will you put  
17 those -- should additional facts come to light,  
18 will you express any additional opinions in a  
19 subsequent report?

20 A I guess it depends on what sort of  
21 information come to -- comes to light. That would  
22 be my answer.

1 Q Well, if the information that comes  
2 to light impacts your racially polarized voting  
3 analysis --

4 A Uh-huh.

5 Q -- will you submit an additional  
6 report that contains your additional opinions to  
7 account for those new facts?

8 A I would say yes, I would be inclined  
9 to account for additional facts that may  
10 potentially impact the overall analysis or opinions  
11 that I provided.

12 Q In a written report?

13 A If that's allowed -- if I'm allowed  
14 to provide a written report, yes, that's -- that  
15 would be a preferable form.

16 Q If we don't receive a subsequent  
17 written report from you, are the opinions expressed  
18 in your January 13th, 2023 report all the opinions  
19 you intend to express in this case?

20 A If you could please clarify the  
21 April 4th rebuttal report is also included in this  
22 equation.

1 Q Yes. So I'll make it very clear.

2 If we do not receive an additional  
3 written report from you, are the opinions expressed  
4 in your January 13th, 2023 report and the opinions  
5 expressed in your April -- corrected April 4th,  
6 2023 report, all the opinions you intend to express  
7 in this case?

8 A Yes.

9 MR. GONZALEZ: Objection. Form.

10 BY MR. SHEEHY:

11 Q And your answer to the --

12 A Yes.

13 Q -- question is yes?

14 Okay. Thank you.

15 Going back to the January 13th, 2023  
16 report, is the CV contained in Exhibit A, your  
17 curriculum vitae, is that current still?

18 A That curriculum vitae, CV, is current  
19 at the -- as of the time that I submitted the  
20 January 13th report.

21 Q Since January 13th, 2023, have you  
22 been published?

1 Or let me rephrase.

2 Since January 13th, 2023, have you  
3 published any additional articles that are not  
4 reflected in your curriculum vitae?

5 A Could you please show me that  
6 curriculum vitae so I can compare and contrast in  
7 my mind since -- since that time? Sorry.

8 Q No, that's fine. We want a clear  
9 record, so we're happy -- happy to pull up your  
10 curriculum vitae. We'll just scroll on through  
11 here.

12 A Thank you.

13 Q There you go.

14 A So could you go to -- down lower to  
15 the list of publications --

16 Q Of course.

17 A -- peer review?

18 Okay. If you could go up, sorry, go  
19 up, yeah. I guess at this point I would say the  
20 latest version of my CV is on my website, if -- if  
21 you wish to download that. It's publicly  
22 available.

1                   Based on the peer review journal  
2                   publication, I don't recall any additions since  
3                   January 13th. However, if you go further lower,  
4                   please, if you can keep going to -- there should be  
5                   a section on book chapters or encyclopedic. Yeah.

6                   There was a -- there is an addition,  
7                   it's a forthcoming piece, so it's going through  
8                   production, an encyclopedic entry that I was  
9                   notified recently that is going to be published.  
10                  So that would be another addition. And I'm sure  
11                  there are other potential changes/additions that  
12                  are reflected on my current CV on my website.

13                  Q        Did you -- is -- okay.

14                                So the additional articles would be  
15                                reflected on the CV on your website?

16                  A        Yes.

17                  Q        Okay. That's fine.

18                                Since January 13th, 2023, have you  
19                                submitted any expert reports in any additional  
20                                litigation?

21                  A        Yes.

22                  Q        Okay. And what -- what is the case

1 name?

2 A Again, it's tough to -- tough to  
3 recall the case -- case names precisely, but one of  
4 them is the case I previously mentioned in Florida,  
5 in which I submitted -- submitted an expert report  
6 with Dr. Barreto as co-expert witnesses.

7 And then I believe I submitted, I  
8 believe, either a report and/or rebuttal and report  
9 in a Washington State case that I shared with you  
10 in my January 13th report. If you bring that up,  
11 that section, that -- that would be one.

12 And then I submitted an expert report  
13 in the state of Maryland in a case, I believe it's  
14 the NAACP Chapter of Maryland against the Town of  
15 Federalsburg.

16 But those are the things that I can  
17 recall off the top of my head. I would have to  
18 take a more detailed look to give you a  
19 comprehensive list. But I believe those are it,  
20 but I will have to check again.

21 Q The Common Cause case involving the  
22 Florida congressional map, do you recall

1 approximately when you submitted that report?

2 A Gosh, maybe two, three weeks ago. It  
3 was very recent, I would say.

4 Q Okay. In the case in Washington  
5 State, approximately when did you submit that  
6 report?

7 A On the top of my head, I can't recall  
8 the time frame given that there -- I work on these  
9 different cases. I don't want to mix up the time  
10 frames. But I don't recall when I submitted the  
11 main report, but the rebuttal report, I submitted  
12 sometime in March, I believe. Yeah.

13 Q And the NAACP v., did you say, Town  
14 of Federalsburg?

15 A Federalsburg.

16 Q Federalsburg.

17 Okay. When did you submit that  
18 report?

19 A I believe it was sometime in March,  
20 and possibly very early April.

21 Q And the NAACP v. Town of  
22 Federalsburg, is that -- is that a federal court

1 case?

2 A I -- I believe so, but I'll have to  
3 look at the details.

4 Q Okay. But would that be reflected in  
5 your current curriculum vitae on your website?

6 A If we can look at the curriculum  
7 vitae together, I could verify that.

8 Q On -- on your website?

9 A Yes. If we -- I will have to look at  
10 it to make sure to give you an accurate response.  
11 Would you be able to pull that up?

12 Q No, that's all right. I think -- you  
13 know, what I'll do is I'll go check your website,  
14 you know, maybe later today or tomorrow. If I  
15 don't -- if I don't see it, I'll -- I'll look into  
16 it. No -- no worries.

17 A Sounds good.

18 Q In these other cases, so the NAACP v.  
19 Town of Federalsburg, for example, have you  
20 testified -- well, have you given oral testimony in  
21 that case?

22 A No, I have not.

1 Q Okay. In the Washington State  
2 litigation, have you given oral testimony in that  
3 case?

4 A No, I have not.

5 Q And in the Common Cause litigation in  
6 Florida involving the congressional maps, have you  
7 given oral testimony in that case?

8 A No.

9 Q You testified earlier that you spent  
10 approximately 90 hours preparing your January 13th,  
11 2023 report, correct?

12 A Approximately, yes.

13 Q How much time did you spend drafting  
14 your April 4th, 2023 report?

15 A I would have to -- I would have to  
16 look at the time sheet to be able to give you an  
17 accurate response.

18 Q Would you say that it was more than  
19 ten hours you spent drafting the April 4th, 2023  
20 report?

21 A Again, I would -- I would like to  
22 give you an accurate response, so I guess if you

1 can take an estimate, I would say I think it was  
2 more than ten hours.

3 Q Okay. So I'm fine taking an  
4 estimate. I mean, we're saying approximately 90  
5 hours for your January 13th report. What would you  
6 estimate you spent on the April 4th, 2023 report?

7 MR. GONZALEZ: Objection. Form.

8 THE WITNESS: I'm -- I would say  
9 anywhere from 15 to 20-ish hours would be -- would  
10 be my estimate.

11 BY MR. SHEEHY:

12 Q Okay. And in preparation for your  
13 deposition today, you reviewed your April 4th, 2023  
14 report?

15 A Yes.

16 Q And we're referring to your corrected  
17 April 4th, 2023 report, just to be clear. You  
18 understand that?

19 MR. GONZALEZ: Objection. Form.

20 THE WITNESS: Well, I reviewed the  
21 original report and then obviously I'm aware of the  
22 correction.

1 BY MR. SHEEHY:

2 Q Okay. So just to be clear, you're  
3 estimating you spent 15 to 20 hours total in  
4 preparing the April 4th, 2023 rebuttal report and  
5 the correction?

6 A That's the estimate.

7 Q That's the estimate. Okay.

8 A Yes. Yes.

9 Q Okay. In reviewing your April 4th,  
10 2023 corrected report, is there anything else that  
11 you would like to correct?

12 MR. GONZALEZ: Objection. Form.

13 THE WITNESS: Not at this moment.  
14 Nothing comes to mind.

15 BY MR. SHEEHY:

16 Q Is there anything that you would like  
17 delete?

18 MR. GONZALEZ: Objection. Form.

19 THE WITNESS: No.

20 BY MR. SHEEHY:

21 Q Is there anything that you want to  
22 add to your April 4th, 2023 report?

1 MR. GONZALEZ: Objection. Form.

2 THE WITNESS: Besides the correction,  
3 no.

4 BY MR. SHEEHY:

5 Q We've spoken about a couple of cases  
6 that you're involved in. The congressional case in  
7 Florida, Common Cause, is that a Voting Rights Act  
8 challenge?

9 A It pertains to that --

10 Q The expert report --

11 A -- yes.

12 Q -- that you submitted in Common Cause  
13 regarding the Florida congressional districts, did  
14 you do a racially polarized voting analysis?

15 A (Moving head up and down.)

16 Q I need an --

17 A Yes.

18 Q -- audible --

19 A Yes.

20 Q Okay. The NAACP of Maryland v.  
21 Federalburg case, did you do a racial polarized  
22 voting analysis?

1 A Yes.

2 Q And in the Washington State  
3 litigation, did you do a racially polarized voting  
4 analysis?

5 A No.

6 Q What analysis did you do in the  
7 Washington State litigation?

8 A It was a survey -- a study that I  
9 conducted. And it was a survey data analysis.

10 Q Regarding -- what was the survey  
11 regarding?

12 A Generally it was regarding the  
13 acceptance or rejection of ballot signatures.

14 Q Okay. And was that a Section 2  
15 Voting Rights Act case?

16 A No, not that I recall, that it would  
17 fall under that precisely, but I'm not 100 percent  
18 sure.

19 Q You don't recall what the claims are  
20 in the Washington State litigation?

21 A I'm not -- I guess I'm not sure what  
22 all the claims necessarily are. I was just asked

1 to examine perhaps one portion of the claim.

2 Q Okay. And what was that claim?

3 MR. GONZALEZ: Objection. Form.

4 THE WITNESS: Whether certain  
5 signatures of certain demographic groups are being  
6 rejected at higher rates.

7 BY MR. SHEEHY:

8 Q Higher rates than?

9 A Other demographic groups.

10 Q Okay. Approximately how many times  
11 have you served as an expert witness in cases  
12 involving Voting Rights Act challenges?

13 A I would have to, again, look at my  
14 updated CV to be able to provide an accurate  
15 answer.

16 Q Well, again, we can do approximate.  
17 Approximately, how many cases have  
18 you served as an expert witness in cases involving  
19 Voting Rights Act challenges?

20 A Could you please clarify what you  
21 mean by "expert witness"?

22 Does that mean that I was a

1           testifying expert or that I wrote the report or  
2           wrote -- wrote -- wrote then report with another  
3           expert?

4                   Q       Let's go with written report.

5                            So how many times --

6                   A       Okay.

7                   Q       -- have you authored or co-authored  
8           an expert report in cases involving Voting Rights  
9           Act challenges?

10                   A       Again, it's difficult off memory, but  
11           if -- you know, if an estimate suffices, I would  
12           say between three to five.

13                   Q       Okay. Between three and five.

14                            And in those cases, the three to five  
15           cases, did you conduct racially polarized analysis  
16           in each case?

17                   A       Again, I would have to look at all  
18           those cases and review -- review. But to answer  
19           your question more -- more generally, it is not the  
20           case that in every single case that I worked on  
21           I've conducted racially polarized voting analysis.

22                   Q       Well, in the three to five cases

1 where you've offered expert reports in -- in Voting  
2 Rights Act challenges, did you conduct racially  
3 polarized voting analysis in those cases?

4 A If there was a Section 2 claim, then  
5 yes, I conducted racially polarized voting  
6 analysis.

7 Q And in those cases that you've  
8 conducted racially polarized voting analysis -- let  
9 me rephrase.

10 In any of those cases that you've  
11 conducted racially polarized voting analysis, did  
12 you conclude that racially polarized voting did not  
13 exist?

14 A Just to clarify. In the cases that a  
15 report was written, correct?

16 Q Yes.

17 A Not in any cases where I provided  
18 consulting expertise, but a report was not given?

19 Q Sorry. Were you just asking me a  
20 clarifying question or was that an answer?

21 A Yes.

22 Q You were asking me a clarifying

1 question?

2 A Yes.

3 Q Okay. So let me rephrase the  
4 question.

5 In the three to five cases where you  
6 authored or co-authored an expert report in a case  
7 challenging -- or in a case brought under the  
8 Voting Rights Act, have you concluded in any one of  
9 those case that racially polarized voting did not  
10 exist?

11 A Based on the data that I analyzed in  
12 those select few cases, no, I did find that  
13 racially polarized voting exists.

14 Q And in cases where you were  
15 consulting, approximately, how many cases were you  
16 serving as a consultant?

17 A Again, it would be an approximation.  
18 And some of them were not cases that were brought  
19 necessarily. But, you know, I have conducted  
20 racially polarized voting for a long time now,  
21 whether it's for, you know, research or, you know,  
22 various groups asking me to conduct and provide

1           them an answer of whether racially polarized voting  
2           exists or not in the jurisdiction that they're  
3           interested in.

4           Q       Okay.  When you say that you were  
5           serving as a consultant, were you a -- I guess,  
6           the -- are you familiar with the term  
7           "non-testifying expert"?

8           A       I think I've heard of it.

9           Q       Is that where you were hired as a  
10          consultant to serve as a non-testifying expert?

11          Is what you're referring -- when you  
12          say you were a consultant, would that be synonymous  
13          with non-testifying expert?

14          A       I'm not sure if -- if they  
15          specifically stated that or put that in writing.  
16          But basically what I mean by consultant, is, you  
17          know, someone pays you a fee to do a certain job or  
18          answer, in this particular case -- in this case  
19          that we're talking about, instances we're talking  
20          about, to provide racially polarized voting  
21          analysis in the jurisdiction that they're  
22          interested in.

1 Q And in your consulting experience,  
2 have you concluded for any consulting client that  
3 racially polarized voting did not exist?

4 A Yes, I have concluded that racially  
5 polarized voting did not exist.

6 Q And what -- could you give us an  
7 example of which jurisdiction you analyzed did not  
8 have racially polarized voting?

9 A I guess the trouble is I'm not sure I  
10 can disclose specific information in terms of  
11 confidentiality that I may have signed that I don't  
12 recall. But are you asking just very generally in  
13 certain states where I found a lack of racially  
14 polarized voting?

15 Q Yeah. If you analyzed the state as a  
16 whole, yes. You know, that's -- that's fine, but  
17 also if you analyzed a segment of the state, you  
18 know, locality, I would want that as well.

19 A I would say, for instance, I analyzed  
20 a county in the state of New York for which I  
21 concluded that there's not a -- there's no -- that  
22 there is racially polarized voting.

1 Q You analyzed a county in New York and  
2 concluded that there was not racially polarized  
3 voting?

4 A Correct.

5 Q Okay. Any other examples where you  
6 concluded that there was no racially polarized  
7 voting?

8 A I would say yes. There was also in  
9 Maryland that I -- there were certain areas in  
10 Maryland where I concluded there's no racially  
11 polarized voting.

12 Q What area in Maryland?

13 A I think it was a -- it was a  
14 county -- yeah, it was a county-level analysis of  
15 the eastern side of Maryland.

16 Q Is that St. Mary's County?

17 A I don't recall the specific county at  
18 this moment. It was a while back.

19 Q Any other examples?

20 A I mean, throughout my research, and I  
21 published two papers on racially polarized voting  
22 methods, there have been plenty of instances in

1 which I found no racially polarized voting.

2 Q But in your consulting experience,  
3 you have given me two examples. Are there any  
4 other examples?

5 A I would have to look back, because  
6 you asked me to estimate and so, you know, I'm  
7 focused on this particular case. So I didn't come  
8 into this deposition reviewing all of the other  
9 consulting cases that I've done over -- over an  
10 extended period of time, so I wouldn't be able to  
11 give you an accurate answer on this unless I review  
12 those activities.

13 Q Are your consulting clients, are they  
14 listed on your curriculum vitae?

15 A I don't recall. I don't think all of  
16 the consulting experience has specifically been  
17 listed.

18 Q Okay. We can -- we can look into  
19 that.

20 So let's talk about this case, the  
21 Galveston County Commissioners Court. The  
22 commissioners -- how many commissioners are there

1 on the Galveston County Commissioners Court?

2 A I'm sorry, what -- what is the -- the  
3 question is about this particular case?

4 Q Yes.

5 A We're talking about commissioner  
6 precincts?

7 Q How many commissioners sit on the  
8 Galveston County Commissioners Court?

9 A I did not analyze the commissioner  
10 court elections, if that's what you're asking.

11 Q That's not what I'm asking. I'm  
12 asking how many commissioners sit on the Galveston  
13 County Commissioners Court?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: I would have to look  
16 specifically since that was not something that I  
17 focused on, but there are four commissioner --  
18 commissioner precincts in Galveston County.

19 BY MR. SHEEHY:

20 Q And those commissioner precincts --

21 A Uh-huh.

22 Q -- the commissioners run in those

1 districts, correct?

2 They run for election in those four  
3 districts, correct?

4 A Yes. It's the -- yes, they run in  
5 each commissioner precinct.

6 Q They are not at-large elections?

7 A No, they're -- they're not at-large  
8 elections.

9 Q All right. So I want to talk about  
10 your conclusions in your report for today -- or in  
11 your January 13th, 2023 report.

12 You conclude that Latino voters and  
13 African-American voters in Galveston County vote  
14 cohesively, correct?

15 A Yes.

16 Q So I want to understand what -- at  
17 what level cohesiveness occurs. So let me ask you  
18 this: If Latino voters voted 50 percent for a  
19 republican and if Latino voters voted 50 percent  
20 for a democrat, you would agree with me that  
21 there's no cohesion among Latinos, correct?

22 MR. GONZALEZ: Objection. Form.

1 THE WITNESS: Are you asking a  
2 hypothetical question if there was a situation  
3 which there was 50/50 --

4 BY MR. SHEEHY:

5 Q Yes.

6 A -- tie?

7 Q Yes.

8 I'm -- as I said, I'm trying to  
9 understand what cohesion is.

10 A Would you like me to define what  
11 cohesion is or what --

12 Q Well, I'd like -- I'd you to just  
13 answer my question.

14 If Latino voters vote 50 percent for  
15 republicans and 50 percent for democrats, you would  
16 agree with me that that's not cohesion, correct?

17 MR. GONZALEZ: Objection. Form.

18 THE WITNESS: If you have a scenario  
19 in which 50 percent of Latinos vote for one  
20 Candidate A and 50 percent vote for Candidate B, we  
21 would note have a preferred candidate that could  
22 identify.

1 BY MR. SHEEHY:

2 Q Okay. And you would also agree that  
3 there would be no cohesion in that instance among  
4 Latino voters?

5 MR. GONZALEZ: Objection. Form.

6 THE WITNESS: Well, I guess maybe the  
7 way you're -- you're characterizing the question  
8 that is a little bit confusing to me. When you  
9 look at cohesion, you don't just look at one  
10 election, you look at a series of elections to  
11 determine if a group is cohesive or not. Maybe  
12 that's the misunderstanding here.

13 BY MR. SHEEHY:

14 Q Okay. So let's say a series of  
15 elections, series of elections show that 50 percent  
16 of Latinos vote republican and 50 percent of  
17 Latinos vote democrat, you would agree with me that  
18 that's not cohesive, correct?

19 MR. GONZALEZ: Objection. Form.

20 THE WITNESS: In a hypothetical  
21 scenario in which there would be a perfect 50/50  
22 tie across a series of elections, then one could

1 not determine which candidate, regardless of their  
2 partisan identity label, is the preferred candidate  
3 of Latinos.

4 BY MR. SHEEHY:

5 Q And so there would be no cohesion  
6 among Latino voters in this hypothetical?

7 A In this hypothetical, in which say we  
8 only analyze five elections or ten elections, and  
9 every single election was 50/50, then one could not  
10 necessarily conclude that there was a preferred  
11 candidate, yes.

12 Q Okay. So -- so same question --

13 A Uh-huh.

14 Q -- but we'll say in a series of  
15 elections, Latinos voted 55 percent for one  
16 candidate and 45 percent for another candidate.  
17 Would you conclude that there is cohesion there?

18 MR. GONZALEZ: Objection. Form.

19 BY MR. SHEEHY:

20 Q And, again, would you conclude that  
21 there's cohesion among Latino voters in a 55/45  
22 split?

1           A       In an analysis of racially polarized  
2           voting, you also have to look at the vote choice of  
3           the majority group population, and also conduct  
4           performance analysis to see which candidates emerge  
5           in the subject jurisdiction.

6                        In a case of, as you described, the  
7           majority of Latinos vote for, let's say, Candidate  
8           A and a minority vote for B, you would say that  
9           they have a preferred candidate.

10           Q        Even though 45 percent don't prefer  
11           that candidate in a series of elections?

12           A        Yeah, that -- again, the majority  
13           prefer -- have the preference, the majority of  
14           Latinos are voting for certain candidates.

15           Q        So let's go back to -- go a little  
16           lower then. So at -- if Latinos vote for one  
17           candidate at 51 percent and Latinos vote for  
18           another candidate at 49 percent, would you agree  
19           with me that there is no cohesion in those series  
20           of elections among Latinos?

21                       MR. GONZALEZ: Objection. Form.

22                       THE WITNESS: So in a hypothetical

1 scenario in which you analyze a number of elections  
2 and you would have across all those elections, the  
3 majority of Latinos vote for candidates starting  
4 with name A and minority vote for candidates that  
5 starts with, say, candidate named B, in that  
6 scenario, you would be able to say that Latinos  
7 have preferred candidates across all those series  
8 of elections.

9 BY MR. SHEEHY:

10 Q And so you would say that there is  
11 cohesion among Latino voters even at 51/49 across a  
12 series of elections?

13 MR. GONZALEZ: Objection. Form.

14 THE WITNESS: Again, when it comes to  
15 racially polarized analysis, there are other  
16 factors involved in such as the vote choice of  
17 minority -- a majority group and also the outcomes  
18 of elections. Just, generally speaking, in  
19 American elections, we have a polarity system in  
20 many elections in which if you get even one vote  
21 more than the other candidate, you win the  
22 election. It doesn't have to be majority. And in

1 some cases, if you get the majority of votes, which  
2 would be greater than 50 percent, that candidate  
3 wins.

4 So by wins and losses, whether  
5 people are getting elected or not, you will  
6 conclude, based off what you described, that  
7 Latinos have a preferred candidate consistently  
8 across a series of elections because, again, the  
9 majority are voting for a certain type of  
10 candidates.

11 BY MR. SHEEHY:

12 Q So I understand that there is  
13 racially polarized voting, there's kind of two  
14 steps of analysis. There's the are the minority  
15 voters cohesive in their voting choices, and then  
16 the next question is, are the majority voters  
17 voting consistently as a bloc to prevent the  
18 minority candidate of choice.

19 That's racially polarized voting  
20 analysis, correct?

21 A I would agree with that.

22 Q Okay. So I'm talking about just

1 simply the first prong of that, whether or not  
2 minority candidates -- I'm sorry, whether or not  
3 minority voters are voting cohesively. And I'm  
4 just -- I'm just looking at that.

5 So my question to you is, is if  
6 across a series of elections, Latino voters are  
7 voting 51 percent for Candidate A and Latino voters  
8 are voting 49 percent for Candidate B, is it your  
9 position that Latinos are voting cohesively?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: So far as political  
12 cohesion means that minorities prefer the same  
13 candidates across these elections, you would  
14 conclude, based on your own description, that  
15 Latinos prefer the same set of candidates, because  
16 the majority of them, in this particular instance  
17 51 percent, consistently voted for those same type  
18 of candidates.

19 BY MR. SHEEHY:

20 Q Is it your position that to define  
21 cohesion as minority voters voting consistently  
22 across elections at 60 percent for candidates, is

1 that too high to establish cohesion?

2 MR. GONZALEZ: Objection. Form.

3 THE WITNESS: If you can clarify what  
4 you mean by "too high."

5 BY MR. SHEEHY:

6 Q Well, you're saying that 51 percent  
7 is sufficient to establish cohesion. And I'm  
8 wondering is a 60 percent threshold too high in  
9 your opinion?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: To clarify, I just  
12 responded to your hypothetical questions of whether  
13 minorities, in this case Latinos, as you mentioned,  
14 would win across -- or would have a certain type of  
15 preferred candidate across a number of elections.  
16 And in that instance, I said that they do have a  
17 preference. But if you're asking me just about one  
18 single instance rather than a pattern, that's a  
19 different question.

20 BY MR. SHEEHY:

21 Q Okay. So in a single election, would  
22 you say that if Latino voters voted 51 percent for

1 one candidate and 49 percent for another candidate,  
2 would you say that in that election, Latinos were  
3 cohesive?

4 MR. GONZALEZ: Objection. Form.

5 THE WITNESS: Again, for RPV  
6 analysis, we don't just look at one election. You  
7 look at, as you're well aware, across a number of  
8 elections to determine if a minority group has a  
9 preferred candidates or votes in similar fashion.

10 BY MR. SHEEHY:

11 Q So I'm just asking in that one  
12 election, would you say that Latino voters are  
13 cohesive when they're split 51/49?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: I would say that they  
16 have -- they have shown that they preferred one  
17 candidate over another. The majority of them have  
18 shown that.

19 BY MR. SHEEHY:

20 Q And when you say "preferred one  
21 candidate over another," is that the same thing as  
22 saying they're cohesive in that election?

1           A       Again, cohesion in Section 2 claims  
2           is typically looking at a number of elections, not  
3           just that one -- one singular election to -- to  
4           examine patterns.

5           Q       Right. I understand that.

6                    I'm just asking though would you  
7           characterize that election at 51/49 as Latinos  
8           exhibiting cohesion?

9                    MR. GONZALEZ: Objection. Form.

10                   THE WITNESS: Generally speaking, you  
11           would say that Latinos have a preferred candidate  
12           in that singular election.

13           BY MR. SHEEHY:

14           Q       If there were three elections where  
15           Latino candidates voted 51 percent for one  
16           candidate and 49 percent for another candidate,  
17           would you say that Latinos are cohesive?

18                    MR. GONZALEZ: Again, objection.

19           Form.

20                    THE WITNESS: I'm -- I'm just not  
21           sure I'm understanding the question. There's not a  
22           bright-line rule of like -- like one or two or

1 three elections, or I -- I conducted 25 general  
2 election analyses in this particular case, since  
3 we're talking about Galveston. And in all 25  
4 elections, I found that Black and Latinos have --  
5 they favor a set of candidates that Anglo voters  
6 disfavor.

7 BY MR. SHEEHY:

8 Q And we'll -- we'll get to the  
9 analysis in your report. I'm just still trying to  
10 understand what the threshold is for determining  
11 cohesion in my example among Latino voters.

12 MR. GONZALEZ: Objection. Form.

13 THE WITNESS: If you're trying to  
14 determine which candidates are preferred in  
15 elections in which you have only two candidates  
16 where you're analyzing the two top candidates, you  
17 would look at one -- one way to look at is that  
18 simple majority or the majority, which is  
19 51 percent, to get an indication of whether any  
20 demographic group has a set of preferred  
21 candidates.  
22

1 BY MR. SHEEHY:

2 Q And so would you disagree with a  
3 threshold of cohesion at 60 percent, so across a  
4 series of elections if Latinos are voting  
5 59 percent for one candidate and they're voting  
6 41 percent for another candidate, and someone says,  
7 "Well, that's below a 60 percent threshold, there's  
8 no cohesion," would you agree or disagree with that  
9 assessment?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: I would disagree that  
12 there is a bright-line rule of establishing a  
13 specific percentage and saying you have to have  
14 that specific percentage for us to say that you --  
15 that a group has a preferred candidate.

16 BY MR. SHEEHY:

17 Q So for you, cohesion could be as low  
18 as 51 percent -- well, I guess it could be as low  
19 as 50.1 percent across a series of elections,  
20 correct?

21 MR. GONZALEZ: Objection. Form.

22 THE WITNESS: I don't think I've ever

1 encountered a scenario that I found across a  
2 comprehensive list of elections that every single  
3 time one group voted 50.1 percent. So you're  
4 describing a rare hypothetical scenario here.

5 BY MR. SHEEHY:

6 Q Well, I'm -- I'm providing a  
7 hypothetical because I want to understand what the  
8 threshold is for establishing cohesion in your  
9 opinion. And so if it's across a series of  
10 elections and Latinos vote 50.1 percent for  
11 Candidate A and 49.9 percent for Candidate B, you  
12 would say that Latinos are voting cohesively?

13 MR. GONZALEZ: Objection. Form.

14 THE WITNESS: My understanding is  
15 that there's no bright-line rule in determining  
16 cohesiveness. That's up to the courts to decide,  
17 if they want to establish a bright-line rule. My  
18 understanding is that such a bright-line rule does  
19 not exist. But for all intents and purposes,  
20 generally speaking, if the majority of a  
21 demographic group prefers a set of candidates and a  
22 minority of them do not, you would potentially,

1           depending on the circumstances, conclude that they  
2           are politically cohesive.

3           BY MR. SHEEHY:

4                       Q       Okay. So it -- it's your opinion  
5           that across a series of elections, Latinos who vote  
6           50.1 percent for Candidate A and Latinos vote  
7           49.9 percent for Candidate B, they are cohesive?

8                       MR. GONZALEZ: Objection. Form.

9                       THE WITNESS: This is a very  
10          hypothetical, in some ways a very unrealistic,  
11          outcome that you're describing. In this case, you  
12          would still say that the majority of Latinos have a  
13          preferred candidate.

14          BY MR. SHEEHY:

15                      Q       Is that a yes to my question, that  
16          there are -- Latinos are cohesive at 50.1 percent  
17          across a series of elections?

18                      A       Again, this is a hypothetical  
19          scenario. If you're asking if they have a -- if  
20          you could establish that they have a preferred  
21          candidate, you could look at the majority as a  
22          threshold potentially to determine if they have a

1 preferred candidate.

2 Again, there's not bright-line rule.  
3 There are many different circumstances and context.  
4 You have to look at the overall picture to be able  
5 to make conclusions about racially polarized  
6 voting.

7 Q So I understand that there's no -- I  
8 understand it's your testimony there's no  
9 bright-line rule, but I guess I'm asking you for  
10 your opinion in the hypothetical that I'm giving  
11 you, would you say that Latinos voting 50.1 percent  
12 for Candidate A and 49.9 percent for Candidate B  
13 are voting cohesively?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: In a singular election,  
16 it would be hard to conclude anything in a singular  
17 election.

18 BY MR. SHEEHY:

19 Q And so I'm asking you across a series  
20 of elections.

21 A In an extremely rare, totally  
22 hypothetical situation, across a series of

1 elections, depending on the circumstances, one  
2 could say that Latinos have a preferred set of  
3 candidates. Again, this is highly unlikely that  
4 you will find something like that. And this is not  
5 what I found in Galveston.

6 Q That's fine. As I say, we will  
7 get -- get to your analysis. I'm trying to just  
8 understand what your opinion of cohesion is. And  
9 so I want to make sure that I understand when you  
10 say across a series of elections, Latinos are  
11 voting 50.1 percent for certain candidates, you're  
12 saying that yes, they do have a preferred candidate  
13 of choice, or candidates of choice.

14 My question to you now is: Does --  
15 when you say "preferred candidates of choice," you  
16 agree that that means they are cohesive?

17 A I would look at a series of elections  
18 to determine which candidates are the preferred  
19 candidates of choice. And based on a series of  
20 elections that I've done in Galveston, I find that  
21 in 25 out of 25 elections, Latinos have a preferred  
22 candidate and, therefore, are politically cohesive.

1                   Q       And, again, we'll get to Galveston.  
2                   I'm asking you this just hypothetical. And you can  
3                   just answer this question and we can move on.

4                               In this hypothetical situation where  
5                   across a series of elections, 50.1 percent of  
6                   Latino voters vote for certain candidates across  
7                   these elections and 49.9 percent of Latinos vote  
8                   for a different candidate across a series of  
9                   elections. Would you say that Latinos are voting  
10                  cohesively?

11                  A       I would have to consider -- it really  
12                  depends. I mean, you have to consider various  
13                  other factors involved in this -- just -- this -- I  
14                  guess I'm just not -- this is highly unrealistic  
15                  type of -- if you're asking me if there's a  
16                  threshold by which you can determine cohesiveness.  
17                  As I mentioned to you, there is -- my understanding  
18                  is there is no bright-line rule that the court has  
19                  established to determine in singular elections or  
20                  in two or three, or the examples that you provided,  
21                  that would help us understand racially polarized  
22                  voting patterns.

1 Q And so I'm asking for, in your  
2 opinion, sitting here today, under my hypothetical,  
3 would you say Latino voters are voting cohesively?

4 MR. GONZALEZ: Objection. Form.  
5 Objection. Asked and answered.

6 MR. SHEEHY: I agree my question has  
7 been asked, Mr. Gonzalez.

8 THE WITNESS: And I believe I've  
9 answer your question, that if certain candidates  
10 consistently win, the majority of Latino votes,  
11 then those are the preferred candidates of Latinos.

12 BY MR. SHEEHY:

13 Q And you're saying that they're --  
14 Latinos are then voting cohesively, correct?

15 MR. GONZALEZ: Objection. Form.

16 THE WITNESS: Again, you would have  
17 to -- it depends. We would have to look at -- you  
18 know, across a series of elections. And it is  
19 often the case that we do have the scenario that  
20 you described in which in every single election a  
21 demographic group voted exactly 50.1 percent for a  
22 set of candidates.

1                   Usually, when you have those  
2                   scenarios, you will get, you know, flip-flops and  
3                   back and forth, where groups will vote for one  
4                   set of candidates and then in another instance,  
5                   you'll get a vote for another candidate. So it's  
6                   just not a realistic scenario or at least a  
7                   scenario that I have ever come across.

8                   BY MR. SHEEHY:

9                   Q       All I'm trying to do, Professor, is  
10                  understand what is cohesion. And I'm trying to  
11                  understand it and understand your opinion. So  
12                  that's why I'm asking this question. I -- to me it  
13                  doesn't matter if my hypothetical is highly  
14                  unrealistic, in your words, I'm just trying to  
15                  understand the definition of cohesion.

16                  So -- and my hypothetical has assumed  
17                  consistently across a series of elections.

18                  So across --

19                  A       I mean --

20                  Q       Go ahead, Professor.

21                  A       Sorry about that.

22                  Q       No, that's fine.

1           A       Well, I guess, again, you know, my  
2           understanding is that one way you could look at it  
3           is if a majority of the population consistently  
4           votes for a certain set of candidates, one would  
5           conclude -- could conclude that they are  
6           politically cohesive, they are consistent and a  
7           majority of that population is voting across a  
8           number of elections for a certain set of  
9           candidates.

10                        After all, that's how elections are  
11           won and lost. And, in fact, in many elections, you  
12           have polarity voting. You don't even have the  
13           50 percent threshold that you mentioned. As long  
14           as you get one vote more than the other candidates  
15           in the field, you win that election.

16           Q       So -- so as long as Latino voters are  
17           voting at least 50.1 percent consistently across a  
18           series of elections for certain candidates, that is  
19           sufficient for cohesion?

20                        MR. GONZALEZ: Objection. Form.

21                        THE WITNESS: Again, I wouldn't say  
22           that there's a specific number. I would just

1 generally say a majority of Latinos voting for a  
2 certain set of candidates.

3 BY MR. SHEEHY:

4 Q And 50.1 percent is a majority,  
5 correct?

6 A It's a very slim majority, yes.

7 Q But a majority nonetheless?

8 A Yes, mathematically speaking.

9 Q Okay. So let's talk about --

10 MR. GONZALEZ: Real quick, I think  
11 we've been going for a while now, do you need a  
12 break or anything, Professor?

13 THE WITNESS: Yeah, I think we're  
14 almost at 1:00 p.m. Eastern. I wouldn't mind a  
15 short, short break, just -- if I -- if that's  
16 possible.

17 MR. SHEEHY: Professor, as I said,  
18 it's not a -- not a marathon, so we can go ahead  
19 and take a break. That's fine by me.

20 THE WITNESS: I appreciate it.

21 VIDEOGRAPHER: We are going off the  
22 record. The time on the video is 12:46 p.m.

1 (Recess from 12:46 p.m. to 1:06 p.m.)

2 VIDEOGRAPHER: We're back on the  
3 record. The time on the video is 1:06 p.m.

4 BY MR. SHEEHY:

5 Q Thank you very much,  
6 Professor Oskooii.

7 Did you during the break discuss with  
8 anyone the substance of your testimony?

9 A Not the substance. I did call  
10 Mr. Gonzalez to ask about what the objections mean  
11 generally in terms of me having to always provide  
12 answers with objections. That's what I -- that's  
13 the only person I talked to.

14 Q Anything else with Mr. Gonzalez?

15 A No. That was mainly the discussion  
16 of proper -- or how depositions are conducted.

17 Q Well, I'm sure Mr. Gonzalez said it,  
18 I'll reiterate it. As I said at the outset,  
19 Mr. Gonzalez's, and anybody else's, objections are  
20 preserved and will be argued at a later date. So  
21 even when Mr. Gonzalez objects, we will still need  
22 an audible response -- an audible answer to the

1 question. Okay. Understood?

2 A Yeah. And that is what Mr. Gonzalez  
3 also stated.

4 Q Again, the only time you don't answer  
5 a question is if Mr. Gonzalez instructs you not to  
6 answer that question.

7 A Yes.

8 MR. SHEEHY: And just for the record,  
9 joining us right now in the room for the deposition  
10 is Ms. Amber Hulse. She is a law clerk here at  
11 Holtzman Vogel.

12 BY MR. SHEEHY:

13 Q So, Professor Oskooii, before the  
14 break we were discussing at what level would Latino  
15 voters casting their votes become cohesive. What  
16 I'd like to do now is transition to at what point  
17 would two minority groups voting together become  
18 cohesive?

19 And so here, in Galveston County,  
20 where the allegation is, is that African-Americans  
21 and Latino voters are voting cohesively together,  
22 correct?

1 A Yes.

2 Q And that is your conclusion that  
3 African-Americans and Latino voters are voting  
4 cohesively, correct?

5 A Yes.

6 Q Okay. So I guess what I want to ask  
7 is similar to the questioning before the break, I  
8 want to understand the, sort of, baseline level for  
9 cohesion when analyzing two minority groups. So  
10 if, for example, the hypothetical I'll give, is  
11 assume that African-Americans are voting for  
12 Candidate A at 90 percent and Latinos are voting  
13 for Candidate A at 51 percent. And this pattern  
14 remains the same across a series of elections.  
15 Would you say that African-Americans and Latinos  
16 are voting cohesively together?

17 MR. GONZALEZ: Objection. Form.

18 THE WITNESS: So are you asking if  
19 you look at these demographic groups in isolation  
20 rather than combining them together and estimating  
21 vote choice?

22

1 BY MR. SHEEHY:

2 Q I'm asking you if, as you've done in  
3 your reports, Figure 8 in your report, you've  
4 broken out the percent vote for African-Americans  
5 and a percent vote for Latinos. And I'm asking you  
6 if in a hypothetical, this is a hypothetical,  
7 African-Americans are voting for Candidate A at  
8 90 percent and Latinos are voting for Candidate A  
9 at 51 percent, and that pattern continues over a  
10 series of elections. In that hypothetical --

11 MR. GONZALEZ: Objection.

12 BY MR. SHEEHY:

13 Q -- are African-Americans and Latinos  
14 voting cohesively?

15 A Understood.

16 In that scenario, you will still  
17 conclude that -- you will conclude that both  
18 African-Americans and Latinos have preferred  
19 candidates and that the majority of them prefer the  
20 same set of candidates.

21 Q And I just -- I want to be clear,  
22 because I say cohesive, you say preferred

1 candidate.

2 A Uh-huh.

3 Q Are the two terms the same? Are they  
4 synonymous?

5 A My understanding is that cohesiveness  
6 means preferred candidates across a set of  
7 elections.

8 Q Okay. Thank you.

9 So my hypothetical was across a  
10 series of elections. You understood that, correct?

11 A Yes.

12 Q Okay. So let's say African-Americans  
13 vote for Candidate A 90 percent of the time and  
14 Latinos vote for Candidate A 49 percent of the  
15 time. Would you say that African-Americans and  
16 Latinos, and the pattern -- the pattern continues  
17 throughout a series of elections, would you say  
18 that African-Americans and Latinos in that  
19 hypothetical are voting cohesively?

20 MR. GONZALEZ: Objection. Form.

21 THE WITNESS: In that hypothetical,  
22 which a minority of Latinos vote for the same

1 candidates as the majority of African-Americans  
2 vote, you would not conclude that they are  
3 cohesive.

4 BY MR. SHEEHY:

5 Q And by "they," you mean  
6 African-Americans and Latinos cohesive together?

7 A Yes, in that hypothetical scenario,  
8 African-Americans and Latinos.

9 Q Okay. So let's pull up Exhibit 2,  
10 your January 13th, 2023 report. And let's go to  
11 paragraph 3, which is on page 2 of your report.  
12 Now, here you state in paragraph 3, that you relied  
13 on two well-established and rigorous statistical  
14 methods to estimate voting patterns by race. The  
15 Iterative Ecological Inference method and the EI  
16 Rows by Columns method.

17 Did I read that correctly?

18 A Yes, that is what it says.

19 Q Okay. And those were the two methods  
20 you used to determine -- or to arrive at your  
21 conclusion of racially polarized voting, correct?

22 A That, in addition to the electoral

1 performance analysis that I also conducted.

2 Q The electoral performance analysis,  
3 was that the -- the turnout -- I can't think of the  
4 term, but it's in Figure 8, turnout adjusted. When  
5 you say your performance analysis, is that the  
6 turnout-adjusted analysis?

7 A No.

8 Q Okay. What is the turnout-adjusted  
9 analysis?

10 A Turnout-adjusted analysis is still  
11 using the same methods, but you account for the  
12 proportion of the pool of eligible voters that did  
13 not cast a ballot or vote for -- in this case, vote  
14 for the top two candidates.

15 Q Okay. So let's talk about the rows  
16 by columns and the EI analysis that you -- that you  
17 did.

18 Would you agree that in Galveston  
19 County, you were analyzing the voting habits of  
20 African-Americans, Latino, and White voters?

21 A Yes, I analyzed the voting patterns  
22 of, as I write in my report, Anglo, Black, and

1 Latino voters, yeah.

2 Q Is there a -- is there a difference  
3 between the term White voters and Anglo voters?

4 A No. That's -- that's generally what  
5 you mean is non-Hispanic-White when you say Anglo.

6 Q Okay. Given that you're analyzing  
7 three races, White, African-American, Latino, would  
8 you agree that the Rows by Columns analysis is the  
9 optimal analysis to use?

10 A If could you clarify what you mean by  
11 "optimal."

12 Q Well, the Ecological Inference Model,  
13 EI, is more suitable to analyzing the vote choices  
14 of two candidates and two races, correct?

15 MR. GONZALEZ: Objection to form.

16 THE WITNESS: It was originally  
17 developed by Professor Gary King, the original  
18 Ecological Inference Method was developed with  
19 examples of two candidates in two demographic  
20 groups, however, the Iterative Approach, which I  
21 used here, can account for multiple candidates and  
22 multiple racial groups.

1 BY MR. SHEEHY:

2 Q The -- but is Rows by Columns the  
3 better method for analyzing elections among three  
4 or more races than the Ecological Inference Model?

5 MR. GONZALEZ: Objection. Form.

6 THE WITNESS: Just to clarify, when  
7 you say "ecological inference," just to be clear,  
8 we're talking about Iterative Ecological Inference,  
9 correct?

10 BY MR. GONZALEZ:

11 Q Yes, correct.

12 A Because there are differences.

13 Q No, I understand there are  
14 differences, but I guess I just want to make sure  
15 that I'm understanding the differences between  
16 these two forms of analysis.

17 A Okay. I can explain that. So the  
18 Iterative Approach basically looks at -- you know,  
19 for example, it combines Latinos and Whites to  
20 estimate Black voting behavior, then combines  
21 Blacks and Whites to estimate Latino -- Blacks and  
22 Whites with Latino voting behaviors is an iterative

1 approach, right, one by one, to get the estimates  
2 for each racial groups.

3 The RxC, Rows by Column, is a  
4 different method in the sense that it estimates  
5 vote choice simultaneously across the rows and  
6 columns rather than iteratively.

7 Now, in a paper that I've published  
8 in the sociological methods and research, I and my  
9 co-authors examined the two methods side by side.  
10 And the conclusion that we were able to draw from a  
11 series of elections in different jurisdictions that  
12 they substantially produced very similar results.  
13 So that is the conclusion.

14 Q Thank you for that, Professor.

15 A Sure.

16 Q So let's go to page 50 in Exhibit 2.

17 MR. SHEEHY: Yeah, it's page 50 in  
18 the PDF. Perfect. Thank you very much, Sharon.

19 BY MR. SHEEHY:

20 Q So here we have Figure 8, Galveston  
21 County Anglo, Black, Latino, RxC Estimates. And  
22 it's -- the small writing there is "RxC Estimates

1 for Candidates by Race."

2 Do you see that, Professor?

3 A Yeah, I see Figure 8. Yes.

4 Q Okay. So with Latinos here, we're  
5 just going to talk about the 2020 U.S. presidential  
6 race. Do you see that Latinos are at 31.2 percent  
7 for Trump?

8 Do you see that number?

9 A Yes, I do.

10 Q Okay.

11 MR. SHEEHY: Can we go to page -- the  
12 next page, please?

13 BY MR. SHEEHY:

14 Q So this is the EI estimates for  
15 candidates by race. And here we have 39.4 percent  
16 for Latinos for Trump. And then if we could go to  
17 the next page, page 52. Here, for the turnout  
18 adjusted, you have 30.2 percent, correct?

19 A Correct, I see that.

20 Q So there's like a -- there's a  
21 9.2 percent variation between the EI method at 39.4  
22 at the high and 30.2 in the turnout adjusted. Is

1           that correct?

2                   A       Yes. The turnout adjusted accounts  
3           for differential turnout between the groups. So  
4           it's a different -- slightly different estimation  
5           method.

6                   Q       Okay. But let's take a look at the  
7           African-American for Trump. So here, it's 97.5.  
8           So we can go back up. Here it's 97.2. If we can  
9           go back up. And there it's 90 -- is that 93.6?

10                  A       That's what I see, yes.

11                  Q       Okay. So, I mean, we've got a  
12           difference for Latinos of 9 -- 9.2 percentage  
13           points and for African-Americans, we have a  
14           difference of 4 percentage points. Can you explain  
15           why the Latino numbers are less stable across these  
16           three tests than African-Americans?

17                           MR. GONZALEZ: Objection. Form.

18                           THE WITNESS: Well, I would present  
19           to you that you can't compare -- it's not  
20           statistically sound to compare estimates from  
21           different models -- estimates across different  
22           models because there are different estimation

1 procedures. So that would be an incorrect or  
2 misleading way of comparing results in this  
3 particular instance.

4 BY MR. SHEEHY:

5 Q Well, but can you explain to me why  
6 the African-American vote for Trump remains  
7 relatively stable across the three, but the Latino  
8 vote for Trump, you know, there's -- there's  
9 fluctuation, almost 10 percentage points?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: Again, you -- it is  
12 statistically incorrect for you to extrapolate  
13 these percentage difference that are across models.  
14 We would have to have a -- another estimation  
15 strategy to come up with confidence bands to be  
16 able to see how, you know -- whether that  
17 difference of 9 percent that you're claiming is  
18 even statistically significant between across  
19 different models.

20 But I think I know what you're  
21 trying to get at, in the sense that you're saying  
22 there are some differences that may or may not be

1 | statistically different. And part of the reason  
2 | could be that the underlying data that for  
3 | Latinos, if there are -- you know, if there's  
4 | less variation at the precinct -- voting precinct  
5 | level in terms of the composition of the  
6 | precincts that are more or less heavy Latino, and  
7 | that's just the facts of the data, you would have  
8 | potentially wider confidence bands or some  
9 | differences across different models; whereas for  
10 | the Black population, it could be the case, which  
11 | appears be to the case here, that you would --  
12 | you have more variation across the election  
13 | precincts. For instance, you have more precincts  
14 | in which they are heavily composed of Black  
15 | Americans. In addition to having also precincts  
16 | that are not heavy Black American.  
17 | So that could explain the  
18 | precision. It's just the facts of the data or  
19 | underlying data that -- that could result in some  
20 | of the differences.  
21 | But I present to you that if you  
22 | look at substantively across all of these models,

1 they're all pointing in the same direction in  
2 terms of who are the preferred candidates. And  
3 the results are substantially pretty much  
4 similar.

5 Q Well, let's -- let's go to another  
6 race on these charts and maybe we can continue this  
7 discussion because it just jumps out at me.

8 A Sure.

9 Q Let's look at the 2020 county  
10 sheriff's race, which is -- I don't know if you're  
11 able to see the cursor but -- you just had it.

12 A Yeah, I can see it. I can see.

13 Q You're able to see the 2020 county  
14 sheriff's race?

15 A If you'd go further down, yeah. U.S.  
16 justice there.

17 Q Uh-huh.

18 So in that election you had  
19 28 percent for Latinos -- yeah, 28 percent for  
20 Latinos under the RxC. And then if you go to the  
21 next page in the EI, you have 34.2 percent for  
22 Latinos.

1           A       For county sheriff, that's what I  
2       see, yes.

3           Q       And then if we go to the turnout  
4       adjusted, you've got -- you've got 1.7 percent.

5           A       Yes, I see that.

6           Q       So, I mean, we have a difference  
7       among these three tests of 32.5 percent. Again,  
8       what -- what is driving such a variation for  
9       Latinos that is not present for African-Americans  
10      or White voters?

11                   MR. GONZALEZ: Objection. Form.

12                   THE WITNESS: So for this last -- if  
13                   you could go up so I can refer to the figure  
14                   name -- figure number. Thank you. For this Figure  
15                   10, which is "Turnout-Adjusted," we're adding an  
16                   additional factor into the model, which would be  
17                   turnout. And so in this particular case, Latinos,  
18                   if they turn out lower rates, then you don't  
19                   account for that in the previous model, which --  
20                   which is not accounted for, you could get  
21                   difference results. And that's why, for  
22                   transparency purposes, I present all the different

1 ways of estimating the three different ways of  
2 estimating vote choice. So that's a combination of  
3 lower turnout for Latinos.

4 And, again, going back to my  
5 original comment, there could be less variation  
6 in the composition of election precincts for  
7 Latinos in terms of how populous they are in each  
8 election precinct compared to Black Americans and  
9 Anglos. And that could explain sometimes the  
10 discrepancies slightly between the different  
11 estimates.

12 But, again, I present to you at no  
13 point do these methods produce completely  
14 different results identifying different  
15 candidates of choice.

16 BY MR. SHEEHY:

17 Q Is a possible explanation for the  
18 variation of Latino votes across these three  
19 methods, is a possible explanation that Latinos are  
20 not as cohesive as White or African-American  
21 voters?

22 MR. GONZALEZ: Objection. Form.

1 THE WITNESS: It's actually a great  
2 question. I'm glad that you asked that. No, that  
3 would not be the reason. The reason would be the  
4 underlying data and variation that exists. If you  
5 have, you know, less-informative data or like, you  
6 know, there's less variation, that could explain  
7 the -- the difference. It's not about cohesion in  
8 this particular case.

9 BY MR. SHEEHY:

10 Q And when you say "less-informative  
11 data," are you saying -- are you referring to low  
12 voter turnout among Latinos?

13 A No. That's not necessarily what I'm  
14 referring to. One -- one of the, you know, ways  
15 that you could think about data would be, you know,  
16 what is the overall population of a certain group  
17 in a certain jurisdiction. And then what is the  
18 variation of that group across the different voting  
19 tabulated districts or election precincts?

20 And if you don't have variation in  
21 precincts that are not heavily Latino and in  
22 precincts that are heavily Latino, then you would

1 get a little bit less precision. You would say  
2 that that data is a little bit less informative  
3 relative to for groups such as Anglos, where you  
4 have precincts that are not as populous with Anglos  
5 in a precinct that are populous with Anglos or  
6 Whites in this case.

7 Q Okay. So is -- so then the variation  
8 among these three forms of estimation could be  
9 explained that in the way that Latino voters are  
10 dispersed across Galveston County. Is that what  
11 you're saying?

12 MR. GONZALEZ: Objection. Form.

13 THE WITNESS: Not necessarily  
14 dispersed across Galveston County. There are areas  
15 in Galveston County where you have more than less  
16 election precincts that are more heavily Latino,  
17 such as the Commissioner Precinct 3 in the  
18 previous -- previous 2021 adopted map.

19 BY MR. SHEEHY:

20 Q Okay. I guess I'm trying to  
21 understand your explanation. So your explanation  
22 is, is that there's variation in the data across

1 | these three tests. And for Latino voters, because  
2 | unlike Anglo or African-American voters, there's  
3 | not -- there are not enough precincts of Latino  
4 | voters where there are substantial amount of Latino  
5 | voters in some precincts and few Latino voters in  
6 | other precincts. Is that -- am I understanding  
7 | your explanation?

8 | MR. GONZALEZ: Objection. Form.

9 | THE WITNESS: You know, that's one  
10 | factor. Relatively speaking, that could be --  
11 | that's one factor in which, you know, you don't get  
12 | as much variation, again, relative to, you know, if  
13 | you compare it to Black Americans, in which you  
14 | have certain precincts that are more heavily Black  
15 | and in certain precincts that are not. And also,  
16 | precincts that are in the middle, you know. So,  
17 | you know, that's -- that's definitely, you know,  
18 | one way of describing it.

19 | BY MR. SHEEHY:

20 | Q Okay. Are there any other -- go  
21 | ahead.

22 | A Sorry. That -- just to clarify. I

1 want to make sure I'm accurate. That doesn't mean  
2 the data was not sufficient enough to be able to  
3 still estimate vote choice. You know, if -- I  
4 would determine data is not sufficient if you got  
5 results like all over the place, jumping up and  
6 down, going between the different candidates in  
7 terms of, you know, one method says, you know,  
8 Latinos prefer Biden and another one says, no,  
9 70 percent prefers Trump. That's when you --  
10 that's one sure sign that the data is just all over  
11 the place. There's not a lot of data. You don't  
12 have a lot of variation of the precincts. And it's  
13 just data is not informative for you to be able to  
14 draw any sound conclusions.

15 But in this particular case, there is  
16 enough data for me to be able to still identify the  
17 candidates of choice of Latinos, same as you -- I  
18 was able to identify the candidates of choice of  
19 Black and Anglo voters.

20 Q Are there any other explanations that  
21 you can think of for the reason behind the  
22 variation in Latino vote across these three

1 | estimates?

2 | MR. GONZALEZ: Objection. Form.

3 | THE WITNESS: You know, another

4 | reason is just that they are slightly different

5 | estimation techniques. As I mentioned, one is an

6 | iterative technique, the other one is a

7 | simultaneous technique that uses a vision model.

8 | And then t his last one, you adjust

9 | for turnout disparities as the best that you can

10 | based on the eligible voter citizen voting-age

11 | population. So there are also slightly different

12 | techniques that are being used, different models,

13 | right. So you would expect some sort of

14 | variation. They're not all going to always

15 | precisely have the same point estimates or

16 | precision.

17 | BY MR. SHEEHY:

18 | Q All right. When you calculated

19 | turnout, did you calculate turnout based upon

20 | citizen voting age population as your denominator?

21 | A Yes.

22 | Q Okay. You did not use registered

1 voters?

2 A No. I did not have access to  
3 registered voters by race and ethnicity at the  
4 voting precinct level.

5 Q If -- well, that's fine.

6 So let's -- let's talk about your  
7 confidence intervals that you have. My  
8 understanding with your confidence intervals, that  
9 we were just looking at, Figure 10, but you have it  
10 throughout your report. In each of your bar  
11 graphs, you have what looks like kind of a black  
12 line that goes to what looks like a bracket or a  
13 black line in between two brackets.

14 Is that -- that's your --

15 A Yes.

16 Q -- confidence interval?

17 A Yes, that is accurate.

18 Q Okay. Now, confidence interval is  
19 the range of estimates for, in this case, you know,  
20 for a range of estimates in a given election. Is  
21 that what your confidence -- what you're reporting  
22 in your confidence interval?

1 MR. GONZALEZ: Objection. Form.

2 THE WITNESS: I'm not sure I

3 understand that characterization. A confidence  
4 interval is a statistical tool for expressing the  
5 degree of uncertainty around the point estimates.

6 BY MR. SHEEHY:

7 Q Okay. So my understanding of a

8 confidence interval is you're reporting the range

9 of where the vote support could be in a given

10 election for, in Figure 10's case, Anglo voters,

11 Black voters, and Latino voters.

12 MR. GONZALEZ: Objection.

13 BY MR. SHEEHY:

14 Q Am I understanding that correctly?

15 MR. GONZALEZ: Form.

16 THE WITNESS: I apologize. Sorry.

17 I'm not sure you're characterizing it quite

18 accurately here. So a confidence interval  
19 basically is a range of values that would be  
20 bounded above and below a point estimate, as I have  
21 the point estimates in these graphs, right, that  
22 likely would contain the true or known population

1 parameters that we don't know about, right, that's  
2 why we're estimating it.

3 In this particular case, the  
4 confidence level that is being used for this --  
5 is 95 percent confidence, that the -- that the  
6 population -- unknown population parameters would  
7 fall within that.

8 BY MR. SHEEHY:

9 Q Okay. So if we can go up one page to  
10 Figure 9. So we have here the, again, 2020 U.S.  
11 president election. And you have in Galveston  
12 County, this is your EI estimates. And just --  
13 just to be clear, I mean, you're using the term  
14 estimate, but you're not saying that, for example,  
15 85.2 percent of Anglo voters in Galveston County  
16 actually voted at that level for Trump, correct?

17 A What do you -- what do you mean by  
18 "actually"?

19 Are you asking what the true unknown  
20 parameter is?

21 Q No. I'm asking for -- if someone  
22 said, what did -- what was Trump's -- how many --

1           what percentage of the population voted for Trump  
2           in Galveston County. Okay. You're not saying that  
3           85 percent of Anglo voters casted their vote for  
4           Donald Trump, you're estimating that it's  
5           85.2 percent, correct?

6                   A        Again, I'm not sure about the  
7           differentiation that you're drawing, if I'm  
8           understanding. The estimate is what you're  
9           suggesting is, you know, the vote choice of Anglos  
10          in this particular election.

11                   Q        Right. But you're -- it's -- it's an  
12          estimated number, correct?

13                   A        Yeah. Yes.

14                   Q        Okay.

15                   A        We don't know -- we didn't go and --  
16          because we have a secret ballot, and we don't know  
17          how every single, you know, White American voted in  
18          this election because we are a secret ballot, so we  
19          have to estimate it based on the data that is  
20          available.

21                   Q        Okay. That's all I -- all I wanted  
22          to confirm.

1 A Sure.

2 Q Okay. So sticking with the Trump  
3 election, let's go to Latino voters on -- on the  
4 right hand. So you have 59.5 percent voting for  
5 Biden, correct?

6 MR. GONZALEZ: Objection. Form.

7 BY MR. SHEEHY:

8 Q 59.5 percent is the estimated Latino  
9 vote for Biden, correct?

10 A Based on Figure 1, EI estimate, that  
11 is what I see, yes.

12 Q And just to be clear, we're talking  
13 about Figure 9, correct?

14 A Yes, Figure 9, EI estimates for  
15 candidates by race.

16 Q Okay. Now, if I'm looking at your  
17 confidence interval line, the low end of your  
18 line -- and I'll be very honest, it's hard for me  
19 to tell, but very low end of your line seems to go  
20 below 40 percent. Am I correct in saying that?

21 A It's hard to see from this picture,  
22 but I would say generally yes, I would -- I would

1 agree.

2 Q Okay. So --

3 A Well, actually, it doesn't -- I'm not  
4 sure -- yeah. Maybe yeah. It's hard to see a  
5 little bit from this sharing of the screen, but  
6 yeah.

7 Q Okay. Well, I'll say I'm looking --  
8 I had to bring the paper out so I could look at it,  
9 and it's -- it's tough for me to tell, but, you  
10 know, it looks to be below 40.

11 So is this saying that your  
12 confidence interval suggests that Latinos voted for  
13 Biden between, let's just say, 38 percent and  
14 59.5 percent. Is that what this interval is  
15 suggesting?

16 MR. GONZALEZ: Objection. Form.

17 THE WITNESS: No, that is incorrect.

18 BY MR. SHEEHY:

19 Q Okay. So what is -- what is this  
20 lower end of your confidence interval that's below  
21 40 percent? What is that saying?

22 A It's the lowest possible balance

1 under the 95 percent confidence. That what -- it's  
2 the lowest balance. And the point estimate is 59.5  
3 for Biden.

4 Q So the lowest bound at your  
5 95 percent confidence level is approximately  
6 38 percent?

7 MR. GONZALEZ: Objection. Form.

8 THE WITNESS: Oh, I -- I don't see  
9 that as 38 percent. I think it's higher than that.

10 BY MR. SHEEHY:

11 Q Well, the lowest bound is definitely  
12 below 40.

13 A It's --

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: It's around that. It's  
16 around that.

17 BY MR. SHEEHY:

18 Q Okay.

19 A Based on this, it is around that.

20 Q And so does that mean that you're  
21 95 percent confidence that Latinos voted for Biden  
22 somewhere between 40 and 59 percent?

1 MR. GONZALEZ: Objection. Form.

2 THE WITNESS: That would be

3 incorrect.

4 BY MR. SHEEHY:

5 Q Okay. So explain to me then, what  
6 does this lower band stand for at 40 percent?

7 A The lower band stands for, again, the  
8 lowest bound around the point estimate of 59.5  
9 percent.

10 Q And what does that mean, the lowest  
11 bound of the point estimate?

12 A As I described it, as the lowest  
13 bound given the confidence interval of 95 percent,  
14 that would be the lowest bound that is produced by  
15 the model.

16 Q Okay. And what -- how do you arrive  
17 at the lowest bound?

18 A It was based on the standard  
19 deviation that was produced by the model. And  
20 there is a way to calculate, for instance,  
21 95 percent confidence, 90 percent confidence, 67.  
22 There are different thresholds. In this particular

1 case, this is 95 percent confidence.

2 Q And the lowest bound being  
3 approximately 40 percent and the highest bound then  
4 looks like -- I mean, what would you say the  
5 highest bound of your confidence interval looks  
6 like? Maybe 70 percent?

7 A That is correct. Around there.

8 Q Okay. So the highest bound is  
9 approximately 70 percent and the lowest bound is  
10 approximately 40 percent, correct?

11 A Correct.

12 Q Okay. And your point estimate is  
13 59.5?

14 A Yes.

15 Q Okay. So is the point estimate -- so  
16 what -- I mean, having a -- having a confidence  
17 interval of between approximately 70 and 40, what  
18 does that range indicate to you?

19 MR. GONZALEZ: Objection. Form.

20 THE WITNESS: It indicates that this  
21 particular model for this particular election that  
22 we're looking at for Latinos provides a

1 less-precise estimate compared to especially if you  
2 go up to, I believe, Figure 8, then there are by CI  
3 model. It's -- again, CI is a -- confidence  
4 interval is a statistical tool for expressing the  
5 degree of uncertainty. It's not a point estimate  
6 itself.

7 BY MR. SHEEHY:

8 Q But the bands are between 40 and 70,  
9 correct?

10 A At the 95 --

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: Oh, sorry.

13 At the 95 percent confidence, that  
14 is what the confidence -- that is the confidence  
15 interval that is reported.

16 BY MR. SHEEHY:

17 Q Okay. And if we compare to the  
18 African-American confidence interval, it is  
19 substantially smaller, correct?

20 MR. GONZALEZ: Objection. Form.

21 THE WITNESS: Yes, it is -- that  
22 appears so. That is smaller, yes.

1 BY MR. SHEEHY:

2 Q 97.2, and it looks like your low end  
3 is probably still in the 90s, correct?

4 A Yes, that's -- I would say that's  
5 accurate.

6 Q And that's substantially smaller than  
7 the 30 point bandwidth between, you know,  
8 approximately 40 and 70 for Latinos, correct?

9 MR. GONZALEZ: Objection. Form.

10 THE WITNESS: Yes. As I have  
11 described in this model for this population, the  
12 estimates for the confidence bands are wider. And  
13 this goes back to my previous statement when you  
14 asked me, does that mean that this population is  
15 less cohesive and I said, no.

16 Confidence intervals have to do, as  
17 I reported -- as I have written in my report,  
18 have to do with a variety of factors. And one of  
19 those factors would be sample size, it could be  
20 also, again going back to what I explained as how  
21 many precincts -- election precincts do you have  
22 that are composed of low-density Latino precincts

1 and high-density Latino precincts. And if  
2 they're -- in this given jurisdiction, if you  
3 don't have as much of those -- that variation  
4 relative to what you have with Black Americans  
5 and Anglo Americans, you will get a little more  
6 imprecise estimates. That doesn't mean that  
7 Latinos are not cohesive.

8 In fact, if you look at the RxC  
9 results, the confidence bands are much tighter  
10 even at 95 percent, which is a very high  
11 threshold, by the way, of confidence.

12 Q Well, let's look at the RxC  
13 estimates.

14 A Sure.

15 Q For 2020 U.S. president, you have  
16 68.8 percent is your point estimate for Latinos,  
17 correct?

18 A That is correct. That's what I see,  
19 yes.

20 Q Okay. And it looks like your range  
21 in the high end and low end of your confidence  
22 interval, the high end looks like it's maybe

1 78 percent, not quite to 80, but a little under 80,  
2 correct?

3 A Well --

4 MR. GONZALEZ: Objection.

5 THE WITNESS: -- it's hard to tell  
6 again, but yeah, I would say somewhere around that,  
7 if not higher, maybe lower. It's tough to say.

8 BY MR. SHEEHY:

9 Q Okay. And the lower end looks like  
10 it's below 60, correct?

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: It's, again, very tough  
13 to tell from what I'm viewing here. I would say  
14 higher than 60, it looks like.

15 BY MR. SHEEHY:

16 Q Well, I'll say it's -- it's your  
17 report, I was hoping that you could tell me kind of  
18 where this line was following, because it's hard --  
19 hard for me as well, even with it printed out.

20 A Well --

21 Q But, I mean, to me it looks like, you  
22 know, right around 60, maybe a little less than 60.

1 Are you able to look at it? Can we blow up -- blow  
2 up the line a little bit?

3 A Well, if you could go a little bit  
4 lower, actually, I want to see if -- if you could  
5 please go lower, lower. No, not the zooming out,  
6 but going down the -- not down a page, but  
7 scrolling. Sorry.

8 Q To the bottom of the page.

9 A Yeah, the bottom. So do you see how  
10 I listed from 0 to 100 percent where the lines are?

11 Q Yes.

12 A So since you have that page in front  
13 of you, and I don't, right, I'm just -- I can't see  
14 it through this -- this kind of Zoom scenario.

15 Over all 60 on that bottom, like if  
16 you have a ruler, or something, like a piece of  
17 paper, and go up and see -- see where we fall. And  
18 that's how could determine a little bit more  
19 precisely where that is, the lower bound.

20 Q I mean, I'll -- I'll be honest and  
21 say I'm not the greatest drawer, but by my -- by my  
22 line, it's still below 60.

1           A       I can't confirm, nor deny that since  
2           I don't have the same thing. You just admitted  
3           that you may not be the best drawer.

4           Q       Yeah, but I'm still -- I mean, as I  
5           said, it's your report, I was hoping you would be  
6           able to, you know, tell me what the confidence  
7           interval was and what your bands are.

8           A       And I have reported that there is, I  
9           think, or differences that I'm looking at something  
10          digitally and I can't go down and draw -- you know,  
11          look at that the same way that you can with the  
12          paper in front of you. But, you know, if -- if you  
13          provide a paper -- if I had the paper in front of  
14          me, I could confirm or deny your -- what you're  
15          seeing.

16                    It's just that we're seeing different  
17          things. I'm -- I'm looking at a digital version of  
18          a report that I can't even go down and see where  
19          those lines fall. But if it's very important to  
20          you to make an argument about lower 60, 60. If  
21          this -- maybe you can try to get to your question.

22          Q       I guess what I'm -- what I'm saying

1 is, is that we are finding that the estimates at  
2 the lower bandwidth and higher bandwidth for  
3 Latinos are consistently about 10 percent  
4 difference. Well, I'll say the difference between  
5 the lower bandwidth and the point estimate is about  
6 10 percent. And --

7 A Can you clarify the estimate  
8 between -- because you just changed things a couple  
9 of times. Could you clarify --

10 Q No, that's fine. Good -- good  
11 clarification point on your part.

12 What I am seeing consistently in  
13 these figures is that the lower -- the lower  
14 band -- or the difference between the lower band  
15 and the point estimate is about 10 percentage  
16 points consistently for Latinos. And I'm not  
17 seeing that same difference for Anglo and  
18 African-Americans.

19 A Let me just make -- maybe make it  
20 simpler on you. You're suggesting that the  
21 confidence bands for Latinos is relative --  
22 relative to Black and Anglos, it's wider. And I

1 can agree to that.

2 Q Yes.

3 A Yes.

4 Q Okay. Let's go to -- let's go to  
5 Figure 6 on page 14. And do you -- do you see  
6 Figure 6 in front of you?

7 A On -- in Zoom, yes, I do.

8 Q Okay. So here we have the RxC  
9 estimates for candidates by race. And you have  
10 Black and Latino voters voting at 84.7 percent for  
11 Biden. Is that correct?

12 A Correct, that's what the estimate  
13 suggests.

14 Q Okay. How are you arriving at 84.7  
15 percent?

16 Are you -- are you averaging the  
17 African-American vote with the Latino vote for  
18 Biden?

19 A No. That's not how it works.

20 Q Okay. So explain to me how are you  
21 arriving at 84.7 percent Black and Latino vote for  
22 Biden.

1           A       I believe that I actually clearly  
2 explained that in the report, but I'm happy to  
3 clarify.

4                       So basically in this analysis you're  
5 grouping Black and Latinos for -- as a column for  
6 each row, which would be election precincts. And  
7 then comparing that combination to the White --  
8 White voters. And inputting that in the model.  
9 And then the model then outputs the estimate of  
10 that kind of analysis.

11                      And you have to keep in mind that --  
12 that the averaging, which is not an averaging in  
13 this case, the averaging would not be an accurate  
14 way of comparing things because you have different  
15 population sizes that impact potential estimates.

16                      So the -- the most accurate way is  
17 exactly what I did, you combine them. Great  
18 variable call -- in this case we can call it Black  
19 and Latino. You input that into the model. And  
20 then you have an Anglo variable. And then you  
21 obviously have variables for a percentage of votes  
22 received by each candidate for each election.

1 Right. You do that separately. And the model  
2 produces the estimates that I have reported here.

3 Q Okay. Thank you for that.

4 A No problem.

5 Q So let's go to page 24. Do you have  
6 Figure 15 in front of you, Professor?

7 A Yes. I can see it on Zoom. Yes.

8 Q So here I'm looking at the RxC  
9 estimates for candidates by race in the Galveston  
10 County primary elections, correct?

11 A In the democratic primary, correct.

12 Q Yes, yes the democratic primary.

13 So we take a look at the 2018  
14 Commissioner Land Office.

15 A Could you scroll down lower  
16 because --

17 Q Yeah. Sorry about that.

18 A Yeah, no worries.

19 That's the last one, yes,  
20 Commissioner Land Office. That is -- I can see it  
21 now, yes.

22 Q And we see here again the sizeable

1 bands for Latinos here for Suazo, we've got at the  
2 low end maybe 25 percent support and at the top end  
3 we've got 75 percent?

4 A Sorry. It goes 0, 10, 20, 30, 40.  
5 So that would -- where I see the line would be more  
6 like 30, but just --

7 Q So I don't see -- I don't see 10 in  
8 here and I don't see 30. What I see is 0, 20, 40,  
9 60, 80, and 100.

10 A Right. It goes by 20 percent points,  
11 so the midpoint would naturally be by ten, right?

12 Q I'm -- I mean, I'm fine with that. I  
13 mean, it looks like the Commissioner Land Office  
14 race is somewhere between, you know, 30 percent  
15 and, you know, 75 percent --

16 A Sure.

17 Q -- on your lower and higher bands.  
18 So we're talking about a 45-point difference there,  
19 correct?

20 MR. GONZALEZ: Objection form.

21 THE WITNESS: When -- when comparing  
22 the lower confidence interval bound with the higher

1 at 95 percent confidence.

2 BY MR. SHEEHY:

3 Q The difference between the lower and  
4 the higher is about -- it's about 40 points?

5 A At the 95 percent confidence, that is  
6 what the results suggest.

7 Q Okay. And the same thing that we  
8 discussed in Figure 8, same thing here, the bands  
9 between the lower and higher bands are going to be  
10 substantially greater for Latinos than they are for  
11 African-Americans?

12 MR. GONZALEZ: Objection. Form.

13 THE WITNESS: They are wider,  
14 generally speaking.

15 BY MR. SHEEHY:

16 Q Okay. And is your explanation for  
17 the sort of wide -- the wideness of the bands for  
18 Latinos in these elections on Figure 15, is it  
19 going to be the same reasoning as they were in  
20 Figure 8?

21 MR. GONZALEZ: Objection. Form.

22 THE WITNESS: One of the reasons that

1 I offer of possible reasons, that's generally  
2 consistent, yes.

3 BY MR. SHEEHY:

4 Q Okay. What other -- what other  
5 reasons do you have to explain the wide -- the  
6 wideness between the lower band and the higher band  
7 in these elections in Figure 15?

8 A So, generally speaking, as I noted in  
9 my report a number of factors that impact  
10 confidence interval. I think there's a footnote  
11 that I have, that maybe if you scroll up, we can go  
12 over that footnote, if that's helpful. I don't  
13 know what page it is, but there's a -- maybe it's  
14 one of the first footnotes when the figure appears  
15 where I describe what confidence bands are.

16 Q Yes, I remember seeing it.

17 A Yes. I think -- I think that would  
18 be very helpful in describing as accurately as  
19 possible in this type of setting what sorts of  
20 things could impact confidence intervals and why  
21 they're just one specific tool in the toolbox  
22 that's available to an analyst.

1 Q There you are.

2 A Yeah, 31. Yeah, 31.

3 Q Do you have anything to add to this  
4 footnote?

5 A I'm not sure add, but I can, you  
6 know, maybe provide more context if that's helpful.

7 Q Well, let me just ask you this: I  
8 mean -- well, okay, I'll -- I'll take the context.  
9 Go ahead.

10 A Sure.

11 So as I mentioned here, is that, you  
12 know, confidence intervals are sensitive to various  
13 factors to among which are sample size. So you can  
14 think about the number of rows in the dataset,  
15 which would be election precincts. And also the  
16 total votes in those election precincts and votes  
17 by candidates. And then also the standard  
18 deviation of the demographic groups and their  
19 concentration across different election precincts.

20 So those two general factors can  
21 impact whether you'll get a wider confidence  
22 interval, but also, you know, another factor will

1 be the model itself. And, therefore, that's why I  
2 mentioned that, you know, I was suggesting that  
3 this is just one tool, and there shouldn't be -- it  
4 would be not appropriate in this particular setting  
5 to apply the very rigid guidelines to all  
6 jurisdiction across the country. That is just one  
7 piece of information that provides some degree of  
8 certainty as a statistical tool, right.

9 So I think -- oh, yeah, and another  
10 thing that I -- you know, in confidence bands, you  
11 know, you could come up with confidence bands with  
12 95 percent, 90 percent. You know, there are other  
13 analysts who use lower bands.

14 So when you see in my report, they  
15 are 95 percent. So it's a very high degree, high  
16 threshold, that's -- that's there, that's why the  
17 confidence bands are wider.

18 Now, if he said 90 percent the  
19 confidence bands will get smaller. 60, 70 percent  
20 will get smaller. So that's -- that dictates that  
21 level -- the confidence level dictates also how  
22 wide or small the -- the intervals are.

1 Q Okay. Well, let's go to page 7 in  
2 your report.

3 MR. GONZALEZ: I know it's like  
4 2:10 p.m. on the east coast. I don't know if you  
5 wanted lunch or -- it's entirely up to you,  
6 Professor, but --

7 THE WITNESS: Yeah, I guess I would  
8 ask, is this going to be a new set of questions or  
9 is this still about confidence bands?

10 MR. SHEEHY: No, we can go ahead and  
11 take a break for lunch now. We'll move on.

12 THE WITNESS: Sure. Since we were  
13 back and forth, I thought if it was fresh and we  
14 could end the conversation to a point where it's  
15 clear. But yeah, I would appreciate a lunch break.

16 MR. SHEEHY: We can do that. It's  
17 2:10 p.m. on the east coast, so why don't we come  
18 back at 3:10 p.m. on the east coast, one hour.

19 VIDEOGRAPHER: We are going off the  
20 record. The time on the video record is 2:10 p.m.

21 (Recess from 2:10 p.m. to 3:13 p.m.)

22 VIDEOGRAPHER: We're back on the

1 record. The time on the video is 3:13 p.m.

2 BY MR. SHEEHY:

3 Q Good afternoon, Professor Oskooii.

4 Do you understand that you're still under oath?

5 A Good afternoon. Yes, I do.

6 Q And during the break did you discuss  
7 your deposition with anybody?

8 A I had a phone conversation with my  
9 spouse, and she just asked me to give her an  
10 estimated time when the deposition would end.  
11 That's all.

12 Q Did you have any discussions with  
13 anyone else about your deposition?

14 A No.

15 Q Okay. We put up on the screen Table  
16 1, which is from page 7 of your January 13, 2023  
17 report.

18 Do you see that in front of you?

19 A Yes, I see it.

20 Q Okay. I didn't see any state  
21 legislative district races. Is there a reason for  
22 not analyzing any state legislative races?

1           A       So the way I approached the selection  
2       of the different contests is that I went to  
3       redistricting data hub to see what data is  
4       available starting with 2020, and then work my way  
5       back as far as 2016. And then also I went to the  
6       Texas Legislative Council Capitol Portal and tried  
7       to identify as many elections that I could from  
8       2020 all the way to 2016. And then I analyzed  
9       those elections. And in the case of Galveston, the  
10      results are so crystal clear that there was  
11      racially polarized voting going on, that I stopped  
12      my analysis having seen enough at, you know, 25  
13      general elections.

14           Q       So are you saying that there are  
15      elections that you analyzed that are not listed  
16      here in Table 1?

17           A       No, that's not what I'm saying.

18           Q       Okay. So why didn't you analyze any  
19      state legislative elections?

20           A       I think I just answered -- I just  
21      answered that question.

22           Q       Okay. Well, let's try this: This is

1 a case alleging that Section 2 of the Voting Rights  
2 Act requires that Galveston County draw a  
3 majority/minority precinct in the Commissioner's  
4 Court precinct, correct?

5 A Correct.

6 Q Okay. So would you agree with me  
7 that analyzing Commissioner Court precinct  
8 elections would be the most probative of a  
9 section -- for a racially polarized voting  
10 analysis?

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: No, I do not agree in  
13 this particular instance.

14 BY MR. SHEEHY:

15 Q Okay. And why don't you agree with  
16 that?

17 A Well, for starters, you know,  
18 Commissioner Precinct 1 under the old map does not  
19 cover Commissioner Precinct 1 under the new map.  
20 Basically, you know, those commissioner elections  
21 don't cover the entire county.

22 Q But you also didn't analyze the

1 county judge election, correct, Galveston County  
2 judge?

3 MR. GONZALEZ: Objection. Form.

4 THE WITNESS: I believe I have a  
5 County Court Judge 2 in 2018 that I haven't  
6 analyzed.

7 BY MR. SHEEHY:

8 Q Yes, I -- I see that. And that would  
9 be for a court of law. I'm referring to the  
10 Galveston County county judge election. So the  
11 county judge meaning the head of the Galveston  
12 County Government.

13 You did not analyze the county judge  
14 election, did you?

15 MR. GONZALEZ: Objection. Form.

16 THE WITNESS: These are the only  
17 elections -- general elections that I've analyzed.

18 BY MR. SHEEHY:

19 Q Okay. And the election for the  
20 Galveston County judge is not one of them, correct?

21 A That appears to be the case because I  
22 have County Court Judge 2.

1 Q Okay. You also didn't analyze  
2 elections in Galveston County Commissioner's Court  
3 Precinct 3, correct?

4 A Again --

5 MR. GONZALEZ: Objection. Form.

6 THE WITNESS: Again, these are the  
7 only general elections that I've analyzed.

8 BY MR. SHEEHY:

9 Q Okay. And Galveston County Precinct  
10 3 elections are not one of them, correct?

11 A Yes, that is correct.

12 Q Okay. Let's go to page 8, please.  
13 So here on page 8, if we could take a look at  
14 paragraph 24(a), you state that, "Primary elections  
15 are generally, quote, not very probative of voting  
16 patterns for larger demographic groups," correct?

17 A That is what I have written.

18 Q So I guess I want to parse that.  
19 "Generally not very probative." So are you saying  
20 that there is still probative value in analyzing  
21 primary elections?

22 A Yes, there could be some probative

1 value in analyzing primary questions -- elections  
2 depending on the question at hand.

3 Q Okay. So here, in Galveston County,  
4 are primary elections probative in analyzing  
5 racially polarized voting?

6 A As I mentioned in my report, they  
7 provide very marginal additional context for Black  
8 and Latino voting patterns in Galveston County.

9 Q Okay. Now, you have here I believe  
10 in paragraph (b), yeah, in paragraph 24(b), you  
11 state that, "Further, only voters with stronger  
12 partisan identification are likely to participate  
13 in partisan primaries in the first place, so they  
14 do not reflect the choice of all voters in a  
15 demographic group."

16 Did I read that correctly?

17 A Yes, that's -- that is what it says.

18 Q Are you basing that off of national  
19 studies?

20 I should say, are you basing that off  
21 of studies of national elections?

22 A What part of it are you asking me if

1 I'm basing it?

2 Q About the only voters with stronger  
3 partisan identification. I don't see a citation at  
4 the end of that particular sentence, so I'm asking  
5 you, what is the basis for that opinion?

6 A I see. Thanks for clarifying.

7 The basis for that, I mean, it's a  
8 generally common knowledge in political science  
9 research that people with stronger partisan  
10 identification, and other factors, are more likely  
11 to participate in partisan primaries.

12 Q Are you familiar with a study  
13 entitled, "On the Representativeness of Primary  
14 Electorates" by John Sides, Chris Tausanovitch,  
15 Lynn Vavreck, and Christopher Warshaw?

16 A On the top of my head, I don't recall  
17 the specifics, but if you show me the study, maybe  
18 that could refresh my memory.

19 Q So what they concluded was they  
20 studied elections from 2008 to 2015, and they  
21 concluded that, quote, primary voters are not  
22 demographically extinct or ideologically extreme

1 compared to those who identify with the party or  
2 who voted for its presidential candidate in the  
3 general election or then those who identify with  
4 the party and voted in the general election, but  
5 not the primary. The only substantial difference  
6 is that primary voters report more interest in  
7 politics.

8 Do you agree with that conclusion?

9 MR. GONZALEZ: Objection. Form.

10 THE WITNESS: I would have to read  
11 the full study to see how they reached their  
12 conclusions and what the context of what you just  
13 read and what the greater part of the study is.  
14 Without -- without looking at the study and  
15 reviewing it, which I'm happy to do, it would not  
16 be appropriate for me to agree or disagree with it.

17 BY MR. SHEEHY:

18 Q But -- and I guess going back to what  
19 you have written here, you did not cite a single  
20 journal article to support your assertion in  
21 paragraph 24(b).

22 A That appears to be the case, yes.

1 Q Okay. Is it possible that voters who  
2 are more interested in politics would better know  
3 which candidate represents the needs of their  
4 community?

5 MR. GONZALEZ: Objection. Form.

6 THE WITNESS: Are you asking me to  
7 speculate?

8 BY MR. SHEEHY:

9 Q I'm asking based upon your political  
10 science background, is it possible that voters are  
11 more interested in politics would know which  
12 candidate better represents the interest of their  
13 community?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: I mean, again, it would  
16 be speculation whether it's possible or not. A lot  
17 of things could be possible I suppose.

18 BY MR. SHEEHY:

19 Q And this would be one possibility,  
20 correct?

21 MR. GONZALEZ: Objection. Form.

22 THE WITNESS: Again, you have -- I

1 have to consider how it's political interest  
2 rather -- measured. Is that distinct from  
3 political knowledge, you know. I would have to  
4 see -- see those factors to be able to make a  
5 judgment about that.

6 BY MR. SHEEHY:

7 Q Well, someone who's more interested  
8 in politics, you know, follows the election,  
9 reviews the websites, listens to the speeches of  
10 the candidates, attends rallies for the candidates,  
11 would that person know which candidate better  
12 represents the interest of the community within  
13 which they live?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: In what jurisdiction?

16 BY MR. SHEEHY:

17 Q I'm just asking a hypothetical.

18 A Well, I -- I'm sorry, but your  
19 hypothetical is so vague that I'm not sure what  
20 you're asking. But are they more likely to know  
21 more about whether a presidential candidate  
22 represents their interest and identified who -- who

1 the presidential candidates are, or are you asking  
2 about local elections?

3 Q Your paragraph -- your statement in  
4 paragraph 24(b) is not making any distinction  
5 between presidential primaries or local primaries,  
6 correct?

7 A And my paragraph says nothing about  
8 local interest and its relationship, but candidate  
9 identification of choice.

10 Q Professor, my question was in  
11 paragraph 24(b), you are not making any distinction  
12 between national primary elections or local primary  
13 elections, correct?

14 A That appears to be correct, yes.

15 Q Okay. So I'm just asking you, in  
16 similar circumstances that you wrote paragraph  
17 24(b), is it possible that a person who is more  
18 politically interested, follows the candidates,  
19 reads their speeches, reads their platform, is it  
20 possible that that person has a better  
21 understanding of which candidate better represents  
22 the interest of their community?

1 MR. GONZALEZ: Objection. Form.

2 Objection. Asked and answered.

3 THE WITNESS: It depends how they  
4 interpret the information. It depends how they go  
5 about identifying the interest of their community,  
6 how they interpret the candidates' positions.

7 BY MR. SHEEHY:

8 Q Okay. Any other factors, Professor?

9 A That is what comes to mind at the  
10 moment.

11 Q In paragraph 24(a), you say that  
12 primary elections are not very probative because  
13 turnout is low, correct?

14 MR. GONZALEZ: I guess I'll object to  
15 the form.

16 You can answer.

17 THE WITNESS: Yes, relatively  
18 speaking, when compared to general elections, they  
19 are lower turnout.

20 BY MR. SHEEHY:

21 Q Okay. Now, the numbers that you're  
22 reporting here in paragraph 24(a), let's see, you

1 have -- there's a high of 19.8 percent and a low of  
2 10.4 percent, correct?

3 A Yeah, that's what appears to be the  
4 case. Yes.

5 Q Those are Texas statewide primary  
6 numbers?

7 MR. GONZALEZ: Actually, can I just  
8 object to the form there. Sorry.

9 BY MR. SHEEHY:

10 Q The numbers that you're reporting  
11 here, a low of 10.4 percent to a high of  
12 19.8 percent, those numbers --

13 MR. GONZALEZ: Objection.  
14 Mischaracterizing.

15 BY MR. SHEEHY:

16 Q Okay. "For example, voter turnout in  
17 Texas republican primaries between 2016 and 2020  
18 ranged from a low of 10.4 percent in 2018 to a high  
19 of 19.8 percent in 2016."

20 Did I read that correctly?

21 A That is what -- what it says.

22 Q Are those numbers Texas statewide

1 primary numbers?

2 A If you go -- scroll down a little  
3 bit, please. These are the sources of those  
4 estimates.

5 Q Okay. Is that a yes to my question,  
6 that they are Texas statewide numbers?

7 A Those are Texas republican -- I'm  
8 sorry. If you go up. Sorry, I need to see that  
9 section again.

10 Those are for Texas republican  
11 primaries, yes.

12 Q So statewide Texas republican  
13 primaries, correct, let me just make it clear?

14 A I believe so, if memory recalls, yes.  
15 That's how I voted, so it must be that, yes.

16 Q Okay. And then you say, "Turnout in  
17 the Texas Democratic primaries ranged from a low of  
18 7.2 percent in 2018 to a high of 13.1 percent in  
19 2020," correct?

20 A That is what is written, yes.

21 Q And that is for the statewide Texas  
22 democratic primaries?

1           A       If that's what I have written, then  
2           it must be the case, yes.

3           Q       Do you know what the turnout is for  
4           primary elections in Galveston County?

5           A       If it's not in my report, then I do  
6           not know.

7           Q       Do you know what the turnout rate is  
8           for Latino voters for general elections in  
9           Galveston County?

10          A       On top of my head, I cannot remember.

11          Q       Do you know what the turnout rate is  
12          for African-Americans in general elections for  
13          Galveston County?

14          A       Again, on top of my head, I'm not  
15          sure that turnout level data for African-Americans  
16          was available. I can't remember. But I -- I've  
17          written -- if it's my report, then, if you can show  
18          me, that would refresh my memory.

19          Q       I didn't see it in your report,  
20          that's why -- that's why I was asking.

21                    So let me ask you this: Turnout in  
22          primary elections in Texas is incredibly low. And

1 for incredibly low, you have a range of  
2 10.4 percent to 19.8 for republicans and  
3 7.2 percent to 13.1 percent for democrats, correct?

4 A Those are the numbers that I have  
5 written about.

6 Q So I guess at what point do -- does  
7 turnout become sufficiently high in a primary  
8 election to make it probative?

9 MR. GONZALEZ: Objection. Form.

10 THE WITNESS: I'm not sure I  
11 understand the question.

12 BY MR. SHEEHY:

13 Q Would you say that if turnout is  
14 25 percent in an election, is that sufficiently  
15 high to make the election probative?

16 MR. GONZALEZ: Objection. Form.

17 THE WITNESS: That's not the claim  
18 I -- I've made here.

19 BY MR. SHEEHY:

20 Q Your claim is, is that turnout in  
21 primary elections is incredibly low, and because  
22 it's low, the election results do not provide an

1 accurate or reliable picture. So I'm trying to  
2 find out at what point is turnout sufficiently high  
3 to make the election probative of racially  
4 polarized voting?

5 MR. GONZALEZ: Objection. Form.

6 THE WITNESS: On the same paragraph  
7 24(a), I have written that this means that the  
8 election results for any primary do not provide an  
9 accurate or reliable picture of the political  
10 choices of anything approaching a majority of any  
11 particular demographic group of voters.

12 BY MR. SHEEHY:

13 Q I see that. So I'm trying to find  
14 out at what point is turnout sufficiently high to  
15 make it probative to study for racially polarized  
16 voting analysis?

17 MR. GONZALEZ: Objection. Form.

18 THE WITNESS: The level of turnout is  
19 not the only thing that hinges on whether primary  
20 elections are not as probative as general  
21 elections.  
22

1 BY MR. SHEEHY:

2 Q Okay. So with -- just focusing on  
3 turnout for the moment, at what level does turnout  
4 become high enough to make an election potentially  
5 probative to study for racially polarized voting  
6 analysis?

7 MR. GONZALEZ: Objection. Form.

8 THE WITNESS: I guess implicit in  
9 your question is an assumption that that is the  
10 only factor that makes it probative. And I'm not  
11 sure that that is what I said in my report.

12 BY MR. SHEEHY:

13 Q As one factor, at what point do  
14 primary elections become probative for studying  
15 that election for racially polarized voting  
16 analysis?

17 MR. GONZALEZ: Objection.

18 THE WITNESS: As I mention in my  
19 report, there are multiple factors that go hand in  
20 hand and so you can't look at one factor in  
21 isolation.

22

1 BY MR. SHEEHY:

2 Q So what are the other factors,  
3 Professor?

4 Turnout. What else?

5 A What demographic groups participated  
6 in different primaries and to what extent they  
7 participated in different primaries.

8 Q Okay.

9 A And also what potential groups of  
10 voters might be more likely to participate in those  
11 primaries.

12 Q Okay. So let's say that 25 percent  
13 of Latinos and 25 percent of African-Americans and  
14 25 percent of White voters participate in a primary  
15 election, is that sufficiently high turnout to be  
16 probative for determining racially polarized  
17 voting?

18 MR. GONZALEZ: Objection. Form.

19 THE WITNESS: I believe you're asking  
20 the same question that I've answered, focusing  
21 again on one singular factor of assessing probative  
22 value of particular elections. As I mentioned,

1           there are a combination of factors that go hand in  
2           hand in determining the probative value of the  
3           types of elections that you're analyzing.

4           BY MR. SHEEHY:

5                   Q        So you've told me that, you know,  
6           turnout obviously is one of them, one factor.  
7           Who's voting in the primary election, correct, is  
8           another factor?

9                            What are the other factors, if any?

10                   A        I believe paragraph 24(a) and (b)  
11           lists those example factors that make it less  
12           probative compared to general elections.

13                   Q        Okay. So if we have 25 percent of  
14           Latinos, 25 percent of African-Americans, and  
15           25 percent of White voters voting in a primary, and  
16           the Warshaw report is accurate, that the  
17           ideological preferences of primary voters and  
18           general election voters are the same, does that  
19           make an election -- primary election probative for  
20           racially polarized voting analysis?

21                            MR. GONZALEZ: Objection. Form. And  
22           asked and answered.

1 THE WITNESS: I have not looked at  
2 that report or article that you are referring to  
3 to -- or you have not shared that with me for me to  
4 assess what the specific arguments of that are to  
5 be able to answer this question that you're asking.

6 BY MR. SHEEHY:

7 Q So it's a hypothetical question. So  
8 just assuming for purposes of the hypothetical  
9 question that the Warsaw paper is accurate;  
10 25 percent White voters, 25 percent Latino voters,  
11 25 percent African-American voters voting in a  
12 primary election and the electorate is no more  
13 ideologically partisan in a primary election than  
14 they are in the general election. Is that  
15 sufficiently probative for analysis for racially  
16 polarized voting?

17 MR. GONZALEZ: Objection to form.  
18 And asked and answered.

19 THE WITNESS: I'm sorry, but you're  
20 asking -- and I really do want to answer your  
21 question, it's just you're asking a lot of  
22 hypotheticals that may or may not be true, and you

1 want me to provide some sort of answer based on  
2 various factors that may absolutely not be true.  
3 And they're completely hypothetically made up.

4 I can answer questions of things  
5 that I have looked into and analyzed, but playing  
6 this hypothetical game is really -- I'm not  
7 comfortable making those statements of  
8 hypotheticals because that would just be  
9 conjecture on my part.

10 BY MR. SHEEHY:

11 Q In -- in the state of Maryland for  
12 your case with the NAACP, I believe, versus  
13 Baltimore County, did you analyze primary elections  
14 for that report?

15 A If you shared the report with me and  
16 I can read through it, I would be able to -- I just  
17 want to make sure I accurately answer the question.  
18 I would have to look at the report to see if I did  
19 or not.

20 Q Do you recall analyzing the Chris Van  
21 Hollen and Donna Edwards election -- primary  
22 election?

1           A       I have analyzed a lot of elections in  
2           the state of Maryland, so at some point I may have  
3           analyzed that. I'm not sure if it was for that  
4           specific case or not, but I -- I would presume that  
5           I've generally analyzed in the state of Maryland  
6           that particular election.

7           Q       So what would make the Chris Van  
8           Hollen and Donna Edwards primary election probative  
9           of racially polarized vote?

10          A       Are you asking me a hypothetical  
11          question again?

12          Q       No. That's -- it's a real election  
13          from 2014, African-American woman, Donna Edwards,  
14          White male, Chris Van Hollen, 2014 Democratic  
15          Primary for U.S. Senate in Maryland.

16          A       Well, it depends on the case and what  
17          the questions that you are trying to answer in that  
18          case, that would determine its probative value.

19          Q       Well, whether or not there was  
20          racially polarized voting in Maryland?

21          A       In -- in the entire state of  
22          Maryland?

1 Q In Baltimore County.

2 A I would have to look at the specifics  
3 of that report if I did analyze that election in  
4 that report to refresh my memory of -- of whether,  
5 first of all, I analyzed that election and what  
6 purpose that election served.

7 Q Okay. So based upon your work  
8 analyzing elections for racially polarized voting,  
9 what causes you to determine that a primary  
10 election is probative of racially polarized voting?

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: I don't think it's  
13 discrete probative or not. As I mentioned in this  
14 report, primary elections in this particular  
15 context are generally not very probative. I never  
16 said it's not probative.

17 BY MR. SHEEHY:

18 Q Correct. So it is probative here in  
19 Texas. We made that -- we did make that point  
20 earlier. So I'm just asking you, at what point do  
21 primary election results become, let's say, very  
22 probative of racially polarized voting?

1 MR. GONZALEZ: Objection. Form.

2 THE WITNESS: I can only speak of the  
3 jurisdiction that I analyzed and have the full  
4 picture of. Now, if you present me the report that  
5 I can read through and I can refresh my memory, I  
6 may be able to provide a different answer that  
7 you're looking for.

8 In this particular case, I  
9 mentioned the reasons for which it is -- primary  
10 elections are not as probative or less probative  
11 as general elections given the differences that  
12 are highlighted here in this report.

13 BY MR. SHEEHY:

14 Q What about for general elections, is  
15 there a point where turnout is too low in a general  
16 election to be not probative?

17 A Again, you're hinging the probative  
18 value of elections solely on one factor. As I  
19 mentioned, it is a combination of factors that  
20 enable analysts, political scientist, and  
21 specifically in my case, to be able to make  
22 judgments about its probative value. And actually

1           you should know by the way that at the end of the  
2           day, the court decides the probative value of these  
3           elections.

4                   Q        So when you're selecting elections to  
5           analyze for racially polarized voting, do you ever  
6           look at the turnout and say, "Maybe I need to check  
7           other factors before I analyze this election"?

8                   A        Could you rephrase that question,  
9           please?

10                   Q        So in a general election, and as  
11           you're choosing elections to study for racially  
12           polarized voting, have you -- have you looked at an  
13           election and said, "The turnout is too low, I need  
14           to analyze other factors before I decide this  
15           election is probative"?

16                   A        Again, in your question you're  
17           assuming that's the first or number one factor of  
18           determining the probative value for elections.

19                   Q        I'm not assuming that at all. It's  
20           just one factor, and you're looking at the turnout  
21           and you're saying, "I think I need to look at other  
22           things before I decide to choose this election for

1 analysis."

2 A Relatively speaking, if I'm comparing  
3 potentially different general elections, and one  
4 election had incredibly oddly low turnout and  
5 another one more people participated in, I guess in  
6 that scenario, you would determine that perhaps --  
7 again, it's a combination of different factors,  
8 it's not just one factor, that perhaps the other  
9 election may provide higher probative value.

10 Q Is there a turnout level for you in  
11 general elections that you would say that is likely  
12 too low to analyze comparative to other factors?

13 A Not that I recall that I made that  
14 kind of one-shot analysis or one-shot comparison.

15 Q I mean --

16 A The difference between -- the  
17 difference between general elections and primary  
18 elections is that in general elections, presumably,  
19 all voters, eligible voters could participate in  
20 the general election; whereas, like in a primary  
21 election, especially if it's like, let's say, a  
22 partisan primary election, depending on the state

1 or depending on jurisdictions, you know, democrats  
2 don't participate in republican primaries and  
3 republicans don't participate in democrat  
4 primaries, but at least the vast, vast majority or,  
5 you know, or not at all.

6 Q So in paragraph 24(a), below in Texas  
7 republican primaries was 10.4 percent. What if the  
8 turnout for the general election was 10.4 percent,  
9 would you describe that turnout as low?

10 A Again, there's another factor and  
11 difference between these two elections. This is a  
12 republican primary, the other one would be a  
13 general election in which the same candidate pool  
14 would be available to voters.

15 Primary elections limit candidate --  
16 you know, limit voters to one party's candidate, as  
17 I have cited in paragraph 24(b).

18 Q Unless the state has an open primary,  
19 correct?

20 A Even if a state has open primary,  
21 that doesn't mean that -- that primary is, you  
22 know, other -- other party members or other

1 demographic groups would participate in that  
2 primary.

3 Q But it would be equally open to  
4 anyone who wanted to vote in either primary,  
5 correct?

6 A If it's an open primary --

7 MR. GONZALEZ: Objection. Form.

8 THE WITNESS: -- presumably, it would  
9 be open.

10 BY MR. SHEEHY:

11 Q So with a general election, my  
12 question is, do you have the same concern that  
13 turnout at 10.4 percent is too low in a general  
14 election?

15 MR. GONZALEZ: Objection. Form.

16 THE WITNESS: I think I answered that  
17 question.

18 BY MR. SHEEHY:

19 Q Well, I think you said there are  
20 differences between general elections and primary  
21 elections. I'm just wanting an answer, do you have  
22 the same concern that 10.4 percent is too low in a

1 general election?

2 A Well, there's --

3 MR. GONZALEZ: Objection. Form.

4 THE WITNESS: As I mentioned again,  
5 in answer to that question, there's yet another key  
6 factor that's different between the primary and  
7 general election, in that in a general election,  
8 the same candidate pool is available to the voters.  
9 But that's not necessarily the case in primary  
10 elections.

11 BY MR. SHEEHY:

12 Q So 10.4 percent turnout in a general  
13 election does not trouble you because the  
14 candidates in that election are open to everybody.  
15 Is that your testimony?

16 MR. GONZALEZ: Objection. Form.

17 THE WITNESS: No, that is not my  
18 testimony.

19 BY MR. SHEEHY:

20 Q Okay. So I'm just asking if you're  
21 looking at a general election and turnout is  
22 10.4 percent, are you concerned about the probative

1 value of that election?

2 A Could you clarify what you mean by  
3 "concern"?

4 Q What I'm wanting to know is do you  
5 think that a low turnout of 10.4 percent in a  
6 general election detracts from the probative value  
7 of an election?

8 A As I mentioned again, there are a  
9 variety of circumstances that you have to take into  
10 account in addition to turnout. So it depends on  
11 the jurisdiction and the different factors. I  
12 mean, you can't just make these deterministic  
13 statements and apply to every single jurisdiction.

14 Q So in Galveston County, if general  
15 elections have a turnout of 10.4 percent, would  
16 you, looking at that turnout for that election,  
17 think that the probative value of that election is  
18 not very much?

19 A I can only speak to the analysis that  
20 I conducted. Again, we're getting back to the  
21 realm of hypotheticals that I'm not comfortable to  
22 answer because it's simply a hypothetical, and, you

1 know, I don't have all the facts in front of me to  
2 be able to make those kind of judgments. It -- it  
3 wouldn't accurate or appropriate to make those  
4 judgments.

5 Q Well, you're testifying and giving an  
6 opinion about racially polarized voting in  
7 Galveston County, and you're saying that primary  
8 elections are not very probative because, in part,  
9 of low turnout. And I'm wanting to know -- and low  
10 turnout with Texas state numbers, but I'm wanting  
11 to know if in Galveston County -- well, let's ask  
12 it this way: Of the 25 elections that you  
13 analyzed, did you analyze what the turnout rate was  
14 for African-American voters?

15 A As I mentioned, I don't recall  
16 finding data or African-American-specific turnout.

17 Q Okay. You're saying the answer for  
18 Latinos in Galveston County?

19 A I'm pretty sure I mentioned something  
20 about Latinos and that there was a surname -- the  
21 Texas Legislative Council had a surname-based  
22 Latino/Hispanic estimate for turnouts. I'm pretty

1           sure I mentioned that. So I would have to review  
2           the report, or if you go to that section of the  
3           report, I would be able to more accurately answer  
4           that question.

5                   Q       We can certainly do that.

6                            But at no point -- we'll come back to  
7           this. But at no point did you find in the 25  
8           general elections that you studied, that turnout  
9           among Anglo voters, Latino voters or  
10          African-American voters was too low, correct?

11                   A       Are you asking if I made such  
12          statements in my report?

13                   Q       I'm just asking you in analyzing  
14          those elections, you made a determination that none  
15          of those elections had turnouts that was too low?

16                            MR. GONZALEZ: Objection. Form.

17                            THE WITNESS: I'm not sure I made  
18          such statements at all in -- in my report.

19          BY MR. SHEEHY:

20                   Q       In the 25 general elections that you  
21          studied, did you look at the turnout for those  
22          elections?

1           A       In the 25 general elections that I  
2       studied, whether I looked at the turnouts? I don't  
3       recall specifically.

4           Q       Okay.

5           A       But I did conduct a turnout analysis,  
6       so . . .

7           Q       You also state in paragraph 24(b)  
8       that the stakes in the primary election are lower  
9       and that it is the general election that ultimately  
10      decides which candidate will be the one actually  
11      elected to office. Is that correct?

12          A       In the American elections, you have  
13      to win the general election to be a representative  
14      of the jurisdiction.

15          Q       Yes. But are there jurisdictions  
16      that you have studied where one party has  
17      sufficient support that the primary election  
18      becomes -- or the stakes in the primary election  
19      are substantially higher?

20          A       I'm not sure I understand the  
21      question. Could you please rephrase?

22          Q       So I live in Washington, D.C., and

1 Washington, D.C. has had a mayor from the  
2 democratic party since approximately 1967. So  
3 would you agree with me that in a jurisdiction like  
4 Washington, D.C., the stakes are substantially  
5 higher in the democratic primary?

6 A Stakes, as it pertains to analysis of  
7 racially polarized voting patterns?

8 Q Well, you're saying that primary  
9 elections are -- or the stakes are not high in  
10 primary elections because it's the general election  
11 where the candidate is actually elected.

12 So my question to you is: Okay. But  
13 what about in jurisdictions where, like Washington,  
14 D.C., the democratic party has elected a mayor or  
15 the mayor has been from the democratic party  
16 consistently since 1967, doesn't that mean that the  
17 stakes are substantially higher in primary  
18 elections in jurisdictions like Washington, D.C.?

19 MR. GONZALEZ: Objection. Form.

20 THE WITNESS: Are you suggesting that  
21 because in the general election, in the Washington,  
22 D.C. example that you provided, a democrat has been

1 winning for a -- you know, a number of years, or  
2 decades in the case that you presented, whether  
3 primary elections play a more colorful role than  
4 general elections in determining who ends up  
5 winning?

6 BY MR. SHEEHY:

7 Q Well, I'm using your words from your  
8 report that the stakes are higher.

9 A In the context of Galveston County,  
10 but you asked me about Washington, D.C.

11 Q Yes.

12 So in a jurisdiction like Washington,  
13 D.C., aren't the stakes higher in the primary  
14 elections?

15 A I'm talking about stakes in terms of  
16 racially polarized voting. Are you asking about  
17 racially polarized voting analysis in Washington,  
18 D.C. and whether the stakes are higher or lower  
19 with respect to that sort of analysis?

20 Q No.

21 I'm asking exactly the same meaning,  
22 the stakes of an election are lower, you say that

1 in paragraph 24(b), that the stakes of the election  
2 are lower because it's the general election that  
3 ultimately decides which candidate will be actually  
4 elected.

5 My question to you is: Is that in a  
6 very similar way, primary elections, for example in  
7 Washington, D.C., aren't the stakes higher in  
8 primary elections in jurisdictions like Washington,  
9 D.C.?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: What I have written is  
12 very specific about a report and analysis of  
13 Galveston County. So I'm not sure without  
14 additional information and analysis of another  
15 jurisdiction, whether stakes are higher or lower  
16 with respect to racially polarized voting analysis.

17 Again, this report is about  
18 racially polarized voting analysis in Galveston  
19 County. And I provided additional context about  
20 who participates in primaries and who doesn't and  
21 all the other factors that I've listed.  
22

1 BY MR. SHEEHY:

2 Q Right, but the full sentence here is,  
3 "The ideological positions of candidates in primary  
4 elections are likely to be closer to each other and  
5 the stakes of the election are lower and that it's  
6 the general election that ultimately decides which  
7 candidate will be the one actually elected to  
8 office."

9 So you're not citing anything about  
10 Galveston County here, correct?

11 A This report is about Galveston  
12 County.

13 Q But you're using Texas state data in  
14 the prior paragraph. And then in subparagraph B, I  
15 mean, you're not providing any citation to where  
16 you're getting the ideological positions of the  
17 candidates in primary elections are likely to be  
18 closer to each other, correct?

19 I don't -- you're not providing a  
20 citation to anything for that statement, correct?

21 A Could you ask the question one by  
22 one, because I feel like there was multiple

1 questions in the one that you asked back to back?

2 Q The ideological positions of the  
3 candidates in primary elections are likely to be  
4 closer to each other. Okay. I don't see a  
5 citation for that assertion, correct?

6 A That is correct.

7 Q Okay. So you're making a general  
8 observation in that statement, correct?

9 A In the context of my report for  
10 Galveston County, correct.

11 Q But in the context of these two  
12 paragraphs, you're not citing anything from  
13 Galveston County, correct?

14 A Well, Galveston County is within the  
15 state of Texas.

16 Q Yes. But you're citing Texas state  
17 data in paragraph (a), and you're not citing any  
18 data about Texas or Galveston County in  
19 subparagraph (b), correct?

20 A My report is not just of paragraph  
21 24(a) and (b). There are other sections that I  
22 provide additional background about primary

1 elections that you're not showing. And I've asked  
2 you to go through those sections because there are  
3 other factors that I also considered in making  
4 these statements.

5 Q Did you study the ideological  
6 positions of Galveston County primary elections?

7 A Could you -- could you repeat that  
8 question again? I just want to make sure I  
9 understand it.

10 Q Did you study the ideological  
11 positions of the candidates in primary elections in  
12 Galveston County?

13 A In the primary elections that I  
14 analyzed?

15 Q Yes.

16 Did you analyze those candidates'  
17 ideological positions?

18 A Insofar as the partisan identity  
19 might suggest common ideological positions, one  
20 could say that I did consider that.

21 Q Well, you only considered democratic  
22 primary elections --

1 A Right.

2 Q -- correct?

3 A Correct.

4 Q And you would agree with me that the  
5 range of ideologies within the demographic party is  
6 quite broad, correct?

7 MR. GONZALEZ: Objection. Form.

8 THE WITNESS: That's incorrect. I  
9 don't agree.

10 BY MR. SHEEHY:

11 Q You think that -- well, you think  
12 that there are -- there's broad -- well, for the  
13 elections that you studied, the democratic primary  
14 elections, did you go to any of the candidates'  
15 websites to study their positions on various  
16 issues?

17 A No, not that I recall.

18 Q So you don't know if those democratic  
19 primary candidates agreed on any issue for that  
20 matter, particularly in Galveston County?

21 MR. GONZALEZ: Objection. Form.

22 THE WITNESS: I didn't claim that

1 they agreed or disagreed on any issues.

2 BY MR. SHEEHY:

3 Q Okay. So -- and you also in this  
4 first phrase in paragraph 24(b), hedge your  
5 conclusion here. You say, "The ideological  
6 positions of the candidates in primary elections  
7 are likely to be closer to each other."

8 Are you saying "likely" because you  
9 don't know?

10 MR. GONZALEZ: Objection. Form.

11 THE WITNESS: I'm sorry, what's the  
12 question?

13 BY MR. SHEEHY:

14 Q Are you saying the word "likely" in  
15 the first clause of paragraph 24(b) because you  
16 don't know if they are, in fact, closer to each  
17 other?

18 A Likely is a common term that is used  
19 even when you're estimating vote choice, because  
20 you don't know the true parameters of vote choice,  
21 for instance.

22 Q So --

1           A        If I could -- sorry. I guess another  
2           way to put it is when you're looking at -- within  
3           the democratic primary, you're looking at a set of  
4           democrats, their ideological position is likely to  
5           be closer to one another than republicans.

6           Q        Okay. So what you're saying is, is  
7           that the ideological position between democratic  
8           Candidate A and democratic Candidate B is likely to  
9           be closer than democratic Candidate A and  
10          republican Candidate A?

11          A        Looking at across a range of  
12          candidates, I think it's an accurate statement to  
13          say that the ideological position of democrats,  
14          them to be closer to one another than the range of  
15          republicans.

16          Q        Okay. But you didn't actually study  
17          the positions of the democratic primary candidates  
18          for the elections that you analyzed, correct?

19          A        As I mentioned, you can infer  
20          ideological positions to some degree based on  
21          partisan identity.

22          Q        Okay. But you're inferring, but you

1 don't know the candidate's position in the  
2 democratic primary elections that you analyzed?

3 A I believe I'm accurately representing  
4 what I said by saying the ideological position of  
5 candidates in primary elections are likely to be  
6 closer to each other.

7 Q Okay.

8 MR. SHEEHY: Okay. Let's pull up  
9 Exhibit 3, if we could, please. This is going to  
10 be your rebuttal report.

11 (Oskooii Deposition Exhibit Number 3  
12 marked for identification.)

13 BY MR. SHEEHY:

14 Q Your April 4, 2023 corrected rebuttal  
15 report.

16 A Okay.

17 Q So, Professor, do you see Exhibit 3  
18 in front of you?

19 A No, I don't.

20 Q Okay. Now do you see Exhibit 3 in  
21 front of you?

22 A I see a page that says Exhibit 3,

1 yes.

2 Q Okay. And we can scroll down for  
3 you. And just like we did with the first exhibit,  
4 just verify that is your signature?

5 A Yes, that is my signature.

6 Q Okay. And it's dated April 4th,  
7 2023?

8 A That is what I see.

9 Q Okay. And then we can kind of slowly  
10 scroll up. And this is a complete and accurate  
11 copy of your corrected April 4th, 2023 report?

12 MR. GONZALEZ: Objection. Form.

13 THE WITNESS: If you could scroll  
14 down please so I can see every page.

15 BY MR. SHEEHY:

16 Q Uh-huh.

17 A Yeah, one second please, right here.  
18 If could you just one second. Okay. That appears  
19 to be the corrected version, yes.

20 Q Okay. And the only correction you  
21 made was the line here, "Only 1 out of 18  
22 republican officials." Was that the correction you

1 made?

2 A And also the associate percentage.

3 Q And the associated percentage. Okay.

4 A In the parentheses, yeah.

5 Q Okay. All right. So let's go to  
6 paragraph 7. So here you say, "Although the race  
7 of candidates is not on its own relevant to  
8 determine who the minority and Anglo candidate of  
9 choice are strictly for Gingles 2/3 analysis."

10 I guess my question to you is: Do  
11 you agree that racially contested elections where  
12 one candidate is African-American and the other  
13 candidate is White are more probative of racially  
14 polarized voting analysis than where two candidates  
15 are of the same race.

16 MR. GONZALEZ: Objection. Form.

17 THE WITNESS: You just asked me about  
18 paragraph 7, and you stated that although the race  
19 of candidates is not on its own relevant to  
20 determine who the minority Anglo candidates of  
21 choice are. So this is about determining the  
22 candidates of choice, not the probative value of

1 particular elections. So I'm sorry, could you  
2 repeat what you're trying to ask?

3 BY MR. SHEEHY:

4 Q Yes.

5 I mean, it's just -- the question  
6 that I have on -- we can put paragraph 7 aside for  
7 the moment, but I guess my question to you is: Do  
8 you agree that racially contested elections, where  
9 one candidate is African-American and one candidate  
10 is White, for example, are more probative of  
11 racially polarized voting than those elections  
12 where two candidates are of the same race?

13 MR. GONZALEZ: Objection. Form.

14 THE WITNESS: It depends on the  
15 context.

16 BY MR. SHEEHY:

17 Q Okay. In Galveston County?

18 A It depends on the context.

19 Q Okay. What more context do you need?

20 A Well --

21 MR. GONZALEZ: Objection. Form.

22 THE WITNESS: -- you have to see

1           whether the -- the racially ethnic minority  
2           demographic groups prefer that African-American  
3           candidate or not and also observe the voting  
4           preference, in this case Anglo voters, to be able  
5           to assign it a probative value relatively speaking  
6           to the other example that you mentioned.

7           BY MR. SHEEHY:

8                     Q       So sometimes -- just to make sure I  
9           understand your testimony.

10                    Sometimes racially contested  
11           elections are more probative than elections between  
12           two candidates of the same race and sometimes  
13           they're not. Is that your testimony?

14                   MR. GONZALEZ: Objection. Form.

15                   THE WITNESS: That is not what I  
16           stated.

17           BY MR. SHEEHY:

18                     Q       Okay. You said it depends on the  
19           factors, correct?

20                    A       That is what I stated, yes.

21                     Q       Okay. So, I mean, sometimes the  
22           factors would come out to say it's more probative,

1 sometimes factors may come out that say it's not so  
2 probative. So am I understanding your testimony  
3 correctly?

4 A Sorry. What was the question?

5 Q Okay. We can go back to paragraph 7.  
6 So you continue saying, "The racial makeup of the  
7 candidates is telling in this instance as to the  
8 interconnectedness of race and partisanship in this  
9 jurisdiction and is consistent with what one might  
10 expect from a region where there is a high degree  
11 of racially polarized voting."

12 Did I read that correctly?

13 A Yes.

14 Q Okay. Now, you don't cite an  
15 academic journal to support this inference that  
16 you're making, correct?

17 A I provided the data and analysis that  
18 I conducted here to draw that inference.

19 Q But you don't have -- you don't cite  
20 an academic journal to support the inference that  
21 you're drawing, correct?

22 MR. GONZALEZ: Objection. Form.

1 THE WITNESS: Could you clarify  
2 please what specific inference here that you're  
3 asking about?

4 BY MR. SHEEHY:

5 Q You say that, "It is the  
6 interconnectedness of race and partisanship in this  
7 jurisdiction and is consistent with what one might  
8 expect from a region where there's a high degree of  
9 racially polarized voting."

10 So I guess I'll ask it this way: Is  
11 there consensus within the political science  
12 community that would support this inference that  
13 you are making?

14 A That there is an interconnectedness  
15 between race and partisanship?

16 Q Yes.

17 A I would say that there is  
18 literature -- great deal of literature and research  
19 such as saying that race and partisanship are  
20 interconnected, yes.

21 Q Okay. And is there scholarship in  
22 the political science community that analyzes -- or

1 not analyzes, but proposes how one can  
2 differentiate between racial reasons in voting as  
3 opposed to partisan reasons in voting?

4 MR. GONZALEZ: Objection. Form.

5 THE WITNESS: You're asking me if  
6 such research is out there?

7 BY MR. SHEEHY:

8 Q Yes.

9 A There is -- again, there is research  
10 on the relationship between race and partisanship,  
11 yes, there is.

12 Q And is there research distinguishing  
13 between when someone is casting a ballot for racial  
14 reasons as opposed to casting a ballot for partisan  
15 reasons?

16 MR. GONZALEZ: Objection. Form.

17 THE WITNESS: I can only answer  
18 questions about what I presented here. If you're  
19 asking me if such research potentially exists, then  
20 I would have to conduct a literature review of that  
21 specific topic to tell you more details.  
22

1 BY MR. SHEEHY:

2 Q Okay. You have in this same  
3 paragraph, this statement, "Ted Cruz, who may be  
4 readily externally identifiable by voters as a  
5 person of color (either by their physical  
6 appearance or by an ethnic surname)."

7 Did I read that correctly?

8 A Yes.

9 Q Are you aware that Senator Ted Cruz  
10 is the first Latino senator to represent Texas?

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: Are you asking if  
13 Senator Cruz identifies himself saying that he's  
14 the first Latino senator to be elected from the  
15 state of Texas?

16 BY MR. SHEEHY:

17 Q I'm asking you, are you aware that he  
18 is the first Latino senator to be elected from the  
19 state of Texas?

20 MR. GONZALEZ: Objection. Form.

21 THE WITNESS: Well, to answer that  
22 question, I would have to know how Ted Cruz

1 identifies himself as. Does he identify himself as  
2 primarily Latino?

3 BY MR. SHEEHY:

4 Q He does identify himself as Latino,  
5 yes.

6 A Okay. So in that case, then, if he  
7 identifies himself as Latino, I think, you know, my  
8 statement in this report is a match with what you  
9 just said.

10 Q Okay. Well, I guess, let me ask you  
11 this: What is the purpose of the word "externally"  
12 here?

13 A In this particular --

14 Q And maybe --

15 A Sorry. Go ahead.

16 Q Just to be clear, "Who may be readily  
17 externally identifiable." So what do you mean by  
18 "externally"?

19 A Well, it means that by either  
20 physical appearance or by ethnic surname.

21 Q Okay. I mean, you're not -- you're  
22 not disputing that Senator Cruz is Latino, are you?

1           A       I did not write about whether or not  
2       Senator Cruz identifies himself as Latino or not.

3           Q       So if we compare further down, you  
4       say, "Only one 1 of 19 Republican officials is  
5       readily externally identifiable as a person of  
6       color, and that official, Commissioner Robin  
7       Armstrong."

8           A       I'm sorry?

9           Q       And so in the sentence about Ted  
10      Cruz, you have the word "may be readily externally  
11      identifiable." But that word "may" is not here  
12      referring to Commissioner Armstrong. So what was  
13      the purpose of putting the word "may" in the  
14      sentence about Ted Cruz?

15          A       Maybe it's just a writing -- writing  
16      style. I'm not sure I paid that much detail into  
17      that specific word here.

18          Q       I believe you testified earlier that  
19      you spent, you know, approximately ten hours  
20      drafting this report. You didn't pay particular  
21      attention to the word choices in your report?

22                   MR. GONZALEZ: Objection.

1 Mischaracterizing.

2 THE WITNESS: That -- yeah, that --  
3 that is not what I stated.

4 BY MR. SHEEHY:

5 Q So what did you state then?

6 A You asked me about that one  
7 particular word "may."

8 Q So are you saying that the word "may"  
9 is a mistake on your part?

10 A No.

11 MR. GONZALEZ: Objection.

12 BY MR. SHEEHY:

13 Q Okay. So what's the reason behind  
14 having the word "may be readily" for Ted Cruz and  
15 Commissioner Armstrong "is readily"?

16 A I suppose you could have both as  
17 "may" readily by name or physical appearance.

18 Q So Ted Cruz may be readily externally  
19 identifiable as a person of color and Commissioner  
20 Armstrong may be readily externally identifiable as  
21 a person of color. Is that what I'm understanding  
22 you to say, that the word "may" could be used in

1 both cases?

2 A Yes, based on physical appearance or  
3 a surname that voters may be able to identify those  
4 candidates as people of color.

5 Q You're not disputing though that  
6 Commissioner Armstrong is African-American?

7 A I don't -- I don't have any reason to  
8 dispute that necessarily.

9 Q Why do you say necessarily?

10 A Because I don't know if Commissioner  
11 Robin Armstrong identifies himself as  
12 African-American because he could identify himself  
13 as something different.

14 Q Have you seen -- well, I mean --  
15 okay.

16 In preparing your report, what  
17 research did you do into Commissioner Armstrong, if  
18 any?

19 A I looked up if Commissioner Robin  
20 Armstrong is representative -- is representing that  
21 subject jurisdiction, and, you know, how  
22 commissioner Robin Armstrong was elected. And then

1 as I mentioned in my report, I also looked up other  
2 identifying information about these candidates to  
3 make these determinations about their potential  
4 race or ethnic background.

5 Q Okay.

6 MR. SHEEHY: I think we've been going  
7 about an hour and change, why don't we take a  
8 few-minutes break and we can come back. And I  
9 think we can probably finish up here in the next 30  
10 minutes. Sound good?

11 A Sounds good to me. Thank you.

12 Q Okay. Thank you.

13 VIDEOGRAPHER: We are going off the  
14 record. The time on the video is 4:35 p.m.

15 (Recess from 4:35 p.m. to 4:46 p.m.)

16 VIDEOGRAPHER: We're back on the  
17 records. The time on the video is 4:46 p.m.

18 BY MR. SHEEHY:

19 Q Professor Oskooii, I'd like to look  
20 at paragraph 3 on page 2 of Exhibit 2, which is  
21 your January 13th, 2023 report. It says here that  
22 the RxC Ecological Inference Method in EI Rows by

1 Columns Method. It says that these statistical  
2 methods that you rely on estimate vote choice by  
3 race and are agnostic as to why voter support or  
4 oppose different candidates. The analysis simply  
5 shows which candidates different groups of voters  
6 prefer.

7 Did I read that correctly?

8 A Yes.

9 Q Okay. By "agnostic," do you mean  
10 that ecological inference and RxC cannot  
11 determine -- or sorry.

12 By "agnostic," do you mean that  
13 ecological inference and RxC do not know why a  
14 voter is voting for a particular candidate?

15 A Yes. Methods don't provide  
16 explanations. These are simply tools or  
17 statistical methods that estimate vote choice.  
18 They don't explain why.

19 Q Okay. And if we could go --

20 MR. SHEEHY: And I'm sorry to do  
21 this, Ms. Norwood, if we can go to Exhibit 3, which  
22 is the April 4th report. And if we could go to

1 page 2, paragraph 5 -- or I'm sorry, page 4,  
2 paragraph 8.

3 BY MR. SHEEHY:

4 Q So here you say, "Generally over  
5 85 percent of Anglos vote for Republican candidates  
6 in general -- in the general election, which  
7 happens to be their candidate of choice in  
8 Galveston County for a range of possible reasons  
9 not relevant to Gingles 2/3 inquires."

10 Now, is this kind of following on  
11 your statement in Exhibit 2, that the EI methods  
12 are agnostic as to the reasons why voters are  
13 voting for candidates?

14 MR. GONZALEZ: Objection. Form.

15 THE WITNESS: Any statistical tool or  
16 method on its own would not provide an explanation  
17 of the reasons for which relationships exists.

18 BY MR. SHEEHY:

19 Q And here you're saying that there's a  
20 range of possible reasons for why Anglo voters are  
21 voting republican in Galveston County?

22 A That is what I have written, yes.

1 Q And you're not offering an opinion in  
2 this case as to any particular reason for why Anglo  
3 voters are voting republican in Galveston County?

4 A As I mentioned, my analysis only  
5 reveals which candidates demographics prefer, not  
6 the reasons for their preference.

7 Q Okay. And so just to be clear, you  
8 are not offering an opinion in any way as to why  
9 Anglo voters are voting republican in Galveston  
10 County?

11 MR. GONZALEZ: Objection. Form.

12 THE WITNESS: Could you clarify what  
13 you mean by "any opinion"?

14 Are you asking if I provided  
15 specific reasons for their vote of choice for  
16 republicans?

17 BY MR. SHEEHY:

18 Q I'm just asking you, you're not  
19 offering an opinion in this case as to why Anglo  
20 voters are voting republican in Galveston County  
21 elections?

22 A Based on paragraph 8 of the April 4

1 corrected rebuttal report, I merely state that the  
2 range of possible reasons, but that's -- that's the  
3 opinion that I -- that I provide.

4 Q The range of possible reasons, but  
5 not -- you're not offering an opinion as to any  
6 particular reason as to why Galveston County Anglo  
7 voters are voting republican, correct?

8 A I would say that generally seems  
9 accurate, yes.

10 Q Okay. Do you know -- do you know  
11 that Texas permitted straight-ticket voting until  
12 September of 2020?

13 MR. GONZALEZ: Objection. Form.

14 THE WITNESS: I'm not aware of the  
15 specific timelines that you mentioned, no.

16 BY MR. SHEEHY:

17 Q Okay. Does the use of  
18 straight-ticket voting impact your analysis in any  
19 way?

20 A Just to be -- I just want to make  
21 sure I'm on the same page with you. How are you  
22 defining straight-ticket voting?

1 Q The ability to walk into a voting  
2 booth and just select republican party and all  
3 republican party candidates are selected and voted  
4 for. And same thing for democrats.

5 A Okay. Thank you for providing that  
6 clarification. So I understand what you mean by  
7 straight-ticket voting. Could you now ask your  
8 question again?

9 Q So does the use of straight-ticket  
10 voting in Texas until September of 2020, does that  
11 impact your analysis in the 2016 and 2018  
12 elections?

13 MR. GONZALEZ: Objection. Form.

14 THE WITNESS: I did not consider --  
15 or I should say, the data does not enable me to  
16 consider individual level straight-ticket voting to  
17 be able to provide an opinion on that.

18 BY MR. SHEEHY:

19 Q Okay. Does the practice of  
20 split-ticket voting impact your analysis at all in  
21 Galveston County?

22 MR. GONZALEZ: Objection. Form.

1 THE WITNESS: Once again, I did not  
2 conduct such an analysis to be able to assert to  
3 the extent to which that would impact my opinions.

4 BY MR. SHEEHY:

5 Q And you understand what I mean when I  
6 say "split-ticket voting"?

7 A I think I understand what you mean,  
8 but if -- if you want to clarify so we're on the  
9 same page.

10 Q Well, just you vote, you know, for a  
11 republican candidate in one election or, you know,  
12 for one office and you vote democrat in another --  
13 for another office, republican in one, democrat in  
14 another. Split your ticket.

15 A Yes. And that -- that -- that is  
16 also my understanding of split-ticket voting, to  
17 some degree.

18 Q Okay. And just to be clear, you  
19 didn't analyze the impact of split-ticket voting on  
20 your 25 general elections in Galveston County?

21 A That is correct, I don't have  
22 individual-level data that would enable me to

1           ascertain who voted in straight-ticket or  
2           split-tickets. We're looking here at  
3           aggregate-level data and drawing inferences using  
4           aggregate voting precinct-level data. Because it's  
5           a secret ballot, right?

6                   Q       What was that?

7                   A       It's a secret ballot, right?

8                   Q       Yes.

9                   A       And we don't have any  
10           individual-level data.

11                   Q       Yes, it is -- it is a secret ballot,  
12           you are correct about that.

13                            Okay. Professor Oskooii, I might be  
14           done, but I would like to have one more brief break  
15           just to confer with my colleague here before we --  
16           before we close. Is that fine with you?

17                   A       Sure. How much of a break would you  
18           like?

19                   Q       If I could just take five minutes,  
20           Professor, if that's fine with you.

21                   A       Yeah, absolutely.

22                   Q       All right. Thank you.

1 MR. SHEEHY: If we can go off the  
2 record.

3 VIDEOGRAPHER: We're going off the  
4 records. The time on the video is 4:57 p.m.

5 (Recess from 4:57 p.m. to 5:00 p.m.)

6 VIDEOGRAPHER: We're back on the  
7 record. The time on the video is 5:00 p.m.

8 BY MR. SHEEHY:

9 Q Okay. Professor Oskooii, I believe  
10 you testified this was your -- your first  
11 deposition. Is that correct?

12 A Yes.

13 Q Well, I congratulate you. The -- the  
14 deposition is concluded. I don't have any further  
15 questions.

16 MR. SHEEHY: Mr. Gonzalez, do you  
17 have any questions?

18 MR. GONZALEZ: We'll reserve any  
19 questions, but we would like to read and sign and  
20 order a copy of the transcript.

21 MR. SHEEHY: Okay. All right. Well,  
22 with that, we're -- we're closed for this

4       RE: Honorable Terry Petteway Et Al. v. Galveston County Et Al.

5               4/11/2023, Kassra Oskooii (#5820287)

6               The above-referenced transcript is available for  
7       review.

8               Within the applicable timeframe, the witness should  
9       read the testimony to verify its accuracy. If there are  
10      any changes, the witness should note those with the  
11      reason, on the attached Errata Sheet.

12              The witness should sign the Acknowledgment of  
13      Deponent and Errata and return to the deposing attorney.  
14      Copies should be sent to all counsel, and to Veritext at  
15      cs-midatlantic@veritext.com

16  
17              Return completed errata within 30 days from  
18      receipt of testimony.

19              If the witness fails to do so within the time  
20      allotted, the transcript may be used as if signed.

PROCEEDINGS:

(Thursday, April 13, 2023, 9:08 a.m., CST)

THE VIDEOGRAPHER: We are now on the record for the video deposition of Dr. Mark Owens. The date is April 13th, 2023. The time is 9:08 a.m., Central Time. The witness is appearing remotely from League City, Texas.

This is the matter of Honorable Terry Petteway, et al, versus Galveston County, et al. This is filed in the United States District Court for The Southern District of Texas, Civil Action No. 3:22-cv-00057.

The court reporter is Kari Behan. The videographer is Will Rain. Both are representatives of Veritext.

And, now, will counsel please state your appearances for the record.

MS. KLEIN: This is Hilary Klein from The Southern Coalition for Social Justice on behalf of the NAACP Plaintiffs, and I am joined by other counsel for NAACP Plaintiffs, Adrienne Spoto, also of The Southern Coalition for Social Justice.

And now I will allow the Petteway Plaintiffs to introduce their counsel.

MR. GABER: Good morning. This is

1 Mark Gaber on behalf of the Petteway Plaintiffs. I'm  
2 joined today by Simone Leeper, Bernadette Reyes,  
3 Alexandra Copper and Valencia Richardson, also on behalf  
4 of Defendants.

5 MS. SMITH: My name's K'Shaani Smith. I'm  
6 appearing on behalf of the United States in this matter,  
7 representing -- or from the Department of Justice. Also  
8 appearing on behalf of the United States is Catherine  
9 Meza.

10 Thank you.

11 MS. OLALDE: Good morning. Angie Olalde,  
12 Jordan Raschke Elton, and Joseph Russo on behalf of  
13 Defendants.

14 THE COURT REPORTER: Dr. Owens, would you  
15 please raise your right hand.

16 Do you solemnly swear the testimony you're  
17 about to give will be the truth, the whole truth, and  
18 nothing but the truth, so help you God?

19 THE WITNESS: I swear.

20 MARK E. OWENS, Ph.D.,  
21 after having been first duly sworn by the  
22 above-mentioned Certified Court Reporter, was examined  
23 and testified as follows:

24 THE COURT REPORTER: Thank you. We may  
25 proceed.

1 MS. KLEIN: Thank you.

2 EXAMINATION

3 BY MS. KLEIN:

4 Q. Good morning, Dr. Owens. My name is  
5 Hilary Klein for The Southern Coalition for Social  
6 Justice. I represent one of the plaintiff groups, the  
7 NAACP plaintiff group, in this matter.

8 I'm going to ask you some questions this  
9 morning, and then it's possible that counsel from the  
10 other plaintiff groups are going to ask questions after  
11 that.

12 Have you ever been deposed before,  
13 Dr. Owens?

14 A. I have.

15 Q. How many times?

16 A. Once.

17 Q. And when was that?

18 A. In December.

19 Q. Okay. And that was in the Palmer v. Hobbs  
20 matter; is that correct?

21 A. Correct.

22 Q. Have you ever testified at trial?

23 A. I have not.

24 Q. And you understand that you're under oath  
25 today, correct?

1 A. Correct.

2 Q. So even though we're on Zoom, you understand  
3 that that oath would require the same obligations of you  
4 to answer accurately, as if you were in a courtroom  
5 before a judge. You understand that, right?

6 A. I will, yes.

7 Q. Is there anything that would prevent you from  
8 giving truthful and accurate testimony today?

9 A. No.

10 Q. Have you consumed any substances recently that  
11 would prevent you from testifying accurately today?

12 A. No.

13 Q. Since there is a court reporter, I ask that we  
14 each try not to talk over each other. So, for example,  
15 I will not interrupt you when you're answering a  
16 question, and I ask that you not interrupt me when I'm  
17 asking a question.

18 Does that sound fair?

19 A. Excellent.

20 Q. Also, please try to give audible answers, as  
21 you have been doing, instead of nodding your head, for  
22 example. I know this is being recorded, but we still  
23 need a -- a clear stenographic record just for the  
24 matter. So if you could use verbal answers, that would  
25 be helpful.

1 A. I understand.

2 Q. Thank you.

3 If you don't understand a question, please  
4 let me know. Otherwise, I will assume you have  
5 understood what I'm asking, okay?

6 A. Okay.

7 Q. Your attorney might make objections during this  
8 deposition, but unless she instructs you not to answer  
9 on grounds of privilege, you still answer the question.

10 Do you understand that?

11 A. Yes, I will.

12 Q. Finally, please do let me know if you take a  
13 break -- if you need to take a break. I will offer --  
14 at times, that makes sense in questioning to take  
15 breaks, but if you need additional breaks, please let me  
16 know. The only thing is, I will ask that you finish the  
17 last question I asked you before we go on break.

18 Does that make sense?

19 A. Yeah, that's fair.

20 Q. Dr. Owens, did you bring any notes with you to  
21 today's deposition?

22 A. No.

23 Q. Is there anyone, other than counsel, that's in  
24 the room with you?

25 A. No.

1 Q. And you understand that you're not to discuss  
2 the substance of answers you will be providing with  
3 anyone else, even during breaks, unless you're  
4 discussing, you know, issues of privilege with counsel?  
5 You understand that, right?

6 A. Yes.

7 Q. And that includes communicating by others by  
8 text or e-mail, in addition to talking with them?

9 A. Right. I don't even have my phone.

10 Q. Okay. Did you prepare for today's deposition?

11 A. Yes.

12 Q. How did you prepare?

13 A. I read my reports. I also met with the  
14 counsel.

15 Q. And by "read" your reports, which reports are  
16 you referring to?

17 A. I read the amended report I submitted on  
18 March 31st -- this is one in response to Dr. Krochmal --  
19 as well as an analysis of the compactness of Galveston  
20 County.

21 Q. Okay. Without telling me what you discussed  
22 with your attorneys, can you just tell me who you met  
23 with?

24 A. With Angie Olalde -- or -- well -- okay.  
25 Joe Russo and Jordan, right?

1 MS. OLALDE: It's okay.

2 THE WITNESS: Sorry. Jordan's last name,  
3 we've just been --

4 MS. OLALDE: Raschke Elton.

5 THE WITNESS: Oh, Raschke Elton.

6 BY MS. KLEIN:

7 Q. And about how long did you meet with them?

8 A. Yesterday, I think this would be seven hours.

9 Q. Did you discuss this deposition with anyone  
10 other than the attorneys you just mentioned?

11 A. No.

12 Q. Did you discuss this deposition with anybody  
13 from the Galveston County government, for example?

14 A. No.

15 Q. And so other than the reports that you  
16 mentioned, did you review any other documents to prepare  
17 for this deposition?

18 A. To prepare for this, I -- also, I looked at  
19 documents that were submitted by Mr. Anthony Fairfax and  
20 Mr. William Cooper.

21 Q. Did you review the complaint in this case?

22 A. Can you clarify? I guess I'm trying to -- what  
23 would be identified as the -- the complaint? Is this --

24 Q. Sort of.

25 A. I guess, is it the start of the process -- I'm

1 trying to think -- in this case?

2 Q. That's right.

3 Did you review any of the complaints that  
4 were submitted by Plaintiff that set forth the claims  
5 that Plaintiffs are making in this matter?

6 A. Not recently.

7 Q. But you have reviewed them before the  
8 deposition?

9 A. Yes.

10 Q. Okay. Have you reviewed any materials that  
11 were produced by the defendants in this matter?

12 A. No, I don't believe so.

13 Q. Okay. So, broadly speaking, what opinions were  
14 you engaged to offer in this matter?

15 A. I think the first is what -- to identify the  
16 distribution of Hispanic and Black residents in  
17 Galveston County; in this case, to determine where they  
18 live in a compact area and then to go through a process  
19 of evaluating a Gingles 1 factor.

20 And then, additionally, I looked to the  
21 recent political history of Galveston County to assess,  
22 essentially, the strength of the identified Hispanic  
23 or -- and Black coalition, right, that the plaintiffs'  
24 experts placed -- or identified in their research.

25 Q. So you mentioned the case Gingles. That's the

1 case Gingles v. Thornburg, correct?

2 A. I think so. I believe it's, yeah, Thornburg  
3 v. Gingles.

4 Q. Thornburg v. Gingles.

5 And what do you understand that case to be  
6 about?

7 A. A determination of how you can apply -- really,  
8 why wouldn't at-large districts have the potential to  
9 change the representations of a community; in this case,  
10 in Alabama.

11 So we set forth now a standard of three  
12 parts that we look to to determine whether there is a  
13 community of interest, and they, in particular, meet the  
14 criteria to have representation. So you might use this  
15 to determine whether or not we can use objective choices  
16 to find the idea of whether there is a reason to have a  
17 majority/minority district.

18 Q. So you were asked to perform an analysis of  
19 whether the first element of the Gingles test had been  
20 met in this matter; is that right?

21 A. That's right.

22 Q. And that's in your March 31st amended report?

23 A. It is.

24 Q. What in your experience -- and we'll talk more  
25 about your experience. But what more in your experience

1 do you think qualifies you to assess the first Gingles  
2 criteria?

3 A. First is -- a lot of it is the study of the  
4 history; in this case, why we would introduce this. The  
5 other part of having taught the question of Gingles  
6 factors to students, both in an election law class,  
7 southern politics class, a congress class, and our  
8 understanding here about, just collectively, my study of  
9 Texas and the fact that we have many different -- the  
10 importance of geography towards our understanding of the  
11 Texas electorate.

12 THE COURT REPORTER: Can I request the  
13 doctor slow down just a little bit?

14 THE WITNESS: Happy to.

15 THE COURT REPORTER: Thank you.

16 BY MS. KLEIN:

17 Q. Have you been asked to assess racially  
18 polarized voting in this matter?

19 A. No.

20 Q. So you have not provided an RPV analysis in  
21 this matter, correct?

22 A. I did not.

23 Q. I'd like to talk a little bit about the reports  
24 you've submitted that you mentioned earlier.

25 Why did you submit an amended version of

1 your March 17th report?

2 A. The important part was, this is -- when -- I  
3 think, in some ways, describing how populations fit  
4 within districts can be quite complicated. So I added a  
5 couple things to add clarity to the original report.

6 One is I included, now, Table 1. This  
7 points to the fact of identifying the Black citizen  
8 voting age population, the Hispanic citizen voting age  
9 population, and the White citizen voting age population,  
10 as it is in each commissioners precinct for these  
11 illustrated maps.

12 I also made some parts to, I think, clarify  
13 why those issues particularly mattered. And then  
14 towards the end, I identified the citizen voting age  
15 population, which is in the area of Dickinson that had  
16 previously been part of the Benchmark Plan and points in  
17 --

18 THE COURT REPORTER: I'm sorry. One  
19 second. You are speaking really fast. I did not -- I  
20 did not make that answer out at all.

21 THE WITNESS: Thank you. Because I  
22 realize you just -- just asked me. And so I will --

23 THE COURT REPORTER: Yeah, you're speaking  
24 really fast.

25 THE WITNESS: Start again. The reason

1 being --

2 BY MS. KLEIN:

3 Q. I -- I -- I can break it down, which might make  
4 it easier for the record.

5 A. Sure.

6 Q. Let's talk about the tables that you added, and  
7 then maybe later we'll go into more details.

8 But the tables -- the data that you used to  
9 make those tables, that was available to you before you  
10 submitted your original report on March 17th; is that  
11 correct?

12 A. It is. It was.

13 Q. And, similarly, all of the other changes, that  
14 was all based on information or data available to you  
15 before you submitted your March 17th report; is that  
16 correct?

17 A. It's correct. And then the information and  
18 changes that I made clarified, especially sentences,  
19 that were in the introductory part of the report and the  
20 conclusion part. So instead of having a number of  
21 numbers added into sentences, I did want to put them in  
22 a tabular form.

23 Q. When did you decide that that clarification was  
24 needed?

25 A. I think after the submission of the -- the

1 first report on -- on March 17th. I think, in this  
2 case, coming right in about the week after.

3 Q. What prompted you to believe that  
4 clarifications were needed?

5 A. One is to make sure that I -- I think how I  
6 would communicate this topic on -- on paper. I think  
7 through a process of revision, I -- I often can be  
8 clearer in my communication.

9 And so that's the -- the real reason.  
10 Realizing now, in this case, what I want to do is submit  
11 the best work to the Court.

12 Q. Were you prompted to make those amendments  
13 after receiving the rebuttal report by William Cooper?

14 A. No. I was prompted prior to, when I was told  
15 that it was possible.

16 Q. And you asked whether it was possible, or you  
17 were asked to amend it?

18 MS. OLALDE: I'm -- I'm going to instruct  
19 you not to -- you know, no conversations with attorneys,  
20 no testimony about conversations with attorneys.

21 BY MS. KLEIN:

22 Q. Did you decide yourself that the amendment was  
23 necessary, or was it suggested -- I'll -- I'll strike  
24 that.

25 Did you decide yourself that the amendment

1 was necessary independently?

2 A. Yes, that -- this was my choice to submit it.

3 Q. But to make the amendments in the first place,  
4 was that your idea?

5 MS. OLALDE: Objection, asked and answered.

6 BY MS. KLEIN:

7 Q. You can still answer.

8 Was it your idea to make an amendment?

9 A. It would have been the fact that we had a  
10 conver- -- an opportunity here to -- no. I mean,  
11 this -- I don't believe it -- it is my idea to make the  
12 amendment, because I -- as an idea of it being a  
13 teacher, the important part is to know the -- the  
14 process.

15 I typically thought that if I submitted a  
16 report, that -- that was to review. Now, knowing that  
17 there's an opportunity to improve that work in  
18 communication before it's to be read, I think, yes, when  
19 I had the oppor- -- idea here that we had until  
20 October -- or March 31st as a deadline for other  
21 communications. I see --

22 Q. Do you -- sorry. Go on.

23 MS. OLALDE: Why don't -- why don't you ask  
24 a question?

25 THE WITNESS: Okay.

1 BY MS. KLEIN:

2 Q. Do the reports -- the three reports that you've  
3 submitted contain all of the analysis you intend to  
4 offer at trial in this matter?

5 A. They represent the core of what I want to  
6 identify, but I think in this case, if requested to  
7 submit additional analysis, I -- I would do so.

8 Q. Have you been requested to -- are you  
9 planning -- strike that.

10 Are you planning to submit additional  
11 analysis in this matter?

12 A. I think as the way that my service to the Court  
13 often is -- is -- I think, right now, I have no plan at  
14 this time. I think I am -- in particular, I'm -- I'm  
15 not a driving force in this case.

16 Q. Going back to your reports, do you cite to all  
17 of the authorities and data you relied upon to reach  
18 your conclusions?

19 A. Yes, I believe so.

20 Q. Do you cite to all of the facts and assumptions  
21 you relied upon to reach your conclusions?

22 A. Yes, I expect so.

23 Q. What do you mean by you "expect so"?

24 A. I think, right now, without -- the conclusions  
25 that I built were based off of data; particularly, the

1 American Community Survey 5-year estimates.

2 I also cite details of -- in another report  
3 about news reports, conversations, and direct quotes.

4 So I think in this case I've made a great effort to  
5 cite, in this case, all of those conclusions.

6 Q. Do you expect that there might be facts or  
7 assumptions you relied upon to reach your conclusions  
8 that are not included in your reports?

9 A. I don't expect that.

10 Q. Did anybody assist you in preparing these  
11 reports, other than the review of counsel?

12 A. No, they did not.

13 Q. You didn't have an assistant or a research TA  
14 or somebody help you?

15 A. No.

16 Q. So your counsel provided -- or -- sorry --  
17 counsel for Defendants provided two folders of data on  
18 April 1st that they represented was underlying data  
19 related to your reports.

20 Are you aware that this disclosure was  
21 made?

22 A. Yes. I think that makes -- I provided, as  
23 well, two folders to them on -- on March 31st.

24 Q. Do you know why that information was not  
25 provided at the same time as your report was submitted

1 on March 17th?

2 A. Well, I -- I don't think I can directly -- I  
3 think it's because I did not provide it to them on  
4 March 17th, because we're continuing to collect the data  
5 and package it so it's easy to share afterwards.

6 Q. Did you make any changes to that data, between  
7 March 17th and when it was provided to Plaintiffs on  
8 April 1st, relating to your March 17th report?

9 A. No changes to the data.

10 Q. I'd just like to briefly go through each of  
11 those files just to get an understanding of what they  
12 are. I -- some of the files are rather large, as you  
13 know. So what have I -- what I've done is provide kind  
14 of a summary exhibit using screenshots of that data, and  
15 this is Tab 33.

16 CONCIERGE TECH: Shall that be Exhibit 1?

17 MS. KLEIN: Yes, please. If we can mark  
18 Tab 33 as Exhibit 1.

19 CONCIERGE TECH: Stand by.

20 MS. KLEIN: And if we could share that as  
21 well.

22 CONCIERGE TECH: Yes, Counsel. Marking the  
23 first exhibit is going to take about 30 seconds, and  
24 then I'll share it.

25 BY MS. KLEIN:

1 Q. Okay. While we're waiting for the exhibits to  
2 be marked, you remember the first folder was titled  
3 "Galveston Change Data." Do you recall that?

4 MS. OLALDE: Ms. Klein, since it's a lot of  
5 detailed information, I think it would be better just to  
6 let him review your exhibit.

7 And, also, Dr. Owens, would you prefer if I  
8 pull up the exhibit on my screen so that you can see it,  
9 or would you prefer to look at the change -- the share  
10 screen?

11 THE WITNESS: I think I'm happy to wait  
12 until it appears on the -- the screen --

13 MS. OLALDE: Right.

14 THE WITNESS: -- this time.

15 MS. OLALDE: Do you want to see the exhibit  
16 bigger on my screen, or do you want to look at the  
17 screen in front of you? Which works better?

18 CONCIERGE TECH: I just want to mention on  
19 the record that Exhibit 1 has been marked.

20 THE WITNESS: Yes, thanks.

21 MS. OLALDE: Here you go.

22 THE WITNESS: Oh, great. Yeah. I think  
23 I'm looking at --

24 MS. OLALDE: Hold on. It's not pulling up,  
25 though. Here we go. And you can scroll through that if

1 you need to.

2 THE WITNESS: Okay.

3 (Exhibit 1 was marked for identification.)

4 MS. KLEIN: Rob, just to get ahead of  
5 things, could you please mark as -- could you please  
6 mark Tab 1 as Exhibit 2?

7 Don't put it up, but just put that in the  
8 folder, please.

9 CONCIERGE TECH: That was the notice,  
10 right, Counsel?

11 MS. KLEIN: Sorry?

12 CONCIERGE TECH: That was the notice that  
13 we put in there, Tab 1, mark it as Exhibit 2?

14 MS. KLEIN: Oh, sorry, not Tab 1. Tab 2,  
15 Tab 2.

16 CONCIERGE TECH: Okay. Tab 2 is Exhibit 2?

17 MS. KLEIN: Yes, that's correct.

18 CONCIERGE TECH: Stand by.

19 MS. KLEIN: Just to get ahead of that  
20 timing.

21 BY MS. KLEIN:

22 Q. All right. So we should have screen shared on  
23 the screen --

24 CONCIERGE TECH: I just had to bring it  
25 down -- I'm sorry to interrupt you. I had to bring it

1 down for a second while I marked Tab 2.

2 MS. KLEIN: Okay.

3 CONCIERGE TECH: The next one I won't have  
4 to do that. I'm going to set up another window.

5 MS. KLEIN: All right. If you could put  
6 Exhibit 1 up on the screen.

7 CONCIERGE TECH: Exhibit 2 has also been  
8 marked.

9 (Exhibit 2 was marked for identification.)

10 MS. KLEIN: Thanks so much, Rob.

11 BY MS. KLEIN:

12 Q. So, Dr. Owens, you see right at the top  
13 "Galveston Change Data." Do you recognize that as one  
14 of the data folders that were provided from Defendants  
15 related to one of your reports?

16 A. Yes, these are the files.

17 Q. Of which -- sorry.

18 A. Yeah.

19 Q. Please go on.

20 A. I'll let you ask the question, please. I think  
21 we might about to be talking about the same point, so...

22 Q. Which report does this folder relate to?

23 A. A report for Dr. Krochmal.

24 Q. And that second file, "Gingles 1," that relates  
25 to your March 17th and March 31st amended reports,

1 correct?

2 A. Yes, that -- that was my intent to, I think,  
3 clarify them with those titles.

4 Q. If we look at the list of documents under the  
5 heading "Galveston Change Data Files," can you tell me  
6 what the Excel BlockGR is?

7 A. This is available from the Census data, so it's  
8 BlockGR citizen voting age population for each Census  
9 block.

10 Q. Which -- what date is that data?

11 A. It says March 31st, 2023.

12 Q. So the Census data was -- what date was the  
13 census data in this file collected?

14 A. The date in this Census file, I think, is  
15 available by the -- if it's for the 2016 to 2020 data,  
16 this would have been available, I think, in late 2020 by  
17 the Census.

18 Q. Are you aware that there's also 2017 to 2021  
19 American Community Survey CVAP data available?

20 A. I am aware, yes.

21 Q. Did you use that data in any way in your  
22 reports?

23 A. No.

24 Q. Why not?

25 A. One, because even to the extent, you know, the

1 2016 to 2020 data was not available to the map drawers  
2 at the time that they made their decision; also, the --  
3 in this case, the response that I was providing, because  
4 the first experts used the 2016 to 2020 American  
5 Community Survey data in their analysis.

6 Q. That second file, Excel file titled "Canvass  
7 Results 3-11-2022," can you tell me what that is?

8 A. Results of the March party primary in Galveston  
9 County by precinct.

10 Q. And where did you get that data?

11 A. Galveston County's website.

12 Q. In that last Excel, "Galveston\_straightticket,"  
13 what is that?

14 A. This is documentation of each election, so each  
15 general election, of how much straight-ticket ballots  
16 were cast in Galveston County. At which point, I -- I  
17 cite details towards the documents that those have been  
18 reported for years prior to this, so --

19 Q. And where did --

20 A. Go ahead.

21 Q. And where did you get that data?

22 A. I received it from the Texas Secretary of State  
23 website. Also, there are reports that would provide  
24 additional historical detail from the Austin Community  
25 College. So they've done policy breach, tracking this

1 for a number of years or multiple decades, and they have  
2 data that is a little bit more historical than the  
3 reports of straight-ticket voting provided by the --  
4 well, I think, in this case, Secretary of State or the  
5 Galveston County, which has the details available to us  
6 from 2012.

7 Q. Going down to the Gingles 1 files, can you tell  
8 me what's in the ACS comparisons folder?

9 A. Yeah. ACS comparisons shows to us an  
10 opportunity of data that is anything down- -- I  
11 downloaded from data.census.gov when running a report of  
12 the questions that the Census provides by its --  
13 essentially, when you can look at it by geography and  
14 race and ethnicity.

15 Q. What -- what years does this data set span?

16 A. 2016 to 2020. And then there is -- there are  
17 files which I downloaded but did not reference in my  
18 report. I see one in this case that indicates it does  
19 have the 2021 data. So since I downloaded it, I  
20 included it in this submission here. But it's not used  
21 as part of my analysis.

22 When you're doing the -- I guess, in  
23 particular to give you the instruction, if you're on the  
24 website and you click "Download This," you have the  
25 ability to click or choose multiple surveys. And so,

1 obviously -- we just talked about this, the relevance of  
2 your question, that new data was provided; yet, we've  
3 been working on this case with the 2020 data reflective  
4 of the comparison data of the 2020 Census.

5 Q. So the materials that are listed on this  
6 Exhibit 1, they encompass all the underlying data you  
7 used in your reports, correct?

8 A. And, in fact, more.

9 Q. More than what you've used in your reports?

10 A. Yes.

11 Q. Okay. I'd like to --

12 MS. KLEIN: We can take that exhibit down.

13 Thanks, Rob.

14 BY MS. KLEIN:

15 Q. I'd like to ask you a few questions about your  
16 engagement in this matter. Who contacted you about an  
17 engagement in this matter?

18 A. Attorney Shawn Sheehy.

19 Q. When were you contacted?

20 A. At the time -- our first conversation occurs in  
21 January of this year.

22 Q. Have you done any work in Galveston County  
23 prior to this?

24 A. No.

25 Q. Have you done any work related to Texas

1       redistricting prior to this?

2           A. No. In addition, I would say in relation to --  
3       as far as not being retained by a state or an entity of  
4       Texas. Sorry. I -- I only make that clarification; I'm  
5       a professor of Texas -- in Texas and tend to talk about  
6       Texas elections quite a bit.

7           Q. Other than your academic work, any work in  
8       Texas, even if not for a government entity?

9           A. No.

10                   MS. OLALDE: Objection, vague.

11       BY MS. KLEIN:

12           Q. Other than -- you can still answer it, if you  
13       understood the question.

14           A. I think, in particular, if I'd say, as specific  
15       as possible, if we're both talking about writing reports  
16       on behalf of someone, this would be -- I have not done  
17       that in Texas.

18           Q. What about any work outside of your academic  
19       work? So this would include private contractual work,  
20       like an expert engagement or even consulting work. Have  
21       you done any of that in Texas?

22           A. No, not -- not as a consultant. I just wanted  
23       to ask the question. Sometimes I'm asked to talk about  
24       redistricting in the news or write to -- to local  
25       groups.

1                   So -- sorry -- I think that's where  
2 probably my point is making sure what is work, and --  
3 and again, saying that, in this case, by writing  
4 reports, no, I've not been contractually taken on in the  
5 State of Texas by somebody privately or -- or publicly  
6 prior to this.

7           Q. So no paid work, right?

8           A. No.

9           Q. Have you ever spoken with any member of the  
10 Galveston County government about your work in this  
11 matter?

12          A. I have not.

13          Q. Have you spoken with any colleagues about your  
14 work in this matter?

15          A. Not about the reports to the case. Some are  
16 interested in why I had to come to Galveston and leave  
17 Tyler.

18          Q. Have you ever -- have you spoken with anyone  
19 who participated in the 2021 redistricting of the  
20 Galveston County Commissioner's Precinct Map about your  
21 work in this matter?

22          A. About -- I have not.

23          Q. Did you participate in any way in the 2021  
24 redistricting of the Galveston -- Galveston County  
25 Commissioner's Precincts?

1 A. No, I was not involved.

2 MS. KLEIN: I'd like to pull up Exhibit 2  
3 now, and if we could screen-share that.

4 CONCIERGE TECH: (Complied.)

5 MS. KLEIN: And if we could Zoom in.

6 CONCIERGE TECH: (Complied.)

7 BY MS. KLEIN:

8 Q. Dr. Owens, do you recognize this document?

9 A. I do. I -- I drafted it.

10 Q. What is it?

11 A. It's my, I guess, C.V. or curriculum vitae or  
12 resumé of professional activities.

13 Q. It lists all of the experience you believe is  
14 relevant to your qualifications to give expert opinions  
15 in this matter, right?

16 A. That's right.

17 Q. So you're currently an associate professor at  
18 University of Texas, Tyler, correct?

19 A. I am.

20 Q. And that's a tenured position?

21 A. It is. I have tenure.

22 Q. When did you receive tenure?

23 A. In the fall of 2020.

24 Q. If we skip down to Page 5 of this document,  
25 under a heading titled "Teaching Experience," this lists

1 the graduate and undergraduate coursework you've taught,  
2 correct?

3 A. That's correct.

4 Q. Have you ever taught a course on GIS?

5 A. No. We don't -- GIS is not part of the  
6 political science curriculum.

7 Q. And by GIS, you understand that to mean  
8 Geographic Information Systems, correct?

9 A. Yeah, that's accurate.

10 Q. What about the standards set forth in the  
11 Thornburg v. Gingles decision that we talked about  
12 earlier? Do any of the courses listed here talk about  
13 that standard?

14 A. Of course, we have opportunities to discuss  
15 this in a seminar of politics and in southern politics.

16 Q. How much of those courses involves teaching  
17 about Gingles?

18 A. How much? It would come into the fact when we  
19 discuss redistricting, so it would be a part of a  
20 lecture.

21 Q. How much of one lecture would it include?

22 A. In this case, probably -- I would estimate -- a  
23 quarter of that lecture.

24 Q. So about how many minutes is that?

25 A. Well, in a 50-minute class divided by four,

1       yeah. So we've got a little bit more than -- than 10  
2       minutes, 12 and a half.

3             Q. And that's for each of the two courses you  
4       mentioned?

5             A. Good point. So I -- I was answering that  
6       question a little bit more thinking about  
7       undergraduates. So if you do think about this with the  
8       graduate program of three hours, you'd probably get a  
9       longer discussion of this, with questions, towards  
10      30 minutes.

11            Q. Does -- in either of those classes you  
12      mentioned, does your teaching involve instruction on the  
13      technical aspects of drawing a voting plan?

14            A. No. I -- I introduce the topics to students.  
15      This would advance their understanding from the  
16      introductory courses.

17            Q. What do you mean by you introduce the topics?

18            A. So, I think, the idea of introducing  
19      examples -- so in this case, for example, most of the  
20      time we might identify in an introductory class  
21      redistricting happens when the -- especially in Texas,  
22      when the legislature chooses to do so. Students often  
23      learn that, you know, we can redistrict actually at any  
24      time in the decade, because there are some great  
25      examples of that from our own history.

1                   But we also have -- then, they are talking  
2 about the consequences of redistricting, like, the fact  
3 that incumbents have to run in new areas or district  
4 lines to meet population stand- -- standards.

5                   My mind is that, then, once you start  
6 taking a specialized class, we introduce new specialized  
7 topics that are going to help them. And so not only the  
8 Gingles factor is going to be one of the important ways  
9 that we talk about evaluating districts, and I think  
10 that's important for students to know.

11                  Q. You mentioned specialized classes. Do you  
12 teach any specialized classes on the Gingles standard?

13                  A. Not as a class in itself; it becomes part of  
14 the course.

15                  Q. Which course?

16                  A. Southern politics.

17                  Q. So in the southern politics class or the other  
18 undergraduate class you mentioned, do you instruct on  
19 what are considered to be traditional redistricting  
20 principles?

21                  A. Yeah. In lecture we'll discuss the --  
22 particularly, the importance of equal population, right,  
23 contiguity compactness, yes.

24                  Q. Any others?

25                  A. I think, in particular, about the importance of

1 minority protections, yes, and the fact of how we  
2 identify, right, municipalities. What are political  
3 boundaries? How do people think about roadways? So  
4 that we understand that it's not just always placement  
5 of only red voting districts; that there's more behind  
6 that. They can kind of define a community as people  
7 would experience in their everyday life.

8 So, yeah, there's a -- really in our  
9 classes, especially with undergraduates, making sure  
10 that they identify what they see on a daily basis and  
11 why it matters to the profession they're about to enter.

12 Q. So if I understood your answer correctly, you  
13 instruct your students that traditional redistricting  
14 principles include equal population, contiguity,  
15 compactness, protecting minority populations,  
16 identifying municipalities, and roadways.

17 Is there any other traditional  
18 redistricting criteria you instruct your students should  
19 be considered?

20 A. No. I think, in this case, as part of the --  
21 the introduction, that is largely where we -- we  
22 introduce. We can go beyond that.

23 And often when we have a student who is  
24 taking this case of research, they can focus more on  
25 what are the similarities that people have as far as --

1 again, they could look towards their lifestyles, right,  
2 their education, their incomes, right, what makes  
3 something -- communities in addition to race, right,  
4 more similar or different.

5 But I think, collectively, this is part of  
6 where, in teaching, we respond a lot to what -- students  
7 ask questions and kind of directedly respond to them.  
8 And so most importantly, right, yes, there's parts of  
9 things I want to teach them, but I don't always control  
10 the direction of that class. We can follow the students  
11 interest.

12 Q. What academic sources do you rely upon when  
13 you're teaching about traditional redistricting  
14 principles?

15 A. Most clearly, we have -- the response to this  
16 often is important. We can turn to websites from the  
17 Civil Rights Division of the Department of Justice. We  
18 can also use, right, Charles Bullock's book about  
19 redistricting in America. It's a textbook.

20 THE COURT REPORTER: I'm sorry. What was  
21 that book? You're still speaking super fast.

22 THE WITNESS: Thank you.

23 Charles Bullock wrote a book about  
24 redistricting in America.

25 BY MS. KLEIN:

1 Q. You mentioned compactness as one of the  
2 traditional redistricting principles you teach about.

3 What do you teach your students regarding  
4 compactness?

5 A. First, it's a little more general than what  
6 we're talking about here in regards to this case, but it  
7 is the fact about shapes and -- you know, the discussion  
8 here about that these shapes are actually reflective of  
9 the populations within them, and that that -- in this  
10 case, there's going to be two different levels to think  
11 about compactness.

12 Q. What are the two levels?

13 A. One is the -- the shape, and the other will be:  
14 Does that shape reflect, right, representative  
15 population?

16 Q. Do you teach about any principled analysis for  
17 assessing whether a district is reasonably compact?

18 A. The principled analysis -- in this case, I  
19 think it comes in parts, but often we will use cases,  
20 like examples in particular that we have about: How did  
21 we get to this spot?

22 We talk about Shaw versus Reno, right,  
23 Miller versus Georgia. And so the students get examples  
24 of: Where did someone in particular have an intent to  
25 do this, and then where has it changed?

1                   So this gives you a sense that students  
2 want to also know more about, yeah, LULAC v. Perry,  
3 other cases, that might reflect to them, but also that  
4 these are concerns that pop up across the country.

5           Q. Do you teach specific metrics of compactness?

6           A. No.

7           Q. Do you teach how to use Maptitude?

8           A. I do not. It's a -- that's not something that  
9 our course fees can -- can cover to give students access  
10 to that class. So for tuition reasons, we do -- don't  
11 even think about using Maptitude.

12           Q. Do you test your students on whether a voting  
13 plan would meet Gingles 1?

14           A. No, that's not part of a -- a test or a quiz.

15           Q. Do you test your students on whether a minority  
16 population in a certain configuration would be  
17 reasonably compact?

18           A. No, that would not -- is not a test question  
19 that I've asked.

20           Q. In any of your courses -- strike that.

21                   Let's go back to Page 1 of your CV. This  
22 is Exhibit 2. Under "Education," it lists a BA in  
23 Political Science from the University of Florida, an MA  
24 in Government from John Hopkins University, a Visiting  
25 Doctoral Student in the Department of Politics from the

1 University of Oxford, and a Ph.D. in Political Science  
2 from the University of Georgia.

3 Is anything missing from that list?

4 A. No. These are, I guess, everything since --  
5 since high school that would reflect the -- the degrees  
6 or substantial experience that I've had at a -- another  
7 university.

8 Q. Thanks.

9 Dr. Owens, I'm cognizant of time, and it  
10 might help for us not to have to keep you longer than we  
11 need if you answer "yes" or "no" for some of the more  
12 straightforward questions. I just don't want to have to  
13 keep you here longer than you'll -- you'll -- necessary.

14 What was the focus of your Ph.D.?

15 A. American Politics and -- and theologies. That  
16 was my -- my minor.

17 Q. American Politics at what levels?

18 A. I guess our degrees of political science are  
19 garnered in -- in international affairs. American  
20 Politics is our major fields.

21 So my dissertation focuses on congress, but  
22 I also took courses, as we think about this, in election  
23 administration, right, other topics you can see, sort  
24 of, throughout the preparation.

25 Q. Did you discuss county-level redistricting in

1 your Ph.D. dissertation?

2 A. I did not.

3 Q. Did you discuss redistricting in your  
4 dissertation?

5 A. No. It's about congressional appropriations.

6 Q. Did any of your course- -- coursework include  
7 training on GIS?

8 A. No.

9 Q. Did any of your coursework include training on  
10 the technical aspects of drawing a voting plan; for  
11 example, drawing a voting plan in Maptitude?

12 A. No.

13 Q. Did any of your coursework include definitions  
14 of what would be considered traditional redistricting  
15 principles?

16 A. Yes. I was a -- in this case, number one, a  
17 grader for Charles Bullock at the University of Georgia,  
18 and I believe it's also part of a class that I took on  
19 election administration.

20 Q. What about specific metrics for assessing  
21 compactness? Was any of that part of your coursework?

22 A. Certainly in the way that they were introduced  
23 to understand them as -- as scores generated with a  
24 meaning of their shapes.

25 Q. Which coursework did -- covered that?

1           A. I think this becomes the time that I'm first  
2 introduced to it, so I think that in reviewing plans as  
3 part of research, and I think election administration  
4 would primarily be the -- the place that I learned  
5 those.

6           Q. Election administration?

7           A. Yes.

8           Q. Did any of your coursework include instruction  
9 on how to evaluate whether a voting plan complies with  
10 the Voting Rights Act?

11           A. No. This isn't part of my courses, as much as  
12 it can be part of additional research that we do and  
13 reading as an academic.

14           Q. You listed two items under "Professional  
15 Experience." The first is as an APSA Congressional  
16 Fellow in the U.S. Senate from 2015 to 2016.

17                        At the time the Office of the President Pro  
18 Tempore, that was Orrin Hatch, a Republican of Utah,  
19 correct?

20           A. Yes. That was his position.

21           Q. How did you get your position in his office?

22           A. Two stages: One is that you apply in a, sort  
23 of, national search towards being selected as one of the  
24 political science faculty members to have a year-long  
25 fellowship.

1                   And then once you arrive in Washington,  
2 D.C., you interview with offices; in this case, to find  
3 where you might be placed. And through that process, I  
4 did an interview, met with staff that were in Senator  
5 Hatch's office, and they offered me a -- a position.

6           Q. Did that position involve any  
7 redistricting-related work?

8           A. No.

9           Q. Second, you list work as a legislative  
10 assistant for two U.S. representatives from 2000 to  
11 2009. Which representatives did you work for?

12           A. I think first, sort of, just easy, it's 2007,  
13 to identify, and then 2009. It was just, I guess, two  
14 years.

15                   But the two representatives that I worked  
16 for, they were former representatives at the time. So  
17 it'd be Representative Tom Davis and Representative  
18 Charlie Bass.

19           Q. They were former representatives at the time;  
20 am I understanding that correctly?

21           A. Yes. The -- at this time, they were the -- the  
22 chair leading the -- a nonpar- -- well, policy  
23 organization, which was called the Republican Main  
24 Street Partnership.

25           Q. So they were both former Republican

1 representatives, correct?

2 A. Yes.

3 Q. And do you identify as Republican as well?

4 A. I guess -- I think, yes. I've voted in  
5 primaries in Texas primarily in the Republican Party,  
6 but as you probably know, we don't register as partisan  
7 in this state.

8 Q. Moving on to the "Books" section of your CV,  
9 I'd like to ask you about the Game in Politics [sic]  
10 book from 2021 first.

11 Can you describe your involvement in  
12 drafting this book?

13 A. My involvement is that I wrote chapters that  
14 were, sort of, relative to my expertise of Congress,  
15 represented here, & Presidency, and I think in the  
16 campaigns.

17 The opportunity is, this is to introduce --  
18 it's an Open Source Textbook that we have for primarily  
19 freshmen who enter college and want an introduction to  
20 the United States Government and how it operates.

21 Q. So which specific chapters do you remember  
22 drafting for this book?

23 A. In this case, the Elections, Congress,  
24 Presidency.

25 Q. Did you review the entire book before it was

1 made public?

2 A. Yes. That was part of our review process, was  
3 we reviewed each other's chapters.

4 Q. Are you relying on any analysis you did in this  
5 book to form the opinions you're offering in this  
6 matter?

7 A. No. I'm relying on -- on data from the  
8 American Community Survey or research that's specific to  
9 Galveston, not this book.

10 Q. All right.

11 MS. KLEIN: I'd like to pull up -- I'd like  
12 to pull up this book. It'll be Tab 6, and we can mark  
13 it as Exhibit 3.

14 CONCIERGE TECH: (Complied.)

15 (Exhibit 3 was marked for identification.)

16 MS. OLALDE: Ms. Klein, just for download  
17 purposes, is it a large file?

18 MS. KLEIN: It may be.

19 CONCIERGE TECH: Tab 3 -- sorry --  
20 Exhibit 3 has been introduced. It is a little bit  
21 large.

22 MS. OLALDE: Okay. Thank you.

23 CONCIERGE TECH: You're welcome.

24 MS. KLEIN: Can we scroll to PDF -- or,  
25 actually, Page 61 of the book. I don't know what PDF

1 page that is, but I -- it should be marked as Page 61.

2 We can get there.

3 MS. OLALDE: Just one minute. It's taking  
4 a moment to download on our end.

5 CONCIERGE TECH: Yeah. Actually, each page  
6 takes a little bit longer than we would expect. One  
7 second.

8 MS. OLALDE: I'll let you know once we have  
9 it up.

10 CONCIERGE TECH: You said 61, Counsel?

11 MS. KLEIN: 61.

12 So, Angie, are you using the screen share?

13 MS. OLALDE: I am, but the screen share,  
14 especially for this book, is very small, so it's more  
15 difficult to read the text. So what I'm doing is, I'm  
16 pulling up the exhibits as they are dropped into the  
17 Chat and making that the full screen on my laptop so  
18 that Dr. Owens can see better and, also, scroll through  
19 the exhibit as he needs to.

20 MS. KLEIN: I just want to make sure -- I'm  
21 worried that the video record is not going to accurately  
22 reflect what the witness is looking at.

23 So I'd ask that -- could we, instead, have  
24 the witness or you ask to have the book scrolled in?  
25 And you can instruct Rob to move to specific pages, but

1 I just want there to be consistency between what's  
2 showing on the screen for the video record and what I  
3 believe the witness is looking at and what he actually  
4 is looking at.

5 MS. OLALDE: Well, Ms. Klein, I will  
6 represent to you, as an officer of the Court, that what  
7 I am showing the witness is a bigger version of the  
8 exhibit that is being shared on screen. I do have  
9 concerns about the witness's ability to be able to  
10 scroll through exhibits that you are showing and also  
11 his ability to be able to see the text clearly.

12 Since you are not in the room, you cannot  
13 see that in front of him is a smaller laptop which I've  
14 had to put up in order to help him go through this  
15 deposition.

16 And the text of the book in the exhibit  
17 that you are showing him is very small. So what I am  
18 trying to do is to help you show the witness the  
19 exhibits that you are trying to go through with him, and  
20 I will do that on my laptop so that he can see it, and  
21 he can scroll through it.

22 MS. KLEIN: Will you let me know if the  
23 witness scrolls through different pages that are not --

24 MS. OLALDE: Yeah. And I think that that  
25 can also happen -- sure. And I think that can also

1 happen with your questioning and conversation with him.

2 And right now I am trying to load the  
3 exhibit, and it's still taking some time. If you'd  
4 like, you can e-mail it to me, and I can also open it up  
5 that way if that might be faster.

6 MS. KLEIN: Okay.

7 Rob, could you zoom in on the page that you  
8 have up right now?

9 Zoom in further, further, further.

10 CONCIERGE TECH: This is max zoom right  
11 now.

12 MS. KLEIN: That's max zoom?

13 BY MS. KLEIN:

14 Q. Dr. Owens, can you see the text on that page?

15 A. Yeah, I see three paragraphs.

16 Q. Okay. Just while your counsel is pulling up  
17 the page, I'm going to try to ask you questions. And if  
18 the issue she identified might be issues actually come  
19 up, we'll work around them. I certainly want you to be  
20 able to see what I'm asking you about. That's  
21 definitely a clear objective. And I also want you to be  
22 able to have context around what I'm asking you about.

23 MS. OLALDE: Ms. Klein, could you -- could  
24 you possibly allow him to scroll? And that might also  
25 assist in the review of the document. Because I am

1 unable to download it through the Chat, so I still  
2 cannot see the exhibit through our "Marked Exhibits"  
3 folder.

4 CONCIERGE TECH: Is that okay with you,  
5 Counsel?

6 MS. KLEIN: Let's go off -- let's go off  
7 the record for a second, if we can, and sort out this  
8 technical issue. It might make the rest of the  
9 deposition go faster.

10 THE VIDEOGRAPHER: We are off the record at  
11 10:03 a.m.

12 (Brief recess taken.)

13 THE VIDEOGRAPHER: We are back on the  
14 record at 10:16 a.m.

15 MS. KLEIN: If we could please put up --  
16 and scroll to Page 60. This is Page 60 of Exhibit 4,  
17 The Battle -- sorry, Exhibit 3, Game of Politics.

18 If you could scroll up to Page 60.

19 CONCIERGE TECH: (Complied.)

20 BY MS. KLEIN:

21 Q. And you see that heading there, Dr. Owens,  
22 Establishing, Representation, and One Person, One Vote  
23 in the House? Is this one of the sections that you  
24 drafted?

25 A. It is.

1 Q. Okay. If we scroll down to the next page, 61,  
2 and I'd like you to look -- you write about a few cases  
3 here on the lower part of the page, Karcher v. Daggett;  
4 if we scroll down, South Carolina -- South Carolina  
5 v. Katzenbaum, and then if we go lower, that Miller  
6 v. Johnson case that you mentioned earlier and Alabama  
7 Legislative Black Caucus v. Alabama from 2015.

8 Did you apply the standards in any of these  
9 cases in your analysis in this matter?

10 A. The Thornburg v. Gingles cases will be the one  
11 referenced this case; the others that we've discussed  
12 here, in particular, not to my knowledge. I mean, a  
13 slight reference, I think, is made to the, in  
14 particular, Wesberry, or Reynolds versus Simms, and we  
15 talk about this, that the -- you know, equal population  
16 within, now, our counties. But these are, of course,  
17 federal and state.

18 Q. Well, they're not county-level cases, correct?

19 A. No.

20 Q. What about in assessing compactness? Did you  
21 use any of the analyses set forth in any of these cases  
22 to do an analysis of compactness in Galveston County?

23 A. I did not reference this -- my part of the  
24 textbook when doing this analysis.

25 Q. If we scroll to Page 62 and we go to the

1 heading titled "Cracking," you see that?

2 A. I do.

3 Q. And you can see that under "Cracking," it says:

4 Because districts must have equal populations, lines  
5 will divide neighborhoods. However, a city or  
6 neighborhood that is split to reduce its influence on  
7 electing their representative raises concerns.

8 Do you see that?

9 A. Yes.

10 Q. Cracking can also occur against a racial group;  
11 is that correct?

12 A. Yes, it can, in context.

13 Q. Would you agree that splitting a racial group  
14 to reduce its influence on electing their representative  
15 also raises concern?

16 A. I think in my idea, I think, yes, it -- it can  
17 raise a concern in the fact of why we would have a  
18 review and an assessment.

19 Q. Looking down to the next section, "Incumbency  
20 Protection," in this paragraph on the fourth line at the  
21 end, it says: Second, changes to the district's core  
22 constituency should be minimal, meaning most of the  
23 voters who elected the incumbent in 2020 should still be  
24 in the district in 2022.

25 Do you still agree with that statement

1 about maintaining core constituency?

2 A. I do. I agree with the statement in the fact  
3 of, in its application to congress, when we think about  
4 introducing the topic to students. I mean, there's a  
5 certain part here where I would say, in my mind, we  
6 obviously have to make, any time there's redistricting  
7 decisions, a reflection of population changes.

8 And where -- if -- this probably takes into  
9 assumption that there would be minimal population  
10 change. And where that has occurred, there would be a  
11 substantial part of that district. I mean, I think  
12 there's political history or there's political  
13 geography. All can be considered.

14 Q. But as a principled approach, do you believe  
15 core constituency and maintaining a core constituency is  
16 a principled approach that can be taken in  
17 redistricting, correct?

18 A. Yeah. I think it's direct. I will also say  
19 that that is a -- a principle and an opportunity to do  
20 this, because if you are emphasizing incumbency  
21 protection, like the subheading points to in this  
22 paragraph.

23 Q. So that would be something relevant if you were  
24 taking in consideration incumbency protection, correct?

25 A. And an -- yes. In an opportunity, you would

1 consider this of: How likely is that incumbent to  
2 continue to get their same vote share? Do they have the  
3 same voters? It's just -- it's -- it's one of the many  
4 factors that will be considered.

5 Q. You do not discuss county-level redistricting  
6 in this book, correct?

7 A. No. This book is -- in particular, this  
8 chapter is focused on -- titled "Congress." I don't  
9 discuss county-level redistricting in another chapter or  
10 in this chapter.

11 Q. You do not provide analysis of what minority  
12 population distributions might satisfy the Gingles 1  
13 factor either, right?

14 A. No. This is a -- a textbook written to the  
15 population of introductory college students.

16 Q. You do not conduct any analysis of Census data  
17 in this book, correct?

18 A. I think in this case I would expect, throughout  
19 the entire book, I've probably made mention to  
20 population sizes and things like that. So I think -- if  
21 we could clarify something about analysis to Census  
22 data, the work that was done in this case, right, I will  
23 admit in this case is not going to appear in a textbook.

24 Q. You did not draft any demonstrative voting maps  
25 for this book, correct?

1 A. No, I did not.

2 Q. You did not analyze any demonstrative voting  
3 maps for this book, correct?

4 A. Correct. It's a -- it's a textbook.

5 Q. You did not discuss the term "traditional  
6 redistricting criteria" in this book, correct?

7 A. No. That phrase is unlikely to be used.  
8 Although, we have in this case just reviewed, right,  
9 subheadings that point to some of these criteria.

10 Q. You did not discuss what makes a voting  
11 district or map reason- -- reasonably compact in this  
12 book, correct?

13 A. Correct.

14 Q. Okay. Thank you.

15 MS. KLEIN: We can take this down and mark  
16 the next Exhibit 4, which will be Tab 7, "Battle for the  
17 Heart of Texas."

18 (Exhibit 4 was marked for identification.)

19 BY MS. KLEIN:

20 Q. You recognize that title, right?

21 A. I do.

22 Q. We're going to pull that up, but while we're  
23 waiting, I'll ask you a few preliminary questions.

24 What was your involvement with the book  
25 "Battle for the Heart of Texas"?

1           A. I'm a co-author on this textbook with two  
2 colleagues at my university. We've also done quite a  
3 bit of the -- the survey work that went into the  
4 analysis of this. And then I've utilized, as well, a  
5 study of past voting trends in Texas and information  
6 about -- from the Census and the American Community  
7 Survey.

8           Q. Did you draft specific chapters of this book?

9           A. I did.

10          Q. Do you remember which ones?

11          A. Yeah. Let's see. For clarity -- right now, I  
12 can't scroll, but we can go to the Table of Contents.

13          Q. I should -- I should clarify also, this exhibit  
14 is a demonstrative, because I could not download the PDF  
15 of this book. And also had concerns I was going to make  
16 a free version of the whole book available, so -- and I  
17 didn't want to do that.

18          A. Oh, no.

19          Q. So this is just excerpts.

20          A. I think the publisher appreciates this.

21          Q. Yeah. This is a -- this is absolutely just  
22 excerpts. Let me see if I included a table -- I don't  
23 believe I included a Table of Contents, but I can pull  
24 one up.

25                   CONCIERGE TECH: I just passed control to

1 the witness -- I'm sorry to interrupt. I just passed  
2 control of my computer to the witness.

3 MS. KLEIN: Well, let me -- I don't think I  
4 have a Table of Contents in this.

5 BY MS. KLEIN:

6 Q. So let me just ask you: Did you review the  
7 entire book before it was published?

8 A. I did.

9 Q. Are you relying on any analysis from this book  
10 in forming the opinions you're offering in this matter?

11 A. No. This book is not cited. I think it's  
12 just -- will be part of my knowledge and what I'm  
13 creating, but I did not cite to this book for an  
14 opinion.

15 Q. You do not discuss county-level redistricting  
16 in this book, correct?

17 A. That's correct.

18 Q. You do not --

19 A. This is a book about elections in Texas.

20 Q. You do not provide analysis of what minority  
21 population distributions might satisfy Gingles 1 in this  
22 book either, correct?

23 A. Correct.

24 Q. You did not conduct -- strike that.

25 You did not draft any demonstrative voting

1 maps for this book, correct?

2 A. There are certainly maps in this book. So  
3 clarify: What do you mean by -- by the voting maps?

4 Q. Did you --

5 A. Because I have maps of elections and county  
6 election returns.

7 Q. Did you draft any demonstrative voting district  
8 maps for this book?

9 A. No. This is a book about, essentially, voting  
10 in statewide elections.

11 Q. Did you analyze whether any voting maps would  
12 satisfy the Gingles 1 criteria for this book?

13 A. No.

14 Q. You do not discuss the term "traditional  
15 redistricting principles" or "traditional redistricting  
16 criteria" in this book, correct?

17 A. Correct.

18 Q. And you do not discuss in this book what makes  
19 a voting district or a voting map reasonably compact,  
20 correct?

21 A. Correct.

22 Q. You do discuss in this book the increased  
23 racial polarization of Texas statewide politics during  
24 the 1990s. Do you remember that?

25 A. Yes. I think -- does this come under

1 Chapter 1?

2 Q. I think so. And we can go to -- we can scroll  
3 down. And then at the top, I've put the expert --  
4 excerpt page numbers just for clarity on the record.  
5 But if we scroll down to Page 26, "Nook for Web page,"  
6 Page 26 --

7 A. Okay.

8 Q. -- can you see the text? Is it big enough for  
9 you?

10 A. Yeah, I -- I mean, exactly. I can see part of  
11 the text. I think my issue is more making sure if I  
12 want to focus in on a particular sentence, but let's get  
13 started.

14 Q. Yeah. So if you scroll down all the way to the  
15 bottom of this page, and let me -- it says: But as  
16 Texas politics became more -- as polarized as national  
17 politics, with White voters increasingly opting to  
18 support the more economically and socially conservative  
19 Republican candidates in highly visible elections.

20 Do you see that?

21 A. Uh-huh. And then I'm coming into the fact that  
22 it was in the -- kind of, at the bottom of the screen,  
23 but which paragraph?

24 But as -- yeah, I -- I'm just trying to  
25 make sure when I see it, be ready for the next question.

1                   But, yes, let's -- please ask your  
2 question.

3           Q. You also mention in this book that the two  
4 major political parties in Texas remain divided by race.

5                   Do you remember that?

6           A. Yes.

7           Q. In this book you attribute race relations,  
8 Democratic support for civil rights and policies like  
9 the border wall and immigration as causing Black and  
10 Latino voters to more strongly prefer Democrats.

11                   Do you recall that?

12           A. I recall these very broad topics. Which page  
13 are we looking at in our excerpts?

14           Q. Sure. I'm happy to direct you to pages.

15                   But you do recall making those  
16 statements --

17           A. Yes --

18           Q. -- in this book?

19           A. -- I think we were also pointing to the fact  
20 that they are going to be at different levels, right?  
21 So part of this -- our intent of the book is also to  
22 understand Latino electorate and that they're going in  
23 possibly sometimes to support Republicans and then other  
24 times to support Democrats.

25                   THE COURT REPORTER: Dr. Owens, please slow

1 down.

2 THE WITNESS: Sure.

3 THE COURT REPORTER: Thank you.

4 BY MS. KLEIN:

5 Q. You -- you go so far as to say that Republicans  
6 have a race problem in Texas.

7 Do you recall writing that in this book?

8 A. I don't think that -- I'm an author on the  
9 book, but I think collectively that's not a chapter that  
10 I contributed to.

11 Q. I'll take you to the page; this is PDF Page 15.

12 A. Okay.

13 Q. And we will scroll down to that. And it's  
14 Chapter 7, Race and Social Justice in Texas Politics.

15 Do you recall whether you drafted this  
16 chapter of the book?

17 A. Sure. I'm not the primary author of this  
18 chapter.

19 Q. Who was the primary author?

20 A. Kenneth Bryant, Jr.

21 Q. Did you offer edits to this chapter?

22 A. Yes, I did.

23 Q. Did you disagree with the statements in this  
24 chapter before it was published?

25 A. No, I don't -- in this case, in particular, I'm

1 not going to make disagreements with my colleague, and  
2 we're just offering, in many ways, directions towards  
3 particular comments we got from reviewers, of other  
4 experts towards this book, and anything that we could  
5 add to for clarity.

6 But, yeah, I think collectively we opened  
7 this up for conversations. There's -- obviously, a lot  
8 of what's changing in Texas politics references to the  
9 part here of whether or not there is a race problem with  
10 the Republican Party.

11 Q. Do you think your colleague took a principled  
12 approach when he wrote this section of the book?

13 A. Yes. I think he is using the same part --  
14 history and -- and justifying parts of his -- the  
15 claims.

16 Q. So do you think the claims he makes in this  
17 section are the result of principled methods of analysis  
18 in political science?

19 A. In particular here, if I think about the  
20 methodology, this is often mostly descriptive evidence  
21 that's being used, and we will -- but, yes, the fact  
22 here is, there's going to be often a case of history,  
23 right, recent political history that's talking about  
24 this. And, you know, I think, given the time of our  
25 book coming out in 2022, a lot of attention here was

1 focused on events like summer of 2020.

2 Q. So this is a very up-to-date analysis of race  
3 relations in Texas, correct?

4 A. Yes.

5 Q. What about the other statements we talked about  
6 before that weren't part of Chapter 7? Do you disagree  
7 with any those statements you recall making in the book?

8 A. No. I think in this case I have a -- general  
9 statements of -- said in the book, I think, largely will  
10 fit with my -- my view.

11 Q. I mean, you wouldn't put your name on something  
12 that you disagreed with, right?

13 A. Right, yeah, absolutely.

14 Q. I wouldn't -- I wouldn't either, so I  
15 understand that.

16 Do you recall that your colleague also, in  
17 Chapter 7, talked about how Republicans have shifted  
18 from overt racial appeals in the past to what is termed  
19 "abstracting" racial issues to make them sound race  
20 neutral? Do you remember that discussion in this?

21 A. I do. This is -- this discussion was focused  
22 most often on congressional races in Dallas.

23 Q. Okay.

24 MS. KLEIN: We can take this down.

25 CONCIERGE TECH: (Complied.)

1 BY MS. KLEIN:

2 Q. I'd like to go back to your CV, which is  
3 Exhibit 2, and I'm going to move a little bit faster  
4 now, and we can move on to other topics.

5 But just to close out your experience,  
6 let's scroll down to the articles that you list under  
7 "Articles." So there's three on Page 1, and then if we  
8 scroll down, there are, looks like, eight more on --  
9 seven or eight more on Page 2, so ten articles total.

10 Are these all of the peer-reviewed articles  
11 that you've published?

12 A. Yes.

13 Q. Is it correct that none of these articles  
14 discuss in depth the Voting Rights Act?

15 A. Yeah. That's not the primary focus, in  
16 particular, with these. The -- we have -- the reference  
17 towards voting laws will come towards Article 7, or  
18 Numbered 7, changes in attitudes about opportunities  
19 here of absentee voting in Texas.

20 But, yes, a lot of these, even to the top,  
21 you're not going to -- but the Voting Rights Act is not  
22 the primary focus of these articles.

23 Q. And redistricting is not the primary focus of  
24 the articles either?

25 A. No, it's not.

1 Q. Traditional redistricting principles or  
2 criteria, that's not the focus either, correct?

3 A. No.

4 Q. How voting maps should be drawn is not the  
5 focus?

6 A. No. I don't offer many opinions about how they  
7 should be drawn.

8 Q. And the Gingles standard, that's not the focus  
9 of any of these articles, correct?

10 A. No.

11 Q. What constitutes a compact voting district is  
12 not the focus of any of these articles either, correct?

13 A. That's correct.

14 Q. And what constitutes a geographically compact  
15 racial group is also not the focus of any of these  
16 articles?

17 A. You're right.

18 Q. So none of these articles relate to the issues  
19 you opined on in this matter; is that right?

20 A. That's right. It just focuses on general  
21 knowledge and an ability to do social science for  
22 American Politics.

23 Q. And if we scroll down to "Book Chapters" on the  
24 next page of your CV, in all those questions I asked,  
25 none of these book chapters focuses on those issues

1 either, correct?

2 A. That's right. It's focused on congress and  
3 teaching.

4 Q. Moving on to "Awards," you list four awards.

5 None of those are related to the drawing of  
6 voting maps, correct?

7 A. No. I -- I'm curious. I'm trying to build my  
8 resumé. Is there an award for redistricting?

9 But, no, sorry.

10 Q. And under "Grant & Contract Support," do any of  
11 these projects relate to the opinions you've offered in  
12 this matter?

13 A. No, they do not.

14 Q. Is there any published material coming out of  
15 these projects that's not otherwise listed on your CV?

16 A. Not that's identified as forthcoming, no. We  
17 have papers in preparation or trying to work on them.

18 Q. So taking all that in sum, is it fair to say  
19 that your academic research has not focused on  
20 redistricting?

21 A. I would think, in this case, that redistricting  
22 is not the only thing that I cite. And so, primarily,  
23 we have other parts of research and work, in this case,  
24 of topics you can do to help counties or states.

25 And so my published work, it's focused

1 right now on understanding a lot of the population  
2 dynamics that exist in a geographic area. Those skills  
3 still --

4 Q. Which -- which of your published works are you  
5 referring to?

6 A. "Battle for the Heart of Texas" is primarily  
7 based off of survey research talking about different  
8 geographic areas within the State of Texas. So that  
9 gives you, essentially, not a countywide analysis but a  
10 statewide analysis that's relevant.

11 Also, leading the project of the survey  
12 research that was on vaccine hesitancy in Texas really  
13 focused in on the different public health regions that  
14 are here in the state. So that would be a sub-state  
15 study.

16 Q. In either of those things you just mentioned,  
17 did they focus on the configuration of voting maps  
18 specifically?

19 A. No. They focus on people who live in an area  
20 and what their beliefs are.

21 Q. So would you say that it's fair to say the  
22 configuration of voting maps has not been a focus of  
23 your academic research, correct?

24 A. I would say that's -- that's one of your  
25 evaluations. It's sort of a subjective point.

1                   But in the idea of, no, I don't have a  
2 published work saying what my standard is of a voting  
3 district. I think what shows here is a lot of research  
4 that is identified to understanding how you would apply  
5 research and data from the American Community Survey to  
6 political outcomes.

7           Q. Voting behaviors, correct?

8           A. It's voting behaviors, but here we're also  
9 talking about -- it could be to anything, right; I mean,  
10 attitudes towards receipt of -- or receiving the vaccine  
11 in Texas or reasons for hesitation.

12           Q. But the configuration of how districts in a  
13 voting map, that has not been a focus of your academic  
14 work, correct?

15           A. Correct. It's been -- I've been able to review  
16 other research, right, and take in those readings,  
17 but...

18           Q. You have not published any peer-reviewed  
19 articles on the configuration of voting maps, correct?

20           A. Correct.

21           Q. You have not published any peer-reviewed  
22 academic materials on what might constitute a compact  
23 district in a voting map, correct?

24           A. That's correct.

25           Q. And you have not published any peer-reviewed

1 articles or books about what would constitute a  
2 geographically compact minority population; is that  
3 correct?

4 A. No. But I think -- in this case, we certainly  
5 have research in this case that focuses on where you  
6 have higher concentrations of minority populations and  
7 what their perspectives are and how they also contrast  
8 to others.

9 Q. Taking out voting behaviors, just talking about  
10 geographic location, what article are you talking about  
11 that you've published that talks about geographic  
12 locations in minority populations?

13 A. Because we are focusing on -- on an article out  
14 of a textbook, the "Battle for the Heart of Texas."

15 Q. Okay. "Battle for the Heart of Texas," okay.

16 You have a bio of yourself on the  
17 university website.

18 MS. KLEIN: And let's pull it up. I think  
19 it'll load pretty quickly, Tab 9, and we'll mark it as  
20 Exhibit 5.

21 CONCIERGE TECH: (Complied.)

22 (Exhibit 5 was marked for identification.)

23 BY MS. KLEIN:

24 Q. And let's scroll right in -- if we can scroll  
25 in to this. Do you recognize this, Dr. Owens?

1 A. Uh-huh. I mean, I do, yeah.

2 Q. And scroll down. It's you -- it's a picture of  
3 you.

4 Did you have -- did you look at this before  
5 it was posted on the university website?

6 A. Yes. I mean, essentially, most often, we'll  
7 provide a paragraph that someone else uses to post on  
8 the website.

9 Q. So if we scroll down to "Biography" section, is  
10 this the paragraph that you provided?

11 A. Yes.

12 Q. And you -- it's up-to-date; it -- it accurately  
13 summarizes the current focus of your academic work?

14 A. I think in the role of -- as far as up-to-date,  
15 the last time this was updated would be more than a year  
16 ago. But I -- I still think that, yes, this describes  
17 much of the published work that I've had and -- but --

18 MS. KLEIN: We can take that down. Let's  
19 go to Tab 10, and we'll mark that as Exhibit 6.

20 (Exhibit 6 was marked for identification.)

21 BY MS. KLEIN:

22 Q. And this is just your bio from your website as  
23 well. And I'll ask you to tell me that you recognize it  
24 and it looks accurate.

25 A. Okay.

1 Q. And this is your -- so this is a PDF copy.

2 MS. KLEIN: We can zoom in.

3 CONCIERGE TECH: (Complied.)

4 BY MS. KLEIN:

5 Q. Do you recognize this as your website?

6 A. Yeah. I think with the fonts, I do, and --  
7 let's see -- then move down, we've got topics. Agreed.

8 MS. KLEIN: Let's scroll down.

9 CONCIERGE TECH: (Complied.)

10 BY MS. KLEIN:

11 Q. So you -- you're the one that decides what goes  
12 on this website, correct?

13 A. Yeah. Nobody else has control.

14 MS. KLEIN: Scroll down.

15 CONCIERGE TECH: (Complied.)

16 BY MS. KLEIN:

17 Q. And if we look -- and then it looks like the  
18 picture has cut off the text a little bit. But --

19 A. Okay. So I think -- zoom in. I can read it,  
20 though.

21 MS. OLALDE: Just make sure she can still  
22 see you on the --

23 THE WITNESS: Oh, sorry. Can you -- oh,  
24 sorry, yeah.

25 MS. OLALDE: Yeah. If you're going to look

1 at the exhibit, just --

2 THE WITNESS: Side-by-side --

3 MS. OLALDE: Right.

4 THE WITNESS: -- groups.

5 But, yeah, I think it's currently working  
6 with the center and my scholarship -- sorry -- explains  
7 how. And then we'll see here, the public response to  
8 institutions.

9 BY MS. KLEIN:

10 Q. So this is also up-to-date, correct?

11 A. Yes.

12 Q. Okay.

13 MS. KLEIN: We can take that down.

14 CONCIERGE TECH: (Complied.)

15 BY MS. KLEIN:

16 Q. Let's briefly go back to your CV; this is  
17 Exhibit 2. And, here, let's go to Page 4 of that  
18 Exhibit 2. I just want to close out your CV so we can  
19 move on to other topics.

20 MS. KLEIN: Can we zoom in -- max zoom in  
21 to Page 4, and look at the commentary.

22 CONCIERGE TECH: (Complied.)

23 BY MS. KLEIN:

24 Q. These are all news articles, correct?

25 A. Yes. That's --

1 Q. They're not peer-reviewed, correct?

2 A. No, it should be like an -- well, right, not  
3 peer-reviewed. Op-eds for the public to see.

4 Q. And none of them discuss voting maps or  
5 redistricting, correct?

6 A. No.

7 Q. None of them discuss voting patterns across  
8 racial groups either, correct?

9 A. No.

10 MS. KLEIN: We can take that -- oh, sorry.  
11 Keep the exhibit up. Let's go to invited talks very  
12 briefly.

13 BY MS. KLEIN:

14 Q. All of the redistricting-related talks that you  
15 list here were for the League of Women Voters; is that  
16 correct?

17 A. Yes. All those that have the titles, that's  
18 right.

19 Q. What -- are there any other non-League of Women  
20 Voters talks that talked about redistricting?

21 A. Yeah. At Bates College I gave a talk on Martin  
22 Luther King Day about the legacy of the Voting Rights  
23 Act in 1965.

24 Q. Did you talk about the --

25 A. I talked about the amendments to the Voting

1 Rights Act.

2 Q. What kind of talk was that at Bates? What did  
3 you cover? How long was it? What did you cover, for  
4 example?

5 A. Yeah. I was one of, what I think I remember is  
6 two presenters, as part of an hour-long panel. It's a  
7 celebration towards Martin Luther King and its focus  
8 there.

9 So I described a little bit of how -- what  
10 started with the 1965 Voting Rights Act. And, in  
11 particular, right now, it would be, like, introduction  
12 of preclearance, and talked about the expansion of  
13 preclearance.

14 Q. And for the League of Women Voters talks --

15 A. Uh-huh.

16 Q. -- how did you come to give these talks to the  
17 League of Women Voters?

18 A. Yeah. I was invited by their -- their board;  
19 in this case, sort of involvement with the community.  
20 We know them well, and I've been on their nominating  
21 committee. So some of the times as their university,  
22 right, as one of the experts, they tend to ask me to  
23 come and talk about recent topics or topics of general  
24 interest.

25 So we talked about redistricting in a large

1 forum, right, prior to the -- the Census, and that was  
2 to motivate people to know that the Census was about to  
3 be collected and that they should be participate.

4 Q. They're not an academic group, correct?

5 A. No. I think they're a civic organization.

6 Q. And for the Bates College, was redistricting  
7 the focus of your speaking at that event?

8 A. Yeah. It was one of the two focuses. I mean,  
9 I think I have anything related to other voting laws,  
10 but --

11 Q. How was it the focus?

12 A. The focus to talk about how it sets up the role  
13 of, right, courts and -- most often about congressional  
14 redistricting.

15 Q. Did you talk about a principled approach to  
16 assessing whether Gingles 1 was satisfied in a  
17 jurisdiction during that Bates College talk?

18 A. I guess, I can't -- I can't recall all the  
19 details of that.

20 Q. Okay. And then, lastly, if we look at  
21 "Conference Presentations," did any of these  
22 presentations relate to research that's not otherwise  
23 listed on your CV?

24 A. Yes. It would be parts of working papers and  
25 groups that we have in draft form, so...

1 Q. Things that have -- things that have not been  
2 published yet?

3 A. That's correct. So if they're still collecting  
4 data on them or working towards projects, yes.

5 Q. Is there any working paper that you've  
6 discussed here that relates specifically to the issues  
7 you opined on in this case?

8 A. No.

9 Q. And then if we scroll down to --

10 MS. KLEIN: Let's scroll down to External  
11 Service -- let's skip to External Service.

12 BY MS. KLEIN:

13 Q. On Page 5 you list experience providing  
14 racially polarized voting analyses in two court cases;  
15 is that correct?

16 A. Yes.

17 Q. Anything related to any litigation, other than  
18 this case, that is not listed here?

19 A. No. I haven't submitted reports to litigations  
20 other than these.

21 Q. Okay. The Palmer v. Hobbs case, I'd like to  
22 just talk about that briefly. That's a matter in the  
23 Western District of Washington, correct?

24 A. Yes.

25 Q. Who engaged you to work in that matter?

1           A. The contact that I received was from attorneys  
2 in the Holtzman Vogel firm.

3           Q. That's the same firm that's representing the  
4 party you were retained by in this case as well,  
5 correct?

6           A. Yes.

7           Q. And you are an expert for the intervening  
8 Defendants in that case, correct?

9           A. Yes.

10          Q. Are you aware of what Plaintiffs have claimed  
11 in that matter?

12          A. From the initial claim, yes.

13          Q. What are the claims in that matter?

14          A. The claim is that, you know, there's a  
15 five-district -- or five-county region of the Yakima  
16 Valley, which I think could constitute a community of  
17 interest.

18                    But, I think, collectively, the important  
19 part is that that's focused primarily on a Hispanic  
20 district and not relevant towards the -- I guess, my use  
21 of the data here, on a Black and Hispanic district.

22          Q. Palmer is about state legislative districts,  
23 right?

24          A. It is, yes.

25          Q. And the plaintiffs have brought Section 2

1 claims in that case, correct?

2 A. Yes.

3 Q. And you understand Section 2, I'm referring to  
4 Section 2 of the Voting Rights Act?

5 A. Yeah. I expected that that was what you were  
6 referring to.

7 Q. So the intervening defendants that you were an  
8 expert for, they're opposing those Section 2 claims,  
9 correct?

10 A. I think, perhaps -- I but I think --

11 Q. Were you --

12 A. I guess my role in that case was to determine  
13 whether there -- the Hispanic population was cohesive in  
14 the area.

15 Q. Did you provide a Gingles 1 analysis in that  
16 report?

17 A. No, I was not asked to do so.

18 Q. Were you asked to look at the geographic  
19 dispersion of the Latino population in that report?

20 A. No. I was primarily focused on their voting  
21 behaviors.

22 Q. So you did not discuss traditional  
23 redistricting principles in your report for that matter?

24 A. I would think, collectively, there's a  
25 possibility that I did when it described towards a

1 particular -- what I can refer to mostly would be  
2 population deviation and others, but when you think  
3 about the compactness of the district proposed, that's  
4 outside the scope of what -- the work I was doing.

5 Q. So you didn't discuss measures of compactness,  
6 for example, in that report?

7 A. Not that I recall.

8 Q. And you did not discuss map-drawing techniques  
9 in that report either, correct?

10 A. Well, I described a little bit about the -- the  
11 selection of voting precincts in a particular city.

12 Q. Did you draw -- did you discuss -- did you  
13 opine on racial gerrymandering in that report at all?

14 A. At the -- yes, there was a general claim in --  
15 in -- but I don't recall, no. I think I discussed that  
16 a little bit on the part of why two areas were  
17 connected.

18 But if anything, it would be a response to  
19 what the claim or what the experts provided in their  
20 report.

21 Q. You provided a supplemental report in that  
22 material as well, correct?

23 A. Yes.

24 Q. And that was to update your original racially  
25 polarized voting analysis in that matter?

1           A. Yes, I did. They -- this was sort of  
2 immediately after 2022 election. So now that the  
3 election had occurred and we had the new district in  
4 place, we updated the results which had been submitted  
5 before that election.

6           Q. Is it correct that the Court has not made any  
7 determination as to the admissibility of your opinions  
8 in that matter?

9           A. I'm not aware.

10          Q. Moving on to the second litigation that you  
11 list, BVM v. Lee, this is a matter in Florida state  
12 courts, correct?

13          A. Yes.

14          Q. Are you aware of what Plaintiffs' claims are in  
15 that matter?

16          A. Yes. This is focused in on -- let's see -- its  
17 progression, primarily the north Florida congressional  
18 district.

19          Q. Do you recall whether they have brought  
20 Section 2 Voting Rights Act claims in that matter?

21          A. I think it's -- yes, I believe that they did.

22          Q. Have -- were you asked to provide a Gingles 1  
23 analysis in that matter?

24          A. No. I focused primarily on the Gingles 2.

25          Q. That's racially polarized voting?

1 A. Exactly.

2 Q. And you were retained by the Florida Secretary  
3 of State in that matter?

4 A. No. I was retained by Holtzman Vogel, I think,  
5 who's working with -- I can't remember -- in the  
6 connection or chain with the Florida Secretary of  
7 State's office.

8 Q. So this matter's also with the same law firm  
9 that you're working with in this matter, Galveston,  
10 correct?

11 A. Yes.

12 Q. And they are counsel for the Florida Secretary  
13 of State, correct?

14 A. Yeah, my understanding.

15 Q. Have -- were you deposed in that matter?

16 A. No.

17 Q. Have you provided trial testimony in that  
18 matter?

19 A. No.

20 Q. Did -- all right. We can -- we can move on to  
21 the -- the last external service that you list here, and  
22 that is map consultant for People Not Politicians  
23 Oklahoma, independent U.S. house and state district  
24 plans in 2021.

25 What is People Not Politicians Oklahoma?

1           A. This is a nonpartisan, like, in this case,  
2 interest group. I understood them for voter education,  
3 and they are in Oklahoma. And so met with them, and the  
4 fact is they are looking for and working towards a  
5 redistricting amendment for the Oklahoma Constitution.

6           Q. How did you become engaged with that group?

7           A. It's because I was introduced to them -- man,  
8 was contacted by their executive director, as well, who  
9 knew faculty, I think in this case, at the University of  
10 Oklahoma.

11          Q. Do you remember when you were contacted?

12          A. Uh-huh. So this year would have been 2021. We  
13 started in 2020, expecting census data to be released  
14 right on time.

15          Q. And it wasn't released on time, right?

16          A. I agree, no.

17          Q. When was it released?

18          A. It was released later in 2020.

19          Q. And you were asked to draw the maps when they  
20 first reached out to you?

21          A. I was.

22          Q. Why were they asking you to draw maps?

23          A. So in my under- -- the State Legislature of  
24 Oklahoma had an open-map submission opportunity that  
25 they used. They even consulted with -- or -- sorry --

1       partnered with Dave's Redistricting App and allowed  
2       people to submit and upload proposals.

3               So in this case, the opportunity was to  
4       identify an expert and come up with the best map that  
5       they could when thinking about items that might be,  
6       right, compact and, in particular, reflect the political  
7       geography of Oklahoma at three different levels in state  
8       legislature as well as the U.S. House.

9               Q.   Can you tell me briefly what your approach was  
10       for drawing those maps?

11              A.   Uh-huh.  The first was to identify -- start  
12       with a district and how it could be created with where  
13       population centers primarily were.

14              So my attention first was towards an idea  
15       of the middle, and then going out.  So Oklahoma City is  
16       a large population center, and tried to create as many  
17       compact shapes that we could within looking at the  
18       political boundaries in Oklahoma.

19              Q.   Did you incorporate any public comment in your  
20       process?

21              A.   Yes.  There was public comments and testimonies  
22       which identified an interest of where a -- a U.S. Air --  
23       I believe, Air Force base would be put.  That's  
24       historically been part of one of the congressional maps,  
25       and it was stated of an interest, I think, by the public

1 there.

2 So the interest group identified that was  
3 something to -- to keep in mind.

4 Q. Do you recall how many public hearings there  
5 were?

6 A. I did not know that. So I was out of the  
7 state.

8 Q. Do you recall when those public hearings took  
9 place?

10 A. No, I think that they had moments where there  
11 may have been sort of public town halls in their direct  
12 part. And then if those stopped, I think in the timing  
13 of COVID, there was sort of a, I think, a particular  
14 disruption of how this process was going.

15 Q. Did you apply a certain set of criteria when  
16 you were drafting those maps, other than that first that  
17 you talked about starting with population centers?

18 A. No, I think -- I -- I largely -- I was applying  
19 the standards of what the ballot initiative would have  
20 included.

21 Q. What do you mean by the "the ballot initiative  
22 would have included"?

23 A. Yeah. So the draft legislation that they would  
24 have had to introduce as a ballot initiative identified  
25 factors that they believed might be the basis of the

1 fair redistricting in Oklahoma.

2 Q. Do you remember what those factors were?

3 A. I think -- really, offhand, I don't recall.

4 But I think the opportunity, in this case, I think that  
5 it'd be -- primarily the emphasis was on compactness,  
6 right, some consideration that there'd be -- alleviating  
7 some of the political competitiveness, and, right, to  
8 the idea of when there was a -- a compact group that --  
9 of voters that they have -- identifying if there was an  
10 opportunity to have a -- a district for them.

11 So that was, I think -- but collectively,  
12 if I recall, there may have been a total of five, about  
13 five principles that they have. And the leading ones  
14 that we were looking for were things that might be more  
15 compact, things that followed the political boundaries  
16 of the areas.

17 Q. Do you agree that having a set of criteria  
18 before drawing a voting map is helpful?

19 A. I think, in this case, it's outside or not  
20 really for me to determine as a political science  
21 professor. It's a certain thing that -- in that  
22 instance, I was given a set of criteria that even had  
23 been adopted by the State to show how that might have  
24 guided the process. So I think --

25 Q. Is that helpful to drawing a voting map?

1           A. I think, in particular, for someone -- it set a  
2 direction, which I could do, but then, again, there were  
3 other considerations which we had, which -- in thinking  
4 about where those population centers are.

5                       So, I think, one of the great parts about  
6 that criteria was, it still was reflective towards, you  
7 know, where were populations gained and also to the idea  
8 of, you know, how can we update their view of Oklahoma  
9 maps.

10           Q. I'd like to --

11           A. And so --

12           Q. -- take a closer look at one of the  
13 congressional plans -- the congressional plan you  
14 drafted.

15                       MS. KLEIN: And if we could mark Tab 36 as  
16 Exhibit 7.

17                       CONCIERGE TECH: (Complied.)

18                               (Exhibit 7 was marked for identification.)

19                       MS. KLEIN: Can we zoom in on that, please?

20                       CONCIERGE TECH: (Complied.)

21 BY MS. KLEIN:

22           Q. Do you recognize this as a Facebook post?

23           A. If you say it was posted on Facebook, I agree.

24 This is definitely a social media post with the -- the  
25 ledgers and everything.

1 Q. So I'll represent that this is a Facebook post  
2 from the account of People Not Politicians.

3 And if you scroll down, do you recognize  
4 that map that's shown in the post?

5 A. Yes. It's a --

6 Q. And scroll --

7 A. -- for the U.S. Congress in Oklahoma.

8 Q. Does that look like the map that you drew for  
9 them?

10 A. Yeah. I think it is, because I was just  
11 involved in, right, suggesting what that map might be.  
12 I -- yeah.

13 Q. Did you draw this map?

14 A. I think I drew something very close to it. In  
15 all honestly, I believe that this is a representation of  
16 what that submission was.

17 MS. KLEIN: And if we scroll back up, and  
18 we can here zoom the maximum amount and -- if possible,  
19 all the way to the top.

20 BY MS. KLEIN:

21 Q. Did you see this Facebook post before it was  
22 made on November 12th, 2021?

23 A. No, I did not.

24 Q. So I'm going to ask you about some of the  
25 things in this Facebook post to ask if you agree with

1 them, and I'll just read from -- starting from the top.

2 Have you seen the People's Map? We know  
3 that the legislature acts like their map is the only one  
4 available to be approved, but it's not. We submitted a  
5 map that is more fair and more representative than  
6 theirs in nearly every way. We call it the People's Map  
7 because we drew it based on the feedback of thousands of  
8 Oklahomans throughout the state.

9 Do you agree with that statement, that the  
10 People's Map is more fair than the ones that the  
11 Oklahoma legislature had proposed?

12 A. I think, in this case, I don't have a --  
13 without analyzing all of the maps together, I don't have  
14 a part of whether it's more fair or not. I think that  
15 the great opportunity that we have of when they  
16 published this was, it reflects back the criteria that  
17 they set forward, right, and used in the definition of  
18 being fair.

19 So I think that's right. And that's where  
20 the difference of opinions was.

21 Q. So it's helpful to have a published set of  
22 criteria that you can use to assess whether a map meets  
23 that criteria later after drafting, right?

24 A. I think, right now, that helps this Facebook  
25 post representation of having the checkmarks of knowing

1 what it does.

2 So to that, right, the criteria will give  
3 you a set to evaluate it, and I think that you also have  
4 opportunities here to use very general understandings,  
5 even just about people, where they live, to give our  
6 evaluation of a district to.

7 Q. The first checkmark that -- you know, you  
8 referenced the checkmarks.

9 The first checkmark says: Keeps 93 percent  
10 of Oklahomans in the same congressional district. The  
11 legislature's map is only 87 percent.

12 When it says "keeps them in their  
13 district," that means compared to the former map, the  
14 benchmark, correct?

15 A. Yes.

16 Q. Do you agree that that makes this map more  
17 advantageous than the legislature's, assuming that those  
18 statistics are true?

19 A. Oh, in this part, I would just think that  
20 that's a key fact. I don't know that that makes it more  
21 advantageous.

22 Q. Why not?

23 A. I think in any -- right, this being one of the  
24 examples that we know where Oklahoma, or any of its  
25 population would have changed. But to the idea, number

1 one, is if there is any reason, right, to make a map  
2 sometimes more, you know, compact or to this idea at  
3 first is -- and individuals may change. They're still  
4 going to get representation. So --

5 Q. Why does your client think that this is more  
6 advantageous?

7 MS. OLALDE: Ms. Klein, I don't think he  
8 was finished with his answer. I just want to make sure  
9 you're allowing him to finish his answers, please.

10 MS. KLEIN: Oh, sure. Yes.

11 BY MS. KLEIN:

12 Q. Please finish your answer, Dr. Owens.

13 A. So in this case, the historical district of  
14 Oklahoma's Congressional District 5 was itself, right, a  
15 square, because that county is a square. And so one of  
16 the things that's -- I think, we noticed the population  
17 changing, it has also grown. And that was this idea,  
18 number one, is that population shrank.

19 So I think any time we do redistricting  
20 populations -- I guess, I start from the idea  
21 populations will change. And whether these  
22 percentages -- I always think of it as a way to open up  
23 the conversation. But it's not something necessarily  
24 you'd say one is more advantageous than another.

25 Q. When you were drafting this map, did you start

1 from the Benchmark Plan, from the benchmark  
2 congressional plan?

3 A. I did, and the fact being -- but then there  
4 were also parts that were changed, I think in  
5 particular, the -- and we made the selections in  
6 particular how that -- you know, public feedback or  
7 other considerations, when you think about where the  
8 populations were. If you look right now, part of  
9 district 4 goes into district 5, right? We were --  
10 primarily focused on -- and that district changed quite  
11 a bit.

12 And our first idea, I would say, you know,  
13 it's the bench -- we started with the benchmark and the  
14 idea of how to keep as many counties whole in the state.  
15 So I had started with two, kind of, criteria in that  
16 case.

17 Q. So starting from a Benchmark Plan is a  
18 principled approach, correct?

19 A. Yes, I'd agree.

20 Q. The second to the last --

21 A. One thing is --

22 MS. KLEIN: Sorry.

23 BY MS. KLEIN:

24 Q. Sorry. Please continue.

25 A. It came with the assumption that the benchmark

1 map provided, right, a good representation of its  
2 community in each case. So to that mind, right, we're  
3 thinking that -- as many would describe, there's  
4 differences between what was enacted in this one. But  
5 the opportunity is that when you start with that  
6 benchmark, right, we carry a lot of the history of  
7 what's -- what's been taken in that case.

8 So, you know, the benchmark preserved parts  
9 of the Oklahoma panhandle, right? I think that was  
10 important to do in this case as well. Because that  
11 community is going to be a lot similar.

12 Q. So the history of the Benchmark Plan is also  
13 relevant when you're deciding how to change a plan,  
14 correct?

15 A. Correct. I think it should be considered and  
16 also evaluated.

17 Q. Does -- the second-to-last bullet says it's  
18 advantageous because it does not unnecessarily divide  
19 any racial or ethnic communities.

20 Do you agree with that statement?

21 A. Yes. I think this map did not do that.

22 Q. Did not do what?

23 A. Oh, in this case, divide racial and ethnic  
24 communities.

25 Q. And did you consider it important, while you

1 were drafting this map, to pay special attention to not  
2 dividing racial or ethnic communities?

3 A. No. It was a -- in this case, when we think  
4 about levels of priorities, it was a -- the first  
5 priority was county -- I think in this case, right,  
6 keeping the County whole in its district.

7 And then where decisions were going to be  
8 made was an important thing, in particular, at the U.S.  
9 congressional level, right? In Oklahoma there are not  
10 majority/minority districts. But at the same time, when  
11 we would come back after the lines were drawn, make an  
12 evaluation, and I think in this case, determine can that  
13 be improved?

14 Q. Did you -- so you did an evaluation for your  
15 client in this case --

16 A. Uh-huh.

17 Q. -- on the issue of whether any racial or ethnic  
18 communities were unnecessarily divided, correct?

19 A. Yeah. In this case, because of the public  
20 nature of this presentation, we were using the  
21 descriptive studies which often which included what  
22 dates redistricting map was going to create. Because  
23 then the public could see that.

24 But those do involve things like the  
25 compactness scores, the measurement of the minority

1 population in the district, right? Comparing it back to  
2 its -- especially to its benchmark and others. And then  
3 also any details, if need be, about the political  
4 competitiveness of that district.

5 Q. So it sounds like you took great care to be  
6 really transparent about the metrics of this plan and  
7 how it changed from the benchmark.

8 Is that fair to say?

9 A. Yes. That's the mission of the organization.

10 Q. Do you think that that attention to  
11 transparency is also important for governments to pay?

12 A. I think, at first, it's when we're -- it's  
13 important for me that the government follows the law  
14 that they have. And so I think that's the first part  
15 that we looked at, is there a direction for them to do  
16 that?

17 In this case, like we're -- I'm taking the  
18 direction from the -- the mission of the organization,  
19 and in particular, why we took the exercise, to use --

20 Q. Did --

21 MS. OLALDE: Wait. Ms. Klein, just make  
22 sure that you're allowing him to finish his answer,  
23 please.

24 And also, once you get to a stopping point,  
25 can we take a short break?

1 MS. KLEIN: Yeah, absolutely. I think in  
2 about three minutes, we'll able to take a break.

3 THE WITNESS: Cool. Thank you.

4 MS. KLEIN: I'm sorry to interrupt you.  
5 You're just getting paused. I'm jumping the gun. Too  
6 much caffeine.

7 Please continue.

8 THE WITNESS: I thought in this case it  
9 was, yeah, following their mission. And the same  
10 opportunity for me was to use something, again, the  
11 county's process. So the very simple part, my  
12 understanding is that the government sees this -- of  
13 Oklahoma -- the government sees this as a presentation  
14 of what an alternative could be.

15 But that was what we were, you know,  
16 advocated for. And, then, I think, collectively this  
17 organization is looking, right, to advocate for their  
18 opportunity to have that be considered.

19 BY MS. KLEIN:

20 Q. So as a political scientist, as an expert in  
21 American political institutions, do you think  
22 transparency should also be a concern, an objective, for  
23 American government institutions?

24 A. I would think, in particular, that that was  
25 the -- I mean, in this process one is to think about we

1 were creating this -- we created our map, and then we  
2 shared it. At the same time that was consistent with  
3 the process, I think, of the state legislature had asked  
4 for.

5 So transparency is something that, once the  
6 decision is created and then it's presented, that was a  
7 clear comparison of alternatives. But I would say in my  
8 mind, right, the fact that this was -- I was focused on  
9 this one. I did not yet know what the State was going  
10 to provide.

11 Q. I understand that.

12 I'm asking your opinion as a political  
13 scientist, whether you think that same attention to  
14 transparency is something that governments should also  
15 be paying attention to, as far as providing information  
16 about maps and how they -- might have changed from what  
17 was previously in place.

18 MS. OLALDE: And I just want to object to  
19 the scope of the questioning, because that is not the  
20 capacity that Dr. Owens has been designated to testify  
21 in this case.

22 You can answer to the extent you  
23 understand.

24 THE WITNESS: I think it's sort of similar  
25 to the question that I had done before. It's most

1 important to me that the government follows the -- the  
2 laws that it has. And very much similar to this  
3 exercise that we have and the conversation that's going  
4 to happen in Oklahoma, is whether voters, right, utilize  
5 an opportunity here where they can change that law.

6 And so where there's agreement, I think  
7 that's my idea of the institutions, that transparency  
8 needs to have its own sort of set stages, right,  
9 schedules. But at the same time, we're focused in on  
10 the public wants to understand what clear alternatives  
11 it has to make the comparison.

12 BY MS. KLEIN:

13 Q. I just want to make sure I'm understanding what  
14 you're saying.

15 You don't think that governments should be  
16 as transparent when they are drafting voting maps, as  
17 you were when you drafted this voting map for a  
18 nonprofit organization?

19 MS. OLALDE: Objection, misstates prior  
20 testimony.

21 You may answer.

22 THE WITNESS: I think in this case the  
23 opportunity was, yeah, we made an effort to do so. But  
24 I would say, in this case, what I'm trying to clarify  
25 is: We showed the final product, right? We reviewed

1 aspects of what their public testimony had been, right,  
2 as summarized by the groups. I think none of -- and  
3 that's part of the transparency.

4 But, you know, when you think about, in  
5 particular, meetings and other opportunities where, as  
6 anything, the maps may go through rounds of revision.  
7 And that is, you know, I think a direct part of knowing  
8 part of its -- you know, its history. But at the same  
9 time, it's something that what goes into effect in  
10 institutions are most often focused in on understanding  
11 the final offer. And in this case, district -- what  
12 district plan was created.

13 So that, I think, is the idea. You want to  
14 know what the proposal was. And being transparent about  
15 that is good. In this case we used a public platform to  
16 be transparent about, right, what the alternative was.

17 BY MS. KLEIN:

18 Q. I'm not sure I got an answer to the question.

19 Do you think it's important for governments  
20 to be as transparent as you were when you were working  
21 for this nonprofit?

22 A. Uh-huh.

23 MS. OLALDE: Objection, asked and answered,  
24 and also objection to the scope of the questioning as  
25 beyond Dr. Owens's designation in this case.

1                   You can answer to the extent you know.

2                   THE WITNESS: Uh-huh.

3                   And I think in my mind I was trying to  
4 emphasize through examples how we went beyond -- I think  
5 this legal standard of transparency that the State of  
6 Oklahoma had.

7                   So I think at the minimum, I want to make  
8 sure, as an institutionalist, that the -- a government  
9 is following the -- the laws that it has about a  
10 redistricting process, right, and the moments beyond  
11 that, right? I think, in particular, is what we can  
12 talk about.

13 BY MS. KLEIN:

14                  Q. What I'm -- uh-huh.

15                  MS. OLALDE: Hold on. Ms. Klein, please  
16 allow him to answer -- to complete his answer.

17                  THE WITNESS: The part I'm trying to say  
18 through examples is, you know, any opportunity where  
19 one -- you know, a process occurs and one process has  
20 more than another is just, in my mind, a reflection of  
21 how that occurred. So context matters a lot in this.

22                  And so what happened in Oklahoma, I see, is  
23 something different than what's happening in Galveston,  
24 by, number one, there was even a set process of the -- a  
25 full advertisement that was made and a use of an expert.

1 BY MS. KLEIN:

2 Q. What happened to this map after it was  
3 submitted?

4 A. I think the direct details I'm not all clear  
5 about, but I think I understand that this map is one  
6 that was submitted as part of the -- yeah, the  
7 legislative process, which says, you know: Hey, it was  
8 an alternative for the legislators to take process.

9 But I didn't have involvement in the -- the  
10 project after that submission.

11 Q. This was not adopted, correct?

12 A. No, it was not adopted.

13 Q. None of the maps you drew for Oklahoma were  
14 adopted, correct?

15 A. Correct.

16 Q. Other than those three maps, have you ever  
17 drafted any other voting map in any other capacity?

18 A. No.

19 Q. So you've never drafted a voting map that was  
20 actually used in an election, correct?

21 MS. OLALDE: Objection, asked and answered.

22 THE WITNESS: Right, I don't think so. I  
23 think, typically, you know, maps are things that I've  
24 always, as an institutionalist, continued to expect are  
25 sort of proposed by the -- by the governments. It's up

1 to the Government, right, whether I would be called on  
2 to do that, but I have not been.

3 BY MS. KLEIN:

4 Q. Did any court of law rule that the maps you  
5 drafted in Oklahoma were legally compliant?

6 A. Not that I'm aware. I don't think that this  
7 map was submitted to any court at all.

8 Q. And just to be clear, you've never drafted a  
9 county-level voting map, correct?

10 A. Correct. And I did not draft a map in relation  
11 to this project. I just evaluated maps and illustrated  
12 maps that were submitted.

13 Q. And you've never consulted on a county-level  
14 voting map, correct?

15 A. Correct. This is my first work on county-level  
16 analysis that's on behalf of a government.

17 Q. Okay. Thank you, Dr. Owens.

18 MS. KLEIN: This is a good stopping point,  
19 if you would like to take a break.

20 THE WITNESS: Great. Appreciate it,  
21 Hilary, thank you.

22 MS. OLALDE: Thank you.

23 THE VIDEOGRAPHER: We are off record at  
24 11:23 a.m.

25 (Brief recess taken.)

1 THE VIDEOGRAPHER: We are back on the  
2 record at 11:35 a.m.

3 MS. KLEIN: Thank you. Is the court  
4 reporter ready to go?

5 THE COURT REPORTER: Yes, I'm here. All  
6 set.

7 MS. KLEIN: Great. Thank you so much.

8 BY MS. KLEIN:

9 Q. So during the break, just to save time, I  
10 had -- I've asked to have two exhibits marked.  
11 Exhibit 8, which we will talk about, it's the March 17th  
12 report submitted by Dr. Owens, and then Exhibit 9, which  
13 will be the March 31st amendment to that report.

14 (Exhibit 8 was marked for identification.)

15 (Exhibit 9 was marked for identification.)

16 MS. KLEIN: So I just want to make clear  
17 for the record that by using the amended report as an  
18 exhibit in this matter -- it will be marked as  
19 Exhibit 9 -- I want to be clear for -- that the NAACP  
20 Plaintiffs are reserving their right to object to its  
21 admissibility as untimely under the Federal Rules and  
22 the Court's scheduling order.

23 If the NAACP Plaintiffs do make such an  
24 objection and it is sustained by the Court, we may ask  
25 for portions of that amended report to be excluded, and

1 then we will also reserve our right to ask for certain  
2 deposition testimony about that amendment to similarly  
3 be excluded.

4 So I just wanted to make that clear on the  
5 record for the defendants and the other parties.

6 MS. OLALDE: Thank you. I appreciate that,  
7 Ms. Klein.

8 And then I think, also, yesterday, that the  
9 Court made clear that, you know, typically expert  
10 reports aren't admitted as exhibits, but we can always  
11 discuss that with the Court at a later time.

12 BY MS. KLEIN:

13 Q. Okay. Dr. Owens, before you conducted any  
14 analysis in this case, had you seen any analysis about  
15 whether Galveston County satisfies the Gingles factors,  
16 other than those generated by experts in this matter?

17 A. No, not outside this case.

18 Q. I think you mentioned earlier reviewing the  
19 expert reports in this matter.

20 Do you remember reviewing a January report  
21 by expert William Cooper?

22 A. Yes.

23 Q. What about his more recent March rebuttal  
24 report, have you reviewed that?

25 A. Briefly.

1 Q. Are you familiar with Mr. Cooper?

2 A. No, not outside of these reports. I just know  
3 his -- yeah, essentially his resumé and the opportunity  
4 he has there, but I have not met him or anything like  
5 that.

6 Q. What about Mr. Anthony Fairfax, do you recall  
7 reading his January report in this matter?

8 A. Yes.

9 Q. And have you seen his more recent April  
10 rebuttal report?

11 A. I received that yesterday.

12 Q. Are you familiar with Mr. Fairfax?

13 A. Not personally.

14 Q. What about Mr. Ty Rush, do you recall reading  
15 his January expert report in this matter?

16 A. Yes.

17 Q. Are you familiar with Mr. Rush?

18 A. No, not -- again, not personally.

19 Q. And then, again, the report of Dr. Krochmal,  
20 you recall reviewing that expert report?

21 A. I do, yes, primarily wrote to it, and that was  
22 one of the central, sort of, objectives of my second  
23 report.

24 Q. I'll -- just for clarity, I'll refer to your  
25 second report, which I haven't marked as an exhibit yet,

1 as the Krochmal rebuttal, if that's okay, just for  
2 clarity of the record?

3 A. Thank you.

4 Q. Are you familiar with Dr. Krochmal?

5 A. No, not personally.

6 Q. Any other of the expert reports have you  
7 reviewed in this matter, the names, for example,  
8 Stephens Dougans, Professor Burch, any of those ring a  
9 bell as reports you may have reviewed?

10 A. Yes, they -- they ring a bell, and  
11 particularly, Stephens Dougans, I read that briefly;  
12 Burch as well. There's also -- I think, in addition,  
13 right, there's reports from Professors Matthew Barreto  
14 and Dr. Escue.

15 Q. Are you intending to opine on the contents of  
16 those reports?

17 A. No. I think the opportunity here was just my  
18 opinions are focused on the compactness of districts and  
19 the compactness of residents in the County, as well as  
20 the recent political history.

21 Q. Are you intending to provide any opinions  
22 rebutting those other expert reports, Stephens Dougans,  
23 Burch, Barreto, Escue, in this matter?

24 A. No, there are no plans to do so.

25 Q. Let's go back to the Cooper, Fairfax, and Rush

1 reports, which you said you did review as relevant to  
2 your own reports.

3 Did you review all of their accompanying  
4 exhibits?

5 A. Yes.

6 Q. Is it correct that you did not find any error  
7 with their census data calculations in their reports or  
8 exhibits?

9 A. No, I think they used the opportunities here,  
10 number one, of the actual census and then the American  
11 Community Survey. I would not identify an error with  
12 them.

13 Q. So when you say "no," you mean you have not  
14 identified any error, just to make it clear for the  
15 record?

16 A. That's right. I think -- the last statement I  
17 thought I said was: No, I have not identified an error.

18 Q. And you also did not find any error with their  
19 socioeconomic statistical calculations either; is that  
20 right?

21 A. No error. It's --

22 Q. Instead, you, among other things, contend that,  
23 these three experts, their illustrative plans violate  
24 traditional redistricting principles.

25 Is that a fair summary of the conclusion

1 you came to?

2 A. Yes, I think so. As I also pointed to  
3 redistricting principles and collected analysis of their  
4 districts, right, and relevant to the rest of the  
5 County, but can start there.

6 Q. As far as those illustrative maps from those  
7 three experts, other than the violation of  
8 traditional -- traditional redistricting principles you  
9 contend, do you have any other criticisms of their  
10 analyses related to those illustrative plans?

11 A. No, it's not a criticism there. Primarily,  
12 this has been -- my criticism focuses on the selection  
13 and also, right, what's the applicability still of the  
14 benchmark district.

15 So I know that's a heavy part of what they  
16 have done in their analysis, is trying to maintain a  
17 benchmark district. And I think, one, where we all  
18 start from, is that there was population change in the  
19 County, and this -- county commissioner precinct, which  
20 had been underpopulated, remains underpopulated.

21 Q. But going back to my question: Other than the  
22 violation of traditional -- traditional redistricting  
23 principles, you don't have criticisms of their other  
24 analysis of their reports; for example, their  
25 compactness score calculations, their calculations of

1 how many split municipalities there are.

2 You don't have specific criticisms related  
3 to those calculations, correct?

4 MS. OLALDE: Objection, overbroad. Just  
5 want to make sure that we're being clear as to what  
6 exactly he -- you're asking. And since this is such a  
7 broad question, I just want to make that objection for  
8 the record.

9 MS. KLEIN: Sure. And -- and, Angie, I  
10 appreciate your objection, but I think -- I think this  
11 came up in a deposition yesterday. Your colleague,  
12 Mr. Holt, mentioned that a form objection is sufficient.

13 So if you just want to say "objection,  
14 form," or "objection, vague," that -- that probably  
15 might save us some time.

16 MS. OLALDE: Thank you, Ms. Klein, but I  
17 will continue to make my objections as I see fit to make  
18 sure that we have an appropriately clear record for the  
19 Court and the jury.

20 Thank you.

21 MS. KLEIN: All right. I'm just going to  
22 continue to mention if you're going to be coaching the  
23 witness, I'll just have to chime in there.

24 MS. OLALDE: Actually, Ms. Klein, I'm going  
25 to be very clear: There is no coaching of the witness,

1 and I don't appreciate that kind of statement,  
2 especially on the record or at any other time.

3 And I will be continuing to pose my  
4 objections, again, as I see fit. And I just want to be  
5 very clear; I do not appreciate that statement from you.  
6 It is unprofessional and inappropriate.

7 MS. KLEIN: I didn't mean to offend you,  
8 certainly, but I do have concerns about that. And I  
9 just want to make sure that we are protecting the  
10 integrity of the deposition, especially by following the  
11 standard rules as far as how objections are made and  
12 form objections.

13 So hopefully we won't have any issues going  
14 forward.

15 BY MS. KLEIN:

16 Q. Moving forward, you included -- let's move --  
17 let's move on, Dr. Owens, to discussing your Gingles 1  
18 analysis of Galveston County. And here, let's --  
19 we'll -- I'll reference Exhibit 9, the amended report.

20 MS. KLEIN: And if we could pull that up  
21 and have it just ready to screen share, if needed.

22 CONCIERGE TECH: (Complied.)

23 BY MS. KLEIN:

24 Q. Can you tell me what principles you think  
25 should be applied to evaluate whether Gingles 1 is

1 satisfied in a geographic area?

2 A. First, I think, primarily, as I have also tried  
3 to present this through the -- the figures and tables,  
4 but we identify where is a population centered into the  
5 County, where is heavy points of concentration? How far  
6 are they from apart [sic]? Or are they close together?

7 So, first, I look at the Hispanic  
8 districts -- or Hispanic residences, based off of the  
9 American Community Survey, Five-year Estimates, that  
10 we've talked about and where are they, in particular,  
11 the census blocks and the concentration of those  
12 communities.

13 So we identify here that there are not only  
14 north, south, but also east and west opportunities here  
15 where the Hispanic community in Galveston County, right,  
16 is essentially on the periphery of the County in where  
17 they live. They live in concentrated areas, right, in  
18 the different cities that we have within the County.

19 So then take it to the fact of where are  
20 the voting districts and how those populations, again,  
21 meet up.

22 So every time we are doing this in an  
23 opportunity, we want to look at the granular geographic  
24 level and then move up the ladder to more aggregate  
25 levels of our, right, data and analysis, but continuing

1 to use the same data.

2 The idea here is to then also do the same  
3 step and process of the African American or Black  
4 residents in the community by looking at: Where is that  
5 citizen voting age population?

6 So that starts first without a look at what  
7 the benchmark map had been. And then, in particular,  
8 why I overlaid the benchmark map onto those figures is  
9 to show whether or not they were captured.

10 In this case, the benchmark map does not  
11 capture as many of the concentrations of Hispanic  
12 populations that exist. It does concentrate most of the  
13 areas that have African American populations. We come  
14 back to this though, the citizen voting age population  
15 of the whole county, this idea is number one, to make  
16 up, as the other experts have done: Is this population  
17 large enough to have its own district?

18 And I think, in particular, even as laid  
19 out in the complaint, this is not a question of whether  
20 it's an African American district, but whether that's an  
21 African American plus Hispanic district. And so that's  
22 why I'm evaluating those two groups separately to  
23 determine whether or not they are also the same in those  
24 groups and why they would be joined together.

25 So we continued to look at this, how

1 similar -- or how far apart are they? How distant? And  
2 then also how disparate are they in their lifestyles,  
3 which is based off of work or education status. And  
4 also at times mobility in this case, when do people  
5 arrive into Galveston.

6 BY MS. KLEIN:

7 Q. Let's isolate a few things you said in there.  
8 Thank you for that explanation.

9 I understand correctly you looked at the  
10 Latino -- you term it Hispanic population, so I'll use  
11 your term -- the Hispanic population and the Black  
12 population separately, correct?

13 A. Yes. Because that -- in particular, that will  
14 come out as different even columns in the Census  
15 reports.

16 Q. And you also assessed whether those populations  
17 themselves, the Hispanic individual population in  
18 Galveston County, is living in a compact area, correct?

19 A. Yes. I think you would want to determine that  
20 information before you -- yeah.

21 Q. You've never done a Gingles 1 analysis for a  
22 coalition of voters; is that correct?

23 A. Correct.

24 Q. I can skip a few questions, because you  
25 provided me a lot of answers when you were speaking

1 earlier, so forgive me for pausing a little bit. I'm  
2 just trying to move forward as much as we can.

3 Did you ever evaluate whether Black and  
4 Latino populations together could constitute a majority  
5 of a reasonably compact district?

6 A. Yes. I think that -- that's primarily the goal  
7 of my report, is to find out if they have the  
8 similarities to create the reasonable part. My --  
9 collectively I thought if you find similarities between  
10 the north and south part of the district within the  
11 race, and essentially within the geography, then, I  
12 think, in particular, there's an opportunity that would  
13 be made. I, when looking at these results, have not  
14 found that.

15 Q. I guess what I'm asking is: Did you, yourself,  
16 sit down and try to draw the Black and Latino  
17 populations into a reasonably compact district in  
18 Galveston?

19 A. I did not. The -- the scope of what I was  
20 asked to do was number one to evaluate, one, the  
21 population of the County and then to think about these  
22 illustrative plans as to whether or not they continue,  
23 right, to be able -- when the populations were selected,  
24 right, did they reflect a community of interest?

25 Q. So you looked at the compactness of the

1 communities of Latino -- Hispanic, and Black voters  
2 individually, correct?

3 A. Individually. And instead of the compactness,  
4 my important part was I included in my report the  
5 distance between those groups.

6 Q. But you didn't actually try to draw a  
7 reasonably compact voting district yourself that would  
8 be a majority Black and Latino, correct?

9 A. Correct. I was not asked to do that.

10 Q. Okay.

11 A. The thought here is -- in particular, I  
12 understand that's part of an idea of when you would  
13 bring a challenge, why you would show that. But in my  
14 response here, you have the benchmark map; you have an  
15 enacted map; and then you have a set of alternatives.

16 Q. So your analysis here was focused on the  
17 compactness of the racial group. I just want to make  
18 that clear for the record.

19 Is that a fair assessment of what you did  
20 here, the compactness of the racial group itself?

21 A. I did -- yeah, two parts: One was the  
22 compactness of the racial group. The other is the  
23 compactness of a comparison of the districts that were  
24 created.

25 And within that compactness of the racial

1 group, we did an analysis of -- of -- as it presents to  
2 you, right, how similar those groups are in their  
3 geographic, sort of, dispersion across the County.

4 Q. What about populations living in different  
5 cities? How did you account for the fact that  
6 populations might live in different cities?

7 A. First, I looked at the -- I can't control that,  
8 I guess. And honestly we're just given that from the  
9 data of where people reside. So I am reacting to the  
10 new Census data of where people have moved into the  
11 County. I, I think, in particular, can't identify  
12 the -- the boundaries of those municipalities and where  
13 people reside.

14 Q. Do you think that if some Latino voter --  
15 voting age population, individuals, live in one city and  
16 some Latino voters might live in another city, that  
17 automatically makes them not compact anymore?

18 A. That would not be the case. You know, that's  
19 going to be dependent on the size -- the population size  
20 of that city, the adjacency of those two cities. I also  
21 think it matters, right, as you would think, in creating  
22 these districts. They are all created at the same time,  
23 how some of those population dynamics have affected the  
24 creation of other precincts, right? And how they're  
25 balanced.

1                   So that's the -- I understand, when any of  
2 these experts, or, in particular, the map drawers,  
3 themselves, they balance a couple of dishes up in air of  
4 how to get to an actual plan that hopefully balances  
5 this out across the board.

6                   But my analysis first is the fact of,  
7 right: Is a group compact? And in particular, you  
8 know, attention needs to be placed at the population  
9 sizes in between them as to whether or not the County  
10 needs to, right, in this case, create a  
11 majority/minority district.

12                  Q. How many municipalities are in Galveston  
13 County?

14                  A. I believe when we've done this analysis there  
15 would be, approximately, eight.

16                  Q. And there's four commissioners' districts,  
17 correct?

18                  A. That's right.

19                  Q. So commissioners' districts will naturally have  
20 more than one municipality in them, correct?

21                  A. Absolutely. Because there are also -- some of  
22 these municipalities have less than the -- essentially  
23 approximately 87,000 residents. So like all of  
24 Galveston County has less of a population than that. So  
25 it could be in its own district plus more people on the

1 mainland.

2 Q. Okay.

3 MS. KLEIN: I'd like to pull up a  
4 deposition transcript from the deposition you had last  
5 December, and this will be Tab 28. We'll mark it as  
6 Exhibit 12, just because I have marked a few exhibits in  
7 the interim that Rob has already loaded up.

8 CONCIERGE TECH: Tab 28? Is that correct,  
9 counsel? I forgot the number you said.

10 MS. KLEIN: Yeah, Tab 28, that's correct.  
11 And that will be Exhibit 12.

12 (Exhibit 12 was marked for identification.)

13 BY MS. KLEIN:

14 Q. So Dr. Owens, I just want to be clear about one  
15 you said. You said you did two step analysis in this  
16 earlier. You said you looked at the compactness of the  
17 populations themselves. And then you evaluated the  
18 illustrative plans in the districts that were proposed  
19 by Plaintiffs' experts, correct?

20 A. Yes.

21 Q. All right. I'm confused as to why you did the  
22 first of those steps. And I'd like to show you just  
23 prior deposition testimony to kind of show you why I'm  
24 confused about that.

25 So if we go to Page 44 of this -- of this

1 deposition transcript. And I apologize for how small  
2 this is; this might be one where we have to e-mail it to  
3 your counsel, if you can't see it.

4 MS. KLEIN: But let's go to -- so sorry --  
5 Page 44, as in this -- we are on Page 173 now, so if we  
6 can go to Page 44 of the --

7 CONCIERGE TECH: (Complied.)

8 MS. KLEIN: Thank you. Scroll up. Page 44  
9 of the actual transcript.

10 MS. OLALDE: Ms. Klein, it's taking just a  
11 minute to load over here, so hopefully it will download  
12 pretty fast.

13 MS. KLEIN: Okay. I'll do my best to  
14 instruct the witness and you on the screen. And then if  
15 you need me to pause, Angie, just let me know.

16 BY MS. KLEIN:

17 Q. So Page 44, I'd just like you to look at --  
18 first of all, do you remember giving this deposition in  
19 December?

20 A. Yes.

21 Q. So if you start -- we're on Page 44, Line 5.  
22 "Q" means questioner. And says: Okay.

23 In the next sentence, it says: The broad  
24 question can be objectively measured in three parts to  
25 fit legal precedent.

1                   And then: To what legal precedent do you  
2 refer?

3                   And you answer: The case from Thornburg  
4 v. Gingles.

5                   I just want to point that out to give you  
6 context for the portion I'm going to ask about, which  
7 is, if we scroll down, Page 46, Line 11.

8                   And here, this question is -- it says: So  
9 you're not saying that the racial or ethnic population  
10 must be compact; you're saying that the district must be  
11 compact, right?

12                   And you answer: Yes.

13                   And so I guess what I'm asking is: This  
14 sounds like to me that, in December, you said that the  
15 racial or ethnic population does not necessarily be  
16 compact; it's the district's compactness that matters.

17                   And I'm wondering if you -- why, if you  
18 said that in December, did you do an analysis in this  
19 case that looked at the compactness measures of the  
20 racial groups, specifically?

21                   A. Well, one, was because, in this case, as you  
22 mentioned, this is now a question of whether there's a  
23 coalition district. And previously, this is talking  
24 about whether there would be a district that is  
25 primarily Hispanic.

1 Q. Why does that matter in the Gingles test?

2 A. I think here is because it matters on: Is the  
3 community, sort of, sufficiently large? So you're  
4 asking, right, a coalition to join them together, and I  
5 think that that comes at the reserve conditional or  
6 dependent on: How similar are they?

7 And, also -- and then opportunity, right?  
8 Is there a reasonable reason to have done this?

9 Q. So if I understand you correctly, you're saying  
10 that when there's just one racial group, you don't have  
11 to look at the compactness of that one racial group.  
12 But when there are two racial groups making a coalition,  
13 suddenly you have to look at the compactness of those  
14 individual racial groups?

15 A. I think at first you always have to look at --  
16 my caveat here is that you need to look at the  
17 consideration and similarities of what they have.

18 So in the Palmer case we're looking at, my  
19 group was originally polarized voting. And I'm thinking  
20 here about: What is their political preference and are  
21 they joined there? So in this case, they were a very --  
22 a large portion of the five-county region.

23 And as we moved towards that, I think here  
24 when you approach Galveston, the idea is to also  
25 determine: Right now, how do I -- how do we understand

1 those communities? How do we understand them to be  
2 today with the new information of census records that  
3 have shown a large growth of Hispanic population?

4 And again, all the time, I think the  
5 district, we are going to look at the compactness as  
6 more than a score. And in my mind, I think there's no  
7 problem of having two race -- racial or ethnic minority  
8 groups that are in different cities, because this is  
9 going to be dependent on what's the population in  
10 between.

11 And in each opportunity, we have -- you  
12 know, the local geography is going to give us the  
13 context that we need.

14 Q. So are you saying that the compactness of the  
15 individual group is only necessary in Galveston to  
16 compare with the other racial groups, so to compare  
17 where the Black population lives as compared to the  
18 Hispanic population? Is that what you are saying?

19 A. Yeah, in fairness, but we are getting to the  
20 point here that no group is compared to each other on  
21 the basis of race alone --

22 Q. Are any claims of --

23 A. -- race and other factors --

24 Q. Sorry. I thought you were done.

25 A. Well, I just meant -- I mean, it's -- I

1 appreciate that. Sorry. I just was -- I think my last  
2 comments I was making was it would be race and another  
3 factor, right? Hopefully numerous.

4 Q. So you agree with your statement from December  
5 that the compactness of a racial group in a case where  
6 there's only one racial group at issue, for the purposes  
7 of Gingles 1, is not important; is that correct?

8 A. Can you --

9 Q. I guess what I'm asking is: Do you still agree  
10 with your answer in December -- you know, the question  
11 was: So you're not saying that the racial or ethnic  
12 population must be compact; you're saying that the  
13 district must be compact, right?

14 And you answer: Yes.

15 Do you still agree with that statement here  
16 today, sitting here today?

17 A. Today, yeah. And as it relates to that case,  
18 my expertise and -- and scope of the questioning was  
19 based off of racially polarized voting.

20 And we also show that, in particular,  
21 Hispanic voters in that area tend to be swing voters and  
22 can vote sometimes for Republicans, right, and are not  
23 always cohesive for -- for Democrats.

24 The opportunity here is also to point to  
25 that I did not do a Gingles 1 analysis in the case for

1 Palmer versus Hobbs.

2 But I think that, collectively -- so if you  
3 can determine that one ethnic group -- I think in this  
4 case, if you can determine if there's two groups and  
5 they have much in common, I think that gives you the  
6 commonality.

7 So, I mean, the short answer would have --  
8 to that question also is: The local political context  
9 and the similarities they have, plus distance, gives you  
10 a reason not only to measure compactness, but the  
11 similarity of reason to have that coalition.

12 Q. Let's -- let's move to -- I just want to make  
13 sure I'm understanding exactly why your testimony in  
14 December is different from your testimony that you just  
15 gave. And so just isolate it down to make sure that I  
16 understand and that it's clear for the record.

17 You're saying that in the Palmer case,  
18 because it was just one racial group, it was not the  
19 compactness of that ethnic population that mattered.  
20 But here in Galveston, you did analyze it, because there  
21 are two -- it's a coalition district.

22 Is that a fair overall summary of what  
23 you're saying?

24 MS. OLALDE: Objection, asked and answered.  
25 And objection, misstates testimony.

1                   And also, Ms. Klein, our food is here, just  
2 whenever you have a stopping point.

3                   MS. KLEIN: Sure.

4                   THE WITNESS: And the part I was trying to  
5 clarify was, there's also a difference in what I was  
6 asked to do in those cases.

7                   MS. KLEIN: Okay. Can we scroll briefly up  
8 to Page 39 of this deposition?

9                   CONCIERGE TECH: (Complied.)

10                  THE WITNESS: I can see that.

11 BY MS. KLEIN:

12                  Q. And question starts at Line 5.

13                         Well, actually before we dig into it, I  
14 wanted to ask you: Generally, what are your opinions in  
15 this case?

16                         And you answer: So for this case, in my  
17 report, I focused on, sort of, a couple of specific  
18 issue areas. One was to identify whether or not there's  
19 a large enough population from the census numbers to  
20 identify a, sort of, a Hispanic majority district, and I  
21 found that that's the case.

22                         So you're saying that was not a Gingles 1  
23 analysis; that's your testimony today?

24                         A. This opportunity going to the racially  
25 polarized voting went to, first, is it large enough,

1 right, to have made that clarification? Is there --  
2 does a group exist in the County?

3 I did not challenge anything of Gingles 1  
4 in that case.

5 I think here, as we look at the citizen  
6 voting age population or the population of Galveston  
7 County, we can identify that there are two minority  
8 groups, that the Hispanic population in Galveston County  
9 is not large enough to have its, right, essentially  
10 create the whole district, and either African American  
11 community is not large enough on its own to do that --

12 Q. Has any plaintiff in this -- has any of -- have  
13 any of the experts, to your knowledge, in this matter  
14 tried to assert that Gingles 1 is satisfied by a single  
15 racial group?

16 A. No. I think, in agreement, they write that the  
17 single racial group does not, and that's why the  
18 coalition is explored.

19 Q. Okay. And one more thing before we move on,  
20 and then we can all get some food.

21 MS. KLEIN: If we could scroll down to  
22 Page 48 of this deposition.

23 BY MS. KLEIN:

24 Q. This is lines -- starting at Line 5 on Page 48,  
25 it asks: Would you still say that voters of a certain

1 group are still cohesive if above 70 percent?

2 And you answer: Yes, I think so.

3 Do you still agree with that testimony?

4 A. Yes. I think in this case you want to have an  
5 opportunity to -- in this -- the question was in  
6 determining what would levels of cohesiveness be.

7 And when we're going to compare this  
8 Democratic support of Hispanic voters to African  
9 American voters; African American voters giving often  
10 larger support to Democratic candidates.

11 So where I was -- let me give you a sense:  
12 The conversation here went to identifying that there's a  
13 range, in particular, of what our estimates can be. But  
14 70 percent would be cohesive.

15 Q. So when you were approached by counsel to be an  
16 expert in this matter, they ended up not asking you to  
17 do an RPV analysis in this matter, correct?

18 A. I think that's been done by another expert.

19 Q. Okay.

20 MS. KLEIN: We can stop there, if folks  
21 want to briefly get some lunch.

22 THE VIDEOGRAPHER: We are off the record at  
23 12:07 p.m.

24 (Lunch break taken.)

25 THE VIDEOGRAPHER: We are back on the

1 record at 12:41 p.m.

2 BY MS. KLEIN:

3 Q. Dr. Owens, did you talk about the substance of  
4 your testimony with anyone during the break?

5 A. No. I think we were talking about just  
6 Galveston and -- and, kind of, the beach and  
7 sandcastles.

8 MS. KLEIN: I'd like to pull up Exhibit 10.  
9 This is the report of Bill Cooper, and I'll ask that  
10 Page 3, Paragraph 6, be shared with the witness.

11 CONCIERGE TECH: (Complied.)

12 (Exhibit 10 was marked for identification.)

13 BY MS. KLEIN:

14 Q. Dr. Owens, can you see that Paragraph 6?

15 A. Yes, I can.

16 Q. Here Dr. Cooper says: The attorneys for  
17 Plaintiffs in this matter asked me to determine whether,  
18 while accounting for traditional race-neutral  
19 redistricting principles, the combined Black and Latino  
20 population in Galveston County is sufficiently large and  
21 geographically compact to allow for a  
22 majority-Black/Latino Commissioners Court precinct  
23 ("commissioners precinct"), according to the 2020  
24 Census; i.e., a single-member commissioner precinct in a  
25 four-precinct plan that meets the first Gingles

1 precondition ("Gingles 1").

2 Do you agree with Mr. Cooper's description  
3 of Gingles 1?

4 A. This is according to -- that he's trying to  
5 create the single member district within that group,  
6 yes. I think that what we get to is my condition is on  
7 the fact of when it says "sufficiently large," why did  
8 he join those two groups together?

9 Q. Do you think that the Gingles standard requires  
10 all of a racial minority's population to be fit into a  
11 single district in order for those populations to be  
12 considered compact?

13 A. No. I think in this case, by -- all minority  
14 members would not be defined that way if they are  
15 substantially different.

16 Q. I'm not sure I quite understood your answer, so  
17 I just want to make it clear for the record.

18 Do you think that for a minority population  
19 to be compact, all of its members in a jurisdiction, for  
20 example, here in Galveston County, need to be in a  
21 single district?

22 A. Sorry. Now I understand the "all."

23 No, all members of the minority community  
24 do not need to be in that district. Some can be  
25 outside.

1 Q. You discuss what are called Census voting  
2 tabulation districts in your report; is that correct?

3 A. Yes.

4 MS. KLEIN: We can take down the Cooper  
5 report for now.

6 CONCIERGE TECH: (Complied.)

7 BY MS. KLEIN:

8 Q. If I use the term "VTD," will you understand  
9 that to mean Census voting tabulation district?

10 A. Yes, I do. I know that in this case Texas also  
11 tries to use that terminology.

12 Q. Can you tell me which VTDs you used in the  
13 analysis of your report?

14 A. Again, the analysis of my report, there were  
15 many.

16 Q. Did -- I'll be more specific.

17 Did you use the VTDs that were in place in  
18 November 2021 when the maps in this case were being  
19 drawn, on did you use the VTDs that were passed by the  
20 commissioners in December of 2021?

21 A. In this case, those that -- well, number one,  
22 we have the ability to use both, but when making the  
23 consideration, you can look at VTDs that were in --  
24 available to the commissioners district in 2021.

25 Q. Is that what you used in your report?

1           A. My -- I'll describe it as, yes, I used both. I  
2 used, in particular, those that were prepared with  
3 Maptitude for redistricting 2022's data, which would be  
4 updated to those that were present and available in  
5 2020. And also, as the -- counsel had provided, I  
6 think, in this case, the VTD maps that are in 2022.

7           Q. So you used both in your report?

8           A. Yeah. Many are quite similar, but one of the  
9 core reports that you'll see is where a couple of the  
10 VTDs may be joined -- I think, in this case, it was 196  
11 through -- and I've made notations of those.

12          Q. How can I tell whether you were using  
13 November 2021 or the December 2021 VTDs?

14          A. I think, collectively, I would indicate those  
15 in the report when writing between an old voting  
16 tabulation district, how it was numbered, and then those  
17 that are new.

18          Q. Does the Gingles standard require that all VTDs  
19 in Galveston County with the same percentage of minority  
20 CVAP be in the same district?

21          A. No. That's not a requirement. The requirement  
22 is coming back to evaluate the entire district.

23          Q. You agree, don't you, that all the illustrative  
24 plans submitted by all plaintiffs in this matter include  
25 at least one commissioners precinct where the combined

1 Black and Latino populations constitute a majority by  
2 CVAP, correct?

3 A. I would say in that case, for all of the VTDs,  
4 my analysis did not identify those.

5 Q. Let me ask you the question --

6 A. If there is a VTD that has a majority African  
7 American population that happens to be in another part  
8 of the County, that's --

9 THE COURT REPORTER: Okay. Hold on one  
10 second. Reset. You started answering before she  
11 finished her question, so I did not get the beginning of  
12 your answer.

13 MS. KLEIN: I'll ask the question again  
14 because I think you might have misunderstood it.

15 BY MS. KLEIN:

16 Q. So putting aside VTDs, Dr. Owens, do you agree  
17 that all of the illustrative plans submitted by all  
18 Plaintiffs in this matter include at least one  
19 commissioners precinct where the combined Black and  
20 Latino populations constitute a majority by CVAP?

21 A. Yes, I'll agree with that.

22 Q. And CVAP you understand to mean citizen voting  
23 age population, right?

24 A. I do, yes.

25 Q. Do you remember in your original March 17

1 report you included in there an opinion that  
2 Mr. Cooper's third illustrative map failed to achieve  
3 that 50 percent Black and Latino C- -- CVAP?

4 A. That was included in the first report, yes.

5 Q. That was taken out of the amended report,  
6 correct?

7 A. It was, yes. I mean, one of the things, in  
8 particular, when -- the reason for doing so is: At  
9 50 percent, it could be rounded plus 1. But one of the  
10 important parts is how we define that group.

11 The definition here is non-Hispanic, right,  
12 Black, and he, in particular, has increased the size of  
13 that. So this is why in his report it shows it not to  
14 be more than 50 percent. But if you look at just  
15 non-Hispanic Black plus non-Hispanic CVAP, at the tenths  
16 place, this comes to the fact of 50 percent.

17 So I --I think, inevitably, the important  
18 key here is: While it could be his third map serves and  
19 crosses that threshold, it does so in a slim fashion.

20 Q. Why did that opinion end up in your original  
21 March 17th report?

22 A. As -- in particular, as part of my draft, it  
23 was one of the points that I was looking into for the  
24 district to understand if it was able to achieve that  
25 without utilizing part of Galveston Island. I think

1 that it was -- it was -- that he had done that.

2 Q. It was erroneous, though, wasn't it?

3 A. Agreed, yes. And because it was erroneous, it  
4 was removed.

5 Q. Is there anything else from your original 17th  
6 report you opined on that you realized later was  
7 erroneous?

8 A. Yes.

9 Q. What?

10 A. So in those -- the amended report identified  
11 voting tabulation districts, which, at times, I had used  
12 the numbers, which I think in this case identify they  
13 could have started with a 2 instead of a 3 because they  
14 previously were part of the second commissioners  
15 precinct. So I updated those or identified in this case  
16 that they be the old and the new numbering of those  
17 voting districts.

18 Q. Any other errors you can think of?

19 A. Yeah. And so I think those were replaced in  
20 the amended report. I think -- I think in particular  
21 for the rebuttal report, so I'm happy to identify right  
22 now those that Mr. Fairfax indicated were that there --  
23 I had transposed a number incorrectly into a table of  
24 what the benchmark map had on a compactness score.

25 Q. I'm sure you'll be asked about the Fairfax

1 rebuttal later.

2 A. You asked --

3 Q. We'll get -- we'll get to that --

4 A. I wanted to make sure I mentioned it.

5 Q. Yeah. We won't get to that now.

6 In your report you used the term  
7 "traditional redistricting principles," and I'm  
8 wondering: When you use that term, is that the same as  
9 traditional redistricting criteria?

10 A. I don't know. They -- they set forth the  
11 criteria, but I think when we look at these -- these  
12 principles, we would originally identify, right, or  
13 we're looking at compactness and how are the voters in  
14 those areas -- what do they have in common, and yeah,  
15 why are they being included in a precinct. So, in  
16 particular, we look at -- those are the ideas: How do I  
17 evaluate a plan that -- that I did not draw?

18 Q. So are criteria and principles different in  
19 your mind?

20 A. Yes. I think, in particular, criteria is  
21 something that's going to be written out as something  
22 that you would develop.

23 Q. Did you have --

24 A. A principle is something that I can look at  
25 more broadly and determine if that's a -- a common

1 course of action.

2 Q. Did you have a set of traditional redistricting  
3 criteria that you applied in this case?

4 A. Other criteria, no, I did not start with a list  
5 given to me or considered in that case. I looked to  
6 take the cases and look into the population with the  
7 data and make those evaluations about compactness.

8 Q. How did you know which redistricting criteria  
9 should be considered when you were looking at the  
10 plaintiffs' illustrative plans?

11 A. I think, first, was looking, number one, at the  
12 population. So I wanted to look at, first, population  
13 deviation that exists between each of the other  
14 precincts to their ideal -- ideal population. Also, the  
15 difference of compactness scores that are identified.  
16 And in this case, we might wonder how many of the  
17 population of interest is not in the district or in the  
18 voting commissioners precinct.

19 Q. But you did not have a set criteria that you  
20 were given in this case to use to assess the  
21 illustrative plans; that's correct?

22 A. Correct. I was not given one.

23 Q. Okay. And you didn't use one otherwise,  
24 correct?

25 A. Nope. My use is to follow where -- where is

1 the population in the County, and then I take the step  
2 to identify what were the scores and compare those plans  
3 together. So those would be the primary emphasis of my  
4 reports.

5 Q. Equalization and compactness, correct?

6 A. I think those are the -- sort of the first  
7 standards that we wanted to look at.

8 Q. And then the other standards -- just so I have  
9 a complete idea of what you did, what are the other  
10 standards that you used?

11 A. Yeah. How similar are those groups that we  
12 have? So I -- that's why we did a comparative analysis,  
13 one of Hispanics within geogr- -- geographic areas of  
14 the County and African Americans within geographic areas  
15 of the County.

16 Q. And anything else besides -- we have population  
17 equalization, compactness, the similarity of the groups.  
18 Anything else that you apply to the criteria?

19 A. Yeah. I -- I think in this case you could say,  
20 at least I assumed, that from some of these proposals,  
21 which were identified as lease change options, that is  
22 part of -- has to be analyzed, but is not something that  
23 I was looking for or expecting out of any of these  
24 proposals.

25 Q. I don't quite understand that. What do you

1 mean: Wasn't something you were expecting?

2 A. Yeah. I think, one, when I started the  
3 analysis, that's -- I don't think that you have to do a  
4 lease-change approach.

5 Q. Okay. So equalization, compactness, the  
6 similarity of the groups, and whether it was a  
7 lease-change approach. Any other criteria that you  
8 considered in evaluating Plaintiffs' illustrative plans?

9 A. No. I think this would be -- I mean, part of  
10 that difference of the communities includes the  
11 distance, but we can explain that more later.

12 Q. I'd like to ask you about specific figures in  
13 your report. So let's go to your -- we'll use your  
14 amended report. This is Exhibit 9.

15 And I'd like to look at Figure 2 in that  
16 report. So if we can pull that up in screen share.  
17 This is Page 7 of that report, I believe.

18 CONCIERGE TECH: (Complied.)

19 MS. KLEIN: And if we could zoom into the  
20 maximum amount, that would be great.

21 BY MS. KLEIN:

22 Q. So Figure 2 is titled Dispersion of Hispanic  
23 Citizen Voting Age Population by Census Block Overlay --  
24 Overlay, 2012 Benchmark Map.

25 Was this one of the figures that changed

1 when you amended your report?

2 A. It did change. Yes. I -- number one, the only  
3 thing that changed to this group is that the blue lines  
4 now are thinner than what was, so you're able to see  
5 more of the Hispanic population that's in the Dickinson  
6 area, as well as in the Galveston area.

7 Q. If I'm looking at the map layers key on the  
8 bottom right-hand portion, everything -- every Census  
9 block that's zero to 45 percent Hispanic CVAP is white,  
10 and everything that's 46 percent and above is green; is  
11 that correct?

12 A. Yes.

13 Q. How did you choose the threshold of 46 percent?

14 A. Uh-huh. What I was choosing, there would be a  
15 number here that was substantial and needs to be -- one,  
16 I don't have an expectation that there would be a  
17 majority in this case, but that, essentially, selecting  
18 a threshold that you can see a difference here where in  
19 a small Census block is a group having a large influence  
20 over what the politics might be of its area.

21 Q. How did you highlight blocks that had  
22 45 percent to 46 percent, if any? How would those have  
23 been highlighted?

24 A. Based off of the -- a division of Hispanic CVAP  
25 divided by total CVAP.

1 Q. No. I mean, literally, if it's zero to  
2 45 percent is white colors on the map and 46 percent and  
3 above is green colors, what if it's like 45.5 percent,  
4 which colors would that be on this map?

5 A. Oh, 45.5? I would think, in this case, that's  
6 going to be -- at 45.5 will be at 46 percent, would be  
7 green.

8 Q. What about 45.4?

9 A. White.

10 Q. Okay. That 46 percent threshold, you -- you  
11 just said that it was -- you thought it would show a  
12 substantial population.

13 Is that a term or a threshold that is based  
14 in any academic literature you're aware of?

15 A. Right. We often use this difference here if  
16 we're talking about what might, you know, elections be  
17 close in a proximity. So you have 45 percent to  
18 45 percent [sic] election. Now you're starting to move  
19 into something that would be more politically  
20 competitive, right? Not everything is -- is 50/50.

21 Q. So you chose this threshold based on election  
22 competitiveness thresholds that you've used in your  
23 research?

24 A. Yeah, typical breakpoints.

25 Q. Okay. Is -- are you aware of any academic

1 literature talking about minority populations for a  
2 Gingles analysis to use the threshold 46 percent?

3 A. I can't immediately recall.

4 Q. Are you aware of any cases that used the  
5 threshold of 46 percent?

6 A. No, I don't --

7 Q. Did you use the --

8 A. -- don't recall.

9 Q. Sorry.

10 Did you use the 46 percent threshold in  
11 your work in the Oklahoma matter?

12 A. No, I -- I didn't provide a choice or analysis  
13 for this. I -- well -- no.

14 Q. What about the --

15 A. Not transparently available.

16 Q. What about the Palmer matter?

17 A. No.

18 Q. What about the Black voters matter?

19 A. I didn't do a Gingles 1 analysis.

20 Q. Any other source for this 46 percent threshold  
21 other than the election competitiveness you referenced  
22 earlier?

23 A. Yeah. I also -- as a way to -- to show this,  
24 one of the things that I can address or we can point to  
25 is Figure 3 presents the same kind of data and shows

1 some of the differences. And it's a whole range, if you  
2 wanted to compare the differences be this less than  
3 10 percent, 10 to 25 percent. So this just shows some  
4 of the clearest points of where you're going to have the  
5 highest group, and it's not effective for there to be a  
6 majority.

7 Q. So --

8 A. That would be a difference for making that  
9 determination.

10 Q. In some of these blocks right next to the green  
11 areas, there could be as much as 45.4 percent Hispanic  
12 CVAP, and it would -- that would not be shown in this  
13 figure, correct?

14 A. Correct. And the intent of showing this is  
15 where -- they could be adjacent, and that's fine, but  
16 where is the highest levels of concentration in the fact  
17 that they are far apart.

18 Q. And for this map, you don't accompany this map  
19 with any sort of table that shows a breakdown of CVAP by  
20 Census block, do you?

21 A. No table.

22 Q. Okay. I'd like to go -- scroll to the top of  
23 Page 8.

24 CONCIERGE TECH: (Complied.)

25 BY MS. KLEIN:

1 Q. And this first paragraph: On Galveston Island,  
2 there are 7,637 Hispanic residents who are voting age  
3 citizens. Those citizens live 18 miles away from the  
4 concentration of 305 Hispanic voting age citizens in the  
5 Census blocks that are circled in Figure 2 to the north.

6 This sentence was added in your amended  
7 report; is that right?

8 A. Yes. To give more clarity and context, again,  
9 showing -- whereas before I don't say just north and  
10 south. Now not only did I make that more visible, I  
11 wanted to add the sentences that point to what those  
12 meant.

13 Q. Because there's no tables accompanying it, so  
14 you wanted to provide that clarity?

15 A. Yeah, absolutely.

16 Q. Let -- let's scroll back to the figure itself.

17 And so the portion I just read, that  
18 paragraph, talks about these two circled areas. And you  
19 said that in here in the north, that Figure 2 in the  
20 north has 305 Hispanic voting age citizens; is that  
21 correct?

22 A. That's what's written, yes.

23 Q. And that has the number, I think, 140 in that  
24 circle, just so we're clear for the record of where  
25 we're looking?

1           A. Oh, agree. Yeah, you're calling out the road  
2 number, yes.

3           Q. So that -- that portion has 305. The lower  
4 circle on the island has 7,637 Hispanic residents,  
5 correct?

6           A. I think we could describe even how that might  
7 be the entire island or groups. The important part here  
8 was that if there were these concentrations -- I'm  
9 speaking -- not only am I showing: Hey, they're  
10 concentrated in those Census blocks, but the -- the  
11 island is -- is distant from the other areas; in this  
12 case, in the northern part of the County.

13           Q. So if I divide 760 -- 7,637 in that south --  
14 southern area by the 305 in the northern area -- you're  
15 probably better at math than I am -- but if we did a  
16 back-of-the-envelope, that would be about -- there's  
17 about 25 times more Latino residents in that southern  
18 circled area than in the northern circled area, correct?

19           A. As far as just to the areas that I'm indicating  
20 by the circles to draw our attention to it.

21           Q. But you'd agree that the green highlighting in  
22 the southern area is much, much, much less than the  
23 green highlighting in the northern areas, right?

24           A. I do, yes.

25           Q. So if we were using this figure, as you said,

1 to assess the concentrations of, you know, Latino popu-  
2 -- Hispanic populations -- my apologies. I'm using  
3 Latino and Hispanic interchangeably, and I can alter  
4 that if you think it's inaccurate. So I'll start the  
5 question again.

6 If -- if we were using this Figure 2 to  
7 assess the concentrations of Hispanic populations in  
8 Galveston County, wouldn't you agree that this would  
9 give the impression that there are much more Hispanic  
10 residents of CVAP in that northern circle than in the  
11 southern circle?

12 A. Visually, I think that's the important reason  
13 to offer the textual description. I think collectively  
14 the size -- geographic size of the Census block is not  
15 determined by me.

16 Q. So you agree that you have to provide the  
17 textual information because, just looking at this, you  
18 would draw the wrong conclusion by saying: Oh, there's  
19 much more CVAP in that northern circle than in the  
20 southern circle, correct?

21 A. I don't think there's also anything in this map  
22 of Figure 2 that shows that there is much more. If --  
23 this is the share of the pop- -- Hispanic citizen voting  
24 age population divided by the total citizen age  
25 population. So it identifies to us that there is a

1 concentration of population as well on Galveston Island  
2 in that area compared to the concentration that we're  
3 seeing and talking about here.

4 Q. So I hear you use the word "concentration,"  
5 which makes sense to me. But when I look at Figure 2 in  
6 the heading, Dr. Owens, it says: Dispersion of Hispanic  
7 Citizen Voting Age Population.

8 Is it your testimony today that dispersion  
9 is the same thing as concentration?

10 A. Dispersion is going to be the distance between  
11 areas of concentration as well -- and it should consider  
12 distances about their size. All -- I think all three  
13 should be determined.

14 Q. So your testimony today is that this figure  
15 accurately shows the dispersion of where the Hispanic  
16 citizen voting age population is concentrated, but not  
17 the raw numbers of where Hispanic citizen voting age  
18 population lives? Does that sound like a fair  
19 characterization to you?

20 MS. OLALDE: Objection, confuse --  
21 confusing and misstates prior testimony.

22 THE WITNESS: I would say in this case not  
23 only the circles are pointing to areas which also could  
24 be of similar distance to what's shown in Dickinson, but  
25 the idea is that all of these areas here are primarily

1 shown to point to the fact that east and west, as well  
2 as north and south, there are concentrations that -- of  
3 the Hispanic community.

4 And, typically, they vary of size in  
5 relation to where those -- the size of the populations  
6 are with their cities. I think that's consistent with  
7 other work, which points to the fact of, you know,  
8 urbanization plays a role in this.

9 BY MS. KLEIN:

10 Q. So the northern part we discussed has just 305  
11 Latino residents in that northern circle. Where on this  
12 map will I know if there are areas of comparable  
13 geographic size that have more than 305 Latino  
14 residents?

15 A. In this case, I doubt we -- we can easily  
16 identify this by comparing a couple of the different  
17 maps. You not only have Figure 3 to help with this --  
18 that's going to show a wider group -- but there is a  
19 difference here of -- on Figure 1, we've seen where the  
20 population change exists and how there's been more  
21 concentrated population change in the north.

22 Q. Let's move on to Figure 3, then.

23 So Figure 3 actually shows that there are  
24 concentrations of Hispanic residents throughout  
25 Galveston County. Would you agree with that?

1           A. Yes. We have concentrations of Hispanic  
2 citizen voting age population in many parts of Galveston  
3 County.

4           Q. These -- you did similar figures to these for  
5 the Black CVAP population in Galveston County, correct?

6           A. I did, yes. You should find in this report  
7 there's symmetry of the analysis for both groups.

8           Q. Are there any maps that have these types of  
9 figures for combined Black and Hispanic CVAP?

10          A. No, but they could be -- the same part could be  
11 inferred from looking at them side by side.

12          Q. So if I wanted to, for example, see where in  
13 Galveston County are the areas that have, you know,  
14 46 percent and above Black and Latino CVAP combined,  
15 there's no single figure I could look at; is that  
16 correct?

17          A. That's correct. There's not one in this part,  
18 and part of it is because there are tables that assess  
19 why they have substantial differences across geography,  
20 especially in areas that commissioners precinct 3  
21 touches.

22          Q. I'm cutting a few questions, if you'll bear  
23 with me for a moment, that I think we've covered.

24                        So in your analysis how do you define a  
25 compact minority population?

1           A. Well, it's just to the -- the location of where  
2 they -- they live, and they should be using not only  
3 Figures 2 and 3; the second part is going to be whether  
4 or not the analysis that is provided in tables and if  
5 they have similar characteristics in the proc- -- of the  
6 same, say, population and across the geographic areas of  
7 the County. I'm looking for --

8           Q. Did you --

9           A. -- yeah, just the alignment of those two  
10 factors.

11           Q. And looking at the first factor, did you have  
12 any mathematical threshold you applied in assessing  
13 compactness of minority populations?

14           A. There has typically been the count of miles  
15 between those -- of the highlighted Census blocks that  
16 were presented in Figure 3 as well as --

17           Q. How many miles -- sorry.

18                         How many miles make a population not  
19 compact?

20           A. That would be a question that varies by  
21 context, depending on the size of the County, but -- so,  
22 here, I think that's -- one of those things of what we  
23 can do best as experts is provide an objective measure  
24 of what that distance is for it to be evaluated.

25           Q. And what is as the expert in this case being

1 offered by Defendants, is your objective measure?

2 A. I don't give an opinion about that.

3 Q. You don't give an opinion about?

4 A. What the acceptable threshold of distance would  
5 be. I think collectively here I'm pointing to the fact,  
6 in my analysis, that the areas of high concentration are  
7 not always adjacent to each other. In fact, they can be  
8 quite distant from one another in the Hispanic  
9 population. As shown right now, we are looking on the  
10 screen at Figure 3; we're seeing that there is also a  
11 stronger threshold -- or large population sizes between  
12 Voting District 315, Voting District 298, right, and  
13 Voting District 258.

14 They, themselves, are distant, and I  
15 describe to them that they would not be geographically  
16 compact. Sometimes we describe that this can be as much  
17 as 20 miles apart from north to south.

18 Q. What academic literature are you relying upon  
19 to come to these conclusions? You used the word  
20 distance. Is -- "distant." Is that -- for example, is  
21 that a term from an academic literature you can point me  
22 to?

23 A. The thing is one -- just -- I cannot point you  
24 to a direct term. I can also point you, though, to  
25 William Cooper's report. He talks about distance. And,

1 in this case, since that was being used in our  
2 discussion of the case, I wanted to be consistent with  
3 that analysis.

4 Q. So I -- I want to make sure it's clear for the  
5 record. I'm asking about your use of the term "distant"  
6 not "distance," "distant." You opined that minority  
7 populations are dis -- quote, distant, and I'm asking  
8 where you got that term from?

9 A. Yeah. It would be part of opinion that's in  
10 LULAC v. Perry in the State of Texas.

11 Q. And tell me, in LULAC v. Perry, what was the  
12 concept of, quote, distant that you applied to this case  
13 in Galveston?

14 A. That's a -- it's not a county case, but it  
15 would be the fact here off a legislative district case  
16 that identifies a northern and, in this case, southern,  
17 two different distant Hispanic populations, making the  
18 argument here they didn't have anything else in common  
19 other than their -- their race.

20 Q. You have not used that term in your own  
21 academic work, correct?

22 A. Correct. I do not -- the academic work that  
23 I've done is focused on the opinions and participation  
24 rates of people who live in these communities. And so  
25 now when we do the geographic analysis, we are taking

1 those characteristics into account.

2 Q. You didn't use that concept of "distant" in  
3 your work in Oklahoma either, did you?

4 A. That was -- I mean, primarily, we would be  
5 focusing in on the -- you know, keeping counties whole,  
6 so that -- that would describe it. We would be careful  
7 on any evaluation to make sure that you are not reaching  
8 for one community that is, sort of, too far from  
9 another.

10 Q. So you did use the concept of "distant" in  
11 Oklahoma?

12 A. I'd say informally, when you want to make  
13 sure -- yeah, because the idea is: Were those compact  
14 districts? They had, in particular, identified shapes,  
15 and they weren't extending, right, across geographic  
16 areas or splitting communities to get -- to combine  
17 joined groups.

18 Q. You also use the term "disparate" in your  
19 report. Is that also from the LULAC v. Perry case?

20 A. It is.

21 Q. And that term, you haven't used that in your  
22 academic research, correct?

23 A. No.

24 Q. In concluding that Galveston County's Hispanic  
25 population is, quote, distant and disparate, you used

1 citizen voting age population. Why did you use CVAP  
2 instead of VAP or just residents?

3 A. Mainly because we're focused in on the interest  
4 of the Thornburg v. Gingles case. We're understanding  
5 how does this affect the opportunity to elect someone to  
6 a particular precinct. So those individuals who are  
7 able to participate in elections or registered to vote  
8 in Texas would be citizens over the age of 18.

9 Q. Those citizens over the age 18 aren't the only  
10 members of the Hispanic community in Galveston; is that  
11 correct?

12 A. You're correct.

13 Q. So you're not considering, you know, future  
14 voters, even 16-, 17-year-olds that might vote in the  
15 next decade. You're not -- you haven't considered those  
16 in your analysis of whether Hispanic populations in  
17 Galveston are distant and disparate; is that right?

18 A. In fact, part of my American Community Survey  
19 research may include that when we talk about households,  
20 but also, that continues to go with that question, would  
21 have to prove of the logic that those individuals under  
22 the age of 18 are not citizens primarily lived in a  
23 concentrated way in areas that other Hispanics do not.

24 So in this case, I do make an assumption  
25 that our communities that are Hispanic tend -- might

1 live in the same areas or that the citizen population in  
2 Galveston is quite a bit larger than the noncitizen  
3 population.

4 Q. What does it mean for a population to be,  
5 quote, reliably placed in one commissioners precinct?

6 A. Where's the quote coming from?

7 Q. We'll go to Page 13, just after Heading E in  
8 this report. So now we're moving on to the analysis of  
9 Black CVAP.

10 And, here -- let me find it for you, the  
11 second sentence: The estimates of Galveston County's  
12 citizen voting age population show that Black  
13 populations are disparate and unable to reliably be  
14 placed into one commissioner precinct that would form a  
15 majority community of interest.

16 What do you mean by "reliably"?

17 A. Reliably, in this case, should be interpreted  
18 to say Black populations that have the same, sort of,  
19 cultural characteristics and socioeconomic factors.

20 Q. Where does that term come from?

21 A. Right now, that would be just my -- my  
22 vocabulary.

23 Q. Not academic literature?

24 (Simultaneously speaking.)

25 A. No, I -- I didn't use academic literature as a

1 thesaurus or group.

2 Q. All right. I'd like to ask you about turning  
3 to more of the socioeconomic analysis you did here.

4 You used some -- you compared socioeconomic  
5 factors across Census county divisions in Galveston; is  
6 that right?

7 A. Yes. That's what was used.

8 Q. Why did you -- and I'm going to call those  
9 CCDs, just to shorten the words. That's okay?

10 A. Excellent.

11 Q. Why did you pick CCDs?

12 A. Uh-huh. CCDs provide, sort of, a substantially  
13 large way to take the Census American Community Survey  
14 estimates and make comparisons within the County.

15 Q. What do you mean by -- like what is it  
16 advantage -- advantageous for them to be, quote,  
17 substantially large as you just said?

18 A. So there are some parts of the County in  
19 anywhere that we have a disparate population there may  
20 be times where there aren't enough, in particular,  
21 individuals who live in a Census block or Census block  
22 group within each, kind of, in this case, race or  
23 ethnicity definition. So the Census block does remove  
24 part of this to make sure that we can anonymize the  
25 responses that are given and also to make sure that when

1 they report these margins of error to that group, right,  
2 that we understand how confident the Census is with that  
3 estimate from the particular area.

4 But we also want to not just do a  
5 county-level analysis when we're looking at the  
6 differences of a growing northern population county,  
7 right, compared to a -- also a growing southern part of  
8 the population county.

9 Q. Have you used CCDs in this fashion for your  
10 academic work?

11 A. No, I haven't. They just were a good use to  
12 make this comparison inside the County.

13 Q. What about your work in Oklahoma? Did you use  
14 CCDs in this manner?

15 A. No.

16 Q. Are you aware of whether the court -- you know,  
17 any courts have used CCDs in this manner?

18 A. I'm not aware.

19 Q. Are you aware that the American Community  
20 Survey also includes socioeconomic data by Census block  
21 group?

22 A. They are provided by the Census block group,  
23 but in this case, not all questions are provided when  
24 you look at it by race. So if you wanted to know what  
25 the Hispanic population is within the Census block

1 group, that comparison might not be available.

2 Q. Census block groups are considerably smaller  
3 than CCDs, correct?

4 A. They are, yes. That's the lowest level that  
5 all of American Community Survey data is available, and  
6 they are lower than the CCD. The difference is how can  
7 we make the aggregation to compare groups within that  
8 geography.

9 Q. Do you recall that Dr. Cooper provided  
10 socioeconomic ACS data for Galveston County by  
11 municipality as well as Census-designated places?

12 A. I do.

13 Q. And as you said before, you reviewed Exhibit D,  
14 because you reviewed the exhibits from the other  
15 experts, correct?

16 A. Yes.

17 Q. So do you agree with his conclusion that  
18 disparities between Black and Latino residents as  
19 compared to their Anglo counterparts are consistent  
20 throughout all of Galveston County's municipalities?

21 A. That's right. As we sort of answer this  
22 question, can we look at the Exhibit D?

23 Q. We can look at, you know, Cooper's report. I  
24 guess what I'm asking is whether you agree that the  
25 dis- -- there are disparities between how Anglo

1 counterparts, their socioeconomic factors, compared to  
2 the Black and Latino resid- -- residents in Galveston  
3 County.

4 Do you have any reason to disagree with his  
5 conclusions on that point?

6 A. I don't. I think it goes outside sort of the  
7 scope of any opinions in focusing on this case to how  
8 similar are Hispanics in the northern part of the  
9 County, or any municipality, in this case CCD, to other  
10 CCDs, as well as how the African American population  
11 is -- is comparative relative to itself, and --

12 Q. So you didn't --

13 A. -- the argument of whether they can be a  
14 coalition is whether they are, themselves, having the  
15 same conditions, right, or soc- -- socioeconomic  
16 characteristics. I think that exists without comparison  
17 to the non-Hispanic White or Anglo population.

18 Q. Are you aware of when Galveston's CCDs were  
19 first put in place?

20 A. First place, I think there's been references by  
21 the other experts, but --

22 Q. Before you chose to use CCDs, did you consider  
23 how long those CCDs had been in the same configuration?

24 A. No. I considered the fact that the Census  
25 reported its 2020 Census -- or American Community Survey

1 results using that geographic distribution, because they  
2 represent, essentially, sections of the County. Just  
3 the same way the American Community Survey has been  
4 providing, sort of, individual level responses, but they  
5 are disguised and aggregated to the public use microdata  
6 of which there are only two divisions of Galveston  
7 County.

8 Q. Does it surprise you to learn that those CCDs  
9 have been in the some configuration for about seven  
10 years -- about 50 years, pardon me?

11 A. It does. And I think there's a history to  
12 Galveston in that Galveston has been a city and  
13 municipality for longer than that.

14 Q. But you would agree, however, that Galveston's  
15 political geography has been reshaped by its population  
16 growth, correct?

17 A. Uh-huh. And that population growth is still  
18 captured within these designations as some populations  
19 may, in this case, be getting larger, but there still  
20 are communities there. It would be the same thing as  
21 where populations change right now and some people moved  
22 out of Census block groups, we can still track those  
23 whether or not the Census block group boundary changed  
24 or did not change.

25 Q. One of the CCDs you used combines Texas City

1 | and League City, correct?

2 | A. It does.

3 | Q. Are you aware of how far apart those two  
4 | municipalities are from each other?

5 | A. Generally, yes; they are on other sides of the  
6 | City of Dickinson.

7 | Q. And you were aware of that when you used CCDs  
8 | in your report?

9 | A. Yes. But I think in this case it also means  
10 | that it includes that whole region. Just because they  
11 | name it that, doesn't mean it only includes those two  
12 | cities.

13 | Q. Did you compare the socioeconomic factors  
14 | between those two municipalities before you decided it  
15 | was appropriate to use a CCD that combined both of them?

16 | A. No. I used the CCD. When it makes those  
17 | comparisons, we -- especially because wanting to show  
18 | the difference between, in this case, the ethnicity of  
19 | Hispanic respondents to the ACS and to the non-Hispanic  
20 | African American respondents.

21 | Q. Just to close out your analysis of Black CVAP,  
22 | you used -- you used the same 46 percent threshold that  
23 | we discussed for Hispanic CVAP as Black CVAP, correct?

24 | A. Correct.

25 | Q. And so if I -- if we look at Figure 6 -- which

1 I think we can scroll up --

2 A. Okay. Scroll --

3 Q. Scroll up the other way.

4 CONCIERGE TECH: (Complied.)

5 BY MS. KLEIN:

6 Q. If we look for Figure 6 here, can I see where  
7 the greatest raw number of Black citizens are in  
8 Galveston County?

9 A. I think you can see, yes. It would be more  
10 towards, in this case, the center. So you can see, in  
11 this case, there's parts with La Marque or Hitchcock.  
12 These are shaded in green.

13 Q. You're talking about the lower portion, the  
14 southern portion of the map?

15 A. Yes. And then you would think, in this case,  
16 there's probably -- the concentration is higher in  
17 Hitchcock than it might be in -- as far as the areas, if  
18 it's just below the Bayou Vista.

19 Q. And again, this talks about concentrations not  
20 raw numbers, correct?

21 A. It does, yes. And then, similarly, Figure 7 is  
22 going to give an expansion, in this case, not just at  
23 Census blocks but of the voting distance.

24 Q. All right. You say in your report that there's  
25 a concentration of Black voters in the north -- quote,

1 northern part of the County. Can you tell me where that  
2 is shown on Figure 6?

3 A. Yeah. In this case, let's look to the area  
4 which, in Figure 6, those would be shaded green  
5 underneath the yellow line where Dickinson is. And so  
6 this is part of where you might see the district gets  
7 quite narrow and then opens back up to get a community.  
8 There's a concentration of African Americans at the very  
9 northern edge of that group, and there's also a  
10 concentration of African Americans on Galveston Island.

11 Q. Are you refer -- are those areas appearing in  
12 green shading on this map?

13 A. They appear -- it might be shaded. You can  
14 probably see them as being overlaid with the yellow.  
15 But consistently, they are there. And I think, most  
16 often, this is quite visible on Figure 7. You would  
17 see, actually, the Census block group appears more like  
18 the voting tabulation district, and there's one that is  
19 red showing that it has more than 50 percent citizen  
20 voting age population.

21 Q. Going back to my question -- we talked about  
22 this earlier -- but which version of the VTDs did you  
23 use in this map, the November 2021 or the December 2021?

24 A. November 2021.

25 Q. Just looking -- if we could go to Page 12 of

1 this, I think, scrolling up --

2 CONCIERGE TECH: (Complied.)

3 THE WITNESS: Okay.

4 BY MS. KLEIN:

5 Q. If we can scroll down a little bit. These --  
6 that last sentence on Page 12, you say: One concern is  
7 that citizens -- is that decisions to draw these  
8 communities into one commissioners precinct does not  
9 consider other differences Black citizens have in these  
10 different cities and areas of a county.

11 As we discussed earlier, you didn't do an  
12 analysis across specific municipalities, correct?

13 A. No. I used the word plural here because that's  
14 a group of cities, yes. And we can compare groups of  
15 cities or regions within a county to another set or  
16 region of that county.

17 Q. And you decided it was appropriate to use CCDs  
18 in grouping those cities together, correct?

19 A. Yes. I think the U.S. Census provides the data  
20 in that capacity. It lets us look within a reasonable  
21 set. I think here this is four groups that you look at  
22 within the County. We have four commissioners'  
23 precincts.

24 Q. Would you agree that Mr. Cooper's analysis that  
25 does this across municipalities is more granular than

1 your analysis?

2 A. I think one we want to go back to is the -- I  
3 asked to look at his report when we talk about those  
4 questions, but a couple of the things that he provides  
5 is that he does show the granular nature of Census block  
6 groups, but he's not showing the difference of these  
7 questions based off of race.

8 So whether or not someone is able to  
9 receive USDA food assistance is just whether they  
10 receive it and where do they live and looking at where  
11 they overlapped. My data in this case doesn't make an  
12 assumption about where you live and then where someone  
13 in that community may be receiving a service.

14 So his information is useful in this case.  
15 It does provide that granular part, but it's not able to  
16 essentially focus in on that Hispanic or Black  
17 difference and also show the geographic comparisons.

18 Q. And you're saying you looked at all of  
19 Mr. Cooper's exhibits that he submitted with his report,  
20 correct?

21 A. Yes, I believe --

22 Q. Okay.

23 A. I believe so. I just can't recall them  
24 immediately.

25 Q. Let's talk about your assessment of

1 socioeconomic figures. How did you decide which  
2 specific socioeconomic indicators you would look at for  
3 each population?

4 A. First, I looked at education and income. These  
5 are typically factors that are correlated with, not only  
6 voter preferences, but also voter turnout. And I also  
7 looked at parts of mobility. So sometimes the newer you  
8 are to an area, then the less participation you may be.  
9 But also, the newer you are to a community, the less  
10 tied you are to its -- its political history or  
11 differences. So I've included those.

12 Q. All right. Let's take a look at -- sorry. I  
13 keep on thinking you're done talking, and you're not  
14 done talking, and I apologize. Just try to --

15 A. We can move forward. I'm good.

16 MS. KLEIN: If we could scroll up to  
17 Section 1(c), Table 4 specifically -- actually, I  
18 might re- -- yeah. Let's scroll up.

19 CONCIERGE TECH: (Complied.)

20 BY MS. KLEIN:

21 Q. So in this section, you're talking about  
22 socioeconomic factors in the Hispanic population. Here,  
23 you're looking at median age and population working  
24 full-time, correct?

25 A. Yes.

1 Q. Did you look at any other employment-related  
2 factors for the Hispanic population?

3 A. As far as the -- no. This provides; in  
4 particular, the most granular part, you have other  
5 aspects where it may -- would have been interested to  
6 see if there were differences in which industry they  
7 worked in, but that opportunity is even -- that's going  
8 to vary as well regionally. So this is something that  
9 should not vary regionally, and that's why I would have  
10 made its choice.

11 Q. You observe in that paragraph above this table:  
12 Hispanic men in the northern part of Galveston County  
13 are 12 percent more likely to have a full-time job than  
14 Hispanics on Galveston Island.

15 Are you conceding that there is no  
16 appreciable difference between the Galveston and  
17 La Marque -- La Marque/Hitchcock CCDs?

18 A. Oh, between the median age of La Marque and --  
19 La Marque and Hitchcock are the same CCD. So if you  
20 could restate -- so what am I comparing them to?

21 Q. So if you look at Galveston, in that first  
22 column, and compare it with the La Marque/Hitchcock,  
23 second column --

24 A. Yeah.

25 Q. -- are you saying that those are not

1 significantly different?

2 A. Agreed, right. Without -- essentially, I would  
3 expect if there's a margin of error, that's going to  
4 overlap. So I -- where indications here are within that  
5 2 percent, I wouldn't think that that difference is --is  
6 substantial. I mean, I should expect there to be some  
7 variation and still say there could be similarity, yes.

8 Q. Okay. If we scroll down, what other tables of  
9 socioeconomic characteristics did you include for the  
10 Hispanic population?

11 A. For the Hispanic population, I not only include  
12 median age of their work, percentage working full-time,  
13 I included their income in their household.

14 Q. And what else did you include? We can scroll  
15 through it to refresh your memory, if we need to.

16 A. That is the -- the categories that -- that I  
17 used with Hispanics.

18 Q. Did you -- did you look at any of the other  
19 socioeconomic data that's not reflected in the charts  
20 that you've exhibited in your report?

21 A. Yes. I think I made considerations, in  
22 particular, of what -- not only geographic mobility; the  
23 other part was the nation of origin of a Hispanic  
24 respondent.

25 Q. Why didn't you provide those analyses --

1 similar tables for those in your report?

2 A. Yeah. I think, collectively, is that the  
3 nation of origin, where there are people coming from --  
4 are Mexican American or identify as Central American, we  
5 might not see as, sort of, substantial differences, but  
6 also, it's not going to be as meaningful, I think, to  
7 the comparison that we are making here on, you know: Is  
8 that a community of interest?

9 So I'm not looking to see whether or not  
10 there's a difference on, in particular, the -- the  
11 nation of their ancestry. So these, in particular, are  
12 opportunities equally to the symmetry of this; you don't  
13 see much variation on the nation of origin among the  
14 African American population.

15 And so if I'm not going to make the same  
16 comparison within those groups, I don't want to make --  
17 sort of selectively pick something that applies to a  
18 Hispanic population for them to be meaningful about  
19 determining them as a community of interest, that I'm  
20 not going to use or be able to use in the -- potentially  
21 African American population, which was 99 -- or over  
22 90 percent of Amer- -- sort of, born in the United  
23 States identify as an African American and not  
24 identifying as being born outside the country.

25 Q. What about geographic origin? Did you look at

1 that for the Hispanic population in Galveston?

2 A. Yeah, as far as where they moved to, and if  
3 they've moved recently, I think that was one I  
4 downloaded and then did not write an analysis about.

5 Q. Why not?

6 A. I think space and constraints. I -- I just  
7 wanted to focus the report so things would continue to  
8 be clear.

9 Q. So did you pick the figures that you thought  
10 would show the biggest differences among the Hispanic  
11 population CCDs?

12 A. No, I didn't. I picked things in particular  
13 that may not necessarily be influenced as much by region  
14 of where they live, as opposed to now; I think in this  
15 case we, upon reflection, you know, the -- the County  
16 has grown in different places; maybe the center of the  
17 County has grown less. And in this case, where they  
18 have moved from or moved to is -- sort of provides a --  
19 a -- a spurious relationship towards the question of  
20 where that population growth has occurred, because it's  
21 dependent on where people are moving from.

22 Q. So you just said that you wanted to pick things  
23 that might not vary by region because of the region. Is  
24 it your opinion that income does not vary by region in  
25 Galveston County?

1           A. In this case, I show that income does vary by  
2 region within the Hispanic and the African American  
3 communities, but I think, in this case, I don't have a  
4 reason to believe why it should.

5           Q. Do you think it might have something to do with  
6 whether, for example, an area like League City is a  
7 suburb of Houston?

8           A. Yeah. I think, in this case, that -- that can  
9 be part of it. I mean, in this -- you know, in this  
10 case, where they're traveling to work. But I think a  
11 lot of our parts here show that people are traveling, a  
12 lot of times, distances to go to their workplace, but  
13 they're not bound to work within these CCDs.

14          Q. Let me put this a -- more bluntly. Do you  
15 think Galveston County, it's fair to say, it has rich  
16 areas and poor areas?

17          A. In the -- both Figure 5, and if I come back  
18 scrolling down to Figure 8, I also make that point. The  
19 fact is that you end up with African Americans who live  
20 on Galveston -- in Galveston CCD make up -- have a  
21 higher, in this case, proportion who make up less in any  
22 time.

23                   I mean, the individuals who are African  
24 American make more than -- have a higher proportion of  
25 those who make \$75,000 as a household income, or greater

1 than -- than Galveston in these cases. So any time you  
2 see that light blue and darker blue end up being higher,  
3 that's showing sometimes the -- those differences.

4 I think what I'm showing in this case is  
5 that that is meaningful to the question about that their  
6 populations might actually be disparate.

7 Q. Did you look at the income, you know, qualities  
8 between Texas City and League City?

9 A. In this case, I did not, because they're part  
10 of the same CCD in that definition.

11 Q. So you just assumed it was appropriate to group  
12 League City and Texas City together relying on CCDs,  
13 correct?

14 A. I did not -- I mean, I think it's appropriate  
15 because I did not make that definition. In this case,  
16 you're making the comparison of Texas City and League  
17 City being further north than the Galveston CCD.

18 Q. Okay. You said you had to be consistent  
19 between the Hispanic and the Black populations, so --  
20 and I'd like to talk a little bit more about that. I  
21 think now we're in the section of your report that talks  
22 about the Black CVAP.

23 This Figure 8 is the same income comparison  
24 that you had for Hispanic. Can we scroll up just to see  
25 what other figures you've included for the Black

1 population?

2 MS. KLEIN: So scroll up a little bit more,  
3 please. We'll start at the beginning of this Section E,  
4 right there.

5 CONCIERGE TECH: (Complied.)

6 BY MS. KLEIN:

7 Q. And if we look -- go through the tables --

8 MS. KLEIN: So scroll down to Table --  
9 Page 14, Table 6 is Geographic Mobility.

10 CONCIERGE TECH: (Complied.)

11 BY MS. KLEIN:

12 Q. You did not provide this analysis for the  
13 Latino population, correct?

14 A. No, I did not.

15 Q. This next Table 7, Median Age and Population  
16 Working Full-Time, you did include that for the Hispanic  
17 population?

18 A. Correct.

19 Q. And then Table 8, Education Attainment, you did  
20 not include that for the Hispanic population, correct?

21 A. Correct, I did not.

22 Q. And then let's see what other figures -- we  
23 talked about Figure 8, which is the income. And then  
24 let's see if there's anything else. I think that's it  
25 for -- so you included a -- different socioeconomic

1 factors for Black CVAP as compared to Hispanic CVAP,  
2 correct?

3 A. Yes, because they're the addition of two more.

4 Q. All right. We can take this down for now.

5 Thank you, Dr. Owens.

6 If you want a brief break, this would be a  
7 good stopping time. I just have one more section to get  
8 through, and then I'll pass you to the other groups.

9 MS. KLEIN: Does anyone want to take a  
10 five-minute bio break.

11 THE WITNESS: Excellent. Yeah, I -- I'd  
12 like to, please.

13 THE VIDEOGRAPHER: We are off the record at  
14 1:46 p.m.

15 (Brief recess taken.)

16 THE VIDEOGRAPHER: We are back on the  
17 record at 1:55 p.m.

18 BY MS. KLEIN:

19 Q. Dr. Owens, did you talk to anybody about the  
20 substance of your testimony today during the break?

21 A. No.

22 Q. Okay. I'd like to ask you now about your  
23 analysis of Mr. Cooper's illustrative plans in his  
24 report.

25 So we've talked a little bit -- you

1 mentioned population equalization as something you  
2 considered. And I want to ask you: What level of  
3 populization -- population equalization is required for  
4 Galveston County's Commissioners Precincts?

5 A. Seems like they're plus or minus 5 percent.

6 Q. Do you agree that the population deviations of  
7 all of Plaintiffs' illustrative maps -- Mr. Cooper's,  
8 Mr. Rush's, and Mr. Fairfax -- that they're all within  
9 the legal requirements for equalizing populations?

10 A. I agree they are, in this case, statistically  
11 in that range. I think the part that I'm going to  
12 consider in this case is that you can always make an  
13 effort to reduce that population in this case. So when  
14 we're usually allowing that, you want to have a reason  
15 why you're continuing to use that population deviation.

16 Q. Do map drawers have to pick a map with the  
17 lowest average population deviation?

18 A. They don't have to. I think, in this case, if  
19 you think about a principle at which you're going to  
20 address something as being a -- a preferred map, map  
21 that is providing better representation, it will be  
22 closer to the one-person/one-vote standard.

23 Q. And we've also talked about compactness a  
24 little bit. You've provided scores for compactness in  
25 your report, I think three tables, Table 10, 11, 12. Do

1 you recall that?

2 A. Yes.

3 Q. Can you tell me, broadly speaking, where you  
4 got the numbers that you put in those tables?

5 A. Yeah. The numbers for Mr. Cooper, and I  
6 believe, in this case, the -- Mr. Fairfax, can come from  
7 their reports, as well, being verified with Maptitude.  
8 Ty Rush's reports I generated through Maptitude.

9 Q. What about the Enacted Plan?

10 A. The Enacted Plan was also reported by Anthony  
11 Fairfax.

12 Q. I want to look at Table 10 first.

13 MS. KLEIN: So could we please pull up --  
14 it's Exhibit -- I'm -- I have lost, of course, the  
15 exhibit number. Can we please pull up Exhibit 9 and  
16 scroll to Page 16?

17 CONCIERGE TECH: Okay. (Complied.)

18 BY MS. KLEIN:

19 Q. And you know what? I think that I might not  
20 have had taken the opportunity to just confirm -- we can  
21 go to the first page. This is your -- if we can go to  
22 the first page of this, this is your amended report,  
23 correct?

24 A. Thank you for confirming, but, yeah, I -- I saw  
25 that.

1 Q. And that's your signature on the front there?

2 A. It is.

3 Q. Okay, great.

4 So let's scroll to Page 16.

5 A. Okay.

6 Q. And let's scroll down to Table 10, please.

7 A. Very good, yeah, the Reock scores.

8 Q. So the Reock scores -- can you tell me, what is  
9 a Reock score?

10 A. This is a score at which identifies the  
11 compactness of a geographic shape. It will vary between  
12 0 and 1, but it gives you a sense of determining, right,  
13 without any knowledge of the political geography in the  
14 area, right: What is the shape especially relative to  
15 the shapes in that addition -- other plan?

16 Q. Okay. And let's scroll down to Table 10 --  
17 Table 11 on the next page, Page 17, of your report.

18 A. Yes.

19 Q. And this gives Polsby-Popper scores, correct?

20 A. Yes.

21 Q. What -- what is a Polsby-Popper score?

22 A. Polsby-Popper score is, again, something that  
23 will range from 0 to 1, set to determine a difference  
24 about the shape of its district.

25 Q. How is Polsby-Popper different than Reock?

1           A. Based on the -- anyways, the characteristics  
2 that they're going to consider and the ability of, like,  
3 one, to prioritize a -- a square and where --  
4 understanding -- each shape, right, might have some  
5 particular difference.

6                       So, I think, the reason why present them  
7 together is that they --

8                       THE COURT REPORTER: Hold on. Hold on.

9                       THE VIDEOGRAPHER: Someone's not muted.  
10 Please mute yourself. Thank you.

11                      THE COURT REPORTER: Sarah.

12                      And you're going to have to repeat that.

13 She was coughing.

14                      THE WITNESS: Okay. Happy to.

15                      These two scores, they capture different  
16 parts of compactness. So the important thing that we do  
17 is to com- -- to show multiple scores here, because  
18 they're going to determine some difference of geographic  
19 shape, and one is going to, sort of, count you harder  
20 against if you tend to be going away from a geographic  
21 shape than any other group.

22 BY MS. KLEIN:

23                      Q. Okay. Where did you first -- and then --  
24 sorry -- Table 12 is Convex-Hull scores. And can you  
25 explain what Convex-Hull means?

1           A. Convex-Hull is going to look a little bit more  
2 ranging from 0 to 1. It's going to take into  
3 perspective the perimeter, as well as the shape of a  
4 line that can fit within that perimeter.

5           Q. Where have you learned about these different --  
6 three different compactness tests?

7           A. In reviewing other redistricting plans and  
8 seeing that, in this case, these scores are commonly  
9 used, they represent -- again, something with a higher  
10 score achieves more compactness. We also have the  
11 ability, why we would have these scores, to determine if  
12 one commissioners precinct, or we can say congressional  
13 district, is more compact than its neighboring group.

14           Q. You mentioned reviewing other redistricting  
15 plans, and I don't think we've talked about that before.

16                       Can you tell me in what capacity you've  
17 reviewed other redistricting plans?

18           A. Yeah. One is, in this case, as an expert and  
19 in its testimony, and then most primarily as a academic  
20 who's studying and observing these -- these trends,  
21 especially to learn from past decades. The- -- these  
22 are often and -- and historically used measures of  
23 compactness.

24           Q. Have you -- about how many other plans have you  
25 reviewed where you've looked at their compactness?

1           A. Plans, yeah, less than -- than 10, even if I  
2 was to bring into the fact all of their groups and  
3 studies, but, two, professionally.

4           Q. If I look at Table 11, Cooper Illustrative,  
5 Line 2, you -- you translated those numbers over  
6 incorrectly from his plan; is that correct? Have you  
7 noticed that?

8           A. In that line of -- of which one, in the Map 2?

9           Q. In Table 11 for Cooper Illustrative Map 2.

10          A. Okay.

11          Q. Are there any other errors within these --  
12 sitting here today, within these tables that you know  
13 of?

14          A. I think one is to -- to reference them next to  
15 his report. But where you say there was, in Line 2, an  
16 error?

17          Q. Yeah. So you -- so you -- this is not one of  
18 the things that you had spotted as an error that we  
19 talked about earlier?

20          A. And I'm asking now: Are you discussing Cooper  
21 Illustrative 2 or Line 2 of Table 11?

22          Q. So Table 11, Cooper Illustrative Plan 2, are  
23 you aware of where those specific scores came from?

24          A. In this case, I would -- if you're identifying  
25 is there an error right now, I'm not aware of where that

1 error is.

2 Q. Okay. We can move on.

3 What does it mean to lack compactness in a  
4 map?

5 A. In compactness you want to think, first, is it  
6 -- the score itself is the shape maybe closer to 0, then  
7 that that is to be not compact, showing, in particular,  
8 if it had shapes. You also -- all these scores are  
9 taking into, in fact, the perimeter of the district, so  
10 you can think of it as, like, a shoreline, and  
11 understanding, in any part of our local geography, they  
12 can -- you know, those should be allowed to -- to exist,  
13 and -- and they will follow municipal boundaries as  
14 well. I think -- not all of these things are perfect  
15 shapes.

16 But one thing that we can determine is that  
17 it's the compactness of an entire map, and are all of  
18 these precincts achieving approximately the same scores  
19 across the board, or do you see wide deviation between  
20 those. And in this case, I'm seeing that, across  
21 illustrative maps, especially if we're to look here at  
22 Cooper 1, here's Precinct 3, is -- in particular, has a  
23 lower compactness, but any other precinct that was drawn  
24 in this case, I'd also -- right, is -- and it's a  
25 improvement from the benchmark, but the benchmark, in

1 particular, shows that anything that encouraged the  
2 least changes is going to have a low compactness score.  
3 It also means in this case: What about its political  
4 geography? Who is underneath this -- these district  
5 lines? And are they capturing a compact community that  
6 has similar interests?

7 Q. All right. There's a lot there, so I'm going  
8 to break it down a little bit.

9 First of all, I heard you say that the fact  
10 that Galveston has a water barrier impacts its  
11 compactness, correct?

12 A. Correct.

13 Q. Would you say that the enacted map is  
14 reasonably compact?

15 A. I would. I think in this case it -- it  
16 provides an opportunity here, which has a -- a higher  
17 average than the benchmark map, as far as all of the  
18 precincts together, and we also see, maybe as I just  
19 determined before, right, a lower standard deviation.  
20 So there's less difference between the compactness of  
21 each of these precinct boundaries that have been drawn.

22 Q. I heard you say before that you thought Cooper  
23 Illustrative Plan 1, Precinct 3, was less compact than  
24 all other Precinct 3s drawn in any plan.

25 Did I hear that correctly?

1           A. Uh-huh. I think it's -- it's less compact than  
2 the others that he drew, and in this case, I was  
3 identifying it was -- he did increase the compactness  
4 compared to that benchmark, which needed to be changed,  
5 and at the hundredths place, I thought -- his map is  
6 more -- his Precinct 3 is 1/100th more compact on the  
7 Polsby-Popper score than the Fairfax map.

8           Q. What about compared to the Enacted Plan? You  
9 said that you thought the Enacted Plan was reasonably  
10 compact, I heard.

11                       Do you think that the Cooper illustrative  
12 plans are also reasonably compact?

13           A. I think one of the things, in particular, is  
14 that they're not -- because they're not capturing the  
15 same, right -- and this is a population that has the  
16 same political interests, or in this case, right,  
17 substantial interests for their representation is shown  
18 by the differences in their own geography.

19                       Also, I paused and did not make comparisons  
20 between the enacted map and the benchmark map, because  
21 the -- in this case, Precinct 3, right, is now  
22 substantially different.

23           Q. Dr. Owens, taking -- I'm just going to ask you  
24 just about the compactness scores -- the three  
25 compactness scores that you have put in Tables 10, 11,

1 and 12 of your report.

2 Do you believe, under those scores, that  
3 the Enacted Plan is reasonably compact?

4 A. Yes. I think in this case it's -- they are  
5 similar across the board. I think they're bringing into  
6 account differences that you'll see just of counties'  
7 geography and their opportunities. But they have shown  
8 in this case, for Precinct 1, the enacted map has a  
9 higher score.

10 When we look to those, we see that occur as  
11 well in other precincts. It also has less deviation  
12 between those -- those groups on the account, if you see  
13 those, just, particular differences. But in large part,  
14 this is to say of -- not all of these -- the enacted map  
15 is -- is more compact than most of the illustrative maps  
16 that were presented.

17 Q. And just looking at the three compactness  
18 scores in Tables 10, 11, 12, is it your opinion that the  
19 Cooper illustrative plans, each districts in those plans  
20 are not reasonably compact? Is that your testimony  
21 today?

22 A. And I think the perspective of some of the  
23 analysis that I provided is that, at first, the  
24 compactness of these scores doesn't need -- necessarily  
25 need to be, right, compared because it doesn't

1 represent, right, the community of its similar and  
2 shared interest too, when you think about the Hispanic  
3 individuals who rest in the -- reside in the northern  
4 part of the district compared to those in the southern  
5 part of the district. But I also, right -- one of those  
6 things is that all three of Cooper's illustrative plans  
7 have, in particular, decisions and errors that change  
8 part of their compactness.

9           And I think, in particular, when we look at  
10 the Illustrative 3, not only when you think of  
11 compactness and those scores, you want to think about  
12 the contiguity issues that exists of how Precinct 1 is  
13 going another direction.

14           Q. Dr. Owens, I -- I'm going to interrupt you  
15 there just because you're being a little nonresponsive,  
16 and I'm actually short on time. And I appreciate  
17 everything you're saying, and we're going to get to  
18 that.

19           But I just want an answer right now: Is it  
20 your testimony today that under these three compactness  
21 scores that you have included in your report in  
22 Table 10, 11, and 12, is it your testimony today that  
23 the Cooper illustrative plans are not reasonably  
24 compact?

25           A. Yes. That -- my opportunities, when you

1 | consider all three case scores, and, in particular, not  
2 | only their average, when we look at it from multiple  
3 | factors, this is not a reasonably compact district.

4 | Q. Okay. So if we look at Table 12, Convex-Hull  
5 | Scores, the Enacted Plan Precinct 3 has a score of 47,  
6 | and the Cooper Illustrative Plan 1 has a score of 51,  
7 | Illustrative Plan 2 has a score of 60, and Illustrative  
8 | Plan 3 has a score of 60.

9 | Are you saying that the higher Cooper  
10 | illustrative plan Convex-Hull scores still render  
11 | District 3 to be less compact than the Enacted Plan?

12 | A. And -- and the scores in this case clearly are  
13 | higher. When you look at the enacted map, they're not  
14 | comparable, because one being a triangle, and we think  
15 | about the next ones being, right, largely a rectangle  
16 | with the -- the stretches at the center, so in this  
17 | case, almost like a -- an addition sign or a cross.

18 | I think, in this case, the Illustrative Map  
19 | 3 considers a -- a precinct score here at 60, but it  
20 | does so while you also have reduced the compactness of  
21 | other precincts.

22 | Q. Let's look to the averages then.

23 | A. Okay.

24 | Q. The Enacted Plan has an average Convex-Hull  
25 | score of 65; Cooper Illustrative Plan 2 has an average

1 compactness score of 65.

2 Is it your testimony today that the overall  
3 plan, Cooper Illustrative 2, is not reasonably compact,  
4 while the Enacted Plan is reasonably compact?

5 A. It would be. And one of these scores, they're  
6 -- in this case, they're going to be similar in their  
7 average, yet the -- the perimeters at which they are  
8 reaching are different.

9 Q. So your testimony is that --

10 A. Again, under multiple factors, they're -- I  
11 think, in particular, a score is part of that factor.  
12 But on my opinion and analysis, it continues to be that  
13 the Cooper Map 2 is -- would be not compact.

14 Q. Why did you take standard deviation?

15 A. I wanted to have one way to report how  
16 different each district was from the potential --  
17 essentially, the average. What were the deviations  
18 these groups had?

19 So ideally, when we think about  
20 compactness, we want to have -- if you want to have a  
21 similar shape, I think compactness is one of your goals.  
22 In redistricting that should apply to multiple parts of  
23 the entire plan.

24 Q. Was that based on any academic work you can  
25 point me to?

1           A. I think it's just -- not that I can recall of  
2 one to address you to; it's just going to be a principle  
3 that people will try to apply in redistricting cases,  
4 that, if you use one rule, continue to apply it all the  
5 way across.

6           Q. Okay. Moving on to your commentary about the  
7 illustrative plans beyond compactness.

8                        You -- just to summarize what you've opined  
9 on, you've claimed that Mr. Cooper prioritized race  
10 above traditional redistricting principles in all three  
11 of his illustrative maps; is that right?

12           A. Yes, I wrote that.

13           Q. And -- and we'll get to the specific  
14 observations. But I just want to confirm: You have not  
15 spoken with Mr. Cooper about what approach he took to  
16 draw those districts, correct?

17           A. Correct, I did not. My analysis was based off  
18 of looking at other factors and determining that they  
19 may not have been considered, and race alone is the  
20 consideration made.

21           Q. Are you saying that you have proof he used race  
22 as a predominating factor when he drew those lines?

23           A. I don't have proof. I have the ability to  
24 understand what the outcome was by using the data.

25           Q. Are you saying there's no other explanation for

1 how he drew his lines in his illustrative plans, other  
2 than he used race as a predominating factor?

3 A. I think, in particular, if he used other ones,  
4 it did not reduce the fact of how race comes out as the  
5 predominating factor. So any concern before was not  
6 necessarily alleviated. I know that he made efforts in  
7 this case, I'm sure, when we're looking at the parts, he  
8 is trying to improve compactness, right? His maps are  
9 showing to be on these scores more compact than the  
10 benchmark map.

11 Q. So at least as --

12 A. But --

13 Q. Go ahead.

14 MS. OLALDE: Let him finish his answer,  
15 please.

16 THE WITNESS: But sometimes it's -- as far  
17 as Illustration 1 and 2, right, there's a reliance on a  
18 benchmark map, which continues to carry it by history  
19 of, right, in this case, racial choice, and I think that  
20 that's a particular part where, when we see the  
21 political geography changing, that -- that's what I'm  
22 going to identify. It's not so much in this case that  
23 he may have been motivated or taken any particular  
24 action to do so. I want to be clear about, I guess, how  
25 that could be interpreted. It's not -- I'm not getting

1 in his head.

2 BY MS. KLEIN:

3 Q. Okay. What does it mean when you say he was  
4 trying to, quote, maximize the racial composition of a  
5 district?

6 A. I think in this case he's trying to maximize  
7 the number of Black citizen voting age population or  
8 Hispanic vote -- citizen voting age population within  
9 those communities. There's an expectation here by  
10 protecting a northern and southern connection, which  
11 is -- and determining that to be a -- a community of  
12 interest despite the population changes that have  
13 occurred over the last decade.

14 Q. So is it your testimony that Mr. Cooper  
15 includes the, quote, maximum racial composition for  
16 Black and Latino populations in each of his illustrative  
17 maps?

18 A. I don't, in this case, identify something as  
19 being maximum, just as far as that there is a -- a  
20 choice that was selectively made to make sure that  
21 voting districts were not included if they tended to  
22 have a larger, non-Hispanic White population. We show  
23 those alternatives.

24 So I understand he's working out ways to  
25 try and reduce the population deviation, and my

1 evaluations are trying to think of: Do you reduce the  
2 population evaluation? Are you increasing compactness?  
3 And are you including people who have characteristics in  
4 common?

5 Q. Let's talk about more specifics, and we'll  
6 discuss Cooper's Illustrative Map 1 here.

7 Do you agree -- and here we can pull up his  
8 report, which is -- should be marked as Exhibit 10. And  
9 that's Tab 19, and let's just bring that up briefly.

10 CONCIERGE TECH: (Complied.)

11 MS. KLEIN: And if we could go -- scroll --  
12 let's actually go to PDF Page 159. This is Exhibit I-1.  
13 So PDF Page 159 of this should be a -- a map.

14 CONCIERGE TECH: (Complied.)

15 MS. KLEIN: There we go.

16 BY MS. KLEIN:

17 Q. So -- just so we're all on the same page, this  
18 is Cooper Exhibit I-1, and it shows the benchmark in red  
19 lines for Precinct 3, and then it has a zoom-in of  
20 Mr. Cooper's Illustrative Map 1.

21 Do you remember looking at this in your --  
22 in performing your analysis?

23 A. I do.

24 Q. Do you agree that this map shifted two VTDs  
25 from Precinct 2 to Precinct 3 as compared to the

1 Benchmark Plan?

2 A. Yes. No, I -- I think, I see those in  
3 particular. I know there were small deviations of how  
4 those VTDS could have been there between some that  
5 were -- 232.1, other groups like that. But, yes, 232,  
6 and then there's the one in -- in La Marque.

7 Q. And I'm running a bit short on time; I want to  
8 make sure the other plaintiffs have enough time.

9 So if I ask you if you agree, yes or no,  
10 and then if I want more clarification, I'll -- I'll  
11 ask -- I'll ask for it.

12 Do you agree, as we spoke before, that the  
13 shift of those two VTTs -- VD- -- VTDS brought this  
14 illustrative map into compliance with  
15 one-person/one-vote requirements?

16 A. I think in this case it -- it's within a  
17 threshold. I think it shows less effort to minimize  
18 what that population deviation would have been.

19 Q. Do you agree that the shift of these two VTDS  
20 places La Marque in Pre- -- all of La Marque  
21 municipality in Precinct 3 and, therefore, eliminates a  
22 split in La Marque?

23 A. At one point I -- I agree with that mostly.  
24 The fact is, that there's a certain part of the VTD  
25 or -- that is in the City of La Marque; yet, most of

1 that VTD is in Santa Fe. So I --

2 Q. Is that --

3 A. -- I think that there's a full attempt here to  
4 use those and observe political boundaries and -- and  
5 gather La Marque; I just -- even today it's not quite  
6 substantially -- not 100 percent, but it -- it's there.

7 Q. And you agree that using political boundaries  
8 is a traditional redistricting criteria, correct?

9 A. I do, yes.

10 Q. And it is race neutral, correct?

11 A. Correct.

12 Q. So you contend in your report that Mr. Cooper  
13 ignored the concentrated Hispanic population in Voting  
14 District 225. Would having -- would incorporating  
15 District 225 have resulted in all of La Marque being in  
16 Precinct 3?

17 A. In its reference, I think -- where is the  
18 Voting District 225?

19 Q. Well, you actually didn't provide that  
20 information in your report; you just talk about District  
21 225. So I can't show you where that is.

22 But I'm asking you: Did you do an analysis  
23 of whether him switching District 225 instead of another  
24 would have still resulted in all of La Marque being in  
25 Precinct 3?

1           A. Yeah. So in this case, no. The opportunity  
2 that we do have when we look at this map is also to  
3 identify could compactness have been improved if other  
4 areas of the precinct were looked at. I mean, we  
5 have -- he made this selection, I agree, and the thought  
6 here is that -- but other selections are possible, and  
7 that's why I identify here Voting District 225.

8           Q. Did you do that analysis of whether your --  
9 what you say he should have done would have made  
10 La Marque all of -- encompassed all within Precinct 3?

11          A. No, I didn't provide that.

12          Q. Okay. You said he should have picked  
13 District 225 because it had a similar population. Did  
14 you mean a similar population by race?

15          A. I think maybe -- there's not -- an opportunity,  
16 when I'm providing these alternatives, I'm only showing  
17 that, again, there could have been other selections  
18 made, but each of these selections has a determining  
19 effect of what the population is going to be at that  
20 precinct, and we want to make sure that selections of  
21 one are not made where they are then different than  
22 selecting another, and so: Is that going to be  
23 race-motivated?

24                        But, I think, in many ways here, we can  
25 determine that it's the reliance of the benchmark map

1 continuing to keep those areas north of Dickinson  
2 together is another area here that was not addressed in  
3 this map.

4 Q. Yes or no; did you do an analysis of how Voting  
5 District 225 had a, quote, similar population to the  
6 rest of Precinct 3?

7 A. Is that what the analysis -- no. I just  
8 provided the population counts in those communities.

9 Q. Let's move on to Illustrative Map 2. I'm going  
10 to go through this as quickly as I can. This is PDF  
11 Page 167. It'll be Cooper Exhibit J-1.

12 So you state in criticism of this map that  
13 the contiguity of Precinct 2 becomes dependent on the  
14 weather conditions in high tide. Can you tell me what  
15 analysis you can point me to that substantiates your  
16 belief that this map has -- is noncontiguous when  
17 there's certain weather conditions?

18 A. Yeah. I think in this case we described to  
19 measure the distance between, essentially, the -- the  
20 precinct boundary that you see, which is in orange, to  
21 the areas that you would see of -- beyond the Seawall  
22 Boulevard where you have a part. And so I could not do  
23 a -- an estimate here of what possible weather  
24 conditions could be, but I think, in this case, we're  
25 talk -- he is presenting the ability to maintain a

1 coastal district with something that, at times, is -- is  
2 very small to go around a populated area of Galveston,  
3 which is, itself, part of an island; therefore, right,  
4 its coastal community, some of which is shared there on  
5 the Bay.

6 Q. Can you tell me during what storms in the past  
7 decade, for example, would have had levels of water that  
8 would have made this map noncontiguous?

9 A. That part -- that's not a central part of my  
10 analysis here, as much as to say that these voting  
11 districts within the County, right, are adjacent to one  
12 another, but they're either adjacent to Precinct 3 or  
13 they're adjacent to the water, to the beach -- to the  
14 beach -- the road that runs along that beach. For what  
15 other reason than they are -- they hold different, in  
16 this case, socioeconomic or racial and ethnic  
17 differences.

18 Q. So sitting here today, can you tell me of one  
19 storm, one incident, in all of history you can point to  
20 where there were conditions where this would have been  
21 noncontiguous?

22 A. No, I -- I do not have a rain gauge from the --  
23 the major hurricane early in the 20th century in  
24 Galveston.

25 Q. Okay.

1           A. But for me to be able to say that that couldn't  
2 come up to the future is still right beyond the scope of  
3 what analysis I can provide.

4           Q. Let's move on to Illustrative Map 3, and this  
5 is Exhibit K-1 for Cooper. It's at PDF Page 175.

6                       So you agree that all of the precincts in  
7 this map are contiguous, correct?

8           A. Yes, they are.

9           Q. You agree that the deviations here are within  
10 one-person/one-vote requirements, correct?

11           A. I think in this case, yeah, the -- by looking  
12 at the table, my memory recalls that this had, as well,  
13 some of the lowest deviations.

14           Q. Do you recall in your report you assert that  
15 the commun- -- communities in Dickinson should be joined  
16 with League City because the populations are more,  
17 quote, similar?

18           A. Yes.

19           Q. As we discussed before, you did not do any  
20 comparison between the municipalities of Galveston  
21 County, correct?

22           A. Within explicit municipalities, no. So in this  
23 case, they -- from the information that I provided,  
24 Dickinson and League City would have been represented in  
25 the same statistics, and they show themselves to have

1 been different than, at times, La Marque and Hitchcock,  
2 or especially Galveston.

3 Q. Are you aware that the 2020 Enacted Plan  
4 actually has portions of both League City and Dickinson  
5 in three different precincts?

6 A. Well, again, I guess by that number, that, in  
7 particular, is -- I believe I can recall that, at the  
8 same time that the Enacted Plan was not one that I  
9 analyzed.

10 Q. But you'd have to agree that the Enacted Plan  
11 should have -- if you think that this plan should have  
12 put those populations together, the Enacted Plan, in  
13 your opinion, should have put those populations together  
14 too, right?

15 A. Yes. And, in part, you said, in particular,  
16 that they had, but, also, League City, in its population  
17 size, does have to have multiple precincts. I would say  
18 that's just one of our other parts of the one-person,  
19 one-vote.

20 Q. Have you reviewed the Cooper Map 3A from his  
21 rebuttal report?

22 A. Yes. I mean, I --

23 Q. Do you intend to give any opinions at trial --  
24 sorry.

25 A. No, it's good. I mean, I -- I have seen as

1 much of it here as we did, but when I did this, I have  
2 not analyzed that map in particular, because I see that  
3 he made a substantial difference of removing -- or  
4 changing two -- at least two different voting precincts.  
5 He made Dickinson adding a precinct, which had not been  
6 added before, and then removed a precinct there from  
7 Texas City.

8 Q. Do you intend to provide any opinions on Map 3A  
9 at trial?

10 A. I -- I don't have plans at this time, and I  
11 think I would observe that if -- if it occurs.

12 Q. Last few questions, Dr. Owens. I really  
13 appreciate your time today.

14 In your criticisms of Mr. Cooper's maps,  
15 you talk a lot about CVAP at the block level, and I  
16 think you mentioned this earlier, that you had to get  
17 block-level CVAP by disaggregating the American  
18 Community Survey; is that correct? Do you remember  
19 that?

20 A. Yes.

21 Q. So you did a disaggregation, correct?

22 A. I did. So then it could come back and be  
23 aggregated back to the voting direct level. That's how  
24 we can get CVAP data that matches the voting district,  
25 the political boundary that we've been talking about and

1 not the Census block group boundary that we've been  
2 talking about. And this is very much consistent with  
3 the same part of the analysis he did.

4 Q. Are you aware that when block group CVAP data  
5 is disaggregated to the block level that VTDs split by  
6 block groups can be assigned disproportionate shares of  
7 CVAP?

8 A. That would occur if -- and this is the one  
9 qualification about, you know, the distribution of the  
10 population anyway. So the important control that  
11 Maptitude uses is to make sure that we don't  
12 disaggregate populations where individuals do not  
13 already reside in those Census blocks.

14 Q. How did you count -- account for that issue  
15 with disaggregation?

16 A. I selected in this case that the CVAP data be  
17 disaggregated using the population count of the Census  
18 for that Census block.

19 Q. Are you aware that several of the split VTDs  
20 you mention in your critiques of Mr. Cooper's  
21 illustrative plans are actually split amongst several  
22 block groups?

23 A. And this would be, the opportunity I'm  
24 primarily focussing on, how they were split. No, I  
25 think -- I mean, those, in part, make sense, but we are

1 trying to make our communication here on the Census  
2 block -- or the voting districts, and in each case that  
3 something happens where you're asking this, you -- I  
4 think I would have to know those Census block groups,  
5 which are -- in your mind here you just mentioned were  
6 adjacent to one another, would be substantially  
7 different from one another. Otherwise, the -- using the  
8 simplest standard, we're allowing the data to be applied  
9 equally across each community.

10 Q. The last thing I'll do, and then I'll pass --  
11 pass you on for the others to question, is just to bring  
12 up Exhibit 11, because I don't think we have -- we have  
13 talked about it, and this is Tab 20 of the Cooper  
14 rebuttal.

15 (Exhibit 11 was marked for identification.)

16 BY MS. KLEIN:

17 Q. And let's just briefly go to PDF Page 27 of  
18 that document, which is Rebuttal Exhibit D, and if we  
19 scroll down to the PDF Page 27 there.

20 Have you -- have you looked at -- had a  
21 chance to look at this Exhibit D?

22 A. No, not in great detail to offer opinions or  
23 analysis.

24 Q. Okay. All right. But you have no reason to  
25 dispute Mr. Cooper's breakdown of where different VTDS

1 are split amongst different block groups, correct?

2 A. No, I -- I would not. I mean, I think he has  
3 shown, consistently, the use of Maptitude and the  
4 geographic levels, right, where we're making counts and  
5 comparisons. I would not dispute this.

6 Q. And can you describe briefly how you've been  
7 trained in Maptitude.

8 A. In Maptitude, I've been trained by using it in  
9 parts of my research, particularly using the training  
10 manual, and then applying it. We've talked about this  
11 as kind of sitting down with other people who have used  
12 Maptitude and understanding the creation of those  
13 reports. They also have many training videos that --  
14 that you can use.

15 Q. No courses in Maptitude, correct?

16 A. Right. There aren't courses in graduate school  
17 that deal with Maptitude.

18 Q. All right.

19 MS. KLEIN: Thank you, Dr. Owens. I really  
20 appreciate your time and bearing with my questions  
21 today. That's all the questions that NAACP Plaintiffs  
22 have today. Thank you.

23 THE WITNESS: Good afternoon.

24 MR. GABER: High, everyone. So I think  
25 maybe we'll take a five-minute break and -- does that

1 work for you?

2 THE WITNESS: Yeah. Thank you. That can  
3 be good.

4 MR. GABER: And -- so let's go off the  
5 record. And could I have the court reporter -- are you  
6 able to tell me how much time we have used on the  
7 record?

8 THE VIDEOGRAPHER: 4 hours, 20 minutes.

9 MR. GABER: Okay.

10 THE VIDEOGRAPHER: We are off the record at  
11 2:35 p.m.

12 (Brief recess taken.)

13 THE VIDEOGRAPHER: We are back on the  
14 record at 2:44 p.m.

15 EXAMINATION

16 BY MR. GABER:

17 Q. Good afternoon, Dr. Owens. My name is  
18 Mark Gaber; I am counsel for the Petteway Plaintiffs in  
19 this case. It is nice to meet you, and I will not be  
20 taking as much of your time as Ms. Klein did, but -- and  
21 I will try not to duplicate, but I do have some  
22 clarifying questions from your discussion with her as  
23 well.

24 Did anyone assist you in preparing your  
25 report or collecting or analyzing data for it?

1 A. No. I did this on my own.

2 Q. You did not work with any, like, graduate  
3 students or the like?

4 A. No, I did not.

5 Q. Did you communicate with a guy named Thomas  
6 Brian at all during the course of your work?

7 A. No.

8 Q. Are you familiar with Thomas Brian?

9 A. No, I'm not.

10 Q. Now, I gather -- or, I guess, question: Does  
11 the -- the Texas City and League City CCD that you were  
12 discussing earlier, does that include Dickinson as well?

13 A. I guess -- my belief is that it does.

14 Q. So I gather that you would consider Texas City,  
15 League City, and Dickinson to be sort of a -- a shared  
16 unit of socioeconomic statuses; is that fair?

17 A. I think not as precise as that, other than  
18 that's kind of the level of geographic, I guess, sort  
19 of, specificity of the data that I used.

20 Q. So the data that you use at least treats that  
21 as one unit in terms of reporting information about  
22 socioeconomic statuses of the folks living there; is  
23 that fair?

24 A. That -- that would be -- yes, the data is  
25 delivered in -- in that level, agreed.

1 Q. Okay. And do you have any -- do you have any  
2 objection to that? Do you -- do you -- are you aware of  
3 any reason why that's kind of, like, the metric?

4 A. No. I think in this case I'm -- just to the  
5 fact that it's what's available to us at a sub-county  
6 region. The research that I did pointed to the fact  
7 that that's going to be available; it's used for these  
8 kinds of inter- -- or intracounty comparisons.

9 Q. Now, if you can look at Figure 5 in your  
10 report. Do you have your report there with you?

11 A. I do not. I can pull it up on the laptop next  
12 to us.

13 MS. OLALDE: Yeah. Mr. Gaber, I can pull  
14 it up, if you'd like.

15 MR. GABER: Okay. Yeah, if you could,  
16 that'd be great.

17 MS. OLALDE: And -- I'm sorry -- is it --  
18 this is his amended report, correct?

19 MR. GABER: Yeah, I guess. Just Figure 5  
20 of it; I don't -- it's -- I don't know exactly what page  
21 it is. I think it changes from --

22 MS. OLALDE: No problem. He's got it.

23 MR. GABER: Page 11, I think.

24 THE WITNESS: Great. Thank you.

25 BY MR. GABER:

1 Q. And so I -- I gather on the -- the Y axis --  
2 axis here, is that a range of 0 to 20 percent?

3 A. Yes. So this would, sort of -- if it could, it  
4 would go all the way up to 0 to 1, so 20 percent.

5 Q. And if it did, if it went up to 100 percent  
6 instead of stopping at 20 percent, the image would  
7 shrink; the differences would look a lot less different;  
8 is that fair?

9 A. That is fair. But one of the things we want to  
10 do is, I'm looking at this across 16 different measures  
11 of possible income, and so, I think, at that kind of  
12 characterization scheme, we should not believe that any  
13 one of these large sections of -- of Galveston County  
14 either has 100 percent of its population makes more than  
15 \$200,000.

16 So if we really -- yeah, I mean, dividing  
17 something by 16 gives you a good estimate of look at --  
18 you know, shouldn't be more than of a quarter of the  
19 population that's there. If it was exactly even, it'd  
20 be 1/16th. But you're correct; if I showed it to the 0  
21 to 1, I -- in particular, this visually would not be  
22 able to show any differences between their groups.

23 Q. How did you choose the dollar intervals in the  
24 16 different categories?

25 A. The American Community Survey offers those as

1 the 16 options to respondents.

2 Q. So the first -- I didn't count it up. But I'm  
3 just -- the first, like, two-thirds of them from low to  
4 high, up to, say, 59,900, those are all in -- well, some  
5 of them are in \$5,000 intervals. I see the 50 to 59,  
6 that's 10,000. It looks like -- and then there's a less  
7 than 10. So do you see that?

8 A. I do, yes. But in this case, each category is  
9 getting bigger and bigger when the assumption is a  
10 percent of the population is getting smaller to make  
11 that part of the -- I guess, their income, right. So  
12 economists understand that the jump of making  
13 something -- if you're making over a hundred thousand  
14 dollars, making a move up by \$5,000 is -- in this case,  
15 is proportionately not as -- as large, as you can see  
16 some of the differences between \$45,000, right, to  
17 creating over 50,000.

18 So this is just what they've used. And a  
19 lot of times we use this even in polling to determine  
20 the highest categories that we could do. If we need to  
21 lose information and categorize people into smaller  
22 subcategories, you can -- you know to use these  
23 definitions to capture something, like you just said, of  
24 less than 60,000. That could be accomplished as well.

25 Q. So the -- the main difference of the -- the

1 main gaps that the bar chart shows, would you agree  
2 those are on the right side of the -- of the -- of this  
3 bar chart, and that's where each individual category has  
4 a \$25,000 difference within it rather than a \$5,000  
5 difference?

6 A. Yeah, I -- I see that. I mean, the fact of  
7 Galveston CCD has sort of a -- in many ways, especially  
8 if we're looking here, Figure 5, Hispanic household  
9 income is essentially almost uniform in their  
10 probability to distributions until you got to 125,000;  
11 then it's slightly less. So that would be the -- the  
12 Black bar compared. The light-blue bar, which would be  
13 La Marque and Hitchcock, yeah, it gets its highest  
14 proportion at the 75,000 to \$100,000 category.

15 Q. And if we were going to break those larger  
16 sections -- so from 60 to 200,000, if we were going to  
17 break those all those down so that this was a consistent  
18 chart and showed \$5,000 increments, we'd have a lot more  
19 than 16 categories, but that would also reduce the  
20 number of people within each of those bars on the  
21 right-hand side; is that fair?

22 A. I think, hypothetically, if you did that, I  
23 think that would occur, but also, that's not reflective  
24 over the fact of, you know, what's the -- you know, the  
25 proportion of people that we have using this, we -- I

1 have no information to know where they fall within those  
2 categories. I think the U.S. Census doesn't collect any  
3 information that's that granular.

4 Q. So you see the largest one for La Marque and  
5 Hitchcock is the 75,000 to 199,900 category, and that  
6 that looks like it's about maybe 16 percent of the --

7 A. Yeah.

8 Q. -- population is in that category? Does that  
9 look right?

10 A. Yeah. It's higher than 15 and less than 20,  
11 agreed.

12 Q. So -- so if we were to break that down into 75  
13 to 80, 80 to 85, 85 to 90, 90 to 95, and then 95 to 99,  
14 it wouldn't be the 16 percent in each of those; it would  
15 be some fraction of that?

16 A. Yes. I don't know what fract- -- fraction that  
17 would be, but you would be, yeah, moving people into a  
18 new category.

19 Q. So visually, the -- the fact that there are  
20 \$25,000 increments on the right side of this graph and  
21 there's \$5,000 increments on the left side is causing a  
22 visible distortion that you wouldn't necessarily know  
23 until you drilled down to the fact that there are much  
24 larger increments on the right side of this graph; is  
25 that fair?

1           A. I understand what you're saying in particular,  
2 and that, yes, you can have a wider net to capture  
3 people. I also want to point out that that would be  
4 consistent -- this standard and categorization is  
5 applied consistently across the geographies at the  
6 County. So as much as that population is wide and could  
7 be catching a higher group, right, it could also be  
8 catching a higher group of Galveston CCD, which, in this  
9 case, it is, because there's more -- but even though  
10 there's another 25,000 group just behind it at the  
11 100,000 to 125,000, we continue -- we don't see the  
12 concern that you've mentioned, right? That population  
13 is continuing to go down.

14                 So where you might see that first jump, I  
15 think it's interesting, first, when we think about  
16 income distributions, right, the distortion that you  
17 just mentioned is not continuing when we look at the  
18 others, especially with the high cap of 200,000 or more  
19 for a household, and that's where the Galveston CCD is  
20 the lowest.

21           Q. Well, my question is -- is -- is that the  
22 visual presentation of this -- this chart would change  
23 quite a bit if you didn't use \$25,000 increments and  
24 stayed consistent with the \$5,000 increments?

25           A. And I agree with that point. I just have to

1 lobby the U.S. Census to change our survey.

2 Q. Did you look at the average household income  
3 for Hispanic households by CCD, or did you just look at  
4 the 16 different categories?

5 A. I looked at the 16 distributions, because one  
6 part is with -- that -- that tells us quite a bit of the  
7 distribution, right? We think about if there's  
8 disparate changes between those geographies, we want to  
9 see more than just a -- a median difference. So I  
10 think, for that, this provides us with more data points  
11 to consider when making that comparison.

12 Q. Do you know what the median household income is  
13 for each of the CCDs?

14 A. I can't recall that. I don't think I --

15 Q. Did you look it up?

16 A. No. And part of my report, I did not -- I did  
17 not include that and, in particular, right, I have not  
18 identified that. The -- the part here was to look both  
19 for Hispanic and African Americans, the voting age  
20 group -- or the -- the household income range.

21 Q. Which of the 16 categories do you think show --  
22 what's the right word -- amountable difference between  
23 the CCDs?

24 A. Okay. Collectively, I would say that I'm more  
25 interested in what the correlation is as far as the --

1 in this case, the density or the frequency that you see  
2 someone in that category across all of them. So we  
3 might see something here, is that are you seeing a  
4 positive relationship, which means this group is -- is  
5 far more wealthy, or it's a negative relationship and  
6 someone would be far more likely to have a lower income.

7 But if we want to go more in detail, I  
8 think you see a largest change of group at Galveston  
9 County, right, has a much more, in this case, almost  
10 twice as many residents who are making 50,000 to 59,000  
11 than the other two CCDs, and but -- at the same time,  
12 the 200,000 groups that parallels are almost equally as  
13 different in that Texas City and League City have that  
14 same difference for those who are making the 100,000 to  
15 125,000. Where La Marque and Hitchcock -- La Marque and  
16 Hitchcock are making -- essentially the same frequency  
17 of people are making that income range that are Hispanic  
18 in Galveston and in La Marque.

19 So I -- and every time I look at these  
20 three bars, I want to see: When are they similar and  
21 when are they different? And in most cases here, if  
22 they were similar, then we're seeing essentially more  
23 symmetry to say if there is a community of interest.  
24 When we see larger gaps with the groups, that continues  
25 to show that there are wide income differences

1 geographically within the Hispanic population.

2 Q. So what is the -- what is the -- the number --  
3 quantify for me what is similar and what is dissimilar.

4 A. Uh-huh.

5 Q. Is -- you would agree, I think, that in the  
6 15,000 to \$20,000 range, that's similar across all three  
7 CCDs?

8 A. Yes. Those --

9 Q. And -- and the 40 to \$45,000 range, do you  
10 agree that that's similar?

11 A. No. La Marque and Hitchcock is lower than  
12 Galveston and Texas City at the -- at the 45 to \$49,000  
13 range.

14 Q. No, I asked the 40 to 45,000.

15 A. Oh, okay. Thank you for correcting me.

16 So in this case, then, yes, they are --  
17 they are close, where La Marque and Hitchcock are,  
18 again, just slightly less, but the other two are -- are  
19 equal.

20 Q. Okay. So you just said that in the 45 to  
21 \$50,000 range you see a -- a dissimilarity there?

22 A. I do. It -- it's starting to emerge.

23 Q. And that was because --

24 (Simultaneous speaking.)

25 Q. Dr. Owens, the dissimilarity is because in

1 La Marque and Hitchcock, it looks like there is -- it's  
2 -- it's hard to put an exact number on this, but I'm  
3 going to guess the 2, 2 and a half percent are in that  
4 category, and in Texas City and League City, it's about  
5 4 percent? Would you agree with that?

6 A. Yes. In the -- in one part which we are  
7 continuing to see is that, even for La Marque and  
8 Hitchcock, right, its highest ranges continue to be  
9 above, you know, the 75,000.

10 Q. And -- and so a 1.5 percent difference in terms  
11 of how many people are a given CCD are in an income  
12 group is something that you count as a notable  
13 dissimilarity?

14 A. I don't specify that one. It's a place that  
15 you start to see it. So as I mentioned before, you  
16 start to see it emerge. But at the higher ranges of  
17 these incomes, the differences continue to grow, and  
18 that they are then almost 10 percent difference in the  
19 frequencies that you would see, right; 5 percent.

20 Q. Where do you see 5 percent?

21 A. I see it approaching 10 percent, if you look at  
22 125,000 to 150,000, so we can talk about the difference  
23 between Galveston and La Marque. Also, you see a  
24 difference of Galveston and La Marque at 200,000 or  
25 more.

1 Q. You said 125,000 to 150,000?

2 A. The difference of the black to the light blue,  
3 so light blue will go up to, what, difference of  
4 12 percent; whereas the other Galveston appreciates here  
5 at about 3 percent of its population, and the Hispanic  
6 population on Galveston Island is making that income  
7 range for their households.

8 Q. And when you give those percentages, I assume,  
9 like me, you're having to just sort of approximate  
10 because the chart doesn't actually give the -- the  
11 percentages. It just has 5 percent increments?

12 A. Agreed. All of their exact ability to -- and  
13 these are estimates, right, so we continue to think of  
14 these -- I don't -- but here, right, the -- that key,  
15 the Y axis is giving you everything from a 5 percent  
16 interval.

17 Q. So I take it, then, that you would agree that  
18 between \$10,000 of income and, say, 50 -- 50,000, you  
19 agree that the amount -- the people who are in that  
20 category across all three CCDs don't experience  
21 significant differences of the numbers who are in each  
22 category?

23 A. One of the important part -- I mean, I think  
24 you are getting to a part where all of those groups  
25 below 50,000 continued to show that that would be less

1 than 10 percent of their population of making those --  
2 each of -- in each one of the income brackets, except  
3 for Galveston County -- or Galveston County's -- sorry  
4 -- Census counting of a district. And, yeah,  
5 collectively, those differences are smaller than they  
6 are when they grow to be larger. And --

7 Q. So the -- I -- I gather, then, that your real  
8 point here then is that there are more people in the  
9 range of -- ranging from, say, 6 percent to 15,  
10 16 percent in the 75 to 100,000 versus, you know, up to  
11 200, there are more people in La Marque and Hitchcock  
12 who make those higher salaries than there are in  
13 Galveston or Texas City and League City. Is that -- is  
14 that your basic point?

15 A. Yeah, that point is making it -- so in this  
16 case, there is a Hispanic population which is in the  
17 northern part of Galveston County, and its income  
18 distribution is, in this case, substantially different  
19 from the income distribution of Hispanics that are on  
20 Galveston Island.

21 Q. How many people is that?

22 A. So we look in the Galveston County CCD, we'll  
23 end up with approximately somewhere of 700 -- or 70,000,  
24 you know, but La Marque and Texas City is going to have  
25 the higher numbers. It's going to be much more than

1 100,000.

2 Q. Let me clarify: How many Hispanic households  
3 are in La Marque and Hitchcock in the 75,000 to 100,000  
4 salary category?

5 A. I think that -- that case, that's not being  
6 reported in this -- in the figure when we're comparing  
7 this opportunity. So that would be a different question  
8 in the American Community Survey.

9 Q. Do you -- do you know how many His- -- do you  
10 know -- do you know what, like -- we have all these  
11 percentages here. Like, what's the -- what's the total  
12 number we're dealing with that we're -- so we can  
13 understand, like, how many actual households are  
14 affected by what you're saying here?

15 A. Yeah. I understand the comparison. I don't  
16 recall that number. The important part here is that,  
17 you know, I start with the assumption that, in this  
18 case, there might be -- we're looking at the  
19 distribution of Hispanic households; then we're  
20 capturing the variation they have of their income.

21 So determining, in this case -- I just mean  
22 in this case, the point of your question is, if there  
23 are fewer Hispanic households in the La Marque and  
24 Hitchcock community, then we're saying that Hispanic  
25 households did not reside within the central part of our

1 county.

2 So I think, in this case, we know where  
3 they are, and the CCDs give us sufficiently large  
4 portions, and I feel comfortable doing this, because we  
5 talk about there are Hispanic populations throughout  
6 Galveston County; they just happen to be in the separate  
7 cities across the County.

8 Q. So -- and just drilling down a little bit more  
9 on what your areas of -- of -- that you find notable, so  
10 I -- I gather it's the 75 to \$100,000 category, which we  
11 talked about that. That's one where you see a notable  
12 difference; is that right?

13 A. I do. And you have a moment when Galveston's  
14 Census county district continues to fall below the other  
15 two in each of the income distributions after 75,000.

16 Q. Well, not 100,00 to 125,000, right?

17 A. 100,000 to 125,000, it is equal, but it is  
18 still less than Texas City/League City. So it's not --  
19 it's not more than the other two in the higher  
20 categories --

21 Q. It's equal to Texas City and League City?

22 A. Yeah. No, agree. It's equal --

23 Q. Okay. And --

24 A. -- but it's -- sorry -- in the -- which one?

25 It is equal to -- we are talking about the 100,000 to

1 125,000?

2 Q. Right.

3 A. The Galveston CCD is equal to La Marque and  
4 Hitchcock.

5 Q. Oh, sorry. Yeah.

6 And the difference between the -- the two  
7 is between, say, 6 percent and 10 percent between  
8 Galveston and -- and La Marque and Hitchcock versus  
9 Texas City and League City?

10 A. Yes. The point, in this case, that would be  
11 the percentage of all Hispanic households in that Census  
12 district.

13 Q. But you don't know how many people that  
14 affects, how many people make up that delta in terms of  
15 His- -- Hispanic households?

16 A. Re- -- yeah, but it is still reflective of the  
17 division group here which we're having is: How many  
18 Hispanic households there are at all? And that is the  
19 consistent count, regardless of the CCD. The division  
20 is -- is exactly going to be the same.

21 Q. If we added up the -- the share of people  
22 within each three of the CCDs, would you agree with me  
23 that the -- the -- the bulk or vast majority of them  
24 within all three of them would be below the 75,000 to  
25 99,900 level; that is, most Hispanic households in

1 Galveston, most Hispanic households in Texas City and  
2 League City, and most Hispanic households in La Marque  
3 and Hitchcock are all below \$75,000 in income?

4 A. Oh, on the -- yes. I think if we were to  
5 average and add up, like -- and I appreciate what you  
6 did there -- just saying in each of the three groups, 11  
7 different categories, so 11 in the 16 categories  
8 together, we would get most.

9 Q. And that's not the -- that -- those 11  
10 categories, that's not where you're seeing the most sig-  
11 -- you know, notable differences, right? I think we  
12 discussed that.

13 A. Yeah. But this does not take away from the  
14 fact that those differences exist, and that's one of the  
15 ways that we continue to make sure that everybody in  
16 this -- especially in these communities are going to be  
17 treated equally when we come up with creating the -- the  
18 district boundaries.

19 So if there's differences in any capacity,  
20 I think one of our thoughts is making sure that all  
21 Hispanic households, you know, will be included in that  
22 part of the analysis and not separating out only 75,000  
23 and above as being less interesting.

24 Q. Let's scroll to Page 15 and look at Figure 8.

25 CONCIERGE TECH: (Complied.)

1 THE WITNESS: Okay. Yes, same kind of  
2 figure but for the -- the Black households, correct.

3 BY MR. GABER:

4 Q. Right.

5 A. Yeah.

6 Q. Where on -- where on this figure do you  
7 identify the most notable differences between the three  
8 CCDs?

9 A. Yeah. One -- and this one is typically, as I  
10 mentioned before, look at the -- the diagonals almost  
11 that you can start to see that in Galveston County -- or  
12 -- sorry -- Galveston County Census district --

13 Q. Galveston city?

14 A. Essentially, yeah. Galveston Ci- -- this --  
15 the island, the whole island, will be the CCD, and its  
16 highest proportion of residents are making less than  
17 10,000. That would be just over 15 percent. The next  
18 highest comes to the 10,000 to 15,000.

19 And one of the things this, of course, is  
20 correlated with the idea of how many people are  
21 working -- the percentage working full-time, which is  
22 one of the substantial differences that we're seeing  
23 between the groups.

24 But often there is -- again, as we  
25 identified here in -- below 50,000, in each one of those

1 categories, there continues to be some variation where  
2 some counties -- or these CCDs are a little different.  
3 I understand they're getting closer. And then the Texas  
4 City/League City Black household income makes up larger  
5 shares when you are north of \$60,000. Right?

6 I think the important part here when I'm  
7 looking at just comparing the blue bars to the other  
8 blue bars, there is not a, essentially, increasing line,  
9 if we were to fit a line here, that these remain  
10 consistent, but they are certainly higher when they are  
11 in those larger groups. That does not stand as the case  
12 when we look at Galveston's CCD.

13 Q. So the -- Texas City and League City looks to  
14 be the third-highest category, is also the highest for  
15 Galveston, which is less than 10,000?

16 A. Yes, you're right.

17 And another important part to take away  
18 from this figure is that Figure 8 also is somewhat  
19 different than -- not only is it different across these  
20 CCDs; it has a dist- -- a different distribution than  
21 Figure 5 did.

22 Q. Each of the three CCDs has the same pattern  
23 just with a -- just with a spin on it, a slight  
24 variation in how many people are in each 16 -- of the 16  
25 categories. But the -- but the line, if you draw a line

1 to hitting the top of each bar, it looks about the same,  
2 right?

3 A. And, again, as I start scrolling to get back to  
4 Figure 8, so the line is about the same on which CCD?

5 Q. If we were to draw a black line for Galveston,  
6 a darker blue line for Texas and League Cities, and we  
7 were to draw, whatever we call that, teal-ish line for  
8 La Marque and Hitchcock, the lines would all look the  
9 same, generally?

10 A. And -- and what are we drawing the line based  
11 off of?

12 Q. Where the -- where the tops of the bars are.

13 A. The tops of the bars. But the tops are moving  
14 on each income interval. I don't know why -- they would  
15 always be the same.

16 Q. No. No, no. So I -- what I'm trying to say  
17 is: The -- the pattern within each of the three CCDs  
18 for -- if we were to draw a line throughout this graph,  
19 like a squiggly line, you know, it would move -- all  
20 three of them would move in, generally, the same way  
21 that -- that -- we're seeing, though, there's some  
22 differences within each of the 16 categories; the, sort  
23 of, ratio within each of the three CCDs is generally the  
24 same across the whole graph.

25 A. Yes. I -- I see that. You're looking here at

1 a multi- -- multi-mode, kind of, distribution, but in  
2 each case, that squiggly line is going to show the -- so  
3 the blue line for Texas City and League City is going  
4 higher. But as far as the -- the change points, some of  
5 those are -- are close. And I think this is the biggest  
6 reason why I want to look at the distribution of those  
7 -- these incomes, but --

8 Q. As with the Hispanics --

9 A. -- that, you know --

10 (Simultaneously speaking.)

11 Q. As with the Hispanic households, the  
12 substantial majority across each of the three CCDs is,  
13 again, going to be below the \$75,000 household income  
14 level; is that right?

15 A. That's correct. When they have -- if you want  
16 to tally up all of those, but I think, typically -- and  
17 it could be interesting for research, but if you look at  
18 this, there's very few times in economics research where  
19 we pick 75,000 to be the cutoff point. I think only  
20 when we looked at, you know, who's going to get a -- the  
21 COVID relief checks, I know that was one of the ways  
22 here, but that would be singles making the 75,000.

23 So we often don't want to think of these as  
24 breakpoints as much as, right, you can compare one group  
25 to the other. So I want to just be careful on this --

1 you know, this map can, sort of, just be taken on its  
2 own as an aggregate look at their differences, but we  
3 can't read too much, of course, in any case to any one  
4 of the income categories.

5 Q. So the -- I guess the main point, then, from  
6 these two charts, Figures 5 and Figure 8, is that, for  
7 both Hispanic households and Black households, there's  
8 some number -- we don't know -- you don't know what the  
9 number is -- of wealthier households in -- basically in  
10 Texas City and League City than in mostly Galveston. Is  
11 that -- is that, kind of, the main point here?

12 A. Yeah. In this case, the -- the northern part  
13 of your Coun- -- the County has not only wealthier Black  
14 households, it has wealthier Hispanic households. And  
15 --

16 Q. But among -- among the Hispanic and Black  
17 households in the northern part of the County, those are  
18 the substantial minority of those households that are  
19 above that in that wealthier category?

20 A. I think we can say substantially less, because  
21 you're -- again, if you're going to count them up, we  
22 are getting into the fact here of, you know, that's  
23 going to be approaching close to 30 percent.

24 Q. Close to what percent?

25 A. Would it be 30? I mean, there's one that's

1 above 15 percent. You're still talking about tallying  
2 up five different categories within these groups of  
3 Texas City and League City. And so --

4 Q. And I count about 23 percent or 24 percent of  
5 Galveston's household -- Black households are in that  
6 same wealth category. Does that look right to you?

7 A. Yeah. I mean, the -- that's one of the reasons  
8 why I present the figure is to identify these  
9 comparisons that you'd like to see, but the --

10 Q. And then I think -- you said 30 percent of the  
11 Texas City and League City Black households, you  
12 thought, were in that wealthier category?

13 A. This part, it's the -- I -- right, I -- I have  
14 not calculated that to do this exercise. I think the  
15 important part here is, as you count those, as you might  
16 have counted 23 percent for Galveston CCD, my  
17 expectation here is that it's going to be higher, not  
18 only in La Marque, but it will be higher in Texas City  
19 and League City.

20 Q. And -- and -- and we can at least roughly  
21 estimate it, and -- and it looks like it's around 30 --  
22 30-something percent?

23 A. Yeah. I mean, I don't disagree with that.

24 Q. And the -- the difference there is 7 percent  
25 between -- or there's a 7 percentage point difference

1 between the Galveston, quote/unquote, wealthier Black  
2 households and the Texas City and League City Black  
3 households, right?

4 A. Yeah. But that would be set at the line that  
5 you just determined here for our -- our questions, and  
6 it still identifies a difference that we have of the  
7 income distributions of the north and south part of the  
8 County, and -- and why, in particular, it might not  
9 be -- right, and the Benchmark Plan joined them together  
10 based off of past data or expectations. And I think  
11 this -- this has changed when we apply the -- the new  
12 information here from 2016 to 2020.

13 THE COURT REPORTER: Mr. Gaber, just be  
14 careful; when you turn, I don't think -- he's not  
15 finishing some of his answers, and your beginning  
16 question is being cut off also.

17 MR. GABER: Okay. Thank you.

18 BY MR. GABER:

19 Q. Okay. Let's -- and just one clarifying point,  
20 then. So I -- I think I heard you say that -- that  
21 it's -- it's Galveston's CCD is what you believe to be  
22 the most different from the other two; is that fair?

23 A. Yes.

24 Q. You don't see a substantial difference between  
25 La Marque and Hitchcock versus Texas City and League

1 City?

2 A. Those differences exist, but they are not as  
3 stark as Galveston to Texas City and League City within  
4 the Black population.

5 Q. And when -- when you say -- and I'm sorry to  
6 the court reporter -- when you say "stark," again, we're  
7 talking about the -- the right end of this graph and  
8 some percentage delta between each of those lines?

9 A. Yes. No, just using that --

10 Q. Okay. Again, we don't know -- again, you don't  
11 know how many people that is?

12 A. It is exactly the -- the number of households  
13 that are placed in that -- that CCD.

14 Q. Okay. You can't tell me today what that number  
15 is?

16 A. No, I don't recall it.

17 MS. OLALDE: And, Mr. Gaber, if you could  
18 just wait until he's finished his answer before you  
19 begin speaking, I'd appreciate it.

20 MR. GABER: I will try.

21 BY MR. GABER:

22 Q. All right. Let's move on to compactness. So  
23 if you could turn to Page 16 of your amended report,  
24 please. Do you have that there?

25 A. I do. I'm looking at Page 16.

1 Q. Thanks.

2 Now, you talked a little bit about this  
3 with Ms. Klein, but I didn't fully understand it. So  
4 what is the measurement that the Reock score is  
5 calculating, precisely?

6 A. The Reock score is going to look at the shape  
7 of the district, considering its -- not only its  
8 perimeter, but also how close that is, right, like the  
9 symmetry of its geography. We want to see this score  
10 range from 0 to 1, so that in this case, it's -- 1 is  
11 closer to, in this case, compactness, what we would  
12 expect.

13 Now, because of our, you know,  
14 municipalities and -- and, also, water, that's almost  
15 never achieved to get a perfect 1, but you know, that --

16 Q. I'm sorry. How is it calculated?

17 THE WITNESS: We can go ahead. We were  
18 well times.

19 THE COURT REPORTER: I think your question  
20 broke out, Mr. Gaber. Did you say: How was it  
21 calculated?

22 MR. GABER: I did, yes.

23 BY MR. GABER:

24 Q. How is the Reock score calculated?

25 A. You calculate it, again, by using the

1 perimeters and defining it within its shape. The  
2 opportunity here for us, it's calculated by a -- the  
3 Maptitude software, which -- and you have this presented  
4 in those -- those reports by the experts.

5 Q. So your understanding, I think what I heard, is  
6 that the Reock score compares the perimeter to its  
7 shape. Is that -- is that your understanding of what a  
8 Reock score is?

9 A. That's going to be the intended -- what the  
10 percentages are -- are implying to you, yeah.

11 Q. The perimeter -- and -- and the perimeter is  
12 shaped what -- like, what -- what is the cal- -- what's  
13 the actual calculation that is -- what's the formula  
14 behind --

15 A. I don't recall the formula right now, no.

16 Q. But your understanding -- I'm sorry. We keep  
17 doing this. It's hard because we're not in the same  
18 room.

19 Your understanding is that whatever the  
20 formula is, the inputs are the perimeter and the shape  
21 of the district?

22 A. Yes.

23 Q. And that's what is used to determine what the  
24 Reock score is?

25 A. And that's exactly what it's intended to

1 reflect, yes. But it's more than just -- in this case,  
2 you don't want to just pick the square miles of a  
3 perimeter, like a shoreline.

4 Q. What -- what -- what measure of the perimeter  
5 goes into calculating the Reock score?

6 A. Uh-huh. It could be taken by miles.

7 Q. So it's measuring the perimeter; is that your  
8 understanding?

9 A. And, right, its distance from, in this case,  
10 like the center points. How close are they? So that's  
11 going to give you the symmetry of that shape.

12 Q. So you understand the Reock score to measure  
13 the center point of the district to what?

14 A. The difference of their perimeters.

15 Q. The difference -- I'm sorry. You have me  
16 totally lost.

17 So the difference of the perimeter -- what  
18 do you mean the difference; the difference from what?

19 A. Boundary lines of the district. So every --  
20 every district has a boundary line. So when we provide  
21 this, it could be a square, right? How close are those  
22 edges to each other, right? And this is the important  
23 way of thinking about it: It could be a rectangle. It  
24 may be -- so now you've got a northern border; you have  
25 a southern border; you have the eastern border; and you

1 have the western border.

2 Q. And then you compare that to the distance to  
3 the center point?

4 A. It's going to let you know whether they're  
5 round and compact, as opposed to just where the shape's  
6 building out.

7 Q. Okay. So the inputs are the center point to  
8 the boundary, the length of the perimeter. Is that it?

9 A. At this point what I'm trying do is help you  
10 describe what these measures mean to us. I think I  
11 earlier described that I don't recall what the formula  
12 is right now.

13 Q. Okay. At any point have you known what the  
14 formula is for the Reock score?

15 A. Yes, you can reference it on paper. It's one  
16 of those.

17 Q. When did you last reference it on paper?

18 A. Not recently. Didn't do that in preparation  
19 for this deposition.

20 Q. Did you do it when you were conducting your  
21 analysis for your report?

22 A. Yes. The fact is we have reference sheets when  
23 you're talking about calling in the reports, and  
24 understand what are they doing, so we remem- -- continue  
25 to remember that this varies between 0 and 1 for a

1 reason. It's the same way that the Convex-Hull is  
2 looking at, you know, where is that shape going in  
3 addition to its perimeter.

4           So they -- they all capture a different set  
5 of the same idea, the symmetry of a ge- -- geometric  
6 shape. They do so with different levels of, right,  
7 trying to discriminate what is symmetrical and what is  
8 not, and the idea is that, as you present three of these  
9 scores together, you're going to get -- see the trends  
10 that exist to know that one score is not being -- going  
11 easier on identifying the compactness of a district than  
12 any other score.

13           Q. So am I understanding that -- so my question  
14 was -- was, actually, just: When did you last know the  
15 formula for the Reock score? And is -- did you say that  
16 the answer was when you worked on your report?

17           A. Yes. So it would be potentially a day in  
18 March.

19           Q. Okay. So in March -- like, March 31st is that  
20 the date of the amended report? I -- I don't have the  
21 date in front of me. Is that the date of the amended  
22 report?

23           A. Yeah, the date of the 31st is the date of the  
24 amended report.

25           Q. Okay. So you're saying on March 31st, you knew

1 what the formula for the Reock score was, but 13 days  
2 later you don't; is that correct?

3 MS. OLALDE: Objection, asked and answered,  
4 and also argumentive.

5 BY MR. GABER:

6 Q. I'm -- I'm -- I'm sorry if I -- I'm not trying  
7 to be argumentive, Dr. Owens; I'm just trying to  
8 understand.

9 A. I appreciate it. I -- but I'm describing in  
10 this case that, you know, when presented with a set of  
11 notes in front of me, I can reference it. On the  
12 ability to recall a formula, I think, on this case in a  
13 Zoom call, just -- just not with me in my memory right  
14 now.

15 Q. What about the Polsby-Popper score? Do you  
16 know what the inputs or formula is for the Polsby-Popper  
17 score?

18 A. I'm going to give you the same -- same  
19 description. The importance here is our -- our ability  
20 to make the comparisons about the -- the symmetry and  
21 shape of those districts. They represent quite a bit,  
22 and they are used by the Court to determine the  
23 compactness.

24 Q. Do you know what -- which of the Reock or  
25 Polsby-Popper scores are most affected by water borders?

1           A. It's not of interest in my analysis, because  
2 the water areas of Galveston County, right, apply any  
3 way that you have to create this district.

4           Q. Do you understand there to be differences in  
5 how a water border affects the various compactness  
6 measures?

7           A. No, I don't. That has to be conditional on  
8 what's the shape of the water and how much water is in  
9 the County.

10          Q. I'm talking about the endemic to each measure.  
11 Do you understand that -- that the different measures  
12 are affected by varying degrees by their presence of a  
13 water boundary? If -- if that's a thing, you don't know  
14 it; is that fair?

15          A. Yeah. I would say I don't know, because at one  
16 point, some of these voting tabulation districts include  
17 areas of water, right? So when we're looking, in this  
18 case, Pelican Island is part of this, but it's going to  
19 have its voting tabulation district in Maptitude  
20 actually goes to the shore of the mainland.

21          Q. What is the magnitude of a difference that --  
22 in, say, the Reock score, that is notable or makes a  
23 district compact versus not compact, in your view?

24          A. In my view, is the -- you do this, in  
25 particular, if making comparison of one district score

1 to the other district, or in this case other district  
2 maps, that are presented.

3 Q. But I'm -- but, numerically, is point -- .05,  
4 .01, .03? What -- at what point do you say: That's a  
5 -- that's a difference?

6 A. No. I -- in my aspect when I'm looking at this  
7 is the important part of determining compactness is,  
8 number one: What is that district compared to the  
9 others? Also: How does a district's change influence  
10 the compactness of its neighboring district?

11 But as far as, no, a .05 difference, I  
12 think I have indicated, is not something that will be as  
13 important. I've described here on the fact of, you  
14 know, all of these measures are going to show something  
15 different at the hundredths place. That would be  
16 10 percent, or less than 10 percent, of the range that  
17 this decimal could even take between 0 and 1.

18 The important part here, what I'm trying to  
19 say, is that we evaluate this as the course of the whole  
20 map. So all the shapes that are existing in a map, are  
21 they consistent, right? Is there -- if one deviates, is  
22 there a reason for that? And, right, then you take  
23 those reasons into account.

24 Q. So -- excuse me -- .05, not -- not an important  
25 difference? That's the -- am I correct in that's what

1 your testimony was?

2 A. No. My testimony in this case is saying that  
3 you would look into other factors, but at .05, that is  
4 -- yeah, I'm looking at things, as I report in my table,  
5 on at the hundredths place. So you're seeing these  
6 small variations, but each score gives you a score of  
7 something being more compact or less. And oftentimes,  
8 it's taken as, yeah, which score is performing better,  
9 but the importance that we have is about the political  
10 geography that's within those.

11 Q. What does that mean?

12 A. It's the -- the district characteristics. How  
13 many things the residents of this district have in  
14 common, right? In this case, I'm saying if you have a  
15 lower score, be that Polsby-Popper or Reock or  
16 Convex-Hull, you know, we understand in this case that  
17 that -- because the municipal boundaries are just  
18 different. They're not squares; they're circles. Or is  
19 it because, right, the major road, as well, is  
20 different?

21 These boundaries are used when you're  
22 creating those. I think in this case, as we are looking  
23 at the maps, I'm just clarifying the fact that  
24 identifying a .05 difference is -- is not a rule that's  
25 used for compactness comparisons. It's going to be --

1 it is objective measures that we're identifying what  
2 they mean, as one being better than the other.

3 Q. Okay. So the political geography point you  
4 just made, that's not factored into the mathematical  
5 compactness scores; that's some interpretation that  
6 happens outside those scores, right?

7 A. That's right. So there's nothing about the  
8 population within a district; it's just the district  
9 boundaries are in this score.

10 Q. So if we're looking at just the mathematical  
11 compactness scores across all three of the measures that  
12 you reported in your report, it's not your testimony  
13 that on those mathematical scores there's much, if at  
14 all, difference between many of the plaintiffs' plans  
15 and the Enacted Plan, right?

16 A. Oh, as far as the Enacted Plan, well, they've  
17 not necessarily been comparable, but you do see in this  
18 case that the illustrative maps frequently have a low  
19 mathematical score when they're focussed on Precinct 3.  
20 Those scores are also much lower than when you look at  
21 any one of the precincts provided in the Enacted Plan.

22 Q. So if we look at -- let's just take an  
23 example in the Reock chart. Precinct 3 in the Enacted  
24 Plan is .23 Reock score. Do you see that?

25 A. Yes.

1 Q. And the Rush Map 1 is .21. Do you see that?

2 A. I do.

3 Q. Those are similar, right?

4 A. Yes. In the -- what I'll also point to is,  
5 reading left to right on these groups, the Rush map,  
6 also in this case, represents a Precinct 4, right, which  
7 is less. So its deviation in some cases is -- and  
8 it's -- deviation is almost the same as the enacted map.

9 But what is involved in -- the next step is  
10 to look at what's involved in the selection of those  
11 precincts.

12 Q. Okay. But right now we're just talking about  
13 the actual mathematical Reock score, right?

14 A. Correct.

15 Q. So the mathematical Reock score for Rush Map 1  
16 is -- Precinct 3 is similar to the score for the Enacted  
17 Plan?

18 A. .21 is similar to .23.

19 Q. Uh-huh.

20 A. A little -- and I think one point that I wanted  
21 to make in this amended report is -- and they are shaped  
22 as two very different districts.

23 Q. And the Reock score is a way to standardize and  
24 account for differing shapes by -- and that's the whole  
25 purpose of it, right, is to give you a mathematical

1 score that will compare different shapes to determine,  
2 on an equal footing, whether they are compact or not; is  
3 that right?

4 A. Yes.

5 Q. On the -- if you turn to the Polsby-Popper  
6 scores, the next table, all three of the Rush maps have  
7 the exact same Polsby-Popper score as Enacted Precinct  
8 3; is that right?

9 A. This would've all at .12.

10 Q. And so they're the -- they have the -- they're  
11 not just similar; they're -- they're exactly the same in  
12 terms of their mathematical compactness as compared to  
13 the Enacted Plan, right?

14 A. Yes, you're right. And my concern with those  
15 maps was also, then, that on the Precinct 4, they  
16 continued to be much less. And I know that's because  
17 it's bounded on the difference that on point -- Precinct  
18 3, they're also greater.

19 Q. And Precinct 2 is greater than -- in the Rush  
20 plan than it is in the Enacted Plan, right?

21 A. Yes. So I -- we're recognizing now we've got  
22 two -- two are different, right, in each case.

23 Q. And -- and that's why it adds out to be about  
24 the same map-wide, right?

25 A. Map-wide, right, but then their -- their

1 averages come to something; then it's -- yeah, about the  
2 same within the hundredths place, Maps 2 and 3 of the  
3 Rush map appears similar to the enacted map. Although,  
4 they -- only Rush Map 2 has about the same deviation --

5 Q. Can you have --

6 A. -- that's the difference with the map. So are  
7 they comparable across their groups? And that's why.  
8 So this would be, of that score, it's providing a --  
9 yeah.

10 Q. So --

11 A. Those numbers in one or -- two -- two of these  
12 measures are showing deviations or, in this case, some  
13 important information, right, 1, 2.

14 Q. And the bottom line of that is that the Rush  
15 maps have the exact same mathematical Polsby-Popper  
16 compactness score for Precinct 3 as does the Enacted  
17 Plan, and the average plan-wide Polsby-Popper scores for  
18 the Rush maps is exceedingly close to the Enacted Plan;  
19 you agree with that?

20 A. I do. And -- and those are the scores that  
21 don't take into account, yeah, political geography or  
22 the population deviation.

23 Q. Right. We're just talking about the  
24 standardizing mathematical compactness score, right?

25 A. Agreed.

1 Q. If we look at the Convex-Hull scores, the Rush  
2 maps are actually about .1 -- 1/10th of whatever we're  
3 talking about here -- I don't think it's percent;  
4 maybe -- .1 higher than Precinct 3 in the Enacted Plan,  
5 right?

6 A. In Precinct 3 we're continuing to have this --  
7 we don't need to make the comparisons, I think, because  
8 the -- we've shown the differences of the community of  
9 interest --

10 Q. What do you mean we don't need --

11 (Simultaneously speaking.)

12 A. One of the things of interest is to the -- to  
13 the Enacted Plan, so, yeah, that would be --

14 THE COURT REPORTER: Hold on. Hold on.  
15 Hold on. I like missed a whole question and answer.

16 MR. GABER: So -- and my apologies for  
17 that.

18 BY MR. GABER:

19 Q. You just said: We don't need to make a  
20 comparison between the mathematical compactness scores.

21 Is that because you have your opinions  
22 about the communities-of-interest issues; is that what  
23 you're saying?

24 A. Yes, sir.

25 Q. Okay. So the fact that the plaintiffs' maps

1 are nearly across the board of similar, the same, or, in  
2 some instances, larger compactness scores than the  
3 Enacted Plan, you're saying that's not terribly  
4 important to your opinion?

5 A. No, not to my opinion, because, again, the  
6 scores provide us one piece of information, and in this  
7 case, right, the -- the Enacted Plan and the Benchmark  
8 Plan, which a lot of these illustrative groups build on,  
9 yeah, are -- are categorically different. And so, I  
10 mean, I think, yeah, an agreement with -- with some  
11 numbers, but we want to remember each time why we're  
12 making the -- the comparisons here.

13 Q. And you say -- and you acknowledge in your  
14 report that the -- the actual average compactness scores  
15 are consistent across the plaintiffs versus the -- the  
16 Enacted Plan, but you make the point that the standard  
17 deviation of -- of the scores across the Enacted Plan is  
18 -- is lowest, you say. Is that fair?

19 A. Hmm, yes, I would say that.

20 Q. What is the significance of the standard  
21 deviation to whether a district sitting by itself is  
22 compact or whether a map sitting by itself is compact?

23 A. Yeah. My interest here with the standard  
24 deviation was to give a -- sort of a decimal point on  
25 the fact of our ability to compare how similar districts

1 are across their -- across the entire county. And so,  
2 obviously, as one district becomes less compact, it  
3 comes with the threat of making its neighboring or  
4 adjacent district less compact as well.

5 Sometimes, as it's seen, if you have hook  
6 or if you have a claw in one area, that's going -- you  
7 know, one aspect of a district starts to protrude into  
8 another district, that's going to make it appear more  
9 like a C instead of a square. And to our knowledge,  
10 that's one of the things that we continue to talk about  
11 with other ideas of compactness, because those can occur  
12 in short instances, but their effects have influences on  
13 the compactness of neighboring districts.

14 And, again, we're talking here of two and  
15 two being the differences. You know, the other two  
16 districts could stand away as being more compact and  
17 give someone an ability to increase their average is  
18 what I'm trying to point to as well. But this is -- you  
19 know, these standards and reading these decimals is a  
20 bit complex, because we are seeing how the changes in  
21 one district are affecting the compactness of its  
22 adjacent neighbor.

23 Q. So my understanding of the standard deviation  
24 here is that it would report the -- it's sort of a stand  
25 in for the range of lowest to highest?

1 A. Yes. And how the --

2 Q. And it's taking the -- sorry. Finish your  
3 answer.

4 A. And -- you're right -- the range and how that  
5 would be different from the average plans of all four.

6 Q. That doesn't say anything about whether a  
7 particular precinct within the plan is compact, right?

8 A. No. It helps us understand and interpret the  
9 effect of all four commissioner precincts together. So  
10 we want a compact map. And so sometimes you can have a  
11 compact district, but in this case, the other three  
12 districts would be not compact. That we would want to  
13 avoid.

14 I think, yes, you want to read these in two  
15 ways: What is the precinct? But also: What is the  
16 whole plan?

17 Q. What is the numerical threshold that you apply  
18 to determine when a standard deviation signifies a  
19 compact map and when it signifies a non-compact map?

20 A. I don't provide one; I just provide the data,  
21 as you would calculate it. And in particular here is  
22 the option of you're able to see those from minimum to  
23 maximum across all those plans.

24 Q. Is a .01 percent difference meaningful?

25 A. That's not for me to give an opinion on. I

1 think collectively it's small, but it is -- it is less.

2 One of them will be less.

3 Q. Well, one of them will have a .01 percent  
4 standard de- -- or .01 standard deviation difference in  
5 the range of districts within its plan; is that fair?

6 A. Yes. And, of course, that standard deviation  
7 is conditional on what the average is, and, also, it's  
8 conditional on what those precinct measures are.

9 Q. So you don't have an opinion as to the -- the  
10 numerical threshold for a standard deviation for a map  
11 that marks a compact versus non-compact map?

12 A. Agreed; I do not.

13 Q. But you came to the conclusion, nevertheless,  
14 that all the plaintiffs' plans were non-compact, and the  
15 Enacted Plan was compact because the standard deviation  
16 was, in some instances, .01 lower in the Enacted Plan  
17 than in some of the plaintiffs' plans. Do I have that  
18 right?

19 A. That's one of the characteristics that I cite,  
20 and the fact is, is that that map shows the Enacted Plan  
21 was the lowest. So the Enacted Plan has the least  
22 amount of difference across the compactness of all of  
23 its precinct boundaries.

24 Q. Uh-huh.

25 A. I mean, not achieved when we look here at the

1 variation from the illustrative maps.

2 Now, you think -- use this as multiple  
3 factor, please, in the way that we see some as being,  
4 you know, high, low. What's an average? And the  
5 standard deviation helps us understand how much those  
6 matter.

7 Q. Where have you ever seen the standard deviation  
8 reported before an analysis of compactness of a map?

9 A. That I have not seen included. I think the  
10 important part here is, it allows me to communicate the  
11 point about the variation that exists here. Because we  
12 -- central to the problem is the Enacted Plan -- or not  
13 the Enacted Plan -- pardon me -- the Benchmark Plan  
14 starts with one commissioners precinct that is less  
15 compact, substantially less compact than all of its  
16 adjacent neighbors.

17 Q. Which map were you just talking about?

18 A. The benchmark map.

19 Q. The standard deviation wasn't reported in  
20 Maptitude, right?

21 A. No. I report that by looking at the scores  
22 that are reported in Maptitude and calculating them just  
23 as you would calculate that average.

24 Q. The travel contiguity report that you ran, tell  
25 me about that. What is that measuring?

1           A. Measures the particular distances here of what  
2 percentage of your population is going to -- we draft  
3 questions that are from the American Community Survey  
4 that are going to identify how people answer to live in  
5 this community that impact their driving distance, also,  
6 right, how far they have -- and then I included  
7 information here of what's the distance from north to  
8 south, right, of each of these communities.

9                       So this can vary when we identify here --  
10 you know, and this is really in response to analysis  
11 that was provided by Mr. William Cooper. And so in  
12 doing so, for completeness, I provided it for all of the  
13 illustrative maps.

14           Q. Have you run this type of report before?

15           A. No. This would be the first time that I run  
16 this report.

17           Q. And so just -- you've only done it on these --  
18 these maps that are listed here in Table 13?

19           A. Uh-huh, and within Galveston County, correct.

20           Q. Okay. And the -- the -- I don't know if this  
21 is still Page 17 in your amended report. I'm sorry.  
22 I'm looking -- I had printed out your older report,  
23 which is why --

24           A. Of course. It's Page 17.

25           Q. Yeah.

1                   So then you have -- right. So at the  
2 bottom of Page 17, you say: As shown in Table 13, the  
3 illustrative maps for Precinct 3 are not compact.

4                   Tell me what about Table 13 tells us that  
5 those maps are not compact.

6                   A. We've seen in this case just identifications  
7 about the miles from north to south that the Precinct 3  
8 directs, as well as the time -- right, the maximum drive  
9 time that people have had and the maximum drive  
10 distance.

11                  Q. Okay. So 22 -- 14 to 22 miles, you're saying,  
12 that means not compact, the distance from north to  
13 south?

14                  A. Yeah. It's something in this case that -- that  
15 the 22 miles and 21 miles, right, stand out in this  
16 case.

17                  Q. From what?

18                  A. As being, right, an -- showing the distance  
19 that was used to capture, right, the communities of  
20 interest -- interest.

21                  Q. So, like, stand out compared to what?

22                  A. I would say to the length of Galveston County  
23 north to south. So you -- like, in particular, right,  
24 that would be the maximum range that a district -- or a  
25 precinct can have as its distance.

1 Q. How many times have you been to Galveston  
2 County?

3 A. One time.

4 Q. Is that today for this deposition?

5 A. Or that's the reason for the trip yesterday.

6 Q. Okay. So -- so yesterday and today is the  
7 first time you've ever been to Galveston County?

8 A. Correct.

9 Q. It's the first time you've met or spoken to  
10 someone in Galveston County?

11 A. That I can -- that I can recall. I think  
12 through the case, yeah, I mean, this would be the  
13 reason. You talk to people, right, who are here, and  
14 there would be individuals of the legal team. I spoke  
15 with a couple weeks ago with someone in Galveston  
16 County.

17 Q. Okay. Have you spoken to any of the Hispanic  
18 households/residents that you report about in your  
19 report in Galveston County before?

20 A. No. I -- I did not conduct any interviews of  
21 residents in Galveston County related to this case or  
22 discussed it with them.

23 Q. Can you think of a single Hispanic resident of  
24 Galveston County that you now would have spoken to?

25 MS. OLALDE: Objection, asked and answered.

1 THE WITNESS: In general, not that I can  
2 recall.

3 BY MR. GABER:

4 Q. What about the Black president of Galveston  
5 County?

6 A. I think -- not in relation to this case.

7 Q. In relation to anything?

8 A. As far as talking to them --

9 Q. Right.

10 A. -- I want to know what you're asking.

11 Sorry. Then I guess that would have been  
12 my last answer. I -- I've had conversations throughout  
13 the last two days with people in particular, right, at  
14 stores and -- but not in this case related to the scope  
15 of this work.

16 Q. Okay. Maximum drive distance of 18 miles in  
17 Cooper Plan 3 to 31.82 miles in the Fairfax and Cooper  
18 Plan 1, are -- is it your testimony that that -- those  
19 driving maximum distances signifies a non-compact  
20 district?

21 A. Yeah. As -- as surveyed by the groups, it  
22 shows there's quite a bit of variation, you know, and  
23 that this is an extended period of time. This is --  
24 because also in William Cooper's report, he identifies  
25 how long it would take to get from the Bolivar Peninsula

1 to Galveston County and what people's typical drive time  
2 is. So this is one of the factors that I consider in my  
3 determination about compactness, but, again, it's not  
4 the primary reason.

5 Q. What are we comparing it against? So what  
6 amounts or what distance is compact?

7 A. I provided the data. I don't make an opinion  
8 about what is the relevant part, other than that, I  
9 mean, 22 miles is a -- is a long way.

10 Q. So you do actually state an opinion, so I'm  
11 trying to understand what it is.

12 You say: As shown above in Table 13, the  
13 illustrative maps for Precinct 3 are not compact.

14 A. Yeah.

15 Q. And I -- and I'm trying to understand: What  
16 would be compact? What -- what -- what is the metric --  
17 what is the point on any of these metrics that is  
18 telling you -- flagging for you that this is not  
19 compact?

20 A. In one in particular, as I'll describe later in  
21 the report, I have one part where I talk about the  
22 district can even be as -- in some cases, as narrow as  
23 .05 miles. .05 miles is then very different than  
24 22 miles.

25 So by using some of these objective

1 | differences of what is width to length, that's telling  
2 | us a little bit about not only our shapes, but how much  
3 | that is comparing and how many people are being excluded  
4 | from that district precinct.

5 | Q. Would you agree with me that the -- that the  
6 | mathematical compactness scores that we had looked at  
7 | earlier -- the Reock, Polsby-Popper, the Convex-Hull --  
8 | that those are all actually designed to measure  
9 | compactness, and travel contiguity is not?

10 | A. I think that they're both sort of designed to  
11 | provide that information. They both would come under a  
12 | compactness-type analysis. But you would most often see  
13 | Reock and Polsby-Popper and Convex-Hull used in that  
14 | part of an analysis, as then you'd jump into the next  
15 | part of, you know, what's the -- the community that's  
16 | living within those boundaries.

17 | Q. So just to sum this up, you -- before these  
18 | seven maps, you've never run the travel contiguity  
19 | report in Maptitude before; is that right?

20 | A. That's right.

21 | Q. You don't know what you're comparing it against  
22 | in order to make the conclusion that this data tells you  
23 | it's not compact; is that right?

24 | A. I think the table is actually shown to compare  
25 | each of the plans to each other. That's the intent of

1 | the table. So as far as comparing it to something  
2 | that's outside of Galveston County or a -- other  
3 | standards, there aren't ones that are set for Galveston  
4 | County in that case.

5 | Q. You don't compare it, for example, to something  
6 | that you think is compact?

7 | A. Yeah. I don't -- I don't inject that part,  
8 | other than just saying: These are long distances and  
9 | long times.

10 | Q. Okay.

11 | MR. GABER: Can we pull up the enacted map  
12 | exhibit, please.

13 | MS. OLALDE: And which exhibit number is  
14 | that?

15 | CONCIERGE TECH: I'll tell you in one  
16 | second. It's the -- you're saying the enacted map?

17 | MR. GABER: Yes, please.

18 | CONCIERGE TECH: Shall that be marked next  
19 | in order?

20 | MR. GABER: Yes.

21 | THE WITNESS: While we bring that up, can  
22 | we do a pause for the restroom?

23 | MR. GABER: Yes. Let's take a break. Does  
24 | -- five, ten minutes? What do you want?

25 | MS. OLALDE: Five minutes is fine. Thank

1 you.

2 THE WITNESS: Perfect by me.

3 MR. GABER: Okay.

4 THE VIDEOGRAPHER: We are off the record at  
5 4:00 p.m.

6 (Exhibit 13 was marked for identification.)

7 THE VIDEOGRAPHER: We are back on the  
8 record at 4:10 p.m.

9 BY MR. GABER:

10 Q. Okay. Dr. Owens, I'm going to show you what's  
11 been marked as Exhibit 13, which is the Galveston County  
12 Commissioner Enacted Precinct Map, and I'm not sure if  
13 it comes up on the screen magically or how this works.

14 CONCIERGE TECH: Do you want me to do it,  
15 or you're going to do it, sir?

16 MR. GABER: If you can, that would be  
17 great.

18 MS. OLALDE: And, Mr. Gaber, he also has it  
19 pulled up on, yeah, the other laptop.

20 MR. GABER: Oh, great.

21 BY MR. GABER:

22 Q. Dr. Owens, do you recognize this as the Enacted  
23 Plan for the Galveston County Commissioner Precincts?

24 A. Yes, I do.

25 Q. Now, I think I heard you testify to Ms. Klein

1 that you thought that the map is reasonably compact; is  
2 that correct?

3 A. Yes, I think generally, but my -- part of my  
4 analysis, right, isn't to analyze the enacted map. I  
5 just present it with information on the compactness  
6 side.

7 Q. Okay. Is there anything about the enacted map  
8 that you find to be non-compact?

9 A. I think we -- where I see this, the important  
10 part is, you know, following the voting districts and  
11 seeing that it encompasses, right, some of -- yeah, the  
12 cities. The -- in particular areas, you have the coast  
13 together; that -- that would be compact.

14 And you've asked about non-compact. So,  
15 collectively, I would say without these additional  
16 analysis or points of question, I don't immediately see  
17 the parts that would be not compact, given the political  
18 geography and where people live.

19 Q. What are the -- tell me: What are the features  
20 that you find notable to make you think it is compact?  
21 You just mentioned one, the coastline. Are there  
22 others?

23 A. I do. I see that in Precinct 1, right, that  
24 this is identifying an area that maintains that northern  
25 coast or the area around the Bay. And the other part is

1 the area centered here with League City, pointing in  
2 with Dickinson, and I know it identifies here with the  
3 parts of Friendswood, but I think we're increasingly  
4 seeing something needs to follow the northern border of  
5 the County.

6 And so if I were to do this analysis more  
7 directly, I'd be looking at: Well, where are these  
8 voting district boundaries? How are they connected?  
9 But, yeah, I think, collectively, you see an east-west  
10 attention here, red on a major roadway, and something  
11 that, at the northern part, this is going to be  
12 reflective over where that population growth was in --  
13 across the last decade by its municipality that we have  
14 seen.

15 Q. And you -- you see how Precinct 3 has a claw  
16 that goes up to Friendswood?

17 A. Uh-huh.

18 Q. Do -- is that a fair characterization?

19 A. I think it's a -- I see where it has a  
20 connection with Friendswood and directly, yes, moves to  
21 connect it with League City.

22 Q. And -- and that would -- a "claw" is a fair  
23 word to use for that, right?

24 A. It would -- I think -- I mean, you can use --  
25 describe it, in particular, as you wish, but the thought

1 here is: What's the population, right, being used to  
2 make that connection? Is this a populated area of  
3 Friendswood with its growth? I think yes. And -- and  
4 that, collectively, the shape at which you're  
5 describing, I think, it could be reflective of a  
6 political boundary.

7 Q. And Precinct 4 has sort of a hook or a claw  
8 that goes down to the south, right?

9 A. Yeah, that's right, with -- directly serving  
10 the idea of a -- as the voting district in Hitchcock.

11 Q. And Precinct 1 combines Texas City, parts of  
12 Dickinson, and parts of League City and some others; is  
13 that right?

14 A. Yeah. So the municipal boundaries on this map  
15 are not presented.

16 Q. But to your understanding, is that correct?

17 A. Yes.

18 Q. And is that -- is the connection between Texas  
19 City, League City, and Dickinson, or at least parts  
20 thereof, something that you think to be sensible?

21 A. I think as -- perhaps then, yeah, adjacent  
22 communities, but also ones with some population  
23 difference we're looking here now of -- I think the one  
24 part you have to grapple with as a mapmaker is the fact  
25 that League City has a larger population than the ideal

1 district. So I do expect there to be the change, and,  
2 in particular here, areas with the -- you know, and  
3 directly the idea is: The central part of Precinct 3  
4 would appear, like, visually compact, and, I think in  
5 this case, combine much of -- of the League City area.

6 Q. Are there precincts on this map that you think  
7 combine communities that have dissimilar socioeconomic  
8 statuses?

9 A. This gets -- the level of detail provided, I  
10 can't answer that, other than that the Galveston Island,  
11 which was shown to have had different socioeconomic  
12 comparisons is now part of one district. And so that  
13 would be an improvement.

14 Q. And Galveston Island is -- is not large enough  
15 to be its own -- in terms of population, to be its own  
16 precinct, right?

17 A. You're correct.

18 Q. So it has to be connected with some other group  
19 of people on the mainland, right?

20 A. Yes. And -- and that would be -- even when --  
21 as you show here, right, the fact it has Bolivar  
22 Peninsula and parts of the mainland.

23 Q. What is the -- what is Bolivar Peninsula's  
24 socioeconomic status compared to Galveston Island's?

25 A. Yeah. I don't include that in the analysis

1 primarily because that population, in each of its  
2 estimates, were substantially small. They were smaller  
3 than the other CCDs. Also, I think, if I recall, all of  
4 the illustrative maps appear to, or tend to, keep  
5 Bolivar Peninsula always in the same district. They  
6 don't -- no plan splits Bolivar Peninsula away. So at  
7 that point, it's unnecessary to include in the analysis.

8 Q. So -- but you don't have any issue with the  
9 fact that in Precinct 2 in the Enacted Plan Galveston  
10 Island is connected with Santa Fe in terms of  
11 socioeconomic statuses of the residents there?

12 A. No. I think that identifies here that it has  
13 to include, right, an area, and, in particular, it's not  
14 going to the points of connecting someone with -- the  
15 parts of League City or -- or Dickinson further north.  
16 This is -- appears to be for Precinct 2, right, a much  
17 more compact option.

18 MR. GABER: Okay. Let's pull up, if we  
19 could, the -- the document -- Enacted Plan -- let me  
20 just see what it's called -- Enacted and Map 4, and  
21 we'll mark this as Exhibit 14.

22 (Exhibit 14 was marked for identification.)

23 CONCIERGE TECH: May I have the -- the name  
24 of the document one more time? I'm sorry about that.

25 MR. GABER: Sure. It's Enacted and Map 4.

1 BY MR. GABER:

2 Q. Dr. Owens, do you see on the left side of this  
3 document there's a picture of the enacted map?

4 A. Yes.

5 Q. And then do you see a -- a map with an  
6 alternative district configuration to the right?

7 A. I do, yeah. Two -- two maps represents it side  
8 by side.

9 Q. So Precinct 1 in the enacted map covers much of  
10 the same land and territory as does Precinct 3 in the  
11 alternative map. Do you agree?

12 A. Precinct 1 and 3?

13 Q. Precinct 1 in the enacted map versus Precinct 3  
14 in the alternative map to the right.

15 A. Understand -- it -- it would visually appear  
16 that way, but I would want to see more details about its  
17 population, I think especially because it's, I think,  
18 identifying a lot of the -- so areas that are commercial  
19 or have low population, which we see here.

20 Q. So Texas City, largely it -- it would also be  
21 included in Precinct 3 in the alternative plan? Do you  
22 see that?

23 A. Uh-huh. Some portions, yes, in the area of  
24 Texas City that would be by the Bay.

25 Q. Right.

1                   And it -- similar to the Enacted Plan, it  
2 includes parts of Dickinson and League City, as well, in  
3 Precinct 3 in the alternative plan?

4           A. I mean, of those cities or municipalities, I --  
5 I could follow with that.

6           Q. And -- and you don't see any -- you don't have  
7 any issue with those municipalities being combined  
8 together in a single precinct, right?

9           A. I think no part of my opinion comes into which  
10 municipalities need to be or which ones should not be.

11           Q. They share a -- they share similar  
12 socioeconomic statuses; that -- we've gone over that at  
13 length, right?

14           A. Yeah. Or -- right, exactly. We don't have  
15 ways -- I didn't provide analysis that show the  
16 socioeconomic differences between those areas.

17           Q. And you accepted that they were similar as,  
18 sort of, the basis of your analysis, right?

19           A. That -- yes.

20           Q. The Precinct 3 in the alternative plan on the  
21 right, that does not contain any of Galveston Island,  
22 right?

23           A. Well, it shows, I think -- you're right; it  
24 stops at the -- what I understand to be, yeah, the  
25 bridge.

1 Q. And in both of the maps, Precinct 2 is largely  
2 the same; it includes a precinct that contains all of  
3 the coastal ocean coast of -- of the County, right?

4 A. That's one way, right, that you're seeing a  
5 difference, right, as far as where portions of La Marque  
6 are.

7 Q. So there's a -- there's a little bit of a  
8 change in La Marque, but in the alternative map on the  
9 right, you see that the boundary between Precinct 2 and  
10 4 changes a bit; it goes further north for Precinct 2  
11 and actually follows a highway. Do you see that?

12 A. I do. And it adds a part -- oh, follows the  
13 highway you're describing being the -- sorry -- the  
14 southern border, correct?

15 Q. The line between 2 and 4, the, kind of,  
16 straight diagonal line. You see that?

17 A. I do.

18 Q. Visually looking at the two maps compared to  
19 one another, am I correct that it would not surprise you  
20 to learn that the mathematical compactness scores for  
21 the map on the right are higher than the mathematical  
22 compactness scores for the Enacted Plan?

23 A. I -- I think, collectively, you're asking me to  
24 trust that, and --

25 Q. Well, I -- you're an expert. You look at maps,

1 right? So, like, just --

2 A. And I do, and -- but I think, collectively, you  
3 have opportunities to see the -- you know, each of these  
4 shapes have their own, right, sort of extensions in the  
5 case, and I don't know how that will affect the -- the  
6 perimeter scores, right, the -- the distance and where  
7 we're going to see the measurements as they continue to  
8 cross, right, or calculate those distances between  
9 the -- the boundaries. So I -- I mean, I very much see  
10 what you're talking about visually, but whether I can  
11 put math to that without the numbers, I feel like I'm  
12 unable to do so.

13 Q. Okay. So we'll set that map aside for a  
14 moment.

15 Visually, you agree with me that the map on  
16 the right looks more compact than the map on the left in  
17 terms of its district shapes?

18 A. I -- I see them because of the predominance of  
19 Precinct 2, right, them to be similar, and, right, we  
20 are getting very close to a comparison, which is now  
21 right on the -- on the margins.

22 Q. The map on the right, that lacks the claw that  
23 we see in Precinct 3 in the Enacted Plan, and it lacks  
24 the claw, or hook, that goes down in Precinct 4 in the  
25 Enacted Plan; is that fair?

1           A. There are features of this that are not there,  
2 and then, in this case, we see the Precinct 4 on the  
3 right-hand side. What I don't understand is why there's  
4 a selection going across -- I believe, this is I-45,  
5 right? Go -- zoom in, and why those are a municipality.  
6 And I think, collectively, as I see this, I -- to my  
7 mind, right, more questions come up than -- than answers  
8 I can provide. So I --

9           Q. Well, what's one of the questions that come up?

10          A. One is: Why -- why that selection? I believe  
11 it's one voting district that's -- as part of Dickinson,  
12 is going to be included to the -- or maybe it's just  
13 adjacent to Dickinson -- will be placed into Precinct 4  
14 in this alternative plan. Also --

15          Q. And you're talking about on the border between  
16 3 and 4 there?

17          A. Yes, the -- exactly, where the purple is  
18 adjacent to the pink on, I would say, at least the  
19 northern side and southern side, western -- eastern  
20 side.

21          Q. Okay. Anything else?

22          A. The other identifies that sometimes it's been  
23 clear in this case there's a artifact of the Benchmark  
24 Plan that still is part of Precinct 3, and this is  
25 Voting District 399. It's part of League City. It

1 remains -- is the small part of it that continues to be  
2 part of this new Precinct 3.

3 Q. And what's your question about that?

4 A. I think to, number one, if you just presented  
5 me with the alternative plan as an idea that keeps  
6 League City mostly whole, but it has one portion here  
7 that now is -- is not part of League City. And so, you  
8 know, collectively, as we're going to do this, identify,  
9 in all cases, what's unique about that voting district,  
10 why it has intention and why it needs to be separate  
11 from League City. It's not separate from League City in  
12 that Enacted Plan.

13 Q. And its inclusion in Precinct 3 in the map on  
14 the right, that doesn't make that district non-compact  
15 in your view, does it?

16 A. I -- I think, collectively, if we see some  
17 change like that, it might address it at the -- again,  
18 the 100ths place. The mathematical part, when you think  
19 of removing one district, what's that matter? I -- I  
20 guess I don't know in particular, but I know that that  
21 does extend this -- those, sort of, precinct to the  
22 north and to the -- to the west.

23 Q. This Precinct 3 and the alternative plan to the  
24 right, that doesn't have any of the features that  
25 concern you about including Galveston Island with the

1 precinct, right?

2 A. Yeah. Oh, if you're talking about the Precinct  
3 2 and the Island, I agree.

4 Q. Right.

5 And Precinct 3 in this map doesn't have  
6 Galveston Island in it, so it -- it doesn't have any of  
7 those socioeconomic differences that you were concerned  
8 about with respect to some of the other plans you looked  
9 at, right?

10 A. Right. You continue to see that there's going  
11 to be a little split between what you might be able to  
12 talk about with the La Marque and Hitchcock group  
13 compared to what you are going to see from Texas City  
14 and League City.

15 Q. You're not seeing anything on the right that  
16 suggests to you that any of these precincts are not  
17 recently compact in the alternative plan to the right;  
18 is that fair?

19 A. I think my response is that I would need to  
20 have more time to analyze that.

21 Q. But in terms of their shapes and what we've  
22 talked about today and what you know from what you've  
23 talked about today, is there anything on that map in the  
24 right that's saying to you that you think there's a  
25 non-compactness issue there?

1 MS. OLALDE: Objection, asked and answered.

2 THE WITNESS: I mean, directly to my part,  
3 the interesting thing is we'll look at those boundaries,  
4 and -- but, ideally, when you're asking here the  
5 compactness, you do rely at one point on the  
6 measurements, the mathematical measurements, which we  
7 talked about. Then we described a little bit towards --  
8 you know, how has this affected all of the other, right,  
9 precincts and their populations, right, which are being  
10 joined together.

11 BY MR. GABER:

12 Q. And I'm almost finished. I'm going to -- if I  
13 can, I'm going to do a screen share myself, if I can  
14 figure out how to do that.

15 CONCIERGE TECH: The button's at the  
16 bottom, sir.

17 BY MR. GABER:

18 Q. Okay. Do you see Maptitude on your screen?

19 A. Yes, I do.

20 Q. And does this look to you like the same  
21 alternative map that we were just looking at in the  
22 prior exhibit?

23 A. Yes, I see these features.

24 Q. And then do you see the -- at the top, I have  
25 the -- the Polsby-Popper and the Reock scores. Do you

1 see that?

2 A. Can someone who's controlling this, I guess,  
3 zoom in? I know that there is a way to make those  
4 numbers larger.

5 MS. OLALDE: Yeah, they're very small.  
6 Sorry.

7 MR. GABER: Oh, I'm controlling it, aren't  
8 I?

9 THE WITNESS: I can -- I can see the  
10 population differences. I think that -- and --

11 MR. GABER: Did that get any better?

12 MS. OLALDE: No, not really.

13 MR. GABER: All right. Let me do something  
14 quickly, if I can figure out how to do this.

15 CONCIERGE TECH: You can try control plus.

16 MR. GABER: Oh, that's a good idea.

17 CONCIERGE TECH: It may work, depending on  
18 the program.

19 MR. GABER: There we go.

20 BY MR. GABER:

21 Q. Okay. Do you see that now?

22 A. Yes, sir.

23 Q. All right. And I don't know if I can get the  
24 map back up, but ignore the top line. That's the rest  
25 of Texas. I couldn't figure out how to make that go

1 away.

2 But do you see Precinct 3 -- Precinct 1 in  
3 this map has a Reock score of .35; Precinct 2, .24;  
4 Precinct 3, .48, and Precinct 4, .4? Do you see that?

5 A. I do see those.

6 Q. And Precinct 3, that Reock score of .48, that's  
7 a fair bit higher than any of the Reock scores in the  
8 Enacted Plan; is that right?

9 A. I think, as I answer that question, I'd like to  
10 look back at least at -- at my report to the table that  
11 -- tables that put those for the Enacted Plan.

12 Q. Do you have that there? It's on page --

13 A. I don't have my report in front of me, but --

14 MS. OLALDE: I can pull it up, just one  
15 second.

16 MR. GABER: Thank you, Angie.

17 MS. OLALDE: Uh-huh.

18 There you go.

19 THE WITNESS: Cool. Thanks.

20 Okay. Excellent. I have my report up on  
21 the -- this laptop next to this.

22 BY MR. GABER:

23 Q. Uh-huh.

24 A. So both screens. Can we bring the Maptitude  
25 visual back up?

1 Q. Yeah. Let me -- hold on.

2 All right. Do you see that?

3 A. I see that, yes.

4 Q. And so the -- the Precinct 3 Reock score for  
5 the alternative plan for -- or that you were looking at  
6 is .48, and that's nearly double the score for any of  
7 the districts in the Enacted Plan. Is that a fair  
8 characterization?

9 A. I think that is saying that Precinct 3 is  
10 double of what Precinct 3 was but not of any other  
11 precinct in the plan.

12 Q. Precinct 2 as well, right?

13 A. Precinct 2 is exactly the same in the plan you  
14 just gave me and what this shows for their scores. So  
15 it's not whether the 3 is double, but I look at these  
16 as: Is that score of Precinct 2 the same as the score  
17 of Precinct 2?

18 Q. So I am using my calculator to add these four  
19 scores up and calculate the average, and I get .37.  
20 Does that look right to you?

21 A. Oh, that, I can -- yes, would understand,  
22 because of the -- each group, .4, .48, essentially --  
23 yeah, .4, .35 and then .24, okay.

24 Q. That .37 seems right as an average Reock score?

25 A. Yeah. It's in the middle. I trust you.

1 Q. And -- and that would be a whole tenth of a  
2 percent higher than the Enacted Plan's average Reock  
3 score, right?

4 A. On the average, yes.

5 Q. Now, you -- earlier, you said that you had read  
6 Dr. Burch's report in this case, right?

7 A. Yes, I've read it once.

8 Q. And so you've -- this map I showed you that's  
9 not new to you, you saw that in Dr. Burch's report,  
10 right?

11 A. I mean, right now, I haven't recalled that. I  
12 was focused on the -- you know, the stories of the focal  
13 change in that case. But that's in there, I understand.

14 Q. And there's -- there's a couple other maps in  
15 Dr. Burch's report as well that show alternative  
16 configurations and report the -- you know, the  
17 demographic information for them as well. You remember  
18 seeing those?

19 A. Again, this gets outside of the scope of -- I  
20 guess that's not what I was retained to do in this case,  
21 but as far as analyzing the maps that were in this -- in  
22 that report...

23 Q. Okay.

24 MR. GABER: I don't have any further  
25 questions. I will pass it to our colleagues up at the

1 Department of Justice.

2 EXAMINATION:

3 BY MS. SMITH:

4 Q. Hi, Dr. Owens. I'm K'Shaani Smith. I  
5 represent the United States in this matter.

6 MS. SMITH: Ms. Court Reporter, how much  
7 time we have left on the record?

8 THE VIDEOGRAPHER: 56 minutes.

9 MS. SMITH: Okay.

10 BY MS. SMITH:

11 Q. Okay. So I'll start with: Did you review the  
12 underlying files and data related to Mr. Fairfax's  
13 report and illustrative plan?

14 A. I utilized the shape file that he provided.

15 Q. Is it your opinion that the Fairfax  
16 illustrative plan prioritizes race over traditional  
17 redistricting practices?

18 A. Yes. I share that in the report.

19 Q. Is it your opinion that the Fairfax  
20 illustrative plan violates traditional redistricting  
21 principles in an effort to maximize the racial  
22 composition of Precinct 3?

23 A. Yes.

24 MS. SMITH: Can you pull up Exhibit 9?

25 CONCIERGE TECH: Attorney Smith, are you

1 talking to me, the concierge? Would you like me to  
2 screen-share that?

3 MS. SMITH: Yeah, sure.

4 And scrolling down to Page 19 to -- to the  
5 second full paragraph on the page.

6 CONCIERGE TECH: One second.

7 BY MS. SMITH:

8 Q. Okay. In this paragraph, the second paragraph  
9 on Page 19, you note that the Fairfax illustrative map  
10 moved one VTD from Precinct 2 to Precinct 3; is that  
11 correct?

12 A. Yes. That's exactly how I understood him to  
13 have described the -- the change and what -- what  
14 happened when you compare the two of them.

15 Q. Okay. So which VTD are you referring to in  
16 this paragraph? Do you recall the number?

17 A. I'm focusing in this case on Voting Districts  
18 223 and then that 218.

19 Q. So in this second paragraph, which voting  
20 district are you referring to?

21 A. In the second paragraph, I'm showing that the  
22 voting district selected -- the one he selected in this  
23 case is 218.

24 Q. Okay. And do you see the 25 percent number in  
25 this paragraph?

1 A. Yes.

2 Q. Does that number represent the percentage of  
3 Hispanic CVAP in VTD 218 specifically?

4 A. Yes. I think that's what I'm trying to  
5 communicate.

6 Q. And for the 9 percent in the paragraph, does  
7 that represent the Black CVAP in VTD 218 specifically?

8 A. Yes.

9 Q. Are you aware of the White CVAP data for VTD  
10 218?

11 A. Not -- at this point, I cannot recall that.

12 Q. Okay. Let's scroll down to Page 20 to the  
13 second full paragraph on the page. I think you'll  
14 see -- in the sentence that begins with: The  
15 demographic composition of Voting District 223, near the  
16 end of that sentence, do you see where it says,  
17 "62 percent WCVAP"?

18 A. Yes, I do.

19 Q. Do you believe that 62 percent WCVAP relates to  
20 VTD 218?

21 A. No. In my sentence, I think I write that it's  
22 the composition of Voting District 223.

23 Q. So the sentence says: The demographic  
24 composition of Voting District 223 includes 19 percent  
25 HCVAP, 52 percent WCVAP, and 22 percent BCVP, as

1 compared to 27 percent HCVAP, 62 percent WCVAP, and  
2 9 percent BCVAP.

3 So what is your understanding of what a  
4 62 percent of WCVAP applies to?

5 A. Thank you.

6 That would apply to 218.

7 Q. Okay. Let's go back to Page 19. The last  
8 sentence in the second paragraph, it states that: This  
9 selectively chose a diverse voting district to add when  
10 other voting districts were also adjacent to Precinct 3  
11 and could have improved the compactness of the precinct.

12 Did I read that correctly?

13 A. Yes.

14 Q. What do you mean by diverse voting district?

15 A. I mean, in this case, the interest of adding  
16 Hispanic CVAP and Black CVAP to the district, so that  
17 would be -- I think -- and oftentimes I'm adopting the,  
18 sort of, diverse voting district to be to the  
19 perspective of, I think, the benchmark district, which  
20 had -- which is being changed and saw itself as being  
21 the coalition district.

22 Q. So does diverse voting district have a specific  
23 definition?

24 A. No. I would think in this case is you end up  
25 with something that is -- has a higher Hispanic citizen

1 voting age population or higher Black citizen voting age  
2 population and in this case, then, a lower White citizen  
3 voting age population, would appear to be more diverse  
4 than one that has a higher White citizen voting age  
5 population.

6 Q. And when you say higher and lower, what are you  
7 comparing these numbers to?

8 A. I think to those -- these two districts or two  
9 voting districts that are side by side.

10 Q. Oh, I see.

11 So you mean Voting District 218 compared to  
12 Voting District 223, right?

13 A. Yes. I think, I -- I'm trying to do the same  
14 consistent with Mr. Fairfax's interest in the least  
15 change, so adding, like, one precinct that can get the  
16 job done.

17 Q. Okay. So it's your opinion that VTD 218 is a  
18 diverse voting precinct, right?

19 A. I think I was showing in -- 218 is less diverse  
20 than 223. Let me look at my response to double-check my  
21 numbers, but, yeah, one had 62 percent White citizen  
22 voting age population; whereas, 223 has 56 percent White  
23 citizen voting age population.

24 Q. So -- sorry. So which voting district is the  
25 more diverse voting precinct, 218 or 223?

1 A. So, then, 223.

2 Q. Okay. So is it also your opinion that  
3 Mr. Fairfax's selection of VTD 218 did not improve the  
4 compactness of Precinct 3?

5 A. Yes. And I think we can take that opinion as  
6 sort of being relative to what was possible. So of a  
7 least change, there are other voting districts that  
8 could have been selected and would have enhanced more  
9 compactness to the -- to the overall Precinct 3, also  
10 ones that could have had higher populations, right, and  
11 since reduce the population deviation. So...

12 Q. And what VTD would have improved the  
13 compactness and lowered the population deviation, in  
14 your opinion?

15 A. I think what -- there -- there aren't many to  
16 choose, but we could think about ones that are closer  
17 to -- of Dickinson, which at some point has an area  
18 that's compactness that is only -- less than a tenth of  
19 a mile wide. We also see opportunities as -- that I see  
20 here was one that, at times, there are precincts that  
21 are being excluded because when Galveston Island is  
22 split into three different precincts, as the Benchmark  
23 Plan had -- had done, that there's the option here of  
24 having two different precincts run along the bridge to  
25 keep them contiguous.

1                   And so I understand in this case, I think,  
2 why that would not have been selected as the choice, but  
3 there's also a reason beyond just the population that  
4 that had been done, despite the fact that it might be  
5 more closely adjacent or take away the -- sort of the  
6 boot that we see still exists as it comes around that  
7 bay and not continue -- right off of the bridge.

8           Q. And in this explanation that you just gave,  
9 what VTD are you referring to?

10          A. Voting District 223.

11          Q. Oh, I see.

12          A. Yeah, it's Figure 10.

13          Q. Okay. Let's go down to Page 20 that has  
14 Figure 10 on it, I think -- maybe not.

15                   CONCIERGE TECH: Which page, Counsel?

16                   MS. SMITH: The next page, 20. There it  
17 is.

18 BY MS. SMITH:

19          Q. Okay. So let's focus on the first full  
20 paragraph on this page. The first sentence says that  
21 the process exhibits a selective choice under the guise  
22 of offering the least changes.

23                   What is your understanding of the  
24 least-change approach?

25          A. Yep. I think number one is the fact that he

1 selected only one voting district to add. I know  
2 those -- at one point, very clear that he was going to  
3 find one voting district that had a population, was  
4 going to add it, and I think, collectively, my response  
5 would be that it didn't take into account other factors  
6 of the Benchmark Plan that you might be able to address  
7 to better represent the communities or the areas of  
8 Galveston County and how populations have changed,  
9 right, with the new Census numbers.

10 Q. Okay. Is the least-change approach a commonly  
11 used method in redistricting?

12 A. I think it is commonly used when you find that  
13 the la- -- prior district to the benchmark district  
14 continues to perform under the same, sort of,  
15 demographic or as it -- the population and citizens  
16 would like it to.

17 Q. Okay. The paragraph goes on to state that:  
18 Precinct 3, as oppose -- as proposed in Fairfax Map 1  
19 continues to be underpopulated by 3.6 percent. This  
20 selection excludes the more populous Voting District  
21 223.

22 Did I read that correctly?

23 A. Yes.

24 Q. And what selection are you referring to in this  
25 sentence?

1 A. Selection of a voting district, so the  
2 selection of Voting District 218.

3 Q. Then the paragraph goes on to say: Voting  
4 District 223 would have reduced the population deviation  
5 further and had a higher concentration of 870 Black  
6 voting age citizens (22%) than Voting District 218. The  
7 remaining demographic composition of voting district 223  
8 includes 777 Hispanic voting age citizens (19%) and 2263  
9 non-Hispanic White voting age citizens (56).

10 Did I read that right?

11 A. Yes.

12 Q. Okay. And the 22 percent refers to the Black  
13 CVAP in VTD 20- -- 223 specifically, right?

14 A. Yes.

15 Q. And the 19 percent refers to the Hispanic CVAP  
16 in 223 specifically, right?

17 A. Yes.

18 Q. And the 56, is that a percentage?

19 A. It is.

20 Q. Okay. And is that -- oh, sorry.

21 A. No. I agree. I appreciate you saying that.

22 Q. Okay. And is the -- is that the percentage of  
23 the non-Hispanic White citizen voting age population in  
24 VTD 223 specifically?

25 A. Yes.

1 Q. Okay. Would you consider VTD 223 a diverse  
2 voting precinct?

3 A. No. My intent here is just to say it's more  
4 diverse than 218.

5 Q. I see.

6 Is the Hispanic population in 2- -- in VTD  
7 223 higher than the Hispanic population in VTD 218?

8 A. No. The Hispanic voting age population is not  
9 higher in 223 than 218.

10 Q. In the Black -- sorry.

11 A. No, that's a good point. I just want to be by  
12 percentage rather than frequency of what I'm  
13 communicating.

14 Q. Sorry? I still don't understand it.

15 So -- okay. So is the Black population in  
16 VTD 223 higher than the Black population in VTD 218?

17 A. Yes, by -- by number and by percentage of the  
18 population that lives there.

19 Q. Is the non-Hispanic White population in VTD 223  
20 higher than the non-White -- sorry -- non-Hispanic White  
21 population in VTD 218?

22 A. No.

23 Q. Would the selection of VTD 223 have improved  
24 the compactness of Precinct 3 in Mr. Fairfax's  
25 illustrative plan?

1           A. My understanding is that it may have, but,  
2 also, one, is that his illustrative plan does not, sort  
3 of, substantially -- one, it does not increase the  
4 compactness in the -- in a large way from the benchmark,  
5 because it -- it continues to change little, and I think  
6 my primary part is that, it take -- it makes a selection  
7 that does not further reduce the population deviation.

8           Q. Well, I don't -- that's not what I asked.

9                         Would the selection of VTD 223 have  
10 improved the compactness of Precinct 3?

11           A. I didn't provide that analysis in this report.

12           Q. Why not?

13           A. I was primarily focused in this case on the  
14 demographic groups of who was -- who was chosen, where  
15 this might have been a selection, and in my mind,  
16 actually have been describing why it also was omitted as  
17 a way to maintain the three precincts on Galveston  
18 Island.

19           Q. Okay. Lastly in the paragraph, it states:  
20 This opportunity to increase the Black and Hispanic  
21 populations in Precinct 3 would limit the ability for  
22 Precinct 2 to be contiguous on the island.

23                         What do you mean by this opportunity in  
24 that sentence?

25           A. Yeah. That in this case, you know, Precinct 3

1 would have less population deviation. It would increase  
2 the size of the Black and Hispanic coalition population  
3 relative to the precinct that was chosen, and it comes  
4 with a tradeoff, while it's there taking away the --  
5 sort of the boot from the voting district creates that  
6 it included.

7 It violates, kind of, our first standard  
8 of -- or redistricting, which was you wanted to use the  
9 -- the bridge to keep them contiguous. If possible,  
10 right, have a land or roadway comparison to connect the  
11 island to the mainland.

12 Q. So --

13 A. That's why I directly addressed the contiguous  
14 part, because I was -- that's fine.

15 Q. Wait. Okay.

16 So are you saying that the selection of 223  
17 would limit the ability of the precinct to be contiguous  
18 on the island?

19 A. Yes, because every -- all of the places where  
20 the bridge enters the island would then become part of  
21 Precinct 3, but it would -- Precinct 2 would no longer  
22 be contiguous. So in this case --

23 Q. Oh, I see.

24 A. -- yeah, three lines of the high- -- or three  
25 lanes of the highway right now could kind of be used to

1 connect Precinct 2 to the mainland where three lanes of  
2 the highway are being used to connect Precinct 3 to the  
3 mainland, and as -- sort of, I look at this as the  
4 problem being it -- there's obviously a small portion of  
5 the island that is connected to Precinct 1 with no  
6 roadway or -- or land.

7 Q. I see.

8 But Mr. Fairfax's illustrative plan did not  
9 include VTD 223, correct?

10 A. Right, it does not.

11 Q. So, instead, Mr. Fairfax chose VTD 218, which  
12 has a lower Black population and a higher Hispanic  
13 population than VTD 223, right?

14 A. It did, yes.

15 Q. So how does Mr. Fairfax's selection of VTD 218  
16 instead of VTD 223 support your conclusion that his  
17 illustrative plan violates traditional redistricting  
18 principles in an effort to maximize the racial  
19 composition of the district?

20 A. It's less about the voting district selections  
21 as much as the treatment of this area where the bridge  
22 meets Galveston. And so the interest of being able to  
23 preserve the Galveston Island as part of Precinct 3 is  
24 that idea, there's more at play in this case, because  
25 there's a larger, in this case, Black citizen voting age

1 population and Hispanic citizen voting age population  
2 that still remain because of the least-changes action,  
3 but in this case, we have -- you know, in this case,  
4 you're excluding 223 due to contiguous reasons, even  
5 though it might have more in common with the precinct as  
6 the coalition is -- is stated to serve.

7           It's a unique paradox that I saw in this  
8 case that, you know, I -- he made one selection, but I  
9 say in this case there's an adjacent selection to be  
10 made, and he is trying to follow the process here of the  
11 contiguity, which I appreciate. But it shows how much  
12 this district has to stretch and how much it has to  
13 share lanes of a bridge in order to make that possible  
14 to keep Galveston Island as part of Precinct 3.

15           Q. Okay. I don't think I fully understand that,  
16 but I don't think we have time to get into it.

17           All right. Let's go to Page 26 of the  
18 report, please. In the end of the third paragraph, you  
19 write: My report describes how, on multiple occasions,  
20 each map plan chose to include a voting district that  
21 had a higher concentration of Black citizens of voting  
22 age, even when adjacent voting districts with similar  
23 populations had higher concentrations of Hispanic voters  
24 that could have been selected.

25           Did I read that right?

1 A. Yes.

2 Q. And are you referring to Mr. Fairfax's  
3 illustrative plan in this statement, where you say "each  
4 map plan"?

5 A. On multiple occasions, the map plans, that  
6 would be a general statement still to point 2, and I  
7 think, as written, it would -- it would apply to his in  
8 this case, because the transitive part, he's making the  
9 connection of the high concentrations of citizen voting  
10 age populations on Galveston Island.

11 But I would say that, most often, my  
12 critique of Mr. Fairfax's map is that this least-changes  
13 model also took, right, less of action on reducing the  
14 population deviation or improving the compactness of the  
15 overall Precinct 3 than what could have been -- been  
16 done otherwise by just picking one more precinct.

17 Q. Where do you state that explicitly in your  
18 report?

19 A. Related to Mr. Fairfax --

20 Q. Yes.

21 A. -- I did not state that in the report.

22 Q. Oh, okay.

23 Where do you state that in your report?

24 A. I think that's just what I'm intending to show  
25 in the areas of Page 19 and 20.

1 Q. Okay. Lastly, can you explain how you conclude  
2 that Mr. Fairfax's illustrative plan chose to include a  
3 voting district that had a higher concentration of Black  
4 citizens of voting age when adjacent voting districts of  
5 similar populations had higher concentrations of  
6 Hispanic voters that could have been selected? Based on  
7 what you have in your report, can you explain that  
8 conclusion with regard to Mr. Fairfax's illustrative  
9 plan?

10 A. Oh, in -- I think in this case the selection  
11 that he made still has a higher population of Black  
12 citizen voting age population and Hispanic citizen  
13 voting age population than 223 does. Yeah.

14 Q. Okay. Moving on.

15 Is establishing communities of interest  
16 just one of the several traditional redistricting  
17 principles that you mentioned earlier today?

18 MS. OLALDE: Objection, asked and answered.

19 THE WITNESS: And so, at that point, can  
20 you repeat it? I didn't -- the first part of the  
21 question in particular.

22 BY MS. SMITH:

23 Q. Sure.

24 Is establishing communities of interest  
25 just one of several traditional redistricting

1 principles?

2 MS. OLALDE: Same objection.

3 THE WITNESS: I would think in this case  
4 it's almost something you could do prior to  
5 redistricting or in the way to evaluate how -- what is  
6 the political geography of the area in respect to the  
7 boundaries created. So at this point, right, I did a  
8 study to see whether or not there was a community of  
9 interest in the fact of having sufficient socioeconomic  
10 populations, as well as the education and -- and  
11 workforce studies.

12 But one thing that, in particular, exists  
13 here is that those populations do have differences, in  
14 particular, and they have grown beyond what the -- the  
15 benchmark boundaries, right, will may have remained  
16 unchanged.

17 Q. Okay. Should establishing communities of  
18 interest be prioritized over other traditional  
19 redistricting principles when seeking to satisfy the  
20 first condition of Gingles?

21 A. Yes. I think we have an opportunity here, when  
22 we think of -- that is a -- one of the reasons why you  
23 might see deviations from compactness. It would be  
24 another opportunity to see why, in particular, at the  
25 lower levels of political geography, so less than a U.S.

1 Congress district, deviation is allowed by those  
2 populations so that we can best capture the political  
3 geography and municipalities, right, of these voting  
4 precincts and having those plans addressed. So that one  
5 goes with the other aspects of compactness.

6 Q. So what do you rely on to determine that  
7 communities of interest should be prioritized in this  
8 case?

9 A. Yeah, I think the, sort of, alignment or close  
10 similarity that groups have throughout the district.  
11 And so one of the things that we could see in this case  
12 is that: Are the groups -- even if they -- in  
13 particular, like, how close are they? And then the next  
14 case would be: How similar are they?

15 And so my consideration right now would be  
16 within the Hispanic community; it is not only, right,  
17 distant, but it also is disparate in what it has as far  
18 as its socioeconomic status on different ends of the  
19 Galveston County.

20 Q. Okay. Let's take down this Exhibit 9.

21 MS. SMITH: And could you, Rob, upload DOJ  
22 Tab 2?

23 CONCIERGE TECH: Stand by. (Complied.)

24 MS. SMITH: And then mark that as  
25 Exhibit 15.

1 (Exhibit 15 was marked for identification.)

2 BY MS. SMITH:

3 Q. So, Mr. Owens -- or -- sorry -- Dr. Owens,  
4 we'll be talking about Dr. Krochmal's report and the  
5 declaration -- or report, actually, that you filed in  
6 response to it.

7 A. Thank you.

8 Q. Let's zoom in a little.

9 And is this a true and accurate copy of  
10 your expert report filed on March 31st, 2023, in  
11 response to Dr. Krochmal's report?

12 MS. SMITH: Could you scroll down a little  
13 bit, Rob?

14 CONCIERGE TECH: (Complied.)

15 MS. SMITH: Yeah.

16 MS. OLALDE: And, Ms. Smith, he has it on  
17 the laptop.

18 THE WITNESS: Yeah.

19 MS. OLALDE: So, like, he was going to  
20 scroll through it so he could confirm --

21 MS. SMITH: Oh, okay, perfect.

22 THE WITNESS: That's good. Yeah, I'm  
23 looking at Page 2, and that reflects the -- all the same  
24 details.

25 BY MS. SMITH:

1 Q. Okay, great.

2 So looking at -- sorry?

3 MS. OLALDE: I was telling him that you  
4 were asking if it was a -- if it was a true and correct  
5 copy of the report. Sorry.

6 MS. SMITH: Yeah. No, that's fine. Thank  
7 you.

8 BY MS. SMITH:

9 Q. So let's scroll down to Page 2 --

10 MS. SMITH: Oh, actually, Ms. Court  
11 Reporter, do you know how much time I have left?

12 THE VIDEOGRAPHER: 25 minutes.

13 MS. SMITH: Okay.

14 BY MS. SMITH:

15 Q. Okay. So on Page 2, let's look at the first  
16 sentence of the paragraph under "Summary." Yeah.

17 That sentence states that you were asked by  
18 Defendants' counsel to -- or Defendants, rather -- no --  
19 yeah, Defendants' counsel -- sorry -- to analyze the  
20 recent history of political participation in Galveston  
21 County.

22 Is that statement accurate in describing  
23 why you drafted this report?

24 A. Yes.

25 Q. How much time did it take you to draft this

1 report?

2 A. Good question. I think it's a little more  
3 than -- it's going to be 15 hours.

4 Q. And in your review of Dr. Krochmal's report,  
5 what was your understanding of the focus of his report?

6 A. I understood that he gave a full history of  
7 Galveston County, time -- when I say "full," I mean,  
8 like, a wide historical time period, but he also broke  
9 them up into eras with his subheadings. So he  
10 identified history of the County prior to 1965; in  
11 particular, issues related to the 1960s -- I think going  
12 to the 1970s -- then picks up through 1990s.

13 His report also picks up some differences  
14 which are events that happened, like, within the County  
15 as far as certain cities and then, also, the  
16 redistricting practices going through a few decades of  
17 reports that was done by the Commissioners Court.

18 Q. Okay. And would you say that the focus of his  
19 report was on the recent history of political  
20 participation in Galveston County?

21 A. Good point. His re- -- I would think in this  
22 case one of the reasons why I drafted it is that he  
23 offers less attention to the recent political history  
24 that we have, as far as people's participation. So I'm  
25 providing some details that, sort of, pick up on

1 statements that he made, but also identify it -- if we  
2 really think about things that would have occurred often  
3 in the last, I know, decade or really last two decades.  
4 And so -- because I think, in particular, there's an  
5 important part to have identify that -- especially  
6 things like Wesberry v. Sanders or others that have  
7 reshaped redistricting from -- from their past and also  
8 substantial changes to the, I would say, not only  
9 constitutional changes that we have about voting in  
10 these time periods, but also reg statutory changes.

11 Q. Okay. So isn't it fair to say that your report  
12 only responds to portions of -- or, sort of, discrete  
13 portions of Dr. Krochmal's report?

14 A. Well, I -- discrete, I -- I think, in  
15 particular, I'm responding to the parts that I have the  
16 most expertise to.

17 Q. Oh, I --

18 A. My education is not in history, and so, right,  
19 the book that I would have written or other topics are  
20 about studying Texas within the last -- right, within  
21 the last decade.

22 Q. Okay. I see.

23 Well, can you describe your report's  
24 conclusion?

25 A. Report's conclusion is that at one point the

1 coalition of, as stated, African Americans and Hispanics  
2 in Galveston County and being supportive at some point  
3 is based off selective details and in my mind is not  
4 necessarily including as much information about the  
5 residents of the County itself: How they've been  
6 changing in their political behavior; how this affects  
7 the growth of the County in a couple different ways.

8           So while he has, in particular, anecdotes  
9 and stories that are drawn from and they provide clear  
10 descriptions, one of the things that I'm able to show is  
11 that, in the broad change of time, there have been, sort  
12 of, a tracking trend of Galveston's, sort of, political  
13 participation, and, also, some parts in this case, when  
14 we think about Canada emergence or involvement, that are  
15 contrary to a few conclusions that he, sort of, states  
16 and would exclude the more recent political history.

17           Q. Okay. Can you identify specifically how the  
18 conclusions of your report respond to Dr. Krochmal's  
19 report?

20           A. Uh-huh. I can -- in a summary of what we're  
21 looking at here, I would say the Hispanic population of  
22 the County has grown. It also occurred, in this case,  
23 at the same time that the Republican Party has grown,  
24 and I think that, first, we think of it as broad  
25 correlation, that is going to be at odds with an idea

1 that this is occurring, and Hispanic voters are also  
2 preferring the Democratic candidate at the same rate,  
3 right, as they -- the African American population would  
4 have in the past.

5 But I also think in this case that when we  
6 think of the political leaders, we are seeing emergence  
7 and a change of even the Republican Party in Texas -- or  
8 in Galveston County, and people emerging to run for  
9 office, also the idea of where people are participating  
10 in their elections, and deviations within primaries that  
11 show that the Hispanic population and Black population  
12 are not always cohesive. Whereas, he's -- in  
13 particular, his conclusions, he is responding to the  
14 fact that he'd say: The African American population in  
15 Galveston County has a clear point of representation on  
16 the County commission, that individuals who are  
17 minorities in Galveston County don't see an opportunity  
18 to run for office. I think those are parts of the  
19 conclusions that I don't see as far as the research that  
20 I completed.

21 Q. Okay. Thank you.

22 Are these -- well, are the opinions  
23 included in your report all the opinions you intend on  
24 presenting at trial in response to Dr. Krochmal's  
25 report?

1           A. Yes. At this time, I don't have any other  
2 reports prepared.

3           Q. Okay. Let's look at the bottom of Page 2 of  
4 your report. The second sentence states that:  
5 Dr. Krochmal's reports aptly identifies that as much as  
6 Galveston is part of the South, it is often distinct  
7 from the rest of the South.

8                         Did I read that correctly?

9           A. Yes.

10          Q. What is your basis for this character- --  
11 characterization of Dr. Krochmal's report?

12          A. Yeah. In part of the history, one of the  
13 things that he has done is talk about, you know, sort  
14 of, political changes, right, in these opportunities of  
15 aspects of elections, candidates, right; he talked about  
16 the Dixiecrats at the nat- -- sort of, the sub-national  
17 level without an ability to talk about that within  
18 Galveston County.

19                         He did point out, in particular what I like  
20 to see, was the interest here where Galveston's economy  
21 is different from the rest of the State. It's also  
22 different -- as a port city, different from other  
23 southern states that we might see, and that's brought in  
24 a different population to the community, which seek  
25 economic parts. And other historians have talked about,

1 in this case, driven towards being in a community is  
2 your primary interest about econom- -- shared economic  
3 interest compared to aspects you're considering, race.

4 Q. What did you -- what do you mean by  
5 sub-national?

6 A. Sub-national would be, like, states. So we  
7 could think of, selectively, states that represent the  
8 U.S. South.

9 Q. Okay. And in your explanation, were you  
10 referring to Texas specifically or just states in the  
11 South?

12 A. States in the South. So sometimes he also  
13 talks about things at a Texas level and then applies  
14 that as having meaning to Galveston.

15 Q. Okay.

16 A. And by part -- yeah, Galveston can also be part  
17 of both of those groups. It is part of Texas, and it is  
18 part of the U.S. South. At the same time, it can also  
19 be part of the U.S. South that is growing, right,  
20 different; maybe more -- either more like its own area,  
21 more like the rest of the country that shares  
22 characteristics.

23 Q. I see.

24 Do you recall where in Dr. Krochmal's  
25 report that he concludes that Galveston County is

1 distinct from the rest of the South?

2 A. No, I can't say that directly. I don't think  
3 he used those terms as much as he sort of implies it  
4 from identifying, number one, that things change here;  
5 they change at different times. Also, the idea when  
6 we've had moments where he says there is racial tension  
7 in the County, and then there's not racial tension in  
8 the County, and then it returns.

9 So, you know, in this case, that is a  
10 different timeline than what's being presented in a much  
11 broader way about change in the country.

12 Q. Okay. So when you say things have changed  
13 here, what do you mean?

14 A. Population growth. I think one of the  
15 things -- and I know this may be different reports, but  
16 as, sort of, leadoff in my first report on the fact of,  
17 you know, just this last decade Galveston saw its  
18 largest population increase, right, in recent decades.  
19 So it -- that would substantially change parts of the  
20 County, right, in ways that are also separate from even  
21 our recent political history.

22 Q. And does Dr. Krochmal focus on the change in  
23 population or the population growth of the County, if  
24 you recall?

25 A. I believe it was men- -- is mentioned. I think

1 it's just not given a lot of detail to both, but yeah.

2 Q. Okay. You also mentioned that Dr. Krochmal  
3 discussed racial tension in the coun- -- or in the  
4 County that appeared and then, sort of, disappeared and  
5 then returned. Did I say that correctly -- is that  
6 accurate?

7 A. That's what I said, yes.

8 Q. Okay.

9 A. I mean, it would be part of his subheadings and  
10 were moving it where sometimes -- I -- I felt like there  
11 wasn't -- yeah, as I was tracking it, I felt like the  
12 history was moving in a couple of different directions.

13 Q. I see.

14 Do you recall in what context he was  
15 referring to the racial tension, sort of, disappearing  
16 in the County?

17 A. When it was disappearing, he said this was how  
18 the County Commission treated Commissioner Wayne  
19 Johnson.

20 Q. Okay. And was his con- -- well, is your  
21 understanding that his conclusion is that racial tension  
22 was, sort of, dissipating on the Commissioners Court  
23 under Wayne Johnson -- is your understanding that that  
24 conclusion applied to racial tension within the County  
25 at large sort of dissipating?

1           A. I -- I don't think that's one of the  
2 connections -- I don't think -- is -- is kind of made.

3           Q. Okay.

4           A. I -- because that -- again, one of the  
5 comparisons I'm trying to make is that that's elite  
6 behavior. I would say that in class. But this is  
7 behavior of elected officials when they are interacting  
8 with elected officials. Can't tell us as much about  
9 residents interacting with residents.

10          Q. Okay. And you mentioned elite behavior. What  
11 do you mean by that?

12          A. That was my general term for saying the -- if  
13 you're an elected official or if you're highly involved  
14 in politics, like as an -- as an advocate or other  
15 groups. So people who lobby or, you know, people who  
16 work for the County, people who are elected to the  
17 County, they have, sort of -- I mean, I think -- I  
18 assume they have an enhanced knowledge of -- of politics  
19 and an enhanced interest in politics.

20          Q. Okay. Thank you.

21                   When reviewing Dr. Krochmal's report, did  
22 you -- did you see a statement of where he says that the  
23 history of race and racism in Galveston County largely  
24 reflects the statewide story of racism in Texas?

25          A. I can't recall that -- the page or group.

1 Yeah.

2 Q. Okay. I can show it to you.

3 MS. SMITH: Rob, if you wouldn't mind  
4 pulling up Exhibit 3 -- or -- sorry -- Tab 3. Sorry.

5 THE WITNESS: Can we do the blinds?

6 MS. OLALDE: I'm going to close the blinds  
7 for Dr. Owens. And while I'm doing that, how much time  
8 is left on the record, please?

9 THE VIDEOGRAPHER: 11 minutes.

10 MS. SMITH: Oh, no. Okay.

11 CONCIERGE TECH: Exhibit 16.

12 MS. SMITH: Okay. I think we're going to  
13 not look at this. Let's see.

14 (Exhibit 16 was marked for identification.)

15 BY MS. SMITH:

16 Q. Oh, okay. So let's go back to your report,  
17 Exhibit 15, Page 3.

18 A. Okay. Very good. I'm on it. I can see it.

19 Q. Okay. Page 3, the first full paragraph, if you  
20 wouldn't mind scrolling -- or zooming in, in this  
21 paragraph, you state that: Dr. Krochmal assumes the  
22 alleged coalition of Black and Hispanic voters based on  
23 the behavior of nonprofit organizations.

24 Did I read that correctly?

25 A. And I'm trying to find it directly on the page.

1 So when I look, I see Dr. Krochmal once --

2 Q. Oh, sorry, okay.

3 (Simultaneously speaking.)

4 A. -- have made --

5 Q. So -- yes. So the first full paragraph,  
6 starting with the second sentence, "However, the  
7 expert," I'm assuming that you're referring to expert  
8 Dr. Krochmal there?

9 A. Yes.

10 Q. So can -- you know, read that sentence to  
11 yourself.

12 A. Yep.

13 Q. Are you familiar with the historical method  
14 that Dr. Krochmal identified in his report?

15 A. Uh-huh.

16 Q. You said yes?

17 A. I think in this case, yes. I mean, I briefly  
18 understand it in the fact of using history and setting  
19 the -- the structures of, sort of, the politics, but  
20 yes.

21 Q. Do you have education in the historical  
22 methods?

23 A. No, I do not.

24 Q. Do you have training in the historical method?

25 A. No. I mean, I think there's, like, only so

1 much that a -- a social scientist has, and a couple  
2 times he says social scientists could -- could  
3 understand this or -- or be involved, and he cites work  
4 by political scientists.

5 Q. I see.

6 And you mentioned you're not a historian,  
7 correct?

8 A. That's correct.

9 Q. Have you ever used the historical method that  
10 Dr. Krochmal discusses in his report?

11 A. No, I have not.

12 Q. Did you do your own research of primary or  
13 second sources to support your critiques of  
14 Dr. Krochmal's report?

15 A. Yes, I did my own study, though, actually, of  
16 secondary resources and gathering data from primary  
17 resources.

18 Q. And are all those resources that you used and  
19 the data that you collected reflected in your report?

20 A. They are, as links to new stories or with the  
21 data that was uploaded related to the report.

22 Q. Okay. Did you explain in your report whether  
23 his examination of looking at nonprofit organizations is  
24 contrary to the historical method he uses?

25 A. In my report, I don't -- don't recall or

1 believe that I do. It's just the intention here where  
2 in that sentence, I'm identifying that they are  
3 different populations, and, in particular, when I talk  
4 about, in his group, I think this is in- -- I think,  
5 directly implied as well in how we could see someone  
6 who, I would say, involves the involvement of nonprofit  
7 organizations. If I can direct you towards Page 5,  
8 there's Galveston County Democratic Chair  
9 Tierr'ishia Gibson gives a response to the new story  
10 about her ability to recruit candidates to run for  
11 office.

12           And so that's one of the ways when you see  
13 the only kind of comparison within those groups, but I  
14 think -- and a lot of times if I'm identifying who's  
15 speaking on behalf of an organization at a county  
16 commission meeting, which was identified in the study of  
17 his minutes and reports, we don't have context of how  
18 many people that they are speaking for --

19           Q. Uh-huh.

20           A. -- right? And I think, collectively, how many  
21 people -- as you would expect, when I'm a member of an  
22 interest group, I can try and communicate to the people  
23 who are there, you know, and be part of that lobbying or  
24 grass-roots group. I think I --

25           Q. I hear you.

1           A. I don't know the extent of how that's moving  
2 beyond.

3           Q. Do you know the context in the quotation that  
4 you refer to given by the Democratic Chair Gibson?

5           A. Yes. It was a -- a news story, and it's  
6 titled: Galveston County's shift in Democrat --  
7 demographics is leading to new minority candidates.

8           Q. Uh-huh. And how does her statement undercut  
9 the argument: A long and close coalition of minorities  
10 in Galveston?

11                   MS. OLALDE: Objection, confusing.

12                   You can answer, if you can.

13                   THE WITNESS: I think in this case, one, is  
14 she identified that, at some point in history, it was  
15 hard to recruit people to run for office, but now it is  
16 not. So I think there are parts in the history of the  
17 story it was often suggested that the groups are working  
18 together, right, to influence politics.

19 BY MS. SMITH:

20           Q. Okay. Do you think a single quotation from a  
21 party official carries equal weight to the lengthy  
22 historical analysis of the behavior of nonprofit  
23 organizations?

24           A. It is, in this case, a -- I think,  
25 particularly, it is a recent anecdote that shows that

1 the -- the conclusions from that historical part may not  
2 match today, just in the same way of the study of 2020's  
3 primary election identifies that there are different  
4 preferences of who should the Democratic nominee should  
5 be. I mean, it's, sort of, salient statewide contests,  
6 depending on Hispanic voters or areas of high  
7 concentration of Black citizen voting age population.

8 Q. Uh-huh.

9 MS. SMITH: How much time do I have left?

10 THE VIDEOGRAPHER: Four minutes.

11 MS. SMITH: Okay.

12 BY MS. SMITH:

13 Q. So on Page 5 of your report, you identified 17  
14 minority members of the municipal-level legislative  
15 body. Does that sound familiar?

16 A. Yes. Yeah, and --

17 Q. Okay. And in tallying the 17 minority members,  
18 what source did you use?

19 A. I used -- on the Galveston County website, they  
20 have a list of elected officials within the County, and  
21 so as you open that up, you're able to see the rosters  
22 of elected representatives in each of, like, the city  
23 and municipality groups. So I was able to pick up and  
24 click on, like, Galveston City Council and see the  
25 roster of individuals, which can link me to their -- in

1 particular, not just representative, right, their --  
2 their council position website and biography.

3 Q. Did you cross-check the list with those  
4 municipal websites?

5 A. Yes. The information that I collected, if I'm  
6 identifying that office, as well as, in this case, if I  
7 identify 17 minority in Table 2, I identify them as  
8 either Hispanic or Black. That's information that I'm  
9 gathering from those municipal websites.

10 Q. I see.

11 Is it possible that the list of elected  
12 officials that you relied on is out of date?

13 A. That is -- is possible, but also, in using the  
14 information that I have, I think, is the best to my  
15 knowledge. So I will also directly point that I -- to  
16 -- try and note that; that's why I put an apostrophe  
17 with William King, III.

18 Q. Oh, an asterisk?

19 A. Yeah, or an asterisk, correct. Thank you.

20 Q. That's fine. Okay.

21 Why do you discuss -- or what is the  
22 significance of there being 17 minority members of the  
23 municipal level of legislative bodies?

24 A. In this case, a group of individuals who have  
25 won election within Galveston County are serving people,

1 and, in particular, I often think in political science  
2 there's an idea of aggressive ambition. So people who  
3 are serving in municipal offices may enter the candidate  
4 pool for areas with larger constituencies, like a county  
5 commissioners precinct, or, I mean, mayor of their city,  
6 but also to the idea of: You can go then to the  
7 legislature.

8 But this gives you a sense that -- a belief  
9 that people don't have an access when the results that  
10 we were primarily shown came from Justice of the Peace  
11 positions. If you look at another elected office, which  
12 is within Galveston County and most often carries a  
13 nonpartisan identifier where you don't have party on the  
14 ballot, we see people winning this election.

15 Q. Okay. Have there been -- sorry.

16 Have there been any studies in the  
17 political science field tying municipal-level service to  
18 running for higher office later?

19 A. There -- in this case, there are many, but most  
20 often, I would directly think in this case we have a  
21 clear opportunity to know -- when I focused in on, sort  
22 of, Myers' and Thomas Longoria's view, I think it was  
23 cited towards the ideas -- gender and policy agendas and  
24 this mayoral ambition gap. So they focused on Texas  
25 female council members. So that's the closest analysis

1 that we have.

2 I mean, not much was published on a  
3 Galveston-only-specific study, but the opportunity we  
4 have here is, I'd say, the best-known study of  
5 congressional elections is, if you run for congress and  
6 you have been elected to any office, you're identified  
7 as a quality candidate, and you immediately have a  
8 better opportunity at winning an election, right,  
9 because you have success at winning a -- running a  
10 previous winning campaign.

11 Q. What --

12 MS. OLALDE: Ms. Smith, I apologize. I  
13 believe we have actually gone slightly over time.

14 MS. SMITH: Oh, okay. Well, thank you so  
15 much, Dr. Owens.

16 THE WITNESS: Have a good evening.

17 MR. GABER: Angie -- sorry -- before we go  
18 off the record, I have just a housekeeping matter. I  
19 realize that I neglected to mark the Maptitude  
20 screenshot we were looking at earlier as an exhibit.

21 So, Rob, I -- I upload that to the file --  
22 to the, like, folder thing. Would you mind marking that  
23 quickly?

24 CONCIERGE TECH: One second.

25 MS. SMITH: And, Angie, did you need me to

1 e-mail the exhibits that I marked?

2 MS. OLALDE: I believe -- I'm just taking a  
3 quick look -- we have the Owens declaration, which was  
4 his response to Krochmal. And then the Enacted Map and  
5 Map 4, that wasn't you, correct; it was just --

6 MS. SMITH: Correct.

7 MS. OLALDE: Okay.

8 MR. GABER: That was me.

9 MS. OLALDE: No, I think we have that.

10 Thank you, though.

11 CONCIERGE TECH: Mr. Gaber?

12 MR. GABER: Yes.

13 CONCIERGE TECH: I'm sorry for interrupting  
14 you, Attorney Smith. Were you done?

15 MS. SMITH: Yes, I'm done. Thanks.

16 CONCIERGE TECH: You're welcome.

17 So was it Magnitude map is -- Magnitude --  
18 sorry -- Maptitude -- Maptitude Map 4 is going to be  
19 marked next in order?

20 MR. GABER: Yes, please. And what -- what  
21 number is that?

22 CONCIERGE TECH: One second. That would be  
23 Exhibit 17.

24 (Exhibit 17 was marked for identification.)

25 CONCIERGE TECH: It's now marked.

1 MR. GABER: Say that again.

2 CONCIERGE TECH: It's now marked, Exhibit  
3 17.

4 MR. GABER: Exhibit 17, okay.

5 And -- and, sorry, Dr. Owens is not on the  
6 screen, but, Angie, are -- can you hear me?

7 MS. OLALDE: Yes. Yeah, I -- I told him  
8 that he could actually stand up and move around.

9 MR. GABER: Okay. Did -- I don't know --  
10 I don't know how to -- does Angie have access to that  
11 exhibit?

12 CONCIERGE TECH: Should.

13 MS. OLALDE: The "Marked Exhibits" folder?

14 MR. GABER: Exhibit 17.

15 MS. OLALDE: I see it. Yeah, no problem.

16 MR. GABER: Okay. For the record, that's  
17 the -- the screenshot from Maptitude that I asked.

18 Sorry. I just wanted to make sure that there wasn't --

19 MS. OLALDE: Where did that come from? I  
20 was just trying to -- where did that come from, the  
21 Maptitude?

22 MR. GABER: Where did it come from? It  
23 came from Maptitude.

24 MS. OLALDE: No, I know. But who made it?  
25 Was that you?

1 MR. GABER: Oh, yeah, I did.

2 MS. OLALDE: Okay. All right.

3 THE VIDEOGRAPHER: Do you want to go off  
4 the record or --

5 THE COURT REPORTER: Can we get copy orders  
6 on the record? Does anyone want copies or roughs or  
7 rushes? I think this was request -- actually requested  
8 as a rush.

9 MS. OLALDE: Defendants would like a copy,  
10 please.

11 MS. SMITH: DOJ would like a copy of the  
12 transcript.

13 MR. GABER: Yeah, we'll want a copy -- or  
14 Petteway will want a copy of the transcript. I don't  
15 know that we need a rush.

16 THE COURT REPORTER: Okay.

17 THE VIDEOGRAPHER: We are off the record at  
18 5:37 p.m.

19 (Deposition concluded at 5:37 p.m., CST)

REPORTER'S CERTIFICATION  
ORAL & VIDEOTAPED DEPOSITION OF  
MARK E. OWENS, Ph.D.  
THURSDAY, APRIL 13, 2023

I, Kari J. Behan, CSR, RPR, CRR, and in and for the State of Texas, do hereby certify that the facts as stated by me in the caption hereto are true;

That there came before me the aforementioned named person, who was by me duly sworn to testify the truth concerning the matters in controversy in this cause;

And that the examination was reduced to writing by computer transcription under my supervision; that the deposition is a true record of the testimony given by the witness.

I further certify that I am neither attorney or counsel for, nor related to or employed by, any of the parties to the action in which this deposition is taken, and further that I am not a relative or employee of any attorney or counsel employed by the parties hereto, or financially interested in the action.

Given under my hand and seal of office on this 18th day of April, 2023.

PROCEEDINGS

THE VIDEOGRAPHER: Today is March 22nd, year 2023. We're going on the record, 9:10 a.m. We're here for the deposition of Terry Petteway for a case filed in the United States District Court, Southern District of Texas, Galveston Division.

Could the counsel please introduce themselves and who they represent?

MS. OLALDE: Angie Olalde and Jordan Raschke Elton for defendants.

MS. REYES: Bernadette Reyes, on behalf of the Petteway plaintiffs.

MR. BARON: Neil Baron, also on behalf of the Petteway plaintiffs.

TERRY PETTEWAY,  
having been first duly sworn, testified as follows:

EXAMINATION

BY MS. OLALDE:

Q. Good morning. Would you please state your full name for the record?

A. Terry Darnell Petteway.

Q. And you are Constable Petteway. Would you prefer I refer to you as Constable Petteway, Mr. Petteway? Do you have a preference?

A. I'm currently not constable anymore; but Terry

1 Petteway, it don't matter.

2 Q. All right. Sometimes we'll do that with judges  
3 even after they're no longer judges, call them Judge or  
4 Honorable or...

5 So Mr. Petteway, Constable Petteway, have  
6 you been deposed before?

7 A. Yes.

8 Q. And how many times have you been deposed?

9 A. I believe once.

10 Q. Once. Was that in -- what case was that in?

11 A. It was in regards to the case of the JP  
12 constable -- or redistricting precinct case.

13 Q. Do you remember the year, approximately, that  
14 you were deposed?

15 A. I don't remember exactly. It was somewhere  
16 around 2011, 2012, somewhere around there.

17 Q. So it's been a while?

18 A. Yes.

19 Q. So just really quickly, and I'm sure you've  
20 talked a little bit about this with your counsel, but if  
21 you can't hear me today because I'm a soft speaker or if  
22 you don't understand my questions, just please ask me to  
23 rephrase and I'll repeat or speak up. And then other  
24 than that, if you need a break, let me know. We'll take  
25 a break. Hopefully, we can get you out of here pretty

1 quickly, though. Okay?

2 A. Okay.

3 Q. All right. You've testified in trial before.

4 Correct?

5 A. Yes.

6 Q. About how many times?

7 A. In reference to this case, once. To the prior  
8 case, once.

9 Q. And that would be the same case that you were  
10 deposited in before. Correct?

11 A. Yes.

12 Q. All right. And then outside of this  
13 litigation, have you testified in trial -- or the prior  
14 litigation, sorry?

15 A. I mean, yeah, in -- you know, in the past I've  
16 been -- I've worked sheriff's department, so I, you  
17 know, worked traffic. And so I've been in, like, JP  
18 trials, but other than that, not anything other than at  
19 this level.

20 Q. Okay. Let's talk a little bit about your  
21 background. And can you state your address for the  
22 record, please?

23 A. 1406 Avenue N 1/2, Galveston, Texas 77550.

24 Q. And how long have you lived there?

25 A. Approximately 30 years, give or take.

1 Q. Okay. And let's talk about your educational  
2 history. Where did you go to high school?

3 A. Galveston Ball.

4 Q. Galveston Ball, and you graduated from Ball in  
5 what year?

6 A. '79.

7 Q. And what did you do after Ball High School?

8 A. I went to Sul Ross University.

9 Q. Okay. And what did you study there?

10 A. I don't recall.

11 Q. Okay. And did you obtain a degree from  
12 Sul Ross?

13 A. No.

14 Q. How long -- how long were you there?

15 A. I only stayed there approximately a semester.

16 Q. Okay. And then did you come back home to  
17 Galveston?

18 A. Yes.

19 Q. Okay. Let's talk about your work career. When  
20 you returned back home from Sul Ross, what did you do  
21 for work?

22 A. I worked in a service station.

23 Q. Okay. And when did you become involved in law  
24 enforcement?

25 A. 1981.

1 Q. All right. What got you involved?

2 A. I had someone that came to me and -- and became  
3 fond of me. I don't -- his name is Father Charles. He  
4 was a sheriff's department chaplain, and he felt that I  
5 would be good working there; so he assisted me in  
6 employment there.

7 Q. Okay. And how did you start your employment?  
8 What job did you begin with?

9 A. I worked as a jailer.

10 Q. Okay. And how long did you -- was that at the  
11 Galveston County?

12 A. Galveston County Sheriff's Department.

13 Q. Sure. And so that was at the Galveston County  
14 Jail?

15 A. Yes.

16 Q. And how long did you work as a jailer there?

17 A. Approximately two years, give or take.

18 Q. Okay. And so that would have been until  
19 approximately 1983. Is that correct?

20 A. Give or take.

21 Q. Sure. It's been a long time. Right?

22 A. Yes.

23 Q. Okay. After your time as a jailer, where did  
24 you -- what did you do next?

25 A. I went on patrol for the Galveston County

1 Sheriff's Department.

2 Q. And how long were you on patrol?

3 A. I was on patrol till, again --

4 (Brief interruption.)

5 A. Oh, excuse me.

6 Q. (BY MS. OLALDE) No worries. I like that ring  
7 tone.

8 MR. BARON: I was thinking there's a dog  
9 here.

10 THE WITNESS: Yeah.

11 A. I was -- I was on patrol till -- again, I don't  
12 have specific dates. I would say '88, '89, somewhere  
13 around there.

14 Q. (BY MS. OLALDE) What caused you to stop being  
15 a jailer and decide to change and go on patrol?

16 A. I went on -- I went on patrol realistically  
17 because -- because I believe that the -- it was kind of  
18 like a balance and a -- I believe that a -- the other  
19 African American left patrol, and so I was brought out  
20 to patrol.

21 Q. Okay. And you were there from approximately  
22 '83 to about '88 to '89, so maybe five, six years,  
23 somewhere in that ballpark?

24 A. Somewhere in there.

25 Q. Okay.

1           A. I don't have specific dates in my mind right  
2 now, so give or take.

3           Q. I wouldn't be able to tell you if you were  
4 asking me these questions, so not specifically.

5                       After patrol, what did you do?

6           A. I became detective in the warrant division.

7           Q. How long were you a detective for?

8           A. Approximately three years. Three or four  
9 years, give or take.

10          Q. What caused you to change from patrol to  
11 becoming a detective in the warrant division?

12          A. Well, I think kind of, again, an African  
13 American, and I do remember his name, Jimmy McClane had  
14 a heart attack on duty, and then I was brought from  
15 patrol to the warrant division.

16          Q. Okay.

17          A. He was also an African American.

18          Q. Were you happy to change from going on to  
19 patrol to going to the warrant division? Was that a  
20 good change?

21          A. Yes.

22          Q. Okay. How long were you with the warrant  
23 division?

24          A. Again, probably, you know -- you know, three --  
25 approximately three years, give or take.

1 Q. Okay. And what did you do after that?

2 A. At that time I ran for constable.

3 Q. And you were first elected in what year?

4 A. I was elected in 1992, took office in '93.

5 Q. And you were elected the first time you ran.

6 Correct?

7 A. Yes.

8 Q. Okay. Do you remember who you -- were you  
9 opposed in the primary? Was there a primary? I'm  
10 trying to remember.

11 A. Yes.

12 Q. Were you opposed in the primary?

13 A. Yes.

14 Q. Who was your opposition?

15 A. Danny Sendejas, Tarris Woods, Rick Pearcy, and  
16 Pete Martorell. Martorell, I believe. I believe that  
17 was Pete Martorell.

18 Q. Okay. And they were all running as Democrats?

19 A. Yes.

20 Q. And you ran as a Democrat?

21 A. Yes.

22 Q. Have you always been a Democrat?

23 A. Yes.

24 Q. Have you ever voted for a Republican?

25 A. Yes.

1 Q. What Republicans have you voted for?

2 A. I've only voted for one. It was Judge John  
3 Ellisor.

4 Q. He's a good judge.

5 A. He was 22nd [sic] District Court judge.

6 Q. Did you know your opponents in the 1992  
7 election: Danny Sendejas, Tarris Woods --

8 A. Yes, I knew them.

9 Q. Okay. And was there any dirt slinging in the  
10 campaign or was it all pretty professional?

11 A. Well, it was -- it was -- it was professional,  
12 other than with the -- Tarris Woods, and it was just a  
13 -- and it was just a few incidents, but it was no big  
14 deal.

15 Q. What was -- what were the incidents with Tarris  
16 Woods?

17 A. He was just very opinionated.

18 Q. On what topics?

19 A. Everything.

20 Q. Can you give me a specific?

21 A. I mean, just -- I mean, nothing that I could  
22 give you right now.

23 Q. Sure.

24 A. Just -- just everything.

25 Q. But it wasn't a racially biased or racially

1 motivated comment or opinion that he was putting out  
2 into the public or was it?

3 A. No.

4 Q. Okay.

5 A. He was African American as well.

6 Q. Mm-hmm. How many times were you reelected  
7 after your initial election?

8 A. Five additional.

9 Q. And --

10 A. Served 24 years.

11 Q. That was going to be my next question.

12 Did you -- when did you stop running or  
13 when did you decide not to run again?

14 A. I can't re- -- I can't remember -- remember the  
15 year. But the -- the -- it was -- it was right after  
16 the initiation of the new JP constable precinct, so  
17 whatever year that was.

18 Q. Okay. So let's go back to '92. What constable  
19 precinct did you run and were elected for?

20 A. I was elected to Precinct 2 in Galveston  
21 County.

22 Q. And you served as constable in Precinct 2 up --  
23 for the entire 24-year period?

24 A. Yes.

25 Q. You've been involved in other lawsuits against

1 the county. Correct?

2 A. Yes.

3 Q. Which other lawsuits have you been involved in?

4 A. I've been elect -- I mean, I've been involved  
5 in a lawsuit in reference to the redistricting of the JP  
6 constable precincts; that's it.

7 Q. Okay. No other lawsuit that you can recall?

8 A. I can't recall any other.

9 Q. Okay. Nothing about the Commissioners Court  
10 precincts, nothing like that, prior to this lawsuit?

11 A. No, other than the --

12 Q. Okay.

13 A. Other than the current precinct -- the current  
14 lawsuit.

15 Q. The 2021 Commissioner Court plan?

16 A. Yes.

17 Q. Okay. What about the 2010-2011 redistricting  
18 cycle? Do you recall having any involvement in a  
19 lawsuit with respect to that?

20 A. I don't believe, but I don't recall.

21 Q. Sure. Sure. Can you tell me how you became --  
22 without telling me any conversations that you would have  
23 had with an attorney, how did you first become involved  
24 in this particular lawsuit?

25 A. Well, after -- after I found out, after I

1 | observed the current commissioner precincts were being  
2 | adopted, I contacted attorney Neil Baron in reference to  
3 | that.

4 | Q. Okay. And after you contacted Neil Baron, you  
5 | became a plaintiff in this lawsuit?

6 | A. Yes.

7 | Q. Do you know about how long in between your  
8 | first contact and when you became a plaintiff?

9 | A. Say that again.

10 | Q. Sure. How long between the time you reached  
11 | out to Neil Baron and the time that you became a  
12 | plaintiff in this lawsuit, do you know?

13 | A. Oh, I don't -- I don't recall.

14 | Q. Sure. When did you first find out about the  
15 | redistricting maps in the 2021 cycle?

16 | A. Yeah. Once -- pretty much once I observed in  
17 | the newspaper the map that was being adopted.

18 | Q. Okay. Did you ever see the two map options on  
19 | the county website or in the newspaper?

20 | A. I don't recall. I don't recall seeing that  
21 | prior to seeing which one was adopted.

22 | Q. Okay. And did you attend the November 12th  
23 | adoption hearing?

24 | A. No.

25 | Q. Okay. Did you talk with anybody about the two

1 options --

2 A. No.

3 Q. -- of the maps -- sorry, I just have to get the  
4 entire question out.

5 A. Okay. Sorry.

6 Q. No, no, no. You're good. You're good. And  
7 sometimes my questions are slow, so you're like, I know  
8 what you're going to say.

9 But did you -- you didn't talk to anybody  
10 about the two options of the maps before the  
11 November 12th, 2021 meeting?

12 A. No.

13 Q. Okay. Did you talk to anybody -- outside of  
14 attorneys, not attorneys, did you talk to anybody in the  
15 community about the adopted map after November 12th,  
16 2021?

17 A. I would imagine I probably would, but I  
18 can't -- I can't state who or anything like that. I'm  
19 not sure.

20 Q. Okay. What are your concerns about the map  
21 that was adopted?

22 A. Well, my concern is that I feel that the maps  
23 were unfairly initiated, drawn, and I feel that it  
24 eliminated the opportunity for a minority candidate to  
25 represent the people of that prior precinct.

1 Q. And you mean Precinct 3?

2 A. Yes.

3 Q. What precinct do you currently live in?

4 Commissioners precinct, sorry.

5 A. With the new map or the prior map?

6 Q. Let's start with the new map.

7 A. With the new map, I reside in Precinct 2.

8 Q. And with the prior map?

9 A. I resided in Precinct 3.

10 Q. Okay. So when we're going back and talking  
11 about your concerns about the map, one of the concerns  
12 that you said was that you are concerned that it won't  
13 allow minorities to elect the candidate of their choice.  
14 Is that correct?

15 A. Yes.

16 Q. Can you tell me why?

17 MS. REYES: Object to form.

18 A. Ask that question again, please.

19 Q. (BY MS. OLALDE) Absolutely, yeah.

20 So what are the reasons? What are the  
21 facts that inform your concern that you don't believe  
22 minorities could elect the candidate of their choice in  
23 Precinct 3?

24 MS. REYES: Same objection.

25 A. Because -- because I felt the -- the prior map

1 was -- was -- was affected for the minority community  
2 and -- and with the new adopted maps, there are  
3 different candidates that don't represent the -- the  
4 same interest of the people of the prior map.

5 Q. (BY MS. OLALDE) Okay. Okay. Do you know  
6 Stephen Holmes, Commissioner Stephen Holmes?

7 A. I do.

8 Q. How long have you known Commissioner Stephen  
9 Holmes?

10 A. 15, 20 years, give or take. I can't -- I can't  
11 pinpoint a specific length of time.

12 Q. Do you interact with him in the community at  
13 all?

14 A. Yes. I have, yes.

15 Q. How -- how do you interact with him? Like, in  
16 what scenarios would you interact with  
17 Commissioner Holmes?

18 A. Well, I've benefit- -- I've interacted with him  
19 in -- you know, prior as constable in the needs of  
20 the -- of my -- my precinct, and also with -- and the  
21 needs of the, you know, Precinct 3, and just in  
22 Galveston County affairs all together, not just  
23 Precinct 3.

24 Q. Sure. So in a work capacity, you've had  
25 communications with Commissioner Holmes?

1 A. Yes.

2 Q. What about outside work?

3 A. No.

4 Q. No? Okay. Excuse me.

5 A. I mean, other than -- other than maybe some  
6 community affairs or something like that, other than  
7 that. But nothing social.

8 Q. Sure. What kind of community affairs?

9 A. Well, I would -- you know, he has -- for  
10 instance, he has a yearly community -- community  
11 functions for the senior citizens, and, you know, I  
12 would attend those things.

13 Q. Okay. Would you typically go every year?

14 A. Not every year.

15 Q. Sure. And when you attended, would you be able  
16 to have a conversation with Commissioner Holmes or --

17 A. Perhaps.

18 Q. Okay.

19 A. I mean, I wouldn't go there and not talk to  
20 him.

21 Q. Okay. You mentioned precinct needs that you  
22 would have had to discuss with Commissioner Holmes when  
23 you were serving as a constable. Can you tell me what  
24 those needs were?

25 A. Well, it would be needs that would facilitate

1 my office to benefit the constituents of my precinct.

2 Q. Sure. Can you give me examples, though?

3 A. I mean, just, you know, funding.

4 Q. Mm-hmm, sure. What else?

5 A. Basically, funding. I can't think of anything  
6 else that I can think of at this time.

7 Q. Okay. So when you were discussing funding with  
8 Commissioner Holmes, what kind of funding were you  
9 concerned about?

10 A. Equipment, uniforms.

11 Q. And was he able to help you?

12 A. Well, not all the time. I mean -- I mean, he  
13 would try, but he was only one vote.

14 Q. Did you -- have you ever attended Commissioner  
15 Court meetings?

16 A. I have.

17 Q. And, generally, when would you attend  
18 Commissioner Court meetings?

19 A. I mean, when I felt necessary.

20 Q. Okay. Would that be for, like, a budget type  
21 of an issue or would there be other issues?

22 A. If there was -- whenever there was an issue  
23 that was important to me, if it was budget or anything  
24 that I felt that was important to me, my office, or my  
25 precinct.

1 Q. Okay. Can you give me examples of things that  
2 you -- or can you give me some examples of meetings that  
3 you've attended, outside of budget, that you thought was  
4 important to you?

5 A. Talking about just Commissioners Court?

6 Q. Sure.

7 A. Maybe, again, funding of personnel.

8 Q. Okay. What about things that would interest  
9 you personally? Would you attend Commissioners Court  
10 for things outside of work interests, other issues?

11 A. I mean, I would, but, I mean, there was nothing  
12 that I -- I never attended a Commissioner Court meeting  
13 for me personally. I've never done that.

14 Q. Okay.

15 A. There was no reason to.

16 Q. Okay. Have you ever e-mailed with --

17 A. So when you're saying "personally" --

18 Q. Sure.

19 A. When you're saying "personally," what are you  
20 meaning? Explain that to me.

21 Q. Absolutely. So attending Commissioners Court  
22 because you're concerned about funding for your office  
23 as a constable? Just in my brain, I would --

24 A. Well, I kind of answered that. I'm -- when I  
25 hear you say "personally," that is Terry Petteway, a

1 resident of Galveston County.

2 Q. That's exactly right.

3 A. So is that what you're asking?

4 Q. That is exactly right, yes, sir.

5 A. I've never -- I've never -- I've never attended  
6 a Commissioners Court meeting for Terry Petteway, the  
7 citizen of Galveston.

8 Q. Okay. Have you ever e-mailed or texted with  
9 Commissioner Holmes?

10 A. I mean -- I mean, not that I can recall. I'm  
11 not going to say I never have, but, I mean, not that I  
12 can recall.

13 Q. Okay. And I'll break it down. So you don't  
14 recall any -- having any e-mail correspondence with  
15 Commissioner Holmes?

16 A. I don't -- nothing that I can recall.

17 Q. Sure. Text messaging, is that something that  
18 you think you would have done with Commissioner Holmes?

19 A. Again, not that I can recall. I'm not going to  
20 say --

21 Q. Yeah.

22 A. I'm not saying no to any one of them, but I'm  
23 just saying, just personally, not that I can recall.  
24 And if it had been, it's been a very long time.

25 Q. Understood. Understood. What about other

1 commissioners? Would you ever reach out to other  
2 commissioners to discuss the needs of your -- of your  
3 office as constable?

4 A. I have.

5 Q. Which commissioners?

6 A. The -- none of the current commissioners. Only  
7 one probably, Bryan Lamb.

8 Q. Okay.

9 A. He and me was commissioner of Precinct 2 prior  
10 to Commissioner Giusti being there.

11 Q. And when -- when did he stop being a  
12 commissioner, do you recall?

13 A. I don't know. I'm not sure.

14 Q. Do you remember what you would have talked  
15 about Commissioner Lamb -- talked about with  
16 Commissioner Lamb?

17 A. The same that I spoke with -- with  
18 Commissioner Holmes.

19 Q. Okay. What about for any kind of, you know,  
20 Terry Petteway, the individual, or the community? Would  
21 you have had any conversations with any commissioner  
22 about those types of issues?

23 A. Only interaction I had with any commissioner  
24 would have had to do with pre- -- with Constable  
25 Precinct 2.

1 Q. Okay.

2 A. That would be it. Nothing -- nothing personal.

3 Q. Sure.

4 A. Or anything outside of -- of the -- you know,  
5 the Office of Constable, other than attending Stephen  
6 Holmes's event.

7 Q. Okay. Do you believe that in the current  
8 Commissioner Precinct 3 that a Democrat could be  
9 elected?

10 MS. REYES: Object to form.

11 A. No.

12 Q. (BY MS. OLALDE) Okay. And why not?

13 MS. REYES: Same objection.

14 A. Because -- because -- I mean, I don't have  
15 the -- you know, the statistics, but I don't believe  
16 that -- that the area would provide the opportunity, but  
17 that's just my personal opinion.

18 Q. (BY MS. OLALDE) Sure.

19 A. That's not -- that's not me having numbers in  
20 front of me.

21 Q. Sure. And that's a good point to make. I  
22 mean, your involvement in this lawsuit, you're not here  
23 to give legal opinions. Correct?

24 A. No.

25 Q. And you're not here to give statistical

1 analyses for the lawsuit. Correct?

2 A. No.

3 Q. So your purpose and your involvement in this  
4 lawsuit is to provide facts. Is that an accurate  
5 statement?

6 A. As best -- facts as best that I can.

7 Q. Okay. Do you believe Commissioner Holmes could  
8 be reelected if he were to run in the current -- I guess  
9 let me strike that.

10 Do you think Commissioner Holmes could be  
11 reelected if he decides to run again?

12 MS. REYES: Objection; form.

13 Q. (BY MS. OLALDE) As commissioner?

14 A. In the current precinct or the prior precinct?

15 Q. Current Precinct 3?

16 A. In the current Precinct 3? You know, I don't  
17 know because I don't handle the elections or anything,  
18 but just in my opinion --

19 Q. Mm-hmm.

20 A. -- I don't think that he could.

21 Q. Can you tell me why?

22 A. I don't think that he -- I don't think that he  
23 could because of his voting constituency as is the --  
24 was available in his prior -- in the prior precinct.  
25 That voting base is not there, and I think that would

1 present a problem for him.

2 Q. Okay. He was a commissioner prior to this last  
3 redistricting cycle for approximately 20 -- 20 years.

4 Is that correct?

5 A. That's something -- he would have to answer  
6 that.

7 Q. Sure. You just don't know?

8 A. No.

9 Q. Sure. Do you know whether he's well-known in  
10 Galveston County?

11 MS. REYES: Objection; form.

12 Q. (BY MS. OLALDE) Just if you know.

13 A. I mean, I don't know. That's his question. I  
14 don't know.

15 Q. Sure.

16 A. I don't know.

17 Q. I get it. I get it. And to kind of  
18 short-circuit some of this, are you very familiar with  
19 the constituency up in the current Precinct 3 for how  
20 they vote?

21 A. In my -- me?

22 Q. Yes, you.

23 MS. REYES: Objection; form.

24 THE WITNESS: Oh, I'm sorry. I'm sorry.

25 MR. BARON: It's okay. These are normal

1 problems during a deposition. Just relax. Let her  
2 finish her question.

3 THE WITNESS: Okay.

4 MR. BARON: Let her make any objections she  
5 makes, and then go ahead and give your answer. You're  
6 doing fine.

7 THE WITNESS: All right.

8 A. I have no idea.

9 Q. (BY MS. OLALDE) Okay. Oh, did anybody ever  
10 ask you to gather documents so that they could be  
11 reviewed and produced in this case?

12 MS. REYES: Objection to the extent it  
13 calls for attorney work product or attorney/client  
14 privileged communication.

15 MS. OLALDE: Sure.

16 Q. (BY MS. OLALDE) And just to be very clear, I  
17 don't want to know the substance of any conversations  
18 that you had with attorneys. Just did -- let me change  
19 my question.

20 Did you ever look for documents that would  
21 be relevant so that you could give them to your counsel?

22 A. Yes.

23 Q. Okay. And where did you look for documents?

24 A. In my e-mail.

25 Q. Okay. And is that your personal e-mail?

1 A. Yes.

2 Q. And what is the e-mail address?

3 A. It was my personal e-mail and -- but I don't --  
4 and I was actually looking in my work e-mail, but I  
5 don't do anything other than work in my work e-mail.

6 Q. Okay.

7 A. My personal e-mail is tdp2c10@yahoo.com.

8 Q. And is it fair to say you have had that  
9 personal e-mail address for a long time?

10 A. I have.

11 Q. And do you have any other personal e-mail  
12 addresses?

13 A. No.

14 Q. Okay. And so you looked in your personal  
15 e-mail address, and where else did you look?

16 A. Well, let me go back.

17 Q. Sure.

18 A. Now, at one time I tried to create another  
19 e-mail, so I don't know if it ever went through or not  
20 but I never used that. So -- and I don't want to say  
21 that because I don't want it to be researched and it  
22 come back that it was one.

23 Q. Right.

24 A. So if you do research it and you find that,  
25 you'll never find nothing on it because I never used it.

1 Q. No problem. No problem. But did you recover  
2 any responsive e-mails in your personal e-mail account  
3 that you searched?

4 A. No.

5 Q. Sorry. No. Okay. What about text messages?  
6 Did you look for any text messages that would be  
7 responsive and give them to your attorneys?

8 A. Yes.

9 Q. Okay. Did you find any text messages to give  
10 to your attorneys?

11 A. No.

12 Q. Okay. And maybe this is a good time, too, to  
13 talk about when you were going through your text  
14 messages, did you have any -- do you recall having any  
15 text messages with Commissioner Holmes?

16 A. No.

17 Q. Any other individual that you would have text  
18 with -- texted with about the redistricting in 2021?

19 MS. REYES: Objection to the extent that it  
20 calls for disclosure of attorney work product or  
21 attorney/client communication.

22 A. No.

23 Q. (BY MS. OLALDE) Okay.

24 A. I mean, other than if any -- if anybody,  
25 probably Mr. Baron.

1 Q. Right. And I don't want to know about your  
2 attorneys. I mean, that's -- that's --

3 A. I can't -- I can't recall because, you know, I  
4 delete text messages anyway. So if it was, it would  
5 probably be with Mr. Baron.

6 Q. Okay. And so when you say you delete text  
7 messages, what's your -- how do you usually handle them?  
8 You get a text messages, you read it, and then when  
9 you're done with the string you swipe and delete it, or  
10 how does that work?

11 A. Ask that question again.

12 Q. Sure. When you said that you usually delete  
13 text messages, what's your process? What do you usually  
14 do? How long -- we'll start with how long do you keep  
15 them?

16 A. It's just -- you know, it just depends. It  
17 just depends on who it might be, and basically text  
18 messages that I keep is probably family.

19 Q. Okay. But if it were something to do with  
20 work, for example, when you were serving as a constable,  
21 would you have deleted that from your personal phone?

22 A. What do you mean by work?

23 Q. Sure. Did you ever receive work e-mail -- or  
24 work text messages to your personal phone or did you  
25 have a separate device you used for that?

1 A. So you're speaking of when I'm conducting  
2 business?

3 Q. Mm-hmm.

4 A. I never use my personal phone to conduct any  
5 county business.

6 Q. Okay. Did anybody ever text you about county  
7 business on your personal phone?

8 A. No.

9 Q. Okay. And if they would, you would have  
10 deleted it and followed up on your work phone?

11 A. If I have -- if I have -- well, I just only  
12 recently got a work phone.

13 Q. Sure.

14 A. But -- but I do -- I do absolutely no county  
15 business on my personal phone.

16 Q. Okay. When you decided not to run again,  
17 what -- what did you decide to do? What was your work  
18 after that?

19 A. When I -- after I retired, I became a reserve  
20 with Constable Rose, Constable Precinct 3 in Galveston  
21 County.

22 Q. And have you been in that position ever since?

23 A. I stayed as -- in the reserve role probably  
24 about five or six months. Then I became full time.

25 Q. Okay. And that's your position currently?

1 A. Yes.

2 Q. And what did you do -- or what are your typical  
3 activities in that position, your day-to-day?

4 A. Serve and process, different civil process,  
5 work as bailiff in the courtroom, and any other function  
6 that -- that's necessary.

7 Q. What areas of Galveston County does your work  
8 take you to?

9 A. Me personally or the precinct?

10 Q. You personally.

11 A. I cover the section of Precinct 3 which is  
12 located in Galveston, and also on the Bolivar Peninsula.

13 Q. Okay. And you said Precinct 3. That would be  
14 Constable Precinct 3?

15 A. Constable -- Constable -- Galveston County  
16 Constable Precinct 3.

17 Q. Okay. But is it fair to say that your work is  
18 limited to that constable precinct?

19 A. In law enforcement your work is -- is -- can be  
20 anywhere.

21 Q. Okay. And so can you give me some examples of  
22 your work-based activities that would take you outside  
23 of Constable Precinct 3?

24 A. Well, I mean, anything that happened in  
25 Galveston, because Galveston is covered by two separate

1 precincts. So -- so if -- you know, if a con- -- if a  
2 precinct line is here and something happens over here,  
3 then I can't turn my head because it's not over here.  
4 So that's -- so -- and that's -- and that's anywhere in  
5 Galveston County. But definitely in Galveston because  
6 Galveston, itself, has two different precincts.

7 Q. Okay. And you're not currently working as  
8 patrol, though. Correct?

9 A. Not as a normal patrol.

10 Q. But serving warrants. Is that correct?

11 A. All types civil process.

12 Q. Sure. Okay.

13 A. Not technically patrol, but I'm in a marked  
14 unit.

15 Q. Yeah.

16 A. So anytime you're in a marked unit, you're  
17 basically patrolling.

18 Q. If you see something, you would need to --

19 A. Yes.

20 Q. Makes sense.

21 What organizations are you involved in?

22 MS. REYES: Objection to form.

23 Q. (BY MS. OLALDE) Currently?

24 A. Member of the Galveston County Coalition of  
25 Black Democrats.

1 Q. And how long have you been a member of that  
2 organization?

3 A. 15, 20 years approximately.

4 Q. Have you ever had an officer position with the  
5 organization?

6 A. No.

7 Q. And what do you typically do with the Galveston  
8 County Coalition of Black Democrats?

9 A. Attend meetings and a voting member.

10 Q. Okay. What other organizations are you a part  
11 of?

12 MS. REYES: Object to form.

13 A. Currently, that's -- currently, that's probably  
14 it that I can think of at this time.

15 Q. (BY MS. OLALDE) Are you a member of the NAACP?

16 A. No.

17 Q. Any chapter?

18 A. No.

19 Q. Are you a member of LULAC, any chapter?

20 A. No.

21 Q. What about Old Central? Are you serving on the  
22 board at Old Central?

23 A. No.

24 Q. When did that stop?

25 A. I've never been on the board.

1 Q. Okay. Have you ever been active in that  
2 organization at all or no?

3 A. I'm not -- I'm not active in Old Central.

4 Q. Okay. And circling back to paper -- paper  
5 documents. Did you look for any paper documents that  
6 would have been related to the subject matter of this  
7 case?

8 A. Nothing, other than, you know, documents  
9 involved in, you know, past lawsuits.

10 Q. Pleadings and things. Right?

11 A. Yes.

12 Q. But did you ever have any handwritten notes or  
13 anything that maybe you would have printed out and kept  
14 that related to the redistricting maps?

15 MS. REYES: Objection to the extent it  
16 calls for attorney work product or attorney/client  
17 privileged communication.

18 A. No.

19 Q. (BY MS. OLALDE) Okay. You had mentioned that  
20 you learned about the adoption of the 2021 map for the  
21 commissioners precincts when you read the paper. Is  
22 that correct?

23 A. Yes.

24 Q. What paper was it?

25 A. Galveston Daily News.

1 Q. Are there any other news sources that you read  
2 on a regular basis?

3 A. No.

4 Q. Do you read the Galveston County Daily News on  
5 a regular basis?

6 A. I prescribe to it. I mean, I get the paper, so  
7 pretty much.

8 Q. Is that an online or like an actual paper  
9 format?

10 A. If -- if -- if I get it, I probably read the  
11 physical paper.

12 Q. Okay. And when you -- when you first read  
13 about the adoption of the maps, what did you do?

14 MS. REYES: Objection; form.

15 Q. (BY MS. OLALDE) Who was the first person that  
16 you recall speaking with about the maps?

17 MS. REYES: I'm going to object to the  
18 extent it calls for attorney/client communication.

19 A. I can't recall anybody, other than --

20 Q. (BY MS. OLALDE) Counsel?

21 A. -- Mr. Baron.

22 Q. Okay.

23 A. I mean, I can't recall this.

24 Q. Apart from the Galveston County Daily News,  
25 what do you -- what do you do to stay apprised of the

1 events that are going on within the county?

2 A. Nothing.

3 Q. Okay.

4 A. Nothing that I can say.

5 Q. Maybe talking to people? Are there any other  
6 places you get information or news or the goings-on?

7 A. I mean -- I mean, I talk to people, but I'm  
8 not -- but there's no one that I -- specifically, that I  
9 can say that I talk to that -- that gives me information  
10 of what's going on. So other than reading The Daily  
11 News, you know, that's probably going to be it.

12 Q. I know sometimes people will get like a news,  
13 you know, summary in their e-mail. Do you ever get  
14 e-mails with, you know, news summaries or anything like  
15 that?

16 A. No.

17 Q. When you --

18 A. News summaries from -- from -- from national  
19 news or what's going on in Galveston?

20 Q. What's going on in Galveston.

21 A. No.

22 Q. When -- do you get news summaries from the  
23 national news?

24 A. Yeah.

25 Q. What sources are those?

1           A. I can't -- I can't think of -- I can't think of  
2 any right now.

3           Q. You attend monthly meetings for the Galveston  
4 Coalition of Black Democrats. Correct?

5           A. I attend meetings, not -- not monthly.

6           Q. Okay. Do you receive news and get updates on  
7 what's going on in the community from those meetings?

8           A. If there's something that needs to be passed  
9 on, yeah.

10          Q. Okay. And did you talk about the 2021  
11 redistricting maps at any of those meetings or did  
12 anybody talk about them at any of those meetings?

13          A. I can't recall. I'm not saying that it didn't  
14 happen, but I just can't recall.

15          Q. Would you describe yourself as politically  
16 engaged?

17          A. What would that mean?

18          Q. Sure. Like, do you follow politics on a local  
19 basis?

20          A. I would say yes.

21          Q. Okay. And you vote regularly. Is that also  
22 true?

23          A. Yes.

24          Q. Okay. Do you vote in Democratic primaries?

25          A. Yes.

1 Q. Okay. Do you have any experience or have you  
2 ever worked to support somebody when they're running in  
3 their campaign in Galveston County?

4 A. Only my -- no.

5 Q. Okay. Only your own?

6 A. Only my own.

7 Q. Did you ever have like a campaign staff manager  
8 or somebody to help you with your campaigns?

9 You can ignore Mr. Baron and his laughing,  
10 for the record.

11 MR. BARON: I'm sorry. It's just he  
12 wishes.

13 A. No.

14 Q. (BY MS. OLALDE) No. Okay. And since you did  
15 run opposed -- - did you always run opposed? Were there  
16 ever any years that you didn't run opposed?

17 A. I only opposed my initial year.

18 Q. Your initial year, okay. What would you do to  
19 campaign for -- what did you do to campaign for your  
20 first year running?

21 A. Walk blocks of ten, tours, attend various  
22 meetings.

23 Q. Get to know the community?

24 A. Yes.

25 Q. Okay. Yard signs, things like that?

1 A. Yes.

2 Q. Did your methods of campaigning change  
3 throughout the years?

4 MS. REYES: Objection; form.

5 A. No.

6 Q. (BY MS. OLALDE) Okay. Would you ever run  
7 again?

8 A. I would.

9 Q. Okay. Do you plan to?

10 A. I don't know.

11 Q. Okay. Do you remember the last time that you  
12 voted?

13 A. In the past election.

14 Q. Do you remember if any of your candidates won  
15 office, the candidates that you voted for?

16 A. Yes.

17 Q. Do you remember which ones?

18 A. Just Billy Williams, who's the judge in  
19 Galveston County Precinct 3; Joe Biden, the president.

20 Q. Mm-hmm. Anybody else that you can recall?

21 A. That's all I can recall.

22 Q. Is it fair to say that it's more important to  
23 you what the candidate's political ideology is than  
24 their skin color?

25 MS. REYES: Objection; form.

1 A. No.

2 Q. (BY MS. OLALDE) It's not fair to say that?

3 Can you tell me why?

4 A. Because I vote for the person I think that

5 affects my interests.

6 Q. Okay. What do you do to determine whether you  
7 think they're going to affect your interest? What kind  
8 of research would you do into the candidate?

9 A. Just listen to them.

10 Q. Okay. Anything else?

11 A. Just listen to them, and just listen to their  
12 track record, you know, and form an opinion from there.

13 Q. Would you ever vote for Dr. Robin Armstrong, if  
14 he were running in a race that you could vote in?

15 MS. REYES: Objection; form.

16 A. I don't know.

17 Q. (BY MS. OLALDE) Do you know him?

18 A. No.

19 Q. Do you know that he's a Republican?

20 A. Yes, I do.

21 Q. Have you ever spoken with him?

22 A. No.

23 Q. Do you think that he could serve your  
24 interests?

25 A. I'm not --

1 MS. REYES: Objection; form.

2 Q. (BY MS. OLALDE) You're okay.

3 A. I don't know. I'm not sure. I would have to  
4 research him. I don't know his -- you know, his -- I  
5 know he's on Commissioners Court. I know he's been  
6 appointed, but I don't know his -- you know, his record.  
7 So again, I would have to research that to see if he  
8 benefits my interests.

9 Q. And so knowing that you would have to research  
10 a candidate to see whether they would be your candidate  
11 of choice, is it fair to say that every single candidate  
12 that you would vote for at all times you would consider  
13 their skin color over their political party?

14 MS. REYES: Objection; form.

15 Q. (BY MS. OLALDE) Is that fair?

16 A. No.

17 Q. Okay. Why not?

18 A. Because the skin color or political  
19 affiliations don't matter to me. Do they -- do they  
20 represent my interests is what's important to me.

21 Q. Okay. And what interests are you looking for  
22 your candidate to be sensitive to?

23 A. The -- it would be -- the candidate that I  
24 would support would be someone that has a record of  
25 being sensitive to myself and my community, my

1 | constituency, all the above. And if they don't, then I  
2 | wouldn't support them.

3 | Q. Is there anything specific that you would want  
4 | to see your candidate have a history of doing in order  
5 | to affect your decision as to whether you would vote for  
6 | them?

7 | MS. REYES: Objection; form.

8 | A. Have a track record in benefiting the -- my  
9 | constituency in my community.

10 | Q. (BY MS. OLALDE) Okay. And what -- can you  
11 | give me some examples of what that would be?

12 | A. I just really can't think of anything at this  
13 | time. It would just -- when I see the candidate, I  
14 | would have to see their track record and see what they  
15 | voted for and what they voted against, and at that time  
16 | I can determine. I can't just -- I can't just --

17 | Q. Sure.

18 | A. -- give you an answer like that right now.

19 | Q. Sure. And if somebody has never held office  
20 | before, what would you do to kind of inform yourself  
21 | about whether they would be a good candidate for you to  
22 | vote for?

23 | A. Well, I mean, just have to check their track  
24 | record, where they've been and where they live, how they  
25 | live, and those kinds of things.

1 Q. Okay.

2 A. You just have to do a type of research asking  
3 folks who they're dealing with, who knows them.

4 Q. Okay. Do you -- do you ever research, like,  
5 voting statistics in Galveston County?

6 A. No.

7 Q. Okay. When you were running as a constable,  
8 did you ever look at voting statistics, who voted for  
9 you and who voted against you?

10 A. No.

11 Q. Okay. Do you know whether Black and Hispanic  
12 or Latino voters in Galveston County usually vote for  
13 the same candidates?

14 MS. REYES: Objection; form.

15 A. I can't -- I can't answer that -- that question  
16 with any documented proof, and I would just assume they  
17 do.

18 Q. (BY MS. OLALDE) Okay. And that's just an  
19 assumption?

20 A. That's my opinion.

21 Q. Sure. Okay. And do you have any facts to  
22 support the opinion?

23 A. No.

24 Q. Okay. Do you ever pay attention to things like  
25 voter turnout in Galveston County?

1 MS. REYES: Objection; form.

2 A. Possibly.

3 Q. (BY MS. OLALDE) Okay. And can you recall any  
4 time that you've ever paid attention to voter turnout in  
5 Galveston County?

6 A. Again, I would say I probably have. When? How  
7 many times? How often? I mean, I can't answer that at  
8 this time.

9 Q. Okay. Do you know why you would have been  
10 paying attention to it?

11 A. Just -- just randomly just -- just seeing, you  
12 know, just what happened. You know, nothing in  
13 particular.

14 Q. Okay.

15 A. I didn't pay attention to it when I was running  
16 because I was fortunate enough to run in the polls. So  
17 as long as I voted, I won.

18 Q. Yeah. Yeah. Whenever you attended  
19 Commissioners Court, was it at the Galveston County --  
20 the Galveston Island location or was it up in  
21 League City or both?

22 A. When are we speaking?

23 Q. At any time.

24 A. Mainly at the Galveston office. I just can't  
25 recall if I ever went to -- to League City. I did not

1 go, you know, during the -- the redistricting of the  
2 commissioners precinct. I never did that, but I  
3 can't -- I can't firmly say that I've never been to  
4 League City. I don't recall.

5 Q. Sure. Have you ever spoken with anybody in the  
6 media about the 2021 redistricting map?

7 A. No.

8 Q. Okay. Have you ever spoken with anyone in the  
9 media about the 2010-2011 Commissioners Court  
10 redistricting maps?

11 A. I would just -- I would say I doubt it, but I'd  
12 just say I don't -- I don't recall.

13 Q. Sure. Did you ever speak with anybody in the  
14 media about the 2013 lawsuit about the JP redistricting?

15 A. No.

16 Q. Okay.

17 A. Again, not that I recall, but I'd say no.

18 Q. Do you have an opinion as to whether or not the  
19 Commissioners Court intentionally decided or intended to  
20 discriminate against minority voters when they adopted  
21 the current 2021 Commissioners Court map?

22 MS. REYES: Objection; form.

23 A. Well, again -- again, I can't -- I can't say  
24 "yea" or "nay" to anything. I can only give you my  
25 opinion, and then the -- what my opinion is is that when

1 I look at the new map compared to the old map, it just  
2 don't look good.

3 Q. (BY MS. OLALDE) Okay. But you don't know  
4 whether it was intentional that they intended to  
5 discriminate against minority voters?

6 MS. REYES: Objection; form.

7 A. My answer is the same. It don't look good.

8 Q. (BY MS. OLALDE) Okay. But -- and, again, I  
9 don't want to -- maybe I need to rephrase my question  
10 then.

11 A. Okay.

12 Q. You don't like the effect. Right? It doesn't  
13 look good. The map doesn't look good to you. Correct?

14 A. No.

15 Q. But do you know or have any facts to say that  
16 you think that the map was intentionally discriminatory  
17 toward minority voters?

18 MS. REYES: Objection; asked and answered.

19 A. Well, my answer kind of remains the same.

20 Q. (BY MS. OLALDE) Mm-hmm.

21 A. But -- but I just kind of -- I fail to  
22 understand the necessity to rearrange the map the way  
23 that it was.

24 Q. Okay.

25 A. But I can't say that anybody had any intent

1 | but --

2 | Q. Sure.

3 | A. -- it just didn't look good.

4 | Q. Sure. Okay.

5 | MS. REYES: Counsel, we've been going for  
6 | about an hour. I wonder if this may be a good time to  
7 | take maybe like a five-, ten-minute break?

8 | MS. OLALDE: Sure. No problem.

9 | THE VIDEOGRAPHER: Okay. Going off the  
10 | record, 10:05.

11 | (Recess taken.)

12 | THE VIDEOGRAPHER: Going back on the  
13 | record, 10:25.

14 | Q. (BY MS. OLALDE) Constable Petteway, I'm going  
15 | to hand you what has not been marked but will be marked  
16 | as Exhibit 1.

17 | (Exhibit No. 1 was marked.)

18 | MS. REYES: Thank you.

19 | Q. (BY MS. OLALDE) And my first question is just  
20 | going to be whether you've seen this document before.

21 | A. I don't recall seeing it.

22 | Q. Okay. And take your time if you'd like to read  
23 | through it, and just let me know when you're ready.

24 | A. I just wish I had my glasses on. (Witness  
25 | perusing document.) I don't recall.

1 Q. Okay. Are you able to see it okay? Do we need  
2 to get glasses or...

3 A. I mean, I can see it. I haven't read the whole  
4 thing. I'm just saying I don't recall. I see a back  
5 page has a place where my name is on here.

6 Q. Do you remember whether you ever signed a final  
7 version of this?

8 A. I don't recall.

9 Q. Sure. And since you don't recall this  
10 document, is it fair to say you didn't help draft this  
11 document at all?

12 MS. REYES: Objection; form.

13 A. Again, I don't recall.

14 Q. (BY MS. OLALDE) Okay. Do you agree with  
15 Judge Pope's comments in the letter?

16 A. (Witness perusing document.) Yeah, I agree  
17 with it.

18 Q. Okay. Specifically in Paragraph 1 of the  
19 letter, do you agree that it's a "disturbing trend that  
20 is a part of today's political arena," is that "one  
21 group of elected officials is at odds with another in  
22 Galveston County"?

23 MS. REYES: Objection; form.

24 A. Rephrase that again.

25 Q. (BY MS. OLALDE) Absolutely. Yeah. Do you

1 agree with her comment in Paragraph 1 of the letter that  
2 "one group of elected officials is at odds with  
3 another"?

4 MS. REYES: Same objection.

5 A. I mean -- I mean, I can only speak personally.  
6 I'm not at odds with any -- with any -- with any of the  
7 elected officials.

8 Q. (BY MS. OLALDE) Okay. And personally, what is  
9 your opinion?

10 A. My personal opinion is that, me personally,  
11 I'm -- I'm not at odds with any other elected officials.

12 Q. Okay. Have you had conversations with  
13 Judge Pope about the 2021 redistricting of commissioner  
14 precincts?

15 MS. REYES: Objection to the extent it  
16 calls for attorney work product or attorney/client  
17 communication.

18 A. Not that I can remember.

19 Q. (BY MS. OLALDE) Okay. And I'll break that  
20 down just to kind of try to help with your memory.

21 Did you have any conversations with  
22 Judge Pope before the lawsuit was filed about  
23 redistricting?

24 MS. REYES: Objection; form.

25 A. Again, I just can't remember.

1 Q. (BY MS. OLALDE) Okay. You're aware that she  
2 was deposed in this case, too. Correct?

3 A. Yes.

4 Q. Okay. Did you talk to her about her  
5 deposition?

6 A. I haven't talked to her.

7 Q. Okay. I'm going to hand you what's been marked  
8 as Exhibit 2.

9 (Exhibit No. 2 was marked.)

10 Q. (BY MS. OLALDE) And do you recall receiving  
11 the bottom e-mail from Commissioner Holmes in this  
12 exhibit?

13 A. I can't see that.

14 MS. OLALDE: Can we take a -- can we go off  
15 the record for just one second?

16 THE VIDEOGRAPHER: Off the record.

17 (Off the record.)

18 THE VIDEOGRAPHER: Going back on the  
19 record, 10:33.

20 Q. (BY MS. OLALDE) Okay. Constable Petteway, are  
21 you able to see Exhibit 2 in front of you?

22 A. Yes.

23 Q. Do you recall receiving the bottom e-mail from  
24 Stephen Holmes?

25 A. No, I don't recall this.

1 Q. Okay. Did you ever recall looking at  
2 submission numbers for a DOJ submission back in 2011?

3 A. I don't remember.

4 Q. Okay. And then if you go up, it looks like  
5 Judge Pope, on November 26th at 6:33 p.m., attached an  
6 objection letter that she had written. Do you recall  
7 ever seeing a draft of that objection letter?

8 A. I'm just seeing if my e-mail is on there.

9 Q. Mm-hmm.

10 A. But there again, I don't -- I don't recall this  
11 since 2011.

12 Q. Sure. Would you have been involved in writing  
13 any objection letter or would that have been somebody  
14 else, do you know?

15 A. I don't recall.

16 Q. Okay.

17 A. I'm not saying -- I really don't -- I really  
18 don't remember.

19 Q. I understand. Does this e-mail -- or does this  
20 exhibit jog your memory as to whether you've had e-mails  
21 with Commissioner Holmes?

22 A. Yes.

23 Q. Okay.

24 A. Because my -- because my name appears on there.

25 Q. Right. And it looks like his e-mail is

1 commissionerholmes@verizon.net. Do you see that?

2 A. I do.

3 Q. Okay. And do you know if he had any other  
4 e-mails that he would use to send you e-mails?

5 MS. REYES: Objection; form.

6 Q. (BY MS. OLALDE) E-mail addresses, I guess?

7 A. You know, as I had testified earlier, nothing  
8 in the near past and --

9 Q. Mm-hmm.

10 A. -- as this shows 2011, there was nothing that I  
11 remember. So no, I don't remember this, and I really  
12 don't remember anything else.

13 Q. Okay.

14 A. Not -- I don't remember.

15 Q. And you don't remember if he had any other  
16 addresses or anything other than the Verizon address  
17 that's listed on this exhibit?

18 A. Who, Commissioner Holmes?

19 Q. Mm-hmm.

20 A. That's a question for him. I don't know.

21 Q. You don't know. Okay.

22 I'm going to hand you what's been marked as  
23 Exhibit 3.

24 (Exhibit No. 3 was marked.)

25 A. I wish I would have known to bring my glasses.

1 Q. (BY MS. OLALDE) Just let me know when you're  
2 ready.

3 A. Huh?

4 Q. I wanted to give you the opportunity to review  
5 it if you'd like to, or if you want we can start in with  
6 questions.

7 MR. BARON: The videographer is having a  
8 little...

9 MS. OLALDE: Do we need to go off the  
10 record?

11 THE VIDEOGRAPHER: Sure.

12 MS. OLALDE: Okay.

13 THE VIDEOGRAPHER: We're off the record,  
14 10:37.

15 (Off the record.)

16 THE VIDEOGRAPHER: Back on the record,  
17 10:38.

18 Q. (BY MS. OLALDE) So my first question just  
19 whenever you're ready is maybe who Mary Patrick is?

20 A. Mary Patrick is the -- I believe still is the  
21 president of the Galveston NAACP.

22 Q. Okay. And it does appear that you had received  
23 this e-mail from Mary Patrick through Annette Scott. Is  
24 that correct?

25 A. I don't see her name on this somewhere.

1 Q. It is.

2 A. Okay. Yeah, I see there.

3 Q. Okay. And who is Annette Scott?

4 A. I don't know if she's associated with the  
5 NAACP, but she's assistant superintendent with the  
6 school district.

7 Q. Okay.

8 A. With Galveston Independent School District.

9 Q. Do you -- do you work with her? Do you meet  
10 with her personally or --

11 A. No, no.

12 Q. Okay. Do you agree that with the subject  
13 matter or the subject line in this e-mail that is, "This  
14 is something we all need to fight if we can; if it's not  
15 too late, this should be non-partisan"?

16 MS. REYES: Objection; form.

17 A. Okay. So was this --

18 Q. (BY MS. OLALDE) I guess the question was, did  
19 you -- do you agree with the subject matter, "This is  
20 something we all need to fight if we can; if it's not  
21 too late, this should be non-partisan"?

22 MS. REYES: And same objection.

23 A. I can't -- the -- the new maps were -- I'm  
24 not -- I can't remember when the new maps were adopted.

25 Q. (BY MS. OLALDE) Sure.

1 A. Was it prior to this -- to this -- to this  
2 April 10th, '21 date?

3 Q. No, no. They were adopted later.

4 A. After that?

5 Q. Yeah. The -- I'll just represent to you that  
6 the 2021 map was adopted in November.

7 A. Well, the best answer I can give you -- that I  
8 can give you at this time, basically, in my opinion,  
9 if -- if the statement is made -- I don't recall -- I  
10 don't recall this, and I think my name -- from...

11 Q. It looks like it came from you,  
12 tdp2c10@yahoo.com.

13 A. Yes, it appears it comes from me. So again, in  
14 my opinion -- in my opinion, I feel like if the -- if  
15 the precinct lines were going to be changed from the  
16 prior to the current, I do think that -- that it needed  
17 to be contested because -- because I think that it -- it  
18 does not help the constituency of the prior Precinct 3.

19 Q. Do you think you could be reelected if you ran  
20 again today?

21 MS. REYES: Objection; form.

22 A. Anybody runs for office feels that they can be  
23 elected, so -- but anyway, it just depends what the  
24 circumstance is, that type of thing.

25 Q. (BY MS. OLALDE) Okay. I'm going to hand you

1 what's been marked as Exhibit 4.

2 (Exhibit No. 4 was marked.)

3 Q. (BY MS. OLALDE) Do you have a Facebook  
4 account?

5 A. Yes.

6 Q. Okay. I'm going to ask you if that's from  
7 your -- if you recognize that as being from your  
8 Facebook account?

9 MS. REYES: I'm sorry. Let me object to  
10 the extent that -- I don't think we can see the whole  
11 post. I think it's cut off, yeah.

12 A. I didn't have a Facebook account in 2016.

13 Q. (BY MS. OLALDE) Okay.

14 A. I don't recall -- the Facebook account that I  
15 have is probably two or three years old, so I don't -- I  
16 don't know how that would have gotten on the Facebook  
17 account for me.

18 Q. Well, let's talk about --

19 A. Well, let me read this stuff here.

20 Q. Sure. Sure.

21 MS. REYES: Again, Counsel, we can't see  
22 who posted this or when it was posted.

23 MS. OLALDE: Yeah, we could pull it up on  
24 Facebook, but...

25 A. (Witness persuing document.)

1 Q. (BY MS. OLALDE) When you're ready, I'll move  
2 on to a different question.

3 A. Yeah. I mean, I don't believe -- I don't  
4 believe that comes from my Facebook account because I  
5 don't think I had a Facebook account at that time.

6 Q. In 2016, okay.

7 MS. REYES: And --

8 MS. OLALDE: Hold on. Hold on. I'm just  
9 going to ask a different question. Did you have an  
10 objection?

11 MS. REYES: Yeah, I had an objection just  
12 for the record. I mean, you're asking him about  
13 something that he can't see the full post of.

14 MS. OLALDE: Yeah. I'm moving on, though,  
15 so...

16 Q. (BY MS. OLALDE) Do you recall the event at Old  
17 Cultural -- Old Central Cultural Center in 2016?

18 A. If -- if -- there's only one. Yeah, I believe  
19 I remember that.

20 Q. So they were honoring you; you were the guest  
21 of honor?

22 A. Okay.

23 Q. And do you recall if that was around the time  
24 you retired?

25 A. That was somewhere in -- it was prior to --

1 somewhere around there.

2 Q. Okay. What is the Old Central Cultural Center?

3 A. It's a -- it's a historical cultural center.

4 Q. Okay. And we can see its address from

5 Exhibit 4. Does that address look accurate?

6 A. Yes.

7 Q. Okay. And what -- what happens at the Old

8 Central Cultural Center?

9 MS. REYES: Objection; form.

10 Q. (BY MS. OLALDE) If you know?

11 A. What do you mean what happens there?

12 Q. Sure. What's the purpose of this cultural

13 center?

14 A. It's -- what is the purpose of it? The  
15 cultural center has, you know, artifacts from Central  
16 High School. It, you know -- it allows for -- to rent  
17 for different parties, that type of thing.

18 Q. Sure. Do you know when it formed? When it  
19 first came to be?

20 MS. REYES: Objection; form.

21 A. I don't know. I don't know.

22 Q. (BY MS. OLALDE) Okay. And you've never been  
23 involved with this center, the group or the center  
24 itself?

25 A. The only thing I do there is work security

1 there.

2 Q. Okay.

3 A. That's my only involvement, but nothing -- not  
4 Old Central Cultural Center itself.

5 Q. Okay. Do you support it, the center?

6 A. What does that mean?

7 Q. Do you ever contribute or --

8 A. I have.

9 Q. Okay. So is it fair to say that you support  
10 the center and its purpose?

11 A. I have.

12 Q. Okay. Anything you disagree with about, with  
13 the center?

14 MS. REYES: Objection; form.

15 A. Nothing that I can think of.

16 Q. (BY MS. OLALDE) Okay. Do you believe that  
17 there's a history of official discrimination in  
18 Galveston County during the time -- during the past 25  
19 years? When I say "official," what I'm meaning is  
20 coming from the government, coming from an office,  
21 coming from the Commissioners Court.

22 MS. REYES: Objection; form.

23 A. Okay. Ask that question again.

24 Q. (BY MS. OLALDE) Sure, sure. Do you believe  
25 there's a history of official discrimination in

1 Galveston County in the past 25 years?

2 A. I would say -- I would say -- I would say yes.

3 Q. Okay. Can you tell me why?

4 A. I -- I think that the -- the redrawing of the  
5 commissioners precincts from the prior to the current is  
6 -- would be.

7 Q. How?

8 A. Because -- because I feel that the minority  
9 community in the prior commissioners precinct lines, you  
10 know, gave the minority community an opportunity to  
11 elect someone that represented, you know, their  
12 interests. And I feel like the new -- the new maps have  
13 diluted that ability by -- by, you know, just chopping  
14 up the previous Precinct 3. And so I feel that by  
15 chopping up the previous Precinct 3, the people in the  
16 community, the constituency in the old Precinct 3 will  
17 never be able to vote for the person that affects their  
18 interests. And when I say the person, I'm not talking  
19 about, you know, Stephen Holmes because -- because the  
20 precinct was -- was generated for minority community to  
21 elect a person of their choice. So it wasn't for  
22 community -- I mean, for Stephen Holmes and even my  
23 prior precinct wasn't for me. It was for the minority  
24 community.

25 Q. Okay. And in your opinion, a candidate of

1 | their choice, of the minority community's choice could

2 | be white, it could be Latino, it could be --

3 | A. Yes.

4 | Q. -- any race. Is that correct?

5 | A. Yes.

6 | MS. REYES: Object to the form.

7 | THE WITNESS: Sorry.

8 | MS. REYES: That's okay.

9 | Q. (BY MS. OLALDE) So going back to -- going back  
10 | to this, just to clarify. You've given us the example  
11 | of the map to support your answer. But to be clear,  
12 | that's the effect of the map, in your opinion, not the  
13 | intent?

14 | MS. REYES: Objection; form.

15 | Q. (BY MS. OLALDE) And let me clarify because  
16 | that was a little -- that was a little vague.

17 | So you had answered that you do believe  
18 | there was a history, in your opinion, of official  
19 | discrimination in Galveston County because this map was  
20 | enacted. Is that an accurate statement?

21 | A. Well, I'm not going to say that's an accurate  
22 | statement --

23 | Q. Sure. Tell me --

24 | A. -- because I don't have the data to say, to  
25 | show that.

1 Q. Sure.

2 A. You know, that's -- you know, I think the  
3 question was brought to me based on my opinion, so  
4 that's my opinion. So -- so I can't say that I -- I've  
5 heard or seen or got any type of documentation --

6 Q. Sure.

7 A. -- to show that that was the intent.

8 Q. Exactly. Exactly. And so that was kind of my  
9 question, is you believe that the effect of the map is  
10 that a minority group in -- cannot elect their candidate  
11 of choice. Is that correct?

12 MS. REYES: Same objection.

13 A. Their candidate of choice that represents --  
14 that I feel that will represent their needs.

15 Q. (BY MS. OLALDE) Apart from the map, is there  
16 anything else that would support your answer that you  
17 believe there's been official discrimination in  
18 Galveston County in the past 25 years?

19 MS. REYES: Objection; form.

20 A. Nothing -- nothing that I can say --

21 Q. (BY MS. OLALDE) Okay.

22 A. -- at this time.

23 Q. You say but -- I just want to be clear for the  
24 record because this is our opportunity to talk before --  
25 before trial. But when you say there's nothing you can

1 | say, is it fair to say that you can't think of anything  
2 | else right now?

3 | A. There's nothing I can think of --

4 | Q. Sure.

5 | A. -- at this particular time.

6 | Q. Thank you. Have you ever seen any examples of  
7 | racism in campaigning in Galveston County?

8 | MS. REYES: Objection; form.

9 | A. Not at this time.

10 | Q. (BY MS. OLALDE) Sure. Are you aware of any  
11 | needs that Latino residents in Galveston County would  
12 | have that would be different from Black or White  
13 | residents in Galveston County?

14 | MS. REYES: Objection; form.

15 | A. Could you ask that again?

16 | Q. (BY MS. OLALDE) Sure. Are you aware of any  
17 | needs that members of the Latino community in Galveston  
18 | County would have that would be different from those  
19 | needs of maybe a White or a Black community in Galveston  
20 | County?

21 | A. I'm not sure. I'm not sure right now.

22 | Q. Okay. Are you aware of any needs that members  
23 | of the African American or Black community in Galveston  
24 | County would have that would be different from the White  
25 | or the Latino communities in Galveston County?

1 MS. REYES: Objection; form.

2 A. I can't think of any at this time.

3 Q. (BY MS. OLALDE) Sure. Are you ever aware  
4 of -- have you -- let's just talk about your own  
5 experience. Have you ever approached a commissioner for  
6 help in Galveston County and they were not responsive to  
7 your request?

8 A. I can't recall.

9 Q. Sure. Are you aware of that happening with  
10 anybody?

11 MS. REYES: Objection; form.

12 A. I can only speak for myself.

13 Q. (BY MS. OLALDE) Sure. When you served -- when  
14 you worked at the jail, were you aware or do you  
15 remember if there had been any complaints against any of  
16 the jailers made by the inmates?

17 MS. REYES: Objection; form.

18 A. I don't recall.

19 Q. (BY MS. OLALDE) Okay.

20 A. 40 years ago.

21 Q. I get it. I get it. Can you recall any  
22 complaints about race that would have been raised during  
23 your time working at the jail against jailers?

24 MS. REYES: Objection; form.

25 A. I can't recall.

1 Q. (BY MS. OLALDE) Sure. Can you recall any  
2 complaints about race that have been made against you or  
3 any of your colleagues during your time working as a  
4 constable?

5 A. Could you ask that again?

6 Q. Sure. Are you aware of any complaints against  
7 you or your colleagues during your time working with the  
8 Galveston County Sheriff's Office?

9 A. I don't -- when you say colleagues, you're  
10 saying other constables or -- I can't recall any  
11 complaints against me. I don't know about -- about  
12 them.

13 Q. Sure. And obviously none against you.  
14 Correct?

15 A. No.

16 Q. Is it fair to say -- or do you know the process  
17 that needs to take effect in order to enact a new  
18 redistricting map?

19 MS. REYES: Objection; form.

20 A. Ask that -- could you ask that again?

21 Q. (BY MS. OLALDE) Sure. Are you aware of the  
22 process that is needed in order to enact a redistricting  
23 map?

24 A. No.

25 Q. Okay. Do you know what goes into -- what

1 considerations are important when enacting a new map?

2 MS. REYES: Objection; form.

3 A. Only thing I'm kind of aware of is that the --  
4 the population.

5 Q. (BY MS. OLALDE) Okay. And what about the  
6 population?

7 A. The population has to -- it has to kind of  
8 coincide.

9 Q. Like, kind of be equal?

10 A. Yes.

11 Q. Okay. Do you know the other sitting  
12 commissioners on the Commissioners Court right now?

13 A. Yes.

14 Q. Darrell Apffel, have you spoken to him before?

15 A. In reference?

16 Q. At any time.

17 A. Sure.

18 Q. Okay. Have you ever talked with him in your  
19 capacity as an elected official in Galveston County?

20 A. Yes.

21 Q. And can you give me an example of some of those  
22 conversations?

23 A. I don't know at this time.

24 Q. Sure. Have you ever reached out to Joe Giusti  
25 for help in Precinct 2?

1 A. I don't recall.

2 Q. Okay. Have you -- what kind of -- what kind of  
3 issues would you raise to your commissioner? Let's use  
4 the individual, Terry Petteway as the individual. What  
5 kind of issues would you raise to your commissioner that  
6 they could help you with?

7 A. What do you mean by any other commissioner?

8 Q. Sure. We'll just take Commissioner Giusti for  
9 Precinct 2 right now. Can you think of any issues that  
10 you would have that you would need to call Commissioner  
11 Giusti to say, hey, this needs to be addressed by the  
12 county, just for you individually?

13 A. Why he voted for this map.

14 Q. Okay. Have you ever asked him that question?

15 A. No.

16 Q. Okay. Do you know why he voted for the map?  
17 Have you heard from anybody why he would have voted for  
18 the map?

19 A. No.

20 Q. Okay. Do you know what the other map looked  
21 like, the two options?

22 A. I've looked at them. I've looked at them, but  
23 I mean, I couldn't offer any -- any information about  
24 them.

25 Q. Sure. But did you know Commissioner Giusti,

1 before he became commissioner of the new Precinct 2?

2 A. Yes.

3 Q. And do you have an opinion about him?

4 MS. REYES: Objection; form.

5 Q. (BY MS. OLALDE) Do you have an opinion about  
6 his service as a commissioner in Galveston County?

7 A. I don't -- I don't have a basic opinion, no.

8 Q. But you -- do you have any kind of a friendly  
9 relationship with him at all or --

10 A. I do.

11 Q. Okay. He's a good guy?

12 A. To me, yes.

13 Q. Okay. Are you familiar with the racial  
14 demographics of Galveston County as a whole?

15 MS. REYES: Objection; form.

16 A. No.

17 Q. (BY MS. OLALDE) Okay. And then so is it --  
18 and I'll break -- I'll break this down a little bit.

19 Are you aware of the racial demographics of  
20 Texas City?

21 MS. REYES: Objection; form.

22 A. When it comes down to racial demographics, I  
23 wouldn't know that in any section of Galveston County.

24 Q. (BY MS. OLALDE) Sure. Okay. Okay. Is that  
25 true for Galveston Island as well?

1 A. True.

2 Q. Okay. Have you talked with any of the other  
3 plaintiffs? I know we talked about Judge Pope, but have  
4 you talked with any of the other plaintiffs about this  
5 2021 map before the lawsuit was filed?

6 MS. REYES: Objection to the extent that it  
7 calls for attorney work product or attorney/client  
8 privileged communication.

9 A. I can't -- I can't remember at this time.

10 Q. (BY MS. OLALDE) Sure. And, again, to address  
11 opposing counsel's objection, I don't want to hear about  
12 conversations that you would have had that had attorneys  
13 involved, but have you had conversations with the other  
14 plaintiffs, after the lawsuit was filed, about the facts  
15 of this 2021 map?

16 A. I don't -- I just don't recall at this time.

17 Q. Okay. Is it true that the current map -- under  
18 the current map, you believe that only Republicans could  
19 be sitting as elected commissioners in Galveston County?

20 MS. REYES: Objection; form.

21 A. Ask -- can you ask that again?

22 Q. (BY MS. OLALDE) Sure. Do you believe that  
23 only Republicans could be elected under the new map for  
24 commissioners in Galveston County?

25 MS. REYES: Same objection.

1 MS. OLALDE: Mm-hmm.

2 A. You know, just -- this is just my opinion.

3 Yes.

4 Q. (BY MS. OLALDE) Okay. Are you aware of the  
5 Tea Party? Have you heard of the Tea Party?

6 A. Yes.

7 Q. Do you think the Tea Party is still active in  
8 Galveston County?

9 MS. REYES: Objection; relevance.

10 A. (Shrugs shoulders.) I'm not sure.

11 Q. (BY MS. OLALDE) Okay.

12 MS. OLALDE: Can we go off the record for  
13 just one second?

14 MR. BARON: Sure.

15 THE VIDEOGRAPHER: Off the record.

16 (Off the record.)

17 THE VIDEOGRAPHER: Going back on the  
18 record, 11:06.

19 Q. (BY MS. OLALDE) Constable Petteway, thank you  
20 very much. Those are all the questions I have today.

21 MS. REYES: And we'll reserve for trial.

22 THE VIDEOGRAPHER: Off the record.

23 (Proceedings concluded.)

1 P-R-O-C-E-E-D-I-N-G-S

2 THE VIDEOGRAPHER: Today's March 30,  
3 year 2023. We're going on the record, 9:05 a.m. We're  
4 here for the deposition of Mr. Leon Phillips for a case  
5 filed in the United States District Court, Southern  
6 District of Texas, Galveston Division.

7 Can the attorneys please introduce  
8 themselves and who they represent?

9 MS. OLALDE: Angela Olalde and Jordan  
10 Raschke Elton for defendants.

11 MS. VALL-LLOBERA: Diana Vall-Llobera  
12 for NAACP plaintiffs and here also with Molly Zhu for  
13 double -- NAACP plaintiffs.

14 MS. KLEIN: Helen Klein on behalf of  
15 the NAACP plaintiffs as well. I'll be virtual, but I  
16 do not expect to be making any objections or anything;  
17 I'm just observing today.

18 MR. GEER: Bruce Geer on behalf of the  
19 United States.

20 THE VIDEOGRAPHER: You want to swear  
21 in the witness?

22 LEON PHILLIPS,  
23 Having been first duly sworn, was examined and  
24 testified as follows:

25 DIRECT EXAMINATION

1 BY MS. OLALDE:

2 Q. Good morning, Mr. Phillips. How are you  
3 today?

4 A. Fair to middling.

5 Q. Fair to middling. Would you please state  
6 your full name for the record, please?

7 A. Leon Phillips II.

8 Q. And what is your address, sir?

9 A. 1212 38th Street, Galveston, Texas 77550.

10 Q. And how long you lived there?

11 A. 1957 till now.

12 Q. Okay. And, Mr. Phillips, have you been  
13 deposed before?

14 A. No.

15 Q. Okay. This is your first time. Well, I  
16 wanted to go over a couple of ground rules just so that  
17 -- I know that it's kind of a weird process. But if  
18 you need a break at any time today, you just let us  
19 know; we'll take a break. The only thing I'll ask is  
20 that if I've asked a question that you answer it before  
21 we break. Does that sound fair?

22 A. Fair enough.

23 Q. Okay. And since I'm remote today and I'm --  
24 I'm usually a soft speaker, if you can't hear me for  
25 any reason or if you don't understand a question I'm

1 asking, just go ahead and -- and ask me to rephrase;

2 I'll be happy to do so, okay?

3 A. Okay.

4 Q. All right. And then there might be  
5 objections during your deposition. Unless you've been  
6 instructed not to answer, typically the process is, is  
7 your counsel or other attorneys have the right to  
8 object during the deposition, but typically you'll be  
9 providing an answer. Does that also sound fair?

10 A. Yes.

11 Q. Okay. So the last thing that's really  
12 important is that you and I try not to talk over each  
13 other because we've got to get this down into a written  
14 transcript. So I just ask that you wait till I'm done  
15 asking my question before you provide an answer. Does  
16 that sound fair?

17 A. Yes.

18 Q. Okay. Now you haven't been deposed before,  
19 but have you ever testified before in court?

20 A. Yes.

21 Q. Okay. When was that?

22 A. Probably four months ago and before that  
23 probably eight or nine years.

24 Q. Okay. And that was twice that you've  
25 testified in court, or were there more times?

1 A. Twice.

2 Q. And in the case that was four months ago,  
3 what was that case?

4 A. Property dispute.

5 Q. Okay. And the case that was eight or nine  
6 years ago, what was that case involving?

7 A. Nephew had a problem with the police.

8 Q. Was that -- were either of those cases in  
9 Galveston County?

10 A. Neither.

11 Q. Neither of them, okay. And I don't need to  
12 know the details of -- of either case, but let's see.  
13 What -- I just wanted to know what counties they were  
14 involved in.

15 A. Harris County.

16 Q. Harris, both of them were Harris?

17 A. Correct.

18 Q. Okay. All right. Now I -- I hate this  
19 question, but a lot of people have been asking it. Is  
20 there any reason that you can't give full and accurate  
21 testimony here today?

22 A. Not that I know of.

23 Q. Okay. Let's see. And just to kind of get a  
24 little bit of background, you're not a lawyer, correct?

25 A. No.

1 Q. And you're not intending to give any legal  
2 opinions in this case; is that correct?

3 A. No.

4 Q. Are you intending to provide any expert  
5 opinions in this case?

6 A. It's according to what's asked.

7 Q. Okay. Well, I'll -- I'll go about it this  
8 way. You're not a demographer, correct?

9 A. No.

10 Q. Okay. And you're not an expert with mapping  
11 software or anything like that, correct?

12 A. No. No.

13 Q. Okay. And you're not intending to provide,  
14 for example, a potential map or anything like that in  
15 this case, right?

16 A. No.

17 Q. All right. So you're -- you're here today as  
18 a fact witness, and is it your understanding that in  
19 this case your role is to provide background facts to  
20 support the claims in this case?

21 A. Yes.

22 Q. What did you do to prepare for your  
23 deposition today?

24 A. What do you mean?

25 Q. Sure. For some time, sometimes people will

1 meet with their attorneys. Now whenever I'm asking you  
2 a question, I don't want you to tell me what you talked  
3 about with your attorneys, but I can ask about things  
4 like who you met with or how long. So did you meet  
5 with counsel to prepare for your deposition today?

6 A. Yes.

7 Q. And about how many times did you meet with  
8 counsel?

9 A. Twice.

10 Q. All right, and the first time who did you  
11 meet with?

12 A. I can't call names; I have no idea. I mean I  
13 don't remember names.

14 Q. Sure. Are they sitting in the room with you  
15 today, maybe?

16 A. One.

17 Q. One is. And do you recognize the name Ms. --  
18 Ms. Hillary Klein?

19 A. Not sure.

20 Q. Okay. Are you aware of anybody being in the  
21 meeting with you who was not an attorney?

22 A. No.

23 Q. All right. And about how long did you meet  
24 with counsel that first time?

25 A. Hour and 45 minutes, something like that.

1 Q. Did you review any documents?

2 A. The first time, no -- well, yes. Yes.

3 Q. Do you remember which documents you reviewed?

4 A. Not exactly.

5 Q. Okay. Were there any emails or was it

6 articles or do you remember?

7 A. My mind's blank.

8 Q. Okay. The second time you met with your

9 counsel do you remember who you met with?

10 A. Yes.

11 Q. Who was it?

12 A. These two young ladies right here and one

13 other.

14 Q. Okay. And do you remember the name of the

15 other?

16 A. No.

17 Q. Okay. But is it your understanding that the

18 other person was also an attorney?

19 A. Correct.

20 Q. Okay. and about how long did you have that

21 second meeting for?

22 A. About the same length of time, about an hour

23 and 45 minutes to two hours.

24 Q. Okay. And did you review any documents

25 during that meeting?

1 A. Yes.

2 Q. Do you remember which documents?

3 A. Couldn't put my finger on it, no.

4 Q. Okay. Have you ever seen the interrogatory  
5 responses that -- that your plaintiffs or that you have  
6 produced in this case?

7 A. I think we saw some; I couldn't be for sure.

8 Q. Okay. Sure. Well, we can circle back to  
9 that a little bit later. Let's go back to a little bit  
10 about your background. Where did you go to high  
11 school?

12 A. Central High School, Galveston, Texas.

13 Q. That's in -- yeah, I was about to ask if  
14 that's here in Galveston, and when did you graduate  
15 Central High School?

16 A. 1966.

17 Q. You did not attend Ball High School at any  
18 time?

19 A. I went to Ball High School in 1964.

20 Q. Okay. And why did you not stay at Ball High  
21 School?

22 A. It was the beginning of integration, and I  
23 wasn't ready.

24 Q. Okay. Can you tell me a little bit about  
25 that?

1 A. What do you want to know?

2 Q. Well, the reason why you wanted to go back to  
3 Central?

4 A. I'm taking a pause because, like I said, this  
5 was the beginning of integration, so walking down the  
6 hall and having somebody go in the opposite direction  
7 and hearing, nigger, go home became more than I can  
8 handle.

9 Q. I understand. Did you have friends who had  
10 gone to Ball High School with you and also decided to  
11 go back to Central?

12 A. I think there were two others that went back,  
13 but I had some that graduated from Ball High.

14 Q. Do you remember when Central stopped being a  
15 high school and everything was completely integrated  
16 into Ball High School, do you remember when that  
17 occurred?

18 A. 1968.

19 Q. Okay.

20 A. That was the last graduating class from  
21 Central.

22 Q. From Central. When you graduated from  
23 Central High School what did you do next?

24 A. One semester at Prairie View A&M University.

25 Q. And what did you study at Prairie View?

1 A. Really didn't study anything.

2 Q. Like just introductory classes, that type of  
3 thing?

4 A. Yes, yes.

5 Q. And when you left Prairie View what did you  
6 do next?

7 A. Took a job at the Johnson Publishing Company  
8 as a salesman out of Chicago, Illinois.

9 Q. How did you find out about that position?

10 A. A friend of mine had answered an ad from a  
11 lady that was at the Jean LaFitte Hotel here in  
12 Galveston, and he called and told me that he was going  
13 to work for the Johnson Publishing Company and told me  
14 I needed to go up there and talk to her, and I did and  
15 I was hired.

16 Q. Okay. How long did you stay with the Johnson  
17 Publishing Company?

18 A. From '67 all the way through '77.

19 Q. And what did you do for that decade of time  
20 with the Johnson Company?

21 A. I was a salesman for six years, I was a  
22 handler for two years, and I was a manager for two  
23 years.

24 Q. What does a handler do?

25 A. Take people to work.

1 Q. Okay.

2 A. Hold meetings after you get back from work.

3 Q. And where were you living during the time  
4 that you were working with Johnson; were you in Texas?

5 A. My address was 1212 38th Street, but I lived  
6 in Chicago for a little bit, and then I lived in Fort  
7 Lauderdale, Florida for two years.

8 Q. And when did you live in Fort Lauderdale,  
9 which -- which two years?

10 A. '72 through '74.

11 Q. And when did you live in Chicago?

12 A. From '67 when I joined the company and until  
13 '72.

14 Q. Okay. And in 1974 did you return to  
15 Galveston?

16 A. No, in '74 I went back to work on the road as  
17 a salesman, so that would -- the permanent address  
18 became 1212 38th Street again.

19 Q. Okay. And was that also for the Johnson  
20 company?

21 A. Yes.

22 Q. All right. And then what did you do from --  
23 after 1974? I believe you'd said that you worked with  
24 Johnson until 1977; is that correct?

25 A. Correct.

1 Q. So were you a salesman from '74 to '77?

2 A. From '74 to '75, maybe part of '76 I was a  
3 handler.

4 Q. Okay. And then after that you were a  
5 manager?

6 A. And after that I was a manager.

7 Q. And for the handler and manager positions  
8 were you also on the road? I guess you worked for the  
9 handler position, correct?

10 A. For both.

11 Q. For both, okay. Where did your travels with  
12 the Johnson Company take you?

13 A. All four corners of the United States.

14 Q. After the Johnson Company, where did you go  
15 to work?

16 A. UtoteM, convenience stores.

17 Q. Okay. And that was in 1977?

18 A. '78.

19 Q. '78. And where was that located?

20 A. Houston, Texas.

21 Q. Okay. And what did you do -- how long were  
22 you there actually?

23 A. About nine months.

24 Q. Did you commute from Galveston or did you  
25 stay in Houston?

1 A. Lived in Houston.

2 Q. And then after your period in -- in -- with  
3 the job in Houston, did you go back to Galveston?

4 A. No, went to work for American Airlines and  
5 other airlines at intercontinental airport.

6 Q. Okay. And with that position I assume you  
7 also stayed in Houston; is that correct?

8 A. Correct.

9 Q. How long were you in Houston for? When did  
10 you move back to Galveston?

11 A. Moved back to Galveston in 1997.

12 Q. Got you. What triggered your move back to  
13 Galveston?

14 A. Paying for two houses didn't make sense, so  
15 the simplest thing to do -- plus I had gotten hurt on  
16 my job and wasn't able to go back to the job, so the  
17 obvious thing was to downsize, so.

18 Q. Okay. And when you said paying for two  
19 houses you had a house at your address here in  
20 Galveston as well as a house up in Houston, correct?

21 A. The house here in Galveston was fully paid  
22 for; the one in Houston wasn't.

23 Q. Okay. And was anybody staying at your house  
24 in Galveston whenever you weren't there from, let's  
25 see, '67 to -- to '97?

1           A.    My parents lived there.  My mother died in  
2    '92, my father died in '93, and I just maintained both  
3    houses.

4           Q.    I'm sorry to -- I'm sorry to hear that.  When  
5    you worked for American Airlines what was your  
6    position?

7           A.    Skycap.

8           Q.    Okay.  And was that the position that you  
9    were holding whenever you got injured on the job?

10          A.    Correct.

11          Q.    Okay.  So in 1997 when you came back to  
12    Galveston, what did you do for work?

13          A.    In 1983 I started Fat Cats Janitorial  
14    Service, and I see that brought a smile to your face,  
15    right?

16          Q.    It's still going on today, correct?

17          A.    Exactly, still going on today.

18          Q.    Okay.  And you ran that while you were  
19    working -- working with -- for American Airlines?

20          A.    Yes.

21          Q.    All right.  So you probably didn't get much  
22    sleep, did you?

23          A.    You learn how to manage things.

24          Q.    So you came back to -- to Galveston in '97  
25    and ran Fat Cat; did you do anything else?

1           A.    I opened up a plus size woman's clothing  
2 store.

3           Q.    When was that?

4           A.    In '97.

5           Q.    How long did you run the clothing store?

6           A.    Two years.

7           Q.    Where was it located?

8           A.    6 University Boulevard.  I want to say the  
9 address was 600 something.

10          Q.    Okay.  All right.  And then after the  
11 clothing store you -- you stopped with the clothing  
12 store, did you just remain with your ownership of Fat  
13 Cats, or did do you anything else for work?

14          A.    No, just that.

15          Q.    Okay.  I want to switch gears just a little  
16 bit and talk about what organizations you're involved  
17 in, and could you tell me which -- what organizations  
18 are you currently involved in today?

19          A.    I'm on the board of Old Central Carver Park  
20 Neighborhood Association.  I'm on the board for the Nia  
21 Cultural Center.  What else?  I'm the president of  
22 Galveston Coalition For Justice.  I'm on the RDA  
23 committee for the City of Galveston also.

24          Q.    Anything else that you can think of right  
25 now?

1 A. Not right now.

2 Q. All right. Are you a member of any NAACP  
3 organization?

4 A. Yes.

5 Q. Which -- which branch?

6 A. You would ask that, wouldn't you? Galveston  
7 only has one branch, so the Galveston branch.

8 Q. Okay. And I know that there are other  
9 plaintiffs; I think there's the Mainland and also  
10 Dickinson. Are you a member of either of those  
11 branches?

12 A. No.

13 Q. Okay. Are you a member of LULAC?

14 A. No, not a member.

15 Q. Okay. And you qualified not a member;  
16 what -- what were you thinking about when you made that  
17 qualification?

18 A. I've attended LULAC meetings.

19 Q. Do you know which chapter of LULAC meetings  
20 you attended?

21 A. No, I couldn't tell you.

22 Q. Was it in Galveston?

23 A. Yeah, it was in Galveston.

24 Q. Okay. Is it fair to say that you're pretty  
25 active in local politics?

1 A. Yes.

2 Q. Okay. You are on the board for Old Central  
3 Carver Park, correct?

4 A. Correct.

5 Q. How long have you been a board member?

6 A. When I came back in '97, it was up and  
7 functioning for some years; after Ike it was just  
8 dormant. It's been back up and functioning probably  
9 for a year and a half now, so for a year and a half.

10 Q. Okay. Around 2021 or so?

11 A. Correct. Right after Ms. Lewis was elected  
12 City Counselwoman, she helped revitalize.

13 Q. Did you serve as a board member back in the  
14 '90s?

15 A. No.

16 Q. Were you a member?

17 A. Yes.

18 Q. And then you were elected as a board member  
19 more recently in the past year and a half or so?

20 A. Correct.

21 Q. What are your responsibilities as a board  
22 member for Old Central Carver Park?

23 A. I'm the treasurer.

24 Q. Okay. And what kind of -- what kind of work  
25 does this organization do?

1 A. It's just a community organization.

2 Q. Does it have regular meetings?

3 A. Yes, once a month.

4 Q. Okay. And what's it's -- what's it's

5 mission? What's it's purpose?

6 A. I have to think about that 'cause we're all  
7 over the place, you know. Basically we're a community  
8 organization that if you need street lights, things are  
9 wrongly done to individuals in the community, we try  
10 and step in and add some clarity to what's going on.

11 Q. Okay. You'll help people with -- in the  
12 community with problems they have?

13 A. We give them directions on your lights are  
14 out, give them directions on where to go to get help to  
15 put your lights on.

16 Q. Okay. And what -- what community is -- well,  
17 who in the community or is there a geographical  
18 boundary of individuals that you-all help, or is there  
19 a way to -- to quantify that at all?

20 A. Old Central Carver Park Neighborhood  
21 Association has boundary lines, yes, but we don't stop  
22 anyone from joining.

23 Q. Do you have members outside of that area,  
24 that Old -- Old Central Carver Park?

25 A. Do we have what?

1 Q. Members who are beyond those boundaries?

2 A. I couldn't tell you for sure.

3 Q. Sure. Okay. You said you are also a member  
4 of the Nia Cultural Center; is that correct?

5 A. Correct.

6 Q. And how long have you been a member of that  
7 organization?

8 A. Since 1999.

9 Q. Okay. Is that when it was formed --

10 A. No.

11 Q. -- or was it already in place?

12 A. It was in place a little earlier.

13 Q. Okay. And have you ever served as an officer  
14 of this organization?

15 A. No, just a board member.

16 Q. Okay. And how long have you served as a  
17 board member?

18 A. Since '99.

19 Q. Okay. And what is the -- the mission, the  
20 purpose of the Nia Cultural Center?

21 A. It's a boys' and girls' rites of passage  
22 organization. We help parents navigate raising kids.  
23 Whatever it takes to make a family whole, that's our  
24 mission is to help facilitate that.

25 Q. And just like with my prior question with Old

1 Central Carver Park, is there a certain area that this  
2 -- the cultural center services?

3 A. No.

4 Q. Who do you typically help?

5 A. No, it's anybody from anywheres.

6 Q. Is it fair to say that typically the people  
7 that the Nia Cultural Central helps are from Galveston?

8 A. Correct.

9 Q. Okay. And are there regular meetings for  
10 this center?

11 A. Yes, once a month.

12 Q. Okay. Now the Galveston Coalition For  
13 Justice, did you found that organization?

14 A. The Galveston Coalition For Justice, yes.

15 Q. Okay. And when was that?

16 A. What year is this?

17 Q. '23.

18 A. Probably in I want to say 2015.

19 Q. Okay. Do you know what the mission statement  
20 is for the Galveston Coalition of Justice?

21 A. I couldn't tell you right off the top of my  
22 head.

23 Q. How about the -- the purpose, can you  
24 describe the purpose of this coalition?

25 A. Basically it's almost the same as the Nia

1 Cultural Center; the only thing we deal with more  
2 strategic things. Police department, housing, helping  
3 people navigate through the system, things of -- things  
4 of that nature.

5 Q. Okay. Would you describe it as a political  
6 organization?

7 A. No.

8 Q. Okay. And would you describe the Old Central  
9 Carver Park Neighborhood Association or the Nia  
10 Cultural Center as political organizations?

11 A. No.

12 Q. Okay. And who else is a member of the  
13 Galveston Coalition of Justice?

14 A. I can't give you people's names.

15 Q. How many members do you have?

16 A. I can't give you how many members we have.

17 Q. Okay. Can you give me an estimate, more than  
18 --

19 A. No.

20 Q. -- more than ten?

21 A. I can't give you an estimate. At all.

22 Q. More than --

23 A. They don't know whether it's one or it's a  
24 thousand, and that's the way I'll leave it.

25 Q. Sure. Now I understand that. Can you tell

1 me what that's the explanation?

2 A. Through the years organizations have fought  
3 not to give up those type of numbers and names.

4 Q. Okay. All right. So I understand that you  
5 just -- you don't want to provide that information; is  
6 that correct?

7 A. Correct.

8 Q. Okay. I'm not -- I'm not asking about any  
9 names, but just approximately how many members? Would  
10 you provide me with that information?

11 A. No.

12 Q. Okay. You said that you had served on the  
13 RDA committee in Galveston; is that correct?

14 A. Correct.

15 Q. What does RDA stand for?

16 A. It's a redevelopment organization that deals  
17 with tax credits and stuff of that nature for the City  
18 of Galveston in developing different areas.

19 Q. How long were you with this committee?

20 A. Almost two years now.

21 Q. Is it an appointment process?

22 A. Yes.

23 Q. Okay. And do you have a term limit?

24 A. I think every two years.

25 Q. Do you know if you're up for reappointment or

1 if there are -- or if that's possible under the  
2 applicable roles?

3 A. I can't say positively, no.

4 Q. Okay. Do you work with the Galveston housing  
5 authority in your -- your position on this committee?

6 A. No, we don't have any direct association with  
7 the housing authority, no.

8 Q. Okay. And are there regular meetings for  
9 this RDA committee?

10 A. Once a month.

11 Q. All right. Can you give me an example of  
12 some of the things that you do with the committee?

13 A. We're dealing with -- right now we're dealing  
14 with housing. The -- the entire City of Galveston is  
15 dealing with low to moderate income housing. At our  
16 last meeting we were trying to figure out how to get  
17 houses built affordably. In my maneuvering around town  
18 I took to the board some pictures of housing, newly  
19 built houses and they had been built out of containers  
20 and as a suggestion to find out, would it be feasible  
21 to buy containers and begin to build houses out of  
22 them, instead of going through having to -- with the  
23 prices of plywood, wood, beams that have skyrocketed,  
24 would it be feasible to utilize the containers instead  
25 of wood material like that.

1 Q. Okay. Is that something that's possible  
2 under the current regulations in the City of Galveston,  
3 or do you know?

4 A. Have to be. I've seen five of them that have  
5 been built, so. And they look good.

6 Q. You are also a member of the NAACP Galveston  
7 branch, correct?

8 A. Yes.

9 Q. Do you know how long you've been a member?

10 A. Since '99.

11 Q. And obviously that branch with -- is -- it's  
12 been around for a lot longer than that, correct?

13 A. Oh, yes.

14 Q. Okay. And have you been a continuous member  
15 since '99? Have there been any breaks?

16 A. You mean with me or with the organization?

17 Q. No, I apologize. Breaks in your membership  
18 period or times where you weren't a member?

19 A. I'm not sure whether my -- I joined the NAACP  
20 way back in, I would have to say '71, '72 in Chicago,  
21 and I paid for a lifetime membership at that time.  
22 Somewheres in the whatever the membership documents got  
23 lost, so I'm a dues paying member year by year right  
24 now.

25 Q. Okay. Back in the '70s when you joined in

1 Chicago did you attend regular meetings?

2 A. No, because I was traveling.

3 Q. Yeah. Do you attend the NAACP Galveston  
4 branch meetings regularly now?

5 A. When I can.

6 Q. Okay. Is that once a month as well?

7 A. Yes, they meet once a month.

8 Q. About how often are you able to attend?

9 A. It's according to work.

10 Q. And when you say it's according to work,  
11 that's your position as an owner of Fat Cat; is that  
12 correct?

13 A. Correct.

14 Q. Okay. About how much time does that take up  
15 out of your schedule, the -- your responsibilities for  
16 Fat Cat?

17 A. When you say how much time does it take, it's  
18 -- it's 24/7, it's a job, you know. You call, need  
19 something done, I take care of it.

20 Q. Okay.

21 A. Out of -- out of being in business since 1983  
22 that's what I'm pretty good at, resolving problems.

23 Q. Is it fair to say that you use those skills  
24 with all of the organizations that you serve?

25 A. Yes.

1 Q. And you use those skills within the community  
2 as well, correct?

3 A. Correct.

4 Q. All right. Is it fair to -- to say that you  
5 are a community activist?

6 A. I don't like the term activist. I like the  
7 term actionist.

8 Q. Okay. Why don't you like the term -- or why  
9 do you prefer the term actionist?

10 A. Because I take action at a problem. An  
11 activist goes into battle. I'm -- I'm not there to  
12 battle anything; I'm there to resolve the problem.

13 Q. You're there looking for solutions, right?

14 A. Correct.

15 Q. Okay. You had mentioned that you've attended  
16 LULAC meetings in Galveston. Do you remember -- have  
17 you attended any in the last couple of years?

18 A. No.

19 Q. Okay. Do you remember when you've attended  
20 or what the -- the circumstances were that you've  
21 attended?

22 A. We were on a battle dealing with rebuilding  
23 public housing. We -- two individuals here in  
24 Galveston, Steve McIntyre and Joe Campion helped us to  
25 create a collaborative group, and that consisted of

1 LULAC, NAACP, North Side Task Force, Galveston  
2 Coalition For Justice, and Gulf Coast Interfaith; and  
3 that is when we attended each other's meetings.

4 Q. Are you a member of Gulf Coast Interfaith?

5 A. No.

6 Q. Okay. And when you worked with -- with LULAC  
7 and these other organizations, is it fair to say that  
8 there were people of all races and backgrounds who were  
9 participating?

10 A. Everybody.

11 Q. Okay. You currently live in Galveston County  
12 Commissioner Precinct No. 2; is that correct?

13 A. Steven Holmes' precinct.

14 Q. Okay. So you're currently in -- well, you  
15 live on the Island though, correct?

16 A. Correct.

17 Q. Okay. So before the -- the 2021 map for the  
18 commissioners was enacted in Galveston County, you were  
19 in Steven Holmes's district, correct?

20 A. Correct.

21 Q. Do you know who your current county  
22 commissioner is?

23 A. I didn't even know we had had an election.

24 Q. Okay. Just -- do you know Joe Giusti,  
25 Commissioner Joe Giusti?

1 A. No.

2 Q. Okay. You've never met him before?

3 A. No.

4 Q. Is it fair to say that Commissioner Holmes  
5 was your candidate of choice for commissioner -- county  
6 commissioner?

7 A. Yes.

8 Q. Why is that?

9 A. You want people that you -- that represent  
10 you for you to be able to have some kind of contact  
11 with them, and I've -- I've never seen or interacted  
12 with any of the others.

13 Q. Okay. How would you typically see or  
14 interact with Commissioner Holmes?

15 A. All over the place.

16 Q. Can you give me some examples?

17 A. We attend things at Saint Vincent's. He does  
18 a barbecue every year; we attend that. Pick up  
19 telephone and call him every now and then just to see  
20 how you doing. He does the same with me, so just like  
21 that.

22 Q. Okay. In his role as county commissioner,  
23 did you ever reach out to Commissioner Holmes and ask  
24 for assistance on a county issue?

25 A. Not so much on a county issue. Well, I guess

1 | it was on a county issue. After Ike there's a -- what  
2 | was a senior citizens' building, and in the next block  
3 | the county owned a building and it was utilized as --  
4 | as a place where the housing authority -- I don't know  
5 | whether the housing authority was renting the building  
6 | or what, but it was used for senior citizens'  
7 | activities. Arts and crafts, dance, bingo, and it was  
8 | right across the street. After Ike the building has  
9 | never been reopened, and we've been trying to figure  
10 | out how to strategize to get the building reopened  
11 | again for seniors.

12 | Q. And how -- how has Commissioner Holmes helped  
13 | with that -- with that project?

14 | A. Well, he -- he kind of keeps it on the table  
15 | at the commissioners' meetings.

16 | Q. Anything else?

17 | A. No, not that I know of.

18 | Q. Have you -- that's incredibly fair. Have you  
19 | reached out to any of the other commissioners about  
20 | this project?

21 | A. No.

22 | Q. Okay. Is it your understanding that that  
23 | would be Commissioner Holmes's part of the project, is  
24 | to talk with other --

25 | A. Correct, correct.

1 Q. -- okay. Getting a little bit more into  
2 politics, are you a Democrat?

3 A. Yes.

4 Q. Okay. Have you always considered yourself to  
5 be a Democrat?

6 A. Yes.

7 Q. Have you ever voted Republican?

8 A. Yes.

9 Q. Okay. I'll break it down a little bit, have  
10 you ever voted in a Republican primary in Texas?

11 A. What do you mean?

12 Q. Well, let's just break it down to the past  
13 ten years. Past ten years, have you ever voted in a  
14 Republican primary, meaning between two Republican  
15 candidates who want to run for one office?

16 A. No.

17 Q. Okay. And prior to the past ten years, can  
18 you recall ever voting in a Republican primary?

19 A. No.

20 Q. Okay. You said you had voted for a  
21 Republican before, correct?

22 A. Yes.

23 Q. Do you remember who it was for?

24 A. And -- no, I can't, I can't remember who it  
25 was. All I can remember is it was sometimes around the

1 time when Kathy Whitmire was I think the mayor of  
2 Houston, or the governor, one of the two.

3 Q. Okay. Was that in a -- a Galveston County  
4 election or was that based out of your residency in  
5 Houston or Harris County?

6 A. Residency in Houston, Harris County.

7 Q. Okay. Is it fair to say you've never voted  
8 for a Republican in Galveston County?

9 A. No.

10 Q. It's not fair to say that?

11 A. Never have.

12 Q. Oh, okay. All right. Would you --

13 (Technical issues.)

14 Q. (BY MS. OLALDE) Would you vote for a  
15 Republican in Galveston County?

16 A. Yeah, I mean if -- if they were the best  
17 candidate, of course.

18 Q. Okay. Do you know of any Republican  
19 candidates that you believe would be a good candidate  
20 for you to vote for?

21 A. Not right offhand.

22 Q. Do you know Dr. Robin Armstrong?

23 A. No.

24 Q. Okay. Never met him before?

25 A. No.

1 Q. But do you know of him?

2 A. Only what I've read.

3 Q. Okay. Do you have an opinion about him?

4 A. Honestly?

5 Q. Yes, sir.

6 A. If you're an African American, how can you be  
7 a Republican?

8 Q. Okay. I'm going to switch gears a little bit  
9 more. We have -- one of these things we have to do in  
10 these lawsuits is make sure everybody's given us the  
11 documents that they have that are relevant to the case.  
12 And so did you have any documents that you turned over  
13 to your attorneys for this case?

14 A. I'm not sure.

15 Q. Okay. Do you to an email that you use?

16 A. Yes.

17 Q. All right. What's that email address?

18 A. IslandFatCat@yahoo.com.

19 Q. Do you have any other email addresses that  
20 you use?

21 A. IslandFatCat@gmail.com.

22 Q. Okay. Anything else?

23 A. That's it.

24 Q. All right. Do you regularly check both of  
25 those email addresses?

1 A. No, I only check Island Fat Cat at yahoo.

2 Q. Okay. Would you have had emails relating to  
3 redistricting at your Yahoo address?

4 A. I can only remember a notice that there was  
5 going to be a meeting.

6 Q. Would that be the November 12th of 2021  
7 meeting where the Map 2 was adopted?

8 A. Correct.

9 Q. Okay. Did anyone help you look for  
10 responsive emails in your Yahoo account?

11 A. Yes.

12 Q. All right. And whatever popped up was turned  
13 over to your attorneys, right?

14 A. Correct.

15 Q. Okay. And you haven't deleted any emails  
16 that relate to redistricting, right?

17 A. Not that I know of.

18 Q. Okay. Do you typically delete emails?

19 A. Yes.

20 Q. Okay. Can you tell me what your typical  
21 practice is?

22 A. Emails that I don't -- email addresses that I  
23 don't recognize I normally just delete them; I don't  
24 even open it up.

25 Q. Okay. Anything else?

1 A. No, that's it.

2 Q. All right. Would you have had any paper  
3 documents like a file or anything printed out that you  
4 would have kept relating to redistricting?

5 A. No.

6 Q. Okay. And you checked to make sure that was  
7 the case, right?

8 A. Didn't need to.

9 Q. You -- you already knew?

10 A. Yes.

11 Q. Okay. What about your cell phone, do you use  
12 it for text messaging?

13 A. Yes.

14 Q. Did you receive any text messages that were  
15 relating to redistricting?

16 A. I'm not sure.

17 Q. Okay. Did anybody help you search for  
18 anything that would have been on your phone that would  
19 have related to redistricting?

20 A. No.

21 Q. Okay. Do you think it's possible you would  
22 have had text messages that relate to this case?

23 A. I doubt it very seriously. It -- it may have  
24 been that I sent out something to other individuals  
25 about the meeting in November.

1 Q. Okay. Is it fair -- maybe on a break would  
2 you mind taking a quick look at your cell phone to make  
3 sure you don't have any texts that are responsive to  
4 this case?

5 A. I basically know I don't.

6 Q. Okay.

7 MS. OLALDE: Counsel, if -- if you  
8 don't mind confirming that, I would really appreciate  
9 that. Is that something you can agree to do?

10 MS. VALL-LLOBERA: We'll circle back  
11 with you on that, yes. We'll check.

12 MS. OLALDE: Okay. Thank you. I  
13 appreciate it.

14 Q. (BY MS. OLALDE) You just have one cell phone,  
15 correct?

16 A. I have one in my name and one in my wife's.

17 Q. All right. Do you use the one in your wife's  
18 name?

19 A. No.

20 Q. You have any social media accounts?

21 A. No.

22 Q. You don't have Facebook?

23 A. My kids say I do.

24 Q. Do you -- do you ever log into Facebook?

25 A. I have no idea how to.

1 Q. So it's fair to say then that you don't use  
2 things like Facebook Messenger?

3 A. No.

4 Q. Okay.

5 A. I -- I mean, yes, I do. Yes, I do, almost  
6 every day, but I go in and punch on Facebook and that's  
7 it.

8 Q. Okay. On the messaging service, the instant  
9 messaging service in Facebook, did you ever have any  
10 conversations about redistricting that -- that would be  
11 related to this case?

12 A. No.

13 Q. Okay. And did you search to make sure?

14 A. Don't need to.

15 Q. You already under- -- you already know that  
16 you only use it for personal?

17 A. Right, right.

18 Q. Okay.

19 A. I don't type fast enough to be, you know,  
20 trying to communicate that way. I can dial ten digits  
21 and talk to you.

22 Q. Is it fair to say that it's easier just to  
23 pick up the phone and talk to somebody?

24 A. Correct.

25 Q. Okay. Do you -- are you able to or do you

1 make posts on your Facebook pages or other people's  
2 pages?

3 A. No.

4 Q. Does somebody else have your log-in so that  
5 they can do that for you, or how does that work?

6 A. What do you mean?

7 Q. Like, does anyone else ever log in to your  
8 Facebook account so that they can post something for  
9 you?

10 MS. VALL-LLOBERA: Objection,  
11 speculation.

12 MS. OLALDE: You can answer.

13 A. I just had a bout with cancer, and I opened  
14 up my Facebook account to my daughter and my son. My  
15 daughter is in the medical field; my son is in the  
16 insurance field. So, yes, I have opened up my account.

17 Q. (BY MS. OLALDE) Okay. Have you ever deleted  
18 posts on Facebook?

19 A. Of course.

20 Q. Okay. What posts have you deleted; do you  
21 recall?

22 A. I have no idea.

23 Q. Anything that would have related to  
24 redistricting?

25 A. No.

1 Q. Were you involved in the -- let me -- let me  
2 go back actually. What lawsuits have you been involved  
3 with?

4 MS. VALL-LLOBERA: Objection, vague.

5 Q. (BY MS. OLALDE) Sure. How many lawsuits have  
6 you been involved with?

7 MS. VALL-LLOBERA: Objection, vague.

8 MS. OLALDE: You can answer.

9 A. I'm not even sure. I know I'm involved with  
10 this one.

11 Q. (BY MS. OLALDE) Okay. Do you recall --

12 A. I'm not sure whether I was involved with the  
13 one in 2010 or '11.

14 Q. Okay. So apart from -- do you recall being a  
15 plaintiff in -- in any other lawsuit?

16 A. Not that I know of.

17 Q. Okay.

18 A. Or not that I can remember.

19 Q. Was there ever a lawsuit about public housing  
20 in Galveston that you were involved with that you can  
21 recall?

22 A. I think so.

23 Q. What was that lawsuit about?

24 A. There was an organization that was attempting  
25 to keep public housing from being rebuilt after

1 Hurricane Ike, and as a part of the collaborative group  
2 I think I became a part of the lawsuit for the Justice  
3 Department.

4 Q. Okay. And what group was -- what group were  
5 you working with in connection with that lawsuit?

6 A. Galveston Coalition For Justice.

7 Q. Any other groups?

8 A. No.

9 Q. You remember when the lawsuit was or  
10 approximately what year?

11 A. No, not exactly.

12 Q. Okay. Was it the Department of Justice that  
13 was prosecuting that case?

14 A. Correct.

15 Q. Okay. What were the -- can you tell me a  
16 little bit more about that case, what was it that you  
17 were asking the Court to do?

18 A. We were basically asking the Court to ensure  
19 that the 569 units that were torn down after Ike would  
20 be rebuilt.

21 Q. Okay. Was there a specific type of  
22 rebuilding that you were asking for or was it just any  
23 type or -- or was that an issue?

24 A. We wanted to maintain the numbers of bedrooms  
25 that were there.

1 Q. Okay. And was the location or the type of  
2 housing at issue at all or was it just the number of  
3 bedrooms?

4 A. I'm not sure.

5 Q. Okay.

6 A. I'm not sure.

7 Q. Do you know what happened in that lawsuit?

8 A. Say it again?

9 Q. I -- I apologize. When I asked my question  
10 it looked like you were going to say something else.  
11 What were you going to say?

12 A. No, I wasn't.

13 Q. Okay. I guess I'll move onto my next  
14 question then. Do you know what happened with that  
15 lawsuit?

16 A. The last of the 569 units are being rebuilt  
17 as we speak.

18 Q. You know when they're going to be completed?

19 A. I think we have another year. Maybe this  
20 summer. Let me correct that.

21 Q. Okay.

22 A. I think it's this summer that they will be  
23 completed.

24 Q. So is that connected to the lawsuit that  
25 you-all had filed to your knowledge, the completion?

1           A.    No, there was no completion date that was  
2           specified.  As a matter of fact it took almost two  
3           years before they began on the last plot of land to  
4           rebuild on it where public housing had been torn down,  
5           and that was Oleander Homes.

6           Q.    Oleander Homes is on the north side of  
7           Broadway; is that correct?

8           A.    Correct.

9           Q.    All right.  Where are the 569 -- you  
10          mentioned 569 bedrooms.  Can you describe the current  
11          project for rebuilding, what kind of housing is it?

12          A.    When you say that, what do you mean?

13          Q.    Are we talking about, like, individual homes,  
14          mixed income housing, or apartments?  What kind of  
15          housing is being constructed?

16          A.    It's apartments and it's mixed income.

17          Q.    And is that also on the north side of  
18          Broadway?

19          A.    The majority, yes.

20          Q.    Okay.  Do you know where the construction's  
21          going on?

22          A.    On the land where they were torn down.

23          Q.    Is that just for Oleander or for other --  
24          other --

25          A.    All of them, all of them.

1 Q. You said the majority was on the north side  
2 of Broadway. Are you aware of any housing that's been  
3 built on the south side of Broadway?

4 A. Scattered sites.

5 Q. Do you know about how many bedrooms we're  
6 talking about?

7 A. I'm not sure.

8 Q. Do you recall how you became involved in the  
9 2010, 2011 redistricting matter?

10 A. I think it was more because they were, they  
11 were only giving me an opportunity to vote for an  
12 individual that I knew nothing about instead --

13 Q. Okay.

14 A. -- instead of giving me an opportunity to  
15 vote for the individual of my choice --

16 Q. Do you remember --

17 A. -- by redrawing -- by redrawing their lines.

18 Q. I apologize, I interrupted you.

19 A. That's okay.

20 Q. Do you -- do you remember who those  
21 individuals were?

22 A. Commissioners court.

23 Q. Do you remember who in -- back in 2010, 2011  
24 who would have been the two candidates that you would  
25 have had a choice between?

1 A. No, I don't.

2 Q. Okay. But Commissioner Holmes would have  
3 been one of them?

4 A. Correct.

5 Q. Okay. And when you found out about the  
6 redistricting in 2010, 2011, how did you -- what did  
7 you do? Did you attend any meetings?

8 A. Yes.

9 Q. Okay. Were they commissioners court  
10 meetings?

11 A. I think two of them were.

12 Q. Okay. And was that all in Galveston or were  
13 there mainland visits that you attended?

14 A. Mainland.

15 Q. Okay. Were you able to speak at any of the  
16 meetings at 2010, 2011 time period about redistricting?

17 A. I think at one of the meetings I spoke.

18 Q. Okay. And is there a particular proposal or  
19 map that you supported back in that time?

20 A. I'm not sure.

21 Q. Okay. When the -- flashing forward in time  
22 to this present lawsuit, how did you become aware of  
23 the proposed maps for the county commissioners court?

24 A. Actually it was just a few days before the  
25 meeting in November.

1 Q. Okay. And how did you become aware of the  
2 meeting in November?

3 A. I think through an email.

4 Q. All right. And do you remember who sent that  
5 email?

6 A. I'm not sure.

7 Q. All right. Was it part one of the  
8 organizations that you participate in?

9 A. It -- it may have been through the NAACP.

10 Q. Okay. Did you speak with anybody about  
11 attending the meeting -- and I'll just call it the  
12 November 12th meeting; is that fair?

13 A. Yes.

14 Q. Okay. Did you speak with anybody about  
15 attending the November 12th meeting?

16 A. I sent out to probably 50 different people, I  
17 forwarded the email that I had received about the  
18 meeting, place and time.

19 Q. Okay. Did you meet with anybody prior to the  
20 November 12th meeting about redistricting?

21 A. When you say "meet with," what do you mean?

22 Q. That's a great question. Let's just start  
23 with face-to-face meetings, conversations with people  
24 about redistricting.

25 A. I made phone calls, yes.

1 Q. Okay. Were those phone calls to members in  
2 the community or members in organizations that you're a  
3 part of?

4 A. Members of both.

5 Q. Okay. And what was the purpose of those --  
6 those phone calls? Was it to coordinate future  
7 meetings or -- or what was the purpose of the phone  
8 calls?

9 A. To make sure that we would be present in the  
10 meeting.

11 Q. And when you say "the meeting" you mean the  
12 November 12th meeting, correct?

13 A. Correct.

14 Q. Before the November 12th meeting, did you see  
15 both map proposals that would be discussed at that --  
16 at that meeting?

17 A. No.

18 Q. Okay. Did you have an opinion or did you  
19 hear from anybody about which map you would -- would be  
20 the better map?

21 A. I think what I basically heard was that  
22 Stephen Holmes' district was being chopped up into  
23 three different districts, which would take my  
24 representation -- the way I felt would take my  
25 representation away.

1 Q. Okay. Was that for both map proposals or do  
2 you know?

3 A. I'm not sure. I hadn't seen the maps.

4 Q. Okay. And did you ever go online to look at  
5 anything about redistricting on the county website?

6 A. No.

7 Q. Okay. You didn't post any comments or  
8 anything online, correct?

9 A. I don't know. I can't remember.

10 Q. Okay. You attended the November 12th, 2021  
11 meeting; is that correct?

12 A. Yes.

13 Q. And who did you go with?

14 A. Sandra Toussaint, and I'm not sure, it may  
15 have been Linda Alcorn too.

16 Q. Did you guys carpool together?

17 A. Yes.

18 Q. Okay. When did you arrive to the meeting?

19 A. Probably 15 minutes before it started.

20 Q. Okay. Were you able to find parking?

21 A. We had to park in the neighborhood.

22 Q. Okay. And when you said "the neighborhood,"  
23 where -- where was that? Was that within walking  
24 distance?

25 A. About a block away.

1 Q. Okay. And when you attended you were there  
2 for the entirety of the meeting; is that correct?

3 A. Correct.

4 Q. You heard everybody who spoke at that  
5 meeting; is that also correct?

6 A. Correct.

7 Q. All right.

8 A. Um, I can't say, yes, we heard everybody  
9 because we were out in a hallway and the meeting room  
10 was very small, so the majority of the people that were  
11 there were in the hallway, but there was no speaker  
12 system in the hallway. So no, I can't say I heard  
13 everybody that spoke.

14 Q. Are you aware of an overflow room that was  
15 set up for people to go to who couldn't sit in the --  
16 the courtroom?

17 A. Had no idea.

18 Q. Okay. Were you in the -- the courtroom for  
19 the entire meeting?

20 A. No.

21 Q. Okay. Were you in the hallway for part of  
22 the meeting?

23 A. Yes.

24 Q. Okay. Are you aware of anybody who attended  
25 that meeting who wanted to talk who wasn't able to?

1 A. No.

2 MS. OLALDE: Okay.

3 (Witness' phone ringing.)

4 MS. VALL-LLOBERA: I'll take this  
5 opportunity. Angie, we've been going on for about an  
6 hour. Would it make sense to take a break if you are  
7 done with this line of questioning?

8 MS. OLALDE: That's totally fine. We  
9 can take a quick break. How long do you need? Let's  
10 go off the record.

11 THE VIDEOGRAPHER: Okay. Going off  
12 the record, 10:11 a.m.

13 (Off the record.)

14 THE VIDEOGRAPHER: Going back on the  
15 record, 10:26 a.m.

16 Q. (BY MS. OLALDE) All right. Can you hear me,  
17 Mr. Phillips?

18 A. Yes.

19 (Technical/audio issues, Zoom)

20 THE VIDEOGRAPHER: Back on the record,  
21 10:27.

22 Q. (BY MS. OLALDE) Okay. Mr. Phillips, I know  
23 that I had asked earlier about the mission statement  
24 for the Galveston Coalition of -- of Justice. I wanted  
25 to show you what we'll mark as Exhibit 1; it's an

1 article.

2 MS. OLALDE: And, Jordan, this is  
3 Galveston Coalition For Justice endorsements.

4 (Exhibit No. 1 marked.)

5 Q. (BY MS. OLALDE) And, Mr. Phillips, whenever  
6 that article gets in front of you, just take your time  
7 and -- and look at it and let me know when you're  
8 ready.

9 A. Okay.

10 Q. Okay. Mr. Phillips, this article lists some  
11 of the -- the candidates that your coalition had  
12 endorsed; is that correct?

13 A. Correct.

14 Q. Are they all Democrats?

15 A. No.

16 Q. Okay. Who is the Republican in that list?

17 A. Marie Rob.

18 Q. Anybody else?

19 A. Not that I know of.

20 Q. Do you know whether Marie Rob won election  
21 for that cycle?

22 A. I think she did.

23 Q. Okay. If you'll scroll down there's a  
24 comment and it kind of gets into some background on the  
25 Coalition For Justice, and what I wanted to ask you was

1 from the last paragraph of that comment that talks  
2 about the mission statement.

3 A. A. Keep going down.

4 Q. Just let me know when you're ready to, when  
5 you've had a chance to review it.

6 A. Okay.

7 Q. Does that statement, the mission statement  
8 there, does that accurately state the Coalition's  
9 purpose?

10 A. Basically, yes.

11 Q. Okay. Is there anything it's leaving out?

12 A. No.

13 Q. Okay. It does say that it was founded --  
14 it's a Coalition that was founded by Terris Elwood,  
15 Sr.; is that correct or did you found the organization?

16 A. Formerly it was the Galveston County  
17 Coalition For Justice. I want to say in 2014 I was the  
18 president, and Mr. Woods tried to do a coup and take  
19 over the coalition by going to the county and buying  
20 the name Galveston County Coalition For Justice, but  
21 the -- the good Lord had other things in mind and  
22 reminded me that what's in a name, and it wasn't the  
23 name that was doing the work in the community; it was  
24 the individuals. And he began -- the good Lord began  
25 to take my mind and make my mind function, and my mind

1       functioned to what's in a name. So I went to the  
2       county the next day and I bought Galveston Coalition  
3       For Justice, eliminating county, and the membership  
4       stayed with me.

5           Q. Did -- did Mr. Woods and you have different  
6       ideas as to what should -- what the coalition should be  
7       doing?

8           A. No, it had nothing to do with -- our dispute  
9       between us had nothing to with the coalition at all,  
10      but he took it in that direction --

11          Q. Okay.

12          A. -- to try and hurt me.

13          Q. Was your dispute political?

14          A. No.

15          Q. Okay. Is Mr. Wilson a member of the  
16      Galveston Coalition For Justice today?

17          A. No.

18          Q. Are you aware of the time period -- and this  
19      is just a flashing and jumping around on topic so I  
20      apologize, but coming closer to today's time frame --  
21      are you aware of the time period that the county had to  
22      create and enact maps for the 2021 commissioners court?

23          A. Not at all.

24          Q. Okay. Do you have any complaints about the  
25      process that was used to enact the 2021 redistricting

1 map for the county commissioners court?

2 MS. VALL-LLOBERA: Objection, vague.

3 Q. (BY MS. OLALDE) You can answer.

4 A. Certainly.

5 Q. What are those complaints?

6 A. No involvement.

7 Q. Okay. Well, we have the category of no  
8 involvement, but is there any other categories we  
9 should talk about?

10 A. When you're left out of a decision making  
11 process, it's one of those things where I know better  
12 what's best for you than you do, so no. That's the  
13 basic thing; we were left out of the process.

14 Q. Do you feel like you were included in the  
15 process in the 2010, 2011 redistricting cycle?

16 A. They attempted the same thing then.

17 Q. And what to you mean by they attempted the  
18 same thing then?

19 A. Presenting the maps at the last minute.

20 Q. Okay. Are you aware of any community  
21 meetings that were held about the map selections in  
22 2011?

23 A. Not that I can remember back that far.

24 Q. Yeah, it's been a -- it's been a decade,  
25 right?

1 A. Yeah.

2 Q. Yeah. What involvement, if -- if there had  
3 been more time what involvement would you have liked to  
4 have seen with respect to the 2021 commissioners court  
5 redistricting map?

6 A. Why wouldn't they present them far beyond the  
7 time that they're holding the meeting to vote on them?

8 Q. Earlier a time, correct?

9 A. Correct. When -- when -- I know they hire a  
10 company to help draw up the maps, but they give them an  
11 idea of what they want the maps to look like. So why  
12 wouldn't they involve the public in that process so  
13 that it would be a community process that the company  
14 that they hired would be drawing up instead of back to  
15 that I know best what's best for you than you do.

16 Q. Do you know who they hired?

17 A. I have no idea.

18 Q. Do you know if it was an attorney or if it  
19 was a company?

20 A. I have no idea.

21 Q. Okay. You mentioned that and when you said  
22 they you were referring to the county commissioners,  
23 correct?

24 A. Correct.

25 Q. Okay. You said they already knew what they

1 wanted the map to look like. Does that accurately  
2 state your testimony?

3 MS. VALL-LLOBERA: Objection,  
4 misstates prior testimony.

5 MS. OLALDE: You can answer.

6 A. That's not what I said.

7 Q. (BY MS. OLALDE) Can you tell me what it was  
8 you said, what I misunderstood, sir?

9 A. I basically said they left us completely out  
10 of the process.

11 Q. Okay. Do you believe that the commissioners  
12 already knew what they wanted the maps to look like  
13 when they hired someone?

14 A. Of course.

15 Q. Okay.

16 A. Why would they create a map that in 2011 the  
17 courts had said no, that doesn't work, why would you  
18 come back and create almost the same map?

19 Q. Okay. What -- what's the basis for your  
20 belief that they already knew what the map -- what they  
21 wanted the map to look like when they hired a company?

22 A. Kind of -- kind of -- kind of embellish on  
23 what you're asking me.

24 Q. Yeah, let me -- let me rephrase. You had  
25 said that you believed that the commissioners already

1 had in mind what they wanted the map to look like when  
2 they hired a company, and I wanted to know why you  
3 thought that, what -- what facts you have to -- to  
4 support that -- that belief?

5 A. I don't have any facts.

6 Q. Okay. It's just your -- it's just what you  
7 think?

8 A. Of course.

9 Q. Okay. Are you aware of any delay in the  
10 release of the census data in 2020?

11 A. No.

12 Q. -- from -- sorry. Okay. And you're not  
13 aware of any other time constraints that other  
14 jurisdictions had to create redistricting maps from the  
15 2020 data?

16 A. No.

17 Q. Did you or any other person that you -- or  
18 organization that you were working with, did -- did you  
19 create or submit any proposed maps at any time relating  
20 to redistricting in 2021?

21 A. I don't know.

22 Q. Okay. Apart from involvement, were there any  
23 other complaints that you have about the process for  
24 enacting the 2021 map?

25 A. Exactly what are you asking?

1 Q. Sure. And when I say process what I'm  
2 talking about is the procedure that went -- that  
3 occurred in order to get the map enacted. So apart  
4 from your complaint that there was no involvement of  
5 the community in getting the map enacted, was there any  
6 other complaint about the process that you have for the  
7 enactment of the 2021 commissioners court map?

8 A. Yes, being left out of the process.

9 Q. All right. Looking at -- you've seen the map  
10 that's being enacted today, correct?

11 A. Yes.

12 Q. Did you -- sitting here today you've seen the  
13 other alternate map that was proposed; is that also  
14 correct?

15 A. Yes.

16 Q. Okay. And sitting here today do you -- would  
17 you have a preference as to which map you think would  
18 better serve your community or yourself?

19 A. I don't have any -- I don't have any  
20 documentation except for the maps themselves.

21 Q. Okay. Do you believe that the commissioners  
22 intended to discriminate against black and Latino  
23 voters in Galveston County when they enacted this map?

24 MS. VALL-LLOBERA: Objection, calls  
25 for speculation.

1 MS. OLALDE: You can answer.

2 THE WITNESS: Objection, calls for  
3 speculation.

4 A. I would -- I would have no idea what they had  
5 in mind. I can't guess what they had in mind.

6 Q. (BY MS. OLALDE) Okay. Well, what do you  
7 think? What do you believe?

8 A. I believe that the Republican party is  
9 attempting to take over Galveston County.

10 Q. I'm going to turn to another article.

11 MS. OLALDE: And, Jordan, this is --  
12 well, actually before we show this, you were part of a  
13 -- a committee organization to study minority concerns.  
14 It was a long time ago; it was almost 20 years ago, but  
15 do you recall that?

16 A. I would have to see or -- something would  
17 have to jog my memory.

18 Q. Sure. I understand. I would have to have my  
19 memory jogged too for that.

20 MS. OLALDE: Jordan, would you please  
21 pull up Committee to Study Minority Concerns?

22 MS. RASCHKE ELTON: Yes.

23 Q. (BY MS. OLALDE) And once that's article's in  
24 front of you, sir, just take whatever time you need to  
25 review it and let me know when you're ready, okay?

1 A. Okay.

2 (Witness reading document.)

3 Q. (BY MS. OLALDE) Okay. Does this help -- help  
4 you remember this committee that you were part of to  
5 study minority concerns?

6 A. Partially.

7 Q. Okay. Was this just for the City of  
8 Galveston or was it a broader scope?

9 A. I think it was just the City of Galveston.

10 Q. And do you remember what your participation  
11 in this committee was? Was it limited to a certain  
12 area?

13 A. No, I don't think so.

14 Q. And when I said area I didn't -- I didn't  
15 necessarily mean geography. I was thinking about maybe  
16 topic or -- or part of the government or anything like  
17 that?

18 A. I don't think so.

19 Q. Okay. Did you do, coordinate or -- or talk  
20 with the other members of this community that are  
21 listed in this article about your role, your -- your  
22 work?

23 A. Some I do remember conversations.

24 Q. Okay. Do you remember who those persons  
25 were?

1           A.    The mayor for one, Lyda Ann Thomas, and then  
2 Miguel Aleman.  Scroll down to the names again.  Rabbi  
3 Kessler and Elise Stevens.

4           Q.    Okay.  Did you work with these individuals in  
5 the study that you -- that your committee was -- was  
6 performing?

7           A.    What -- what do you mean?

8           Q.    What kind of work did you guys do?  Like how  
9 did you go about -- how did you go about completing the  
10 task that this committee was assigned?

11          A.    I really can't remember.

12          Q.    Okay.  That's fair, but you agree that it was  
13 a good idea to have this committee, correct?

14          A.    Yes.

15                   MS. OLALDE:  Okay.  Jordan, let's pull  
16 up the next article, starting with "Committee finds."

17          Q.    (BY MS. OLALDE) And again, once you've had a  
18 chance to review it, just let me know when you're  
19 ready.

20                   (Witness reading document.)

21          A.    Okay.

22          Q.    (BY MS. OLALDE) Okay.  So the committee that  
23 you were a part of, is -- it's true that that committee  
24 found no patterns of discrimination; is that correct?

25          A.    No, that's not what that said.

1 Q. Okay. Well, let me break that down a little  
2 bit. It's true that the subcommittee that you lead --  
3 and I'm looking at paragraph 4, the one that starts  
4 with, "The report that Tillman submitted"; do you see  
5 that?

6 A. Yes.

7 Q. Okay. So is it true that the subcommittee  
8 that you led found no patterns of discrimination in the  
9 enforcement and current policies governing substandard  
10 buildings and code enforcement in minority areas?

11 A. That's not what that says. It said that --  
12 that says that we submitted no written documentation.

13 Q. Uh-huh?

14 A. And the rest of that was there by Tillman was  
15 his supposition of what was produced.

16 Q. Do you contradict that statement? Do you  
17 think there was a pattern? Was this article incorrect?

18 A. What year was this?

19 Q. This is 2006.

20 A. Yes.

21 Q. Okay. Tell me how this article is incorrect?

22 A. For years there was a pattern of how African  
23 Americans in Galveston were treated -- African  
24 Americans and Hispanics were treated compared to  
25 Anglos. It wasn't, we didn't come up with conclusive

1 | evidence until after Ike, when Chief Wiley was the  
2 | police chief. In a -- I was on -- oh, I got it here in  
3 | my pocket, the police civilian review board. And he  
4 | made a statement because we wanted to find out why  
5 | there were so many tickets and arrests that were made  
6 | of African Americans between 25th and 53rd, between  
7 | Avenue O and Church. And his explanation was that his  
8 | new officers had to get trained some kind of a way.  
9 | Well, to us that meant conclusively that African  
10 | Americans were being targeted because the majority of  
11 | the population in those demographics was African  
12 | Americans and Hispanics.

13 | Q. Okay. While you were answering you said that  
14 | you had answer in your pocket. Was there a paper or  
15 | something that you wanted --

16 | A. No, no. I was trying to remember what board  
17 | I was on, and it was the Civilian Review Board.

18 | Q. -- okay. You had notes that you were going  
19 | to look at though to refresh your memory?

20 | A. No, I have a -- an ID.

21 | Q. Oh, okay.

22 | A. And I just wanted to get the name of the  
23 | board right.

24 | Q. Oh, okay. Are you still on the Civilian  
25 | Review Board?

1 A. No.

2 Q. When did you cease service with the Civilian  
3 Review Board?

4 A. Probably three years ago.

5 Q. How long was the Civilian Review Board in --  
6 in place?

7 A. I'm not exactly sure.

8 Q. And your -- your testimony about Officer  
9 Wiley, do you know when the Civilian Review Board was  
10 first formed?

11 A. I'm not exactly sure. I want to say around  
12 2010.

13 Q. And the purpose of the Civilian Review Board  
14 was specifically to oversee police conduct; is that  
15 correct?

16 A. Correct.

17 Q. And going back to the committee from 2006 and  
18 that article, your work with that committee, your  
19 subcommittee on the committee of minority concerns  
20 produced no report of any pattern of discrimination  
21 with respect to building code violations or tickets; is  
22 that correct?

23 A. Repeat that again?

24 Q. Sure. You -- well, your understanding, and  
25 it's true, correct, that your subcommittee produced no

1 report of any pattern of discrimination against  
2 minorities with respect to policies governing  
3 substandard buildings and code enforcement, correct?

4 A. Because there were no paperwork doesn't mean  
5 it didn't happen.

6 Q. Did you report any pattern as a member of the  
7 committee -- committee on minority concerns, did you  
8 report any pattern of discrimination?

9 A. When you say report, report it to who?

10 Q. Well, who did the committee report to?

11 A. This was a committee formed by the mayor.

12 Q. Correct. Is it the mayor that you would have  
13 reported to or city council?

14 A. I'm not sure.

15 Q. And -- well, in your membership on this  
16 committee, did you ever tell anybody that as a result  
17 of your service on the committee that you found any  
18 pattern of discrimination against minorities?

19 A. I -- I just expressed what was going on and  
20 that would have been exactly what would -- what -- that  
21 was prior to the Civilian Review Board going into  
22 place.

23 Q. Okay. And -- and I don't -- I don't want to,  
24 you know, go too much further into this, but just to --  
25 to clarify, your work with the committee -- committee

1 on minority concerns was with respect to policies on  
2 building codes, correct? It wasn't with respect to  
3 lease practices?

4 A. Correct.

5 Q. Okay. And your work on that committee found  
6 or you never told anybody that you ever found any  
7 pattern of discrimination against minorities, correct?

8 MS. VALL-LLOBERA: Objection, asked  
9 and answered.

10 Q. (BY MS. OLALDE) You can answer.

11 A. Not that I can remember.

12 Q. Okay. Do you know who Doug Matthews is?

13 A. Yes.

14 Q. Who is he?

15 A. He used to be the city manager.

16 Q. Okay. Do you have an opinion of Doug  
17 Matthews?

18 A. I think that's personal.

19 Q. Fair enough. Do you believe that he -- he  
20 does good work or he did good work as city manager?

21 MS. VALL-LLOBERA: Objection, vague.

22 A. You waiting on me?

23 MS. VALL-LLOBERA: You can answer if  
24 you understand the question.

25 A. Oh, evidently. He was a city manager for 11

1 years.

2 Q. (BY MS. OLALDE) Okay. And if his  
3 subcommittee didn't find a pattern of harassment or  
4 discrimination against minorities with respect to  
5 Galveston City Police, would you have any reason to  
6 dispute that finding in 2006?

7 A. Me personally?

8 Q. Yes.

9 A. Repeat that question.

10 Q. Sure. The police subcommittee on the  
11 Committee of Minority Concerns was headed by Doug  
12 Matthews, and if his subcommittee found no pattern of  
13 harassment or discrimination against minorities by the  
14 Galveston PD, would have any reason to dispute that  
15 finding in 2006?

16 A. 2006 was a long time ago.

17 Q. Right.

18 A. I -- I -- my thought pattern doesn't go back  
19 that far.

20 Q. That's fair, fair enough. I understand. We  
21 can move on.

22 MS. OLALDE: Jordan, would you please  
23 pull up the article that begins, "What a way to begin"?

24 (Counsel complying.)

25 Q. (BY MS. OLALDE) And again, just whenever

1 you've a had a chance to review it, just let me know  
2 whenever you're ready, sir.

3 A. Okay.

4 Q. Okay. This is an opinion piece that you  
5 wrote for the Galveston Daily News; is that correct?

6 A. Correct.

7 Q. And the title is "What a way to begin Black  
8 History Month"; did I read that correctly?

9 A. Yes.

10 Q. What was the purpose of you writing this  
11 article?

12 A. We had an opportunity to get a bronze statue  
13 of Jack Johnson placed on the property of Old Central,  
14 and the thought in writing the article was, it's about  
15 time that we begin to recognize some of the things that  
16 African Americans had contributed to Galveston and were  
17 just not featured before.

18 Q. Do you know who spearheaded the project to  
19 get the statue erected?

20 A. It was an effort by quite a few. Mr. Woods,  
21 Mr. Matthews, Ennis Williams, myself, Maggie Williams,  
22 just quite a few of the -- the community leaders that  
23 could see that our representation on Galveston Island  
24 was far and in between.

25 Q. Okay. Are you aware whether the statue of

1 Jack Johnson was the first of its kind in Texas,  
2 meaning the statute of an African American sports icon?

3 A. I'm -- I'm not sure about that.

4 Q. Okay. And it's true that the African  
5 American Heritage Committee and the Galveston  
6 Historical Foundation assisted in getting this statute  
7 erected?

8 A. The African American Heritage Committee and  
9 the Historical Foundation and the City of Galveston  
10 were the major players.

11 Q. Is it true that at some point there were two  
12 statutes or there's still two statutes of Jack Johnson?

13 A. The -- there's only one bronze statute of  
14 Jack Johnson. The other is the carving of a tree  
15 that's on the Galveston Housing Authority property.

16 Q. Okay. Was that a tree -- tree stump after  
17 Ike?

18 A. Correct.

19 MS. OLALDE: Okay. And, Jordan, we  
20 can move on to another article that starts out with  
21 "Galveston Grocery Store."

22 (Witness reading document.)

23 MS. VALL-LLOBERA: Ms. Olalde, are you  
24 asking about the comments as well? Should we review  
25 those at this time?

1 MS. OLALDE: No, I try to ignore the  
2 comments in newspaper articles for the most part.

3 MS. VALL-LLOBERA: Thank you.

4 A. Okay.

5 Q. (BY MS. OLALDE) Okay. Do you recall seeing  
6 this article, sir?

7 A. Yeah, yeah.

8 Q. Okay. And you're quoted in it, right?

9 A. Correct.

10 Q. Okay. Can you tell me what the issue was  
11 that this article was trying to capture?

12 A. I can't tell you how it came about, I mean,  
13 what their thinking was.

14 Q. Okay. But it was about a mural that had been  
15 painted on the side of a grocery store in Galveston; is  
16 that correct?

17 A. Correct.

18 Q. And the mural depicted a scene from -- or  
19 scenes from the movies -- the Planet of the Apes  
20 movies?

21 A. Correct.

22 Q. And in the article -- or actually not just in  
23 the article -- are you aware that some people found  
24 that to be discriminatory against African Americans?

25 A. Yes.

1 Q. Did you agree with that?

2 A. No.

3 Q. Can you tell me why?

4 A. I don't look like an ape.

5 Q. No, that's exactly -- and let's get to the  
6 quote that you had on page 3 of the article, and it's  
7 paragraphs 1, 2, 3, the first four full paragraphs on  
8 that page.

9 A. Yeah.

10 Q. You didn't find any racism in the mural; is  
11 that correct?

12 A. No.

13 Q. And I guess what I did want to ask was, you  
14 had mentioned in this article that there are greater  
15 problems, there are bigger problems than a mural that  
16 people should be spending their time and energy on.  
17 What were some of those problems that you were -- that  
18 you were referencing in -- in that quote?

19 A. Not too long before that there was a young  
20 man depicted with his hands tied behind him and walking  
21 between two horses, and police officers were on the  
22 horses. This happened not too long I think after that.  
23 I live around the corner from this store and I saw the  
24 beginning of the mural going up, and I paid it little  
25 to no attention.

1                   When the mural was finished, about a  
2 week later Mr. Gillings took it upon himself to project  
3 his objection and to say that it was racist. Well,  
4 I've seen the Planet of the Apes movie three times, and  
5 what I get from the Planet of the Apes movie every time  
6 is at the end the apes get the guns and kill everybody  
7 else. So how can it be so racially motivated, and they  
8 took it to the extreme that racist Anglos called  
9 African Americans apes? I -- I -- I just -- I couldn't  
10 tie the two ends together. And the story about Neely  
11 on the horse, I think that only added fire to it where  
12 in Neely's case it should have been mental health, and  
13 in this case it should have been, dog, that's a good  
14 mural because it actually looked like the scenes of the  
15 movie.

16           Q. Do you know whether the mural was changed or  
17 removed after this article was published?

18           A. No, it wasn't.

19                   MS. OLALDE: Okay. Jordan would you  
20 pull up the next article, "New video released"?

21                           (Counsel complying.)

22           Q. (BY MS. OLALDE) And I'll just represent to  
23 you that this is an article about Mr. Neely's arrest  
24 that you were just discussing. I'll give you the  
25 chance to -- to look through it, and just let me know

1 when you're ready.

2 (Witness reading document.)

3 A. Okay.

4 Q. (BY MS. OLALDE) Mr. Phillips, were you a  
5 member of the Civilian Review Board when Mr. Neely was  
6 arrested?

7 A. No.

8 Q. Okay. Was the Civilian Review Board still in  
9 place whenever he was arrested; do you know?

10 A. I'm not sure.

11 Q. Okay. You were quoted in this article,  
12 correct?

13 A. Correct.

14 Q. You believe that Mr. Neely should have been  
15 treated for mental health issues, not arrested; is that  
16 true?

17 A. Correct.

18 Q. On the last page of this article at the very  
19 top you're quoted as saying or you're -- it's  
20 represented that you said that you wanted to see  
21 whether the officers -- officers violated policy before  
22 deciding whether you think the officers should be  
23 punished. Was that -- is that an -- an accurate  
24 reflection of what you had thought at the time?

25 A. Sure.

1 Q. Okay. Do you think that they violated policy  
2 whenever they did this?

3 A. What I thought was you can't -- you can't do  
4 a rush to judgment. You actually have to find out the  
5 facts. I can't say they violated policy because both  
6 of the officers were new to the mounted police. The  
7 mounted police normally would be used during Mardi  
8 Gras. The method that they used was the method that,  
9 during Mardi Gras, that they would maneuver people that  
10 were in custody to the police holding area in that  
11 manner, and it would be for not only the individual's  
12 safety but for the officers' safety, because you're  
13 going through a crowd and they see the horses coming  
14 and they open up and let you through. These officers  
15 were new, and after finding out all of the if, ands, or  
16 buts, like the police chief said they just made a  
17 stupid mistake. And it would -- it was captured on a  
18 picture, and a rush to judgment happened where nobody  
19 considered that this was the seventh time he had been  
20 arrested in the same place, and he was being arrested  
21 now because he had gone from just a place to lay his  
22 head at night because he was homeless, to him  
23 defecating right there on their porch of the parks  
24 board. So in lieu of finding out all of the evidence,  
25 what punishment should you give the police officers

1 when they're following the only procedure that they  
2 knew because they were new? So what was your question?

3 Q. Oh, goodness. No worries, I appreciate that.  
4 Do you know whether the police chief implemented new  
5 policies or training after this incident?

6 A. Yes.

7 Q. What did they do?

8 A. I'm not sure, but there was a committee  
9 formed and they came up with new policies. He -- as a  
10 matter of fact it -- it -- it -- it enhanced what he  
11 was already doing with revamping policies.

12 Q. And it's also true that that is not  
13 Mr. Wiley, correct? He's no longer with the Galveston  
14 PD?

15 A. That wasn't Wiley. That was Chief Hale.

16 Q. Right.

17 MS. OLALDE: Jordan, would you mind  
18 putting up the next article, which is, will be Exhibit  
19 7, and it starts with, "There's another story."

20 (Exhibit No. 7 marked.)

21 (Counsel complying.)

22 (Witness reading document.)

23 A. Okay.

24 Q. (BY MS. OLALDE) And again, I'm not going to  
25 talk about the comments, just to -- just to be -- have

1 you seen this article before, sir?

2 A. I think I read it.

3 Q. Do you know Eddie Janek, Sr.?

4 A. Yes.

5 Q. Okay. And this article is about the statue  
6 that was constructed --

7 (Parties speaking simultaneously.)

8 A. In front of the courthouse.

9 Q. -- United Confederacy; is that correct?

10 A. Correct.

11 Q. Did Mr. Janek talk to you about cleaning that  
12 statue up?

13 A. Yes.

14 Q. And at the time you had agreed that -- you  
15 had agreed with him, with the proposition that it  
16 should be cleaned up?

17 A. Certainly.

18 Q. Okay. And what did you mean when you said,  
19 "I'll make sure no one fools with the statute"?

20 A. I think what I meant by that was that I would  
21 use all the influence that I had to keep anybody from  
22 messing with the statue.

23 Q. Okay. Did you agree with people who wanted  
24 to take down the statute?

25 A. 50/50.

1 MS. OLALDE: Okay. Jordan, we can go  
2 to the next exhibit. It'll be Exhibit 8 and it starts  
3 with "Rumor mongers."

4 (Exhibit No. 8 marked.)

5 (Witness reading.)

6 A. Okay.

7 Q. (BY MS. OLALDE) Do you know what the rumor  
8 was that was circulating about the mayor?

9 A. That he was racist.

10 Q. Do you know why that rumor was going around?

11 A. I have no idea.

12 Q. Okay. Do you know who was repeating the  
13 rumor?

14 A. I have no idea.

15 Q. Okay. So what prompted you to -- to write  
16 the article?

17 A. Because it came to my attention that the  
18 rumor was out there.

19 Q. Okay. And obviously you don't believe that  
20 Mayor Craig Brown or his wife are racist, correct?

21 A. No.

22 Q. Do you believe that any mayor in the city of  
23 Galveston in your experience is -- was racist or is  
24 racist?

25 MS. VALL-LLOBERA: Objection, broad.

1 MS. OLALDE: Let's just limit it to --  
2 let me ask about Mayor Rosen.

3 Q. (BY MS. OLALDE) Do you believe Mayor Rosen  
4 was racist?

5 A. Things that people do may seem, may put them  
6 in one light; and then after your begin to interact  
7 with that individual, they become in another light. So  
8 in the beginning that tone of racism was there because  
9 he was elected during a time when there was a fight for  
10 public housing, and he was elected only on the basis  
11 that he was not going to allow public housing to be  
12 rebuilt. And that was -- that had racial overtones  
13 because the -- 70 percent of the people who lived in  
14 the public housing were minorities.

15 Q. Do you -- do you know what his alternate plan  
16 was if he wasn't going to support reconstructing public  
17 housing?

18 A. They didn't have one.

19 Q. Do you remember anything about, like,  
20 vouchers or anything for rent?

21 A. That would have taken the majority of the  
22 individuals in public housing off of the island.

23 Q. There -- was there -- there just wasn't  
24 enough rental opportunity or availability on the  
25 island?

1 A. No.

2 Q. Okay. At any point did your opinion of -- of  
3 Mayor Rosen change?

4 A. Yes.

5 Q. Can you tell me when that was and why?

6 A. Like I said, you know, you get to meet  
7 somebody face to face and begin to communicate with  
8 them for a period of time, and you can see that your  
9 first opinion was not the -- the best light to have  
10 them in.

11 Q. So why did your opinion change about Mayor  
12 Rosen?

13 A. Mayor Rosen, city attorney, I think one of  
14 the city councilmen, the president of the board who was  
15 Buddy Hurst -- we were in his office -- all were  
16 against public housing being rebuilt, and they were  
17 summoned to Washington. When they came back they had a  
18 totally different opinion of, I can't say they had a  
19 total of -- difference in opinion about public housing,  
20 but what they had was a totally different opinion about  
21 what they could do when they were informed that there  
22 was only one pocketbook and the federal government had  
23 that, so grants from the police department, fire  
24 department, city departments would no longer be freely  
25 given to Galveston. So in other words, instead of you

1 being at the top of the stack to get grants, you all of  
2 a sudden went to the bottom of the pile. You know when  
3 you get to the bottom of the pile the money's running  
4 out. So they came back with a completely different  
5 opinion and it became, okay. Let's figure out what to  
6 do.

7 Q. How did that change your opinion of Mayor  
8 Rosen though?

9 A. It didn't change right away. It -- it -- it  
10 changed through various conversations with him and  
11 interactions with him and interactions with his wife  
12 Fidel. You know, you -- you can't judge a book by the  
13 cover. You have to open the book and read the story.

14 Q. Sitting here today you don't think Mayor  
15 Rosen or his wife are racist?

16 A. Good people.

17 MS. OLALDE: Okay. Jordan, would you  
18 pull up the next article, please? It'll be Exhibit 9,  
19 and it starts with "Police attack."

20 (Exhibit No. 9 marked.)

21 (Witness reading.)

22 A. Okay.

23 Q. (BY MS. OLALDE) Okay. And I know this is an  
24 article you had written back in 2008, correct?

25 A. Correct.

1 Q. Okay. The community was asking for a  
2 Civilian Review Board to review incidents with the  
3 Galveston City Police; is that correct?

4 A. Correct.

5 Q. Was that a unanimous -- all right, I guess,  
6 let -- let me go back. The Galveston Municipal Police  
7 Association, what was this statement that they had made  
8 against Mr. Woods; do you remember?

9 A. I'm not sure.

10 Q. Okay. The second page of the article, the  
11 last part of that first paragraph, it didn't identify  
12 who the speaker was, but the -- the reported statement  
13 is, "If Terrace Woods is going to be a rogue counsel  
14 member and anti police, it wouldn't take a whole lot to  
15 do a recall election"; did I read that correctly?

16 MS. VALL-LLOBERA: I'm sorry, Angie --  
17 Ms. Olalde, we're on the wrong page.

18 THE DEPONENT: Oh, here it is.

19 MS. VALL-LLOBERA: If you could  
20 restate.

21 MS. OLALDE: Oh, I'm sorry. It's on  
22 the second page, I apologize.

23 A. I didn't -- I don't understand what that  
24 meant. I don't understand what was going on then.

25 Q. (BY MS. OLALDE) Okay. But you didn't believe

1 that Mr. Woods was anti police, correct?

2 A. No.

3 Q. And you didn't believe that the Civilian  
4 Review Board was a racial issue either, did you?

5 A. No.

6 MS. OLALDE: Okay. You can move on.  
7 Go to Exhibit 10, and it's a -- an article that starts  
8 with "Meeting to mull."

9 (Exhibit No. 10 marked.)

10 (Witness reading.)

11 A. Okay.

12 Q. (BY MS. OLALDE) Is it true that you did not  
13 believe that police brutality was an agency-wide  
14 problem in Galveston?

15 A. No.

16 Q. That's not true or you didn't?

17 A. I didn't believe it.

18 Q. Okay. And do you believe that Police Chief  
19 Mack appropriately responded to concerns that were  
20 brought up by the community about police brutality?

21 A. No.

22 Q. Okay. Can you tell me why?

23 A. No actions were taken.

24 Q. Do you know whether there was any training or  
25 discipline?

1 A. Not that I know of.

2 Q. Okay. If you turn to the second page of the  
3 article.

4 MS. VALL-LLOBERA: The second page of  
5 what? I'm sorry, Counsel.

6 MS. OLALDE: -- sorry, the second page  
7 of that exhibit.

8 Q. (BY MS. OLALDE) Down at the very bottom  
9 you're quoted as saying, "This is not a color thing.  
10 Police brutality is an issue that affects everyone";  
11 did I read that correctly?

12 A. Yeah.

13 Q. All right. And you stand by that today,  
14 correct?

15 A. Yes.

16 Q. Okay. Did you go to a meeting in 2007 with  
17 activist Quanell X and members of the New Black Panther  
18 Nation; is that correct?

19 A. Yes, I brought him to Galveston.

20 Q. Okay. Did members of the New Black Panther  
21 Nation come to any other meetings in Galveston --

22 A. No.

23 Q. Okay. Are you associated with the New  
24 Black Panther Nation?

25 A. No.

1 THE REPORTER: Was somebody  
2 complaining? Oh, okay. Never mind. Sorry, Counsel.

3 MS. OLALDE: Sorry.

4 Q. (BY MS. OLALDE) Okay. We can take a quick  
5 break on articles and just go back to some questions.

6 You said that you know Commissioner  
7 Holmes. When did you meet -- first meet Commissioner  
8 Holmes?

9 A. Oh, my goodness. That's a good question. I  
10 can't really pinpoint. I would have to say in early  
11 2000s.

12 Q. Okay. How did you --

13 A. 2001, '02, '03, something like that.

14 Q. Okay. How did you -- how did you meet him?  
15 Do you recall?

16 A. A gentleman by the name of Craig Bowie and  
17 myself had created a school of entrepreneurship, and I  
18 think at one point we had him to come and speak to the  
19 class, and I -- I want to say that was around the first  
20 time that I had met Stephen.

21 Q. Okay. And is -- is he somebody that you --  
22 you had mentioned earlier that he's somebody that you  
23 interact with on a pretty regular basis; is that true?

24 A. Yes.

25 Q. And you might be on the same emails, you

1 might email back and forth?

2 A. No.

3 Q. Not at all?

4 A. No.

5 Q. Okay. All right. And you'd mentioned that  
6 you've never met Commissioner Giusti; is that correct?

7 A. Correct.

8 Q. Now is it also fair to say that you've never  
9 reached out to Commissioner Giusti?

10 A. Correct.

11 Q. Do you know Darrell Apffel?

12 A. No.

13 Q. Okay. And is it also fair to say that you've  
14 never reached out to Darrell Apffel to have any  
15 conversations or for any issues?

16 A. No.

17 Q. Okay. And I wanted to circle back on the --  
18 the commissioner precinct that you currently live in,  
19 is it 2 or 3 or do you recall?

20 A. Whichever one Stephen Holmes was. I have no  
21 idea now.

22 Q. Okay. You don't know who your current  
23 commissioner is?

24 A. No.

25 Q. Do you intend to vote in the next county

1 commissioner election?

2 A. Yes.

3 Q. Okay. Do you have any idea of who you would  
4 support?

5 A. Stephen Holmes.

6 Q. And if he's not running in your district?

7 MS. VALL-LLOBERA: Objection,  
8 hypothetical.

9 Q. (BY MS. OLALDE) You can answer.

10 A. I have no idea.

11 Q. Would you support a Democrat over a  
12 Republican at the next election?

13 MS. VALL-LLOBERA: Objection,  
14 hypothetical.

15 Q. (BY MS. OLALDE) You can answer.

16 A. Certainly.

17 Q. Okay. Do you -- and this might not be, this  
18 might just be something that -- that you don't have an  
19 opinion on, but in this lawsuit, since you're a  
20 plaintiff, do you know exactly what it is you're asking  
21 the judge or the jury to do?

22 A. Basically --

23 MS. VALL-LLOBERA: Objection,  
24 confusing.

25 Q. (BY MS. OLALDE) You can answer.

1           A.    -- basically to allow the previous district  
2 lines to be recreated with minor adjustments.

3           Q.    Okay.  At the November 12th, 2021 meeting, do  
4 you know whether Commissioner Holmes had any alternate  
5 maps with him that day?

6           A.    I'm not sure.

7           Q.    Okay.  Had you ever seen any alternate map  
8 proposals from Commissioner Holmes?

9           A.    Not from Commissioner Holmes.

10          Q.    Who have you seen alternate map proposals  
11 from?

12          A.    My attorneys.

13          Q.    Okay.  And I don't -- again, I don't want to  
14 hear anything about what you've discussed with your  
15 counsel.  Let's see.  At the November 12th, 2021  
16 meeting there were individuals in the audience who had  
17 signs; is that correct?

18          A.    Yes.

19          Q.    Do you remember a sign that said "Politicians  
20 picking voters"?

21          A.    Not in particular.

22          Q.    Do you agree with that sentiment that one of  
23 the objections of -- from the community that  
24 politicians were picking voters?

25          A.    I don't even know what that means.

1 Q. It's fair. It wasn't your sign, right?

2 A. No.

3 Q. Did you have a sign when you were there?

4 A. No.

5 Q. Sorry, I just want to make sure I'm not  
6 repeating any of my questions, so I just want to take a  
7 quick second and look at my notes.

8 A. You're okay.

9 Q. Did you ever have any involvement with the  
10 park board?

11 A. Yes.

12 Q. What was that involvement?

13 A. I was on an advisory committee to the  
14 Galveston Parks Board.

15 Q. When was that?

16 A. I can't put my finger on what years.

17 Q. Okay. And what was the advisory committee  
18 for? What were you advising on?

19 A. We were assigned with giving our opinion on  
20 how things were affecting our communities.

21 Q. Okay. And -- and can you give me an example  
22 of some of the things that you were advising on that  
23 would affect your community?

24 A. MLK, Juneteenth, Cinco De Mayo, St.  
25 Patrick's Day, Mardi Gras, just everything and the

1 effects that it was having on our community; it gave us  
2 a voice.

3 Q. Okay. Do you feel like your recommendations  
4 were listened to?

5 A. A lot of them, yes.

6 Q. Okay. Were you ever part of a Galveston  
7 ethics commission?

8 A. I wasn't a part of; I had an ethics  
9 complaint.

10 Q. What was your ethics complaint?

11 A. That one of the city council people were  
12 voting on issues that, by the ethics committee, by the  
13 City charter rules, he shouldn't have been voting on.

14 Q. Oh, that was Mr. Woods, wasn't it?

15 A. No.

16 Q. Who was it, do you remember?

17 A. Oh, Jesus.

18 Q. If you don't remember, it's okay.

19 A. Bolton-Legg.

20 Q. I'm sorry?

21 A. Bolton-Legg.

22 Q. And their first name?

23 A. That's what I can't remember.

24 Q. That's okay. Do you know if your complaint  
25 was listened to?

1           A.    Yes, it was the first time that an ethics  
2 complaint had gone past the first stage.

3           Q.    Okay.  You've been obviously, you know,  
4 having grown up Galveston you're very familiar with the  
5 beach there, correct?

6           A.    Correct.

7           Q.    There's issues with erosion and having to  
8 re-nourish the beach, is that also correct?

9           A.    Yes.

10          Q.    Do you know if those issues are also present  
11 on Bolivar Peninsula?

12          A.    Probably.

13          Q.    Okay.  Are you very familiar with Bolivar at  
14 all?

15          A.    No.

16          Q.    Okay.  Are you very familiar with issues on  
17 the mainland?

18          A.    No.

19          Q.    Okay.  So it's fair that your knowledge is --  
20 is pretty central to Galveston Island?

21          A.    Correct.

22          Q.    Okay.  Do you know about how many people  
23 attended the November 12th hearing?

24          A.    I'm not sure.  I knew there was a lot of  
25 people.

1 Q. Okay. Switching gears just a little bit,  
2 with respect to this lawsuit -- and I don't want to  
3 hear about any conversations that you may have had with  
4 your attorneys -- but how did you come to be involved  
5 in this lawsuit?

6 A. I was asked did I want to be a part of it.

7 Q. And who asked you that?

8 A. I can't even remember.

9 Q. Okay. Do you know -- you don't know if it  
10 was an attorney or maybe somebody from community?

11 A. I can't remember.

12 Q. That's fair. Do you know when that occurred?

13 A. Maybe a couple of months after the November  
14 meeting.

15 Q. Okay. And did you have any conversations  
16 with anybody else about potentially joining the  
17 lawsuit?

18 A. No.

19 Q. Okay. Do you know of anybody else who had  
20 reached out about joining the lawsuit?

21 A. No.

22 Q. Did you contact the DOJ about redistricting  
23 in 2021?

24 A. Personally?

25 Q. Yes, sir.

1 A. No.

2 Q. How about on behalf of any organization?

3 A. I'm not sure.

4 Q. Okay. All right.

5 MS. OLALDE: Let me look back at a  
6 couple of exhibits, and, Counsel, I'll be switching  
7 gears with the next line of questioning. So if you  
8 need to take a break now's a good time. Otherwise we  
9 can keep going?

10 MS. VALL-LLOBERA: Let -- let me ask  
11 -- maybe we should take a short break, maybe five  
12 minutes.

13 THE VIDEOGRAPHER: Going off the  
14 record, 11:52.

15 (Off the record.)

16 THE VIDEOGRAPHER: Going back on the  
17 record, 12:10 p.m.

18 Q. (BY MS. OLALDE) Great. All right.  
19 Mr. Phillips, I'm going to show you the next exhibit.

20 MS. OLALDE: And, Jordan, that's No.  
21 21-A.

22 (Exhibit No. 21-A marked.)

23 (Witness looking through document.)

24 Q. (BY MS. OLALDE) Just let me know once you've  
25 had a chance to -- to look at the document. Oh, I'm

1       sorry. Let's see, yeah. Okay. And my -- my first  
2       question is going to be, have you seen this before?

3             A.     I'm not sure.

4             Q.     Okay. But you did receive this in your email  
5       as it's indicated at the very top of that exhibit?

6             A.     Yes.

7             Q.     Okay. And who is Chula?

8             A.     Who?

9             Q.     Chula. It looks like the person who sent you  
10       the --

11            A.     Chula. Chula Sanchez.

12            Q.     -- okay. And it looks like Chula was  
13       reaching out to you for your opinion on the proposed  
14       maps; is that correct?

15            A.     I think so.

16            Q.     All right. Were you ever able to connect  
17       with Chula or anybody else to share your opinions?

18            A.     No.

19            Q.     Okay. Did anybody host a public forum on the  
20       changes like she asked in the email?

21            A.     Not that I know of.

22            Q.     Okay. But you didn't -- you certainly  
23       weren't part of anything like that?

24            A.     No.

25            Q.     Okay. If you go down to the original email

1 at the very bottom of that document, it looks like Mary  
2 Patrick sent an email about the redistricting maps.

3 Did you ever click on that link that's in that email?

4 A. I'm not even sure.

5 Q. No problem. And the -- the kind of toward  
6 the middle of her -- the body of her email, she says  
7 Map 1 and Map 2; do you see that?

8 A. Yes.

9 Q. And it's -- the Map 1 it says "remove Bolivar  
10 from the map" and Map 2 it says "eliminate the map";  
11 did I read that correctly?

12 A. That's what I'm looking at.

13 Q. Did you take that to mean those were the  
14 recommendations that the feedback on those maps should  
15 be to remove Bolivar from Map 1 and to eliminate Map 2?

16 A. I don't even remember the email.

17 Q. Okay. Do you -- but you don't remember that  
18 commentary about those maps either?

19 A. I don't remember the email at all.

20 Q. Okay. Well, even outside of the email, do  
21 you remember anybody talking about their specific  
22 criticisms of these two maps?

23 A. The only criticism that I know of about the  
24 maps is once we found out it was eliminating Stephen's  
25 district, that we were totally against that.

1 Q. Okay. Do you have any opinion as to whether  
2 the comments in this email about Map 1 and Map 2 would  
3 be okay under the current law?

4 MS. VALL-LLOBERA: Objection, asks for  
5 a legal conclusion.

6 Q. (BY MS. OLALDE) You can answer. It's really  
7 just if you have any opinion.

8 A. I mean, I don't even know what Map 2 means  
9 when they say eliminate the map.

10 Q. That's fair. We can move on.

11 MS. OLALDE: Jordan, if we can pull up  
12 the next exhibit, it will be No. 27.

13 (Exhibit No. 27 marked.)

14 (Counsel complies.)

15 Q. (BY MS. OLALDE) And just let me know when  
16 you've had a chance to look at it.

17 A. Okay.

18 Q. Does this exhibit help refresh your memory  
19 about whether you placed a phone call to the DOJ about  
20 the 2021 commissioners court redistricting?

21 A. No.

22 Q. It doesn't, okay. Well, let's look at the  
23 second page and it -- it shows itself to be a  
24 transcript of a voice mail message; do you see that?

25 MS. VALL-LLOBERA: Excuse me, this

1 exhibit only has one page.

2 MS. OLALDE: Well, that's not good.  
3 Jordan, let me send you -- actually, let me see if I  
4 can drop my copy into the chat and if we can replace  
5 that exhibit with what I'm looking at. I apologize,  
6 that's my fault. Once you've had a chance to look at  
7 the second page of this exhibit, just let me know.

8 (Witness looking through document.)

9 MS. VALL-LLOBERA: This is what was  
10 missing from the other version.

11 THE WITNESS: Which is nothing.

12 Q. (BY MS. OLALDE) Okay. I apologize because  
13 the first time I asked you about this you didn't have  
14 the -- the transcription in front of you, but now does  
15 this refresh your memory about whether you placed a  
16 phone call to the DOJ?

17 A. No.

18 Q. I mean, it's a pretty short message, right?

19 A. From what I'm reading, yes.

20 Q. Do you have any reason to dispute that you  
21 placed a phone call to the DOJ, that it contained  
22 this -- this text?

23 A. I have no idea.

24 Q. Fair enough. Well, is it true that you were,  
25 you are totally against the lines that were drawn in

1 the state of Texas?

2 MS. VALL-LLOBERA: Objection,  
3 mischaracterizes prior testimony.

4 Q. (BY MS. OLALDE) You can answer.

5 A. I don't know anything about a map for the  
6 State of Texas.

7 Q. Okay. And that was going to be my question,  
8 if you look at the -- the paragraph there on page 2,  
9 what I was really wanting to know is if you were  
10 talking about statewide redistricting?

11 A. I have no idea what that means.

12 Q. Okay. Have you ever had an opinion outside  
13 of this email about state -- statewide redistricting in  
14 2021?

15 A. No.

16 Q. Okay. Do you have an opinion on  
17 redistricting in any other jurisdiction beyond  
18 Galveston County --

19 A. No.

20 Q. -- in 2021?

21 A. No.

22 Q. Okay. Did anybody from the DOJ ever call you  
23 to discuss 2021 redistricting?

24 A. I'm not sure.

25 Q. Okay. Do you recall ever speaking with

1 anybody at the DOJ about redistricting from 2021?

2 A. That's what I'm not sure about.

3 Q. Okay. Do you believe that race relations in  
4 Galveston have improved over the past 10 years?

5 A. Measuring that by what barometer?

6 Q. Well, why don't you tell me about the  
7 barometers you believe are appropriate measures for  
8 judging whether race relations have improved?

9 A. Being the president of the Galveston  
10 Coalition For Justice I would have to say in the past  
11 three, maybe even four years the complaints that have  
12 come in on police brutality have lessened. The  
13 complaint on code enforcement officers has lessened.  
14 So I would have to say that, because of that finding,  
15 that something's being done right.

16 Q. Okay. Switching gears just a little bit, do  
17 you believe that white people in Galveston County  
18 usually vote for the same candidate?

19 MS. VALL-LLOBERA: Objection,  
20 speculation.

21 Q. (BY MS. OLALDE) You can answer.

22 A. I wouldn't even know how to answer that.

23 Q. You just don't have an opinion, correct?

24 A. No.

25 Q. Okay. All right. You're aware of white

1 Democrats in Galveston County, right?

2 A. Yeah.

3 Q. Yeah. Do you believe that African American  
4 and Latino voters in Galveston County typically vote  
5 for the same candidates?

6 MS. VALL-LLOBERA: Objection,  
7 speculation.

8 Q. (BY MS. OLALDE) You can answer.

9 A. I have no idea.

10 Q. Okay. Do you believe that members of the  
11 African American and Latino communities in Galveston  
12 County face the same issues that they would want a  
13 candidate to -- to assist with for commissioners  
14 court -- for -- let me rephrase that. That was a  
15 horrible question.

16 Do you believe that members of the  
17 African American and Latino communities in Galveston  
18 County face the same issues that a county commissioner  
19 could assist with?

20 A. Repeat that?

21 Q. Yeah. Do you believe that African American  
22 and Latino individuals in Galveston County would have  
23 the same concerns to present to a county commissioner?

24 A. I can't speculate on that.

25 Q. You just don't know, correct?

1 A. Right.

2 Q. Okay. What kind of issues would a county  
3 commissioner help with, help the community with? I  
4 know that earlier you mentioned the senior center. Are  
5 there other issues that you can think of?

6 A. Parks. The county doesn't play a great big  
7 role in the City of Galveston's functioning, so that's  
8 really hard to say.

9 Q. That's fair. But with respect to parks and  
10 the senior center, is that fair to say that those --  
11 those facilities are used by people of all races?

12 A. Yes.

13 Q. Is it also fair to say that those facilities  
14 are -- are needed by people of all races?

15 A. Yes.

16 Q. Is it fair to say that you think political  
17 issues are more important when you're thinking about  
18 who to vote for than the color of their skin?

19 A. Yes.

20 Q. I know that you said that you're not very  
21 familiar with, you know, what happens on the mainland  
22 or in Bolivar and that your knowledge base is central  
23 to Galveston. Is that true for racial demographics in  
24 Galveston and the county?

25 A. Exactly what do you mean?

1 Q. Sure. Do you know that -- the racial  
2 demographics in say, like, Texas City?

3 A. No.

4 Q. Or anywhere on the mainland?

5 A. No.

6 Q. But you're familiar with the racial  
7 demographics in Galveston; is that correct?

8 A. Correct.

9 Q. And what are those demographics that you're  
10 aware of, currently?

11 A. I actually want to say 42 percent -- Anglo,  
12 37 percent Hispanic, and about 16 percent African  
13 American, and the rest other.

14 Q. Okay. And those are very specific numbers.  
15 Do you know where that -- they came from?

16 A. Those numbers kind of came from, and when I  
17 say "kind of came from" after Ike up until last year,  
18 the City of Galveston was probably 7,000 to 7,500  
19 African Americans short from pre-Ike. Some of the --  
20 some of the numbers that I've come up with have come  
21 from GISD.

22 Q. Okay. And when you give -- you give the  
23 breakdown you're talking about Galveston City, correct?  
24 Not the entire island? Or are you talking about the  
25 entire island?

1           A.    Isn't the entire island the City of  
2 Galveston?

3           Q.    I don't believe so. I might be wrong, but I  
4 don't believe so. Like Jamaica Beach, things like  
5 that, West End?

6           A.    Oh, okay. Yeah, I'm talking about the City  
7 of Galveston.

8           Q.    Yeah, the most -- the most highly populated  
9 area, right?

10          A.    Yeah, the City of Galveston.

11          Q.    Okay.

12          A.    If you're breaking it down that way, yes.

13          Q.    Okay. Are you -- I mean, are you aware of  
14 the racial demographics on the West End or anything  
15 like that?

16          A.    Not at all.

17          Q.    Okey-dokey. Do you know whether the  
18 population of Galveston City has increased over the  
19 past 10 years?

20          A.    Yes.

21          Q.    Okay. And how has it increased?

22          A.    I think we're just above the 50,000 mark.

23          Q.    And what was it 10 years ago? Do you recall  
24 or do you know?

25          A.    Right after Ike we were down to about 42

1 percent.

2 Q. And you say 42 percent, what would that be in  
3 population --

4 A. Yeah.

5 Q. -- or do you know?

6 A. I -- I have no idea how the break down went  
7 then.

8 Q. No worries. Other than the -- the statistics  
9 that you've told me about today, are you -- do you  
10 track any other type of demographic statistics for  
11 Galveston?

12 A. No.

13 Q. Okay. Did you ever talk with Commissioner  
14 Holmes about his involvement in the redistricting  
15 process?

16 A. I want to say briefly.

17 Q. Do you recall what was discussed?

18 A. I think it was more like he didn't have that  
19 much involvement at all in it.

20 Q. Okay. Anything else?

21 A. No.

22 Q. All right. And do you -- but you don't  
23 personally know how much involvement he had, correct?  
24 Just -- just what you said?

25 A. Right.

1 Q. Okay. Have you talked with any of the other  
2 named plaintiffs in this lawsuit about redistricting  
3 before the case was filed?

4 A. No.

5 Q. Okay. Not Ms. Courville --

6 A. No.

7 Q. -- or, excuse me, or Mr. Petteway or anybody  
8 else?

9 A. No.

10 Q. Okay. After the lawsuit, have you had  
11 discussions with him about redistricting?

12 A. If so, it would have been in passing.

13 Q. Okay. What kind of in passing comments do --  
14 are you thinking about would have occurred?

15 A. I'm not even sure.

16 Q. Okay. Do you believe Commissioner Holmes  
17 could be re-elected in Galveston County if he were to  
18 run again?

19 MS. VALL-LLOBERA: Objection,  
20 incomplete hypothetical.

21 Q. (BY MS. OLALDE) You can answer.

22 A. I don't know how the new lines have been  
23 drawn.

24 Q. Okay. So you don't have an opinion as to  
25 whether he can be re-elected?

1 A. I hope he can.

2 Q. I mean, he's been a figure and a pillar of  
3 the community for over 20 years, right?

4 A. Correct.

5 Q. He's a pretty good guy, right?

6 A. Yes.

7 Q. And from your experience he works hard to  
8 serve his constituency, right?

9 A. He does.

10 Q. Okay. And those are all factors that are  
11 important to you when choosing a candidate to vote for?

12 MS. VALL-LLOBERA: Objection --

13 A. Yeah.

14 MS. VALL-LLOBERA: -- to form.

15 Q. (BY MS. OLALDE) You said yes?

16 A. Yes.

17 Q. Okay. Now we talked about things that  
18 happened in Galveston, in the City of Galveston, but  
19 with respect to Galveston County as a whole, do you  
20 believe that there's a history of official  
21 discrimination in Galveston County?

22 A. I wouldn't even know how to answer that.

23 Q. Okay. Is the question confusing or you just  
24 don't have an opinion?

25 A. I don't have really an opinion about it.

1 Q. Okay. And you don't follow statistics about  
2 voting practices of any group of people, whether it's  
3 socioeconomic or race or anything like that?

4 A. No.

5 Q. Okay.

6 THE WITNESS: Getting cold.

7 Q. (BY MS. OLALDE) Is it cold in there?

8 A. Yes.

9 Q. Sorry, it's always cold in there. Do you  
10 believe that elected officials in Galveston County have  
11 ever been unresponsive to the needs of minority  
12 residents?

13 MS. VALL-LLOBERA: Objection, vague.

14 Q. (BY MS. OLALDE) You can answer.

15 A. I've had no association with any of them, so  
16 I would have no knowledge.

17 Q. Okay. It is fair to say that you believe  
18 that there is, that discrimination exists within  
19 Galveston County, correct?

20 A. When you're left out of the process it kind  
21 of speaks for itself.

22 Q. Okay. Are there other examples of  
23 discrimination within the county, county wide, that you  
24 think would be important for a judge or a jury to know  
25 in this case?

1           A.    I have no idea what any of the Republicans  
2           that are county commissioners thought patterns are  
3           because they don't communicate with minorities, so how  
4           would I have an opinion about it?

5           Q.    Okay.  And you're not aware of -- of Joe  
6           Giusti's communications with anyone about the -- the  
7           maps prior to the vote though, right?

8           A.    He could be sitting in this room and I  
9           wouldn't know who he is.

10          Q.    Right.  And I guess my point is just, it's  
11          fair to say you don't know who they talked to about the  
12          maps before the -- the vote was taken, right?

13          A.    No.

14                   MS. OLALDE:  Okay.  Jordan, let's put  
15          up the next exhibit.  And it's -- I believe it's No. 2.

16                   MS. RASCHKE ELTON:  Did you say 2?

17                   MS. OLALDE:  Yes, ma'am.

18                   (Exhibit No. 2 marked.)

19          Q.    (BY MS. OLALDE) And I'll just give you --  
20          it's a few pages long.  I'll give you a chance to take  
21          a look through that, but when we start I'll just --  
22          because it's an email string, I'll start with the  
23          oldest email toward the bottom.

24                   (Witness looking through documents.)

25          A.    Yeah.

1 Q. (BY MS. OLALDE) Are you ready?

2 (Witness still looking through documents.)

3 A. Okay.

4 Q. (BY MS. OLALDE) I'm going to start on what's

5 Page 3 of that document, and it's a June 10th, 2011,

6 email from Joe Compian. Do you see that?

7 A. Yes.

8 Q. Okay. He mentions in that email that "we won

9 a small victory last night"; do you see that?

10 A. Yes.

11 Q. Do you know what he was talking about?

12 A. No.

13 Q. Okay. And this email had to do with the

14 potential removal of or termination of Harish as the

15 executive director of the Galveston Housing Authority?

16 A. Repeat that?

17 Q. Sure. When he was talking about a small

18 victory, I was asking if it's your understanding that

19 that was in connection with the potential termination

20 of Harish as executive director of the Galveston

21 Housing Authority?

22 MS. VALL-LLOBERA: Objection,

23 speculation.

24 Q. (BY MS. OLALDE) You can answer.

25 A. I -- I don't know.

1 Q. Okay.

2 A. I don't think so.

3 Q. Do you recall anything, any kind of  
4 controversy about Harish as the head of the Galveston  
5 Housing Authority?

6 A. Not as far as I was concerned.

7 Q. Well, in any context?

8 A. No, not really.

9 Q. Okay. Let's go up to page 2 of this exhibit,  
10 to that first email from Joe Compian dated Friday, June  
11 10th of 2011. In the email he says that you and some  
12 other individuals completed an afternoon meeting. Do  
13 you know what that -- if that meeting was connected  
14 with a particular organization?

15 A. From the individuals that was shown I would  
16 have to say it was the collaborative group.

17 Q. Okay. And was this about housing?

18 A. Yes.

19 Q. And what was the -- what was the discussion  
20 about? Because process is in -- the word process is in  
21 quotes. What was the discussion about process at that  
22 meeting?

23 A. Uh, I'm not -- I'm not quite sure.

24 Q. Okay.

25 A. It -- it -- it had something to do with the

1 569 units.

2 Q. Okay. But you don't recall what was  
3 discussed?

4 A. No.

5 Q. Do you have any reason to dispute what  
6 Mr. Compian states in his email?

7 A. About?

8 Q. About anything, any of his comments in the  
9 email about the meeting?

10 A. Not really.

11 Q. Okay. If you go up to the first page of that  
12 exhibit there was an email the next day from  
13 Mr. Compian about Lloyd Chris. Do you see that email?

14 A. Yeah, yeah.

15 Q. Did you attend the -- a meeting with Lloyd  
16 Chris to discuss redistricting?

17 A. I don't remember meeting with him.

18 Q. Have you ever spoken with him before about  
19 redistricting?

20 A. I've spoken to him, but I don't remember what  
21 the content was.

22 Q. Okay. We can take that exhibit down. Have  
23 you ever heard the term LMI Community?

24 A. Lower to Moderate Income Communities.

25 Q. Okay. That was going to be my question, is

1 what that -- what LMI -- what that acronym was for.

2 You know of it as low to moderate income?

3 A. Right.

4 Q. Okay. Let's see.

5 MS. OLALDE: Jordan, if you'll put up  
6 No. 4, please?

7 (Exhibit No. 4 marked.)

8 Q. (BY MS. OLALDE) And I'll just represent to  
9 you that this is kind of a different strand of what was  
10 originally the same email chain as the last exhibit.  
11 So it looks like only in the first two and a half pages  
12 are different, but just take your time.

13 (Witness reading document.)

14 Q. (BY MS. OLALDE) On page 3 of this exhibit at  
15 the very --

16 MS. VALL-LLOBERA: Excuse me,  
17 Ms. Olalde, he's still scrolling through the pages.

18 MS. OLALDE: Oh, I apologize. I'm  
19 sorry.

20 (Witness looking through documents.)

21 Q. (BY MS. OLALDE) Okay. If you'll go to page 3  
22 of that exhibit, the very -- the email at the very top  
23 from Chris Shall Pelley?

24 A. Okay.

25 Q. Ms. Pelley was part of the Texas Low Income

1 Housing Information Service; is that correct?

2 A. I'm not sure.

3 Q. Do you know whether she was local to  
4 Galveston?

5 A. I don't know.

6 Q. Okay. Do you agree with her comment that the  
7 political climate in Galveston was very heightened at  
8 the time of her email?

9 A. Yes.

10 Q. Okay. And that -- do you also agree that  
11 some of the concerns in this email about public housing  
12 had to do with individuals in the low to moderate  
13 income community?

14 A. Repeat that for me.

15 Q. Sure. Do you agree that the -- the issues  
16 about public housing that's discussed in this email  
17 thread concern the low to moderate income community?

18 A. Yes.

19 Q. Okay. Do you remember whether it -- if you  
20 go to page 2 there's an email from Joe Compian who  
21 talks about the resignation of Harish; do you see that?

22 A. Yes.

23 Q. Do you believe that was a political issue  
24 that resulted in Harish's resignation?

25 A. Yes.

1 Q. Okay. One last question about this document.  
2 On page -- looks like it's on page 2 -- it's an email  
3 from R. Lewis, I believe it's Raymond Lewis; do you see  
4 that?

5 A. Yes.

6 Q. He states in the last sentence of the first  
7 paragraph of his email, he says the cost -- the cost of  
8 replacing the 569 has grown exponentially and beyond  
9 anything reasonable; do you see that?

10 A. Yes.

11 Q. Do you know what he meant -- what -- what he  
12 meant as to the cost of replacing, why -- why it had  
13 grown? Do you understand the context of that?

14 A. From the time they were torn down until that  
15 time, the cost of material had gone up.

16 Q. Okay. Any other reason that it -- the cost  
17 would be -- would be beyond anything reasonable?

18 A. No.

19 Q. Okay. We can set that exhibit aside.

20 MS. OLALDE: And then, Jordan, if  
21 you'll put up No. 12, please.

22 A. Okay.

23 (Exhibit No. 12 marked.)

24 (Witness looking through document.)

25 Q. (BY MS. OLALDE) Do you recall sending this

1 email, or do you recall this email?

2 A. I don't recall it, but evidently I sent it.

3 Q. Okay. Do you recall the meeting that was  
4 referenced in this email?

5 A. Not really.

6 Q. Okay. Do you remember the purpose for  
7 discussing redistricting maps in January of 2012?

8 A. Yes.

9 Q. Okay. Can you let me know what that was?

10 A. What do you mean?

11 Q. Sure. In January of 2012 you had a meeting  
12 for the Galveston County Coalition For Justice to speak  
13 about redistricting. Can you tell me why that was the  
14 topic for that meeting?

15 A. Because of the way the redistricting lines  
16 were being drawn.

17 Q. This is just for purely for informational  
18 purposes to let people know where they -- what district  
19 they'd be in, and was there any other component to the  
20 meeting or reason for the meeting?

21 MS. VALL-LLOBERA: Objection,  
22 misstates prior testimony.

23 Q. (BY MS. OLALDE) You can answer.

24 A. Once again, county commissioners did not  
25 inform you of what they were doing by having community

1 meetings. So this was one way we could inform the  
2 public about what was going on with the maps.

3 Q. Was there -- oh, I'm sorry, go ahead. I  
4 didn't mean to interrupt you.

5 A. No, you -- you're doing all right.

6 Q. Okay. Was there any discussion about any  
7 kind of draft maps or any litigation during this  
8 meeting or no?

9 A. No.

10 Q. Okay. We can take that down.

11 MS. OLALDE: And then, Jordan, if  
12 you'll please put up No. 19-B.

13 (Exhibit No. 19-B marked.)

14 Q. (BY MS. OLALDE) And this is a 21-page  
15 exhibit, but I won't be asking you about, you know, the  
16 substance of all the attachments, but please take the  
17 time that you need to review it.

18 (Witness looking over document.)

19 MS. VALL-LLOBERA: Are you able to  
20 read this?

21 THE WITNESS: Uh-huh.

22 Q. (BY MS. OLALDE) And I, just so that you know,  
23 I'm not going to be asking you a lot about the later  
24 attachments to that email, but obviously please take  
25 the time that you need to review.

1 (Counsel Vall-Llobera assisting witness.)

2 A. Okay.

3 Q. (BY MS. OLALDE) Okay. I guess my first  
4 question is -- is -- do you recall this correspondence?

5 A. Not at all.

6 Q. All right. Well, let's go up to the very  
7 first page, the email that attached the letter; and my  
8 question is, is if you -- did you believe that the  
9 settlement map served both the Black and Latino voters?

10 A. You're asking me a question I can't answer.

11 Q. Sure. And I guess more specifically to -- to  
12 Mr. Compian's email, do you think that the DOJ placed  
13 African American voters above the needs of Latino  
14 voters?

15 MS. VALL-LLOBERA: Objection, vague.

16 Q. (BY MS. OLALDE) You can answer.

17 A. I don't have anything to measure it by.

18 Q. Okay. You were a signatory on the attached  
19 letter, correct?

20 A. Correct.

21 Q. You didn't draft it, right?

22 A. No.

23 Q. Do you know who did?

24 A. I'm not sure.

25 Q. Okay. Did you have any comments or edits to

1 any drafts of this letter?

2 A. I don't think so.

3 Q. Okay. And then do you remember something  
4 called the clean lines plan?

5 A. Vaguely.

6 Q. Can you tell me what you recall about the  
7 clean lines plan?

8 A. What they had put out, the lines was so  
9 zigzagged, and when we were talking about clean lines  
10 we were talking about the shortest distance between two  
11 points is a straight line. And I think that's what we  
12 were talking about when we talked about clean lines --

13 Q. Okay.

14 A. -- how to basically draw the lines so that  
15 you wouldn't have to use guesswork. One block wouldn't  
16 be on -- or one side of the street wouldn't be in one  
17 part, the other side of the street be in another part.

18 Q. Okay. If we can go to page 11 of this  
19 exhibit, it's an opinion piece. Is the first map on  
20 that page an example of what you were discussing with  
21 clean lines?

22 A. I'm not sure. I can't even make the map out.

23 Q. It's a little, it's in black and white and  
24 it's a little blurry. Did you ever see a clean lines  
25 map?

1 A. I'm not sure -- scroll up a little bit. The  
2 other way. There.

3 (Counsel Vall-Llobera assisting witness.)

4 A. Probably.

5 Q. (BY MS. OLALDE) Okay. And do you remember  
6 where you saw it or in what context?

7 A. No.

8 Q. Okay. And you can't tell from the page 11  
9 top map whether that was the map that you saw?

10 A. No.

11 Q. Okay. That's fair. Do you know what came of  
12 this correspondence to the DOJ?

13 A. Say that again?

14 Q. Sure. Do you know if there was any response  
15 to this correspondence or what came of this  
16 correspondence to the DOJ?

17 A. No. I don't -- I don't remember.

18 Q. Okay. What does the North Side Task Force  
19 do?

20 A. The North Side Task Force was formed after  
21 Ike. Representative Sheila Jackson Lee said that there  
22 needed to be something formed that would be able to  
23 speak specifically for the North Side.

24 Q. Okay. Do you know if it's still in existence  
25 today?

1 A. I would think so.

2 Q. Okay. And do you know Cornelia Banks?

3 A. Yes.

4 Q. All right. And it's your understanding that  
5 she's still the chair of the North Side Task Force?

6 A. Yes.

7 Q. Okay. All right. Let's take a quick break.  
8 I'm going to take a look at my notes, but we're about  
9 to wrap this up, okay?

10 A. Sounds like a winner to me.

11 THE VIDEOGRAPHER: Off the record,  
12 1:11.

13 (Off the record.)

14 THE VIDEOGRAPHER: Back on the record,  
15 1:25 p.m.

16 Q. (BY MS. OLALDE) Mr. Phillips, were you aware  
17 of any demographer who ever worked with any of the  
18 coalition groups about redistricting back with the 2011  
19 cycle?

20 A. Yes, I think so.

21 Q. Well, do you know who that demographer was?

22 A. I'm not sure.

23 Q. Okay. No worries. Well, then my last  
24 question to you is: Do you think that there are  
25 anything -- any important facts that we have not talked

1 about today that a judge or a jury should know about  
2 this case?

3 MS. VALL-LLOBERA: Objection, vague.

4 Q. (BY MS. OLALDE) You can answer.

5 A. Why would the county commissioners draw the  
6 lines so similar to the lines of 2011 that the judge  
7 basically threw out? Why would they do that again if  
8 it wasn't for a Republican takeover of Stephen Holmes'  
9 district?

10 Q. Okay. Anything else?

11 A. That's it.

12 Q. All right. Thank you very much,  
13 Mr. Phillips. It was nice to speak with you today.  
14 That's all of my questions for now.

15 A. Okay. Get well.

16 MS. VALL-LLOBERA: And plaintiffs will  
17 be asking a couple of questions.

18 MS. OLALDE: Okay.

19 MS. VALL-LLOBERA: We can stay on the  
20 record if that's okay with you, Ms. Olalde?

21 MS. OLALDE: Of course, yeah.

22 MS. VALL-LLOBERA: Okay.

23 CROSS-EXAMINATION

24 BY MS. VALL-LLOBERA:

25 Q. Mr. Phillips, we're -- we're almost done with

1 the day. I just have a few questions for you if you'll  
2 indulge us.

3 Earlier today Ms. Olalde asked you  
4 about your support for political candidates; do you  
5 recall that part of your testimony?

6 A. Somewhat, yes.

7 Q. And she asked you if you would support a  
8 Democrat over a Republican in the next election; do you  
9 recall that?

10 A. Yes.

11 Q. What kind of -- how do you decide who to  
12 support in an election?

13 A. Basically whichever candidate is more in line  
14 with my way of thinking.

15 Q. And so would you say that you support  
16 candidates based on the issues that they care about,  
17 that you care about?

18 A. Correct.

19 Q. And so you wouldn't necessarily support a  
20 Democrat if they weren't thinking the same way you do  
21 on the issues?

22 A. Definitely.

23 Q. Okay. And you voted for Republicans in the  
24 past, correct?

25 A. I have.

1 MS. VALL-LLOBERA: Those are all my  
2 questions.

3 MS. OLALDE: No further questions from  
4 me. Thank you, Mr. Phillips.

5 THE VIDEOGRAPHER: Okay. Off the  
6 record, 1:28.

7 MS. VALL-LLOBERA: And we'd like to  
8 read and sign and order a copy.

9 MS. OLALDE: And then we would also  
10 like the -- the video and the transcript, please.

11 THE REPORTER: Okay, thank you.

12 (Proceedings concluded.)

2                   \*\*\*\*\*

3                   THE VIDEOGRAPHER: Good morning. We're  
4 on the record. Today's date is March 9th, 2023, and the  
5 current time is 9:09 a.m. This is the videotaped  
6 deposition of Judge Penny Pope.

7                   Counsel, will you please introduce yourselves  
8 and the witness will be sworn.

9                   MS. OLALDE: Good morning. Angie  
10 Olalde and Jordan Raschke Elton for defendants.

11                   MS. RICHARDSON: Valencia Richardson,  
12 counsel for Petteway plaintiffs.

13                   MR. BARON: Neil Baron, counsel for the  
14 Petteway plaintiffs.

15                   THE COURT REPORTER: Raise your right  
16 hand, please. Do you solemnly swear or affirm that the  
17 testimony you are about to give in this action will be the  
18 truth, the whole truth, and nothing but the truth under  
19 the penalties of perjury?

20                   THE WITNESS: I do.

21                   THE COURT REPORTER: Thank you, Ma'am.

22                   E X A M I N A T I O N

23 BY MS. OLALDE:

24                   Q. Good morning.

25                   A. Good morning.

                  Q. Could you please state your name for the record.

1 A. Penny Lynn Pope.

2 Q. Okay. And do you prefer to go by Judge Pope or  
3 Ms. Pope or?

4 A. Whatever you're comfortable with is fine with me.

5 Q. Okay. I -- I know that you've served for a long  
6 time, but have you been deposed before?

7 A. One time before.

8 Q. Okay. And how long ago was that?

9 A. 2012, '13.

10 Q. Okay. And you've testified in court before as  
11 well?

12 A. I have.

13 Q. Okay. And so I'll go very quickly through the  
14 usual preamble of it's a deposition, your testimony today  
15 counts just as if we were sitting in court before the  
16 judge. Sometimes my questions can get a little long, if  
17 you don't understand them or if my voice drops and you  
18 can't hear me, just ask me to repeat and I'll be happy to  
19 do so.

20 And today we'll just try not to talk over  
21 each other so the record can be clear. If you need a  
22 break, just ask me and we can take a break anytime. The  
23 only thing I ask is that you would answer the question  
24 before we -- before we break. So does all of that fair?

25 A. Okay.

1 Q. Okay. Judge Pope, would you mind telling me a  
2 little bit about your educational background?

3 A. I have a bachelor's degree from Texas Southern  
4 University in secondary education teaching government and  
5 economics. I have a master's degree from Atlanta  
6 University in political science, and I have my doctorate  
7 of jurisprudence from South Texas College of Law.

8 Q. Okay. I'm a South Texas grad, too. It's a good  
9 school.

10 Where -- let's start with timing. When did  
11 you graduate high school?

12 A. I graduated from Ball High in Galveston in 1970.

13 Q. And were you born on the island?

14 A. I was.

15 Q. Alright. And stayed there continuously until you  
16 went to school?

17 A. Well, until I went to college, went off to  
18 college. That's true.

19 Q. Okay. And then when did graduate and obtain your  
20 first degree, your post high school degree?

21 A. Got -- high school degree was 1970 --

22 Q. Um-hmm.

23 A. -- okay, then the bachelor's degree was 1976.

24 Q. Okay. Did you work when you were in college?

25 A. I did.

1 Q. And what did you do?

2 A. Secretary at the University of Houston in the  
3 mechanical engineering department, and was also an usher  
4 at the Astrodome wearing the little hot pants out there.  
5 That was the day. That was the day when it was fun going  
6 to the Astrodome to all the games and the rodeos and the  
7 monster truck rally and the -- the Super Bowl. I had a  
8 good time.

9 Q. How long did you stay at the engineering  
10 department?

11 A. Until I graduated in '76. And that's when I went  
12 to Atlanta, to Atlanta University to complete my master's  
13 and doctorate degree.

14 Q. And when did obtain your master's?

15 A. I finished the master's in 1983.

16 Q. And I apologize, what was it in again?

17 A. Political science.

18 Q. Okay. What made you want to go get a master's in  
19 political science?

20 A. I had a fellowship once I finished Ball High -- I  
21 mean, Texas Southern. I had a fellowship to attend  
22 Atlanta University and in the master's and doctoral  
23 program.

24 Q. What was your research in?

25 A. I did my master's thesis on the sentencing

1 | practices of Galveston County District Courts.

2 | Q. And what did you find?

3 | A. I found that the majority of the African American  
4 | and other minority defendants were treated a little --  
5 | were treated more harshly than the non-minority  
6 | defendants.

7 | Q. Were the -- were the district court judges at the  
8 | time primarily democratic? Or do you recall?

9 | A. I can't answer that, I don't know.

10 | Q. Sure. Sure. And what statistics -- and I know  
11 | that was a long time ago, but do you recall what  
12 | statistics you were reviewing in order to reach that  
13 | conclusion?

14 | A. I had the computer room, the information  
15 | technology department print out a list of the various  
16 | crimes and sentences and went through that.

17 | Q. Okay. And then what -- what time period was that  
18 | for? Like, what was the span?

19 | A. Oh, I don't remember now.

20 | Q. Sure. Sure. Did -- were you able to present  
21 | your thesis?

22 | A. I did.

23 | Q. And to whom did you present it?

24 | A. To two of the professors at Atlanta University.

25 | Q. Do you know whether Galveston ever was informed

1 of your results or if you were able to ever communicate  
2 those results to anybody in Galveston?

3 A. I don't know if I did.

4 Q. Okay. So you obtained your master's in 1983, and  
5 did you go immediately for your JD?

6 A. No.

7 Q. Okay. What did you do next?

8 A. I was working in the district clerk's office for  
9 Galveston County.

10 Q. Okay. And how long did you do that?

11 A. From 1979 to 19 -- I guess, until 1983.

12 Q. Okay.

13 A. Or '80 -- no, longer than that. Okay. 1979 --  
14 October 1979 to January 1983, took off for a couple of  
15 months to finish my master's, then went back in '83, and  
16 stayed until I went to the DA's office in '89.

17 Q. Okay. And just to kind of break that down just a  
18 little bit. So you were at the clerk's office at the same  
19 time that you were completing you bachelor's and master's  
20 degree?

21 A. No, just master's. I had already finished the  
22 bachelor's.

23 Q. Okay. Okay, you're right, you're absolutely  
24 right. I'm sorry. Alright, so were you traveling back  
25 and forth between Galveston and Atlanta? How did that

1 work?

2 A. No, I lived in Atlanta during 19 -- from '76 to  
3 '79 I lived in Atlanta, came home, started working in the  
4 district clerk's office in '79.

5 Q. Sure. Sure.

6 A. And then worked on my thesis while I was in  
7 Galveston?

8 Q. Okay. Okay. And that's when you obtain -- you  
9 finished your thesis in Galveston and obtained it in 1983,  
10 your master's?

11 A. Right.

12 Q. Okay, I get it now. When did you start law  
13 school?

14 A. In 1984, Summer of 1984.

15 Q. What made you want to go to law school?

16 A. I came home in '79 because I had a daughter --

17 Q. Um-hmm.

18 A. -- and when she was four years old she told the  
19 pediatrician she wanted to be a doctor just like her, and  
20 at that moment I knew that I could not send my daughter to  
21 medical school on a district clerk salary. And that's  
22 what prompted me to go to law school.

23 Q. Okay. And you started in '84, and when did you  
24 obtain your JD?

25 A. In '89.

1 Q. '89.

2 A. Because I worked during the day and went to South  
3 Texas in the evenings.

4 Q. Yep, South Texas was one of the few schools that  
5 allowed that, right?

6 A. It was about the only school in this area where  
7 you could do that.

8 Q. Okay. Alright, so you graduated in '89 with your  
9 JD, and then you went immediately to the DA's office in  
10 Galveston?

11 A. Right.

12 Q. How long did you serve as a DA?

13 A. From '89 to '92. In December of '92 that's when  
14 I was elected JP.

15 Q. And who did -- who was the DA at the time?

16 A. Michael Guarino, G-u-a-r-i-n-o.

17 Q. And was he a democrat or republican?

18 A. Democrat.

19 Q. Okay. What made you want to run for office?

20 A. Just something that I knew I could do.

21 Q. Okay. And you were elected in 1992.

22 A. Um-hmm.

23 Q. And then you've continuously served?

24 A. Until I retired.

25 Q. And when did you retire?

1 A. December 2018.

2 Q. Okay. Alright.

3 A. 26 years.

4 Q. Long time.

5 A. Um-hmm.

6 Q. Okay. So when you were -- you were born on the  
7 island. Did you actually -- did you live on the island  
8 before you went off to Texas Southern?

9 A. Um-hmm.

10 Q. Okay. And then from 1976 to '79 you were living  
11 in Atlanta. When you returned to Galveston, were you  
12 living on the island or on the mainland?

13 A. On the island.

14 Q. Do you currently reside on the island?

15 A. I do.

16 Q. Okay. So you've always -- when you were in the  
17 area you've always lived on the island?

18 A. I have.

19 Q. Okay. What part of the island?

20 A. On the east end.

21 Q. Okay. And so you're familiar with the industry  
22 in Galveston?

23 A. Somewhat.

24 Q. And you familiar with beach issues in Galveston?

25 A. Somewhat.

1 Q. Okay. And your work doesn't take you into issues  
2 with the GLO, but do you keep up with issues with  
3 permitting and beach renourishment and issues on --

4 A. No.

5 Q. -- the shoreline?

6 A. No.

7 Q. Okay. Let's turn to your political history.

8 A. Okay.

9 Q. Have you always been a democrat?

10 A. Yes.

11 Q. Okay. And when did you first start becoming  
12 politically active?

13 A. When I was working in the district clerk's office  
14 of Mr. V.J. Benninati.

15 Q. And could you spell that, please?

16 A. B-e-n-n-i-n-a-t-i. His initials was V, as in  
17 Vincent; J as in Joseph.

18 Q. Okay. And was Mr. Benninati also a democrat?

19 A. He was.

20 Q. Okay. And why did you start to want to get more  
21 involved in politics at that time?

22 A. He was invited to many functions that he didn't  
23 want to go to.

24 Q. Okay.

25 A. And I ended up going to some of those functions.

1 Q. Okay. And did -- you enjoyed it, obviously?

2 A. I did.

3 Q. Okay. Were you involved in any local democratic  
4 groups at that time?

5 A. Just two that I can recall, the Coalition of  
6 Black Democrats and the -- I revise that, just one.

7 Q. Sure.

8 A. Just one.

9 Q. Okay. Do you remember when you joined the  
10 coalition?

11 A. It was in the 80s.

12 Q. Okay. And what made you -- what brought you to  
13 the coalition?

14 A. That's one of the things that Mr. Benninati  
15 didn't want to go to.

16 Q. Okay. And then you -- and you just decided --

17 A. I just continued going.

18 Q. Okay. Alright. How often does the coalition  
19 typically meet?

20 A. In the past it met once a month, but since the  
21 pandemic it has not met that often.

22 Q. Okay. Did you -- did you guys ever do Zoom or  
23 anything like that?

24 A. Not that I can recall.

25 Q. Okay. And did you -- when you were in Galveston,

1 | did you go to meetings regularly?

2 | A. Yeah. Well, the meetings were on the -- on the  
3 | mainland.

4 | Q. Okay.

5 | A. Because it's a Galveston County Coalition.

6 | Q. Did that make it a little more difficult to  
7 | attend meetings?

8 | A. Not for me.

9 | Q. Okay. So were you able to attend them regularly  
10 | more or less?

11 | A. Yes.

12 | Q. And did you ever serve as an officer of the  
13 | coalition?

14 | A. Yes, and I still am.

15 | Q. Okay. And so what was the first officer position  
16 | you served as?

17 | A. The one and only is treasurer.

18 | Q. Okay. And when did that start?

19 | A. Early 2000.

20 | Q. Okay. And what made you want to run for  
21 | treasurer?

22 | A. It was pretty much given to me because the other  
23 | treasurer passed away.

24 | Q. Okay. And so you're still serving as the  
25 | treasurer?

1 A. Um-hmm.

2 Q. Okay. And any other political organizations that  
3 you are a member of or participate in?

4 A. Currently or in the past?

5 Q. Let's talk currently and then we can move  
6 backward.

7 A. That's the only one right now.

8 Q. Okay. At any point in time have you ever been  
9 involved with any political organization other than the  
10 coalition?

11 A. Yes.

12 Q. And what are those?

13 A. The Texas Woman, Texas Democratic Women.

14 Q. Um-hmm.

15 A. And the Galveston County Democratic Club.

16 Q. And how often did the Texas Democratic Womens'  
17 organization meet?

18 A. Once a month.

19 Q. About how long were you a member?

20 A. Maybe three or four years.

21 Q. Do you remember the time period, like the  
22 beginning year?

23 A. I don't remember.

24 Q. Sure. Were you able to attend any meetings  
25 regularly?

1 A. No.

2 Q. Was it also on the mainland?

3 A. Yes.

4 Q. Okay. And why did you stop your participation  
5 with that group?

6 A. I really don't know.

7 Q. Okay, that's fair. With the Galveston County  
8 Democrats, when did you first start becoming involved with  
9 that group?

10 A. Probably when I started running for office in  
11 '92.

12 Q. Have you ever served as an officer?

13 A. No.

14 Q. Have you ever wanted to?

15 A. No.

16 Q. Okay. Do they meet monthly?

17 A. Yes.

18 Q. And is that on the island?

19 A. Yes.

20 Q. Okay. And you were able to attend their meetings  
21 regularly?

22 A. When I could.

23 Q. Okay. And then when did you stop being a member  
24 of the Galveston County Democrats?

25 A. Probably right before I retired.

1 Q. Okay. So around 2018?

2 A. 2016, '17, maybe something like that.

3 Q. Okay. And why did you stop your membership with  
4 that organization?

5 A. Because I was retiring.

6 Q. Okay. So do you consider yourself currently  
7 politically active?

8 A. To some degree.

9 Q. Okay. Can you expound on that for me?

10 A. I mean, I try to keep up with things that are  
11 going on, but I'm not, you know, out there pouncing the  
12 pavement like I used to in the past.

13 Q. Okay. What commissioner precinct do you live in  
14 currently?

15 A. Since the change I'm now in two.

16 Q. Okay. And by change you mean the 2021  
17 redistricting?

18 A. Correct.

19 Q. Okay. And formally you were in?

20 A. Three.

21 Q. Okay. And so Commissioner Holmes was your  
22 commissioner for a very long time?

23 A. Correct.

24 Q. I'm -- I'm trying to remember, but maybe 20 years  
25 or do you know?

1 | A. I'm not sure it was 20, but it could be maybe 16  
2 | to 18.

3 | Q. Sure. And who is your commissioner right now?

4 | A. Joe Giusti.

5 | Q. Okay. Do you -- have you ever spoken with Joe  
6 | Giusti?

7 | A. No, not since he became my commissioner, no.

8 | Q. Have you -- did you speak with him at any time  
9 | before then?

10 | A. When I was still working, yes, I talked to him a  
11 | couple of times.

12 | Q. Anything business related or was it personal,  
13 | just --

14 | A. It was business related.

15 | Q. Okay. What topics did you speak with Joe Giusti  
16 | about?

17 | A. The last time I spoke to him was when Judge  
18 | Foster out in JP 7, which was Sam Leon was running for the  
19 | commissioner and Joe Giusti called me to ask me to go out  
20 | there and hear his cases until they got someone to -- to  
21 | go in and take care of the court until -- and I agreed. I  
22 | went out there for a while.

23 | Q. Okay.

24 | A. I did my court and that court for a while.

25 | Q. Did you consider yourself to have a professional

1 relationship with Mr. Giusti?

2 A. I mean, yeah, I guess so. I mean...

3 Q. Um-hmm. What's your opinion of him as a  
4 commissioner in Precinct 2?

5 A. I can't answer that because I really don't know.

6 Q. Have you reached out to him for any issues?

7 A. No.

8 Q. Okay. Has he ever held an event or -- that  
9 you've attended at any point in time?

10 A. No.

11 Q. Now for CH, how long have you -- I assume you  
12 know CH, correct?

13 A. Um-hmm.

14 Q. How long have you know him?

15 A. I met him when he was hired as an assistant DA,  
16 and it was, I want to say, '98 or '99. 1998 or 1999,  
17 somewhere up in there.

18 Q. Do you know how long he was at the DA's office?

19 A. No.

20 Q. And how did you meet him, just coming in front of  
21 you or?

22 A. Just knowing who he was until he was nominated to  
23 become -- to take over the seat for Precinct 3 after  
24 Commissioner Wayne Johnson passed away.

25 Q. So would you consider yourself to have had a

1 business relationship or a personal relationship with him  
2 before he took over as a commissioner?

3 A. I just knew him.

4 Q. You just --

5 A. I just knew him. No -- no relationship, I just  
6 knew who he was.

7 Q. Okay. Okay. When he took over as commissioner,  
8 do you feel like you got to know him a little bit better?

9 A. I did.

10 Q. And how did that begin?

11 A. Because we were both in the Coalition of Black  
12 Democrats.

13 Q. Okay. And did he serve as an officer, or do you  
14 know?

15 A. I don't recall him ever being an officer.

16 Q. Okay. So you would see him at monthly meetings?

17 A. Um-hmm.

18 Q. Did you see him in any other capacity?

19 A. Banquets, commission court meetings, in the  
20 hallway at the courthouse.

21 Q. In your time living in his precinct, did you ever  
22 reach out to him with issues that you wanted him to  
23 address as a commissioner for the precinct?

24 A. If I'm understanding your question, the answer is  
25 no.

1 Q. Okay. And can you explain to me what you -- what  
2 your understanding of the question is just so that we know  
3 that -- yeah.

4 A. I think you're asking me if there was an issue  
5 going on in the community did I bring that to his  
6 attention.

7 Q. Yam.

8 A. And the answer then would be no.

9 Q. Okay.

10 MS. RICHARDSON: And just can we clarify  
11 the time period we're referring to?

12 MS. OLALDE: Oh, sure. Let's break it  
13 down to --

14 A. Well, it would have to be then since he was --  
15 became commissioner which was, what, 1999 so --

16 Q. Um-hmm.

17 A. -- '99 --

18 Q. All the way up.

19 A. -- up to now.

20 Q. Okay. And you say, "issue in the community," so  
21 are we talking like roads, right, road issues or things  
22 that would have been Galveston County responsibilities?

23 A. In my area the county is not responsible for any  
24 roads.

25 Q. Because you live in Galveston --

1 A. Yeah.

2 Q. -- City, correct?

3 A. Yeah.

4 Q. Okay. Is there anything in your area that you  
5 can think of that the county would be responsible for?

6 A. Setting tax rates.

7 Q. Yeah, taxes, right.

8 A. I really can't say because law enforcement is  
9 with the city --

10 Q. Um-hmm.

11 A. -- water, you know, services like that that's  
12 with the city. Auh...

13 Q. I think there was a senior center that was  
14 supposed to be a county building, I think, that was in  
15 Galveston. Is that ringing any bells or no?

16 A. There is a -- I thought that was operated,  
17 though, by the Galveston Housing Authority.

18 Q. Okay.

19 A. That -- I mean, the -- Galveston did have the  
20 senior center between 22nd and 23rd on L and M.

21 Q. Um-hmm.

22 A. But it was damaged in hurricane Ike.

23 Q. Okay.

24 A. And I don't know if it ever reopened. And  
25 hurricane Ike was in 2008.

1 Q. Um-hmm.

2 A. I don't know if they ever reopened it.

3 Q. And then you think that there is one that's  
4 currently operating but it's operating under the house  
5 authority?

6 A. No, this is the apartment building that's right  
7 in front of --

8 Q. Um-hmm.

9 A. -- the senior center. And I believe that  
10 apartment building for senior citizens is operated by the  
11 Galveston Housing Authority.

12 Q. Okay. But to your knowledge sitting here today,  
13 you can't think of anything that Galveston County would be  
14 responsible for in your community?

15 A. Not that I can recall.

16 Q. Okay. Having lived on the island almost your  
17 whole life, is it safe to say that you're familiar with  
18 the racial demographics in Galveston City?

19 A. I'm somewhat familiar.

20 Q. Okay. And you qualified that with somewhat. Why  
21 was that a qualification?

22 A. Because since hurricane Ike a lot of those  
23 neighborhoods have not come back, you know, so there's a  
24 lot of areas that are still left to be repaired.

25 Q. Right. Have you been keeping up with statistics,

1 like, racial demographics or voting statistics --

2 A. No.

3 Q. -- in Galveston City?

4 A. No.

5 Q. And then the same question but for the

6 countywide?

7 A. No.

8 Q. Have you ever kept up with voting statistics

9 countywide?

10 A. Very little.

11 Q. Okay. When you were running for office over the

12 course of your service, would you review polling results

13 at the end of an election?

14 A. I would look at the election results, yes.

15 Q. Did you ever view them in different categories,

16 like -- I can't recall who was backing up your seat

17 was county -- a countywide election?

18 A. No, precinct.

19 Q. It was a precinct election. What kind of

20 statistics would be available for the people who voted in

21 that election that you were running for in that campaign?

22 A. If I remember correctly, it was only how many

23 votes were casted during the early voting, how many votes

24 were casted on election day, how many undervotes was on

25 there, and then the total. If I remember right.

1 Q. Okay. And can you describe undervotes?

2 A. It's my understanding that some people may skip a  
3 race --

4 Q. Um-hmm.

5 A. -- and so if -- and you can always check my math,  
6 okay, I'm not a mathematician.

7 Q. Okay.

8 A. But if, let's say, a hundred people voted and but  
9 only 80 votes were in -- were counted for, then you have  
10 20 undervotes.

11 Q. Gotcha.

12 A. So that's my understanding of it.

13 Q. Did you ever pay a lot of attention to the  
14 statistics after your elections for any reason?

15 A. I mean, I reviewed them --

16 Q. Um-hmm.

17 A. -- and looked at mine particularly to see how  
18 many votes I have or undervotes or.

19 Q. Okay.

20 A. Um-hmm.

21 Q. Did you ever refer back to that for future  
22 campaigns to try to change messaging or approach?

23 A. No.

24 Q. Okay. With your first campaign in 1992, did you  
25 have staff or was it a one-woman project or how did this

1 work?

2 A. I had one person helping me.

3 Q. Okay. Who was that?

4 A. But it was mostly me getting out there and  
5 getting signs and going to the newspapers to get ads in  
6 the paper and picking up the telephone and calling people  
7 to please vote for me.

8 Q. And the person who helped you, who was that?

9 A. Her name was Esperanza Loubet.

10 Q. Okay.

11 THE COURT REPORTER: Loubet, spell that.

12 THE WITNESS: L-o-u-b-e-t.

13 BY MS. OLALDE:

14 Q. And how did you know Ms. Loubet?

15 A. She was the sister of my secretary in the DA's  
16 office.

17 Q. Okay.

18 A. And she didn't have a job, nothing to do, so she  
19 agreed to help me.

20 Q. Okay. And how many months was that campaign  
21 running for, do you recall?

22 A. It started in September, and I had to have a  
23 runoff that was in December.

24 Q. Okay. And so is it fair to say that's typically  
25 the same amount of time that you would have spent with

1 campaigns as the years progressed, or were there any years  
2 that you can think of that you would have spent longer or  
3 shorter amounts of time.

4 MS. RICHARDSON: Objection. Form.

5 But you can answer, Ms. Pope.

6 THE WITNESS: Okay.

7 A. I only had three contested races, so I would say  
8 in 2006 I spent a lot of time from about August to  
9 November. And then in 2013 when I had an opponent, it was  
10 a little bit longer, maybe from July to November. No, I  
11 take that back, because of the events of the primary. I  
12 take that back because he was -- he was a democrat at that  
13 time.

14 BY MS. OLALDE:

15 Q. Okay.

16 A. I take that other one back, too.

17 Q. Sure.

18 A. Because, yeah, they were both primaries, so it  
19 wouldn't have been that time period, it would have been up  
20 to the primary.

21 Q. Okay.

22 A. So it would have been probably December to March  
23 because primaries are always in March.

24 THE WITNESS: Right, Neil?

25 A. Yeah, okay. Okay.

1 MR. BARON: Unfortunately they are not  
2 taking my deposition --

3 THE WITNESS: Okay.

4 MR. BARON: -- so I won't be able to  
5 provide any testimony, but --

6 THE WITNESS: Yeah, okay.

7 MS. RICHARDSON: But answer to the best  
8 of your knowledge.

9 MR. BARON: You're in the ballpark.

10 THE WITNESS: Okay.

11 BY MS. OLALDE:

12 Q. Do you remember who your 2006 primary opponent  
13 was?

14 A. Yes.

15 Q. Who was that?

16 A. Do I have to say his name? Douglas Godinich,  
17 G-o-d-i-n-i-c-h.

18 Q. And obviously you won?

19 A. Um-hmm.

20 Q. Okay. Do you know if Mr. Godinich ever ran for  
21 other offices?

22 A. He did.

23 Q. Which offices?

24 A. He ran for county clerk, he lost; and he run for  
25 something for the city and I can't remember what that was,

1 but I think he lost that one, too.

2 Q. Okay. And your 2013 opponent, do you remember  
3 who that was?

4 A. Yes, I do.

5 Q. And who was it?

6 A. Commissioner Darrell Apffel.

7 Q. Right. And you were successful in that race as  
8 well?

9 A. I was.

10 Q. Were there any -- let's back up to for the 2006  
11 contested primary. Were there any -- was it -- was it a  
12 relatively respectful campaign on both sides, was it not?  
13 How did that --

14 A. It was very respectful.

15 Q. Okay. Do you have the same -- same kind of  
16 description for the 2013 contested primary?

17 A. Um-hmm.

18 Q. Okay.

19 A. That one was fun. I know I'm not supposed to ass  
20 stuff to this, but that one was one -- that was a fun  
21 race. Brian Abington, Gerald Burts, Kevin Rackoff, Robert  
22 Quintero and me, and it was very -- we had a good time.

23 Q. What made it more --

24 A. Because we knew each other.

25 Q. Um-hmm.

1           A. And no mud slinging. We would, you know, end up  
2 at the same functions, smile at each other, shake hands,  
3 you know, so it was -- it was a very nice election.

4           Q. Is it fair to say that since both of your contest  
5 races were relatively, you know, polite, right --

6           A. Um-hmm.

7           Q. -- professional, that you never really had any  
8 mud slinging in any of your --

9           A. No. No, mud slinging.

10          Q. Okay. And that's from 1992 all the way to your  
11 retirement, correct?

12          A. Correct.

13          Q. What is your opinion of Commissioner Darrell  
14 Apffel?

15          A. He's a very nice man, very knowledgeable.

16          Q. Okay.

17          A. Go getter.

18          Q. Do you have an opinion of Dr. Robin Armstrong?

19          A. I don't know him.

20          Q. Okay. Do you have an opinion of Judge Mark Henry  
21 professionally?

22          A. I really don't know him that well.

23          Q. Okay. And I apologize, I might have already  
24 asked this and so I apologize. But do you have an opinion  
25 of Joe Giusti as a commissioner?

1 A. Other than the phone call that I mentioned, I  
2 really haven't talked to Mr. Giusti that much.

3 Q. Sure. So you really don't have an opinion as  
4 to --

5 A. No.

6 Q. Okay.

7 A. Uh-uh.

8 Q. Without telling me any conversations that you  
9 might have had with counsel, what first brought you into  
10 considering your participation in this lawsuit?

11 A. After the redistricting maps were published in  
12 the Galveston County Daily Newspapers that's when I  
13 noticed that I was taken out of the precinct where I would  
14 be able to vote for a candidate of my choice because I was  
15 taken out of Precinct 3 and put in Precinct 2. And that's  
16 what prompted me to get involved.

17 Q. Okay. And that was in late October of 2021?

18 A. Whenever the -- I don't remember exactly when  
19 those were published in the newspaper, but October or  
20 November, somewhere up in there.

21 Q. Okay. Is it --

22 A. Well, it had to have been -- no, it couldn't have  
23 been October because I believe on dep -- on the discovery  
24 questions the date is November 21st as being the hearing.  
25 Is that correct?

1 Q. I'll just represent to you that the hearing was  
2 on the 12th. And I understand you --

3 A. On the 12th of November?

4 Q. Yes, um-hmm.

5 A. So it would have had to have been after that  
6 because I didn't even know about the hearing on November  
7 12th.

8 Q. If -- if the maps were published in the paper  
9 before the November 12th hearing, is it fair to say that's  
10 when you would have become involved?

11 A. I just remember seeing the maps after they had  
12 already been adopted.

13 Q. Okay.

14 A. And that's the map that I saw after it was  
15 adopted.

16 Q. Do you recall seeing both of the proposed maps at  
17 anytime?

18 A. I don't recall. I just recall seeing the one  
19 that was actually --

20 Q. Okay.

21 A. -- adopted.

22 Q. Okay. Were you -- let's see here. Is it fair to  
23 say that Commissioner Holmes is your candidate of choice?

24 A. He is.

25 Q. Okay. Would you vote for Joe Giusti in the

1 | future?

2 | A. I don't know.

3 | Q. What would you consider, what factors would be  
4 | important to you in considering whether to vote for Joe  
5 | Giusti?

6 | A. I would have to know what his ideas are and what  
7 | his ideology is. And I hate to say this, but isn't he  
8 | republican and I'm democrat so -- and I don't cross over.

9 | Q. Okay. So regardless of his ideologies and his  
10 | service to the community, you would never vote for a  
11 | republican?

12 | A. I don't think so.

13 | Q. Okay. You said that you never cross over, can  
14 | you expand a little bit about that or explain?

15 | A. In all of the elections that I've voted in, I've  
16 | always voted for democratic candidates.

17 | Q. Like a straight party?

18 | A. Not even the straight party because I'm guilty,  
19 | too, of -- of not voting in some races.

20 | Q. Um-hmm, okay. Do you believe a democrat could be  
21 | elected in Precinct 2 in the next election?

22 | A. No.

23 | Q. Why not?

24 | A. Because the -- in my opinion the area is  
25 | primarily white.

1 Q. Okay. And how does race affect your opinion when  
2 it comes to republican versus democrat?

3 A. A minority candidate would have some of the same  
4 concerns that I have, especially for the minority as a  
5 group. Whereas in most of my experiences a white  
6 candidate isn't really up on some of those issues.

7 Q. Can you describe to me some of the different  
8 issues that you believe that you would face as opposed to  
9 maybe a white person in Precinct 2?

10 A. Education.

11 Q. Okay.

12 A. Housing, job.

13 Q. Anything else?

14 A. That's all I can think of right now.

15 Q. You graduated from Ball High, correct?

16 A. Correct.

17 Q. And are there any other high schools in  
18 Galveston?

19 A. No. Well, other than that catholic school.

20 Q. Right, okay. And then I don't know how many  
21 elementary schools are in the area, I don't know if you  
22 know.

23 A. Let me see. On the island there Rosenberg.

24 Q. Um-hmm.

25 A. LA Morgan, Alamo, Weis -- no, Weis is a senior

1 high. Parker.

2 Q. Um-hmm.

3 A. That's the only ones I can think of.

4 Q. Okay. So to kind of break down the education  
5 component just a little bit. What issues would minority  
6 individuals face with respect to education that you don't  
7 believe a white individual living in Galveston would face?

8 MS. RICHARDSON: Objection. Form.

9 Q. You can answer.

10 A. Okay. The quality of the education concerns me.  
11 You have a lot of minority Hispanic kids and language  
12 sometimes is a hindrance.

13 Q. Okay. Anything else?

14 A. That's all I can think of right now.

15 Q. Are you aware of any, like, English as a second  
16 language programs or anything like that, that might be  
17 taking place in elementary and middle or high schools in  
18 Galveston?

19 A. The only one that I know exist is at LA Morgan.

20 Q. Okay.

21 A. I don't know if it's at any of the other schools.

22 Q. And that's an elementary school?

23 A. That's an elementary school.

24 Q. Are you -- are you involved in any school  
25 district races or issues, or do you attend any school

1 district meetings?

2 A. No.

3 Q. Okay. And how do you become familiar with the  
4 issues with education in Galveston as you sit here today?

5 A. Mostly by reading the newspaper.

6 Q. Sure. Is that the same -- is that also true for  
7 from '92 forward while you were sitting as a judge?

8 A. While I was sitting as a judge I had a little bit  
9 more involvement because truancy came in front of me.

10 Q. Can you tell me a little bit about -- so did you  
11 handle truancy cases the entire time that you served?

12 A. No, not the entire time.

13 Q. What time period did you handle those cases?

14 A. From the beginning through -- uh-oh, is that you?

15 Q. It is. My stomach is very hungry.

16 MR. BARON: There's a muffin right  
17 behind you, they're not bad.

18 MS. OLALDE: I might -- I might do that  
19 on break.

20 MR. BARON: They're not bad.

21 A. Okay. From 1993 when I started --

22 Q. Um-hmm.

23 A. -- to, I want to say, somewhere around 2014,  
24 2015. Somewhere up in there.

25 Q. What caused the -- did it go to a different court

1 or what happened?

2 A. Yeah, they -- the school district decided to take  
3 the cases over to the Galveston Municipal Court.

4 Q. Do you think that was a positive change or?

5 A. I don't know because I don't know what -- what  
6 happened with that judge in --

7 Q. Y.

8 A. -- after the move.

9 Q. Can you tell me a little bit about the truancy  
10 docket that you would see, like, what typically would it  
11 entail?

12 A. How do I put this? So many of the children had  
13 fallen behind --

14 Q. Um-hmm.

15 A. -- and once they fell behind it was just entirely  
16 too difficult for them to catch up. And when they  
17 couldn't catch up, then they started not -- just not  
18 going.

19 Q. Okay. And with your truancy docket would you see  
20 mostly minority children in front of you --

21 A. Yes.

22 Q. -- would it be a mix of minority and white  
23 children?

24 A. Mostly minority.

25 Q. And of the minority children would it be

1 primarily African American or Hispanic, Latino?

2 A. Primarily African American.

3 Q. Okay. And what does the -- a truancy charge,  
4 is it -- is it a penalty? How does that work?

5 A. It's a Class C misdemeanor.

6 Q. Okay. And what is -- what's the resolution of  
7 those types of charges?

8 A. As a Class C misdemeanor most of the punishment  
9 is a fine; but, of course, when you're charging a criminal  
10 offense on a child, 12, 13, 14, 15 years old, they don't a  
11 job, you have to be creative. So community service was  
12 the primary punishment, and for those that were 16 and up,  
13 I would order them to go just get their GED.

14 Q. What were you experiencing just generally in  
15 terms of compliance with your orders on truancy cases?

16 A. There was no compliance. That group of children  
17 are -- it's hard to get a handle on them.

18 Q. Okay. Even for community service?

19 A. Most of them finished the community service.

20 Q. Okay. Apart from what we discussed with the  
21 truancy cases and the language issues with education, is  
22 there anything else that you can think of where a minority  
23 person would have a different experience or different  
24 needs in terms of education than a white person in  
25 Galveston?

1 A. I'd have to think about that. I can't say  
2 offhand.

3 Q. Sure. Moving on to housing. What examples or  
4 how -- how would a person of -- who's a minority have  
5 different needs than a white person in Galveston and based  
6 on your experience?

7 A. Most of the housing projects in Galveston were  
8 filled with African Americans. And, of course, you know,  
9 being in the housing projects is those are small  
10 apartments and, you know, it's not as, I want to say -- I  
11 don't want to say luxurious, but not as nice as being in a  
12 neighborhood of houses. How different environment.

13 Q. The house -- the housing projects that you're  
14 talking about, were those still open after Ike?

15 A. They have been completely redone, different --  
16 different construction. Not all of them are back, they're  
17 now -- the last one is being built now on 53rd and  
18 Broadway.

19 Q. Do you consider that an improvement?

20 A. Big improvement from what they were, big  
21 improvement.

22 Q. Okay. Any other examples with respect to  
23 housing?

24 A. I'd have to think about that one.

25 Q. Okay. As you're sitting here today no?

1 A. I can't -- yeah, I can't. I'd have to think  
2 about it.

3 Q. Sure. With respect to jobs.

4 A. Um-hmm.

5 Q. What issues would a minority individual in  
6 Galveston face that you don't believe a white person in  
7 Galveston County would face?

8 MS. RICHARDSON: Objection. Form.

9 A. Most -- many minorities in Galveston have the  
10 lower paying jobs in the service field, you know,  
11 restaurants things of that nature, janitorial services,  
12 very -- I mean, unless you have a higher education, you're  
13 not going to get into the professional jobs.

14 Q. And I apologize because my question was for the  
15 county, but let's focus in on Galveston City. Is your  
16 answer the same with respect to Galveston, the city?

17 A. Yes, I'm basically referring to Galveston the  
18 city.

19 Q. Right. And that's kind of what I wanted to make  
20 sure that we're talking apples and apples because I think  
21 I did mess up and say county with the last question. But  
22 all of the answers or all of the things that we've been  
23 talking about from your perspective, have you been  
24 considering the city and not the entire county?

25 A. Yeah, I can talk for the city --

1 Q. Okay.

2 A. -- because I'm more familiar with the city than I  
3 am with the whole county.

4 Q. Sure.

5 A. You know, League City, Friendswood, San -- San  
6 Leon, Santa Fe, Hitchcock. I mean, I can't answer all of  
7 that.

8 Q. Okay. That was going to be my next set of  
9 questions, and I'll have to run through them. But, for  
10 example, League City, do you know the racial demographics  
11 there?

12 A. No.

13 Q. Okay. Same question for Friendswood?

14 A. No.

15 Q. Same question for Santa Fe?

16 A. No.

17 Q. Texas City?

18 A. No.

19 Q. La Marque?

20 A. No.

21 Q. Bolivar?

22 A. Bolivar is primarily white, now I do know that.

23 Q. Okay.

24 A. It's only about maybe 4000 citizens over there.

25 Q. It's a small community, right?

1 A. Um-hmm.

2 Q. Okay. Do you know whether jobs have become more  
3 available or less available over time in Galveston, the  
4 city?

5 A. They're beginning to come back because since  
6 hurricane Ike the island is rebuilding. It is coming back  
7 so they're beginning to come back. But here again, it's  
8 the same thing, it's the service industry, janitorial, you  
9 know, things of that nature. Professional -- professional  
10 jobs have been taken, and there's just not a lot of  
11 opportunity unless you have a degree to be a teacher or  
12 something like that.

13 Q. Would you consider Galveston to be primary -- its  
14 primary industry to be tourism?

15 A. It is.

16 Q. Okay.

17 MS. RICHARDSON: In that last question  
18 were you referring to the city just to --

19 MS. OLALDE: Oh, sure --

20 THE WITNESS: Um-hmm, yeah, we're  
21 talking about Galveston, right.

22 BY MS. OLALDE:

23 Q. Um-hmm. Because Galveston County isn't going to  
24 be as big.

25 A. No, -- yes, we were talking about the City of

1 Galveston.

2 Q. -- Texas City or the -- yeah, the refineries.

3 A. Right.

4 Q. Okay. Apart from political organizations, are  
5 there any other -- go ahead and take...

6 A. Thank you.

7 Q. Apart from political organizations, are there any  
8 other types of groups that you're a member of?

9 A. Not really, no.

10 Q. Okay. Do you belong to a church?

11 A. I'm catholic.

12 Q. Okay, me, too. Do you go to Bishop's Pal --  
13 where do you -- where do you attend?

14 A. Most of the time it's Sacred Heart.

15 Q. Okay. And do you socialize with people from your  
16 congregation?

17 A. No.

18 Q. Okay. And I know that you are a lawyer, that  
19 you've served as a judge for many years. Do you intend to  
20 give any legal opinions in this case?

21 A. No.

22 Q. Do you intend to give any expert opinions in this  
23 case?

24 A. No.

25 Q. You're here to provide factual information,

1 correct?

2 A. Correct.

3 Q. And I know this is a silly question, but have you  
4 ever used GIS mapping software?

5 A. No.

6 Q. Okay. Have you ever looked at manipulable maps  
7 online where you can zoom in and zoom out with respect to  
8 Galveston County?

9 A. In the past?

10 Q. Ever.

11 A. Well, yes, I've looked at maps in the past --

12 Q. Sure.

13 A. -- online.

14 Q. With respect to the 2011 districting process, did  
15 you ever go online and kind of look at maps and zoom in or  
16 zoom out or use different functions online?

17 A. I don't -- I don't recall that -- doing that  
18 during 2011.

19 Q. Did you ever do it during the 2020-2021 cycle?

20 A. Yes, after they came out on the -- in the  
21 newspaper.

22 Q. And did you review those with other people or was  
23 it just you individually?

24 A. It was just me.

25 Q. Okay. And what were you looking for when you

1 were searching for the maps online?

2 A. My address and where I was going to end up being.

3 Q. Were you able to use the features where you could  
4 toggle on and off various layers like precincts for  
5 commissioners or other types of filters?

6 A. No, I don't know how to do that.

7 Q. Okay. Do you know what criteria the plaintiffs  
8 would like to see considered in a redistributing process?

9 MS. RICHARDSON: Objection. Form.

10 Q. You can answer.

11 A. I would like to see a precinct where a -- the  
12 minorities would be able to elect a candidate of their  
13 choice to put on the commissioner's court.

14 Q. And what would create that type of precinct? And  
15 just to the extent that you know or have an opinion.

16 A. Something that would be similar to what the old  
17 Precinct 3 --

18 Q. Okay. And --

19 A. -- was.

20 Q. -- and that would be the geo -- the old Precinct  
21 3 map, correct?

22 A. Right.

23 Q. That existed prior to the 2021 redistricting?

24 A. Correct.

25 Q. Okay. Anything else?

1 A. That's all I know.

2 Q. Sure. I'm going to switch gears a little bit.  
3 Did you have any documents that were responsive to or --  
4 strike that.

5 Can -- do you have any -- or did you have any  
6 documents that were related to this current litigation?

7 A. No, other than law -- the petition?

8 Q. Um-hmm.

9 A. I have that. I have -- I know --

10 Q. Sure.

11 A. -- yeah, I reviewed that.

12 Q. I'll just go down a couple of different types of  
13 -- or categories. For example, do you use text messaging?

14 A. Yes, I have used it.

15 Q. Okay. Did you ever text message with anyone  
16 about 2021 redistricting?

17 A. No.

18 MS. RICHARDSON: And before --

19 MS. OLALDE: And not --

20 MS. RICHARDSON: -- we get started, to  
21 the extent that any of these questions go into  
22 communications with your lawyers, I'll instruct you not to  
23 answer those questions.

24 THE WITNESS: Okay.

25 BY MS. OLALDE:

1 Q. And just to kind of continue on with that. Like  
2 the who, the what. Like for example, I texted with  
3 Valencia, but don't tell me what you texted about. Does  
4 that make sense?

5 A. Okay, I understand.

6 Q. Okay. So you haven't texted with anybody about  
7 the subject matter of this case?

8 A. Not to my knowledge.

9 Q. Okay. And that would have been before or even  
10 after it was filed?

11 A. No, not to my knowledge.

12 Q. Sure. Do you use FaceBook?

13 A. No.

14 Q. Okay. Do you -- and because you don't use  
15 FaceBook, it's probably reasonable to assume you don't use  
16 the Instant Messenger function on it either?

17 A. No.

18 Q. Okay. Do you use e-mail?

19 A. Sometimes.

20 Q. What is your e-mail address?

21 A. Penlpope@aol.com.

22 Q. Okay. Do you have any other e-mail addresses?

23 A. No.

24 Q. Okay. Apart from --

25 A. Oh, wait -- wait a minute, I do. For the iPad

1 they want you to have a Google one but I don't use it.

2 Q. Okay. Do you even know what that e-mail is?

3 A. Uh-huh.

4 Q. Okay. Did you -- would you have had any e-mails  
5 that were -- that discussed the 2021 redistricting in any  
6 way?

7 A. No.

8 Q. Okay.

9 A. Other than maybe something that came in if there  
10 was going to be a meeting or something, you know, but...

11 Q. Um-hmm. Did you search your e-mail for those, or  
12 did counsel assist you in searching those -- for those  
13 e-mails?

14 A. Yes.

15 Q. Okay. And anything that popped up you would have  
16 given to counsel?

17 A. Correct.

18 Q. Okay. Did you have -- do you have a personal  
19 computer?

20 A. Yes.

21 Q. And on that personal computer would you have any  
22 documents that are related to 2021 districting?

23 A. No.

24 Q. And you conducted a search to determine whether  
25 that's accurate?

1 A. I have.

2 Q. Okay. You have one personal computer, do you  
3 have any other computers that you use?

4 A. I have two laptops.

5 Q. And same question for both laptops, is it the  
6 same answer?

7 A. Yes.

8 Q. Okay. And apart from Instant Messenger on  
9 FaceBook, do you use any apps on your phone for  
10 communicating with people?

11 A. No -- well, the telephone part.

12 Q. Yeah. Yeah, but other than that do you like --

13 A. Telephone.

14 Q. WhatsApp or other types --

15 A. No, I'm not into all that stuff. No Tik-Tok, no,  
16 none of that stuff.

17 Q. You mentioned earlier that you read the Galveston  
18 County Daily News, correct?

19 A. Um-hmm.

20 Q. Do you read it daily?

21 A. Yeah, but -- well, I glance at the daily -- the  
22 article has to be interesting for me to read the whole  
23 thing.

24 Q. Do you the paper or is it a digital subscription?

25 A. Yeah, I get the paper. As a matter of fact, I

1 picked mine up this morning when I walked out to come up  
2 here.

3 Q. Okay. Are there any other new sources that you  
4 pay attention to on a regular basis?

5 A. The news on television.

6 Q. What kinds of channels?

7 A. KPRC, which is Channel 2. Sometimes CBS.

8 Sometimes MSNBC. Every now and then headline news and  
9 CNN.

10 Q. Do you go to any online news sources?

11 A. No.

12 Q. You ever post comments on articles that you've  
13 read?

14 A. Ooh, no, no, no. That is not me. No, no, no.

15 Q. When you -- do you check your e-mail regularly?

16 A. No.

17 Q. Okay. So --

18 A. You better call me and let me know that you sent  
19 me one.

20 Q. So just to kind of follow up, because you don't  
21 check your e-mail regularly, is it fair to say that you  
22 don't get news updates through your e-mail?

23 A. I do not.

24 Q. If you're -- so you're involved as the treasurer  
25 in the coalition, correct?

1 A. Correct.

2 Q. And how do you obtain information about upcoming  
3 meeting or programs?

4 A. The president usually calls or -- or now he will  
5 send a text.

6 Q. Okay.

7 A. You know, to let us know that we're going to have  
8 a meeting.

9 Q. But you're not going to check your e-mail to see  
10 any information about that group?

11 A. Uh-uh.

12 Q. Have you ever volunteered or worked on another  
13 person's campaign in Galveston?

14 A. Um-hmm.

15 Q. And who would that be?

16 A. Latonia Wilson when she was running for district  
17 clerk. I did a little behind the scenes for Curt Systrom  
18 when he was running for district attorney. Oh, when Joe  
19 Jaworski was running for major. That's all I can think of  
20 right now.

21 Q. How did you help on Ms. Wilson's campaign?

22 A. Made signs, did a fundraiser -- oh, and when  
23 Obama --

24 Q. Um-hmm.

25 A. -- was running in 2008, I was very active in that

1 one.

2 Q. Okay. So for Ms. Wilson did you also go to  
3 events?

4 A. Yes.

5 Q. What kind of events?

6 A. She had a meet and greet. She had a -- well, she  
7 had more than one meet and greet. That was so long ago.  
8 That's all I can think of right now.

9 Q. Sure. For Curt Systrom you said you did some  
10 behind the scenes work for him?

11 A. Um-hmm. Yeah, putting signs together in his  
12 garage.

13 Q. Okay. And did you go to any events with  
14 Mr. Systrom?

15 A. Not with him, I just happen to attend some of the  
16 same events.

17 Q. Okay. And what were those events?

18 A. Mostly like democratic party meetings, banquets.

19 Q. And do you remember what organization was the  
20 democratic party meetings? Was it the democratic party or  
21 was it for another group?

22 A. It either had to be the democrat -- the Galveston  
23 democratic -- well, it's the democratic party, but they  
24 call it the Club.

25 Q. Okay.

1 A. I think it's just one.

2 Q. Do you know if the Club is still around?

3 A. I don't -- I can't recall. I don't know.

4 Q. Okay. And then how did you help Mayor Jaworski  
5 on his campaign?

6 A. On election day went and greeted voters coming in  
7 and, Vote for Joe.

8 Q. Anything else?

9 A. And with the Obama.

10 Q. Um-hmm.

11 A. Yeah, I mean I worked at the campaign office. I  
12 was a treasurer, collected money for that; and so I was  
13 very active in that one.

14 Q. So was that for locally to support Obama?

15 A. That's for Galveston.

16 Q. Okay.

17 A. Well, Galveston and the mainland. Bless you.

18 Q. Okay. So Galveston and the mainland but for  
19 Galveston County, right?

20 A. Well, we didn't go all the way up to north  
21 county, we were just mainly in the Galveston -- City of  
22 Galveston and the La Marque area.

23 Q. Okay. So you worked -- how else -- what tasks  
24 would you do to support President Obama in his campaign?

25 A. I worked in the campaign office that we set up.

1 I -- like I said, I tired to -- I acted as the treasurer,  
2 collected the money, attended the functions that we --  
3 that the little group that we had put together.

4 Q. Was that for his initial --

5 A. 2000 -- for the 2008 election.

6 Q. Did you also work on his -- his subsequent  
7 election as well?

8 A. No.

9 Q. Why not?

10 A. Because I knew he was going to win.

11 Q. When you were running for office, did you have a  
12 specific campaign message or platform that you were  
13 running on?

14 A. No, not really.

15 Q. And as you were sitting as a judge, did you have  
16 staff?

17 A. Yes.

18 Q. And who did you have -- or let's start with  
19 numbers. How many people did you have for staff?

20 A. When I was judge of Precinct 2, two -- two  
21 clerks.

22 Q. Are those law clerks?

23 A. No, just court clerks.

24 Q. Sure, okay. And in the next precinct?

25 A. In Precinct 3, seven clerks.

1 Q. Why the increase?

2 A. Because at -- when I became judge of Precinct 3 I  
3 ended up with three offices, La Marque, Galveston, and  
4 Bolivar -- Crystal Beach.

5 Q. So you had to go to three --

6 A. So I had to go to three different buildings.

7 Q. Okay. And your case load increased?

8 A. Yes.

9 Q. Okay. Going back to when you were presiding over  
10 Precinct 2. You had two court clerks, did they also live  
11 on the island or do you recall?

12 A. Oh, wow. Okay, in the very beginning both of  
13 them lived on the island.

14 Q. Um-hmm.

15 A. But then as you know you have turnover, I can't  
16 recall when. But then one clerk lived in Santa Fe and one  
17 was in Galveston for a period. Then the commissioners  
18 reduced by -- reduced my staff down to just one clerk.  
19 She lived on the mainland and -- and it wasn't until JP3  
20 that had them kind of all over.

21 Q. Do you remember when you went from two clerks to  
22 one when you were presiding over Precinct 2?

23 A. I want to say that was 2011 -- 2010 or 2011.

24 Q. And do you know what caused that?

25 A. The justification that I was given was because

1 the case load had decreased.

2 Q. Okay. Anything else?

3 A. I'll have to think about that.

4 Q. Sure. And you disagree with that -- with that  
5 reason?

6 A. I'll just say that that's the reason that I was  
7 given.

8 Q. Did you believe that your case load had  
9 decreased?

10 A. I would have to go back and think about it.

11 Q. Sure. Were you able to hire who you wanted to  
12 have as yours clerks or were there other people whose  
13 involvement you had to get them on board?

14 A. I could hire who I wanted.

15 Q. Okay. For the time period when you had two  
16 clerks and they lived on the island, were they white, were  
17 they minority?

18 A. One white, one black.

19 Q. Okay. And when you went down to one clerk, what  
20 were the -- what was their race if you know?

21 A. Hispanic.

22 Q. Hispanic. And in Precinct 3 you said you had  
23 seven clerks?

24 A. Um-hmm.

25 Q. Do you -- what kind of turnover would you have

1 with your clerk staff?

2 A. It's not that frequent, or it wasn't that  
3 frequent. But one clerk was a male.

4 Q. Um-hmm.

5 A. And he got a job at one of the plants so he left.  
6 Who else left? Oh, the commissioners reduced the number  
7 of clerks in the Crystal Beach office when I took over, so  
8 one -- one person had to go find another job. So she  
9 left. That's all I can think of right now.

10 Q. Sure. And then when it comes to race, was it a  
11 mix of white and minority --

12 A. Um-hmm.

13 Q. -- with your clerks in Precinct 3?

14 A. Um-hmm.

15 MS. RICHARDSON: Oh, before -- before  
16 you answer that, Penny, I just need to object to the  
17 relevance of this entire line of questioning with respect  
18 to the JP constable precincts and the staffing, especially  
19 they -- it appears to be related to the 2013 case, which  
20 is technically ongoing.

21 THE WITNESS: I think she's talking  
22 about the ...

23 BY MS. OLALDE:

24 Q. Your staff when you served over Precinct 3?

25 MS. RICHARDSON: And you can answer, but

1 I'm just going to note that objection for the record.

2 THE WITNESS: Okay.

3 BY MS. OLALDE:

4 Q. So you can -- you can answer.

5 A. Alright. It was mixed. Okay. So let's see in  
6 La Marque, Adrienne was Hispanic; Regina was Hispanic;  
7 Andrea was black. In Galveston, Rosie, Hispanic; Roxanna,  
8 Hispanic. In Crystal Beach, Sandy was white and Stormy  
9 was white.

10 Q. Okay. And did any of your clerks speak Spanish?

11 A. Yes.

12 Q. And that was a pretty important function of their  
13 job in order to communicate with the public. Is that  
14 correct?

15 A. Correct.

16 Q. Do you speak Spanish?

17 A. No.

18 Q. Okay. But when you were hiring individuals, was  
19 that one of the factors that you would consider?

20 A. Yes.

21 Q. Is it fair to say that you are a regular voter?

22 A. Yes.

23 Q. Every since --

24 A. Now, I missed a couple.

25 Q. Okay.

1 A. Okay. I have missed a couple, but I try to get  
2 there at every election.

3 Q. Okay. Where do you go to vote physically?

4 A. Wherever the line is the shortest.

5 Q. You do early vote -- voting?

6 A. No, I like to vote on election day.

7 Q. Okay. And do you vote in primaries, the  
8 democratic primaries?

9 A. Yes.

10 Q. Okay. Fair to say that you've never voted in a  
11 republican primary?

12 A. I -- that's fair to say.

13 Q. Excuse me. Do you remember what offices or what  
14 campaign -- what positions were being run for the last  
15 time that you voted what it would have been?

16 A. The last time would have probably been a county  
17 election. That would have been -- yeah, that would have  
18 been a county election.

19 Q. Do you remember anybody who was running in that  
20 election?

21 A. Probably the constables were running, and I could  
22 have this wrong, okay, because I'm trying to remember.  
23 Because it's different offices are staggered, you know,  
24 with the county. So if it -- since the JPs are coming up,  
25 so then the constables should have been the last one. And

1 then with the constables would have also been Commissioner

2 Holmes, Derrick Rose, the treasurer because the new guy

3 wants to abolish the treasurer's office. Who else?

4 Tax -- tax office may have been on that ballot, too.

5 Q. Do you remember if your -- the candidates that

6 you voted for if any of them won?

7 A. If my memory is serving me correctly and I'm

8 thinking about the election correctly then, yes.

9 Q. Okay. And do you remember who they were?

10 A. Yes.

11 Q. Who were they?

12 A. It would have been Derrick Rose and Stephen

13 Holmes.

14 Q. Okay. And now we've talked about Commissioner

15 Holmes, but why was Derrick Rose one of your candidates of

16 choice?

17 A. Because he's the constable of my precinct.

18 Q. And --

19 A. Or he was. You know, I -- well, he still is.

20 It's the still. He still is.

21 Q. Okay. And is there -- are there reasons that you

22 preferred him as a candidate?

23 A. I know him. I know what he stands for. I know

24 what he -- what he thinks about things and, yeah, I would

25 prefer him.

1 Q. How -- how did you know him?

2 A. I met Derrick when he was appointed by the  
3 commissioners to be constable of Precinct 3. Don't ask me  
4 what year that was because I don't remember.

5 Q. That's okay. How much contact did you have with  
6 Constable Rose?

7 A. In the early years it was just primarily through  
8 the coalition, but once I became JC 3, then he was my  
9 constable.

10 Q. You saw him on a daily basis?

11 A. No, not on a daily basis because I was moving  
12 from office to office.

13 Q. Maybe on a weekly basis?

14 A. A couple -- I'll say a couple of days a week I  
15 saw him.

16 Q. Okay. Is it fair to say that you believe  
17 political issues are more important when you're voting for  
18 a candidate in the candidates' race?

19 MS. RICHARDSON: Objection. Form.

20 You can answer.

21 A. I think they go hand in hand.

22 Q. Okay. Can you explain that for me?

23 A. A minority candidate, I think, is going to have  
24 some of the same concerns as a minority voter. I  
25 personally do not think a lot of the white candidates can

1 | relate to some of the things that the minorities are  
2 | concerned about.

3 | Q. Do you think that's 100 percent true all the  
4 | time?

5 | A. I don't want to put a percentage on it.

6 | Q. Sure. So, for example, if -- if Dr. Robin  
7 | Armstrong was running against a democratic candidate who  
8 | were white, would you have that same opinion?

9 | MS. RICHARDSON: Objection, calls for  
10 | speculation.

11 | You can answer.

12 | A. Okay. If -- correct me if I'm wrong, but I  
13 | believe he's republican so I wouldn't be interested in --  
14 | in that anyway.

15 | Q. Okay. But I guess my question is more of: Do  
16 | you believe that the preferred candidate would be  
17 | Dr. Robin Armstrong because he's minority and he would  
18 | understand minority issues as opposed to a democratic  
19 | candidate who was white?

20 | MS. RICHARDSON: Objection, called for  
21 | speculation.

22 | Q. You can answer.

23 | A. I don't know Dr. Armstrong. I do not know what  
24 | he stands for. I would have to learn some things about  
25 | him before I could even make a comparison like that.

1 Q. But is it fair to say that you would never vote  
2 for him if you had the opportunity because he's  
3 republican?

4 A. I'll agree to that.

5 Q. Do you know what major issues Latino or Hispanic  
6 individuals in Galveston City are facing today?

7 A. I would have to do some research on that. I  
8 can't say right now.

9 Q. Sure. Do you believe that African American  
10 individuals in Galveston County would vote consistently or  
11 similarly with people of Hispanic or Latin decent?

12 A. Yes.

13 Q. Okay. Can you explain to me why you think that?

14 A. Past encounters.

15 Q. Okay. What do you mean by "past encounters?"

16 A. Just listening to what they have to say and -- at  
17 meetings or reading things in the newspaper.

18 Q. Okay.

19 A. You know, reading articles written about LULAC  
20 and what they're concerned about.

21 Q. And when you say the "newspaper," do you mean the  
22 Galveston Daily News?

23 A. Correct.

24 Q. Okay. Any other publication that you would be  
25 thinking about with this answer?

1 A. No.

2 Q. Okay. And when you say, "meetings," what kind of  
3 meetings?

4 A. I'm trying to think. I really can't give you the  
5 name of any organization, but I do recall a couple of  
6 times that I've been at places with, you know, Hispanics  
7 and we've talked about issues. And I don't know if they  
8 really had a name to the organization but...

9 Q. You can't recall any organizations?

10 A. I can't -- I can't -- I don't recall a name of  
11 the organization. It was just something may have come up  
12 and we all kind of met.

13 Q. Do you think it could have been the coalition?

14 A. No, I don't think it's the coalition.

15 Q. Okay. What other organizations were you apart of  
16 where you would have had these conversations? The Texas  
17 Democratic Women, perhaps?

18 A. It may have been, but I cannot say for sure.

19 Q. Okay. Galveston County Democrats?

20 A. It could have been.

21 Q. Is there any -- anything else you think of that  
22 it could have been?

23 A. I just -- no, I can't remember.

24 Q. Sure. You said you have conversations, what were  
25 the conversations about? What issues?

1 A. I can't recall the specific issues.

2 Q. Okay. Do you believe that -- and I guess this  
3 line of questioning when we're talking about this, we're  
4 still considering just Galveston City, correct?

5 A. Correct.

6 Q. Do you have any opinions that would go beyond  
7 Galveston City?

8 A. No.

9 Q. Okay. Do you believe that black and Hispanic or  
10 Latino minorities in Galveston City face the same issues?

11 A. Not all of them.

12 Q. Okay. Can you tell me what issues you believe  
13 that they share?

14 A. Going back to what I previously said, education,  
15 employment, jobs. Well, jobs and employment are the same.  
16 Housing.

17 Q. Okay. And nothing to add from the prior line of  
18 questioning that we discussed?

19 A. No.

20 Q. Okay. Are you -- do you have an understanding of  
21 voter turnout in Galveston City?

22 A. A little.

23 Q. Okay. Can you tell me what that understanding  
24 is?

25 A. It's low.

1 Q. Okay. Tell me a little bit more about that.

2 A. I don't know the actual numbers of how many  
3 registered voters that there are in the City of Galveston,  
4 but in past elections, you know, it has been a low  
5 turnout.

6 Q. Okay. And is that for both republican and  
7 democrats or do you have an understanding as to that kind  
8 of a break down?

9 A. Just general, in general.

10 Q. Do you have an understanding as to whether voter  
11 turnout is lower in certain racial communities in  
12 Galveston?

13 A. No, I can't say that for sure.

14 Q. Sure. Do you know anything about the process  
15 that was used to create the map that was ultimately  
16 adopted in 2021?

17 A. No.

18 Q. You said that you attended commissioners court in  
19 the past, correct?

20 A. Correct.

21 Q. Do you currently go to any commissioner court  
22 meetings?

23 A. No.

24 Q. Okay. And when you were serving as a judge did  
25 you usually go to commissioner court meetings?

1           A. Mostly when something was affecting the JP  
2 constables.

3           Q. Okay. And how often did that come up, as  
4 estimating?

5           A. It wasn't -- well, the budget meetings,  
6 facilities, and the redistricting, those were the main  
7 areas.

8           Q. Budget meetings, was that quarterly?

9           A. Annually.

10          Q. Annually. And facilities meetings, what types of  
11 issues would arise with facilities?

12          A. Location, repairs, improvements.

13          Q. With respect to the facilities that your office  
14 worked in during your service as a judge, what kinds of  
15 repairs or improvements were performed by the county in  
16 those offices?

17          A. By statute, you know, commissioners are obligated  
18 to house all of the various offices. So when I took over  
19 I met with the commissioner's court and they let me know  
20 where they were going to put the new Precinct 2.

21                   When the county was growing so fast and they  
22 were needing more room, we had a commissioner's court  
23 meeting and that's when they said that they were going to  
24 move Precinct 2 and P1 from the annex building where we  
25 were at the main courthouse to a new facility that they

1 were -- that they had purchased and were renovating, you  
2 know, just for us, for the constables and the JPs 1 and 2.

3 Then after hurricane Ike at a meeting they  
4 let us know what they're going to do about the repairs and  
5 everything that were needed because it was 5 feet of water  
6 in our building. We met there. What else? And after the  
7 map was adopted in 2013, I guess it was, we had a meeting  
8 because of the location of where we needed to be.

9 Q. Okay.

10 A. And -- oh, yeah, and then what was that? It was  
11 another meeting, too, because they did something -- I'm  
12 trying to remember what they did. Because then I couldn't  
13 even hold court at the facility on Sealy Street because  
14 they threw me out of the precinct. I was no longer in the  
15 precinct, and I no longer had the protection of the  
16 federal court and they had to move me to the justice  
17 center.

18 Q. Did that occur in 2013?

19 A. That was in that neighborhood, I believe.

20 Q. Okay.

21 A. Yeah.

22 Q. Okay. Do you -- do you remember could it have  
23 been before 2010?

24 A. No, because it had to have been around that time  
25 because that's when I got -- I no longer had the

1 protection of the federal court order. Because when they  
2 did the redistricting than that move -- that put me out of  
3 the protection of the federal court and they had to move  
4 me into the precinct. Because by law, you have to sit in  
5 the precinct that you're elected in, and so they had to  
6 move me over to the justice center.

7 Q. Do you remember under which map they had to move  
8 you to the justice center?

9 A. I guess the -- the one of 2013 when we -- when  
10 they went down to four JP constable precincts.

11 Q. And there was a lawsuit about that, correct?

12 A. Um-hmm.

13 Q. And you were one of the plaintiffs?

14 A. Um-hmm. Yes, yes.

15 Q. So did you stay -- when you had to move from  
16 Sealy Street, what location did you move to?

17 A. To the justice center on 59th Street.

18 Q. And did you stay there in that location?

19 A. Um-hmm.

20 Q. Was it better, worse?

21 A. It was worse in my opinion.

22 Q. Why?

23 A. Because it was crowded. I was sharing that  
24 courtroom with the tax master, CPS, attorney general, and  
25 anybody else who needed a courtroom for some reason.

1 Q. You stayed at the justice center until the time  
2 of your retirement?

3 A. Well, yes, I was going to all three, yeah.

4 Q. Okay.

5 A. Um-hmm.

6 Q. Okay. Do you ever discuss the 2021 lawsuit with  
7 the media?

8 A. No.

9 Q. Did you ever discuss the prior lawsuit that was  
10 filed in the 2011 time period, the 2013 time period with  
11 the media?

12 A. Yes.

13 Q. And what media -- what individuals or media  
14 outlets did you discuss it with?

15 MS. RICHARDSON: And objection it --  
16 there's -- as we all know, there are multiple lawsuits  
17 ongoing between 2011 and 2013, so I'm going to object to  
18 the form of that question --

19 MS. OLALDE: Sure.

20 MS. RICHARDSON: -- so far that it's not  
21 clear.

22 MS. OLALDE: Yeah, we'll -- we'll clear  
23 it up.

24 MS. RICHARDSON: Okay.

25 Q. Which outlets did you discuss this with?

1           A. I cannot remember his name. He was a reporter  
2 for Channel 13.

3           Q. Okay. Trying to remember the name, not TJ Aulds,  
4 correct?

5           A. No, he's with the newspaper, isn't he?

6           Q. Was it somebody by the name of Ari -- Ari Berman?

7           A. No.

8           Q. Okay. We'll --

9           A. A tall, blonde-headed guy.

10          Q. Was it for television or --

11          A. Television, yes.

12          Q. Okay. And do you remember when you talked with  
13 him?

14          A. I think it was -- I'm not sure, okay, so don't  
15 hold me to this.

16          Q. Okay.

17          A. But it was right -- prior to the trial in 20 --

18          Q. '14?

19          A. -- 14. Right -- either right before or during  
20 the trial.

21          Q. Okay. And did you reach out to him or did he  
22 reach out to you?

23          A. He reached out to me.

24          Q. And do you remember what you talked about?

25          A. Trying to remember. I believe -- and here again,

1 don't hold me to this, but I believe he asked me what the  
2 lawsuit was about because I do remember saying that it  
3 was, you know, because of the redistricting. And that's  
4 all I can remember right now.

5 Q. No problem. And when you explained the lawsuit  
6 to him, do you remember how you explained it or any  
7 important messages that you would have wanted to convey to  
8 him?

9 A. If memory serves, I believe I mentioned that the  
10 lawsuit was to try to preserve the rights of minorities to  
11 be able to elect a candidate of their choice. Because the  
12 precinct was created for that purpose and the county had  
13 agreed to that at the time that it was created.

14 Q. And when you say, "the precincts," you mean  
15 Precinct 3?

16 A. Precinct 2.

17 Q. Precinct 2.

18 A. Yeah.

19 Q. This was the JP --

20 A. Right, right, this was --

21 Q. -- redistricting, correct?

22 A. -- yeah, this was the redistricting, yeah, from  
23 2013 was, yeah, JPs, constable redistricting.

24 Q. Anything else?

25 A. That's all I remember right now.

1 Q. Sure. Did you ever speak with anybody else in  
2 the media about redistricting in Galveston County, whether  
3 it's JP or constable or otherwise?

4 A. I don't remember.

5 Q. Okay. Was there an individual, not an attorney,  
6 who drew your attention to becoming a plaintiff in this  
7 particular lawsuit?

8 MS. RICHARDSON: And I know she just  
9 said not an attorney, but I will instruct you not to  
10 answer with respect to any communications between yourself  
11 and your attorneys.

12 A. No.

13 Q. Okay. Was it -- without telling me the substance  
14 of any conversations, was it an attorney who asked you to  
15 become a plaintiff in this case?

16 A. No.

17 Q. Okay. Who asked you to become a plaintiff in  
18 this case?

19 A. Nobody asked me.

20 MS. RICHARDSON: Objection, misstates  
21 prior testimony.

22 A. Okay.

23 Q. Okay. And I guess I just need to clear up my own  
24 confusion. How did you begin the process of becoming a  
25 plaintiff in this case?

1 MS. RICHARDSON: Again, I'll instruct  
2 you not to answer it to the extent that any of these  
3 communications involved yourself and your attorneys.

4 THE WITNESS: So don't answer?

5 MS. RICHARDSON: To the extent that any  
6 of these communications involve yourself and your  
7 attorneys.

8 BY MS. OLALDE:

9 Q. The substance of those --

10 MS. RICHARDSON: The substance of those  
11 conversations.

12 Q. I guess I can -- maybe I can fix this. Did you  
13 reach out to someone about asking if you could become a  
14 plaintiff in this lawsuit?

15 A. I don't like the way you phrase that because I --

16 Q. Well, tell me how you would phrase it.

17 A. Okay. I reached out and said, How can I help.

18 Q. Okay. And who did you reach out to when you did  
19 that?

20 A. My attorney, Neil Baron.

21 Q. Okay. And I don't want to know anything you  
22 talked about with Mr. Baron.

23 A. Okay.

24 Q. But after you had that communication with him is  
25 that when you became a plaintiff in this lawsuit?

1 A. Yes.

2 MS. RICHARDSON: I'll clarify if -- just  
3 for the record. There was a supplemental complaint in the  
4 2013 case of with respect to what you mean by plaintiff in  
5 the current lawsuit?

6 Q. Okay. Well, what do you mean by plaintiff in the  
7 current lawsuit?

8 A. I left that up to Mr. Baron to do what needed to  
9 be done.

10 Q. Sure.

11 A. Okay.

12 Q. Right.

13 A. So the steps -- if you want to know the steps  
14 then you need to ask that man sitting right there.

15 Q. I don't think he's going to testify.

16 MR. BARON: I don't have any such plan.  
17 But speaking of which we have now been going on for about  
18 an hour and half and so I would suggest maybe we take a --  
19 if this is a good spot to take a short break.

20 MS. OLALDE: This is a good spot.

21 MR. BARON: Maybe this is a good time  
22 and --

23 MS. OLALDE: Do you want to go off the  
24 record?

25 MR. BARON: Yes, yes.

1 THE VIDEOGRAPHER: We're off the record.

2 The time is 10:39.

3 (A short recess was taken.)

4 THE VIDEOGRAPHER: We're back on the

5 record. The time is 11:11.

6 BY MS. OLALDE:

7 Q. Judge Pope, you had mentioned that you were a  
8 member of the Galveston County Democrats for a long period  
9 of time?

10 A. Correct.

11 Q. Were there white and minority members of that  
12 group?

13 A. Yes.

14 Q. Okay. Is the same true for the Texas Democratic  
15 Women's organization?

16 A. Yes.

17 Q. Okay. Were you a member -- or have you ever been  
18 a member of LULAC?

19 A. No.

20 Q. Are you member of any NAACP chapter?

21 A. I was until a few years ago.

22 Q. Which chapter?

23 A. The Galveston Chapter.

24 Q. And how long were you with them?

25 A. Over 20 years.

1 Q. Did you attend meetings regularly?

2 A. No.

3 Q. Why not?

4 A. I don't know.

5 Q. Okay. Well did they have, like, regular monthly  
6 meetings or was it not like that?

7 A. Yeah, they had regular monthly meetings, but I  
8 didn't go all the time.

9 Q. Okay. You've had time serving -- in your time as  
10 a judge, you had time also serving on the Texas Judicial  
11 Council?

12 A. I did.

13 Q. And how long did that service last?

14 A. I want to say six years.

15 Q. Do you remember when it started about?

16 A. Late 90s into 2007, 2008, somewhere along up in  
17 there.

18 Q. And what did you do as you served on the Texas  
19 Judicial Council?

20 A. Served on a couple of committees.

21 Q. Okay. And which committees?

22 A. The one that I remember is for juvenile  
23 offenders, served on that one.

24 Q. Do you remember the other one?

25 A. No.

1 Q. Okay. Anything other than service on committees?

2 A. That was basically it. The full council met and  
3 then you had a committee assignment, and then from that  
4 committee assignment would you bring your results back to  
5 the full body.

6 Q. Do you remember what your community -- your  
7 committee worked on with respect to juvenile offenders?

8 A. The statutes under Chapter 45 relating to  
9 juvenile offenders.

10 Q. Okay. And this was a statewide program that you  
11 were involved in, correct?

12 A. Yes.

13 Q. And make you make any recommendations to the full  
14 council?

15 A. Yes.

16 Q. Do you remember what they are -- they were?

17 A. I don't remember.

18 Q. Have you spent any time teaching at all?

19 A. Yes.

20 Q. And where was that?

21 A. I did my student teaching at Bellaire High School  
22 when I was getting my undergraduate degree. And then I  
23 also taught at College of the Mainland government for  
24 about five years.

25 Q. When did you teach at the College of the

1 Mainland?

2 A. From the -- oh, I want to say maybe from 1990 --  
3 1991 to about 1996. Somewhere all up in there.

4 Q. Okay. That was like an adjunct position?

5 A. It was -- yeah, I guess so, yeah.

6 Q. Okay.

7 A. I also taught for the Texas Justice Court  
8 Training Center.

9 Q. Okay. Before we get to that with College of the  
10 Mainland you said that you have taught government. Is  
11 that correct?

12 A. Yes, government.

13 Q. Is that to, like, incoming, like, first year  
14 students, second year students, or who would be your  
15 student body?

16 A. It's a combination of whenever the students get  
17 around to taking the required course.

18 Q. Was it U.S. Government, was it Texas? What was  
19 the subject of the class?

20 A. Some classes -- I usually taught two every  
21 semester and one was American Government, and I think  
22 maybe -- maybe twice I taught Texas Government.

23 Q. Did you ever discuss anything about political  
24 redistricting matters in your classes?

25 A. Only if it was in the textbook.

1 Q. Okay. Do you remember?

2 A. I can't say for sure.

3 Q. Do you ever talk about race relations in your  
4 classes?

5 A. Only if it was in the textbook.

6 Q. And do you remember?

7 A. No, I don't remember.

8 Q. Okay. Now the Texas Justice Court Train --

9 A. Training center.

10 Q. Where was that located?

11 A. It's in Austin.

12 Q. And when did you teach there?

13 A. I think the last year was 2011. So I may have  
14 started around 2004 or 2005.

15 Q. And how -- how frequently would these be? Would  
16 be, like, an annual training or a semiannual?

17 A. It was more than annual. I taught the court  
18 clerks.

19 Q. Um-hmm.

20 A. And they would have seminars in different areas  
21 of the state and -- don't hold me to this, but I want to  
22 say I taught at least twice per training cycle.

23 Q. And it was always for court clerks?

24 A. Well, no, sometimes I had to do the judges, too.  
25 And when another instructor was out of pocket they would

1 call and ask me to step in and teach them, too.

2 Q. Okay. So for the court clerks was it mostly  
3 procedural issues?

4 A. Things that were associated with the justice  
5 court.

6 Q. And then for the judges, what topics would you  
7 teach?

8 A. Things that were related to the justice court.

9 Q. Was that procedural like --

10 A. Procedural and substantive.

11 Q. What substantive topics would you discuss?

12 A. I remember truancy was one, code of criminal  
13 procedure, diversity. And I just threw away all of those  
14 old lecture notes, too. That's all I can remember right  
15 now.

16 Q. When it comes to diversity, what was the  
17 curriculum that you were teaching to these judges?

18 A. I took cases from federal court, federal court  
19 cases and we went through those.

20 Q. Okay. What cases?

21 A. Oh, I do not remember the name of those cases.  
22 Do not ask me that.

23 Q. No problem. And -- would setting aside the names  
24 of the cases, what were the subjects? What were you guys  
25 talking about?

1           A. How important it was to take other people  
2 differences into account in the job situation or just in  
3 your own thinking. You know, to try to eliminate as my  
4 prejudices as you can.

5           Q. And does this kind of tie back to your thesis  
6 work when you got your master's?

7           A. No.

8           Q. Not all?

9           A. No. This was a topic that the training center  
10 wanted me to research and teach.

11          Q. Okay. And what you utilized for that were  
12 reported cases?

13          A. Right.

14          Q. Anything else?

15          A. No, it was all reported cases in the federal.

16          Q. Okay. And you were teaching Texas district court  
17 judges?

18          A. No, this is justice court.

19          Q. Justice court.

20          A. Justice court.

21          Q. Okay, justice court. And were your students  
22 giving positive feedback, substantive feedback?

23          A. Yeah, a lot of positive feedback.

24          Q. Okay. Nothing negative?

25          A. Not that I recall.

1 Q. Okay. And so the goal of those courses was to  
2 talk about bias, right?

3 A. Yeah.

4 Q. And eliminating bias?

5 A. Right.

6 MR. BARON: I apologize. I did not  
7 realize this was the louded Keurig in the history coffee  
8 makers. Give me 30 seconds and I will never do this  
9 again.

10 MS. RICHARDSON: Can we go off the  
11 record?

12 MS. OLALDE: Let's go off the record.

13 THE VIDEOGRAPHER: We're off the record.  
14 The time is 11:19.

15 (A short recess was taken.)

16 THE VIDEOGRAPHER: We back on the  
17 record. The time the 11:21.

18 BY MS. OLALDE:

19 Q. Judge Pope, do you happen to know how the 2011  
20 redistricting map was created before it's adoption -- it's  
21 initial adoption?

22 A. No.

23 Q. Okay. Do you happen to know what happened to  
24 that map after its adoption?

25 A. I'm not sure.

1 Q. Sure. In 2011 was preclearance still in effect  
2 over Galveston County?

3 A. Yes.

4 Q. Okay. And so do you know the processes that are  
5 in place for preclearance of redistricting?

6 A. No.

7 Q. Okay. How did you come to be involved in the  
8 2011 lawsuit?

9 MS. RICHARDSON: Again, well -- yeah,  
10 obviously answer the question but to the extent that any  
11 of your answer reveals the substance of any communications  
12 with counsel, I will instruct you not to answer.

13 A. The map that was adopted was going to eliminate  
14 the minorities' opportunity to elect a candidate of their  
15 choice. And that's how I came -- became involved.

16 Q. Okay. Do you know what time period you became  
17 involved?

18 A. It was after the map was adopted.

19 Q. Do you know if -- where the map was along the  
20 path of preclearance process?

21 A. No.

22 Q. Okay. And did you reach out to somebody to be  
23 involved in the lawsuit or did somebody reach out to you?

24 MS. RICHARDSON: Same -- same  
25 instruction with respect to communications -- the

1 substance of communications with counsel.

2 THE WITNESS: Okay.

3 MS. RICHARDSON: But I believe that's a  
4 yes or no question, but -- yeah, sorry.

5 A. I think several of us kind of learned about it at  
6 the same time.

7 BY MS. OLALDE:

8 Q. Was it at a coalition meeting?

9 A. It may have been.

10 Q. Okay. Do you remember what meeting it was at?

11 A. It may have been the coalition meeting.

12 Q. Okay. Did you learn about it -- do you know how  
13 far in advance before the suit was filed that you learned  
14 about the fact that there would be a lawsuit?

15 A. I don't know how to answer that.

16 Q. Sure. Do you remember when the lawsuit was  
17 finally filed?

18 A. Yeah, I remember when the lawsuit was finally  
19 filed. And that was after -- it was after the county had,  
20 had the hearings and after it was adopted.

21 Q. Do you know how long after?

22 A. No.

23 Q. Okay. Did you attend any of the meetings that  
24 were held? I think there were five different meetings  
25 ahead of the 2011 map adoption, where there were those

1 public meetings to discuss the maps, did you attend any of  
2 those?

3 A. A couple of them.

4 Q. Do you know which ones?

5 A. The one in Galveston and I think the one in  
6 either Hitchcock Center or Santa Fe.

7 Q. Okay. And what happened at the Galveston  
8 meeting?

9 A. A lot of people spoke.

10 Q. Did you speak?

11 A. I don't think I did.

12 Q. Okay. Was there any communication or  
13 conversation from the commissioners?

14 A. They discussed it.

15 Q. Okay. And what were the comments from the  
16 public, if you recall, the substance of the comments?

17 A. Not wanting them to eliminate the precincts.

18 Q. Okay. And when you say, "the precincts," are you  
19 talking commissioner, you're talking Justice of the Peace?

20 A. The Justice of the Peace Constable Precincts.

21 Q. Okay. Was there any conversation at all about  
22 commissioner court in these meetings, commissioner court  
23 proceedings in these meetings?

24 A. No, I don't think so.

25 Q. Okay. Did you have an opinion about the

1 commissioner court redistricting in 2011?

2 A. I don't recall any commissioner court  
3 redistricting. I mean it was just the JP Constable  
4 Precinct.

5 Q. What about -- yeah, it would have been 2011, 2012  
6 timeframe. You don't recall?

7 A. I don't recall --

8 Q. Okay.

9 A. -- the commissioners changing their precincts.

10 Q. Okay. Do you know how the map that was in  
11 existence before the 2021 vote, do you know how that came  
12 to be?

13 MS. RICHARDSON: Objection. Form.

14 Q. You can answer.

15 A. Okay. Are you referring to the -- the old  
16 precincts and not the new ones?

17 Q. The prior commissioner court map that was  
18 replaced by the current commissioner court precincts?

19 A. How it came into being?

20 Q. Um-hmm.

21 A. I don't know.

22 Q. Do you think there's a history of official  
23 discrimination in Galveston?

24 A. Define official.

25 Q. Something coming from an elected officer or an

1 | elected position.

2 | A. If you're referring to personal comments, I don't  
3 | know.

4 | Q. Okay. What about policies, procedures,  
5 | enactments, anything that would have come from, for  
6 | example, the commissioners court? Do you think that  
7 | there's any indication of discrimination in Galveston  
8 | County from that perspective?

9 | MS. RICHARDSON: Objection. Form.

10 | Q. You can answer.

11 | A. The affect in my opinion, the affect of the vote  
12 | shows discrimination.

13 | Q. And when you say, "the vote," you mean the 2021  
14 | map?

15 | A. And the -- and the others.

16 | Q. And the others would be the 2011 Justice of the  
17 | Piece vote?

18 | A. Correct.

19 | Q. Do you think that either of those votes were  
20 | intentionally done by any commissioners in order to  
21 | discriminate against minority voters?

22 | A. I don't know what their intent was. I just know  
23 | what the affect happen to be.

24 | Q. Any other examples or any other areas along  
25 | official discrimination that you believe we need to

1 discuss or that you believe have existed?

2 A. I have to think about that.

3 Q. Sure. And that question was for the county as a  
4 whole with respect to the commissioners court, but let's  
5 zero in on Galveston County. Any examples there from an  
6 official perspective, city management, etcetera?

7 A. The county is not involved in city management on  
8 the island.

9 Q. Exactly. So it's a different question, right.  
10 Do you think that there's any official discrimination with  
11 respect to matters in the city?

12 A. Let me get back to you on that.

13 Q. Okay. But sitting right now you can't think of  
14 any?

15 A. I can't think of anything right.

16 Q. Sure.

17 A. But I'll think about it.

18 Q. Sure. But if you think of anything, would you  
19 please let me know before the end of the deposition? We  
20 just don't want to be surprised when you testify later and  
21 you're like, Oh, wait, I remember 20 things --

22 A. Um-hmm.

23 Q. -- because right now is our opportunity to really  
24 talk about the facts that are important to this case.

25 A. Okay.

1 Q. Obviously you believe that there's a history of  
2 racism in Gal, correct?

3 A. Correct.

4 Q. Is that true for the city?

5 A. Correct.

6 Q. Is that true for the county?

7 A. Correct.

8 Q. Can you tell me some examples of -- and I'm just  
9 going to ask for the whole county because it includes the  
10 city. Can you tell me of some examples of why you believe  
11 that there is a history of racism within the past 20 years  
12 in the county?

13 MS. RICHARDSON: Objection. Form.

14 Q. You can answer. If you don't understand it I'll  
15 rephrase.

16 A. The only way I know how to answer that question  
17 is to go back to give you a real history of racism in  
18 Galveston County --

19 Q. Okay.

20 A. -- and Galveston. When I was born and brought up  
21 separate but equal was in effect, okay. And schools was  
22 segregated, doctors' offices were segregated. You don't  
23 know what it's like to be -- you know, have to go to the  
24 doctor and you have to sit on a wooden bench in a little  
25 bitty room in the back of the doctor's office while the

1 | white patients get to sit in the nice luxurious waiting  
2 | room in nice chairs, you know.

3 |                   When I was growing up, we had to sit on the  
4 | back of the bus. I made many a ride on the back of the  
5 | bus, and that was true for a very long time. And even  
6 | when integration started in Texas in the 1960s it was  
7 | still a -- a hassle in order to get to where blacks were  
8 | treated equally.

9 |                   And even now in some areas I do not believe  
10 | that blacks and minorities are treating equally. And I do  
11 | believe that when it comes to politics, the only way that  
12 | minorities are even given an opportunity to run and be  
13 | elected for positions in whether it's city government,  
14 | county government, or whatever, it's when it's in the  
15 | smaller areas.

16 |                   And when you take away these smaller areas,  
17 | then you take away the opportunity for minorities to be  
18 | elected and for the minority voters to have an  
19 | opportunity to vote for the candidates of their choice.

20 |           Q. Can you -- thank you. I appreciate that, it  
21 | does -- it's very helpful.

22 |                   Can you tell me when in the 1960s  
23 | desegregation began in Galveston in your experience?

24 |           A. For the school district I remember that it was  
25 | the 1968, '69 school year is when the school district

1 combined Ball High and Central. Central was the black  
2 high school, Ball High was the white high school. And  
3 that was the first time that the high schools were -- that  
4 was the first year that they really started the  
5 integration.

6 And I think it was after that, that other  
7 areas began to, you know, integrate, too. Then the --  
8 then we could ride anywhere on the bus and other, you  
9 know, other things.

10 Q. The elementary schools were they being  
11 desegregated at the same time that Ball and Central were  
12 being combined?

13 A. Say that again, please.

14 Q. Elementary schools were they being desegregated  
15 at the same time?

16 A. Yes, that was for the whole school district.

17 Q. And you spent your freshman through junior year  
18 at Central. Is that correct?

19 A. No.

20 Q. No?

21 A. No, no.

22 Q. Which years did you spend at Central?

23 A. I never went to Central.

24 Q. I apologize my notes are wrong then on my timing.

25 A. Um-hmm.

1 Q. When did you first enter high school?

2 A. '67 -- '66, '67.

3 Q. And at that point you were going to Ball High?

4 A. No, at that point I was at Sam Houston Middle  
5 School.

6 Q. Okay.

7 A. 9th grade was at Sam Houston Middle School.

8 Q. Okay, I get it. And was that a black middle  
9 school?

10 A. Yes.

11 Q. Okay. And where did you go for 10th grade?

12 A. Ball High.

13 Q. And that was -- at that point it was becoming  
14 integrated?

15 A. Not yet. That was the year before.

16 Q. Okay.

17 A. And the only reason why I remember I went to Ball  
18 High because they made my dad one of the vice principals  
19 at the school.

20 Q. Okay. Were there other African American  
21 students --

22 A. A couple.

23 Q. -- at Ball High?

24 A. Um-hmm, a couple.

25 Q. Okay. From your time in 10th grade through

1 | graduation, did you see the enrollment at Ball High become  
2 | more mixed?

3 | A. Well, yes, it was mixed because it was the only  
4 | high school other than the catholic school.

5 | Q. What happened to Central? Did Central --

6 | A. Central became a middle school.

7 | Q. Okay. Okay. When it comes to segregation on  
8 | buses, when did you see that change in Galveston?

9 | A. It had to have been after -- like I said, once  
10 | the school district started the integration and other  
11 | areas started doing the same.

12 | Q. Okay.

13 | A. And so it had to have been after that.

14 | Q. And is it fair to say that race relations have  
15 | improved from 1970 to today in Galveston?

16 | A. There's still room for improvement.

17 | Q. But they have improved?

18 | A. Some.

19 | Q. Okay. You mentioned that today you think that  
20 | there is still racism in Galveston County, correct?

21 | A. Correct.

22 | Q. Can you give me some examples, please?

23 | A. It's the affect of different things. The fact  
24 | that more minorities are arrested than whites. The fact  
25 | that more of the better -- how can I put this? The

1 communities, the housing communities, with the \$300,000  
2 homes are primarily white. You know, because of blacks  
3 not, you know, being able to afford that type of housing.  
4 And here again, I'm going to go back to why  
5 we're here the affect that changing the commissioner  
6 precinct lines are going to have an impact on the minority  
7 voters and take away their opportunity to be able to elect  
8 a candidate of their choice.

9 Q. Do you think that the commissioners intended to  
10 discriminate against minorities when they passed the 2021  
11 maps?

12 A. I wasn't there, I don't know. I just know what  
13 the affect is of their action.

14 Q. Okay. Do you believe that Anglo voters in  
15 Galveston County vote primarily republican?

16 MS. RICHARDSON: Objection. Calls for  
17 speculation.

18 Q. If you know.

19 A. I don't know.

20 Q. Do you have a belief about that?

21 A. I really don't know.

22 Q. Do you think voting in Galveston County is  
23 racially polarized?

24 MS. RICHARDSON: Objection, calls for a  
25 legal conclusion.

1 A. I don't know.

2 Q. Okay. Are there any voting practices or  
3 procedures in place in Galveston County that you believe  
4 are discriminatory?

5 A. I don't know.

6 Q. Do you think -- do you think voting ID  
7 requirements are discriminatory?

8 A. Yes, I do not like it.

9 Q. Okay. Can you tell me why?

10 A. There are -- or there was when the voting ID  
11 statue came into effect, the belief that there was a lot  
12 of fraud in the election process. And that is just not  
13 the case. It's not -- I mean, maybe, you know, a few  
14 instances every now -- here and there, but it's not in --  
15 in my opinion, it wasn't enough to justify putting people  
16 to that restriction of having to take a picture ID with  
17 you to vote.

18 If you are a registered voter and you have  
19 your voter registration card or you're on the list, then  
20 in my opinion that should have been sufficient.

21 Q. Okay. Now that we've talked a little about voter  
22 ID, have you thought about or can you remember any other  
23 issues that you might think when it comes to practices,  
24 voting practices that are discriminatory?

25 A. I can't think of anything.

1 Q. Okay. When we were talking about discrimination  
2 in Galveston County, do you think the same issues are  
3 faced by Latino or Hispanic members of the minority  
4 community?

5 MS. RICHARDSON: Objection, calls for  
6 speculation.

7 Q. Only if you know.

8 A. I don't know.

9 Q. Are you aware the use of race in political  
10 campaigns in Galveston County, any examples of that?

11 A. In the past there have been a couple.

12 Q. Can you give me examples?

13 A. I remember when Sonny James was running for his  
14 position and he had an opponent, and they had a flyer go  
15 out that was very derogatory. I remember when Obama was  
16 running and -- for president for the first time, and I  
17 came down Highway 45 and across one of those overpasses,  
18 some derogatory comments had been painted on the overpass  
19 against him. Those are two specific instances that I  
20 remember.

21 Q. What was the Sonny James advertisement?

22 A. If I remember correctly because this has been a  
23 while back, they -- the -- the picture of his face had  
24 been distorted. Which was to me, you know, very  
25 disrespectful and intended to -- to show that he wasn't

1 | someone to even consider, you know, for the position.

2 | Q. Do you know if Sonny James won that election?

3 | A. I think he did.

4 | Q. Okay. Anything else, any other examples that you  
5 | can think of?

6 | A. Those are the only two that I can really remember  
7 | right now.

8 | Q. Apart from yourself, do you know of any black or  
9 | Latino, Hispanic, individuals who have been elected to  
10 | public office in Galveston County?

11 | A. Yes.

12 | Q. Okay. Yeah, could you give me their names?

13 | A. Okay. And I believe that this is going to  
14 | demonstrate what I said about it's easier for minorities  
15 | to be elected in precincts, okay. Sonny James was elected  
16 | initially as constable of P5. Gilbert Torres was elected  
17 | a while back as justice of the peace of P5. He was  
18 | followed by Carlos Garza, who was elected justice of the  
19 | peace of Precinct 5. Frank Carmona was elected a  
20 | commissioner, and I believe he was commissioner of P1.  
21 | But I could be wrong on that number.

22 | And of course, me, Precinct 2. Constable  
23 | Terry Petteway Precinct 2. Sonny James again, JP,  
24 | Precinct 3. Earl Tottenham was constable of Precinct 3.  
25 | That's all I can remember in terms of the precincts, but

1 | then when you get to countywide, after it was successful  
2 | with the precincts, then Latonia Wilson was elected  
3 | district clerk, that's countywide. Gerald Burks was  
4 | elected treasurer, and that's countywide. Oh, did I say  
5 | Wayne Johnson for commissioner 3.

6 | Q. Uh-uh.

7 | A. Okay. Wayne Johnson he took -- he was the  
8 | commissioner of Precinct 3 before Stephen Holmes. Who am  
9 | I leaving out?

10 | Q. Tim Clark?

11 | A. He's white. We were talking about minorities.

12 | Q. I apologize. Michelle Slaughter?

13 | A. She's white. She's just married to a Hispanic.  
14 | Nelson is white. Schweitzer was white. Verbany

15 | (phonetic) was white. Hosey was white. Meffa (phonetic)  
16 | was white. Baker was white. That's all I can remember.

17 | Q. Do you know the district court judges?

18 | A. No, Helen Truscott ran for the 122nd District  
19 | Court, but she was -- she did not win.

20 | Q. Okay.

21 | A. And, of course, district court is a countywide.

22 | Q. Okay.

23 | A. Oh, I did leave off somebody, Roy Cantania.

24 | Q. Okay.

25 | A. Now he ran countywide for county court.

1 Q. And he served?

2 A. And he -- yeah, he served.

3 Q. What about Pat Grady?

4 A. White. She's white. And so is her husband.

5 Meade is white. Who's on the 56? Oh, Ronnie Cocks,

6 white. Elsinore is white. 212 that's Grady, 212. 405th

7 Jared Robinson, he's white. 306 is Ann Darrin, she's

8 white. County Court 1 is the other Grady. County Court

9 2, is -- who's the little blonde girl, what's her name?

10 But she's white. And then County Court 3 is -- I think

11 Jacqueline is still the judge of County Court 3, and if he

12 is he's white, too.

13 Q. Do you know Judge Patricia Grady --

14 A. Um-hmm.

15 Q. -- personally?

16 A. Only -- you know, not real friends or nothing,

17 just acquaintances.

18 Q. But you don't know her -- her ethnic background?

19 A. No.

20 Q. You said that you're not familiar about the --

21 about Friendswood when it comes to racial demographics or

22 political voting?

23 A. That's correct.

24 Q. Okay. So you don't know whether or not CH could

25 win the election in the precinct today?

1 A. I can only tell you what I believe.

2 Q. Okay. So just to be clear you don't know, but  
3 please tell me what you believe.

4 A. I do not believe he could -- he could be elected.

5 Q. Why?

6 A. I do not believe there's a sufficient majority  
7 population up there, and I just do not believe that he  
8 would be elected.

9 Q. Majority population of democrats?

10 A. Correct.

11 Q. Did you have any involvement in any lawsuits  
12 against the county regarding any kind of discrimination  
13 prior to 2011?

14 A. No.

15 Q. Do you believe that minorities in -- on the  
16 mainland could have the same interests or needs as minor  
17 -- minorities in Galveston City?

18 A. No.

19 Q. Okay. Why not?

20 A. When I became the JP and was going to the three  
21 localities, that's when I realized that the needs and  
22 the -- of each community is completely different. And  
23 even though the court was a justice court, it was like  
24 having three separate offices.

25 Q. Can you give me some examples of the different

1 needs?

2 A. In La Marque the type of cases that we handle was  
3 mostly civil, and evictions, debt cases, very little  
4 traffic. In Galveston it was mostly criminal, class D  
5 misdemeanors, and as well as administrative hearings,  
6 peace bonds, I mean a real criminal docket. Some civil  
7 evictions, some debt, some automobile accidents, small  
8 claims. And in Bolivar, Crystal Beach is it primarily  
9 criminal, and that is because of the beach.

10 Q. Visitors, tourist, things like that?

11 A. Um-hmm. And -- and the -- and the law  
12 enforcement over there is county. County is responsible  
13 for law enforcement over there.

14 Q. Okay. Do you believe that county law enforcement  
15 in Bolivar is -- has demonstrated any racism toward  
16 individuals in Bolivar?

17 MS. RICHARDSON: Objection, calls for  
18 speculation.

19 Q. If you know.

20 A. I can only tell you what I believe.

21 Q. Okay. So you do not know, correct?

22 A. No, I do not know.

23 Q. What do you believe?

24 A. I believe that it's because it's primarily white,  
25 and because it's primarily the location for whites to come

1 | for their activities that doesn't become a factor. And  
2 | that's because very few blacks go over there to Crystal  
3 | Beach and Bolivar.

4 | Q. And do you think the same thing is true as was  
5 | true ten years ago for Bolivar?

6 | A. Yes.

7 | Q. Do you know?

8 | A. Just what I believe.

9 | Q. Sure. So with the experience you just described,  
10 | how does that play into your opinion of what specific  
11 | needs minorities on the mainland may have that are  
12 | different from minority individuals in Galveston?

13 | MS. RICHARDSON: Objection. Form.

14 | A. I can't answer that.

15 | Q. Okay. You just don't know or?

16 | A. I can't phrase -- rephrase it any differently  
17 | than from what I just said earlier.

18 | Q. Okay. And I think what we were talking about  
19 | earlier was a lot of the docket that you noticed, correct?

20 | A. Right. And that's when I noticed what's going on  
21 | in the -- because you can tell what's going on in the  
22 | community by the docket.

23 | Q. Right. And so you said that you had less  
24 | criminal work on the mainland than you had in Galveston,  
25 | correct?

1 A. Correct.

2 Q. So I'm trying to get to the needs of these  
3 individuals on the mainland as opposed to the needs of the  
4 individuals in Galveston. And so from your experience  
5 with both of these dockets, did you form a belief as to  
6 what the differences were between these two sets of  
7 individuals' needs?

8 MS. RICHARDSON: Objection. Form.

9 A. I can't answer that.

10 Q. Sure. Did you speak with Commissioner Holmes  
11 about this current lawsuit at any time?

12 A. Not the lawsuit.

13 Q. Did you speak with Commissioner Holmes about  
14 redistricting -- any redistricting in Galveston County at  
15 any time?

16 A. With respect to this lawsuit, the 2000 --

17 Q. The --

18 A. -- the 2021?

19 Q. We'll start there.

20 A. After I saw the maps in the paper I called him,  
21 told him I would love to help. He said, "Thank you," and  
22 that was it.

23 Q. Did he ever reach back out to you?

24 A. No.

25 Q. Prior to 2021, have you talked with CH -- or

1 communicated whether it was e-mail or phone or face to  
2 face with CH about redistricting?

3 A. With respect to the 2021 map?

4 Q. Prior to 2021.

5 A. I did back in the 2011, 2013.

6 Q. Okay. And can you tell me about those  
7 communications when they began?

8 A. I really don't remember when they began.

9 Q. Do you remember what they encompassed, the  
10 substance of the conversations?

11 A. I guess, it would have been the fact that the  
12 redistricting was going on with the commissioners.

13 Q. And what was CH's position?

14 MS. RICHARDSON: Objection. Form.

15 Q. You can answer.

16 A. Even though this will be hearsay?

17 Q. You can -- it's a deposition so you can --

18 A. Okay.

19 Q. -- yeah.

20 A. He didn't like them.

21 Q. Okay. And did he tell you why?

22 A. I'm going back to the fact that it would reduce  
23 the minorities opportunity to elect candidates of their  
24 choice.

25 Q. Did he have any alternative maps that he would

1 have preferred to have been adopted?

2 A. Oh, I don't know about that.

3 Q. Did he discuss anything like that with you?

4 A. No, he didn't.

5 Q. About how many times did you speak with

6 Commissioner Holmes prior to the 2021 map about

7 redistricting?

8 A. Oh, I don't know.

9 Q. A lot? Too many the count?

10 A. I mean, I don't want to say too many to count but

11 it's more than two I know that. But probably less than

12 50.

13 Q. Okay. And is it fair to say that those

14 conversations or those communications occurred both before

15 and after the filing of the lawsuit?

16 MS. RICHARDSON: Objection. Form.

17 A. Yes.

18 Q. Okay. Did they ever change in substance as they

19 progressed? Maybe it started with general issues, did

20 they ever become more specific as your communications with

21 Commissioner Holmes progressed?

22 MS. RICHARDSON: Objection. Form.

23 Q. You can answer.

24 A. I don't think so. Not that I can remember.

25 Q. Okay.

1 MS. OLALDE: Do you happen to have any  
2 exhibit stickers?

3 THE COURT REPORTER: Yes.

4 BY MS. OLALDE:

5 Q. I'm going to hand you what has been marked as  
6 Exhibit 1, and we're dropping in into the chat.

7 (Exhibit 1 was marked for  
8 identification.)

9 MS. RICHARDSON: Thank you.

10 Q. Do you recall seeing this e-mail before?

11 A. No.

12 Q. Okay. And are you a recipient on the e-mail?

13 A. I do not see my name.

14 Q. I'll represent to you that you are there on one,  
15 two -- I think it's the fourth line down.

16 A. Oh, there -- yeah --

17 Q. Um-hmm.

18 A. -- there it is, oh, okay.

19 Q. And have --

20 A. I do not remember this.

21 Q. Sure. You said that Stephen Holmes was a member  
22 of the Galveston County Coalition of Black Democrats with  
23 you?

24 A. Yes.

25 Q. Okay. Do you remember if he went to breakfast

1 meeting at the Rising Star that was referenced here?

2 A. I don't remember.

3 Q. Sure. Do you know who Reverend Benford is?

4 A. Yes.

5 Q. And who is he?

6 A. He is the pastor of Rising Star Baptist Church,  
7 very politically active in Galveston County.

8 Q. And he's also a member of the coalition?

9 A. No.

10 Q. Okay. At what -- okay, I'm not going to ask  
11 that. And you --

12 MS. RICHARDSON: And I apologize we're  
13 going kind of fast. I just -- there's no bates stamp on  
14 this exhibit --

15 MS. OLALDE: Um-hmm.

16 MS. RICHARDSON: -- so I'm not sure if  
17 we laid the foundation for it but I assume it wasn't  
18 produced.

19 MS. OLALDE: It was produced.

20 MS. RICHARDSON: It was -- okay.

21 MS. OLALDE: By the NAACP. But just  
22 like yesterday, though our electronic system when I'm  
23 printing out the documents for some reason the bates stamp  
24 doesn't come with them.

25 MS. RICHARDSON: Okay.

1 MS. OLALDE: But it was produced in the  
2 case.

3 MS. RICHARDSON: Okay, thank you.

4 MS. OLALDE: Sure.

5 Q. Do you remember any support strategies that were  
6 discussed for Dr. Elam the College of the Mainland  
7 President?

8 A. No.

9 Q. I'm going to hand you what has been marked as  
10 Exhibit 2.

11 MS. OLALDE: This is No. 2.

12 (Exhibit 2 was marked for  
13 identification.)

14 Q. This one was produced also by the NAACP.

15 MR. BARON: Thank you. I'm so glad I  
16 don't have to chase around on digital form of these  
17 exhibits.

18 Q. Do you recall receiving this e-mail?

19 A. I don't remember.

20 Q. Okay. Do you remember the issue discussed in  
21 this e-mail?

22 A. I do not remember this e -- this e-mail at all.  
23 But it's saying -- I can tell you what it says.

24 Q. Sure.

25 A. We need your support, please vote for CH's map.

1 But what map that is, I don't know.

2 Q. Alright. And this was in August of 2011?

3 A. Correct.

4 Q. Based on the time, do you have an understanding  
5 as to what that map would be been?

6 A. If I'm remembering correctly this was the time  
7 when the commissioners were talking about going from the  
8 eight to five precincts. So it must have related to that,  
9 but that's a guess on my part.

10 Q. Did you go online and vote with the Galveston  
11 Daily News?

12 A. No.

13 Q. Okay. If we're reading down the e-mail just a  
14 little bit it talks about the county commissioner maps and  
15 also the JP constable maps. Do you see that?

16 A. Oh, yeah, the poll. Okay.

17 Q. Um-hmm. Did you -- did you express at this time  
18 any support for maps in either of -- either the county  
19 commissioner maps or the constable maps?

20 A. Not in 2011.

21 Q. Okay. When is the first time that you remember  
22 having an opinion about which of them maps, constable or  
23 for county commissioner, you supported?

24 A. I didn't voice my opinion until the maps after  
25 2013.

1 Q. Okay. And it was after the adoption, correct?

2 A. Right.

3 Q. Okay.

4 A. Or when they were voting for it and had the --

5 and had the people speaking and they voted at that

6 meeting.

7 Q. Okay. And we're talking about the 2011 cycle not

8 the 2021, correct?

9 A. We're talking about the 2013.

10 Q. Right. At the prior?

11 A. Oh, yeah.

12 Q. Okay. Alright. I'm going to hand you what's

13 been marked as Exhibit 3.

14 (Exhibit 3 was marked for

15 identification.)

16 MS. OLALDE: And this is, I'm sorry, No.

17 4.

18 Q. Did you ever read this article when it came out?

19 A. I don't remember. I may have but I don't

20 remember.

21 Q. You support Mr. Petteway, correct?

22 A. Yes.

23 Q. You supported him as a constable?

24 A. Yes.

25 Q. Okay. And you knew him personally as well?

1 A. Well, through working together.

2 Q. Right. Can you tell me some of the qualities  
3 Mr. Petteway has that made you support him as a constable?

4 A. He was knowledgeable in the law. He knew  
5 everybody, which put me at ease. You know, when you're in  
6 a courtroom with people that you don't know, you need  
7 that sense of security, and he was knowledgeable in his  
8 field.

9 Q. Okay.

10 A. And I trusted him.

11 Q. Anything else?

12 A. That's all I can think of right now.

13 Q. Sure. If you turn to -- these are double  
14 sided --

15 A. Oh.

16 Q. -- but if you turn to, it's Page 3 toward the  
17 very bottom.

18 A. Um-hmm.

19 Q. There's a dark line and then there's a section  
20 called Thoughts from the Community.

21 A. Um-hmm.

22 Q. Do you see that?

23 A. Um-hmm.

24 Q. And it has a quote from you. Do you see that?

25 A. Oh, wow, I sure do.

1 Q. Okay. Let's see.

2 A. If Angela Wilson called me, I do not remember  
3 this.

4 Q. But that accurately reflects your feelings about  
5 Mr. Petteway at the time?

6 A. Yes.

7 Q. And today as well?

8 A. Yes.

9 Q. And Mr. Petteway is a -- obviously and of course,  
10 a plaintiff in this lawsuit?

11 A. Yes.

12 Q. And a plaintiff in the prior round of lawsuits  
13 against the county as well?

14 A. Yes.

15 Q. Okay. Have you talked with Mr. Petteway about  
16 the lawsuits, either this one or the prior?

17 A. The prior one but not this one.

18 Q. Okay. What were your conversations with  
19 Mr. Petteway about the prior lawsuit?

20 A. I don't remember. That was, what, ten years ago.

21 Q. Okay. Did you speak with him frequently about  
22 the lawsuit or just in passing?

23 A. In passing.

24 Q. Okay. I'm going to hand you what has been marked  
25 as Exhibit 4.

1                   It's No. 5.

2                   (Exhibit 4 was marked for  
3                   identification.)

4                   MR. BARON: Thank you.

5                   Q. Do you recall sending this e-mail or I guess  
6                   receiving it in 2011?

7                   A. I can't say for sure I recall receiving it but, I  
8                   mean, it looks familiar.

9                   Q. Okay. So going down to the kind of the middle of  
10                  the page where it says, On November 26, 2011 at 6:33 p.m.  
11                  Do you see where I'm at?

12                  A. Um-hmm.

13                  Q. You wrote: Attached please find objection  
14                  letters that I have written. Please take a minute to  
15                  review and advise if any changes or additions are needed.  
16                  Did I read that correctly?

17                  A. Correct.

18                  Q. Two were from the coalition and two were for you  
19                  to pass out to the public to send. Is that basically the  
20                  correct statement?

21                  A. It is.

22                  Q. Okay. You wrote the letters for the coalition.  
23                  What were the letters -- what were the purpose of the  
24                  letters?

25                  A. These were the letters that were going to go to

1 the Department of Justice to support keeping the precincts  
2 the way they were.

3 Q. Okay. And do you know if that were received by  
4 the Department of Justice prior to its final review and  
5 opinion of the adopted map?

6 A. That I cannot answer.

7 Q. Okay. And it appears that Stephen Holmes  
8 reviewed your letters, correct?

9 A. Correct.

10 Q. And he instructs that the coalition letter needs  
11 to be signed by Derrick. Was that correct?

12 A. Yes.

13 Q. Did Mr. Rose sign the letter to your  
14 recollection?

15 A. I don't remember.

16 Q. Okay. If it was -- if the letter was signed,  
17 scanned, and sent via e-mail, do you know who would have  
18 been doing the scanning and the sending?

19 A. No.

20 Q. Okay. Alright. I'm going to hand you what has  
21 been marked as Exhibit 5.

22 MS. OLALDE: And this is No. 8.

23 (Exhibit 5 was marked for  
24 identification.)

25 Q. And I'll ask if this was one of the letters that

1 you wrote? Well, it looks like two letters.

2 MR. BARON: Yeah, it looks like it's  
3 just a duplicate, right?

4 MS. OLALDE: Oh, no, it's not.

5 A. It's --

6 MS. OLALDE: She can --

7 MR. BARON: Never mind.

8 MS. OLALDE: That's okay. She can  
9 review it and let us --

10 MR. BARON: Yep.

11 MS. RICHARDSON: Let us know.

12 Q. Just take your time and let me know when you're  
13 ready.

14 A. Boy, if I wrote these letters I did a good job.

15 MS. RICHARDSON: Just if these were  
16 marked it might be helpful if you tell us who they were  
17 produced by --

18 MS. OLALDE: It looks like it was  
19 produced by the Petteway --

20 MS. RICHARDSON: That's right --

21 MS. OLALDE: -- plaintiffs.

22 MS. RICHARDSON: -- yeah.

23 Q. You're ready?

24 A. Um-hmm.

25 Q. And, I guess, my first question is: Are these

1 | two letters that you wrote?

2 | A. Yes, I do believe they are.

3 | Q. Okay. And you weren't involved in the 1992 legal  
4 | action, correct?

5 | A. Correct.

6 | Q. But you were aware of a consent order that was in  
7 | place following that action?

8 | A. Yes.

9 | Q. Okay. And did you discuss the contents of these  
10 | letters with members of the coalition?

11 | A. I don't remember.

12 | Q. Okay. Do you know whether you got any feedback  
13 | or revisions from other members of the coalition before  
14 | sending them?

15 | A. I don't think so, and I'm only basing that answer  
16 | based upon this previous Exhibit 4 --

17 | Q. Um-hmm.

18 | A. -- where I asked if you have any corrections or  
19 | additions let me know, and I don't think anybody let me  
20 | know and I think these -- this is -- this is what went  
21 | out.

22 | Q. Okay. If you'll look at the second page of the  
23 | first letter in Paragraph 6.

24 | A. Um-hmm.

25 | Q. You write that: Galveston County is unique in

1 | its landscape and the Galveston Bay separates Galveston  
2 | Island and Bolivar from the rest of the county. Did I  
3 | read that correctly?

4 | A. Correct.

5 | Q. And you believed that to be true then?

6 | A. It's true now.

7 | Q. And it's true now, okay. You continue and say:

8 | That the proposed redistricting is discriminatory and that  
9 | it allows Santa Fe -- and I'll skip the parenthetical --  
10 | to remain intact while placing the majority of the  
11 | county's minority age population in one precinct, the same  
12 | precincts -- the same being the proposed Precinct 3. Did  
13 | I read that correctly?

14 | A. Yes.

15 | Q. Okay. And did you believe that to be true at the  
16 | time?

17 | A. Yes.

18 | Q. Do you think that's still true?

19 | A. Yes.

20 | Q. Okay. And when I say, "still true," I mean the  
21 | percentage of the voting age population individuals and  
22 | their race?

23 | MS. RICHARDSON: Objection. Form.

24 | Q. If you know.

25 | A. I don't know about the percentage.

1 Q. Okay. Do you know whether the DOJ ever responded  
2 to these letters?

3 A. I don't know.

4 Q. Okay. And then turning to the second letter,  
5 it's a separate submission number, correct?

6 A. Yes.

7 Q. And was the second letter for the purpose of  
8 discussing redistricting as to -- for commissioners court  
9 precincts as opposed to just justice of peace and  
10 constables?

11 A. Yes.

12 Q. Okay. And what was your largest issue with the  
13 county commissioners proposed map?

14 MS. RICHARDSON: Objection. Form.

15 A. Gosh, I...

16 Q. If you recall and just take your time and review  
17 the...

18 A. I think I messed up in this second letter.

19 Q. Okay. Can you tell me why?

20 A. Because I thought we were talking about the JP  
21 constable precincts, but then I wrote in Paragraph 1 of  
22 the second letter --

23 Q. Um-hmm.

24 A. -- it says: Minorities will no longer have the  
25 opportunity to elect a candidate of their choice on the

1 commissioners court.

2 Q. Um-hmm.

3 A. I think that was -- I messed up and said  
4 commissioners court instead of saying the JP constable.

5 Q. Well, and I think --

6 A. Unless I'm -- I'm --

7 Q. -- I think my exhibit is kind of confusing  
8 because I stapled two different letters together. But it  
9 looks like on Page 1 it's a different submission number  
10 and it's about the objection to redistricting of justice  
11 of peace/constable precinct boundaries.

12 A. Um-hmm.

13 Q. But the second letter, which has the same date,  
14 is an objection to the redistricting of commissioners  
15 court boundaries. So did you write a -- you wrote a  
16 letter for both?

17 A. Well, I guess I -- I guess I did. I'm not sure  
18 about the second one.

19 Q. Okay. Do you know --

20 A. Does this say that I wrote two or does it say I  
21 wrote one? It says letters, it has an S on it, so maybe I  
22 did. I just don't remember.

23 Q. Okay. Do you know if either of these letters  
24 went out?

25 A. I'm not sure.

1 Q. Okay. Do you know who would have sent them out  
2 if they had gone out?

3 A. The -- Derrick because he would sign them. Yeah,  
4 he was signing them.

5 Q. Do you agree that -- well, let me -- can you tell  
6 me what you mean by a community of interest?

7 A. A group of individuals who have the same ideas,  
8 the same goals, wanting to see the same improvements, you  
9 know. You know, things of that nature.

10 Q. Okay. On the sec -- the second letter the  
11 commissioners court letter.

12 A. Um-hmm.

13 Q. On the first page in Paragraph 3 toward the  
14 bottom.

15 A. Um-hmm.

16 Q. You say -- and it's similar to the first one  
17 where you described Galveston County as being unique in  
18 its landscape.

19 A. Um-hmm.

20 Q. You mention that: In addition to the landscape  
21 each community has differences and lifestyle and other  
22 socioeconomic factors. Did I read that correctly?

23 A. You did.

24 Q. What were the difference in lifestyle that you  
25 were referencing?

1 A. You have to go over there to Bolivar to believe  
2 this --

3 Q. Um-hmm.

4 A. -- and Crystal Beach, but there are a lot of  
5 vacation homes over there, okay, but the majority of the  
6 residents who live there, live in trailers. There is no  
7 central sewer system, people have to have their own --  
8 what do you call them -- septic tanks. And then the  
9 county imposes regulations on the maintenance of these  
10 septic tanks . And this is something that I learned being  
11 JP over there.

12 Q. Um-hmm.

13 A. Jobs are very -- was service oriented, the gas  
14 station, the grocery store, convenient stores. I mean,  
15 it's just a whole different lifestyle over there.

16 Q. Okay. You said social/economic factors. Can you  
17 describe what you meant by that?

18 A. Very little to do over there, and like I said  
19 because the jobs are limited, I mean, those people over  
20 there they don't have a lot of money.

21 Q. And that was true in 2011?

22 A. And it was true in 2011, and it's true today.

23 Q. Okay. And have you recently been to Bolivar?

24 A. Last month.

25 Q. Okay.

1           A. No, I'm -- last month was February. I went in  
2           January.

3           Q. Okay. And were you attending an event or what  
4           brought you to Bolivar?

5           A. As an attorney I'm appointed on delinquent tax  
6           suits.

7           Q. Okay.

8           A. And so I was appointed to see a couple of tax  
9           suits where I had to go over there to do my job as the ad  
10          litem, look at the property, talk to -- talk to people to  
11          see if we can -- couldn't find the owners who were behind  
12          in paying their taxes.

13          Q. Did you find them?

14          A. I found out about them, I didn't -- I find them  
15          because three of them were deceased.

16          Q. Okay.

17          A. But I found out about them.

18          Q. Okay. Is -- how many times have you been to  
19          Bolivar in the past three years?

20          A. I started working for the current JP, Billy  
21          Williams --

22          Q. Um-hmm.

23          A. -- in May of 2021.

24          Q. Um-hmm.

25          A. And I just resigned in January of 2023. And I

1 was part time going over there at least three times a  
2 week.

3 Q. Do you still take appointments or you've  
4 completed retired?

5 A. No, I com -- I've completely left that job. I  
6 got tired of crossing that ferry.

7 Q. Okay. And so from your experience in 2021, 2022,  
8 and January of 2023, your impressions of Bolivar with the  
9 lifestyle were consistent as you reflect in a 2011 letter,  
10 correct?

11 A. Correct.

12 Q. And the same thing with socioeconomic factors  
13 that we've discussed?

14 A. Correct.

15 Q. Do you believe that communities of interest share  
16 geographic boundaries?

17 A. They do or they should? Is the question that  
18 they do share geographic boundaries or they should share?

19 Q. Do you believe that they do share geographic  
20 boundaries.

21 A. No.

22 Q. Why not?

23 A. Because if we're using Galveston County as an  
24 example --

25 Q. Um-hmm.

1 A. -- then we've got Galveston County is unique in  
2 that it's several portions of the county is separated by  
3 water.

4 Q. Um-hmm.

5 A. So in that respect they do not share boundaries.

6 Q. Apart from water, are there any other geographic  
7 impairments to communities of interest sharing boundaries?

8 A. Not that I can think of.

9 Q. Okay. Do you think communities of interest share  
10 religious faith beliefs?

11 A. Maybe some, not all.

12 Q. Do you believe that a community of interest will  
13 share political beliefs?

14 A. Some.

15 Q. Okay. And can you give me an example when a  
16 community of interest would not share political beliefs?

17 A. If a position is -- you know, will that adversely  
18 affect them.

19 Q. Okay. Can you give me an example of what kind of  
20 a position would -- that you're referencing?

21 A. I'm going to bring it back to this lawsuit.

22 Q. Sure.

23 A. And I would say that, you know, where a decision  
24 has been made that would minimize someone's opportunity to  
25 be able to do something that he should have the

1 constitutional right to do, then the com -- the community  
2 interest would not gel.

3 Q. And so in a situation like, for example, this  
4 lawsuit, a community of interest would share a political  
5 ideology, right, with respect to redistricting in  
6 particular?

7 MS. RICHARDSON: Objection. Form.

8 A. Say that -- say it again.

9 Q. Sure. Sure. Using this lawsuit, the 2021  
10 redistricting --

11 A. Um-hmm.

12 Q. -- as an example, communities of interest --  
13 let's start this way. Can you name a community of  
14 interest that would be related to the substance of this  
15 lawsuit?

16 MS. RICHARDSON: Objection. Form.

17 A. A community of interest that would be objecting  
18 to this lawsuit?

19 Q. No, a community of interest that is -- would have  
20 an interest in this lawsuit.

21 A. Other than minorities?

22 Q. Well, we can start there.

23 A. I mean, I know -- I mean, I believe that the  
24 minorities would have an interest in this lawsuit, whether  
25 they be African American, Black, Asian, Hispanic, Latino,

1 you know, Greek or Asian, you know, whatever.

2 Q. Okay. Do you believe that the minority community  
3 you just referenced would they share a geographic location  
4 or geograph -- geographic boundaries?

5 A. Some not -- not -- it's not a cohesive unit.

6 Q. Sure. And this minority group whether they're  
7 Black, Latino, Asian, Greek, do you believe that they  
8 would vote similarly?

9 A. If the issue was something that they all cared  
10 about, yes.

11 Q. Okay. Okay. And that could be whether it's  
12 democratic or republican, or do you believe that that's  
13 not true?

14 MS. RICHARDSON: Objection. Form.

15 A. If the in -- if the issue was something that was  
16 interest of them -- that they were interested in, then I  
17 believe that they would vote for it.

18 Q. And in this case communities of interest would  
19 share the democratic beliefs, correct? Beliefs of the  
20 democratic party?

21 A. I believe so.

22 Q. Okay. I'm just going to look and see what number  
23 this was.

24 A. Oh, okay.

25 MS. OLALDE: We're on No. 6, correct?

1 THE COURT REPORTER: Yes.

2 BY MS. OLALDE:

3 Q. I'm going to hand you what has been marked as  
4 Exhibit No. 6.

5 And this is No. 9.

6 (Exhibit 6 was marked for  
7 identification.)

8 Q. My first question will be if -- if you remember  
9 writing this letter?

10 A. Yes.

11 Q. Okay. Do you remember if -- do you know whether  
12 the letter was sent?

13 A. I don't remember.

14 Q. Okay. Well, let's go about it this way. Do you  
15 remember if anybody ever responded to your letter?

16 A. I do not remember.

17 Q. Okay. And what was the message that you were  
18 trying to convey in this letter to Judge Mark Henry and  
19 commissioners court?

20 A. Trying to get them to not reduce the number of  
21 the JP constable precincts down to four or five.

22 Q. And what were the reasons for wanting to retain  
23 the same number of JP constable precincts?

24 A. So that the citizens of Galveston County could  
25 still have access to the courts that they are accustom --

1 accustomed to as well as for minorities to be able to vote  
2 -- have the opportunity to vote for candidates of their  
3 choice.

4 Q. Okay. On the second page of your letter --

5 A. Um-hmm.

6 Q. -- you -- toward the bottom of it but underneath  
7 the table, you say: The strength of one's voice. Did I  
8 -- do you see where I'm at?

9 A. Um-hmm.

10 Q. Was that, like, a heading for the next paragraph?

11 A. Okay, what's the question?

12 Q. Strength of one's voice, is that -- you meant it  
13 to be a heading for the -- the final paragraph of your  
14 letter, correct?

15 A. I don't know what I meant it for.

16 Q. Okay.

17 MS. RICHARDSON: It says strength of  
18 one's vote is the record.

19 MS. OLALDE: I'm sorry?

20

21 MS. RICHARDSON: It says strength of  
22 one's vote.

23 MS. OLALDE: I'm sorry, did I --

24 MS. RICHARDSON: You said voice.

25 MS. OLALDE: I'm sorry.

1 MS. RICHARDSON: No worried.

2 Q. In the paragraph underneath strength of one's  
3 vote, you end the next paragraph saying: That is this  
4 clearly a dilution of every persons' vote. How -- how do  
5 you think that votes were diluted?

6 MS. RICHARDSON: Objection, calls for a  
7 legal conclusion.

8 You can answer as you understand it. If you  
9 know.

10 A. How can I put this? One of the problems I guess  
11 you would use of our electing our electoral process is  
12 that a lot of times people are running for office and  
13 voters don't even know who they are, just see names, you  
14 know, on the ballot. But when you're talking about  
15 situations like this in -- in a county race and in a  
16 precinct race, the voters actually know who they're voting  
17 for.

18 That was something that I always believed was  
19 important because when you have a smaller area then you  
20 really get to know your -- the people in your area and  
21 they get to know you. And so when they go to the polls to  
22 vote and they have that opportunity to elect a candidate  
23 of their choice, then nine times out of ten they know that  
24 person, and they want to vote for that person.

25 But when you start combining this precinct with

1 that precinct, those people don't know, oh, these people  
2 over here. So in my opinion then that dilutes the  
3 strength of the vote.

4 Q. Okay.

5 A. If that's understandable.

6 Q. No, I think I understand.

7 A. Okay.

8 Q. Is there any other reason or?

9 A. I think that's it.

10 Q. Okay. I'm going to hand you what has been marked  
11 as Exhibit No. 7.

12 (Exhibit 7 was marked for  
13 identification.)

14 Q. And I'll just represent to you that these were  
15 the two maps under consideration prior to the 2021 vote.  
16 Looking at them again today or right in front of you now,  
17 is it still your recollection that you did not see both of  
18 the map proposals before the map was adopted?

19 A. That is correct.

20 Q. Okay. Looking at map Proposal No. 1 and then  
21 comparing it with map Proposal No. 2, is there a map that  
22 you would of preferred?

23 A. If these are my only two choices, then I would go  
24 with one.

25 Q. And can you tell me why?

1 A. Because it appears that I would be in the

2 Precinct 3.

3 Q. Okay. Any other reason?

4 A. No, that's it.

5 Q. Okay.

6 MS. OLALDE: It probably will be 11 or

7 12.

8 MS. RICHARDSON: Before we start this

9 next exhibit, just doing a quick time check. I think it's

10 been another hour and a half.

11 MS. OLALDE: Yeah --

12 MS. RICHARDSON: And it's up to you and

13 up to Ms. Pope if we're okay to push forward or if you

14 want to take a break?

15 A. How long longer.

16 Q. I'm hoping to get -- I just have a few things

17 left, but I'm hoping to get through it quickly. But if

18 you need a break, we can take one.

19 A. Yeah, let me run to the restroom.

20 Q. Absolutely, yeah.

21 THE VIDEOGRAPHER: Okay, we're off the

22 record. The time is 12:29.

23 (A short recess was taken.)

24 THE VIDEOGRAPHER: We're back on the

25 record. The time is 12:37.

1 BY MS. OLALDE:

2 Q. Okay. I'm going to hand you what has been marked  
3 as Exhibit 8.

4 (Exhibit 8 was marked for  
5 identification.)

6 MS. OLALDE: Here you go. And this was  
7 produced by the DOJ I believe.

8 MS. RICHARDSON: Okay.

9 Q. And my question is: Have you ever seen this  
10 before?

11 A. No.

12 Q. Take your -- a moment and review it, and then I  
13 have one other question about this document before we move  
14 on.

15 A. Wow. Okay.

16 Q. Do you have any idea as to who would have written  
17 this e-mail?

18 A. No.

19 Q. Okay. It says at the very bottom of it: One of  
20 our candidates, blank, has the info for the house  
21 districts. Do you know which candidates that it's  
22 referring to?

23 A. No.

24 Q. Okay. What's your reaction to reading this  
25 e-mail?

1 A. It's telling.

2 Q. Um-hmm. Have you ever reviewed the data that's  
3 referenced in this e-mail?

4 A. No.

5 Q. Okay. Alright, moving on. Did you see the  
6 second amended complaint before it was filed in this case?

7 A. No.

8 Q. And I'll -- I don't need to mark it as an  
9 exhibit, but I'll just hand you a copy of the --

10 A. Um-hmm.

11 Q. -- second amended complaint.

12 MS. OLALDE: Guys, if you want it in the  
13 chat, just raise your hand we can do that, otherwise.

14 MS. RICHARDSON: And just for the  
15 procedural history of the case, it just might be helpful  
16 to clarify what you mean.

17 Q. Oh, hang on, did I hand you the wrong thing?

18 A. No, this is the right one. That's the second  
19 amended.

20 Q. That is the second amended --

21 A. Um-hmm.

22 Q. -- alright, thank you. Alright. Do you recall  
23 what facts you provided to -- facts, only facts --

24 A. Um-hmm.

25 Q. -- that you provided to counsel to aid in this

1 lawsuit?

2 A. The fact --

3 MS. RICHARDSON: And then I'll just --  
4 I'll just instruct you not to answer to the substance of  
5 any communications between yourself and your attorneys.

6 THE WITNESS: Okay.

7 MS. RICHARDSON: But you can answer her  
8 question outside of that narrow exception.

9 BY MS. OLALDE:

10 Q. And maybe it's an easier way to approach it as to  
11 say what facts do you believe are important to prosecute  
12 this lawsuit?

13 A. The fact that I will no longer be able to have  
14 the opportunity to vote for a candidate of my choice.

15 Q. And that candidate is Commissioner Holmes?

16 A. Correct.

17 Q. Okay. So any -- anything else that we haven't  
18 talked about today that you think is important that you  
19 would want to tell the judge or the jury in this case?

20 A. No.

21 Q. Alright, thank you. That's all of questions for  
22 today.

23 A. Thank you.

24 MS. RICHARDSON: We'll reserve for  
25 trial.

PROCEEDINGS

THE VIDEOGRAPHER: Today is March 22nd,  
year 2023. We're going on the record, 12:45 [sic] p.m.  
We're here for the deposition of Honorable Derreck Rose  
for a case filed in the United States District Court,  
Southern District of Texas, Galveston Division.

Could the attorneys introduce themselves  
and who they represent?

MS. ELTON: Jordan Raschke Elton and Angela  
Olalde for the defendants.

MS. REYES: Bernadette Reyes on behalf of  
the plaintiffs, the Petteway plaintiffs.

MR. BARON: Neil Baron on behalf of the  
Petteway plaintiffs.

HONORABLE DERRECK ROSE,  
having been first duly sworn, testified as follows:

EXAMINATION

BY MS. ELTON:

Q. Will you please state your full name for the  
record?

A. Derreck Rose.

Q. And are you okay with me referring to you as  
Constable Rose or would you prefer another --

A. Constable Rose is fine.

Q. Okay. Constable Rose, will you please state

1 your home address?

2 A. 5002 Royal Oak Drive, Texas City, Texas 77591.

3 Q. Okay. Have you ever been deposed before?

4 A. Yes.

5 Q. How many times?

6 A. Several.

7 Q. Several. Okay. And what type of lawsuits were  
8 those that you were deposed in?

9 A. One for redistricting. One for a civil suit.

10 Q. Okay. And the redistricting, are you referring  
11 to the 2011 redistricting lawsuit?

12 A. Yes.

13 Q. Okay. And each time you were deposed, were you  
14 a party to the case?

15 A. Yes.

16 Q. And I know you have been deposed before, but  
17 I'm just going to go over a couple of ground rules to  
18 make sure we're on the same page getting started.

19 If you don't understand one of my  
20 questions, please just let me know and I'll rephrase or  
21 repeat myself. Please wait until I finish my question  
22 and you finish answering, and that way, we'll have a  
23 clean record. And same way, give verbal responses so we  
24 can get them on the record as well.

25 If you need to check a document to be sure

1 of your answer, will you let me know that?

2 A. Yes, ma'am.

3 Q. And if we've been going long enough that you  
4 need a break, I'm happy to accommodate that. All I ask  
5 is you answer any pending question. Is that fair?

6 A. Yes, ma'am.

7 Q. Okay. Is there any reason that you cannot give  
8 full and honest testimony today?

9 A. There's no reason.

10 Q. Okay. Do you have any conditions that would  
11 impede your ability to give honest testimony?

12 A. No, ma'am.

13 Q. Or recall any facts?

14 A. No, ma'am.

15 Q. Okay. And have you taken anything that might  
16 affect your memory or your testimony today?

17 A. No, ma'am.

18 Q. Okay. And, finally, you understand you're  
19 under oath?

20 A. Yes, I do.

21 Q. Okay. And other than the two lawsuits you  
22 mentioned when referencing your prior depositions, have  
23 you been involved in any other lawsuits?

24 A. No, ma'am.

25 Q. Okay. And you said the prior redistricting

1 lawsuit was one, and then the civil suit. What type of  
2 -- what were the, you know, factual bases of that civil  
3 suit you mentioned?

4 A. I'm not sure. It's been such a long time ago.

5 Q. Okay. Is it similar to this case in any way?

6 A. No.

7 Q. How did you prepare for today's deposition?

8 A. I just talked to my counsel.

9 Q. Okay. And I don't want to know anything that  
10 you and your counsel discussed.

11 A. (Nodding head.)

12 Q. But which counsel did you meet with?

13 A. Neil Baron.

14 Q. And how many times did you meet with Mr. Baron?

15 A. I talked to him several times.

16 Q. And about how long were each of those  
17 discussions?

18 A. Not very long. Maybe 30 -- 30 minutes at the  
19 most, hour.

20 Q. Okay. 30 minutes to an hour. Did you review  
21 any documents when you met with Mr. Baron?

22 A. Yes.

23 Q. What type of documents were those?

24 A. Just the discovery that I had to send over,  
25 fill out, yes.

1 Q. Documents that you had found in your own  
2 possession. Is that fair?

3 A. Right.

4 Q. And aside from your meetings with Mr. Baron,  
5 did you review any documents on your own?

6 A. No.

7 Q. Did you prepare anything in anticipation for  
8 today?

9 A. No, ma'am.

10 Q. Any notes, things likes that?

11 A. No, ma'am.

12 Q. Okay. Where did you attend high school?

13 A. La Marque High School.

14 Q. What year?

15 A. '79 graduate.

16 Q. Okay. '79. Did you reside in La Marque at the  
17 time you attended La Marque High School?

18 A. Yes, I did.

19 Q. So not the same address you're currently at.  
20 Correct?

21 A. No.

22 Q. Okay. And what type of education did you  
23 obtain after your graduation from high school?

24 A. I went to Wharton Junior College.

25 Q. Okay. What did you study while you were there?

1 A. I played football and studied, just general  
2 studies.

3 Q. General studies. How long were you there?

4 A. Two years.

5 Q. Did you obtain a degree?

6 A. No, I did not.

7 Q. Did you attend any other school after Wharton  
8 Junior College?

9 A. I went to Lamar University.

10 Q. About what year would you have started at Lamar  
11 University?

12 A. '81-'82, somewhere in there.

13 Q. And what did you study at Lamar?

14 A. General studies at the time.

15 Q. Did you obtain a degree from Lamar?

16 A. No. I left early; my mother got sick.

17 Q. I'm sorry to hear that.

18 How long were you there before you had to  
19 leave?

20 A. About a year, less than a year.

21 Q. And after you had to leave Lamar, did you begin  
22 working immediately?

23 A. Yes.

24 Q. Okay. What was that employment?

25 A. I started off in security.

1 Q. For a particular location or vendor or --

2 A. A vendor.

3 Q. Vendor?

4 A. (Nodding head.)

5 Q. Do you recall the name?

6 A. Danner's Security.

7 Q. Danner's. And that would have been around '84?

8 A. '83 --

9 Q. '83-'84?

10 A. -- '84, yeah.

11 Q. How long were you with that security vendor?

12 A. About -- about a year.

13 Q. And did you just provide general security  
14 supervision?

15 A. General security supervision.

16 Q. After you left that security vendor, where did  
17 you work?

18 A. American Indemnity; that was in '83.

19 Q. And what type of work was that?

20 A. Security.

21 Q. And where was American Indemnity located?

22 A. Galveston.

23 Q. And going back to Danner's Security, where was  
24 that located?

25 A. Galveston also.

1 Q. At the time you were working for each of these  
2 security vendors, where were you living?

3 A. Living in Texas City.

4 Q. Have you lived in Texas City since you left  
5 Lamar University?

6 A. Yes.

7 Q. At the same address?

8 A. No, no.

9 Q. What was the address that you lived in when you  
10 worked for American Indemnity?

11 A. 7218 Carver, Texas City.

12 Q. And how long were you with American Indemnity?

13 A. I think probably around about four to five  
14 years. About four to five years. Four years at the  
15 most.

16 Q. And did you have the same duties at American  
17 Indemnity as you had at Danner's Security?

18 A. No, ma'am.

19 Q. How were they different?

20 A. I was over security for the building insurance  
21 company.

22 Q. And versus Danner's Security, you might have  
23 been outsourced to different locations?

24 A. Yes, ma'am.

25 Q. When you left American Indemnity, where were

1 you employed?

2 A. Galveston County Sheriff's Department.

3 Q. And that was about what year?

4 A. Let me go back. While I was working at  
5 American Indemnity, I went through the Sheriff's  
6 Academy, and I was a reserve while I was still working  
7 there.

8 Q. Okay. I understand.

9 A. Mm-hmm.

10 Q. So about what year would you say you went  
11 through the Sheriff's Academy?

12 A. '83.

13 Q. '83. Can you describe what kind of course work  
14 you would have taken in the Sheriff's Academy?

15 A. General knowledge about policing, the penal  
16 code, the criminal code, hands-on techniques.

17 Q. And is this the same course work you take to  
18 get your peace officer's license?

19 A. Yes.

20 Q. Okay. And it was offered by the Galveston  
21 County Sheriff's Department at the time?

22 A. Yes.

23 Q. Do you still hold your peace officer's license?

24 A. Yes, ma'am.

25 Q. And what year did you obtain it originally?

1 A. '83.

2 Q. Has it ever lapsed?

3 A. No, ma'am.

4 Q. Do you have -- hold any other license or  
5 certificates?

6 A. I hold a master's in police officer's  
7 certification, a teacher's certification through TCOLE.

8 Q. What does TCOLE stand for?

9 A. Texas Commission on Law Enforcement officer's  
10 education.

11 Q. And did you obtain that to teach within the law  
12 enforcement realm?

13 A. Yes, ma'am. Yes, ma'am.

14 Q. The master's in police officer certification,  
15 what year did you obtain that?

16 A. I've had it probably ten years, ten or more  
17 years.

18 Q. Why did you decide to get that?

19 A. That goes with longevity as a law enforcement  
20 officer and -- and completing all the standards that are  
21 required as a law enforcement officer.

22 Q. Okay. So was this required in your position at  
23 the time?

24 A. It's not required. It's what you work for.

25 Q. I understand. And then the TCOLE

1 certification, why did you decide to obtain that?

2 A. The TCOLE -- well, the TCOLE certification,  
3 that's the agency that holds all of your credentials.

4 Q. Okay.

5 A. Okay? And as far as my teaching certification,  
6 it's through the law enforcement -- my law enforcement  
7 realm.

8 Q. Okay. All right. We kind of went off, so I'm  
9 going to bring you back to the sheriff's department.

10 A. Yes, ma'am.

11 Q. What -- you said you started as a reserve  
12 deputy. Is that correct?

13 A. Reserve deputy.

14 Q. And what type of duties did you have as a  
15 reserve deputy?

16 A. Patrol.

17 Q. What areas of the -- was your patrol limited to  
18 Galveston County?

19 A. Yes, ma'am.

20 Q. In what years of Galveston County did you  
21 patrol?

22 A. San Leon, Baycliff, Dickinson, Hitchcock,  
23 Santa Fe, Crystal Beach, Bolivar, all unincorporated  
24 areas of Galveston County.

25 Q. Did you patrol Galveston city at all?

1 A. No, ma'am.

2 Q. How long were you a reserve deputy?

3 A. Five to six years, somewhere in there.

4 Q. And then I believe you stated you became a  
5 full-time deputy with the sheriff's department?

6 A. Yes, ma'am.

7 Q. How did your duties change when you became a  
8 full-time deputy?

9 A. When I became a full-time deputy, I started off  
10 in the warrant division.

11 Q. What's a daily -- what's a day of a deputy in  
12 the warrant division?

13 A. The apprehension of people that are -- have  
14 warrants.

15 Q. And, similarly, is that throughout the entire  
16 Galveston County?

17 A. Yes.

18 Q. How long were you in the warrant division?

19 A. Going on seven -- six years.

20 Q. Why did you eventually leave the warrant  
21 division?

22 A. I went over to Texas City Independent School  
23 District.

24 Q. Why the change?

25 A. They recruited me to become head of their

1 security for the school district.

2 Q. And how was that duty different than what you  
3 had been doing as a deputy at the sheriff's department?

4 A. It was gratifying. It was dealing with kids.  
5 Starting a department for the school district, it was  
6 wonderful.

7 Q. Did you have to take any additional courses or  
8 other certifications when you went to Texas City ISD?

9 A. School-based policing course through  
10 Sam Houston State.

11 Q. Is that a certificate program?

12 A. Yes, certificate program.

13 Q. And how long were you with Texas City ISD?

14 A. Going on 12 years.

15 Q. What did you do when you left there?

16 A. I left there, went to Fort Bend ISD, almost a  
17 year.

18 Q. Did you have similar daily functions in that  
19 role as in Texas City?

20 A. No. Just -- I was just an officer there.

21 Q. Oh, okay.

22 A. I wasn't a supervisor. I was just an officer  
23 for the school district working at a middle school,  
24 Christa McAuliffe Middle School.

25 Q. When you were at Fort Bend ISD, did you still

1 reside in Texas City?

2 A. Yes.

3 Q. And was this at the same address, the  
4 7218 Carver?

5 A. No. It was the Royal Oak address.

6 Q. Where you're located now?

7 A. Yes, ma'am.

8 Q. What position were you in when you made the  
9 move to your current address?

10 A. What position I was in?

11 Q. Where were you working when you moved to your  
12 current address?

13 A. Oh, I was at Texas City ISD.

14 Q. After Fort Bend ISD, where did you work?

15 A. I was called over to come be the constable at  
16 Precinct 3 in Galveston County.

17 Q. And what year was that?

18 A. 2005.

19 Q. And called over, were you appointed?

20 A. I was appointed.

21 Q. You said Precinct 3. Correct?

22 A. Yes, ma'am.

23 Q. In 2005, what geographical area did Precinct 3  
24 include?

25 A. Texas City -- parts of Texas City, not all of

1 it; La Marque, all of La Marque; parts of Hitchcock.

2 Q. And which parts of Texas City were included at  
3 that time?

4 A. I would say all of the east end of Texas City,  
5 some parts of the west end, and the west side of Texas  
6 City, as they call it.

7 Q. How long are the terms as constable?

8 A. Four-year terms.

9 Q. Would 2006 have been an election year?

10 A. Yes.

11 Q. Did you run for reelection in 2006?

12 A. Yes, I did.

13 Q. Did you run as a Democrat or Republican?

14 A. Democrat.

15 Q. Did you have an opponent?

16 A. Yes.

17 Q. In the primary or the general?

18 A. Primary.

19 Q. Primary?

20 A. Primary and general, yes.

21 No. Just the primary. Just the primary.

22 Q. Did you win in 2006?

23 A. Yes, I did.

24 Q. Did you run again in 2010?

25 A. I've been unopposed since I've been in office.

1 Q. Okay. And you are still currently the  
2 constable of Precinct 3. Right?

3 A. Yes, ma'am.

4 Q. So from 2005 to present day, you've been  
5 constable of Precinct 3?

6 A. Yes.

7 Q. How has the geographical boundary of Precinct 3  
8 changed from when you took office in 2005 to present  
9 day?

10 A. It has grown.

11 Q. And when you say grown, do you mean in  
12 population size or the actual amount of geographical  
13 area?

14 A. The amount of geographical area.

15 Q. Sitting here today, what areas of the county  
16 does Precinct 3 include?

17 A. Now it includes Crystal Beach -- all of the  
18 Bolivar/Crystal Beach area, Hitchcock, Texas City,  
19 La Marque, parts of Galveston.

20 Q. Now, in -- so at each election you have run,  
21 have you always run as a Democrat?

22 A. Yes.

23 Q. And 2006 was the only time you were opposed?

24 A. Yes, ma'am.

25 Q. Did you do any sort of campaigning for any of

1 your elections?

2 A. Yes, ma'am.

3 Q. What type of campaigning methods did you use?

4 A. I think the normal that everyone else does.

5 Put out signs, door knocks, a lot of events, you know,

6 going out and meeting people, shaking hands.

7 Q. Did you reach out to a certain area of people

8 or did you reach out to everyone in the county?

9 A. I reached out to anyone I could talk to.

10 Q. Did you have any sort of a campaign team for

11 any of your elections?

12 A. Yes, I did.

13 Q. Can you describe that? Can you describe your

14 team?

15 A. Family and friends.

16 Q. Did you utilize social media during any of your

17 campaigns?

18 A. In 2006, social media wasn't really that well

19 used, so a lot of it was being just knowledge of your

20 people.

21 Q. And knowledge of your people, how would you

22 describe your support -- core support base?

23 A. A lot of friends and family.

24 Q. And do you feel you've had a lot of support as

25 you've held the position for so long?

1 A. Yes, ma'am.

2 Q. What type of organizations are you a member of?

3 A. Mainland United Way; My Sisters Keeper, which  
4 is my wife's organization, 501(c)(3), for breast cancer  
5 awareness; The Front Door Social and Charity Club, which  
6 is another 501(c)(3) organization that I am the chairman  
7 of; I am the chairman also of the Coalition of Black  
8 Democrats; and a member of the NAACP. Those -- I think  
9 that should -- also La Marque Alumni Association.

10 Q. And other than the Coalition of Black  
11 Democrats, are there any other organizations that have a  
12 more political mission in nature?

13 A. No. No, ma'am.

14 Q. Which branch of the NAACP are you a member of?

15 A. The Texas City/La Marque.

16 Q. And I believe you said Front Door and Charity  
17 Club. Is that correct?

18 A. Front Door Social and Charity Club.

19 Q. And can you describe what type of organization  
20 it is?

21 A. It's more or less we do a lot of work of giving  
22 to those who are less fortunate. We feed the needy  
23 during Christmas and Thanksgiving holidays. We feed the  
24 elderly. We feed those. We give -- Christmastime we  
25 provide toys for kids. We do just that type of

1 organization of giving.

2 Q. And these organizations, are you a member as  
3 your individual self or in your official capacity?

4 A. My individual self.

5 Q. And, similarly, any of the -- you said chairman  
6 of numerous associations. That's as your individual  
7 self. Correct?

8 A. Yes.

9 Q. We went through your education earlier and just  
10 want to double-check. You're not a lawyer. Correct?

11 A. No, I'm not.

12 Q. You're not going to offer any legal opinions in  
13 this case. Correct?

14 A. Correct.

15 Q. Have you ever used GIS mapping software?

16 A. No, ma'am.

17 MS. REYES: Object to form.

18 Q. (BY MS. ELTON) Have you used any type of  
19 mapping software?

20 A. No.

21 Q. So it's fair you're not going to offer any  
22 opinions or mapping software or GIS software?

23 A. That's probably correct.

24 Q. Okay. What is your understanding of this  
25 lawsuit?

1 A. That it's filed because of unable to elect a  
2 person of their choice.

3 Q. You said "their choice." Who's "their"?

4 A. Well, the person of their choice for  
5 representation.

6 Q. And what are you specifically alleging against  
7 the defendants in this case?

8 MS. REYES: Objection; form.

9 A. What am I alleging?

10 Q. (BY MS. ELTON) Mm-hmm. And I can rephrase if  
11 you don't understand my question.

12 A. Please do.

13 Q. What is your particular injury that caused you  
14 to become involved in this lawsuit?

15 A. That I won't be able to elect a person of  
16 choice.

17 Q. Do you believe that Latino voters in Galveston  
18 County have suffered that same injury?

19 MS. REYES: Objection; form.

20 A. Yes. Yes.

21 Q. (BY MS. ELTON) Do you believe that Black  
22 voters in Galveston County have suffered that same  
23 injury?

24 A. Yes.

25 Q. Who is your candidate of choice?

1 MS. REYES: Objection; form.

2 A. Who is my candidate?

3 Q. (BY MS. ELTON) (Nodding head.)

4 A. Are there any candidates running now, you mean?

5 Can you rephrase that?

6 Q. Yeah, certainly. What commissioners precinct

7 are you currently residing in?

8 A. Right now it's 1.

9 Q. And before the 2021 Commissioners Court

10 adoption, which precinct were you residing in?

11 A. 3.

12 Q. Commissioner Holmes was your former

13 commissioner. Correct?

14 A. Yes.

15 Q. Without disclosing the nature of any  
16 conversations with counsel, who did you speak with about  
17 the subject of this lawsuit before it was filed?

18 A. Who did I speak with about the subject of it?

19 Q. Yes.

20 A. No one.

21 Q. Did you speak with attorneys? And, again,  
22 don't tell me what you talked about, but did you speak  
23 with attorneys prior to the lawsuit being filed?

24 A. Yes.

25 Q. And when did you consider becoming involved in

1 this lawsuit?

2 A. I don't recall what time that was.

3 Q. Do you remember what circumstances sparked your  
4 desire to join this lawsuit?

5 A. That I would not have my -- have  
6 representation, the person of my choice to...

7 Q. Is it fair to say that after the map was  
8 adopted in 2021, that's when you decided to join the  
9 lawsuit?

10 A. Yes.

11 Q. Have you discussed this lawsuit with any of the  
12 other named plaintiffs?

13 A. No, I have not.

14 Q. Were you asked to preserve documents related to  
15 this case?

16 MS. REYES: Objection to the extent it  
17 calls for attorney work product, attorney/client  
18 confidential communication.

19 A. Do you want to repeat your question?

20 Q. (BY MS. ELTON) Yeah, and I can ask it a  
21 different way.

22 A. Sure.

23 Q. Did you ever search for documents relevant to  
24 this case?

25 A. Yes.

1 Q. And what did you search?

2 A. My e-mail.

3 Q. And is that a personal e-mail or a work e-mail?

4 A. My personal e-mail.

5 Q. Do you have a work e-mail?

6 A. Yes.

7 Q. But you didn't search that one?

8 A. No.

9 Q. Why not?

10 A. Hold on. Wait a minute. I did search my -- I  
11 did that.

12 Q. And, similarly, did you search your personal  
13 cell phone for any text messages relating to this  
14 lawsuit?

15 A. Yes.

16 Q. Do you have a work cell phone?

17 A. Yes.

18 Q. Did you search your work cell phone?

19 A. I did not have a work cell phone at the time.

20 Q. Do you have any personal or work computer that  
21 would have documents relevant to this case?

22 A. No.

23 Q. What about any printed documents such as  
24 calendar entries, notes, things of that nature?

25 A. No.

1 Q. Did you turn over any relevant documents to  
2 counsel?

3 A. I turned in everything I could find.

4 Q. You spoke earlier, Commissioner Holmes was your  
5 previous commissioner in the former Precinct 3.  
6 Correct?

7 A. Yes.

8 Q. Do you personally know Commissioner Holmes?

9 A. Yes, I do.

10 Q. How do you know him?

11 A. We go to church together. Yeah.

12 Q. Do you -- go ahead.

13 A. Oh, and I've just been knowing him for quite  
14 some time now.

15 Q. Do you know about when you would have met  
16 Commissioner Holmes?

17 A. 20 years ago --

18 Q. Okay.

19 A. -- maybe or more.

20 Q. And was it a personal nature you met him or  
21 through work?

22 A. I think first it was personal, and then it  
23 became work related.

24 Q. Would it be fair to say that the two of you are  
25 friends?

1 A. Yes.

2 Q. Through your work as constable, how do you  
3 interact with Commissioner Holmes?

4 MS. REYES: Objection; form.

5 Q. (BY MS. ELTON) Or do you?

6 A. I don't see him often, so my interactions with  
7 him is more or less that I would interact with anyone  
8 else on a professional manner.

9 Q. So is it fair then to characterize your  
10 interactions with him as infrequent?

11 A. Yes.

12 Q. What is your opinion of Commissioner Holmes as  
13 a commissioner?

14 A. He's a very bright, young man.

15 Q. And is that -- is your opinion based on your  
16 personal relationship with him or based on interactions  
17 with him when he was your commissioner?

18 A. Just my interactions with him personally and as  
19 a commissioner. He's a very, very, very bright, young  
20 man.

21 Q. When he was your commissioner, did you ever  
22 have to reach out to him as a resident regarding, you  
23 know, county business that he needed to address in your  
24 precinct?

25 A. Yes, ma'am.

1 Q. What type of things were those?

2 A. I can't recall all things.

3 Q. Can you give me an example?

4 A. Maybe we need to have a mosquito spray, bug  
5 spray for one, just...

6 Q. And when you would reach out to him, would you  
7 call him? Would you e-mail him? What was your method  
8 of communication?

9 A. A lot of times phone calls.

10 Q. And what was the response generally like?

11 A. If you ever heard him laugh, you'd know he'd  
12 laugh, and he said, I'll take care of it.

13 Q. So you believe that once you reached out to him  
14 with a concern, he would take care of it?

15 A. Yes, ma'am.

16 Q. Have you supported Commissioner Holmes in  
17 political races in the past?

18 MS. REYES: Objection; form.

19 A. I tend not to go out and -- another opponent or  
20 if someone is running for office, go out and give them,  
21 you know -- and support them, you know, out in the  
22 public.

23 Q. (BY MS. ELTON) And why is that?

24 A. Because if they lose, then the other person  
25 that would be in their office, and we would have to have

1 a working -- good working relationship, so I try to stay  
2 unopposed.

3 Q. And that's because of your elected position?

4 A. Yes, ma'am.

5 Q. Is it fair to say that Commissioner Holmes was  
6 your candidate of choice in the prior Precinct 3?

7 A. Yes.

8 Q. Would he be your candidate of choice if he were  
9 running in your precinct, your current precinct?

10 MS. REYES: Objection; form.

11 A. If our beliefs are still the same.

12 Q. (BY MS. ELTON) Okay. And what type of beliefs  
13 do you look for in a candidate?

14 A. Ethical.

15 Q. What other factors do you look at when you are  
16 choosing your candidate in an election?

17 A. Ethical.

18 Q. So is it fair to say then the ideology and  
19 ethical [sic] and morals of a candidate are more  
20 important than their race?

21 MS. REYES: Objection; form.

22 A. Yes.

23 Q. (BY MS. ELTON) Is it fair to say that  
24 someone's -- a candidate's ideology, ethical or morals  
25 are more important than their political party

1 affiliation?

2 A. Can you repeat that?

3 Q. Yes. Is it fair then to say that someone's  
4 ethical or morals is more important to you as a voter  
5 than their political party affiliation?

6 A. I can't say that.

7 Q. Okay. Why not?

8 A. You can be ethical and still be a Republican  
9 and I still may like you, and you could be a Democrat  
10 and be ethical and I like you. So that right there, you  
11 know, I just really can't say.

12 Q. So based on what you're saying, does political  
13 party affiliation not influence your decision when  
14 you're voting?

15 A. Yes -- no, it doesn't. I vote Democrat. Okay?  
16 If that's what you're trying to say. Okay?

17 Q. Yeah. Do you always vote Democrat?

18 A. Yes, I do.

19 Q. Have you ever voted for a Republican?

20 A. No.

21 Q. And what's the basis for that?

22 A. I've always voted Democrat.

23 Q. Is that because of the political platform of  
24 the Democrat party? That's what you agree with?

25 A. I just vote Democrat.

1 Q. Okay. Other than the fact that you've always  
2 voted Democrat, is there any other basis for you always  
3 voting Democrat?

4 MS. REYES: Objection; form.

5 A. No.

6 Q. (BY MS. ELTON) Was that a "no"?

7 A. "No."

8 Q. Okay. Do you think Commissioner Holmes can be  
9 reelected in his current commissioners precinct?

10 MS. REYES: Objection; form.

11 A. In what?

12 Q. (BY MS. ELTON) Under the new maps that was  
13 adopted in 2021 Commissioners Court, do you believe that  
14 Commissioner Holmes can be reelected as commissioner?

15 A. I don't think so.

16 Q. Why not?

17 A. I -- I just don't think that he'll win that --  
18 that race.

19 Q. Do you have any facts that support that  
20 opinion?

21 A. No.

22 Q. Who is your current commissioner?

23 A. Precinct 1 will be Darrell Apffel.

24 Q. Do you personally know Darrell Apffel?

25 A. Yes, I do.

1 Q. Okay. And how do you know Mr. Apffel?

2 A. I have a long history with him for -- it goes  
3 back to his kids, coaching his kids in little league.

4 Q. So is it fair to say then you also have a  
5 personal relationship with Commissioner Apffel?

6 A. Yes, I do.

7 Q. What's your opinion of Commissioner Apffel as a  
8 commissioner?

9 MS. REYES: Objection; form.

10 A. I really don't have an opinion of him being --  
11 no.

12 Q. (BY MS. ELTON) And why don't you have an  
13 opinion?

14 A. Well, I hadn't really followed Darrell on the  
15 bench of Commissioners Court.

16 Q. Since he's been your commissioner, have you  
17 ever reached out to Commissioner Apffel for county needs  
18 as a resident?

19 A. No, ma'am.

20 Q. If you did, do you have any reason to believe  
21 that he would not be responsive?

22 MS. REYES: Objection; form.

23 A. I hadn't seen him, so I don't know. I hadn't  
24 talked to him.

25 Q. (BY MS. ELTON) So that's -- you don't have any

1 reason to think that he wouldn't be responsive?

2 A. I'm not -- I'm not sure. I hadn't talked to  
3 Darrell.

4 Q. Okay. Do you know any of the other  
5 commissioners currently on the Commissioners Court?

6 A. Giusti. Commissioner Giusti.

7 Q. How do you know Commissioner Giusti?

8 A. When he was a police officer for Galveston PD.

9 Q. Did you ever work security or anything like  
10 that together?

11 A. No, ma'am.

12 Q. Do you have an opinion of Commissioner Giusti  
13 as a commissioner?

14 A. I don't know him that well.

15 Q. Have you ever lived in his precinct?

16 A. No, ma'am.

17 Q. Do you have an opinion of Commissioner  
18 Armstrong as a commissioner?

19 A. I don't know him that well.

20 Q. Did you know Commissioner Clark?

21 A. Yes, I did.

22 Q. In what way did you know Commissioner Clark?

23 A. I've met him. I've sat down and had  
24 conversations with him before he passed.

25 Q. And was that a personal interaction or through

1 work?

2 A. Through work.

3 Q. What is your understanding of the term

4 "redistricting"?

5 MS. REYES: Objection; form.

6 A. That the lines have to be changed because of

7 the census.

8 Q. (BY MS. ELTON) Do you know what type of

9 process must be completed to complete redistricting?

10 MS. REYES: Objection; form.

11 A. I don't know the whole process.

12 Q. (BY MS. ELTON) Do you know the legal

13 requirements of redistricting?

14 MS. REYES: Objection; form.

15 A. Not all of them.

16 Q. (BY MS. ELTON) You said not all of them?

17 A. Not personally or familiar with everything that

18 goes on with it.

19 Q. Okay. What are you familiar with that goes on?

20 A. I just know Commissioners Court decides on

21 moving, you know, changing the lines because of census;

22 that's basically it.

23 Q. Okay. Anything other than that?

24 A. No. That's it.

25 Q. Were you involved in the 2021 Commissioners

1 Court redistricting process at all?

2 A. No, ma'am.

3 Q. Did you see the two proposed maps that were  
4 voted on by the Commissioners Court?

5 A. I saw them the day that they were voted on, the  
6 only time I've ever seen it.

7 Q. And that would be November 12, 2021. Does that  
8 sound right?

9 A. That sounds about correct.

10 Q. Did you ever see the two maps posted on the  
11 county website?

12 A. No, ma'am.

13 Q. And I guess similarly, did you know that there  
14 was an option to make public comment through the county  
15 website on those maps?

16 A. No, ma'am.

17 Q. So is it fair to say you would not have made a  
18 public comment on the website?

19 A. No.

20 Q. Okay. When you did see that two proposed maps,  
21 what was your opinion?

22 A. That you would be able -- that Black and Brown  
23 community will not have a choice to elect a person of  
24 their choice.

25 Q. And what was it about the maps that made you

1 | feel that way?

2 | A. I'm not a expert on maps.

3 | Q. Yeah. I'm not asking for any type of mapping  
4 | expert --

5 | A. Okay.

6 | Q. -- or anything like that. Just what made you,  
7 | as your own personal opinion, understanding, what made  
8 | you feel uncomfortable with the maps?

9 | A. How the precincts, how it was cut up.

10 | Q. And did you have a preference of map one or map  
11 | two or did you not like either?

12 | A. I did not have a preference of either one.

13 | Q. Did you attend the November 12th, 2021 hearing?

14 | A. Yes, I did.

15 | Q. How did you become aware of the hearing?

16 | A. I think by e-mail.

17 | Q. Yeah. And I'm actually -- this is seven. I'm  
18 | going to mark this as Exhibit 1, hand it to you to  
19 | review.

20 | (Exhibit No. 1 was marked.)

21 | MS. ELTON: Here you go, if you'll just...

22 | MS. REYES: Thank you.

23 | Q. (BY MS. ELTON) After you've had a chance to  
24 | review it, if you'll just let me know.

25 | A. (Witness perusing document.) Okay.

1 Q. Okay. Is this the e-mail that you were  
2 referencing as you received notice regarding the  
3 November 12th meeting?

4 A. I believe so.

5 Q. Who is Linda Liechty?

6 A. I guess she's the secretary for Judge Mark  
7 Henry, I guess. I'm not sure.

8 Q. Did you have to sign up to receive these  
9 e-mails or were you on an e-mail group to receive  
10 notification?

11 MS. REYES: Objection; form.

12 A. I think all the elected officials of the county  
13 received these.

14 Q. (BY MS. ELTON) And are they -- they're an  
15 automatic e-mail system?

16 A. Yes. Yes, ma'am.

17 Q. Do you get notification before each and every  
18 Commissioners Court meeting?

19 A. Yes.

20 Q. And so you stated you attended the  
21 November 12th meeting, and we'll get back to that in  
22 just a second. But have you attended -- did you attend  
23 other Commissioner Courts meetings before the  
24 November 12th meeting?

25 MS. REYES: Objection; form.

1 A. No, ma'am.

2 Q. (BY MS. ELTON) So the November 12th, 2021  
3 Commissioners Court meeting was the first Commissioners  
4 Court meeting you had attended?

5 A. Through all my career, oh, no. No, ma'am.  
6 I've been to Commissioners Court meetings before, but I  
7 hadn't been to, you know, several before then.

8 Q. Okay. So you have -- before the November 12th  
9 meeting, you had attended Commissioners Court?

10 A. Yes, ma'am.

11 Q. Okay.

12 A. Okay.

13 Q. Do you know if -- when you attended, were those  
14 regular meetings or special meetings?

15 A. Regular meetings.

16 Q. Where were those meetings held?

17 A. Galveston.

18 Q. Had you ever attended a special meeting of the  
19 Commissioners Court?

20 A. I believe so.

21 Q. Do you know where that meeting was held?

22 A. I believe Galveston also.

23 Q. Before November 12th, 2021, had you ever  
24 attended a meeting at the Calder Annex location?

25 A. No, ma'am.

1 Q. What was your opinion of the Calder Annex as a  
2 location for this meeting, or do you have one?

3 A. I thought it was a small, small building to  
4 hold a meeting of that magnitude.

5 Q. Other than it being small, do you have any  
6 other opinion of the meeting location itself?

7 A. It didn't have -- it was just a very small,  
8 small place, cramped place for that amount of people  
9 that were attending the meeting.

10 Q. Do you know how the Commissioners Court decide  
11 which location to hold a meeting?

12 MS. REYES: Objection; form.

13 A. I don't know.

14 Q. (BY MS. ELTON) Did you make public comment at  
15 the November 12th meeting?

16 A. No, I did not.

17 Q. Why not?

18 A. Because I thought it was already a done deal.

19 Q. And why did you have that opinion?

20 A. From the way the judge came in and started  
21 presiding over the meeting, it was already a done deal.

22 Q. And are you referring to his demeanor or what  
23 exactly are you referring to?

24 A. His demeanor and the way he told the people, if  
25 you're not quiet, I'll empty the building out.

1 Q. Was this behavior different than other meetings

2 you had attended?

3 A. Yes.

4 Q. Did you listen to public comment made at the

5 meeting?

6 A. Yes.

7 Q. Can you describe generally what the public's

8 reaction to the maps were?

9 A. They were appalled.

10 Q. And do you have any -- to your knowledge, do

11 you know where they were?

12 A. Because they would not have a voice, a person

13 of their choice that they could vote on, have a voice in

14 their community.

15 Q. Did you speak with anyone regarding preparation

16 for this meeting in terms of public comment they

17 intended to make beforehand?

18 A. Excuse me. I don't --

19 Q. That was confusing. Let me repeat that.

20 Did you speak with anyone about the comment

21 they intended to make at the November 12th meeting

22 beforehand?

23 A. That was at the redistricting meeting?

24 Q. Yes.

25 A. No, I did not speak with anyone.

1 Q. Did you know some of the individuals that made  
2 public comment?

3 A. Yes.

4 Q. How do you know them?

5 A. I was born and raised in the same neighborhoods  
6 that they were raised in and that they live.

7 Q. Is that the Texas City community?

8 A. The Texas City/La Marque community.

9 Q. Other than attending the November 12th, 2021  
10 meeting, did you have any other involvement with 2021  
11 Commissioners Court redistricting?

12 A. No.

13 Q. Okay. This is 20. Okay. I'm going to hand  
14 you -- this is going to be marked as Exhibit 2.

15 (Exhibit No. 2 was marked.)

16 Q. (BY MS. ELTON) There you go, discovery  
17 responses. On the second page it says, "Petteway  
18 Plaintiffs' Amended Responses to Defendant's First  
19 Discovery Requests." I know it's a very long document.  
20 I don't intend to ask you questions about it as a whole.  
21 However, if you would like the time to look through it,  
22 you can certainly have that. But have you seen this  
23 document before today?

24 A. Yes.

25 Q. Did you see it before it was submitted in this

1 case, to your knowledge?

2 MS. REYES: I'm sorry. Object to the  
3 extent that it --

4 A. I'm not sure. I'm not sure.

5 MS. REYES: Sorry. Derreck, if you let me  
6 finish my objection really quick.

7 THE WITNESS: Okay.

8 MS. REYES: -- to the extent that it calls  
9 for disclosure of attorney work product or  
10 attorney/client communication.

11 Q. (BY MS. ELTON) Okay. And we are going to flip  
12 to -- we're going to flip to Page 8 of this document,  
13 and I'm going to read the interrogatory question to you,  
14 and then we'll go with the part that's relevant to you.  
15 "For each communication that included a Galveston County  
16 Commissioner or Galveston County Judge in which you were  
17 involved in any way related to, discussed or touched on  
18 plans for redistricting, changes to or approval of the  
19 2021 redistricting plan, identify them."

20 And so in the portion of the answer that  
21 relates to you it says, "Honorable Derreck Rose recalls  
22 that shortly after the November 12th, 2021 hearing, he  
23 made phone calls to Commissioner Apffel and Giusti." Do  
24 you see that?

25 A. Yes.

1 Q. Do you agree with that statement?

2 A. Yes.

3 Q. Okay.

4 MS. REYES: I'm sorry. What page are we  
5 on?

6 A. Page 9 now.

7 Q. (BY MS. ELTON) The answer is Page 9, yes.

8 MS. REYES: Oh, okay.

9 Q. (BY MS. ELTON) Let's first talk about your  
10 call to Commissioner Apffel. First of all, what was the  
11 reason for the call?

12 A. How displeased I was about the nonresponse, him  
13 at the Commissioners Court meeting.

14 Q. Of Mr. Apffel personally?

15 A. Yes.

16 Q. You say "nonresponse." What would you have  
17 liked to have seen from Commissioner Apffel?

18 A. On how they treated the Black and Brown people  
19 there at that meeting which is so unprofessional.

20 Q. So is it fair that your displeasure was in a  
21 lot of way with how the meeting was held?

22 A. Yes.

23 Q. Was your call to Commissioner Giusti similar?

24 A. Yes.

25 Q. Any other topics discussed with either call?

1 A. No.

2 Q. Did you discuss with them the adopted map in  
3 any way?

4 A. No.

5 Q. Just to clarify, the conversations were  
6 completely limited to the way the meeting was conducted?

7 A. Yes.

8 MS. REYES: And, Counsel, just maybe once  
9 you're done with this line of questioning, if we can  
10 take a break.

11 MS. ELTON: Yes. I have one more question  
12 on this, and we can certainly take a break.

13 THE WITNESS: I sure thank you.

14 Q. (BY MS. ELTON) On Page, now, 22, this is the  
15 answer to Interrogatory No. 17, again referencing  
16 communications. And part B of the answer is referring  
17 to you. It says, "Following the November 12, '21  
18 hearing, Derreck Rose spoke to Tierr'ishia Gibson,  
19 chairman of the Galveston County Democrat party." Do  
20 you see that?

21 A. Yes.

22 Q. Do you agree with that statement?

23 A. Yes.

24 Q. And what was the No. 1 purpose of your contact  
25 with Ms. Gibson?

1           A. I think we had talked, and she was trying to  
2 drum up support for Commissioner Holmes for the  
3 redistricting.

4           Q. What type of support?

5           A. Community support.

6           Q. And this was after the map was adopted?

7           A. This was, I believe so, after the map was  
8 adopted.

9           Q. And so why would she be drumming up support for  
10 Commissioner Holmes?

11                   MS. REYES: Objection; form.

12           A. I can't answer why she would, but I think she  
13 was in support of it, you know. I guess support  
14 Mr. Holmes as commissioner.

15                   MS. ELTON: Okay. Yeah. We can take a --  
16 is a ten-minute break okay?

17                   MS. REYES: Yeah, let's take a ten-minute  
18 break.

19                   MR. BARON: Sure.

20                   THE VIDEOGRAPHER: Off the record, 1:05.

21                           (Recess taken.)

22                   THE VIDEOGRAPHER: We're going back on the  
23 record, 1:23 p.m.

24           Q. (BY MS. ELTON) Okay. Constable Rose, we  
25 recently talked about how you -- after the November 12th

1 meeting, you called Commissioner Apffel. Right?

2 A. Yes.

3 Q. Okay. And you said that you expressed your  
4 concern over the way the meeting was conducted. What  
5 was Commissioner Apffel's response?

6 A. He was very nonchalant.

7 Q. What made you feel that way?

8 A. Because his response was -- well, he really  
9 didn't have a response -- is that he wasn't conducting  
10 the meeting.

11 Q. As in he wasn't in charge of the meeting? Is  
12 that how you understood it?

13 A. Yes.

14 Q. And, similarly, what was Commissioner Giusti's  
15 response to your concerns?

16 A. He wasn't -- wasn't his meeting. He wasn't  
17 orchestrating the meeting.

18 Q. Are you aware of the racial demographics of  
19 Galveston County as a whole?

20 MS. REYES: Objection; form.

21 A. Can you re- --

22 Q. (BY MS. ELTON) And I'll break it down some.

23 A. Mm-hmm.

24 Q. Are you aware of the racial demographics of  
25 Galveston city?

1 MS. REYES: Same objection.

2 A. As?

3 Q. (BY MS. ELTON) As in do you know the  
4 percentage of Anglo voters, Latino voters, Black voters  
5 in Galveston city?

6 A. No, ma'am.

7 Q. What about in La Marque?

8 MS. REYES: Same objection.

9 A. No, ma'am, not the total breakdown.

10 Q. (BY MS. ELTON) What about Texas City?

11 A. No.

12 Q. Is that going to be your answer for each  
13 location in Galveston County?

14 A. Yes.

15 Q. Are you aware of voter turnout in  
16 Galveston County?

17 MS. REYES: Objection; form.

18 A. As far as?

19 Q. (BY MS. ELTON) Are you aware of the voting  
20 statistics of Galveston County?

21 A. No.

22 Q. What about in Galveston or La Marque or Texas  
23 City?

24 A. No.

25 Q. Or any of the areas in Galveston County?

1 A. No, ma'am.

2 Q. Did you ever conduct any research into voting  
3 statistics in your tenure as an elected official?

4 A. No.

5 Q. What about any research into racial  
6 demographics of the county during your tenure as an  
7 elected official?

8 A. No.

9 Q. Why didn't you?

10 MS. REYES: Objection; form.

11 A. I'm not -- it's not my job.

12 Q. (BY MS. ELTON) Do you believe it is someone's  
13 job to conduct that research?

14 A. They have professionals for that.

15 Q. Do you believe it's the job of elected  
16 officials in Galveston County to conduct that research?

17 A. I don't know.

18 Q. But you as an elected official, you didn't  
19 believe you need -- it was necessary for you to conduct  
20 your job. Correct?

21 MS. REYES: Objection; form.

22 A. Can you repeat that?

23 Q. (BY MS. ELTON) You, yourself, as an elected  
24 official in Galveston County, you didn't feel that you  
25 needed that information to adequately do your job.

1 Correct?

2 A. I don't know.

3 Q. Well, you didn't conduct the research.

4 Correct?

5 A. No. No.

6 Q. And you feel like you do your job adequately.

7 Correct?

8 A. Yes.

9 Q. Do you believe that Black voters in Galveston  
10 County vote as a block or vote for the same candidate?

11 MS. REYES: Objection; form.

12 A. As far as?

13 Q. (BY MS. ELTON) Do -- in your opinion, does the  
14 African American community in Galveston County vote for  
15 the same candidate in elections?

16 A. I can't say for all Black voters.

17 Q. Okay. Based on your answer, do you feel like  
18 you can say for certain voters?

19 MS. REYES: Objection; form.

20 A. No.

21 Q. (BY MS. ELTON) So you do not have an opinion  
22 on whether or not African American voters vote for the  
23 same candidate?

24 A. I can't say.

25 Q. Do you believe that Latino voters in

1 Galveston County vote for the same candidate?

2 MS. REYES: Objection; form.

3 A. I can't answer how all Latinos vote.

4 Q. (BY MS. ELTON) Do you know how any Latinos  
5 vote in Galveston County?

6 A. No, ma'am.

7 Q. Do you know how White voters vote in  
8 Galveston County?

9 A. No.

10 Q. Do you believe that all White voters in  
11 Galveston County vote for the same candidate?

12 MS. REYES: Objection; form.

13 A. I don't know.

14 Q. (BY MS. ELTON) Given your long tenure as an  
15 elected official, would you say that you are politically  
16 active in Galveston County?

17 A. Yes.

18 Q. Is it fair to say that you're aware of local  
19 politics?

20 A. Yes.

21 Q. How do you get your information regarding local  
22 politics?

23 MS. REYES: Objection; form.

24 A. Probably, I guess, the newspaper.

25 Q. (BY MS. ELTON) And which newspaper would that

1 be?

2 A. Galveston Daily News.

3 Q. And we spoke earlier about the numerous  
4 organizations you're a part of.

5 A. (Nodding head.)

6 Q. Do you get any political information from those  
7 organizations?

8 A. The Coalition of Black Democrats would be the  
9 only one probably.

10 Q. And does the coalition have monthly meetings,  
11 annual meetings? How are meetings conducted?

12 MS. REYES: Objection; form.

13 A. Monthly -- monthly meetings, but there hasn't  
14 been a meeting for quite some time.

15 Q. (BY MS. ELTON) Do you attend the monthly  
16 meetings when they're held?

17 A. Yes.

18 Q. Why have meetings not been held for some time?

19 MS. REYES: Objection; form.

20 A. COVID.

21 Q. (BY MS. ELTON) Were meetings being held during  
22 the 2021 Commissioners Court redistricting cycle?

23 A. No.

24 Q. So other than the Galveston Daily News, did you  
25 get your information regarding the 2021 Commissioners

1 Court redistricting from anywhere else?

2 A. Nowhere else.

3 Q. In any of your elections, did you ever analyze  
4 the voting statistics of that election after the fact?

5 MS. REYES: Objection; form.

6 A. Can you rephrase that?

7 Q. (BY MS. ELTON) Yeah. So after one of your  
8 elections campaigns, did you ever look back and see what  
9 percentage of the population voted for you?

10 A. No, I did not.

11 Q. Okay. Or, similarly, the racial breakdown of  
12 those who did vote for you?

13 A. No.

14 Q. And is it fair to say for at least the past  
15 20 years, you have been engaged in local politics?

16 A. Yes.

17 Q. In the past ten years, how would you describe  
18 the political makeup of Galveston County, as in trending  
19 more Republican or more Democrat?

20 MS. REYES: Objection; form.

21 A. Do you want to ask -- rephrase that?

22 Q. (BY MS. ELTON) Sure. Let's just first,  
23 sitting here today, do you believe Galveston County has  
24 more Republican voters or Democrat voters?

25 A. Republican.

1 Q. Okay. Is that true for the past ten years?

2 MS. REYES: Objection; form.

3 A. I can't say how far back that goes.

4 Q. (BY MS. ELTON) Okay. Have you seen a change  
5 in whether the majority of voters are Republican or  
6 Democrat in the past 20 years in Galveston County?

7 A. I'm not sure. I don't know.

8 Q. And earlier you said that you do not believe  
9 that Commissioner Holmes can be reelected in his current  
10 precinct, correct, under the new map?

11 A. Correct.

12 Q. Do you believe he could be reelected as a  
13 Republican under the new map?

14 MS. REYES: Objection; form.

15 A. I don't know.

16 Q. (BY MS. ELTON) Do you believe that any  
17 commissioner can be elected as a Democrat under the new  
18 map?

19 MS. REYES: Objection; form.

20 A. I don't know.

21 Q. (BY MS. ELTON) Do you believe that the African  
22 American community has different needs than the Anglo  
23 community in Galveston County?

24 A. I don't know.

25 Q. You have no opinion on that?

1 A. No.

2 Q. Do you believe that the Latino community has  
3 different needs than the Anglo community in Galveston  
4 County?

5 A. I can't -- I don't know.

6 Q. You don't have any opinion on that?

7 A. No.

8 Q. Do you believe that the African American  
9 community and Latino community have the same needs in  
10 Galveston County?

11 A. I don't know, ma'am.

12 Q. No opinion on that?

13 A. No opinion on that.

14 Q. Do you believe that there is a history of  
15 discrimination of Galveston County officials over the  
16 last ten years?

17 A. Can you repeat that?

18 Q. Yes. Do you believe that in the past ten years  
19 there's a presence of discrimination by Galveston County  
20 elected officials?

21 A. Can you rephrase that and what you mean by  
22 discrimination by the officials?

23 Q. Right. And I -- let's just first start  
24 generally. Do you believe that there is discrimination  
25 present in Galveston County?

1 A. Yes.

2 Q. Can you give me some examples of that?

3 A. In policing, in education.

4 Q. And specifically in policing, what do you see?

5 A. The Black and Brown community being stopped  
6 more so than Anglo and police different.

7 Q. And what do you base that opinion on?

8 A. History, knowledge.

9 Q. Any specific facts or specific instance?

10 A. I could give -- yes.

11 Q. Okay. Can you give me one?

12 A. My son got stopped.

13 Q. So wrongful stopping and policing you've seen  
14 as a form of discrimination. Is that fair?

15 A. Yes.

16 Q. Okay. And I believe you said education as  
17 well?

18 A. Right.

19 Q. Okay. And can you give me an example of  
20 discrimination in education?

21 A. As far as schools, being able to get the  
22 quality of education that they need.

23 Q. And is that -- you said "get the quality of  
24 education they need." Is that based on schools  
25 available to them or what do you base that off of?

1 MS. REYES: Objection; form.

2 A. Just knowledge.

3 Q. (BY MS. ELTON) Can you give me a specific  
4 example?

5 A. No, not right off the top of my head.

6 Q. And now back to the original question. We've  
7 kind of talked generally in Galveston County, but now  
8 have you ever -- have you witnessed specific instances  
9 of discrimination in Galveston County by a government  
10 official?

11 A. The treatment of -- going back to 2011 -- of  
12 African Americans that came to the redistricting  
13 hearing, and it was cut short by Judge Henry, Mark  
14 Henry. They were treated totally unfair.

15 Q. And I just want to make sure you said 2011,  
16 that --

17 A. Yes.

18 Q. Okay. And what was discussed at this hearing?  
19 You said redistricting?

20 A. Yeah, it was a redistricting hearing.

21 Q. For the 2010-2011 cycle?

22 A. Yes, ma'am.

23 Q. And was that Commissioners Court redistricting  
24 or was that JP Constable redistricting?

25 A. Commissioners and JP, yes.

1 Q. Both were discussed?

2 A. Yes.

3 Q. What was your involvement in the 2010-2011  
4 redistricting cycle?

5 MS. REYES: Objection; form.

6 A. I was applying for that case.

7 Q. (BY MS. ELTON) And I'm talking about before  
8 the lawsuit in the actual process itself.

9 A. I was the constable, Precinct 3.

10 Q. And did you attend public meetings regarding  
11 the 2010-2011 redistricting --

12 A. Yes, I did.

13 Q. -- of the Commissioners Court? And you did  
14 mention the lawsuit. What is your understanding of that  
15 lawsuit?

16 MS. REYES: Objection; form.

17 A. What do you -- can you rephrase that?

18 Q. (BY MS. ELTON) Yes. You mentioned that you  
19 became involved in the 2011 litigation surrounding the  
20 2010-2011 redistricting. Correct?

21 A. (Nodding head.)

22 Q. What was your understanding -- or why did you  
23 get involved in that litigation?

24 A. Same -- same here, unable to elect a person of  
25 your choice.

1 Q. Okay. And so you believe that you suffered the  
2 same injury in 2010-2011 as you do in this current  
3 lawsuit. Is that fair?

4 MS. REYES: Objection; form.

5 A. Yes.

6 Q. (BY MS. ELTON) And you said that you don't  
7 believe that you're able to elect the candidate of your  
8 choice. Right?

9 A. Yes.

10 Q. As you sit here today, who is your candidate of  
11 choice?

12 MS. REYES: Objection; form.

13 A. There's not -- there's not a candidate running  
14 at this point in time.

15 Q. (BY MS. ELTON) So is it fair to say that you  
16 wouldn't know your candidate of choice until an election  
17 occurs. Right?

18 A. That is correct.

19 Q. Okay. And because one has not occurred in your  
20 current precinct, why do you believe you would not be  
21 able to elect your candidate?

22 A. Because the way the lines are drawn on that --  
23 on the map that they adopted.

24 Q. And what -- what is it about the lines that  
25 makes you think that you cannot -- if sitting here today

1 we don't have a candidate of choice, how do you know  
2 only based on the lines that you would not be able to  
3 elect this future candidate?

4 A. I'm not a map expert.

5 Q. Right. I'm just asking for your understanding  
6 and why you believe that you can't elect your candidate  
7 of choice when that candidate hasn't been determined  
8 yet?

9 MS. REYES: Objection; form.

10 A. It has split up. The Commissioners Court has  
11 split it up in three different commission -- precincts  
12 in that one area.

13 Q. (BY MS. ELTON) You're referring to the former  
14 Precinct 3 has been split up?

15 A. Yes.

16 MS. REYES: Just to clarify, we're  
17 referring to Precinct 3 of the Commissioners Court?

18 MS. ELTON: Yes, yes.

19 MS. REYES: Okay.

20 Q. (BY MS. ELTON) Other than the meeting in 2011  
21 where you believe Judge Henry discriminated against the  
22 constituents at the meeting, do you have any other  
23 examples of discrimination by a government official?

24 A. Yes. '20 -- the meeting that we just had in  
25 '21, where he come in and was going to clear the room,

1 I'm going to clear the room if y'all are not quiet. I

2 think it was totally unprofessional.

3 Q. And just to clarify for the record, that's the

4 November 12th, 2021 meeting?

5 A. That is correct.

6 Q. Okay. Any others?

7 A. That's it.

8 Q. Are you aware of any voting practices that are  
9 discriminatory in Galveston County?

10 MS. REYES: Objection; form.

11 A. And what do you --

12 Q. (BY MS. ELTON) As -- let's start with voting  
13 locations.

14 MS. REYES: Same objection.

15 A. I don't know, no.

16 Q. (BY MS. ELTON) Do you have any opinion on  
17 that?

18 A. No, not at this time.

19 Q. What would change -- or what would give you an  
20 opinion on that later on?

21 MS. REYES: Objection; form.

22 A. I don't know.

23 Q. (BY MS. ELTON) Do you know of any ways that  
24 the African American community's ability to vote in  
25 Galveston County has been hindered?

1 MS. REYES: Objection; form.

2 A. I don't know.

3 Q. (BY MS. ELTON) No opinion on that?

4 A. No opinion.

5 Q. What about the Latino community's ability to  
6 vote?

7 A. No opinion.

8 Q. In all the elections that you personally have  
9 been a part of, have you ever witnessed discriminatory  
10 campaigning of any form?

11 A. No.

12 Q. And then you being politically active in  
13 Galveston County, let's say, for the last 20 years, have  
14 you witnessed any discriminatory campaigning in  
15 Galveston County?

16 A. No.

17 Q. Do you believe that the Commissioners Court  
18 intended to discriminate against minority members during  
19 the 2020-2021 redistricting?

20 MS. REYES: Objection; form.

21 A. I don't know.

22 Q. (BY MS. ELTON) You don't have any opinion on  
23 that?

24 A. No.

25 Q. During your time in law enforcement, you've

1       been strictly in Galveston County. Right?

2             A. Yes.

3       Q. Okay. Have you, in your time at the sheriff's  
4       department, ever witnessed discrimination?

5             MS. REYES: Objection; form.

6             A. And what do you call "discrimination"?

7       Q. (BY MS. ELTON) Well, that -- that's up to you.  
8       And I can clarify.

9             A. Yeah, please.

10       Q. Let me have -- when you were at the sheriff's  
11       department, was there ever a complaint made against you  
12       for discrimination?

13             A. No.

14       Q. Was there ever a complaint made, to your  
15       knowledge, against any of your colleagues at the  
16       sheriff's department during your tenure there?

17             A. No.

18       Q. Okay. Moving towards the constable's office,  
19       during your time as being constable, has there ever been  
20       a complaint of discrimination made against you?

21             A. No.

22       Q. Of any of your deputies during your time as  
23       constable?

24             A. No.

25       Q. Tab 5.

1 MS. ELTON: We're on Exhibit 3. Correct?

2 THE REPORTER: (Nodding head.)

3 Q. (BY MS. ELTON) Let me show you what's been  
4 marked as Exhibit 3. Please take your time and look  
5 through it.

6 (Exhibit No. 3 was marked.)

7 MS. ELTON: Here is a copy.

8 MS. REYES: Thank you.

9 Q. (BY MS. ELTON) Please just let me know when  
10 you've had enough time to review.

11 A. (Witness perusing document.) Oh, boy.

12 Q. Did you have a chance to review it?

13 A. Somewhat.

14 Q. Have you seen this article before?

15 A. No, ma'am.

16 Q. Okay. Do you see, though, on -- I'm looking at  
17 the numbers down at the bottom right-hand corner, Page 4  
18 of 7, that you were quoted at the top of the page?

19 MR. BARON: It's above the graph. Do you  
20 see the figures in the middle? You see that you were  
21 quoted directly?

22 THE WITNESS: Oh, okay. Yeah.

23 MR. BARON: Do you see it?

24 THE WITNESS: Yeah.

25 Q. (BY MS. ELTON) All right. And it says,

1 "Precinct 3 Constable Derreck Rose chose not to send any  
2 of his deputies to the border." Do you see that?

3 A. Yes.

4 Q. Okay. Is that a true statement?

5 A. That's a true statement.

6 Q. And then below that it's a -- appears to be a  
7 quote from you saying, "'We have shootings and crime in  
8 Galveston County we need to fight,' said Rose. 'I think  
9 the resources we're spending on the border are better  
10 spent here.'" Do you see that?

11 A. Yes.

12 Q. Is that an accurate quote?

13 A. It's accurate.

14 Q. Does that quote describe your rationale for not  
15 sending your deputies to the border?

16 A. Yes.

17 Q. Was there any other reason you did not send  
18 deputies to the border?

19 A. No other reason.

20 Q. This will be Tab 8.

21 MS. ELTON: I'm sorry. Are we on  
22 Exhibit 4?

23 THE REPORTER: Yes.

24 (Exhibit No. 4 was marked.)

25 Q. (BY MS. ELTON) I'm handing you what's been

1 marked as Exhibit 4, if you'll take a chance to read  
2 through it.

3 MS. REYES: Thank you.

4 A. (Witness perusing document.)

5 Q. (BY MS. ELTON) Please just let me know when  
6 you've had a chance to read it.

7 A. (Nodding head.)

8 Q. Okay. Judge Henry's e-mail to you was asking  
9 whether he had heard that Commissioner Clark had reached  
10 out to you to discuss redistricting. Do you read that?

11 A. Yes.

12 Q. Okay. Do you remember getting this e-mail?

13 A. Yes, I do.

14 Q. Did you respond to this e-mail?

15 A. No.

16 Q. Why not?

17 A. Because I didn't.

18 Q. No real reason why?

19 A. No.

20 Q. Did Commissioner Clark reach out to you about  
21 redistricting?

22 A. Yes.

23 Q. Okay. What did he say?

24 A. Just wanted to -- let's sit down and meet and  
25 try to come to some type of consensus on how we can

1 handle redistricting without litigation.

2 Q. Okay. And what was your response?

3 A. Whenever you want to talk, let's sit down.

4 Q. Did you ever sit down?

5 A. No, ma'am.

6 Q. Do you know why not?

7 A. No idea.

8 Q. Would you have sat down if that meeting was  
9 made?

10 MS. REYES: Objection; form.

11 A. I don't know.

12 Q. (BY MS. ELTON) Other than Commissioner Clark  
13 reaching out -- or when Commissioner Clark reached out,  
14 did you take that as an opportunity to express what you  
15 hoped to see in redistricting?

16 MS. REYES: Objection; form.

17 A. No, ma'am.

18 Q. (BY MS. ELTON) And why not?

19 A. It was just a general conversation. I  
20 didn't...

21 Q. Did you ever reach out to Commissioner Clark to  
22 express what you hoped to see in redistricting?

23 A. No.

24 Q. Did you reach out to any of the commissioners  
25 and express what you hoped to see for the 2021

1 redistricting?

2 A. No.

3 Q. Did you reach out to Judge Henry to let him  
4 know what you would hope to see in 2020 redistricting?

5 A. No.

6 Q. This is nine. I'm going to show you what's  
7 been marked as Exhibit 5.

8 (Exhibit No. 5 was marked.)

9 Q. (BY MS. ELTON) Sorry. Just let me know when  
10 you've had a chance to read it.

11 A. (Witness perusing document.) Okay.

12 Q. Okay. Who is Corlie Jackson?

13 A. She's a community activist in Galveston.

14 Q. What type of activism does she do?

15 A. She does activism work, political activism.

16 Q. Political. For one party or another?

17 A. Yes, I guess.

18 Q. And which party would that be?

19 A. The Democratic party.

20 Q. And we've -- it doesn't have a "to" here, but  
21 can we agree that the greeting, "Derreck," it was sent  
22 to you, e-mailed to you?

23 A. I believe so, yes.

24 Q. Or you were at least on the e-mail?

25 A. Yes.

1 Q. Have you seen this before?

2 A. I believe this is my really first time reading  
3 this because I don't really read all my e-mails.

4 Q. Okay. And it looks like they are referencing  
5 the Coalition of Black Democrats organization you're a  
6 part of. Is that right?

7 A. That is correct.

8 Q. Okay. And then they mentioned a redistricting  
9 Zoom. Did you see that?

10 A. Yes.

11 Q. Okay. For Thursday, April 15th at 7:00 p.m.  
12 Right?

13 A. Yes.

14 Q. Okay. It's stated that Judith Oppenheimer  
15 would love to attend and share her experience,  
16 congressional testimony, et cetera. Do you see that as  
17 well?

18 A. Yes.

19 Q. Okay. Do you know whether or not Judith  
20 Oppenheimer attended the meeting to share her experience  
21 on redistricting?

22 A. No.

23 Q. Okay. Were -- what was your position with the  
24 coalition at that time?

25 A. Chairman.

1 Q. Okay. And would you organize meetings?

2 A. Yes.

3 Q. And that's why that they would have e-mailed  
4 you to set up a speaker?

5 A. Yes, ma'am.

6 Q. Okay. But, to your knowledge, you don't  
7 believe Ms. Oppenheimer did speak at any coalition  
8 meeting?

9 A. No, she has not.

10 Q. Thank you. This is ten. I'm showing you what  
11 has been marked as Exhibit 6, and it's pretty fine  
12 print, so let me know if you have any difficulty reading  
13 it.

14 (Exhibit No. 6 was marked.)

15 A. I'll put my glasses on.

16 MS. REYES: Thank you. Ooh.

17 A. God.

18 Q. (BY MS. ELTON) Yes. It's printed that way for  
19 some reason. We can always pull it up on the computer  
20 if that's easier to read.

21 A. (Witness perusing document.)

22 Q. Just let me know once you've reviewed it.

23 A. This is what year? 2011. Yeah.

24 Q. Okay. So I first wanted to point out just for  
25 the record so we're clear, we're discussing now 2011.

1 And do you see the original e-mail down at the bottom  
2 from Stephen Holmes to you, Terry Petteway, Penny Pope,  
3 and a few others? And it states, "Here are the  
4 submission numbers for our DOJ submission." Do you see  
5 that?

6 A. Yes.

7 Q. Okay. Do you know what that's referring to?

8 A. I don't. I don't recall.

9 Q. Okay. Do you remember getting this e-mail?

10 A. No, ma'am.

11 Q. I know it's been some time. Okay. And let's  
12 go to the e-mail above that now. It's from Penny Pope,  
13 and it says, "Attached please find objection letters  
14 that I have written." Do you see that?

15 A. Yes.

16 Q. Okay. Have you seen that e-mail before?

17 A. I don't recall.

18 Q. Okay. Looking at this e-mail today, do you  
19 know what objection letter she may have been referring  
20 to?

21 A. No, ma'am.

22 Q. Okay. And then just one more question on this.  
23 Do you know above that, "Coalition letter" -- this is  
24 from Stephen Holmes, "Coalition letter needs to be  
25 signed by Derreck." Do you see that?

1 A. Yes.

2 Q. Okay. Why -- why would that be the case?

3 A. He was probably chairman back then.

4 Q. Okay.

5 A. Yeah.

6 Q. And so any -- as chairman, you would sign any  
7 letters on the coalition's behalf?

8 A. Yes.

9 Q. This is going to be 11. I'm going to show you  
10 what's been marked as Exhibit 7.

11 (Exhibit No. 7 was marked.)

12 MS. ELTON: For you.

13 Q. (BY MS. ELTON) Just let me know when you've  
14 had a chance to review it.

15 A. (Witness perusing document.) Okay.

16 Q. Okay. Have you seen these two letters before?

17 A. It's been a while, yes.

18 Q. Okay. And are these the two objection letters  
19 that Ms. Pope referenced in her e-mail in Exhibit 6?

20 A. I believe so, yes.

21 Q. And so you have seen these letters before. Did  
22 you help write them?

23 A. Yes.

24 Q. What was your contribution?

25 A. I was the chairman of the coalition.

1 Q. What was your contribution to the drafting  
2 specifically?

3 A. As far as information?

4 Q. Yes.

5 A. Proofing and making sure it was correct.

6 Q. And it does appear to be two different letters.

7 Correct?

8 A. Yes.

9 Q. Okay. If I'm correct, the first letter appears  
10 to be regarding Justice of the Peace and Constable  
11 precincts. Is that fair?

12 A. That is fair, correct.

13 Q. Okay. And the second seems to be regarding  
14 Commissioners Court precincts. Is that fair?

15 A. Yes.

16 Q. Okay. And then, of course, on each letter was  
17 your signature block. Did you see that?

18 A. Yes.

19 Q. Okay. Did you sign these letters?

20 A. Yes, ma'am.

21 Q. Okay. And were these letters sent?

22 A. Yes.

23 Q. And I -- is it fair to assume that you signed  
24 them, you helped write them, you agree with the contents  
25 of these letters?

1 A. Yeah.

2 Q. And this was -- again, these letters are  
3 referencing the 2010-2011 redistricting cycle. Correct?

4 A. That is correct, yes.

5 Q. This is 12. I'll show you Exhibit 8. Please  
6 take a chance to read through it.

7 (Exhibit No. 8 was marked.)

8 A. (Witness perusing document.) Yes, go ahead.

9 Q. (BY MS. ELTON) Okay. Have you seen this  
10 letter before?

11 A. I believe so. It's been a while, you know.

12 Q. Okay. And, again, this letter was dated  
13 August 17, 2011. Correct?

14 A. Yes.

15 Q. And it seems to be, again, on Ms. Pope's  
16 letterhead?

17 A. Yes.

18 Q. Okay. And the letter is directed to  
19 Judge Henry and the Commissioners Court. Right?

20 A. Yes.

21 Q. Did you help draft this letter?

22 A. No.

23 Q. Do you agree with Judge Pope's comment in the  
24 first paragraph that says, "It is sad that we must now  
25 become a part of another disturbing trend that is a part

1 of today's political arena - one group of elected  
2 officials at odds with another." Do you see that?

3 A. Yes.

4 Q. Do you agree with that statement?

5 A. Yes.

6 Q. Okay. Do you agree -- do you think that that  
7 is still the case today?

8 A. Yes.

9 Q. Is it then fair to say that you believe the  
10 2020-2021 redistricting cycle was politically motivated?

11 MS. REYES: Objection; form.

12 A. Yes.

13 Q. (BY MS. ELTON) And now turning to the very  
14 back page, your name is listed for signatory. Do you  
15 see that?

16 A. Mm-hmm.

17 Q. Do you recall if you signed this or not?

18 A. I don't recall. It's been such a long time  
19 ago.

20 Q. Do you have any recollection if this was sent  
21 or not?

22 A. No, ma'am.

23 Q. Okay. This will be 13. This is going to be  
24 Exhibit 9.

25 (Exhibit No. 9 was marked.)

1 Q. (BY MS. ELTON) I'm going to represent to you  
2 that this is phone call transcripts, and I can tell you  
3 the relevant page that I will be asking you about and  
4 that is Page 29, which now I see that they are not  
5 numbered on the bottom. Let's see. If you give me  
6 that, I can turn it to the correct page to make it easy  
7 on you.

8 A. Yeah, please.

9 MS. ELTON: It might be easier to share  
10 screen.

11 MS. OLALDE: Sure.

12 Q. (BY MS. ELTON) Okay. I have it here for you,  
13 but she's also going to share it on the screen. And as  
14 I said, these are telephone transcripts, and we'll get  
15 the relevant page pulled up as well.

16 MS. REYES: I'm sorry. Are they  
17 transcripts or are they --

18 A. Really.

19 MS. REYES: -- summaries?

20 Q. (BY MS. ELTON) I'm sorry. Summaries of  
21 telephone conversations. Okay. And you see on this  
22 page that the caller seems to be you, Derreck Rose. Do  
23 you see that as "other party"?

24 A. Yes.

25 Q. Okay.

1 MS. ELTON: And if you'll scroll down a  
2 little bit.

3 Q. (BY MS. ELTON) And this, again, is referencing  
4 the 2011 redistricting timeline as well just for  
5 reference. Do you see where it says, "Mr. Rose stated  
6 that the process and plans were a done deal before they  
7 even started." Do you see that?

8 A. Yes.

9 Q. Okay. Did you have that opinion in 2011 --

10 A. Yes.

11 Q. -- regarding redistricting?

12 A. Yes.

13 Q. Did you have that same opinion in 2021  
14 regarding redistricting?

15 A. Yes.

16 Q. Then we see, "The constables had no input on  
17 the way the plans would be drawn." Do you see that?

18 A. Yes, ma'am.

19 Q. Was that your opinion?

20 A. Yes.

21 Q. Is that your opinion in the 2021 redistricting  
22 as well?

23 A. For the constables?

24 Q. I'm just talking about redistricting in  
25 general. Do you feel like, as a constable, you had any

1 say in redistricting in 2021?

2 A. I had none.

3 Q. And you had no involvement. Correct?

4 A. Correct.

5 Q. And then we see, "Three of the commissioners

6 (Republicans) were in control of the redistricting

7 plans." Do you see that?

8 A. Yes.

9 Q. Okay. Which three commissioners were you

10 referring to, if you recall?

11 A. Ooh, man. Who was there in 2011? It was

12 Clark. I'm not sure who was in office at that point in

13 time, who the three were.

14 Q. But you do see the emphasis made on the fact

15 that those commissioners referenced were Republicans?

16 A. Yes.

17 Q. Is it fair to say then in 2010-2011

18 redistricting, you had the opinion that it was

19 politically motivated?

20 MS. REYES: Objection; form.

21 A. Yes.

22 Q. (BY MS. ELTON) And I believe you stated that

23 you had that same opinion in this 2021 redistricting as

24 well?

25 A. Yes.

1 Q. Okay. We can take that down. We are on  
2 Exhibit 10. Correct?

3 MS. OLALDE: Um...

4 MS. ELTON: Are we on Exhibit 10?

5 THE REPORTER: (Nodding head.)

6 MS. ELTON: Thank you.

7 Q. (BY MS. ELTON) This will be 15. Okay. I'm  
8 handing you what's been marked as Exhibit 10. Please  
9 take a minute to read it.

10 (Exhibit No. 10 was marked.)

11 A. (Witness perusing document.)

12 MS. ELTON: Can we go off the record for a  
13 second?

14 THE VIDEOGRAPHER: Going off the record,  
15 2:08.

16 (Off the record.)

17 THE VIDEOGRAPHER: Back on the record,  
18 2:08.

19 Q. (BY MS. ELTON) Are you ready?

20 A. Mm-hmm.

21 Q. Okay. Do you remember writing this e-mail?

22 A. No, ma'am.

23 Q. Okay. And, again, just to point out the date,  
24 this was back in 2012. Correct?

25 A. Yes.

1 Q. Who is Meredith Bell-Platts?

2 A. I don't know. I -- I have no idea about this  
3 e-mail.

4 Q. Okay. And it states in here that you were  
5 concerned about a meeting between Galveston County and  
6 the DOJ that was to take place Tuesday. Do you see  
7 that?

8 A. Yes.

9 Q. Okay. Do you have any memory as to what  
10 meeting you were referring to?

11 A. No.

12 Q. Any recollection of what concerns you might  
13 have had?

14 A. No.

15 Q. And you say, "I hope this is not the same way  
16 Nueces County had their redistricting settled." Do you  
17 see that?

18 A. Yes.

19 Q. Okay. Do you remember in what way  
20 Nueces County had their redistricting settled?

21 A. I'm not sure about this e-mail.

22 Q. Okay. Do you remember any of the contents of  
23 this e-mail?

24 A. No, ma'am.

25 Q. Do you agree with anything as written in there

1 today?

2 A. I'm not sure about this e-mail.

3 Q. Okay. Thank you.

4 MS. ELTON: If we can take just a quick  
5 ten-minute break, and then hopefully wrap up after that?

6 MS. REYES: Yeah. I was just going to  
7 suggest that.

8 THE VIDEOGRAPHER: Off the record,  
9 2:10 p.m.

10 (Recess taken.)

11 THE VIDEOGRAPHER: Going back on the  
12 record. Back on the record, 2:23 p.m.

13 Q. (BY MS. ELTON) Okay. Constable Rose, we  
14 talked about a lot of things today. And I just want to  
15 ask, are there any important facts that you would want  
16 the judge or the jury to know in this case that we  
17 haven't discussed today?

18 A. No.

19 Q. Any important documents you would want the  
20 judge or jury to see that we have not seen today?

21 MS. REYES: Objection; form.

22 A. No, ma'am.

23 Q. (BY MS. ELTON) Okay.

24 MS. ELTON: And that's all my questions for  
25 you today.

1 THE WITNESS: Thank you.

2 MS. REYES: And we'll reserve for trial,  
3 and we will want to review and sign.

4 THE VIDEOGRAPHER: Off the record.

5 (Proceedings concluded.)

MARCH 22, 2023

12

-----

13

14 I, Velma C. LaChausse, Shorthand Reporter and  
 15 Notary Public in and for the State of Texas, hereby  
 16 certify to the following:

17 That the witness, HONORABLE DERRECK ROSE, was duly  
 18 sworn by the officer and that the transcript of the oral  
 19 deposition is a true record of the testimony given by  
 20 the witness;

21 That the deposition transcript was submitted on  
 22 \_\_\_\_\_ to the witness or to the attorney  
 23 for the witness for examination, signature and return to  
 24 me by \_\_\_\_\_;

25 That pursuant to information given to the

1 deposition officer at the time said testimony was taken,  
2 the following includes counsel for all parties of  
3 record:

4 Ms. Bernadette Reyes and Mr. Neil G. Baron, Counsel for  
5 Plaintiffs;

6 Ms. Angie Olalde and Ms. Jordan Raschke, Counsel for  
7 Defendants;

8 That \$\_\_\_\_\_ is the deposition officer's  
9 charges to the Defendants for preparing the original  
10 deposition transcript and any copies of exhibits;

11 I further certify that I am neither counsel for,  
12 related to, nor employed by any of the parties or  
13 attorneys in the action in which this proceeding was  
14 taken, and further that I am not financially or  
15 otherwise interested in the outcome of the action.

16 Certified to by me this 5th of April, 2023.

TRANSCRIPT OF PROCEEDINGS

FEBRUARY 10, 2023

THE VIDEOGRAPHER: This is the beginning of the deposition of Michael Shannon in the Matter of Honorable Terry Petteway, et al., versus Galveston County, et al. Today's date is February 10th, 2023, and the time on the monitor is 9:05 a.m.

My name is Rocco Franco, and I am the videographer. The court reporter is Susan Griggs, and we are here with Huseby Global Litigation.

Counsel, please introduce yourselves after which the court reporter will swear in the witness.

MS. REYES: Bernadette Reyes from the UCLA Voting Rights Project here on behalf of the Petteway plaintiffs.

MS. CHEN: Sarah Chen for the NAACP plaintiffs.

MR. GEAR: Bruce Gear on behalf of the United States.

MS. OLALDE: Angie Olalde and Jordan Raschke Elton on behalf of Galveston County defendants.

THE REPORTER: Is that everyone?

(No verbal response.)

THE REPORTER: Are we still waiting on --

MS. REYES: I believe that's everyone. I

1 believe that's everyone that will be speaking in today's  
2 deposition.

3 MICHAEL C. SHANNON,  
4 having been first duly sworn, testified as follows:

5 EXAMINATION

6 BY MS. REYES:

7 Q. Good morning. Mr. Shannon, my name is  
8 Bernadette Reyes. As you heard before, I am an attorney  
9 with the UCLA Voting Rights Project. I'm representing  
10 the Petteway plaintiffs in the matter of the Honorable  
11 Terry Petteway, et al., versus Galveston County, et al.

12 I am going to ask you a few questions  
13 today, but before that, I first wanted to ask you to  
14 state and spell your name for the record.

15 A. Michael Shannon, M-i-c-h-a-e-l, S-h-a-n-n-o-n.

16 Q. Great. So I'm going to just lay out a few  
17 ground rules today for your deposition and ask that you  
18 agree to follow these rules. First, you just took an  
19 oath. Do you understand the nature of that oath?

20 A. Yes.

21 Q. Do you understand that you have to give true,  
22 accurate, and complete testimony today?

23 A. Yes.

24 Q. And you agree to do that?

25 A. Yes.

1 Q. And the court reporter is taking down  
2 everything that we say word for word so it's important  
3 that you give audible responses to your questions and  
4 not shake and nod your head in response just so she can  
5 type down the response that you give, the verbal  
6 response. Do you understand?

7 A. Yes.

8 Q. And I would ask that you wait for me to finish  
9 asking a question before you start to answer it because  
10 the court reporter can only record what one of us is  
11 saying at a time. Do you understand?

12 A. Yes.

13 Q. Okay. And during the course of the deposition  
14 you might remember additional information that's  
15 responsible (verbatim) to a question that I asked  
16 earlier. If that happens, do you agree to let me know  
17 and provide me with whatever additional information you  
18 recall?

19 A. Yes.

20 Q. Okay. And can you tell me how you prepared for  
21 this deposition today?

22 A. I had a meeting yesterday with counsel and a  
23 meeting -- one other meeting within the last month with  
24 counsel.

25 Q. Okay. And it was just two meetings?

1 A. Just two meetings.

2 Q. Okay. And who specifically did you meet with?

3 A. With -- I met with the counsel in the room here  
4 today, Angie, Jordan, and an attorney with -- I'm sorry.  
5 I don't remember -- I'm real bad at names, but there was  
6 one other attorney.

7 Q. That's fine. And without telling me the  
8 substance of your meeting, what was discussed, can you  
9 tell me how long the meeting was? Each meeting?

10 A. The first meeting was approximately three or  
11 four hours. The second meeting six or seven hours.

12 Q. And was anyone outside of your counsel present  
13 in the room with you when you were meeting with them?

14 A. No.

15 Q. And did you review any documents in preparation  
16 for this deposition?

17 A. The document -- yes.

18 Q. And who provided you each of these documents?

19 A. Counsel.

20 MS. REYES: And, Counsel, have those  
21 documents been produced to plaintiff?

22 MS. OLALDE: Yes.

23 Q. (BY MS. REYES) And other than meeting with  
24 your counsel, did you meet with anyone else to prepare  
25 for this deposition?

1 A. No.

2 Q. And aside from your counsel, have you discussed  
3 this litigation with anyone else?

4 A. Not the nature of the litigation. I did say  
5 that there is a deposition.

6 Q. Okay. And did you do anything else to prepare  
7 for this deposition?

8 A. No, not that I -- no.

9 Q. Okay. And did you bring any documents with you  
10 today for this deposition?

11 A. No, I did not.

12 Q. All right. So I'm going to start just by  
13 asking you a little background about yourself. Can you  
14 tell me where you grew up?

15 A. Primarily in the Houston area. I did spend  
16 five years in Michigan and returned to Houston for high  
17 school.

18 Q. And can you -- where did you go to college?

19 A. I went to the University of Texas at Austin.

20 Q. Okay. Did you attend any schools after that?

21 A. No.

22 Q. Okay. What did you get your degree in?

23 A. Bachelor of Science in civil engineering.

24 Q. And what year was that?

25 A. 1985.

1 Q. And can you describe to me your employment  
2 history since you graduated from college so just take me  
3 through what kind of jobs you've held since graduation?

4 A. Yes. I graduated in -- December of '85. One  
5 of my professors hired me for an office he had in  
6 Maryland. I worked with him for a year, then moved on  
7 to a consulting firm in Baltimore, returned to Houston  
8 and worked for a few consulting firms, civil engineering  
9 consulting firms until 2010 when I worked for -- moved  
10 to assistant county engineer with the County of  
11 Brazoria, and in 2015 started with Galveston County as  
12 county engineer.

13 Q. Okay. So if you can, take me through the  
14 beginning. You said you worked with a consulting firm.  
15 What firm was that?

16 A. The first consulting firm with -- would be a  
17 professor in Maryland was Austin Research Engineers.

18 Q. And what type of work did you do there?

19 A. Research on bituminous pavements.

20 Q. I'm sorry. Could you repeat that?

21 A. Research on asphalt, bituminous pavements.

22 Q. Okay. And what was the research for?

23 A. The research was for -- associated with the  
24 Federal Highway Administration to try and get materials  
25 to last longer and more cost effective for paving,

1 applications.

2 Q. Did you do any other work with that firm?

3 A. I was there for one year. There was -- it  
4 was -- no. No. It was research for the bituminous-type  
5 pavement.

6 Q. Okay. And where did you work after that?

7 A. Firm in Baltimore, Perdum & Jeschke.

8 Q. Okay. And can you tell me what kind of work  
9 you did for them?

10 A. It was consulting engineering on various types  
11 to civil works for -- primarily military facilities.

12 Q. Okay. So can you, I guess, expand a little bit  
13 about what that work entailed?

14 A. It was project by project. I can explain what  
15 types of projects they were.

16 Q. Yeah, that would be helpful --

17 A. For -- the hangar and Air Force One. We  
18 designed some life supports for the cleaning of the Air  
19 Force One. Also for the wash water where the wash water  
20 leaves the facility, it needs to be the oil water  
21 separator, and drainage needs to be constructed and we  
22 designed those facilities. At Fort Belvoir, Virginia,  
23 designed the repaving of Belvoir Road, the main road  
24 that goes through Fort Belvoir Virginia. Replaced water  
25 lines in Fort Belvoir.

1                   There is a project in Fort Myer's,  
2                   Washington, D.C., right next to Arlington Cemetery,  
3                   replaced a water line there. Just various other -- I  
4                   don't recall all of the military bases, but that's the  
5                   type of water sewer -- water and civil works type  
6                   infrastructure.

7                   Q. Okay. And so you can see where this is going  
8                   so I'm going to ask where you worked after that and to  
9                   tell me a little bit about the type of work you did.

10                  A. I returned to Houston in 1990 and worked for a  
11                  firm, a Houston consulting firm, Brown & Gay Engineers.  
12                  They -- I was doing public infrastructure projects as  
13                  well as land development projects. Diamond was the  
14                  small firm, and there were several different types of  
15                  projects, civil-related projects we were working on.

16                  Q. Okay. And what were type of -- what were the  
17                  type of land development projects you worked on? Can  
18                  you give me some examples?

19                  A. Single-family residential mostly. Designed the  
20                  water sewer drainage and paving for those projects in  
21                  the Houston metropolitan area.

22                  Q. Okay. And can you tell me where you worked  
23                  after that?

24                  A. I moved to -- well, to Pate Engineers.

25                  Q. Okay.

1           A. Where I did island development work -- oh, I'm  
2       sorry. Excuse me. Let me correct. I moved from Brown  
3       & Gay to Carter & Burgess.

4           Q. Okay.

5           A. Carter & Burgess and -- where I started off in  
6       their public works group doing water plants, wastewater  
7       plants for municipalities and was in that group for a  
8       couple of years and then transferred to the land  
9       development group where I did single-family residential  
10      subdivisions and the infrastructure required for the new  
11      subdivisions. After Carter & Burgess, then I moved to  
12      Pate Engineers.

13          Q. Okay. And can you tell me a little bit about  
14      what you did with Pate Engineers and what your role was?

15          A. My role was a senior project manager at Pate  
16      Engineers, as the project manager for single-family  
17      residential land development projects designing water,  
18      sewer, drainage, and paving.

19          Q. Okay. And after that?

20          A. After that I returned to Brown & Gay Engineers.

21          Q. Okay. And was the type of work different?  
22      Similar?

23          A. It was land development.

24          Q. Okay.

25          A. Family residential land development.

1 Q. Okay. And after that?

2 A. After that was assistant county engineer for  
3 Brazoria County.

4 Q. Okay. And can you tell me what type of work  
5 you did for Brazoria County?

6 A. As the assistant county engineer I -- I'm  
7 trying to remember.

8 Q. That's fine.

9 A. It was -- we had some projects on the Blue  
10 Water Highway which is a -- to reconstruct and provide a  
11 hurricane-type protection, storm surge protection for a  
12 highway -- a county road that parallels the coast of --  
13 along Brazoria County. Paving projects primarily for  
14 the county is what I worked on.

15 Q. Okay. And was this your first time working  
16 with accounting --

17 A. Yes.

18 Q. -- or did your other -- okay. Did your other  
19 work ever involve any kind of work or interaction with  
20 any local counties?

21 A. Can you -- can you clarify that question.

22 Q. Yeah, yeah. In -- the question was: Any of  
23 the projects that you worked with at any of your  
24 previous employments, did you have any interaction or  
25 project that you worked on in collaboration with or for

1 the county at other counties?

2 A. Yes. Yes, I --

3 Q. Okay. Can you tell me a little bit about that  
4 and what counties you worked with, what type of work you  
5 did for them?

6 A. At Brown & Gay there were projects with the  
7 county for roadway improvements. I don't recall which  
8 particular projects they are now. At Brown & Gay  
9 Engineers there wasn't work -- my role didn't have any  
10 county projects that I recall.

11 Q. Okay. Okay. And can you tell me after  
12 Brazoria County?

13 A. I came to work at Galveston County.

14 Q. Okay. Now, let's go into that a little bit.  
15 How did you come to work at Galveston County? How --  
16 just tell me a little bit about that, location process,  
17 how you heard about the job, tell me that sort of thing.

18 A. I heard about the job through one of the -- a  
19 consulting engineer mentioned that the current county  
20 engineer is retiring and that I should -- is it okay if  
21 he gives my name to the Galveston County people? I  
22 don't know who.

23 Q. Who was the one who told you about it?

24 A. Chris Claunch at the time with Claunch & Miller  
25 was the engineering consultant.

1 Q. Okay. And you don't recall who he was asking  
2 to give your name to specifically?

3 A. Correct.

4 Q. Okay. Do you know who the engineer was that  
5 was retiring?

6 A. Yes. That was --

7 Q. Who was that?

8 A. Mike Fitzgerald.

9 Q. Did you know Mike Fitzgerald?

10 A. I -- I had met with him a few times. I knew  
11 more of him. We had a few business dealings in the past  
12 on a project from 2008.

13 Q. Was this a project involving Galveston County?

14 A. It was a project that was funded by Galveston  
15 County, but it was a project within the city of Texas  
16 City.

17 Q. Okay. Do you recall what that project was?

18 A. Sixth Street in Texas City.

19 Q. And what was your -- can you just describe what  
20 you did on that project, what was the goal of the  
21 project?

22 A. I was there for the kickoff of the project but  
23 was -- I left Brown & Gay -- I left Brown & Gay prior to  
24 the project completing design but the project was for --  
25 the scoping of the project was to repave and improve the

1 pavement and -- of Sixth Street in Texas City.

2 Q. Okay. So -- go ahead.

3 A. You helped refresh my memory on a previous  
4 answer.

5 Q. Okay. Thank you.

6 So tell me a little bit more about the  
7 application process then. So you spoke to this person.  
8 They said they asked if they could pass your name along.  
9 What happened after that?

10 A. I received a phone call from the human resource  
11 director at the time asking me to complete an  
12 application.

13 Q. Okay. And do you remember the name of the  
14 person that contacted you?

15 A. Perry Bloomer.

16 Q. Okay.

17 A. Or -- yeah, Perry Osterman. I think it's  
18 Perry Bloomer Osterman.

19 Q. Okay. And so you got an application. What  
20 happened next?

21 A. I eventually completed the application and was  
22 called in for an interview.

23 Q. Okay. And do you recall who you interviewed  
24 with?

25 A. I had -- one day I had an interview with -- at

1 first it was Commissioner Ryan Dennard and --

2 Q. Okay.

3 A. -- and Commmissioner Ken Clark. I interviewed  
4 with them for approximately an hour.

5 Q. Okay.

6 A. And the next interview was with County Judge  
7 Mark Henry and Commissioner Holmes, Stephen Holmes.

8 Q. Okay. So you met with Commissioner  
9 Ryan Dennard, Commissioner Ken Clark, Judge Mark Henry,  
10 and Commissioner Stephen Holmes?

11 A. Yes.

12 Q. Was anybody else there for any of those  
13 interviews? Any staffers?

14 A. I -- no, no.

15 Q. Okay. And did you know any of these  
16 commissioners or Judge Mark Henry prior to meeting them  
17 at your interview?

18 A. I did know Commissioner Holmes.

19 Q. How did you know him?

20 A. He was -- he served on a TERS Board, related  
21 tax increment reinvestment zone -- board that was  
22 associated with development I was doing at Brown & Gay.

23 Q. Okay. So you worked with him on a project you  
24 did with Brown & Gay before?

25 A. Not as an -- I can -- there was some business

1 dealings and meetings in the same room with the  
2 commissioner, yes.

3 Q. Okay. So do you remember having any  
4 conversations with him outside of that?

5 A. Um --

6 Q. Prior to interviewing with him?

7 A. Yes.

8 Q. Okay. And what were those conversations about?

9 A. I had conversations with -- in the TERS  
10 meetings describing the development that was going to  
11 occur in the Lago Mar subdivision.

12 Q. Okay. So after the interviews, what happened?

13 A. I -- I left the interview and drove off, and my  
14 phone rang with the director of human resources letting  
15 me know she was prepared to make me an offer.

16 Q. Okay. So it was right after your last  
17 interview?

18 A. Correct.

19 Q. Okay. And so when did you start working?

20 A. July 6th, 2015.

21 Q. Oh, perfect. Okay. Great. And in the work  
22 that you do at county engineer and the work that you did  
23 before then, is there any type of training or  
24 certificates or specific programs you needed to learn  
25 how to use to fulfill these roles?

1 A. Yes.

2 Q. Can you tell me a little bit about those?

3 A. In terms of training, it's the education, the  
4 civil engineering degree, certification or registration  
5 as a professional engineer. As far as other -- can you  
6 repeat the --

7 Q. Yeah. Yeah, yeah, yeah. Is there any kind of,  
8 like, programs you need to learn how to use specifically  
9 for these roles? If so, what types of programs are  
10 they, like softwares or stuff like that?

11 A. Particular software that I have used have been  
12 AutoCAD, which is a computer-aided drawing, but it has  
13 been 20 years since I've used that program. There's  
14 other softwares, Excel, Microsoft Word, the business  
15 applications that Microsoft produces in their Outlook,  
16 Excel. The -- but in order to do my job, those are what  
17 I've -- what I had learned.

18 Q. (BY MS. REYES) Okay. Is there any regular  
19 classes you have to take or continuing education that  
20 you need to do for your -- for being a civil engineer?

21 A. Yes. I'm -- there's 15 hours of continuing  
22 education, one hour of which needs to be an ethics class  
23 each year. I'm also a certified floodplain manager.

24 Q. Okay.

25 A. Eight hours of continuing education.

1 Q. Okay. And that's -- is that yearly or --

2 A. Each year.

3 Q. Each year. Okay. And so -- is it safe to say  
4 you've lived in Galveston County since 2015?

5 A. No, I've never lived in Galveston County.

6 Q. Okay. Where do you live right now?

7 A. I live in Houston.

8 Q. You live in Houston. Okay. So you work  
9 remotely then?

10 A. No.

11 Q. Okay.

12 A. I travel to the island.

13 Q. Okay. Okay. So are you a member of any social  
14 or professional organizations outside of your work?

15 A. Social or professional, I can't think of any.

16 Q. Okay. But no local community groups or  
17 organizations or anything?

18 A. I can't think of any.

19 Q. Okay. That's fine. So I want to get back to  
20 your role as county engineer. So could you tell me a  
21 little bit about the structure of the county engineer's  
22 office in Galveston County?

23 A. Yes, there's the county engineer. I'm county  
24 engineer. I have one assistant county engineer.

25 Q. Okay. And who is that?

1 A. That's Nancy Baher.

2 Q. And how long has she worked with you?

3 A. Since I started in July 6th, 2000 --

4 Q. Was she there before you?

5 A. She was there three months prior to me  
6 starting.

7 Q. Okay. Okay. So you can keep on describing the  
8 office. Who else works with you?

9 A. Okay. There are three flood -- three permit  
10 personnel, two of them are permanent technicians, one of  
11 them is a permanent manager, assistant floodplain  
12 manager.

13 Q. And can you tell me what they do?

14 A. They permit any improvements to real estate  
15 buildings and construction in Gal -- in the  
16 unincorporated part of Galveston County.

17 Q. Okay. And Nancy Baher, can you tell me what  
18 her primary responsibilities are?

19 A. Her primary responsibility is to -- as a  
20 project manager on our capital projects and making sure  
21 those projects progress.

22 Q. Okay. What are capital projects?

23 A. Our projects that are bid -- are designed and  
24 bid with a -- I'm sorry. I missed -- the screen just  
25 went -- changed.

1 Q. Oh, okay.

2 A. The capital projects are -- public  
3 infrastructure projects are paving projects, drainage  
4 projects. We do get grant-funded projects and -- that  
5 are related to drainage, water tower, and bond issue  
6 projects she's responsible for.

7 Q. What are bond issue projects?

8 A. The county in 2017 had an election to fund  
9 projects for paving in certain parts of the county,  
10 paving roads in certain parts of the county --

11 Q. Okay.

12 A. -- and that's -- they are paid for through the  
13 bonds.

14 Q. Okay. Okay. So is Nancy Baher the permanent  
15 personnel? Who else works in your office?

16 A. I have a subdivision and platting manager,  
17 Phil Cessac.

18 Q. Okay. And what does he do?

19 A. He administers our subdivision regulations  
20 where developers would want to subdivide property and  
21 will shepherd the subdivision plat and the development  
22 regulations and -- for compliance for commissioner's  
23 court approval of a subdivision plat.

24 Q. Okay. Anyone else that works in your office?

25 A. There is Nathan Sigler who's our mapping and

1 GIS -- mapping and GIS specialist.

2 Q. Okay.

3 A. He provides mapping for all sorts of needs in  
4 the county.

5 Q. Can you give me an example of some of those --  
6 some of the work that he does?

7 A. The -- for our permit department there are --  
8 we need to know where property is located and the parcel  
9 information from the appraisal district. I'm sorry,  
10 there's some -- there is a distraction in the hallway  
11 right now.

12 Q. Oh, that's fine.

13 A. The --

14 (Dog barking)

15 Q. (BY MS. REYES) Oh, more distractions.

16 A. Someone has a dog.

17 Our permit department needs to know where  
18 property is located, where the floodplain is and  
19 associated with those properties those -- Nathan  
20 provides that information in a graphical format for our  
21 permit technicians to be able to see. He provides  
22 mapping for the needs of our tax assessor for voter --  
23 her needs as they arise. He provides -- when the census  
24 is being performed, he coordinates the needs of the  
25 census bureau, and then he provided some assistance in

1 the redistricting drawing, drawing the lines on a map  
2 for the redistricting.

3 Q. Do you want to tell me a little bit about your  
4 role in -- I'm sorry. Is there any other employees  
5 that --

6 A. There's Lisa Butler who is an inspector, an  
7 engineering technician. She can produce construction  
8 drawings when needed and also provide construction  
9 inspection.

10 Q. Anyone else?

11 A. I have an admin, Elizabeth Robertson.

12 Q. Okay. And what's her primary role?

13 A. Her primary role is to track budgeting and  
14 facilitate any budget amendments or commissioner court  
15 orders that we need to prepare. She -- she understands  
16 the software and how to use that and load that.

17 Q. Now, can you tell me about, I guess, your role  
18 in relation to all of the employees in your office?

19 A. My role is to -- is to see that they have the  
20 ability to do their job and to make sure that our  
21 permitting department has what they need to do their job  
22 and to answer questions that they have and provide  
23 assistance when necessary to -- my role is to -- is to  
24 make sure things move forward in our capital projects,  
25 make sure that the subdivision regulations, that Phil is

1 moving the subdivision regulations along and the  
2 planning process along with the applicants.

3 Q. Do you have a direct supervisor?

4 A. I have -- I report to commissioner's court.

5 Q. Okay. Does that include the county judge as  
6 well?

7 A. It does.

8 Q. Okay. And in terms of your role as county  
9 engineer, how does your supervision of the employees  
10 work, if any?

11 MS. OLALDE: Objection; form, vague. You  
12 can answer.

13 A. Can you repeat the question?

14 Q. (BY MS. REYES) Yeah. How does the supervision  
15 work in your office? Do you directly supervise all your  
16 employees or is there a specific structure in terms of  
17 just how you oversee all the work?

18 MS. OLALDE: Same objection.

19 A. I -- I'm -- I make sure that they have the  
20 ability to do their job.

21 Q. (BY MS. REYES) Can you describe a little bit  
22 about how you do that?

23 A. That they don't need to come to me for  
24 permission to --

25 Q. Okay.

1           A. -- to proceed along with what is requested of  
2 them to do. I'm there for assistance.

3           Q. Okay. Okay. So you -- you step in when asked,  
4 essentially?

5                   MS. OLALDE: Objection; form. You can  
6 answer.

7           A. I step in when asked. I step in when I learn  
8 of an issue.

9           Q. (BY MS. REYES) Okay. Okay. So you don't have  
10 to necessarily -- I guess I'm trying to understand what  
11 you say completely. So you don't have to approve  
12 everything an employee does? Is that kind of what  
13 you're saying?

14           A. There are certain things I need to approve.

15           Q. Okay.

16           A. There's things that don't need my approval.

17           Q. Okay. Can you give me an example of certain  
18 things that need your approval and certain things that  
19 don't?

20           A. A subdivision plat before it goes to  
21 commissioner's court needs my approval.

22           Q. Okay. And what type of stuff does not need  
23 your approval?

24           A. The issuance of building permits.

25           Q. Okay. And why not?

1 A. That's delegated to our permit manager.

2 Q. Okay.

3 A. She has the competency to do her job.

4 Q. Okay. And so you mentioned that you report to  
5 the commission and the county judge. Can you tell me a  
6 little bit about how often you interact with the  
7 commission and county judge? Do you meet with them on a  
8 regular basis? Just what is your working relationship  
9 with them?

10 A. I attend commissioner's court and often have  
11 items on there for commissioner's court action. That  
12 occurs every other week.

13 Q. And to clarify, you're talking about the public  
14 meeting?

15 A. Yes.

16 Q. Okay. So you're usually at every meeting?  
17 Would that be accurate to say?

18 A. I'm -- if there is an agenda item that I have  
19 on the -- that is being considered, I will be there.

20 Q. Okay.

21 A. In general.

22 Q. Okay.

23 A. Unless there's a vacation or another conflict.

24 Q. Okay. And did you ever have interactions or  
25 communications with the commissioners or the county

1 judge outside of these meetings?

2 A. Yes.

3 Q. And how are these in-person meetings? Are they  
4 via e-mail, telephone? What is the most common mode of  
5 communication?

6 A. Most common is telephone call.

7 Q. Telephone call. Okay. And how often would you  
8 say during -- let's say during a workweek do you speak  
9 to someone on the commission or county judge?

10 A. I would say a few times a week.

11 Q. Okay. And what type of issue do they usually  
12 bring your way? You can give me some examples.

13 A. An example would be a response to one of their  
14 constituents with an issue on drainage or construction  
15 occurring next to their property that they have a  
16 complaint that the drainage may harm them from the  
17 activity of building next to them or a roadway that may  
18 need drainage improvements. Those are the types of  
19 things.

20 Q. Okay. And when a commissioner calls you with  
21 an issue, who usually handles that?

22 A. It depends on how -- it depends on the nature.

23 Q. Okay.

24 A. Or the issue.

25 Q. Okay. So if it's, let's say, a permitting

1 issue, then would it go to -- who would it -- it would  
2 go to the permitting personnel?

3 A. I would ask Nicole, our permitting manager --

4 Q. Okay.

5 A. -- what the circumstances are behind that.

6 Q. Okay.

7 A. And I --

8 Q. Go ahead.

9 A. I'd ask Nicole what was -- what are the issues  
10 involved.

11 Q. Okay. Would you stay involved in the project  
12 after that?

13 A. I would follow up with the commissioner or ask  
14 Nicole to follow up if it's -- it depends on the  
15 complexity.

16 Q. Okay. And is there -- during your time with  
17 Galveston County, was there any commissioner that you  
18 worked with more often than the others?

19 A. I work primarily with -- since most of my  
20 involvement is with the unincorporated part of the  
21 county so, yes, Commissioner Giusti and  
22 Commissioner Apffel are the ones that I talk to most.

23 Q. Okay. And what type of issues do they usually  
24 come to you for?

25 A. With building and -- building permit concerns.

1 Q. Can you give me an example?

2 A. If someone is building a house and they have  
3 graded their lot higher than the adjacent grade, the  
4 neighbor then starts to complain that this building  
5 is -- the run-off is flooding their property.

6 Q. Okay. Can you explain a little bit about what  
7 that means, grading and -- sorry, I'm not an engineer so  
8 if you could explain some of what those terms mean?

9 A. Grading has to do with the elevation of the  
10 property.

11 Q. Okay.

12 A. They've changed the elevation of the property,  
13 and it directs flow on to the adjacent property. That's  
14 where complaints start.

15 Q. Okay. Okay. Are there any projects that you  
16 handle yourself as county engineer?

17 MS. OLALDE: Objection; form. You can  
18 answer.

19 A. I -- I don't understand the -- what you mean by  
20 handle. My responsibility is for all of the -- for all  
21 of the projects that -- all the construction and to make  
22 sure that permitting goes smoothly so I don't understand  
23 how -- what handle means.

24 Q. (BY MS. REYES) Okay. Let me clarify. So I  
25 think what I'm trying to say is I know your office is

1 structured where you have a number of employees that are  
2 in charge of specific projects or specific types of  
3 projects. Is there anything -- is there any type of  
4 project that goes to the -- your office that goes  
5 directly to you? Does that make sense?

6 A. I -- I don't really understand how to answer  
7 that question because the projects -- and I'm not --  
8 when I say "the projects," there's not necessarily --  
9 there's different types of projects.

10 Q. Uh-huh.

11 A. So I don't know how to answer that question.

12 Q. Okay. But -- so I guess instead of -- because  
13 I understand your -- the projects in your office, there  
14 are certain employees that are designated to handle  
15 certain types of projects. Is there anything -- any  
16 examples you can think of when an assignment or a  
17 project is directed to your office that you take the  
18 lead on yourself?

19 A. There are a few simple -- well, there are a  
20 few -- I'm trying to think of examples that may have --  
21 that I don't involve anyone else on the staff on, and  
22 they may be requests from a commissioner to look into a  
23 particular flood claim --

24 Q. Okay.

25 A. -- that I'll look into having to do with the

1 national flood insurance program and constituent with a  
2 flood loss claim.

3 Q. Okay. And can you explain a little bit about  
4 why you -- you take the lead on it, and you don't  
5 involve any of the other employees?

6 A. The insurance side, it's not necessarily a --  
7 these issues may be that they are not fit into the daily  
8 normal routine of permitting or the daily routine of  
9 what other people do so I -- and the insurance side of  
10 the National Flood Insurance Program has a lot of  
11 nuances that I may know about that the rest of the staff  
12 does not, and it's simpler for me to address it.

13 Q. Okay. So would you say then -- the more  
14 complicated projects you might take on yourself?

15 MS. OLALDE: Objection; form.

16 A. I'm not sure what, in terms of complicated, I  
17 would say that if -- if I see that the staff may have  
18 other priorities that they need to address and that my  
19 ability is -- that I could address it more quickly or  
20 easily.

21 Q. (BY MS. REYES) Okay. Okay. So it could be a  
22 number of different reasons then?

23 A. Yes, yes.

24 Q. Okay. Okay. So I wanted to just go back to  
25 something you were mentioning before. You were talking

1 about Nathan Sigler and how he is your mapping and GIS  
2 specialist, and he does some work with the census. Can  
3 you describe what type of work that he does involving  
4 the census?

5 A. I know in preparation for the census there were  
6 meetings that -- with the Census Bureau to -- and I'm  
7 sorry. I don't understand this process all that well.

8 Q. Which process?

9 A. The process Nathan was involved in in the  
10 census.

11 Q. Okay.

12 A. But there were meetings that he had in  
13 preparation of collecting information for the 2020  
14 census, and the Houston-Galveston Area Counsel as well  
15 as the Census Bureau were involved in making sure  
16 that -- I think it's -- I think it's census tracts and  
17 blocks are -- are in the right format so that the data  
18 can be collected. That's a rudimentary understanding of  
19 what I understand the process that Nathan was involved  
20 in preparation of collecting data for the census.

21 Q. Okay. And how -- I think you might have  
22 explained this a little bit, but I just want to clarify.  
23 So how knowledgeable are you about the census process  
24 just in general?

25 A. I would say I -- there's a lot for me to learn

1 that I know a little, and that little I know is from --  
2 is from that meeting with the Census Bureau and the  
3 H-GAC.

4 Q. Okay. How many meetings did you attend  
5 involving the census in Galveston?

6 A. I believe it was -- I know it was two. I'm  
7 sorry. I know it was one. It may have been two and it  
8 may -- I don't recall if it was more than two.

9 Q. Okay. And were these in person or via Zoom?

10 A. The one I recall was in person.

11 Q. Okay. And who was there at the meeting?

12 A. What I recall is that the -- there was some  
13 staff from the U.S. Census Bureau, Nathan Sigler, and a  
14 few of the cities had -- a few of the cities in the  
15 county had representatives there.

16 Q. Okay. Were there any other Galveston County  
17 employees there?

18 A. I don't recall.

19 Q. Were any of the commissioners there or  
20 Judge Henry?

21 A. I -- I don't recall. I don't think --  
22 Judge Henry wasn't there, but I don't recall if any of  
23 the commissioners were there.

24 Q. And what year would that have been to the best  
25 of your recollection?

1           A. I know it was prior to -- I know it was prior  
2 to 2020. Now, I don't know how far in advance it was.

3           Q. Okay. That's fine. So -- and you mentioned  
4 some issues. So what were they discussing at the  
5 meeting?

6           A. At the meeting they were discussing that when  
7 populations exceed -- they were discussing that the  
8 Census Bureau has made population projections for -- in  
9 the county and that because of their population  
10 projections, the configuration of census tracts, when  
11 they reach a certain threshold, the census tract then  
12 needs to be split.

13          Q. Okay.

14          A. Talking about --

15          Q. And --

16          A. Yeah.

17          Q. Yeah, go ahead.

18          A. They're talking about ways that that census  
19 tract can be divided or rules in hierarchy on that --  
20 the Census Bureau's procedure on how to divide a tract,  
21 a census tract.

22          Q. So did you -- were any census tracts needing to  
23 be divided in Galveston County?

24          A. That's what my understanding was.

25          Q. Okay. Did you work on any of that?

1 A. No.

2 Q. Okay. Who did?

3 A. Nathan Sigler.

4 Q. Okay. Did you supervise his work at all on  
5 this?

6 MS. OLALDE: Objection; form.

7 A. I -- the -- I made sure that he was available  
8 to do the work, but, no, I didn't supervise in the way  
9 of -- I'm not -- my involvement was not in any sort of  
10 review capacity.

11 Q. (BY MS. REYES) Okay. Okay. So you didn't  
12 review any of the work that he did and have to approve  
13 it or anything?

14 A. There was no approval that I needed to do.

15 Q. Okay.

16 A. I had no basis of formulating a -- I don't have  
17 that expertise to know what to approve.

18 Q. Okay. Okay. So you weren't familiar enough  
19 with the process of census tracts and splitting or  
20 whatever needed to be done to approve his work. Is  
21 that -- I just want to make sure I'm understanding  
22 correctly.

23 A. Correct.

24 Q. Okay. Had you worked with the Census Bureau on  
25 any census-related issues in your other jobs?

1 A. No.

2 Q. So not in Brazoria County?

3 A. No.

4 Q. Okay. So this -- in Galveston County was the  
5 first time you were working with census-related issues?

6 MS. OLALDE: Objection; form.

7 A. Galveston County was the first time I had dealt  
8 with any -- with this type of work with the Census  
9 Bureau.

10 Q. (BY MS. REYES) So had you -- had you worked  
11 with this type of -- have you done this type of work  
12 with the Census Bureau that was the first time in  
13 Galveston County?

14 MS. OLALDE: Objection; asked and answered.  
15 You can answer.

16 A. Yes.

17 Q. (BY MS. REYES) Okay. And do you know if  
18 Nathan Sigler was in contact with any other county  
19 employees when working on the census project?

20 A. I don't know.

21 Q. Do you know if he was in contact with any of  
22 the county commissioners or the county judge when he was  
23 working on the census project?

24 A. He may have been involved with  
25 Commissioner Clark.

1 Q. Do you know how he was involved with  
2 Commissioner Clark?

3 A. I don't know the context.

4 Q. Do you know if Commissioner Clark was e-mailing  
5 him or calling him or meeting with him in person about  
6 this at all?

7 A. I know that there was communications with  
8 Commissioner Clark. I don't know the -- I don't recall  
9 or know the -- I don't recall what form those  
10 communications were.

11 Q. Okay. Do you know what type of input or  
12 feedback Commissioner Clark was communicating to  
13 Nathan Sigler, if any?

14 A. I don't know the particulars on what the --  
15 what the communications were.

16 Q. Okay. Is it normal for the commissioners to  
17 reach out to someone in particular in your office who  
18 are working on a certain project instead of reaching out  
19 directly to you?

20 A. It's not unusual.

21 Q. Do the employees in the county engineer's  
22 office inform you of when a commissioner contacts them  
23 for a certain project?

24 A. Generally so.

25 Q. Okay. So did Nathan Sigler inform you of any

1 commissioners contacting him?

2 A. He let me know that Commissioner Clark was  
3 asking him to do some work on the census work.

4 Q. And you don't -- but you don't recall what that  
5 work was?

6 A. It had to do with the -- well, I don't know the  
7 exact nature of the -- I don't know the exact nature.

8 Q. Okay. Did you follow up with  
9 Commissioner Clark on his work with Nathan Sigler on the  
10 census?

11 A. No.

12 Q. On the census project? Did you follow up with  
13 Nathan Sigler on his work with Commissioner Clark on the  
14 census project?

15 A. No.

16 Q. Why not?

17 A. Generally if I -- if Nathan is not performing,  
18 I would get a call from the commissioner asking for --  
19 asking for me to step in.

20 Q. Okay. And is -- is that normal procedure then,  
21 not just with Nathan but with all your employees, if  
22 they are working on a project with the commissioner  
23 to -- you don't necessarily follow up until -- unless  
24 you receive a call from the commission then?

25 MS. OLALDE: Objection; form.

1           A. I don't know if there is a normal procedure or  
2 not. There are certain things that I do follow up on  
3 and certain things I don't.

4           Q. (BY MS. REYES) Okay. And how do you determine  
5 what you follow up on or what you don't?

6           A. If it's in my -- well -- can you repeat the  
7 question?

8                   MS. OLALDE: Can you be a little more  
9 specific?

10          A. Yeah, yeah.

11                   MS. OLALDE: I think that's the problem is  
12 just that it was very general. It might help to -- in  
13 questioning.

14          Q. (BY MS. REYES) How do you determine what  
15 projects you specifically -- in this case we're talking  
16 about commission-related projects or projects involving  
17 a county commissioner, how do you determine which  
18 projects you follow up on or not, projects that are  
19 delegated to your employees?

20                   MS. OLALDE: Objection; form.

21          A. Well, there are certain projects that are --  
22 that my office takes the lead role on in terms of -- as  
23 the lead responsible for that project, and there are  
24 other functions we perform in support of other  
25 departments or other -- or other elected officials. The

1 support that we provide generally the -- doesn't fall  
2 under my responsibility to make sure that project is  
3 moving or is fulfilling the obligations of the needs of  
4 that project.

5 Q. (BY MS. REYES) Okay. Was the county  
6 engineer's office taking the lead or providing a support  
7 role for the census project?

8 A. I would say that we were in support of the  
9 needs of -- of the -- I'm -- I still don't -- I guess  
10 can you repeat the question again so I can think about  
11 that? I didn't --

12 Q. Yeah. For the census project, was your office  
13 taking the lead or were they playing a supporting role?

14 A. This was in support of a Census Bureau  
15 requirement, and so I didn't view this as a county  
16 initiative. This is -- I viewed this as a support for  
17 the Census Bureau in performing their needs.

18 Q. Was there anyone else outside of the county  
19 engineer's office in the county working on this project  
20 as well?

21 MS. OLALDE: Objection; form.

22 A. I'm not aware of anyone.

23 MS. OLALDE: Bernadette, could you clarify  
24 what you mean by this project, please?

25 MS. REYES: I'm referring to the census

1 project.

2 MS. OLALDE: What census project?

3 MS. REYES: The census-related work that we  
4 have been discussing.

5 MS. OLALDE: Are you talking about the  
6 meeting that was prior to 2020? I just want to make  
7 sure that the record is clear.

8 MS. REYES: Yes, the meeting that was prior  
9 to 2020, the census work that Nathan Sigler was working  
10 on with Commissioner Clark that involved the H-GAC as  
11 Mr. Shannon mentioned.

12 MS. OLALDE: Thank you very much. I  
13 appreciate that.

14 A. And I'd like to clarify that. I didn't view  
15 this as a -- as a project, a formal type of project.  
16 This was -- and you muted out -- what I heard was an  
17 inference to a Commissioner Clark project. This --

18 MS. OLALDE: Michael, just wait for the  
19 question.

20 THE WITNESS: Yeah.

21 Q. (BY MS. REYES) How would you describe then  
22 your work with the Census Bureau, your office's work  
23 with the Census Bureau?

24 A. It was to provide support for -- to the  
25 Houston-Galveston Area Council who -- to -- and the

1 Census Bureau to get the census tracts in a form so that  
2 the Census Bureau could collect the data. My  
3 understanding was it was the Houston-Galveston Area  
4 Council's responsibility to make those splits, and the  
5 Houston-Galveston Area Council asked us for assistance.

6 Q. Okay. And what type of assistance then did  
7 your office provide?

8 A. I don't know all the particulars on how -- what  
9 assistance, but Nathan Sigler was made available to have  
10 H-GAC and the Census Bureau in the census tract format  
11 that they needed.

12 Q. And how long did the county engineer's office  
13 provide assistance? What was the time period?

14 A. I don't recall. I don't recall.

15 Q. But you don't recall when the assistance ended?

16 A. No, I don't.

17 Q. Did Mr. Sigler inform you when he stopped  
18 working with the H-GAC on the census issue?

19 A. He may have.

20 Q. Does he normally inform you when he stops  
21 working on these types of issues?

22 A. Normally so.

23 Q. And how does he normally inform you?

24 A. He --

25 Q. What mode?

1 A. -- verbally tells me.

2 Q. But did he come to your office?

3 A. He pops his head --

4 Q. Okay.

5 A. -- in the office and says, I'm finished with  
6 this. I'm working on this now.

7 Q. Do you usually do any kind of follow-up with  
8 him just like questions, like, in person?

9 A. On this, no.

10 Q. Generally do you?

11 A. Generally with Nathan I don't. Nathan is --  
12 what I've seen of Nathan is that he is thorough in what  
13 he does and is capable in what he does, and that need  
14 for follow-up -- I don't find the need to follow up on  
15 his products, on his performance.

16 Q. So you generally trust Nathan's work then. Is  
17 that what you're saying?

18 A. What I'm saying is that Nathan does a good job.

19 Q. Okay. And you mentioned another part of his  
20 responsibility involved redistricting. Can you explain  
21 that a little bit?

22 A. That -- he is the county map guy which means  
23 that he's primarily -- he is a person in the county that  
24 provides maps to -- for our department and for other  
25 departments and he's -- he has the ability to work

1 within the software to draw maps and so his  
2 involvement, my understanding, was to take direction on  
3 how to -- take direction on how to -- on where to draw  
4 those lines and to produce a map.

5 Q. So where to draw those lines and produce a map,  
6 so are you saying that he -- he drew a map for  
7 redistricting?

8 A. I'm saying that he took direction from counsel  
9 on where to draw lines.

10 Q. What counsel was that?

11 A. I don't know the name of the firm. It's a firm  
12 that the county hired to assist in the redistricting.

13 Q. But just to clarify, so he -- so from your  
14 understanding Nathan Sigler was taking direction from  
15 the counsel hired by the county and drawing the lines  
16 and the maps himself?

17 A. That's my understanding -- he was taking  
18 direction on -- and producing a graphical representation  
19 on information provided by the counsel.

20 Q. Do you know what type of information counsel  
21 was providing?

22 A. No, I don't.

23 Q. Mr. Sigler did not inform you of the type of  
24 information that the counsel was providing him?

25 A. I don't recall what types of information or if

1 Nathan had -- I don't recall if Nathan had communicated  
2 that with me.

3 Q. Okay. If he did communicate it with you, do  
4 you know if it would have been via e-mail, via  
5 telephone, in person?

6 MS. OLALDE: Objection; calls for  
7 speculation.

8 A. He may have. He may have e-mailed me. He may  
9 have told me.

10 Q. (BY MS. REYES) And when did his work on  
11 redistricting start?

12 A. I don't know. I don't -- I don't recall.

13 Q. Do you recall when he first mentioned doing  
14 this work on redistricting?

15 A. I don't recall the dates.

16 Q. Do you recall the year?

17 A. I don't.

18 Q. Was it before or after this incident, the  
19 census work that he was doing?

20 A. The redistricting would have -- I believe it  
21 was after the census.

22 Q. So would it be safe to -- would it be after  
23 2020 then? Would that be safe to say?

24 A. It would be safe to say that. I think it would  
25 be after 2020.

1 Q. Okay. Do you recall how long you were working  
2 on redistricting issues?

3 A. I don't recall.

4 Q. And you said he was getting direction from  
5 counsel on just how to draw certain lines and maps.  
6 How -- do you know how -- how he was getting this  
7 direction? If it was through in-person meetings, or  
8 e-mails or phone calls?

9 MS. OLALDE: Objection; misstates prior  
10 testimony and calls for speculation.

11 A. I don't know.

12 Q. (BY MS. REYES) Did you ever speak to the  
13 counsel --

14 A. No.

15 Q. -- that was hired by the county?

16 A. No.

17 Q. You never met with them?

18 A. I never -- I did not meet with them.

19 Q. You never exchanged e-mails with them?

20 A. I don't -- I don't recall any e-mails that I  
21 exchanged with counsel.

22 Q. Did Nathan Sigler provide you with updates on  
23 his work on the redistricting?

24 A. Sometimes. He would tell me he was -- he was  
25 still working on it.

1 Q. And when he would tell you he was still working  
2 on it, what -- can you tell me what specifically he  
3 would say, any discussion that followed thereafter?

4 A. I don't recall the particulars, but I would  
5 tell him to continue on to --

6 Q. Did you ever -- oh, go ahead.

7 A. -- to keep working.

8 Q. Did he ever ask you for assistance on this  
9 project?

10 A. He -- when -- I do recall one instance with  
11 the -- to look at a metes and bounds description for, I  
12 believe it was, a voting precinct or it may have been a  
13 census tract. I don't recall. But I have -- that's  
14 what I recall.

15 Q. Okay. And can you explain to me what a voting  
16 precinct is?

17 A. A voting -- I don't know a legal definition.

18 Q. But your understanding of it?

19 A. A voting precinct is -- I don't have a clear  
20 understanding of what a voting precinct is.

21 Q. What are metes and bounds?

22 A. It's a description of course -- a direction and  
23 a distance describing an area so --

24 Q. Go ahead.

25 A. It's a written description of an area.

1 Q. Can you give me an example?

2 A. In each subdivision plat there is a description  
3 of the property that will be platted, and it's described  
4 by a course of -- from this point along a line to this  
5 street from this street or actually in a -- and then --  
6 actually in a metes and bounds it goes from this point  
7 with the bearing and distance to another point and then  
8 a bearing and distance to another point and a bearing  
9 and distance to another point, and it comes back to the  
10 point of beginning. It's what surveyors produce for  
11 subdivision plats, and I've reviewed several of them  
12 throughout my career.

13 Q. Okay. Can you -- you mentioned that when  
14 Nathan Sigler asked for your help for the metes and  
15 bounds for a voting precinct on a census tract; is that  
16 correct?

17 A. I don't -- I don't know.

18 MS. OLALDE: Objection; form. You can  
19 answer. You can answer.

20 A. I don't know whether it was census tracts or  
21 whether it was voting precincts. I don't know the  
22 particulars --

23 Q. (BY MS. REYES) Okay.

24 A. -- of what is being described.

25 Q. Okay. What particularly though did he ask for

1 your assistance with doing? I know you don't  
2 necessarily recall whether it was voting precincts or  
3 census tracts, but aside from that what was he asking  
4 from you?

5 A. To look at a metes and bounds for the form and  
6 I -- I looked at it for the consistency in the form in  
7 making sure that a street was -- was referenced the same  
8 way throughout the street instead of something called  
9 Forest Cove Road and the next time Forest Cove. I made  
10 sure that the -- that the same name was -- the  
11 consistency within the -- within the metes and bounds.

12 Q. And how did you check this? Describe the  
13 process.

14 MS. OLALDE: Objection; form.

15 A. It wasn't a review of any sort of accuracy of  
16 what was being performed. It was more of a format and  
17 a -- and consistency with -- with the call-outs.

18 Q. (BY MS. REYES) What are call-outs?

19 A. The names of roads or the names of --

20 Q. Okay.

21 A. The terminus of where a point changes from one  
22 direction to another.

23 Q. Okay. And did you refer to any documents or  
24 maps or anything in making these -- in reviewing any of  
25 this?

1 A. No.

2 Q. So what was your review based on then?

3 MS. OLALDE: Objection; asked and answered;  
4 and objection; form.

5 A. On the consistency of the call-outs.

6 Q. (BY MS. REYES) And do you know when he asked  
7 you to do this?

8 A. I don't recall.

9 Q. Do you know, you know, the year maybe?

10 A. I can only say that it was after 2020. I  
11 don't -- I don't recall.

12 Q. You think it would be 2021?

13 A. I don't recall. My best guess is that -- or my  
14 best estimate is after 2020.

15 Q. And do you know why he was asking you to do  
16 this?

17 A. Because I had looked at metes and bounds in the  
18 past and wanted -- wanted to see if the metes and bounds  
19 were -- looked right in terms of the -- in terms of the  
20 call-outs. I -- I --

21 Q. Go ahead.

22 A. I can't speculate any other reasons.

23 Q. Do you know how long it took you to get back to  
24 him?

25 A. I don't think it was very long. I believe it

1 was within a day. I don't -- I don't recall exactly.

2 Q. And do you recall how many, I guess, of these  
3 metes and bounds for either precincts or census tracts,  
4 how many of them you had to look at?

5 A. I don't recall.

6 Q. Was it more than one?

7 A. My best estimate was that it was near -- around  
8 10. I don't know for sure.

9 MS. OLALDE: Bernadette, were you asking  
10 about times or what exactly were you asking? I just  
11 want to make sure it's clear.

12 MS. REYES: How many precincts or tracts  
13 was he asked to look at.

14 MS. OLALDE: Thank you, sorry.

15 A. Yeah. That was my understanding of the  
16 question. Different metes and bounds --

17 Q. (BY MS. REYES) Yes.

18 A. -- and it was -- my best guess is around 10.

19 Q. Thank you. And, Mr. Shannon, if you have  
20 any -- if you don't understand the question, you can  
21 feel free to ask me. Okay? Ask me for clarification if  
22 you need it. Okay?

23 A. Okay.

24 MS. OLALDE: Bernadette, we've been going a  
25 little over an hour, just whenever you get time for a

1 break, just let us know, will you?

2 MS. REYES: Yes, yes. If you can give me  
3 just one minute. I just have a few more questions, and  
4 then we can take a break.

5 Q. (BY MS. REYES) Do you know what Mr. Sigler did  
6 with the information or edits that you provided to him?

7 A. No, I don't.

8 Q. Did he ever tell you what he did with the  
9 information or edits you provided for him?

10 A. My understanding was -- is -- is that they were  
11 part of the -- they were -- they were given to the  
12 attorneys performing the redistricting.

13 Q. Do you know why --

14 A. No --

15 Q. -- they needed this information? Did  
16 Mr. Sigler ever tell you why?

17 A. I don't recall.

18 Q. Did you ever ask?

19 A. No. No.

20 Q. Why not?

21 A. Because my function wasn't to direct or the  
22 activities and to provide support, and my understanding  
23 was this was in support.

24 Q. Do you know if any of the commissioners were  
25 working with Mr. Sigler on this specific -- the work

1 that you did, the metes and bounds?

2 A. I don't know.

3 Q. Did any of the commissioners ever call you to  
4 ask you questions about that?

5 A. About what?

6 Q. The metes and bounds issues that you did?

7 A. No.

8 MS. REYES: We can take a ten-minute break.

9 MS. OLALDE: Sure.

10 THE VIDEOGRAPHER: All right. The time on  
11 the monitor is 10:36 a.m., and we are now off the  
12 record.

13 (Break taken from 10:36 a.m. to 10:54 a.m.)

14 THE VIDEOGRAPHER: Okay. The time on the  
15 monitor is 10:54 a.m., and we are back on the record.

16 Q. (BY MS. REYES) So, Mr. Shannon, I just kind of  
17 want to pick up where we left off. So we were talking  
18 about the metes and bounds edits that you made for  
19 Nathan Sigler. Do you know where he got the metes and  
20 bounds information that he -- that you made edits to?

21 A. I do not know where that originated.

22 Q. Do you know if it maybe came from -- if it had  
23 come from the counsel that was hired by the county to  
24 help with redistricting?

25 MS. OLALDE: Objection; asked and answered.

1 You can answer.

2 A. I don't know where it came from.

3 Q. (BY MS. REYES) And I know you mentioned  
4 counsel hired by the county for redistricting, and you  
5 couldn't recall the firm or the name. Is it -- does the  
6 name Dale Oldham sound familiar to you?

7 A. I -- that name has been mentioned to me  
8 preceding this deposition.

9 MS. OLALDE: I don't want you to talk about  
10 anything you discussed with counsel, please.

11 THE WITNESS: Okay.

12 Q. (BY MS. REYES) Outside of talking to your  
13 counsel, had you heard that name mentioned through your  
14 work as county engineer?

15 A. I don't recall the name.

16 Q. Did Nathan Sigler ever mention that name to  
17 you?

18 A. I don't recall the name being mentioned by  
19 Nathan.

20 Q. Did anyone else at the county, any of your  
21 employees or any members of the Commission ever mention  
22 that name to you?

23 A. I don't recall any of the commissioners or  
24 others in the county mentioning that name.

25 Q. What about the name Thomas Brian?

1 A. I don't recall that name.

2 Q. Did Nathan Sigler ever mention that name to  
3 you?

4 A. I don't recall Nathan Sigler ever mentioning  
5 that name.

6 Q. Did any members of the county, commission or  
7 county employees ever mention that name to you?

8 A. I don't recall them mentioning that -- the  
9 commissioners or judge mentioning that name to me.

10 Q. So did you ever have any meetings with someone  
11 named Dale Oldham?

12 A. No, I did not.

13 Q. Did you ever have any telephone calls or e-mail  
14 communications with somebody named Dale Oldham?

15 A. I don't recall any meetings or phone calls.

16 Q. Or e-mail communications?

17 A. Or e-mail communications.

18 Q. Okay. What about -- do you recall ever having  
19 any meetings with someone named Thomas Brian?

20 A. No, I do not recall.

21 Q. Did you have any communication, be it in  
22 person, be it e-mail, or telephone with somebody named  
23 Thomas Brian?

24 A. I don't recall any meetings or e-mails or phone  
25 calls with Thomas Brian.

1 Q. Okay. Now, we were talking -- you mentioned  
2 for Nathan you generally only have to follow up with his  
3 work if someone calls or someone from the commission  
4 calls to check up on something that needs to get done.  
5 Has that ever happened before?

6 A. I don't recall any instance. I don't recall  
7 any instance where there needed to be that intervention.

8 Q. And to your knowledge were there any instances  
9 about that regarding the redistricting process and  
10 Mr. Sigler's work?

11 MS. OLALDE: Objection; asked and answered.

12 A. I don't recall any.

13 Q. (BY MS. REYES) And do you -- can you tell me a  
14 little bit about what other type of work Mr. Sigler did  
15 on redistricting that you were aware of?

16 A. I am not familiar with the scope and  
17 involvement of all that Nathan Sigler was involved in in  
18 redistricting.

19 Q. He didn't keep you updated on -- on the work  
20 that he was doing in redistricting?

21 A. He would inform me that he was still working  
22 on -- on the -- still involved in redistricting.

23 Q. Do you recall if he was working with any of the  
24 county commissioners --

25 MS. OLALDE: Objection -- go ahead.

1 Q. (BY MS. REYES) -- on redistricting?

2 MS. OLALDE: Objection; asked and answered.

3 A. Can you repeat the question?

4 Q. (BY MS. REYES) Do you recall if Nathan Sigler  
5 was working with any of the county commissioners on  
6 redistricting?

7 MS. OLALDE: Same objection.

8 A. I don't -- I don't know. I'm not aware other  
9 than what we had previously talked about.

10 Q. (BY MS. REYES) Are you referring to -- what  
11 are you referring to, previously talked about?

12 A. The -- Commissioner Clark -- there was a talk  
13 about Commissioner Clark asking about the census tracts  
14 and the H-GAC meeting and Census Bureau meeting.

15 Q. And what -- do you know what Commissioner Clark  
16 was asking in relation to redistricting?

17 A. No, I do not.

18 Q. Did Mr. Sigler ever follow up with you on any  
19 of the work that he was doing with Commissioner Clark  
20 regarding redistricting?

21 A. Not that I recall.

22 Q. And so when we were talking about  
23 Commissioner Clark and it was in the earlier -- it was  
24 in the context of the census issue is what you said  
25 earlier and if you recall, you mentioned that that work

1 was being done prior to 2020; correct?

2 A. Correct, correct.

3 Q. Okay. And then the redistricting work was  
4 being done after 2020?

5 A. Correct.

6 Q. So was Commissioner Clark working with  
7 Nathan Sigler on this project throughout those -- that  
8 time then before the census and after the census?

9 MS. OLALDE: Objection; form and asked and  
10 answered. You can answer.

11 A. I'm not aware of the extent or when  
12 Commissioner Clark or -- I'm not aware of the extent of  
13 Commissioner Clark's involvement.

14 Q. (BY MS. REYES) I am going to -- so other than  
15 Commissioner Clark, then to your knowledge Mr. Sigler  
16 wasn't working with any of the other commissioners?

17 MS. OLALDE: Objection; asked and answered  
18 but you can answer.

19 A. Working -- can you explain working and what --

20 Q. (BY MS. REYES) Did any of the -- to your  
21 knowledge did any of the county commissioners speak to  
22 Mr. Sigler about the redistricting?

23 MS. OLALDE: Same objection.

24 A. I -- I don't know the extent of what the  
25 conversations and what commissioners discussed with

1 Nathan Sigler.

2 Q. (BY MS. REYES) To your knowledge were there  
3 any discussions between Nathan Sigler and any of the  
4 commissioners about redistricting?

5 A. Not to my knowledge.

6 Q. Did any of the commissioners reach out to you,  
7 speak to you about redistricting?

8 A. Not that I recall.

9 Q. Did the county judge reach out to you about  
10 redistricting?

11 A. No.

12 Q. Did any of the other county staffers reach out  
13 to you about redistricting?

14 A. There was a request to make Nathan available to  
15 assist.

16 Q. Do you know on -- assist specifically with  
17 what?

18 A. With redistricting.

19 Q. Did they tell you the -- what specifically he  
20 would be doing?

21 A. No. Well, not that I recall.

22 Q. Did you ask?

23 A. No.

24 Q. Why not?

25 A. It's not something I need to be involved in.

1 Q. And why do you say that?

2 A. It's not something that I do as a function of  
3 engineering.

4 Q. Do you know why specifically someone from your  
5 office was asked to work on it?

6 A. I believe because it had a mapping component.

7 Q. You mentioned that Mr. Sigler used a software  
8 to draw maps; is that correct?

9 A. I -- I don't recall if I mentioned that but I  
10 can -- but there is a mapping software that  
11 Nathan Sigler uses.

12 Q. Do you know what that software is?

13 A. It's called ESRI, and I don't know the exact  
14 name. E-s-r-i.

15 Q. Can you use that software?

16 A. I -- I use maps that Nathan creates with that  
17 software.

18 Q. When do you use that?

19 A. Everyday.

20 Q. What do you use it for?

21 A. To look to see where parcels and ownership of  
22 property, who owns property in particular having to do  
23 with permit or flooding information. There's aerial  
24 photography involved as one of the layers in the  
25 software so I'm able to see where county roads --

1 maintained county roads are and where property is  
2 located.

3 Q. Okay. Do you know how to make maps on ESRI?

4 A. No, I do not.

5 Q. Is there anything else that you use ESRI for?

6 A. For floodplain. There's layers for floodplain  
7 areas that I look at. There's different layers for  
8 where city limits are so I can understand if someone is  
9 in the city limits or whether they are in the  
10 unincorporated part of the county to know whether or not  
11 it falls under our jurisdiction. There may be some  
12 other reasons that I don't recall right now.

13 Q. Did anyone else in your office work on  
14 redistricting aside from Nathan Sigler at any point?

15 A. I'm not aware of anyone else in my office  
16 involved in that at all.

17 Q. Did you ask if anyone else in your office was  
18 working on it?

19 A. No, I did not ask.

20 Q. Who specifically asked you to make sure  
21 Nathan Sigler was available to help with redistricting?

22 A. Tyler Drummond.

23 Q. Who's Tyler Drummond?

24 A. He's the chief of staff in Judge Mark Henry's  
25 office.

1 Q. Did you have any other communications with  
2 Tyler Drummond about the redistricting process?

3 A. Other than making sure he was available. I  
4 didn't have any other conversations.

5 Q. So he never followed up with you about Nathan,  
6 Nathan Sigler's work?

7 A. No.

8 Q. Okay. And you mentioned that Mr. Sigler  
9 received guidance from counsel on how to draw lines and  
10 maps. Do you know how he received this guidance?

11 MS. OLALDE: Objection; form, misstates  
12 prior testimony, and asked and answered. You can  
13 answer.

14 A. I -- I'm not aware of what direction Nathan was  
15 given.

16 Q. (BY MS. REYES) Did you ever ask?

17 A. No.

18 Q. Do you know if he met with counsel in person?

19 A. I don't know.

20 Q. Do you know if he was e-mailing with counsel?

21 A. I don't know.

22 Q. Do you know if he talked on the phone with  
23 counsel?

24 A. I -- I believe he did.

25 Q. Did he ever tell you the substance of those

1 conversations?

2 A. I'm trying to remember if he -- if there was  
3 any substance other than --

4 MS. OLALDE: And I'm going to ask you not  
5 to reveal any -- if there were any conversations with  
6 attorneys that Mr. Sigler communicated to you, I'm going  
7 to ask that if you recall those that you do not testify  
8 about them because we are asserting the attorney/client  
9 and attorney work product privileges.

10 MS. REYES: And, Ms. Olalde, per our  
11 current pending privilege objections, I would ask that  
12 if any of those conversations involve specifically  
13 Dale Oldham, we would object to the assertion of  
14 privilege again and reserve the right to keep this  
15 deposition open pending resolution of that issue with  
16 the Court.

17 MS. OLALDE: So, Mr. Shannon, just to make  
18 it clear for you, we have to do that for the record for  
19 our own motion practice in front of the Court, but if  
20 you don't recall anything, then you can testify about  
21 that or even if it's privileged, any conversations with  
22 Mr. Oldham you can testify about that. But I ask that  
23 you not testify about any substantive communications  
24 that you recall with Mr. Oldham that have been  
25 communicated to you.

1 THE WITNESS: Okay. So...

2 MS. OLALDE: I'm sorry. Bernadette, would  
3 you mind repeating the question?

4 THE WITNESS: Yes.

5 MS. REYES: I'm sorry. Court reporter, can  
6 you repeat the last question?

7 (Requested portion was read)

8 A. I don't recall any substance of the  
9 conversations.

10 Q. (BY MS. REYES) Okay. Do you recall if he  
11 ever told you about them?

12 A. I don't -- I don't recall if he told me any  
13 substance -- well, I do recall that he would tell me  
14 that he is talking with the attorneys.

15 Q. Okay. Did you know how often he was talking  
16 with the attorneys?

17 A. No, I don't.

18 Q. Okay. Yeah, I think I wanted to go back to --  
19 do you know -- you said your office was -- specifically  
20 Mr. Sigler was involved with the census issues. Does  
21 your office collect census data?

22 A. We do not collect census data. We do  
23 receive -- we do receive data that the Census Bureau  
24 provides.

25 Q. Do you forward that data then?

1           A. I don't -- I don't know the particulars. That  
2 is something that Nathan Sigler is involved in and how  
3 Census Bureau is collect -- is received.

4           Q. If someone from the county wanted specific  
5 population data, for example, would they go to your  
6 office for that information?

7           A. At times that does occur.

8           Q. Okay. Does your office have the demographic  
9 data of the county?

10          A. I don't know -- I'm not familiar with what  
11 demographic data we have. My understanding is is that  
12 there is some demographic data that the Census Bureau  
13 has provided.

14          Q. But you don't -- you don't know what  
15 specifically your office has?

16          A. I do not know the extent or what that  
17 information is.

18          Q. Okay. Who does know that?

19          A. Nathan Sigler.

20          Q. Okay. So if someone from the county needed  
21 this information, they could get it from your office.  
22 Is that an accurate statement?

23                   MS. OLALDE: Objection; asked and answered;  
24 calls for speculation. You can answer.

25          A. They would be -- they could -- they could get

1 the information.

2 Q. (BY MS. REYES) Okay. During the redistricting  
3 process, did anyone request population data of Galveston  
4 County from your office?

5 MS. OLALDE: Objection; asked and answered.  
6 You can answer.

7 A. I don't -- I don't recall.

8 Q. (BY MS. REYES) Do you recall if anyone from  
9 the county, and this includes the county commissioner or  
10 the county judge, asked for any of the demographic data  
11 for Galveston County during the redistricting process?

12 A. I don't recall if that occurred.

13 Q. Who would they have -- if somebody were looking  
14 for this information, who would they go to specifically  
15 in your office?

16 MS. OLALDE: Objection; form and calls for  
17 speculation, but you can answer to the extent you  
18 understand.

19 A. The request come -- again, Nathan Sigler is the  
20 storer of that information, is familiar with that  
21 information, and he would be the one that would respond  
22 to those requests.

23 Q. (BY MS. REYES) Does he tell you when those  
24 requests come in?

25 A. Some -- sometimes he does.

1 Q. Is there a specific reason why -- is there a  
2 specific situation where he would tell you?

3 A. He generally --

4 Q. When -- go ahead.

5 A. He generally pops his head in my office and  
6 says, oh, somebody has asked -- I've got a request for a  
7 map from somebody. I've got a request, and then he'll  
8 pop his head back out.

9 Q. So did he ever tell you why he is informing you  
10 of those specific requests?

11 A. He doesn't tell me why he's informing me of  
12 those requests.

13 Q. So to your knowledge then did anyone request  
14 demographic data from Mr. Sigler?

15 MS. OLALDE: Objection; asked and answered.  
16 You can answer again.

17 A. I don't recall -- I don't recall.

18 Q. (BY MS. REYES) Then if you could, could you  
19 tell me your understanding of what the redistricting  
20 process entailed?

21 A. My understanding is the -- what I can tell you  
22 it is my understanding as it applies to what Nathan was  
23 involved in is really all I know about the redistricting  
24 process, and my understanding on that was that Nathan  
25 was to assist in the -- assist and take direction to

1 produce a map.

2 Q. And that's it?

3 A. I don't know of any -- any other function that  
4 Nathan was involved in.

5 Q. Okay. But outside of -- outside of Nathan's  
6 involvement, anything else you know about the  
7 redistricting process that was taking place in Galveston  
8 County?

9 A. Well, I know that every 10 years based on  
10 population shifts lines need to be -- lines need to be  
11 re-drawn based on population shift.

12 Q. Did you ever see the maps that Nathan drew?

13 MS. OLALDE: Objection; misstates prior  
14 testimony; calls for speculation; but you can answer.  
15 You can answer.

16 A. Can you repeat the question?

17 Q. (BY MS. REYES) Did you ever see the maps that  
18 Nathan drew?

19 MS. OLALDE: Same objection.

20 A. I did see the maps Nathan drew.

21 Q. (BY MS. REYES) Did you have any edits to those  
22 maps that he drew?

23 A. No.

24 Q. Did you ever speak to him about the maps that  
25 he drew?

1 MS. OLALDE: Objection; misstates prior  
2 testimony; calls for speculation; asked and answered.  
3 Go ahead.

4 A. Can you repeat the question?

5 Q. (BY MS. REYES) Did you ever -- I believe it  
6 was speak to him about the maps that he drew?

7 MS. OLALDE: Same objections.

8 A. I don't recall if I ever spoke to him about the  
9 maps he drew.

10 Q. (BY MS. REYES) Do you have any opinion about  
11 the maps that he drew?

12 MS. OLALDE: Objection; calls for  
13 speculation; asked and answered; form. Go ahead.

14 A. I -- I don't have an opinion on either on --  
15 there were two maps, and I don't have an opinion on  
16 those maps.

17 Q. (BY MS. REYES) When did you see those maps for  
18 the first time?

19 A. I don't know the exact date but it had -- it  
20 was -- it may have been a day or two before they were  
21 published on the county website.

22 Q. And who published them on the county website?

23 A. I don't know who did that.

24 Q. Do you know if it was someone from your office?

25 A. I don't know if it was someone from my office.

1 Q. To your knowledge did anyone other than  
2 Mr. Sigler draw any maps for the redistricting process?

3 MS. OLALDE: Objection; misstates prior  
4 testimony; asked and answered; and form.

5 A. I -- I don't know.

6 Q. (BY MS. REYES) Did Mr. Sigler ever tell you if  
7 anyone else was drawing any other map?

8 A. No, he did not.

9 Q. Outside of the counsel that you mentioned that  
10 was hired by the county, did Mr. Sigler ever mention  
11 working with anybody else during the redistricting  
12 process?

13 A. He did mention that he was -- he did mention  
14 that Tyler Drummond asked that he work on the project,  
15 make sure that -- to work on the project, on the  
16 redistricting map.

17 Q. Do you know how often he was communicating with  
18 Mr. Drummond about redistricting?

19 A. No.

20 Q. Did Mr. Drummond -- I know you mentioned him  
21 before when he asked you to ensure that Sigler was  
22 available to work on redistricting. Any other time he  
23 reached out to you?

24 MS. OLALDE: Objection; asked and answered.

25 A. Not that I recall.

1 Q. (BY MS. REYES) I am going to pull up what --  
2 sorry. I'm going to pull up an exhibit. I'm getting  
3 used to doing this virtually so please excuse me. I'm  
4 going to pull up what I would ask to be marked as  
5 Exhibit 1.

6 (Exhibit 1 marked)

7 MS. REYES: Let me share my screen.

8 MS. OLALDE: Bernadette, will you drop a  
9 copy in the chat and/or via e-mail, please?

10 MS. REYES: Yes. Let me add this to the  
11 chat.

12 Q. (BY MS. REYES) And so to confirm that they  
13 have this.

14 A. I see it.

15 Q. Okay. I'm going to give you a chance to look  
16 it over. I'll scroll down. There are two pages. Just  
17 let me know when you need me to scroll down.

18 A. Can you enlarge it just a little?

19 Q. Yes. Better?

20 A. That's good. Better.

21 MS. OLALDE: I'm putting my laptop next to  
22 him so he can also look through it.

23 MS. REYES: Okay. And I'll represent that  
24 this is Bates Numbered DEFS00019470.

25 A. Okay.

1 Q. (BY MS. REYES) I'll scroll down.

2 A. Okay.

3 Q. Okay. So what I'm showing you is an e-mail  
4 that was sent October 18, 2018, to you, Michael Shannon  
5 and it doesn't have a From line; but it says, "good  
6 morning, I hope I'm not disturbing you; I just wanted to  
7 forward you this e-mail I received from  
8 Commissioner Clark. He stopped by yesterday and briefly  
9 explained to me that the H-GAC is working on the 2020  
10 census and that he wanted me to make some changes  
11 concerning the census tracts. He also wanted to make  
12 several different redistricting proposal maps. I will  
13 keep you posted as things develop."

14 Do you know who this e-mail is from?

15 A. I believe it's from Nathan Sigler.

16 Q. And he mentions that Commissioner Clark wanted  
17 to -- him to make some changes concerning census tracts.  
18 Do you know what changes those were?

19 A. I do not.

20 Q. Did Mr. Sigler ever speak to you about those  
21 changes?

22 A. He did -- he did mention that the -- in  
23 preparation of the census collection process the Census  
24 Bureau needed census tracts to be split because the  
25 population reached a certain threshold, and that's the

1 rules of the Census Bureau and that -- I don't recall  
2 any particulars on which census tracts or how they were  
3 to be split.

4 Q. And he also mentioned several redistricting  
5 proposal maps. Did you ever see any redistricting  
6 proposal maps from Commissioner Clark?

7 A. I don't recall any from Commissioner Clark.

8 Q. Did Mr. Sigler ever send you any redistricting  
9 proposal maps in the time period after and around  
10 October 18th, 2018?

11 A. I don't recall any from that time frame.

12 Q. So when he says, I will keep you posted as  
13 things develop, did you ever receive any follow-up  
14 communication from Mr. Sigler about this?

15 A. I don't recall any. There were some follow-up  
16 meetings that took place.

17 Q. Meetings with who?

18 A. With -- that's with these workshops as referred  
19 to in this e-mail.

20 Q. But were there ever any follow-up meetings  
21 on -- involving redistricting proposals that  
22 Commissioner Clark had?

23 A. Not that I'm aware of.

24 Q. In 2018 -- that was before the census was  
25 completed; is that correct?

1 A. Correct.

2 Q. Do you know why Commissioner Clark had  
3 redistricting proposals for that time?

4 MS. OLALDE: Objection; calls for  
5 speculation.

6 Q. (BY MS. REYES) To the best of your  
7 recollection?

8 A. I do -- I don't know.

9 Q. Do you know if redistricting was taking place  
10 in 2018?

11 A. Not to my knowledge.

12 Q. Do you know if there was any follow-up from  
13 Commissioner Clark after the census came out about any  
14 redistricting proposals he had with anyone from your  
15 office?

16 A. I don't -- I don't recall any.

17 Q. And between 2018 and when redistricting  
18 started, did Commissioner Clark ever approach you about  
19 any redistricting proposals he had?

20 A. I don't recall any.

21 Q. Stop, share. Now, I am going to pull up what I  
22 am going to mark as Plaintiffs' Exhibit 2 and figure out  
23 how to share this one in chat.

24 (Exhibit 2 marked)

25 MS. REYES: And if everyone can confirm

1 that it shows up in the chat.

2 MS. OLALDE: I've not seen it yet.

3 THE WITNESS: It showed up in the chat  
4 here.

5 MS. OLALDE: Oh, this one? Okay. Sorry.

6 MS. REYES: Yeah, that's fine. And I will  
7 share my screen.

8 MS. OLALDE: Just one second, I can open  
9 it and let Mr. Shannon take a look and have control.

10 MS. REYES: And it's also screen sharing  
11 right now.

12 MS. OLALDE: I know, but it's nice to be  
13 able to look at a document.

14 MS. REYES: Oh, of course.

15 A. I'm just going to slide this over so I can see  
16 the screen.

17 Q. (BY MS. REYES) And for the record, this is  
18 Bates Numbered DEFS00004614.

19 A. Okay.

20 Q. Okay. So what I'm showing you is an e-mail,  
21 from Nathan Sigler sent to you on Friday, October 29th,  
22 2021, and it contains a link to a website. Do you know  
23 what this website is?

24 A. I -- I can only speculate because of the  
25 subject line. It looks like it's a redistrict map.

1 MS. OLALDE: Don't speculate.

2 THE WITNESS: Okay.

3 MS. OLALDE: And I think -- I'm sorry, I  
4 don't mean to interrupt, but, Bernadette, I'm sure you  
5 have the same instruction.

6 Q. (BY MS. REYES) Do you know why he's sending  
7 you this link?

8 A. I guess to -- I don't know why he sent me the  
9 link.

10 Q. And would it refresh your recollection if you  
11 were able to see the website, the link that he sent?

12 A. Yes.

13 Q. Okay.

14 MS. REYES: Let me open that up. I'm  
15 sending it in the chat, and then I'll screen share what  
16 I'm sending and will be screen sharing will be marked  
17 as Exhibit 3.

18 (Exhibit 3 marked)

19 A. Okay. I see that.

20 Q. (BY MS. REYES) Okay. So I'm going to  
21 represent to you that this is the web page to the link  
22 that was shown to you. I'm not sure if your counsel has  
23 the document open as well so you can scroll through. If  
24 not, let me know if I need to scroll through for you.

25 A. I have it here.

1 Q. Okay.

2 A. Okay.

3 Q. Okay. Now, having seen the website, do you  
4 recall why Mr. Sigler would be sending you this link?

5 A. I think it was to show me that he had completed  
6 his task that he was asked to perform.

7 Q. What task would that be?

8 A. To produce redistricting maps.

9 Q. Okay. Did anyone from your office work on this  
10 website?

11 A. Not that I'm aware of.

12 Q. Now, if it -- I'm scrolling down to the end of  
13 Page 2 and start of Page 3. If you can see, there is  
14 the Public Comment Section. Do you -- do you know where  
15 the public comments that were submitted on this website  
16 went?

17 A. No, I don't.

18 Q. Do you know if they went to your office?

19 A. They -- I don't know if they went to my office.  
20 I haven't seen any of the public comments.

21 Q. So to the best of your knowledge then, did  
22 anyone from your office receive public comments on the  
23 maps?

24 MS. OLALDE: Objection; asked and answered.

25 A. No. No one from my office to the best of my

1 knowledge received any comments.

2 Q. (BY MS. REYES) And do you know which map out  
3 of these two ended up being adopted by the county?

4 A. The Map Number 2.

5 Q. Do you know why that map was adopted?

6 A. No, I do not.

7 Q. Did anyone ever speak to you about the  
8 differences between the two maps?

9 A. In what capacity? I'm -- I guess --

10 MS. OLALDE: Are you asking her to  
11 rephrase?

12 A. Yeah, can -- yeah, can you rephrase? I'm  
13 trying to understand what context they would talk to me  
14 about the differences.

15 Q. (BY MS. REYES) Let's start with your role as  
16 county engineer. Did anyone approach you and just ask  
17 you generally about any opinions you had on the map?

18 A. I don't recall anyone asking that information.

19 Q. And when I ask "anyone," I'm referring to both  
20 county employees, any members of the county commission,  
21 or the county judge and the staffers?

22 A. I don't recall anyone asking me the differences  
23 between the two.

24 Q. In looking at these maps, can you describe to  
25 me what the differences are between the two?

1           A. What I see is that Precinct 2 expands to  
2 include the Bolivar Peninsula and then shifts further  
3 south in the western side of the county. Precinct 1  
4 shrank -- excuse me. I'm trying -- the first map has  
5 Precinct 3 as the Bolivar Peninsula as well as an area  
6 through the central part of the county. Precinct 1  
7 looks -- looks very similar. Precinct 4 shifts to the  
8 south, and then the second map, Precinct 3 includes what  
9 appears to be parts of Friendswood, League City, and  
10 Dickinson.

11           Q. Do you know why these two maps were drawn the  
12 way that they were?

13           A. No, I do not.

14           Q. Did anyone ever tell you why?

15           A. No.

16           Q. Do you have an opinion as to why these maps  
17 were drawn the way they were?

18                   MS. OLALDE: Objection; asked and answered.

19           A. I don't. I don't know why they were drawn the  
20 way they were.

21           Q. (BY MS. REYES) And I believe you mentioned,  
22 again, correct me if I'm wrong, that Mr. Sigler showed  
23 you these maps before they were published on the  
24 website; is that correct?

25           A. It may have been through this e-mail.

1 Q. Okay. So once they were on the website,  
2 that's -- is it safe to say that was the first time you  
3 saw them?

4 A. It may have been the day before. It may have  
5 been the day before saying that these were what he's  
6 finished with, and that he's complete with his  
7 involvement.

8 Q. Okay. Did you do any follow-up with him after  
9 that?

10 A. No.

11 Q. Do you know when these maps -- when the Map 2  
12 was adopted?

13 A. I know it was adopted at a commissioner's court  
14 meeting in, I believe it was 2021 in November.

15 Q. Were you at that meeting?

16 A. No.

17 Q. Why not?

18 A. I didn't have any agenda items on that  
19 commissioner's court meeting.

20 Q. Do you know what the demographic is of  
21 Galveston County?

22 A. Generally. Not in any level of detail.

23 Q. Can you tell me the extent of your knowledge of  
24 the demographic of Galveston County?

25 A. I think -- can you -- can you let me know what

1 | types of demographics you're referring to?

2 | Q. Let's talk about racial and ethnic group  
3 | population.

4 | A. Okay. My understanding is that in general the  
5 | northern part of the county, Friendswood, League City,  
6 | have a larger white population. Areas in southern part  
7 | of the county are -- have a larger minority population.

8 | Q. Okay. I guess in terms of the maps then, can  
9 | you tell me where the particular minority populations  
10 | are, what precincts around are they?

11 | MS. OLALDE: Objection; calls for  
12 | speculation.

13 | Q. (BY MS. REYES) Based on your knowledge of  
14 | Galveston County and the demographics?

15 | A. In -- I don't know where that shift occurs in  
16 | the demographics, but in general the northern part of  
17 | the county does have a larger white population than the  
18 | southern part of the county.

19 | Q. But are you able to point out where -- like,  
20 | what specific districts, for example, would have more of  
21 | a minority population versus a white population?

22 | MS. OLALDE: Objection; asked and answered;  
23 | calls for speculation.

24 | A. In general the northern part of the county does  
25 | have a larger white population than the southern part of

1 the county. I don't know where that split occurs.

2 Q. (BY MS. REYES) Okay. I am going to show you  
3 what is going to be marked as Plaintiffs' Exhibit 4, and  
4 we'll send it in the chat as well.

5 (Exhibit 4 marked)

6 Q. (BY MS. REYES) Okay. Are you able to see  
7 that?

8 A. I need it enlarged.

9 MS. OLALDE: Hold on just a second, and  
10 I'll get this in front of Mr. Shannon. Just one second.

11 Q. (BY MS. REYES) And I'll represent that this is  
12 Bates Number DEFS00003873.

13 Okay. So what I'm showing you is an e-mail  
14 from you dated October 12th, 2021 (verbatim) to Ken  
15 Clark, cc'ed Nathan Sigler, the Subject is Forward:  
16 Voting Precincts.

17 So you say, "Commissioner Clark, Here is a  
18 list of voting precincts showing which Commissioner  
19 Precincts, JP/Constable Precincts, State Representative,  
20 and State Senate seat, Michael."

21 And at the very bottom you state -- it's an  
22 e-mail to Mr. Sigler saying, "Commissioner Clark needs a  
23 list of voting precincts for each JP, Constable, and  
24 State Representative."

25 Can you tell me when Mr. Clark reached out

1 to you about getting this information and what the  
2 context was?

3 A. I believe it was a phone call. He may have  
4 called me that Sunday, October 11th, and asked for that  
5 information. So I -- so I sent an e-mail to Nathan to  
6 provide that information to Commissioner Clark.

7 Q. Was it normal for commissioners to reach out to  
8 you on weekends?

9 A. Only Commissioner Clark would do that.

10 Q. Do you know why?

11 A. No, I don't know why.

12 Q. Do you know what he did with this information?

13 A. No, I --

14 MS. OLALDE: Objection; calls for  
15 speculation. You can answer.

16 A. I do not know.

17 Q. (BY MS. REYES) Did he ever follow up with you  
18 about the information that you sent him?

19 A. No, he did not.

20 Q. Did you ever follow up with him --

21 A. No.

22 Q. -- about this information?

23 A. No.

24 Q. Did you have any further contact with  
25 Commissioner Clark about the voting precinct or the

1 commissioner precinct after sending this e-mail?

2 A. Not in the context of this -- not that I recall  
3 any follow-up.

4 Q. In the context of redistricting, I know I asked  
5 you about public comments from the website, and you said  
6 as far as you know your office didn't receive them. Did  
7 you receive any inquiries just generally from the public  
8 about anything regarding the redistricting process?

9 MS. OLALDE: Objection; asked and answered.

10 A. I don't recall any -- any inquiries.

11 MS. REYES: Ms. Olalde, I think -- well,  
12 it's 9:52 here. Do you mind if we take, like, a  
13 five-minute break?

14 MS. OLALDE: Did you want to to break for  
15 lunch? I know that with the time zones it's almost noon  
16 here so...

17 MS. REYES: Oh, yeah, sorry. Yeah, I  
18 forgot it's 10:00 a.m. Yeah, I think we can break for  
19 lunch if that's okay with everyone else. I don't know  
20 how much time you folks need.

21 MS. OLALDE: I don't think we need too  
22 long. Maybe half an hour, 40 minutes top.

23 THE WITNESS: Yeah, 30.

24 MS. REYES: Okay. Let's take 40 minutes  
25 then.

1 THE VIDEOGRAPHER: Okay. The time on the  
2 monitor is 11:53 a.m., and we are off the record.

3 MS. REYES: Okay. Great. Can we get into  
4 the break out-rooms again?

5 THE VIDEOGRAPHER: Yes.

6 (Break taken from 11:53 a.m. to 12:42 p.m.)

7 THE VIDEOGRAPHER: All right. Let me get  
8 the recording started again. Okay. The time on the  
9 monitor is 12:42 p.m., and we are back on the record.

10 MS. REYES: Okay. Thank you.

11 MS. OLALDE: Sorry. Mr. Shannon did want  
12 to clarify something from his prior testimony.

13 THE WITNESS: Yeah, I want to clarify  
14 characterization of what I knew about Nathan Sigler's  
15 involvement in producing the maps. I think I had  
16 mentioned that he had drawn maps but I -- I don't  
17 know -- I don't have knowledge of what he was asked to  
18 do or what product he actually did produce.

19 Q. (BY MS. REYES) Can you clarify then why you  
20 mentioned that he drew maps? What did you base that  
21 answer on?

22 A. I think it's in response to one of your  
23 questions, when Nathan drew the maps and I -- I think I  
24 repeated, well -- when Nathan drew the maps, I think I  
25 repeated your question.

1 Q. So to the best of your knowledge then, do you  
2 know if he drew any of the maps then or drew any of the  
3 lines in the maps?

4 A. I don't know if he did.

5 Q. The maps that he sent on the website then, do  
6 you know who drew those?

7 A. I do not know who drew those.

8 Q. Did Nathan Sigler know who drew those?

9 MS. OLALDE: Objection; calls for  
10 speculation.

11 A. I don't know if Nathan knows.

12 Q. (BY MS. REYES) Did you ever ask Nathan?

13 A. I never asked Nathan.

14 Q. Do you know if anyone else in your office might  
15 have drawn those maps?

16 A. No one that I'm aware of drew those maps. I --  
17 I don't know who drew those maps.

18 Q. Okay. I am going to show -- I am going to pull  
19 up an exhibit. I am sending it to the chat and you  
20 should receive it momentarily, and then I'll share my  
21 screen.

22 Okay. Are you able to see that,  
23 Mr. Shannon?

24 MS. OLALDE: Hold on, I don't see it yet.

25 A. I see it on the screen.

1 MS. OLALDE: I just don't see it in the  
2 chat. Sorry. I just wanted to make sure you could --

3 MS. REYES: That's fine. I think there's a  
4 bit of delay.

5 MS. OLALDE: What's it -- what tab is it --  
6 number is it going to be called?

7 MS. REYES: It's Tab 14.

8 MS. OLALDE: Okay.

9 MS. REYES: And for the record, it starts  
10 with Bates Number DEFS00030080.

11 MS. OLALDE: Is it a large file or --

12 MS. REYES: It's not. It's showing up on  
13 my end as being sent.

14 MS. OLALDE: You did?

15 MS. REYES: Yeah. I can send it again.

16 MS. OLALDE: Do you have it? I don't have  
17 it. I don't know why my chat's not working. I'm so  
18 sorry. Just one second.

19 MS. REYES: Yeah. I'll send it again, too.

20 MS. OLALDE: Okay. Technical difficulties  
21 done.

22 THE WITNESS: Okay.

23 MS. REYES: Okay. Perfect. Thanks.

24 Q. (BY MS. REYES) So what I'm showing you is an  
25 e-mail that says, From Nathan Sigler, Sent February 1st,

1 | 2021, To Michael Shannon, Subject: Block Group Counts  
2 | with some attachments. So in the body of it it says  
3 | block group counts, and I'm going to scroll down a  
4 | little bit for you to see the rest of the map. And it  
5 | looks like here there is a map with a legend that says  
6 | African American/Black counts and then a legend that  
7 | says Hispanic counts.

8 | A. Okay.

9 | Q. Okay. So do you recall receiving this e-mail?

10 | A. I -- I don't recall this particular e-mail.

11 | Q. Do you know why Mr. Sigler is sending you this  
12 | e-mail?

13 | A. I do -- I don't know why I received this.

14 | Q. Do you know what these maps show?

15 | A. They show -- well, reading the map it shows  
16 | African American/Black count with gradations of areas in  
17 | the county.

18 | Q. So what do you -- when it says -- how do you  
19 | interpret African American/Black count? What do you  
20 | interpret that to mean?

21 | MS. OLALDE: Objection; calls for  
22 | speculation. You can answer.

23 | A. I think that's population information.

24 | Q. (BY MS. REYES) So population of African  
25 | American/Black?

1 A. African American, correct.

2 Q. Okay. And what do you understand the color  
3 gradations to mean?

4 MS. OLALDE: Objection; calls for  
5 speculation.

6 Q. (BY MS. REYES) Based on what you're seeing in  
7 front of you?

8 A. That the darker shading represents a higher  
9 count.

10 Q. And I'm going to scroll down to this legend  
11 that says Hispanic count. Can you explain to me what  
12 you see on this map?

13 A. The same as the previous map for Hispanic  
14 population.

15 Q. And how do you interpret the different colors  
16 on the map?

17 MS. OLALDE: Objection; calls for  
18 speculation.

19 A. That the darker the shading the higher the  
20 population.

21 Q. (BY MS. REYES) Having seen this map, does  
22 that refresh your recollection at all as to why  
23 Mr. Sigler sent you this information?

24 A. No, it does not.

25 Q. Do you know where he got this information from

1 that he sent you?

2 A. No, I don't.

3 Q. Is this the type of information that your  
4 office has, the county engineer's office?

5 MS. OLALDE: Objection; calls for  
6 speculation.

7 A. I don't know where the information came from.

8 Q. (BY MS. REYES) Do you know if the county  
9 engineer's office contains the type of information  
10 necessary to make a map like this?

11 A. If it's included -- I don't know if this is  
12 included in information that the Census Bureau provides,  
13 but we do have information that the Census Bureau  
14 provides.

15 Q. So you're saying you don't know necessarily  
16 exactly where he got this information?

17 A. I don't know --

18 MS. OLALDE: Objection; asked and answered.

19 Q. (BY MS. REYES) Do you know if he sent this  
20 information to anyone else?

21 MS. OLALDE: Objection; calls for  
22 speculation.

23 A. I -- I don't know.

24 MS. REYES: And, Ms. Olalde, I would ask  
25 that -- if you could limit your objections to form so as

1 to not suggest an answer to the witness.

2 MS. OLALDE: I'm certainly not suggesting  
3 any answer to the witness. What I am trying to do is  
4 make sure that the record is clear, and if you ask  
5 Mr. Shannon what somebody else did or what somebody else  
6 thought, it absolutely calls for speculation. And I  
7 want that to be clear on the record.

8 MS. REYES: I am asking him questions based  
9 on his role as the county engineer and his knowledge of  
10 what Mr. Sigler performed as an employee under his  
11 supervision.

12 MS. OLALDE: Perfect. And when your  
13 questions don't reflect that scope, then I'll make my  
14 objections accordingly.

15 Q. (BY MS. REYES) So to your knowledge then  
16 Mr. Sigler did not send this information to anyone?

17 A. I don't know.

18 MS. REYES: Okay. I'm going to pull up  
19 another exhibit. And that should be sending, and I will  
20 share the screen. Can folks confirm that they received  
21 the documents in the chat? And I'm sorry. I forgot to  
22 mention on the previous exhibit shared I ask that that  
23 be marked as Plaintiff Exhibit 5 and this current  
24 document be marked as Plaintiff Exhibit 6. And I'll  
25 represent for the record that this is Bates Numbered

1 DEFS00030084.

2 (Exhibits 5 and 6 marked)

3 Q. (BY MS. REYES) Okay. So what I'm showing you  
4 is an e-mail sent From you on February 1st, 2021, To  
5 Stephen Holmes, Subject: Forward Block Group Counts;  
6 and I'll represent the attachments are the same as the  
7 other e-mail. And you write, "Commissioner Holmes,  
8 attached are two files showing the minority population  
9 by census block in the county. One maps shows African  
10 American/Black population. The other Hispanic  
11 population."

12 Do you know why you sent this e-mail to  
13 Commissioner Holmes?

14 A. He -- he had requested that information.

15 Q. When did he request this information?

16 A. I don't know for certain, but it was shortly  
17 before -- before we responded with the information.

18 Q. So would you say maybe a few days before  
19 February 1st of 2021? Does that sound accurate?

20 A. That's most likely a few days.

21 Q. Okay. Did he explain -- how did he send you  
22 this request? Did he call you, e-mail you, pop into  
23 your office?

24 A. I -- I don't recall the particulars.

25 Q. How did -- did you normally get requests from

1 Commissioner Holmes to work on certain things or for  
2 certain information?

3 A. Very infrequent. There would be a -- he may  
4 call me with -- asking for certain information and from  
5 time to time very infrequently.

6 Q. Okay. When he did reach out to you for  
7 information, what mode did he use? Was it e-mail, in  
8 person, telephone, or any other way?

9 A. The most common would be a phone call.

10 Q. Okay. And what other types of requests did  
11 he -- did he have for you aside from this one here?

12 A. Pertaining to -- in what -- in what what scope  
13 are you asking the --

14 Q. Let's start with redistricting. Did he have  
15 any other requests for you regarding redistricting?

16 A. I don't recall any other requests for  
17 redistricting. In fact, you've refreshed my memory on  
18 this one.

19 Q. Okay. So did he explain to you why he wanted  
20 this information?

21 A. No.

22 Q. Did you ask?

23 A. No.

24 Q. Do you know if he reached out to Mr. Sigler for  
25 this information as well?

1 A. I do not know if he did.

2 Q. Do you know what, if anything, he did with this  
3 information?

4 A. No, I don't.

5 Q. Was there any further communication that you  
6 had with Commissioner Holmes about this information that  
7 you sent him?

8 A. I don't recall any.

9 Q. Did you send this information to anyone else in  
10 the county, and that ex -- includes county employees,  
11 county commissioners, the county judge, or any of the  
12 staff?

13 A. I don't recall sending it to anyone else.

14 Q. And do you recall if Nathan Sigler sent this  
15 information to anyone else?

16 A. I don't know.

17 Q. Did any other commissioners reach out to you  
18 for any information for the redistricting process  
19 similar to Commissioner Holmes?

20 A. I don't recall any similar requests.

21 Q. And when I say "similar," I don't mean  
22 requesting the exact same information. I just mean any  
23 requests involving the redistricting process.

24 MS. OLALDE: Objection; broad; vague; asked  
25 and answered as well.

1           A. Yeah, I don't recall any -- any requests from  
2 commissioners or county judge for information from my  
3 office.

4                   MS. REYES: I am going to share another  
5 exhibit.

6                           (Exhibit 7 marked)

7                   MS. REYES: The exhibit is sent and what I  
8 am sharing I ask to be marked as Plaintiffs' Exhibit, I  
9 believe, 7 is where I'm at right now.

10                   MS. OLALDE: 7.

11                   MS. REYES: For the record, it is Bates  
12 Numbered DEFS00004607.

13           Q. (BY MS. REYES) And I'm showing you an e-mail  
14 that doesn't have a From, but it says it was Sent  
15 September 23rd, 2021, and it says, "good morning,  
16 attached is the list Commissioner Holmes request" -- "is  
17 the list Commissioner Holmes requested. Based on the  
18 five year projections from the 2010 Census data.  
19 Because of COVID, the 2020 data is not available as of  
20 yet. The Census Bureau is hoping to have it no later  
21 than November 30th. As previously stated, some voting  
22 precincts are split between the Census Block Group or  
23 you will have a case of multiple voting precincts within  
24 the Census Block Group. This list is sorted by Voting  
25 Precincts, Census Tracts and Census Block Groups." And

1 it says it's from Nathan Sigler.

2 Do you recall receiving this e-mail?

3 A. I don't. I don't recall this e-mail.

4 Q. Do you believe this e-mail was intended for  
5 you?

6 MS. OLALDE: Objection; calls for  
7 speculation.

8 A. I don't know who it was intended for.

9 Q. (BY MS. REYES) Do you know if this e-mail  
10 would be sent to anyone other than you?

11 MS. OLALDE: Objection; calls for  
12 speculation.

13 A. I don't know.

14 Q. (BY MS. REYES) When it says, "attached is the  
15 list Commissioner Holmes requested based on the five  
16 year projections of the 2010 Census data. Because the  
17 COVID" -- "because of COVID the 2020 data is not  
18 available yet."

19 Were you aware of when the 2020 Census data  
20 was released?

21 A. No. I'm not aware.

22 Q. If I represent to you it was released in August  
23 of -- in August of 2021, does that sound accurate?

24 A. I --

25 MS. OLALDE: Objection; asked and answered.

1 Calls for speculation.

2 A. I'm not aware of when the census information  
3 was released.

4 Q. (BY MS. REYES) If I represent to you that it  
5 was released in the month prior to this e-mail, do you  
6 know why Mr. Sigler would not be providing that  
7 information to Commissioner Holmes?

8 MS. OLALDE: Objection; calls for  
9 speculation; compound; vague.

10 A. I don't know when the census information was  
11 released.

12 Q. (BY MS. REYES) What I'm asking though, if the  
13 census information had already been released, do you  
14 know why Mr. Sigler would not have provided that  
15 information to Commissioner Holmes, the information that  
16 he requested?

17 MS. OLALDE: Objection; asked and answered.  
18 Calls for speculation.

19 A. I am not sure when we received information.

20 Q. (BY MS. REYES) Again, Mr. Shannon, I'm not  
21 asking you if you know when information was received.  
22 I'm asking you if information was already received, do  
23 you know why Mr. Sigler would not have provided that  
24 information to Commissioner Holmes when requested?

25 MS. OLALDE: Objection; asked and answered;

1 calls for speculation.

2 A. I don't know whether or not it was -- I don't  
3 know the answer to your question.

4 (Exhibit 8 marked)

5 Q. (BY MS. REYES) Okay. So I am showing you what  
6 I'm asking to be marked as Plaintiffs' Exhibit 8, I  
7 believe. For the record, it is DEFS00004608. I have  
8 sent it in the chat as well. The top of it doesn't have  
9 a From but says it was Sent September 27th, 2021, To  
10 you, Michael Shannon, Subject: Commissioner Holmes  
11 Project. If you look further down, it says, From  
12 Nathan Sigler, Sent September 27, 2021, To  
13 Michael Shannon, Subject: Commissioner Holmes Project.

14 MS. OLALDE: Just a second. I'm sorry.  
15 For some reason the exhibits are not coming up in my  
16 chat so we're having to pull them up and e-mail them to  
17 me to show Mr. Shannon so just one second. Sorry, we  
18 got it.

19 MS. REYES: Okay. Perfect.

20 Q. (BY MS. REYES) Okay. So it says, "Hi Michael,  
21 attached are the lists for demographic breakdown,  
22 population breakdown, Commmissioner precincts breakdown,  
23 and voting precincts breakdown. As previously  
24 discussed, I have refrained from adding population data  
25 to the VP and Commissioner precincts due to splits and

1 multiple precincts within the census tracts. I have  
2 also included the map link below, it's ready for your  
3 approval (just use your ESRI credentials to sign in) I  
4 hope you get to feeling better."

5 Do you know what the Commissioner Holmes  
6 project was?

7 A. I think it's a request from Commissioner Holmes  
8 that Nathan received and so he e-mailed -- he titled  
9 this e-mail Commissioner Holmes project.

10 Q. So to your knowledge Commissioner Holmes had  
11 reached out to Mr. Sigler specifically?

12 A. I think that's what -- I think that's what had  
13 occurred.

14 Q. So to your knowledge Commissioner Holmes didn't  
15 reach out to you about this project?

16 MS. OLALDE: Objection; asked and answered;  
17 calls for -- go ahead.

18 (Reporter clarification)

19 MS. OLALDE: No, no. It's only asked and  
20 answered.

21 A. As I previously mentioned, Commissioner Holmes  
22 on occasion would call me with request for information.  
23 I don't know the particulars behind this particular  
24 e-mail, whether he contacted me or Nathan directly.

25 Q. (BY MS. REYES) Do you recall how many times

1 Commissioner Holmes contacted you during the  
2 redistricting process for matters related to getting  
3 information regarding redistricting?

4 A. I don't recall an exact amount.

5 Q. Was it more than once?

6 A. I would characterize it by around five or fewer  
7 times.

8 Q. And how did he contact you?

9 A. Typically it would be a phone call.

10 Q. And did any other commissioners contact you for  
11 any redistricting-related issues during the  
12 redistricting cycle?

13 A. Not that I recall.

14 Q. Do you know why Commissioner Holmes was  
15 requesting this information?

16 MS. OLALDE: Objection; calls for  
17 speculation.

18 A. I don't know why he wanted this information.

19 Q. (BY MS. REYES) Did Commissioner Holmes ever  
20 explain to you why he wanted this information?

21 A. No, he did not.

22 Q. Did you ever ask Commissioner Holmes?

23 A. No, I did not.

24 Q. Did you ever ask Mr. Sigler why  
25 Commissioner Holmes might have requested this

1 information?

2 A. No, I did not.

3 Q. Was Mr. Sigler submitting this for your  
4 approval? I mean, it actually says, it's ready for your  
5 approval so it is something that you had to sign off on?

6 A. This is nothing that I have the capacity -- no,  
7 I don't need -- there's no -- nothing in here that I  
8 could review or approve in this.

9 Q. Do you know why then he's saying it's ready for  
10 your approval?

11 MS. OLALDE: Objection; calls for  
12 speculation.

13 A. I believe it would be because Nathan -- that's  
14 Nathan's nature, how he operates.

15 Q. (BY MS. REYES) But can you elaborate a little  
16 bit on what you mean by that's his nature and how he  
17 operates?

18 A. He oftentimes will -- I guess my predecessor  
19 wouldn't let him do his job and under my -- under my  
20 leadership --

21 Q. I'm sorry, if we could just stop for a second.  
22 My sound cut out really quickly. I'm sorry, my sound  
23 just died for some reason. Hold on for just a second.  
24 Okay. Sorry. Technical difficulties on my end. Is  
25 someone speaking? I just want to make sure I can hear.

1 A. Can you hear? Can you hear?

2 Q. Oh, no, it's not working.

3 A. Can you hear me now?

4 Q. Now I can hear you. I apologize for that.

5 A. Okay.

6 Q. Okay. I'm sorry, it cut off a little bit. I

7 don't know if you can repeat that or if --

8 A. Can you --

9 Q. Ms. Griggs is able to repeat what was answered.

10 (Requested portion was read.)

11 Q. (BY MS. REYES) Okay. Okay. So, yeah, if you

12 can explain what you meant by it was in his nature,

13 essentially why he was --

14 A. My predecessor was Nathan's former boss, and my

15 understanding is is that Nathan didn't -- wasn't allowed

16 freedom to do his job, and he was in the habit of always

17 seeking approval for everything he did regardless of

18 what it was. And I think this is a habit that Nathan

19 developed over time.

20 Q. Okay. But this was not, I guess, policy that

21 you instituted?

22 A. No.

23 Q. Okay. Did you approve what he sent you?

24 A. I -- I didn't review it.

25 Q. You didn't review it?

1 A. I didn't review or approve.

2 Q. Why didn't you review it?

3 A. Because I have no criteria or expertise to  
4 understand what it is that needs approval.

5 Q. Did you assign to him in any way in this  
6 e-mail?

7 A. Not that I recall.

8 (Exhibit 9 marked)

9 Q. (BY MS. REYES) Okay. There should be another  
10 exhibit in the chat, and I am sharing I believe what is  
11 Plaintiffs' Exhibit 9; is that correct? Yes. And for  
12 the record, it's Bates Numbered DEFS00010412. It's From  
13 Nathan Sigler, Sent Monday, September 27th, 2021, To  
14 Michael Shannon, Subject: Commissioner Holmes project.  
15 He said, "I forgot to mention Commissioner Holmes does  
16 not have access to the maps as of yet. I wanted your  
17 approval first of the lists and map first, in case you  
18 wanted to change anything."

19 Did you make any changes to the map?

20 A. No, I didn't. No, I did not.

21 Q. Did you follow up to this e-mail from  
22 Mr. Sigler?

23 A. I believe I told him to get the -- to get  
24 Commissioner Holmes access. I don't know the nature of  
25 why he did not have access.

1 Q. Okay. So you don't know why Mr. Sigler did not  
2 directly give Commissioner Holmes access to this  
3 information?

4 A. I --

5 MS. OLALDE: Objection. Objection; calls  
6 for speculation.

7 A. I don't know.

8 Q. (BY MS. REYES) Did you tell Mr. Sigler to not  
9 give access to -- do not give Mr. Holmes access to this  
10 information yet?

11 A. No.

12 Q. Do you know if anyone else gave him that  
13 direction?

14 A. I don't know.

15 Q. Did you take any action in response to this  
16 e-mail?

17 A. I believe I told Nathan to provide the  
18 information so that Commissioner Holmes could access the  
19 information.

20 Q. And did you know what Commissioner Holmes did  
21 with this information or do you know if this information  
22 was sent to Commissioner Holmes?

23 A. I don't know for certain.

24 Q. Okay. Did Mr. Sigler ever follow up with you  
25 on this e-mail or the Commissioner Holmes project?

1 A. I don't recall.

2 Q. Now, after having seen those e-mails from  
3 Commissioner Holmes, related to Commissioner Holmes  
4 project, I want to ask you again: Did you -- do you  
5 recall any other projects for any other members of the  
6 Commission that the Galveston County Commission or from  
7 the County Judge's office in relation to the  
8 redistricting process?

9 A. I don't recall any other.

10 Q. Did you discuss this Commissioner Holmes  
11 Project with anyone else outside of Nathan Sigler?

12 MS. OLALDE: Objection; misstates  
13 testimony; calls for speculation. You can answer.

14 A. I guess it's -- I look at this as not a project  
15 but rather a request for information, but I did not  
16 recall discussing this with anyone outside of Nathan.

17 Q. (BY MS. REYES) Did anyone ask you about how  
18 any work that you were doing for Commissioner Holmes or  
19 specifically any information you were providing him?

20 A. I don't recall any requests like that --

21 Q. Did Mr. Sigler -- go ahead.

22 A. -- or any questions like that.

23 Q. All right. To your knowledge did anyone ask  
24 any of these questions of Mr. Sigler regarding his work  
25 with Commissioner Holmes?

1           A. I don't know that. I don't know if that  
2 occurred.

3                           (Reporter clarification)

4           A. Occurred.

5           Q. (BY MS. REYES) Did Mr. Sigler ask for your  
6 approval before sending information to any of the other  
7 commissioners?

8                           MS. OLALDE: Objection; calls for  
9 speculation.

10          A. I don't know if any other commissioners asked  
11 for any information.

12          Q. (BY MS. REYES) You mentioned that you worked  
13 with Commissioner Clark with the census issues and the  
14 redistricting. Did he ever ask your permission before  
15 sending information to Commissioner Clark?

16          A. I don't recall if he did.

17          Q. But to the best of your recollection, is there  
18 any -- do you recall any instances where he had -- where  
19 he did that? Sorry.

20                           MS. OLALDE: Objection; asked and answered.

21          A. Again, I don't recall.

22          Q. (BY MS. REYES) You mentioned Tyler Drummond  
23 had asked that you keep, if I recall this correctly,  
24 keep Mr. Sigler available to work on redistricting. Did  
25 he -- did Mr. Sigler ever ask for your approval before

1 sending any work to Mr. Drummond?

2 MS. OLALDE: Objection; calls for  
3 speculation.

4 A. I don't know what communications took place  
5 between Mr. Drummond and Nathan.

6 Q. (BY MS. REYES) I'm asking you though, if  
7 Mr. Sigler ever reached out to you to get your approval  
8 on any projects or anything that you're aware of that he  
9 worked on with Mr. Drummond during the redistricting  
10 process before sending information out to Mr. Drummond?

11 MS. OLALDE: Objection; vague, compound. I  
12 think there's, like, two or three questions in there.  
13 Can you rephrase it, please?

14 Q. (BY MS. REYES) Do you understand the question,  
15 Mr. Shannon?

16 A. It sounds that there's several questions in  
17 there. Is the question whether or not you asked -- did  
18 you ask me if I -- if Nathan approached me for approval  
19 before contacting -- before contacting Tyler Drummond?

20 Q. Yes. In a sense I'm asking that any work that  
21 he did with Tyler Drummond on the redistricting process,  
22 did Mr. Sigler contact you before doing any work for  
23 Mr. Drummond or sending any information to Mr. Drummond?

24 MS. OLALDE: Objection; calls for  
25 speculation; asked and answered.

1           A. I don't know if -- I don't know the nature of  
2 Nathan's work and who he was taking direction from,  
3 whether it was Tyler Drummond or anyone else so I don't  
4 know how to answer that question.

5           Q. (BY MS. REYES) Okay. Did you receive any  
6 e-mails from Nathan Sigler asking for your approval  
7 before sending -- for anything, for sending information  
8 to Mr. Drummond regarding the redistricting process?

9           A. I don't recall any.

10          Q. Did you receive any communication from  
11 Mr. Sigler asking for permission or approval from you  
12 before working on any project or sending any information  
13 to the counsel that was hired by the county for  
14 redistricting?

15          A. I don't -- I don't recall any.

16          Q. Do you recall Mr. Sigler asking for your  
17 approval or asking for your review of him sending  
18 information or working on any project for anyone else in  
19 the county, including the county commissioner, anyone  
20 else in the county judge office or their staffers before  
21 sending any information out to them?

22                   MS. OLALDE: Objection; broad; vague.

23          A. I don't recall.

24          Q. (BY MS. REYES) So to your knowledge the  
25 Commissioner Holmes requests were the only requests that

1 Mr. Sigler asked for your approval on before sending  
2 them out?

3 MS. OLALDE: Objection; misstates testimony  
4 and that's it.

5 (Reporter clarification)

6 MS. OLALDE: That's it.

7 A. Now, could you repeat the question?

8 Q. (BY MS. REYES) I'm sorry, Ms. Griggs are you  
9 able to repeat that?

10 (Requested portion was read)

11 MS. OLALDE: Same objection.

12 A. I don't recall if there's any other requests or  
13 any other request for approvals from Nathan.

14 Q. (BY MS. REYES) So would that be a yes then?

15 MS. OLALDE: Objection; form.

16 A. I don't recall -- I don't know what the yes  
17 means in this instance. It's -- I guess the question is  
18 I don't quite understand.

19 Q. (BY MS. REYES) Would it help if the question  
20 was read again?

21 A. Yes, yes.

22 MS. OLALDE: Yeah, just ask him a question.

23 Q. (BY MS. REYES) Well, I asked if it would help  
24 if the question was read again and he said yes; correct?

25 A. Yes.

1 MS. REYES: Okay. I'm sorry, Ms. Griggs.

2 Are you able to read that question again?

3 (Requested portion was read.)

4 MS. OLALDE: Objection; asked and answered.

5 A. I don't recall any other requests that Nathan  
6 asked for approval.

7 Q. (BY MS. REYES) Okay. So switching gears a  
8 little bit, and, Mr. Shannon, I'm almost done with my  
9 section, I promise. Okay. I have the exhibit. I am  
10 sharing it so what I'm sharing I would ask to be marked  
11 as Plaintiffs' Exhibit 10.

12 (Exhibit 10 marked)

13 Q. (BY MS. REYES) And I'll give Mr. Shannon a  
14 chance to scroll through this a little bit. It's five  
15 pages long, but I don't think it should take that long  
16 to scroll through.

17 A. Okay.

18 Q. Okay. Great. So what I'm showing you is an  
19 article from the Galveston News that says -- titled  
20 Residents Vow to Stop Housing Development Just Outside  
21 of Santa Fe, and it's dated March 14th, 2021. And if  
22 you scroll down, you'll see there is a quote from you,  
23 Galveston County Engineer Michael Shannon. So I wanted  
24 to start by asking you: Are you familiar with this --  
25 this housing development that I believe is -- was

1 planned by Live Lone Star, LLC?

2 A. Yes, I am.

3 Q. Can you tell me a little bit about what issues  
4 were raised regarding this development? I know the  
5 article points to the residents vowing to stop it. Can  
6 you explain a little bit about your understanding  
7 regarding the opposition to the development?

8 A. It was a planned -- it was -- there were plans  
9 for a -- actually a 360-unit manufactured home community  
10 on about 65 acres of land in the unincorporated part of  
11 the county adjacent to Dickinson Bayou. Concerns that  
12 were raised had to do with flooding and traffic. There  
13 were -- and also I think there was some concern of  
14 the -- just increased population in the area causing --  
15 causing traffic problems and drainage problems.

16 Q. And what was your opinion on these concerns?

17 A. I think there is -- I think the concerns need  
18 to be mitigated and looked at and to see what validity  
19 there are.

20 Q. Who is in charge of looking at these concerns?

21 A. As far as the drainage concerns, there are --  
22 my office as well as Galveston County Drainage District  
23 No. 1.

24 Q. Did your office evaluate these concerns?

25 A. We did hire a consulting -- outside consultant

1 engineer to review the plans for the development and how  
2 the drainage was mitigated.

3 Q. You said outside consultant, so you didn't do  
4 the evaluation or your office didn't do the evaluation  
5 yourself?

6 A. We -- we -- I would say we oversaw that the  
7 right experts in drainage were assigned to review the --  
8 review the drainage on the project.

9 Q. Do you know why an outside consultant was  
10 brought in?

11 A. There are some complexities on a large  
12 development that are -- are different than smaller  
13 single-family home that has effects in the watershed.  
14 There are specific --

15 Q. Did your office -- sorry. Did your office  
16 request that an outside consultant be brought in?

17 A. I -- I was asked by Commissioner Giusti if it  
18 would be helpful.

19 Q. And what was your response?

20 A. Yes.

21 Q. And what was the end result of the consultant  
22 evaluating?

23 A. That the initial plans need -- weren't --  
24 didn't meet criteria and that modifications needed to  
25 take place.

1 Q. What criteria did it not meet?

2 A. The runoff from the -- from the development as  
3 originally planned had a potential for flooding  
4 downstream and upstream properties.

5 Q. Were the plans modified to remedy this --

6 A. Yes.

7 Q. -- to your knowledge? Was this plan eventually  
8 approved?

9 A. Yes.

10 Q. By who?

11 A. By both the drainage district and my office.

12 Q. Do you know if this housing development has  
13 been built yet or is in the process of being built?

14 A. It is -- it is -- it has been sold to a new  
15 investor, and construction didn't start and the new  
16 developers are -- are -- plans are to move forward with  
17 it.

18 Q. Were there any other changes to what -- you  
19 said that they sold to another investor. Are there any  
20 other plans to change what is being built?

21 A. We haven't seen any difference.

22 Q. Are -- is this still -- to your knowledge is  
23 there still pushback from residents of the Santa Fe area  
24 regarding this project?

25 A. I don't know of any active pushback at this

1 time.

2 Q. But to your knowledge then, everything has been  
3 approved and the issues that you mentioned previously  
4 have been remedied in the plan?

5 MS. OLALDE: Objection; misstates  
6 testimony.

7 A. The original plan was approved after the  
8 developer made revisions.

9 Q. (BY MS. REYES) So if -- I guess assuming that  
10 original plan is still the plan of the new investors, do  
11 you have any concern about that development being built?

12 A. There's always a concern with a construction  
13 project, whether they build according to the plan.

14 Q. Okay. But if -- if everything is built  
15 according to the plan, let's say, would you have any  
16 concerns? Do you have any concerns with the plan, I  
17 guess, is what I'm asking?

18 A. There are still some outlying concerns that the  
19 county doesn't have authority to address in terms of the  
20 impact to traffic in the area and the impact of the  
21 increased population coming and going and, I guess,  
22 traffic.

23 Q. But your office and the outside consultant have  
24 approved the plans as of now?

25 A. The plans that have been submitted have been

1 approved.

2 MS. REYES: Okay. Those are my questions  
3 for now. Ms. Olalde, as I mentioned earlier, based on  
4 the privilege objection, we are reserving our right to  
5 keep this deposition open pending resolution of this  
6 issue from the Court. I know my co-counsel -- I know  
7 the other plaintiffs' groups will want to ask questions,  
8 but before then, I was wondering if we can take a quick  
9 five-minute break?

10 MS. OLALDE: That's fine with me.

11 THE WITNESS: That's fine.

12 MS. REYES: Great. Thank you, Mr. Shannon.

13 MS. CHEN: And just quickly noting the  
14 NAACP plaintiffs joining in the objection and desire to  
15 hold the deposition open if needed. Thank you.

16 MS. REYES: Great. And can we get the  
17 breakout rooms, please?

18 THE VIDEOGRAPHER: The time on the monitor  
19 is 1:36 p.m., and we are off the record.

20 MS. REYES: Thank you.

21 (Break taken from 1:36 p.m. to 1:46 p.m.)

22 THE VIDEOGRAPHER: The time on the monitor  
23 is 1:46 p.m. and we are back on the record.

24 MS. OLALDE: Just one quick second.

25 Mr. Shannon would like to clarify something from Ms. --

1 the last line of questioning.

2 THE WITNESS: Are we on the record?

3 MS. OLALDE: We are.

4 THE WITNESS: The -- I'd like to clarify a  
5 response as to Commissioner Holmes Project. I believe I  
6 answered a question that alluded to the fact that it was  
7 part of redistricting, and I don't know whether or not  
8 the Commissioner Holmes' request for information was or  
9 was not used for redistricting.

10 EXAMINATION

11 BY MR. GEAR:

12 Q. Anything else that you'd like to clarify?

13 A. No.

14 MR. GEAR: And for the record, my name is  
15 Bruce Gear. I'm with the United States, and I'm asking  
16 questions on behalf of the United States. We are one of  
17 the parties in this -- in this legal action, and I also  
18 wanted to put on the record prior to the break there was  
19 an objection made by the private plaintiffs related to  
20 preserving the right to reopen this deposition based on  
21 the objections made related to attorney/client  
22 privilege. The United States also will join that  
23 objection and reserve the right to reopen this  
24 deposition based on those objections.

25 Q. (BY MR. GEAR) So thank you for taking the time

1 to speak with us today. I know you've been on for a  
2 while. I think my questions probably will last no more  
3 than a half an hour to 40 minutes.

4 So the first thing I wanted to understand  
5 is your role as the county engineer as it relates to  
6 redistricting. So based on that subject, as the county  
7 engineer did you make any effort to keep track of  
8 pending redistricting requests from county commissioners  
9 during 2021 redistricting process?

10 A. No.

11 Q. So in your office regarding any projects that  
12 were worked on by your staff related to the 2021  
13 redistricting process, is there a storage procedure that  
14 you have that relates to those projects in the county  
15 engineer's office?

16 A. No.

17 Q. If you, as the county engineer, wanted to go  
18 back and revisit the work that your staff was performing  
19 on behalf of county commissioners during the 2021  
20 redistricting process, how would you do that?

21 A. I would rely on Nathan Sigler to produce what  
22 his involvement and what he -- what he -- what his  
23 involvement was, also look at e-mails and to see what  
24 e-mails were generated.

25 Q. And prior to this deposition, did you have an

1 occasion to look at the e-mails that were generated by  
2 Nathan Sigler related to the 2021 redistricting process?

3 A. I did not look at Nathan Sigler's e-mails.  
4 Counsel did produce those documents. Counsel did --

5 Q. Did you look at the -- I'm sorry, go ahead.

6 A. Counsel did produce those documents.

7 Q. And did you review those documents prior to  
8 this deposition?

9 A. A few. I believe the ones that counsel did  
10 present them to me, yes.

11 Q. Do you recall how many of those documents --  
12 strike that.

13 So the documents we talked about today, did  
14 you review those documents prior to this deposition?

15 A. Some of them.

16 Q. So, again, just a follow-up question on a  
17 question that you've already been asked regarding the  
18 ESRI Software System. Do you recall that testimony that  
19 you gave?

20 A. Some of it.

21 Q. Related to ESRI Software. I'm trying to get a  
22 better understanding of what that software is. Can you  
23 tell me when you or your staff would use that software  
24 and what type of projects you would work on with that  
25 software?

1           A. The software is a geographical information  
2 system that -- excuse me. It has different layers of  
3 information. I primarily use it for the parcel  
4 information that the Galveston Appraisal District  
5 produces and also for the floodplain delineation that  
6 Federal Emergency Management Agency produces. And it  
7 shows on a map where parcels are and where floodplains  
8 are so that I know what types of building permit is  
9 required in those areas.

10           Q. And when you say -- what do you mean by  
11 Geographical Information System?

12           A. A mapping program that has different features  
13 presented in different layers. You can toggle on and  
14 off parcel information or floodplain information or  
15 roadways --

16           Q. Go ahead. I'm sorry.

17           A. -- or roadways. There's a list of probably 30,  
18 40 different -- I don't know exactly how many different  
19 features that can be accessed.

20           Q. So does this geographical information also  
21 include census data?

22           A. Yes, it does. I don't have a need in my job to  
23 do -- to use that information though. So I don't access  
24 that and am not familiar with it.

25           Q. Do you know when your staff would have a need

1 | to access the census data through the ESRI Software?

2 | A. I don't know of any particular reason to do so.

3 | Q. What about when -- during the redistricting

4 | process? Would that be one of the occasions where there

5 | would be a need to access the census data in the

6 | software?

7 | MS. OLALDE: Objection; calls for

8 | speculation.

9 | A. I don't know if our staff needs that or if our

10 | staff provides that.

11 | Q. (BY MR. GEAR) Do you know, based on your

12 | knowledge, do you know if Nathan Sigler accessed the

13 | census data from the ESRI Software during the 2021

14 | redistricting process?

15 | A. I believe he did.

16 | Q. And what is that belief based upon?

17 | A. Some e-mails that we've reviewed in the past

18 | with the census data on the African American and Black

19 | and Latino map that was present earlier. It appears as

20 | if it was accessed, but I'm not for certain how -- where

21 | it came from.

22 | Q. Can we pull up Exhibit 6? We're going to

23 | revisit Exhibit 6 with you that you reviewed during your

24 | prior testimony. Give me one second.

25 | MS. OLALDE: Just let me know if you'd

1 like me to give you a copy that you can scroll through.

2 THE WITNESS: Okay. I think I recall this  
3 one.

4 MS. OLALDE: Okay.

5 Q. (BY MR. GEAR) So this is an e-mail from you to  
6 Stephen Holmes dated February 1st, 2021, and it's -- the  
7 time is 5:06 p.m. Do you see that at the top?

8 A. I do.

9 Q. And do you recall sending this e-mail to  
10 Commissioner Holmes?

11 A. Vaguely, yes.

12 Q. And this information -- or the subject line in  
13 this e-mail refers to block group counts. Do you see  
14 that?

15 A. Yes.

16 Q. And is that a reference to the census data?

17 MS. OLALDE: Objection; calls for  
18 speculation.

19 Q. (BY MR. GEAR) I'm asking you what you know.

20 A. Yeah, I don't know what block group counts  
21 means.

22 Q. Do you know what block groups mean?

23 A. I know it means something having to do with the  
24 Census Bureau requirement, and I don't know how block  
25 groups -- I don't know what a block group is.

1 Q. Does your office, through the ESRI system  
2 software, work with block group data?

3 MS. OLALDE: Objection; calls for  
4 speculation.

5 A. I don't --

6 Q. (BY MR. GEAR) Again, I'm asking if you know.  
7 I'm not asking you to speculate.

8 MS. OLALDE: Please don't speculate.

9 A. I don't know.

10 Q. (BY MR. GEAR) So is it fair to say that  
11 Exhibit 6 is the African American/Black count pdf and  
12 the Hispanic count pdf which you previously referred  
13 to -- are references to census data?

14 A. I don't know where -- where the -- that  
15 information came from. There's an assumption on my part  
16 it may have come from census data.

17 Q. When you say you don't know where this came  
18 from, do you know who created the African American --  
19 I'm sorry, my screen minimized here. One second.  
20 Sorry. Strike that. Let me ask the question again.

21 So when you say you don't know where this  
22 information came from, the attachments are African  
23 American/Black count and Hispanic/Black count. Did  
24 these come from Mr. Sigler to you?

25 A. Yes.

1 Q. And did you have a discussion with him  
2 regarding what the African American/Black count and  
3 Hispanic/Black count would look like in these maps?

4 A. No, I -- what they would look like, no, I did  
5 not. I forwarded a request from Commissioner Holmes  
6 for --

7 Q. Did you forward that request from  
8 Commissioner Holmes by e-mail?

9 A. I -- I don't recall. I may have asked him -- I  
10 don't recall.

11 Q. So what did you tell -- strike that.

12 You indicated that you forwarded a request  
13 to Nathan Sigler from Commissioner Holmes; correct?

14 A. Yes, and that could have been a phone call or  
15 it could have been an e-mail. I don't recall.

16 Q. What did you tell Nathan Sigler to do based on  
17 that phone call with Commissioner Holmes?

18 A. If it was a phone call, I asked him to provide  
19 information that Commissioner Holmes is asking for, and  
20 I don't know if Nathan followed up. I don't know how  
21 Nathan followed up to gather this information.

22 Q. So it's your testimony that you simply asked  
23 him to provide information that Commissioner Holmes  
24 requested?

25 A. Yes.

1 Q. Did you talk about census data information on  
2 the -- when you followed up with Nathan Sigler?

3 A. I don't recall. I wouldn't know whether it  
4 was -- what the format.

5 Q. Did you ask Nathan Sigler to follow up with  
6 Commissioner Holmes regarding Commissioner Holmes'  
7 request?

8 MS. OLALDE: Objection; asked and answered.

9 Q. (BY MR. GEAR) You can answer.

10 MS. OLALDE: You can answer, yes.

11 A. Oh, okay. I don't recall -- I don't recall the  
12 flow of how this request was answered. I -- I do know  
13 that there was a request that came in from  
14 Commissioner Holmes that I asked Nathan to address.

15 Q. (BY MR. GEAR) Do you recall if Commissioner --  
16 I'm sorry, were you finished?

17 A. Yes.

18 Q. Do you recall if Commissioner Holmes came into  
19 your office to make this request in person?

20 A. I don't recall that he did come in person.

21 Q. Do you recall at any time during the 2021  
22 redistricting process where Commissioner Holmes came  
23 into your office to request information related to  
24 redistricting?

25 A. I don't recall any time Commissioner Holmes --

1 no, I don't recall that.

2 Q. So just to be clear, is it your testimony that  
3 you don't recall any in-person meetings with  
4 Commissioner Holmes related to the 2021 redistricting  
5 process?

6 MS. OLALDE: Objection; asked and answered.

7 A. That's correct. I don't recall.

8 Q. (BY MR. GEAR) And so regarding the African  
9 American/Black count and the Hispanic/Black count  
10 information that you ultimately sent to  
11 Commissioner Holmes on February 1st, 2021, what was your  
12 understanding of what that information meant?

13 MS. OLALDE: Objection; asked and answered.

14 A. That it represented the populations of the  
15 African American and Black population and Hispanic  
16 population in the county.

17 Q. (BY MR. GEAR) So this was information  
18 regarding the African American count and the Hispanic  
19 count, countywide?

20 MS. OLALDE: Objection; asked and answered.

21 MR. GEAR: I don't believe I asked --

22 MS. OLALDE: Yes, he restated his answer.  
23 So yeah, it's asked and answered.

24 A. Yeah. Yes.

25 Q. (BY MR. GEAR) Yes, it was countywide

1 information?

2 A. Yes.

3 Q. And based on the conversation that you had with  
4 Commissioner Holmes, do you recall if he was asking you  
5 for countywide Black count and Hispanic count  
6 information data or was he asking -- go ahead.

7 MS. OLALDE: No, I'm sorry. That was me  
8 going to object, but I want you to have the opportunity  
9 to finish your question.

10 Q. (BY MR. GEAR) Well, let me just reask it.  
11 Based on your discussion with Commissioner Holmes, was  
12 he asking you for countywide census data information  
13 related to the Hispanic count and the Black count?

14 MS. OLALDE: Objection; asked and answered.

15 A. That's my understanding.

16 Q. (BY MR. GEAR) That is your understanding of  
17 what he was asking?

18 MS. OLALDE: Objection; asked and answered.

19 A. Yes.

20 Q. (BY MR. GEAR) Do you recall if  
21 Commissioner Holmes asked you for block group data,  
22 census data information?

23 MS. OLALDE: Objection; asked and answered,  
24 and Mr. Shannon has already testified he doesn't know  
25 what block group information is.

1           A. I don't know the level of detail in  
2 Commissioner Holmes -- I don't recall the level of  
3 detail Commissioner Holmes was requesting.

4           Q. (BY MR. GEAR) Do you recall if, based on your  
5 discussion with Commissioner Holmes, whether or not his  
6 request was satisfied?

7           A. I had assumed that it was because I didn't hear  
8 back.

9           Q. But is it fair to say, based on your answer,  
10 you don't know?

11          A. That's correct.

12          Q. Can we pull up what would now be Tab 10, my Tab  
13 10? We're going to put a document in front of you and  
14 give you the opportunity to look at that.

15                         (Exhibit 11 marked)

16          MS. OLALDE: Bruce, will you drop that in  
17 the chat or send it by e-mail, please?

18          MR. GEAR: Sure. I will, yes. Bear with  
19 me. It's taking me a minute to figure out how to drop  
20 that. I don't see it on the screen.

21                         All right. Sorry about that delay.

22          Q. (BY MR. GEAR) I'm going to give you a chance  
23 to look at this document before I ask you any questions  
24 about it.

25          MS. OLALDE: Just one second, and I'll get

1 that in front of witness.

2 MR. GEAR: I'm sorry. I didn't hear that.

3 MS. OLALDE: Oh, I said just one second.  
4 I'm pulling up the document so he can scroll through it.

5 Q. (BY MR. GEAR) Do you see the document on the  
6 screen, Mr. Shannon?

7 A. Yes, sir.

8 Q. Okay. For the record, this is identified as  
9 DEFS00010405, and it is an e-mail from Nathan Sigler to  
10 you. Do you see that?

11 A. Yes, I do.

12 Q. And the date of this e-mail is October 25th,  
13 2021, at 4:21 p.m. Do you see that?

14 A. Yes.

15 Q. And can you read what the e-mail is in  
16 reference to?

17 A. For the -- oh, subject is Holmes Project.

18 Q. And the attachments, what does that say?

19 A. It says Commissioner Holmes Project dot MSG and  
20 Commissioner Holmes Project dot MSG.

21 Q. And can you read the text of the e-mail itself,  
22 please?

23 A. "Here are the e-mails regarding  
24 Commissioner Holmes Project."

25 Q. So you previously testified to the

1 Commissioner Holmes Project; correct?

2 A. Yes.

3 Q. And documents related to Commissioner Holmes  
4 Project, and those documents were exchanged in September  
5 of 2021. Do you recall that -- between -- with  
6 Nathan Sigler, I'm sorry?

7 A. Yeah, I don't recall the dates.

8 MS. OLALDE: Is this February, Bruce? Is  
9 that what you were talking about?

10 Q. (BY MR. GEAR) I believe they began in February  
11 of 2021, and there were documents exchanged in September  
12 2021 as well. Does that help refresh your recollection?

13 A. Again, I'm not -- I'm not good at remembering  
14 the particular dates.

15 Q. Fair enough. So here we have an e-mail on  
16 October 25th, 2021, where Nathan Sigler is resending you  
17 the e-mails regarding the Commissioner Holmes Project.  
18 Can you tell me why he resent you these e-mails related  
19 to Commissioner Holmes Project on October 25th, 2021?

20 MS. OLALDE: Objection; calls for  
21 speculation.

22 A. I don't --

23 Q. (BY MR. GEAR) And again, I'm asking you what  
24 you know and can you tell me why?

25 A. I don't recall the -- I don't recall why and I

1 don't recall the -- I don't recall why.

2 Q. Do you recall seeing this e-mail before?

3 A. No, I don't.

4 Q. Do you recall gathering the Commissioner Holmes  
5 Project e-mails and documents in your office at any time  
6 period during 2021?

7 A. No, I don't recall.

8 Q. Do you recall if you were asked by anyone  
9 outside of your office to gather all of the Commissioner  
10 Holmes Project e-mails and documents?

11 A. I don't recall any requests of the sort.

12 Q. Did you ask Nathan Sigler why he was sending  
13 you these -- resending you the Commissioner Holmes  
14 documents on October 25th?

15 A. I don't recall.

16 Q. Do you recall what you did with any  
17 Commissioner Holmes Project documents once you received  
18 them again on October 25th, 2021?

19 A. I don't remember.

20 Q. Did you send these Commissioner Holmes Project  
21 documents to anyone outside of your office following the  
22 receipt of these on October 25th, 2021?

23 A. I don't remember.

24 Q. So you previously testified that a few days  
25 before February 1st you received a phone call from

1 Commissioner Holmes asking for information related to  
2 the Black count and Hispanic count data. Do you recall  
3 that testimony?

4 MS. OLALDE: Objection; I believe that  
5 misstates testimony.

6 A. I don't recall if it was a phone call or a --  
7 or -- I don't know the form of the request.

8 Q. (BY MR. GEAR) But that request was from  
9 Commissioner Holmes; correct?

10 A. Correct.

11 Q. Do you recall how long that conversation  
12 lasted?

13 A. It would have been a very brief conversation.

14 Q. Can you tell me what that means in time?

15 A. Three to four minutes.

16 Q. Who else was present during the discussion that  
17 you had with Commissioner Holmes, if anyone?

18 A. I don't believe anyone else was present.

19 Q. Was Nathan Sigler present during this  
20 discussion?

21 A. I don't believe he was present.

22 Q. Did you document this discussion in any way  
23 with Commissioner Holmes?

24 A. No, I did not.

25 Q. So following this discussion, how long was it

1 before you brought this to the attention of  
2 Nathan Sigler?

3 A. I believe it was within -- within 24-hours.

4 Q. Did you review any data related to this project  
5 with Commissioner Holmes with Nathan Sigler prior to him  
6 creating the maps for Hispanic count and Black count?

7 MS. OLALDE: Objection; calls for  
8 speculation; also compound.

9 Q. (BY MR. GEAR) Well, let me reask that question  
10 because I want to make sure the record is clear and the  
11 question is: Did you as the county engineer review any  
12 redistricting-related data that was associated with this  
13 particular Commissioner Holmes Project of Hispanic count  
14 and Black count?

15 MS. OLALDE: Objection; misstates prior  
16 testimony that has been reclarified by Mr. Shannon and  
17 also compound. You can answer.

18 A. Again, I guess -- I don't know if this data --  
19 how this data was used, and to answer the question on  
20 whether I reviewed the information, I did not review the  
21 information.

22 Q. (BY MR. GEAR) Other than this -- well, other  
23 than the Hispanic count and Black count data that you  
24 sent to Commissioner Holmes, did you have any follow-up  
25 discussions with Commissioner Holmes regarding that

1 data?

2 A. I don't recall any.

3 Q. Did Commissioner Holmes have any follow-up  
4 e-mails with you related to the Hispanic count and Black  
5 count?

6 A. I don't recall any.

7 Q. At any time after you received the  
8 Commissioner Holmes Project document, and I'm referring  
9 to Exhibit 11, October 25th, did you share these  
10 documents with Mr. Oldham?

11 A. I did not.

12 Q. And what do you -- the answer to that was, no,  
13 you did not?

14 A. No, I did not.

15 Q. Did you share this information with  
16 Thomas Brian?

17 A. No, I did not.

18 Q. I'd like to be clear, first of all. Do you  
19 know Thomas Brian?

20 A. No, I --

21 MS. OLALDE: Objection; asked and answered.

22 A. No, I don't.

23 Q. (BY MR. GEAR) Do you know if Thomas Brian was  
24 involved in the 2021 redistricting process?

25 MS. OLALDE: Objection; asked and answered.

1 A. No, I don't.

2 Q. (BY MR. GEAR) Do you know, as the county  
3 engineer, if Thomas Brian made any requests for you or  
4 your staff to perform any redistricting-related projects  
5 in 2021?

6 A. I -- I did not receive any requests, and I  
7 don't know of -- of requests of my staff.

8 Q. And for the record, and you may have answered  
9 this, do you know Dale Oldham?

10 MS. OLALDE: Objection; asked and answered.

11 A. No. No, I don't.

12 Q. (BY MR. GEAR) Do you recall if you shared the  
13 Commissioner Holmes Project document with Dale Oldham at  
14 any point during the 2021 redistricting process?

15 MS. OLALDE: Objection; asked and answered.

16 A. No, I did not.

17 Q. (BY MR. GEAR) Do you recall any in-person  
18 meetings with Dale Oldham related to the 2021  
19 redistricting process?

20 MS. OLALDE: Objection; asked and answered.

21 A. No, I don't know Dale Oldham.

22 Q. (BY MR. GEAR) Did you attend any Zoom calls or  
23 other online application meeting platforms where  
24 Dale Oldham was present?

25 MS. OLALDE: Objection; asked and answered.

1 Bruce, I think he's been pretty clear he doesn't know  
2 Dale Oldham.

3 A. No. I have not met Dale Oldham.

4 Q. (BY MR. GEAR) Do you know -- do you know who  
5 hired Dale Oldham?

6 A. I believe it was county commissioner's court.

7 Q. So regarding your responsibilities related to  
8 the 2021 redistricting process, I believe you testified  
9 that you didn't believe redistricting was a function of  
10 the county engineer's office. Do you recall that  
11 testimony?

12 A. I believe -- it's not a function that we  
13 perform. We provide support for those that are  
14 responsible for that.

15 Q. So in 2021, how were you made aware -- strike  
16 that.

17 In 2021 I believe you've testified that  
18 Tyler Drummond made a request that Nathan Sigler be  
19 available to draw lines during the redistricting  
20 process; correct?

21 MS. OLALDE: Objection; misstates prior  
22 testimony.

23 A. That may have been my -- I don't know if -- who  
24 drew the lines, but I was asked to make Nathan Sigler  
25 available in assistance for redistricting.

1 Q. (BY MR. GEAR) Do you know if -- as the county  
2 engineer, do you know if Nathan Sigler assisted in  
3 drawing lines during the 2021 redistricting process?

4 MS. OLALDE: Objection; asked and answered.

5 A. I don't know Nathan's -- I don't know the scope  
6 and work that Nathan was asked to do or the scope or  
7 work that Nathan did perform.

8 Q. (BY MR. GEAR) Did you relay Tyler Drummond's  
9 request that he be available to draw lines during the  
10 redistricting process to Nathan Sigler?

11 MS. OLALDE: Objection; compound; and you  
12 have put that whole draw lines in there thing; but you  
13 can answer to the extent you can.

14 Q. (BY MR. GEAR) Well, before you answer, let  
15 me -- let me take that back. Strike that.

16 MS. OLALDE: Thank you.

17 Q. (BY MR. GEAR) Am I saying it incorrectly that  
18 Tyler Drummond asked Nathan Sigler to draw lines during  
19 the redistricting process?

20 A. I don't know the nature of the scope of  
21 Nathan's involvement and what he was asked to do,  
22 whether or not he was asked to draw lines or assist. I  
23 don't know that the scope of -- of what he was asked to  
24 assist with.

25 Q. So let me clarify my question. The discussion

1 that took place, the request from Tyler Drummond, that  
2 discussion was with you; correct?

3 A. It was -- I believe it was an e-mail that  
4 request to make Nathan Sigler available to assist with  
5 redistricting, and how that scope was -- and his  
6 performance, I don't know the nature of that.

7 Q. Did you respond to that e-mail?

8 A. I don't recall if it was an e-mail response or  
9 a phone call, but I did let Tyler know that Nathan was  
10 available.

11 Q. And specifically what did you let -- what did  
12 you tell Nathan Sigler as a result of Tyler Drummond's  
13 phone call?

14 A. To make this his only priority. Nathan, this  
15 is your only priority right now.

16 Q. And based on your knowledge as the county  
17 engineer, do you know if Nathan Sigler had additional  
18 conversations with Tyler Drummond regarding the 2021  
19 redistricting process?

20 A. I don't know what -- I don't know if he did or  
21 didn't.

22 Q. And did you review any e-mails between  
23 Tyler Drummond and Nathan Sigler regarding the 2021  
24 redistricting process?

25 A. I don't recall any e-mails that I would review

1 between the two of them.

2 Q. Did Tyler Drummond ever visit your office in  
3 person regarding the 2021 redistricting process?

4 A. I don't recall if he was in my office or not.  
5 It's rare that he is.

6 MR. GEAR: Give me one second, I'm sorry.

7 Q. (BY MR. GEAR) Do you recall your testimony  
8 about metes and bounds?

9 A. Yes.

10 Q. And just so I'm clear, what does that mean,  
11 metes and bounds?

12 MS. OLALDE: Objection; asked and answered.

13 A. It's --

14 Q. (BY MR. GEAR) You can answer.

15 A. It's a description of the area -- it's a  
16 written description of an area.

17 Q. Do you know what a BGB is?

18 A. You broke up. I -- can you repeat?

19 Q. Do you know -- I'm sorry about that. Do you  
20 know what a VTD is?

21 A. VTD, I'm not familiar with the terminology.

22 Q. So you testified to providing some edits to  
23 Maps 1 and 2. Do you recall that testimony?

24 MS. OLALDE: Objection; misstates prior  
25 testimony.

1 A. I don't recall making any edits to any maps.

2 Q. (BY MR. GEAR) We're going to put up a document  
3 and give you a chance to look at that.

4 MR. GEAR: And for the court reporter, can  
5 you tell me what exhibit number this would be? I'm  
6 marking it as an exhibit.

7 THE REPORTER: 12.

8 MR. GEAR: I believe this will be Exhibit  
9 12.

10 THE REPORTER: I'm sorry, I was muted.  
11 Yes, I have that as 12, also.

12 MR. GEAR: Yes.

13 A. I see it now.

14 (Exhibit 12 marked)

15 Q. (BY MR. GEAR) All right. So for the record,  
16 this is marked as -- well, it's Exhibit 12 but it's  
17 identified as DEFS00020443 to DEFS00020444, and it is an  
18 e-mail from you to Nathan Sigler on November 5th, 2021.  
19 Do you see that?

20 A. Yes.

21 Q. And the Subject is Map 2.

22 A. Yes.

23 Q. Correct. And there are attachments to this  
24 document which are also attached to this exhibit. Can  
25 you read what those attachments are, please?

1           A. M&B map 2 258 A.doxx (sic); M&B map 2 263  
2           A.doxx; M&B map 2 263.doxx; MB map 2 258.doxx; M&B 336  
3           A.doxx -- docx; M&B 490 A.docx; M&B 490.docx.

4           Q. And can you read what the text of the e-mail  
5           says?

6           A. "Nathan, I made a few edits on these, Michael."

7           Q. And the Subject is Map 2. Is that Map 2 that  
8           was ultimately posted to the county website?

9                       MS. OLALDE: Objection; calls for  
10           speculation.

11           A. I don't -- I don't know if -- what the  
12           reference to Map 2 is.

13           Q. (BY MR. GEAR) Are you familiar with Map 1 and  
14           2, and I'm referring to the maps related to the 2021  
15           redistricting process?

16           A. The ones we saw this morning?

17           Q. Yes.

18           A. Yes.

19           Q. Was it your office that was responsible for  
20           posting Maps 1 and 2 to the county website?

21           A. I don't know whose responsibility it was.

22           Q. Were you aware that Maps 1 and 2 were posted to  
23           the county website?

24           A. Yes.

25           Q. And were you aware that Maps 1 and 2 were

1 posted to the county website in 2021?

2 A. I don't know the particular date without  
3 refreshing my memory.

4 Q. So this e-mail is referring to Map 2. Do you  
5 know what Map 2 is in this e-mail?

6 A. If it --

7 MS. OLALDE: Objection to the extent it  
8 calls for speculation.

9 A. I -- I assume that it refers to the Map 2 that  
10 was posted on the county website.

11 MS. OLALDE: Please don't speculate.

12 A. Okay.

13 Q. (BY MR. GEAR) And what edits would you be  
14 making to Map 2 around November 5th, 2021?

15 MS. OLALDE: Objection; misstates prior  
16 testimony.

17 A. There -- there were no edits on the map. The  
18 attachments are what this refers to.

19 Q. (BY MR. GEAR) So let's scroll down to the  
20 attachments, and for the record, the attachments are  
21 identified as DEFS00020445 which is Voting Precinct  
22 Number 258. DEFS00020446 which is Precinct 490A.  
23 DEFS00020447 which is Precinct 490. DEFS00020448 which  
24 is Precinct 263A. DEFS000449 which is Precinct 336A.  
25 DEFS00020450 which is Precinct 258A. And finally,

1 DEFS00020452 which is Precinct 263.

2 Did I read those correctly?

3 A. I believe you did.

4 Q. I'm sorry, I didn't hear your answer?

5 A. I believe -- I believe you did.

6 Q. So looking at the attachments, what changes  
7 were being made on November 5th, 2021?

8 MS. OLALDE: Objection; asked and answered.

9 A. The edits were for consistency in what are the  
10 call-outs and for consistency, in one instance, they may  
11 have referenced Jackson and then the next Jackson Street  
12 so it needed consistency to call out the same location  
13 with the same name. And that's the extent of what those  
14 edits were for.

15 Q. (BY MR. GEAR) So looking at -- I'm sorry.  
16 Were you done?

17 A. I was just going to provide another example as  
18 Ike Franks Road and/or Ike Franks could have been  
19 another inconsistency that was -- was edited to -- for  
20 consistency.

21 Q. In looking at the top of the first attachment,  
22 which is Voting Precinct Number 258, these are in  
23 reference to vote precinct; correct?

24 A. I believe so.

25 Q. And the 258 is the number of the voting

1 precinct; would that be correct?

2 A. I believe that's what it references.

3 Q. Can we go to 263A, please? So looking at the  
4 attachment that is in front of you now, which is Voting  
5 Precinct 263A, what does the A stand for?

6 A. I do not know.

7 Q. Do you have any idea if these attachments are  
8 identifying split precincts?

9 A. I don't know.

10 Q. So how are these descriptions used? In what  
11 context are they used?

12 MS. OLALDE: Objection; calls for  
13 speculation.

14 A. I don't know their application.

15 Q. (BY MR. GEAR) Do you know, as the county  
16 engineer, whether or not these voting precincts, the  
17 changes being made were in relation to the 2021  
18 redistricting process?

19 MS. OLALDE: Objection; asked and answered.

20 A. No, I don't know.

21 Q. (BY MR. GEAR) Why are you making these  
22 changes -- I'm sorry. Strike that. I believe you've  
23 answered that.

24 Was Nathan Sigler responsible for drafting  
25 the first draft of the attachments to this exhibit?

1 MS. OLALDE: Objection; asked and answered.

2 A. I don't know the origination of this  
3 document -- of these documents.

4 Q. (BY MR. GEAR) Did anyone outside of your  
5 office ask you to make changes to these documents?

6 A. No.

7 Q. So how do you familiarize yourself with these,  
8 for example, the parks and streets that are related to  
9 these documents? Is that a software that you're using?

10 MS. OLALDE: Objection; asked and answered.

11 A. I didn't perform that type of review.

12 Q. (BY MR. GEAR) Do you know where -- do you know  
13 how to -- strike that.

14 As the county engineer, how would you  
15 create a document identifying parks and streets?

16 MS. OLALDE: Objection; vague, confusing;  
17 calls for speculation.

18 A. When I --

19 Q. (BY MR. GEAR) Just so you're clear, I'm just  
20 asking -- I'm trying to drill down to how do you create  
21 a document that identified streets and parks in  
22 Galveston County?

23 A. Streets and -- I didn't understand the second  
24 part. Streets and?

25 Q. Parks. Parks.

1 A. Parks?

2 Q. Yes. City parks.

3 A. City or county parks?

4 MS. OLALDE: If you don't understand -- do  
5 you understand?

6 A. I don't quite understand the question. Can you  
7 rephrase?

8 Q. (BY MR. GEAR) Well, in your practice as the  
9 county engineer, do you perform projects where you  
10 identify county parks or street names?

11 A. I -- if I need to know -- I don't -- I don't  
12 know the context on how to identify. I don't know how  
13 to answer the question. I guess I don't --

14 Q. Let me try to rephrase it. Fair enough, So I  
15 believe you testified previously that when it comes  
16 to -- and I may be saying this wrong -- plats, before  
17 that is released to the county commissioners you would  
18 approve on those projects; correct?

19 A. Right, correct.

20 Q. When you are reviewing projects that relate to  
21 plats, does that identify specific information such as  
22 street locations, county parks?

23 A. It may or may not identify parks but they -- a  
24 subdivision plat will identify where the property is  
25 located, the boundary of that property, and how specific

1 lots are divided within that, and where the roadway  
2 right-of-ways are, and where easements are on that -- on  
3 the face of the plat.

4 Q. And using the software that's available in your  
5 office, what software would you use to create such a  
6 project?

7 MS. OLALDE: Objection; asked and answered.

8 A. We don't create those documents. A developer  
9 will submit those documents to the county for review and  
10 approval for compliance with our subdivision  
11 regulations.

12 Q. (BY MR. GEAR) So going back to the first page  
13 of Exhibit 12 --

14 A. Okay.

15 Q. -- where you imply you're making edits, what  
16 criteria were you following related to making these  
17 edits?

18 MS. OLALDE: Objection; vague.

19 A. I was looking for consistency in the call-outs  
20 of -- and how the street names were in one sentence may  
21 not have the complete name or a different name, and I  
22 noted consistency between Jackson Street and just  
23 Jackson or Berriton (phonetic) Street or just Berriton.

24 Q. (BY MR. GEAR) During the time period  
25 November 5th when you're making these changes, do you

1 look at any specific census data while making these  
2 changes?

3 MS. OLALDE: Objection; asked and answered.

4 A. No, I don't.

5 Q. (BY MR. GEAR) Do you look at turnout data?  
6 Did you look at turnout data?

7 MS. OLALDE: Objection; asked and answered.

8 A. No, I did not.

9 Q. (BY MR. GEAR) Did you look at racial  
10 demographics?

11 MS. OLALDE: Objection; asked and answered.

12 Bruce, he's already testified that he didn't do a  
13 separate review for accuracy.

14 A. No, I did not.

15 MR. GEAR: I think if you give me a  
16 five-minute break, I can wrap up pretty quickly on this  
17 and if you'll -- if that's okay with you, then we'll go  
18 to the break-out room once we get off the record.

19 MS. OLALDE: Sure.

20 THE WITNESS: Sure.

21 THE VIDEOGRAPHER: Okay. The time on the  
22 monitor is 2:45 p.m., and we are off the record.

23 (Break taken from 2:45 p.m. to 2:49 p.m.)

24 THE VIDEOGRAPHER: The time on the monitor  
25 is 2:49 p.m., and we are back on the record.

1                   MR. GEAR: Mr. Shannon, I appreciate the  
2 time you've taken to answer some of my questions. I'm  
3 going to rest at this point, and I believe co-counsel  
4 has some additional questions that they want to ask you.  
5 I've already reserved the right to reopen this  
6 deposition based on the attorney/client privilege  
7 objections, and I pass the questions now to Sarah Chen.

8                                   EXAMINATION

9 BY MS. CHEN:

10                   Q. My name is Sarah Chen. I'm with the Texas  
11 Civil Rights Project, and I represent the local NAACP  
12 branches, the council, and several Galveston County  
13 residents in this matter. You know, thank you for your  
14 time, and we are in the final stretch. So if you need  
15 any breaks, please let me know, and if I ask a question  
16 and you do not understand my question, please just ask  
17 me to clarify. I'm happy to do so.

18                   A. Okay.

19                   Q. So I think I'm going to pick up where Mr. Gear  
20 left off on this metes and bounds question, and I want  
21 to clarify what you meant when you said that you didn't  
22 know their application in response to a question  
23 Mr. Gear asked. Do you recall when you said that?

24                   A. I do recall.

25                   Q. And did you mean that you did not know the

1 application of the specific metes and bounds

2 descriptions attached to the e-mail?

3 A. What I meant is I don't know how they are used  
4 or who uses this information.

5 Q. Metes and bounds in general or just the  
6 specific ones that you were looking at?

7 A. These specific ones.

8 Q. Okay. So talking about metes and bounds in  
9 general, you mentioned, for example, a subdivision  
10 developer might have to draft them and submit them to  
11 the commissioner's court for approval?

12 A. As part of a metes and bounds description of  
13 the property is shown on the plat.

14 Q. Can you describe other instances where metes  
15 and bounds might have to be submitted with a plan of any  
16 kind?

17 A. For easement, descriptions of easements,  
18 descriptions of property that is being sold or conveyed.

19 Q. And would those normally be submitted to the  
20 commissioner's court for some kind of review or approval?

21 A. Not -- not necessarily any -- if the  
22 commissioner's court is purchasing or selling property,  
23 a metes and bounds description may be part of that.

24 Q. Are there other governmental entities that you  
25 might have to submit metes and bounds descriptions to

1 like the tax assessor's office, the state, some sort of  
2 utility district?

3 A. Not that I'm -- I don't know of any instance  
4 that we would -- nothing comes to mind.

5 Q. And had you ever seen a metes and bounds  
6 description for a voting precinct prior to the examples  
7 shown earlier?

8 MS. OLALDE: Objection; asked and answered.

9 A. No, I haven't been involved in that before.  
10 No, I haven't seen.

11 Q. (BY MS. CHEN) Okay. Not in Brazoria County  
12 either?

13 MS. OLALDE: Objection; asked and answered.

14 A. No, not in Brazoria County.

15 Q. (BY MS. CHEN) Do metes and bounds descriptions  
16 serve the same function as a map drawn in a GIS software  
17 or do they have a different function?

18 A. I -- I don't know -- I don't know the answer to  
19 that question. I don't know how the metes and bounds  
20 are used and why so I don't know how to answer that  
21 question.

22 Q. When we -- when Nathan Sigler is doing mapping  
23 work in his role as the mapping and GIS specialist, does  
24 he normally -- does he usually create metes and bounds  
25 descriptions?

1 A. Normally -- no, he does not.

2 Q. Is there somebody else in your office who  
3 normally creates those descriptions?

4 A. We don't normally have any -- we don't normally  
5 create those in any instance.

6 Q. They normally come from an outside party with a  
7 plan of some kind?

8 A. Correct.

9 Q. Are you familiar with shapefiles?

10 A. I've heard -- I know the terminology.

11 Q. So -- that they are the kind of files that can  
12 be read by GIS software like ESRI; right?

13 A. That's my understanding.

14 Q. Right. That showed GIS spacial information to  
15 aid in the mapping process. That's my high level  
16 understanding. I believe you probably understand them  
17 better than I do; is that correct?

18 A. I have a similar understanding.

19 Q. Okay. To your knowledge was Nathan Sigler  
20 working with those shapefiles when working on the  
21 redistricting process in 2021?

22 MS. OLALDE: Objection; asked and answered.

23 A. I don't know the scope of what Nathan was asked  
24 to do or the work product of what he -- what he did.

25 Q. (BY MS. CHEN) You mentioned seeing Map

1 Proposals 1 and 2 when he alerted you that he was  
2 complete with his redistricting project; is that right?

3 MS. OLALDE: Objection; misstates prior  
4 testimony. Go ahead.

5 A. I don't know the exact date that I saw those  
6 maps, but I believe it was shortly before they were  
7 posted on the website.

8 Q. (BY MS. CHEN) Do you recall what format you  
9 saw those maps in at that time before you saw them on  
10 the website or before they were posted to the website?

11 A. I don't recall what format it was.

12 Q. Did it look, you know, more like a photo or  
13 picture or, you know, pdf potentially of the map zoomed  
14 out?

15 A. It looked like a pdf.

16 Q. Uh-huh. Is there any -- do you -- is it  
17 possible that it was a shapefile in the ESRI Software  
18 that you could manipulate, zoom in, see more layers,  
19 that kind of thing?

20 MS. OLALDE: Objection; asked and answered,  
21 and calls for speculation.

22 A. I don't know what format it was in.

23 Q. (BY MS. CHEN) Do you recall being able to  
24 manipulate those maps when you saw them?

25 MS. OLALDE: Objection; asked and answered.

1           A. I didn't manipulate -- I didn't zoom in or out  
2 or look at the -- I didn't -- I didn't zoom in or out or  
3 manipulate the map to view it.

4           Q. (BY MS. CHEN) And I think you had said earlier  
5 that when Nathan sent you the e-mail on October 29th  
6 that had a link to the public commenting page for Map 1  
7 and Map 2 that that was when -- about when he was done  
8 with redistricting; is that correct?

9                   MS. OLALDE: Objection; misstates prior  
10 testimony.

11           A. I don't know. I guess I want to be clear.  
12 That's when I understood Nathan to be finished with his  
13 involvement with the process he was working with the  
14 attorneys.

15           Q. (BY MS. CHEN) But in the e-mails of the metes  
16 and bounds, those did take place on November 5th, 2021,  
17 after the October e-mail; correct?

18           A. That is correct.

19           Q. Did it surprise you to have these  
20 communications with Nathan in November about the  
21 redistricting maps?

22           Q. I have -- it's -- I did not -- I guess I  
23 didn't -- I don't understand the scope that he was asked  
24 to do so my first impression that he was finished was  
25 incorrect.

1 Q. And did he specifically ask you to only make  
2 those adjustments for consistency in the metes and  
3 bounds descriptions?

4 A. He didn't ask -- he asked me to look at them to  
5 see how it read.

6 Q. And I know you've mentioned this before but if  
7 you could just elaborate on why consistency would be  
8 important for this kind of document.

9 A. Because when I've -- when I've looked at other  
10 metes and bounds descriptions, it's important to have  
11 the same location where you end and where you start.

12 Q. Given Nathan wasn't usually creating these  
13 kinds of metes and bounds descriptions did you consider  
14 making more intensive edits, more intensive supervision  
15 of this when he e-mails them to you?

16 MS. OLALDE: Objection; misstates and  
17 misrepresents prior testimony.

18 A. No, because I'm not sure where -- the  
19 origination of that metes and bounds, what the origin of  
20 that -- those documents were.

21 Q. (BY MS. CHEN) Would it be fair to say you  
22 generally don't do that kind of comparison or -- sorry.  
23 Let me rephrase. That you don't generally supervise  
24 metes and bounds descriptions with comparisons to  
25 demographic information or other mapping information

1 when presented by, for example, a subdivision developer  
2 or any other third party?

3 MS. OLALDE: Objection; compound; vague;  
4 confusing. You can answer.

5 A. Metes and bounds descriptions describe a piece  
6 of property or an area and not necessarily any other  
7 information is involved in describing what that area is.

8 Q. (BY MS. CHEN) But if there was a substantive  
9 mistake in the metes and bounds description of an area,  
10 who would catch it?

11 MS. OLALDE: Objection; calls for  
12 speculation.

13 A. I don't know who would catch that.

14 Q. (BY MS. CHEN) But it's not your  
15 responsibility?

16 MS. OLALDE: Objection; overly broad. You  
17 can answer.

18 A. I don't -- my understanding it's not my  
19 responsibility that I was tasked to do.

20 Q. (BY MS. CHEN) So it appears from the  
21 information that we have and the exhibit that you saw  
22 that Nathan sent you a few voting precinct numbers metes  
23 and bounds. I believe the overall count was something  
24 like one, two, three, four, five, six, or seven voting  
25 precincts; is that correct?

1           A. I don't have the document, but it appears to be  
2 correct.

3           Q. Are you aware that there are many more than six  
4 or seven voting precincts in the whole county?

5           A. Yes.

6           Q. Did you discuss why you would review the metes  
7 and bounds descriptions for only six or seven voting  
8 precincts in that map proposal and not all the others?

9           A. I believe these were the ones that changed.

10          Q. Can you elaborate?

11          A. There was a change in a voting precinct for one  
12 and I don't know the reason what prompted a change in a  
13 voting precinct, but the other metes and bounds for all  
14 the other precincts didn't change.

15          Q. Do you know when voting precincts -- let me  
16 rephrase. You mentioned that you were aware that  
17 redistricting, you know, usually occurs every ten years  
18 to account for population changes; right?

19          A. Correct.

20          Q. Are you aware of when voting precincts might  
21 need to be changed?

22          A. No.

23          Q. If -- were you involved in any other part of  
24 the redrawing of voting precincts in 2021 or later?

25                 MS. OLALDE: Objection; asked and answered.

1 (Reporter clarification)

2 MS. OLALDE: Asked and answered.

3 A. And can you repeat the question?

4 Q. (BY MS. CHEN) Yes. Were you involved in any  
5 of the redrawing of voting precincts in 2021 or later?

6 MS. OLALDE: Same objection.

7 A. I -- I didn't redraw any precincts. I didn't  
8 redraw any voting precincts.

9 Q. (BY MS. CHEN) Do you know if Nathan Sigler was  
10 involved in that process?

11 MS. OLALDE: Objection; asked and answered.

12 A. I don't know the scope of Nathan's involvement  
13 with the work he was doing.

14 Q. (BY MS. CHEN) So I am talking about voting  
15 precincts and not the commissioner's court maps now  
16 which are different processes. The commissioner's court  
17 map, as you mentioned earlier, was adopted in November  
18 at a special meeting by the commissioner's court, and  
19 redrawing the voting precincts within the commissioner's  
20 map took place at a different time. Does that sound  
21 accurate to you?

22 A. Yes, it does.

23 Q. And so as a separate matter, was Nathan Sigler  
24 tasked with working on the drawing -- redrawing voting  
25 precincts?

1 MS. OLALDE: Objection; asked and answered.

2 A. I don't know that -- I don't know what all  
3 Nathan was asked to do.

4 Q. (BY MS. CHEN) So was there any communication  
5 from, for example, Tyler Drummond or any other county  
6 staff asking you to make sure Nathan's time was reserved  
7 for redrawing voting precincts or from redistricting?

8 MS. OLALDE: Objection; asked and answered.

9 A. I don't recall any other communication from  
10 Tyler.

11 Q. (BY MS. CHEN) Or any other county staff or  
12 commissioner or county judge?

13 MS. OLALDE: Objection; asked and answered.

14 A. That's correct. I don't recall any from  
15 others, county commissioners, or judge.

16 Q. (BY MS. CHEN) And then did Nathan update you  
17 or talk to you about his reprecinting work, if any?

18 MS. OLALDE: Objection; asked and answered.

19 A. He -- he did tell me he's still working on  
20 the -- on a project associated with adopting the new  
21 map. I don't know the scope of what his involvement  
22 was.

23 Q. (BY MS. CHEN) And then just a final few  
24 questions on the metes and bounds. Were you ever asked  
25 to assist in any way with a metes and bounds description

1 of commissioner's court precincts like one, two, three,  
2 four, the larger precincts?

3 A. I was not.

4 Q. Do you know if such a description would be --  
5 to your knowledge would the commissioner's court find it  
6 helpful to have that kind of description when  
7 considering maps or adopting a map?

8 MS. OLALDE: Objection; asked and answered;  
9 and also calls for speculation.

10 A. I don't know.

11 Q. (BY MS. CHEN) When Nathan sent you those metes  
12 and bounds descriptions, did he communicate a timeline  
13 by which he hoped that you would respond?

14 A. He did indicate that they needed to be done  
15 quickly.

16 Q. Did he say why?

17 A. No. I don't recall.

18 Q. All right. Thank you. Let's -- hang on just a  
19 little bit. I'm trying to whittle down my questions. I  
20 know we've been here for a while. To clarify your  
21 answer earlier on whether you were a member of any  
22 community organizations, does -- are you a member of a  
23 church or rotary club, anything like that?

24 A. I --

25 MS. OLALDE: Sarah, what is the relevance

1 of asking him about whether he's a member of a church?  
2 That seems to be way beyond the scope of the relevance  
3 of this deposition and this litigation.

4 Q. (BY MS. CHEN) That's fine. Mr. Shannon, you  
5 don't have to answer that if you don't want to, but I'll  
6 ask about a few other kinds of organizations. I just  
7 wanted to give a general example that others in your  
8 position have testified about.

9 Are you a member of the NAACP?

10 A. No, I'm not.

11 Q. Or LULAC, the League -- do you know what LULAC  
12 is?

13 A. Yes. I'm not a member.

14 Q. Are you a member of any Masonic lodges or that  
15 kind of an organization?

16 A. No, I'm not.

17 Q. Or the Oath Keepers?

18 A. No.

19 Q. Are you active in politics?

20 A. I -- I vote.

21 Q. Have you ever run for office?

22 A. No.

23 Q. Do you -- are you involved with -- you don't  
24 have to tell me the party, but are you involved with a  
25 local party or, you know, involved to that extent in

1 politics?

2 A. No.

3 Q. And then more on how you became the Galveston  
4 County engineer. Did anyone, during your interview  
5 process, mention that redistricting might be something  
6 that your office would touch?

7 A. No.

8 Q. Did you ever speak with the prior county  
9 engineer, Michael Fitzgerald, about the role?

10 A. The role -- oh. I'm sorry. I thought you were  
11 going to continue. I did have discussions with him on  
12 the role of the county engineer and some of the duties  
13 involved.

14 Q. Did he ever mention that he might have worked  
15 on redistricting?

16 A. I don't recall if he did. That -- that  
17 wasn't -- when I came on board in 2015, that wasn't  
18 something that was talked about.

19 Q. Did Nathan Sigler talk about his prior  
20 redistricting work?

21 A. He -- at times he did.

22 Q. What did he say about it?

23 A. That it's a time where he gets real busy.

24 Q. Did he say with whom he normally works on  
25 redistricting or with whom he previously worked on

1       redistricting?

2             A.   I don't recall if he mentioned any -- how his  
3 involvement was or who he -- who he was involved with.

4             Q.   Did he mention that he worked with  
5 Commissioner Clark on redistricting?

6             MS. OLALDE:   Objection; asked and answered.

7             A.   Not that I recall.

8             Q.   (BY MS. CHEN)   How about the County Judge?

9             A.   Are you referring to previous --

10            Q.   Uh--huh, the previous redistricting cycles.

11            A.   I don't recall him talking about any -- anyone  
12 in particular who he worked with.

13            Q.   All right.   Is the county engineer a term  
14 position or -- is it a term position?

15            A.   I serve at the pleasure of commissioner's  
16 court.

17            Q.   Just to clarify that, it's -- there's no  
18 specified end date to your employment as county  
19 engineer?

20            A.   Correct.

21            Q.   All right.   And how do you normally get  
22 commissioner's court approval on the projects your  
23 office works on?

24            MS. OLALDE:   Objection; asked and answered.

25            A.   An agenda item on commissioner's court.

1 Q. (BY MS. CHEN) Do you often have to speak with  
2 individual commissioners or the judge to -- about the  
3 projects to (audio distortion) or get more information?

4 MS. OLALDE: Objection; asked and answered.

5 A. I'm sorry. You broke up during that question.

6 Q. (BY MS. CHEN) Do you have to speak with  
7 them -- any commissioners or the County Judge  
8 individually to persuade them or give them more  
9 information about projects?

10 MS. OLALDE: Same objection.

11 A. From time to time.

12 Q. (BY MS. CHEN) And how would you normally  
13 communicate with them for that kind of communication?

14 A. Primarily with phone calls.

15 Q. You mentioned you physically work in Galveston  
16 on the island?

17 A. That's correct.

18 Q. Where is your office located?

19 A. 722 Moody.

20 Q. Are you in the same building as the judge or  
21 commissioners?

22 A. The judge has an office in -- at 722. He  
23 primarily offices in League City though.

24 Q. And each of the commissioners?

25 A. The commissioners have offices other places.

1 Q. So you would not necessarily see them face to  
2 face in your -- at your office?

3 A. That's -- that's correct.

4 Q. And they wouldn't just drop by to ask you  
5 something?

6 A. Very rarely.

7 Q. You did -- you mentioned talking with  
8 commissioners about one-off permits, flood insurance  
9 issues, kind of individual constituent issues; is that  
10 right?

11 A. Correct.

12 Q. What about for the larger scale development  
13 projects that your office works on: Roads, bridges,  
14 drainage, do those have a lot of commissioner input?

15 MS. OLALDE: Objection; asked and answered.

16 A. From time to time depending on what issues are  
17 involved.

18 Q. (BY MS. CHEN) Can you give me an example?

19 A. If a project -- if a change order or a budget  
20 amendment needs to occur on a project when -- from time  
21 to time updating them on the status of construction of  
22 the project, where we are in the process of the project.

23 Q. Are there any issues or projects that you work  
24 on where commissioners have disagreed with one another  
25 and had different priorities?

1 A. I don't know. Nothing comes to mind.

2 Q. Okay. If something does come to mind at any  
3 point, just let me know. Is it part of your job to  
4 interact with members of the public?

5 A. On occasion.

6 Q. Under what circumstances?

7 A. There's been public meetings on revising our  
8 floodplain regulations that we had a community meeting  
9 in Bacliff. There's -- I do have a pending invitation  
10 to talk to a Rotary Club in Dickinson about the -- what  
11 the county engineer's office does. There's daily phone  
12 calls from constituents requesting information on how to  
13 develop their property.

14 Q. And how do you respond to those kinds of  
15 inquiries or comments?

16 A. I guess each instance is a little bit  
17 different. I mean, how I respond is to inform them of  
18 what the county policy -- I don't know exactly how to  
19 answer the question.

20 Q. That's all right. You have -- your office has  
21 a page on the county's website; is that right?

22 A. That's correct.

23 Q. And that includes a GIS portal that has copies  
24 of maps on it?

25 A. Correct.

1 Q. Who decides what maps are posted on that  
2 website?

3 A. I have input on what gets posted.

4 Q. And what types of maps do you decide to post?

5 A. Well, things that people -- we get requests  
6 oftentimes about where my voting -- where voting  
7 precincts are and where -- who their county commissioner  
8 is so that type of public facing information, assist  
9 them.

10 Q. Uh-huh. And do you also decide what data is  
11 included with those maps?

12 A. I -- I have a role in -- I have in role in  
13 that, yes.

14 Q. And what is your general opinion on what kinds  
15 of data should be included on the public maps?

16 A. My opinion is that we should offer whatever  
17 information the public would like to see without slowing  
18 down the program so much and then dating it that we  
19 can't use that map anymore.

20 Q. So are you aware of any requests for racial  
21 demographic data to be included on maps posted in the  
22 county website?

23 A. I'm not aware of any.

24 Q. If you had been aware or is -- sorry. If you  
25 were to be asked, would you consider putting that

1 information on the website?

2 A. Yes.

3 Q. But to be clear, no one has communicated that  
4 the public wants to see those, wants to see that kind of  
5 data to you?

6 A. I haven't -- I'm not aware of any requests.

7 Q. Would you expect anyone working for the county  
8 who heard those requests to convey them to you?

9 MS. OLALDE: Objection; calls for  
10 speculation.

11 A. I don't know if -- I don't know if they would  
12 know to -- who to contact.

13 Q. (BY MS. CHEN) Is there somebody else in your  
14 office who receives more of the public comments who  
15 normally sends them to you?

16 A. The request for mapping information usually  
17 flows through Nathan Sigler.

18 Q. Okay. And then do you -- you mentioned the tax  
19 assessor's office being one that you work with. Can you  
20 say a little bit more about what kinds of projects or  
21 relationship you have with the tax assessor's office?

22 A. They oftentimes request maps of various form --  
23 and I don't know the level of detail, but they ask for  
24 maps from Nathan and we -- and Nathan works with them to  
25 produce and to answer their needs.

1 Q. Did you ever speak with the tax assessor  
2 collector's office or Cheryl Johnson about redistricting  
3 in 2021?

4 A. I don't recall any conversations I had with  
5 Cheryl Johnson.

6 Q. All right. Let me just do my best to introduce  
7 an exhibit here by sending it to the chat and sharing my  
8 screen. One moment. This document on my screen is  
9 named Shannon Tab 6, DEFS00004167, and this will be  
10 Exhibit 13 for this deposition. I'll mark this as  
11 Exhibit 13.

12 (Exhibit 13 marked)

13 Q. (BY MS. CHEN) As you can see, this is an  
14 e-mail from Cheryl Johnson sent on April 8th, 2021, to  
15 someone named John Wayne Ferguson, Nathan Sigler, and  
16 yourself. And the subject line is RE: Old Commissioner  
17 Precinct maps; is that right?

18 MS. OLALDE: I just handed him the document  
19 to look at in a bigger format.

20 MS. CHEN: Great, thank you.

21 A. Yes. It reads old commissioners precinct maps.

22 Q. (BY MS. CHEN) Do you know who John Wayne  
23 Ferguson is?

24 A. Yes.

25 Q. And it looks here like he's asking for copies

1 of the county commissioner maps as they existed from  
2 2001 to 2010. Do you see that?

3 A. Yes.

4 Q. And Ms. Johnson's response is that they cleaned  
5 out all of the 2000 maps to prepare for 2020  
6 redistricting and included you and Nathan Sigler and  
7 Casey also on the maps; is that right?

8 A. Correct.

9 Q. Do you recall receiving this e-mail?

10 A. Vaguely recall this, yes.

11 Q. Do you recall doing anything in response?

12 A. Nathan was included on this and he -- I think  
13 what happened here is that he looked for the maps, and  
14 he may have provided them. I -- I don't know the follow  
15 up. We -- we generally answer requests -- he generally  
16 handles these requests, and if that information is  
17 available will -- will respond with that information.

18 Q. Got it. Let me pull up what I'll mark as  
19 Exhibit 14. Do you see it on the screen and let me send  
20 it via chat.

21 A. I'm going to start reading in here with my  
22 glasses on. Okay.

23 (Exhibit 14 marked)

24 Q. (BY MS. CHEN) This is the e-mail response from  
25 Nathan Sigler on April 8th, later that day, saying that

1 he does have a hard copy map. He thinks it's a little  
2 faded, but he can make out the commissioner precincts;  
3 is that correct?

4 A. That is correct.

5 Q. And did you follow up at all on this hard copy  
6 map?

7 A. I did not.

8 Q. Does it surprise you that your office did not  
9 have a digital copy of a prior commissioner's court  
10 precinct map?

11 A. I don't know if we did or didn't have a digital  
12 map.

13 Q. Are many records from prior to 2010 in paper  
14 format only?

15 A. I don't know what occurred prior to 2010.

16 Q. Okay. I'll stop sharing that. Let me send  
17 another exhibit, Exhibit 15, to chat.

18 (Exhibit 15 marked)

19 Q. (BY MS. CHEN) Can you see it?

20 A. Can you enlarge that?

21 MS. OLALDE: Just one second. I can get it  
22 in front of him.

23 Q. (BY MS. CHEN) Do you see the e-mail now?

24 A. I can see the e-mail.

25 Q. Great. It is from Nathan Sigler sent on July

1 2nd, 2021, to someone named Nancy Baher, and the  
2 attachment is called -- the Subject is Draft, Attachment  
3 Nancy Wall Draft.pdf; is that right?

4 A. Yes.

5 MS. OLALDE: Sarah, I think he was asked --  
6 because he doesn't have it in front of him. He was  
7 asking if it was one page.

8 MS. CHEN: Oh, sorry. It is -- there is an  
9 attachment here so the second page is of the attachment.

10 MS. OLALDE: Thank you.

11 Q. (BY MS. CHEN) So let me go back up to the  
12 e-mail, and we'll scroll to the attachment in a second;  
13 but Nancy Baher is the assistant county engineer;  
14 correct?

15 A. That's correct.

16 Q. Were you -- were you involved in any  
17 communication between Nancy and Nathan about -- in --  
18 around this time in July of 2021 about redistricting or  
19 about commissioner's court precincts?

20 A. I'm sorry. The -- I had a -- you just put it  
21 in front of me. Can you ask the question?

22 Q. Were you involved with any conversations with  
23 Nathan and Nancy around this time, July 2021, about  
24 redistricting or commissioner's court precincts?

25 A. I did not have conversations -- I wasn't

1 involved with redistricting conversations with -- that  
2 Nathan and Nancy were involved in.

3 Q. Okay.

4 A. No.

5 Q. Scrolling down to the second page of this  
6 exhibit, which is the attachment to the e-mail, can you  
7 tell me what this image is of?

8 A. It's a map of Galveston County showing  
9 precinct -- it look -- it appears to be county precincts  
10 and city limits.

11 Q. I'm going to scroll up again and note that this  
12 attachment is called Nancy Wall Draft. Is Nancy Wall  
13 another name for Nancy Baher or is -- can you explain  
14 who or what Nancy Wall might be?

15 A. I don't know what that references.

16 Q. Did Ms. Baher ever talk to you about her --  
17 about any interests or need for commissioner's court  
18 precinct maps?

19 A. No.

20 Q. To your knowledge why would she have asked --  
21 or would she be working with Nathan Sigler on  
22 commissioner's court precinct maps?

23 MS. OLALDE: Objection; calls for  
24 speculation.

25 A. I -- I don't know the answer.

1 Q. (BY MS. CHEN) And were you aware that Sigler  
2 was working on any commissioner's court precinct maps  
3 around July 2021?

4 MS. OLALDE: Objection; misstates prior  
5 testimony. You can answer.

6 A. I don't know what Nathan's involvement was in  
7 commissioner precinct maps.

8 Q. (BY MS. CHEN) Do you recall -- I'm going to  
9 stop sharing this. Do you recall when Tyler Drummond  
10 asked you when -- if Nathan could be kept available for  
11 redistricting?

12 A. Not without refreshing my memory on it. No, I  
13 don't recall.

14 Q. Could it have been as early as 2020?

15 MS. OLALDE: Objection; asked and answered.

16 A. I don't recall.

17 Q. (BY MS. CHEN) Does thinking about the racial  
18 information sent to Commissioner Holmes in February 2021  
19 and the e-mail that we just looked at between  
20 Nathan Sigler and Nancy Baher in July 2021, do those  
21 offer time frames to help you remember when  
22 Tyler Drummond might have asked you?

23 MS. OLALDE: Objection; misstates prior  
24 testimony in the record. You can answer.

25 A. No.

1 Q. (BY MS. CHEN) Would it have been prior to  
2 October 2021?

3 MS. OLALDE: Objection; asked and answered.

4 A. I don't -- I don't recall.

5 Q. (BY MS. CHEN) Let's return to Petteway  
6 Exhibit 8, and I'll put it up on the screen.

7 MS. CHEN: Would you like me to send it  
8 again for y'all or do you have it?

9 MS. OLALDE: What Tab Number was that?

10 MS. CHEN: That was their Tab Number 18.

11 MS. OLALDE: 18, just one second.

12 Q. (BY MS. CHEN) Uh-huh. For the record,  
13 Exhibit 8 is the September 27th e-mail sent to  
14 Michael Shannon with the subject line RE:  
15 Commissioner Holmes Project.

16 A. Okay.

17 Q. And the bottom e-mail is from Nathan Sigler  
18 sent September 27, 2021, to Mr. Shannon, Subject:  
19 Commissioner Holmes Project. We discussed this exhibit  
20 a little bit before, but I wanted to ask about the  
21 second sentence in particular where Mr. Sigler says, "as  
22 previously discussed I have refrained from adding  
23 population data to the VP and commissioner precincts."

24 Do you see that line?

25 A. Yes.

1 Q. Do you recall what he means by as previously  
2 discussed? Was that a discussion with you?

3 MS. OLALDE: Objection; asked and answered.

4 A. I -- I don't recall what the context of that --  
5 what that discussion is.

6 Q. (BY MS. CHEN) Does seeing this e-mail from  
7 late September 2021 help refresh your recollection at  
8 all about when Tyler Drummond asked you for Sigler to be  
9 available?

10 A. No, it doesn't.

11 Q. So you can't say now looking at this e-mail  
12 that he asked you before this e-mail was sent for Sigler  
13 to be available?

14 MS. OLALDE: Objection; asked and answered.

15 A. I don't recall.

16 MS. CHEN: I am pretty sure I am at the --  
17 very close to the end of my questioning. Can we take  
18 two minutes so I can double check because I don't want  
19 to ask any redundant questions?

20 MS. OLALDE: Absolutely.

21 MS. CHEN: Thank you. So let's go off the  
22 record.

23 THE VIDEOGRAPHER: The time on the monitor  
24 is 3:35 p.m., and we are off the record.

25 (Break taken from 3:35 p.m. to 3:38 p.m.)

1 THE VIDEOGRAPHER: The time on the video  
2 monitor is 3:38 p.m., and we are back on the record.

3 Q. (BY MS. CHEN) As promised we are very close to  
4 the end, and I wanted to clarify about the documents  
5 that you reviewed in preparation for today. Can you  
6 describe what kind of documents you reviewed to prepare  
7 for today?

8 MS. OLALDE: Objection; asked and answered.

9 A. Some e-mails.

10 Q. (BY MS. CHEN) Only e-mails?

11 A. There were, I guess, some -- a newspaper  
12 article that you provided. I don't recall other  
13 documents.

14 Q. Any calendar entries?

15 A. I didn't see any calendar entries.

16 Q. Or any of your own maybe handwritten notes or  
17 anything like that?

18 A. No.

19 Q. And a few more just, you know, questions that  
20 we need to establish, have you ever been deposed before?

21 A. One time.

22 Q. And what kind of case was that?

23 A. It was a misdemeanor shoplifting case.

24 Q. So fair to say it did not involve the voting  
25 rights act or any election issues?

1 A. That's correct.

2 Q. It didn't involve any discrimination issues?

3 A. No.

4 Q. And then how did you learn of this lawsuit?

5 A. I -- I don't know how I -- I don't recall how I  
6 learned of it. It could have been in the daily news.

7 Q. Have you read any of the complaints in this  
8 lawsuit?

9 A. No.

10 Q. Has anyone summarized the allegations for you  
11 or told you what our claims are?

12 A. No.

13 Q. And I apologize for asking you this but is  
14 there any reason that you might be impaired in any way  
15 in giving testimony today? For example, any drugs or  
16 any medications or alcohol or anything like that?

17 A. No.

18 Q. And during the breaks including our lunch break  
19 did you speak with anyone?

20 A. I spoke with counsel.

21 Q. And what did y'all talk about?

22 MS. OLALDE: To the extent it's a  
23 privileged conversation, I'm going to instruct him not  
24 to answer; otherwise he can answer.

25 A. I'm sorry. I'm going to move my phone from

1 ringing out of the way. We did talk about softball. We  
2 talked about weather. We talked about kids. We talked  
3 about different languages, where all we lived.

4 Q. (BY MS. CHEN) Did you talk about the  
5 deposition?

6 A. Yes.

7 Q. Did you talk about the subject of the lawsuit?

8 A. I -- I don't -- I don't know how to answer  
9 that. We did talk about the deposition and my  
10 testimony.

11 Q. Did you receive legal advice during the breaks?

12 MS. OLALDE: Objection. I'm going to ask  
13 you not to answer anymore questions about the substance  
14 of communications with counsel that relate to this  
15 lawsuit.

16 MS. CHEN: And I'm not asking for the  
17 substance or what the advice was just was advice  
18 provided.

19 MS. OLALDE: And you did ask about legal  
20 advice, and I think to the sum and extent what you  
21 started getting into is a gray area trying to ask a  
22 layperson what is and isn't legal advice, and at that  
23 point I'm going to draw the line.

24 MS. CHEN: That is fine by me. I have no  
25 further questions. As stated earlier, we do reserve the

1 right to reopen this deposition based on the privilege  
2 objections stated earlier, and with that I think, unless  
3 there is anything else from other counsel -- other  
4 plaintiff's counsel, I can pass to Defendant's counsel.

5 MS. OLALDE: Defendants will reserve all  
6 questions.

7 THE VIDEOGRAPHER: If there are no further  
8 questions.

9 MR. GEAR: No further questions from me.

10 THE VIDEOGRAPHER: Okay. Then are we ready  
11 to go off record?

12 MS. OLALDE: We are.

13 MS. CHEN: Thank you.

14 THE VIDEOGRAPHER: The time on the monitor  
15 is 3:43 p.m., and we are off the record.

REPORTER'S CERTIFICATION

DEPOSITION OF MICHAEL C. SHANNON

FEBRUARY 10, 2023

I, SUSAN GRIGGS, Certified Shorthand Reporter in  
and for the State of Texas, hereby certify to the  
following:

That the witness, MICHAEL C. SHANNON, was duly  
sworn by the officer and that the transcript of the oral  
deposition is a true record of the testimony given by  
the witness;

That the deposition transcript was submitted on  
February 28, 2023 to the witness or to the attorney  
for the witness for examination, signature and return to  
me by March 30, 2023;

1 That the amount of time used by each party at the  
2 deposition is as follows:

3 BERNADETTE REYES.....03 HOUR(S):24 MINUTE(S)  
4 BRUCE GEAR.....00 HOUR(S):58 MINUTE(S)  
5 SARAH XIYI CHEN.....00 HOUR(S):53 MINUTE(S)  
6 ANGIE OLALDE.....00 HOUR(S):00 MINUTE(S)

7 That pursuant to information given to the  
8 deposition officer at the time said testimony was taken,  
9 the following includes counsel for all parties of  
10 record:

11 BERNADETTE REYES with UCLA Voting Rights  
12 Project for PETTEWAY plaintiffs;

13 SARAH XIYI CHEN with Texas Civil Rights  
14 Project for NAACP plaintiffs;

15 BRUCE GEAR for the United States;

16 ANGIE OLALDE for Galveston County  
17 defendants.

18 That § \_\_\_\_\_ is the deposition officer's  
19 charges to the Plaintiffs for preparing the original  
20 deposition transcript and any copies of exhibits;

21 I further certify that I am neither counsel for,  
22 related to, nor employed by any of the parties or  
23 attorneys in the action in which this proceeding was  
24 taken, and further that I am not financially or  
25 otherwise interested in the outcome of the action.

1 Certified to by me this 28th day of February, 2023.

1 P R O C E E D I N G S

2 THE REPORTER: Today's date is December  
3 19th, 2022. The time is 9:14 a.m. We are here for  
4 the deposition of Nathan Sigler in the case the  
5 Honorable Terry Petteway, et al., versus Galveston  
6 County, et al., Civil Action No. 3:22-cv-00057,  
7 filed in the United States District Court for the  
8 Southern District of Texas.

9 My name is Karen Shelton. I'm reporting  
10 the deposition remotely from Fort Worth, Texas. The  
11 witness is located in Galveston, Texas.

12 Mr. Sigler, if you would please raise your  
13 right hand, I'll place you under oath.

14 (The witness was sworn by the reporter.)

15 MS. JAYARAMAN: Now, Mr. Sigler, could you  
16 please spell and state your name for the record.

17 THE WITNESS: Including the middle name?

18 MS. JAYARAMAN: Yes, please.

19 THE WITNESS: Nathan Wayne Sigler,  
20 N-A-T-H-A-N, W-A-Y-N-E, S-I-G-L-E-R.

21 MS. JAYARAMAN: Thank you. My name is  
22 Tharuni Jayaraman, and I'm one of the attorneys  
23 representing the United States.

24 For the record, I'm going to ask the other  
25 attorneys and anyone else who's in this room to

1 introduce themselves, please. We can start with my  
2 colleague, Catherine.

3 MS. MEZA: Good morning, everyone.  
4 Catherine Meza for the United States.

5 MR. GEAR: Good morning. Bruce Gear on  
6 behalf of the United States.

7 MS. SMITH: Good morning. K'Shaani Smith  
8 on behalf of the United States.

9 MS. WAKE: Good morning. Brittany Wake,  
10 analyst with the Department of Justice.

11 MR. GONZALEZ: This is Joaquin Gonzalez on  
12 behalf of the NAACP plaintiffs.

13 MS. CHEN: Sarah Chen on behalf of NAACP  
14 plaintiffs.

15 MS. SPOTO: Adrienne Spoto on behalf of  
16 NAACP plaintiffs.

17 MS. ZHU: Hi, everyone. This is Molly Zhu  
18 on behalf of the NAACP plaintiffs.

19 MS. GARRETT: Kathryn Garrett on behalf of  
20 the NAACP plaintiffs.

21 MS. REYES: Hi. This is Bernadette Reyes  
22 on behalf of the Petteway plaintiffs.

23 MS. RICHARDSON: Valencia Richardson on  
24 behalf of the Petteway plaintiffs.

25 MS. COPPER: Alexandra Copper on behalf of

1 the Petteway plaintiffs.

2 MR. RUSSO: I think that's all the  
3 plaintiffs. This is Joseph Russo, Jr., on behalf of  
4 Galveston County.

5 MS. JAYARAMAN: Thank you, everyone.

6 NATHAN SIGLER,  
7 having been first duly sworn, testified as follows:

8 E X A M I N A T I O N

9 BY MS. JAYARAMAN:

10 Q. Mr. Sigler, have you been deposed before?

11 A. No, ma'am.

12 Q. Well, I'm going to go through a few ground  
13 rules then for today's deposition. Please make sure  
14 to give a verbal response to any question because  
15 the court reporter cannot take down gestures. Do  
16 you understand that?

17 A. I do.

18 Q. Likewise, it may be difficult for the  
19 court reporter, particularly because we're in a  
20 virtual environment, if we talk over each other. So  
21 please let me finish my question before you respond.  
22 You understand that?

23 A. I do.

24 Q. If you don't hear a question, please say  
25 so and I'll be happy to repeat it. You understand?

1 A. I do.

2 Q. Likewise, if you don't understand a  
3 question, please say so and I'd be happy to rephrase  
4 the question. Otherwise, I will assume that you  
5 understood my question. Do you understand that?

6 A. I do.

7 Q. If you want to take a break, please just  
8 say so. We can take a break so long as there is no  
9 question pending. Do you understand that?

10 A. I do.

11 Q. If you need to take a break to consult  
12 your counsel regarding the potential disclosure of  
13 privileged information, please state that and we can  
14 take a break to allow for that consultation. Do you  
15 understand?

16 A. I do.

17 Q. Your counsel may object to certain of the  
18 questions that I ask you today, but unless your  
19 counsel instructs you to not answer my question, you  
20 should answer my question. Do you understand that?

21 A. I do.

22 Q. Do you understand that you are testifying  
23 under oath today?

24 A. I do.

25 Q. And do you understand that this is the

1 same oath that you would have taken if you were  
2 testifying in court?

3 A. I do.

4 Q. Mr. Sigler, is there anything that would  
5 prevent you from answering my questions completely  
6 today?

7 A. No.

8 Q. Is there anything that would prevent you  
9 from answering my questions honestly today?

10 A. No.

11 Q. Is there anything that would prevent you  
12 from answering my questions accurately today?

13 A. No.

14 Q. Are you on any medications that might  
15 prevent you from being able to answer my questions?

16 A. No.

17 Q. Do you have an illness or any other  
18 conditions that might prevent you from being able to  
19 answer my questions?

20 A. No.

21 Q. If as we're going through my questions you  
22 realize that you want to add information about a  
23 prior question, just let me know and we can go back.  
24 Do you understand that?

25 A. I understand.

1 Q. Great. Likewise, if you realize that you  
2 want to clarify an answer that you previously gave,  
3 just let me know and we can go back. Do you  
4 understand that?

5 A. I understand.

6 Q. Mr. Sigler, where were you born?

7 A. Clear Lake, Texas.

8 Q. And how long did you live there?

9 A. Maybe one or two years.

10 Q. And where is Clearly, (sic) Texas,  
11 located?

12 A. Webster.

13 Q. And forgive me. What is Webster?

14 A. A city.

15 Q. And where is Webster located in Texas?

16 A. Texas. Texas.

17 Q. What county is it located in?

18 A. Harris County.

19 Q. Where did you live after you lived in  
20 Clearly, (sic) Texas?

21 A. League City, Texas.

22 Q. And how long did you live in League City?

23 A. Thirteen years.

24 Q. And where did you live after you lived in  
25 League City?

1 A. Friendswood.

2 Q. And why did you move from League City to  
3 Friendswood?

4 A. I don't know.

5 Q. And how long did you live in Friendswood?

6 A. I still currently live in Friendswood.

7 Q. What high school did you graduate from,  
8 Mr. Sigler?

9 A. I did not graduate.

10 Q. Do you have any professional  
11 certifications?

12 A. I do.

13 Q. What are your professional certifications?

14 A. GED, one-year drafting certificate, and  
15 multiple certificates in GIS.

16 Q. So let's start with the certificates.  
17 Can you go through your certificates again for me,  
18 please?

19 A. Yes. One was a, let's see, introduction  
20 to GIS. One was, I guess, a combination of like  
21 coding and working in different map views. The  
22 other two I can't recall at the moment.

23 Q. Okay. And you also mentioned a drafting  
24 certificate. Is that separate from these four  
25 GIS-related certificates?

1 A. Yes, it is.

2 Q. Can you talk to me a little bit about what  
3 the drafting certificate entailed?

4 A. Yes. So that was through a college that I  
5 had gone through prior to my hire. It involved just  
6 AutoCAD, hand-drafting. Those were the -- that's  
7 essentially the -- of what it contained, what it was  
8 for, was doing that, AutoCAD and for hand-drafting.

9 Q. I see. And you said prior to your hire.  
10 What did you mean by that?

11 A. Before I was hired on at the county.

12 Q. Got it. And so what is AutoCAD?

13 A. A program to use either for -- I used  
14 it -- for my purposes, I used it for designing for  
15 parking lots, anything basically regarding civil  
16 engineering matters. Parking lots, drainage.

17 Q. Go ahead. Sorry. I didn't mean to cut  
18 you off.

19 A. That's fine, but yes, just parking lots  
20 and drainage.

21 Q. And so it's a software program?

22 A. Yes, it is.

23 Q. Okay. And then you mentioned  
24 hand-drafting. What is that?

25 A. So along with AutoCAD at the time,

1 hand-drafting was still something that was taught.  
2 Essentially it's, for lack of a better term, same  
3 thing as AutoCAD. You're just doing it by hand  
4 instead of using the software.

5 Q. Got it. And when did you earn your  
6 drafting certificate?

7 A. I do not recall.

8 Q. Would you say it was before 2000?

9 A. No, after.

10 Q. Would you say it was before 2010?

11 A. Yes.

12 Q. Would you say you earned your drafting  
13 certificate before 2005?

14 A. Either that date plus or minus a year.

15 Q. Okay. So somewhere between 2004 and  
16 2006 --

17 A. Correct.

18 Q. -- you earned your drafting certificate?

19 A. Correct.

20 Q. And then when did you earn your GED?

21 A. 2001, I believe.

22 Q. And were you living in Friendswood at the  
23 time that you earned your GED?

24 A. I was.

25 Q. And you mentioned that you earned your

1 drafting certificate at a college. What college was  
2 that?

3 A. San Jacinto South.

4 Q. And where is that college located?

5 A. Harris County.

6 Q. And then you mentioned that you earned  
7 four GIS-related certificates. One was introduction  
8 to GIS, one was on coding, and then there were two  
9 others that you couldn't recall the details of.

10 Did you also earn those at the same college?

11 A. No. Those were after my hire, after I was  
12 hired.

13 Q. Okay. So let's start with the  
14 introduction to GIS certificate. When did you earn  
15 that certificate?

16 A. I do not recall the dates on those -- on  
17 the certificate.

18 Q. When were you hired first by the county?

19 A. 2007.

20 Q. Did you earn that introduction to GIS  
21 certificate sometime in 2007?

22 A. No.

23 Q. Did you earn the introduction to GIS  
24 certificate sometime in 2008?

25 A. I would say if I had -- probably between

1 2008 and 2012-'13 for all four, but I don't recall  
2 specific dates.

3 Q. Sure. And what exactly was the content of  
4 the introduction to GIS certificate?

5 A. Basically the different layout views of  
6 the software, the -- how to upload layers, how to  
7 create layers, different fonts, how to do different  
8 line widths.

9 Q. Was there anything else covered in the  
10 course?

11 A. Not that I can recall.

12 Q. And when you say "software," what do you  
13 mean by "software"?

14 A. Software, the same as AutoCAD, just a  
15 different type of software used for mapping.

16 Q. And what is the name of that software?

17 A. Esri is the software. GIS is also -- what  
18 it's also known as, too.

19 Q. And then the second certificate you said  
20 was about coding of map views? Is that correct?

21 A. Correct.

22 Q. And what does that entail?

23 A. Essentially you could create different  
24 codes to show how you could look at titles if you  
25 clicked on a layer, how that layer -- how that

1 attribute field would present itself to a user.

2 You could code it to have certain color of  
3 the font, certain size of the font, to pull specific  
4 data out of a field. Essentially that. I can't  
5 recall. There's probably more, but I can't recall.

6 Q. So you mentioned you earned your GED in  
7 2001, correct?

8 A. Correct. Either that date or maybe 2002.  
9 I'm not a hundred percent sure, but I believe 2001.

10 Q. Okay. And then you started working at the  
11 county in 2007, correct?

12 A. Yeah.

13 Q. What were you doing between 2001 and 2007?

14 A. Child care facil- -- working at a child  
15 care facility.

16 Q. Did you have any other jobs between 2001  
17 and 2007?

18 A. Possibly one other job.

19 Q. What was that job?

20 A. Working for a contract company unloading  
21 and loading airplanes. I can't recall the name of  
22 that company.

23 Q. No problem. How did you end up working  
24 for the county in 2007?

25 A. I was made aware of the position online

1 through the internet.

2 Q. And what was that position?

3 A. Engineer tech.

4 Q. Is that still your position today?

5 A. Yes, and in addition to.

6 Q. What do you mean "in addition to"?

7 A. I'm also the GIS specialist.

8 Q. I see. When you first started working as  
9 an engineering tech in 2007, what were your  
10 responsibilities?

11 A. AutoCAD. I was the one who inputted the  
12 information on AutoCAD that I received from  
13 engineering specialists at the time. I was the one  
14 in charge of drawing it out in AutoCAD.

15 Q. And what is an engineering specialist?

16 A. Somebody who has, to my knowledge -- I  
17 don't know a hundred percent, but -- I don't know.  
18 I don't know. I don't know.

19 Q. So you said you inputted information that  
20 you received from an engineering specialist. What  
21 did you mean by that?

22 A. They would draw out on paper or maybe even  
23 a rough sketch. My job was to draw it out in CAD.

24 Q. And what were examples of things that you  
25 would draw out in CAD?

1 A. Parking lots, drainage.

2 Q. Aside from parking lots and drainage, was  
3 there anything else that you would draw out in CAD?

4 A. Not that I can recall.

5 Q. What other responsibilities, if any, did  
6 you have as an engineering tech when you first  
7 started working for the county in 2007?

8 A. Maintaining the map room.

9 Q. What is the map room?

10 A. At the time, AutoCAD was what we used for  
11 our maps that would be available to the public, and  
12 so to make sure that they were stocked.

13 Q. What do you mean by "make sure they were  
14 stocked"?

15 A. That they were -- that we -- if one was --  
16 we sold the last one, make sure to print one out,  
17 put it in there, just to make sure that whatever map  
18 we had was always filled up for purchase.

19 Q. What do you mean by "filled up"?

20 A. If there was a empty section where a  
21 map -- like we just sold the last map, I would go in  
22 there and check it. It was a -- at the time, it was  
23 a daily routine for me to go in there and check the  
24 maps to make sure they were all in stock. And if  
25 they had been sold, then I would print them out and

1 replace, put them in there.

2 Q. So the map room -- sorry. Go ahead.

3 A. Or if there were any changes as far as  
4 city limits or anything like that have changed, I  
5 would replace it at that time, too.

6 Q. So the map room was a physical room?

7 A. Yes.

8 Q. Does the map room still exist?

9 A. Yes.

10 Q. Is it still a physical room?

11 A. Yes.

12 Q. And is it still open to the public?

13 A. Yes.

14 Q. So aside from AutoCAD, maintaining the map  
15 room, did you have any other responsibilities when  
16 you started as an engineering tech in 2007?

17 A. Yes. I can't recall as to what part of  
18 2007, but GIS was introduced to me at the latter  
19 part of 2000, I would say, possibly early 2008, but  
20 it was right around that time frame.

21 Q. Just to be clear, GIS was introduced to  
22 you in the latter part of 2007?

23 A. 2007, possibly 2008, but right around that  
24 time frame, early -- or late 2007, early 2008.

25 Q. Did you have a supervisor when you started

1 as an engineering tech?

2 A. I did.

3 Q. Who was your supervisor?

4 A. Michael Fitzgerald, the county engineer.

5 Q. Did your responsibilities as an  
6 engineering tech change over time?

7 A. Yes.

8 Q. When was the first time your  
9 responsibilities changed?

10 A. As stated, probably late 2007, early 2008.

11 Q. How did they change?

12 A. The county engineer had a software called  
13 Esri GIS. It was a program that we have had. I  
14 don't know for how long we had it. He asked if I  
15 would be interested in learning it. I told him I  
16 would, and I basically started teaching myself from  
17 that point on once I did receive it.

18 Q. Once you started working with Esri GIS,  
19 what were the types of projects you were working on?

20 A. Let's see. Early on it was just figuring  
21 out the system, how it operated, how to -- how to  
22 put information in, how to gather information, just  
23 finding out the ins and outs of how the program  
24 worked.

25 Q. And once you figured out the ins and outs

1 of how the program worked, did the types of projects  
2 you worked on change?

3 A. Yes.

4 Q. What did you start to do?

5 A. We started our first project was to take  
6 all of our information in AutoCAD and transfer it  
7 over to GIS.

8 Q. Did you work on any other projects in GIS?

9 A. Can you ask that question, repeat the  
10 question?

11 Q. Yes. I said, did you work on any other  
12 projects in GIS aside from migrating information  
13 from AutoCAD to GIS?

14 A. For what time frame?

15 Q. Let's start in 2008.

16 A. Yes.

17 Q. What were those projects?

18 A. Updating roads.

19 Q. What do you mean by that?

20 A. So every year the Galveston County  
21 Appraisal District will -- any new subdivisions from  
22 plats, they put the roads in their system and we  
23 will take that and upload it into ours. If there  
24 are roads that we see are not in there, we would add  
25 them. Anytime a city limit may do an annexation, we

1 would make those changes.

2 That's all I can recall at that time for  
3 2008. Unfortunately, 2008 was when Ike happened, so  
4 I didn't do GIS for a while.

5 Q. So when did you pick GIS back up after  
6 2008?

7 A. 2009, but I don't recall a specific month.

8 Q. Sure. What were the types of projects you  
9 were working on in GIS in 2009?

10 A. Let's see. Working on mapping out the  
11 buyout properties, what properties were damaged.  
12 Still worked doing the same as updating city limits  
13 and streets. That's all I can require (sic) as far  
14 as 2009.

15 Q. Sure. So when you're updating or when you  
16 were updating streets, was it just putting in  
17 information that other people had given you?

18 A. Not necessarily. It would be uploading  
19 data that I had received from appraisal district.  
20 But also, if there were roads that were left off, I  
21 would fill that in as well.

22 Q. Would you plan any of the roads yourself?

23 A. No.

24 Q. What were the GIS projects that you were  
25 working on in 2010?

1 A. I don't know. I don't recall.

2 Q. What were the GIS projects that you were  
3 working on in 2011?

4 A. The only ones I know for sure would have  
5 been updating city limits, roads.

6 Q. Any other projects in 2011?

7 A. Not that I can recall.

8 Q. What were GIS-related projects you were  
9 working on in 2012?

10 A. Let's see. Road condition report.

11 Q. Any other projects?

12 A. City limits, roads, and I believe that  
13 was -- may have been redistricting was 2012. I  
14 can't recall specifically, but I think. And that  
15 would have been -- involved commissioner precincts.

16 Q. Anything else in 2012 related to GIS?

17 A. Not that I can recall.

18 Q. So the first project you mentioned you  
19 said was road conditions. What does that mean?

20 A. 2012 we had received a layer from a law  
21 firm that had mapped out all of the county roads,  
22 county-maintained roads, I should say, and that  
23 report included a condition for each one of those  
24 roads.

25 Q. And when you say "condition," what do you

1 mean?

2 A. Good, fair, poor, bad.

3 Q. And you used -- you have used the term

4 "layer" a few times. What is a layer?

5 A. Any data that you collect in GIS or that's

6 given to you is putting -- is you create a layer

7 with that to be a visual on a map. It's also known

8 as a shapefile.

9 Q. I see. Earlier you mentioned at some  
10 point you went from being an engineering tech to an  
11 engineering tech and a GIS specialist. Did that --  
12 did the title of GIS specialist get added on in  
13 2008?

14 A. No.

15 Q. When did it get added on?

16 A. I don't know.

17 Q. Did the title of GIS specialist get added  
18 on before 2012?

19 A. I would say 2009, between 2009 and 2013 is  
20 the only closest time frame I could give.

21 Q. Okay. Speaking of 2013, what were the  
22 GIS-related projects you were working on in 2013?

23 A. Would have been roads, city limits,  
24 updating GCAD information, parcels, adding layers  
25 from the appraisal district into our system.

1 Q. The first thing you mentioned was roads.  
2 Is that -- when you said that, were you referring to  
3 the updating roads process that you described  
4 earlier?

5 A. With the condition report or from the  
6 previous years? Which roads are we speaking about?

7 Q. Good question. Not the condition reports  
8 but the ones from years prior when you got the  
9 information from the appraisal.

10 A. Correct, yes. I updated that every year.

11 Q. And then you mentioned you were updating  
12 something called GCAD information. What is GCAD?

13 A. Galveston County Appraisal District.

14 Q. Okay. Was there anything else that you  
15 were doing in GIS in 2013?

16 A. Not that I can recall.

17 Q. All right. Let's move to 2014. What  
18 GIS-related projects were you working on in 2014?

19 A. City limits, roads, updating GCAD  
20 information layers. And that was the year I started  
21 uploading information from, let's see, TNRIS, I  
22 believe is what it is.

23 Q. And what is TNRIS?

24 A. I don't know. I don't know. They had  
25 shapefiles.

1 Q. I don't need to know what the acronym  
2 stands for, but do you have a sense of what the  
3 organization TNRIS is?

4 A. No. I can't recall.

5 Q. How were the shapefiles provided to you  
6 from TNRIS?

7 A. Through a portal on their website.

8 Q. Did you have a point of contact at TNRIS?

9 A. No.

10 Q. How would you know to check the portal to  
11 get the shapefiles from TNRIS?

12 A. Through a consortium, a GIS consortium.

13 Q. What do you mean by "consortium"?

14 A. There were at the time a group of  
15 individuals who did GIS from different backgrounds  
16 in the local area, cities. I think we had one from  
17 the power -- or the utility district as well. And  
18 we would have monthly or every-other-month meetings.

19 Q. So was TNRIS a local organization?

20 A. No.

21 Q. Was it a national organization?

22 A. I don't know.

23 Q. What was the content of the shapefiles  
24 that you received from TNRIS?

25 A. I don't recall.

1 Q. Why were you uploading those shapefiles?

2 A. A member of the consortium had said that  
3 they had some layers available online that may be a  
4 benefit.

5 Q. A benefit to whom?

6 A. To the county.

7 Q. What were those layers?

8 A. I can't recall.

9 Q. Which member of the consortium told you  
10 that the layers could be beneficial to the county?

11 A. I can't remember his name.

12 Q. Do you recall what organization he  
13 represented?

14 A. Yes.

15 Q. What organization did he represent?

16 A. City of Galveston. Ma'am?

17 Q. Yes.

18 A. I do recall one of the layers.

19 Q. Oh, thank you. What was on the layers?

20 A. 2-foot contour lines.

21 Q. What does that mean?

22 A. It showed you a layer on a map that  
23 would -- distances and elevations at those  
24 distances. For instance, every 20 foot the  
25 elevations would vary. So it was essentially a

1 elevation map or layer, I guess you would say.

2 Q. And what would you use that layer for?

3 A. Certain areas of the county, to see what  
4 the elevation was.

5 Q. Why would knowing the elevation be useful  
6 to you?

7 A. To know of certain projects the county was  
8 doing, what the elevation was for those areas. I  
9 don't know beyond -- once I did it, once I put it on  
10 there, I don't know beyond, what it was used for  
11 after that.

12 Q. Did you work on any other GIS-related  
13 projects in 2014?

14 A. I don't know.

15 Q. All right. Let's jump to 2015. Did you  
16 work on any GIS-related projects in 2015?

17 A. Yes.

18 Q. What projects?

19 A. City limits, roads, downloading appraisal  
20 district information, road condition report, and  
21 updating signs.

22 Q. What do you mean by "updating signs"?

23 A. As a layer, we had a layer and signs. And  
24 this will go back to the 2012 question we were  
25 talking about. I just now recalled that the sign

1 layer was a part of a layer we received with the  
2 road condition report. We received roads and signs  
3 at that time in 2012.

4 Q. So when you say a sign layer, is it a  
5 layer that shows, you know, there's a stop sign  
6 here, there's a yield sign here? Is that what that  
7 means?

8 A. That is correct.

9 Q. Got it. Did you work on any other  
10 GIS-related projects in 2015?

11 A. Yes. We started adding layers for the  
12 building department at that time.

13 Q. And when you say "adding layers for the  
14 building department," would they provide you with  
15 the shapefiles that you would load into GIS, or  
16 would you draw the layers yourself? What is that  
17 process?

18 A. It would have been both. It would have  
19 been involved uploading parcel information. It  
20 would have been involved controlling what the  
21 attributes looked like for them, of the layers. It  
22 would have involved our road condition layer.

23 Q. So what -- you've used this phrase a  
24 couple of times, "upload parcel information."  
25 What does that mean?

1           A.    Every year the Galveston County Appraisal  
2    District uploads the layers or updates their layers  
3    for parcels.  It's when they record any new  
4    information as far as ownership or anything like  
5    that.

6           So at that time frame, we were instructed  
7    or given information from the appraisal district  
8    that the layers are ready for us to upload into our  
9    system.  And sometimes we download them from the  
10   website.  Sometimes they would be provided to us  
11   through an email.  Other information they would have  
12   had that we would normally update would be roads  
13   that we had spoke about.  They have a railroad  
14   layer, emergency service district layer, and a MUD  
15   and WCID layer.

16          Q.    And what is a parcel?  I'm sorry.  Go  
17    ahead.

18          A.    There's a couple more, but I can't recall  
19    what they are.

20          Q.    And what is a parcel?  Sorry.

21          A.    That will give you the ownership  
22    information, the --

23          Q.    Of what?

24          A.    I'm sorry.  Do what?

25          Q.    Of what, ownership of what?

1 A. Property.

2 Q. Okay.

3 A. For the property. It'll give you legal  
4 information regarding that property. It will give  
5 you acreage and value for your land and your home,  
6 the taxing information, I guess you would say.

7 Q. I see. You had mentioned that you would  
8 also control what the attributes looked like for the  
9 appraisal. What did you mean by that?

10 A. Oh, not for the appraisal, just for the  
11 building department.

12 Q. Oh, okay. And what does that mean,  
13 "controlling the attributes"?

14 A. For instance, when they looked at a  
15 parcel, the value, the -- I can't recall the  
16 specific attributes, but value is one of them they  
17 didn't -- they didn't need to see. Just who the  
18 owner was was the main emphasis on that.

19 Q. So you would essentially remove from their  
20 view the attributes that were not of interest to  
21 them?

22 A. Not remove, just turn off where they can't  
23 see it. Never like delete the layer or attribute or  
24 permanently remove, just turn it off.

25 Q. Got it. At any point do you ever draw a

1 layer from scratch?

2 A. Yes.

3 Q. What layers have you drawn from scratch?

4 A. Road -- certain roads that were not  
5 included with the road layer from the appraisal  
6 district, city limits, boundary lines or shoreline,  
7 the Galveston County boundary line. And there are  
8 others, but I can't recall at this time.

9 Q. So you mentioned boundary lines. Aside  
10 from Galveston County's boundary lines, are there  
11 any other boundary lines that you've drawn --  
12 boundary line layers that you've drawn from scratch?

13 A. Shoreline.

14 Q. Any others?

15 A. Not that I can recall.

16 Q. Walk me through the process of drawing a  
17 shoreline layer from scratch, please.

18 A. Taking a aerial imagery and tracing the  
19 shoreline.

20 Q. Can you explain how you trace the  
21 shoreline, please?

22 A. Yes. There's several tools. When you  
23 create a shapefile, there's a line tool, and I would  
24 take the line tool and follow the boundary of the  
25 aerial for the shorelines.

1 Q. You mentioned that you've also drawn roads  
2 from scratch. Can you walk me through the process  
3 of drawing a road from scratch?

4 A. Yes. It would have been done through an  
5 aerial or provided -- a layer provided or a map  
6 provided from the road department.

7 Q. And once you have either the aerial or the  
8 map provided by the road department, would you then  
9 use something like the line tool to trace that shape  
10 in the layer that you're creating?

11 A. For aerial purpose, yes, would be trace  
12 the line or use the aerial for that, for the road  
13 department. It was usually a beginning and a end as  
14 far as intersection of this street 500 feet.

15 Q. Sorry. I don't follow. So if you got the  
16 information from the road department, can you walk  
17 me through? So if the road department said,  
18 "Mr. Sigler, we want this new road, X," what kind of  
19 information would they provide you?

20 A. They would provide location. They would  
21 provide a beginning point, a length in feet, and  
22 then that would correspond to your end point.

23 Q. And then you would be responsible for  
24 actually drawing the road from the beginning point  
25 to the end point they gave you?

1 A. Correct.

2 Q. Are there any guidelines that you follow  
3 when you were drawing a road based on information  
4 that you received from the road department?

5 A. Could you repeat the question?

6 Q. Sure. Are there any sort of standard  
7 guidelines that you follow when you are connecting  
8 the beginning point to the end point?

9 A. Just direction and then a beginning and  
10 then the feet.

11 Q. Are there any other criteria that you  
12 adhere to when you're trying to connect the  
13 beginning to the end point?

14 A. Not that I can recall.

15 Q. Are there concerns, for example, about  
16 crossing city limits?

17 A. No. I mean, if it's a joint project, it  
18 could cross city limits. Most of our roads, the  
19 maintained roads that we receive from the road  
20 department are only going to be within the  
21 jurisdiction of the county, unincorporated area.

22 Q. Do you ever have a role in setting the  
23 beginning point for a road?

24 A. Yes.

25 Q. When do you have a role in setting the

1 beginning point for a road?

2 A. If I'm tracing from the aerial.

3 Q. Do you ever have a role in selecting the  
4 beginning point of a road when you're receiving  
5 information from the road department?

6 A. No.

7 THE WITNESS: And is it possible -- sorry.

8 MS. JAYARAMAN: Sorry, Mr. Sigler. Were  
9 you saying something?

10 THE WITNESS: May I take a bathroom break?

11 MS. JAYARAMAN: Absolutely. Can we go off  
12 the record, please?

13 (Recess from 10:04 to 10:22)

14 BY MS. JAYARAMAN:

15 Q. Mr. Sigler, before we went to break, we  
16 were talking about situations in which you would  
17 have a role in deciding the beginning point for a  
18 road, and you mentioned that you would if you were  
19 working off an aerial view. Can you explain what  
20 you meant by that?

21 A. Yes. So if -- where's -- I mean,  
22 beginning point, whether to start from the end of  
23 the feature, meaning where the road would dead end,  
24 or from the intersection of the road to the dead end  
25 of whatever I was adding.

1 Q. And who would provide you with that aerial  
2 view?

3 A. The Galveston County Appraisal District.

4 Q. And would they tell you which feature to  
5 use as that starting point?

6 A. No.

7 Q. So how would you pick what feature to use  
8 as a starting point?

9 A. If it's a dead-end road, I might would  
10 start from the dead end and work to the  
11 intersection. Or I might start from the  
12 intersection and follow the road, if it connects to  
13 a road, or if it connects -- or if it ends in a dead  
14 end. That's essentially, yes, that.

15 Q. And so with the example of the dead-end  
16 road, who would provide you with the dead-end road  
17 that you're starting with?

18 A. I'm sorry. I don't understand the  
19 question.

20 Q. Sure. Would the appraisal district  
21 point -- tell you to -- tell you that the new road  
22 should start at that dead end?

23 A. No, it would just be from the aerial.

24 Q. So what does an aerial look like?

25 A. If you use Google Maps, the imagery.

1 Q. And so what does the aerial -- so let's  
2 take a step back. If the appraisal district is  
3 giving -- is asking you to draw a road from an  
4 aerial, what information would they provide you?

5 A. They wouldn't be asking us to do it. I  
6 would just take their layer. And if a road was  
7 missing, I would add it.

8 Q. How would you know if a road is missing?

9 A. Based on the layer that they provided.

10 Q. Would you check that layer against  
11 something else?

12 A. Yes.

13 Q. What would you check their layer against  
14 to identify that a road is missing?

15 A. Their previous year layer, our maintained  
16 road layer, and the aerial.

17 Q. So is an aerial also a layer?

18 A. Yes.

19 Q. So if you're updating the roads and  
20 there's a road that needs to be added, the appraisal  
21 might provide you with an aerial layer to load into  
22 your system as a first step?

23 A. No.

24 Q. Okay. So why don't you walk me through  
25 the process of what happens when you're drawing a

1 new road based on an aerial, starting with receiving  
2 that aerial.

3 A. Okay. Aerial is a separate layer, not  
4 related to any specific project. It's just a update  
5 we receive early (sic) or every year. Part of that  
6 process of updating an aerial would be to upload the  
7 previous year aerial. There have been a couple  
8 instances where maybe a road was left off from --  
9 from the current year versus the prior year. And  
10 sometimes there was a issue where their layer didn't  
11 account for a road that we had done from the  
12 county-maintained road layer.

13 And then, like I said, there would be a  
14 aerial that you could load into the software, and  
15 there were roads that were on there that would be  
16 added just based off that as well.

17 Q. What is the county road maintained layer  
18 or county-maintained road layer?

19 A. That is the road layer that was provided  
20 to the county in 2012 that has the condition report  
21 tied to it.

22 Q. Who constructs the aerial layer?

23 A. I do not know.

24 Q. Who provides you with the aerial layer?

25 A. Galveston County Appraisal District.

1 Q. Does the Galveston County Appraisal  
2 District have their own GIS staff?

3 A. Yes.

4 Q. Is Mr. Fitzgerald still your supervisor?

5 A. No.

6 Q. Who is your supervisor?

7 A. Michael Shannon.

8 Q. When did Mr. Shannon become your  
9 supervisor?

10 A. Six to eight years ago.

11 Q. So would you say that Mr. Shannon became  
12 your supervisor around 2015?

13 A. 2015, possibly 2016. I don't recall the  
14 specific date.

15 Q. And what is Mr. Shannon's title?

16 A. Galveston County engineer.

17 Q. Let's jump forward to present day, so  
18 2022. What are your GIS-related tasks in 2022?

19 A. Updating roads. Let's see. We maintain  
20 the database layer for the roads, for the signs,  
21 updating signs. We correspond with a few different  
22 departments and assist them with their GIS. We --  
23 let's see. We create data as needed. And then  
24 we're still basically updating the same data that  
25 we've been updating.

1 Q. Are there any other GIS-related tasks that  
2 you're doing in 2022?

3 A. Assisting with other departments. That's  
4 probably one of the biggest ones, I guess.

5 Q. Okay. So let's start there. What do you  
6 mean by "assisting with other departments"?

7 A. The Office of Emergency Management has  
8 acquired some licenses to view data, to create data.  
9 We assisted them with obtaining their licenses.  
10 We've created or I've created maps for them,  
11 dashboards for them. I assisted with the COVID,  
12 whenever that was going on, dashboard. Weather is a  
13 map I did for them, the interactive weather map.

14 I can't recall all the rest of the  
15 specifics as far as with the OEM as far as other  
16 things we've done for them, but essentially creating  
17 data, uploading data, and maintaining maps and  
18 dashboards, assisting them with that.

19 The tax office is a recent one that we've  
20 worked with. That entails adding parcel  
21 information. The tax office will provide layers  
22 based off different projects they have going on.  
23 And city limits, we add that, so we've created their  
24 own map for them. And they have a few licenses as  
25 well to access that. And we occasionally work with

1 other departments in providing information requests.

2 We get those periodically as well.

3 Q. So you mentioned that you created a map  
4 for the weather office, correct?

5 A. For emergency management, yes, ma'am.

6 Q. Emergency management. My apologies. But  
7 it was a weather map, you said?

8 A. A interactive weather map, yes, ma'am.

9 Q. Can you walk me through the process of  
10 drawing that map from start to finish, please?

11 A. Yes. It would involve accessing layers  
12 that are available through NOAA and through Esri,  
13 the software provider. They have their own  
14 shapefiles. You would create it in what's called a  
15 web map. Once your layers are in the web map, you  
16 can create what's then called a web app. The web  
17 app is what is accessed from the public to view  
18 those layers. And it'll have information as far as  
19 hurricane warnings, tracks. If there's any kind  
20 of -- basically any kind of update from NOAA will be  
21 shown on that map, if it's riptide or currents or  
22 whatever have you.

23 Q. And I think you also mentioned that you  
24 drew a map for the tax office that had city limits  
25 on it? Is that correct?

1           A.    Yeah, the tax office map would have  
2           several different layers, parcel layers, city  
3           limits. I can't recall the specifics what other  
4           layers may would be on there. They usually provide  
5           it and I just upload it to their web page, to their  
6           web map.

7           Q.    Did you draw any layers from scratch for  
8           the city limits map that you drew for the tax  
9           office?

10          A.    The city limits would have been drawn from  
11          scratch, yes, ma'am, that's correct.

12          Q.    Can you walk me through the process of  
13          drawing those city limits from scratch?

14          A.    Yes. The process would have been at the  
15          time that previous county engineer, Michael  
16          Fitzgerald, would provide documentation of when a  
17          city was annexed, what the boundaries were. So I  
18          would have either documents or maps or his knowledge  
19          of where a line should be for those city limits.

20          Q.    And you would follow that information to  
21          draw the limits?

22          A.    Correct.

23          Q.    And you mentioned Mr. Fitzgerald. So were  
24          you drawing city limit maps even prior to 2015?

25          A.    The city limit maps would have been the

1 same layer, just over the -- it was more of a living  
2 document that got changed over the course of time.

3 Q. So switching back to 2022, one of the  
4 other tasks that you mentioned related to GIS that  
5 you were doing is creating data as needed. What did  
6 you mean by that?

7 A. For example, the OEM was involved with --  
8 it's called -- I believe it's called Beach Party  
9 Weekend, and they needed some information on how  
10 they could send emergency services to a certain  
11 location. But for those emergency services  
12 volunteers to know exactly where to go, they  
13 numbered trash barrels.

14 And so my job was to create a layer that  
15 showed where all the trash barrels were and number  
16 them. That way the volunteers or responders would  
17 know where to respond to a call of emergency.  
18 That's one example of like creating layer -- like,  
19 you know, creating data for somebody.

20 Q. So when you say "creating data," is that  
21 the same thing as creating a layer?

22 A. Yes, yes. Whether you're doing it from an  
23 Excel file or if you're doing it from a shapefile,  
24 the end result will be a layer shapefile that you  
25 view on a map.

1 Q. What other layers have you created in  
2 2022?

3 A. So one off the top of my head I can think  
4 of is there is a program that our IT developed that  
5 allows us to pull data from our permit database and  
6 it puts it into an Excel format. I can take that  
7 Excel format, put it into my system, take what's  
8 called identifier number, which in this case would  
9 be the CAD number.

10 So I can take the CAD number from that  
11 Excel file, cross-reference it with a parcel that we  
12 use yearly to update, and then we'll know where all  
13 of the permits are located at and then also the  
14 status of that permit, if it's open or closed, the  
15 type of permit it is, if it's a RV.

16 Q. Are there any other layers that you've  
17 created in 2022?

18 A. There are. I'm just having a hard time  
19 recalling.

20 Q. Are there any other GIS-related tasks that  
21 you've undertaken in 2022 that we haven't spoken  
22 about yet?

23 A. No, not -- no.

24 Q. Let's go back to 2021. Were you engaged  
25 in any GIS-related tasks in 2021?

1 A. Yes.

2 Q. What were they?

3 A. Updating the road conditions, uploading  
4 the new roads from the appraisal district, assisting  
5 the tax office, assisting the Galveston County OEM,  
6 and the -- can you rephrase the question so I can  
7 hear it one more time, please?

8 Q. Sure. Were you engaged in any GIS-related  
9 tasks in 2021?

10 A. Okay. Yes. And then with the  
11 redistricting as well.

12 Q. And you've mentioned Galveston OEM a  
13 couple of times. Is that the Office of Emergency  
14 Management?

15 A. It is.

16 Q. Were you engaged in any other GIS tasks in  
17 2021?

18 A. I assisted the county clerk's office.

19 Q. What did you assist the county clerk's  
20 office with?

21 A. They gave me a list of addresses and  
22 for -- I believe it was voting locations. I'm not a  
23 hundred percent certain, but they provided lists of  
24 addresses for me to map out.

25 Q. What do you mean by "map out"?

1           A.    So they would give me an address.  I would  
2           either cross-reference it with the parcel or parcels  
3           and with Google, Google Maps specifically.

4           Q.    So they gave you a list of polling  
5           locations, you cross-referenced with Google Maps to  
6           confirm where they were, and then you created a new  
7           layer showing those polling locations?

8           A.    They just provided a list of addresses.  
9           I can't recall what they -- specifically they were  
10          for, if it was voting locations.  I don't know  
11          specifically.  Just they provided a list of  
12          addresses that they had requested that we map out  
13          for them and print on paper.

14          Q.    Okay.  So you took the list of whatever  
15          the addresses were that they gave you, you confirmed  
16          where they were, and you put those locations on a  
17          map and you gave them that map?

18          A.    That is correct.

19          Q.    Do you often work with the county clerk's  
20          office?

21          A.    Yes.

22          Q.    What do you work with the county clerk's  
23          office on?

24          A.    They may ask for maps for voting -- paper  
25          maps of voting precincts and commissioner precincts

1 and address as well for locations. I don't know  
2 what specifically they would be for, but that --  
3 that's usually what they request.

4 Q. Do you do any other work with the county  
5 clerk's office?

6 A. No.

7 Q. Were you engaged in any other GIS-related  
8 tasks in 2021?

9 A. Not that I can recall.

10 Q. Mr. Sigler, have you heard of the Bolivar  
11 Peninsula?

12 A. I didn't hear that question.

13 Q. I'm sorry. Have you heard of the Bolivar  
14 Peninsula?

15 A. Yes.

16 Q. Where is the Bolivar Peninsula located in  
17 the county?

18 A. The east end of the county.

19 Q. How would you describe the Bolivar  
20 Peninsula to someone who has no familiarity with it?

21 A. You --

22 Q. I'm sorry. Did you hear the question?

23 A. I did. I'm trying to think about the  
24 question. Sorry.

25 Q. Oh, no, no. It's okay. I heard some

1 background noise. I wanted to make sure.

2 A. That was probably me going "uh."

3 The two ways I would describe it, one of  
4 them I can't describe that way anymore. One would  
5 be you need to take a ferry to get there. Number  
6 two is there used to be what was called Rollover.  
7 They've since filled it in. But those were the two  
8 distinguishing things that I would identify it as.

9 Q. Okay. Let's take the second one first,  
10 the one you said that's no longer applicable. What  
11 is Rollover?

12 A. There used to be a bridge that crossed a  
13 body of water. It was known as Rollover Pass. I  
14 don't know when, but it was filled in with dirt, has  
15 since been filled in with dirt.

16 Q. Okay. And then the first thing you said  
17 was you have to take a ferry to get there. Is that  
18 correct?

19 A. From the county, yes. To get there from  
20 the county, you have to take a ferry.

21 Q. Is there anything else that you would tell  
22 someone who has no familiarity with Bolivar  
23 Peninsula about the peninsula?

24 A. The only other thing I've told somebody  
25 would be about the Fort Travis Park there, I believe

1 it is, is the name of it. Someone has asked about  
2 parks, and I told them there was a park there named  
3 Fort Travis Park, I believe is the name of that  
4 park.

5 Q. Do you have a sense of what the major  
6 employers are on Bolivar Peninsula?

7 A. No.

8 Q. Do you have a sense of what the major  
9 industries are on Bolivar Peninsula?

10 A. No.

11 Q. Have you heard of Carver Park?

12 A. I don't know. It's not ringing a bell  
13 right now.

14 Q. Would it help refresh your recollection to  
15 know that it might be a neighborhood in League City?

16 A. No. I -- I -- I don't -- I don't know  
17 where it's located.

18 Q. Or, sorry, Texas City. My apologies.

19 A. No, I don't know where it is.

20 Q. Okay. How would you describe the city of  
21 Galveston to someone who has no familiarity with it?

22 A. It's a island.

23 Q. Are there any points of interest?

24 A. A railroad museum, the Bishop's Palace.

25 Other than tourist attractions, no.

1 Q. Do you have a sense of what the major  
2 employers are in the city of Galveston?

3 A. No.

4 Q. Do you have a sense of what the major  
5 industries are in the city of Galveston?

6 A. No.

7 Q. Have you heard of the South Acres  
8 community?

9 A. No.

10 MS. JAYARAMAN: Cathy, could we pull up  
11 Tab 3, please.

12 (Exhibit 1 marked)

13 Q. Mr. Sigler, I believe that Sigler  
14 Exhibit 1 should now be available to you on Exhibit  
15 Share. Let me know when you have it up in front of  
16 you, please.

17 MR. RUSSO: Hang on a second. I'm going  
18 to have to pull that up.

19 MS. JAYARAMAN: Okay. It might actually  
20 be showing up without the stamp, so we might  
21 reintroduce it.

22 ZOOM TECH: Counsel, this is Clint, the  
23 tech. I can tell you the stamp is appearing on  
24 there.

25 MS. JAYARAMAN: Okay. There it is. Okay.

1 Do you have it up in front of you?

2 MR. RUSSO: No. Give me a second.

3 MS. JAYARAMAN: Okay. Great.

4 ZOOM TECH: Counsel, just real quick,  
5 would you like me to share this exhibit over Zoom?

6 MR. RUSSO: It would make it easier for  
7 us, but --

8 ZOOM TECH: Okay. Give me one moment  
9 then.

10 BY MS. JAYARAMAN:

11 Q. Okay. Mr. Sigler, I'm showing you what  
12 has been marked as Sigler Exhibit 1, and I think  
13 we're going to have to zoom in on it so we can see  
14 it properly.

15 A. Okay.

16 Q. And would you agree that Sigler Exhibit 1  
17 is a screenshot of the Galveston County GIS portal?

18 A. Yes.

19 Q. What is the Galveston County GIS portal  
20 used for?

21 A. It's used both internally and externally.  
22 The JPs will use it for the JP boundary lines. The  
23 animal control will use it. Our office utilizes it.  
24 I know at least two -- I can name, if you want, the  
25 three other departments I know off the top of my

1 head that use it.

2 Q. What does your office use it for?

3 A. They use it for the parcel information.

4 They use it for specifically -- it's hard because

5 it's not -- I don't think that's all of it.

6 Our building department will use it for

7 the permit provider, power service provider, the

8 parcel for ownership. We'll use it for if there's

9 a -- for building permits. And then we'll use it

10 for projects to see if it -- to gather information

11 for the major property owners if there's a project

12 in a certain area and there needs to be a mailout

13 for a subdivision change or -- so it's used for

14 multiple things. It's hard for me to name every

15 single thing, though, that it's used for.

16 MS. JAYARAMAN: Sure. Mr. Thomas, could

17 you scroll to the very top of Sigler Exhibit 1,

18 please.

19 Q. So, Mr. Sigler, it looks like this portal

20 is the public-facing version of the GIS portal.

21 Is that right?

22 A. That is correct.

23 Q. Does the internal version of the portal

24 have more functionality than this external-facing

25 portal?

1 | A. I don't understand the question.

2 | Functionality in terms of what?

3 | Q. In terms of information available to the  
4 | person accessing the portal.

5 | A. The internal one does have information  
6 | that is not on -- provided on the external.

7 | Q. So if we look at the right-hand side of  
8 | Sigler Exhibit 1, it says "Layers." Do you see  
9 | that?

10 | A. Correct. Yes, ma'am.

11 | Q. Are those the layers that we've been  
12 | talking about thus far?

13 | A. Yes.

14 | Q. Are those -- who decides which layers are  
15 | added to this public-facing version of the GIS  
16 | portal?

17 | A. I may add a layer, but approval would come  
18 | from the county engineer, possibly somebody above.  
19 | I don't know.

20 | Q. Are you responsible, though, for adding  
21 | the layers --

22 | A. Yes.

23 | Q. -- to this external? Sorry. So you are  
24 | responsible for adding layers?

25 | A. Yes.

1 MS. JAYARAMAN: Cathy, if we could take a  
2 look at Tab 4, please.

3 (Exhibit 2 marked)

4 Q. So I think it's up on your screen. So I'm  
5 showing you what's been marked as Sigler Exhibit 2  
6 which is Bates stamped DEFS00010340 through  
7 DEFS00010341. Have you seen Sigler Exhibit 2  
8 before?

9 A. I'm sorry. I'm taking time to read the  
10 document. I'm sorry.

11 Q. No, take your time.

12 MR. RUSSO: While he's looking at it, can  
13 you read that first Bates number again?

14 MS. JAYARAMAN: Sure. DEFS00010340.

15 A. Okay. Yes, ma'am. I've read the  
16 document.

17 Q. And would you agree that it is a  
18 March 11th, 2020, email chain between you and Kristi  
19 Saludis copying Sheryl Swift?

20 A. Yes, but I only see one part of the  
21 document.

22 MS. JAYARAMAN: Yeah. So actually I think  
23 it might be better -- actually, can we go off the  
24 record for a moment, please?

25 (Off record from 10:55 to 10:58)

1 BY MS. JAYARAMAN:

2 Q. Okay. So taking a look again at Sigler  
3 Exhibit 2, would you agree that it is an email chain  
4 dated March 11th, 2020, between Kristi Saludis and  
5 yourself copying Sheryl Swift?

6 A. Yes.

7 Q. Who is Kristi Saludis?

8 A. I don't -- she worked in voter  
9 registration.

10 Q. And who is Sheryl Swift?

11 A. I don't know her title. She works in --  
12 for the tax office.

13 Q. Okay. I'd like to direct your attention  
14 to the bottom email in the chain.

15 A. Okay.

16 Q. And in the first sentence of that email,  
17 you write, "Below is the link to our map room.  
18 Navigate to the GIS portal." Do you see that?

19 A. Yes, I do.

20 Q. What is the map room?

21 A. The map room is a -- the public interface  
22 where we house several different maps, one of them  
23 being the GIS portal map. Another one would be a  
24 commissioner map, an HAP map, and then also a FEMA  
25 map are the ones I recall off the top of my head.

1 Q. And so is this map room different from the  
2 physical map room that we were talking about  
3 earlier?

4 A. Yes. This is online only.

5 MS. JAYARAMAN: Okay. Cathy, if we could  
6 pull up Tab 2, please.

7 (Exhibit 3 marked)

8 MS. JAYARAMAN: So Tab 2 -- Sigler  
9 Exhibit 3 should now be in the Marked Exhibits  
10 folder. You might have to refresh the folder. Let  
11 me know when --

12 MR. RUSSO: Yeah, there it is. Okay.  
13 We've got it. Let me make it a little bigger. All  
14 right.

15 Q. Is Sigler Exhibit 3 the online map room --  
16 is Sigler Exhibit 3, excuse me, a screenshot of the  
17 online map room that you were referring to?

18 A. That is correct.

19 Q. Okay. I'd like to switch gears a little  
20 bit and just make sure we're on the same page with  
21 respect to some terminology. Are you familiar with  
22 the acronym "VTD"?

23 A. Yes.

24 Q. What is a VTD?

25 A. A voting precinct.

1 Q. So is a voting precinct the same thing as  
2 a VTD?

3 A. Yes.

4 MS. JAYARAMAN: Cathy, could we pull up  
5 Tab 9, please.

6 (Exhibit 4 marked)

7 Q. So Sigler Exhibit 4 should be available to  
8 you. Just let me know when you have it up, please.

9 MR. RUSSO: It's up.

10 Q. Great. Mr. Sigler, I'm showing you what  
11 has been marked as Sigler Exhibit 4 which is Bates  
12 stamped DEFS00019474 through DEFS00019475. And it  
13 is a May 15th, 2019, email from you to Mr. Shannon.  
14 Would you agree?

15 A. Yes.

16 Q. And I'd like to direct your attention to  
17 the first paragraph of your email. You write,  
18 "After going over the census tract and block group  
19 data, I was able to determine that our voting  
20 precinct data had not been made directly based off  
21 those lines. They were in fact drawn based off the  
22 tab block data." Do you see that?

23 A. Yes.

24 Q. What does "census tract" and "block group  
25 data" mean?

1 A. Census tract is -- let's see. It's going  
2 to -- it contains -- contained information. It's  
3 meant to be a overall view, and then it goes down  
4 more specifically as you go to block group down to  
5 tab block.

6 Q. So if I'm understanding you correctly,  
7 census tract is a higher level, followed by block  
8 which is more zoomed in, and then tab block is even  
9 more zoomed in?

10 A. So basically more of -- census tract is  
11 more of a area. Block group, tab block is more of a  
12 breakdown, meaning you get more specific data as you  
13 are going down.

14 Q. What do you mean by "going down"?

15 A. So it's -- let me think of the best way to  
16 explain this. A tract is going to be -- could cover  
17 a large swath of area. A block group is going to  
18 break that area up to focus on certain areas within  
19 a tract.

20 Q. Okay. Then under the heading  
21 "Population," so scrolling down the email a little  
22 bit in Sigler Exhibit 4, you write, "Because the  
23 voting, commissioner and JP precincts are based off  
24 the tab block data and not strictly the block groups  
25 or census tracts, our precinct lines will not align

1 with the block group or census tracts perfectly.  
2 You will not get complete, accurate population  
3 counts by commissioner precincts. There will be a  
4 margin of error." Do you see that?

5 A. I'm sorry. Where is it located again?

6 Q. Sure. The paragraph under the heading  
7 "Population."

8 A. Okay. Correct. I see it.

9 Q. Great.

10 A. And I have read it.

11 Q. Okay. Good. That was going to be my next  
12 question, so you headed me off.

13 Can you explain what you meant by "our  
14 precinct lines will not align with the block group  
15 or census tracts perfectly"?

16 A. Yes. As previously stated, the tract is  
17 the overall view. The block is a little bit more.  
18 It cuts it up. The tab block data is data that -- I  
19 don't know specifically, but it's got some history  
20 to it of lines that you have to use to create that  
21 data. So -- so, yes, the tab block data is the data  
22 that you would use to officially create those lines.  
23 And that's provided by the Census Bureau.

24 Q. So why would the precinct lines not align  
25 with the block group or census tracts?

1           A.    The census -- the tab block data follows  
2 features that are no longer available, meaning there  
3 could be a river at the time that's no longer  
4 present now, or it could be a road that was present  
5 at that time that's no longer there now.

6           Q.    Are you familiar with the phrase "election  
7 precinct"?

8           A.    I don't know.

9           Q.    Are you familiar with the phrase "county  
10 election precinct"?

11           MR. RUSSO: Sorry. What was that that you  
12 said, Counsel?

13           Q.    Are you familiar with the phrase "county  
14 election precinct"?

15           A.    No.

16           Q.    So to confirm, there is no difference  
17 between voting precinct lines in Galveston County  
18 and VTD lines?

19           A.    Could you repeat that question?

20           Q.    Sure. So to confirm, there's no  
21 difference between voting precinct lines in  
22 Galveston County and VTD lines?

23           MR. RUSSO: Objection. Calls for  
24 speculation. You can answer.

25           A.    The VT -- I believe VTD and the voting

1 precincts are the same, if I understood the question  
2 correctly.

3 Q. Yes. I can rephrase the question.

4 Are VTD lines and voting precinct lines  
5 the same in Galveston County?

6 A. Yes.

7 Q. Who draws VTD lines?

8 MR. RUSSO: Objection, vague.

9 A. I'm -- who -- can you repeat the question  
10 again?

11 Q. Sure. Who draws VTD lines?

12 MR. RUSSO: Same objection.

13 A. Could you rephrase the question?

14 Q. Sure. Are VTD lines provided by the  
15 census?

16 A. No.

17 Q. Who provides VTD lines?

18 A. For which -- for which -- for which  
19 specific date or a project or --

20 Q. Sure. So let's take a step back.

21 Are VTD lines redrawn periodically?

22 A. No.

23 Q. Are VTD lines ever redrawn?

24 A. Yes.

25 Q. How often are VTD lines redrawn?

1 A. During redistricting.

2 Q. Are VTD lines unique to Galveston County?

3 A. Are VTD lines unique to Galveston County?

4 Is that what your question was?

5 Q. That was my question, yes.

6 A. No.

7 Q. So you said VTD lines are drawn during  
8 redistricting, correct?

9 A. Correct.

10 Q. Who draws the VTD lines during  
11 redistricting?

12 A. For which one?

13 Q. What do you mean by "for which one"?

14 A. For which redistricting?

15 Q. Let's start with justice of the peace  
16 redistricting. Who draws the VTD lines for that?

17 MR. RUSSO: Objection, vague.

18 A. Which -- which redistricting? Which year  
19 redistricting are you referring to?

20 Q. For the 2011 redistricting cycle, who drew  
21 the VTD lines for the justice of the peace  
22 precincts?

23 A. I do not recall.

24 Q. Are the VTD lines for justice of the peace  
25 precincts different from VTD lines for commissioners

1 | court precincts?

2 | A. No.

3 | Q. Are VTD lines -- I'll rephrase the  
4 | question.

5 | Are there multiple sets of VTD lines in  
6 | Galveston County?

7 | A. Can you rephrase the question?

8 | Q. Sure. Are there multiple versions of VTD  
9 | lines in Galveston County?

10 | A. No.

11 | Q. Are the VTD lines in Galveston County the  
12 | same as the voter precinct lines in Galveston  
13 | County?

14 | MR. RUSSO: That question broke up.

15 | Q. My apologies. Are the VTD lines in  
16 | Galveston County the same as the voting precinct  
17 | lines in Galveston County?

18 | A. Yes.

19 | Q. So are the voting precinct lines in  
20 | Galveston County also drawn -- redrawn each  
21 | redistricting cycle?

22 | A. Yes.

23 | Q. Do you play a role in the process of  
24 | redrawing voting precinct lines for Galveston  
25 | County?

1 A. I'm not redrawing or identifying.

2 Q. What do you mean by "identifying"?

3 A. Once redistricting would occur, I would  
4 identify if there's any confliction with the  
5 senatorial boundary lines, different state --  
6 whatever state boundary lines there may be,  
7 senatorial being one I can think of, board of  
8 education. There's some other ones I can't -- I  
9 don't remember the name to, but to identify splits.

10 Q. What do you mean by "confliction"?

11 A. For instance, if the -- if the senatorial  
12 lines have moved in regard to one of our voting  
13 precincts, we would need to make it to where that  
14 senatorial line isn't splitting through a voting  
15 district, so we would need to correct that.

16 Q. Why would that need to be corrected?

17 A. Because you can't have a split voting  
18 precinct.

19 Q. So no voting precincts in Galveston County  
20 can be split?

21 A. Correct. They can't be split.

22 Q. When you say "they can't be split," are  
23 you just referring to the senate lines or they  
24 cannot -- or can voting precincts not be split by  
25 any lines in Galveston County?

1 A. I don't know as far as any lines. There's  
2 restrictions on they can't be split, for my  
3 knowledge, based off commissioner layers provided by  
4 the state. Those are the ones I'm aware of that can  
5 be split as from those. They need to be addressed  
6 at that time or addressed at some point.

7 Q. So to be clear, did you say they can or  
8 cannot be split by commissioners layers?

9 A. They cannot be.

10 Q. Okay. So do you also then review for  
11 conflicts with commissioners court precinct lines?

12 A. Yes.

13 Q. Walk me through the process of identifying  
14 conflicts with commissioners court precinct lines.

15 A. Adding the layer for the commissioner  
16 precincts and adding the layer for the voting  
17 precincts, usually doing it -- doing the -- in  
18 different colors so it'll stick out if something is  
19 split, meaning commissioner precinct lines might be  
20 blue and voting precinct lines might be red.  
21 Anywhere where you see a blue cutting through a  
22 precinct, you would know there would be a split or  
23 vice versa.

24 Q. Did you undertake this process of  
25 identifying splits during the 2021 redistricting

1 cycle?

2 A. Yes.

3 Q. Walk me through what you did to identify  
4 splits during the 2021 redistricting cycle.

5 A. Downloading layers, shapefiles from the  
6 state, uploading the commissioner precincts,  
7 uploading the JP precincts, and cycling through each  
8 one of those to see where there may be potential  
9 splits.

10 Q. What did you do when you identified -- did  
11 you identify any splits?

12 A. Yes.

13 Q. What did you do when you identified a  
14 split?

15 A. Circle it, do a PDF map. Let's see.  
16 There may have been an occasion when we were on a  
17 Zoom and looked at it, or a spreadsheet.

18 Q. When you say "we were on a Zoom," who is  
19 "we"?

20 A. Commissioner Clark and Dale.

21 Q. Who is Dale?

22 A. He was with the law firm.

23 Q. So you're referring to Dale Oldham?

24 A. I believe that's his name.

25 Q. Why were you meeting with Commissioner

1 Clark to discuss the conflicts?

2 A. It wasn't specifically to discuss the  
3 conflicts. We would just review the maps, and if  
4 there was something of note, that we noticed a  
5 split, it wasn't necessarily just me. It could be  
6 anybody that discovered it.

7 Q. When you say "reviewed the maps," what  
8 maps were you reviewing with Commissioner Clark?

9 A. Of the layers from the state, the  
10 commissioner precincts, and the voting precincts.

11 Q. And you said it could be anybody that  
12 discovered it. Were there other --

13 A. I'm sorry. You cut out.

14 Q. Sorry. You said -- you said that there  
15 may be anybody that discovered it. Were there other  
16 people also looking for conflicts?

17 A. I don't know.

18 Q. So what did you mean by "anybody that  
19 discovered it"?

20 A. Commissioner Clark could have discovered  
21 some. Dale could have discovered some. Beyond  
22 that, I don't know.

23 Q. Why were you meeting with Mr. Oldham to  
24 discuss these splits?

25 MR. RUSSO: Counsel, let me interpose an

1 objection just to remind the witness not the  
2 disclose privileged communications between he and  
3 Mr. Oldham, to the extent there were attorney-client  
4 privileged conversations. But to the extent you can  
5 answer the question without disclosing those  
6 communications, you can answer.

7 A. Could you repeat the question?

8 Q. Sure. Why were you meeting with  
9 Mr. Oldham to discuss these conflicts?

10 MR. RUSSO: Same objection.

11 A. I'm going to take the advice of my  
12 counsel.

13 MS. JAYARAMAN: Sure. Cathy, can you pull  
14 up Tab 6, please.

15 (Exhibit 5 marked)

16 Q. Believe that Sigler Exhibit 5 should now  
17 be up for -- up in the Marked Exhibits folder. Do  
18 you have it in front of you?

19 A. Yes.

20 Q. Great. Mr. Sigler, I'm showing you what  
21 has been marked as Sigler Exhibit 5 which is Bates  
22 stamped DEFS00020457 through DEFS00020461. Have you  
23 seen Sigler Exhibit 5 before?

24 A. Thank you. Sorry. I'm taking over the  
25 mouse for a second.

1 Q. Sure, please do.

2 A. Okay. I have reviewed them.

3 Q. Great. Have you seen Sigler Exhibit 5  
4 before?

5 A. Yes.

6 Q. And would you agree that Sigler Exhibit 5  
7 is a November 12th, 2021, email from yourself to  
8 Cheryl Johnson copying Kathleen Moreno?

9 A. Yes.

10 Q. Who is Cheryl Johnson?

11 A. She's the tax assessor for the county.

12 Q. And who is Kathleen Moreno?

13 A. I'm not sure of her title, but she works  
14 with Ms. Johnson.

15 Q. I see. If we could now turn to the fourth  
16 page of Sigler Exhibit 5, and it's Bates stamped  
17 DEFS00020460. So it's, again, the fourth page of  
18 Sigler Exhibit 5.

19 A. Okay.

20 MR. RUSSO: Says "Map 2."

21 Q. And at the top of the page, it says "Map 2  
22 Commissioner Precinct by Current Voting Precincts  
23 and Splits." Do you see that?

24 A. Yes, I do.

25 Q. What does "Map 2" mean?

1 | A. That was a proposal from -- I don't recall  
2 | the name of the company they hired to do the  
3 | redistricting.

4 | Q. And when you say "they," are you referring  
5 | to the commissioners court?

6 | A. Correct.

7 | Q. And would you agree that Map 2 was the map  
8 | that was eventually adopted by the commissioners  
9 | court during the 2021 redistricting cycle?

10 | A. Yes.

11 | Q. So below the title, it says, "If the  
12 | voting precinct has 'A' at the end, it is a split  
13 | precinct." Do you see that?

14 | A. Yes, I do.

15 | Q. What is a split precinct in this context?

16 | A. Commission -- can you rephrase the  
17 | question one more time, please?

18 | Q. Absolutely. What is a split precinct in  
19 | this context?

20 | A. Okay. Where a commissioner precinct would  
21 | split a voting precinct.

22 | Q. So can you walk me through the first  
23 | column, the one that's labeled "Commissioner  
24 | Precinct 1"?

25 | So I guess to make it a little more

1 concrete, I see that 168 is listed in

2 Commissioner -- in the Commissioner Precinct 1

3 column. What does the 168 mean there?

4 A. That is the name of that voting precinct.

5 Q. So it's telling -- this chart says that in

6 Map 2, Voting Precinct 168 is found in Commissioner

7 Precinct 1?

8 A. Rephrase that or repeat that question,

9 please?

10 Q. Sure. So is this chart saying that Voting

11 Precinct 168 is located in Commissioner Precinct 1

12 in Map 2?

13 A. Yes.

14 Q. Okay. So a few rows above 168 in that  
15 first column, it says 150, 151, 152. Are voting  
16 precincts that are close in number physically close  
17 to each other?

18 MR. RUSSO: Objection, vague.

19 A. I'm not -- I don't know.

20 Q. So in the first column, there's a Voting

21 Precinct No. 165.1. Do you see that?

22 A. Yes.

23 Q. What does the .1 mean?

24 A. .1 was given if there was no population.

25 Q. So is 165.1 located close to 165?

1 A. I don't know.

2 Q. Okay. Let's take a look at the second  
3 column. There is a 232.1. Do you see that?

4 A. I do.

5 Q. What does the .1 mean?

6 A. .1 would be no population.

7 Q. Below that, there's a 232.3. Do you see  
8 that?

9 A. I do.

10 Q. What does the .3 mean?

11 A. No population.

12 Q. And then in the column called Commissioner  
13 Precinct 4, there is a 232.2. Do you see that?

14 A. I do.

15 Q. Does the .2 also indicate no population?

16 A. Correct.

17 Q. So is there any distinction between the  
18 suffix .1 or the suffix .2?

19 A. I don't know.

20 Q. Is there any distinction between the  
21 suffix .2 and .3?

22 A. I don't know.

23 Q. Who assigns the voting precincts their  
24 numbers?

25 A. I don't know.

1 Q. What is the name of your department in  
2 Galveston County?

3 A. Galveston County engineering department.

4 Q. Does someone in the engineering department  
5 assign voting precincts their numbers?

6 MR. RUSSO: Objection. Asked and  
7 answered.

8 A. No.

9 Q. Okay. Now let's turn to the second page  
10 of Sigler Exhibit 5, and it's labeled "'Map 1'  
11 Commissioner Precinct by Current Voting Precincts  
12 and Splits." Do you see that?

13 A. I do.

14 Q. And what does this -- what does Map 1  
15 mean?

16 A. That was the other proposal proposed by  
17 the -- whoever the commissioners court hired.

18 Q. When you say "other proposal," do you mean  
19 another proposal for commissioners court precincts?

20 A. Yes.

21 Q. And what does this chart show?

22 A. Proposal of -- the Map 1 proposal with at  
23 that time the current voting precincts and where  
24 the -- what the splits were.

25 Q. And what do you mean by "at the time the

1 | current voting precincts"?

2 | A. Of the -- to my knowledge, the new ones  
3 | weren't adopted as of yet.

4 | Q. And why did you send these charts to  
5 | Ms. Johnson and Ms. Moreno?

6 | A. Because she's in charge of the voter  
7 | registration.

8 | Q. My apologies. Who is in charge of the  
9 | voter registration?

10 | A. Cheryl Johnson.

11 | Q. And why did you send these charts on  
12 | November the 12th?

13 | A. I do not know.

14 | MS. JAYARAMAN: Okay. Cathy, can you pull  
15 | up Tab 27, please.

16 | (Exhibit 6 marked)

17 | MS. JAYARAMAN: It should -- Sigler  
18 | Exhibit 6 should now be in the Marked Exhibits  
19 | folder.

20 | And, Cathy, if you could go ahead and pull  
21 | up DEFS0016755 as well.

22 | Q. Mr. Sigler, please let me know when you  
23 | have Sigler Exhibit 6 in front of you.

24 | A. I have it in front of me now.

25 | Q. Great. I'm showing you what has been

1 | marked as Sigler Exhibit 6, which is Bates stamped  
2 | DEFS00016754 through DEFS00016755. And it is an  
3 | email from Ms. Johnson to you on November 15th,  
4 | 2021, on which Ms. Moreno is also copied. Do you  
5 | agree?

6 | A. I do.

7 | Q. And there's an -- and the attachment is an  
8 | Excel file called "County Commissioner Possible  
9 | Precinct Numbering for Redistricting." Do you see  
10 | that?

11 | A. I do.

12 | Q. And now if we could turn to the second  
13 | page of Sigler Exhibit 6. Do you see where it says,  
14 | "Please review the native document DEFS00016755"?

15 | A. I do.

16 | (Exhibit 7 marked)

17 | Q. Okay. The native document has been  
18 | uploaded as Sigler Exhibit 7, so let's take a look  
19 | at that, please.

20 | A. Okay.

21 | Q. Let me know when you have Sigler Exhibit 7  
22 | in front of you, please.

23 | A. I have it up. I can see the document.

24 | Q. Great. There are two sheets in Sigler  
25 | Exhibit 7, correct?

1 A. Yes.

2 Q. The first sheet is called "County  
3 Commissioners." Do you agree?

4 MR. RUSSO: You see that on the bottom?

5 A. Oh, okay, yes. I do see that.

6 Q. Great. And then the second sheet is  
7 called "Sheet 1." Do you see that?

8 A. Yes.

9 Q. Okay. So let's start with the "County  
10 Commissioners" sheet. It looks like there are two  
11 tables on this "County Commissioners" sheet. Would  
12 you agree?

13 A. I'm sorry. Can you repeat that?

14 Q. Sure. It looks like there are two tables  
15 on the "County Commissioners" sheet, one on the  
16 left-hand side that's a little larger and then one  
17 on the right-hand side?

18 A. Yes, yes.

19 Q. So let's start with the table on the  
20 left-hand side. And I want to walk through each of  
21 the columns. Do you know what Column A, "Former  
22 CC Prec," means?

23 A. Former commissioner precinct.

24 Q. Do you know what Column B, "Former Prec  
25 Number," means?

1 A. It would be the voting precinct number.

2 Q. And what does "former" indicate?

3 A. The ones in place before the adoption of  
4 the 2021.

5 Q. Before the adoption of the 2021 voting  
6 precinct lines?

7 A. Correct.

8 Q. All right. And then in Column C, what  
9 does "Change to CC Prec" mean?

10 A. Meaning, for example, Precinct 1, that  
11 precinct or Precinct 1 would now be in Precinct 2.

12 Q. So taking Row 2 as an example, it's saying  
13 that what is Voting Precinct 103 under the prior  
14 voting precinct number has moved from Commissioner  
15 Precinct 1 to Commissioner Precinct 2?

16 A. That is correct.

17 Q. And is this under Map 2?

18 A. I do not know.

19 Q. Would you agree that the commissioners  
20 court adopted the new commissioners court map on  
21 November 12th, 2021?

22 A. I do not know.

23 Q. If I represent to you that the  
24 commissioners court adopted the new map on  
25 November 12th, 2021, do you have any reason to doubt

1 | that?

2 | A. I would be taking your word for it, yes,

3 | but I do not know.

4 | Q. Sorry. Go ahead.

5 | A. I was just saying I do not know. But, I

6 | mean, if I'm taking your word for it, then -- but I

7 | do not know when it was adopted.

8 | Q. Okay. All right. Let's move to Column D,

9 | "Change to Prec Number." What does that mean?

10 | A. That would be the previous voting precinct

11 | being changed to the new voting precinct. Would

12 | indicate a number change.

13 | Q. And then Column G, "Number of Voters

14 | 11.15.2021," what does that mean?

15 | A. I'm not a hundred -- I do not recall.

16 | Q. And then Column H, "Current Total Voters

17 | in Prec to be Split," what does that mean?

18 | A. I'm not a -- I'm not sure.

19 | Q. Okay. Let's look at Row 4. Can you walk

20 | me through Row 4, please.

21 | A. Where it says "Precinct 1"?

22 | Q. Yes. So just walk me through each of the

23 | cells in Row 4, please, and tell me what it

24 | indicates, please.

25 | A. Precinct 1, the commissioner precinct in

1 | place prior to the 2021 redistricting. B, former  
2 | precinct number, 105, voting precinct number in  
3 | place before the 2021 redistricting. C, change to  
4 | CC precinct, Precinct 2, the -- moving from Precinct  
5 | 1 to the adopted Commissioner Precinct 2. D, change  
6 | to precinct number, changing from the current in  
7 | place before 2021 Voting Precinct 105 to the adopted  
8 | 2021 205. G, number of voters 11.15.2021, 270.

9 | Q. Going down to Row 5.

10 | A. Okay.

11 | Q. What does Row 5 -- let's look at Cell D5  
12 | where it says "205.1." Does that .1 -- does that .1  
13 | indicate no population?

14 | A. I don't know.

15 | Q. Why are Cells D4 and D5 highlighted?

16 | A. I don't know.

17 | Q. So looking at Cell D5 again, the one that  
18 | says "205.1," do you know what the .1 indicates?

19 | A. No.

20 | Q. Do you have a reason to believe that it  
21 | does not indicate no population?

22 | A. I don't know.

23 | Q. Skipping down to Row 8 and then Cell C8,  
24 | it says "No change." What does that mean?

25 | A. It's still within the Commissioner

1 Precinct 1, and it's still the same number. The  
2 number didn't change. The voting precinct number  
3 did not change.

4 Q. So the "it" in this case would be the 146?

5 A. Yes. Sorry. There's a error message that  
6 popped up.

7 MS. JAYARAMAN: Okay. Can we go off the  
8 record, please?

9 (Recess from 11:45 to 12:01)

10 BY MS. JAYARAMAN:

11 Q. So, Mr. Sigler, we were taking a look at  
12 Sigler Exhibit 7, and in particular we were looking  
13 at Cell C -- sorry, at -- let's take a step back.

14 Let's take a look at Cell C8. It says "No  
15 change," correct?

16 A. Yes.

17 Q. And what does "No change" mean?

18 A. That it is still in the previous  
19 commissioner precinct and still retained its  
20 previous voting precinct number.

21 Q. Let's scroll down to Row 12, please.

22 A. Okay.

23 Q. And if you look -- if you look at Cell  
24 G12, what does "to be split" mean?

25 A. I do not know.

1 Q. And do you know why Row 12 is highlighted?

2 A. I do not know.

3 Q. Going down to Row 13, Cell B13 is empty.

4 Do you see that?

5 A. Yes.

6 Q. Do you know why Cell B13 is empty?

7 A. I do not remember.

8 Q. Is it empty because Cell G13 says "to be  
9 split"?

10 A. I'm sorry. Could you repeat that  
11 question?

12 Q. Sure. Is Cell B13 empty because Cell G13  
13 says "to be split"?

14 A. I do not know.

15 Q. What would an empty cell in Column B  
16 indicate?

17 MR. RUSSO: Objection. Calls for  
18 speculation.

19 A. I'm not sure.

20 Q. Looking at Cell H13, it says "New Number  
21 TBD." Do you see that?

22 A. Yes.

23 Q. What does that mean?

24 A. I'm not sure.

25 Q. Going down to Row 16.

1 A. Okay. I see it.

2 Q. Okay. And looking at Cell D16, that cell  
3 is empty. Do you know why it's empty?

4 A. I'm not sure.

5 Q. What does an empty cell in Column D  
6 indicate?

7 MR. RUSSO: Asked and answered.

8 A. I'm not entirely sure.

9 Q. Let's go down to Row 31.

10 A. Okay.

11 Q. Do you know why this row is highlighted?

12 A. Number 31, you said?

13 Q. Yes.

14 A. I'm not sure.

15 Q. Let's go down to Row 72.

16 A. Okay.

17 Q. Can you walk me through Row 72, please.

18 A. Just read straight across?

19 Q. Yes, and explain to me what each of the  
20 cells means.

21 A. Precinct 3 would have been commissioner  
22 precinct in place before the adopted 2021. 336  
23 would have been the voting precinct in place before  
24 the adoption of 2021. Precinct 1 would be the  
25 precinct after the adoption in 2021. The Voting

1 Precinct 136 would be the voting precinct in place  
2 after the 2021 adoption.

3 Q. And to be clear, when you're talking about  
4 Columns B and D, you reference an adoption. You're  
5 referring to the adoption of new voting precincts?

6 A. B is prior to the adoption of 2021. D is  
7 post adoption of 2021.

8 Q. And when you say "adoption of 2021," are  
9 you referring to voting precincts or commissioner  
10 precincts?

11 A. For B is -- B is a voting precinct, and D  
12 is a voting precinct.

13 Q. Okay. And A and C are referring to  
14 commissioner precincts?

15 A. That is correct.

16 Q. Can you look at Cell G72.

17 A. Yes, I see it.

18 Q. Why is it empty?

19 MR. RUSSO: Objection. Calls for  
20 speculation. Asked and answered.

21 A. Empty where on 72? I'm sorry.

22 Q. No worries. G72.

23 A. I do not know.

24 Q. And then going down the row below, Row 73,  
25 looking at G73, do you know why --

1 A. I do not know.

2 Q. Sorry. Just to be clear, you do not know  
3 why G73 is empty?

4 A. Correct.

5 Q. Okay. And then my apologies for jumping.  
6 If you could look back up to H72.

7 A. H72?

8 Q. Yes. So one row up.

9 A. I see it.

10 Q. One column over. Yeah. The 4190, do you  
11 see that number?

12 A. I do.

13 Q. What does that number mean?

14 A. I'm not entirely sure.

15 Q. Okay. It looks like Columns E and F are  
16 hidden in Sigler Exhibit 7. Do you see that?

17 A. Columns what? I'm sorry?

18 Q. E and F.

19 A. In Column -- I -- okay. The F, I see what  
20 you're saying, but the C I'm confused about.

21 Q. E, sorry, like DEF. So E and F.

22 A. Oh, E and F. Okay.

23 Q. Yes. Can you please unhide those two  
24 columns?

25 A. I do not know how to do that.

1 MS. JAYARAMAN: Okay. Mr. Thomas, could  
2 you please put this Sigler Exhibit 7 up, unless  
3 Mr. Russo can unhide them for you?

4 ZOOM TECH: Sure. One moment.

5 MR. RUSSO: We've got them.

6 MS. JAYARAMAN: Okay. Great. Actually I  
7 don't think --

8 ZOOM TECH: Okay. Don't need it?

9 MS. JAYARAMAN: Yeah, I don't think we do.

10 ZOOM TECH: Okay.

11 MS. JAYARAMAN: Thank you, though.

12 BY MS. JAYARAMAN:

13 Q. Mr. Sigler, can you explain what Column E  
14 is?

15 A. No.

16 Q. Can you explain what Column F is?

17 A. I'm not sure.

18 Q. Okay. So now why don't we look at the  
19 table that's on the right-hand side of Sigler  
20 Exhibit 7, the one that's titled "Old Precincts  
21 Available in Team." Do you see that?

22 A. I do.

23 Q. What is "Team"?

24 A. I don't know.

25 Q. Can you explain Row 9 to me in that second

1 table?

2 A. Row -- I'm sorry. You said Row 9,  
3 correct?

4 Q. Yes, I said Row 9.

5 A. And just to be clear, where it says  
6 "115.02" and "339A"?

7 Q. Are you able to explain what that row  
8 means?

9 A. No.

10 Q. Okay. Very quickly, before we close this  
11 exhibit, when we were discussing Sigler Exhibit 5,  
12 which was the November 12th email exchange between  
13 yourself or among yourself, Ms. Johnson, and  
14 Ms. Moreno, you had explained to me that .1, .2, and  
15 .3 in voting precinct names indicated no population,  
16 correct?

17 A. Prior to 2021.

18 Q. So in 2021 -- let me rephrase that.

19 What do you mean by "prior to 2021"?

20 A. Prior to the 2021 adoption of voting  
21 precincts, that's what the .1 would have been an  
22 indication of. The adopted in 2021 voting  
23 precincts, I can't recall.

24 Q. You can't recall what? I'm sorry.

25 A. If the .1 would be still indication of no

1 population or if it could have had population. I'm  
2 not 100 percent certain on that.

3 Q. What about .2 under the new voting  
4 precincts after 2021 redistricting?

5 A. Correct. I wouldn't -- I'm not certain of  
6 that either after the adoption of the 2021. I'm not  
7 certain if that would indicate no population or  
8 population. I'm not certain on that either.

9 Q. Did .1 indicate no population prior to the  
10 2011 redistricting cycle?

11 A. Re- -- can you repeat that question,  
12 please?

13 Q. Sure. Did .1 in a voting precinct name  
14 indicate no population prior to the 2011  
15 redistricting cycle?

16 A. I do not know.

17 Q. Okay. Let's turn back to Sigler Exhibit 6  
18 which was the cover email to this spreadsheet.

19 A. Okay.

20 Q. Let me know when you have it in front of  
21 you, please.

22 A. Okay. Okay.

23 Q. Okay. In the second full paragraph of  
24 Sigler Exhibit 6, Ms. Johnson writes to you, "You  
25 had mentioned 232.1 and 232.3 may merge to 225.

1 | Doing that would create a 5,400 voter precinct."

2 | Do you see that?

3 | A. I do.

4 | Q. Is there something wrong with having a  
5 | 5,400 voter precinct?

6 | A. Yes.

7 | Q. What is the issue with having a 5,400  
8 | voter precinct?

9 | MR. RUSSO: Calls for speculation, legal  
10 | conclusion.

11 | A. I'm sorry. I'm going to reread the last  
12 | sentence one more time.

13 | Okay. I've read it and I understand what  
14 | she's inquiring about.

15 | Q. Okay. I'll repeat my question.

16 | Is there something wrong with having a  
17 | 5,400 voter precinct?

18 | MR. RUSSO: Calls for speculation and  
19 | legal conclusion.

20 | A. There is a number that I'm not aware of  
21 | that can't cross the threshold for pre- -- for -- or  
22 | I'm not sure exactly what the terminology would be,  
23 | but whatever it is for that -- for a precinct, it  
24 | can't go over a certain number.

25 | Q. When you say "it can't go over a

1 certain" --

2 A. Yeah, I'm not sure if it's registered  
3 voters or population or what, but there's a certain  
4 number that it can't cross a threshold of, that you  
5 can't have too many per voting precinct.

6 Q. I see. Mr. Sigler, did you do anything  
7 with the information that you received in this email  
8 and attachment from Ms. Johnson?

9 A. Did I do anything with it? I'm sorry?  
10 Is that what you're asking me?

11 Q. Yes, that is what I'm asking you.

12 A. No. I mean, it just would have been a  
13 request and then a response, nothing that would have  
14 dictated otherwise.

15 Q. What do you mean by "a request and a  
16 response"?

17 A. If we -- it's -- there's -- information  
18 would have been -- would have been requested for  
19 certain information, may have been requested  
20 pertaining to what we've looked at, but no further  
21 direction as far as me creating or doing anything  
22 separate other than what's attached in the email.

23 Q. Sorry. So just to take a step back, you  
24 said "information may have been requested." What  
25 did you mean by that?

1           A.    The information contained within the Excel  
2 file that we just looked at.

3           Q.    So what did you do with the information  
4 contained in the Excel file that we just looked at?

5           A.    Provided it to Ms. Johnson.

6           Q.    So I think that this email is from  
7 Ms. Johnson to you attaching that Excel file.  
8 Is that correct?

9           A.    Correct.

10          Q.    So upon receipt -- or what did you do with  
11 that Excel file when you received it?

12          A.    I'm not sure.

13          Q.    So you have no recollection of what you  
14 did with the information in the Excel file?

15               MR. RUSSO:  Objection.  Asked and  
16 answered.

17          A.    I'm not certain.

18          Q.    Because a minute ago you said it would  
19 just be a request and then a response.  So what was  
20 your response when you received this Excel file?

21          A.    I'm not sure.

22          Q.    So to be clear, you have no recollection  
23 of what happened after you received -- let me take a  
24 step back.

25               You have no recollection of what happened

1 to the information in this email after you received  
2 it?

3 MR. RUSSO: Objection. Asked and  
4 answered.

5 A. I'm not certain.

6 Q. When you say "I'm not certain," what do  
7 you mean?

8 MR. RUSSO: Objection. Vague and  
9 ambiguous.

10 A. I'm not sure what would have been done  
11 upon this request for this information, what I would  
12 have done.

13 Q. When you say "request for this  
14 information," what was Ms. Johnson requesting you to  
15 do?

16 A. I'm not sure. I'm not sure if there was a  
17 request.

18 Q. Did you do anything with the information  
19 contained in the Excel spreadsheet that Ms. Johnson  
20 sent to you?

21 A. Not that I can recall.

22 MS. JAYARAMAN: Okay. Cathy, can you  
23 introduce Tab 31, please.

24 MR. RUSSO: Hey, Counsel, what do you want  
25 to do about lunch? I mean, how much more time do

1 you have? It doesn't sound like -- I don't know,  
2 are you near being done? If not --

3 MS. JAYARAMAN: Yeah, so I just want to  
4 finish this line of questioning, and then I think we  
5 can take a lunch break if that's all right.

6 MR. RUSSO: How much longer in this line?

7 MS. JAYARAMAN: You know what? We can  
8 take a lunch break now. That sounds good. So we  
9 can go off the record.

10 MS. REYES: Actually, before we go off the  
11 record -- I'm sorry. Can we go back on the record  
12 really quickly?

13 THE REPORTER: We're on. Go ahead.

14 MS. REYES: Hi. Sorry. I got kicked off  
15 for a second. I wanted to address Mr. Russo. I  
16 sent you an email regarding a prior order from Judge  
17 Brown from the Texas redistricting case. I believe  
18 it's an August order. You should have received that  
19 in your mail a few minutes ago. And I wanted to  
20 ask, based on your reading of that order, are you  
21 still asserting privilege with regards to questions  
22 about Dale Oldham?

23 MR. RUSSO: Yes. Based upon my reading  
24 while defending the deposition, I don't think that  
25 that order provides you access to attorney-client

1 | information, you know. So right now we're  
2 | maintaining the objection. But we'll review it, and  
3 | if your -- you know, if we come to a different  
4 | conclusion, we'll have a discussion about that.

5 | But again, what you sent us was discussing  
6 | a work product privilege, and the attorney-client  
7 | portion deals with documents and generic objection  
8 | made to production of documents. That's not what  
9 | we're dealing with here. We're dealing with  
10 | specific communications between a client and a  
11 | lawyer.

12 | MS. REYES: Okay. Well, I will give you  
13 | time to review it, like I say, over the lunch break  
14 | as you said you needed to do, and we can readdress  
15 | it. Thank you.

16 | MR. RUSSO: Fair enough.

17 | ZOOM TECH: Okay. If there's nothing  
18 | else, then we'll go off the record.

19 | (Recess from 12:26 to 1:13)

20 | (Exhibit 8 marked)

21 | BY MS. JAYARAMAN:

22 | Q. Mr. Sigler, let's take a look at Sigler  
23 | Exhibit 8, please. And just let me know when you  
24 | have it up in front of you, please.

25 | A. I have it in front of me.

1 Q. Great. So I'm showing you what has been  
2 marked as Sigler Exhibit 8, which is Bates stamped  
3 DEFS00011706 through DEFS00011709. It's an email  
4 from Ms. Johnson to you -- sorry, Ms. Johnson to a  
5 number of recipients on which you are copied, dated  
6 November 19th, 2021. Would you agree?

7 A. Yes.

8 Q. So the people in the "To" line are Kristi  
9 Saludis, who we talked about earlier, then someone  
10 named Stephanie Berry. Who is Stephanie Berry?

11 A. I do not know.

12 Q. Then there's someone named George Ott.  
13 Who is George Ott?

14 A. I do not know.

15 Q. In the first sentence of her email,  
16 Ms. Johnson writes, "Per Commissioner Clark, we are  
17 good to proceed with the following county precinct  
18 changes." Do you see that?

19 A. I do.

20 Q. Do you know what "county precinct" means?

21 MR. RUSSO: Objection, vague.

22 A. No, I do not.

23 Q. Is county precinct the same thing as  
24 voting precinct?

25 MR. RUSSO: Objection. Calls for

1 speculation.

2 A. I'm not sure.

3 Q. Was Commissioner Clark's approval required  
4 to make changes to voting precincts during the 2021  
5 redistricting cycle?

6 A. I'm not sure.

7 Q. Was Commissioner Clark involved in  
8 redrawing the voting precinct lines during the 2021  
9 redistricting cycle?

10 A. I'm not sure.

11 Q. Who was involved in the redrawing of  
12 voting precinct lines during the 2021 redistricting  
13 cycle?

14 A. Are you talking about like actual changes,  
15 like to the lines or -- I'm confused on that  
16 question.

17 Q. Sure. Let's start with the actual changes  
18 to the lines. Who was involved in actual changes to  
19 the lines, to the voting precinct lines during the  
20 2021 redistricting cycle?

21 MR. RUSSO: Objection, speculation.

22 Q. You can still answer.

23 MR. RUSSO: You can answer if you know.

24 A. I'm not sure who was all involved.

25 Q. Can you name anyone who was involved in

1 drawing the actual line -- let me start over.

2 Can you name anyone who was involved in  
3 redrawing the voting precinct lines during the 2021  
4 redistricting cycle?

5 All right. Can we --

6 A. I'm sorry.

7 Q. Is there -- Mr. Sigler, is someone else in  
8 the room with you?

9 A. My lawyer.

10 Q. Is anyone other than Mr. Russo in the room  
11 with you?

12 A. Jordan is there, Jordan Raschke. She's  
13 logged on.

14 Q. Okay. Is there anyone else in the room  
15 with you?

16 A. No.

17 Q. So I'll repeat my question.

18 Can you name anyone who was involved in  
19 the redrawing of voting precinct lines during the  
20 2021 redistricting cycle?

21 A. Me and --

22 Q. Anyone aside --

23 A. Me and Dale are the only ones I'm aware  
24 of.

25 Q. I think you mentioned previously that you

1 also met with Commissioner Clark about the conflicts  
2 in voting precinct lines during the 2021  
3 redistricting cycle. Is that correct?

4 A. I'm sorry. Could you repeat that one more  
5 time?

6 Q. Absolutely. I think you previously  
7 mentioned when we were discussing confliction with  
8 voting precinct lines that you also met with  
9 Commissioner Clark regarding voting precinct lines  
10 during the 2021 redistricting cycle?

11 A. Correct.

12 Q. Was anyone else involved in the drawing of  
13 voting precinct lines during the 2021 redistricting  
14 cycle, aside from yourself and Mr. Oldham?

15 MR. RUSSO: Objection, speculation and  
16 asked and answered.

17 A. I'm not sure.

18 Q. To your knowledge, what was Commissioner's  
19 Clark -- what was Commissioner Clark's involvement  
20 in the redrawing of voting precinct lines in the  
21 2021 redistricting cycle?

22 A. Can you repeat that question, please?

23 Q. Sure. To your knowledge, what was  
24 Commissioner Clark's involvement in the redrawing of  
25 voting precinct lines in the 2021 redistricting

1 cycle?

2 A. I'm not sure.

3 Q. Did the commissioners court have to  
4 approve the new voting precinct lines before they  
5 went into effect?

6 A. Did the commissioners court -- I'm sorry.  
7 I missed that last part. You said commissioners  
8 court, correct?

9 Q. Yes, I said commissioners court. Did the  
10 commissioners court have to approve the new voting  
11 precinct lines before they went into effect during  
12 the 2021 redistricting cycle?

13 A. Correct.

14 Q. Okay. Let's turn back to Exhibit Sigler  
15 Exhibit 8. And in the last two sentences of the  
16 first paragraph, Ms. Johnson writes, "I will send  
17 you the spreadsheet to print and use when making  
18 changes and auditing. It will be our audit trail."  
19 Do you see that?

20 A. I do.

21 Q. Was there an auditing process with respect  
22 to the voting precinct changes during the 2021  
23 redistricting cycle?

24 A. I do not know.

25 MR. RUSSO: Objection, speculation.

1 Q. You can still answer.

2 A. I do not know.

3 Q. So if we keep looking -- scrolling down  
4 Sigler Exhibit 8, there is a table. Do you see  
5 that?

6 A. I do.

7 Q. And that table has column headers that are  
8 very similar to the column headers that we were  
9 looking at in Sigler Exhibit 7, that spreadsheet.  
10 Would you agree?

11 A. Yes.

12 Q. So starting with the first column, "Former  
13 CC Prec," does that refer to the commissioners court  
14 precinct under the map that was in place prior to  
15 the 2021 redistricting cycle?

16 A. Yes.

17 Q. And then the next column, "Former Prec  
18 Number," does that refer to the voting precincts  
19 that were in place prior to the redrawing of voting  
20 precincts during the 2021 redistricting cycle?

21 A. Correct.

22 Q. And then the next column, "Change to  
23 CC Prec," does that refer to the commissioners court  
24 precincts in the map that was adopted during the  
25 2021 redistricting cycle?

1           A.    Can you -- could you repeat that question  
2 one more time, please?

3           Q.    Absolutely.  So the column that says  
4 "Change to CC Prec," the third column, does that  
5 refer to the commissioners court precincts in the  
6 map that was adopted during the 2021 redistricting  
7 cycle?

8           A.    Yes.

9           Q.    And then the column that says "Change to  
10 Prec Number," does that column refer to the voting  
11 precincts after new voting precincts were adopted  
12 during the 2021 redistricting cycle?

13          A.    I do not know.

14          Q.    What do you understand "Change to Prec  
15 Number" to mean?

16               MR. RUSSO:  Objection.

17          A.    I do not --

18               MR. RUSSO:  Calls for speculation.

19          A.    I do not know.

20          Q.    If we take a look at that "Former Prec  
21 Number" column, feel free to scroll through it, it  
22 looks like 336 is missing.  Would you agree?

23          A.    I -- and just for confirmation, you're  
24 regarding "Former Prec Number," correct?

25          Q.    Yes, in the second column, "Former Prec

1 Number," it looks like 336 is missing. Would you  
2 agree?

3 A. I'm sorry. I'm still scrolling through  
4 all the pages.

5 Q. Take your time.

6 A. I do not see it.

7 Q. Do you know why 336 is missing from the  
8 column labeled "Former Prec Number"?

9 A. I do not.

10 Q. Did you do anything with the information  
11 that you received in this email from Ms. Johnson?

12 A. I do not think so.

13 Q. What did you do when you received this  
14 email from Ms. Johnson?

15 A. I do not know.

16 MS. JAYARAMAN: Okay. Cathy, can we take  
17 a look at Tab 20, please.

18 (Exhibit 9 marked)

19 Q. Mr. Sigler, I am showing you what has been  
20 marked as Sigler Exhibit 9. Do you have it up in  
21 front of you?

22 A. I do.

23 Q. Okay. It is Bates stamped DEFS00020443  
24 through DEFS00020452. Have you seen Sigler  
25 Exhibit 9 before?

1 A. I don't remember.

2 Q. Would you agree that Sigler Exhibit 9 is a  
3 November 5th, 2021, email from Michael Shannon to  
4 yourself?

5 A. Yes.

6 Q. There are a number of attachments attached  
7 to the cover email in Sigler Exhibit 9, correct?

8 A. Yes.

9 Q. And each of the attachments has "M&B" in  
10 the file name, correct?

11 A. Yes.

12 Q. Do you know what "M&B" means?

13 A. Yes.

14 Q. What does "M&B" mean?

15 A. Metes and bounds.

16 Q. What does "metes and bounds" mean?

17 A. A legal description of whatever it is  
18 you're -- in this case a voting precinct.

19 Q. Sorry. Did you say it's a legal  
20 description of voting precinct? I didn't catch  
21 that.

22 A. Yes.

23 Q. Okay. Let's take a look at the seventh  
24 page of Sigler Exhibit 9. And it's Bates stamped  
25 DEFS00020449. And it says "Voting" -- sorry. Let

1 me know when you're there on the seventh page.

2 MR. RUSSO: Which Bates number do you  
3 want?

4 MS. JAYARAMAN: 20449.

5 A. Okay.

6 Q. Are you on 20449?

7 A. Yes.

8 Q. At the top of the page, it says "Voting  
9 Precinct No. 336A," correct?

10 A. Correct.

11 Q. What does that mean?

12 A. I think it was for -- I'm not sure.

13 Q. Does the "A" indicate a split precinct?

14 A. I believe so.

15 Q. Can you walk me through the first line of  
16 20449 and explain what it means?

17 A. At the "Beginning of the centerline," I'm  
18 sorry, read that?

19 Q. Let's take a step back. What -- can you  
20 explain to me what 20449 is?

21 A. What I'm currently looking at, 336A?

22 Q. Correct, yes.

23 A. It's a metes and bounds.

24 Q. So it's the metes and bounds for Voting  
25 Precinct No. 336A?

1 A. That is correct.

2 Q. And now starting with the first line that  
3 starts with "Beginning," can you explain to me what  
4 that line is?

5 MR. RUSSO: Objection, speculation.

6 A. I'm not sure.

7 Q. Is it providing the boundaries for Voting  
8 Precinct No. 336A?

9 A. Yes.

10 Q. Is each of the lines on this page of  
11 Sigler Exhibit 9 providing the boundaries for Voting  
12 Precinct No. 336A?

13 MR. RUSSO: Objection, calls for  
14 speculation.

15 A. I'm not entirely sure.

16 Q. Who draws the metes and bounds lines for  
17 voting precincts?

18 MR. RUSSO: Objection, speculation.

19 A. I did some, and I'm not sure of who else.

20 Q. And when you said you did some, did you  
21 draw the metes and bounds for voting precinct lines  
22 during the 2021 redistricting cycle?

23 A. Repeat that question?

24 Q. Sure. And when you said you did some, did  
25 you draw metes and bounds for voting precincts

1 | during the 2021 redistricting cycle?

2 | A. Yes.

3 | Q. Did you draw the metes and bounds for

4 | Voting Precinct No. 336A during the 2021

5 | redistricting cycle?

6 | A. I do not know.

7 | Q. Did you draw the metes and bounds for

8 | Voting Precinct No. 336 during the 2021

9 | redistricting cycle?

10 | A. I do not know.

11 | Q. Walk me through the process of drawing

12 | metes and bounds for a voting precinct.

13 | A. Putting a layer on a map using identifiers

14 | to call out the boundaries of the metes and bounds

15 | for that particular voting precinct.

16 | The reason why I'm having a hard time

17 | answering this question is that what I'm seeing

18 | ended up not being used.

19 | Q. What do you mean by "ended up not being

20 | used"?

21 | A. They used something else for the metes and

22 | bounds.

23 | Q. Okay. So you just described the process

24 | of drawing metes and bounds as putting a layer on a

25 | map using identifiers to call out the boundaries of

1 | the metes and bounds for that particular voting  
2 | precinct.

3 | A. That's the way I did it.

4 | Q. Okay. And who decided on the boundaries  
5 | of the metes and bounds for the voting precincts  
6 | that you drew?

7 | A. I'm not sure.

8 | Q. How did you know where the boundaries were  
9 | for the vote -- for the metes and bounds of the  
10 | voting precincts that you drew?

11 | A. From the layer I had.

12 | Q. Where did the layer come from?

13 | A. There was one that was created, done by  
14 | me, Dale, and I'm not sure who else.

15 | Q. Sorry. Did you say that you created that  
16 | layer?

17 | A. Not -- I identified areas where there were  
18 | splits and then made changes as -- when I was told  
19 | to make changes.

20 | Q. Okay.

21 | (Overtalk)

22 | Q. Sorry.

23 | A. I'm sorry.

24 | (Reporter Clarification)

25 | A. Yes, I was to identify splits.

1 Q. Okay. I'm just going to go back for a  
2 moment because I think there may be a little  
3 confusion in the record.

4 You meant -- who drew the layer? Was it  
5 Dale who drew the layer?

6 MR. RUSSO: Objection, ambiguous.

7 A. I'm not sure.

8 Q. Okay. You said that you knew where the  
9 boundaries were for the metes and bounds of the  
10 voting precincts that you drew from a layer that you  
11 had, correct?

12 A. Correct.

13 Q. And then I had asked where did the layer  
14 come from, and --

15 A. Proceed. I'm sorry. I thought you were  
16 done asking a question. I didn't realize you were  
17 still going.

18 Q. No, it's okay. So where did the layer  
19 come from?

20 A. I'm not sure.

21 Q. Was Mr. Oldham involved in the creation of  
22 the layer?

23 A. I'm not sure.

24 Q. And when you said you were identifying  
25 split precincts, did your identification of split

1 | precincts go into the layer?

2 | A. They were notified with maybe a map of the  
3 | area where there was a split. There -- it could  
4 | have been maybe a map where the alternative line  
5 | could go. But I can't -- I don't know of any other  
6 | further.

7 | Q. So when you said they were notified, who  
8 | is "they"?

9 | A. The commissioner and Dale.

10 | Q. And when you say "commissioner," do you  
11 | mean Commissioner Clark?

12 | A. Yes.

13 | Q. Were any other commissioners notified?

14 | A. I'm not sure.

15 | MR. RUSSO: Objection, speculation.

16 | Q. Let's turn back to the first page of  
17 | Sigler Exhibit 9. Let me know when you're there,  
18 | please.

19 | A. I'm here. I'm there.

20 | Q. The bottom email in the chain is from you  
21 | to Mr. Shannon. Is that correct?

22 | MR. RUSSO: It's page 2.

23 | (Indiscernible conversation between  
24 | the witness and Mr. Russo)

25 | THE REPORTER: Could you guys pull that

1 phone a little closer to both of you, please? I'm  
2 having trouble.

3 MR. RUSSO: We're not speaking yet. We're  
4 just getting him on the right page, so he's back.

5 BY MS. JAYARAMAN:

6 Q. I'll repeat the question. The bottom  
7 email in the chain, which is on page 1, is from you  
8 to Mr. Shannon, correct?

9 A. Yes.

10 Q. And Mr. Shannon was your supervisor at the  
11 time?

12 A. Yes.

13 Q. And then going to the top email in the  
14 chain, Mr. Shannon responds to you by saying, "I  
15 made a few edits on these," correct?

16 A. Yes.

17 Q. So was Mr. Shannon revising some of the  
18 metes and bounds for voting precinct lines that you  
19 had previously drawn?

20 A. Reviewing.

21 Q. What do you mean by "reviewing"?

22 A. Not -- not looking to revise, just  
23 reviewing to see, and he would take the metes and  
24 bounds and he would trace it out and just make sure  
25 what I was writing was coming out to be what it was.

1 He was just reviewing it.

2 Q. So what do you understand "a few edits" to  
3 mean?

4 A. I'm not sure.

5 Q. Did Mr. Shannon edit any of the metes and  
6 bounds of voting precincts that you drew during the  
7 2021 redistricting cycle?

8 MR. RUSSO: Objection, speculation.

9 A. I believe so.

10 Q. Do you know which voting precincts -- do  
11 you know for which voting precincts Mr. Shannon  
12 edited the metes and bounds that you had drawn  
13 during the 2021 redistricting cycle?

14 A. I do not.

15 Q. Mr. Sigler, did you do anything with the  
16 information that you received in this email, Sigler  
17 Exhibit 9, and the associated attachments?

18 A. Repeat the question?

19 Q. Sure. Did you do anything with the  
20 information that you received in this email from  
21 Mr. Shannon?

22 A. Yes.

23 Q. What did you do?

24 A. I tried to email it with all the rest of  
25 the metes and bounds.

1 Q. To whom did you email it?

2 A. Veronica. I can't recall her last name.

3 And I don't remember if I cc'd anybody or not.

4 Q. Could it potentially be Veronica Van Horn?

5 A. Yes.

6 Q. Who is Ms. Van Horn?

7 A. I'm not sure her title.

8 Q. Is she a staff person for Judge Henry?

9 A. I'm not sure.

10 Q. Why were you sending the metes and bounds  
11 to Ms. Van Horn?

12 A. A record for commissioner precincts court  
13 or commissioners court.

14 Q. So you were sending it to Ms. Van Horn so  
15 that it would be in the commissioners court's  
16 records?

17 A. Correct.

18 Q. Aside from including the metes and bounds  
19 from this email in a larger email that you sent to  
20 Ms. Van Horn, did you do anything else with the  
21 information in this email, Sigler Exhibit 9?

22 A. Not that I can recall.

23 MS. JAYARAMAN: Cathy, if we could pull up  
24 Tab 14, please.

25 (Exhibit 10 marked)

1 Q. Mr. Sigler, I'm showing you what has been  
2 marked as Sigler Exhibit 10 which is Bates stamped  
3 DEFS00011894 through DEFS00011900. It is an email  
4 dated October 29th, 2021, from Ms. Van Horn to you.  
5 Do you agree?

6 A. Yes.

7 Q. And it looks like someone named Tyler  
8 Drummond is copied on the email. Do you see that?

9 A. I do.

10 Q. Who is Tyler Drummond?

11 A. I'm not sure his title.

12 Q. Is he a staff person for Judge Henry?

13 MR. RUSSO: Objection, speculation.

14 A. I think so.

15 Q. Below the email from Ms. Van Horn to you  
16 is an email from Paul Ready to Mr. Drummond and  
17 Ms. Van Horn. Do you see that?

18 A. I do.

19 Q. And Mr. Ready writes, "From Dale, please  
20 forward to Nathan in engineering and copy me."

21 Do you see that?

22 A. I do.

23 Q. And is "Dale" Mr. Oldham?

24 MR. RUSSO: Objection, speculation.

25 A. I'm not sure.

1 Q. Okay. Why don't we continue to scroll

2 down to the bottom of that page, DEFS00011894.

3 And do you see the "From" email address

4 there, dloesq@aol.com?

5 A. Yes.

6 Q. So would you agree that Dale is referring

7 to Mr. Oldham?

8 MR. RUSSO: Objection, speculation.

9 A. I'm not sure.

10 MS. JAYARAMAN: Cathy, can we pull up

11 Tab 16, please.

12 (Exhibit 11 marked)

13 Q. Mr. Sigler, I'm showing you what has been

14 marked as Sigler Exhibit 11. It is a November 1st,

15 2021, email exchange between yourself and the email

16 address dloesq@aol.com. Would you agree with that?

17 A. Yes.

18 Q. Why don't you take a moment to look over

19 Sigler Exhibit 11.

20 A. Will do. Thank you.

21 Q. Of course. Mr. Sigler, based on your

22 review of this email, would you agree that

23 dloesq@aol.com is Mr. Oldham's email address?

24 MR. RUSSO: Objection, speculation.

25 A. I'm not sure.

1 Q. Who were you corresponding with in this --

2 in Sigler Exhibit 11?

3 A. Dale.

4 Q. Who is Dale?

5 A. He was -- I believe the commissioners

6 court adopted his law firm to do the redistricting.

7 Q. Earlier I believe you said that the Dale

8 that was retained by the commissioners court to do

9 redistricting was Dale Oldham. Are you saying that

10 is not the same Dale?

11 A. I'm not sure Dale's last name.

12 Q. Okay. But the email address

13 dloesq@aol.com is for the Dale that the county

14 retained for redistricting?

15 A. I believe so.

16 Q. In this email exchange, Sigler Exhibit 11,

17 you are corresponding with the Dale that the county

18 retained for redistricting.

19 A. Repeat that question, please?

20 Q. Sure. I can ask it a much simpler way.

21 Who are you corresponding with in this email

22 exchange, Sigler Exhibit 11?

23 A. Dale.

24 Q. And that Dale is the Dale that you said

25 the county retained for redistricting?

1 A. Yes.

2 Q. Okay. Let's turn back then to Exhibit 10.

3 A. Okay. I have it up.

4 Q. Great. And then let's scroll towards the  
5 bottom of the first page of Sigler Exhibit 10. And  
6 do you see the email address dloesq@aol.com?

7 MR. RUSSO: It's down at the bottom.

8 A. Oh, okay. I do.

9 Q. And would you agree that that is the same  
10 email address as the email address that you were  
11 corresponding with in Sigler Exhibit 11 that we were  
12 just looking at?

13 A. Yes.

14 Q. And so scrolling up a little bit to  
15 Mr. Ready's email to Mr. Drummond and Ms. Van Horn,  
16 would you agree that the Dale being referred to is  
17 the Dale that the county retained for redistricting?

18 MR. RUSSO: Objection. Calls for  
19 speculation.

20 A. I believe so.

21 Q. Let's turn to the third page of Sigler  
22 Exhibit 10. And you might have to zoom out a little  
23 bit so that you can see the entirety of the third  
24 page.

25 A. Okay.

1 Q. Okay. The title of this third page is

2 "Galveston Texas Map 2 With Precincts," correct?

3 A. Correct.

4 Q. Who drew this map?

5 A. I'm not sure.

6 Q. Did you draw this map?

7 A. No.

8 Q. Did Dale draw this map?

9 A. I'm not sure.

10 MR. RUSSO: Objection. Calls for

11 speculation. Asked and answered.

12 A. I'm not sure.

13 Q. Have you heard of someone named Thomas

14 Bryan?

15 A. I don't recall.

16 Q. So to be clear, you don't know Thomas

17 Bryan?

18 MR. RUSSO: Objection. Asked and

19 answered.

20 A. I'm not sure.

21 Q. Okay. What are the small numbers on this

22 map?

23 A. Voting precinct numbers.

24 Q. Why was this map drawn?

25 A. I'm not sure.

1 MR. RUSSO: Objection, speculation.

2 A. And I'm sorry. Is it okay if I take a  
3 bathroom break?

4 Q. Let's finish this exhibit and then  
5 absolutely.

6 A. Okay.

7 Q. Thanks. Let's now turn to the next page  
8 of Sigler Exhibit 10.

9 A. Okay.

10 Q. And it's titled "Galveston Texas Map 2,"  
11 correct?

12 A. Yes.

13 Q. Who drew this map?

14 A. I'm not sure.

15 Q. Did you draw this map?

16 A. No.

17 Q. Why was this map drawn?

18 A. I'm not sure.

19 Q. Is this map any different from the map we  
20 were looking at on the prior page?

21 A. I'm sorry. I'm looking at the other page  
22 we just looked at.

23 Q. No problem.

24 A. They appear to be the same.

25 MR. RUSSO: They do?

1           A.    Yeah.  That's commissioner precinct lines  
2   in there in the color.  It's got the voting  
3   precincts on top of the commissioner precincts.

4           Q.    Sorry.  Are you talking to me?  Sorry.

5           A.    Yes.

6           Q.    Okay.  So the only difference then between  
7   this map and the map on the prior page is the  
8   presence of voting precincts on the map on the prior  
9   page?

10          A.    That is correct.

11          Q.    Okay.  Let's turn to the sixth page of  
12   Sigler Exhibit 10.

13          A.    And I'm sorry.  Can you repeat that  
14   question?

15          Q.    Yeah.  Let's turn to the sixth page of  
16   Sigler Exhibit 10.

17          A.    Sixth page.

18          Q.    Yeah.  So it's Bates stamped DEFS00011899.

19                MR. RUSSO:  Got to reduce it.  Click on  
20   the reducer.  No, over.  There.  Way too much.

21          A.    And what was that number again, please?

22          Q.    Sure.  11899.

23          A.    11899?  Okay.

24          Q.    Did you draw this map?

25          A.    I did not.

1 Q. Do you know who drew this map?

2 A. I do not.

3 Q. All right. Let's turn to the next page,  
4 please.

5 A. Okay.

6 Q. Did you draw this map?

7 A. I did not.

8 Q. Do you know who drew this map?

9 A. I do not.

10 Q. Okay. Let's turn to the fifth page of  
11 Sigler Exhibit 10. And it's Bates stamped 11898.

12 A. Okay.

13 Q. It says, "Please review the native  
14 document DEFS00011898." Do you see that?

15 A. I do.

16 MS. JAYARAMAN: Cathy, could you please  
17 pull up DEFS00011898.

18 Mr. Sigler, as soon as we go through that  
19 native document, we'll definitely take that rest  
20 room break.

21 MR. RUSSO: Do you need to go now or not?

22 THE WITNESS: I really do need to go now.

23 MR. RUSSO: We're going to take a break.

24 He needs to go to the bathroom.

25 MS. JAYARAMAN: Okay. That's fine.

1 MR. RUSSO: Thank you.

2 MS. JAYARAMAN: Sure. We can go off the  
3 record.

4 (Recess from 2:02 to 2:19)

5 (Exhibit 12 marked)

6 BY MS. JAYARAMAN:

7 Q. Mr. Sigler, let's go ahead and take a look  
8 at Sigler Exhibit 12, please. And please let me  
9 know when you have Sigler Exhibit 12 in front of  
10 you.

11 A. I do.

12 Q. Okay. Let's look at the very first page  
13 in the spreadsheet, so the first sheet all the way  
14 to the left which is called "Galveston\_Blocks Data."

15 MR. RUSSO: It's hidden, Galveston\_Blocks  
16 Data.

17 A. Okay.

18 MR. RUSSO: Yeah.

19 Q. Are you -- Mr. Sigler, are you looking at  
20 Galveston\_Blocks Data?

21 A. I am.

22 Q. Can you please walk me through the columns  
23 in this sheet starting with Column A.

24 A. I cannot.

25 Q. Do you know what "GEOID20" means?

1 A. I do not.

2 Q. Do you know what any of the column headers  
3 mean in this Excel spreadsheet?

4 A. I do not.

5 Q. Okay. Let's take a look at the next sheet  
6 which is called "Pop Pivot."

7 A. I'm there. I'm looking at it.

8 Q. Would you agree that this spreadsheet, Pop  
9 Pivot, has three tables in it, one called  
10 "Original," one called "Map 1," and one called  
11 "Map 2"?

12 A. I've never seen this.

13 Q. Let's take a look again at Sigler  
14 Exhibit 11. My apologies, Sigler Exhibit 10. Are  
15 you on Sigler Exhibit 10?

16 A. I am, yes, ma'am.

17 Q. Okay. And do you see that the Excel  
18 spreadsheet that we were looking at,  
19 "Galveston\_Analysis 10\_28\_21," was one of the  
20 attachments to Sigler Exhibit 10?

21 A. I do.

22 Q. And is it your testimony today that you  
23 never opened the spreadsheet called  
24 "Galveston\_Analysis 10\_28\_21"?

25 A. I do not know.

1 Q. What do you mean you do not know?

2 A. I'm not sure if I did or didn't.

3 Q. When you receive an email in the normal  
4 course of business, do you open the attachments to  
5 that email?

6 MR. RUSSO: Objection. Ambiguous and  
7 vague.

8 MS. JAYARAMAN: Counsel, if you have an  
9 objection, please just state "Objection," and if I'd  
10 like to know the basis, I'll let you know.

11 MR. RUSSO: I'm going to preserve the  
12 record.

13 MS. JAYARAMAN: But it's amounting to  
14 coaching the witness, Counsel.

15 MR. RUSSO: I'm not coaching the witness.  
16 I'm very simply stating the objection.

17 A. And could you repeat the question, please?

18 Q. Sure. When you receive an email in the  
19 normal course of business, do you open attachments  
20 to that email?

21 A. Sometimes.

22 Q. What are the circumstances under which you  
23 do not open an attachment to an email?

24 MR. RUSSO: Objection, ambiguous.

25 A. If I'm not aware of the sender, if it

1 could be spam, if it's information I may have  
2 already. I'm not -- I can't think of any specific  
3 reason, but those are a few thing -- reasons why I  
4 have not opened up documents in the past.

5 Q. So taking a look at Sigler Exhibit 10, you  
6 knew the sender, Ms. Van Horn, correct?

7 A. Correct.

8 Q. And Ms. Van Horn is not sending you spam,  
9 correct?

10 A. Correct.

11 Q. And did you already have the information  
12 in this -- in the email that Ms. Van Horn was  
13 sending you?

14 A. No.

15 Q. So is it still your testimony that you did  
16 not open the Excel attachment to Sigler Exhibit 10?

17 A. I don't remember.

18 Q. Do you have any reason to believe that you  
19 would not have opened the attachment?

20 A. No, I don't -- I'm not sure.

21 Q. Towards the middle of the first page of  
22 Sigler Exhibit 10 is the email from Paul Ready,  
23 correct?

24 A. Yes.

25 Q. Who is Paul Ready?

1           A.    I guess the lawyer, a counsel for the  
2 county.

3           Q.    During the 2021 redistricting cycle, did  
4 you normally open emails from Dale Oldham?

5                   MR. RUSSO:  Objection, speculation.

6           A.    I think so.

7           Q.    Can you think of an occasion where you did  
8 not open an email from Mr. Oldham that you had  
9 received from Mr. Oldham during the 2021  
10 redistricting cycle?

11          A.    I'm not sure.

12          Q.    Did you do anything with the information  
13 that you received in this email from Ms. Van Horn?

14          A.    Sorry.  I'm reviewing the attachments.

15          Q.    Sure.  And remember, one of the  
16 attachments is that Excel spreadsheet --

17          A.    Okay.

18          Q.    -- that you said you've never --

19          A.    That I don't recollect.  I don't think so.

20          Q.    So to be clear, you don't think that you  
21 did anything with the information that you received  
22 in this email?

23          A.    Correct.

24          Q.    During the 2021 redistricting cycle, did  
25 you often receive emails with information and then

1 do nothing with that information?

2 A. Unless specified to.

3 Q. So Ms. Van Horn says, "Nate, please see  
4 attached," correct?

5 A. Correct.

6 Q. So she's specifying for you to look at the  
7 attachments, correct?

8 A. Correct.

9 Q. So would you have looked at the  
10 attachments to Sigler Exhibit 10?

11 A. Possibly. I know for Map 2, Map 1  
12 precincts, the maps I looked at, but the Excel sheet  
13 I'm still not positive on. And I'm not quite sure  
14 what "Galveston Map 2 10\_28" is.

15 Q. Okay. I -- we can look at -- if you'd  
16 like to take a look at the attachments again, you  
17 can. They're all -- they're all in Sigler  
18 Exhibit 10. But just so I'm clear, your testimony  
19 is that you did not do anything with the information  
20 that you received in Sigler Exhibit 10?

21 MR. RUSSO: Objection. Asked and  
22 answered.

23 Q. You can still answer.

24 A. Okay. Could you repeat the question one  
25 more time, please?

1 Q. Absolutely. So just so I'm clear, your  
2 testimony is that you did not do anything with the  
3 information that you received in Sigler Exhibit 10?

4 MR. RUSSO: Same objection.

5 A. Yes, not that I can recall.

6 Q. All right. Let's go back to Sigler  
7 Exhibit 11, please.

8 A. Right here?

9 MS. JAYARAMAN: Counsel, if you're  
10 speaking with Mr. Sigler, if you wouldn't mind  
11 speaking loud enough so we could all hear, please.

12 MR. RUSSO: Yeah, I'm getting him to the  
13 document. Okay? I mean, are you worried about us  
14 secretly putting things on the record? He's trying  
15 to maneuver the documents.

16 MS. JAYARAMAN: No, I'm not worried about  
17 anything secretly going on the record. I'd just  
18 like to --

19 MR. RUSSO: Apparently it is an issue.  
20 I'm telling him where to click on the process that  
21 you guys have set up for today. It's that simple.

22 MS. JAYARAMAN: Okay. I appreciate that.  
23 Thank you for assisting him.

24 Q. Mr. Sigler, do you have Sigler Exhibit 11  
25 in front of you?

1 A. Yes.

2 Q. Great. And this is the email that we were  
3 looking at before. It's an email exchange between  
4 yourself and Dale Oldham dated November 1st, 2021,  
5 correct?

6 A. Correct.

7 Q. In the top email, you send Mr. Oldham a  
8 Zoom link. Do you see that?

9 A. Yes.

10 Q. Did you meet with Mr. Oldham via Zoom on  
11 November 1st, 2021?

12 A. I believe so.

13 Q. Was anyone else in that meeting?

14 A. I do not recall.

15 Q. How long was that meeting?

16 A. I do not know.

17 Q. What did you discuss with Mr. Oldham  
18 during that meeting?

19 MR. RUSSO: I'll instruct the witness not  
20 to answer based on attorney-client privilege.

21 MS. JAYARAMAN: Cathy, could we pull up  
22 Tab 19, please.

23 MS. REYES: I'm sorry. If you don't mind,  
24 I'd like to ask some questions about the basis for  
25 that privilege.

1 MR. RUSSO: Sorry. Who's speaking?

2 MS. REYES: My name is Bernadette Reyes  
3 for Petteway plaintiffs. I have some questions  
4 about the basis for that privilege.

5 MR. RUSSO: Okay. There's counsel that  
6 has the examination ongoing right now.

7 MS. JAYARAMAN: Ms. Reyes can ask her  
8 questions. I don't mind.

9 MS. REYES: Are you -- are you saying that  
10 Mr. Oldham was retained as the county's attorney?

11 MR. RUSSO: He was a represent- -- yes.  
12 He was an attorney working for the county, retained  
13 to assist the county in the redistricting effort.

14 MS. REYES: Okay. So can you tell us when  
15 he retired?

16 MR. RUSSO: I don't know the date.

17 MS. REYES: And this general subject  
18 matter of his work?

19 MR. RUSSO: Can we go on with the  
20 deposition and we can have this discussion off the  
21 record when we're not wasting the witness's time  
22 with this?

23 MS. REYES: No, I want to make clear for  
24 the record the basis of your objection. You're  
25 claiming attorney-client privilege --

1 MR. RUSSO: The basis of my objection is  
2 you are getting into an attorney-client privilege.  
3 There's -- there's -- and that's it. The guy --  
4 Mr. Oldham was retained by the county to help with  
5 the redistricting effort.

6 MS. REYES: Okay.

7 MR. RUSSO: That's the basis of --

8 MS. REYES: I understand, Mr. Russo, but  
9 the attorney-client privilege isn't just a blanket  
10 coverage for anyone who is a lawyer that is -- that  
11 is hired by the county. There must be some basis  
12 for the attorney-client privilege. The privilege  
13 covers legal counsel, legal advice.

14 So if Mr. Oldham was involved in mapping  
15 and giving data regarding drawing the maps to  
16 Mr. Sigler, then those -- those conversations, those  
17 communications are not covered by the  
18 attorney-client privilege. And I want to get this  
19 on the record.

20 MR. RUSSO: I totally disagree with that.  
21 Mr. Oldham was retained for the purpose of getting  
22 redistricting done within the bounds of the law.  
23 That was his duty.

24 MS. REYES: I just want to be clear,  
25 though, that based on what I've just said and based

1 | on the earlier ruling containing the decision  
2 | involving Judge Brown, it is your position that the  
3 | communications from Dale Oldham are covered by  
4 | attorney-client privilege?

5 | MR. RUSSO: That's correct. And again,  
6 | the case that you sent to us dealt with the  
7 | attorney-client privilege of a blanket privilege  
8 | that was asked for documents, not for specific  
9 | conversations between the attorney and the county.

10 | MS. REYES: It is -- it is our position  
11 | that those are similar and that the testimony is  
12 | akin to the documents.

13 | MR. RUSSO: This is all --

14 | MS. REYES: I am just -- I'm making my --  
15 | I'm just saying it for the record, Mr. Russo.

16 | MR. RUSSO: Okay.

17 | MS. REYES: I will pass it back to the  
18 | Department of Justice.

19 | MR. RUSSO: This is all great argument for  
20 | the Court. It's not argument for this deposition.  
21 | Do you want to continue examining the witness or  
22 | not?

23 | MS. REYES: Yes, they can continue. I was  
24 | just trying to make clear that I'm understanding the  
25 | basis of your objection.

1 MR. RUSSO: Great.

2 (Exhibit 13 marked)

3 BY MS. JAYARAMAN:

4 Q. Okay. So we're going to take a look at  
5 Sigler Exhibit 13. And please let me know when you  
6 have it in front of you, Mr. Sigler. And if you'd  
7 take a look at the second page of Sigler Exhibit 13,  
8 it's labeled "Defendants' First Supplemental and  
9 Amended Response to the United States' First Set of  
10 Interrogatories." Do you see that?

11 A. I do.

12 Q. Okay. And let's turn to the very last  
13 page of Sigler Exhibit 13. I believe it's page 39  
14 of 39 in the PDF.

15 And on the last page of Sigler Exhibit 13,  
16 you will see a certification from Judge Henry that  
17 says that he declares under penalty of perjury that  
18 the foregoing is true and correct. Do you see that?

19 A. I don't recognize -- okay. Let me see.

20 Q. The very last page of Sigler Exhibit 13.  
21 So you can scroll all the way to the end of the  
22 document.

23 A. Okay.

24 Q. Do you see that there's a certification  
25 from Judge Henry that says he declares under penalty

1 of perjury that the foregoing is true and correct?

2 A. I do.

3 Q. Okay. So now using the printed page  
4 numbers on the bottom of Sigler Exhibit 13, let's  
5 turn to page 18 of Sigler Exhibit 13.

6 A. You said number 18? I'm sorry.

7 Q. Yes, 18 using the printed page numbers,  
8 and that's page, yeah, 18. Please let me know when  
9 you're there.

10 MR. RUSSO: The page numbers are on the  
11 bottom.

12 A. Okay. Oh, okay. Okay.

13 MR. RUSSO: Okay. He's ready.

14 Q. Okay. At the very top of the page, it  
15 says, "On November 1st, 2021, Nathan Sigler and Dale  
16 Oldham scheduled a Zoom call. Upon information and  
17 belief, this call concerned the verification of what  
18 was posted to the website." Do you see that?

19 A. Yes.

20 Q. Would you agree with defendants' assertion  
21 that your Zoom call on November 1st, 2021, with  
22 Mr. Oldham concerned the verification of what was  
23 posted to the Galveston website?

24 A. Could you repeat that question, please?

25 Q. Sure. Do you agree with defendants'

1 | assertion that your Zoom call on November 1st, 2021,  
2 | with Mr. Oldham concerned the verification of what  
3 | was posted to the Galveston website?

4 | A. I believe so.

5 | Q. What do you mean by "I believe so"?

6 | MR. RUSSO: Let me just caution the  
7 | witness that we're not disclosing conversations  
8 | other than what is stated in the interrogatories.  
9 | So if there are other conversations with Mr. Oldham,  
10 | we're not disclosing that on the basis of privilege.

11 | To the extent you can answer her question,  
12 | you can.

13 | A. And is this regarding commissioner -- the  
14 | redistricting for commissioner precincts or  
15 | redistricting for voting precincts?

16 | Q. I do not know. I wanted to know if you  
17 | agreed with defendants' assertion that your Zoom  
18 | call on November 1st, 2021, with Mr. Oldham  
19 | concerned the verification of what was posted to the  
20 | Galveston County website.

21 | MR. RUSSO: Objection, asked and answered.

22 | A. I don't remember the specifics of what was  
23 | talked about in that conversation.

24 | Q. When I asked the question a moment ago,  
25 | you said, "I believe so." And then I asked, "What

1 do you mean by 'believe so,' and then I don't  
2 believe you answered that. So what did you mean by  
3 "I believe so"?

4 MR. RUSSO: Again, the witness is being  
5 admonished in connection with disclosing  
6 conversations that are between the county and an  
7 attorney hired to represent them on the basis of  
8 attorney-client privilege.

9 To the extent you can answer the question  
10 without revealing such other communications, you can  
11 answer.

12 Q. So, Mr. Sigler, do you disagree that your  
13 November 1st, 2021, Zoom call with Mr. Oldham  
14 concerned what was posted to the Galveston County  
15 website?

16 A. Can you repeat that question, please?

17 Q. Absolutely. Do you disagree that your  
18 November 1st, 2021, Zoom call with Mr. Oldham  
19 concerned what was posted to the Galveston County  
20 website?

21 A. I do not. I don't recall what the  
22 specifics of the conversation were.

23 Q. Okay. What was posted to the Galveston  
24 County website during the 2021 redistricting cycle?

25 A. I'm not sure. I'm not sure if it was -- I

1 mean, it depends on what it was regarding, either if  
2 this is regarding commissioner precinct  
3 redistricting or voting precinct redistricting. I  
4 can't recall the date as far as what was posted.

5 Q. Okay. So let's start with commissioner  
6 redistricting.

7 A. Okay.

8 Q. What was posted on the Galveston County  
9 website during the 2021 redistricting cycle with  
10 respect to commissioner court redistricting?

11 MR. RUSSO: Objection. Calls for  
12 speculation. You can answer.

13 A. Map 1 proposal, I believe, and Map 2.

14 Q. Were you involved in making information  
15 available to the public during the 2021  
16 redistricting cycle?

17 A. Repeat that question one more time,  
18 please?

19 Q. Sure. Were you involved in making  
20 information available to the public during the 2021  
21 redistricting cycle?

22 A. Yes.

23 Q. Please describe your involvement in making  
24 information available to the public during the 2021  
25 redistricting cycle.

1           A. I would receive data. From there, I would  
2 create a PDF map and then also create a shapefile  
3 that could be viewed online.

4           Q. And where was this information made  
5 available to the public?

6           A. Through the county's web page.

7           Q. Was it through the GIS portal that we  
8 looked at earlier?

9           A. Yes, and a couple other locations on the  
10 web page.

11          Q. And what were the other locations?

12          A. It was on the front of the web page,  
13 embedded into the front of the web page and then  
14 also through our link on the -- on the web page.

15          Q. So you mentioned PDF and shapefiles were  
16 made available to the public.

17          A. Correct.

18          Q. Was any other -- let's start with Map 2.  
19 Were multiple versions of Map 2 made available to  
20 the public?

21          A. Repeat the question, please?

22          Q. Sure. Let's -- Map 2. Were multiple  
23 versions of Map 2 made available to the public?

24          A. No.

25          Q. So only one version of Map 2 was made

1 available to the public?

2 A. Correct.

3 Q. Were multiple versions of Map 1 made

4 available to the public?

5 A. No.

6 Q. So only one version of Map 1 was made

7 available to the public?

8 A. I'm going to change my answer to I'm not

9 sure for Map 1 or Map 2, if there were different

10 versions posted on there. I'm not sure.

11 Q. Okay. Let's start with Map 2. With

12 respect to the version of Map 2 that you were aware

13 was posted to the website, what was made available

14 to the public?

15 A. Just the boundary lines for that proposal.

16 Excuse me.

17 Q. In what format were the boundary lines

18 made available to the public?

19 A. Shapefile and PDF.

20 Q. Was any other -- I'm sorry. Go ahead.

21 A. The shapefile would have been what you

22 would have viewed on the interactive map.

23 Q. What layers were in the shapefile?

24 A. I do not recall the specifics. Seven

25 layers comprise the shapefile. There's a PRJ file.

1 There's several different -- seven different layers  
2 that comprise of a shapefile though.

3 Q. Was the -- was demographic information in  
4 one of the layers in the shapefile that was made  
5 public?

6 A. I do not know. I don't think so, but I do  
7 not know.

8 Q. Was the availability of the draft maps  
9 publicized?

10 A. I do not know.

11 Q. Did the public have a way of providing  
12 comments on the draft maps?

13 A. I do not know.

14 Q. Aside from yourself, who all was involved  
15 in making the draft maps -- draft commissioners  
16 court maps available to the public during the 2021  
17 redistricting cycle?

18 A. Can you repeat that question, please?

19 Q. Sure. Aside from yourself, who all was  
20 involved in making the draft commissioners court  
21 maps available to the public during the 2021  
22 redistricting cycle?

23 A. I do not know.

24 Q. Did you communicate with anyone else  
25 regarding making the draft maps available to the

1 public during the 2021 redistricting cycle?

2 A. Yes.

3 Q. With whom did you communicate?

4 A. I can't recall specific names, but  
5 essentially notifying the judge's office that the  
6 maps were available to the public. I would have  
7 notified the county engineer that the maps are  
8 available for the public. I just can't recall  
9 specific names of people.

10 Q. Why did you notify the county judge's  
11 office?

12 A. Usually I was getting -- like for the Map  
13 1, Map 2 came from them, so it was just something  
14 that there could have been other people notified.  
15 They're just ones that I do know I notified. I  
16 notified them and I notified my boss. And like I  
17 said, there could be other people from different  
18 departments. I just can't think of who.

19 Q. Did you communicate directly with Judge  
20 Henry about making these drafts available to the  
21 public?

22 A. No.

23 Q. Did you communicate with Commissioner  
24 Apffel about making these draft maps available to  
25 the public?

1 A. I don't know.

2 Q. As in you don't recall or you don't know  
3 who you communicated with?

4 A. I don't know who I communicated with.

5 Q. Did you communicate with a member of  
6 Commissioner Apffel's staff about making these draft  
7 maps available to the public?

8 A. I'm not sure.

9 Q. What do you mean by "I'm not sure"?

10 A. Lots of people -- there's people would  
11 stop by, Hey, can I see the map? It's hard to keep  
12 up with who came by and asked or who may have called  
13 and asked at that time if it was available. And  
14 like I said, there was correspondence I had with  
15 individuals, Hey, the map's up if you want to see  
16 it.

17 I just -- I don't know who, other than who  
18 I specified, I would have notified. But like I  
19 said, there was -- there were phone calls of people  
20 inquiring and there were people walking by my office  
21 that were inquiring. I just can't recall the  
22 specifics of who those were.

23 Q. So when you say people would stop by your  
24 office, what do you mean just by that?

25 A. A commissioner may stop by. One of their

1 assistants may stop by. They may both come in and  
2 look. It just -- and that was throughout that whole  
3 process. It's hard to pinpoint an exact of when  
4 and -- but it just was something that happened  
5 throughout that process.

6 Q. And when you say "they would come by and  
7 look," what do you mean by "look"?

8 A. They would come check out the proposals  
9 for Map 1, Map 2. I would have one presented on one  
10 screen, and the other would be proposed -- would be  
11 shown on the other screen.

12 Q. And would they suggest edits to you when  
13 you were showing them the proposals?

14 A. No.

15 Q. So what would happen when you showed them  
16 the proposals?

17 A. They may -- they were at a zoomed-out  
18 view. They may ask to zoom in to different areas  
19 and that would be about it, you know, zoom into  
20 whatever area of precinct they may be part of.

21 Sorry. I don't see you anymore.

22 MR. RUSSO: They're up there.

23 THE WITNESS: Oh, okay.

24 Q. So aside from zooming in to different  
25 areas of the maps, what else would happen when a

1 commissioner would drop by your office?

2 A. They would just spend approximately one  
3 minute to two minutes looking and may ask to zoom to  
4 a certain area and, you know, "Thank you," and that  
5 would be it.

6 Q. What would happen when a member of a  
7 commissioner's staff would drop by your office?

8 A. The same. They may ask to see the map.  
9 They may ask to see a certain area. And again,  
10 "Thank you for your time," and they would leave.

11 Q. Would they ever provide suggestions on how  
12 the maps should be drawn?

13 A. No.

14 Q. Did Judge Henry ever stop by your office?

15 A. Not that I can recall.

16 Q. Did a member of Judge Henry's staff ever  
17 stop by your office?

18 A. Not that I can recall.

19 Q. Did Commissioner Apffel ever stop by your  
20 office?

21 A. Yes.

22 Q. How many times did Commissioner Apffel  
23 stop by your office?

24 A. I do not know.

25 Q. Would you say that it was more than ten

1 times?

2 A. I do not know.

3 Q. Would you say that it's more -- it was

4 more than five times?

5 A. I'm not sure.

6 Q. Would you say that he stopped by more than

7 once?

8 A. Yes.

9 Q. Would you say that he stopped by more than

10 twice?

11 A. I'm not sure.

12 Q. Would you say that he stopped by --

13 A. For sure --

14 Q. I'm sorry. Go ahead.

15 A. For sure, at least once or twice.

16 Q. And when he stopped by your office, was he  
17 accompanied by anyone else?

18 A. On some occasions.

19 Q. So you recall two occasions on which he

20 stopped by your office, correct?

21 A. Correct.

22 Q. On the first occasion, was he accompanied

23 by someone else?

24 A. Yes.

25 Q. Who accompanied him?

1 A. His assistant.

2 Q. What was his assistant's name?

3 A. I think Seth.

4 Q. Seth. Did anyone else accompany him  
5 during his first visit to your office?

6 A. No.

7 Q. How long was his first visit to your  
8 office?

9 A. Under two minutes.

10 Q. Turning to the second visit to your  
11 office, did anyone accompany him during that visit?

12 A. No.

13 Q. Did Commissioner Giusti ever stop by your  
14 office during the 2021 redistricting cycle?

15 A. For commissioners?

16 Q. Yes, yes.

17 A. Yes.

18 Q. How many times did Commissioner Giusti  
19 stop by your office?

20 A. Only once that I can recall.

21 Q. Was he accompanied by anyone when he  
22 stopped by your office?

23 A. No.

24 Q. And going back to your two meetings or the  
25 two times that Commissioner Apffel stopped by your

1 office, aside from Seth in the first meeting, was

2 there anyone else in your office at the time?

3 A. No. It was a situation where he was

4 exiting and the other commissioner was coming in.

5 Q. And who was the other --

6 A. Commissioner --

7 Q. -- commissioner? Sorry.

8 A. Commissioner Giusti. That's okay.

9 Commissioner Giusti.

10 Q. Thank you. Okay. So -- and which of

11 the -- you mentioned that you met with Commissioner

12 Apffel twice. Which of the two meetings did

13 Commissioner Giusti immediately follow?

14 A. I believe it was the first one.

15 Q. And when did that first meeting with

16 Commissioner Apffel take place?

17 A. I don't recall the date.

18 Q. Would you say that it was in October of

19 2021?

20 A. I'm not sure.

21 Q. When did the second meeting with

22 Commissioner Apffel take place?

23 A. Approximately -- approximately two or

24 three hours later maybe. He came back one more time

25 and looked by himself.

1 Q. Got it. And just to be clear, when I say  
2 was anyone else in the room, I don't just mean  
3 physically. I also mean if someone was on the phone  
4 or virtually present, just to be clear.

5 A. Okay. All right. No, there was not.

6 Q. Okay. Did Commissioner Holmes ever stop  
7 by your office during the redistricting for the  
8 commissioners precincts in 2021?

9 A. He did.

10 Q. How many times did Commissioner Holmes  
11 stop by your office?

12 A. Once that I can recall.

13 Q. Was anyone else -- was anyone accompanying  
14 Commissioner Holmes when he stopped by your office?

15 A. Not that I can recall.

16 Q. When did he stop by your office?

17 A. I'm not sure.

18 Q. Was it after Mr. -- or Commissioner Apffel  
19 stopped by your office?

20 A. Yes, and after Giusti.

21 Q. Was it the same day?

22 A. Yes.

23 Q. And how long was the meeting with  
24 Commissioner Holmes?

25 A. Under two minutes.

1 Q. And how long --

2 A. I'm sorry. Like to re-answer that. I'm  
3 not sure if it was that day or the next day.

4 Q. Okay.

5 A. Not a hundred percent positive.

6 Q. And you don't recall if it was in October  
7 of 2021 that these meetings took place?

8 A. I do not.

9 Q. Okay. And then meeting with Commissioner  
10 Giusti, was that also under two minutes?

11 A. Correct.

12 Q. Did Commissioner Clark ever stop by your  
13 office during the 2021 redistricting of the  
14 commissioners court precincts?

15 A. Yes.

16 Q. How many times did Commissioner Clark stop  
17 by your office?

18 A. Only once that I can recall.

19 Q. Was it before or after the day that you  
20 met with Commissioners Apffel and Giusti?

21 A. Yes.

22 Q. Sorry. Was it before or was it the same  
23 day?

24 A. It was the same day.

25 Q. And did he stop by after Commissioners

1 Apffel and Giusti?

2 A. I can't recall if he came before Apffel or  
3 after Giusti.

4 Q. Did he stop by before Commissioner Holmes?

5 A. Yes.

6 Q. And how long was the meeting with  
7 Commissioner Clark?

8 A. Under two minutes.

9 Q. Was there anyone else in the room when you  
10 met with Commissioner Clark?

11 A. No.

12 Q. Did you communicate with Commissioner  
13 Giusti about making draft maps -- draft  
14 commissioners court maps available to the public?

15 A. I don't know.

16 Q. Did you communicate with Commissioner  
17 Holmes about making draft commissioner court maps  
18 available to the public?

19 A. I don't know.

20 Q. Did you communicate with Commissioner  
21 Clark about making draft commissioners court maps  
22 available to the public?

23 A. I don't know.

24 Q. Did you communicate with a member of Judge  
25 Henry's staff about making draft commissioner court

1 maps available to the public?

2 A. Yes.

3 Q. With whom did you communicate?

4 A. Veronica, and I think her name is -- I  
5 can't recall the other -- his other assistant's name  
6 at this time.

7 Q. When did you communicate with Ms. Van Horn  
8 and Ms. -- Judge Henry's other staff person  
9 regarding making draft maps available to the public?

10 A. Anytime there may have been something  
11 needing to be posted, I just let them know. There  
12 was usually a direction, "Make this -- put this on  
13 the public page," at which time I would do so and  
14 let them know.

15 Q. And who would provide you with that  
16 direction?

17 A. I'm not sure. It could come from a couple  
18 different people.

19 Q. And were those communications with  
20 Ms. Van Horn via email?

21 A. Yes.

22 MS. JAYARAMAN: Counsel, do you know if  
23 those emails have been produced?

24 MR. RUSSO: I do not. Have to check with  
25 cocounsel.

1 MS. JAYARAMAN: Yeah. Thank you. Please  
2 look into it and get back to us.

3 Q. Did you communicate with any members of  
4 Commissioner Apffel's staff regarding making draft  
5 maps available to the public? And to be clear, I  
6 mean the commissioners court maps.

7 A. I think, from what I remember now, when  
8 the commissioners came, and I did mention that they  
9 were available online for public view. So I want to  
10 re-answer that question or change my answer for that  
11 particular question. When the commissioners came in  
12 to look at the maps, I would have notified them that  
13 they're available to view publicly. But past that,  
14 I'm not sure.

15 Q. Okay. So to be clear, when the  
16 commissioners dropped by your office, two things  
17 happened. One, you zoomed in to whatever precinct  
18 they wanted, and then two, you informed them that  
19 maps were available on the public website?

20 A. Correct.

21 Q. And so did you say that you communicated  
22 with a member of Commissioner Apffel's staff about  
23 making the draft map -- draft commissioners court  
24 maps available to the public?

25 A. I do believe I let Seth know one time that

1 they were available to the public.

2 Q. Did you have any other communications with  
3 a member of Commissioner Apffel's staff regarding  
4 making draft commissioners court maps available to  
5 the public?

6 A. I did not.

7 Q. Did you communicate with a member of  
8 Commissioner Giusti's staff regarding making draft  
9 maps -- draft commissioners court maps available to  
10 the public?

11 A. I'm not sure.

12 Q. Did you communicate with a member of --  
13 staff member of Commissioner Holmes' staff about  
14 making draft commissioners court maps available to  
15 the public?

16 A. I'm not sure.

17 Q. Did you communicate with a member of  
18 Commissioner Clark's staff about making draft  
19 commissioners court maps available to the public?

20 A. I'm not sure.

21 Q. Aside from making draft maps available --  
22 draft commissioners court maps available to the  
23 public, what else did you do during the  
24 redistricting of the commissioners court precincts  
25 in 2021?

1 A. Nothing.

2 Q. Who was involved in the process of drawing  
3 the commissioners court precincts in 2021?

4 A. I'm not sure.

5 Q. Was anyone from your office, the  
6 Engineering and Right of Way department, involved in  
7 drawing the commissioners court precincts in 2021?

8 A. No.

9 Q. To your knowledge, were any Galveston  
10 County employees involved in drawing the  
11 commissioners court precincts in 2021?

12 A. No.

13 Q. To your knowledge, was Mr. Oldham involved  
14 in drawing the commissioners court precincts in  
15 2021?

16 A. I'm not sure.

17 Q. Let's go back to Sigler Exhibit 13. How  
18 long was that Zoom meeting with Mr. Oldham on  
19 November 1st, 2021?

20 A. I'm not sure.

21 Q. Was it more than an hour?

22 A. I'm not sure.

23 Q. Was it more -- longer than 30 minutes?

24 A. I'm not sure.

25 Q. Was it longer than 15 minutes?

1 A. I'm not sure.

2 Q. Was it longer than ten minutes?

3 A. I'm not sure.

4 Q. Was it longer than five minutes?

5 A. Yes.

6 Q. Was it longer than eight minutes?

7 A. I'm not sure.

8 Q. So the meeting on November 1st, 2021, with

9 Mr. Oldham via Zoom was somewhere between five and

10 ten minutes?

11 A. I'm not sure of the time frame.

12 Q. Okay. But the meeting was at least five

13 minutes long?

14 A. Yes.

15 Q. Did you meet with Mr. Oldham via Zoom on

16 any other occasions during the 2021 redistricting

17 cycle for commissioner court precincts?

18 MR. RUSSO: Objection, vague.

19 A. Could you repeat that question one more

20 time, please?

21 Q. Sure. Aside from this November 1st, 2021

22 meeting, did you meet with Mr. Oldham via Zoom

23 during the 2021 redistricting cycle for

24 commissioners court precincts?

25 A. I believe it was just that one time.

1 Q. Did you meet with Mr. Oldham via any other  
2 videoconferencing platforms during the 2021  
3 redistricting cycle for commissioners court  
4 precincts?

5 A. Could you repeat that one more time,  
6 please?

7 Q. Sure. Did you meet with Mr. Oldham via  
8 any other videoconferencing platforms during the  
9 2021 redistricting cycle for commissioners court  
10 precincts?

11 A. Not that I can recall.

12 Q. Did you speak with Mr. Oldham on the phone  
13 during the 2021 redistricting cycle for  
14 commissioners court precincts?

15 A. Not that I can recall.

16 Q. Did you meet with Mr. Oldham in person  
17 during the 2021 redistricting cycle for  
18 commissioners court precincts?

19 A. No.

20 Q. Mr. Sigler, did you do anything to prepare  
21 for today's deposition?

22 A. Met with my counsel.

23 Q. And is your counsel Mr. Russo?

24 A. He's one that I know of.

25 Q. Aside from meeting with your counsel, did

1 you do anything else to prepare for today's  
2 deposition?

3 A. No.

4 Q. How many times did you meet with your  
5 counsel?

6 A. I'm not sure.

7 Q. Did you meet with your counsel more than  
8 ten times?

9 A. No.

10 Q. Did you meet with your counsel more than  
11 five times?

12 A. I'm not sure.

13 Q. Did you meet with your counsel more than  
14 three times?

15 A. I would say maybe one to five. I'm not a  
16 hundred percent -- if I had to put a number, I would  
17 say one to five.

18 Q. Okay. Let's start with your first meeting  
19 with counsel. Without revealing the substance of  
20 any conversations with your counsel, when did your  
21 first meeting with counsel take place in preparation  
22 for today's deposition?

23 A. I don't know.

24 Q. Was it more than a month ago?

25 A. No.

1 Q. Was it more than three weeks ago?

2 A. I'm not sure.

3 Q. Was it more than two weeks ago?

4 A. I would say within a month.

5 Q. Okay. Sticking with that first meeting,  
6 and again, without revealing the substance of any  
7 conversations with your counsel, where did that  
8 first meeting take place?

9 A. Specifically? Or can -- can you ask the  
10 question? I'm not sure of like where. Do you mean  
11 the address or --

12 Q. Sure. Was it in person?

13 A. Yes.

14 Q. Was it at your office?

15 A. No.

16 Q. Was it at your counsel's office?

17 A. Yes.

18 Q. And was the counsel -- who was in that  
19 meeting?

20 A. Mr. Russo.

21 Q. So the meeting took place at Mr. Russo's  
22 office?

23 A. Yes.

24 Q. Was anyone else in the meeting aside from  
25 Mr. Russo?

1 A. For the first time?

2 Q. Yes, we're sticking with the first one.

3 A. I don't recall.

4 Q. Was Jordan in the meeting?

5 A. Possibly.

6 Q. How long was the meeting?

7 A. I'm not sure of the exact time frame.

8 Q. Was it more than three hours?

9 A. I'm not sure. I would say --

10 Q. Was it more than -- I'm sorry. Go ahead.

11 A. I would say under five hours.

12 Q. Would you say under three hours?

13 A. I would say under five hours.

14 Q. Again, without revealing the substance of  
15 any conversations, did you review any documents in  
16 preparation for your deposition in that first  
17 meeting?

18 A. Not that I can recall.

19 Q. Okay. Now let's turn to the second  
20 meeting. When did that meeting take place?

21 A. I'm not sure. I can't remember the date.

22 Q. Would you say that it took place a week  
23 after the first meeting?

24 A. I'm not sure.

25 Q. Would you say -- sorry. Go ahead. Where

1 did that meeting take place, the second meeting?

2 A. The conference room of the -- of  
3 Mr. Russo's office.

4 Q. Who was in that meeting?

5 A. Mr. Russo, Jordan. And who was in the --  
6 like who was in the conference room? Is that what  
7 you're asking?

8 Q. Correct, yes.

9 A. Mr. Russo, Jordan, Shawn. And I don't --  
10 I can't remember that other gentleman's name.

11 Q. Who is Shawn?

12 A. I don't know. Attorney.

13 Q. Is Shawn an -- okay. And to be clear,  
14 when I say "in the room," I don't just mean  
15 physically in the room. It also includes people who  
16 were --

17 A. Okay.

18 Q. -- participating remotely. So I don't  
19 know. Does that clarification change your answer  
20 with respect to who was in the room during your  
21 first session?

22 A. I'm having a hard time remembering who was  
23 in the room, either physically or on the phone.

24 Q. So the -- you said there was a fourth  
25 person who was in the room during the second

1 meeting, correct?

2 A. From what I remember, it was Mr. Russo,  
3 Jordan, Shawn, and one other gentleman whose name I  
4 can't remember.

5 Q. Was that other gentleman also an attorney?

6 A. I'm not sure.

7 Q. Did you review any documents in that  
8 second meeting?

9 A. I believe so.

10 Q. Who provided those documents?

11 A. I'm not sure. They just -- or they were  
12 just pulled up.

13 Q. Who pulled them up?

14 A. I'm not sure who pulled them up.

15 Q. So when you say "pulled up," were they on  
16 a computer screen in front of you?

17 A. A TV like -- yeah, a TV basically.

18 Q. And who was controlling what was on the  
19 TV?

20 MR. RUSSO: Counsel, you're getting really  
21 close here to getting on top of attorney-client  
22 communications and work product. Suggest we move on  
23 with this.

24 MS. JAYARAMAN: Counsel, I'm not asking  
25 about the substance of anything. I'm just asking

1 who provided the documents that he reviewed during  
2 his meeting.

3 MR. RUSSO: I understand exactly what  
4 you're asking, and it's getting down to who gave who  
5 what.

6 MS. JAYARAMAN: That's not protected by a  
7 privilege, so I'm simply asking him who provided the  
8 documents.

9 MR. RUSSO: I get it. I understand. My  
10 point is, you're treading very closely on the work  
11 product privilege.

12 MS. JAYARAMAN: But I'm not in the work  
13 product privilege.

14 Q. So, Mr. Sigler, please answer my question.

15 A. I'm not sure.

16 Q. So you don't know how the documents  
17 appeared on the screen in front of you?

18 A. Correct.

19 Q. So you don't know how the documents went  
20 from one document to the next? It just changed on  
21 its own?

22 A. I'm not sure who was controlling it.

23 Q. Was it one of the attorneys in the room  
24 controlling it?

25 A. I'm not sure.

1 Q. Were you controlling it?

2 A. No.

3 MS. JAYARAMAN: Counsel, have the  
4 documents that Mr. Sigler viewed in that second  
5 meeting been produced?

6 MR. RUSSO: I'm fairly certain the answer  
7 to that is yes.

8 MS. JAYARAMAN: If you could please  
9 confirm that with cocounsel.

10 Q. Turning to the third meeting that you had  
11 in preparation for today's deposition, when did that  
12 meeting take place?

13 A. I'm not sure.

14 Q. Would you say that it took place within a  
15 week of the second meeting?

16 A. I'm not sure. I would say within the last  
17 couple weeks.

18 Q. And when you say "couple of weeks," do you  
19 mean the last two weeks?

20 A. Yes.

21 Q. Did that meeting also take place at  
22 Mr. Russo's office?

23 A. Yes.

24 Q. Who was in that meeting?

25 A. Mr. Russo.

1 Q. Was anyone else in that meeting?

2 A. Yes.

3 Q. Who else was in that meeting?

4 A. Shawn, via phone. I believe Jordan was

5 and two other gentlemen whose names I don't -- I

6 can't recall.

7 Q. And those two other gentlemen, were they

8 attorneys?

9 A. I'm not sure.

10 Q. Were those two other gentlemen associated

11 with any of the other attorneys in the room?

12 A. I'm not sure.

13 Q. How long was the third meeting?

14 A. I would say under five hours.

15 Q. And the second meeting, was that also

16 under five hours?

17 A. Yes.

18 Q. Okay. Turning back to the third meeting,

19 did you review any documents during that third

20 meeting?

21 A. Not that I can recall.

22 Q. Okay. Let's go to the fourth meeting.

23 A. I think it may have just been three. I'm

24 not entirely sure. I don't -- I can't remember a

25 fourth.

1 Q. Okay.

2 A. And I would like to change my answer for  
3 Meeting 3.

4 Q. Okay.

5 A. For Meeting 3, it would have been just  
6 Mr. Russo.

7 Q. So what meeting were you referencing when  
8 you said two other gentlemen that you couldn't name  
9 were present?

10 A. Meeting 2.

11 Q. So in Meeting 2 it was Shawn, Jordan, and  
12 then two other people -- Shawn, Jordan, Mr. Russo,  
13 and then two other people whose names you don't  
14 know, one of whom you believe was an attorney?

15 A. Shawn I know was an attorney. The other  
16 two gentlemen I do not know.

17 Q. Okay. Mr. Sigler, when did you learn that  
18 the commissioners court would be redistricting the  
19 commissioners court precincts in 2021?

20 A. When did I learn that they were doing it?

21 Q. Yes.

22 A. I -- I don't know -- I don't know when  
23 they were doing it or how long they were doing it  
24 for. Just when I received the maps.

25 Q. So when did you learn that the process was

1 taking place?

2 A. I don't think I was ever told that the  
3 process was taking place.

4 Q. So were you aware in August of 2021 that  
5 the commissioners court precincts were being  
6 redrawn?

7 A. Not that I can recall.

8 Q. Were you aware in September of 2021?

9 A. I'm not sure.

10 Q. Were you aware in October of 2021?

11 A. I'm not sure.

12 Q. Were you aware in November of 2021?

13 A. I can recall as far as the month of  
14 October and November. But somewhere in that time  
15 frame, that's when I would have been given the maps,  
16 Map 1 and Map 2, but I don't recall the specific  
17 date for those. But the process that led up to it  
18 and how long it took, I'm not sure of that process  
19 at all.

20 Q. And when you say --

21 A. Or if they were even doing --

22 Q. Oh, sorry. Go ahead.

23 A. Or if they were even -- if they were even  
24 doing it.

25 Q. Okay. And when you say you were given

1 Map 1 and Map 2, what do you mean by given Map 1 and  
2 Map 2?

3 A. I can't recall the exhibit that you  
4 provided but that showed the commissioner precincts,  
5 that is what I recall as first seeing the first map  
6 was that map. I'm not sure if it may have been that  
7 specific date or not, but that was the -- that's the  
8 first I saw of it.

9 Q. Okay. I think that was Sigler Exhibit 10.  
10 Why don't you pull that up and confirm for me that  
11 was the first -- that was what -- when you received  
12 Map 1 and Map 2.

13 A. Oh, sorry. I'm letting my lawyer do the  
14 driving right now.

15 Q. Sounds good. Sigler Exhibit 10, please.

16 A. So, yes. So the Galveston Map 2 --  
17 actually the first maps I remember seeing were, I  
18 think, of Map 1 and Map 2. This one appears just to  
19 show Map 2.

20 Q. Are you sure you're looking at Sigler  
21 Exhibit 2 -- 10?

22 A. I'm sorry, I'm sorry. I didn't scroll all  
23 the way down.

24 Q. Okay.

25 A. So, yes, these are the first maps that I

1 remember seeing regarding commissioner precinct  
2 redistricting.

3 Q. Okay. So prior to October 29, 2021, you  
4 had no idea that commissioners court redistricting  
5 was taking place?

6 A. Not that I'm aware.

7 Q. Forgive me. I don't follow. What do you  
8 mean by "not that you're aware"?

9 A. I can't recall if maybe somewhere maybe --  
10 I just can't -- I can't recall if there may have  
11 been like a day in advance somebody may have said,  
12 "We'll be getting them." I'm not sure. But as far  
13 as like an advance notice of anything, I didn't  
14 know.

15 Q. Okay.

16 A. But this is the first recollection I have  
17 of seeing the maps of the precincts.

18 MS. JAYARAMAN: Cathy, can we pull up  
19 Tab 13.

20 (Exhibit 14 marked)

21 Q. Mr. Sigler, I'm showing you what has been  
22 marked as Sigler Exhibit 14, and it is Bates stamped  
23 DEFS00020432 through DEFS00020434. And it is an  
24 email from you to Nicole Stelly dated July 2nd,  
25 2021. Would you agree?

1 A. One second. Let me see. Yes.

2 Q. Who is Nicole Stelly?

3 A. She is the building inspector for  
4 Galveston County.

5 Q. And if you take a look at the second page  
6 of Sigler Exhibit 14.

7 A. The second page, you said?

8 Q. Yes, please.

9 A. Okay. Yes, ma'am, I see it.

10 Q. What is -- what is this a map of?

11 A. I think I'm on the right page. Could you  
12 give me a reference so I know if I'm looking at the  
13 right one?

14 Q. Absolutely. It is DEFS00020433.

15 A. Sorry. We're having a -- I have a loading  
16 screen right now.

17 Q. Okay.

18 A. And did you say, just for confirmation,  
19 the last number was 0434?

20 Q. No, 0433.

21 A. 0433?

22 Q. Yes.

23 A. Okay. I have it up.

24 Q. What is this a map of?

25 A. Commissioner precincts.

1 Q. Did you draw this map?

2 A. I created this map.

3 Q. What do you mean by "created"?

4 A. Some of the layers were drawn by me.

5 Some of them were not.

6 Q. Which layers were drawn by you?

7 A. Roads would have been one that I would  
8 have been involved with, and the shoreline would  
9 have been one I was involved with. City limits is  
10 another one. But this -- it's hard because this is  
11 in black and white and I can't see the colors of  
12 what this is trying to represent. I do know those  
13 1, 2, 3, 4 are commissioner precincts.

14 Q. And why did you provide this map to  
15 Ms. Stelly?

16 A. She requested it.

17 Q. What was the context of her request?

18 A. So she could be more familiar with the  
19 commissioner precincts.

20 Q. And this is the map that was in place  
21 before the 2021 redistricting?

22 A. Again, it's hard for me to see. I don't  
23 want to answer that because it's -- I can't make  
24 out -- it's so -- the colors. I can't tell. It's  
25 hard for me to tell because it's in black and white,

1 the gray. I can't tell.

2 Q. Okay. Why don't we scroll down to the  
3 next page.

4 A. Okay.

5 Q. Does seeing that provide any additional  
6 context to you as to whether this was the map that  
7 was in place prior to the 2021 redistricting cycle?

8 A. No. This is just of the flood zones. I'm  
9 going to attempt to zoom in on the map to see if I  
10 can find anything that would give me an indication  
11 of what this map is.

12 Q. Okay.

13 A. I believe it to be the previous precincts  
14 in place before the redistricting 2021.

15 Q. Okay.

16 A. Sorry. It's -- I'm not sure what  
17 happened.

18 Q. That's okay. We can actually come back to  
19 it later. To your knowledge --

20 A. Sorry.

21 Q. So to your knowledge, between October 1st,  
22 2021, and November 12th, 2021, were there any  
23 discussions regarding the compactness of precincts  
24 in the new commissioners court map?

25 A. I don't understand the question.

1 Q. Okay. To your knowledge, between  
2 October 1st, 2021, and November 12th, 2021, were  
3 there any discussions regarding placing Galveston  
4 County and the Bolivar Peninsula in the same  
5 commissioners court precinct?

6 A. I don't know.

7 Q. Okay. To your knowledge, between  
8 October 1st, 2021, and November 12th, 2021, were  
9 there any discussions regarding equalizing  
10 population across precincts in the commissioners  
11 court map?

12 A. I'm not sure.

13 Q. What do you mean by "I'm not sure"?

14 A. I don't know.

15 Q. To your knowledge, between October 1st,  
16 2021, and November 12th, 2021, were there any  
17 discussions regarding the Voting Rights Act?

18 A. Not that I'm aware of.

19 Q. Does the November 12th, 2021,  
20 commissioners court map split any voting precincts?

21 MR. RUSSO: Objection. Calls for  
22 speculation.

23 A. Which map are you regarding to?

24 Q. The adopted map, the November 12th, 2021,  
25 commissioners court map.

1 A. Oh, okay. Map 2?

2 Q. Does it split anything? Yeah, the one  
3 that was adopted by the commissioners court, yes.

4 A. Okay. Yes, there were some splits.

5 Q. And were those splits of the voting  
6 precincts that existed prior to the 2021  
7 redistricting cycle?

8 A. Yes.

9 Q. Does the November 12th, 2021,  
10 commissioners court map split any voting  
11 precincts -- let me start over.

12 Now turning to the voting precincts that  
13 were adopted during the 2021 redistricting cycle,  
14 does the November 12th, 2021, commissioners court  
15 map split any of those voting precincts?

16 A. Just for confirmation, what was adopted of  
17 voting precincts in 2021, correct?

18 Q. I'm sorry. I didn't catch that.

19 A. Just for confirmation, you're saying does  
20 the adopted '21 commissioner precincts split any of  
21 the 2021 adopted voting precincts? I just want to  
22 make sure I understand your question correctly.

23 Q. Sure. I can start over.

24 So we had discussed earlier that voting  
25 precincts were redrawn in 2021, correct?

1 A. Correct.

2 Q. And the commissioners court map, the new  
3 one was adopted on November 12th, 2021, correct?

4 A. I'm not sure of the date.

5 MS. JAYARAMAN: Okay. Cathy, can you pull  
6 up Tab 35, please.

7 (Exhibit 15 marked)

8 Q. Mr. Sigler, Sigler Exhibit 15 should be  
9 available to you. And do you see at the top it  
10 says, "Be it remembered that on November 12, 2021,  
11 Commissioners Court of Galveston County, Texas, met  
12 at a special meeting"? Do you see that?

13 A. I do.

14 Q. Okay. And then if you scroll down to the  
15 very last page of Sigler Exhibit 15, please.

16 A. Okay.

17 Q. Towards the bottom do you see where it  
18 says, "Motion to approve by County Judge Henry,  
19 seconded by Commissioner Apffel, Order for Map 2,  
20 passed 3 to 1"?

21 A. Yes, I do.

22 Q. So would you agree that the commissioners  
23 court adopted Map 2 on November 12th, 2021?

24 A. Yes.

25 Q. Okay. So did the map that the

1 commissioners adopted on November 12th, 2021, split  
2 any of the voting precincts that were adopted for  
3 the 2021 redistricting cycle?

4 A. No.

5 MS. JAYARAMAN: Okay. I think we can take  
6 a ten-minute break. So it's -- why don't we come  
7 back at -- let's come back at 4:00. Sorry. We can  
8 go off the record.

9 (Recess from 3:43 to 4:02)

10 BY MS. JAYARAMAN:

11 Q. Mr. Sigler, do you have a personal email  
12 account that is separate from your work email  
13 account?

14 A. I'm sorry. Ask that question again?

15 Q. Sure. Do you have a personal email  
16 account that is separate from your work email  
17 account?

18 A. Yes.

19 Q. Do you have more than one personal email  
20 account that is separate from your work email  
21 account?

22 A. Not sure. I may have created one years  
23 ago.

24 Q. Turning to the personal email account that  
25 you currently use, do you ever use that email

1 account for your work for Galveston County?

2 A. Sometimes.

3 Q. What is the email address of that email  
4 account?

5 A. 31fordsig@gmail.com.

6 Q. During the time you've been employed by  
7 Galveston County, have you used any other personal  
8 email accounts in connection with your employment  
9 with Galveston County?

10 A. Not that I can recall.

11 Q. Do you have a work cell phone that is  
12 separate from your personal cell phone?

13 A. No.

14 Q. Do you ever exchange text messages in  
15 connection with your position in Galveston County?

16 A. Could you repeat that one more time,  
17 please?

18 Q. Sure. Do you ever exchange text messages  
19 in connection with your position in Galveston  
20 County?

21 A. Yes. If I'm going to be late, I'll -- I  
22 may text my boss, if that's what you're referring  
23 to.

24 Q. Do you ever exchange text messages with  
25 members of the commissioners court?

1 A. Not that I can recall.

2 Q. Do you ever exchange text messages with  
3 staff of commissioners court members?

4 A. Not that I can recall.

5 Q. Aside from the example that you gave of  
6 texting your boss that you might be running late,  
7 are there any other examples of texts that you  
8 exchange with members of Galveston County?

9 A. With other employees of my office there  
10 would -- there would be text messages, who's going  
11 to bring what for the Christmas party, things along  
12 that line.

13 Q. Aside from text messages concerning  
14 logistics, can you think of examples of any  
15 substantive text messages that you've exchanged with  
16 other Galveston County employees?

17 A. No.

18 Q. Do you ever communicate with other  
19 Galveston County employees using WhatsApp?

20 A. I don't know what that is.

21 Q. Do you ever communicate with other  
22 Galveston County employees using Facebook Messenger?

23 A. No.

24 Q. Do you ever communicate with members of  
25 the commissioners court using Facebook Messenger?

1 A. No.

2 Q. Do you ever communicate with other  
3 Galveston County employees using Signal?

4 A. I don't know what that is.

5 Q. Do you ever communicate with other  
6 Galveston County employees using Slack?

7 A. I don't know what that is.

8 Q. Aside from phone, video, in person,  
9 emails, and text messages, are there any other ways  
10 in which you communicate with other Galveston County  
11 employees?

12 A. Could you repeat the -- could you repeat  
13 the communications part?

14 Q. Absolutely. Sure. So aside from phone  
15 calls, video calls, in-person meetings, emails, and  
16 text messages, are there any other ways in which you  
17 communicate with Galveston County employees?

18 A. No.

19 Q. Aside from phone calls, video calls,  
20 in-person meetings, emails, and text messages, are  
21 there any other ways in which you communicate with  
22 commissioners court members?

23 A. No.

24 Q. How often do you use your personal email  
25 account in connection with your position in

1 Galveston County?

2 A. Rarely.

3 Q. More than once a year?

4 A. Yes.

5 Q. More than once every six months?

6 A. I'm not sure.

7 Q. Do you delete emails in your personal  
8 email account?

9 A. Sometimes.

10 Q. How frequently do you delete emails in  
11 your personal email account?

12 A. Maybe once a year.

13 Q. Do you do it at a set time every year?

14 A. No.

15 Q. When did you first learn about this  
16 lawsuit?

17 A. I'm not sure of the date.

18 Q. Was it more than two months ago?

19 A. I don't think so.

20 Q. So you learned about this lawsuit within  
21 the last two months?

22 A. I would say maybe within the last month,  
23 but I'm not a hundred percent sure.

24 Q. Were you aware of this lawsuit in August?

25 A. No.

1 Q. Did you personally take any actions to  
2 search for documents to be produced in this  
3 litigation?

4 A. No.

5 MS. JAYARAMAN: Cathy, if you could pull  
6 up Tab 25, please.

7 (Exhibit 16 marked)

8 Q. Mr. Sigler, I'm showing you what has been  
9 marked as Sigler Exhibit 16. Do you have that in  
10 front of you?

11 A. I do.

12 Q. Okay. And it is Bates stamped  
13 DEFS00004332 -- or, sorry, 4331, my apologies,  
14 through DEFS00004332. And it is an email from you  
15 to Diana Martinez on November 9th, 2021, correct?

16 A. Yes.

17 Q. Who is Diana Martinez?

18 A. She is one of the assistants of the  
19 judge's office.

20 Q. And when you say "the judge's office," are  
21 you referring to Judge Henry's office?

22 A. Yes, ma'am.

23 Q. And there's an attachment to this email,  
24 Sigler Exhibit 16, and it's called "Map 1  
25 Commissioners Precinct 24x36," correct?

1 A. Yes.

2 Q. What does the "24x36" mean?

3 A. Page size.

4 Q. So the size of the map?

5 A. Correct.

6 Q. Okay. Let's take a look at the second

7 page of Sigler Exhibit 16.

8 A. Of the map, correct?

9 Q. Yes.

10 A. Okay.

11 Q. What is this a map of?

12 A. Map 1 proposed from the company that the

13 commissioners court would have hired.

14 Q. So who drew this map?

15 MR. RUSSO: Objection. Asked and

16 answered.

17 A. I'm not sure who would have drawn it.

18 Q. Would the company that the county have

19 hired have drawn the map?

20 A. They would have provided the layer.

21 Q. What do you mean by that?

22 A. So as far as the roads and everything

23 you're seeing on there, that's a base map layer

24 that's already a part of the program. That's

25 something we already have. The only thing that

1 would have been added would have been the precinct  
2 lines that you are seeing.

3 Q. So the company that the county hired drew  
4 and provided the commissioner court precinct line  
5 layer?

6 A. Yes.

7 Q. Why did you send this map to Ms. Martinez  
8 on November 9th, 2021?

9 A. I'm not sure.

10 Q. Do you regularly send maps to  
11 Ms. Martinez?

12 A. Yes.

13 Q. Why do you send maps to Ms. Martinez?

14 A. She's the assistant for the judge's  
15 office, so she would have been one of the employees  
16 that would have probably been cc'd on the email as  
17 far as receiving maps.

18 Q. You said she probably would have been one  
19 of the employees cc'd on the email as far as  
20 receiving the maps. What email are you referring  
21 to?

22 A. I can't recall what specific we were  
23 speaking of earlier, but I mentioned that I had sent  
24 something to the judge's office but I couldn't  
25 recall. After upon seeing the name that you

1 provided in the email, I realized that she was one  
2 of the assistants.

3 Q. So why were you providing maps to the  
4 judge's office?

5 A. For -- to notify that it was available to  
6 the public and also for commissioner court, for  
7 commissioners court.

8 Q. So you were -- you sent maps to the  
9 judge's office to inform the judge that maps were  
10 available to the public?

11 A. Yes.

12 Q. And the other reason you sent maps to the  
13 judge's office, you said, was for commissioners  
14 court. I don't follow what that means.

15 A. I'm not sure of the process, but they  
16 would maybe include the map and -- for commissioner  
17 court, whatever that process is. I don't know what  
18 it is.

19 MS. JAYARAMAN: Okay. Cathy, can we pull  
20 up Tab 23, please.

21 (Exhibit 17 marked)

22 Q. Mr. Sigler, I believe that Sigler  
23 Exhibit 17 should be available to you. And it is  
24 Bates stamped DEFS00004333 through DEFS00004334, and  
25 it is another email from you to Ms. Martinez on

1 November 9th, 2021. Would you agree?

2 A. Yes.

3 Q. And then the attachment to Sigler  
4 Exhibit 17 is called "Map 2 Commissioners Precinct  
5 24x36," correct?

6 A. Let me see. I'm trying to -- yes.

7 Q. And does the "24x36" in this file name  
8 also refer to the size of the map?

9 A. That is correct.

10 Q. All right. Let's scroll down to the  
11 second page of Sigler Exhibit 17, the map.

12 A. Sorry. I have an error message.

13 Q. Are you still seeing the error message,  
14 Mr. Sigler?

15 A. I see the map now. Thank you.

16 Q. Okay. Did the company that the county  
17 retained also draw the commissioners court layers on  
18 this map?

19 A. That is correct.

20 Q. And why did you send this map to  
21 Ms. Martinez on November 9th, 2021?

22 A. I'm not sure.

23 Q. What do you mean by "I'm not sure"?

24 A. I'm not sure if she would have requested  
25 it. I'm not sure the context behind the email, who

1 would have prompted what as far as a request or --

2 Q. Do you know what Ms. Martinez did with the  
3 map when you sent it to her?

4 A. I know that it was used to put on the web  
5 page. Other than that, I'm not a hundred percent  
6 sure.

7 Q. So was Ms. Martinez involved in making the  
8 maps available to the public?

9 A. I'm not sure exactly what her role was.

10 MS. JAYARAMAN: All right. Cathy, if we  
11 could look at Tab 32, please.

12 (Exhibit 18 marked)

13 Q. Mr. Sigler, Sigler Exhibit 18 should be  
14 available to you. And Sigler Exhibit 18 is Bates  
15 stamped DEFS00011749 through DEFS00011753. And it  
16 is an email dated December 10th, 2021, from yourself  
17 to Holly Fortenberry cc'ing Zach Davidson. Do you  
18 see that?

19 A. I do.

20 Q. Who is Holly Fortenberry?

21 A. I'm not sure her title.

22 Q. What do you know about her?

23 A. I believe she's in IT.

24 Q. Who is Zach Davidson?

25 A. I'm not sure his title either.

1 Q. What do you know about Mr. Davidson?

2 A. I believe he was part of -- dealt with  
3 things -- the things involving the public, notifying  
4 the public.

5 Q. Was he a member of any of the  
6 commissioners' staff?

7 A. At what time?

8 Q. At the time that you sent this email on  
9 December 10th of 2021.

10 A. No.

11 Q. Was he a Galveston County employee when  
12 you sent this email on December 10th, 2021?

13 A. Yes.

14 Q. Was he an employee of the Engineering and  
15 Right of Way department?

16 A. No.

17 Q. Was he a member of Judge Henry's staff?

18 A. I'm not sure.

19 Q. How do you know that he was a Galveston  
20 County employee?

21 A. I've dealt with him over the course of a  
22 few years. I know who he is personally. I've seen  
23 him personally. I just don't know his job title.

24 Q. Why did you send this email to  
25 Ms. Fortenberry?

1           A.    To change out the thumbnails below on the  
2 second page, I believe it is.

3           Q.    Why did you copy Mr. Davidson on this  
4 email?

5           A.    Because at the time I think he was dealing  
6 with the public, notifying the public or the media  
7 person. I'm not sure what exactly his title was at  
8 that time or even now.

9           Q.    Okay. Let's look at the body of the  
10 email. You write, "We need to adjust just a few  
11 things in our map room." Do you see that?

12          A.    I do.

13          Q.    And what is the map room that you were  
14 referring to?

15          A.    The same map room that you brought up in  
16 an earlier exhibit that showed the different maps,  
17 commissioner precinct, voting precinct, that exhibit  
18 that you showed earlier. That would be the same map  
19 room.

20          Q.    Got it. And for the record, I believe  
21 that that is Sigler Exhibit 3.

22          A.    Oh, okay.

23          Q.    And below that you write, "Please add the  
24 proposed voting precincts map between the  
25 Commissioner and JP map." Let me start over.

1 "Please add the proposed voting precinct  
2 map between the Commissioner and JP maps. Use  
3 attached for the thumbnail. This is a request made  
4 by Commissioner Clark." Do you see that?

5 A. I do.

6 Q. What did you mean by "for the thumbnail"?

7 A. Let's see here.

8 Q. Should we go back to Sigler Exhibit 3?

9 Would that help?

10 A. No. Actually, if -- I'm trying to see  
11 what page this is. Excuse me. Page 3, I believe it  
12 is.

13 Q. Okay.

14 A. I believe you see commissioner precincts  
15 and then proposed voting map.

16 Q. Yes.

17 A. Yes. So that -- that was where it was to  
18 be located.

19 Q. Okay. And then in your email, you  
20 italicize, "This is a request being made by  
21 Commissioner Clark," right?

22 A. Yes.

23 Q. Why did you italicize that sentence?

24 A. I'm not sure. I'm not sure.

25 Q. Do you normally use italics for emphasis?

1 A. Sometimes.

2 Q. What are other circumstances under which  
3 you use italics?

4 A. It may be related to maybe like a  
5 department head or other individuals. I'm not sure.  
6 I don't have like a rhyme or reason, I guess you  
7 would say. Sometimes I'll use italics, sometimes  
8 I'll use this.

9 Q. So when you say "related to a department  
10 head or other individuals," so do you use italics to  
11 indicate the position of the person that you're  
12 speaking of?

13 A. Or just who is requesting it.

14 Q. Okay. I'd like to now direct your  
15 attention to the paragraph below the numbered list.  
16 You write, "Adding the voting precincts map is the  
17 top priority. The special meeting is being held  
18 this Tuesday." Do you see that?

19 A. I do.

20 Q. And what do you mean by "top priority"?

21 A. That there needs to be -- usually  
22 there's -- there may be -- if they have a process,  
23 just to let them know that we need to get it done as  
24 fast as possible, I guess, just to -- for that, to  
25 get it done as soon as possible.

1 Q. And what was the special meeting that you  
2 were referring to in this email?

3 A. I'm not sure.

4 Q. Was it a special meeting of the  
5 commissioners court?

6 A. I'm not sure.

7 Q. Was it a meeting that was open to the  
8 public?

9 A. I'm not sure.

10 Q. And was the proposed voting precincts map  
11 made available to the public?

12 A. Yes.

13 Q. Okay. Let's quickly turn back to Sigler  
14 Exhibit 3.

15 A. Okay. I have it pulled up.

16 Q. So at the top it says "Commissioner  
17 Precincts" and then there's an image to the left of  
18 that. Do you see that?

19 A. I do.

20 Q. And would that image be considered a  
21 thumbnail?

22 A. Yes.

23 MS. JAYARAMAN: Okay. Cathy, can we pull  
24 up Tab 10, please.

25 (Exhibit 19 marked)

1 Q. Mr. Sigler, you should have in front of  
2 you what's been marked as Sigler Exhibit 19, which  
3 is Bates stamped DEFS00019401 through DEFS00019406.  
4 And it is an email from yourself to Mike Fitzgerald  
5 dated August 10th, 2011. Would you agree?

6 MR. RUSSO: Counsel, hang on a second.  
7 Just had another shutdown issue.

8 MS. JAYARAMAN: Can we please go off the  
9 record?

10 (Recess from 4:31 to 4:42)

11 BY MS. JAYARAMAN:

12 Q. Okay, Mr. Sigler, so if we could take a  
13 look at Sigler Exhibit 19, please.

14 A. I have it in front of me.

15 Q. Okay. And it is an August 10th, 2011,  
16 email from yourself to Mr. Fitzgerald, correct?

17 A. Correct.

18 Q. And if you scroll down -- or sorry.  
19 Directly below your email to Mr. Fitzgerald is an  
20 email also dated August 10th, 2011, from yourself to  
21 HEAT, correct?

22 A. Correct.

23 Q. What is HEAT?

24 A. It was the ticketing system in place for  
25 IT at the time.

1 Q. And does HEAT no longer exist?

2 A. To my knowledge, it does not.

3 Q. Did HEAT exist during the 2021  
4 redistricting cycle of the commissioners court  
5 precincts?

6 A. I'm not sure.

7 Q. Did you contact HEAT during the 2021  
8 redistricting cycle of the commissioners court  
9 precincts?

10 A. Not that I can recall.

11 Q. In your email to HEAT, you write, "Please  
12 remove the current proposal maps from the Galveston  
13 County website and replace them with these updated  
14 proposal maps." Do you see that?

15 A. I do.

16 Q. What did you mean by "Galveston County  
17 website"?

18 A. The portal map from Exhibit 3.

19 Q. So were you involved in making  
20 commissioners court maps available to the public  
21 during the 2011 commissioners court redistricting  
22 cycle?

23 A. Yes.

24 Q. What did you do?

25 A. I would receive the map or a shapefile.

1 If there -- I wasn't supplied a PDF, I would create  
2 a PDF and a shape- -- push that shapefile online to  
3 be viewed interactively for the public to see.

4 Q. Were the layers in the shapefiles made  
5 available to the public during the 2011  
6 commissioners court redistricting cycle the same as  
7 the layers in the shapefiles made available to the  
8 public during the 2021 commissioners court  
9 redistricting cycle?

10 A. Yes.

11 Q. Was there any information made available  
12 to the public during the 2011 redistricting cycle  
13 that was not made available to the public during the  
14 2021 redistricting cycle for the commissioners court  
15 precincts?

16 A. I'm not sure.

17 MS. JAYARAMAN: Cathy, could we pull up  
18 Tab 17, please.

19 (Exhibit 20 marked)

20 Q. Mr. Sigler, I'm showing you what has been  
21 marked as Sigler Exhibit 20. Do you have it up in  
22 front of you?

23 A. I do.

24 Q. Okay. It is a -- it is a letter, excuse  
25 me, dated October 14th, 2011, from James E. Trainor

1 to the chief of the voting section. Do you agree?

2 A. Yes.

3 Q. And I'd like to direct your attention to  
4 the second and third full paragraphs of Sigler  
5 Exhibit 20 which read, "Galveston County seeks  
6 preclearance of its August 30th, 2011, Order  
7 adopting changes to the boundaries of its  
8 commissioner precincts. The changes to the  
9 commissioner precincts were a result of population  
10 changes identified in the 2010 Census."

11 Do you see that?

12 A. I do.

13 Q. So would you agree that following the  
14 release of 2010 census data, the commissioners court  
15 adopted a new commissioners court map on  
16 August 30th, 2011?

17 MR. RUSSO: Objection. Calls for  
18 speculation.

19 A. I'm not sure.

20 Q. Why don't you take another look at the  
21 second and third full paragraphs of Sigler  
22 Exhibit 20.

23 A. Okay.

24 Q. Would you agree that on August 30th, 2011,  
25 the commissioners court passed an order adopting

1 changes to the boundaries of its commissioner  
2 precincts?

3 MR. RUSSO: Objection. Calls for  
4 speculation.

5 A. I'm not sure.

6 Q. What do you understand the phrase  
7 "August 30th, 2011, Order adopting changes to the  
8 boundaries of its commissioner precincts" to mean?

9 A. I don't know. I've never seen this  
10 before.

11 Q. Were you aware that the commissioners  
12 court redrew the precinct lines following the  
13 release of the 2010 census data?

14 A. No.

15 Q. Were you aware that there was any  
16 redistricting that took place following the release  
17 of the 2010 census data?

18 A. No.

19 Q. So you were not aware that in 2011 the  
20 commissioners court redrew the commissioners court  
21 precinct lines?

22 A. No.

23 Q. When was the last time the commissioners  
24 court redrew its precinct lines?

25 A. Prior to 2021?

1 Q. Yes.

2 A. I'm not sure.

3 Q. To your knowledge, did the commissioners  
4 court redraw its precinct lines in 2012?

5 A. I'm not sure.

6 Q. To your knowledge, did the commissioners  
7 court redraw its precinct lines in 2013?

8 A. I'm not sure.

9 MS. JAYARAMAN: Okay. Cathy, let's look  
10 at Tab 18.

11 (Exhibit 21 marked)

12 Q. And while we're pulling that up, I just  
13 want to be clear. To your knowledge, the  
14 commissioners court did not redraw precinct lines in  
15 2021 (sic)?

16 A. Repeat that question, please?

17 Q. Sure. So to your knowledge, the  
18 commissioners court did not redraw commissioners  
19 court precinct lines in 2011?

20 A. I'm not sure.

21 MR. RUSSO: Objection. Asked and  
22 answered.

23 Q. So your answer was "I'm not sure"?

24 A. Correct.

25 MR. RUSSO: Objection. Asked and

1 answered.

2 Q. Okay. Let's take a look at Sigler  
3 Exhibit 21. And it is a March 22nd, 2012, letter  
4 again from Mr. Trainor to the chief of the voting  
5 section. Would you agree?

6 A. Yes.

7 Q. And I'd like to direct your attention to  
8 the first sentence of the second paragraph which  
9 reads, "Galveston County seeks preclearance of its  
10 March 22nd, 2012, Order, a copy of which is  
11 enclosed, adopting changes to the boundaries of its  
12 commissioner court districts." Do you see that?

13 A. I do.

14 Q. So would you agree that the commissioners  
15 court adopted a map for the commissioners court  
16 precincts on March 22nd of 2012?

17 MR. RUSSO: Objection, speculation.

18 A. I'm not sure.

19 MS. JAYARAMAN: Okay. I think I'd like to  
20 take a ten-minute break, please. We can go off the  
21 record.

22 (Recess from 4:53 to 5:06)

23 MS. JAYARAMAN: I'm now going to pass the  
24 witness on to my colleague, Mr. Gonzalez.

25 MR. GONZALEZ: Thank you.

1 EXAMINATION

2 BY MR. GONZALEZ:

3 Q. Hello, Mr. Sigler. My name is Joaquin  
4 Gonzalez. I'm an attorney representing the NAACP  
5 plaintiffs. How are you doing so far?

6 A. Good. Thank you.

7 Q. I'm going to go ahead and continue where  
8 we left off in 2011, and I'm going to introduce an  
9 exhibit. Hopefully this will work right.

10 (Exhibit 22 marked)

11 Q. All right. Do you have Exhibit 22 in your  
12 folder now?

13 A. Hang on one sec.

14 Q. Sure.

15 A. I see the document.

16 Q. Okay. Do you have it pulled up?

17 A. I do.

18 Q. And is this an email from you to Mike  
19 Fitzgerald from August 11th -- or August 5th, 2011?

20 A. It is.

21 Q. And there it says, "Here's the map you  
22 requested." Is that correct?

23 A. Correct.

24 Q. And there's three attachments to it,  
25 correct?

1 A. Yes.

2 Q. All right. If you could just take a quick  
3 look at the attachments. And do these appear to be  
4 proposals for commissioner court precincts?

5 A. I'm still searching all the documents.  
6 I'm sorry. And could you repeat your question now?

7 Q. Do these appear to be proposals for  
8 commissioner court precinct maps?

9 A. Yes.

10 Q. And where did you get these proposals  
11 from?

12 A. I'm not sure.

13 Q. Would you have received these proposals  
14 from the consultants who were hired to redraw  
15 commissioner court precincts in 2011?

16 A. Possibly.

17 Q. Would anybody else in 2011 have sent you  
18 commissioner court precinct maps?

19 A. I'm not sure.

20 Q. Do you ever receive commissioner court  
21 precinct maps from other parties?

22 A. Maybe from -- a county employee may send  
23 me one. Could be a firm. I don't know.

24 Q. Did you play any role in drawing the lines  
25 for these maps?

1 A. I'm not sure.

2 Q. And when you say you're not sure, do you  
3 not recall at all or you sort of recall but you're  
4 not a hundred percent?

5 A. I don't recall at all.

6 Q. In 2011 did you provide any population or  
7 demographic data to the redistricting consultants  
8 that the county hired?

9 A. Not that I'm aware of.

10 Q. Did you provide any political data,  
11 election results or voter data?

12 A. No.

13 Q. Did you perform any analysis of the maps  
14 that were provided?

15 A. No.

16 Q. And what was your understanding of the  
17 impact of these maps?

18 A. None. I didn't -- I don't know.

19 Q. When you received maps, would you have  
20 reviewed them to look at what changes were being  
21 made?

22 A. No.

23 Q. All right. Let me pull up another  
24 exhibit.

25 (Exhibit 23 marked)

1 Q. All right. Is Exhibit 23 in there?

2 A. Yeah. Hang on a sec. Okay.

3 Q. And so this is an email from Mike

4 Fitzgerald to -- among other people, it includes

5 County Judge Henry, Commissioner Holmes,

6 Commissioner Clark, and looks like maybe some staff

7 members, I think Commissioner O'Brien at the time.

8 Is that correct?

9 A. Yes, I recognize some of the names.

10 Q. And he is forwarding the maps that you

11 sent earlier. Is that correct?

12 A. Yes.

13 Q. All right. I'm going to introduce another

14 exhibit.

15 (Exhibit 24 marked)

16 Q. You have Exhibit -- I think the numbering

17 got off somehow.

18 MR. GONZALEZ: Is it showing up in

19 anybody's Marked Exhibit folder?

20 ZOOM TECH: This is Clint, the tech. I

21 have it up to Exhibit 23 right now in the Marked

22 Exhibit folder.

23 MR. GONZALEZ: Okay. Let me try again.

24 All right. I think it's in there now.

25 ZOOM TECH: Yes, Exhibit 24 is in there

1 now.

2 Q. Okay. And this is an email from you also  
3 to Mike Fitzgerald dated August 5th, 2011. Is that  
4 correct?

5 A. Yes, it is.

6 Q. And you're sending a third proposal. Is  
7 that correct?

8 A. Yes.

9 Q. Have to pull this up separately. And  
10 that's Proposal 3, right?

11 A. Correct.

12 (Exhibit 25 marked)

13 Q. All right. The next exhibit, 26 (sic),  
14 and this is an email from Mike forwarding that  
15 Proposal 3 to Commissioner Holmes. Is that correct?

16 MR. RUSSO: Did we lose y'all again?

17 MR. GONZALEZ: Can you hear me?

18 MR. RUSSO: Yeah, I can hear you.

19 MR. GONZALEZ: Okay. I was saying this is  
20 an -- do you have Exhibit 25 up?

21 MR. RUSSO: Yes.

22 Q. All right. And this is an email  
23 forwarding your email of Proposal 3 from Mike to  
24 Stephen Holmes. Is that correct?

25 A. I don't see from Mike to -- from me to

1 Mike. Oh, at the top. Yes.

2 (Exhibit 26 marked)

3 Q. All right. And then Exhibit 26. And if  
4 you'll look, I guess, at the body of the email, this  
5 shows Commissioner Holmes sending Proposal 3 to the  
6 other county commissioners. Is that correct?

7 A. Yes.

8 Q. And do you know who drew Commissioner  
9 Proposal 3?

10 A. I do not.

11 Q. And do you know why earlier when we were  
12 looking at it, do you recall Mike Fitzgerald sent  
13 Commissioner Proposals 1 and 2 directly to the  
14 county commissioners but Commissioner Holmes sent  
15 this proposal? Do you know why Proposal 3 was not  
16 sent directly to the other commissioners?

17 A. I do not.

18 Q. Did you attend any of the public hearings  
19 on redistricting maps in 2011?

20 A. I did not.

21 Q. Do you recall if the commissioners court  
22 adopted any criteria for redistricting in 2011?

23 A. I'm not sure.

24 Q. All right. I'm going to now pull up  
25 Exhibit 27.

1 (Exhibit 27 marked)

2 Q. You got it? Are y'all there?

3 A. We're here. I see it now.

4 Q. Okay. And this is an email dated  
5 August 24th, 2011, from you to Mike Fitzgerald, and  
6 the subject is "Voting precinct splits." Is that  
7 right?

8 A. Yes.

9 Q. And then it has several attachments. It  
10 has Voting Precinct Splits Proposal 3, Voting  
11 Precinct Splits Proposal 1, and Voting Precinct  
12 Splits Proposal 2. Is that correct? Among a couple  
13 others.

14 A. Yes, among some others in there.

15 Q. All right. And sorry I'm going to have to  
16 do this. It's different exhibits for each of them,  
17 but I couldn't combine them into one.

18 (Exhibit 28 marked)

19 Q. All right. Exhibit 28.

20 A. Okay.

21 Q. And so this is the Commissioners Proposal  
22 3, and it's dated August 24th, 2011. I'll represent  
23 to you that this was the attachment to that email.  
24 It indicates that there's one voting precinct split  
25 in Commissioner Proposal 3. Is that correct?

1 A. Correct.

2 Q. All right. Going to pull up 29 now. Just  
3 a second.

4 (Exhibit 29 marked)

5 Q. All right. Should be there. And so this  
6 is Commissioners Proposal 1. Is that correct?

7 A. Correct.

8 Q. And it indicates that there are one, two,  
9 three, four, five, six precinct splits in  
10 Commissioners Proposal 1? Is that correct?

11 A. Correct.

12 Q. All right. One more.

13 (Exhibit 30 marked)

14 Q. All right. Exhibit 30 should be there.  
15 And this is Commissioners Proposal 2. Is that  
16 correct?

17 A. Correct.

18 Q. And there are one, two, three, four, five  
19 precinct splits in this proposal? Is that right?

20 A. Yes.

21 Q. And so of those three proposals,  
22 Commissioners Proposal 3 had the fewest precinct  
23 splits. Is that correct?

24 A. I would need to go back to the exhibit.

25 Q. All right. I can pull it back up, or if

1 you want to pull it back up, 28.

2 A. Yes. I see it now.

3 Q. And it just had the one split. Okay.

4 Now, after the commissioners court adopted  
5 new precincts in 2011, do you recall that the  
6 Department of Justice did not accept those  
7 precincts?

8 MR. RUSSO: Objection, speculative.

9 A. I'm not aware.

10 MR. RUSSO: Go ahead. You can answer.

11 A. I'm not aware.

12 MR. GONZALEZ: Let me pull up --

13 (Exhibit 31 marked)

14 Q. All right. Let's look at Exhibit 31. And  
15 so this is -- if you want to take a look at it a  
16 little bit, it's Mike Fitzgerald, March 15th, 2012.  
17 Is that correct?

18 A. Yes.

19 Q. And he is forwarding a -- an email from  
20 you to him, also March 15th, 2012. Is that correct?

21 A. Yes.

22 Q. And if you go down to the third page with  
23 the map on it. And you may have to zoom in quite a  
24 bit, but if you can see in the bottom left-hand  
25 corner of the map, there's some text. Can you see

1 that?

2 A. The bottom left? Yes, I do see it.

3 Q. And it says "Settlement Offer." Do you  
4 see that?

5 A. I do.

6 Q. So after looking at this, do you recall  
7 now that there was negotiations with the Department  
8 of Justice after the 2011 map was passed in 2012?

9 A. I'm not aware.

10 Q. Would you have -- but here you are  
11 forwarding a map, right, that had to do with  
12 settlement discussions? Is that correct?

13 A. Yes.

14 Q. Did you meet with the attorneys or  
15 consultants that the county hired in 2012 to work on  
16 maps again?

17 A. I did not.

18 Q. How would you have been provided these  
19 maps?

20 A. Email correspondence.

21 Q. With -- from whom?

22 A. I'm not sure what the firm at the time's  
23 name is. I don't recall the name.

24 Q. But it would have been from the firm that  
25 the county hired?

1 MR. RUSSO: Objection, speculation.

2 A. I'm not sure.

3 MR. GONZALEZ: And I'm going to ask you,  
4 Mr. Russo, to limit the objection speculations to  
5 just "Objection" because it's suggestive to him that  
6 he doesn't know the answer.

7 MR. RUSSO: I'm just preserving the  
8 record.

9 MR. GONZALEZ: Well, if you could preserve  
10 it with "Objection, form" perhaps.

11 MR. RUSSO: I'm preserving the record.

12 Q. And if you go back to the body of that  
13 email and you -- the top from Mike Fitzgerald.

14 A. Okay.

15 Q. And he says, "We prepared from the -- this  
16 from the non-detail maps which were provided and had  
17 to make a few judgment calls as to where the lines  
18 were intended to be. We used the census tract maps  
19 to clarify most questions. I believe it's pretty  
20 accurate with a few exceptions where the census  
21 tracts weren't followed or the intent wasn't clear."  
22 Is that correct?

23 A. I'm reading. I'm not ignoring you.

24 Q. Sure.

25 A. Okay. I've read it.

1 Q. And so it sounds from that like you and  
2 Mike Sig- -- sorry, Mike Fitzgerald had to tweak the  
3 maps a little bit from what you received because it  
4 wasn't entirely clear. Is that correct?

5 A. I'm not sure.

6 Q. Have you ever had to tweak redistricting  
7 maps that were sent to you in order to adjust the  
8 lines a little bit?

9 A. I can't recall.

10 Q. Did you ever look at any population or  
11 demographic data for the 2012 maps?

12 A. Not that I can recall.

13 Q. Any electoral data?

14 A. Not that I can recall.

15 Q. All right. Do you recall earlier you were  
16 discussing redrawing the precinct lines and you  
17 mentioned meeting with Commissioner Clark?

18 A. Regarding which redistricting?

19 Q. Sorry. Jumping back to 2021 now.

20 A. Okay.

21 Q. You recall that?

22 A. Yes.

23 Q. And so when you worked with Commissioner  
24 Clark on redrawing precincts, did you-all meet in  
25 person to look at maps?

1 A. Yes, and through Zoom.

2 Q. Okay. And were you-all looking at any  
3 demographic data while you were redrawing the  
4 precincts?

5 A. Not that I can recall.

6 Q. Were you-all looking at any voter data  
7 when you were redrawing the precincts?

8 A. I believe registered voters may have been  
9 something we were looking at.

10 Q. Any election result data?

11 A. I'm sorry. Can you rephrase that or can  
12 you ask it --

13 Q. Sure. Did you and Commissioner Clark look  
14 at any election results data when you were drawing  
15 the precinct boundaries?

16 A. No.

17 Q. And did Commissioner Clark tell you his  
18 rationale for redrawing the precinct boundaries?

19 A. And just for clarification, are we  
20 speaking about commissioner precinct or voting  
21 precinct boundaries?

22 Q. Voting precinct right now.

23 A. Okay. And then can you repeat your  
24 question, please?

25 Q. Did Commissioner Clark discuss his

1 rationale for redrawing the precinct -- the election  
2 precinct boundary lines?

3 A. No.

4 Q. Did you meet with any of the other county  
5 commissioners to discuss redrawing voting precinct  
6 lines?

7 A. No.

8 Q. And how did it come about that  
9 Commissioner Clark was the point person for the  
10 redrawing of voting precincts?

11 A. I do not know.

12 Q. Did he approach you?

13 A. I don't understand the question.

14 Q. Did he first approach you about redrawing  
15 the --

16 A. I can't hear you.

17 MR. RUSSO: Hang on one sec.

18 MR. GONZALEZ: Can y'all hear?

19 MR. RUSSO: Yeah, you're back on.

20 Q. Okay. Did Commissioner Clark first  
21 approach you about drawing election precinct  
22 boundaries, or did you first approach him?

23 A. I can't recall who approached me, but I  
24 did not approach anybody.

25 Q. I'm going to introduce an exhibit now.

1 (Exhibit 32 marked)

2 Q. All right. It should be in there,  
3 Exhibit 32. You got that up?

4 And so if you look at the -- so the "From"  
5 line is missing. That's how it was sent to us, but  
6 I'll represent that was sent with you as the  
7 custodian. And if you look in the middle sort of  
8 block here, it says from Ken Clark to Nathan Sigler  
9 dated October 20 -- October 17th, 2018. Do you see  
10 that?

11 A. I do. At 5:33 p.m.?

12 Q. Yes, sir.

13 A. Yes, I do.

14 Q. And then that's forwarded to Michael  
15 Shannon. And if you just want to take a second to  
16 read the text of that email.

17 A. Okay. Thank you.

18 Q. Sure. Not the whole text, just that top  
19 part.

20 A. I'm sorry. Just the "Good morning" part?  
21 "I hope" --

22 Q. Yeah.

23 A. Okay.

24 Q. Yeah, you don't need to read Andrew  
25 Brooks' email.

1 A. Okay. Okay. I've read it.

2 Q. All right. And just take a quick look.

3 So the second paragraph of Andrew Brooks' email, he  
4 says, "As promised, the link below to H-GAC's  
5 ShareFile site contains some helpful GIS shapefiles  
6 and spreadsheet information on the 2010 Census  
7 Tracts, 2010 Census Places, and 2016 Census ACS  
8 population data." Do you see that?

9 A. I do.

10 Q. And so from this email, it looks like  
11 Commissioner Clark had wanted you to download some  
12 data for him. Is that correct?

13 A. That is correct.

14 Q. And it says that part of the reason that  
15 he wanted to do that was to make some changes  
16 concerning census tracts? Is that correct?

17 A. And that's regarding back to the first  
18 paragraph there?

19 Q. Yes. Yeah.

20 A. Yes.

21 Q. And then the other reason is he also  
22 wanted to make redistricting proposal maps. Is that  
23 correct?

24 A. I'm not sure.

25 Q. That is -- he says -- or the email says,

1 "He also wanted to make several different  
2 redistricting proposal maps." Is that right?

3 A. It does say that.

4 Q. All right. And then it says, "I will keep  
5 you posted as things develop," correct?

6 A. Correct.

7 Q. So after providing -- well, actually let  
8 me step back a second. So the 2016 census ACS  
9 population data, that's the American Community  
10 Survey? Is that correct?

11 A. That is correct.

12 Q. And that contains a variety of demographic  
13 data on various ethnicity, income, things of that  
14 variety? Is that correct?

15 A. It requires, yes, several different  
16 things. I can't recall all the specifics.

17 Q. But there's some demographic data in  
18 there? Is that right?

19 A. I believe so.

20 Q. And so after you downloaded this  
21 information for Commissioner Clark, did you ever  
22 meet with him to discuss any redistricting  
23 proposals?

24 A. No.

25 Q. Did he ever approach you again to discuss

1 this data in any form?

2 A. Not that I can recall.

3 Q. Did he ever request other population data  
4 from you for the purposes of redistricting?

5 A. Not that I can recall.

6 Q. All right.

7 (Exhibit 33 marked)

8 Q. All right. If you want to pull up  
9 Exhibit 33, please.

10 A. Okay. I have the document in front of me.

11 Q. Okay. And this is the subject line "2020  
12 PSAP External Participant Final Data Upload." Is  
13 that correct?

14 A. Yes, sir, that is correct.

15 Q. And the PSAP, is that the Participant  
16 Statistical Areas Program?

17 A. I'm not sure if that's the correct -- I'm  
18 not sure about that, if that's exactly what it stood  
19 for.

20 Q. Is it a Census Bureau program where they  
21 collect information from local political  
22 subdivisions to redraw tracts and block groups and  
23 other census geography?

24 A. Could you explain political subdivision?

25 Q. The county in this instance.

1           A.    So this was a project not just of the  
2 county but also with the cities.

3           Q.    Okay.  Yeah, and that's what I mean by  
4 political subdivision, local governments  
5 essentially.

6           A.    Okay.

7           Q.    And so if you'll notice in the second sort  
8 of email block, it says from Nathan Sigler to Andrew  
9 Brooks, May 10th, 2019.  Is that correct?

10          A.    Yes.

11          Q.    And it says, "We had been waiting on  
12 clarification from the Census Bureau about an area  
13 that required a split.  We got our answer, and we  
14 are presenting our final data to an elected official  
15 this afternoon."  Is that correct?

16          A.    Correct.

17          Q.    Would that elected official have been  
18 Commissioner Clark?

19          A.    I'm not sure.

20          Q.    Do you -- can you think of any other  
21 elected official who it might have been?

22          A.    I'm not sure.

23          Q.    And when you say you're not sure, do you  
24 believe it might have been Mr. Clark or was likely  
25 Mr. Clark?

1 A. I'm not sure.

2 MR. RUSSO: Asked and answered.

3 Q. As a general matter, do you work with the  
4 commissioners directly when they want to?

5 A. Could you repeat that question?

6 Q. Sure. Just as a general matter, do you  
7 work with the county commissioners directly?

8 A. Sometimes.

9 Q. If a county commissioner asks you for  
10 something, do you work directly to provide it to  
11 them?

12 A. Yes.

13 Q. I'll pull up -- and so with the PSAP, you  
14 were involved in providing the Census Bureau with  
15 input on census geographies leading up to the 2020  
16 census. Is that accurate?

17 A. Yes.

18 (Exhibit 34 marked)

19 Q. All right. Now, if you want to take a  
20 look at Exhibit 34. Do you have that up?

21 A. Not as of yet. Okay. I see it now.  
22 Thank you.

23 Q. And so this is a -- at the top it says,  
24 "An official website of the United States  
25 government." Is that correct?

1 A. Correct.

2 Q. And, "Upcoming release of 2020 census  
3 redistricting data will paint a clearer portrait of  
4 America," and the article is dated July 12th, 2021.  
5 Is that correct?

6 A. Yes.

7 Q. And then just the first part on this first  
8 page, "The U.S. Census Bureau by August 16th is set  
9 to release in-depth demographic statistics from the  
10 2020 census that will be used to redraw legislative  
11 voting districts." Is that correct?

12 A. Yes.

13 Q. Do you recall hearing around this time  
14 that there would be a census data release on  
15 August 16th?

16 A. I can't recall a specific date.

17 Q. Generally around that August time frame?

18 A. I do believe August was the month  
19 mentioned.

20 Q. All right. And pull up another one.

21 (Exhibit 35 marked)

22 Q. All right. Exhibit 35 should be there.

23 A. I see the document now.

24 Q. All right. And does this appear to be an  
25 article dated August 12th, 2021, from the Galveston

1 Daily News titled "Galveston County Population Tops  
2 350,000 According to Census"?

3 A. Yes.

4 Q. And so this is around August 12th that  
5 census data was released. Do you recall hearing  
6 some news stories or otherwise hearing once the  
7 census data was released around that time?

8 A. I do not.

9 Q. You don't recall hearing anything about  
10 census data released around the August time frame,  
11 or you just don't recall news articles?

12 A. I just don't recall news articles.

13 Q. Okay. Did you look at any of the census  
14 population data after it came out?

15 A. I'm not sure.

16 Q. Do you think you might have?

17 A. Possibly.

18 Q. And would that have been before or after  
19 the commissioner court redistricting in 2021?

20 A. Could you repeat that question?

21 Q. Would you have looked at the census data  
22 before or after the commissioner court redistricting  
23 in 2021?

24 A. I'm not sure.

25 Q. All right.

1 (Exhibit 36 marked)

2 Q. Okay. Do you want to take a look at  
3 Exhibit 36? Have you got it there?

4 A. I do.

5 Q. And so this is an email dated  
6 September 23rd, 2021. Is that correct?

7 A. Correct.

8 Q. And the "From" and "To" lines were missing  
9 in what was produced, but this is your email  
10 signature at the bottom. Is that correct?

11 A. That is correct.

12 Q. And if you want to just read the body of  
13 the email real quick.

14 A. Sure. (Witness complies.)

15 Q. So from this, it sounds like Commissioner  
16 Holmes requested some data. Is that correct?

17 A. Yes.

18 Q. And you're saying that you couldn't send  
19 him the 2020 data because it's not available, so you  
20 sent him projections from 2010 census data. Is that  
21 right?

22 A. Correct.

23 Q. So as we saw, the census data was released  
24 in August of 2021. Is there a reason that you  
25 didn't use that new census data to provide

1 Commissioner Holmes with what he was asking for?

2 A. I was not aware that it was available.

3 Q. Did you make any effort to ascertain  
4 whether the census data had been released?

5 A. Yes.

6 Q. What efforts did you make?

7 A. I can't remember the gentleman's name, but  
8 I reached out to somebody at the Census Bureau. I  
9 also asked a couple other GIS people if they had  
10 heard anything about it, that it was going to be  
11 released.

12 Q. But you don't dispute that, as we saw  
13 earlier, the data was released in August. Is that  
14 right?

15 A. I'm not sure.

16 Q. You recall the article about it being  
17 released in August?

18 A. I'm not sure.

19 Q. Did you Google whether the census data had  
20 been released?

21 A. I don't know.

22 Q. Were you aware that in September the Texas  
23 legislature was meeting to redistrict the state  
24 legislative boundaries?

25 A. Could you repeat that question?

1 Q. Were you aware that in September of 2021,  
2 the Texas legislature was meeting to redraw the  
3 state legislative boundaries?

4 A. I was not.

5 Q. Let me pull up another one.

6 (Exhibit 37 marked)

7 A. I see the document.

8 Q. If you could ignore that one. I think I  
9 upload -- that wasn't the complete one. Hold on.

10 A. Okay.

11 (Exhibit 38 marked)

12 Q. All right. So now it's Exhibit 38.

13 A. I see the document.

14 Q. Okay. And this is an email sent from you  
15 to Michael Shannon dated October 25th, 2021, titled  
16 "Holmes Project." Is that correct?

17 A. Correct.

18 Q. And it looks like you are sending him some  
19 previous emails regarding the Commissioner Holmes  
20 Project. Is that correct?

21 A. That is correct.

22 Q. All right. And if you want to take a look  
23 at the second page.

24 A. Okay.

25 Q. And this is an email dated September 27th

1 | from you to Mr. Shannon titled "Commissioner Holmes

2 | Project." Is that correct?

3 | A. Correct.

4 | Q. And what is the Commissioner Holmes

5 | Project, or what was the Commissioner Holmes

6 | Project?

7 | A. May I have a moment to review the

8 | document?

9 | Q. Sure.

10 | A. Okay. I've reviewed it. And can you

11 | repeat your question, please?

12 | Q. What was the Commissioner Holmes Project?

13 | A. It was for a demographic breakdown for

14 | population breakdown, commissioner precincts

15 | breakdown, and voting precincts breakdown.

16 | Q. And is this something Commissioner Holmes

17 | asked you to prepare?

18 | A. Could you repeat that?

19 | Q. Is this something that Commissioner Holmes

20 | asked you to prepare?

21 | A. No.

22 | Q. Who asked you to prepare it?

23 | A. Mr. Shannon.

24 | Q. Was it your understanding that

25 | Commissioner Holmes asked Mr. Shannon to have you

1 | prepare it or to get it prepared?

2 | A. Repeat that question one more time?

3 | Q. Was it your understanding that

4 | Commissioner Holmes had had -- had asked Mr. Shannon

5 | to have it prepared?

6 | A. Yes.

7 | Q. And in it, you're talking about using

8 | population data from census tracts. Is that

9 | correct?

10 | A. Yes.

11 | Q. Is there a reason that you didn't use the

12 | 2020 census block data that had been released as

13 | opposed to the old census tract data?

14 | A. I wasn't aware that it was available.

15 | Q. And so if you go all the way down to the

16 | last page, page 8 of 8. And it says, "I forgot to

17 | mention Commissioner Holmes does not have access to

18 | the map as of yet. I wanted your approval of the

19 | list and maps first in case you wanted to change

20 | anything." Is that correct?

21 | A. That is correct.

22 | Q. And why did you want to run it by Michael

23 | Shannon before sending it to Commissioner Holmes?

24 | A. Because he had made the request to me and

25 | I wanted him to review it.

1 Q. Were you ever instructed to not work with  
2 Commissioner Holmes directly during the 2021  
3 redistricting?

4 A. No.

5 Q. Were you ever instructed to run any  
6 requests from Commissioner Holmes by a third party  
7 before providing him with any information?

8 A. I don't understand the question. Can you  
9 repeat it?

10 Q. Did anybody ever instruct you to speak to  
11 them first before providing information to  
12 Commissioner Holmes about population data?

13 A. Not that I'm aware of.

14 Q. Did anybody ever express to you that you  
15 should not go out of your way to help Commissioner  
16 Holmes during the 2021 redistricting?

17 A. No.

18 Q. All right. I'm going to pull back up I  
19 believe it was Exhibit 12.

20 A. I see the document.

21 Q. All right. And going back to or down to  
22 "Galveston\_Blocks Data," that sheet, do you see it?

23 A. Yes.

24 Q. And so earlier I think you'd testified you  
25 weren't sure what "GEOID20" meant. Is that correct?

1 A. Correct.

2 Q. Having discussed the census a little bit  
3 now, do you recall what "GEOID20" would mean?

4 A. No.

5 Q. And if you can go to the next sheet,  
6 "Pop Pivot."

7 A. Okay. I'm there.

8 Q. All right. And so it looks like these are  
9 population totals for the current map, Commissioner  
10 Precinct Map 1 and Commissioner Precinct Proposal 2.  
11 Is that correct?

12 A. Map 1 and Map 2.

13 Q. And the original?

14 A. Yes.

15 Q. And so the last column titled "Percent Min  
16 VAP"?

17 A. I see that.

18 Q. And that would be percent minority voting  
19 age population. Is that correct?

20 A. I have no idea. I'm not -- like I said, I  
21 don't think I've ever seen this document. I don't  
22 recall ever seeing this document.

23 Q. Did you create any interactive maps of  
24 either Commissioner Precinct Proposal Map 1 or  
25 Proposal Map 2 that had demographic data in a layer?

1 A. Can you repeat that question?

2 Q. Sure. Did you ever prepare any  
3 interactive maps of either Proposal Map 1 or  
4 Proposal Map 2 that had demographic data in a layer?

5 A. I'm not sure.

6 Q. Do you think you might have?

7 A. I don't know.

8 Q. Where would -- if you did prepare such a  
9 map, where would you have gotten the demographic  
10 data?

11 A. I wouldn't have done it. It would have  
12 been included from the firm.

13 Q. Uploading Exhibit 39.

14 (Exhibit 39 marked)

15 Q. Have you got it there?

16 A. I do.

17 Q. All right. So at the very bottom, do you  
18 see where there's an email -- at the bottom of the  
19 first page, sorry, there's an email from Nathan  
20 Sigler to Kathleen Moreno dated October 25th, 2021?

21 A. At 9:31 a.m.?

22 Q. No, sorry, four zero -- 4:08 p.m., bottom  
23 of the first page.

24 A. I'm sorry. I'm still looking for it.

25 Okay. I do see it now.

1 Q. And it says, "Below is a link to the  
2 'current commissioner' and voting precincts," and  
3 "current commissioner" is in quotation marks. Do  
4 you see that?

5 A. I do.

6 Q. Why did you put "current commissioner" in  
7 quotation marks?

8 A. To emphasize that there was adopted  
9 commissioner. No, I'm sorry, in reverse. I  
10 misstated that. What was in place before the 2021  
11 redistricting.

12 Q. So is it fair to say that by at least  
13 October 25th, 2021, you were aware that  
14 commissioners were undergoing a redistricting?

15 A. No.

16 Q. Why would you have put "current  
17 commissioner" in quotation marks if you didn't think  
18 those lines were being redrawn?

19 A. I'm not sure.

20 Q. But it was to distinguish that it was the  
21 current commissioner one instead of a redistricted  
22 2021 one. Is that right?

23 A. Correct.

24 Q. And were you aware by October 25th that  
25 the census data had been released?

1 A. I'm not sure.

2 Q. The census data would need to be released  
3 in order for the commissioners to redraw their  
4 precincts. Is that correct?

5 A. I'm not sure.

6 Q. Is there any other data that the  
7 commissioners could use to redraw their precinct  
8 boundaries other than official census data?

9 A. I'm not sure.

10 MR. GONZALEZ: Could we take a five-minute  
11 break maybe?

12 MR. RUSSO: Yeah, five minutes is fine.

13 MR. GONZALEZ: All right. Let's go off  
14 the record.

15 (Recess from 6:06 to 6:14)

16 (Exhibit 40 marked)

17 BY MR. GONZALEZ:

18 Q. So if you will go ahead and pull up  
19 Exhibit 40.

20 A. Okay. I have the document up.

21 Q. All right. And again, the "From" line is  
22 missing, but if you go to the second email there on  
23 the first page, there's an email from Paul McLarty  
24 to Cheryl Johnson. Do you see that?

25 A. I'm sorry. Can you repeat that?

1 Q. So the "From" line is missing at the very  
2 top, but if you go down to the email, the second  
3 email in that chain on the first page, there's an  
4 email from Paul McLarty to Cheryl Johnson. Do you  
5 see that?

6 A. I do.

7 Q. And who's Paul McLarty?

8 A. I do not know.

9 Q. And Cheryl Johnson's the tax assessor and  
10 voter registrar. Is that correct?

11 A. Yes.

12 Q. All right. And so I'll represent that  
13 this was provided as being under the custody of  
14 Cheryl Johnson, that first email message. And it  
15 says, "Good morning. I understand and feel the same  
16 way. I am unable to comment on whether I can  
17 implement either plan in advance of the primary  
18 without additional information. I have included  
19 Nathan Sigler who is our mapping guru in the county  
20 engineer's office. He understands the challenges I  
21 am facing and is currently loading geo information  
22 to perfect the counts with regard to census data and  
23 voter roll so that commissioners are able to make  
24 better decisions on Friday. I believe commissioners  
25 will adopt their maps Friday. Nathan is still

1 | working on loading geo information in order for  
2 | commissioners to perfect the census data and voter  
3 | roll. This will help them better define which  
4 | precincts will split. I know that South Shore  
5 | Harbor has an area to be split but I do not know  
6 | precisely where. One thing I have asked is that  
7 | current lines remain the same as much as possible  
8 | and that major thoroughfares or natural boundaries  
9 | (creek, drainage or utility easements, et cetera) be  
10 | used to split precincts."

11 | Did I read that all right?

12 | A. Yes.

13 | Q. And so looking at this, does it appear  
14 | that you were uploading some, I guess, population  
15 | and voter data into the maps for the commissioners?

16 | A. And I'm sorry. I'm rereading the  
17 | paragraph if you don't mind.

18 | Q. Sure.

19 | A. Okay. I've read it. And can you ask the  
20 | question again, please?

21 | Q. It sounds like you were uploading some  
22 | census data and voter roll data into the  
23 | commissioner precinct maps according to this. Is  
24 | that correct?

25 | A. That is incorrect.

1 Q. What does she mean when she says, "Nathan  
2 is still working on loading geo information in order  
3 for commissioners to perfect the census data and  
4 voter roll"?

5 A. I'm not --

6 MR. RUSSO: Objection, speculation.

7 A. I'm not sure.

8 Q. Did you load any census data and voter  
9 roll into the commissioners maps?

10 A. Registered voters, I believe, is the one  
11 layer that I did upload.

12 Q. And was that at the request of the  
13 commissioners?

14 A. I don't recall.

15 Q. And she refers in here -- well, first she  
16 says, "I'm unable to comment on whether I can  
17 implement either plan in advance of the primary."  
18 And then at the very end, she says that she has  
19 asked that the current lines remain the same and  
20 that natural boundaries and major thoroughfares be  
21 used to split precincts. Is that right?

22 A. I see the, "One thing I have asked is that  
23 the current lines remain the same as much as  
24 possible and that the major thoroughfares or natural  
25 boundaries, creeks" -- yeah, I do see that.

1 Q. Does it create extra administrative work  
2 when precincts are split?

3 A. I do not know.

4 Q. Did Cheryl Johnson have to do extra work  
5 with you to resolve the voter rolls due to precinct  
6 splits?

7 A. Ask your question again, please?

8 Q. Did Cheryl Johnson have to do extra work  
9 with you in regards to the voter rolls to resolve  
10 the precinct splits?

11 A. Not that I'm aware of.

12 Q. But did it require extra work for you to  
13 redraw precinct boundaries because of precinct  
14 splits?

15 A. What -- are you speaking about voting  
16 precinct splits?

17 Q. Yes, voting precincts.

18 A. Okay. Now ask your question again,  
19 please.

20 Q. Was it extra work for you to have to  
21 redraw voting precincts due to precinct splits in  
22 the commissioner plan?

23 A. I don't under- -- I don't know how to  
24 answer that.

25 Q. If no commissioner -- I mean, if no voting

1 precincts had been split, you wouldn't have had to  
2 redraw the precinct boundaries. Is that correct?

3 A. Correct.

4 Q. Going to pull up one more exhibit.

5 (Exhibit 41 marked)

6 Q. All right. Exhibit 41.

7 A. I have the document pulled up.

8 Q. Okay. And it's sort of a weird email  
9 address, but is this an email from you to somebody  
10 named Chris Elam dated February 16th, 2022?

11 A. I'm not sure. The "From" is -- I'm not  
12 sure what the "From" -- that's what's throwing me  
13 off.

14 Q. At the very end of that, it says "Sigler,  
15 Nat." Do you see that? At the very end of that  
16 "From" address.

17 A. Oh, yes, I do see that.

18 Q. And then it's signed, "Regards, Nathan S."  
19 Correct?

20 A. Correct.

21 Q. So would you have any reason to dispute  
22 that this is an email from you?

23 A. No.

24 Q. All right. And if you just want to read  
25 the first, I guess, four sentences.

1 A. Okay. Aloud or just to myself?

2 Q. You can read them to yourself.

3 A. Okay. (Witness complies.)

4 Okay. I believe I've read what you  
5 requested.

6 Q. And so that last part, "So to account for  
7 that, our historical VTDs are still in effect  
8 regarding JP and constable precincts." Is that  
9 right?

10 A. Correct.

11 Q. And so I'm just trying to figure out how  
12 this worked exactly. For the March 2022 primary,  
13 were there two sets of voter precincts in effect?

14 A. I'm not sure.

15 Q. What did you mean when you wrote that?

16 A. Which part?

17 Q. "So to account for that, our historical  
18 VTDs are still in effect regarding JP and constable  
19 precincts."

20 A. That there was a split by the JP and they  
21 were going to address that at another time, and so  
22 the lines would still stay the same for that.

23 Q. The actual voting -- so was there one set  
24 for voting precincts for JP and constable and then  
25 another set of voting precincts for all the other

1 races?

2 A. I'm not sure who was running for that  
3 election. I don't know.

4 Q. But if there were elections for JP and  
5 constable, they would have used the historic VTDs?  
6 Is that --

7 A. Correct.

8 Q. -- what that is saying? Okay.

9 I think that's it. Just one more thing.  
10 Did you confer with your attorney on the breaks  
11 during this deposition?

12 A. I'm sorry. Can you repeat that?

13 Q. Did you confer with your attorney during  
14 the breaks on this deposition?

15 A. I don't know what that means.

16 Q. Did you discuss the deposition with your  
17 attorney at all during the breaks?

18 A. No.

19 MR. GONZALEZ: Okay. And I will, I guess,  
20 pass to Ms. Reyes.

21 MS. REYES: Thank you, Mr. Gonzalez.

22 Bernadette Reyes on behalf of the Petteway

23 plaintiffs. We don't have any further questions for

24 Mr. Sigler at this time, but I do want to clarify

25 that we are not agreeing that the deposition is

1 | concluded. Specifically, we are reserving the right  
2 | to reconvene the deposition of Mr. Sigler once the  
3 | Court has ruled on the issue of the attorney-client  
4 | privilege raised at this deposition, specifically  
5 | regarding Dale Oldham.

6 | MR. GONZALEZ: And the NAACP plaintiffs  
7 | will make the same reservation.

8 | MS. JAYARAMAN: And the United States  
9 | makes the same reservation.

10 | MR. RUSSO: I think most of your arguments  
11 | are captured, so we'll take it up with the Court  
12 | when necessary.

13 | THE REPORTER: Is there anything else for  
14 | the record? No? Should we go off the record then?

15 | MR. RUSSO: Yeah, let's go off the record  
16 | for two minutes.

17 | (Off record from 6:27 to 6:30)

18 | MR. RUSSO: So defense are going to  
19 | reserve questions for trial. I think that ends the  
20 | deposition.

21 |  
22 | (Deposition concluded at 6:30 p.m. CST)

REPORTER'S CERTIFICATE  
REMOTE ORAL DEPOSITION OF NATHAN SIGLER  
DECEMBER 19, 2022

I, KAREN L. SHELTON, a Certified Shorthand  
Reporter in and for the State of Texas, hereby  
certify to the following:

That the witness, NATHAN SIGLER, was duly  
sworn by the officer and that the transcript of the  
oral deposition is a true record of the testimony  
given by the witness;

I further certify that pursuant to FRCP  
Rule 30(e) that the signature by the deponent:

\_\_\_ was requested by the deponent or a  
party before the completion of the deposition and is  
to be returned within 30 days from date of receipt  
of the transcript. If returned, the attached Errata  
contains any changes and the reasons therefor;

X  was not requested by the deponent or a

1 party before the completion of the deposition.

2 I further certify that I am neither  
3 counsel for, related to, nor employed by any of the  
4 parties or attorneys in the action in which this  
5 proceeding was taken, and further that I am not  
6 financially or otherwise interested in the outcome  
7 of the action.

8  
9 Certified to by me this 3rd day of  
10 January, 2023.

1 P R O C E E D I N G S

2 THE VIDEOGRAPHER: We are on the record  
3 at 9:10 a.m. This begins the video recorded deposition  
4 of Dwight Sullivan taken in the matter of Honorable  
5 Terry Petteway, et al. versus Galveston County, Texas,  
6 et al. This deposition is being held remotely. My name  
7 is Austin Redcay, and I am the videographer. The court  
8 reporter is Julie Brandt, both of us representing  
9 Veritext.

10 Ms. Brandt, would you please introduce  
11 everybody in the call today, and then after which swear  
12 in the witness.

13 THE REPORTER: Okay. We've got today,  
14 let's see, Molly Zhu, who will be taking the deposition;  
15 Joseph Russo, who will be defending.

16 We also have Kathryn Garrett, Bruce Gear,  
17 George Libbares, who is our concierge, Alexandra Copper,  
18 Sarah Chen, Mateo Forero, Adrienne Spoto, Valencia  
19 Richardson, Diana Vall-llobera, Joaquin Gonzalez, Jordan  
20 Elton, Tharuni Jayaraman, Bernadette Reyes, and  
21 Catherine Meza.

22 And I would just say if anyone else joins from  
23 your team, if you can let me know because I'm going to  
24 be writing down the words instead of paying attention.

25 Thank you.

DWIGHT SULLIVAN,

having been first duly sworn, testified as follows:

EXAMINATION

BY MS. ZHU:

Q. Good morning, Mr. Sullivan. Can you hear me okay?

A. Yes.

Q. Okay. Good. Can you please just state and spell your full name for the record?

A. Dwight Sullivan. That's D-W-I-G-H-T. Last name Sullivan, S-U-L-L-I-V-A-N.

Q. Thank you.

Mr. Sullivan, thank you again for your time today. My name is Molly Zhu. I work at the law firm Willkie Farr & Gallagher, and I'm joined today by my co-counsel Sarah Chen from the Texas Civil Rights Project, and we are attorneys for the plaintiff and, of course, you are a defendant in the ongoing lawsuit.

Just to be clear, the lawsuit is Dickinson Bay Area Branch NAACP, Galveston Branch NAACP, Mainland Branch NAACP, Galveston LULAC Council 151, Edna Courville, Joe A. Compian, and Leon Phillips versus Galveston County, Texas, the Honorable Mark Henry and Dwight D. Sullivan.

This case was consolidated. The other case is

1 brought by Terry Petteway and other individuals, as well  
2 as the case brought by the DOJ. Again, it's Galveston  
3 County in the Southern District of Texas.

4 Counsel for Petteway and DOJ will also have  
5 the opportunity to ask questions after I'm done and  
6 before your counsel asks his questions today.

7 So, I'm just going to go over some ground  
8 rules for the deposition today. If anything I say is  
9 unclear or if you have any questions, please just let me  
10 know.

11 So, of course, we have Julie today as our  
12 court reporter. She's going to be making a transcript  
13 of everything that occurs in the deposition today. To  
14 ensure an accurate record and to help Julie out with the  
15 written transcript, I'm just going to ask that you give  
16 verbal responses to all of my questions as opposed to  
17 simply shaking or nodding your head.

18 Let me know if that sounds okay.

19 A. Yes, it does.

20 Q. I'm going to do my best not to interrupt you  
21 when you're giving responses just so the record isn't  
22 too confusing. So, in return I would ask that you wait  
23 until I finish my question before you give your answer  
24 as well. And if we start talking at the same time, it  
25 will just be more difficult for the transcript.

1 Does that make sense?

2 A. Yes.

3 Q. I am going to be asking a lot of questions  
4 about your knowledge of certain events. So, I just want  
5 to make it clear there's a difference when you don't  
6 know something or you can't recall something versus when  
7 the answer is affirmatively no. So I'm just going to  
8 ask that you respond either I don't know or no, to be  
9 clear.

10 Does that make sense?

11 A. Yes.

12 Q. And since we're virtual today, if we're having  
13 any technical difficulties, if your internet cuts out  
14 and you can't hear me, just let me know. We can pause  
15 and have any tech issues addressed on either end.

16 A. Okay.

17 Q. You've been sworn -- thanks.

18 You've been sworn in today, which means that  
19 you are under oath and that you have an obligation to  
20 give accurate and truthful testimony. If there's a  
21 question that I ask and you don't understand it, please  
22 just let me know and I can clarify, I can rephrase.  
23 That's no problem. Otherwise, if you don't ask for  
24 clarification, I'm just going to -- I would assume that  
25 you understand my question and that you are answering

1 the question that I've asked.

2 Does that make sense?

3 A. Yes.

4 Q. If you need a break at any point in the  
5 deposition, please let me know and we're happy to  
6 accommodate you.

7 Let's see. So with that, is there anyone in  
8 the room today for your deposition?

9 A. Yes.

10 Q. Can you tell me who's in the room with you  
11 today?

12 A. Yes. Joseph Russo and Jordan Elton.

13 Q. Okay. And are they counsel?

14 A. Yes.

15 Q. Okay. Have you been deposed before?

16 A. One time.

17 Q. When did that deposition take place?

18 A. I believe it was 2002.

19 Q. Okay. What were you deposed for?

20 A. I was an employee of the county treasurer's  
21 office, and there was a lawsuit between the county  
22 treasurer and the county auditor.

23 Q. And when you say county, you're referring to  
24 Galveston County, I assume?

25 A. Yes.

1 Q. Did that case involve the Voting Rights Act in  
2 any way?

3 A. No.

4 Q. And did that case involve any allegations of  
5 racial discrimination?

6 A. No.

7 Q. And can you just give a quick summary about  
8 the claim in that case, to your knowledge?

9 A. Yes. There was a claim that the county  
10 treasurer was holding accounts payable checks, and the  
11 auditor wanted him to release those checks sooner.

12 Q. Okay. Thank you.

13 So moving on, do you understand that you  
14 cannot communicate with anyone else either by email or  
15 text or Zoom chat or any other means while your  
16 deposition is being taken today?

17 A. Yes.

18 Q. And do you have any documents in front of you  
19 today?

20 A. No.

21 Q. Okay. That's great because you are not  
22 allowed to consult any written, printed or electronic  
23 information during this deposition unless I provide the  
24 information to you as an exhibit, so I just wanted to  
25 make that clear.

1           Did you meet with anyone to prepare for this  
2 deposition today?

3           A.    I met with my attorneys.

4           Q.    And are they the only people that you met with  
5 to prepare for this deposition?

6           A.    Yes.

7           Q.    When did you meet with your attorneys to  
8 prepare?

9           A.    Yesterday and maybe a week ago to meet them.

10          Q.    And where did you meet?

11          A.    In Galveston, Texas at their law office.

12          Q.    Okay. And how long were each of the meetings,  
13 around?

14          A.    The first meeting was approximately two hours.  
15 The second meeting, two to three hours.

16          Q.    Okay. Thank you.

17                   Did you review any documents to prepare for  
18 this deposition?

19          A.    I believe there was one document, yeah, we  
20 looked at yesterday.

21          Q.    Could you say that again? I'm sorry.

22          A.    Yes, there was one document yesterday we  
23 looked at.

24          Q.    And how did you review that document? You  
25 just kind of walked through it with your counsel. Is

1 that right?

2 A. We looked at it on the computer screen.

3 Q. Okay. Is there any reason that you might not  
4 be able to give full and truthful testimony today? Are  
5 you -- as in are you currently on any sort of medication  
6 or consumed any alcohol or anything like that?

7 A. No.

8 Q. Okay. I guess the last thing I just want to  
9 reiterate is if you need a break at any time, just let  
10 me know and I'm more than happy to call a break.

11 A. Okay.

12 Q. Okay. Great.

13 So let's start with some background questions  
14 just pretty --

15 MR. RUSSO: Sorry, Counsel. I just  
16 wanted him to keep his voice up.

17 MS. ZHU: Yeah, thank you. I appreciate  
18 that.

19 Q. (BY MS. ZHU) So, Mr. Sullivan, where were you  
20 born?

21 A. I was born in Albuquerque, New Mexico.

22 Q. All right. And where do you currently live?

23 A. I live in League City, Texas.

24 Q. How long have you lived in League City for?

25 A. Excuse me. I've lived in League City since

1 2005.

2 Q. Where did you live before that?

3 A. I lived in Port Bolivar, Texas.

4 Q. Did you say Bolivar?

5 A. Yes. Bolivar, Texas, yeah.

6 Q. And how long have you lived in Bolivar for?

7 A. I think approximately three years.

8 Q. Okay. Let's move on to your educational

9 background. So where did you get your high school

10 diploma?

11 A. I graduated from Robert E. Lee High School in

12 San Antonio, Texas.

13 Q. And where did you get your college degree?

14 A. Texas Tech University.

15 Q. What did you study in college?

16 A. Business management.

17 Q. Do you have any graduate degrees?

18 A. Yes.

19 Q. What schools are they from?

20 A. Texas Tech University.

21 Q. And what type of graduate degree do you hold?

22 A. A Master's in Business Administration.

23 Q. What was your employment after college?

24 A. My job out of college was a financial analyst

25 with World Savings and Loan which later became Wachovia

1 Bank.

2 Q. And what was your employment after receiving  
3 your MBA?

4 A. Galveston County Clerk.

5 Q. And you are currently employed by Galveston  
6 County. Is that correct?

7 A. Yes.

8 Q. How long have you worked for Galveston County?

9 A. I've worked for Galveston County since  
10 December of 2001.

11 Q. Did I hear December of 2005?

12 A. 2001.

13 Q. 2001, okay. Thank you.

14 What was your position when you first became  
15 employed by Galveston County?

16 A. Financial analyst.

17 Q. And what is your current job title?

18 A. Galveston County Clerk.

19 Q. Did you hold any other positions while  
20 employed by Galveston County other than the two you just  
21 mentioned?

22 A. Yes.

23 Q. Can you describe some of that for me and the  
24 timeline?

25 A. Yes. I was the Assistant County Treasurer and

1 in 2011 I swore into office as County Clerk.

2 Q. Thank you.

3 How did you secure your current job as County  
4 Clerk?

5 A. I ran for office.

6 Q. Who were the opponents that you campaigned  
7 against while you were running for this position?

8 A. My opponent was Doug Godinich.

9 Q. You only had one opponent?

10 A. Yes.

11 Q. Can you describe some of the campaigning  
12 events that you held or conducted while running for this  
13 position?

14 A. I had a kick-off event in Galveston, and other  
15 than that, I went to most civic clubs in the county just  
16 to introduce myself.

17 Q. When you say kick-off event in Galveston, can  
18 you tell me which neighborhood you had the kick-off  
19 event in?

20 A. Yeah, it was the historic district. I don't  
21 know the name of the neighborhood, but it was on  
22 approximately 18th Street --

23 Q. Okay.

24 A. -- near Broadway.

25 Q. Thank you.

1           And can you tell me some of the neighborhoods  
2 where the clubs that you said you were introducing  
3 yourself in, where those clubs are located?

4           A.    Yes.  It was throughout the county, so  
5 everywhere from Bolivar, Texas to Galveston, Texas; La  
6 Marque, Texas; Dickinson, Texas; Texas City, Texas;  
7 Friendswood, Bayou Vista and League City.

8           Q.    That's pretty comprehensive.

9           A.    Yeah.

10          Q.    Thank you.  And just to clarify, you were  
11 running in the Republican primary.  Is that correct?

12          A.    Yes.

13          Q.    Thank you.

14                And also to clarify, Doug Godinich, which I  
15 hope I'm pronouncing his name right, your opponent, was  
16 also running in the primary.  Is that correct?

17          A.    No.  He was running as a Democrat in the  
18 general election.

19          Q.    In the general, okay.  Thank you.

20                What are your job responsibilities as County  
21 Clerk?

22          A.    My general just top-level stuff is I'm  
23 responsible for court records, numerous court records,  
24 real property records, including deeds and liens, as  
25 well as running the county elections.

1 Q. And -- okay. Can you describe the  
2 organizational structure of your office?

3 A. Sure.

4 So I have three chief deputies, and we have --  
5 the next layer would be department supervisors, and then  
6 below that we have numerous employees.

7 Q. You said you have what employees? Sorry.

8 A. Numerous employees.

9 Q. Do you know how -- like can you give me an  
10 estimate of how many employees?

11 A. Close to 50 employees.

12 Q. Okay. And the number of deputy supervisors?

13 A. Six or seven, off the top of my head.

14 Q. Okay. Thank you.

15 And I assume that you oversee everyone. Is  
16 that right?

17 A. Yes.

18 Q. Okay. So how many people -- how many of your  
19 staff work on election administration or appearing at  
20 elections?

21 A. I have a staff of six people in the elections  
22 department.

23 Q. What are the names of your staff members in  
24 that department?

25 A. Wendi Fragoso, Ernest Murrie, Sue Ann Duncan.

1 Let me think. Hold on a second. Cindy Eddy, Tommy  
2 Turnbow, and I think I have -- let me think here. I've  
3 got one more employee. I cannot recall her name. She  
4 just hired on.

5 Q. If you recall it at any point, just let me  
6 know.

7 A. It will come to me, yeah.

8 Q. And can you describe their job  
9 responsibilities generally?

10 A. Yes. So, the staff does everything from  
11 receive and accept and test new equipment, to  
12 programming ballots, training election employees,  
13 clerks, judges, delivering equipment, hosting events  
14 where parties logic and accuracy test our ballot,  
15 tallying of results, updating the website and reporting  
16 to the State and all the results in real-time.

17 Q. Thank you.

18 Does anyone on your staff report to you about  
19 the redistricting process at all?

20 A. No.

21 Q. Can you describe how your office works with  
22 the Office of the Tax Assessor Collector?

23 A. Sure. So, we work closely with the tax  
24 office with regards to elections. So, the tax assessor  
25 collector in Galveston County updates the database of

1 voters and what ballot styles they should receive, so  
2 all the voter registration information, and that  
3 information is then used to program the ballot to make  
4 sure that constituents get the right ballot style when  
5 they go to vote.

6 Q. That makes sense.

7 Does redistricting inform any of this work  
8 that you do with the tax assessor collector?

9 A. I'm sorry, can you repeat that question?

10 Q. Sure.

11 Does the redistricting inform any of the work  
12 that you conduct with the tax assessor collector's  
13 office?

14 A. I'm still not sure I understand what you mean  
15 by inform.

16 Q. That's fine. I can rephrase.

17 How does the work that you do with the Office  
18 of the Tax Assessor Collector apply to redistricting, if  
19 at all?

20 A. Well, I don't know exactly what all she does  
21 with redistricting because that's not my office, but --  
22 yeah, I guess I don't know what she does with that  
23 information.

24 Q. That's fine. Thank you.

25 Can you describe how your office works with

1 the county engineer's office?

2 A. Sure.

3 So in regards to elections, I'm assuming?

4 Q. That's right.

5 A. Okay. So in regards to elections, the county  
6 engineer's office produces maps for us if we request  
7 them. That's kind of it.

8 Q. And what does your office do with those maps?

9 A. Sometimes we get open records requests, and so  
10 we'll give them to candidates or parties. We also have  
11 a set of maps in the office to use as reference.

12 Q. Do you work at all with any of the county  
13 engineer's office or the tax assessor collector's office  
14 after a redistricting cycle?

15 A. Can you clarify the question?

16 Q. Yeah.

17 A. What you mean by work with?

18 Q. Yeah, of course. I just mean do you -- so the  
19 Office of the Tax Assessor Collector and the Office of  
20 the County Engineers -- of the County Engineer, do you  
21 guys -- do you guys carry out any tasks after the  
22 redistricting cycle?

23 A. Well, I can't speak for those two offices, but  
24 whenever there is redistricting, those -- those new  
25 lines will be reflected in the data that I receive in

1 order to program the ballot.

2 Q. Right. Okay. Thank you.

3 A. Yeah.

4 Q. Do you have any sort of specialized training  
5 or education related to your role as County Clerk?

6 A. Yes.

7 Q. Can you describe some of the trainings that  
8 you've done for your job?

9 A. Sure, yeah.

10 Well, when you're elected, you go to a new  
11 county clerk's and district clerk's training class, and  
12 they inform you about open records requests and other  
13 things that are pertinent to the office.

14 Additionally, every year we receive continuing  
15 education hours from our Texas association of county and  
16 district clerks, and they go into the details of the  
17 thousands of tasks that we do in our office every year.

18 Q. That makes sense.

19 What are some resources that you use for  
20 guidance regarding your job responsibilities?

21 A. Also, obviously we use computers, the  
22 internet, State websites, proprietary software that we  
23 use for court records and election software, real  
24 property software and recording equipment.

25 Q. And who do you receive guidance from to carry

1 out your job responsibilities?

2 A. Well, I guess on the day-to-day tasks, it's  
3 really the -- the ball's in my court. Texas election  
4 law books, all the legal laws of the state of Texas, my  
5 association of county and district clerks, my staff.

6 Q. Did you say association of county clerks?

7 A. Yes.

8 Q. Can you describe what that is?

9 A. Sure.

10 So in Texas we have -- it's a large state.  
11 We have 254 counties, and so we have an association of  
12 county and district clerks. They've grouped us into  
13 one unit because we have very similar tasks. The  
14 association is there for resources, to keep up with law  
15 changes and trends in our business world. So we can  
16 communicate either regionally or statewide in our  
17 conferences.

18 Q. Okay. Got it.

19 Do you receive guidance from the Texas  
20 Secretary of State at all?

21 A. Sure. Yes, I do.

22 Q. And can you describe some of the guidance that  
23 you've received?

24 A. Yes. We get a multitude of legal information,  
25 forms prescribed by the state, legal opinions, website

1 and calendar information.

2 Q. And do you receive guidance from any political  
3 party?

4 A. No.

5 Q. Do you have a reporting relationship or  
6 obligation with anyone as it relates to your position as  
7 County Clerk?

8 A. Can you ask that again? I didn't catch the  
9 first part.

10 Q. Yeah, of course.

11 Do you have a reporting relationship with  
12 anyone as it relates to your position as County Clerk?

13 MR. RUSSO: You said "recording" or  
14 "reporting"?

15 MS. ZHU: The latter, "reporting."

16 Q. (BY MS. ZHU) As in do you report to anyone,  
17 you know, higher up to you as it relates to your  
18 position as County Clerk?

19 A. No.

20 Q. How do you primarily communicate for your job?  
21 Do you use an email or a cell phone?

22 A. Primarily in person or email, telephone, all  
23 the above.

24 Q. When you say email, is this a business email  
25 specifically or do you also use personal email?

1 A. Business email.

2 Q. Do you ever use personal -- your personal cell  
3 phone for work or business?

4 A. Occasionally I use my cell phone to call staff  
5 or something, yeah.

6 Q. Do you ever communicate for purposes of work  
7 through text message?

8 A. Yes.

9 Q. And is this through your personal or through a  
10 work phone?

11 A. It's personal phone.

12 Q. Okay. So you don't have a work phone. Is  
13 that right?

14 A. No, I don't.

15 Q. Do you use any messaging services for work?

16 A. No.

17 Q. Okay. How frequently are you in contact with  
18 Commissioner Darrell Apffel or his staff?

19 A. Are you looking for months, days? Not very  
20 frequent.

21 Q. Not very -- let's say in a given month how  
22 many times on average would you meet with him?

23 A. On a 12-month average, maybe -- maybe one  
24 time. Maybe zero.

25 Q. Oh, okay. And in what capacity are you

1 meeting with him when you do meet?

2 A. Generally in passing and a hello at  
3 Commissioners Court or a meeting.

4 Q. Got it.

5 Or in a Commissioners Court meeting, you said?

6 A. Yes. If we're there and I'm watching the  
7 meeting or recording the meeting and I see him, we'll  
8 shake hands and say hello.

9 Q. Okay. Thank you.

10 How frequently are you in contact with County  
11 Commissioner Joe Giusti or his staff?

12 A. Very rare. The same thing, maybe in passing  
13 generally or in a meeting we'll say hello if we see each  
14 other.

15 Q. Got it.

16 I am basically going to ask this for each  
17 commissioner. Would you say that you meet with  
18 Commissioner Robin Armstrong once a year as well in  
19 these Commissioners Court meetings?

20 A. Yes, about then.

21 Q. And would you say the same for the late County  
22 Commissioner Ken Clark?

23 A. Yes.

24 Q. And would you say the same for Judge Henry?

25 A. Yes. I will say, going back to Ken Clark, I

1 saw him more frequently because he had an office near my  
2 office in League City, Texas, but it was very rare that  
3 we would, you know, visit.

4 Q. And you would just see each other in passing,  
5 I assume?

6 A. Yes, mostly.

7 Q. That makes sense.

8 How frequently are you in contact with Stephen  
9 Holmes?

10 A. Same answer, very rarely.

11 Q. Same answer, okay.

12 How often would you attend Commissioners Court  
13 meetings?

14 A. About once a month or less.

15 Q. Okay.

16 A. It depends if I have an item on the agenda.

17 Q. Got it.

18 When you were -- when you did have an item on  
19 the agenda, what did that relate to?

20 A. Well, in my course of business, there's  
21 oftentimes where I have to go to a budget hearing or I'm  
22 trying to purchase something and I have to get approval  
23 for that or to pass any number of resolutions, retiring  
24 employees, et cetera.

25 Q. Okay. When you say purchase items, can you

1 describe kind of the things that your office is  
2 purchasing?

3 A. Sure.

4 I'm trying to purchase a building right now,  
5 vehicles.

6 Q. Is that in relation to election  
7 administration?

8 A. Yes.

9 Q. And what is your political affiliation?

10 A. I'm a Republican.

11 Q. How long have you been affiliated with the  
12 Republican Party?

13 A. I don't recall an exact date.

14 Q. Can you give me a timeframe perhaps?

15 A. 2002.

16 Q. Have you ever been affiliated with any other  
17 political parties?

18 A. No.

19 Q. Okay. Thank you.

20 So I think let's move on to some redistricting  
21 questions. So what steps does your office take prior --  
22 I'm sorry. What steps does your office take with  
23 respect to redistricting prior to the adoption of new  
24 redistricting maps?

25 A. I don't recall any -- any functions

1       whatsoever.

2           Q.    Okay.  I'm just going to rephrase it just to  
3       make sure that I'm being clear.

4           So prior to, you know, a new cycle of adopting  
5       new redistricting maps, does your office do any sort of  
6       preparation in light of that?

7           A.    No.

8           Q.    Is your office involved in kind of census --  
9       bless you.

10          A.    Sorry about that.

11          Q.    Is your office involved in collecting census  
12       data for any of the work that you do?

13          A.    No.

14          Q.    Does your office use any of the census data  
15       for the tasks that your employees and staff carry out?

16          A.    Well, explain to me census data as you mean  
17       it.

18          Q.    Sure, sure.

19                Just, you know, every ten years the data that  
20       the federal government sends from the census, do you  
21       guys use that information to inform any decisions that  
22       your office or your staff members carry out?

23          A.    No.

24          Q.    And just to clarify, census data is -- I'm  
25       referring to, you know, population tools or demographic

1 information, thing like that.

2 A. No.

3 Q. Is your office involved in map drawing?

4 A. No.

5 Q. Is your office involved in hiring any sort of  
6 outside consultants for redistricting?

7 A. No.

8 Q. Is your office -- let's see. So following  
9 that, is your office involved in hiring any outside  
10 consultants for any election administration purposes?

11 A. Consultants, no.

12 Q. What about other personnel, other third party  
13 or outside people that you hire?

14 A. Yes. I'm responsible for hiring election  
15 workers and election judges.

16 Q. I see. Is your office involved in setting  
17 timelines for the redistricting process at all or  
18 provide input for timelines?

19 A. No.

20 Q. Is your office involved in setting up public  
21 meetings relating to redistricting?

22 A. No.

23 Q. Does your office -- is your office involved in  
24 receiving any sort of comments from the public as it  
25 relates to redistricting?

1           A.    Well, at Commissioners Court if there's a  
2 public meeting, my staff records that meeting.

3           Q.    I see. I see.

4           A.    But I don't believe they collect the comments.  
5 That's just an open forum unless there is an official  
6 hearing.

7           Q.    Got it.

8                    Did you say that your staff does not collect  
9 the comments?

10          A.    No, we do not.

11          Q.    But they just record?

12          A.    The cameras record, yes.

13          Q.    Okay. That makes sense.

14                   Can you walk us through the process for how a  
15 Commissioners Court meeting is set up, as in is this  
16 like a regularly -- it sounded like it was once a month.  
17 Is that a regular occurrence?

18          A.    So in Galveston County, our Commissioners  
19 Court has voted to have two meetings per month or every  
20 other week, I guess, biweekly meetings. And those are  
21 generally on a Monday unless one of the county  
22 commissioners or judge calls for a special meeting for  
23 something that needs to be rushed or something like  
24 that.

25          Q.    Okay. Do you know who calls the special

1 meetings?

2 A. County Judge.

3 Q. That would be Mark Henry. Is that right?

4 A. Yes.

5 Q. Can you -- can you give me a little bit -- I'm  
6 just trying to understand about the special meeting.

7 Can you give me some information about how that's like  
8 publicized to you or to the other attendees? Like, how  
9 do you find out about when a special meeting is called?

10 A. Okay. So a special meeting, much like any  
11 regular meeting, would be published on a county website.  
12 I also get an email with the full agenda and links to  
13 the backup information.

14 Q. How far in advance of the special meeting do  
15 you typically get like a notice of it?

16 A. Three days.

17 Q. Did you say few days, or did you say two days?

18 A. Three days.

19 Q. Three days?

20 A. Approximately three days, yeah.

21 Q. Okay.

22 A. I've never paid attention to the dates, but I  
23 believe it's -- I think it's at least three days.

24 Q. Okay. And where are the special meetings

25 held?

1 A. Well, the special meetings are held wherever  
2 the County Judge calls them to be held. Generally  
3 speaking, there are two locations that are used. One is  
4 in Galveston; one is in League City, Texas.

5 Q. Got it.

6 And are they -- Galveston, you said?

7 A. Yeah.

8 Q. Is your -- is anyone in your office  
9 responsible for setting up the logistics for these  
10 special meetings?

11 A. No.

12 Q. Is anyone in your office responsible for  
13 posting the notice of the special meeting occurring on,  
14 you know, a county website or something like that?

15 A. No.

16 (Reporter clarification.)

17 A. No.

18 Q. (BY MS. ZHU) Do you know who or which office  
19 is responsible for setting up the logistics of the  
20 meeting and making sure it's publicized?

21 A. Yes.

22 Q. What office would that be?

23 A. That would be the County Judge office --  
24 County Judge's office, Mark Henry's office.

25 Q. Okay. Thank you.

1           And does your office ever work to inform the  
2 Commissioners Court of certain filing periods as it  
3 relates to redistricting and timelines?

4           A.    I don't recall.

5           Q.    Okay. Okay. That's fine. Thank you.

6           So you noted that you come in contact with  
7 these commissioners typically once a year at these  
8 meetings, at these Commissioners Court meetings. Is  
9 your office involved in working closely with any of the  
10 commissioners?

11          A.    No.

12          Q.    Was your office involved in working to obtain  
13 preclearance with the DOJ prior to 2013?

14          A.    Yes.

15          Q.    In what way was your office involved in that  
16 process?

17          A.    I don't remember the specifics, but I remember  
18 having meetings with the DOJ and my county legal  
19 department.

20          Q.    In those meetings, was your office tasked to  
21 carry out any sort of processes from the DOJ, from the  
22 DOJ's direction?

23                   Does that make sense?

24          A.    Yes, it makes sense. I don't recall any  
25 tasks.

1 Q. Can you generally describe what the meetings  
2 were like and the purpose of, you know, people in your  
3 office being involved in those meetings?

4 A. Sure.

5 From what I remember, we would have a call  
6 with the county legal department and the person from the  
7 Department of Justice, and we would run our voting plan  
8 by the DOJ, and it was usually a very brief meeting,  
9 usually by telephone.

10 Q. Did you say -- oh, sorry, did I cut you off?

11 A. No.

12 Q. Did you say voting plan?

13 A. Yes.

14 Q. Can you describe what that kind of entails?

15 A. I don't recall the specifics of it. It's been  
16 a long time.

17 Q. Okay. That's okay. I guess I'm just  
18 wondering. Generally, does that have to do with voting  
19 administration or election ballot? You know, can you --  
20 do you remember generally what that was about?

21 MR. RUSSO: Counsel, just let me, if I  
22 can, just make sure the witness is aware not to reveal  
23 conversations between the County and attorney that  
24 represents the County specifically. If it's a  
25 conversation between the DOJ, that's one thing.

1 I just want to make sure that you understand  
2 there is a privilege, attorney/client privilege between  
3 the attorney and the County.

4 THE WITNESS: Okay.

5 MR. RUSSO: So other than those  
6 conversations, feel free to answer the question.

7 THE WITNESS: Okay.

8 MR. RUSSO: Sorry, Counsel. Thank you.

9 MS. ZHU: Thank you.

10 A. Okay. So I vaguely remember speaking to the  
11 DOJ about who was on the ballot, what contests and  
12 voting locations, how many workers we had. Just  
13 glossing over those details.

14 Q. (BY MS. ZHU) The last thing you said was how  
15 many what we had, I'm sorry?

16 A. Election workers, clerks and judges.

17 Q. Got it.

18 And you also mentioned having voting  
19 locations. Is that right?

20 A. I --

21 Q. I just --

22 A. I don't recall the specifics of it. I believe  
23 that may have been it, but I don't recall for certain.

24 Q. Okay. How many times have you worked on this  
25 sort of preclearance submission to the DOJ?

1 A. I don't recall that number.

2 Q. Can you give me a ballpark estimate?

3 A. Maybe a handful of times.

4 Q. So maybe five? Would you --

5 A. Yeah.

6 Q. -- say three to five?

7 A. Somewhere in there.

8 Q. Okay. That makes sense.

9 So, let's see. Does your office collect any  
10 sort of voter data with respect to racial demographics  
11 of voters in Galveston County?

12 A. No.

13 Q. Does your -- does your office work with any  
14 sort of voter data with respect to racial demographics  
15 of voters in Galveston?

16 A. No.

17 Q. And does your office collect any voter data  
18 with respect to any sort of socioeconomic demographics  
19 in Galveston County?

20 A. No.

21 Q. And what about data based on languages that --  
22 the different languages that voters speak in Galveston  
23 County?

24 A. Yes.

25 Q. Can you describe a little bit about that data

1 | that you collect on language -- on language speaking.

2 | A. I don't collect that data.

3 | Q. Oh.

4 | A. The State must collect it. I don't know who  
5 | does it.

6 | Q. Oh. Do you work with that data at all?

7 | A. I work with the data, yes.

8 | Q. In what capacity?

9 | A. So we program ballot language in Spanish and  
10 | English.

11 | Q. And so what I'm understanding is you use the  
12 | language data to understand where -- like which ballots  
13 | to program and what languages. Is that -- is that  
14 | correct?

15 | A. So, I guess, how it works -- I don't know,  
16 | I'm speculating here -- is that the State or some  
17 | other agency collects that data; and based upon a  
18 | certain population of minority groups, we program in  
19 | different languages. That's speculation, but I'm told I  
20 | program -- when I say I use the data, I use the data  
21 | that's given to me to say either you program in English  
22 | or Spanish or whatever other language there is required  
23 | of it.

24 | Q. I'm so sorry, you cut out at the beginning.  
25 | You said you use that language to what about Spanish?

1           A.    So I program the election ballot in Spanish  
2   and English.

3           Q.    How do you receive this election data? You  
4   said it comes from the State. Is that right? The  
5   language data, sorry.

6           A.    On statewide elections, yes, the Secretary of  
7   State's office translates and puts a list together of  
8   ballot order, and that's given to our office and we  
9   program the ballot using that.

10          Q.    And what kind of data is it specifically? Is  
11   it kind of like a breakdown of Spanish language speakers  
12   or by geography?

13          A.    No.

14          Q.    Can you describe a little bit of what the data  
15   is describing?

16          A.    I don't get any data in that form. I just get  
17   a list of contests in English and in Spanish. That's  
18   all I get.

19          Q.    Lists of contests in English and Spanish, is  
20   that what you said?

21          A.    Yeah. So that could be governor A versus  
22   governor B, for instance, and that would be written in  
23   Spanish and also written in English, and I would program  
24   the ballot based on what they provided. But as far as  
25   data to back that up, I don't get any of that

1 information.

2 Q. Okay. Got it.

3 So it sounds like they're just sending you a  
4 list, right, of where --

5 A. Yes.

6 Q. -- to program --

7 Okay. Got it.

8 Let's see. And does your office collect any  
9 data with respect to political demographics of voters in  
10 Galveston?

11 A. Say that one more time, the beginning.

12 Q. Does your office collect any data with respect  
13 to political demographics of voters in Galveston?

14 A. Yes.

15 Q. Can you discuss some of that sort of data?

16 A. Sure.

17 We basically count votes, and depending on the  
18 party -- sorry -- depending on the contest, it will be  
19 broken down by party.

20 Q. I see.

21 Do you share this voter data with anyone?

22 A. Yes.

23 Q. And who are you typically sharing the data  
24 with?

25 A. The general public, because it's posted on our

1 website; the Secretary of State's office, we report  
2 results to the Secretary of State; and anybody who  
3 requests that information via open records request.

4 Q. Right.

5 A. But it's all on our website.

6 Q. Got it.

7 Do you use this voter data to inform any sort  
8 of decision-making that goes on in your office?

9 A. No.

10 Q. And to your knowledge, do any of the  
11 commissioners or Judge Henry use this voter data to  
12 inform their decision-making as it relates to their job  
13 responsibilities?

14 A. I'm not aware of that information.

15 Q. Okay. Thank you.

16 Does your role as County Clerk require you to  
17 be familiar with certain socioeconomic or racial or  
18 demographic data of Galveston County?

19 A. Is it required? No.

20 Q. What about, is it helpful to have this  
21 familiarity?

22 A. Yes.

23 Q. In what ways would it be helpful to you in  
24 your job?

25 A. I think it's a good idea just to know your

1 population --

2 Q. Yeah.

3 A. -- overall, uh-huh.

4 Q. That makes sense.

5 Does your office collect data with respect to  
6 health outcomes by race at all?

7 A. No.

8 Q. What about education outcomes by race?

9 A. No.

10 Q. Or socioeconomic status by race?

11 A. No.

12 Q. Okay. Can you -- can you walk me through the  
13 steps that the County takes after a newly redistricted  
14 map is adopted by the Commissioners Court?

15 A. I could speak to the part that I'm aware of,  
16 yeah.

17 Q. That would be great.

18 A. So -- so the commissioners would draw their  
19 lines, and they would vote on it. And after they would  
20 vote on the lines and they are approved, those lines are  
21 put in place. I don't know where; I don't know who  
22 draws those lines up. In the end at a much later date,  
23 I get that information when it's election time. And I  
24 don't get it just handed to me on a platter; it's just  
25 in the -- in the voter information. So if Molly Zhu

1 | lives in Precinct 1, she would get these certain

2 | contests, and that's how I get it.

3 | (Reporter clarification.)

4 | A. She would get certain contests. And by that I

5 | mean Precinct 1 Commissioner, Senator District 23. You

6 | know, it could be a number of elected officials that she

7 | gets to vote on. We call those voter entitlements.

8 | Q. (BY MS. ZHU) Did you say voter entitlements?

9 | A. Yeah. That's the term that is used at the  
10 | state level. It means the voter is entitled to these  
11 | certain races on their ballot.

12 | Q. I understand.

13 | THE WITNESS: I don't talk very loud.

14 | MR. RUSSO: Just so you know, the  
15 | microphone is actually on that TV. So where that is  
16 | doesn't make a difference.

17 | Sorry, Counsel.

18 | MS. ZHU: No problem.

19 | Q. (BY MS. ZHU) I just want to make sure I  
20 | caught what you said. Did you said you do or do not get  
21 | the information handed to you on a platter?

22 | A. I do not. I just -- I'll see a map and that's  
23 | it.

24 | Q. When you say you see a map, you see the newly  
25 | redistricted map and you --

1 A. Yeah, I just view it.

2 Q. So to assess the voter entitlements that you  
3 were discussing, do you only reference the map? Is  
4 there anything else you reference to assess these voter  
5 entitlements?

6 A. Yeah. So we'll look at the state database,  
7 and that's -- the state database I look at is called the  
8 TEAM System. It's an acronym for Texas Election  
9 Administration Management, and the Texas Secretary of  
10 State's office manages that software.

11 Q. And what sort of information is in the State  
12 database that you're referencing?

13 A. What I spoke about earlier would be the voter  
14 entitlements. So that would be -- so if Molly Zhu was  
15 in Precinct 2 and they redistricted and you're now in 1,  
16 I would have that information of your new entitlements.

17 Q. Okay. Got it.

18 A. I don't believe there's any maps in there, but  
19 I could be mistaken.

20 Q. Okay.

21 A. It's just voter data, uh-huh.

22 Q. Understood.

23 So, I just want to -- I'm going to ask a  
24 few questions about reprecincting and redistricting.  
25 And I just want to make clear that when I'm saying

1 reprecincting, I'm talking about redrawing voter  
2 precincts so that every voter is in a single voter  
3 precinct with a correct district. And when I say  
4 redistricting, I'm referring to redrawing congressional,  
5 legislative and county level district boundaries, just  
6 so we don't get too confused.

7 A. Okay.

8 Q. So do you know the timeline of the  
9 redistricting process?

10 A. I know generally that it's every ten years.

11 Q. Do you know how soon -- how soon the  
12 reprecincting process starts following redistricting?

13 A. No, I don't.

14 Q. Okay. Do you know if there are any  
15 requirements as to the timeline that reprecincting has  
16 to be carried out?

17 A. I don't recall.

18 Q. Is your office involved with the reprecincting  
19 process in any way?

20 A. No.

21 Q. Do you know what data is needed to reprecinct?

22 A. No, I don't.

23 Q. Do you know if any of the county commissioners  
24 or Judge Henry is involved in reprecincting?

25 A. Yes, I think they are, uh-huh.

1 Q. Okay. Do you know if the county commissioners  
2 are able to redraw lines within their own districts for  
3 reprecincting?

4 A. I don't know for certain.

5 Q. Okay. Do you know how the public is notified  
6 about redrawn voter precincts?

7 A. I recall public hearings, and then there's a  
8 meeting in Commissioners Court, at least -- at least one  
9 that I'm aware of. I think more, but I'm not for  
10 certain.

11 Q. When you say public hearings, can you describe  
12 what -- can you describe those public hearings? How are  
13 they different from the Commissioners Court hearings?

14 A. So -- so there will be a public hearing within  
15 the meeting of the Commissioners Court, so as -- one of  
16 the items on the agenda, they will open it up to public  
17 comment, the commissioners will, and they'll show the  
18 maps. But, again, that's just brief recollection of it.

19 Q. Okay. So that's how the public kind of --  
20 that's how the public comment goes, is to be discussed  
21 at these public hearings is what I'm hearing from you,  
22 but how is the public notified that the voting precincts  
23 will be redrawn or are redrawn? Like, how do they get  
24 the notice of that?

25 A. I don't know. I'm not aware of that.

1 Q. Okay. No worries.

2 MS. ZHU: So I'm going to ask Kathryn to  
3 enter in an exhibit, or George. I'm not sure who is  
4 entering in the exhibit today, but --

5 MR. LIBBARES: I got it. It's George.

6 MS. ZHU: Okay. Thank you, George. It  
7 should be tab 1, and the Bates range should be  
8 DEFS00007849 through 52.

9 MR. LIBBARES: Sure. Stand by, please.

10 MS. ZHU: Let me see if I can see it on  
11 my screen.

12 (Exhibit 1 marked.)

13 MS. ZHU: Just let me know when you can  
14 see the email.

15 MR. LIBBARES: Okay. You should be able  
16 to see it now. Do you want it displayed on screen?

17 MS. ZHU: That would be great.

18 MR. RUSSO: Hey, Molly, are you all using  
19 that other drop system, or are we getting away from  
20 that?

21 MS. ZHU: I'm not familiar with this drop  
22 system you're referring to, but this is perfectly fine  
23 for me.

24 Q. (BY MS. ZHU) Mr. Sullivan, you can see the  
25 screen, I assume. Right?

1 A. Yes.

2 Q. Okay.

3 MS. ZHU: I think this works. So I would  
4 love it if you could scroll down to page -- the bottom  
5 of page 1, the last bullet point into page 2. Right.  
6 Right there. Maybe scroll down a little bit more.  
7 That's perfect, actually.

8 Q. (BY MS. ZHU) So, Mr. Sullivan, this is just  
9 an email that it looks like William Sergeant sent to  
10 Mark Henry and others. You are cc'd on this email on  
11 June 29, 2012. It looks like it's discussing the  
12 November election cycle. Can you just read that last  
13 bullet point there starting from -- maybe starting from  
14 the bracketed section. So after "There are a number of  
15 current precincts" -- I'm sorry, you know what? Can you  
16 read from the entire bullet point? That would be really  
17 cool.

18 I'm sorry, do you mind reading it out loud?

19 A. Oh, okay. Sure.

20 Q. Thank you.

21 A. I'm going to start at the line that says  
22 "There are a number of." Is that what you're talking  
23 about?

24 Q. Perfect. Thank you.

25 A. Okay.

1           There are a number of current precincts that  
2           are split between two different commissioners. The  
3           commissioners will need to reconfigure these so that  
4           they reflect the agreed upon maps. (For example,  
5           Precinct 222 has a band of territory belonging to  
6           Commissioner Holmes' district running right through  
7           Commissioner O'Brien's district. Precinct 223 has  
8           several blocks that are now in Commissioner Holmes'  
9           district. We assume that Mr. Holmes and Mr. O'Brien  
10          will want to redraw the lines within their own districts  
11          to form new precincts and perhaps redesignate their  
12          nomenclature.)

13          Q. Thank you.

14                 And do you mind reading the bullet point after  
15          that as well?

16          A. The issue here is timing. In order for the  
17          County Clerk to comply with the MOVE Act requirements  
18          (for example, to start mailing ballots to overseas  
19          voters by no later than 45 days prior to a Federal  
20          election) we must have completed the programming of the  
21          ballots, have them proofed/accepted by the political  
22          parties, and the logic and accuracy testing of the  
23          election equipment.

24                 In order for us to meet the -- go ahead?

25          Q. No, that's perfect. Thank you.

1           So now that you've reviewed this section of  
2 the document, do you recognize this email?

3           A.    I don't recall this email, but it looks like  
4 something that one of my employees had sent.

5           Q.    Right. And your name is on the list as a  
6 recipient of the email. Is that right?

7           A.    I didn't see that part of it, but I'll take  
8 you at your word.

9                       MS. ZHU: George, if you could scroll up.

10          Q.    (BY MS. ZHU) I think you're cc'd on this one.

11          A.    Okay.

12                       MS. ZHU: George, if you could scroll up  
13 to the first page, right there.

14          A.    Okay. I saw it. Uh-huh.

15          Q.    (BY MS. ZHU) Okay. And the date as well is  
16 June 29, 2012. Do you see that?

17          A.    I do, yes.

18          Q.    Okay. Great.

19                       Does this refresh your memory at all to reread  
20 this email?

21          A.    No.

22          Q.    Okay. And the email is from William Sargent.  
23 Who is William Sargent?

24          A.    William Sargent was my Chief Deputy of  
25 Elections, so he ran my elections department for a

1 period of time.

2 Q. Okay. I see.

3 What do you think William Sargent is referring  
4 to when he says so that your office and ours can get our  
5 jobs done in a timely manner? This is --

6 A. So -- go ahead, I'm sorry.

7 Q. Oh, go ahead.

8 A. So my understanding of what he wrote there is  
9 it looks like redistricting was in process, and he saw  
10 something on one of the maps probably that was at a  
11 public hearing or something. I'm speculating.

12 And what he meant by that was that if -- let's  
13 just say you have a precinct, which would be like a  
14 piece of pizza, okay, and then you cut that piece of  
15 pizza in half. But before that pizza was cut, it was  
16 all Precinct, say, 1, so 101, 102, 103, all the way to  
17 108. There was eight slices. Then if you cut that in  
18 half for a county commissioner precinct line, so all of  
19 a sudden half the pizza is commissioner Precinct 1, half  
20 the pizza is Precinct 2. But if you didn't renumber the  
21 pizza slices and they all stayed 101 through 108, from  
22 what I read here, he's saying you may want to renumber  
23 half those pizza slices to 201, 202, et cetera, so that  
24 the precinct numbers match the county commissioner  
25 precinct. That's kind of my explanation of that. And

1 by him saying --

2 Q. And --

3 A. Go ahead.

4 Q. Oh, no, sorry. I didn't mean to cut you off.

5 A. So I don't know if that's a good explanation,  
6 but that's how I read it.

7 And then also to get our jobs done timely,  
8 what he means by that is federal law makes -- makes us  
9 mail out ballots 45 days prior to an election. So those  
10 are hard deadlines set by the federal government for  
11 everybody in the United States. And so if you have  
12 someone that lives, say, in Germany and they were in the  
13 military, we would have to mail their ballot 45 days  
14 prior to the Election Day. And so if you look at a  
15 timeline of that, 45 days is the day we have to mail it.  
16 Prior to that, there's a lot of steps involved in an  
17 election, such as creating the ballot, programming the  
18 ballot, testing the ballot with the parties, testing the  
19 ballot in public, making sure it's accurate and, of  
20 course, mailing it.

21 (Reporter clarification.)

22 A. Mailing it would be the last step. So that's  
23 what he was referring to.

24 Q. (BY MS. ZHU) Got it.

25 MS. ZHU: And, George, could you just

1 scroll all the way up, please, so we can see the  
2 recipients on that first email at the top?

3 Q. (BY MR. ZHU) So, Mr. Sullivan, I don't know  
4 if you can see this. On my screen it just disappeared,  
5 but I have it pulled up. Can you just -- can you tell  
6 me who that first email is from?

7 MR. RUSSO: Hang on a second. We'll pull  
8 it up on this, our own copy here.

9 MS. ZHU: Okay. Yeah. Take your time.

10 MR. RUSSO: Okay. I'll make it bigger.

11 A. Okay. So the email I'm looking at is Exhibit  
12 No. 1. Is that what you're looking at?

13 Q. (BY MR. ZHU) I actually can't see it on my  
14 screen now and I'm not sure why, but I have pulled up  
15 Exhibit 1, yes.

16 A. Okay.

17 THE REPORTER: Excuse me, Ms. Zhu?

18 MS. ZHU: Yeah.

19 THE REPORTER: I believe the concierge  
20 may have gotten kicked off the call.

21 THE VIDEOGRAPHER: Oh, is he no longer on  
22 the call?

23 THE REPORTER: I don't see him.

24 MS. ZHU: Oh.

25 THE VIDEOGRAPHER: I don't see him

1 either. Should I bring us off the record until he's  
2 able to come back?

3 MS. ZHU: Yes, let's do that.

4 THE VIDEOGRAPHER: Okay. Going off the  
5 record at 10:23.

6 (Break from 10:23 a.m. to 10:26 a.m.)

7 THE VIDEOGRAPHER: We are back on the  
8 record at 10:26.

9 Q. (BY MS. ZHU) Okay. So, Mr. Sullivan, if you  
10 could just read the top part of that email at the  
11 beginning of the page. Can you tell me who sent the  
12 email, who is it sent to, and the date?

13 A. Sure.

14 William Sargent, he was an employee with my  
15 office. He sent it to Cheryl Johnson who was the voting  
16 registrar. The date was June 29 of 2012 at 4:41 p.m.  
17 Central Time.

18 And what else?

19 Q. And who it was sent to?

20 A. Oh, I'm sorry. It was sent to Cheryl Johnson.  
21 She's the voter registrar for Galveston County. Copied  
22 was Susan Williams. She was my employee in elections.  
23 Sheryl Swift was an employee in the voter registration  
24 department. Shon Fragoso was one of my employees in  
25 elections. Dominique Allen was one of Cheryl Johnson's

1 employees in the voter registration department. Cindy  
2 Eddy worked for me. And then that was me last.

3 Q. Okay. Thank you.

4 So going back to the text of the email, it was  
5 discussing, you know, the timely manner. Did your  
6 office communicate any of the deadlines described in  
7 this email to the commissioners?

8 A. I would have to read the email. I don't  
9 recall this.

10 Q. Do you want to take the time to review it?

11 A. Sure.

12 Q. Okay. Please take your time.

13 A. Okay.

14 Q. Okay. Great.

15 So just going back to, my last question was  
16 did your office communicate the deadlines or timelines  
17 described in this email to the commissioners?

18 A. For the 2010 census, it looks like yes.

19 Q. Okay. I just want to direct your attention to  
20 a few different lines in this document. So, the first  
21 one is part of the line I had you read in the beginning.  
22 This is at the end of page 1 following into the top of  
23 page 2 where you read, We assume that Mr. Holmes and  
24 Mr. O'Brien will want to redraw the lines within their  
25 own districts to form new precincts.

1 Do you see that line?

2 A. Yes.

3 Q. So do you agree that that's discussing that  
4 Commissioner Holmes and Commissioner O'Brien -- and  
5 Mr. O'Brien are able to redraw their lines to form new  
6 precincts in their own districts?

7 A. Yes.

8 Q. Are you aware of any guidelines or rules  
9 associated with commissioners who decide to reprecinct  
10 in this way?

11 A. No.

12 Q. Do you know if the commissioners would use any  
13 sort of data to reprecinct in this way?

14 A. I don't know.

15 Q. Would you know if anyone has to provide  
16 sign-off for a commissioner to reprecinct in this way?

17 A. Can you repeat that? Sign off for what, I'm  
18 sorry?

19 Q. Sure.

20 Do you know if anyone has to provide sign-off  
21 for a commissioner to reprecinct in this way?

22 A. I don't know.

23 Q. Do you know if the County Judge is involved in  
24 reprecincting?

25 A. I don't know.

1 Q. And lastly, do you know who makes final  
2 decisions on final voting precinct lines?

3 A. I don't know the answer to that, no.

4 Q. And I want to jump back a little bit now to  
5 the discussion you had about public comments. We were  
6 discussing how there are public hearings, including  
7 Commissioners Court hearings where the public can give  
8 feedback and they're shown the newly redrawn maps.  
9 During this process, can the public also comment on  
10 reprecincting?

11 A. I don't know the answer to that.

12 Q. Have you -- are you aware of any public  
13 meetings, public hearings where the public has commented  
14 or given feedback on reprecincting?

15 A. Yes.

16 Q. Which sorts of meetings are those? Can you  
17 describe those?

18 A. I don't recall the name of the meeting, but I  
19 believe there was a meeting that I -- or at least I saw  
20 on video where there was public comment in Commissioners  
21 Court.

22 Q. At Commissioners Court, okay.

23 A. Yeah, in Commissioners Court, uh-huh.

24 Q. Thank you.

25 Has your office ever received complaints or

1 feedback from the public before about the assignment of  
2 voter precincts?

3 A. I don't recall any.

4 Q. Does your office take any initiative to seek  
5 feedback on these planned voter precincts?

6 A. No.

7 Q. On the bottom of page 2 on this exhibit, it  
8 looks like William Sargent notes -- and I'm just going  
9 to read from it:

10 Attached to this email is a list of our  
11 current voting precincts or splits which shows that a  
12 lot of them will need to be changed, redrawn or renamed.  
13 We need you to start now, considering what you want to  
14 do about changing precincts, so that when August 1 comes  
15 you can act quickly. If you would like us to hold a  
16 workshop with you, we will be happy to do so?

17 Do you see that?

18 A. I do, yeah.

19 Q. Do you know what kind of workshop William  
20 Sargent is referring to?

21 A. No.

22 Q. And are you aware of who would be attending  
23 that sort of workshop?

24 A. No.

25 Q. And are you aware of the parameters as to why

1 the workshop was necessary?

2 A. No.

3 Q. Okay.

4 A. Well, he does talk about the parameters above,  
5 I guess.

6 Q. What do you mean by that?

7 A. It says attached in the email is a list of  
8 current voting precincts and splits, which shows that a  
9 lot of them need to be changed, redrawn or renamed. So  
10 that would be probably the question you were asking me,  
11 why.

12 Q. The purpose of the workshop, you mean?

13 A. Yeah.

14 Q. Okay. Thank you.

15 Do you know if your office generally holds  
16 workshops on elections for commissioners?

17 A. Generally, no. This year was different  
18 because we were applying for vote center certification  
19 from the State.

20 Q. What was covered in this year's workshop on  
21 elections for the commissioners relating to the vote  
22 centers?

23 A. I don't recall all of the details of it, but  
24 you have to meet certain criteria to apply for a vote  
25 center county so you can have voting anywhere on

1 Election Day.

2 Q. Got it.

3 A. As far as the criteria, I don't recall.

4 Q. Okay.

5 THE WITNESS: If we get a little break, I  
6 could use a restroom break.

7 MS. ZHU: Oh, absolutely. I believe that  
8 we are done with this section anyway. I was just  
9 reviewing my notes. Yeah, let's call a break. Let's do  
10 15 minutes, if that's okay.

11 MR. RUSSO: All right.

12 THE VIDEOGRAPHER: Going off the record  
13 at 10:37.

14 (Break from 10:37 a.m. to 11:12 a.m.)

15 THE VIDEOGRAPHER: We are back on the  
16 record at 11:12.

17 Q. (BY MS. ZHU) Mr. Sullivan, did you talk to  
18 anyone just now during the break that we took?

19 A. Yes.

20 Q. Who did you speak with?

21 A. Mr. Russo and Ms. Jordan.

22 Q. And what did you speak about?

23 A. Golf and the weather, essentially.

24 Q. Okay. And did you discuss anything in  
25 relation to your testimony in today's deposition?

1 A. No.

2 Q. And where did this conversation take place?

3 A. In the lobby and in the office right here.

4 Q. Is it accurate that no one else is in the room  
5 with you still for today's deposition other than your  
6 two attorneys?

7 A. That's correct, yes.

8 Q. Is it accurate still that no other documents  
9 are in front of you for today's deposition?

10 A. That is correct.

11 Q. Okay. Great.

12 So let's move on to the specific redistricting  
13 cycles now. In 2011, what was your role in the County's  
14 redistricting process?

15 A. I had no role.

16 MS. ZHU: Okay. I would like to  
17 introduce the next exhibit. It should be tab 2, I  
18 believe, and, George, if you could pull that up, that  
19 would be great.

20 MR. LIBBARES: Sure.

21 (Exhibit 2 marked.)

22 MS. ZHU: Okay. Thank you. Can you  
23 scroll down to the first page -- or, I'm sorry, the  
24 second page. Great.

25 Q. (BY MS. ZHU) Mr. Sullivan, do you recognize

1 this document?

2 A. No. No.

3 Q. So I'm just reading from it. It looks like  
4 it's a letter on October 14, 2011 regarding the  
5 submission under Section 5, Voting Rights Act of 2011,  
6 redistricting of commissioner precincts for Galveston  
7 County, Texas and request for expedited consideration.  
8 And this seems to be a letter to the voting section, to  
9 the DOJ from Galveston County. Is that right?

10 A. Yes, it looks to be.

11 Q. Okay. Great.

12 MS. ZHU: George, can you please scroll  
13 to page 51 of the document, of the PDF? It should be  
14 like 51 out of 90.

15 THE WITNESS: I'm sorry, this is Dwight.  
16 Am I supposed to scroll on my own here?

17 MR. LIBBARES: You can. If you have  
18 access to Exhibit Share, you can pull it up on your own  
19 computer.

20 THE WITNESS: Okay. And we have that.

21 A. Did you say 51.90?

22 Q. (BY MS. ZHU) Yes. Yes, at the top it should  
23 say -- on the top right-hand corner, it should say page  
24 51 of 90. Let me know when you see it.

25 A. I'm there now, uh-huh.

1 Q. Okay. Great.

2 So this page shows -- I am just reading from  
3 it. It's from the Galveston County Commissioners Court  
4 noting that it will conduct public hearings on the 2011  
5 redistricting process of County Commissioner and Justice  
6 of the Peace precincts as follows. And then you'll see  
7 there are four meetings on this page, and if you scroll  
8 to page 52, there's a fifth meeting.

9 Do you see that?

10 A. I do, yes.

11 Q. Okay. Great.

12 So are you familiar with this document?

13 A. I don't recall the document, but now that I've  
14 seen it, yeah.

15 Q. So like I said, this document is showing five  
16 planned public hearings at various locations throughout  
17 Galveston County to receive public comment on the 2011  
18 redistricting process. Are you aware of how these  
19 public comment locations were chosen?

20 A. No.

21 Q. Do you know if anyone who helped give their  
22 input as to where these public comment locations should  
23 be?

24 A. No, I'm not aware of that.

25 Q. Did you meet with any of the commissioners or

1 Mark Henry about the redistricting map --

2 A. No.

3 Q. -- in 2011?

4 Did you meet with any of the commissioners or  
5 Mark Henry about -- to discuss the preclearance  
6 submission in 2011?

7 A. I don't recall that.

8 Q. You mentioned previously that your office had  
9 collected voter data relating to -- voter partisan data.  
10 Had any of the commissioners requested that data as it  
11 relates to the 2011 redistricting?

12 A. I don't recall that request.

13 Q. Has -- for any of the third parties that were  
14 hired to redraw maps in 2011, did they request any sort  
15 of voter partisan data from your office?

16 A. I don't recall any information being  
17 requested.

18 Q. Had any sort of -- had any voter partisan data  
19 been requested from third party firms who were tasked to  
20 redraw maps in 2021?

21 A. No, not that I recall.

22 Q. Okay. Did you have any discussions with any  
23 of the commissioners or Judge Henry about public  
24 comments in relation to the 2011 redistricting process?

25 A. No.

1 Q. Do you know if any of the public hearings were  
2 designed specifically to provide more opportunity for  
3 public comment from racial minority groups in Galveston  
4 County?

5 A. I am not aware of that information.

6 Q. Are you aware that -- are you aware that, as  
7 part of the preclearance submission, it was required to  
8 include minority community contacts?

9 A. No, I did not know that.

10 Q. Okay. If not the County Clerk's office, who  
11 handles the logistics of setting these public comment  
12 meetings and publicizing them?

13 A. The County Judge Mark Henry or whoever the  
14 County Judge is at the time.

15 Q. Does anyone in your office provide any support  
16 to the County Judge or that office in setting those  
17 meetings?

18 A. No.

19 Q. Does anyone in your office assist with posting  
20 anything on the website relating to notice for these  
21 meetings?

22 A. No.

23 Q. Do you know who is tasked with posting  
24 information about these meetings on the website?

25 A. I do not know. I'm assuming it's the County

1 Judge, but I don't know.

2 Q. Is it correct to say that your office is in  
3 charge of updating the website generally?

4 A. No.

5 Q. Which office or who is tasked with that job?

6 A. I don't know the answer to that. There's a  
7 multitude of departments. So, depending on the topic,  
8 it could be a different answer for everybody.

9 Q. I see.

10 Does your office update the website as it  
11 relates to the job responsibilities of your office?

12 A. I believe IT does.

13 Q. And what kinds of updates do they make to the  
14 website, does your office make to the website?

15 A. With regard to job duties or other?

16 Q. Just generally.

17 A. So the updates we would do would be like  
18 filing fee changes. A lot of the data that's on the  
19 website or how you search for court cases is populated  
20 automatically, and some of the things that we have on  
21 our website or the county website are done through other  
22 departments. Such as human resources job postings, I'm  
23 not aware who does that.

24 Q. Got it.

25 Can you please scroll to page 16 -- I'm sorry,

1 page 15 of 90. Just let me know when you have it pulled  
2 up.

3 A. Okay. I'm there.

4 Q. So do you recognize this document?

5 A. Can I have a minute to read it?

6 Q. Of course.

7 A. I'm not familiar with the document, no.

8 Q. Okay. That's fine.

9 Can you scroll to page 16 of 90? It's just  
10 the page immediately following.

11 A. Yes, I'm there.

12 Q. Do you see your signature at the bottom?

13 A. Yes, I do.

14 Q. So is it correct to say you have seen this  
15 document before, presumably on the day you signed?

16 A. No.

17 Q. Did you say no?

18 A. Yes.

19 Q. So you had not seen this document but you had  
20 signed it?

21 A. I have seen the signature page and I signed  
22 it. I signed attesting to the County Judge's signature.

23 Q. Okay.

24 A. But I generally don't read any of the  
25 documents because we get upwards of a thousand per week.

1 So I just sign that Mark Henry signed his name.

2 Q. Okay. So to what extent were you involved  
3 with the meeting that's described on page 15, which  
4 is -- which was held on August 30th of 2011 with the  
5 Commissioners Court of Galveston attending as well as  
6 Judge Mark Henry?

7 So, I'm sorry, just to wrap up, what -- in  
8 terms of this meeting, what was your involvement?

9 A. I had no involvement other than to attest to  
10 Mark Henry's signature.

11 Q. Okay.

12 A. I take that back. My office records the  
13 documents. So we were the recorder of records for the  
14 County, so a member of my staff was probably there  
15 gathering that information for storage.

16 Q. Okay. So just to understand, when we see your  
17 signature on a Commissioners Court meeting, does that  
18 mean that you also did not read those documents?

19 A. It depends on the document, but generally  
20 speaking, I did not read the document.

21 Q. Okay. Is there a type of document that you  
22 always read, that you always review before signing?

23 A. In regards to County Commissioners Court or  
24 just generally speaking?

25 Q. In terms of County Commissioners Court

1 meetings.

2 A. No, I can't say there is, no.

3 Q. Okay. Let's see. Did the County ever discuss  
4 redistricting criteria in 2011, whether or not it was  
5 ultimately adopted?

6 MR. RUSSO: Objection, speculation.

7 THE WITNESS: Answer or no?

8 MR. RUSSO: Yeah, you can answer.

9 A. I can't answer that. I don't know that  
10 information.

11 Q. (BY MS. ZHU) Okay. Do you know what the  
12 timeline was for redistricting under preclearance?

13 A. No, I don't.

14 Q. And when do you receive census data that would  
15 have -- that would inform redistricting?

16 A. I do not know.

17 Q. Do you know how long it takes to process the  
18 census data?

19 A. No, I don't.

20 Q. Do you know when map proposals for  
21 redistricting are required for submission?

22 A. I don't.

23 Q. And are you aware of the timeline of when the  
24 County is meant to finalize its proposed redistricting  
25 maps?

1 A. No.

2 Q. Okay. What was your role in submitting  
3 Galveston County's 2011 redistricting proposal to the  
4 DOJ for preclearance?

5 A. I don't recall any involvement in it.

6 Q. Were you involved in hiring the law firm  
7 Beirne, Maynard & Parsons, LLP as a map consultant in  
8 2011?

9 A. No.

10 Q. Are you familiar with Galveston County's 2011  
11 Commissioners Court and their Justice of the Peace and  
12 Constable redistricting proposals to the DOJ for  
13 preclearance?

14 A. No, I'm not familiar with it.

15 Q. Previously you had discussed you had worked  
16 with the DOJ in regards to preclearance, and that  
17 related to ballots and voting. Is that right?

18 A. I do not recall the details of it. I do  
19 remember having meetings with them, but that was a long  
20 time ago.

21 Q. And none of those -- and did any of those  
22 meetings involve redistricting at all?

23 A. I do not recall them involving redistricting,  
24 no.

25 Q. Are you aware of -- just to clarify your last

1 answer, does that mean you're sure that the preclearance  
2 meetings you had with the DOJ did not involve  
3 redistricting, or that they might have involved  
4 redistricting but you don't know?

5 A. I do not recall specifically any redistricting  
6 meetings, so I don't know.

7 Q. Okay. Are you aware of the proposed  
8 commissioners precinct map in 2011?

9 A. Am I aware of it? I'm sorry, what was the  
10 question?

11 Q. Are you aware of the proposed commissioners  
12 precinct map in 2011?

13 A. I don't know which proposed, so I would have  
14 to say no, I'm not. I don't know any details of it.

15 Q. Have you seen the proposed maps?

16 A. I can't say that I -- no. I've seen the final  
17 map.

18 Q. Okay. Are you aware that the map in 2011  
19 purported to add Bolivar Peninsula to Galveston Island  
20 to form one district?

21 A. No, I'm unaware of that.

22 Q. What do you recall about the Justice of the  
23 Peace and Constable precinct proposals from 2011?

24 A. I have no recollection of that.

25 Q. Okay. I would like to introduce the next

1 exhibit.

2 MS. ZHU: I believe this should be tab 3.

3 (Exhibit 3 marked.)

4 Q. (BY MS. ZHU) Just let me know when you can  
5 see it.

6 A. We can see it.

7 Q. Okay. Do you recognize this document?

8 A. Give me one second to look at it, if that's  
9 okay.

10 Q. Sure, sure. Please.

11 A. It's a long document. I didn't read the whole  
12 thing, but I do not recall this document or ever seeing  
13 it.

14 Q. Okay. So this document is a letter that lays  
15 out the DOJ's denial of the proposed redistricting from  
16 2011, although it's dated March 5, 2012, and it is  
17 addressed to James Trainor of Beirne, Maynard & Parsons.  
18 Is that right?

19 A. Yes, that's what I see.

20 Q. Okay. Great.

21 So on page 2 of the PDF in the middle of  
22 paragraph 3, it reads -- it reads -- it's basically  
23 listing reasons as to why the preclearance was denied,  
24 and in this part of the paragraph it says:

25 We start with the County's failure to adopt,

1 as it had in previous redistricting cycles, a set of  
2 criteria by which the County would be guided in the  
3 redistricting process. The evidence establishes that  
4 this was a deliberate decision by the County to avoid  
5 being held to a procedural or substantive standard of  
6 conduct with regard to the manner in which it complied  
7 with the constitutional and statutory requirements of  
8 redistricting.

9 Do you see that?

10 A. No, I do not, I'm sorry.

11 Q. Oh, it's okay. It's on --

12 A. You said page 2?

13 Q. Yes, it's on page 2. And I just read  
14 paragraph 3. So it says -- starting with "Based on our  
15 analysis."

16 A. Okay. I see it now.

17 Q. Are you aware that this was a reason for the  
18 DOJ to not extend preclearance in 2012?

19 A. No.

20 Q. Do you see on page 2, beginning paragraph 4,  
21 so the paragraph right below it, there's a discussion  
22 about the deliberate exclusion from meaningful  
23 involvement in key deliberations by minority/majority  
24 elected commissioners.

25 Do you see that?

1 A. Yes.

2 Q. The beginning, yeah.

3 And this is discussing another reason for  
4 denial of preclearance. Are you aware that this was a  
5 reason for the DOJ not to extend preclearance in 2012?

6 A. No.

7 Q. On the top of page 3, there's a line that's  
8 discussing the impact of the plan on minority groups and  
9 the concomitant loss of the ability of minority voters  
10 to elect a candidate of choice to office in Precinct 3  
11 which -- resulting from adding Bolivar Peninsula to  
12 Precinct 3.

13 Do you see that?

14 A. Yes.

15 Q. And are you aware this was a reason for the  
16 DOJ to not extend preclearance in 2012?

17 A. No, I didn't know that.

18 Q. Okay. Last -- lastly, on page 3 the top of  
19 this second paragraph, do you see where it says the fact  
20 that this retrogression in minority voting strength was  
21 neither required nor inevitable to balance populations  
22 was another reason for the DOJ to not extend  
23 preclearance?

24 A. Okay. I see that, yeah.

25 Q. And are you aware this was a reason --

1 A. No.

2 Q. -- to not extend clearance?

3 Okay. Is any of the information that we just  
4 covered in this letter, has it been used to inform your  
5 office in making elections decisions post 2012?

6 A. I do not recall this information being used.

7 Q. So just circling back to a discussion we had  
8 on preclearance, I think you had mentioned that you  
9 worked with the DOJ on preclearance about three to  
10 five times, a handful of times previously. Would you  
11 have reviewed other preclearance submissions or denial  
12 letters to prepare for working on preclearance  
13 submissions?

14 Does that make sense?

15 A. Yeah, but I did not do that.

16 Q. Do you know who -- who was reviewing these  
17 denial letters to prepare for preclearance submissions?

18 A. Yes, I do. That was the county legal  
19 department.

20 Q. Prior to --

21 A. In --

22 Q. Go ahead, I'm sorry.

23 A. In particular, one attorney, but he just  
24 recently passed. Harvey Bazaman was the one who was in  
25 charge of that.

1 Q. Got it.

2 And prior to 2013, what kinds of election  
3 changes would you consider the need to obtain  
4 preclearance for?

5 A. What kind of what? I'm sorry, can you ask me  
6 again?

7 Q. Yeah, absolutely.

8 Prior to 2013, what types of election changes  
9 would you need to obtain preclearance for?

10 A. I don't recall.

11 Q. I think you had previously mentioned something  
12 about voting locations and ballots. Do you remember  
13 that discussion?

14 A. I do, uh-huh.

15 Q. If that helps to jog your memory, can you  
16 discuss a little bit about those types of election  
17 changes that you sought preclearance for?

18 A. Well, I don't remember in particular.  
19 Specifically, I cannot name exactly. I remember  
20 speaking about those topics generally, but as far as  
21 changes, I don't know the answer to that because it's  
22 been a long time.

23 Q. Understood.

24 What was your understanding for the standard  
25 of preclearance? In other words, why would -- why would

1 something be denied preclearance?

2 A. I don't recall.

3 Q. Okay. Are you aware of the US Supreme Court's  
4 decision in Shelby County versus Holder in June of 2013?

5 A. No.

6 Q. Has the discussion of Shelby County versus  
7 Holder ever come up in any work related discussions?

8 A. Not that I recall, no.

9 Q. Do you recall no longer needing to obtain  
10 preclearance after 2013?

11 A. Yes.

12 Q. Do you recall any changes you needed to make  
13 after preclearance denial prior to 2013?

14 A. Can you ask me again?

15 Q. Sure.

16 Do you recall any changes you needed to make  
17 after the preclearance denial prior to 2013? In other  
18 words, before 2013 when a submission was denied  
19 preclearance, do you recall any changes your office had  
20 to make --

21 A. I don't recall.

22 Q. -- in response?

23 A. No, I don't recall any.

24 Q. Okay. After Shelby County in June of 2013 or  
25 after preclearance was no longer necessary, did you take

1 part in discussions with Judge Henry or any of the  
2 commissioners about the impact of that decision as it  
3 relates to election administration?

4 A. No.

5 Q. Did you discuss the impact of not needing to  
6 seek preclearance as it related to election  
7 administration?

8 A. I don't recall having it, no.

9 Q. Okay. Did you have any role in the 2013  
10 justice of the peace or constable redistricting?

11 A. No.

12 Q. Are you aware that -- bless you.

13 Are you aware that that had happened in 2013?

14 A. I remember it happened. I don't know what  
15 year it happened, yeah.

16 Q. How do you remember finding out about the 2013  
17 justice of the peace and constable redistricting?

18 A. I don't recall. Excuse me. I don't remember.  
19 I can't remember how I found out.

20 Q. Okay. Do you remember if you found out in a  
21 formal way in some sort of meeting or if you heard it in  
22 passing?

23 A. I do not recall how I found out.

24 Q. Okay. Did your office provide any data that  
25 informed the decision to reduce the number of JP and

1 constable precincts in 2013?

2 A. No, we did not.

3 Q. Did your office receive any public comments  
4 regarding the JP or constable redistricting in 2013?

5 A. Not that I'm aware of, so no, I would think  
6 no.

7 Q. Previously you had mentioned that at certain  
8 special meetings and at certain Commissioners Court  
9 hearings -- meetings, there was the opportunity for  
10 public comment. Do you remember any of those public  
11 comments being about the justice of the peace or  
12 constable redistricting in 2013?

13 A. No, I don't.

14 Q. I'm going to introduce the next exhibit, which  
15 I believe is tab 4. So just let me know when you have  
16 that pulled up.

17 (Exhibit 4 marked.)

18 A. Okay.

19 Q. (BY MS. ZHU) Okay. Do you recognize this  
20 document? Do you recognize this document?

21 A. I do now, yes.

22 Q. Okay. So this is the special meeting agenda  
23 dated August 19, 2013. And you'll see under the Action  
24 Agenda it says, under County Judge, consideration of  
25 adopting new justice of the peace precinct maps.

1 Do you see that?

2 A. I do, yes.

3 Q. And on the second page of the minutes, you'll  
4 see that all the commissioners -- I'm sorry, yeah, four  
5 of the commissioners are present, you were present it  
6 seems, and Mark Henry was present.

7 Do you see that?

8 A. I do see it. I don't know -- I don't see  
9 myself being present. I'm not saying I wasn't. I don't  
10 see that yet.

11 Q. So --

12 A. You're right. I'm above that. Uh-huh.

13 Q. Okay. Great. Yeah, it's on the top of the  
14 second page.

15 So do you remember attending this meeting?

16 A. No, I don't.

17 Q. Do you have any recollection of what was  
18 discussed at this meeting?

19 A. I do not, and I don't believe I was at the  
20 meeting.

21 Q. On the top of page 2, if you scroll, you'll  
22 see that it says minutes, and then it says be it  
23 remembered that on August 19, the following -- you know,  
24 there's a special meeting with the following present,  
25 and then your name is at the bottom, right under Ken

1 Clark.

2 Do you see that?

3 A. Yes, I do.

4 Q. Okay. So presumably you were at this meeting.

5 Is that correct?

6 A. No, I was not.

7 Q. Oh, so you think -- so do you think there was  
8 maybe a mistake in the minutes or something?

9 A. No. It says Dwight D. Sullivan, County Clerk  
10 by Brandy, Chief Deputy. That means she was there --  
11 yeah, she was there in my place.

12 Q. On your behalf?

13 A. That's correct.

14 Q. Do you remember having any follow-up  
15 discussions with Brandy Chapman after this meeting had  
16 occurred?

17 A. No.

18 Q. Okay. What was your office's involvement in  
19 preparing for the 2021 redistricting process?

20 A. I don't believe we had any involvement.

21 Q. Okay. Do you know who was charged with  
22 drawing or approving the 2021 redistricting map  
23 proposals?

24 A. The County Commissioners Court.

25 Q. Are you aware of any criteria that they used

1 to redraw the maps in 2021?

2 A. No, I'm not aware of that.

3 Q. Does your office have any input on criteria  
4 used for redrawing maps for redistricting?

5 A. No.

6 Q. Are you aware of the level of consensus that  
7 had to be reached in order to implement redistricting  
8 changes?

9 A. No.

10 Q. Do you know if the county commissioners were  
11 included on the decision-making process for the criteria  
12 for adopting redistricting maps in 2021?

13 A. No, I don't know that.

14 Q. Do you know if the county commissioners were  
15 all equally included in the decision to -- in the  
16 discussions to redraw maps in 2021?

17 A. No, I don't.

18 Q. Did you meet with anyone who was involved with  
19 drawing map proposals for the 2021 redistricting  
20 process?

21 A. No.

22 Q. What was your role in hiring the law firm of  
23 Holtzman Vogel and Dale Oldham as mapping consultants in  
24 2021?

25 A. I had no involvement.

1 Q. Do you know who was -- who was tasked with  
2 hiring Holtzman Vogel and Dale Oldham as mapping  
3 consultants in 2021?

4 A. No, I don't.

5 Q. Are you familiar with Dale Oldham?

6 A. No.

7 Q. So you've never met Dale Oldham?

8 A. What's his first name?

9 Q. Dale, D-A-L-E.

10 A. I don't recall ever meeting him, no.

11 Q. Okay. Have you ever worked with the firm I  
12 mentioned Holtzman Vogel on any matters?

13 A. No.

14 Q. Did anyone discuss with you about holding  
15 redistricting related public hearings for the 2021  
16 redistricting process similar to the five hearings we  
17 reviewed prior, I believe, in Exhibit 2?

18 A. No one discussed it with me, no.

19 Q. Okay. Did you or your office discuss with  
20 anyone -- I'm sorry. Did you or your office recommend  
21 setting public hearings to any of the commissioners or  
22 the County Judge or their staffs in 2021?

23 A. No.

24 Q. Is your office involved at all with the  
25 organization of those public hearings?

1 A. No.

2 Q. Is your office involved at all with  
3 broadcasting the notice for those public hearings?

4 A. No.

5 Q. Did you attend any of the public hearings in  
6 preparation for the 2021 redistricting?

7 A. No, I don't recall attending any.

8 Q. Was your office -- was your office involved  
9 in -- oh, I'm sorry. I'm going to pull up another  
10 exhibit now.

11 MS. ZHU: So, George, I think this is tab  
12 8.

13 (Exhibit 5 marked.)

14 Q. (BY MS. ZHU) Let me know when you can see the  
15 exhibit.

16 A. Okay. I can see it.

17 Q. Okay. Great.

18 So do you recognize these two maps?

19 A. No, I don't. I know what they are, but -- I  
20 vaguely know the details of it. It looks like a --

21 Q. So these are --

22 A. -- map of our county, yeah.

23 Q. Yeah, sorry to cut you off.

24 These are two maps that were proposed in the  
25 2021 redistricting. Is that jogging your memory a bit?

1           A.    Well, no.  I mean, I don't know how to answer  
2   that question.  I'm familiar with what these maps are,  
3   but I don't know detailed information about them.

4           Q.    Okay.  Was your office involved in updating  
5   the County website to add a redistricting page with  
6   these two map proposals --

7           A.    No.

8           Q.    -- in 2021?

9                    Do you know who was charged with posting these  
10   two map proposals on the County website in 2021?

11          A.    I do not know that, no.

12          Q.    Okay.  Did your office solicit comments or  
13   feedback for the proposed maps?

14          A.    No.

15          Q.    Do you know if comment or feedback was  
16   solicited in any sort of public hearings on these 2021  
17   proposed maps?

18          A.    Did my office know of what?  I'm so sorry, I  
19   didn't hear that last part.

20          Q.    It's okay.  I can rephrase.

21                    Are you aware of any effort to solicit  
22   comments or feedback on the proposed maps?

23          A.    I'm not aware of that, no.

24          Q.    Are you aware on the County -- Galveston  
25   County website there was a portal for public comment on

1 these maps?

2 A. No, I'm not. Sorry. No.

3 Q. If -- so I'm representing to you that there  
4 was a portal for public comment on the Galveston County  
5 website for comment on these two maps. Do you know who  
6 received such online comments made from the website?

7 A. No.

8 Q. I'm sorry, I might have missed your answer.

9 A. No, I'm not aware of anybody who received  
10 those comments.

11 Q. Okay.

12 A. Yeah.

13 Q. I think we're going to move on to the next  
14 exhibit. This should be tab 5, I believe.

15 THE WITNESS: May I take a five-minute  
16 break?

17 MS. ZHU: Yeah, absolutely. Let's take a  
18 five-minute break.

19 THE VIDEOGRAPHER: Going off the record  
20 at 11:58.

21 (Break from 11:58 a.m. to 12:05 p.m.)

22 THE VIDEOGRAPHER: We are back on the  
23 record at 12:05.

24 Q. (BY MS. ZHU) Mr. Sullivan, did you talk to  
25 anyone just now on the break that we took?

1 A. No.

2 Q. Okay. Great. So, let's continue.

3 Are you aware that a public hearing was held  
4 on November 12, 2021 to discuss the 2021 redistricting  
5 process?

6 A. I don't recall that meeting, no.

7 Q. If I told you it was held at Calder Road Annex  
8 in League City, would that help jog your memory?

9 A. I'm familiar with the area, but I'm not  
10 familiar with the meeting.

11 Q. Okay. When the County holds special sessions,  
12 where are they typically held?

13 A. Special sessions are typically held in  
14 Galveston or League City, one of the two offices.

15 Q. Is there one location that special sessions  
16 are more frequently held at between Galveston and League  
17 City, or they're pretty much equally split?

18 MR. RUSSO: Objection, speculation.

19 A. Yeah, I don't have an exact answer on that.

20 Q. (BY MS. ZHU) Okay. When the County holds  
21 regular sessions, you have noted that those are held in  
22 Galveston only. Is that right?

23 A. Yes.

24 Q. Okay. How far are the two locations from each  
25 other?

1           A.    Roughly 20 miles, 22 miles, something like  
2   that.

3           Q.    22 miles.  Okay.

4           A.    Yeah, roughly.  Yeah.

5           Q.    Do you know why special sessions are sometimes  
6   held in League City, 22 miles away from Galveston?

7           A.    No, I don't know why.

8           Q.    Previously you mentioned that special meetings  
9   are held when there's -- when there's a rush to discuss  
10   some -- you know, some sort of topic.  What are some  
11   examples of topics that special meetings are called for?

12          A.    Say, an emergency disaster declaration would  
13   be one.  Important information regarding, say, a land  
14   purchase or a lawsuit discussion, things like that.  
15   Holidays, where there's a holiday falling on the normal  
16   course of a Commissioners Court scheduled meeting.

17          Q.    And you -- you noted prior that typically  
18   there's a three-day or so notice period for these  
19   special sessions.  Is that correct?

20          A.    Approximately that, yes.  Uh-huh.  I don't  
21   know if it's 48, but there's notice, yes.

22          Q.    Okay.  And that's typical for all special  
23   meetings.  Is that right?

24          A.    For all county commissioners meetings.

25          Q.    The November 12 special meeting that I just

1 discussed with you, do you know where the meeting was  
2 publicly announced?

3 A. No, I don't know.

4 Q. Do you know typically where special session  
5 meetings are supposed to be announced?

6 A. No, I don't know that.

7 Q. Are they -- are special sessions -- special  
8 session meetings typically announced on some sort of  
9 County website?

10 A. They typically are, yes.

11 Q. Do you know if the special meeting on November  
12 12, 2021 was accommodating for all of the participants  
13 on the day of the meeting?

14 A. I don't know that.

15 Q. Are you aware of any complaints as to the lack  
16 of notice or the lack of accommodations for the November  
17 12, 2021 special session?

18 A. I'm not aware of any.

19 Q. Okay. Were you aware that the County might  
20 have to redistrict its commissioner precincts again  
21 after the 2021 census?

22 A. No, I'm not aware of that.

23 Q. Are commissioner -- are commissioner precincts  
24 typically redistricted after each census?

25 A. Yes, I think so.

1 Q. Okay. What was your office's involvement as  
2 it relates to administering census, outreach or making  
3 the public aware of the census?

4 A. I had no involvement.

5 Q. When did you expect the release of the census  
6 data in 2021?

7 A. When they were completed with the lines and  
8 when they voted on it.

9 Q. What do you mean by that?

10 A. So let me rephrase what you asked me, make  
11 sure I get that right. You asked --

12 Q. Sure.

13 A. -- when was I expecting it? I guess to answer  
14 that, I was expecting it when the process was completed.

15 Q. And when did you expect that process to be  
16 completed?

17 A. Typically -- well, there's not a specific date  
18 that I have in mind, but I expected it, again, after  
19 they were done and maybe sometime in -- I don't even  
20 want to throw a date out there because I can't even  
21 remember. It's been a while.

22 Q. Can you throw like a season out there or --

23 A. That would be like November of last year,  
24 October, something like that, somewhere in there.

25 Q. Okay.

1 A. Yeah.

2 Q. What do precinct lines -- do you know when  
3 precinct lines need to be drawn by in order to be  
4 precinct -- I'm sorry, in order to print ballots?

5 A. I would have to look at the calendar to answer  
6 that question, but, again, we have a lot of processes  
7 that happened or happen every election cycle. And if  
8 we're going off the new lines, we'd have to have that  
9 completed before we could meet our deadlines of the MOVE  
10 Act and things like that.

11 Q. How many weeks or months does it take to  
12 prepare for each election?

13 A. I'm just throwing a number out there because  
14 I'm looking at -- of course, it depends on the election.  
15 If it's a big general or presidential, it takes a long  
16 time. We're always planning. Five or six months  
17 easily. It depends on the task, though.

18 Q. Can you walk me through the steps from the  
19 beginning of your preparation for each election cycle to  
20 the end? Like, what tasks does your office have to  
21 conduct?

22 A. Sure. Yeah. I mean, there's a lot of them,  
23 so I'll kind of give you a brief overview, if that's  
24 okay, and you can --

25 Q. Yeah.

1 A. -- break it down if you need to.

2 We have to plan out deadlines, as far as when  
3 early voting is, when it starts, when it ends, what  
4 time, when Election Day is, who our judges are, who our  
5 clerks are, training those clerks and judges. Again,  
6 who's on the ballot, when proofing will be given to us,  
7 when it will be completed, when the public will look at  
8 it and test it. Those kinds of things. Deliveries,  
9 pick-ups, ordering of paper, ordering of ballots,  
10 servicing of equipment, et cetera. There's a lot of  
11 things that go into it.

12 Q. Yeah. You said -- you began by discussing  
13 deadlines for early voting from start to end. What do  
14 you mean by planning out these deadlines? What sorts of  
15 deadlines are you discussing?

16 A. So, we typically look at a calendar given to  
17 us by the Secretary of State. They put it together for  
18 the State of Texas. So we're planning out -- for  
19 instance, we're planning out the May election cycle,  
20 which is usually cities and school districts. The State  
21 of Texas calendar came out a week ago or so. And so  
22 we're waiting for that to start sending out contracts,  
23 changing those dates on the contracts, and figuring out  
24 which cities, which schools will have elections. So --

25 Q. So, for example, the 2018 midterm election,

1 when did your office start planning for the 2018  
2 primary?

3 A. I don't recall exactly when, but months and  
4 months -- months and months out.

5 Q. Do you -- I'm sorry, give me a second.

6 So for the -- so for planning for the 2018  
7 primary, did you start planning in 2017 in the fall?  
8 Can you give me a season as to, like, when you started  
9 planning for it?

10 A. Sure. Yeah. So you're talking about November  
11 of 2018?

12 Q. That's correct.

13 A. Is that correct? Okay. Generally --

14 Q. Oh, I'm sorry. I'm sorry. For the -- okay.  
15 So first, let's talk about the primary, the March 2018  
16 primary.

17 A. Okay. We would generally start in the summer  
18 of 2017. Yeah.

19 Q. Okay.

20 A. Something like that. And --

21 Q. What about after November?

22 A. It accelerates after that. Go ahead.

23 Q. What do you mean it accelerates after that?

24 A. Well, there's some planning way ahead of time,  
25 renting trucks, securing locations, gathering lists of

1 workers from both parties. And then when we get closer  
2 to the deadlines, we wait on the cities and the entities  
3 and the State to give us a list of candidates or people  
4 who have dropped out of the race. Canceling elections,  
5 that happens. Some people contract with us, and then  
6 they -- nobody signs up to run, so they cancel. Things  
7 like that.

8 Q. When do you typically finalize polling place  
9 locations for the March 2018 primary, for example?

10 A. Septemberish.

11 Q. And when was the candidate filing period for  
12 the March 2018 primary, if you remember?

13 A. I believe it was in December.

14 Q. Did you say December?

15 A. Yeah, I believe it was December.

16 Q. Okay.

17 A. I don't recall actually.

18 Q. Okay.

19 A. I'd have to look at a calendar.

20 Q. Okay. The timeline that you just mentioned,  
21 did that apply in 2022 as well?

22 A. Yes, uh-huh.

23 Q. So were you -- so does that mean you were also  
24 finalizing polling places in the summer of 2021?

25 A. Summer and fall, yeah.

1 Q. Okay. Do you remember more specifically when  
2 you finalized polling places for 2022 -- for the 2022  
3 election?

4 A. I want to say it was in August and September.

5 Q. And when was the candidate filing deadline for  
6 the 2022 primary?

7 A. That would have been December 13, maybe. I  
8 don't remember the specific date, day of the week.

9 Q. Okay.

10 A. 20 -- yeah, yeah.

11 Q. And when would the candidate filings start?

12 A. It's about a month before that.

13 Q. So mid November?

14 A. I'm speculating. It's somewhere in there,  
15 yes.

16 Q. Okay.

17 A. It's about a month period.

18 Q. And are these deadlines, are these timelines,  
19 are you getting this from the Secretary of State  
20 calendar?

21 A. Yes. Uh-huh. Yes.

22 Q. Okay. And when did you receive that Secretary  
23 of State calendar?

24 A. I don't recall. That information is years  
25 out, so it's -- that one's way ahead of time --

1 Q. Okay.

2 A. -- that we know those dates, yeah.

3 Q. Do you know if the Secretary of State calendar  
4 is informed by statute for the timelines that you just  
5 described?

6 A. I don't know that. I don't know how they  
7 compile it.

8 Q. Okay. Are you -- are you aware that the  
9 deadlines regarding the candidate filing are listed in  
10 the Texas Election Code provisions?

11 A. No, I am not aware of that.

12 Q. Okay. The candidate filing period that you  
13 just discussed in 2022, has that been the same for all  
14 election cycles prior? Has that ever changed?

15 A. There was one year it was changed.

16 Q. What year was that?

17 A. You know, I don't recall.

18 Q. Around what year was that?

19 A. 2013, 2014, somewhere in there. I'm guessing.

20 Q. Do you remember -- yeah.

21 Do you remember why the candidate filing  
22 timelines were changed for that year?

23 A. I believe it had to do with redrawing of lines  
24 or a court challenge.

25 Q. A what challenge, sorry?

1 A. A court challenge or legal challenge.

2 Q. I see. I see.

3 A. Yeah, something like that.

4 Q. And going back to the Texas Secretary of State  
5 election calendar, are staff in your office aware of  
6 such election calendar?

7 A. Yes, uh-huh.

8 Q. And do you receive -- like, I am trying to  
9 understand. Do you receive a calendar every year from  
10 the Secretary of State?

11 A. Yes. We receive emails to all the election  
12 staff as to important dates with upcoming elections, so  
13 yeah.

14 Q. I see. Got it.

15 Does anyone in your office communicate that  
16 calendar with its deadlines to the Commissioners Court?

17 A. No, not that I'm aware of.

18 Q. Say it again, sorry.

19 A. Excuse me. Not that I'm aware of or at least  
20 not on a regular basis, no.

21 Q. Okay. Do you know if the Commissioners -- the  
22 Commissioners Court otherwise receive the Texas  
23 Secretary of State election calendar in any other way?

24 A. I don't -- I'm not aware of that.

25 Q. Okay. Sorry, give me a second.

1 A. Take your time.

2 Q. Thanks.

3 MS. ZHU: Okay. I am going to introduce  
4 the next exhibit, George, which should be tab 5.

5 (Exhibit 6 marked.)

6 Q. (BY MS. ZHU) Let me know when you're able to  
7 pull that up. Let me know if you can see this.

8 MR. RUSSO: Hang on one second. Can you  
9 still hear us?

10 MS. ZHU: Yeah.

11 MR. RUSSO: Okay. We're having a  
12 technical issue. I think we can work it out, hang on.

13 MS. ZHU: Okay.

14 THE VIDEOGRAPHER: Would you like me to  
15 bring us off the record while you're dealing with the  
16 technical issue?

17 MR. RUSSO: Are you on -- what exhibit  
18 are you on?

19 MS. ZHU: We're on tab 5.

20 MR. LIBBARES: It's Exhibit No. 6.

21 MR. RUSSO: Okay.

22 MS. ZHU: Thank you.

23 A. I can see it.

24 Q. (BY MS. ZHU) Okay. Okay. So --

25 MS. ZHU: And by the way, I think let's

1 go through this exhibit, and then let's take a break for  
2 lunch, if that sounds okay.

3 THE WITNESS: Sure.

4 Q. (BY MS. ZHU) Okay. So do you recognize -- or  
5 I guess this exhibit shows a news article, and it  
6 essentially says in the first line -- if you scroll down  
7 a little bit, the very first line reads -- and this is  
8 published July 12, 2021 from an official website of the  
9 US government, as noted at the top. And it just reads  
10 the US Census Bureau by August 16 is set to release  
11 in-depth demographic statistics from the 2020 Census.

12 So -- and do you see that wording?

13 A. Yes.

14 Q. So do you recall hearing that the census data  
15 from 2020 was set to be released around August of 2021?

16 A. No, I don't recall the date, but I remember it  
17 was going to be released.

18 Q. Okay. I'm sorry, you answered that you didn't  
19 hear about this August 2021 timeline for the census  
20 release. Is that right?

21 A. I was aware that they were releasing the data.  
22 I don't recall when, but to be honest with you, I didn't  
23 pay much attention to it because I don't handle  
24 redistricting.

25 MS. ZHU: Okay. I think that that ends

1 this line of questioning actually, and we can take a  
2 lunch break.

3 Do you know how long you would like to take?

4 MR. RUSSO: 45 minutes or so, 30 to 45  
5 minutes. Is that good for you?

6 THE WITNESS: Yeah.

7 MR. RUSSO: Does that work for y'all, 30  
8 minutes, 45 minutes?

9 MS. ZHU: I was going to suggest 45, if  
10 that's okay.

11 MR. RUSSO: That's fine.

12 MS. ZHU: Okay. Perfect. So we'll break  
13 for 45 then. Thank you.

14 THE VIDEOGRAPHER: Okay. Going off the  
15 record at 12:30.

16 (Break from 12:30 p.m. to 1:24 p.m.)

17 THE VIDEOGRAPHER: We are back on the  
18 record at 1:24.

19 Q. (BY MS. ZHU) Hi, Mr. Sullivan. Did you talk  
20 to anyone just now during the break that we took?

21 A. My attorneys, I did.

22 Q. And what did you speak about with your  
23 attorneys?

24 A. Family, kids, personal stuff.

25 Q. And to confirm, you did not speak to your

1 attorneys about today's deposition or your testimony?

2 A. No.

3 Q. Okay. And is it accurate that no one else is  
4 in the room with you still for today's deposition other  
5 than your two attorneys?

6 A. Yes, that's correct.

7 Q. And is it accurate that you have no documents  
8 in front of you for today's deposition?

9 A. That's accurate.

10 Q. Okay. Great.

11 A. Yeah.

12 Q. Okay. I think we should continue on. I would  
13 like to bring up an exhibit we've already introduced.

14 MS. ZHU: And, George, this should have  
15 been tab 8. I don't recall the exhibit number, but if  
16 we can get to tab 8, that would be great.

17 MR. LIBBARES: Exhibit 5.

18 MS. ZHU: Exhibit 5, thanks.

19 Q. (BY MS. ZHU) Mr. Sullivan, just let me know  
20 when you can see this.

21 A. Is that the maps from before or the letter?

22 Q. Yes, this two map proposals.

23 A. Okay. I can see them now.

24 Q. Okay. Great.

25 So like you mentioned, again this is the two

1 map proposals that were on the table in the 2021  
2 redistricting as was posted to the Galveston County  
3 website. Is that correct?

4 A. It looks to be correct, yes.

5 Q. Okay. Great.

6 So with regards to this map, are you aware any  
7 community concerns related to map 1 or map 2 proposals?

8 A. No, I am not.

9 Q. And are you aware of any sort of public  
10 feedback in response to any of the proposed maps?

11 A. No, I'm not.

12 Q. Are you aware of any other names used to  
13 reference map 1 and map 2?

14 A. No.

15 Q. Do you know if between map 1 and map 2 which  
16 option would have provided a smaller change in  
17 redistricted lines being drawn just by looking?

18 A. A smaller change? No, I really don't know.  
19 Maybe 2, but I'm speculating. I don't know.

20 Q. Okay.

21 A. It's more than looking at colors. There's a  
22 lot of voter data that's inside of there that I can't  
23 see.

24 Q. And do you know which proposal would have  
25 resulted in fewer precinct splits?

1 A. I do not know that.

2 Q. Would you agree that splitting election  
3 precincts creates more work for your office in terms of  
4 election administration?

5 A. Can you explain what you mean by splitting  
6 precincts?

7 Q. Sure.

8 Just the redrawing of precincts, having to  
9 calibrate to that change.

10 A. Well, that's not necessarily true. It depends  
11 what they were before.

12 Q. Can you elaborate on that?

13 A. Yeah. So, for instance, if there was  
14 precincts with what I call splits is like it can be  
15 Precinct 101 and Precinct 101.1 or 101.2 versus a new  
16 precinct of 101 and 102. In my scenario there,  
17 splitting precincts with your definition would make my  
18 job a little easier actually.

19 Q. And in what scenario of splitting precincts  
20 would make your job a little more difficult?

21 A. Well, I haven't really thought about that.  
22 So, what comes to mind would be more precincts equals  
23 more voting locations and more staff, things like that.

24 Q. Okay. And just to clarify when I mentioned  
25 splitting precincts, I'm talking about when an existing

1 precinct is split between, for example, two new  
2 commissioner districts.

3 Does that make sense?

4 A. Yeah, I think so.

5 Q. With that -- go ahead, sorry.

6 A. I'm sorry, I'm listening.

7 Q. Oh, I was just going to say, so in that  
8 situation would splitting election precincts create more  
9 work for your office?

10 A. Can you give me an example or a scenario so I  
11 can make sure I understand your question?

12 Q. Sure.

13 So let's say -- let's say a precinct exists  
14 in its own commissioner district, and then in a split, a  
15 new --

16 A. Can I interrupt you there?

17 Q. Yeah.

18 A. You're referring to a voting precinct or a  
19 commissioner's precinct?

20 Q. I'm referring to a voting precinct.

21 A. Okay.

22 Q. So if the voting precinct is within one  
23 commissioner district and then the commissioner district  
24 is redrawn so that it splits this voting precinct in  
25 half, that's what I mean by splitting election

1 precincts.

2 Does that make sense?

3 A. Yes, uh-huh.

4 Q. So would that create more work for your  
5 office?

6 A. Well, again, it depends how you split them.  
7 If you split that said precinct you were talking about  
8 between two different -- say, commissioner 1 and  
9 commissioner 2, if you split that and it became part of  
10 another one, it really would not create any additional  
11 work. If you're talking about just adding more precinct  
12 numbers, it's not really additional work, it's just  
13 different.

14 Q. Okay.

15 A. I hope I answered that correctly because  
16 that's what I understood you to ask me.

17 Q. Yeah, for sure. And thank you for asking  
18 clarifying questions.

19 Let's see. So back to the splitting of voting  
20 precincts into new commissioner districts, would that  
21 require the drawing of new maps? New precinct maps,  
22 sorry?

23 A. If you're asking for more of an opinion or a  
24 legal definition of it, I don't know legally if you have  
25 to do that. If you're asking for my opinion on it, I

1 can try and answer that.

2 Q. Yeah, please.

3 A. So if you redrew the voting precinct -- so I  
4 am looking at map number 2. Let's just say you have 25  
5 precincts in number 2. If you're just cutting up the  
6 pie a little different, so to speak, I don't, first of  
7 all, draw the lines or know who does, but for whoever is  
8 cutting them or rearranging them, it may be more work.  
9 For me, the challenge would be just becoming more  
10 familiar with those newer precincts.

11 Q. And if a precinct -- and if an election  
12 precinct were originally fully in this 2, in this  
13 commissioner district 2 and then after redrawing it if  
14 part of that voting precinct is hanging off in 4 and  
15 part of it is hanging off in 2, would -- I'm trying to  
16 understand would you have to redraw the precinct lines  
17 to accommodate for that?

18 Does that make sense?

19 A. Yeah. You would have -- somebody would have  
20 to do it, uh-huh.

21 Q. Okay. And redrawing these precinct lines, who  
22 is in charge of making sure that they're redrawn  
23 properly?

24 A. I don't know who's in charge of that. I would  
25 assume the county commissioners.

1 Q. Okay. Would you have any idea of whether or  
2 not the voter -- the county engineer or the voter  
3 registrar have any say in redrawing the precinct lines  
4 in that scenario?

5 A. I wouldn't think that they do, but I don't  
6 know the answer to that. That's not something I handle.

7 Q. Okay.

8 (Reporter clarification.)

9 A. I don't think so because those two offices, as  
10 far as I know from personal knowledge, do not have a  
11 say, but I can't speak for those offices.

12 Q. (BY MS. ZHU) So after whatever office redraws  
13 the precinct map, in what -- I guess, in what format do  
14 you receive the new elections precinct map?

15 A. If you're talking about the map itself, more  
16 than likely a PDF, but we're more inclined to look at  
17 more of a spreadsheet for my office use.

18 Q. And --

19 A. For my office use.

20 Q. What kind of details are included in the  
21 spreadsheet?

22 A. More things like the number of -- the precinct  
23 number, and then next to it maybe like the commissioner  
24 precinct, and then which state rep, which congressional  
25 district, which school district, which municipal code,

1 which municipal utility district, or MUD, et cetera.

2 Just your voter entitlements.

3 Q. Got it.

4 A. I don't so much as look at the shape for what  
5 I do.

6 Q. Understood.

7 And what's the timeline that your office  
8 receives the new election precinct maps?

9 A. Okay. I'm not understanding the question.

10 Q. So, for example, after -- let's say after the  
11 redistricting is done and then the reprecincting is, you  
12 know, done as well to take into consideration the newly  
13 drawn commissioners districts, how long between that  
14 time and your office receiving the newly drawn precinct  
15 maps?

16 A. Well, it depends if I was looking for it or  
17 waiting for it, and I think you were asking for if I was  
18 just waiting for it. Probably -- I'm speculating again.  
19 I would have to look at when they were drawn up versus  
20 when I received something. I would think it would be --  
21 you know, I don't want to say the wrong thing here and  
22 not be truthful. And I don't think there's a right  
23 answer here. I just don't know the answer to that  
24 because --

25 Q. Do you have a ballpark?

1           A.    Well, like the maps, for instance, if I wanted  
2 a copy of the map when it's passed in Commissioners  
3 Court, I can go get it that day, just like the public  
4 can. But if I'm waiting for the official data to be  
5 drawn and implemented into the TEAM System, which is  
6 where I would look at it, then maybe -- maybe a week,  
7 weeks, depending on whoever inputs that system -- that  
8 data into the system.

9           Q.    Oh, okay. So you're saying if you were to  
10 check the TEAM System, you would have to wait a handful  
11 of weeks?

12          A.    I think -- I think a handful of weeks is a  
13 fair assumption because somebody or some entity would  
14 have to enter that stuff into the system.

15          Q.    Okay. And is that the same timeline to  
16 receive the spreadsheet data, or is that a different  
17 timeline?

18          A.    I would think I would receive that sooner. I  
19 could probably receive that within a week.

20          Q.    Within a week, okay.

21          A.    I would think. I would think.

22          Q.    Okay.

23          A.    Yeah, because there has to be a breakdown that  
24 someone puts together of what precincts are in what  
25 commissioner precinct.

1 Q. Right. Okay. So are you aware that -- sorry.

2 So after you receive this data within a  
3 spreadsheet of the reprecincting -- bless you.

4 A. Thank you.

5 Q. -- what do you do with that data in the  
6 spreadsheet?

7 A. What I would do with it is just wait for the  
8 next election to occur, and if we need it, we pull it  
9 out. So --

10 Q. What sorts of --

11 A. Save it, I guess.

12 Q. What sorts of scenarios would you need to pull  
13 out this data for future elections?

14 A. So when we are proofing our ballot as a  
15 reference check, so right at the end of our programming.

16 Q. Okay. Let's see. So are you aware that  
17 ultimately map 2 -- the proposed map 2 was adopted?

18 A. No. It looks familiar, but I didn't know that  
19 was the actual one.

20 Q. Okay. Got it.

21 And just going back to the ballot comment you  
22 had made, how far before an election does programming  
23 the ballot have to happen?

24 A. I'd have to look at the calendar, but  
25 approximately 60 plus days. Maybe -- maybe upwards of

1 70 days.

2 Q. Okay.

3 A. Because we have to publish notice, have public  
4 testing, send proofs out to the parties to check it, and  
5 then they have to be finished no later than 45 days  
6 before the election.

7 Q. Okay.

8 A. Finalized, should I say, yeah.

9 Q. Are you aware -- I'm sorry.

10 What sorts of changes did the adoption of map  
11 proposal 2 require your office to make?

12 A. Well, the first one that comes to mind would  
13 be voting locations, to make sure that we have adequate  
14 numbers of locations per commissioner precinct so that,  
15 say, number 4 didn't have half as many as number 1 or  
16 more than double any other precinct.

17 Q. Got it.

18 Any other changes that your office would have  
19 to make?

20 A. I guess, if the -- well, we reprogram our  
21 ballot every single time. So whether it's map 2 or 4 or  
22 6, we would reprogram it every time anyway. So there's  
23 no static data; we just get the updated information in  
24 the system and program based on that.

25 Q. Okay. Are you aware of anyone supporting the

1 creation of having one coastal precinct as a rationale  
2 to add Bolivar Peninsula to Galveston island in one  
3 precinct?

4 A. No.

5 Q. So you're not aware of this coastal precinct  
6 rationale in general?

7 A. As far as the rationale and theory behind it,  
8 no, I'm not. No, I don't know anything about that.

9 Q. Okay. Do you know who was involved in the  
10 reprecincting following -- following the map 2 proposal?

11 A. No, I don't.

12 Q. Okay. Has Commissioner Apffel or his staff  
13 ever asked you to make changes to precinct lines?

14 A. No.

15 Q. Has Commissioner Giusti or his staff ever  
16 asked you to make changes to precinct lines?

17 A. No.

18 Q. How about Commissioner Holmes?

19 A. No.

20 Q. And Commissioner Armstrong?

21 A. No.

22 Q. And the late Commissioner Clark, Ken Clark?

23 A. No.

24 Q. And how about Judge Henry?

25 A. No.

1 Q. I didn't get your answer, sorry?

2 A. No to all those.

3 Q. Are you aware of any public comment or concern  
4 about the drawing of precincts following the map 2  
5 adoption?

6 A. I am not, no.

7 Q. Okay. I would like to introduce the next  
8 exhibit.

9 MS. ZHU: And, George, I believe this  
10 should be tab 9.

11 (Exhibit 7 marked.)

12 Q. (BY MS. ZHU) Just let me know when you can  
13 see this document.

14 A. I can see it now.

15 MR. LIBBARES: This is Exhibit 7.

16 MS. ZHU: Perfect. Thank you.

17 Q. (BY MS. ZHU) This is an email from Nathan  
18 Sigler addressed to Chris Elam, who seems to have  
19 requested Shapefile exports of Galveston County voting  
20 precincts, and the email from Nathan Sigler is sent on  
21 February 16, 2022. Is that correct?

22 A. That's what I see here, uh-huh.

23 Q. Okay. Great.

24 And you'll note that in Sigler's email at the  
25 top, he says changes to recent precincts only affect

1 VTD, which I understand means election precincts and  
2 commissioner precincts, while JP, meaning justice of the  
3 peace, and constable precincts have stayed the same.

4 Do you see that?

5 A. Yes, I see that.

6 Q. Do you recall this change made to certain  
7 precincts but not others?

8 A. No, I don't.

9 Q. Do you have any understanding as to why you  
10 think certain precincts were changed while others stayed  
11 the same?

12 A. No, I have no idea.

13 Q. Are you aware of any other changes made like  
14 this in the past where reprecincting occurred but had  
15 only affected certain -- you know, only affected  
16 elections in commissioner precincts but not JP and  
17 constable precincts?

18 A. I don't recall any.

19 Q. Are you aware if it's typical when  
20 reprecincting is done that changes are made to all of  
21 the different precinct types, so election, commissioner,  
22 JP and constable?

23 A. I don't think I understood your question. Can  
24 you ask me that again?

25 Q. Yeah, I think I need to rephrase.

1 I guess what I'm trying to understand is is it  
2 common practice that when reprecincting is done, that  
3 changes would affect the election, the commissioner, the  
4 JP and constable precincts instead of this situation  
5 where two are affected and two are not?

6 MR. RUSSO: Objection, speculation.

7 A. Yeah, I don't know.

8 Q. (BY MS. ZHU) Okay. Are you aware of the  
9 reaction to this precincting change described in the  
10 email?

11 A. No, I'm not.

12 Q. In the email Nathan Sigler notes -- I am just  
13 trying to find it here. I think it's the third -- I'm  
14 sorry, fourth sentence. He writes so to account for  
15 that our historical election VTDs are still in affect  
16 regarding JP and constable precincts.

17 Does that mean there were two sets of election  
18 precincts in place for the March 2022 primary?

19 A. That's not what I read here.

20 Q. What do you understand that sentence to mean?

21 A. Well, I read it real fast, but what I see  
22 is -- again, this is speculation. I haven't looked into  
23 it. It looks like the commissioner and voter precincts  
24 were changed but JP and constable precinct lines were  
25 not changed as of this email.

1 Q. Right.

2 To your knowledge, did this change cause any  
3 confusion amongst voters?

4 A. I'm not aware of any, huh-uh.

5 Q. Are you aware of any complaints about the  
6 nature of having different precincts assigned for  
7 different types of elections?

8 A. I'm familiar with it because it affected my  
9 precinct, but I have not heard any feedback or comments  
10 on it.

11 Q. When you say it affected your precinct, do you  
12 mean this specific change occurred in a precinct that  
13 you are part of?

14 A. Yes, I believe so, if I'm understanding this  
15 email correctly. This was like where I live, uh-huh.

16 Q. Can you recall any sorts of conversations you  
17 had with people in your precinct in response to this  
18 precinct change?

19 A. No, I don't think I've spoken to anyone about  
20 it that I can recall.

21 Q. Oh, so you were just aware because you  
22 personally were affected?

23 A. Yes, that's correct, uh-huh.

24 Q. Okay. Do you know how the public was notified  
25 of this precinct change?

1 A. No, I don't know, huh-uh.

2 Q. And as a result of this precinct change, did  
3 you receive two different voter registration cards?

4 A. I did receive two, but I don't know if this is  
5 the reason why.

6 Q. Okay.

7 A. Honestly, I didn't look at them.

8 Q. Okay. Let's see. Is your office responsible  
9 for sending out voter registration cards?

10 A. No.

11 Q. Which office is tasked with sending out voter  
12 registration cards?

13 A. That would be the voter registration  
14 department or the tax office.

15 Q. Tax office. Okay.

16 Did you receive any sort of calls or feedback  
17 from anyone trying to get in contact with your office  
18 asking about why they received two different  
19 registration cards?

20 A. I don't recall any, but those would not come  
21 to me. It would probably just get pushed up to the  
22 answering line and pushed around. So, I did not receive  
23 any, no.

24 Q. Okay. And would your office have any records  
25 of those calls or that type of feedback?

1           A.    I don't think we would have any records of  
2   that, no.

3           Q.    Okay.  And do you have any idea or sense of  
4   when voter registration cards would be sent out  
5   following the reprecincting?

6           A.    No, I don't know that.

7           Q.    When did you receive your voter registration  
8   card?

9           A.    You know, I can't remember.  It was  
10   sometime --

11          Q.    Okay.

12          A.    -- after the first of the year, but I don't  
13   know.

14          Q.    Okay.  Okay.  I think we're going to move to  
15   the next exhibit now.

16                   MS. ZHU:  And, George, this should be tab  
17   10.

18          Q.    (BY MS. ZHU)  So, Mr. Sullivan, just let me  
19   know when you have a chance to take a look at this next  
20   exhibit.

21                   (Exhibit 8 marked.)

22          A.    Okay.  I see it.

23          Q.    (BY MS. ZHU)  Okay.  Great.

24                   So this should be an email from Nathan Sigler  
25   again to you to Dwight Sullivan, and it was sent on

1 February 11, 2022. I'm sorry, that's the response.

2 So the original email is from Mr. Sigler to  
3 Wendi Fragoso, and that was sent on February 11, 2022,  
4 as well, and -- I'm sorry. I'm sorry.

5 This is from you to Nathan Sigler, cc'd Wendi  
6 Fragoso on February 11, 2022, and you basically email  
7 Sigler, and you say: Earlier this week we spoke about  
8 county commissioner precinct maps for voting. I know  
9 you said you couldn't print out multiple maps for voting  
10 locations but that you could send a file to the print  
11 center. I spoke with Andi in the print center, and she  
12 can print 50 copies of the new 2022 commissioner maps  
13 for the voters to view.

14 Do you recall sending this email?

15 A. I do, yes.

16 Q. Can you discuss a little bit about the purpose  
17 of sending this email across and what you were  
18 discussing?

19 A. Yes. So I thought it would be a great idea to  
20 have maps at every polling location for the voters to  
21 look at so that they were aware of the redistricting  
22 changes.

23 Q. Is this something you had done in prior  
24 elections?

25 A. It's not something that's required. So, no, I

1 just thought it was a good idea to do.

2 Q. Yeah. Can I ask what -- what the maps  
3 displayed specifically?

4 A. I guess it's just a precinct by precinct map,  
5 similar to what your -- well, basically the redrawn  
6 lines with the precincts in it.

7 Q. Okay. Is there a reason why in this election  
8 you thought it would be helpful to have these maps?

9 A. No. Just we're trying to run more transparent  
10 elections, and so we thought it would be a good idea  
11 just to have those at every location in case the voters  
12 had questions about it.

13 Q. Got it.

14 And after this election in which you printed  
15 out the 50 or so new maps, did you continue this  
16 practice for any other elections?

17 A. No.

18 Q. Okay. Did you receive feedback from voters  
19 that such maps were helpful or necessary after the fact?

20 A. I didn't hear any feedback personally.

21 Q. Did you get any requests prior to printing out  
22 these maps that voters wanted to see these maps?

23 A. I don't recall that.

24 Q. Okay.

25 A. Yeah.

1 Q. Okay. So, I think let's move on to talking  
2 about polling places. Can you tell me when Galveston  
3 County decided to participate in a countywide polling  
4 place program?

5 A. I believe it was 2012, 2013 timeframe --

6 Q. Okay.

7 A. -- that we applied for it, and we went through  
8 the trials of it.

9 Q. And do you know why Galveston County decided  
10 to move to countywide polling?

11 A. It was a decision I made. I was newly  
12 elected, and I wanted to improve the voting process, and  
13 it was a new program the State had implemented.

14 Q. In what ways would the countywide polling  
15 improve the voting process? Like, what issues would it  
16 resolve?

17 A. So the main thing is voters can vote anywhere  
18 on Election Day. So our county geographically is all  
19 over the place. So if you lived in, say, Friendswood,  
20 which would be the northwest corner of our county, and  
21 you worked in Galveston, on Election Day, let's just say  
22 you had to work late, you could stop at any location on  
23 the way home after work and vote; versus let's just say  
24 you had to drive all the way back to your home precinct  
25 to vote, you may not show up in time or for whatever

1 | reason you will not vote. So it was a program that's  
2 | designed to assist the voter and giving them more  
3 | options to vote.

4 | Q. Got it.

5 | Was there a process in place for gathering  
6 | feedback from those who would be affected by this  
7 | change?

8 | A. Yes.

9 | Q. Can you describe this feedback process a  
10 | little bit?

11 | A. I don't recall the specifics of it, but I know  
12 | we had meetings with -- public meetings, we had meetings  
13 | with the parties, we had meetings with commissioners,  
14 | and it was shared throughout.

15 | Q. What sorts of feedback and comments did you  
16 | receive during these public meetings and while meeting  
17 | with commissioners about the countywide polling?

18 | A. You know, I don't recall that. That's been a  
19 | long time ago.

20 | Q. Did you have any sort of formal comment boxes  
21 | or comment repositories?

22 | A. I don't recall how we managed that at the  
23 | time. We did have public hearings and we listened, but  
24 | I don't know that we took comment boxes or anything like  
25 | that.

1 Q. Okay. Who reviews the comments and the  
2 feedback discussed at these public meetings?

3 A. Well, the public meetings were very small, but  
4 they were my election staff and myself.

5 Q. How do you guys review the comments, and  
6 what's the process of your review?

7 MR. RUSSO: Objection, compound.

8 A. Yeah, that was a long time ago. I can't  
9 really remember the specifics, so I don't recall.

10 Q. (BY MS. ZHU) Do you recall and can you  
11 characterize the range of responses from the public with  
12 regards to the countywide polling program?

13 A. Generally speaking, it was more about  
14 educational information as to how -- how it could impact  
15 them and the more opportunities that the public would  
16 have to vote.

17 Q. Was the general feedback you received about  
18 the countywide polling places generally for or against  
19 this change?

20 A. The feedback was generally for it. And,  
21 additionally, it was something that both parties agreed  
22 was a good idea, as well as the county commissioners and  
23 myself.

24 Q. Are you aware of any complaints involving this  
25 countywide polling change about the possible location

1 change or closure of specific polling places?

2 A. I don't recall any negative comments on that.

3 Q. Okay. Was the County required to obtain  
4 preclearance under Section 5 of the Voting Rights Act in  
5 order to use countywide polling places?

6 A. I don't recall.

7 Q. Okay. Previously you mentioned that your  
8 office had conducted public educational sessions at  
9 these public meetings to keep the public abreast of the  
10 countywide polling changes. Can you tell me a little  
11 bit about what was involved in this education?

12 A. Yeah. We basically explained the program and  
13 how it worked and that voters would have the opportunity  
14 to vote on Election Day anywhere, as well as their  
15 normal areas that they would vote. That's kind of  
16 basically it in a nutshell. Answering some questions  
17 that were posed and --

18 Q. If any polling places had to be moved or  
19 changed or taken away or added, would you have educated  
20 the public on these changes as well during these  
21 meetings?

22 A. Yes, uh-huh.

23 Q. And so of the options I just discussed, can  
24 you tell me what sorts of changes to polling place  
25 locations you did educate folks about, whether that be

1 closures, additions, moving polling locations?

2 A. You know, I don't recall the details of that.  
3 It's been a while.

4 Q. Okay.

5 A. I'm sorry.

6 Q. Okay. That's fine.

7 Where are these public meetings held for these  
8 education purposes?

9 A. I don't recall.

10 Q. Do you know about how many public education  
11 meetings were held?

12 A. I'm throwing a number out there. I'm guessing  
13 three to five.

14 Q. Okay. And do you know -- I think you  
15 mentioned there are records of these meetings. Is that  
16 right?

17 A. Yes.

18 Q. Does your office hold those records? I think  
19 you said they recorded -- I assume audio recorded these  
20 meetings?

21 A. I don't know that we have those any longer.  
22 They may have passed the records retention timeframe,  
23 but I don't know. I don't know.

24 Q. And who attended these public meetings? Were  
25 party officials there? Were regular voters there?

1           A.    Both.  We had both Republican and Democrat  
2 parties.  We had general public, my staff.  I don't  
3 remember if the commissioners were present or not, but  
4 they were aware of it, and they were aware of at least  
5 one of them in public at the Commissioners Court  
6 meeting.

7           Q.    Previously we had talked about the fact that  
8 you had met with the DOJ about three to five times to  
9 talk about preclearance matters.  Did you ever meet with  
10 the DOJ to talk about preclearance matters as it  
11 pertains to countywide polling?

12          A.    I don't recall.

13          Q.    Okay.  And was there ever -- did you ever do  
14 or are you aware of any specific outreach to minority  
15 communities as it relates to these public hearings on  
16 countywide polling changes?

17          A.    Specifically, I can't remember the instance,  
18 but yes, we did.  We met with representatives from I  
19 want to say LULAC, the Democrat and Republican parties,  
20 NAACP or a representative.  I believe Republican and  
21 Democrat lady groups.  But I don't -- the specifics of  
22 it, I don't recall.

23          Q.    Do you remember the sort of feedback you  
24 received when you met with member of LULAC about the  
25 communitywide polling change?

1 A. No, I don't remember that.

2 Q. Do you remember the feedback or discussions  
3 that you had with the NAACP in regards to the countywide  
4 polling change?

5 A. No, I don't.

6 Q. And how about the feedback you received from  
7 the Democrat or Republican parties when you met with  
8 them to discuss the countywide polling change?

9 A. I don't recall that.

10 Q. Do you know who else was at those meetings  
11 from your staff or from your office?

12 A. Well, my staff that was there I don't believe  
13 is employed any longer.

14 Q. Oh, none of them are?

15 A. No.

16 Q. Let's see.

17 A. They've since retired or moved on.

18 Q. After 2013, so after Shelby County was  
19 decided, do you know if the number of countywide polling  
20 places in Galveston increased, decreased or stayed the  
21 same?

22 A. I don't recall.

23 Q. Would you characterize the countywide polling  
24 as a success in Galveston County?

25 A. Yes.

1 Q. And can I ask -- can you talk about that a  
2 little bit more, just why you think it was a success and  
3 what sort of measures you're defining the success as?

4 A. Sure, yeah.

5 It's a national trend, first of all. Most  
6 states and counties are going this way. We were, I  
7 think, the fourth in the state of Texas, and now I  
8 believe it's over 50 percent. I heard the number  
9 recently, but it's growing fast.

10 Generally speaking, it's good for voters  
11 because their ballot can be accessed at any location,  
12 which is a big deal, because approximately 50 percent of  
13 voters wait in Texas to vote on Election Day, and it  
14 gives them the opportunity to stop at their nearest  
15 location.

16 It also -- from a governing body, it's more  
17 fiscally responsible because we can put out more  
18 machines and have less staff and less lines at locations  
19 than having more locations with less equipment. So it's  
20 a big positive there.

21 Let me think what else. I can't really think  
22 of anything else.

23 Q. Yeah, that makes sense.

24 What is the criteria for selecting polling  
25 places to be used in countywide polling?

1           A.    State law requires them to be ADA compliant.  
2    They have to have the ability to have electricity and  
3    general things like that.

4           A commissioner in one precinct cannot have  
5    more than double within the last -- sorry, how do I  
6    explain that? No commissioner can have more than double  
7    the locations in their geographic county precinct than  
8    another.

9           What else? Unless precincts are consolidated,  
10   you can have no less than 50 percent of the precincts in  
11   your county polling places, total polling places. And  
12   they have to be able to accommodate, not only disabled  
13   voters, but have accessible restrooms as well. Parking  
14   places and things like that as well.

15          Q.    So -- sorry, did I cut you off?

16          A.    No, you didn't.

17          Q.    So the criteria you just described, who comes  
18   up with this criteria that you follow?

19          A.    I believe the Secretary of State does in the  
20   guidelines, yeah.

21          Q.    And do you know who makes the initial proposal  
22   for polling places for each election?

23          A.    Yes, I do.

24          Q.    And who is that?

25          A.    That is me along with the County Election

1 Board, depending on the election.

2 Q. Can you spell his last name, I'm sorry? Neil?

3 A. No, that's me.

4 Q. Oh, I'm so sorry.

5 A. Me or the County Election Board, depending on  
6 what type of election it is.

7 Q. Got it.

8 A. But generally speaking, I do the preliminary  
9 work.

10 Q. I see. I see.

11 Are most -- I'm sorry. So who else is on the  
12 County Election Board?

13 A. So the County Election Board in counties that  
14 do not have an election administrator would be the  
15 County Clerk, the Tax Assessor Collector, the County  
16 Sheriff, County Judge and the Democrat and Republican  
17 parties. We've also invited the Green Party and  
18 Libertarian Party to attend.

19 Q. Okay. Whose input is solicited on proposing  
20 polling place locations when you're deciding?

21 A. Everyone that's present at the meeting.

22 Q. At the meeting with the County Election Board  
23 that you just described?

24 A. Yes, uh-huh.

25 Q. Do you ever -- do you ever seek input from the

1 public or any sort of, like, public comments when you're  
2 discussing polling place locations?

3 A. We're always seeking comment from the public,  
4 but not -- not at the meeting unless someone was to show  
5 up. And it is an open meeting, but generally speaking,  
6 the public doesn't show up very often.

7 Q. If -- can you recall any situations in which  
8 you've had this meeting and the public -- members of the  
9 public have showed up, what their feedback or comments  
10 were?

11 A. Generally, they just listen.

12 Q. Okay.

13 A. So --

14 Q. And -- and when it's not -- and when you  
15 receive comments through another means, what is the --  
16 what are the means of receiving other types of public  
17 comment, if not at these meetings?

18 A. Well, going back to your previous question, if  
19 that's okay? I'm sorry, I know we're past it.

20 Q. Yeah.

21 A. I have a comment on who the election clerks  
22 should be or suggested. With your next question, can  
23 you rephrase that --

24 Q. Sure.

25 A. -- or reask?

1 Q. Sure.

2 I was just asking other than members of the  
3 public showing up at these public meetings, how else do  
4 you hear about feedback or comments about proposed  
5 polling place locations?

6 A. Well, we hear that from being at the polls  
7 listening to the public there, taking phone calls at the  
8 office and emails.

9 Q. Okay. So it sounds like sometimes people will  
10 call your office to give feedback about polling place  
11 locations, and they'll email your office as well. Is  
12 that right?

13 A. Yes.

14 Q. Are groups representing minority voters, such  
15 as the NAACP or LULAC, ever specifically invited to  
16 meetings with the County Election Board that you just  
17 described?

18 A. Well, everyone is invited to the meeting.  
19 It's a public meeting and we post that, so everybody's  
20 invited.

21 Q. Where is the meeting -- oh, go ahead.

22 A. That's it, I'm sorry.

23 Q. Where is the meeting posted? Typically, like  
24 where is the notice posted?

25 A. Notice will be posted on the courthouse

1 outside of the courthouse so you don't have to enter, on  
2 the County Clerk's website, as well as in my office  
3 where public notices are posted.

4 Q. How far in advance is the notice posted for  
5 such meetings?

6 A. I believe it's 72 hours, but I don't recall  
7 exactly.

8 Q. Okay. Have any of the commissioners or their  
9 staffs ever asked you to make changes to polling place  
10 locations?

11 A. Yes, uh-huh.

12 Q. Which commissioners have approached you about  
13 making these changes?

14 A. Over the years, many of them have, yeah.

15 Q. Has Commissioner Apffel asked you to make  
16 polling place changes?

17 A. I believe he has.

18 Q. Do you remember in what context?

19 A. I know in one of the elections he wanted to  
20 add a fire station. I think it was a fire station or  
21 church, yeah.

22 Q. Do you remember what year this was?

23 A. No, I don't.

24 Q. Do you remember around what year it was maybe?

25 A. 2019, 2020, somewhere in there.

1 Q. And after Commissioner Apffel approached you  
2 asking to make these additions, did you adopt his  
3 proposals? Did you have to discuss with anyone before  
4 adopting these proposals?

5 A. I believe we did, uh-huh. And those -- the  
6 polling locations are voted on in a public meeting of  
7 the Commissioners Court. They actually pick the  
8 locations. I suggest and they pick.

9 Q. I see. Okay. Has --

10 A. But I do --

11 Q. Did I cut you off? I'm sorry.

12 A. No, you didn't. Go ahead.

13 Q. Has Commissioner Holmes ever approached you  
14 asking you to make changes at polling place locations?

15 A. Yes.

16 Q. Can you tell me the particulars about that?

17 A. I believe he's asked for over the years many  
18 of them, yeah. In particular, what comes to mind would  
19 be Dickinson Community Center and Dickinson City Hall.

20 Q. But do you generally -- so it sounds like the  
21 commissioners approach you to ask to make polling place  
22 locations. Then you propose that at the Commissioners  
23 Court meetings, at these public meetings, and then the  
24 commissioners then vote on the proposals. Is that  
25 right?

1           A.    Yes, it works that way sometimes, and  
2 sometimes I just send a proposal over, and they can make  
3 changes that same day, which they've done before.

4           Q.    Okay. And is it just the commissioners and  
5 Mark Henry who ultimately make the call as to polling  
6 place changes and their locations?

7           A.    For general, yes. For general elections and  
8 presidential, yes. For all general elections, yes. Now  
9 if it's for a school board meeting, it's not really up  
10 to them, yeah. School board election, I'm sorry.

11          Q.    Do you recall ever denying a request from the  
12 commissioners about a proposed voting place location or  
13 not adding a proposal to the list of proposed voting  
14 locations?

15          A.    No, I don't recall any.

16          Q.    Okay. Is there any other method by which you  
17 decide on or get input in selecting polling place  
18 locations?

19          A.    Well, it's kind of the same -- the same  
20 method, but we have to take -- we have to get what we  
21 can get sometimes, because sometimes facilities will not  
22 allow us to use the location maybe they have before. So  
23 availability is key, yeah.

24          Q.    Got it.

25                   Do you know who approves the final list of

1 polling place locations?

2 A. The County Commissioners Court does.

3 Q. Are you aware of any specifically designed  
4 meetings held for minority community members to weigh in  
5 on polling place locations?

6 A. I don't recall any, but I don't believe that's  
7 required by law either.

8 Q. Okay.

9 A. But, again -- Molly?

10 Q. Yeah.

11 A. Molly, those -- the meetings, those are all  
12 in public forum. So if anyone has suggestions,  
13 including -- including anybody from the public, they're  
14 always welcome.

15 Q. That's right.

16 Since your tenure as County Clerk, have there  
17 been elections in which members of the public have  
18 complained about the location or closure of specific  
19 polling places?

20 A. Yes.

21 Q. Can you talk a little bit about those specific  
22 complaints --

23 A. Sure.

24 Q. -- and their prospective locations?

25 A. Absolutely.

1           What comes to mind is Friendswood City Hall.  
2           The City Hall I believe was not available for us to use.  
3           I believe it was a call that the governing body made  
4           because of whatever reason.

5           Another one would be a nursing home, fire  
6           station, school. Depending on, you know, what's going  
7           on in the news, that impacts a lot of who lets us have  
8           voting locations inside of their building.

9           The Dickinson City Hall is another one.

10          That's it, I think, that comes to mind.

11          Q.    So you listed some locations that had to be  
12          closed that people had complained about. Do you -- do  
13          you remember specifically why those locations had to be  
14          closed?

15          A.    Yes, I do.

16          Q.    So, I guess, starting with Friendswood City  
17          Hall, what was the reason for that closure?

18          A.    They said that the lines were too long in the  
19          building and they didn't have the parking. It also  
20          disrupted city business.

21          Q.    And what about the reason for closing the  
22          nursing home location?

23          A.    It was a business decision by the nursing  
24          homes, more than one, because of the COVID exposure to  
25          their residents.

1 Q. And what about the fire station closure?

2 A. Fire station closures, it's a public risk that  
3 lines are long, voters are standing in line in front of  
4 maybe a fire truck when an emergency call comes in. So  
5 some facilities will not let us use those.

6 Same thing with churches, COVID risk  
7 primarily. It was a decision made by either the local  
8 church or the dioceses or the governing body of the  
9 church.

10 Schools, similar thing, a risk to their  
11 students with recent things in the news like shootings  
12 and COVID, as well as safety issues like voters walking  
13 in front of buss, et cetera.

14 Q. And what about for the Dickinson City Hall  
15 closure?

16 A. Dickinson City Hall, I believe they had a  
17 scheduling conflict. They had City Hall and either -- I  
18 don't know if it was budget hearings, but they had city  
19 business to conduct, and they couldn't make the building  
20 available the entirety of the election or on the dates  
21 requested.

22 Q. Do you recall who or like which groups of  
23 community members had complained about each of these  
24 closures?

25 A. Well, yeah, sort of. In most of them, yeah.

1 Q. Can you talk a little bit about it?

2 A. Sure. Yeah, I can.

3 So it was a city decision on some of the fire  
4 stations. The city marshal, the fire chief does not  
5 want us to use fire stations anymore. I believe in the  
6 instance of Friendswood, it was the city manager  
7 communicated that to the City Council, and that was  
8 shared with us through the city secretary.

9 Now the Dickinson City Hall, it was  
10 communicated through the city secretary, I believe, that  
11 they had meetings going on, and they couldn't make that  
12 available.

13 Nursing home, it would be the director of the  
14 nursing home.

15 Q. So those are the -- those are the entities  
16 that told your office that we need to shut down these  
17 voting locations. Is that right?

18 A. That's a few of them, yes. Uh-huh, yeah.

19 Q. And then when you did shut those voting  
20 locations down, did you get any complaints from members  
21 of the public about the closures?

22 A. In particular, there was one in Friendswood,  
23 yes.

24 Q. Can you talk about who brought this complaint  
25 to you and the specifics of it?

1           A.    Yes.   Republican Party members complained  
2    about the -- well, I think she was like -- she's not the  
3    chairman, but she works with the chairman of the  
4    Republican Party.  She complained about Friendswood City  
5    Hall.

6                    Let me think who else?  A retired teacher  
7    complained about Friendswood City Hall.  I talked to him  
8    extensively, and he called me.

9                    I did get a call from a lady.  I can't  
10   remember who it was, her name anyway, about Dickinson  
11   Senior Center, Dickinson Community Center, same thing,  
12   because we were not allowed to use the restroom inside  
13   and there was a porta potty and she claimed she had an  
14   issue using that.

15           Q.    When you were discussing the retired teacher  
16   about closing the Friendswood polling location, do you  
17   remember why he was complaining?  Why did he want the  
18   Friendswood voting location to be kept open?

19           A.    Well, he felt that a city should offer their  
20   facility for voting, as well as a school district; and  
21   he was a retired teacher, so he didn't like that  
22   decision.

23           Q.    How extensively did you discuss with this  
24   teacher or how much time did you spend discussing this  
25   issue with the teacher?

1 A. 10 or 20 minutes.

2 Q. Do you typically take about 20 minutes talking  
3 to individual voters about polling place locations --  
4 changes? Sorry.

5 A. I will stay on the phone as long as people  
6 want to talk, yeah.

7 Q. Do you know how many polling places were  
8 required to be open in Galveston County during the  
9 November 2022 election?

10 A. Well, approximately 50 percent of the  
11 precincts. I believe there is 98 precincts. There are  
12 a number of precincts, I think three or four, with no  
13 voters in them. So unless you consolidate those, which  
14 we did.

15 Q. And as a follow-up to that, how do you know  
16 how many polling places are required to be open for  
17 voting?

18 A. Well, there's a formula that the State uses or  
19 the State suggests. So you could consolidate certain  
20 precincts. And in 50 percent of the precincts would be,  
21 I guess, half of 98, so 48, 49. And then if you  
22 consolidate some, that's the number we use.

23 Q. Okay. And lastly, did you ever contemplate  
24 shutting down the Carver Community Center polling  
25 location?

1           A.    I don't recall.  Well, it depends on the  
2           election.  If there's an election in that area, we've  
3           always used Carver Park.  So we traditionally open that  
4           up.

5                        MS. ZHU:  I think I'm going to call for a  
6           quick five-minute break, and then we can resume after  
7           that with some exhibits.

8                        MR. RUSSO:  Okay.

9                        THE VIDEOGRAPHER:  Going off the record  
10          at 2:33.

11                       (Break from 2:33 p.m. to 2:40 p.m.)

12                       THE VIDEOGRAPHER:  We are back on the  
13          record at 2:40.

14          Q.    (BY MS. ZHU)  So, Mr. Sullivan, did you talk  
15          to anyone just now during the break that we took?

16          A.    No.

17          Q.    Okay.  So let's continue then.

18                       MS. ZHU:  I am going to ask, George, if  
19          you can bring up tab 12, please.

20                       (Exhibit 9 marked.)

21          Q.    (BY MS. ZHU)  And, Mr. Sullivan, let me know  
22          when you have a chance to take a look at this document.

23          A.    Okay.  I'm here.

24          Q.    Okay.  Great.

25                       So this is an article in the Galveston Daily

1 News published on March 30, 2016, and the title of the  
2 article is "Commissioners Court removes Galveston  
3 polling location, adds League City for runoff early  
4 voting."

5 Do you see that?

6 A. I do, yes.

7 Q. Okay. Great.

8 And does that refresh your recollection of  
9 this decision to remove Galveston -- to remove the  
10 Galveston polling location and to add League City?

11 A. I vaguely remember this, but I do remember  
12 this, yes.

13 Q. Okay. Are you aware of the rationale behind  
14 this polling place location change?

15 A. I don't remember that, no.

16 Q. Do you remember discussing this change with  
17 anyone -- yeah, do you remember discussing the move to  
18 make this change at all?

19 A. I don't remember. No, I don't.

20 Q. Were you aware at the time that Commissioners  
21 Giusti and Holmes opposed this change?

22 A. No, I'm not. I know it happened, but I don't  
23 remember the particulars of it.

24 Q. Okay. Do you recall receiving any sort of  
25 complaints or feedback as a result of this decision?

1 A. No, I don't.

2 Q. Okay. And let's move on to the next exhibit.

3 MS. ZHU: George, that should be tab 13.

4 (Exhibit 10 marked.)

5 Q. (BY MS. ZHU) And you can just let me know  
6 when you have that pulled up.

7 A. I'm sorry. I see it.

8 Q. Okay. Great.

9 So this is an article, again, in the Galveston  
10 Daily News published November 20, 2020, and the title of  
11 the article is "Safety, not shenanigans, left church off  
12 island polling site list, officials say." And if you  
13 scroll down, the article begins by discussing how Moody  
14 Methodist Church, which is one of Galveston's most  
15 popular voting locations, was left off of the City's  
16 list for potential runoff voting sites.

17 Do you see that?

18 A. Yes, I do.

19 Q. Does that refresh your recollection at all of  
20 this incident?

21 A. Yes, it does, uh-huh.

22 Q. Do you recall the rationale for leaving Moody  
23 Methodist Church off the list of potential runoff sites?

24 A. I do remember that, yes.

25 Q. Can you speak a little bit about that

1 rationale?

2 A. Yes. This one was basically because of the  
3 COVID issues we faced. Moody Methodist had a policy of  
4 requiring voters based upon their -- I don't know what  
5 you would call it -- their governing body in Houston. I  
6 guess the Methodist Church in Houston required all  
7 people entering the voting location to wear a mask.

8 Q. Okay. Can you -- have there been other  
9 private -- have there been other potential voting  
10 locations that were taken off the list of election sites  
11 due to facemask requirements?

12 A. Yes.

13 Q. What other locations was that an issue for?

14 A. A couple of the nursing homes come to mind.

15 Q. Okay.

16 A. I can't remember any others, but I do know  
17 nursing homes were one of them.

18 Q. Okay. Can you recall any complaints or  
19 feedback that your office received about the decision to  
20 leave Moody Methodist Church off the election list?

21 A. I remember a call or two, but I don't remember  
22 specifically from who or --

23 Q. I --

24 A. Go ahead.

25 Q. Oh, no, you go ahead. Sorry.

1 A. No, I think that's it. I do remember  
2 receiving a call or two about it.

3 Q. But you don't recall who the call was from?

4 A. Yes, I do recall one of them actually. It was  
5 Mr. Quiroga. I can't think of his first name. It  
6 wasn't the gentleman that's mentioned here in the  
7 article. It's another one. I think it's his brother  
8 maybe.

9 Q. And do you remember what he was discussing  
10 with you?

11 A. Yes. He wanted that as a location and asked  
12 why it was not.

13 Q. Was there -- did he discuss why it was  
14 important to keep that location?

15 A. He said his brother was on the ballot and he  
16 thought it was a good location.

17 Q. Okay. Let's move on to the next exhibit.

18 MS. ZHU: And, George, if I could get  
19 your help. This should be tab 14.

20 (Exhibit 11 marked.)

21 Q. (BY MS. ZHU) And just let me know,  
22 Mr. Sullivan, when you can see this on your screen.

23 A. Okay.

24 Q. So can you see this right now?

25 A. Yes. It just came up.

1 Q. Okay. So this is a joint letter from the  
2 NAACP, from the TCRP, LULAC and SCSJ, amongst other  
3 signatories. This letter was sent to you, and it is  
4 dated November 1, 2022. Are you familiar with this  
5 letter?

6 A. No.

7 Q. Do you remember -- sorry. Do you remember  
8 ever reading this letter before just now?

9 A. I don't recall reading this letter, no.

10 Q. So is it correct to say that this email was  
11 sent to you but you never opened it, or did you maybe  
12 open it but forget the contents?

13 A. Was this an email?

14 Q. At the top it says via electronic mail.

15 A. You know, I don't recall this. I may have  
16 received it, but I don't recall this email.

17 Q. Okay.

18 A. I don't even know the date on it, I'm sorry.  
19 Do you see a date?

20 Q. No, that's fine. The date on it is -- should  
21 be November 1, 2022, and I think it says -- I think it  
22 says that. I am trying to find --

23 A. Oh, is this the one that I just received  
24 recently?

25 Q. It --

1 A. I'm sorry, I'm not done reading.

2 Q. Go ahead.

3 A. If you give me a second to familiarize myself  
4 with the letter.

5 Q. Yeah, please. Take your time.

6 A. Maybe I spoke too soon, I'm sorry.

7 Q. That's okay.

8 A. Okay. Yes, I did receive this one. I'm  
9 sorry.

10 Q. Okay. I can't find it now, but this letter  
11 was sent on November 1 of 2022, if that helps you  
12 recall.

13 A. Yes, I do remember it.

14 MR. RUSSO: Undated.

15 Q. (BY MS. ZHU) Okay. Great.

16 So can you describe what the letter is about  
17 and what it discusses?

18 A. Yes. So this letter is basically saying  
19 that we are required to have more voting locations,  
20 essentially.

21 Q. Right.

22 And when you received this letter, how did  
23 your office respond?

24 A. So I called my county attorney, the  
25 representative for the County, legal counsel, and spoke

1 to him about it. We also looked at the possibility of  
2 trying to increase locations.

3 Q. After looking into the possibility of trying  
4 to increase locations, were you able to increase any  
5 voting locations?

6 A. No, we did not, huh-uh.

7 Q. What was the reason why it was ultimately --  
8 why your office was ultimately unable to add voting  
9 locations?

10 A. Well, primarily it was the timing of this  
11 letter. It was less than a week away from Election Day.  
12 Even if I could find the locations necessary to comply  
13 with this letter, it would be very challenging to make  
14 it happen that quick without risking a lot of things,  
15 including voter confusion, delays in returns,  
16 programming errors, et cetera.

17 Q. Were you aware that the County -- so the  
18 letter says, you know, the County plans to dramatically  
19 reduce the amount of Election Day polling locations from  
20 previous years because it was only operating 28  
21 locations instead of the minimum of 41 required by law.

22 Were you aware of this minimum 41 voting  
23 location as required by law prior to receiving this  
24 letter?

25 A. Yes, I was; but quite honestly, when I got

1 this letter, I thought we had done our part.

2 Q. I'm sorry. When you got this letter --

3 A. I thought that it was a moot issue because we  
4 had -- we had consolidated precincts the best we could  
5 to accommodate the locations we could find.

6 Q. Okay. After you received this letter on  
7 November 1, did your office discuss planning opening  
8 more polling locations for future elections?

9 A. Yes.

10 Q. And what affirmative plans has your office  
11 made since then to ensure that additional polling  
12 locations will be open?

13 A. We are working with -- it's an ongoing  
14 process, by the way. We have changed our contracts a  
15 little bit. And going forward, we're going to ask the  
16 entities that we conduct our elections, for them to help  
17 us provide voting locations, including cities and  
18 schools. Additionally, my staff is reaching out to see  
19 who else will help us.

20 Q. Who was involved in these discussions? You  
21 said your staff. Are these the deputy staff members or  
22 general staff members?

23 A. Yes, my Chief Deputy Wendi Fragoso.

24 Q. Okay. Give me a quick second.

25 Is there a method by which you are discussing

1 where to open additional polling locations, as in are  
2 you proposing them from your office, or are you fielding  
3 feedback generally to hear where the public wants  
4 additional voting places to be located?

5 A. All of the above. My office is always looking  
6 for locations. We listen to the public, the feedback,  
7 and if the Commissioners Court or anybody has an  
8 opinion, we definitely look into that. We also work  
9 with the cities. We met with the City recently, I guess  
10 a week ago, at a City Council meeting to talk about  
11 voting locations and expanding those.

12 Q. Okay. Let's move on to the next exhibit.

13 MS. ZHU: George, this should be tab 15.

14 (Exhibit 12 marked.)

15 Q. (BY MS. ZHU) And, Mr. Sullivan, when you see  
16 this document, just let me know, but the operative  
17 wording I am looking for is on page 4 out of 9 of the  
18 document.

19 A. Okay. I am at page 4.

20 Q. Okay. Great.

21 So this is just the Texas election code  
22 Title 4, Chapter 43, and the specific section we're  
23 looking at is 43.007(f). And it, you know, generally  
24 reads: In selecting countywide polling places, a county  
25 must adopt methodology for determining where each

1 polling place will be located. The total number of  
2 countywide polling places may not be less than  
3 50 percent of the precinct polling places that would  
4 otherwise be located in the county for that election.

5 Do you see that wording?

6 A. I do, yes.

7 Q. And I think this is what you were referencing  
8 before when you were discussing having at least  
9 50 percent of polling places in each precinct as the  
10 other. Right?

11 A. Yes, that's correct.

12 Q. Okay. Great.

13 Let's move on to the next exhibit, which is  
14 tab 16.

15 (Exhibit 13 marked.)

16 Q. (BY MS. ZHU) Just let me know when you can  
17 see this document.

18 A. Okay. It just came up.

19 Q. Okay. Great.

20 If you could scroll to the bottom two pages.  
21 I think the last two and three, pages 2 and 3. So this  
22 is -- the page 2 is a map of the early voting locations  
23 in Galveston; you can see that it's listed by  
24 commissioner precincts. And the third page is a map of  
25 the Election Day locations in Galveston for polling

1 locations, and you can see the polling locations are in  
2 there as well.

3 Do you see that?

4 MR. RUSSO: In 2019?

5 MS. ZHU: I'm sorry. 2019, you're right.

6 A. Yes.

7 Q. (BY MS. ZHU) Does this map refresh your  
8 recollection as to whether or not the 2019 early voting  
9 locations complied with Section 43.007(f) that we just  
10 reviewed?

11 A. I believe it did. I don't recall it not being  
12 in compliance.

13 Q. Okay. Give me one second.

14 A. Sure.

15 Q. And the second map as well, which is the  
16 Election Day locations in 2019, does that refresh your  
17 recollection as to whether or not the 2019 Election Day  
18 map -- I'm sorry -- election locations complied with the  
19 Section 43.007(f)?

20 A. Yeah, I believe it was in compliance.

21 Q. Okay. Great.

22 Let's move on to the next exhibit, which is  
23 tab 17.

24 (Exhibit 14 marked.)

25 Q. (BY MS. ZHU) And just let me know when you

1 can pull this one up as well.

2 A. Okay. I'm here, but I'm trying to read it,  
3 I'm sorry.

4 Q. Say that again.

5 A. Yes, I am here.

6 Q. Okay. Great.

7 So this document is an email from Nathan  
8 Sigler to you on August 2, 2022. I am just going to ask  
9 that you take a look at the map that's attached on page  
10 3 just to familiarize yourself with it.

11 A. Yeah, I'm looking at it.

12 MS. ZHU: Okay. I'm going to ask that we  
13 take a quick five-minute break, if that's okay, before  
14 we return to this exhibit.

15 MR. RUSSO: Okay.

16 THE VIDEOGRAPHER: Going off the record  
17 at 3:04.

18 (Break from 3:04 p.m. to 3:11 p.m.)

19 THE VIDEOGRAPHER: We are back on the  
20 record at 3:11.

21 Q. (BY MS. ZHU) Mr. Sullivan, did you talk to  
22 anyone just now during the break that we took?

23 A. No.

24 Q. Okay. Great. Let's continue then.

25 I think currently we have Exhibit -- well, we

1 have tab 17 pulled up, and we were looking at page 3,  
2 which shows a map of the Galveston County polling  
3 locations from 2022, and this was sent in an email to  
4 you, Mr. Sullivan, on August 2, 2022.

5 Do you see that?

6 A. Yes.

7 Q. Okay. Excellent.

8 So previously we were discussing Texas  
9 Election Code 43.007(f), and I also just wanted to  
10 represent to you that Section 43.007(m) discusses that  
11 the County must ensure that the total number of polling  
12 places open for voting in a county commissioners  
13 precinct does not exceed more than twice the number of  
14 polling places in another county commissioners  
15 precincts. I think you were referencing this section  
16 before. Is that right?

17 A. Yes, uh-huh.

18 Q. Okay. Great.

19 And that's Section .007(m). So just looking  
20 at map that we have open on this current exhibit,  
21 Exhibit 14, you can see that the polling locations are  
22 shown by this legend at the bottom right-hand corner.  
23 In reviewing that legend, and take as long as you need,  
24 do you believe that this map implies with Section  
25 43.007(m) which I just read?

1 A. Yes.

2 Q. Okay. Were there any voting -- do you recall  
3 any voting place closures or additions that had to be  
4 made in 2022 in order to comply with 43.007(m) as a  
5 result of the 2021 redistricting?

6 A. Not as a result of the districting.

7 Q. What was it -- what was it as a result of?

8 A. So we added two locations to our original  
9 proposal. I believe they're reflected here. I'm sorry,  
10 it's really small. One was Dickinson Community Center.  
11 And the other one was High Island. I think it's like a  
12 basketball gym. I don't know what they call it. We  
13 just call it High Island. It's not on the map. It's on  
14 the far right corner.

15 Q. Okay.

16 A. You can't see it.

17 Q. Whose ultimate decision was it to add those  
18 two locations?

19 A. Commissioners Court.

20 Q. Do you recall who initially proposed those two  
21 locations to be added?

22 A. Commissioner Holmes, I believe, proposed  
23 Dickinson Community Center in Commissioners Court when  
24 we approved the first list.

25 And the second, we went back for a

1 supplemental to add High Island, and that was a  
2 suggestion by my office.

3 Q. How did your office come to make that  
4 suggestion?

5 A. Because there was a local race there, and the  
6 nearest polling place was like 5 or 7 miles away,  
7 something like that.

8 Q. Okay. Were any polling places closed?

9 A. No. Well, prior to this map, yes; but as of  
10 this map forward, no. As of August forward, there was  
11 not.

12 Q. And for the locations that were closed, do you  
13 know where they were -- which locations were closed?

14 A. Well, by you mean closed -- your definition of  
15 closed and mine, I don't know if they're the same thing.  
16 Mine are not available, is what I mean by closed.

17 Q. Sure. Yeah, sure.

18 For the locations that were made unavailable,  
19 where -- where were those locations?

20 A. There was College of the Mainland North.  
21 There was Friendswood City Hall, a library in  
22 Friendswood, a church in Friendswood. Let me think.  
23 What else was there? At least three nursing homes in  
24 League City, Kemah area. Mid County Annex, which is a  
25 County building. We couldn't -- I think that was one of

1 them. The space wasn't available. There was a church.

2 Q. Did --

3 A. Go ahead.

4 Q. No, no. Sorry, I didn't mean to cut you off.

5 A. You're depending on my memory here, and I  
6 apologize it's taking me a little bit to go through them  
7 all in my head.

8 Q. No, take your time.

9 A. Clear Lake Shores, I believe, was not  
10 available as a location we've used in the past.  
11 Creekside Intermediate School. Clear Creek ISD  
12 Administration Building was not available. Use of  
13 location in Dickinson on the west side of 517.  
14 Actually, I take that back. Yeah. Yeah, we used that  
15 before. I'm sorry, that was not available. It was  
16 actually private space. The gentleman let us use it,  
17 but he said no more.

18 That's all that comes to mind. I'm sure  
19 there's more.

20 Q. Of those locations that you just mentioned,  
21 were any polling places closed or remaining unavailable  
22 that were located on Bolivar Peninsula?

23 A. No.

24 Q. Were there any polling places closed or  
25 remaining unavailable on Galveston Island?

1 A. No.

2 Q. Okay.

3 A. We were able to reopen Moody and work with  
4 them on that.

5 Q. You mentioned that a High Island location was  
6 added as a polling place due to a local race. What race  
7 was that?

8 A. I don't recall. I believe it was a school  
9 board. I think it was a school bond or something like  
10 that.

11 Q. Okay.

12 A. Yeah, I think it was a school bond.

13 Q. Were there any plans to reduce polling places  
14 in Precinct 2 in order to comply with 43.007(m) as a  
15 result of the new 2021 redistricting?

16 A. No.

17 (Reporter clarification.)

18 A. I said no. I'm sorry.

19 Q. (BY MS. ZHU) Oh, I think you might have cut  
20 out. Thank you.

21 Did the changes in the commissioner precinct  
22 boundaries affect the ratios of election locations in  
23 each commissioner's precinct?

24 A. I would really have to look at past elections,  
25 but I'm having trouble finding locations in all -- all

1 areas, so I would say no.

2 Q. Okay. And how about for the March primary?

3 A. You know, I don't recall. I'd have to review  
4 the locations. I'm sorry, I don't mean to sound like  
5 I'm forgetful, but we do elections for 30 plus entities  
6 and they change. We do two to three a year, so I don't  
7 recall which ones we used for the primary specifically.

8 Q. That's okay.

9 Going back to the closures we discussed, the  
10 polling place closures we discussed, were any of those  
11 closed in the sense in order to comply with the ratio  
12 rule?

13 A. No.

14 Q. Okay. And does that also apply for the March  
15 primary?

16 A. Yes. I think that's true, uh-huh. None of  
17 those were closed because of that reason.

18 Q. Okay. Do you know if there was a formal  
19 opportunity for comment from the public regarding  
20 polling place closures or inaccessibility to polling  
21 places?

22 A. Well, I would say yes. We held an election  
23 board meeting that was open for the public to attend.  
24 We've had two Commissioners Court meetings where polling  
25 places were chosen. So I would say yes, there was an

1 opportunity, and the public did show up.

2 Q. Can you characterize some of the public  
3 comments that you received?

4 A. At the meetings, you mean?

5 Q. Yeah. Were they generally -- do you remember  
6 getting any complaints? Do you remember getting any  
7 support?

8 A. The only one that comes to mind is when we  
9 took the proposed list to Commissioners Court in I  
10 believe it was early September, the Democrat Party chair  
11 was there in support of Dickinson Community Center. I  
12 don't believe she spoke, though. I speak to her quite  
13 frequently, and so we knew that that was something she  
14 wanted. But Commissioner Holmes on the floor proposed  
15 we add that, and it passed unanimously.

16 Q. And you said that these meetings occurred in  
17 early September of this year. Is that right?

18 A. Yes, uh-huh.

19 Q. At these meetings discussing the polling  
20 places, did redistricting come up at all?

21 A. No. I mean I don't recall, I'm sorry. My  
22 memory says no, but I don't recall if there was someone  
23 that said something, but not to me, no.

24 Q. Okay. I think we can move on to the next  
25 section, which is discussions about accessibility in

1 elections. So, how would you describe your role with  
2 respect to promotion of voting or making voting  
3 accessible to the public in Galveston?

4 A. Well, we're constantly looking for the best  
5 locations that serve voters of Galveston County. As far  
6 as promotion of that, we -- a list is published in the  
7 newspaper. We have our election board meeting. We've  
8 got staff at the office every day that the County is  
9 open. And we talk to the public. We know the  
10 Republican and Democrat parties very well and work with  
11 them on a daily basis. Commissioners Court, if they  
12 have suggestions, we take their calls and comments. So  
13 I think we do a pretty good job of that. We also  
14 advertise locations using our website, and we have a  
15 mobile app that people can look at voting locations, and  
16 it gives them directions to, gives them a sample ballot,  
17 et cetera.

18 Q. Does your office take into account  
19 accessibility in voting for lower income folks?

20 A. Yes.

21 Q. In what ways does your office try to consider  
22 these -- consider lower income folks in elections  
23 accessibility?

24 MR. RUSSO: Sorry, consider what kind of  
25 votes?

1 MS. ZHU: So, I asked Mr. Sullivan if his  
2 office takes into account accessibility for voting for  
3 lower income folks and he said yes, and my follow-up was  
4 how?

5 A. Well, we take into consideration accessibility  
6 for everybody, not just low income folks. We generally  
7 have locations spread throughout the county with plenty  
8 of equipment, the most we can fit in any location. We  
9 listen to the public, if there's any concerns as to  
10 adding locations, and we have the ability to add those  
11 locations. So I think, yes, we do a good job of that.

12 Q. (BY MS. ZHU) Does your office look at access  
13 to transportation data in choosing polling locations at  
14 all?

15 A. No. No, we don't. We look at highways and  
16 thoroughfares and neighborhoods, but I don't have any  
17 data on transportation or public transportation.

18 Q. Okay. Does your office take into account  
19 accessibility for voting for elderly folks?

20 A. Yes.

21 Q. In what ways?

22 A. Over the years we've increased our voting  
23 locations to accommodate more seniors. We talk about  
24 mail ballot voting as well as in-person voting. We've  
25 added over the years numerous nursing homes and senior

1 living facilities. Of course, you heard me earlier.  
2 Some of them, they wanted us to vote there, but their  
3 corporate offices wouldn't allow it this cycle, but they  
4 plan on opening the doors again to us when things  
5 change. So we've done a very good job with the seniors.

6 Q. Does your office take into account voting  
7 accessibility for folks with disabilities?

8 A. Yes.

9 Q. And in what ways?

10 A. So our equipment is programmed so that we have  
11 voting for hearing impaired and sight impaired voters,  
12 not only in English, but in Spanish. Additionally, we  
13 have the ability to accommodate voters via curbside  
14 voting. So if someone is stuck in a car -- not stuck,  
15 but cannot enter the polling place, we bring the voting  
16 system out to them and they can vote from their vehicle,  
17 either as a driver or a passenger, with or without  
18 COVID.

19 Q. And what about does your office take into  
20 account accessibility for those voters without cars?

21 A. I don't know how to answer that question. We  
22 have -- we follow the law, and the law requires that we  
23 make available in-person voting, mail voting, disabled  
24 voting; and so I think we do in that respect, yes.

25 Q. Previously, you mentioned that your office had

1 created a phone app to help with the accessibility of  
2 voting, and my only follow-up to that is to ask if the  
3 app is available in Spanish as well?

4 Bless you.

5 A. Thank you.

6 I don't know the answer to that. I don't  
7 believe it is, but I'm not for certain if there's a  
8 translation button on there.

9 Q. Okay. And you mentioned the voting website as  
10 well. Is that website available in Spanish?

11 A. Yes.

12 Q. Have any of the commissioners or the County  
13 Judge ever requested that your office make changes to  
14 the way you administer elections?

15 A. No.

16 Q. Did you say no?

17 A. "No," yeah.

18 Q. Okay. Let's move on to the next exhibit,  
19 which is tab 18.

20 (Exhibit 15 marked.)

21 Q. (BY MS. ZHU) And, Mr. Sullivan, when you have  
22 it pulled up, just let me know and we can walk through  
23 it.

24 A. Tab 18, okay.

25 Q. Yes, it should be tab 18.

1 A. Okay. I see it.

2 Q. Okay. So this is an article from the  
3 Galveston Daily News again, and it was published on  
4 August 8, 2016. The title is "County officials approve  
5 part of a plan to advertise election information." And  
6 if you scroll down, they discuss that a billboard space  
7 was paid to advertise elections -- the election app in  
8 advance of the November 8th election of that year.

9 Do you see that information?

10 A. I do, yes.

11 Q. And does this refresh your recollection about  
12 the billboard and the app and the promotion of the app?

13 A. Yes.

14 Q. And do you recall that about 1,100 people had  
15 downloaded the app compared to about 190,000 voters in  
16 the county?

17 A. Yes, uh-huh.

18 Q. Do you have any recollection of the  
19 demographics of the 1,100 people who had downloaded the  
20 app?

21 A. You know, I have no idea. We don't collect  
22 that data.

23 Q. Okay. And can you explain -- can you explain  
24 how it was decided to have a billboard be placed in  
25 League City?

1           A.    I believe we had two of them, if I'm not  
2 mistaken.  I'm sure -- no, I don't recall that.  I  
3 believe it was catching voters who worked in Houston and  
4 catching voters heading southbound, was our original  
5 plan.

6           Q.    I see.

7                    And were you aware at the time that  
8 Commissioner Holmes had pushback to the billboard  
9 location, namely that it might not have been placed in  
10 the most diverse location in the county?

11           A.    I don't recall that, no.

12           Q.    Can you explain the County's responsibility to  
13 provide language access at the polls to people who are  
14 limited English proficiency?

15           A.    Yes.  So -- so at the polling locations, we  
16 are required to have voting materials in English and in  
17 Spanish.  That includes the equipment be programmed in  
18 English and in Spanish, as well as the materials in  
19 print, and we also have bilingual judges and clerks  
20 there.

21           Q.    Are you aware of any complaints as to the  
22 issue of election inaccessibility due to limited English  
23 proficiency in Galveston?

24           A.    No.

25           Q.    Are you taking any steps -- or is your office

1 taking any steps to ensure more access to polling places  
2 in elections for Spanish language speakers?

3 A. Currently, we are just following the law, in  
4 that we provide all of our materials in English and  
5 Spanish.

6 Q. How successful do you think your efforts have  
7 been to make elections more accessible to Spanish  
8 speakers?

9 A. You know, I really have no way to gauge that.  
10 I do know that we try to always improve that. I've got  
11 numerous staff members that are bilingual, and we also  
12 have bilinguals at every polling location.

13 MS. ZHU: Okay. I am going to ask,  
14 George, if you can pull up tab 19, and we'll move to the  
15 next exhibit.

16 (Exhibit 16 marked.)

17 Q. (BY MS. ZHU) And again, Mr. Sullivan, just  
18 let me know when you are able to pull this exhibit up.

19 A. I can see it now.

20 Q. Okay. Great.

21 So this is a consent decree on Spanish  
22 language. It was issued in 2007 and issued to Galveston  
23 County in 2007.

24 Do you see that in the title and the caption?

25 A. Yes.

1 Q. So generally this document notes that the  
2 defendants, which is Galveston County here, are  
3 permanently enjoined from failing to provide Spanish  
4 instruction and assistance and enjoined from failing to  
5 ensure that poll workers provide adequate training.

6 This is on page 3. Let me know if you see  
7 that. It reads Defendants are permanently enjoined from  
8 and then A and then B.

9 A. Okay.

10 Q. Do you recognize this document at all?

11 A. No. I'm aware of it, but I don't know that  
12 I've ever seen it.

13 Q. How have you become aware of this document  
14 previously?

15 A. So when I -- when I took office, this decree  
16 was in place --

17 Q. Have you ever -- have you ever referenced this  
18 decree in making changes to voting accessibility due to  
19 Spanish language?

20 A. Early on I believe we did, when I first --  
21 when it was in place, yes, and we've abided by that  
22 thereon forward.

23 Q. In what ways did you rely on this consent  
24 decree in making changes to voting accessibility due to  
25 Spanish language?

1           A.    Well, so all of our materials were -- at the  
2   polling location and regarding elections are in English  
3   and Spanish.  I've got numerous bilinguals on my  
4   election staff, including temporaries, to make sure that  
5   every location has bilinguals, at least one at every  
6   location.  Like I said, we program the ballot and record  
7   it for also the hearing impaired and sight impaired, so.

8           Q.    Okay.  What kinds of outreach does your office  
9   do to conduct -- what kinds of outreach does your office  
10  conduct to recruit poll workers?

11          A.    We basically work with the parties, and when  
12  we receive phone calls of people that are interested,  
13  we -- we work with the parties to put them on the party  
14  list, and then they filter through the parties to us.

15          Q.    Does your office receive requests for voter  
16  data at Galveston?

17          A.    Yes.

18          Q.    Are you aware of the website  
19  GalvestonVotes.org?

20          A.    Yes.

21          Q.    Is that the main website for elections  
22  information?

23          A.    Yes.

24          Q.    And is that website available in Spanish?

25          A.    Yes.

1 Q. As to my question about voter data, what sort  
2 of voter data information have you given in the past?

3 A. Typical requests would be voters who have  
4 voted, either in an election or on a daily basis during  
5 an election. That's traditionally what we receive  
6 requests on.

7 Q. Are you familiar with the legislation passed  
8 as SB 1 in special legislative session in September of  
9 2021 relating to election integrity and security?

10 A. Yes.

11 Q. Are you familiar with the provisions relating  
12 to mail-in ballots?

13 A. Mostly, yes, uh-huh.

14 Q. Do you know if Galveston County experienced  
15 higher rates of rejections of voter applications for  
16 ballot by mail during the 2022 primary election?

17 A. Yes, we did.

18 Q. Do you know why voters' applications were  
19 rejected at a higher rate?

20 A. I can attribute -- I have an idea of why, yes.

21 Q. What's your understanding?

22 A. So with the new law in place, a lot of voters  
23 were hesitant to put their personal information on the  
24 application. Or on -- I'm sorry, on the mail-in ballot  
25 that came back to us.

1 Q. Do you know if Galveston County experienced  
2 higher rates of rejection for voters mail ballot  
3 applications than -- than prior to when SB 1 was  
4 adopted?

5 A. For that election, I believe it was slightly  
6 higher.

7 Q. And did your office take any steps to try and  
8 reduce the number of rejections of application ballot by  
9 mail for future elections, including the 2022 general  
10 election?

11 A. Yes, we did.

12 Q. What kind of steps did your office take to  
13 help reduce the number of rejections?

14 A. So we included a -- we call it a "Dear Voter"  
15 letter. And this letter basically -- I think it was  
16 prescribed by the Secretary of State -- explained and  
17 reminded voters that they are required now to put their  
18 identifying information, either last four of the Social  
19 or driver's license number, on the ballot.

20 Initially, we did not have a signature  
21 verification committee. We had early voting ballot  
22 board to do both jobs, which is allowable under Texas  
23 law, simply because we could -- if someone did not have  
24 that information, we could turn it around faster because  
25 the early voting ballot board can meet sooner.

1 Additionally, my staff called voters, where possible, to  
2 remind them to fill out their information.

3 Q. You mentioned letters that you had sent out  
4 to -- to voters. Was that letter sent out in the  
5 Spanish language in any iteration?

6 A. Yes, I believe it was, uh-huh.

7 Q. Do you know if the rejection rates for the  
8 application ballot by mail in the 2022 general election  
9 was higher than the rejection rates prior to SB 1 being  
10 adopted?

11 A. I don't have those numbers -- those figures in  
12 front of me.

13 Q. How did you notify voters that their  
14 applications were rejected?

15 A. The ballot board sends out letters. The  
16 ballot board is compiled of Republicans and Democrats  
17 both.

18 Q. Do you know if there was a cure process for  
19 the missing ID issue or the missing ID number issue?

20 A. Yes, there was, uh-huh.

21 Q. And did your office work to make folks aware  
22 of the online -- of the cure process?

23 A. Yes.

24 Q. And in what manner was this carried out?

25 A. Well, like I said, we called voters where

1 possible when there was a telephone number listed. We  
2 also reminded them when they were sent back to voters to  
3 put that information on there, either with a letter or  
4 telephone call.

5 Q. Did you have Spanish -- did you have Spanish  
6 speakers who were able to field phone calls as well?

7 A. Yes, both permanent employees as well as  
8 temporary employees.

9 Q. Okay. Do you know what proportion of voters  
10 then went on to carry out the online cure process which  
11 resulted in their ballots being ultimately sent off?

12 A. I don't know that.

13 Q. Okay. Turning to the ballots themselves, did  
14 you experience higher rates of rejection for mail  
15 ballots in the 2022 primary election?

16 A. Haven't you already asked me that question?  
17 I'm trying to differentiate it from the first question.  
18 What's the difference in the question? I'm sorry.

19 Q. That's fine.

20 So the first question is about the application  
21 for ballot by mail, and now I'm asking about the  
22 rejection for mail ballots.

23 A. Oh, okay. Maybe I misunderstood the first  
24 question.

25 I don't have those statistics in front of me,

1 but I do know the rates for ballot by mail. Rejection  
2 was slightly higher because of the new law. That's what  
3 I attribute it to.

4 Q. Okay. So you noted prior in the deposition  
5 that you are a current active member of the Republican  
6 Party. Is that right?

7 A. Yes.

8 Q. And you said you had been a member since maybe  
9 about 2001, 2002. Is that right?

10 A. Well, I don't want to get too technical, but  
11 in Texas you don't have to be -- it's an open primary  
12 state, where there's not really a -- you can vote either  
13 way at any election.

14 Q. I see.

15 A. Yeah.

16 Q. Do you hold any titles or positions within the  
17 Republican Party?

18 A. No.

19 Q. Can you identify any successful black or  
20 Latino candidates who have won Republican primaries for  
21 a county level office within Galveston?

22 A. Yes.

23 Q. Can you list their names, if you recall?

24 A. Myself would be number one. Robin Armstrong,  
25 Dr. Robin Armstrong. Judge Michelle Slaughter.

1 Q. Can you name any other county level minority  
2 candidates who have run campaigns?

3 A. Republican or Democrat or does it matter?

4 Q. Doesn't matter. Racial minority candidates.

5 A. DJ Alvarez, he ran for Constable.

6 You know, I would have to sit down and think  
7 about that for a while. There's been a lot of  
8 candidates over the years.

9 Q. Okay. That's fine.

10 Are you familiar with Robin Armstrong?

11 A. Yes.

12 Q. How did you first become familiar or meet  
13 Mr. Armstrong?

14 A. I know he's been active in Republican politics  
15 for a while, so I don't know how to answer that  
16 question.

17 Q. Around what year did you first meet  
18 Mr. Armstrong?

19 A. You know, I don't know that I've technically  
20 ever met him.

21 Q. Okay.

22 A. I've said "hello" because we both know who  
23 each other are.

24 Q. Okay.

25 A. Probably 2005 or '07, something like that.

1 Q. Okay. Do you have a working relationship with  
2 Mr. Armstrong?

3 A. I haven't done much work with him, but yes, I  
4 guess I do.

5 Q. What kind of work have you -- what kind of  
6 work do you do with Mr. Armstrong?

7 A. Well, I don't know him that well so I haven't  
8 sat down and tackled any projects with him, but the  
9 Commissioners Court sets my budget, and I record the  
10 minutes of the Commissioners Court, my staff does. So  
11 that's how I would say that.

12 Q. Okay. And how have you been involved in the  
13 Republican Party in the last few years?

14 A. I haven't.

15 Q. Okay. So, I think we are -- I think we will  
16 conclude by introducing the last three exhibits, and I  
17 will just ask you a few questions about them before I  
18 turn it over to Petteway counsel and then DOJ counsel.

19 MS. ZHU: So, George, if I could get your  
20 help in pulling up tab 20.

21 (Exhibit 17 marked.)

22 Q. (BY MS. ZHU) Let me know when you can see  
23 this exhibit.

24 A. It just popped up.

25 Q. Okay. Great.

1           So before I start asking you about this  
2 exhibit, I know that I previously asked you if you could  
3 identify any successful black or Latino candidates  
4 running for county local office, and you said yourself.  
5 And so I just wanted to clarify. Can you -- how do you  
6 self-identify in that respect?

7           A. Well, my DNA. My parents grew up speaking  
8 Spanish. That was their first language. That's my  
9 heritage, I guess.

10          Q. I see. Okay. Thank you for confirming that.

11          A. Yeah.

12          Q. So this exhibit that we have just pulled up is  
13 another article from, I guess, the Houston Public Media,  
14 and it was -- it's discussing the 2019 voter purge of  
15 naturalized citizens in Galveston County that -- it  
16 notes that a Galveston County top election official is  
17 targeted in multiple new lawsuits.

18                 Do you see that?

19          A. I do, yes.

20          Q. And are you familiar with this voter purge  
21 incident in 2019?

22          A. I saw it on the news, yes.

23          Q. Say that again, I'm sorry.

24          A. I saw it in the media, yes.

25          Q. Can you describe what happened, to your

1 knowledge?

2 A. I believe the Voter Registrar sent out letters  
3 asking voters to prove their citizenship, from what I  
4 remember.

5 Q. And are you aware that the lawsuit targeted  
6 election officials from Galveston?

7 A. Yes, uh-huh.

8 Q. Did you ever have discussions with Cheryl  
9 Johnson's office about this issue?

10 A. I don't recall having any discussion with her  
11 about it.

12 Q. Do you recall your office responding to this  
13 lawsuit or doing anything to ameliorate this issue?

14 A. No, huh-uh.

15 Q. Did you say no?

16 A. No.

17 Q. Okay.

18 MS. ZHU: George, if you could please  
19 load the next exhibit, which should be tab 21.

20 Q. (BY MS. ZHU) And again, Mr. Sullivan, just  
21 let me know when you can see this article.

22 (Exhibit 18 marked.)

23 A. Okay. I see it.

24 Q. (BY MS. ZHU) Okay. Great.

25 So this is an article from The Daily News

1 again. It is titled "2 years after lawsuit, Galveston  
2 County again trying to purge voter rolls." And this  
3 article came out in 2021, and it's discussing basically  
4 the voter purge in 2019, the incident from the exhibit  
5 we just reviewed but noted that it's happened again two  
6 years later. Is that what you're seeing as well?

7 A. Yes.

8 Q. And are you familiar with this voter purge  
9 incident in 2021?

10 A. No, I'm not.

11 Q. Do you remember having any discussions with  
12 Cheryl Johnson's office about this issue in 2021?

13 A. No.

14 Q. And did your office do anything to combat or  
15 ameliorate this issue in 2021?

16 A. No.

17 Q. Okay.

18 MS. ZHU: And let's load the last exhibit  
19 now.

20 Or, I'm sorry, let's give a quick pause just  
21 so I can regroup.

22 Okay. Thank you so much, Mr. Sullivan,  
23 for your time today. I'm actually going to pass my time  
24 on to Petteway counsel now.

25 MS. RICHARDSON: Thank you. Valencia

1 Richardson for Petteway counsel. I actually think this  
2 might be a good time for a break, if you want to take  
3 one. We can take a short, five-minute break.

4 THE WITNESS: Okay.

5 THE VIDEOGRAPHER: Okay.

6 MS. RICHARDSON: Go off the record.

7 THE VIDEOGRAPHER: Yeah. Going off the  
8 record at 3:57.

9 (Break from 3:57 p.m. to 4:05 p.m.)

10 THE VIDEOGRAPHER: We are back on the  
11 record at 4:05.

12 EXAMINATION

13 BY MS. RICHARDSON:

14 Q. Okay. Mr. Sullivan, my name is Valencia  
15 Richardson. I am counsel for the Petteway Plaintiffs,  
16 the second group of plaintiffs in this case. Thank you  
17 for sitting with us and bearing with us for so long, but  
18 I only have a few questions. My line of questioning is  
19 not going to take that long.

20 A. Okay.

21 Q. All right?

22 MR. RUSSO: Hey, Valencia?

23 MS. RICHARDSON: Yes.

24 MR. RUSSO: If you could pause for one  
25 second. The video just went off on the TV. We can hear

1 you, but let me just see if I can get it back up.

2 MS. RICHARDSON: Okay. Just let me know  
3 when you're ready.

4 MR. RUSSO: Yeah, we're good.

5 MS. RICHARDSON: All right.

6 Q. (BY MS. RICHARDSON) Mr. Sullivan, I just want  
7 to follow up on a question about your heritage. Would  
8 you mind identifying what race or ethnicity you identify  
9 as?

10 A. Yeah, Latino.

11 Q. Okay. Does the public identify you as Latino  
12 as well?

13 MR. RUSSO: Objection, speculation.

14 Q. (BY MS. RICHARDSON) In your experience, does  
15 the public identify you as Latino as well, for example,  
16 people who don't know you?

17 A. I don't know how to answer that question.

18 Q. Okay.

19 A. When people ask me, I tell them who I am,  
20 so --

21 Q. Thank you.

22 I would like -- and I believe I marked this as  
23 Exhibit 19.

24 MS. RICHARDSON: I apologize. George,  
25 are we on Exhibit 19? I'm really bad at the Exhibit

1 Share.

2 MR. LIBBARES: Yeah, this is Exhibit 19.

3 MS. RICHARDSON: All right. Let's see if  
4 we can pull that up.

5 (Exhibit 19 marked.)

6 Q. (BY MS. RICHARDSON) Okay. Mr. Sullivan, I  
7 will give you a moment to familiarize yourself with this  
8 document.

9 A. Okay. Okay.

10 Q. All right. Do you know what this document is?

11 A. Yes, uh-huh.

12 Q. Can you tell me what it is?

13 A. It's a letter between my office, myself and  
14 the voter registrar, yeah.

15 Q. Okay. And this is an email, correct?

16 A. Yes. Sorry, it's an email.

17 Q. No worries. Just clarifying for the record.

18 Would you mind scrolling to what's Bates  
19 stamped 13504. So that's going to be on page 3.

20 MR. RUSSO: The Bates stamps are the  
21 numbers on the very bottom there.

22 MS. RICHARDSON: Yes.

23 A. Okay. I'm there.

24 Q. (BY MS. RICHARDSON) Okay. This email right  
25 here, this says we will begin redistricting efforts on

1 the second paragraph of this email for Galveston County  
2 around October 9th. Is that correct?

3 A. Yes, uh-huh.

4 Q. Do you recall if that's around the time that  
5 redistricting started for the Commissioners Court in  
6 Galveston County?

7 A. I don't recall when they started. I don't  
8 know that.

9 Q. Does this email represent the approximate time  
10 when it started?

11 A. That's what Ms. Johnson is stating, but I  
12 don't know when they started. I really don't know that.

13 Q. Okay. It also says here next at least ten  
14 other entities are in the process of redistricting. Is  
15 that right?

16 A. Yes, that's what she's saying, uh-huh.

17 Q. Okay. Do you know why Galveston County began  
18 redistricting after those approximately ten other  
19 counties?

20 A. Can you ask again? You cut out, I'm sorry.

21 Q. I'm sorry. My hair gets in the way sometimes.  
22 Can you -- do you know why at least ten other  
23 entities started redistricting before Galveston County?

24 A. I don't know that.

25 Q. Okay. Was this your -- does this email

1 represent the first time you heard about Galveston  
2 County redistricting?

3 A. No.

4 Q. When did you first hear about it?

5 A. Well, I -- I don't know when I heard about it.  
6 I was aware that it was that time to start, every ten  
7 years.

8 Q. So you heard about it before October 9th?

9 A. I'm sure I did, yes.

10 Q. If you could give an approximation, would it  
11 be weeks or months before October 9th?

12 A. You know, I don't recall, so I don't want to  
13 just make up a number.

14 Q. Okay. I would like to return to Exhibit 5 if  
15 that's okay.

16 MS. RICHARDSON: If we can pull up  
17 Exhibit 5 on the screen.

18 A. Is it tab 5 or Exhibit 5?

19 Q. (BY MS. RICHARDSON) It's tab 8 --

20 A. Okay.

21 Q. -- Exhibit 5.

22 All right. And you looked at this earlier.  
23 These are the two map proposals proposed by the  
24 Commissioners -- for the Commissioners Court precinct.  
25 Is that correct?

1 A. Yes, uh-huh.

2 Q. Okay. And are you aware that map 2 was the  
3 map that was ultimately adopted?

4 A. Like, I think I was asked this question  
5 earlier or something similar. It looks familiar, but I  
6 don't know how many iterations there were.

7 Q. Okay. And then I'm going to introduce another  
8 exhibit here. One moment. Exhibit 20 should now be  
9 open for you.

10 (Exhibit 20 marked.)

11 A. Okay. I see it.

12 Q. (BY MS. RICHARDSON) Okay. So I'll just  
13 represent to you that Exhibit 20 is Petteway Plaintiffs'  
14 Second Amended Complaint. And we'll scroll down to page  
15 10 of Plaintiffs' Second Amended Complaint.

16 Do you see where it says Benchmark  
17 Commissioners Court Plan?

18 A. Yes.

19 Q. Do you recognize this plan?

20 A. No, I don't.

21 Q. If I represented to you that it was the plan  
22 that was in place before 2021, does that sound familiar  
23 to you?

24 A. I would believe you if you said that, but I  
25 don't know. I have not seen what looked like this.

1 Q. Do you have an opinion on the map that was  
2 proposed -- the map that was adopted, apologies,  
3 about -- for the Commissioners Court in 2021 as compared  
4 to the map that was in place in 20 -- before 2021?

5 MR. RUSSO: Objection, vague.

6 A. I really don't have an opinion on it, no.

7 Q. (BY MS. RICHARDSON) What do you understand  
8 about the differences between the two maps?

9 A. I've not studied the two maps; I just use the  
10 maps. So, I really am not intimate with the details of  
11 the map.

12 Q. You said you don't normally see the map in  
13 that form. Can you explain what form you do normally  
14 see the maps in?

15 A. I usually see it with -- well, the color is  
16 kind of throwing me off here.

17 Q. I see.

18 A. I'm sorry. And also the precincts. I usually  
19 see it with precincts in there. That hasn't really  
20 changed, but Bolivar seems to be cut off as well.

21 Q. I see.

22 A. Yeah.

23 Q. Do you -- what do you understand about the  
24 differences between the adopted map, I'll call the 2021  
25 map, and then the prior map?

1 A. Well, the lines have changed obviously.

2 Q. Okay. What about the lines that have changed,  
3 based on your understanding?

4 A. Well, I could say that about every precinct,  
5 every one of the four -- out of every four. So 4 has  
6 changed; instead of going down, I guess, the west side  
7 of the county, it is now changed. And 1 and 3 are  
8 substantially different, as well as 2.

9 Q. Okay.

10 A. Yeah.

11 Q. What do you understand about the similarities  
12 between the adopted map and the map that was precleared  
13 in 2011?

14 A. I have not really looked at them, so I can't  
15 answer that.

16 Q. Okay. And just so we're on the same page, you  
17 understand that the prior map and the precleared map in  
18 2011 are different maps. Correct?

19 A. I don't know that, no.

20 Q. Okay.

21

22 MS. RICHARDSON: I'm going to introduce  
23 the next exhibit, so we can go ahead and take this one  
24 down.

25 (Exhibit 21 marked.)

1 Q. (BY MS. RICHARDSON) Do you see now new  
2 Exhibit 21?

3 A. Okay. I see it.

4 Q. Okay. I'll give you a second to familiarize  
5 yourself with this as well.

6 A. Okay.

7 Q. Mr. Sullivan, do you recognize this document?

8 A. No, I don't.

9 Q. Okay. I will represent to you it's the -- it  
10 says it's the Galveston County resolution adopting  
11 criteria for use in the redistricting 2011 process.  
12 Does that sound familiar to you?

13 A. No, it does not.

14 Q. Okay. The end of the last page says -- it  
15 doesn't have your stamp on it, but if you look at page  
16 3, correct, it says your name I believe where you're  
17 supposed to sign? It says the proposed criteria.

18 A. Yes, uh-huh.

19 Q. Okay. Would you have -- would you have signed  
20 the criteria had it been adopted?

21 A. If the Judge Henry signed it, I would have  
22 signed it.

23 Q. Okay. What -- what's your familiarity with  
24 the proposed redistricting criteria in 2011?

25 A. I have no knowledge of it.

1 Q. You don't recall this document or any other  
2 document proposing redistricting criteria for 2011?

3 A. No, I don't.

4 Q. Do --

5 MS. RICHARDSON: And we can take this  
6 down.

7 Q. (BY MS. RICHARDSON) Do you recall any  
8 redistricting criteria for 2021?

9 A. No, I do not.

10 Q. Do you recall any proposal -- proposed  
11 redistricting criteria that was published in 2021?

12 A. No.

13 Q. Do you recall any efforts to create  
14 redistricting criteria in 2021?

15 A. No, I don't.

16 Q. Okay. Do you recall whether any member of the  
17 Commissioners Court discussed with you proposed  
18 redistricting criteria for 2021?

19 A. No, they did not.

20 Q. Okay. Let's pull up the next exhibit, 22.

21 (Exhibit 22 marked.)

22 Q. (BY MS. RICHARDSON) Okay. This is a very  
23 short -- very short exhibit. Again, look at it.

24 Mr. Sullivan, do you recognize this document?

25 A. No, I don't.

1 Q. Okay. It appears to be an email on which you  
2 are a recipient. Do you see your name on the "to" line?

3 A. I do.

4 Q. Okay. Do you see the date on that? Can you  
5 read the date for us?

6 A. The date is Thursday, November 14, 2019.

7 Q. Okay. Do you see the subject line on the  
8 email?

9 A. Yes.

10 Q. What's it pertain to?

11 A. It says "Workshop for Geography and Census  
12 Data."

13 Q. Okay. And it looks like Nathan Sigler thanked  
14 everyone who participated in the workshop yesterday.  
15 Does that sound right to you?

16 A. That's what the email says, yes.

17 Q. Okay. Do you -- did you attend the workshop  
18 for geography and census data in 2019?

19 A. No, I don't recall that.

20 Q. Do you recall who all attended?

21 A. I don't recall attending it at all.

22 Q. Do you recall being invited to it?

23 A. No.

24 Q. Did you hear about the meeting after it  
25 occurred?

1 A. I don't recall.

2 Q. Do you know why you would be on the email  
3 chain being thanked for your participation if -- in the  
4 workshop?

5 A. Maybe I was invited, would be my guess.

6 Q. Do you recall attending any workshop regarding  
7 geography and census data?

8 A. No, I don't.

9 Q. Okay. Thank you.

10 Would you have gone if you were invited to a  
11 workshop about geography and census data?

12 MR. RUSSO: Objection, speculation.

13 Q. (BY MS. RICHARDSON) You can answer.

14 A. Probably not.

15 Q. Why not?

16 A. Because I really don't participate in the --  
17 in the process.

18 Q. Okay. All right. I am introducing my next  
19 exhibit. Give me one moment.

20 (Exhibit 23 marked.)

21 Q. (BY MS. RICHARDSON) All right. You should  
22 see Exhibit 23.

23 Mr. Sullivan, can you --

24 A. I see it, yeah.

25 Q. You see that now? Okay. Do you recognize

1 this document?

2 A. It looks familiar, but I would have to read it  
3 real fast.

4 Q. Please, take your time.

5 A. Okay. Yeah.

6 Q. What is this document?

7 A. It looks like there was delays in  
8 redistricting. And a member of my staff said, hey, did  
9 you see the paper? And I said, yeah, I saw it.

10 Q. Okay. Do you see there it says late last  
11 night the DOJ rejected both redistricting maps for JP  
12 and Commissioners?

13 A. Uh-huh, yeah.

14 Q. Yeah, is that referring to preclearance denial  
15 of the Commissioners Court maps and the JP maps?

16 MR. RUSSO: Object to speculation.

17 A. I don't recall what this is referring to.  
18 That's not what I read, but I don't remember.

19 Q. (BY MS. RICHARDSON) What do you understand it  
20 to refer to?

21 A. That the -- basically what it says, the DOJ  
22 rejected redistricting maps for JP and Commissioners. I  
23 don't see anything about preclearance in there.

24 Q. What's your understanding of the other ways  
25 that DOJ could reject the Commissioner map and JP maps?

1           A.    I guess if they're not in compliance with what  
2 DOJ says.

3           Q.    In 2012, why do you understand the DOJ would  
4 be reviewing the JP and Commissioners Court maps?

5           A.    I believe there was a lawsuit regarding --  
6 from what I remember -- and this is speculation, I'm so  
7 sorry -- I think there was a lawsuit regarding cutting  
8 the number of JPs and constables down from, I think,  
9 nine to four or eight to four, something like that.  
10 That's kind of what I remember vaguely.

11          Q.    Okay. Do you recall receiving news when DOJ  
12 denied preclearance to Commissioners Court maps?

13          A.    I don't recall that, no.

14          Q.    If I represented to you that the lawsuit  
15 you're referring to occurred after this -- the date of  
16 this email, March 6, 2012, would that sound familiar to  
17 you?

18          A.    No, it wouldn't.

19          Q.    I would like to shift back now to Exhibit 24.

20                         (Exhibit 24 marked.)

21          Q.    (BY MS. RICHARDSON) All right. I'll give  
22 you a moment to familiarize yourself with that,  
23 Mr. Sullivan.

24          A.    Okay.

25          Q.    And let me know when you're ready.

1 A. Okay.

2 Q. Okay. Do you recognize this document?

3 A. No, I don't recognize it.

4 Q. Okay. I can represent to you --

5 A. You now, I don't remember it. I recognize it;

6 I don't remember it.

7 Q. Okay. Thank you. What is it?

8 A. It looks like Patricia Grady was requesting

9 some information from our Commissioners Court minutes.

10 Q. Okay. Do you see there who sent the top

11 email?

12 A. I do, yes.

13 Q. Okay. Who sent that top email?

14 A. Patricia Grady.

15 Q. That's who it's to. Who was it from? I

16 apologize for the clarification.

17 A. The top email?

18 Q. Yes.

19 A. I'm sorry, the top email is to Brandy Chapman.

20 Q. Okay.

21 A. And -- yeah, she's one of my employees.

22 Q. You mentioned earlier Brandy Chapman is the

23 chief deputy of your office. Correct?

24 A. She's one of three, yes, uh-huh.

25 Q. Okay. And it says here that she provided two

1 copies of the public hearing tapes to Harvey for DOJ  
2 submission. Is that correct?

3 A. That's what I read, yeah.

4 Q. Who is Harvey?

5 A. Harvey is -- he used to be the county attorney  
6 for many years.

7 Q. What's his full name?

8 A. Harvey Bazaman.

9 Q. Okay.

10 A. I think it's B-A-Z-A-M-A-N.

11 Q. And it appears that Brandy is assisting with  
12 the DOJ submission. Is that correct?

13 A. Well, she's providing that information for the  
14 submission, yeah, to Patricia and Harvey, yeah.

15 Q. And the DOJ submission refers to the  
16 preclearance submission?

17 A. I don't know.

18 Q. Okay. Do you understand -- what do you  
19 understand DOJ submission to refer to?

20 A. I don't remember what it was for in 2011. It  
21 looks like -- can I reread the request?

22 Q. Absolutely.

23 A. Let me see.

24 Q. Absolutely.

25 A. It looks like this information needed to be

1 submitted to the DOJ for redistricting. It has to do  
2 with the 2011 redistricting maps. That's what it's  
3 about.

4 Q. The Commissioners Court maps among the 2011  
5 maps. Correct?

6 A. I would assume that's what it is, yes, uh-huh.

7 Q. Okay. And so what do you understand that DOJ  
8 submission to be?

9 A. Well, they needed evidence of the hearings and  
10 any comments.

11 Q. Okay. Do you recall when -- in 2012 when the  
12 DOJ denied preclearance to the Commissioners Court maps?

13 MR. RUSSO: Objection, vague.

14 A. I don't recall that, no, I don't.

15 Q. (BY MS. RICHARDSON) Do you recall that it  
16 happened?

17 A. I do recall that there was an issue with the  
18 lines. I don't remember the reasons or if it was the  
19 DOJ or who denied it.

20 Q. Do you recall any next steps that were taken  
21 after that rejection?

22 A. I don't, huh-uh.

23 Q. Do you recall if the County took any steps to  
24 remedy the rejection?

25 A. I don't know that.

1 Q. Okay. One moment. I am going to pull up an  
2 older exhibit that you've seen, but let me find the  
3 number.

4 I would like to pull up Exhibit 3, tab 3.

5 A. Did you say Exhibit 3, tab 3?

6 Q. Yes, sir.

7 A. Okay. Yeah.

8 Q. Okay. Do you remember seeing this earlier?

9 A. I do, yeah.

10 Q. Okay. I believe it was represented to you  
11 earlier this is the preclearance rejection letter  
12 regarding the 2011 Commissioners Court plan. Does that  
13 sound right?

14 A. Yes.

15 Q. Okay. Regarding the content of this letter,  
16 do you recall any steps that were taken to remedy the  
17 problems outlined in this letter?

18 A. No, I don't recall that.

19 Q. Do you know if any steps were taken to remedy  
20 the problems outlined in the preclearance rejection  
21 letter?

22 A. No, I don't know that, huh-uh.

23 Q. Okay. And I promise you we're nearing the  
24 end.

25 I'm about to mark another exhibit, though.

1 (Exhibit 25 marked.)

2 (Exhibit 26 marked.)

3 Q. (BY MS. RICHARDSON) Okay. You should see now  
4 Exhibit 26.

5 All right. I will let you familiarize  
6 yourself with that for a second.

7 A. So far I haven't really seen any content.

8 Q. You can familiarize yourself with the subject  
9 line. That will be the topic of discussion.

10 A. Okay.

11 Q. Okay. Do you see when this email was dated?  
12 Can you tell us the date that this email was sent?

13 A. The last correspondence I see is Tuesday,  
14 March 20th of 2012.

15 Q. Okay. And the first email -- the series of  
16 emails were sent on Monday, March 19th of 2012. Is that  
17 correct?

18 A. Yeah, that's correct.

19 Q. Okay. What's the subject line of this email?

20 A. Commissioner Proposal (For Settlement  
21 Discussion Only).

22 Q. Okay. So I will represent to you that the  
23 Commissioners Court precincts did go into litigation  
24 in 2011. Do you recall the commissioner proposal for --  
25 the for settlement discussion that was this

1 conversation?

2 A. I do not remember this, no.

3 Q. Do you recall any proposals regarding  
4 settlement for the Commissioners Court in 2012?

5 A. I don't.

6 Q. Do you recall having any discussions about the  
7 Commissioners Court proposal -- the Commissioners Court  
8 litigation in 2012?

9 A. No, I don't remember that, huh-uh. I remember  
10 the lawsuit, but I don't remember any discussion about  
11 it.

12 Q. Okay. What do you remember about the lawsuit?

13 A. What I remember about the lawsuit was not  
14 really the content of the lawsuit, but more so we were  
15 supposed to conduct a primary election; and we kept  
16 getting delayed, so we were in limbo on the election  
17 side of things.

18 Q. What do you remember --

19 A. That's --

20 Q. Oh, I'm sorry.

21 A. That's okay.

22 Q. I'm sorry. You can finish. Well, strike my  
23 last question then that I was about to make.

24 Why -- do you know why you would be on this  
25 particular email about the commissioner proposal for

1 settlement discussion?

2 A. I would think that it's because we were  
3 nearing the end and we can start getting ready for the  
4 election. That's what I would think.

5 Q. You mean as in because the litigation is  
6 nearing the end and you can begin preparing for the  
7 election. Is that correct?

8 A. That's what I understand, but I'm speculating,  
9 yeah.

10 Q. But you have no recollection what this  
11 discussion was actually about?

12 A. No, I don't. I don't remember the plaintiff.  
13 I know the plaintiffs, but I didn't know that was the  
14 reason for it.

15 Q. What do you know about the plaintiffs?

16 A. I just know they were officeholders.

17 MS. RICHARDSON: Okay. I am going to  
18 take this one down and pull up Exhibit 27.

19 (Exhibit 27 marked.)

20 A. Exhibit 27?

21 Q. (BY MS. RICHARDSON) Uh-huh.

22 A. Okay.

23 Q. All right. And I'd like to scroll first to --  
24 actually, let me let you familiarize yourself with this  
25 document first so we can have a conversation about it.

1 A. Okay. Yeah, I'm familiar with the document.

2 Q. Okay. What is it?

3 A. It looks like a Commissioners Court Agenda.

4 Q. What -- continue, I apologize.

5 A. That's it, a Galveston County Commissioners  
6 Court agenda.

7 Q. When's it dated?

8 A. Dated February 5, 2013.

9 Q. Okay.

10 A. Well, that's the date of the meeting.

11 Q. Okay.

12 A. Yeah.

13 Q. Can you scroll down to page 4 of this exhibit?

14 A. Okay.

15 Q. Can you see bullet point 26(d) there?

16 A. I do.

17 Q. Okay. And what's it say?

18 A. (d) says, Consideration of an Order  
19 establishing the boundaries of election (voting)  
20 precincts in Galveston County and corresponding changes  
21 to Justice of the Peace/Constable precinct boundaries,  
22 to be effective January 1 of 2014.

23 Q. Do you recall attending that meeting?

24 A. I kind of do, yeah.

25 Q. Yeah, okay.

1 Can we pull up Exhibit 28?

2 (Exhibit 28 marked.)

3 Q. (BY MS. RICHARDSON) Familiarize yourself with  
4 that document, and let me know when you're -- it's just  
5 one page.

6 A. Okay. I'm familiar. Well, I know what it is.

7 Q. Okay.

8 A. Can you let me read it?

9 Q. Absolutely.

10 A. Okay.

11 Q. All right. What is this document?

12 A. It looks like an email from Dominique Allen to  
13 Cheryl Johnson and Sheryl Swift.

14 Q. Okay. Do you see when it's dated?

15 A. It's dated February 5 of 2013.

16 Q. It's dated the same date as the Commissioners  
17 Court meeting that I -- that we referenced in  
18 Exhibit 27. Correct?

19 A. Yes, it is.

20 Q. Okay. It says -- do you see that last  
21 paragraph at the end, Although, Mr. Sullivan and  
22 Mrs. Chapman were present in Commissioners Court?

23 A. Yeah.

24 Q. You just said you remember being there. So  
25 does this email accurately represent that you were

1 present at the meeting?

2 A. Yeah, I do remember being there, uh-huh.

3 Q. Okay. Do you -- what do you recall about that  
4 meeting?

5 A. Actually, I don't remember anything about  
6 redistricting. I remember one of the other items on the  
7 agenda.

8 Q. Which item on the agenda?

9 A. The Fat Boys Fishing Pier issue.

10 Q. Okay.

11 A. But I don't recall much of the discussion  
12 regarding the redistricting lawsuit or settlement.

13 Q. Okay. You know where I started "FYI," would  
14 you mind reading that whole sentence?

15 A. Sure.

16 For your information, although Mr. Sullivan  
17 and Mrs. Chapman were present in Commissioners Court, I  
18 do not believe they were there to serve in a capacity  
19 other than the normal responsibilities of the clerk's  
20 office with regard to being keeper of the record for the  
21 proceedings. None of the elections division staff were  
22 in attendance today.

23 Q. Thank you so much.

24 What are the normal responsibilities of the  
25 clerk's office with regard to being the keeper of the

1 record for the proceedings?

2 A. So my staff, one of the duties, major duties,  
3 of my office is to keep the minutes of the Commissioners  
4 Court, and so any votes we record and we keep those.

5 Q. Okay. You keep all records with respect to  
6 Commissioners Court meetings?

7 A. Yes, we do.

8 Q. And you keep all records with respect to  
9 redistricting?

10 A. If they were in the Commissioners Court  
11 minutes, yes.

12 Q. Okay. So any record with respect to the  
13 Commissioners Court meetings that involved redistricting  
14 would have been signed by you or a member of your staff?

15 A. Not necessarily, no.

16 Q. Okay. In what cases would they not be?

17 A. Well, not every document requires a signature.

18 Q. For documents that do require a signature, is  
19 your signature going to be on them?

20 A. Myself or a staff acting in my capacity.

21 Q. And that includes all records with respect to  
22 redistricting that need a signature?

23 A. If it has Judge Henry's signature on it or  
24 acting County Judge, yes, my duty is to attest to his  
25 signature. Not to read and be knowledgeable about the

1 document, but just to attest that that is Mark Henry's  
2 signature on that document, much like a notary.

3 Q. That's helpful -- helpful context.

4 Does that mean that you or a member of your  
5 staff have to be present at every Commissioners Court  
6 meeting?

7 A. Yes.

8 Q. Including every Commissioners Court meeting  
9 with respect to redistricting?

10 A. If it's an action item meeting, yes, uh-huh.

11 Q. What's an action item meeting?

12 A. If they're going to vote on a particular  
13 measure, yes. If there's just public forum and it's  
14 just a public forum, we are not required to be there  
15 because there's no action taken.

16 Q. Thank you.

17 Okay. I am only going to burden you, I  
18 believe, with one more exhibit.

19 MR. RUSSO: I'm going to hold you to  
20 that.

21 MS. RICHARDSON: Thank you for your time.

22 Q. (BY MS. RICHARDSON) Okay. It should be up  
23 now, Exhibit 29.

24 (Exhibit 29 marked.)

25 A. Okay. It's popped up.

1 Q. (BY MS. RICHARDSON) All right. Mr. Sullivan,  
2 will you familiarize yourself with that document for us?

3 A. Oh, yes, uh-huh.

4 Q. Do you recognize this document?

5 A. I do, yeah.

6 Q. What is it?

7 A. Let me reread it and make sure, but I kind of  
8 recognize it.

9 So it's an email from Nathan Sigler to myself,  
10 copying Ernie Murrie. It's just maps of the County's  
11 new voting precincts, sent on December 14 of '21.

12 Q. That was sent after the 2021 redistricting  
13 cycle. Correct?

14 A. Yes, uh-huh.

15 Q. Why was -- why did Mr. Sigler send that link  
16 to you?

17 A. Because we -- well, I don't know. I guess  
18 I probably had requested or asked him if there was --  
19 redistricting was completed yet, because we were  
20 programming the ballot for the primary election.

21 Q. Does this email represent the first time you  
22 received the map?

23 A. I think it is.

24 Q. About how long between the maps being  
25 adopted -- the voting precinct map being adopted and

1 this email being sent to you, about how much time would  
2 you estimate that was?

3 A. I don't know. I don't remember when they were  
4 adopted. I'd have to research that.

5 Q. Okay. If they were adopted in November, does  
6 that sound right to you?

7 A. I would be speculating, but that sounds about  
8 right.

9 Q. Okay. Do you know when the links to the  
10 precinct maps were available to the public?

11 A. No, I don't. I don't know that.

12 Q. Okay. Do you know if it was before you  
13 received this link from Mr. Sigler?

14 A. Yeah, I don't know that. It also says on  
15 there the voting precincts are currently on there and I  
16 will update everything else tomorrow. So it doesn't  
17 look complete at that point. That's just what I read.

18 Q. Do you see that note in parenthesis? Could  
19 you read that for us?

20 A. You do not need credentials to view the map  
21 below.

22 Q. Okay. Do you often need credentials to view  
23 the maps?

24 A. I don't know the answer. I rarely ever see  
25 things like this.

1 Q. Do you know why he was referring to  
2 credentials to review the map?

3 A. It's probably on a proprietary system. So I  
4 would think that that's why, but I don't know why.

5 Q. That would allow you to view the maps before  
6 the public?

7 A. No, I really don't know.

8 Q. Okay. Do you know why Mr. Sigler, in  
9 particular, sends you this information? Or strike that.  
10 I'll rephrase.

11 Do you know why -- why would you have  
12 requested this from Mr. Sigler in particular?

13 A. I don't know that I did, but if I did, he  
14 would be the person I would go to because he -- he  
15 publishes our maps for us.

16 Q. What's your understanding of Mr. Sigler's role  
17 in the redistricting process?

18 A. I don't believe Mr. Sigler has anything to do  
19 with it other than input data into the map system, GIS  
20 system, from what he's given.

21 Q. Okay. We can take this exhibit down.

22 A. Okay.

23 Q. Just a couple more questions.

24 So you stated earlier that your office does  
25 not have to be present for public forum. Is that

1 correct?

2 A. Can you repeat that? You cut out a little  
3 bit.

4 Q. Absolutely.

5 You said earlier that your office does not  
6 have to be available for public forum. Is that correct?  
7 Only action item meetings, did I hear that correctly?

8 A. Yeah. If there's a -- if there's a called  
9 regular or special meeting of Commissioners Court, we  
10 will be present, though.

11 Q. And in those meetings where you are not  
12 present, who takes those minutes?

13 A. I don't know that anybody does.

14 Q. Who keeps a record of those meetings?

15 A. I don't know the answer to that. I don't know  
16 if there's any other meetings other than the ones we  
17 attend. So if there's a meeting of Commissioners Court,  
18 we're there.

19 Q. So, for example, earlier I believe you  
20 testified about forum public meetings regarding polling  
21 place relocations. Is that correct?

22 A. Yes.

23 Q. Would that be an example of a meeting that  
24 would require your presence and minutes, or not?

25 A. Yes, uh-huh.

1 Q. Okay. So that's a -- what kind of meeting  
2 would you categorize that as?

3 A. So similar to the agenda item you pulled up,  
4 that would be a regular meeting of Commissioners Court;  
5 or if it was a special meeting, which would require  
6 certain things like the public notice, I believe it's  
7 72 hours and a quorum.

8 MS. RICHARDSON: Thank you, Mr. Sullivan.  
9 The Petteway Plaintiffs rest, and I will pass the  
10 witness to the United States.

11 EXAMINATION

12 BY MS. MEZA:

13 Q. Hello, Mr. Sullivan. My name is Catherine  
14 Meza, and I'm one of the attorneys representing the  
15 United States.

16 Before I begin, I have a small set of  
17 questions regarding your responsibilities for retention  
18 of records, and Ms. Richardson also already covered most  
19 of it related to the Commissioners Court.

20 So would you like to take a break before I  
21 start, or can we get through these questions?

22 A. I'm okay to keep going if everyone else is.

23 Q. Okay. Perfect.

24 So I have questions regarding your  
25 responsibilities with respect to election related

1 records. What election related records is your office  
2 responsible for?

3 A. There's a lot of records there. Anything from  
4 applications for ballot by mail, to cast vote records,  
5 to ballots, paper ballot that are cast in an actual  
6 election.

7 Q. What about -- sorry, were you done?

8 A. No, I think that's about it.

9 Q. Please continue.

10 A. Yeah.

11 Q. What about election results records? Who is  
12 responsible for retaining those records?

13 A. My office is.

14 Q. Okay. So just going back to the other  
15 records. You mentioned ballots and applications for  
16 absentee ballots and so forth. How are those records  
17 kept? Do you keep hard copies? Do you keep electronic  
18 records?

19 A. Well, we have a mixture of records, so it  
20 depends on the medium, of course. If they're electronic  
21 records, we'll store them like that. If we have hard  
22 copy records, we will also store them in their present  
23 form.

24 Q. Okay. And for those different categories of  
25 records, is there a period of time that you're required

1 to retain them?

2 A. Yes.

3 Q. And could you go through some of those  
4 categories and let me know what the period of time to  
5 retain them is.

6 A. You know, I'm going off of memory here. We do  
7 have a schedule that we abide by, and so I don't have  
8 that in front of me. But, for instance, records like  
9 cast ballot records, we keep those for 22 months plus  
10 one day and assuming there's no pending litigation.

11 We have -- what else do we have? Our tapes,  
12 zero tape numbers that come out of voting machines to  
13 show that there was no votes on the machine before and  
14 after an election. Those are 22 months.

15 Payroll records for judges and clerks, I don't  
16 know the retention on that. I think it's seven years,  
17 but we have a schedule that we go off of there. I don't  
18 recall off the top of my head.

19 Any other kind of records?

20 Q. What about election results?

21 A. We keep election results. I believe it's  
22 indefinitely if we conducted the election. If it's for  
23 a city or a school district or a MUD district or  
24 something like that, they're the official record keeper.  
25 Additionally, we upload those to the State of Texas, and

1 they keep them there as well.

2 Q. Okay. So let's take a step back with  
3 regards to election results records. Could you walk me  
4 through specifically the preparation of those records  
5 from beginning to end? So once the polls close on  
6 Election -- on an Election Day evening, who tabulates  
7 those records, the ballot counts and the election  
8 results, and what steps does that process go through?

9 A. Okay. So I'm just going to go in kind of  
10 chronological order so it helps me explain it.

11 Q. Okay.

12 A. When polls close at, say, 7 o'clock on any  
13 particular election, we will already have early vote  
14 records in my office. We will begin tabulation of those  
15 records, and so those will be obviously tabulated.

16 And then as soon as the in-person votes from  
17 that day arrive at the office, we tabulate those as they  
18 come in.

19 The ballot board and central count committees  
20 will be working that same day, and they will be going  
21 through and balancing the in-person -- I'm sorry, the  
22 mail ballots. Mail ballots will be tabulated usually  
23 around the time that we tabulate early voting records,  
24 and so at the end of the night when all the locations  
25 have reported, we will tabulate everything and publish

1 results.

2           There's also a cure period. So as those  
3 ballots that are outstanding or overseas ballots that  
4 come in after Election Day that do qualify to be counted  
5 will be tabulated. Again, we will have a central count  
6 and a -- that committee is made up of both Republican  
7 and Democrat parties overseeing each other's work, and  
8 they are also present he every time we tender results.

9           At the end of the election period, those  
10 results will be tabulated in a detailed format, and  
11 votes will be canvassed. And we also give canvass  
12 reports to the -- to the specific entity. So if like --  
13 let's say the city of La Marque is conducting an  
14 election, we will give them their records so that they  
15 can canvass and swear in their new council people.

16           Let me think what else is there. I guess  
17 that's about it.

18           Q. Okay. So I am going to introduce just three  
19 exhibits just to use as examples with the next set of  
20 questions. So bear with me as I mark them and introduce  
21 them. They're very short exhibits, and there are three  
22 of them.

23                                 (Exhibit 30 marked.)

24                                 (Exhibit 31 marked.)

25                                 (Exhibit 32 marked.)

1 Q. (BY MS. MEZA) Okay. Mr. Sullivan, I have  
2 marked Exhibits 30, 31, and 32, I believe. Let me just  
3 double-check. If you could just -- do you see those  
4 three exhibits?

5 A. I do, yeah.

6 Q. Just take a moment to review them.

7 A. Okay.

8 Q. Could you tell me what -- well, actually, let  
9 me just -- for the record, I have marked Exhibit 30,  
10 which is stamped with Bates stamped DEFS00003900. The  
11 next exhibit is marked Exhibit 31, and that is Bates  
12 number DEFS00011877. And the third exhibit is  
13 Exhibit 31, Bates stamp DEFS00003906.

14 A. Okay.

15 Q. Mr. Sullivan, could you tell me what these  
16 exhibits are?

17 A. Yes. So these are updated election results.  
18 So the first one seems to be at 7:08 p.m., and the next  
19 one is 8:47 and the third is 9:31. This is an automated  
20 system email as soon as -- as we update results when  
21 they come in. So as locations arrive at the office and  
22 newly results were posted, an automated email was sent  
23 out.

24 Q. And who were -- who was these three emails  
25 sent to?

1           A.    This was sent to Mark Henry, all three of  
2    them.

3           Q.    And you said it's automated, so you don't  
4    yourself go through and add the results and send them to  
5    Mark Henry.  Is that correct?

6           A.    That's correct.  So, we don't have this system  
7    any longer, but anybody, including the public and the  
8    media, could sign up for updated results, yeah.

9           Q.    I see.  Okay.  So, in addition to -- let me  
10   strike that.

11                    Were there any individuals aside from the  
12   media or members of the public that received those  
13   results automatically, meaning that -- like members of  
14   the Commissioners Court, for instance, did every member  
15   of the Commissioners Court receive results on election  
16   night?

17                    MR. RUSSO:  Objection, speculation.

18           A.    I don't recall who signed up for it, but  
19    anybody who had requested that information would have  
20    been included in those emails.

21           Q.    (BY MS. MEZA)  Okay.  Understood.

22                    So you weren't required to send the results to  
23    any individual, including members of the Commissioners  
24    Court.  They had to affirmatively sign up and request to  
25    receive the results.  Is that accurate?

1 A. Yes, that's accurate, yeah.

2 Q. Okay. So this says Election Night Reporting  
3 Results. In addition to sending them out through this  
4 automated process, were they posted on the County's  
5 website?

6 A. Yes.

7 Q. And when would they be posted on the County's  
8 website?

9 A. In the same time that this was sent out. As  
10 soon as you updated the website, the system  
11 automatically sent out results, updated results to  
12 anybody that was signed up for the emails.

13 Q. Okay. So as the results were updated, the  
14 website was also updated?

15 A. That's correct, yes.

16 Q. And you also just mentioned that you no longer  
17 have this in place. These emails are dated November 3,  
18 2020. So this automated system of both sending election  
19 results as they are updated to individuals who requested  
20 the results, as well as automatically updating the  
21 website, is no longer in place. Is that correct?

22 A. That's correct, yes.

23 Q. Do you have anywhere a similar system in place  
24 currently?

25 A. So we have new election machines, and we don't

1 have an automated system any longer. So we do have a  
2 distribution list of -- it's a manual process. So if  
3 anybody wants those numbers, they can check out our  
4 website, or, you know, sign up and we'll send them to  
5 them in an email.

6 Q. Okay. So currently since you no longer have  
7 this automated process, how often is the website updated  
8 as the results are updated?

9 A. So the way it works is if a location comes in  
10 on -- say location B comes in and drops off their  
11 equipment, that voting -- the voting results will be  
12 brought up to the office. And we call it tallied or  
13 tabulated. And as soon as it's tabulated, within  
14 minutes it's published to the website.

15 Q. Okay. And when do the results go from being  
16 unofficial or election night results to official  
17 results?

18 A. They will be official upon canvass.

19 Q. And once the election results become official,  
20 how is that data stored?

21 A. So those will be sent for approval to  
22 Commissioners Court, and they will be stored in the  
23 Commissioners Court minutes.

24 Q. In what form are the election results data  
25 stored?

1 A. Electronic form.

2 Q. So is there a specific database that the  
3 results go into, or are the results entered into a  
4 spreadsheet, for instance?

5 A. So we do have a proprietary system, and they  
6 will be stored in the computer system there, as well as  
7 the minutes of the Commissioners Court, electronically.

8 Q. And what can you tell me similar about the  
9 system? What is it called and is it exclusively for  
10 election results data, or are there other data stored in  
11 the system?

12 A. So the system we use is called Hart  
13 InterCivic. And there's two systems approved in the  
14 State of Texas for use. One of them is the Hart system;  
15 the other one is the ES&S brand. Galveston County has  
16 used Hart, and the Hart system has audit logs, election  
17 results and programming data all saved in there.

18 Q. And how long have you had the Hart system in  
19 place or has the county had the Hart system in place?

20 A. We've had various iterations of it. I  
21 believe -- I'm going off of memory before I was County  
22 Clerk, so if I am wrong on the dates, it's an  
23 approximation, but I believe we picked it in 2006 the  
24 first time. We then purchased the next system  
25 approximately 2018, and we purchased the upgraded

1 system, which is paper, in 2021.

2 Q. Okay. And what has happened to the records  
3 from previous systems? Are those kept?

4 A. Yes.

5 Q. In what form are they kept?

6 A. Those are kept in electronic format and on  
7 hard drives. We also have some paper records from a  
8 long time ago.

9 Q. Okay. So let's start with the paper records.  
10 Do you know from what period to what period you have  
11 paper records of election results for?

12 A. No, I don't recall that.

13 Q. Is it before 2000?

14 A. I'd have to look at the records. I don't know  
15 the answer to that.

16 Q. Do you have any estimation of when those  
17 records --

18 A. I don't --

19 Q. -- the paper records are for?

20 A. I really don't. I have not looked at those  
21 records because it was way before I was in office.

22 Q. Okay. So your previous systems for which you  
23 have electronic records, you said they're kept in a hard  
24 drive. Do you know what -- in what format those records  
25 are kept? Do you -- is there a need to have access to

1 previous iterations of that proprietary software or  
2 program, or can those be downloaded in his a spreadsheet  
3 form, for instance, or in a CSV file, for example?

4 A. I believe those can be accessed and reports  
5 ran. I don't know if they can be accessed via CSV or  
6 PDF. I don't know if it's proprietary. I really don't  
7 know the answer to that.

8 Q. Okay. If someone were to put in a public  
9 records request for data that is not on a hard drive but  
10 is being stored, how would you go about fulfilling that  
11 request?

12 A. We would look for the records and fulfill the  
13 request.

14 Q. In what form would the person, the individual  
15 requesting that data receive it?

16 A. Well, it depends on the request, and it  
17 depends on how we have it stored. If -- let's just say,  
18 for instance, they wanted it in electronic format, but  
19 it was in paper. We would try to accommodate the  
20 conversion of that for them, if we could do that.  
21 Otherwise, we would give it to them in the form that we  
22 have it or make it available.

23 Q. Okay. So for records from 2010, for example,  
24 are those records that are kept in the current iteration  
25 of the database or the program you have in place?

1 A. No.

2 Q. Where are those records kept?

3 A. Those would be kept in the old system, which  
4 is just basically an old computer.

5 Q. So it's -- go ahead, sorry.

6 A. No, I'm sorry. An older computer that we --  
7 that we still have, but it's not the current version.

8 Q. So is this computer operational? Do you have  
9 it in your office somewhere and is someone able to go in  
10 and access those records if they are requested?

11 A. I believe so, yes.

12 Q. And going back to the question about the form.  
13 If you receive a request for records from 2010 in a  
14 spreadsheet or a CSV format, would you be able to  
15 produce those records in a CSV format from 2010?

16 A. I'm not the person who would run those  
17 records, so I would have to make sure. If we were able  
18 to do that, we definitely would do that.

19 Q. I'm sorry, could you remind me again how far  
20 back the current system goes, when it was put in place?

21 A. The current system? I am going off of  
22 memory -- well, we got it this summer. So that would be  
23 2022.

24 Q. So the previous iteration was from 2021 going  
25 how far back?

1           A.    I'm sorry.  No, it was from approximately 2018  
2   to 2022.  And prior to that was, I believe, 2006, and I  
3   wasn't present when they purchased it.

4           Q.    Okay.  So the records that are kept in this  
5   computer you have in your offices, those are records  
6   prior to 2018.  Is that correct?

7           A.    Yes, I believe so.

8           Q.    I am going to introduce one more exhibit.

9                         (Exhibit 33 marked.)

10          Q.    (BY MS. MEZA)  Okay.  Mr. Sullivan, I have  
11   just introduced Exhibit what I believe now is 33.

12          A.    Okay.  I see it.

13          Q.    Could you take a moment to review that  
14   exhibit, please?

15                         And I'll go ahead and read it into the record  
16   while you do that.  I've just marked Exhibit 33, which  
17   is Bates stamped DEFS00019519 through 19520.

18          A.    Okay.

19          Q.    Could you tell me what this is, Mr. Sullivan?

20          A.    It looks like a FOIA request for some  
21   information.

22          Q.    Okay.  And what is the date on this?

23          A.    Monday, February 22, 2021.

24          Q.    And I just want to turn your attention to the  
25   very first sentence that says, Due to the complexity of

1 this election, we had to create two separate databases  
2 as a result. I have attached the canvass reports for  
3 each database. I do not have a .csv or a .xlsx -- excuse  
4 me -- .xlsx file.

5 First, who is Susan Williams?

6 A. Susan Williams is an ex-employee of mine.  
7 She's since retired.

8 Q. Okay. And what was her role in your office?

9 A. I can't remember her title. I think it was  
10 like assistant chief deputy or assistant elections  
11 administrator.

12 Q. Okay. And do you recall this email?

13 A. I do not.

14 Q. But you did receive this email, as reflected  
15 in the cc line. Correct? Is that your name?

16 A. That's correct, yes, uh-huh.

17 Q. I just had a question about her reference to  
18 two separate databases. Do you have any idea what that  
19 means?

20 A. I do, yes.

21 Q. What does that mean?

22 A. For this election cycle, we had programmed a  
23 ballot, mailed out ballots, and then we found an error  
24 in the programming for a small precinct in -- I don't  
25 remember which precinct particularly. And after we

1 discovered it, we took it to the parties, reproofed it,  
2 and corrected the error before in-person voting started.  
3 But we had already sent out mail ballots, so we had to  
4 create -- because of the security of the system, which  
5 is a good thing, you can't go in and just manipulate  
6 data or change the database. It's locked. And so we  
7 created a new database for in-person voting, and that's  
8 why there's two databases.

9 Q. Okay.

10 A. Yeah.

11 MS. MEZA: I think that concludes my  
12 questions. Thank you very much, Mr. Sullivan. We very  
13 much appreciate your time today.

14 THE WITNESS: Sure. Thank you.

15 MR. RUSSO: We'll reserve for trial.

16 For the court reporter, we want to read and  
17 sign also. We didn't say that yesterday, but I would  
18 like to get a copy of the transcript to the witness.

19 MS. RICHARDSON: Thank you. And I think  
20 Petteway plaintiffs would still reserve the right to  
21 hold the deposition over in light of the privileged  
22 conversation that we had in Mr. Sigler's deposition with  
23 respect to the Oldham, and however that is resolved.

24 MR. RUSSO: You're holding this  
25 deposition over?

1 MS. RICHARDSON: Yes. I recall a  
2 privilege objection with respect to those conversations  
3 back in 2021 as well and earlier in this deposition,  
4 unless I'm missing something, but I -- and we would  
5 reserve it for the same reasons.

6 MR. RUSSO: We'll let the record reflect  
7 what it reflects. Okay.

8 I think that's it. Anything else?

9 THE VIDEOGRAPHER: Okay. If there's  
10 nothing else that has to be covered on the record today,  
11 then we are going off the record at 5:22 p.m.

10  
11 REPORTER'S CERTIFICATION

12 REMOTE ORAL AND VIDEOTAPED DEPOSITION OF  
13 DWIGHT SULLIVAN  
14 DECEMBER 20, 2022  
15

16 I, Julie C. Brandt, Certified Shorthand Reporter in  
17 and for the State of Texas, hereby certify to the  
18 following:

19 That the witness, DWIGHT SULLIVAN, was duly sworn  
20 by the officer and that the transcript of the oral  
21 deposition is a true record of the testimony given by  
22 the witness;

23 Before completion of the deposition, review of the  
24 transcript [X] was [ ] was not requested. If requested,  
25 any changes made by the deponent (and provided to the

1 reporter) during the period allowed are appended hereto;

2 That the amount of time used by each party at the  
3 deposition is as follows:

4 Ms. Zhu.....04 HOUR(S):52 MINUTE(S)

5 Ms. Richardson.....00 HOUR(S):49 MINUTE(S)

6 Ms. Meza.....00 HOUR(S):30 MINUTE(S)

7 Mr. Russo.....00 HOUR(S):00 MINUTE(S)

8 That pursuant to information given to the  
9 deposition officer at the time said testimony was taken,  
10 the following includes counsel for all parties of  
11 record:

ORAL/VIDEOTAPED DEPOSITION OF PATRICIA

17

TOLIVER, produced as a witness at the instance of the

18

Defendants, and duly sworn, was taken in the

19

above-styled and numbered cause on March 28, 2023, from

20

10:00 a.m. to 4:40 p.m., Nilda Codina, Notary in and

21

for the State of Texas, recorded by machine shorthand,

22

from Greer Herz & Adams, L.L.P. 1 Moody Avenue,

23

Galveston, Texas, 77550, County of Galveston, pursuant

24

to the Federal Rules of Civil Procedure, and the

25

provisions stated on the record or attached hereto.

1 P-R-O-C-E-E-D-I-N-G-S

2 THE VIDEOGRAPHER: Today's March 28th,  
3 year 2023. We're going on the record, 10:10 a.m.  
4 We're here for the deposition of a representative from  
5 the NAACP, for a case filed in the United States  
6 District Court, Southern District of Texas, Galveston  
7 Division.

8 Can the attorneys introduce themselves  
9 and who they represent?

10 MR. RUSSO: Joseph Russo, Jr. and  
11 Jordan Raschke Elton here on behalf of the defendants.

12 MS. CHEN: Sarah Chen on behalf of  
13 NAACP, plaintiffs. And Diana Vall-Llobera will be  
14 joining shortly on behalf of NAACP, plaintiffs.

15 PATRICIA TOLIVER,  
16 Having been first duly sworn, was examined and  
17 testified as follows:

18 DIRECT EXAMINATION

19 BY MR. RUSSO:

20 Q. Good morning, Ms. Toliver.

21 A. Good morning.

22 Q. My name's Joseph Russo, Jr. And we -- we met  
23 a moment ago off the record, right?

24 A. Right.

25 Q. I have the pleasure of taking your deposition

1 today, and meeting you for the first time.

2 A. Uh-huh.

3 Q. I -- I appreciate you being here with us.

4 A. Thank you.

5 Q. You -- you understand that -- that we're here

6 in a lawsuit brought by -- at least partially by the

7 NAACP?

8 A. Yes.

9 Q. And the Galveston branch? Is it a branch?

10 A. The Galveston branch in Texas City, and the

11 other branches, as well.

12 Q. Right. There are other branches involved, as

13 well. But today we're on just the Galveston branch --

14 A. Galveston. Okay.

15 Q. -- correct?

16 A. Yes.

17 Q. Yes. And I represent the defendants who are

18 in the lawsuit, which is Galveston County and Judge

19 Mark Henry and commissioners. And I think Dwight

20 Sullivan is a defendant, as well. And I represent

21 those parties. Do you understand that?

22 A. Yes.

23 Q. Okay. And we'll -- we'll talk about just

24 some of the deposition procedures in -- in a -- in a

25 moment. But I just want to sort of get a -- and then

1 we'll go through sort of your -- your background.

2 But -- but have you ever had your deposition taken  
3 before?

4 A. No.

5 Q. No. This your first time?

6 A. First time.

7 Q. Okay. Well, we'll -- we'll take it slow.

8 A. Okay.

9 Q. And we'll talk about some -- some of the  
10 deposition procedures. First of all, the court  
11 reporter's writing down -- attempting to, anyway, write  
12 down everything that you and I say.

13 A. Okay.

14 Q. So in the deposition process it's really  
15 important that we try not to speak over each other.

16 A. Okay.

17 Q. Because she can't write down two things at  
18 once.

19 A. At one time. Okay.

20 Q. Yeah. And she also appreciates, you know,  
21 the -- the -- not speak too fast. And -- and the other  
22 issue is nods of the head don't record very well on the  
23 -- on the transcript.

24 So she may ask you for verbal -- verbal  
25 responses, as a yes or a no versus, you know, a head

1 nod, up and down, or head nod, back and forth, head  
2 shake, back and forth.

3 So if you can, try to keep the responses as  
4 particular, yeses and nos, verbal, so she can get those  
5 on the record; is that okay?

6 A. Okay.

7 Q. Yeah. If you -- we can take breaks whenever  
8 you're ready. If you need to go to the bathroom, or  
9 just need water, or anything like that, just let me  
10 know.

11 A. Okay.

12 Q. The -- the only thing I would ask is if -- if  
13 there's a question pending, that we try to get an  
14 answer to the question that --

15 A. Oh.

16 Q. Before that.

17 A. Okay.

18 Q. Okay. And so -- and going through the  
19 questioning early I think it just -- we -- we sort of  
20 have an example of one of the things that we talked  
21 about, is -- or we haven't talked about, but I'll  
22 explain to you.

23 I'll ask questions in the process. And  
24 you're here to provide answers to those questions. In  
25 addition to us not talking over each other sometimes

1 it's -- it -- it -- it's going to require you to wait a  
2 second for me to actually finish my questions because  
3 sometimes I think mid -- mid question, and I may not  
4 have it all out. So if you can do your best --

5 A. Okay.

6 Q. -- to just let the complete sentence fall out  
7 her -- she'll put it on the record. And then you can,  
8 you know, provide your answer. It will keep the record  
9 clear for everybody.

10 A. Okay.

11 Q. Does that work?

12 A. Yes.

13 Q. Okay. And, again, there's, you know, water  
14 and coffee in the room. If you need -- need any of  
15 that just -- just let us know. If -- you understand  
16 you're under oath, you've been placed under oath,  
17 right?

18 A. Yes.

19 Q. And what that means is that your testimony  
20 needs to be truthful and -- and honest, just as if you  
21 were sitting in a court of law in front of a jury. You  
22 understand that?

23 A. Yes.

24 Q. Yes. And there's actually penalties of  
25 perjury for misstatement, or lies on the record, but --

1 and that kind of thing. I don't think it's going to be  
2 an issue, but that's the point of the -- taking the  
3 oath. You get that?

4 A. Yes.

5 Q. Yes. Okay. Have you ever -- let's see.  
6 We've talked about you not being deposed before. Do  
7 you understand that -- that you're here in the capacity  
8 to testify on behalf of the organization -- an  
9 organization today?

10 A. Yes.

11 Q. Yes. And so -- and we provided sort of a  
12 list of topics to your counsel early -- early in the --  
13 in the process. And have you seen that list before  
14 today?

15 A. Yes.

16 Q. Okay. And do you -- you feel relatively  
17 familiar with the -- the topics that are on the list as  
18 you sit here?

19 A. Most of them.

20 Q. Okay.

21 MR. RUSSO: Let me -- let me go ahead  
22 and mark that -- that list. I'm going to give this to  
23 the court reporter. She can mark it as 78, if you want  
24 to -- hold on.

25 THE REPORTER: 78?

1 MR. RUSSO: It's -- it's --

2 THE REPORTER: Oh, okay.

3 MR. RUSSO: No. Let's do it as --  
4 we'll just do Toliver 1.

5 THE REPORTER: Yes.

6 MR. RUSSO: Is that -- that okay?

7 THE REPORTER: Okay. I'll just put  
8 the numbers for now and I'll do the name...

9 MR. RUSSO: What's that?

10 THE REPORTER: I'll do the number for  
11 now and I'll fill in the name.

12 MR. RUSSO: Okay. And there's --  
13 because there's several branches.

14 THE WITNESS: Yes.

15 MR. RUSSO: There's -- because that's  
16 NAACP. That's why we can't do his name and add NAACP.  
17 But there's a Galveston, there's a Dickinson.

18 THE REPORTER: So I'm going to say  
19 Toliver?

20 MR. RUSSO: Toliver. That's --  
21 because that's her last name.

22 THE REPORTER: Okay. Okay. I'll...

23 Q. (BY MR. RUSSO:) Okay. So the -- the court  
24 reporter has marked and put in front of you the  
25 document marked Toliver 1. Have you seen that before

1 today?

2 (Exhibit No. 1 marked.)

3 A. Yes.

4 Q. (BY MR. RUSSO:) Okay. And does that look  
5 like the -- sort of the list of topics that were  
6 provided by your -- your counsel?

7 A. Yes.

8 THE REPORTER: The battery's low, it  
9 says on there.

10 (Counsel fixing technical issues.)

11 MR. RUSSO: Thank you for catching  
12 that.

13 THE REPORTER: I heard a beep.

14 Q. (BY MR. RUSSO:) So the -- Exhibit 1 is a list  
15 of topics you've seen before today?

16 A. Yes.

17 Q. So what I want you to do is -- is look at the  
18 topics under the -- specifically on -- it looks like on  
19 the -- the page numbered 1 under topics of -- for  
20 examination. And there are 20 --

21 A. Uh-huh.

22 Q. -- topics listed, paragraphs listed, with  
23 some sub-topics in there under --

24 A. Oh.

25 Q. -- item number 10. Do you see that?

1 A. Yes.

2 Q. Okay. If you -- if you can -- are there --  
3 are there areas on that list that you're uncomfortable  
4 with or don't intend to cover today?

5 A. I don't think so. I think I'm comfortable  
6 with most of them.

7 Q. Okay. And -- well -- and we'll -- as the  
8 deposition goes on we'll -- you know, we're not going  
9 to -- we're not going to just cover -- this is topic 1,  
10 topic 2.

11 A. Okay. Thank --

12 Q. We'll talk about it in a general discussion.  
13 But I ask the question, if there are limitations that  
14 you know coming in to the deposition, that -- that --  
15 whereas I know that's not a topic that we necessarily  
16 going are going to cover with you. That's why I asked  
17 that question.

18 A. Okay.

19 Q. You get that?

20 A. Yes.

21 Q. Yes. Okay. So do you -- do you understand  
22 what it means to sort of testify as an organizational  
23 witness?

24 A. That everything that says "you" is referring  
25 to NAACP, because I'm representing the NAACP and not

1 myself.

2 Q. Okay. Good. The -- how did you prepare for  
3 the deposition today?

4 A. I met with my lawyer, the lawyer -- lawyer,  
5 Sarah. I met with Sarah. And I -- I did some reading  
6 and stuff. You know, tried to -- went over some of my  
7 old emails and stuff like that.

8 Q. Okay. Do you remember, sitting here now,  
9 what -- what emails you might have seen?

10 A. I saw -- well, the email was sent out from  
11 NAACP about the meeting that we were having November  
12 the 12th at the -- with the Commissioners Court over in  
13 League City. That was one of the emails. And about  
14 the maps.

15 (Reporter clarification.)

16 Q. (BY MR. RUSSO:) Okay.

17 A. The redistricting maps that were drawn. And  
18 --

19 Q. And that was the meeting that happened in  
20 2021, right?

21 A. 2021.

22 Q. Okay. Do you -- do you remember who sent  
23 that email?

24 A. I -- I think it came from our secretary. She  
25 just sends out emails, all the emails. Dr. Scott and

1 Mary Patrick, the president's secretary, they sends out  
2 emails and stuff.

3 Q. Okay.

4 COURT REPORTER: I need you to speak  
5 up.

6 THE WITNESS: Oh, I'm sorry.

7 A. Mary Patrick, the president of the NAACP for  
8 the Galveston unit. And Dr. Ned Scott is the  
9 secretary. Dr. Ned Scott usually sends out all the  
10 emails.

11 Q. (BY MR. RUSSO:) Okay.

12 A. I can't swear that it was her, but they're  
13 the ones who normally does it.

14 Q. And -- and I guess that makes sense to me.  
15 The secretary's job is to deal with the communications,  
16 with membership; is that --

17 A. Correct.

18 Q. -- generally right? Okay. Do you  
19 generally -- do you remember generally what the content  
20 of the email was? What did it -- what did it say?

21 A. Just that it was going to be a special  
22 meeting in League City. And I can't remember what it  
23 -- what that court was called. It was -- Because I --  
24 I have been to the Commissioners Court before and we  
25 normally meet in Galveston at the county courthouse.

1 | But this meeting was in League City. It was a smaller  
2 | courtroom and everything.

3 | Q. Okay. On the times that -- other times that  
4 | you've been -- well, let me -- let me just ask this  
5 | question to cover this for a second. Did you attend  
6 | that meeting on November 12th of '21?

7 | A. Yes, I did.

8 | Q. Okay. So let's put that meeting for -- aside  
9 | for a minute. You mentioned you went to other meetings  
10 | at the -- the Commissioners Court. Can you tell me  
11 | what those meetings were?

12 | A. Well, they were -- I'm -- I'm -- I'm sorry.  
13 | excuse me. I'm also a part with Gulf Coast Interface.  
14 | I worked with Gulf Coast Interface, NAACP, and also a  
15 | task force.

16 | So as a group we all got together, LULAC.  
17 | And we went to Commissioners Court in 2012, when --  
18 | about the redistricting of the maps, when it occurred  
19 | before. And we went to some other meetings at the  
20 | Commissioner's Courts, as well.

21 | Q. Okay.

22 | A. Concerning housing. I'm -- I'm on the  
23 | housing committee. Also, I'm a commissioner for the  
24 | housing for DHA.

25 | Q. Right. And we'll cover most of that as we go

1 on today. So other than the meeting in 2021 related to  
2 redistricting --

3 A. Okay.

4 Q. -- and then the meeting -- we talked about  
5 the meeting you -- or meetings you attended in the 2012  
6 area related to earlier redistricting?

7 A. Right.

8 Q. Are there any other times that you can recall  
9 going to the Galveston County Commissioners Court  
10 meetings?

11 A. Yeah, just here and there. I'm not specific.  
12 I can't tell you. But, you know, I would go with the  
13 group. Like I say, we would all go to meetings --

14 Q. Okay.

15 A. -- at the Commissioners Court.

16 Q. So is -- is it safe for me to say that if --  
17 if you were there, at the commissioners court meeting,  
18 it had something to do with either a group setting --

19 A. Or something -- yes.

20 Q. Yeah.

21 A. So --

22 Q. So it would be like an -- an -- and let --  
23 let me try to get this out for you. It would be sort  
24 of -- either in a capacity where you're there with  
25 NAACP or with Gulf Coast Interface, or something along

1 those lines; is that true?

2 A. True.

3 Q. Did -- and do you remember any instances  
4 where you would have gone as -- just as an individual,  
5 just as Ms. Toliver, to see what's going on?

6 A. No.

7 Q. All right. In all the meetings that you  
8 attended, other than the meeting on -- on the November  
9 12th of 2021, were those all at -- in Galveston?

10 A. Yes, sir.

11 Q. Do you know whether those were what they call  
12 special meetings or the regular monthly meetings?

13 A. Regular monthly meetings. They might have  
14 been special, but I think they were regular monthly  
15 meetings. I attended some, just me and Laura Murrell.

16 She was a lawyer. She's since passed away.

17 We went to a lot of meetings together. We  
18 just -- when something going on we just attended. So  
19 sometimes we would be the only ones there.

20 Q. Okay. Sorry to hear that she passed.

21 A. Thank you.

22 Q. What -- how do you spell her last name?

23 A. M-U-R-R-E-L-L.

24 Q. Murrell?

25 A. Uh-huh.

1 Q. Is that right? Okay. And you said she's a  
2 lawyer?

3 A. She's a lawyer.

4 Q. Did she go there in a representative  
5 capacity?

6 A. No, she retired. She was from Kentucky. And  
7 when she retired in Kentucky she moved to Galveston.  
8 And she wanted to live -- live near the beach. And she  
9 lived out on Paris Beach, out on that end. But then  
10 she just was a community activist. And we got very  
11 close.

12 Q. Okay. Good. Which beach did she live at,  
13 did you say?

14 A. Past Paris -- Pirates Beach.

15 Q. Okay.

16 A. Out on the west end.

17 Q. Understood.

18 A. She lived on the west end.

19 Q. So was -- was -- was she involved in the  
20 NAACP Galveston Branch, as well?

21 A. Yes.

22 Q. But just as an individual, not as their  
23 lawyer; is that right?

24 A. No, no. She was just an individual.

25 Q. Okay. And the -- the -- what's -- are there

1 any specifics you can recall about the meetings that  
2 you attended with -- with Ms. Murrell?

3 A. We -- we just went to the meetings to hear  
4 about the redistricting back in 2012, and then later  
5 with the housing issues. And, you know, we were just  
6 community activists.

7 We passed out flyers after Ike together, in  
8 the freezing cold weather, letting everybody know what  
9 was available to them. She was a really good worker.  
10 And we did a lot of community service together.

11 Q. Okay. Do you -- do you remember going to  
12 Galveston County Commissioners Court to deal with GHA  
13 types of issues, the housing issues?

14 A. Yes.

15 Q. What did you discuss with them related to --  
16 to the housing problems?

17 A. I don't remember what we discussed. We  
18 mostly just listened. I think I did speak once, but I  
19 don't remember what it was about. But mostly we just  
20 listened and tried to learn as much as we could. We  
21 were new, you know, activists, so we're just trying to  
22 learn.

23 Q. Yes, ma'am. The -- and Galveston -- and GHA  
24 is the Galveston Housing Authority, correct?

25 A. Correct.

1 Q. What year did -- you're -- you're currently  
2 on that board, right?

3 A. Yes.

4 Q. What year did you get on the board?

5 A. Last year. I was appointed by the mayor. I  
6 think it was June of 2022. This is '23. Right.

7 Q. And was that the first time you had any kind  
8 -- any sort of formal connection to the DHA?

9 A. I was a -- yeah, formal, definitely, but I  
10 attended a lot of their meetings.

11 Q. Did you do any -- any work, sort of as --  
12 just as an agent or, I don't know, contractor capacity,  
13 volunteer for DHA?

14 A. No, I mostly was just an advocate.

15 Q. Okay.

16 A. The volunteer work I did mostly was with  
17 Our Daily Bread.

18 Q. What was the last thing you said, was what?

19 A. Our Daily Bread.

20 Q. Oh.

21 A. I volunteered with Our Daily Bread. And like  
22 -- you know, like I said, we did a lot of volunteer  
23 work after Hurricane Ike, just making sure that the  
24 community knew that FEMA was here, what was available  
25 to them, where they could receive resources, food,

1 water. You know, stuff like that.

2 Q. Uh-huh. I -- I recalled sort of a -- an  
3 issue at -- at DHA, as kind of an ongoing issue, that  
4 related to replacement and re-development of housing  
5 after Ike.

6 A. Uh-huh.

7 Q. And I just want to get your view, your --  
8 what your thoughts are on this. An -- an argument of  
9 having highly condensed apartments built versus sort of  
10 spreading out different houses, sort of across the  
11 island. Do you -- are you aware of that -- that  
12 argument or issue?

13 A. Yes. I think the issue mainly was with HUD.  
14 HUD and JJ, and the community.

15 Q. Uh-huh.

16 A. We did not want the apartments that we had  
17 before Ike. They were all -- 569 of the apartments  
18 were destroyed during hurricane Ike, and they didn't  
19 rebuild them. They tore them down. So it was a lot of  
20 decisions and discussion, how we should come back.

21 Q. Uh-huh.

22 A. What should we do. And so in the long run we  
23 decided to do mixed income housing.

24 Q. Uh-huh.

25 A. And which a mixed income we had the low

1 income, moderate, market rate. So the Villas that you  
2 see on the east end of town, that used to be the  
3 Magnolia Homes.

4 They're mixed income units. The Cedars that  
5 are in the middle of town by Central School, those are  
6 mixed income units. The ones that's coming up at the  
7 Oleander, those are mixed income units.

8 Q. Okay.

9 A. So -- and the reason that we chose mixed  
10 income instead of public housing is so that everybody  
11 could be treated equally, everybody could see how the  
12 other people live, and they could all help one another.  
13 And it's been working out just fine.

14 Q. Good. Well, do you -- was there a contingent  
15 or sort of a part of the community that just wanted to  
16 rebuild those units you mentioned, the way they were to  
17 get them built and up?

18 A. It was. I don't know exactly who all it was.  
19 But as a matter of fact, I think we all did at one  
20 time, but we -- Harish. I can't think of his whole  
21 name.

22 He was the director of housing at that time.  
23 And he sent us to -- I don't -- I think it was  
24 Philadelphia.

25 Q. Uh-huh.

1           A.    And we went to a workshop.  And they told us  
2 all about mixed income housing.  And -- and we learned  
3 a lot.  And with -- and with Betty Masau.  So she had a  
4 -- a presentation.  And we learned a lot about mixed  
5 income housing.  Then everybody was more receptive to  
6 it.

7           Q.    Yeah.  I -- I -- I gather from your --  
8 your -- your testimony or -- so far that you -- you're  
9 in favor of the mixed income units versus the more  
10 highly condensed units?

11          A.    Yes.

12          Q.    Yes.  And why is that?

13          A.    Because I grew up on what they call the north  
14 side of Broadway.  And that's the side that we're  
15 sitting on right now.  This is north side.  And the  
16 north side of Broadway had all of the public housing.  
17 And it was all like barrack housing.

18                Everybody, boom, boom, boom.  And everybody  
19 was low income.  It wasn't mixed income.  So in some  
20 cases they called it generational of property.  And I  
21 learned all of this after Ike.

22          Q.    Understood.

23          A.    I didn't know any of this before Ike.

24          Q.    I'm -- I'm in the same...

25          A.    I'm a retired nurse, so I nursed all the

1 time.

2 Q. Understood.

3 A. So I -- I used to love to go to the projects.  
4 I -- I didn't live in the projects at that time, but I  
5 used to love to go there because they have so many kids  
6 there. And we played, and we had so much fun.

7 And they had all the sidewalk. And we roller  
8 skated, and skate backwards and forwards, and rode our  
9 bikes. But I learned -- and also they had community  
10 clinics.

11 They had community clinics back in the day,  
12 so you can go and get your booster shots right there  
13 where you live. And that was the nice thing about  
14 that.

15 And everyone -- I lived at 61443. We didn't  
16 have any of that. We actually lived closer to the  
17 water. In the back. Behind the projects is what I  
18 call it. Because on the other side was the graveyard.

19 Q. Uh-huh.

20 A. So I always wanted to live in the projects.  
21 I just felt like it was the place to be. All the kids  
22 were there. We had a great time. But I knew that it  
23 wasn't any real -- not a lot of really good examples.

24 I know there's a lot of really good people  
25 that lived in the projects because I had cousins that

1 lived there.

2 Q. Uh-huh.

3 A. And my cousin -- cousin, Florence, she has  
4 passed, since passed away, she had four children.  
5 Robert became a doctor, Mary got a degree in education,  
6 Cassie and Melba became nurses.

7 So I knew a lot of stuff that they said about  
8 people in the projects wasn't true. My cousin, Rita,  
9 lived in the projects. She owned her own day care  
10 until she retired.

11 Q. Uh-huh.

12 A. Her son owns A & D Construction Company now.  
13 So I know a lot of people made it. Some people didn't  
14 do as well, but the majority of the people -- Hoskins,  
15 he become a lawyer. He lived in the projects.

16 Q. I know him well.

17 A. David O'Neil. You know a lot of people. I  
18 think David said he was in the projects, too. I don't  
19 want to get it wrong. But my Pastor Simpson, he's  
20 since passed away, they lived in the projects called  
21 Bay View.

22 Q. Uh-huh.

23 A. So I know a lot of good people that came out  
24 of the projects.

25 Q. Right. Is -- is there -- is there -- but

1 were there problems that you saw growing up or over  
2 time, or that you feel today existed, that -- with sort  
3 of the highly condensed, low income, areas that you --  
4 we -- we call the -- sort of the -- more of the  
5 project?

6 A. I don't see any gang activity. I remember  
7 them having the Bloods and Reds. And I don't see any  
8 of that going on.

9 Q. Uh-huh.

10 A. I do ride around the island frequently, and  
11 check out what's going on. I also ride around  
12 Sandpiper Cove because there's been a lot of bad talk  
13 about Sandpiper Cove.

14 So I usually ride around and just see if I  
15 see any activity going on. And I don't see -- I see --  
16 it's so much better now than what it was. It's less  
17 people on the streets.

18 They have some really nice balconies, but I  
19 don't ever see anybody sitting out on them. I don't  
20 know why. I think the rules are really strict around  
21 there.

22 And each apartment complex has a swimming  
23 pool. So the children can swim. They have computer  
24 rooms. They have people that help them with their  
25 homework. And so it's -- it's just better.

1 Q. Yeah.

2 A. I -- I think the resources are better. And  
3 then you can see how other people live, and it makes  
4 you want to do better.

5 Q. Uh-huh. So would it be accurate, then, sort  
6 of say, just in our discussion, that going to this sort  
7 of mixed unit rebuilding process was an improvement in  
8 the -- for the, I guess, minority community?

9 A. I think it was an improvement for everybody  
10 because we have a lot of people that lived there from  
11 UTMB. And everybody helps everybody.

12 Q. Uh-huh.

13 A. And everybody gets to see how the other  
14 person lives, you know. And it makes you want to do  
15 more, you know. I just think it's good all the way  
16 around.

17 Q. Good. Okay. Is there -- just to kind of put  
18 a cap on all -- is there -- was there -- the other side  
19 of the argument was to continue or go back to the  
20 project approach.

21 Was the -- was there -- was the argument that  
22 we needed more -- you could put more -- more units into  
23 the project type of development versus mixed income  
24 or -- or what?

25 A. Not that I remember.

1 Q. No. And I see that currently they -- they  
2 have -- Oleander is now under construction, as well,  
3 yes?

4 A. Yes. And I did have an objection about  
5 Oleander.

6 Q. Uh-huh.

7 A. And my objection was 374 units was just too  
8 many apartments for that land. That was the only  
9 objection I had. I wanted to see less.

10 Q. Yeah. And by comparison, so Villas and  
11 Cedars, what are the -- what are the numbers over  
12 there, if you know?

13 A. I think the Oleanders were almost twice what  
14 the Villas and Cedars -- it was a larger number. I'm  
15 not -- I'm exactly sure, but I know the Villas -- the  
16 Villas and the Cedars -- I don't want to quote it.  
17 Because I have it -- I probably have it in my phone,  
18 but I know I can't take it out.

19 Q. Yeah, we don't --

20 A. Yeah.

21 Q. We don't need to be that specific.

22 A. They have -- they less units.

23 Q. Yeah.

24 A. Both places. The -- the Capris, one of the  
25 senior citizen houses, they have 199 units. And I know

1 that Highland House has 150, 149, something like that.

2 Q. Nice.

3 A. That's senior -- and they were all senior  
4 citizen.

5 MS. CHEN: Mr. Russo, if I could just  
6 ask which notice topic this line of questioning relates  
7 to.

8 MR. RUSSO: This is just related to  
9 her background as a member of the community.

10 MS. CHEN: And you recall that she's  
11 here also as a representative of the NAACP, not just as  
12 a member of the community?

13 MR. RUSSO: Oh, I get it. I  
14 understand. The -- the -- the topics are what they  
15 are. I mean, we'll -- we'll -- you know, we'll be on  
16 and off topic all day. Agreed?

17 MS. CHEN: We'll -- we'll see what  
18 Ms. Toliver can respond to topics that --

19 MR. RUSSO: Obviously, she's not  
20 testifying about what the NAACP's view of GHA is at the  
21 moment. I'm talking to her about her role as a  
22 community member.

23 MS. CHEN: Then I'll interject and  
24 note when she is speaking on -- in her individual  
25 capacity versus in her organizational capacity, which

1 is what the deposition today should be about.

2 MR. RUSSO: Understood. Just working  
3 on her background.

4 Q. (BY MR. RUSSO:) How long have you lived in  
5 Galveston?

6 A. 74 years. I'm 74.

7 Q. Were you born on the island?

8 A. Yes.

9 Q. At John Sealy?

10 A. At the colored hospital.

11 Q. Which -- which one was that? What's -- what  
12 was the name of that one?

13 A. It was John Sealy Colored Hospital. That's  
14 what's on my birth certificate. That's -- that's all I  
15 know.

16 Q. And never lived anywhere else?

17 A. No.

18 Q. Just one of the rare left BOIs. You know  
19 that, right?

20 A. Yes.

21 Q. Okay. The -- have you ever been involved in  
22 a lawsuit before, you personally, not -- not NAACP?

23 A. No, not -- no.

24 Q. No. Okay. So going back to sort of the  
25 preparation for the deposition, you -- you said you met

1 with your counsel. Do you know how many times you met  
2 with them?

3 A. Three.

4 Q. And were -- how long were those sessions? do  
5 you remember?

6 A. An hour. Sometimes we'd go over a little  
7 bit.

8 Q. Okay. What --

9 A. Hour and a half or two...

10 Q. And when -- when were those? Do you know?  
11 Do you remember?

12 A. We had one Sunday. And we did like 15  
13 minutes last night. And then I think before that it  
14 was a Tuesday. Not quite sure on that date.

15 Q. Okay. What -- which lawyers did you meet  
16 with? Do you know them by name?

17 A. I -- I met with Sarah.

18 Q. And --

19 A. And it was some other -- I don't remember the  
20 names of the other team. There was other team members  
21 that was on -- we -- we did Zoom. We did Zoom.

22 Q. Okay. Did you ever meet in person?

23 A. Yes, with the group, but not just one on one  
24 with the -- with the NAACP and some other people.

25 Q. Were they attorneys?

1 A. Some attorneys, some members.

2 Q. Okay. But that was related to preparation  
3 for today?

4 A. It was related to just the -- the lawsuit.  
5 It was related to the lawsuit.

6 Q. Okay. And did this happen -- I'm just trying  
7 to get the timing down. Was this a meeting -- let me  
8 -- let me get the question out. Was the meeting you're  
9 referencing related to the deposition preparation or  
10 was it just related to maybe filing the lawsuit at an  
11 earlier time?

12 A. Yeah, just earlier times. Just finding out  
13 what we knew and what we wanted to do.

14 Q. Okay. Do you have any -- sort of an  
15 approximation as to when that -- that meeting would  
16 have happened?

17 A. I remember we met at the Hilton Hotel.

18 MS. CHEN: And you don't have to speak  
19 to any of the confidential communications that we had.

20 THE WITNESS: Okay. Oh, okay. I -- I  
21 remember that we met, but I don't remember all the  
22 dates and times, and all that stuff.

23 Q. (BY MR. RUSSO:) Do you know whether it was  
24 before the -- this lawsuit was filed in the case?

25 A. No, I don't know.

1 Q. Do you know when the lawsuit was filed by  
2 NAACP?

3 A. I knew it was after November 12th, but I  
4 don't know exactly when.

5 Q. Okay. And then the meeting you're talking  
6 about, at the -- the Hilton, you're not sure whether  
7 that was sort of in preparation for filing the suit or  
8 anything like that?

9 A. I'm sure the suit had filed because the  
10 lawyers was there.

11 Q. Do you remember which lawyers were there at  
12 that -- that meeting?

13 A. It was several. I don't remember their  
14 names.

15 Q. Do you know whether they were all  
16 representing NAACP?

17 A. Yes.

18 Q. Okay. Do you recall whether any lawyers were  
19 there from the Department of Justice?

20 A. No.

21 Q. How many people were there?

22 A. I would say probably 10 or more. Some of the  
23 NAACP members.

24 Q. Was it principally NAACP and -- or were there  
25 other people there, as well, other organizations?

1 A. The lawyer and NAACP.

2 Q. Okay. So from what I'm gathering is -- it  
3 was principally an NAACP meeting and gathering plus  
4 their lawyers; is that fair?

5 A. The lawyers called the meeting.

6 Q. Okay. All right. And we talked about in  
7 your preparation you -- you remember looking at an  
8 email related to the -- I guess an announcement for the  
9 meeting at Galveston County Commissioners Court in  
10 November of 2021, right?

11 A. Right.

12 Q. You remember reviewing any other documents in  
13 connection with this deposition?

14 A. No. Just I -- I read these documents.

15 Q. The notice you're referring to, as Exhibit 1?

16 A. I'm sorry. Exhibit -- yes.

17 Q. Yeah. Okay. So do you -- did -- do you --  
18 did you look at the complaint filed in the case?

19 A. Was this the complaint?

20 Q. No, ma'am. That's a -- that's a -- that's a  
21 notice. That's -- Exhibit 1 is a notice for your  
22 deposition.

23 MR. RUSSO: Let me go ahead and mark

24 --

25 THE REPORTER: T-O-L-I-V-E-R --

1 THE WITNESS: Uh-huh. One L.

2 THE REPORTER: -- is your name,  
3 correct?

4 THE WITNESS: Huh.

5 MS. CHEN: Okay. I should give you  
6 that version.

7 THE WITNESS: Thank you.

8 THE REPORTER: Uh-huh.

9 THE WITNESS: Yes.

10 MR. RUSSO: Okay. That's Toliver 2.  
11 (Exhibit No. 2 marked.)

12 Q. (BY MR. RUSSO:) So the court reporter has  
13 marked Toliver Exhibit 2 and put that in front of you  
14 and I see you looking at it. Yes?

15 A. Yes.

16 Q. Do -- do you recall looking at that document  
17 in preparation for your deposition?

18 A. Yes.

19 Q. All right. Do you remember anything specific  
20 about the contents of that complaint, review, anything  
21 specific?

22 MS. CHEN: Objection. Objection,  
23 vague. You can answer.

24 THE WITNESS: Huh?

25 MS. CHEN: You can answer his

1 question?

2 THE WITNESS: Oh, I thought you said  
3 objection. Okay.

4 A. So would you mind repeating that question?

5 Q. (BY MR. RUSSO:) Yes, ma'am. Well -- so do --  
6 do you recall -- as you're looking at the complaint --

7 A. Uh-huh.

8 Q. -- do you recall any specific paragraphs or  
9 statements in the -- in the complaint?

10 A. I just -- I just recall looking at who all  
11 the plaintiffs were. And I recognized the names Joe  
12 Compian, Leon Phillips. I recognize the name LULAC. I  
13 know the organization NAACP works closely with LULAC.  
14 And the other -- these people were all -- and -- and I  
15 think that all -- the majority of them were at the  
16 meeting on November 12. So I remember that.

17 Q. Okay.

18 A. And I was reading the introduction about the  
19 long history of racial discrimination, and it -- it  
20 takes me back and I related to a lot of that. Yes, I  
21 remember.

22 Q. Did you -- did you participate in sort of the  
23 original drafting of the original complaint before it  
24 was filed, you -- you personally?

25 A. No.

1 Q. When was the first time, if you recall,  
2 knowing that NAACP Galveston branch had filed this  
3 suit?

4 A. I don't remember. I know I knew when we was  
5 at the meeting, but I don't remember.

6 Q. The -- and the meeting that you're referring  
7 is the November 2021 commissioners court meeting?

8 A. But the suit had been filed then. No, I was  
9 referring to the meeting with the lawyers.

10 Q. Okay. And is this the -- the Hilton meeting?

11 A. Yes.

12 Q. Yeah.

13 A. I think there was one before that, too. I'm  
14 not sure.

15 Q. And is looking at this -- the complaint in  
16 front of you, although that's the amended complaint,  
17 does that provide you any sort of recollection as to  
18 whether the -- the -- the meeting at the Hilton  
19 occurred prior to this lawsuit being filed?

20 A. I don't think that I was included in the  
21 original filing of this lawsuit. I'm not the  
22 redistricting person for the NAACP. I'm the housing  
23 person. But the president --

24 THE WITNESS: I can say the  
25 president's name, right?

1 MS. CHEN: Uh-huh.

2 A. The president of the NAACP -- Mary Patrick  
3 and -- is -- is the president. So I'm sure that she  
4 probably was the one that was involved with this, and  
5 some of the other members, you know.

6 Q. Okay. All right. So I'm gathering, then, at  
7 the NAACP there are, you know, various roles that  
8 volunteers play, right? Is that true?

9 A. Yes.

10 Q. And you said you're the -- there for -- I  
11 don't know you put it. For housing?

12 A. Housing. Uh-huh. I'm --

13 Q. So how -- I'm sorry. Go ahead.

14 A. I'm head of the housing committee. It's a  
15 committee of four.

16 Q. All right. And is there also a committee of  
17 redistricting?

18 A. Yes.

19 Q. And do you have any role on the redistricting  
20 committee?

21 A. Once he sends us out informations -- you  
22 know, sometimes, you know, send different maps or  
23 something, but I wasn't working directly with her, with  
24 the redistricting.

25 Q. Who's the chairman of the redistricting

1 committee?

2 A. Roxy Hall.

3 Q. What's -- how you say her last name?

4 A. Roxy. R-O-X -- R-O-X-Y, Hall, H-A-L-L,  
5 Williams. I think it's Williams or Williamson. Oh, I  
6 shouldn't have gave her name? Is that okay? She is  
7 one of the plaintiffs.

8 Q. Yeah. Actually, her -- her -- she's been  
9 deposed, I think. First one, if I recall.

10 A. Oh, okay.

11 Q. Do you know how long Ms. -- Ms. Williamson's  
12 been the redistricting committee head?

13 A. Right. You know, just right before all of  
14 this started in 2012. She had been living somewhere.  
15 She wasn't always living here. So when she came back  
16 home, back to Galveston -- I'm not even sure if she was  
17 born here. But when she came to Galveston she wanted  
18 to work with the NAACP.

19 Q. Okay. I'm sorry. I just forgot the answer  
20 to this. What was your role with the redistricting  
21 committee, if any?

22 A. I wasn't a part of it. I did receive some  
23 messages, but I really wasn't a part of the  
24 redistricting committee.

25 Q. Okay. Are you part of it now, or have you

1 ever been?

2 A. No.

3 Q. No. So, then, is it -- is it fair to say  
4 that -- well, let me ask it this way. As you -- what  
5 does the redistricting committee -- what do they do?  
6 What's their job?

7 A. Well, I don't know exactly her job  
8 description, but I know that she got a lot of  
9 information out to the -- us. What we needed to  
10 attend, let us know what was going with the maps, which  
11 I don't understand maps. Please don't ask me no  
12 questions about then.

13 (Laughter).

14 A. And she -- but she was the one who handled  
15 all of that.

16 Q. (BY MR. RUSSO:) Okay. So is it -- how would  
17 you describe sort of the committee -- what's the  
18 objective of any given committee? Is it just we have a  
19 --

20 A. The objective of all the committees is to  
21 ensure that we have equal rights. Education is equal,  
22 housing is equal, that everybody's treated fairly, and  
23 nobody's civil rights are violated. And so we just try  
24 to do whatever we can do, that's best for the people.

25 Q. Okay. And then how many -- how many

1 committees are there?

2 A. Let's see. You have your education, the  
3 housing, the health, the redistricting, economics. And  
4 there's another one. Criminal justice committee. I  
5 think that's all of them.

6 Q. Okay.

7 A. And of course the president, she gives the  
8 president report.

9 Q. Do you have any role on any of the committees  
10 other than housing?

11 A. I'm a registered nurse, so I help with the  
12 health committee. You know, with -- with that  
13 committee, whatever they're doing. And I basically  
14 help with anybody if they ask me to do something.

15 Q. Okay. So --

16 A. But I'm mainly just housing.

17 Q. So you -- you -- you mentioned that the goal,  
18 like sort of the committee, is to -- I think -- I don't  
19 want to -- I guess I'm paraphrasing. Equality. Is  
20 that sort of lock, step or joint along with what the  
21 NAACP Galveston branch goal is?

22 A. Yes.

23 Q. Can you tell me sort of what the -- what the  
24 goal is of the NAACP Galveston branch?

25 A. Can I -- I'm sorry. Would you repeat that?

1 Q. What is the goal? Is there -- what's the  
2 sort of stated goal?

3 A. The goal is to establish equality for all,  
4 that one day, and hopefully soon -- that we all could  
5 be treated fairly, we all can be educated equally, we  
6 all can have equally, housing, and we all can see past  
7 color.

8 Q. Uh-huh. Have you seen improvements in  
9 Galveston -- let's start with Galveston since you've  
10 been here.

11 A. Yes, I have seen improvement.

12 Q. And specifically in sort of racial relations?

13 A. Yes. Let's just start with the housing.  
14 There's no longer the barracks that we used to have.  
15 We're no longer segregated. Where Hispanics are in  
16 Magnolia, Whites are in Oleander, Blacks are in Cedars  
17 and Palm Springs. Everybody's united together.

18 Q. Uh-huh.

19 A. You know, and our high school we all have the  
20 one high school plus the private high schools. So  
21 everybody's integrated. Everybody's in the same high  
22 school.

23 When I grew up I went to a Black high school.  
24 We no longer have that. We no longer have -- where we  
25 have to ride the back of the bus. The bus service is

1 integrated. You can sit wherever you want to sit.

2 We no longer have to go to the back door of  
3 the restaurants. Like I'm 74. We can walk in the  
4 front door of the restaurant. We no longer have to use  
5 the colored water fountain or the colored bathrooms.

6 Everything is integrated. I've seen a lot of change,  
7 but I feel we have a long way to go still.

8 Q. Yeah. You -- you mentioned going to the --  
9 to the -- the high school that -- that you went to, was  
10 that Central?

11 A. Central.

12 Q. Yeah --

13 A. I actually graduated from Ball High.

14 Q. Okay.

15 A. But I'm always included with the Class of '67  
16 with Central, because I graduated from night school at  
17 Ball High because I married young, and I had Joyce.

18 And I -- I got my diploma from Ball High.  
19 And I went onto Galveston College and got my LVN, and  
20 worked at UTMB, and got my RN.

21 Q. Yeah. Okay. Well, we definitely walked some  
22 of the same hallways.

23 A. Yeah.

24 Q. All right. So do -- just in general, do you  
25 feel like you have a -- a -- a fairly good

1 understanding of Galveston County as a whole in  
2 comparison to what you would know about sort of  
3 Galveston Island?

4 A. I feel like I'm in the learning process about  
5 Galveston County.

6 Q. Uh-huh.

7 A. Because, you know, I grew up -- I'm a BOI.

8 Q. Right.

9 A. So I can't get around in La Marque and  
10 Atascocita. I've been there. I can't -- I can go to  
11 one specific spot, by I can't, like, go to another one.  
12 And my sister, she don't even drive, but she can take  
13 me all around, she knows.

14 But I've seen a -- I've been to La Marque,  
15 Atascocita a lot, you know. But I don't know it as  
16 well as I do Galveston. And League City, I go to the  
17 doctor up there. Dr. Smith, he has an office here. I  
18 have a bad knee, I need to get up in a little while.

19 Dr. Smith has an office here in Galveston.  
20 He also has an office in League City. You know, UTMB,  
21 they broad now, there all around. So I've been to  
22 League City, and to some of the restaurants there.

23 And -- but -- but that was the first time  
24 I've been to that building where the meeting was. I've  
25 been to Dickinson. I have friends and classmates that

1 live in Dixon. So I've been around, you know,  
2 Hitchcock, and everything. But my main work is here in  
3 Galveston.

4 Q. Okay. And so particularly in Galveston you  
5 mentioned you've seen some improvements in racial  
6 relations over the years?

7 A. Over the years, yes.

8 Q. What would -- how would you sort of  
9 characterize the sort of last 20, 25 years in terms of  
10 -- of race relations? Do you see sort of a consistent  
11 improvement, although it maybe small, but you see some  
12 improvement?

13 A. Yes.

14 Q. Advancements?

15 A. Yes.

16 MS. CHEN: Just a quick objection to  
17 the scope, and noting that Ms. Toliver is likely  
18 responding in her individual capacity, unless you're  
19 specifically asking in her organizational capacity.

20 THE WITNESS: Oh, uh-huh.

21 MR. RUSSO: No. This -- either way is  
22 fine with me.

23 Q. (BY MR. RUSSO) I mean, I -- I -- I am  
24 interested in -- in your -- you know, your -- your  
25 views as a community member on this topic.

1 A. Yes. And as an NAACP, we work well with  
2 LULAC. And we also have Anglo Americans in our  
3 organization, you know. And we all work together.

4 Q. Yeah. So -- and then you -- you -- we talked  
5 about the committees. And -- and -- and we talked  
6 about improvement. Would you say that you've seen  
7 improvement in -- in these areas, most of these areas,  
8 including education, housing, health, economics, and  
9 criminal justice? Do you see improvements?

10 A. I see improvement, but I see a lot still  
11 needs to be done. For example, I'm a breast cancer  
12 survivor.

13 Q. Uh-huh.

14 A. And when I would go to national conventions,  
15 and they talk a lot about disparages among Blacks, I  
16 really didn't see a lot in the medical field because I  
17 worked with plastic neurosurgery and my physicians and  
18 the nurses I worked with, they were not -- I don't  
19 think they were prejudiced at all. But when I went for  
20 my health care my doctor did not want to touch my  
21 breast.

22 Q. Uh-huh.

23 A. My oncologist, and I could feel -- I knew  
24 that wasn't right because I worked in the medical  
25 field. But it really made me feel bad --

1 Q. Uh-huh.

2 A. -- that he felt like he didn't want to touch  
3 me because I was Black. And that's -- that's the way I  
4 felt.

5 (Witness crying.)

6 Q. (BY MR. RUSSO:) Yeah.

7 A. And it made me understand better, why --  
8 thank you, I'm sorry -- why Black people don't get the  
9 care that they need, why they always diagnosing the  
10 last stages --

11 Q. Uh-huh.

12 A. -- instead of the early stages, where they  
13 can get treatment. Because if you're diagnosed in the  
14 last stages, then it's almost too late for you. But if  
15 your doctors don't want to give you a proper  
16 examination because of the color of your skin you don't  
17 really want to go back --

18 Q. Right.

19 A. -- to the physician, you know. And I talked  
20 to my nephew. And my nephew was the director of  
21 nursing with the oncology department. And he spoke  
22 with the doctor about the way he treated me and it got  
23 better for a while, but then it -- he -- he started --  
24 I mean, I would go there. My insurance is paying 4 or  
25 \$500 for a visit. And he's only talking to me,

1 something we can do over the phone.

2 And now I have to say, "Will you please

3 examine me? I don't want to have cancer and don't know

4 that it's reoccurring in my body," you know.

5 Q. Right.

6 A. So it -- it -- it gave me a clearer

7 understanding of what the word "disparages" really

8 meant.

9 Q. Did the -- is the -- was the oncologist a --  
10 a UTMB physician?

11 A. Yes.

12 Q. Was he on the island or off the island? I  
13 assume it's a he.

14 A. He was on the island. I don't know if he  
15 lived on the island, but I saw them here. MD Anderson,  
16 at the -- the cancer center. They have the same  
17 doctors, some of the same doctors, that work at UTMB  
18 that work for MD Anderson, also.

19 Q. Uh-huh. So -- and just by your -- I -- I --  
20 I shouldn't assume this. What -- the -- the doctor  
21 you're referring to, was he White?

22 A. No.

23 Q. What -- what ethnicity or race was he?

24 A. I'm not sure exactly what he was. I think he  
25 was Indian. I'm not sure, but he was -- he's -- he was

1 not White.

2 Q. Okay.

3 A. He was --

4 Q. But then you mentioned prior to this  
5 oncologist experience, that you -- you didn't feel like  
6 there -- you experienced racism --

7 A. No, but --

8 Q. -- for yourself in the health field; is that  
9 -- is that accurate?

10 A. That's accurate. I hadn't had a major  
11 illness before. This was my first experience as a  
12 patient and not as a nurse.

13 Q. Uh-huh.

14 A. I worked with Dr. Ted Wong and Dr. Steven  
15 Lewis. Steven Lewis was White.

16 Q. Uh-huh.

17 A. Dr. Wong was Chinese. I think he was.  
18 Steven Blackwell was Jewish. We all got along. We  
19 worked well together. We all treated one another with  
20 respect.

21 And I was their nurse, so I know that they  
22 had hands on with their patients, because I was in the  
23 room with them. Courtney Townsend, I was in the room  
24 with him. I know how they treated their patients. So  
25 I know that I was being treated differently.

1 Q. Yes, ma'am. And -- and the -- the folks --  
2 the people that we -- you -- you just talked about, I  
3 think most of those were White. But I don't -- you  
4 know, I don't want to assume. Just from my  
5 understanding, is those -- those were White people.  
6 Mr. -- Mr. -- Dr. Townsend was?

7 A. Uh-huh. Courtney Townsend. A very good man.  
8 A very good man.

9 Q. And Blackwell, as well, correct?

10 A. Steven Blackwell was Jewish, is what he told  
11 me. And very good. Dr. Wong, very good. I -- I did  
12 not see any discrimination in the department where I  
13 worked.

14 Q. Uh-huh. And the people that you worked with  
15 and -- and for, did -- would you -- you say they were  
16 -- they generally treated both minorities and, I guess  
17 non-minorities the same?

18 A. 100 percent.

19 Q. And of course you strive to do that as a  
20 nurse, correct?

21 A. Right. 100 percent.

22 Q. Yeah. When -- when did you stop being a  
23 nurse? When did you retire?

24 A. I retired in 1998 at the age of 49. And I  
25 worked until 2008, when Hurricane Ike came.

1 Q. Okay.

2 A. My manager called me. And she wanted me to  
3 come back to work, but I couldn't go back to work  
4 because so many people didn't have an income at all.

5 Q. Uh-huh.

6 A. I had a retirement check. They lost their  
7 houses, they lost their cars. They lost everything  
8 they had. And I felt like why should I take a job that  
9 somebody else really needs. So I didn't go back to  
10 work. And I became a community activist.

11 Q. And that -- and that was after 2008?

12 A. That was after Hurricane Ike.

13 Q. And what did you do between 1998 and 2008?

14 A. I worked for UTMB part-time.

15 Q. Oh, okay. As -- as a nurse?

16 A. As a nurse.

17 Q. Did you enjoy that?

18 A. Yes.

19 Q. Okay.

20 A. I had all weekends off. I enjoy nursing. I  
21 love taking care of patients.

22 Q. And I -- I don't need to tell you. I'm sure  
23 you agree. One of the most noble of professions --

24 A. Thank you.

25 Q. -- without a doubt. The -- as a nurse you --

1 you principally worked a UTMB, on the island?

2 A. Yes.

3 Q. Yeah.

4 A. I worked at UTMB since 1967. I originally  
5 worked at the Galveston County Courthouse in the tax  
6 assessment collection office and the neighborhood youth  
7 corp.

8 It was a program that they had for teenagers,  
9 for young people. And I worked for them. And that --  
10 I was not discriminated at the courthouse. But when I  
11 applied for a job at UTMB I ran back to the courthouse  
12 to tell my friend who was Hispanic, Beatrice, "Hey,  
13 Beatrice, they're paying extra \$100 a month at UTMB,  
14 you should go over there and apply for a job."  
15 And she went over there. And they told her they  
16 couldn't hire her --

17 Q. Uh-huh.

18 A. -- because she was Hispanic, and they didn't  
19 hire Hispanics as a nurse assistant. So when I went to  
20 work --

21 Q. What -- what year is that? Were you --

22 A. That was probably in 1969.

23 Q. Okay.

24 A. So when I went to work I looked over the  
25 facility, and I saw that it was segregated. But like I

1 say, that was back in 1969.

2 Q. Okay.

3 A. It was --

4 Q. So -- between --

5 A. Actually, '67, because I started working  
6 there in '67.

7 Q. So between that '67 and '98 you worked as a  
8 full-time nurse at UTMB?

9 A. I worked at -- in '67 to '68 and a half as a  
10 nurse assistant. Then I went to LVN school. And then  
11 the LVN school, I worked in dietary part-time while I  
12 went to school, until one of the nurses asked me to be  
13 a nurse assistant.

14 I said, "I'm already a nurse assistant." But  
15 they wouldn't let me work as a nurse assistant while I  
16 was in school. And she said, "Well, I'm going to hire  
17 you, I'm going to give you a job."

18 And I say, "You can do that?" And she say,  
19 "Yes." And she hired me, and gave me a job. And I  
20 worked for her until I graduated from the LVN school.  
21 And then I worked in the emergency room for five years  
22 at UTMB.

23 Q. Okay.

24 A. And from there I went to pediatrics, and then  
25 plastic surgery. And plastic surgery was just like the

1 best job ever. I retired in plastics -- neurosurgery,  
2 on the inpatient side.

3 Q. I guess plastic surgery at the time was --  
4 was it new?

5 A. Yeah.

6 Q. Have you seen -- seen it all in plastic  
7 surgery?

8 A. I saw it all. I loved it. Very, very  
9 educational.

10 Q. Okay. And just sort of, I guess, to put a  
11 cap on the background, you -- you -- you graduated from  
12 Ball in what year?

13 A. In '68.

14 Q. '68. And then did you move over to Ball from  
15 Central?

16 A. Yes.

17 Q. Yeah.

18 A. I didn't move over. I went to night school  
19 at Ball High. Back in the day, when I went to school,  
20 if you were pregnant you had to go to night school.

21 Q. Okay.

22 A. I went to night school. I graduated from  
23 night school.

24 Q. All right. Very good. We've been going for  
25 a little while. If you want to take a break, we can

1 take a break.

2 MS. CHEN: Yes.

3 MR. RUSSO: Does that work for you  
4 all?

5 THE WITNESS: Most definitely. Yes.

6 MR. RUSSO: Okay.

7 THE VIDEOGRAPHER: Going off the  
8 record, 11:07.

9 (Off the record.)

10 THE VIDEOGRAPHER: Going back on the  
11 record, 11:22.

12 Q. (BY MR. RUSSO:) So, Ms. Toliver, we took a  
13 short break. But I just had a couple more questions  
14 related to sort of your -- your -- your background.  
15 Have you ever run for political office?

16 A. No.

17 MS. CHEN: Objection to being outside  
18 the scope.

19 Q. (BY MR. RUSSO:) All right. The -- okay.  
20 Let's talk a little bit about the -- sort of the set up  
21 and the structure of the NAACP branches, if we could,  
22 okay?

23 A. Okay.

24 Q. Do you -- do you know how the general  
25 structure, organizational structure, of NAACP branches

1 as it relates to Galveston branch, the Dickinson  
2 branch, and the Mainland branch, are they all under an  
3 umbrella of a bigger company?

4 A. The National.

5 Q. Okay. And that's -- do you know when -- when  
6 about the -- the NAACP Galveston branch was founded?

7 A. No.

8 Q. All right.

9 A. I know the national -- the NAACP, that was  
10 founded in 1909. I'm not exactly sure when the  
11 Galveston branch, 6180, was founded.

12 Q. Okay.

13 (Reporter clarification.)

14 Q. (BY MR. RUSSO:) And is 6180 -- is that --  
15 that's how the --

16 A. That's our branch number.

17 Q. Okay. And each -- is each branch assigned a  
18 -- a number?

19 A. Yes, as far as I know each branch is assigned  
20 a number. So when you file with the national office  
21 you can say what branch you want to be with.

22 Q. All right. Do you know much about, sort of,  
23 the organizational documents that relate to the  
24 Galveston branch? Have you seen -- I'm not sure what  
25 they would look like. Organizational bylaws, or

1 something like that?

2 A. Yes.

3 MS. CHEN: Objection, vague. You can  
4 answer if you understand.

5 A. I've seen them.

6 MS. CHEN: Uh-huh.

7 A. I'm just saying I've seen them.

8 MS. CHEN: Do you mean the bylaws?

9 THE WITNESS: The bylaws.

10 Q. (BY MR. RUSSO:) And did you see them in  
11 connection with any changes, or what -- what are the  
12 circumstances?

13 A. I just saw them when I joined.

14 Q. Why did you see them when you joined?

15 A. Because they give you a handbook with  
16 everything in it.

17 Q. Okay. And what does that handbook look like?  
18 What's in it?

19 A. It's a yellow book. It has the mission  
20 statements. Just about the NAACP, and our purpose, and  
21 stuff like that.

22 Q. And there's a -- there's a full copy of  
23 the bylaws?

24 A. It has stuff. Yes. It has the president --  
25 what the president's position is. The first vice, the

1 second vice, the treasurer, secretary. You know, just  
2 that's what in the bylaws, and -- and what we  
3 represent, and what our purpose is, and stuff like  
4 that.

5 Q. All right. What year did you join, if you  
6 recall?

7 A. I don't remember. It's been a long time.

8 Q. Okay. Was it before the 90s, that long ago?

9 A. I honestly don't want to --

10 Q. And I hate to even say the 90s or that long  
11 ago. But, you know --

12 A. I honestly don't want to say because I -- I  
13 joined. And then I wasn't a member for a while. Then  
14 we joined again.

15 Q. Okay. So why did you -- why did you have the  
16 gap in membership?

17 A. Because I worked 12-hour shifts. As a nurse  
18 it was just difficult.

19 Q. Are there certain service requirements to be  
20 a member of NAACP?

21 A. We have committees. And with each committee  
22 you're required to participate. Not a certain amount,  
23 but just participate.

24 Q. Okay.

25 A. Do what you can.

1 Q. Are there members that don't, that are not on  
2 committees?

3 A. Oh, most definitely.

4 Q. And are there any sort of service or  
5 volunteer requirements for the -- that membership?

6 A. I'm sorry. No.

7 Q. Okay.

8 A. You can be an inactive member if you want.

9 Q. Okay. If I wanted to know -- is there --  
10 what sort of a mission statement? Is there a mission  
11 statement for NAACP?

12 A. Yes.

13 Q. And where would I find that?

14 A. You can go to the NAACP site. And you'll  
15 find it on Facebook, internet.

16 Q. Is there a separate website for the Galveston  
17 branch?

18 A. Yes.

19 Q. And then a separate website for Dickinson  
20 branch?

21 A. I haven't searched their branches, but I'm  
22 sure they are because they're quite active.

23 Q. All right. And so what is a mission  
24 statement, if you know, for the Galveston branch?

25 A. The -- our mission statement. Yeah, I know

1 the mission statement. But basically the mission  
2 statement is that we're going to assure that  
3 politically, educationally, housing, civil -- their  
4 civil rights -- that everybody have those equal rights.  
5 We want equality for all, no discrimination.

6 Q. And what are the -- what are the requirements  
7 to join?

8 A. The fee to join is 30 dollars. You fill out  
9 a membership application. That's it.

10 Q. And is it an annual fee?

11 A. Yes.

12 Q. All right. And is it -- the organization is  
13 open to all races and creeds?

14 A. Most definitely.

15 Q. And genders, of course?

16 A. Most definitely.

17 Q. Okay. And then the Galveston branch,  
18 specifically, are there all races and -- and creeds,  
19 and genders that are members?

20 A. Yes. We have Anglos and Hispanics. And like  
21 I say, we participate with the LULAC. Our president,  
22 Mary Patrick, she makes sure that LULAC knows  
23 everything that we're doing. And they have a new  
24 president. I can't remember his name. But the other  
25 president, Lillie Aleman --

1 Q. Uh-huh.

2 A. -- she's on my email list. Anything that I'm  
3 involved with, she gets emailed.

4 Q. Okay.

5 A. And Mary Patrick also sends emails with  
6 whatever we're involved in.

7 Q. So do you generally find that the membership  
8 of the Galveston branch NAACP is -- is different from  
9 the membership of LULAC?

10 A. Some -- well, some of -- some organizations.

11 Q. Do you have -- have any clue as to -- to what  
12 the -- the number is, or percentage-wise, members in --

13 A. No.

14 Q. -- the Galveston branch and they're also  
15 members of LULAC?

16 A. No, I don't.

17 Q. Would you say there are many?

18 A. I would say there's a few.

19 Q. I'll put you to the test here because  
20 they're -- would you say it's less than 50 percent?

21 A. Oh, I would say that.

22 Q. What about less than 25 percent?

23 A. I wouldn't say that. I don't know, but my  
24 guess is it would be more. I don't -- I really don't  
25 know the answer to that question.

1 Q. Okay. So you think -- just sitting here you  
2 think your estimate would be that there's more than 25  
3 percent of individuals who are members of both the  
4 Galveston NAACP and LULAC --

5 A. Galveston would be less.

6 Q. -- less. Less. Do you think it would be  
7 less than 10 percent?

8 A. I don't know. I don't know all of the  
9 members that -- what all they belong to. But I do know  
10 that they interact together.

11 Q. Okay. If -- if we wanted to find that  
12 information, how would we get -- how would we get that?

13 A. I guess you would have to get the NAACP list,  
14 and LULAC list, and compare.

15 Q. Yeah.

16 A. I've never searched it.

17 Q. And that -- that was my next question. If --  
18 if you know, does -- does NAACP keep track of that?  
19 The Galveston branch. Does it keep track of people who  
20 are both --

21 A. Not that I know of.

22 Q. All right. So your -- your best guess is  
23 it's something less than 25 percent, though, of the  
24 membership?

25 A. Yes.

1 Q. Why do you think that is?

2 MS. CHEN: Objection, speculation.

3 Q. (BY MR. RUSSO:) You can answer that.

4 A. Laziness.

5 Q. On the part of --

6 A. You know, we just don't join and -- even --  
7 even though we participate we don't always just join  
8 organizations that we should be a part of. I bet none  
9 of you guys are part of the NAACP. And it's only \$30 a  
10 year. Everybody should be a member. Cheapest  
11 organization you'll ever join.

12 Q. Right. Well -- so do you see -- do you -- do  
13 you see -- personally, do -- do you see differences in  
14 the sort of the LULAC organization and the  
15 NAACP organization as far as goals and mission?

16 MS. CHEN: Objection to asking for her  
17 personal opinion as opposed to organizational opinion?

18 MR. RUSSO: Personal's fine with me.

19 A. I think that -- my personal opinion is that  
20 we work well together.

21 Q. (BY MR. RUSSO:) Uh-huh.

22 A. They need our support, we're there. If we  
23 need their support, they're there.

24 Q. And generally speaking, do you think that the  
25 -- I mean, the -- well, strike that. I'm just -- just

1 trying to figure out why -- strike that. Let me ask it  
2 this way.

3 A. Uh-huh.

4 Q. Do you feel like an individual who's an NAACP  
5 member could just as easily be a member of the LULAC  
6 organization and achieve the same goals as a volunteer?

7 MS. CHEN: Objection, vague.

8 Q. (BY MR. RUSSO:) You can answer.

9 MS. CHEN: If you understand the  
10 question.

11 Q. (BY MR. RUSSO:) You can -- if you understand  
12 the question.

13 A. Okay. Yes, I think -- I think that any of us  
14 can join any organization we want to. They -- they're  
15 open to the public, to the community, and to everybody.

16 Q. So from -- is it -- is it sort of your view  
17 that, I guess, it really doesn't matter which  
18 organization you -- whether it's LULAC or NAACP?

19 MS. CHEN: Objection, misstates  
20 testimony.

21 A. If the -- I'm sorry. Re-frame (sic) that  
22 question.

23 Q. (BY MR. RUSSO) Yes.

24 A. What are you saying?

25 Q. I'm just -- if -- if --

1 A. I'm not --

2 Q. -- if you reach the same goal with both  
3 organizations, then is it your -- your view that it --  
4 it really doesn't matter if you're a member of one or  
5 the other, you're --

6 A. Right. As long as you all are working for  
7 the same goal and the same purpose.

8 Q. Okay. And that goal is?

9 A. Equality.

10 Q. Equality?

11 A. Equality.

12 Q. But it is -- do you feel like an individual  
13 should be a member of both organizations, that would be  
14 better?

15 A. Not necessarily, but if they want to it's  
16 their choice.

17 Q. Yeah. Would you say there's -- is there a  
18 difference between, sort of, your -- your mission  
19 statement, which we talked about, and the -- the  
20 purpose of the NAACP Galveston branch, or are -- are  
21 those, in your view, sort of the same?

22 A. You mean with LULAC or the National Locus  
23 County?

24 Q. Just -- just -- just NAACP Galveston?

25 A. Is it a difference in the mission?

1 Q. Yes.

2 A. Difference in what mission?

3 Q. Well, we -- we talked about the mission being  
4 equality, generally paraphrasing?

5 A. Okay. Yeah, that's -- that's generally the  
6 mission.

7 Q. Yeah. And then -- but is that the same as a  
8 purpose? I mean, the purpose of the organization is  
9 the same, the advancement of equality?

10 A. Right.

11 Q. Had the -- the requirements to be a member  
12 changed over the past 20 years?

13 A. Not that I know of.

14 Q. All right. So \$30 and an application,  
15 generally speaking, is what it takes?

16 A. If you want to be a member to enter meetings.

17 Q. And what's the area in which you need to live  
18 for Galveston, to join the Galveston?

19 A. If you're going to be a member of the  
20 Galveston NAACP you have to live or work in Galveston.  
21 So if you don't live here, and you work here, you still  
22 can be a member.

23 Q. Okay. Is there any benefit to being in the  
24 Galveston branch verses the Dickinson Branch?

25 A. No. If you -- if you live in Dickinson you

1 can just be a member in Dickinson. But if you work in  
2 Galveston, then it might be more convenient for you to  
3 be a member in Galveston. You get off of work, and you  
4 just come to meetings, but right now we're virtual.

5 Q. Uh-huh. Do you know most of the members in  
6 the Dickinson branch or the Mainland branch?

7 A. No.

8 Q. Do you all ever sort of meet together, have  
9 functions or -- or parties together?

10 A. I have been in some of their functions, no  
11 parties. I have been at community functions in Texas  
12 City.

13 Q. Uh-huh.

14 A. Yeah. When they ask us to come to different  
15 functions.

16 Q. How often -- are they -- they regular  
17 functions?

18 A. It hasn't been too many with the Coronavirus,  
19 but before then it was.

20 Q. How often was it before Corona?

21 A. You know, everybody have -- like Texas City  
22 probably have like yearly or bi-yearly functions. We  
23 have functions. We have scholarship drives. We -- you  
24 know, we do banquets. We do -- oh, we do banquets for  
25 the scholarship.

1           We do health fairs. And everybody's invited  
2 and included in the health fairs, you know.  
3 We worked with the different churches in Galveston, and  
4 the black nurses for the -- to get the vaccines out for  
5 the Coronavirus.

6           Some of the nurses helped to do that. I  
7 didn't because I'm a diabetic. But some of the other  
8 ones, they did. So, yes, we participate wherever  
9 needed.

10           I went to Texas City. And we participated  
11 over there. I can't remember what we did, but I took  
12 some pictures with the firemen. I remember because I  
13 saw them.

14           But we did -- you know, we all visit each  
15 other's table, and we socialize. Just get to know each  
16 other, and what every organization was all about.

17           Q. Okay. Yeah. And so what you were describing  
18 was all of those three branches working together,  
19 right?

20           A. Working together, yeah.

21           Q. Well, how often is -- does your -- does the  
22 Galveston Branch hold a meeting?

23           A. Every month. On the second Tuesday of every  
24 month.

25           Q. All right. And then those --

1           A.    I'm sorry. That's not true. On the second  
2 Thursday of every month.

3           Q.    Okay. And where are the meetings held?

4           A.    They're virtual right now. Before then they  
5 were held at Old Central, in the library. No, that's  
6 -- that's not true, either.

7                               (Laughter.)

8           A.    Because they was held at Old Central, in the  
9 library. And then they moved them to Avenue L Church  
10 because Reverend Johnson was the first vice president  
11 of the NAACP.

12                           And he let us have meetings over there. And  
13 we didn't have to pay for them. At Old Central we paid  
14 a fee. I am the second vice president of the NAACP.  
15 This is my second term, then the second vice president.

16           Q.    When did that term start?

17           A.    November. I think it was November.

18           Q.    Of '22?

19           A.    '22. It was when we had the election. Then  
20 we had the installation like January.

21           Q.    What's the -- what's the role of the second  
22 vice president?

23           A.    To do whatever -- whatever the president  
24 can't do, or not able to do. Just to fill in.

25           Q.    Yeah. Who's the first vice president, again?

1 A. The first vice president -- no.

2 THE WITNESS: Is it okay to give her  
3 name? Because she's not on any of this.

4 MS. CHEN: Well --

5 Q. (BY MR. RUSSO:) It's not necessary. I'm  
6 fine.

7 A. Okay.

8 Q. Would it be on the website?

9 A. I don't even know. I think I read it in  
10 there. I'm not sure. She's a very sweet person.  
11 She's in real estate, and also works for GISD.

12 Q. Okay. And how did her role differ as a first  
13 vice president, from the second vice president?

14 A. See, the second vice president's the last  
15 person to fill in. Like I should be the last person in  
16 there. It's the president in front. And so, you know,  
17 your president, they take the lead.

18 And if the president is absent, or she can't  
19 run the meeting, the first vice president will do it,  
20 or if we have something going on that she can't attend,  
21 the first vice president can.

22 And if the first and the second -- and the  
23 president -- and first vice is not there, then the  
24 second vice. I usually attend everything with Reverend  
25 Johnson, when he was living.

1           We would attend all these events together  
2 because we're both retired. I mean, he had his own  
3 business, but the president has a job.

4           Q.    Okay.

5           A.    And the first vice has a job. They have to  
6 be at work. They can't always be off all the time.  
7 They're not available.

8           Q.    So when -- when -- do you recall -- when were  
9 you notified that you would be giving a deposition  
10 today, roughly?

11          A.    Just -- today?

12          Q.    Yeah.

13          A.    Maybe three weeks ago, a month.

14          Q.    Was that the first time you can recall sort  
15 of having direct -- direct involvement in this lawsuit?

16          A.    No. Like I told you, we met at the Hilton.  
17 I didn't know I was doing a deposition then, but I knew  
18 the lawsuit was going on.

19          Q.    All right. If -- if you recall, did you sort  
20 of -- did you agree with the suit at that time? At the  
21 meeting at the Hilton you agreed with what was filed?

22          A.    Yes, I did agree with the suit because of  
23 what happened at the commissioners court on the 12th of  
24 November.

25          Q.    Uh-huh. Okay. What -- what -- what can you

1 tell me about -- or -- or tell me about -- so the  
2 marketing efforts that -- that Galveston NAACP has  
3 undertaken in the -- in the past 10 years to drive up  
4 membership?

5 A. Membership. To drive up membership?

6 Q. Yes, ma'am.

7 A. Well, we'll have like a membership drive,  
8 where we might have snacks and refreshments, and just  
9 invite people to come. And we'll talk about the NAACP,  
10 and then ask people about joining.

11 Also, we have our yearly banquet, that -- for  
12 our scholarship fundraiser that -- we haven't had to  
13 have because of qualifiers. And we'll also have like a  
14 membership drive, pass out applications. And anytime  
15 like you want to join NAACP we just, you know, try to  
16 get -- get the word out?

17 Q. How do you get the word out?

18 A. Like I have a very big email list. And we  
19 can email people what's going on, ask them about being  
20 a member of the NAACP. But mostly I just ask them when  
21 I see them in person, except for -- unless we're having  
22 a membership drive.

23 Q. Would a -- would a -- are -- are emails sent  
24 from the NAACP to just sort of a blanket list of the  
25 emails for the -- like a cold call type of joining, to

1 be a member?

2 A. No, I -- I -- I haven't ever seen that.

3 Q. No. Who designs the -- sort of marketing or  
4 advertising type of material?

5 A. My guess is it would be the secretary and the  
6 president.

7 Q. Have you ever played a -- a role in that  
8 yourself?

9 A. No.

10 Q. Did you ever talk to them about what -- how  
11 we might market the branch?

12 A. No.

13 Q. Since the Coronavirus had -- I think you told  
14 me that you haven't -- you haven't had any sort of  
15 in-person meetings, correct?

16 A. Correct.

17 Q. And is that true, also, for marketing efforts  
18 and --

19 A. Correct.

20 Q. Is there -- let me -- is a time frame in  
21 which you -- the NAACP Galveston branch is going to  
22 sort of -- or start up marketing, in -- in-person  
23 marketing?

24 A. It hasn't been discussed because we've been  
25 discussing other things so far at the meetings. We

1 have each organization and each committee that get  
2 their reports and everything and we haven't started  
3 that up yet.

4 Q. Have you seen --

5 (Phone ringing.)

6 A. We have taken in new members, though.

7 Q. (BY MR. RUSSO:) Yeah. I was going to --  
8 that's where I was headed. Thank you. You anticipated  
9 my question.

10 A. Oh, I'm sorry.

11 Q. Have you seen sort of -- what's the -- what's  
12 the population membership numbers look like over the  
13 past five years, let's say, since -- since --

14 A. Of the past five years, about 60 members.  
15 And, you know, I don't get to see all of the members.  
16 And I don't see the membership list because it's  
17 confidential. The secretary knows that. But we have  
18 about seven Anglos and three Hispanics.

19 Q. Uh-huh. And you said there's 60 members,  
20 roughly?

21 A. Roughly.

22 Q. And has that number changed at all in the  
23 past five years, gone up?

24 A. Oh, it's -- you know how memberships are.

25 Q. Yeah.

1           A.    Yes, they change back and forth, but roughly  
2    about 60.

3           Q.    Do you know how -- how much Galveston branch  
4    spends on marketing efforts?  And let's -- let's say in  
5    the past two years on an annual basis, but over the  
6    past -- focus on the past two years.

7           A.    Nothing in the past two years because of  
8    Coronavirus.  We haven't been doing a whole bunch of  
9    marketing.  And we don't have a bunch of marketing  
10   money.

11          Q.    Uh-huh.

12          A.    We don't have, like, say, a marketing budget.  
13   Now, the national office, they -- they do a lot of  
14   marketing.

15          Q.    Uh-huh.

16          A.    But your local -- you know, like I say, the  
17   dues are only \$30.  So we don't have a lot of money to  
18   spend.  And we try and give out our scholarships --

19          Q.    Uh-huh.

20          A.    -- with the money that we raise and stuff.

21          Q.    So does the Galveston branch have any control  
22   over how the NAACP big organization markets in your  
23   area, or do they market in your area?  Let me strike  
24   that because that was two questions.  I'm referring to  
25   the -- the --

1 A. No.

2 Q. Well, let me -- let me -- let me get a  
3 question on the record. So I'm assuming that the  
4 national organization could spend money to the benefit  
5 of a small organization --

6 A. Uh-huh.

7 Q. -- right?

8 A. They could, but they don't.

9 Q. So my next -- other question -- well, my next  
10 question is, you don't have any control as to Galveston  
11 branch over what the -- the big brother spends on  
12 marketing for your branch?

13 A. No, no. No way. We send them money. The --  
14 every branch have to send so much money to national, to  
15 help run that, you know, big organization.

16 Q. Do you know how much it is?

17 A. No. But the treasurer would know, and the  
18 secretary. It's a percentage of what you take in. And  
19 I'm not sure what the percentage is. I used to know.  
20 I think it's -- I -- I don't know.

21 Q. Okay. And then let's talk about sort of what  
22 you take in. I guess one source of the intake is the  
23 membership fees?

24 A. Uh-huh.

25 Q. On an annual basis, right?

1 A. Yes.

2 Q. And then donations? Is that another method  
3 of gaining -- of gaining revenue.

4 A. We don't -- we don't receive a lot of  
5 donations. But the other way we receive revenue is  
6 through the banquets.

7 Q. Is that an annual banquet -- banquet?

8 A. Yes.

9 Q. How do you -- how does the Galveston branch  
10 get money through the banquet?

11 A. We sell tickets.

12 Q. How much are the tickets, usually?

13 A. I -- I think 30, 35. We try to keep it  
14 reasonable so that people can afford to come.

15 Q. Uh-huh. Do you have any idea, sitting here,  
16 what the sort of -- what are -- the revenue -- what  
17 does the revenue look like for the Galveston branch for  
18 2022?

19 A. They gave the financial report, but I don't  
20 remember what it was.

21 Q. Okay.

22 A. It's not a whole bunch of money --

23 Q. Yeah.

24 A. -- you know. Because, remember, the money  
25 that we take in we basically use for scholarships. So

1 we don't keep a lot of money in the treasury.

2 Q. Does the scholarships go to graduating  
3 seniors, I guess?

4 A. The majority of them do go to seniors.

5 Q. How many do y'all usually give away a year?

6 A. I -- Mary Patrick usually handles that. But  
7 we give them to students from O'Connell and Ball High.  
8 The students apply, and they qualify. They get a  
9 scholarship.

10 Q. Okay. Let me -- let me expand on the sort of  
11 marketing question and cost. Could -- is -- you said  
12 you -- that you don't really spend any money on  
13 marketing over the past two years. What about the past  
14 four years?

15 A. We -- it's -- we don't have a marketing  
16 budget. Now, our marketing would be mostly like an  
17 email message. You know, that's how we get the word  
18 out, or flyers. We don't spend -- we don't have a  
19 marketing budget.

20 Q. Has that always been the case as long as  
21 you're aware?

22 A. Most Black organizations don't have a  
23 marketing budget. We don't have that kind of money.

24 Q. Why -- why -- why is that?

25 A. Because we don't have the money.

1 Q. Well, is it -- is it -- you -- you said most  
2 Black organizations.

3 A. Uh-huh.

4 Q. Is there -- is there -- is it related to  
5 Black organizations or just --

6 A. You know, we don't have the six-figure  
7 income. We don't pay the \$100 dues, or 150, so we  
8 don't have that big budget --

9 Q. Okay.

10 A. -- to spend money on marketing, you know.  
11 You just have a -- I mean, whatever you do -- if I do a  
12 flyer or something I pay for it out of my own pocket.  
13 Yeah. Same way like a church. You know, we -- we  
14 don't have a big marketing budget.

15 Q. Okay. Well, then, let's -- let's turn from  
16 marketing over to sort of communications with active  
17 membership.

18 A. Okay.

19 Q. If -- how's that done over the past -- let's  
20 focus on the last two years. How do you generally do  
21 that?

22 A. I mean, we usually do communications at the  
23 meetings. And we'll have guest speakers, people coming  
24 in. Like police chief will come in --

25 Q. Uh-huh.

1           A.    -- and different organizations.  Housing.  
2  We'll have people come in and present.  And we -- we do  
3  emails.  Most -- most everything is done by emails.

4           Q.    Do y'all -- historically, have you paid the  
5  guest speakers to come in?

6           A.    No, they don't charge a fee, I don't guess.  
7  We don't -- we don't -- we don't have the money for  
8  that.

9           Q.    Understood.

10          A.    We appreciate their services.

11          Q.    And hopefully that's something they know  
12  going in, right?

13          A.    I don't think anybody's ever asked for any  
14  money.  We invite them, and they come.

15          Q.    All right.  In terms of the methods of  
16  communication with -- with members, we talked about the  
17  last two years.  Would you say the -- give me the same  
18  answer as in connection with communications of over the  
19  last five years?

20          A.    Well, the last five years we had open  
21  meetings.

22          Q.    Uh-huh.

23          A.    So the communication was more -- I'm sorry.  
24  Openly.  You know, people would come to the meetings.  
25  Like I say, we invite different groups.  And we would

1 all just be together, communicate and socialize.

2 Q. Uh-huh.

3 A. We would have like a Christmas party. And we  
4 invite any potential members. Invite. You know, let  
5 them come to the membership drive at the Christmas  
6 party.

7 Q. Uh-huh.

8 A. And also for our youth we would have little  
9 parties for them. And we always have an application  
10 available, do membership drives on the spot. Like --  
11 you know, like that.

12 Q. Yeah. Those -- those drives, are they -- do  
13 -- do they have a cost associated with those, or how do  
14 they work?

15 A. Well, if -- when -- when we did the breakfast  
16 at Chili's, Chili's donated -- they donated the -- the  
17 pancakes, and we paid for the bacon and the eggs. And  
18 then we invite different people in the communities,  
19 sell tickets to people to come out and socialize with  
20 us. And we talk to them about the NAACP.

21 And the same things. We have something at  
22 Old Central because the -- because the Chili's was for  
23 the youth. We try to get the youth involved. If you  
24 get them young, then you can keep them as they get  
25 older.

1 Q. Uh-huh.

2 A. And we have little different events and  
3 programs for them.

4 Q. When was the last -- when was -- you  
5 mentioned the Chili's -- the Chili event. When was  
6 that?

7 A. Probably right before Coronavirus.

8 Q. Okay. So back in 20 --

9 A. Uh-huh.

10 Q. End of 2019.

11 A. Yeah.

12 Q. Probably sometime before that. All right.  
13 So what -- we talked earlier about the November 12 --  
14 12th, 2021, meeting with the commissioners court,  
15 right? Do you remember that? At which the meetings  
16 were adopted by the court?

17 MS. CHEN: The maps?

18 A. Uh-huh.

19 Q. (BY MR. RUSSO:) Correct?

20 A. Yes.

21 Q. Yeah. And you -- you attended that meeting?

22 A. I attended.

23 Q. Are you aware of -- or let me ask you this  
24 way. What efforts or changes did the NAACP Galveston  
25 branch make to its marketing or outreach methods as a

1 result of the commissioners court implementing the  
2 redistricting maps in 2021?

3 A. As far as I know of, there was not any  
4 changes made. They just talked to the lawyers, you  
5 know.

6 Q. Uh-huh.

7 A. And they did some -- had some meetings where  
8 Roxy presented with the redistricting. We discussed  
9 that kind of stuff. And that's about all that I know  
10 of. Now, like I say, I wasn't at the table at the very  
11 beginning, so I can only speak on what I know.

12 Q. All right. And as you sit here today, do you  
13 -- do you know or do you anticipate changes that the  
14 Galveston NAACP branch is making, or planning to make,  
15 to its marketing efforts in the future, or outreach  
16 efforts in the future, because of the Galveston County  
17 Commissioner's adoption in 2021 of the maps?

18 A. Well, as far as I know, we haven't. But  
19 depending on the outcome of this lawsuit, then we'll  
20 have to regroup and decide what we're going to do.

21 Q. Has there been any discussion on what -- when  
22 you say regroup, what does that mean?

23 A. That means get busy, get to working, making  
24 sure that everybody is being treated equally, fairly,  
25 make sure everybody know what district they're in.

1 We'll probably have to start passing out flyers,  
2 working with people one on -- you know, one on one,  
3 individually, or in groups, and just let them know what  
4 -- what happened with the lawsuit --

5 Q. Mm-hmm.

6 A. -- and decide what we need to do, if  
7 anything.

8 Q. And do you -- of the things that you just  
9 mentioned, have you -- is there a consideration of --  
10 of what the cost would be with that?

11 A. Like I say, we -- we pay for it. No, we  
12 don't have no marketing budget. So if then it cost --  
13 if I make some flyers I'm going to be the one assuming  
14 that cost.

15 Now, we can regroup and -- and try to get a  
16 budget. We don't -- we don't have a marketing budget.  
17 But that doesn't mean we won't ever have one --

18 Q. Uh-huh.

19 A. -- because we have to work it out.

20 Q. All right. Is it your feeling, sitting here  
21 today, that -- that the Galveston branch NAACP needs to  
22 make some changes or increase its marketing efforts, or  
23 outreach efforts, due to the commissioners adoption of  
24 the 20 -- the 20 --

25 A. Oh, most definitely.

1 Q. Of the '21 map?

2 A. Yes.

3 Q. And why do you think that?

4 A. Because this -- because this happened. This  
5 was something that we didn't anticipate. We did this  
6 10 years ago.

7 Q. Okay.

8 A. And so we didn't think that we would be doing  
9 this again in 2021. And because of some of the -- not  
10 -- not some. Because of one statement in particular  
11 that was made we need to get the word out, how  
12 important it is to attend these commissioners meetings,  
13 as well as city council.

14 I'm always talking about the city council  
15 meetings, but not so much as county commissioner. So  
16 we need to do more to make sure that people understand  
17 about the districts, what districts they're in, what  
18 the county court commission does, and how much power  
19 that they have.

20 Q. In terms of getting the -- the word out,  
21 what's the primary method that you anticipate the NAACP  
22 using to get the word out?

23 A. Usually we use word of mouth, but we're going  
24 to have to try to do more. You know, like I say, we  
25 can have meetings, we can have flyers. We can have

1 people together. And small groups, we usually use the  
2 library for small groups, et cetera.

3 Q. Uh-huh.

4 A. Larger groups will have to use the gym  
5 because it holds more people.

6 Q. Yeah. Are you aware --

7 A. Churches, I'm sorry.

8 Q. That's okay.

9 A. We send flyers to the churches, also, and --  
10 and let the pastors get the word out to church members.

11 Q. So as -- as you sit here today, are you aware  
12 of anything that the NAACP Galveston branch has done to  
13 divert funds as a result to -- to -- or combat the  
14 county commissioner's adoption of the map in 2021?

15 A. Not that I know of.

16 MS. CHEN: Ms. Toliver, do you want to  
17 take a stretch break?

18 THE WITNESS: Yeah, that will work.  
19 Thank you.

20 MS. CHEN: All right. Is that all  
21 right?

22 MR. RUSSO: You want to take five  
23 minutes? Okay.

24 MS. CHEN: Do you need five minutes?  
25 It could be less.

1 THE WITNESS: Oh, that's fine.

2 MR. RUSSO: We can go off the record.

3 THE VIDEOGRAPHER: Okay. Off the  
4 record, 12:00 noon.

5 (Off the record.)

6 THE VIDEOGRAPHER: Going back on the  
7 record, 12:06.

8 Q. (BY MR. RUSSO:) All right. Good afternoon.  
9 I have some follow-up on the position as second vice  
10 president.

11 A. Uh-huh.

12 Q. Did -- was that elected.

13 A. Yes.

14 Q. How -- how does that election work?

15 A. We have election every -- every year. And we  
16 have a voter -- I mean, just like a regular election.  
17 Have a voters box and voter sheet, and you -- everybody  
18 vote and then they decide who's -- usually it's not a  
19 lot of people running for the office, but that's how  
20 they do it. Just a regular election.

21 Q. Okay. Is it -- is it all the people that  
22 decide to vote at the -- at the time that the election  
23 is had?

24 A. Everybody knows when the election is going to  
25 be, yes. And they have to be present. They have to

1 vote.

2 Q. How does that work with the COVID and the  
3 Zoom meetings?

4 A. They had to -- they had the election. I  
5 think it was at Old Central. I -- I don't even  
6 remember. I don't think they really -- they had the  
7 election. Let me try to think of what they did.

8 I don't remember. It was just like --  
9 because every -- I don't think anybody was opposed. So  
10 they just voted for who you wanted to vote for, who's  
11 running for that office.

12 Q. Okay. Did you vote over some kind of  
13 electronic method?

14 A. No.

15 Q. Submit an email?

16 A. It's -- it's a box. You write it, you -- the  
17 paper. Just the old fashioned election.

18 Q. Okay. All right. So let's talk a little bit  
19 about the -- sort of the lawsuit.

20 A. Okay.

21 Q. Do -- what's your basic understanding of what  
22 the NAACP's allegations are?

23 A. My basic understanding is the redistricting  
24 -- the maps. The way the maps were drawn. And the  
25 maps were drawn when I was at the -- when I was at the

1 meeting to eliminate the Black minority vote.

2           They didn't just come out and say that. But  
3 the way that they were drawn, like people that was in  
4 District 3 were divided into Districts 1, 2, and 4. So  
5 therefore Commissioner Holmes would not be able to be  
6 elected because it was not enough of Blacks and  
7 Hispanics in those areas once those lines were  
8 re-drawn.

9           Q. Okay. And is the -- did -- are you a  
10 resident of Precinct 3, the old Precinct 3?

11           A. 2. 2. But the only commissioner that I knew  
12 was Commissioner Holmes. I, you know, originally  
13 thought I was in 3. But no, when I went to vote I  
14 wasn't, I was in 2.

15           And -- but Commissioner Holmes is the one who  
16 always represented our district. You know, he always  
17 include us in everything that he does with his  
18 districts and -- and everything.

19           Q. So, yeah, let me follow up with a question.  
20 So you were in District 2 prior to the change in 2021,  
21 right?

22           A. Correct.

23           Q. And I guess -- I guess you're still in  
24 Precinct 2?

25           A. I'm still in 2.

1 Q. All right.

2 A. Correct.

3 Q. And the representative there is -- is --

4 A. Giusti. Gugiest. G-U-G-I-E-S-T.

5 Q. Giusti.

6 A. I've -- I've never met him.

7 Q. That was -- that was my next question. Have  
8 you ever met Commissioner Giusti?

9 A. No.

10 Q. Prior to the redistricting in 2021, had you  
11 actually ever voted for a county commissioner?

12 A. Yes.

13 Q. And did you know you were voting --

14 A. And the reason -- and the reason I say yes,  
15 because I vote in every election. I always vote. And,  
16 no, when I got to the polls I realized I wasn't in  
17 District 3.

18 I -- I was in District 2. I couldn't vote for  
19 Commissioner Holmes, and nobody else had campaigned in  
20 my area.

21 Q. So when did you have the realization that you  
22 weren't in Precinct 3?

23 A. Some time ago. I know I'm not in Precinct 3.

24 I'm in Precinct 2. But like I say, Commissioner Holmes

25 always invited us to all of their activities. You

1 know, they had the annual backyard BBQ.

2 And he would just invite everybody.

3 Everybody was included to -- everybody was welcome to

4 come regardless of what district that they were in.

5 Q. In terms of the -- the backyard BBQ did the  
6 NAACP Galveston branch forward and -- and -- and help  
7 in getting the word out about the BBQs?

8 A. Commissioner Holmes, some -- they did that.  
9 Him and Patrick Doyle, as far as I know of. And they  
10 got the message out to the churches. And the churches  
11 -- each church had so many tickets.

12 And they gave us the tickets. And I don't  
13 know how the other people got theirs, but I got mines  
14 through my church.

15 Q. Okay. Was it -- is -- is your understanding  
16 the BBQ was -- was either started or run by  
17 Commissioner Holmes and Commissioner Doyle?

18 A. As far as I know of. They had a lot of other  
19 people that helped. The volunteers and participants,  
20 yes. It took a lot of people to do that.

21 Q. Are you -- are you aware of the -- whether  
22 Commissioner Doyle still is a commissioner currently?

23 A. No, he was -- he was not a current  
24 commissioner.

25 Q. Have you -- did you ever meet Commissioner

1 Doyle?

2 A. I don't remember what he looked like, but I  
3 met him.

4 Q. When did -- when did you meet him?

5 A. At the backyard BBQs and stuff. I met the  
6 commissioner.

7 Q. What was the last time that -- sorry. Go  
8 ahead. I jut want to make sure you're finished.

9 A. No. That's okay. Go ahead.

10 Q. When was the last -- the last BBQ you can  
11 recall attending?

12 A. I think it was 2020. I didn't go to one -- I  
13 didn't go -- I -- I think the only one -- I didn't go  
14 to the last one they had. But before that, yes.

15 Q. Uh-huh.

16 A. So -- because we had something else. And I  
17 couldn't make it.

18 Q. Where were they?

19 A. Oh, at Doyle Center in Texas City.

20 Q. The -- what was the purpose of --

21 A. The probation.

22 Q. -- of the -- those -- the BBQs?

23 A. I don't know what their purpose was, but I  
24 can -- what they did was they had everybody -- they  
25 have all nationalities, and it was like for senior

1 citizens. And they gave out prizes and educated people  
2 on voting. And they had different schools there that  
3 performed. And they had the Doyle dancers. They did  
4 the stomps. And it was just a lot of fun times.

5 Q. All right. Are you -- are you aware, whether  
6 or not, there was outreach to sort of non-minority  
7 groups to attend the BBQ?

8 A. I think it was an outreach to everybody  
9 because everybody was there.

10 Q. And the Doyle Center is in Texas City, right?  
11 Yeah, that's the one.

12 A. They -- they had the people, like, from Gulf  
13 Breeze and -- and Holland House. And I'm sure from  
14 Texas City, too. But most of the people I knew are  
15 from Galveston. But they had people from -- I knew  
16 some in Texas City, La Marque people, too.

17 Q. Yeah.

18 A. But they had everybody there.

19 Q. Right. And as far as you remember the NAACP,  
20 as an organization, didn't really play too much of a  
21 role in the BBQ advertisement?

22 A. We attended. Not with advertisement, no.

23 Q. As far as you're aware did -- did either  
24 Commissioner Holmes or Commissioner Doyle -- whoever  
25 was driving the BBQ event, typically invited the NAACP

1 membership?

2 A. Well, I know he gave -- well, I can't call  
3 the people names, but I know he gave one of our members  
4 lots of tickets to give out. So, yes, we went by him.  
5 But most of us came with our various churches and  
6 stuff. We -- you know, we all the same people.

7 Q. How do you mean?

8 A. The same people that go to church belong to  
9 NAACP. So we're all invited, you know.

10 Q. I understand what you mean. So back to the  
11 sort of voting in Precinct 2. As you sit here today  
12 you're sure you voted for a Precinct 2 candidate,  
13 right?

14 A. (Witness nodding.)

15 Q. Yes?

16 A. Yes.

17 Q. Sorry. She needs a verbal response.

18 A. I'm sorry.

19 Q. That's okay. We're --

20 A. I'm sorry. Yes.

21 Q. We're an hour and a half in. And it's the  
22 first time you've had an issue, so you're -- you're  
23 good.

24 A. Very seldom I don't vote for anybody.  
25 Sometimes, if neither candidate -- if I don't want to I

1 don't vote for them, but the majority of the time I  
2 vote for a candidate --

3 Q. Okay.

4 A. -- whether they're democrat or republican.  
5 If they're a good candidate I'll vote for them.

6 Q. All right. So then that would include  
7 Commissioner Giusti and his elections in Precinct 2?

8 A. I can't swear that I voted for him, but I bet  
9 you I did. It just depends on who all was running.

10 Q. And I think you told me -- told me this, but  
11 have you met Commissioner Giusti?

12 A. No. I saw his picture on the internet page.

13 Q. You saw what on the internet page?

14 A. His picture.

15 Q. His picture. So -- so when did you look at  
16 -- search the internet for his picture?

17 A. When we was prepping. I searched for all of  
18 them.

19 Q. Prepping for the deposition?

20 A. Uh-huh. Because I wanted to know. And when  
21 I was at the commissioners meeting I saw them all at  
22 commissioners court. But I couldn't put all the faces  
23 together.

24 Q. Uh-huh.

25 A. And at the last meeting that we had on the

1 12th I specifically remember Judge Mark Henry.

2 Q. Uh-huh. How did he strike you, if at all?

3 A. Very negative. And he say he didn't care  
4 what we had to say, he was going to do -- they were  
5 going with those maps. Even those hundreds of people  
6 showed up he wasn't interested in that.

7 Q. Um.

8 A. And that surprised me. And the reason it did  
9 is because, like I say, I've been to commissioners  
10 courts before. And I didn't feel that.

11 Q. You didn't feel what?

12 A. I felt like they were more for the people.  
13 And, I mean, the vote didn't always turn out the way  
14 that I want it to. But I've never heard anybody say  
15 they didn't care what we had to say, they were going to  
16 do what they was going to do.

17 Q. So -- so you recall, let's see, Judge Henry  
18 saying he didn't care what you all had to say?

19 A. Yes. I will never forget it.

20 Q. When did he say that?

21 A. During the meeting, November the 12th.

22 Q. Okay.

23 A. Right before Wendy Langham got up to speak.

24 Q. When who --

25 A. Wendy Langham. Her name was Wendifer

1 | Langham. She -- right before, as she was walking to  
2 | the poll. And she was like, "I can't believe you said  
3 | that."

4 | Q. Did -- did he say that in connection with any  
5 | -- any event or --

6 | A. I think he was just tired of people coming up  
7 | there speaking.

8 | Q. Okay. Did he say it to anybody?

9 | A. To the whole audience. Everybody was there.  
10 | Everybody heard it. He didn't whisper it. The rooms  
11 | were packed. It was a small area. Smaller than the  
12 | court here in Galveston.

13 | Q. Uh-huh.

14 | A. So the room was packed. People standing wall  
15 | to wall. They didn't have a microphone. So some  
16 | people might have missed it because there was no  
17 | microphone in the room. People all out. in the  
18 | hallways had a hard time finding places to park.

19 | The meeting was called at the last minute.  
20 | It was called for 1:30. So I think it was less than  
21 | 72-hour notice. I guess -- I wasn't the only one who  
22 | heard it. It not might not be those exact words, but  
23 | that's what it meant.

24 | Q. Did you speak to anybody else that you can  
25 | recall a name, that y'all talked about that comment by

1 Mark Henry at the meeting?

2 A. Yeah. Like I say, there was a lot of people  
3 there. And everybody was "Ooh." And everybody was  
4 kind of upset about that statement, you know, that was  
5 made.

6 Q. Did you --

7 A. I didn't really just hang around and talk to  
8 a lot of people about it, but it has been discussed.

9 Q. Did -- did you -- you attended the meeting,  
10 right?

11 A. Yes.

12 Q. What time did you get there, roughly?

13 A. I got there early. I'm not sure what time I  
14 got there, but I had a seat.

15 Q. Okay. That was my question, is you -- you --

16 A. I had a seat. Thank God. I was far in the  
17 back. And people were coming in. And there was just  
18 nowhere for them to sit.

19 Q. Do you -- did you speak at the meeting?

20 A. No, I didn't speak. I had a sign, but I  
21 don't think I spoke.

22 Q. You had a sign?

23 A. Uh-huh.

24 Q. What did the sign say?

25 A. It was something about redistricting, just be

1 -- just be fair, you know.

2 Q. Did you make the sign yourself?

3 A. No, I didn't. I think it was the Dickinson  
4 branch.

5 Q. How did you get the sign into your  
6 possession?

7 A. They give it to me as I walked in the  
8 building.

9 Q. Okay. So it's -- it's your recollection that  
10 the Dickinson branch was handing out signs?

11 A. It was either Dickinson or La Marque because  
12 they were both there, you know. And the Black nurses.

13 Q. All right. Do you -- did you recognize the  
14 person that was handing out signs?

15 A. (Witness nodding.)

16 Q. Do you know who it was?

17 A. I don't know who gave me the sign. There was  
18 a lot of people handing out signs. I can't recall who  
19 gave me the sign.

20 Q. Okay.

21 A. But I know the presidents of those two  
22 organizations were there. And my pastor was there.  
23 There was a lot of people. I got pictures. I took a  
24 lot of pictures that day.

25 Q. What did you take pictures of?

1           A.    The audience and everybody. Commissioners,  
2 the -- all the -- everybody in the room.

3           Q.    Did you take any audio -- audio recordings of  
4 anything?

5           A.    No.

6           Q.    And so we probably -- would -- would it be  
7 okay if we were to see some of those pictures? Could  
8 you provide those pictures to your counsel? Would you  
9 be willing to?

10                   THE WITNESS: I did. I gave you some  
11 of those pictures? The pictures?

12                   MS. CHEN: Yes, yes.

13                   THE WITNESS: Yes.

14                   MR. RUSSO: Okay.

15           Q.    (BY MR. RUSSO:) Do you know any person who  
16 wanted to speak at the meeting, but did not have the  
17 opportunity?

18           A.    I think they all spoke until it was over  
19 with. After he made that statement then -- too many  
20 more people spoke -- speak, but some did. They had  
21 security there, too.

22           Q.    So do you -- do you -- you don't recall  
23 speaking to anybody that said, "I wanted to speak, but  
24 I didn't have -- have a chance?"

25           A.    No.

1 Q. Are you aware of any person who said they  
2 wanted to attend the meeting, but couldn't because the  
3 facilities were too small?

4 A. They just say they couldn't get in the room  
5 because the facility was too small. They were outside.  
6 They were like "I was there, I just couldn't get in."

7 Q. Do you -- are you a -- let me see. How do I  
8 want to ask this. Is it your belief that individuals  
9 who didn't necessarily make it into the room wouldn't  
10 have had an opportunity to speak to the court?

11 A. Correct.

12 Q. Do you remember the process of sort of  
13 signing up to speak to the court?

14 A. I don't.

15 Q. So do you know whether or not people who were  
16 standing in the hallway actually had a chance to speak?

17 A. I don't think they could have gotten in. It  
18 was too crowded.

19 Q. Well, were the speeches or comments one by --  
20 one -- one at a time?

21 A. Yes.

22 Q. And is it your belief, sitting here today,  
23 that no one that was out in the hallway spoke to the  
24 city -- the commissioners?

25 A. I don't know. I did see some people push

1 through. But it was a lot of people. I can't -- I  
2 don't know for sure.

3 Q. All right.

4 A. A lot of people did speak.

5 Q. Are you aware of anyone -- have you talk to  
6 anybody that wasn't -- didn't attend the meeting  
7 because there was insufficient parking?

8 A. No. They wouldn't have known that until they  
9 got there. No. When we arrived it was construction  
10 going on. And that limited the parking, also. And we  
11 didn't know that until we got there.

12 Q. Uh-huh. Yeah. My question was more specific  
13 as to whether you talked to anybody who had the  
14 experience of --

15 A. No.

16 Q. Wait. Let me finish.

17 A. Had the experience of going to the meeting,  
18 couldn't find a place to park, and they left.

19 Q. Are you aware of any --

20 A. Not that I'm aware of.

21 Q. You okay?

22 A. I'm good.

23 Q. Okay. All right. You mentioned Mark Henry  
24 at the meeting. Was there anything that any of the  
25 other commissioners did that -- that rubbed you the

1 wrong way?

2 A. They didn't do anything else. They just sit  
3 there.

4 Q. Did that bother you?

5 A. No, it didn't bother me. Commissioner Holmes  
6 spoke at the end.

7 Q. What did you think about his comments?

8 A. I thought that he was treated unfairly  
9 because he states that when they had the meeting they  
10 didn't let him know about it. So apparently when they  
11 had the meeting of the redistricting, the re-drawing of  
12 the maps, he was not included. And he say that he was  
13 drawn out of his district. And I thought that was very  
14 unfair.

15 Q. Was the first time you heard that comment  
16 from Commissioner Holmes at -- was that at the meeting?

17 A. Correct.

18 Q. So prior to November 12th of 2021 you -- you  
19 -- you weren't aware that Commissioner Holmes  
20 maintained he was not a part of the process?

21 A. No, I did not -- not.

22 (Reporter clarification.)

23 Q. (BY MR. RUSSO:) Do you know when other  
24 commissioners or the county judge met to discuss the  
25 maps?

1           A.    No, I do not.  I was told 72 hours, but I'm  
2   not --

3           Q.    Do you know whether Commissioner Holmes had  
4   any less time to discuss a proposed map than the other  
5   commissioners had?

6           A.    Oh, I'm sure he had less time because he  
7   wasn't included.  He didn't know what was going on, but  
8   he did present a couple of maps.  But they didn't  
9   listen to him.

10          Q.    Uh-huh.  And then -- and your -- the belief  
11   that he didn't have time or involvement with the maps  
12   is based upon Commissioner Holmes' statement at that  
13   meeting of November 12th?

14          A.    Correct.

15          Q.    Is there any other basis for that belief, for  
16   your belief, that Commissioner Holmes wasn't allowed to  
17   be part of the process?

18          A.    That's all I know.

19          Q.    Did Commissioner -- Commissioner Holmes say  
20   at the meeting that he had less time to develop the  
21   maps than the other commissioners had?

22          A.    I don't think so.

23          Q.    Have you spoken to Commissioner Holmes since  
24   -- well, let me -- let me -- let me back up.  Let's go  
25   to just a general question.  Have you spoken to

1 Commissioner Holmes personally, one on one, before?

2 A. Yes.

3 Q. All right.

4 MS. CHEN: And just to clarify, this  
5 is in her individual capacity you're asking.

6 MR. RUSSO: Yes.

7 A. Yes.

8 Q. (BY MR. RUSSO:) When was the last time?

9 A. I don't think that I've spoken to him since  
10 the Coronavirus. Because before that I used to see him  
11 all the time when I would go to different events.

12 Q. Uh-huh.

13 A. And he would -- I would sit by him a lot.  
14 And we would vote cold all the time because he was  
15 cold, I was cold. But we had a lot of conversations.  
16 Not any of them had to do with redistricting.

17 Q. Okay.

18 A. You know. And he attended the different  
19 events and banquets that we had. The NAACP, the Old  
20 Central gathering, the churches. He just attended a  
21 lot of the events and stuff.

22 Q. Okay. So then I think what I'm hearing is  
23 then you didn't have any conversations with  
24 Commissioner Holmes leading up to the November 2021  
25 meeting, correct?

1 A. Correct.

2 Q. And didn't -- haven't had any conversations  
3 with him --

4 A. Correct.

5 Q. -- since then?

6 A. I didn't -- I felt like I shouldn't talk to  
7 him. I didn't -- you know, since everything was being  
8 in a lawsuit. I felt like it wouldn't be appropriate.

9 Q. Right. Okay. Well -- well, let's -- what  
10 about as a -- as -- do you know what -- how much  
11 contact Commissioner Holmes has had with the Galveston  
12 branch of NAACP?

13 A. As far as I know we haven't had any contact  
14 since the lawsuit, since that meeting, as far as I know  
15 of. I haven't seen him.

16 Q. All right. So as -- and there's two  
17 different points in time. You don't recall any  
18 conversations or -- or communications with NAACP  
19 Galveston branch since the suit was filed, right?

20 A. With Commissioner Holmes?

21 Q. Correct.

22 A. No.

23 Q. And then also you don't remember any  
24 conversations with Commissioner Holmes since the  
25 meeting in November of 2021?

1 A. No.

2 Q. Do you -- is -- is Commissioner Holmes a  
3 member of the NAACP, one of the branches?

4 A. I don't know.

5 Q. Not the Galveston?

6 A. He's not a -- he's not -- yeah, right.

7 Q. Not the Galveston branch.

8 (Reporter clarification.)

9 A. Not Galveston. And like I say, I don't  
10 really see the list.

11 Q. (BY MR. RUSSO:) Understood. All right.

12 A. The secretary would have that information.

13 Q. What's your understanding of how it is the  
14 vote adopting the maps in November of 2021 -- how did  
15 that impact NAACP Galveston branch?

16 A. Well, a lot of the NAACP members live in  
17 District 3. So they were split from District 3 to 124.  
18 I can't tell you any specifics, but that area that was  
19 District 3 had a lot of minorities in that district.

20 Q. Okay. So then a lot of the potential NAACP  
21 Galveston branch members went from voting in Precinct 3  
22 to now voting in Precinct 2, correct?

23 A. Correct.

24 Q. And -- well, they -- I guess they're actually  
25 in your precinct now, the same precinct as you?

1 A. Uh-huh.

2 Q. Yes?

3 A. Yes. I'm sorry.

4 Q. That's okay.

5 A. Yes. Sorry.

6 Q. That's -- that's quite all right. Don't  
7 apologize. It happens. It happens. It's not a  
8 problem. Well, do you -- has the NAACP Galveston  
9 branch, reached out at all to Commissioner Giusti since  
10 November of '21?

11 A. Not that I know of.

12 Q. Do you know whether the Galveston branch has  
13 reached out to Commissioner Holmes since November of  
14 '21?

15 A. Not that I know of.

16 Q. Okay. What about the other --

17 A. Not that I know of.

18 Q. -- commissioners?

19 A. I haven't seen any of them in -- in the  
20 present day or anything.

21 Q. Do you know whether the NAACP Galveston  
22 branch had communications with the Galveston  
23 commissioners, court commissioners, the members,  
24 leading up to the vote in November of 2021?

25 A. Not -- the only commissioner that I ever seen

1 at any of the NAACP activities would be Commissioner  
2 Holmes, before and afterwards, if we had any. Because,  
3 you know, the Coronavirus, everything stopped.

4 Q. You -- you know, I didn't want to cut you  
5 off.

6 A. I was going to say something else, but it --  
7 it -- I -- I don't need to say it.

8 Q. Well -- so, then, am -- am I right in saying  
9 that Commissioner Holmes was sort of the go to person  
10 for the Galveston branch in NAACP?

11 A. Yes.

12 Q. And he was --

13 A. And for the Galveston -- city of Galveston,  
14 basically, especially the minorities, he was the go to  
15 person.

16 Q. Do you -- do you know what kind of outreach  
17 there was prior to the redistricting process in '21,  
18 what kind of communications there were between  
19 Commissioner Holmes and NAACP Galveston members?

20 A. No.

21 Q. Were there specific issues that you're aware  
22 of, that NAACP Galveston is aware of, that Commissioner  
23 Holmes needed to handle?

24 A. Not that I know of. Most of the issues that  
25 we had -- had are handled by the city mayor of

1 Galveston, if we ever had any. The mayor is an active  
2 participant. I mean, he's really active in the  
3 community.

4 Q. All right.

5 A. More so than the commissioners. Is that  
6 norm? I don't know.

7 Q. I'm sorry. What did you say?

8 A. I say is that norm, the mayor more so than  
9 the commissioners?

10 Q. What's the -- do you know what -- what  
11 outcome it is that the NAACP Galveston branch is  
12 looking for in this lawsuit?

13 A. Yes. They're looking for the -- out of the  
14 districts -- to have a direct where we can have a  
15 minority leader, somebody who look like us, who know  
16 what we need, and who could speak for us.

17 Q. Uh-huh.

18 A. And we feel like -- that we have enough  
19 minorities, Blacks and Hispanics, in Galveston County  
20 to have a representative that look like us, either  
21 Black or Hispanic representative.

22 Q. So is it -- is the feeling that only a  
23 minority candidate can adequately represent the  
24 minority constituents in the area?

25 A. Not really. But it could have a whole lot,

1 to have some minority, you know, and that -- somebody  
2 you can relate with, somebody who can speak for you.

3 Q. Has sort of the NAACP done any -- Galveston  
4 branch, have you done any research or looked at sort of  
5 voting patterns for minority voters? And let's --  
6 let's start with the African-American voters in terms  
7 of who they -- the candidate they vote for.

8 They -- they vote more for minority  
9 candidates or not minority candidates, or what's --  
10 what's the situation?

11 A. I can't speak for -- as far as I know they  
12 haven't. But I can speak for myself. I try to vote  
13 for the best candidate. But there has been studies  
14 done, you know, that shows that the minorities, they  
15 vote for the strongest candidate for them whether --  
16 and it -- that's whether it's a minority or not. You  
17 know, you want to vote for somebody that has your  
18 interests at -- at hand.

19 Q. Okay. What about the Latino community? Do  
20 you have any feel, or does the NAACP Galveston branch  
21 have any feel for how the Latino community votes either  
22 for a minority or for a non-minority candidate?

23 A. They used to vote, as far as I know, with --  
24 for the same candidate that the minorities -- they used  
25 to all vote the same, for the same candidate. And I

1 don't know why that is. That's just what the study has  
2 shown.

3 Q. What study are you speaking about?

4 A. I -- I don't remember which one it was. It  
5 was just a study on how to -- to vote, you know.

6 Q. Do you know when it -- when it was published,  
7 or was it published?

8 A. I don't know.

9 Q. When did you see it?

10 A. I just saw it in a lot of reading that I've  
11 been doing.

12 Q. Was it an NAACP publication?

13 A. No, it was online.

14 Q. So it was something -- an independent  
15 article?

16 A. I don't know.

17 Q. Okay.

18 A. I don't want to be telling no stories.

19 Q. Yeah, I -- I understand. But for -- is it --  
20 as -- as a corporate representative for the NAACP  
21 Galveston branch, what -- what's -- what is that --  
22 that organization's view of minority voters again?

23 A. What you mean?

24 Q. Again, we'll start with African-American  
25 voters. And do they vote more for minority candidates

1 or more for non-minority candidates?

2 A. We don't have a lot of minority candidates  
3 running for anything. So it's kind of hard to say  
4 that. But I guess if they would, and if they all had  
5 the same things, they would vote for them.

6 But we're non-partisan, so we try to vote for  
7 the best candidate, that's going to do the best for the  
8 minority people --

9 Q. Uh-huh.

10 A. -- and for all people.

11 Q. Yeah. When you -- when you say non-partisan  
12 are you saying that you don't look necessarily for a  
13 party representation?

14 A. No, we don't. We don't.

15 Q. Have you seen any studies that -- in  
16 connection with how -- how minority candidate --  
17 minority voter, African-American voters -- what the  
18 statistics are in terms of whether they vote for  
19 democrat candidates or republican candidates?

20 A. I haven't seen any studies, but I've talked  
21 to a lot of them. But the majority of them do vote  
22 democrat. And, you know, when we watching elections  
23 coming in, and --

24 Q. Uh-huh.

25 A. -- they'll show this group and that group --

1 and you can see just about who's voting for who.

2 Q. Uh-huh. So that's just --

3 A. Now, we do have a lot of minorities that vote  
4 republican, as well. But I think the -- this is just  
5 me personally. And for what I've seen when I'm  
6 watching the elections coming in, the minority -- the  
7 majority of the minority people vote democrat, but not  
8 all.

9 Q. Okay. And is -- is that -- is that  
10 consistent -- the -- consistent with what you would  
11 testify to as the representative of the NAACP Galveston  
12 branch? That's that --

13 A. Yes.

14 Q. That's that organization's belief, also?

15 A. I have don't know. They've never said that,  
16 so I can't say that their belief.

17 Q. Uh-huh.

18 A. But I think that the -- from what I've seen I  
19 think the majority of minorities vote democrat. The --  
20 the NAACP just doesn't sit around and say, "Who you  
21 voted for, who you voted for, y'all democrats?" We  
22 don't discuss that.

23 Q. The -- the NAACP, do they -- do they -- I was  
24 going to say champion. But do they support particular  
25 candidates from time to time?

1           A.    Well, what we do is we have candidate farms.  
2           And all candidates are allowed to come.  Anybody who  
3           choose to show up and do their speeches, do their  
4           presentation as to what they have to offer, why they  
5           running for this position or that position.  Some of  
6           them come, some of them don't.

7           Q.    Uh-huh.

8           A.    And the ones who come, we hear what they have  
9           to say.

10          Q.    Does the NAACP Galveston branch endorse  
11          candidates, generally?

12          A.    No, we don't endorse any candidates.

13          Q.    Does the Galveston branch support in terms of  
14          campaign funding?

15          A.    No, we don't.  We do not.

16          Q.    Do you ever -- does the Galveston branch ever  
17          hear -- get correspondence from the -- the large NAACP,  
18          the national organization, as to what candidates they  
19          think should be voted for?

20          A.    No, they don't do that.  They don't tell you  
21          who vote for.  That's individual choice.

22          Q.    Does the NAACP, the Galveston branch, have  
23          any -- what's their -- what's their view in terms of  
24          how the Latino population votes for democrat versus  
25          republican.  Is there a majority vote one way or the

1 other?

2 A. I have been out campaigning, I campaign with  
3 Joe Jaworski.

4 Q. Uh-huh.

5 A. And so I knocked on a lot of doors  
6 personally, of Latinos. Some of them don't speak  
7 English, some of them choose not to vote. They -- all  
8 I do is ask -- try to get them to come out and vote.

9 Q. Uh-huh.

10 A. We don't encourage them to vote for nobody in  
11 particular. That's up to the individual.

12 MS. CHEN: And just clarifying, that  
13 was an individual capacity answer.

14 THE WITNESS: Yeah. I --

15 MS. CHEN: Not -- not for the NAACP.

16 MR. RUSSO: Well, that --

17 THE WITNESS: For the NAACP, I could  
18 not tell you how they vote as a group.

19 Q. (BY MR. RUSSO:) Yeah. And to -- but does  
20 NAACP have a -- a view or opinion as to, you know -- to  
21 whether Latino voters vote more republican or more --  
22 more democrat?

23 A. Not that I know of.

24 Q. Do you have a -- a view, or do you have any  
25 understanding as to whether Latino voters vote less

1 than African-American voters as a percentage of their  
2 own population?

3 A. You mean --

4 MS. CHEN: You mean NAACP  
5 capacity?

6 A. I'm sorry. As the NAACP capacity, like if I  
7 say it, then you're going to say, "Well, what study did  
8 you see?" I'm 74. I don't remember all that stuff,  
9 but I think that they -- I'm -- I'm -- I'm just going  
10 to say no, I don't know.

11 Q. (BY MR. RUSSO:) Okay. What about you as an  
12 individual? Have you ever seen any studies that  
13 discuss or opine on whether some Latino voters vote  
14 less as a population, as a percentage of their own  
15 population, than African-American voters?

16 A. No. I have -- I have neighbors who are  
17 Hispanic. They vote. I don't know about the majority.

18 Q. Okay. All right. You okay?

19 A. Uh-huh.

20 Q. We -- we can take a break in just a minute.

21 A. Okay.

22 Q. But -- but if you need a break let me know.

23 We -- we --

24 A. Yes.

25 MS. CHEN: Yes.

1 Q. (BY MR. RUSSO:) We can go now.

2 A. Okay. Let's take a break.

3 Q. Okay.

4 A. Thank you.

5 MS. CHEN: Okay.

6 MR. RUSSO: Yeah. Let's just do

7 lunch.

8 THE VIDEOGRAPHER: Off the record,

9 12:47.

10 (Off the record.)

11 THE VIDEOGRAPHER: Going back on the

12 record 1:39 p.m.

13 Q. (BY MR. RUSSO:) Good afternoon --

14 A. Good afternoon.

15 Q. -- Ms. Toliver.

16 A. Good afternoon.

17 Q. We talked a bit about fundraising and  
18 advocacy efforts, the NAACP and involvement in the --

19 in the lawsuit that was filed. My question, though,

20 for you is, if you had -- if -- what's the NAACP

21 Galveston branch's view of the redistricting map from

22 2021 --

23 A. Uh-huh.

24 Q. -- in terms of the changes that the

25 organization would like made?

1 A. They would like --

2 MS. CHEN: Objection, asked and  
3 answered.

4 Q. (BY MR. RUSSO:) You can answer.

5 A. They would like to have it like it was  
6 before, similar. Where District 3, you know, had a  
7 district where they had minority votes, and then one  
8 district where they could elect the minority candidate.

9 Q. So -- and just to try to be a little bit more  
10 specific than that, is -- would a -- is a return to the  
11 old map something that, generally speaking, would work  
12 for the organization or -- or --

13 A. I would think, but they have a couple of  
14 other drawings, maps. But I would -- I would -- you  
15 know, that old map worked. It seemed to work for  
16 everybody, I thought.

17 But, you know, you always going to have some  
18 changes depending on what happens with the population.  
19 But I think that they would be pleased with that. I  
20 can't say for sure.

21 Q. Yeah. And what's your understanding of -- of  
22 the -- I guess the organization's understanding as to  
23 why the redistricting process was done in 2020?

24 A. In 2020?

25 Q. Yes, ma'am.

1 A. The -- you mean why they changed it, what do  
2 they think about it, the re-drawing?

3 Q. Why was the process necessary to be --

4 A. Yeah, I felt like it wasn't necessary. And I  
5 think the NAACP would feel the same way. But speaking  
6 for myself -- and I felt it wasn't necessary.

7 Everything was going fine. Why change it?

8 Q. Okay. That --

9 A. It was fair.

10 Q. Do you -- is it your understanding that the  
11 change in census population --

12 A. Required some --

13 Q. -- required some changes to the maps?

14 A. Yes. Yes.

15 Q. Okay. So, I mean -- and you're aware, then,  
16 that there are certain requirements of population  
17 within each district or precinct, needs to be  
18 relatively close.

19 And there's other legal stuff. One man, one  
20 vote, that kind of thing. You generally -- have a  
21 general understanding that -- that those principles  
22 have to be complied with?

23 A. Yes.

24 MS. CHEN: Objection, vague.

25 Q. (BY MR. RUSSO:) And that maybe -- and that

1 the census information that was released in 2020  
2 actually played a role in the -- the redistricting  
3 process needing to happen in 2021; would you agree?

4 A. I agree that Commissioner Holmes should have  
5 been included in that redistricting. If he had the  
6 opportunity to put his input in, maybe it wouldn't have  
7 been such a big change.

8 Q. Uh-huh.

9 A. And if the -- if -- if the citizens of  
10 Galveston County would have the opportunity to also  
11 look at maps --

12 Q. Okay.

13 A. -- make some decisions on how we can work the  
14 maps differently, to be inclusive, so that we can have  
15 at least one commissioner for the minority  
16 population like we did in 2010.

17 We just weren't given that opportunity to  
18 meet. And, you know, like with Joe Compian and Steve,  
19 and LULAC, Gulf Coast Interface --

20 Q. So --

21 A. When all of the groups met together and  
22 looked at the maps, and made some decisions. But,  
23 like, it wasn't enough time.

24 Q. Did -- would you believe -- think that it's  
25 fair if the -- all of the commissioners and the -- and

1 the county judge had the same amount of -- of time to  
2 look at the -- at the maps and make adjustments to it?

3 A. Most definitely that would be fair, if that  
4 happened.

5 Q. And is it --

6 A. Excuse me.

7 Q. Is it the NAACP's position that Galveston  
8 County Commissioners Court needs to have a minority  
9 member, voting member, on it in order to be fair?

10 A. Like I was saying, I don't think that they  
11 would have to have one, but it would have help a lot to  
12 have a representation.

13 Q. Okay. And -- and so is it -- is it NAACP's  
14 view, then, that that should be -- that's sort of the  
15 goal in this situation? We've got four commissioners,  
16 one of those needs to be a minority member?

17 A. Yeah. The same way with like the housing.  
18 I'm on -- I'm on board with housing.

19 Q. Uh-huh.

20 A. And it's -- it's -- it's just good to have  
21 somebody that represents your community. Because I get  
22 a lot of calls from the community. They feel  
23 comfortable talking to me. And I think it should be  
24 the same way with our county commissioners, as well.

25 Q. Do you -- is it the -- is it the NAACP

1 Galveston -- Galveston branch's view that Commissioner  
2 Holmes can't be reelected and the new -- under the new  
3 map as it's drawn?

4 A. Yes.

5 Q. And why is that? Why do you think that's  
6 true?

7 A. Well, because in the -- the district that he  
8 has now, the precinct that he's in, there's not a -- a  
9 lot of minority voters. And he doesn't even know a lot  
10 of the other people.

11 They don't know him, he don't know them. And  
12 so it's just unfair to change it so drastically. Like  
13 you say, there's always a need for it to be changed  
14 because of the census and everything, but it's just  
15 like a drastic change.

16 Q. Okay. Is there anything other than sort of a  
17 -- well, let me -- let me see if I got the answer  
18 right, if I characterize it correctly. One issue that  
19 Commissioner Holmes faces is he's -- he's not known in  
20 this new -- the -- the precinct as currently drawn;  
21 would you agree?

22 A. I agree. I agree he's not as known.

23 Q. And having a -- and being known helps get  
24 elected?

25 A. Oh, yes. Most definitely.

1 Q. Yeah. And Commissioner Holmes is -- he's  
2 been a commissioner for what, 22 years?

3 A. I think 16, 17.

4 Q. Yeah. And you think -- I mean, the fact that  
5 he's been in that position for 22 years, and is known  
6 in the community, has helped him get elected every  
7 year?

8 MS. CHEN: Objection, misstates  
9 testimony. You can answer.

10 A. Yes. And because, also, of his, like you  
11 say, community outreach. Things that he does for the  
12 community. Now, I'm sure a lot of other people might  
13 know him, but not as well.

14 Q. (BY MR. RUSSO:) Okay. And then what -- have  
15 you given consideration -- the -- the branch given  
16 consideration to Commissioner Holmes being able to  
17 reach out to individuals in his new precinct?

18 MS. CHEN: Objection, confusing.

19 A. Oh, I'm sure he can reach out to them, but  
20 I'm not sure they'll vote for him, you know. I think  
21 that he would -- I think it's only fair to say that the  
22 minority population, they should be given that  
23 opportunity to have representation.

24 And I think that they would -- he would have  
25 a better chance of being reelected with the minority

1 population than -- you know. Because when you -- when  
2 you in the election, you're not the only one. You have  
3 other people that's running against you and everything.

4 So they might -- I -- I just -- I just feel  
5 like he have a better chance, better opportunity. I  
6 don't know who's going to run for his position. I  
7 don't know who's he going to be competing with for the  
8 district.

9 Q. Uh-huh.

10 A. Because, remember, he's in a brand new  
11 district, where we can't even vote for himself. I  
12 don't know why that came about. I wouldn't have done  
13 that. I wouldn't have -- I wouldn't have drawn those  
14 lines like that.

15 Q. Well -- so is it -- where do you -- where do  
16 you get the idea that he can't vote for himself?

17 A. That's what he say at the meeting.

18 Q. Is -- you --

19 A. He was drawn out of his district. The way  
20 they redo the lines, re-did the lines, he couldn't even  
21 vote himself. His address wasn't in his district  
22 anymore.

23 Q. Okay. So you believe that to be true today?

24 A. I believe it to be true.

25 Q. That -- and specifically that Commissioner

1 Holmes' residence does not appear in his current  
2 precinct?

3 A. That's what I was told. That's what he say.  
4 And Judge Herring didn't object to it. He didn't say  
5 it wasn't no truth to it. None of the other  
6 commissioners didn't say it wasn't true.

7 Q. Okay. Have you -- have you looked at that  
8 question yourself at all?

9 A. I was in there when they stated it.

10 Q. Okay. Meeting aside, since that time have  
11 you looked at whether that question has --

12 A. No. I didn't look it up. I was -- I was in  
13 the meeting. I believed it.

14 Q. I think I know this -- I know the answer to  
15 this. But if -- if -- if I wanted to know the NAACP  
16 Galveston branch's position specifically on how the  
17 maps should be redrawn in order to satisfy the NAACP,  
18 should I look at the expert reports, generally?

19 A. Most definitely.

20 Q. There's no specific testimony I'm going to  
21 get from NAACP Galveston branch that's different than  
22 what the experts are saying; would you agree?

23 A. I don't know. I don't know if it's different  
24 from what the experts are saying.

25 Q. Okay. Well, have you heard anything -- well,

1 let me just ask the question. What -- what -- other  
2 than what your expert has told us he -- he thinks the  
3 maps should look like today --

4 A. Okay.

5 Q. Other than that, what is it that NAACP  
6 Galveston branch thinks should be done with those maps?

7 MS. CHEN: Also just -- just quickly  
8 object to the characterization of what an expert report  
9 says about the maps, expert report.

10 MR. RUSSO: I'm trying to make life  
11 easy on y'all.

12 Q. (BY MR. RUSSO) Does -- does NAACP Galveston  
13 have any different view of what the map -- what they  
14 would like the map to look like other than what the  
15 expert has said they should look like?

16 A. You're talking about the recent expert or the  
17 -- the one from 2012? I mean, from that meeting on  
18 November 12?

19 Q. The ones that have been designated in this  
20 case by the NAACP.

21 A. I'm -- I'm sure the NAACP want those maps to  
22 look quite a bit different from what they look.

23 Q. But -- but -- or is NAACP relying on its --  
24 its own experts who drafted and -- and proposed maps?

25 A. I don't know if they had some experts to redo

1 their maps or not. I can't answer that.

2 MS. CHEN: And I'll just object again  
3 to the characterization of our "expert maps as  
4 proposals." I think that's what's confusing the  
5 witness, commissioners court proposals versus the  
6 expert's demonstratives, or illustration maps.

7 MR. RUSSO: All right.

8 Q. (BY MR. RUSSO:) So you're aware that your  
9 experts have -- you've submitted expert reports in this  
10 case on behalf of NAACP Galveston, right?

11 A. You're talking about a couple of extra maps,  
12 the newer maps?

13 Q. So in this case the NAACP Galveston has  
14 designated experts who they have put forth in this case  
15 to say "Here's what we think these -- the maps might  
16 look like, that might work in this case." Are you  
17 aware of that?

18 A. Uh-huh. I've seen a couple of maps. I don't  
19 know if the experts did them, or who did them. I know  
20 I didn't have anything to do with them. But, yes, they  
21 have some idea of what the maps, what they want them to  
22 look like.

23 Q. The NAACP does?

24 A. Yes.

25 Q. Do you have any version of those maps that I

1 could look at to see what -- what that should be?

2 A. I don't.

3 Q. Does NAACP?

4 A. I think they do.

5 Q. Where would I find them?

6 A. Within -- we'll have to get Mayor Patrick to  
7 send them to you.

8 Q. Okay. I guess it's a great question. Did  
9 NAACP Galveston branch -- or to your knowledge the --  
10 any of the other branches do any independent work on  
11 developing maps for Galveston County's commissioner  
12 precincts?

13 A. I saw a couple of maps. I don't know who  
14 developed them, to be honest. But they look pretty  
15 good.

16 Q. What -- what made them look good?

17 A. Because the way that the lines were drew the  
18 -- you know, it would be like Commissioner Holmes would  
19 have more of his district, like it was before, and the  
20 other commissioners, also. It's not a lot of change.  
21 It's a little change, but it wasn't a lot of change.

22 Q. Where was the little change, if you recall?

23 A. I think it was bordered to -- let me see.  
24 Was that District 2? I'm not sure. But it picked up  
25 some of Galveston County on the north side.

1 Q. Do you know approximately where that ---

2 A. I'm not no map expert, so I -- I -- you know,  
3 I'm not trying to use this as a cap out, but I'm 74.  
4 And I don't remember what all them maps look like and  
5 -- and how -- you know. But it just looked to me like  
6 a better map.

7 Q. Where did you see it?

8 A. I saw it in a lot of the paperwork that was  
9 sent to me.

10 Q. Okay. And what --

11 A. I mean, y'all probably have it, too.

12 Q. Was -- was it in part of your preparation for  
13 the deposition?

14 A. Yes.

15 Q. And right now you're not sure whether it was  
16 an -- an expert analysis or if it was someplace else?

17 A. It looked like an expert map. It wasn't  
18 anything I drew. It looked very professional, but I  
19 don't know who drew it.

20 Q. Okay. Are you aware of the NAACP Galveston  
21 branch, or any -- any other branches if you're aware,  
22 that -- that drew or re-drew, prepared --

23 A. Or had some prepared --

24 Q. -- maps for the redistricting process prior  
25 to the commissioners court vote in November of 2021?

1 A. No.

2 Q. Are you aware of NAACP Galveston, or, again,  
3 the other two branches in the case, providing any maps  
4 or proposals for commissioner precincts, providing  
5 those to the commissioners court?

6 A. No, they didn't have time.

7 Q. Is -- is it NAACP's view that they would have  
8 created their own maps if they had time?

9 A. I think if we would have had time we would  
10 have done like we did before, got with our groups.  
11 Everybody get together and work on the maps, and have  
12 the map experts to do it.

13 Q. Uh-huh.

14 A. And we -- and we had meetings. "What do you  
15 like, what do you think, what do you think." It wasn't  
16 enough time to that at this time, like it was with  
17 2011.

18 Q. Uh-huh. Do you have any understanding as to  
19 sort of the date or approximate time that the census  
20 data was released in 2021?

21 A. I know I did my census, but I don't remember  
22 when it was released.

23 Q. What's your understanding of how much time  
24 there was between the release of census data and the  
25 actual vote on the maps in November of 2021?

1 A. I don't know how much time.

2 Q. What's the NAACP's understanding of the  
3 deadline by which Galveston County needed to submit its  
4 approved plan to the state of Texas?

5 A. You're talking about before November 12th?

6 Q. After November 12th.

7 A. After November 12th? Roxy would have handled  
8 that. She was working with the redistricting. And I  
9 worked with the housing. I just can't keep up with all  
10 of the -- everything that they do, you know.

11 It's a big organization with lots of  
12 committees, and a lot of people doing stuff. So they  
13 -- Roxy mainly worked with those redistricting maps.

14 Q. Okay. Did -- did Ms. Williamson or -- or you  
15 -- do you -- y'all -- do you have an understanding as  
16 to -- that there was a deadline by which the county had  
17 to approve its map and submit it to the state?

18 A. I --

19 MS. CHEN: Objection, speculation.

20 A. I didn't discuss that with her.

21 Q. (BY MR. RUSSO:) So sitting here right now,  
22 you don't have any idea if there was a deadline?

23 A. I didn't want to call anybody because I knew  
24 I was going to do this deposition. So I didn't know --  
25 I didn't want to get out of my boundaries. So I didn't

1 want to do anything that was illegal. So I didn't  
2 reach out to them to find out what they were doing.

3 Q. Okay.

4 A. I wanted to, but I didn't think it was right.  
5 So I didn't do it.

6 Q. Well, you know what you know. We'll work it  
7 out.

8 A. Yeah.

9 Q. So the -- but, again, as we sit here the --  
10 in -- in terms of what your knowledge is, you -- you're  
11 not here -- you -- you can't tell us whether Galveston  
12 County had a deadline to submit its approved map to the  
13 state of Texas, right?

14 A. Right. But -- I'm sorry. Right. I can't  
15 tell you.

16 Q. All right. And you don't -- do you recall  
17 any discussions at the commissioners court meeting in  
18 November of 2021, that the maps had to be approved as  
19 of November 12th --

20 A. That's --

21 Q. -- because they were due to the state?

22 A. Yes. They -- they say those had -- they had  
23 to send those off November 12th.

24 Q. Okay. So did they tell the people in the  
25 room that that was -- that was an issue?

1           A.    I this he said it was a done deal, that that  
2 was what -- those were the maps that that they were  
3 going to present.

4           Q.    And --

5           A.    And they voted. They had a vote. Three to  
6 one, three to use those maps, one against it.

7           Q.    Right. And did -- but did they tell -- do  
8 you recall the -- either the commissioners court, Judge  
9 Henry or somebody in the crowd saying -- talking about  
10 this -- that the maps had to be voted on and submitted  
11 to the state of Texas in a -- in a short amount of  
12 time?

13          A.    I felt like it was a short amount because  
14 they did it that day.

15          Q.    What, they -- you're saying they voted that  
16 day, right?

17          A.    They voted. They took a vote.

18          Q.    And do you know --

19          A.    After all the people went up there and spoke,  
20 and said what they had to say, they took a vote.

21          Q.    Okay. And --

22          A.    Commissioner Holmes spoke, too. That's why I  
23 heard what he said. And then they took a vote.

24          Q.    Okay. And do you know how long it was after  
25 that, that the -- Galveston County submitted the maps

1 to the state?

2 A. No, I don't.

3 Q. So are you aware of any -- any communication  
4 -- prior to the meeting in November of 2021, are you  
5 aware of any communications or conversations between  
6 the NAACP and Department of Justice employees related  
7 to the redistricting in Galveston County?

8 A. No. I think NAACP sent out a letter. You  
9 know, some letters were sent out, but --

10 Q. Who did they send the letter to?

11 A. I don't remember what all they said.

12 Q. Did they send a letter to the Department of  
13 Justice?

14 A. I'm not sure.

15 Q. What did the letter say, if you recall?

16 A. It was just talking about the -- I don't  
17 recall exactly what the letter say. It was in the  
18 email, though.

19 Q. Uh-huh. Do you remember the sort of date  
20 when the email happened?

21 A. No. No.

22 Q. No. So as far as you're aware the -- the --  
23 do you -- well, let me ask you this. Were there any  
24 communications between the Department of Justice and  
25 the NAACP in 2021 related to Galveston County's

1 redistricting effort?

2 A. Before.

3 Q. Before their vote?

4 A. Not that I know of.

5 Q. Do you know whether NAACP reached out --

6 Galveston branch reached out to any media organizations

7 prior to the November 12th vote?

8 A. Not that I know of.

9 Q. No. Would -- who would be the person that

10 would be in charge of the media broadcast and --

11 A. I'm sure they would go to Mary Patrick, the

12 president of the organization.

13 Q. And I think I asked you this, too. But you

14 -- NAACP Galveston is -- are you aware of any

15 communications with the -- any of the commissioners in

16 2021 --

17 A. No, I'm not.

18 Q. -- related to redistricting?

19 A. No, I'm not.

20 Q. We talked about Commissioner Giusti, right.

21 You didn't know him much?

22 A. No.

23 Q. Have you -- you -- do you know anything about

24 Commissioner Giusti?

25 A. No.

1 Q. No. What about Commissioner Apffel?

2 A. I -- I don't really know the Apffel name.  
3 But they had a law firm and everything. It's that same  
4 Apffel.

5 Q. They -- well, there have been a few --

6 A. Yeah.

7 Q. -- Apffel lawyers in Texas.

8 A. I've heard that name before.

9 Q. But you never had any dealings with -- with  
10 Commissioner Darryl Apffel?

11 A. No.

12 Q. Do you know whether the NAACP Galveston  
13 branch has had any dealings with him?

14 A. No.

15 Q. What about Commissioner Ken Clark, who's now  
16 deceased? Do you know -- have you -- did you know  
17 Mr. -- Mr. Clark?

18 A. No. I knew his name.

19 Q. And then subsequent to Commissioner Clark  
20 passing away Commissioner Armstrong was appointed to  
21 take his position. Do you know Commissioner Armstrong?

22 A. I knew when he was -- took the position, when  
23 he was appointed, but I've never met him.

24 Q. Okay. Do you -- do you know where he's from?

25 A. I never -- I don't know anything about him.

1 Q. Do you know he's an African-American?

2 A. Yes.

3 Q. Yes. How did you --

4 A. I saw his picture.

5 Q. Where did you see his picture?

6 A. On the internet, when I Googled the  
7 commissioners.

8 Q. When you did -- oh, Google the commissioners.  
9 Are you aware that he's a physician?

10 A. Yes. I mean, at least that's what -- that's  
11 what I read.

12 Q. You ever reached out to Commissioner  
13 Armstrong just to meet him?

14 A. No.

15 Q. Do you know anybody -- do you personally know  
16 anybody that has spoken to him?

17 A. No. I don't even know where he live or  
18 anything. I guess I could Google him and find out.  
19 But he wouldn't know me, either.

20 Q. Okay. So is it -- so is -- is -- is it true,  
21 then, as you sit here today, that you're unaware of any  
22 communications between NAACP Galveston and Commissioner  
23 Armstrong in the -- in the year 2021 through present?

24 A. Not that I know of.

25 Q. Do -- do you know whether Commissioner

1 Armstrong is --

2 A. I do know. Hold on a minute.

3 Q. Okay.

4 A. I'm sorry. Ms. Patrick say that she saw him  
5 at an event. She say she saw him at an event that she  
6 went to.

7 Q. That's Mary Patrick?

8 A. Mary Patrick. But she say that she didn't  
9 get to speak to him. He didn't come by the table or  
10 anything. She didn't have any interactions with him,  
11 but she did see him.

12 Q. Where was that?

13 A. It was banquet or something she attended.

14 Q. Was it an NAACP banquet or something?

15 A. No, it wasn't. We haven't had one. So I  
16 think it was something with the city. I -- I wasn't  
17 there. I didn't -- I apparently didn't know about it  
18 because I usually attend all this stuff.

19 Q. Uh-huh.

20 A. Unless I was sick or something.

21 Q. Did -- did Ms. Patrick say that she made an  
22 effort to talk to Armstrong?

23 A. She didn't say she made an effort. She just  
24 say she didn't -- she saw him. She was headed that  
25 way, but she didn't get to talk to him.

1 Q. All right. Have you heard any opinions  
2 expressed about Commissioner Armstrong, positive or  
3 negative, at all?

4 A. I haven't heard any positive or negative -- I  
5 haven't heard anybody speak of him.

6 Q. Does the -- historically, has NAACP Galveston  
7 branch supported Commissioner Holmes in his campaigns?

8 A. Like I was saying, we have some people that  
9 live in his district. We haven't -- we don't go out --  
10 you know, just like I say, we don't support any  
11 particular candidate.

12 We just have like a candidate form. And I  
13 don't even remember them having one for the  
14 commissioners. I know we've had them for the mayor and  
15 city council people, but I can't recall one for the  
16 commissioners.

17 Q. So if we -- if we wanted to -- who would know  
18 that information, that -- whether, you know, support  
19 has been provided to Commissioner Holmes by the NAACP  
20 Galveston?

21 A. What you -- financial support or just...

22 Q. Financial, as -- as well as just sort of a  
23 general expression, he's a good candidate?

24 A. Well, yeah. I mean, members -- members of  
25 the NAACP would say he's a good candidate, you know.

1 And, I mean, they wouldn't encourage somebody to vote  
2 for him because we can't do that.

3 Q. Uh-huh.

4 A. But we know him personally, you know.

5 Q. Okay.

6 A. If somebody ever ask me I can't speak for the  
7 NAACP, but for myself. I would say I would consider  
8 him a good candidate.

9 Q. And why is that? Why do people consider him  
10 a good candidate or -- let me strike that because --  
11 why do -- why do you consider him a good candidate for  
12 commissioner?

13 A. Because he's concerned about the government  
14 and doing right. I feel like he's the person that  
15 would do the right thing for everybody. And he's  
16 friendly to everybody.

17 And he's -- you know, he just -- if anybody  
18 need a proclamation from the county he's the one who  
19 will usually send out the proclamations. And not from  
20 any other commissioners.

21 Whether they asked him or not I don't know.  
22 But he's -- you know, he would do whatever you asked  
23 him to do if he's -- and if he can't represent his  
24 secretary comes.

25 Q. If he can't represent?

1 A. If he can't be present --

2 Q. Oh.

3 A. -- she comes. She attends.

4 Q. Is there -- is there a reason, or -- or is  
5 there a belief that Commissioner Giusti, who's been  
6 sort of the new commissioner covering Galveston now,  
7 that he wouldn't do that same kind of thing if -- if  
8 asked in terms of proclamations?

9 A. I -- I don't -- I mean, I honestly don't know  
10 him, so I can't say he would or he wouldn't.

11 Q. Okay. He might and he --

12 A. But I will reach out to him and find out.

13 Q. Do you have plans to do that?

14 A. I'm going to have to do that because he's in  
15 my district.

16 Q. I think -- I think you told me. He's -- he  
17 was -- he's been your commissioner, correct?

18 A. Yeah.

19 Q. For years, right.

20 A. And that's another thing. They keep  
21 re-drawing lines, getting you all confused. And you --  
22 you know, the school district is different from the  
23 commissioners district, from the city district.  
24 And everybody's a different district.

25 Q. Yeah, there -- there -- there are many lines.

1 I agree with you.

2 Do you have any idea what percentage  
3 of the NAACP Galveston branch's membership lives in  
4 Precinct 3, or the old Precinct 3?

5 A. No, I -- I don't know how many. I would  
6 think quite a few, just looking at the map.

7 Q. Yeah. Do you know how many live in this new  
8 precinct?

9 A. I don't know, you know, because we can't give  
10 out the addresses and phone numbers. I don't really  
11 know exactly where all of them live.

12 Q. Uh-huh.

13 A. I only know where somebody live if they call  
14 me for a ride and give me the address to pick them up.

15 Q. Would -- would you -- is it the -- does NAACP  
16 Galveston branch consider Commissioner Holmes their  
17 candidate of choice? Would they be the -- the --

18 A. What --

19 Q. -- the person they would pick?

20 A. We don't pick no candidates. We can't pick  
21 no candidates.

22 Q. What do you mean by that, you can't pick a  
23 candidate?

24 A. Because everybody have to pick their own  
25 individual candidate, you know. Because if we did that

1 we wouldn't be non-partisan.

2 Q. Let me ask you this. If Commissioner Holmes  
3 ran as a republican would you still vote for him?

4 A. Yeah.

5 MS. CHEN: Objection, speculation.

6 Q. (BY MR. RUSSO:) You can answer.

7 A. Would I vote for him?

8 Q. Yes, ma'am.

9 A. I would vote for him because he's a good man,  
10 he does good work, he's a -- he ain't been in jail. I  
11 ain't seen him on TV doing no illegal stuff. I would  
12 definitely vote for him. I think he's a good  
13 candidate.

14 Q. Yeah. And -- and --

15 A. I mean, it's not just Black candidates that I  
16 vote for. I voted for the mayor of Galveston. I voted  
17 for Joe Jaworski. I even helped him with his campaign,  
18 you know. I voted for a lot of non-Black people.

19 I don't vote because of color of their skin.  
20 I don't want to be prejudiced. I need to know that my  
21 right candidate is working for me and the community,  
22 and our community.

23 Q. Is -- so -- well, let me -- let me try to  
24 qualify this for you. Is the integrity of the  
25 candidate important to you?

1           A.    Very.  I don't want nobody but the captain  
2 starting up confusion.

3           Q.    More important than their race?

4           A.    More important than their race.

5           Q.    What about more important than their party,  
6 democrat or republican?

7           A.    More important.

8           Q.    Based upon what you know of the NAACP  
9 Galveston members, is that true for most of those  
10 folks, as well?

11          A.    I'm almost 100 percent positive it's true,  
12 that they would -- it -- more important.  Yeah.

13          Q.    Than the integrity --

14          A.    We not going to vote for no democrat that's  
15 out here doing up stuff that they shouldn't be doing  
16 just because they a democrat.  We're -- we're not going  
17 to do that.

18                    I don't think anybody would do that.  Most of  
19 the people that I know around my age group, you know,  
20 they realize how important integrity is.  We're not  
21 going to vote for them because of their religion.

22                    Because we realize that everybody has their  
23 own religious beliefs, and they're entitled to their  
24 own religious beliefs.

25          Q.    Uh-huh.

1 A. You know. So --

2 MS. CHEN: And just to clarify, the  
3 "we" here was referring to people that Ms. Toliver  
4 knows in her individual capacity?

5 THE WITNESS: Uh-huh.

6 MR. RUSSO: All that -- yeah, the --

7 THE WITNESS: And -- and a lot of  
8 those are NAACP members.

9 Q. (BY MR. RUSSO:) Uh-huh.

10 A. Yes.

11 Q. What about the -- the -- do you know members  
12 that are -- do you know individuals that are also  
13 members of the LULAC organization?

14 A. I know a -- a -- a couple -- a few of them,  
15 not many. And I won't call their names because it's  
16 confidential. But I have worked with them, and I to  
17 call them to let them know about events.

18 You know, I -- I say, "call." But I mean,  
19 like, email, text message. I did talk to Lillie  
20 sometimes. So I just talked to her a couple of weeks  
21 ago. But it wasn't -- it wasn't about no  
22 redistricting. It was about housing.

23 Q. Yeah. So does the -- does the LULAC  
24 organization and NAACP Galveston -- do they work --  
25 work a lot together?

1 A. Not as much as I would like them to.

2 Q. And --

3 A. Mary Patrick, our president, she mostly  
4 informs them about everything. The presidents  
5 communicate a lot.

6 Q. Is it the NAACP Galveston's view that there  
7 -- there are some differences in interests between the  
8 two organizations, LULAC and NAACP?

9 A. I think that they try -- they try -- I think  
10 that they're all on one accord. They try to be on one  
11 accord, try to work together, and not be split and  
12 separate. You know what I mean?

13 Q. I -- I -- I think so. But I want to explore  
14 that a little bit. Did -- are -- are there areas where  
15 the two organizations differ?

16 A. We haven't clashed at all yet.

17 Q. Well, that's a good thing. But to your  
18 understanding are there -- are there different -- any  
19 --

20 A. Not that I know of.

21 Q. No -- no different interests between LULAC  
22 and -- and NAACP from your awareness?

23 A. I think that we all want the same things, to  
24 be treated equal. Equal education, equal social, to  
25 have equal representation when we go to court, to not

1 | be harassed because of the color of our skin.

2 | Q. Is -- is it -- is it your view that the only  
3 | way that that can happen is to effectively create the  
4 | -- you know -- or recreate Precinct 3, as it existed  
5 | prior to 2021?

6 | A. Well, yes. But I wish that we had all of our  
7 | districts -- all of the districts would have a complete  
8 | representation of all of the races. That's what I  
9 | would like, for everything to be fair and equal. I  
10 | mean, that's where we can only elect one minority.

11 | I would like for the representation to be  
12 | that we can elect all minorities, all Whites, all  
13 | Hispanics, that everybody would have fair and equal  
14 | opportunity to be elected, that we would have a cross  
15 | section where everybody would have fair and equal  
16 | opportunity.

17 | Q. Do you have any suggestion as to how -- how  
18 | to sort of -- well --

19 | A. No. But we're going to make it happen one  
20 | day.

21 | Q. No. Let me -- let me back up. So I think I  
22 | have the answer to that question already.

23 | A. I don't know, but the professional mappers,  
24 | they might know how to do it. But that -- that's what  
25 | we all live to see one day, where everything could be

1 fair and equal. I was hoping to see it in my lifetime,  
2 but I sure hope my grand kids get to see it.

3 Q. So -- well, I -- I mean, I guess I -- let me  
4 see here. I think we can come back to that. Prior to  
5 -- prior to the meeting in November of 2021, the --  
6 where the maps were adopted, did you attend any  
7 meetings with -- where any commissioner was present to  
8 discuss redistricting?

9 A. I think so. In 20 -- back in 2011, but not  
10 in 2021.

11 Q. Not in 2021. Okay. So any -- any of the  
12 conversations that you had related to redistricting,  
13 you think were on the prior redistricting effort back  
14 in --

15 A. Yes.

16 Q. -- '21 or back in 2011, yes?

17 A. Yes.

18 Q. Are you aware that -- that Commissioner  
19 Holmes held a couple of Zoom sessions prior to the  
20 November 12th meeting to discuss redistricting?

21 A. No.

22 MS. CHEN: Objection,  
23 mischaracterizing.

24 A. No.

25 Q. (BY MR. RUSSO:) But as you sit here today,

1 you did -- you personally did not --

2 A. No.

3 Q. -- attend any of those?

4 A. No.

5 Q. Do you know whether any NAACP Galveston  
6 member attended any of those sessions?

7 A. No. If they did they didn't tell me anything  
8 about it.

9 Q. Here. I'm going to show you a couple --

10 THE REPORTER: You want to mark it?

11 MR. RUSSO: Sorry?

12 THE REPORTER: Do you want to mark it?

13 MR. RUSSO: Please.

14 THE REPORTER: Okay. That will be 3.

15 MR. RUSSO: You can get 13 and 17,

16 also.

17 THE WITNESS: Thank you.

18 THE REPORTER: Uh-huh.

19 MR. RUSSO: You can mark this one if

20 you want.

21 THE REPORTER: Sure.

22 MR. RUSSO: I only have one more. And

23 there's one more.

24 THE REPORTER: Okay.

25 MR. RUSSO: Yeah. What are we on, 4?

1 THE REPORTER: That one's going to be  
2 5. Okay.

3 MR. RUSSO: Yeah. Thank you, ma'am.

4 MS. CHEN: After we are -- this set of  
5 questions about these exhibits, can we take another  
6 stretch break?

7 MR. RUSSO: Yeah, absolutely. Yeah,  
8 this shouldn't take too long.

9 MS. CHEN: Thank you.

10 Q. (BY MR. RUSSO:) The court reporter's marked  
11 what I -- I think is Toliver No. 4.

12 MR. RUSSO: Right? That's it?

13 THE REPORTER: 3, 4, and 5.

14 MR. RUSSO: Is that it? Okay.  
15 Toliver No. 3.

16 Q. (BY MR. RUSSO:) Do you have No. 3 in front of  
17 you?

18 A. I don't have No. 3. Yes.

19 Q. Okay. And I'll -- I'll represent to you  
20 that's an email that was produced in this case by  
21 NAACP, plaintiff's. And there's a bates number at the  
22 bottom. It's NAACP 00001179. Do you see that?

23 A. Okay. Uh-huh.

24 Q. The email's dated April 12, 2001?

25 A. Uh-huh.

1 Q. You see that?

2 A. Yes.

3 Q. It's on the coalition of Black democrats?

4 A. Uh-huh.

5 Q. You see that? And it's a meeting to discuss  
6 redistricting? You see that?

7 A. "Galveston's County Coalition of Black  
8 Democrats invites you to participate in the Zoom, and  
9 concerned discussion, redistricting." I see it.

10 Q. Right. Then it goes on to state that Neil  
11 Baron, a local democrat lawyer, will be the guest  
12 speaker? You see that?

13 A. Right. Uh-huh.

14 Q. Are you aware that Neil Baron's actually a  
15 lawyer representing some plaintiffs in this case?

16 A. No.

17 Q. In any event, my -- my question to you is, do  
18 you know how it is this email was obtained by the  
19 NAACP?

20 A. It had --

21 MS. CHEN: Objection to  
22 mischaracterization just because it was obtained by the  
23 whole group of plaintiffs doesn't mean it was obtained  
24 by her unit.

25 MR. RUSSO: Okay.

1 A. I don't remember seeing this before. "That's  
2 the kind of democrat" -- I have had a lot of emails  
3 from the Galveston County Democratic party. What I did  
4 was I helped them to pass out flyers and put signs in  
5 yards, and stuff like that. And I got on their email  
6 list. And also Roxy is a part of that, but I don't  
7 remember doing no Zoom meeting.

8 Q. (BY MR. RUSSO:) Okay.

9 A. Was this, was a Zoom meeting?

10 Q. Yeah. To the extent that the -- the Zoom  
11 meeting occurred on April 12th of '21, you weren't  
12 there; is that what your telling me?

13 A. I don't remember being there.

14 Q. Okay. And as far as you're aware, in -- in  
15 terms of testifying for the NAACP and this Galveston  
16 branch in this action, is -- do you -- does the  
17 organization remember attending this meeting?

18 A. I can't speak for the whole organization.

19 Q. Uh-huh, right.

20 A. But speaking for myself, I don't remember  
21 attending it.

22 Q. All right. The -- the next one is Exhibit 4.  
23 And it's an email dated November 4, 2021.

24 (Exhibit No. 4 marked.)

25 A. Uh-huh.

1 Q. (BY MR. RUSSO:) From Roxy Williamson to -- to  
2 multiple recipients.

3 A. Uh-huh.

4 Q. You see that?

5 A. Yeah. I see where she sent this to me, too.

6 Q. Yeah. Yeah.

7 A. She send it out to -- looked like the body.

8 Q. Is -- is that -- does that -- do you  
9 recognize the -- the -- the body of emails there? What  
10 is that?

11 A. Yeah, most -- some of these are NAACP  
12 members.

13 MS. CHEN: Sorry, just to clarify, are  
14 you asking about the body of the email or the two NCC  
15 lines?

16 MR. RUSSO: The -- yes, she called  
17 them the body. I was trying to figure out what -- what  
18 body she was referring to.

19 A. Some of these are the democratic --

20 MS. CHEN: I think he's asking about  
21 just, like, the content of the email, the body of the  
22 email.

23 THE WITNESS: The only one -- what she  
24 sent out?

25 Q. (BY MR. RUSSO:) No. Well, I'm -- I'm asking

1 you, when you referred to the body, which were you  
2 talking about?

3 A. Oh, I thought you was talking about the email  
4 list.

5 Q. What --

6 A. Who she sent it out to.

7 Q. And -- and the -- the body, that's -- is  
8 there some kind of group that -- is that NAACP group or  
9 is it --

10 A. There's several other groups in here, as  
11 well.

12 Q. Okay. Yeah, because, I mean --

13 A. Some of -- some of these names I -- I  
14 recognize. I don't know if they only -- they could be  
15 all in NAACP. Like I say, we have a lot of members  
16 that I haven't seen, that main list. I only see --  
17 know the people that show up at the meetings.

18 Q. Okay. I understand.

19 A. Now, I know some of these people from just  
20 knowing them in general, but I've never seen them at an  
21 NAACP meeting.

22 Q. Okay. And the -- the -- so the -- the text  
23 right beneath the email addresses says "City of  
24 Galveston County -- Galveston City Council" --

25 A. Council.

1 Q. -- "Redistricting workshop October 21, 2020  
2 -- October 28, 2021." Do you see that?

3 A. Uh-huh.

4 Q. And so it -- so it looks like Ms. --  
5 Ms. Williamson is talking about a redistricting meeting  
6 related to the City of Galveston there, right?

7 A. Right.

8 Q. Then below that, underneath the -- it looks  
9 like a small picture, where it says "Imperative to --  
10 is to define what it is to do right." You see that,  
11 it's in the middle of the email?

12 A. You say -- which one you talking about, where  
13 this --

14 Q. So I'm looking about in the middle of the  
15 email. There's a -- there's a statement from Ms. --  
16 from Barbara Jordan where it says "Imperative is to  
17 define what is right and do it."

18 A. I don't see that. I must be missing it. Oh,  
19 why didn't -- I'm sorry. I'm looking at all this other  
20 stuff. Okay. I see that.

21 Q. Yeah. And then just below that --

22 A. Okay.

23 Q. -- is another email?

24 A. On November 4th.

25 Q. From November 4th?

1 A. Uh-huh.

2 Q. 3:08, Roxy Williamson. And it's -- it's --  
3 she wrote. And then there's additional text beneath  
4 that?

5 A. Uh-huh.

6 Q. Do you see that?

7 A. Uh-huh.

8 Q. If you read through the -- the -- the second  
9 full paragraph with the asterisk next to it, it starts  
10 "The Honorable County Commissioner Steven Holmes" --

11 A. -- "Steven Holmes will be speaking on  
12 redistricting this evening."

13 Q. -- "will be speaking on redistricting this  
14 evening?"

15 A. Uh-huh --

16 (Witness reading document out loud.)

17 A. -- did not attend as far as I know of.

18 Q. That's -- and that was my question. Did you  
19 -- did you attend this -- the -- the Zoom meeting?

20 A. Not that I know of. Unless it was an NAACP  
21 meeting, let me see. Then that would have been at --  
22 that wouldn't have been November the 4th. (Reading.) I  
23 didn't see Commissioner Holmes, so I doubt it  
24 seriously. Article in the paper.

25 Q. So do you know on whose behalf Ms. Williamson

1 would have been sending this email in -- on November  
2 4th?

3 A. No. She sent -- it doesn't look like it was  
4 -- she doesn't say on here who she was -- sending on  
5 whose behalf. It has NAACP at the bottom of this. She  
6 sent it to a bunch of people.

7 I really don't know on whose behalf she sent  
8 this out on. She did work with the democratic party.  
9 And I see some of them's names here.

10 Q. Okay. But -- so you're not able to tell me  
11 whether Ms. Williamson was sending this out on behalf  
12 of NAACP?

13 A. No, I'm not. I can't tell you that. Uh-uh.

14 Q. All right. And if Commissioner Holmes  
15 appeared speaking on redistricting in the evening  
16 you're not -- you -- can you tell me whether that was  
17 at the behest of the NAACP Galveston?

18 MS. CHEN: Objection, asked and  
19 answered. You can answer,

20 THE WITNESS: Huh?

21 MS. CHEN: You can answer if you know.

22 A. Okay. I was reading this. No, I don't  
23 remember ever seeing this before. I might have seen  
24 it, but I don't remember seeing this before. And I  
25 don't know who she -- no, she doesn't only work with

1 the NAACP.

2 She also worked with democratic women, but  
3 she might have sent it out on their behalf. Look, am I  
4 missing it? Is Mary Patrick's name on there?

5 Q. (BY MR. RUSSO) Yeah, I --

6 A. Joe Compian. (Reading.)

7 Q. I do not see Mary Patrick's name on there.

8 A. I don't see our secretary, so, no. I don't  
9 see our secretary's name on there.

10 Q. Okay. So beneath -- beneath -- beneath, I  
11 guess, the -- the -- right above the middle of the  
12 middle of page there's -- there's a -- kind of a  
13 signature block there for Roxy Williamson?

14 A. Uh-huh.

15 Q. It says Proud -- Proud Fellow Texas?

16 A. Uh-huh, Proud Fellow Texas.

17 Q. Do you know what that is?

18 A. No, I don't have a clue. I don't know what  
19 Roxy was doing with that.

20 Q. All right. Okay. So as far as you're aware  
21 NAACP Galveston didn't attend this --

22 A. As far as I'm aware.

23 Q. -- meeting with Commissioner Holmes?

24 A. No, as far as I'm aware of.

25 Q. All right. And do you --

1           A.    And I don't think so because I don't see our  
2 secretary or president's name on here.

3           Q.    All right.

4                           MR. RUSSO:  The last one is Toliver  
5 5. And it's an email dated November 11, 2021.

6           A.    Uh-huh.

7                           (Exhibit No. 5 marked.)

8                           (Witness reading document.)

9           A.    9:00 a.m.

10          Q.    (BY MR. RUSSO:) Right.

11          A.    November monthly meeting.  Okay.  GCDP,  
12 Democratic party.  Galveston County Democratic Party,  
13 for the Democratic Galveston.  Okay.  So she sent this  
14 out to the democratic party, also.

15          Q.    Do you know who was sending this?

16          A.    Subject, from Democratic Galveston.  It's a  
17 group of women.  I mean, it's a group -- I think  
18 they're all women, democrats of Galveston County.  It  
19 could have just been the democrats.

20                           Usually when I go it's always women at those  
21 meetings.  They might have some men up along on there,  
22 too, but no.

23          Q.    Okay.  Do you know --

24          A.    This is -- this is the Democrat -- this is  
25 not NAACP.

1 Q. Okay. Do you know an individual named  
2 Tierishia Gibson? I'm not sure how she spells that.

3 MS. CHEN: Tierishia?

4 A. Tierishia. I don't really -- I've heard that  
5 name, Tierishia Gibson. Is she with the La Marque or  
6 Texas City?

7 Q. (BY MR. RUSSO:) Yeah, I don't know the answer  
8 to that.

9 A. I don't know the answer to it, either.

10 Q. Okay. Yeah, the answer is you -- you don't  
11 know who she is, correct?

12 A. No.

13 Q. Now, this -- the -- the -- again, the top  
14 part of this email it says, "Good morning, all please  
15 join us via Zoom -- tonight via Zoom for a Q&A with the  
16 county commissioner, as Steven Holmes, concerning  
17 proposed redistricting maps for Galveston County and  
18 our next steps."

19 So the email seems -- seems to reflect  
20 that there is a Zoom meeting on November 11, 2021,  
21 correct?

22 A. Uh-huh.

23 Q. Do you have any recollection of attending the  
24 meeting?

25 A. No, I just went -- went to the meeting on the

1 12th.

2 Q. Okay.

3 A. I'm not saying I wasn't invited to it, but I  
4 didn't attend it. I don't remember. I don't recollect  
5 seeing it.

6 Q. Yeah.

7 A. The only one I went to was on the 12th.

8 Q. Do -- all right. So you've never seen this  
9 before today?

10 A. No, I never seen this one before today.

11 Q. Perfect. Okay. One more question. Do -- do  
12 you -- before we take a break. Did the NAACP Galveston  
13 branch reach out to LULAC to participate in this -- in  
14 the lawsuit once the maps were approved?

15 A. I don't know when she reached out to -- I'm  
16 sure Mary Patrick reached out to LULAC president.  
17 Yeah.

18 Q. Okay.

19 A. I don't know when she did it.

20 Q. Probably --

21 A. The presidents used to contact each other.

22 Q. All right. But, I mean, you believe that the  
23 Galveston branch might have reached out to LULAC to  
24 join forces to file suit in this case?

25 A. Yes, they -- they might have done that.

1 Q. All right. Do you know whether that  
2 happened?

3 A. No, I don't know. But Mary Patrick knows.

4 Q. All right. Okay.

5 A. I know that party -- so Mary apparently  
6 reached out to them.

7 MR. RUSSO: All right. Take a break.

8 MS. CHEN: Quick break? Great.

9 THE VIDEOGRAPHER: Off the record at  
10 2:32.

11 (Off the record.)

12 THE VIDEOGRAPHER: Okay. We're back  
13 on the record at 2:53 p.m.

14 (Exhibit No. 6 marked.)

15 THE WITNESS: Thank you.

16 THE REPORTER: Uh-huh.

17 MR. RUSSO: Let's see. No. 6?

18 THE REPORTER: Yes.

19 Q. (BY MR. RUSSO:) The court reporter has handed  
20 you what's been marked as Toliver Exhibit 6. It's a  
21 November 4, '21 email. And it's from the Galveston  
22 NAACP.

23 A. Uh-huh.

24 Q. You see that?

25 A. Mary Patrick. Uh-huh.

1 Q. And then the 2 is an undisclosed set of  
2 recipients?

3 A. Okay.

4 Q. Yeah. Does that tell you, or suggest to you,  
5 that the -- that the email went to the membership?

6 A. Definitely. It states from Mary Patrick. So  
7 if there's anything with the membership she probably  
8 sent it out from the NAACP. And that's our group  
9 number, 6180. To undisclosed recipients.

10 Q. But it's forwarding Ms. Patrick's email,  
11 right, related to the redistricting maps?

12 A. She says -- about the two maps, voted on next  
13 Tuesday. Okay. She say that her and Roxy, and  
14 Mr. Hadder, was on that call to Commissioner Holmes,  
15 and he provided great information.

16 Yeah. It seems like Mary Patrick -- I would  
17 think that Mary Patrick, Roxy Hall Williams and  
18 Mr. Hadder was all on this call with Commissioner  
19 Holmes.

20 Q. Okay. And do you know -- I mean, was Ms. --  
21 Ms. Williamson on the call on -- on behalf of NAACP?

22 A. Apparently because this came from the NAACP.  
23 So the other one came from the democratic party.

24 Q. Okay.

25 A. But this came from the NAACP.

1 Q. All right. So then what's reflected in  
2 Exhibit 6 is the conversation with Ms. Williamson,  
3 Dr. Scott and Mr. Hadder with Commissioner Holmes. And  
4 it discusses the call that occurred that night --

5 A. Uh-huh.

6 Q. -- right?

7 A. It says that they discussed map 1, remove  
8 Bolivar from the map. Map 2, eliminate the map.

9 Q. Right. Well -- so it -- it actually -- and  
10 it actually says -- it's an email from Mary Patrick --

11 A. Uh-huh.

12 Q. -- who's the president of NAACP, correct?

13 A. Right.

14 Q. And she says in the second sentence,  
15 "Dr. Scott, Roxy Hall Williamson, Mr. Hadder and I were  
16 on the call tonight with Commissioner Holmes. And he  
17 provided great information," right?

18 A. That's what it says.

19 Q. Do you -- do you know what the information  
20 was he provided?

21 A. I wasn't on that call.

22 Q. Okay. All right. And then she goes on to  
23 say, "Please click on the link and provide your  
24 comments." See that?

25 A. Yeah, I see it.

1 Q. And the link looks like it goes to -- it's  
2 above HTTP. It's right below the redistricting map --  
3 map subject -- subject line. Do you see the link  
4 there, HTTPS?

5 A. Uh-huh.

6 Q. Then it goes to Galveston County, Texas  
7 website. Do you see that?

8 A. Yeah.

9 Q. Do you know what that link is to?

10 A. From looking at this paper I would say that  
11 this link is to take a vote on which maps they wanted  
12 remove Bolivar from map 1 or eliminate the map  
13 altogether.

14 Q. Okay. And is it -- is it -- is it your  
15 understanding that the -- the link goes to a website  
16 location provided by Galveston County?

17 A. Galveston County judge redistricting.

18 Q. Right. And then based on Ms. Patrick's email  
19 it says "Please click on the link and provide your  
20 comments." The link must allow you some ability to  
21 provide comments, correct, to -- on the maps?

22 A. Correct.

23 Q. And specifically Ms. Patrick's comment on  
24 this email is "Map 1 - remove Bolivar from the map?"  
25 Do you see that?

1 A. Yes.

2 Q. And then the second thing she says is "Map 2  
3 - eliminate the map?"

4 A. Eliminate the map.

5 Q. And is it fair to say that she provides no  
6 conversation as to what the issues are with the map?

7 MS. CHEN: Objection,  
8 mischaracterizes.

9 Q. (BY MR. RUSSO:) You can -- you can answer.

10 A. It says to -- I mean, according to this. I  
11 -- I don't know what happened when you went to that  
12 link, but according to this it's fair to say.

13 Q. Right. But -- and she doesn't provide any  
14 analysis as to why we want to remove Bolivar from the  
15 map, true?

16 A. True.

17 Q. And she doesn't say anything as to why you  
18 want to eliminate map 2, correct?

19 A. Yeah. Must be some more information with  
20 this because I don't think she would -- but this what  
21 it looks like. But apparently something is missing.

22 Q. Okay. And -- and the email is -- it's a  
23 Galveston branch NAACP email sent to the membership,  
24 right?

25 A. Undisclosed recipients.

1 Q. Right. On November 4th of 2021, providing a  
2 link to the county's comment section?

3 A. Uh-huh.

4 Q. And suggesting to take steps to provide  
5 comment on the county's maps, true?

6 A. Uh-huh.

7 Q. Are you -- are you aware of any conversation  
8 that Ms. Patrick had with either you or other members  
9 in connection with this email, and the reason to make  
10 these comments?

11 A. I'm looking at this date. I definitely am  
12 not.

13 Q. Okay. Does it -- does it suggest to you that  
14 Ms. Patrick is suggesting to the recipients of the  
15 email that they need to go and make these comments at  
16 the -- at the website provided by Galveston County?

17 MS. VALL-LLOBERA: Objection,  
18 speculation.

19 Q. (BY MR. RUSSO:) You can answer.

20 A. That -- that's what it looks like to me.

21 Q. And do you know whether you received this  
22 email?

23 A. I don't remember. This is my sister's  
24 birthday. And I probably -- if I got it I probably  
25 didn't attend or do anything with it because I was

1 probably out with my sister. But I don't remember this  
2 at all. I -- I don't even -- I don't remember it.

3 Q. Okay. And if we wanted to know more about  
4 the conversation that Commissioner Holmes had with --  
5 during this phone call that Ms. Williamson apparently  
6 participated in, we'd have to talk to her about that?

7 A. And Ms. Patrick participated in it, too.  
8 Mr. Hadder, she said they was all on it. They would  
9 have to talked to some of these people.

10 Q. Right. But as of now you don't -- you have  
11 no idea what the conversation was?

12 A. No idea.

13 Q. Okay. Do you know whether you did anything  
14 as a result of -- well, strike that.

15 I think you told me you don't remember  
16 receiving the email, true?

17 A. True.

18 Q. And do you remember whether you took any  
19 steps to look at the -- and make comments related to  
20 map 1 or map 2?

21 MS. CHEN: Objection, vague.

22 A. No.

23 MR. RUSSO: Okay. We'll mark that,  
24 that's 79?

25 THE REPORTER: Uh-huh.

1 MR. RUSSO: That's 7, right?

2 THE REPORTER: Yes.

3 (Exhibit No. 7 marked.)

4 Q. (BY MR. RUSSO:) Okay. The court reporter has  
5 provided you the document marked Toliver 7?

6 A. Oh, yes.

7 Q. Yeah. And have you seen that -- this  
8 document before today?

9 A. No, I hadn't.

10 Q. Okay.

11 A. So how is this in a comment? Is this my  
12 comment?

13 Q. Yeah. It's --

14 A. Remove Bolivar from the map?

15 Q. I'll represent to you that -- that Galveston  
16 County obtained -- retained comment information from  
17 the public --

18 A. Uh-huh.

19 Q. -- related to the redistricting maps.

20 A. Uh-huh.

21 Q. And this one appears to reflect that --

22 A. It's got my name on it. I remember it.

23 Q. It has your name on it?

24 A. Yes, it does.

25 Q. And that's your -- I mean, that's your

1 address?

2 A. That's my name and my address.

3 Q. Okay. And the -- the date on the  
4 correspondence suggests it's Sunday, November 7, 2021,  
5 right?

6 A. Yes, November 7th, a Sunday.

7 Q. And then the comment is "Remove Bolivar from  
8 the map" and "eliminate the map?"

9 A. Uh-huh.

10 Q. You see that?

11 A. I see it.

12 Q. And it seems to be consistent with the  
13 suggestion by Ms. Patrick's email of November 4th of  
14 2021?

15 A. Uh-huh.

16 Q. Would you agree?

17 A. Yeah. She wanted to remove or eliminate.  
18 One of the two. Am I correct? Yeah.

19 Q. And she said remove Bolivar on -- on --  
20 looking back at Exhibit 6.

21 A. It's --

22 Q. Next to map 1 she says remove Bolivar on the  
23 map, right? And then next to map 2 she says  
24 eliminate --

25 A. Eliminate the map.

1 Q. And your comment's --

2 A. And my comment was --

3 Q. Looking back at Exhibit 7, "Remove Bolivar  
4 from the map." Period. And then "Eliminate the map,"  
5 true?

6 A. Right. Yes.

7 Q. So do we -- sitting here today, looking at  
8 these documents, it suggests to you that you received  
9 the email from Ms. Patrick, that was forwarded to the  
10 group, then took action to make comments --

11 A. And it's fine --

12 MS. VALL-LLOBERA: Objection,  
13 speculation and compound.

14 Q. (BY MR. RUSSO:) You can answer.

15 THE WITNESS: I answer it?

16 A. Yeah, that's what it look like. I don't  
17 remember it, but that's my address and my name.

18 Q. Right.

19 A. So I must have did it.

20 Q. (BY MR. RUSSO:) And so at the --

21 A. Yes.

22 Q. -- at the time that -- that -- the -- the  
23 comments were made, do you know whether you had formed  
24 an opinion as to the validity of the maps, or the  
25 content of the maps?

1 A. If I wrote that, I apparently had.

2 Q. You think you'd have looked at the maps at  
3 the time?

4 A. I don't recollect, but if that's what I wrote  
5 -- and that's my name and that's my address. I would  
6 say, yes.

7 Q. Okay.

8 A. And I, obviously, didn't like them.

9 Q. Do you have any idea when you would have done  
10 that?

11 A. I don't recollect this at all. I don't. It  
12 says November the 7th, 2021.

13 Q. Do you recall any -- any effort or  
14 discussions at the time between, you know, Ms. Patrick  
15 or Williamson, or otherwise, to provide as many  
16 comments to the Galveston County website as possible  
17 related to the maps? Do you --

18 A. I -- I don't remember it, but apparently I  
19 received it, and at some time responded on November the  
20 7th, according to this. I'm not going to say I  
21 remember because I don't, but it's...

22 Q. Yeah. And I was mainly -- mainly wanting --  
23 wanting to know whether you think you had a chance to  
24 -- actually look at the maps by the time you made the  
25 comment.

1 A. I don't think I would have responded if I  
2 hadn't seen that map for myself.

3 Q. Yeah.

4 A. Apparently I looked at that map and didn't  
5 like it. And I can't say for sure.

6 Q. Okay. And you don't recall any conversations  
7 with anybody related to the maps at this point?

8 A. No, not at that time.

9 Q. All right.

10 A. Something is missing. Maybe they sent out  
11 the maps. I don't recall it.

12 Q. All right. So there a couple I marked  
13 earlier in the complaint in this case. I think it was  
14 number 2. Can you see if you can find that?

15 A. Okay. I got it.

16 Q. You have it?

17 A. Yeah. What page? Any particular page?

18 Q. Yeah. I'm going to have you look over it,  
19 paragraph 91 versus -- just a couple of things, items  
20 to discuss. It's on page 23.

21 A. I have.

22 Q. You see it?

23 A. Uh-huh.

24 Q. So specifically there's an allegation in  
25 paragraph 91. And it -- and I'm interested in the last

1 half of the sentence, which -- which reads "Voters  
2 constitute a geographically compact majority of a  
3 single member commissioner precinct." That's how the  
4 sentence ends? You see --

5 A. Uh-huh. That's how it ends.

6 Q. Do -- what's your understanding of that  
7 allegation?

8 A. My understanding is that they wanted a  
9 precinct with the balance of population, enough of  
10 Black and Latinos, that they can have at least one  
11 single member commissioner. Not that they can have  
12 three or four, but they can have at least one.

13 Q. Right. And in this the allegation is -- is  
14 that -- that the map -- a map could be drawn in which  
15 Latino -- Black and Latino voters constitute a  
16 geographically compact majority. Do you -- do you have  
17 any understanding of what a graphically compact  
18 majority means?

19 A. It means that in that particular precinct  
20 geographically the number of people that's in that  
21 precinct will have the opportunity to elect a  
22 commissioner of their choice.

23 Q. And -- well -- so how -- how compact do they  
24 have to be in order to be considered --

25 A. I -- I surely couldn't answer that question.

1 MS. CHEN: Objection. Calls for a  
2 legal conclusion.

3 Q. (BY MR. RUSSO:) I'm sorry. What was your  
4 answer?

5 A. I -- I couldn't answer that question.

6 Q. (BY MR. RUSSO:) Okay. And so the -- the  
7 NAACP, then, response is -- strike that.

8 Is there any -- do you have any  
9 ability to -- strike that.

10 Are you aware that your -- again,  
11 designated experts in this -- in this case?

12 A. Am I aware of what?

13 Q. Are you aware that the NAACP has designated  
14 experts in this case? We talked about this earlier a  
15 little bit.

16 A. The NAACP designate experts?

17 Q. Yes, ma'am.

18 A. Yeah. As far as -- not the map drawing, but  
19 as far as the complainants?

20 Q. Correct.

21 A. Okay. Yes.

22 Q. And we talked about you looking at a map that  
23 you thought maybe was related to an expert --

24 A. The only thing about these maps, they don't  
25 even have little stick people. So when I'm looking at

1       them, I can't even tell how many people that's in that  
2       session. Because all I'm seeing, it's like you said,  
3       geographic territory.

4             Q.     Right.

5             A.     I'm not seeing what's in that territory, in  
6       that particular territory. And I guess the experts who  
7       draw the maps -- apparently they know that information.

8             Q.     Right.

9             A.     But when we are looking at the maps it's not  
10      on the map. It don't have no little people, or sticks,  
11      or nothing.

12            Q.     Okay.

13            A.     It just have the land, you know.

14            Q.     So whether or not the -- the -- the voter --  
15      the -- the -- paragraph 91 is correct, that voters,  
16      Black and Latino voters constituted geographically  
17      compact majority of a single-member commissioner  
18      precinct, the NAACP doesn't have any independent facts  
19      related to that, do they?

20                    MS. CHEN:   Objection,  
21      mischaracterization.

22            A.     I think they pretty much know who lives  
23      where, the majority people. So if you're looking at  
24      the map, and you see District 3, the way District 3  
25      was, and you look at that map, you could -- you don't

1 know exactly how many people, but you could look at  
2 that map and say, "Well, the majority people is Black  
3 or Hispanics in this particular" -- and then you look  
4 at League City area, and you can say the majority of  
5 people over there are White Americans.

6 And you look at Hitchcock and La Marque, you  
7 know, La Marque, Texas City, you know. So I think that  
8 the experts -- not me, but the experts could look at  
9 that, and they -- they should know.

10 And -- but when I look at it I know  
11 Galveston. I can tell you what Galveston look like.  
12 I'm not the whole NAACP. I know I'm here speaking.  
13 Like I told you, I'm not the redistricting person. I  
14 don't deal with this redistricting stuff. I deal with  
15 the housing issues.

16 Q. (BY MR. RUSSO:) Okay. And -- well -- so is  
17 there any factual basis that you can tell me about,  
18 that supports the last half of paragraph 91 --

19 A. Well --

20 Q. -- other than pointing me to your expert?

21 A. I can tell you that I've lived in Galveston  
22 my whole life, and I know the majority areas that have  
23 -- that are predominately Black, predominately White,  
24 or predominately Hispanic.

25 Q. Uh-huh. Can you tell me how compact they

1 are?

2 A. I can't. I can tell you about my block. On  
3 my block we're like a third, a third, a third.

4 Q. That sounds like a good neighborhood.

5 A. It is. We look out for one another.

6 Q. Okay. And paragraph 92, which is the next  
7 paragraph, states -- starts at "According" --

8 A. What email?

9 Q. Yeah. I'm going to let you get there. It's  
10 on page 23.

11 A. Okay. I have it.

12 Q. It states that "According to statistical  
13 analyses of the past elections, Black and Latino voters  
14 in Galveston County are politically cohesive, and  
15 overwhelmingly support the same candidates." Do you  
16 have any independent facts to support that statement?

17 A. I don't, but apparently whoever wrote this  
18 did.

19 Q. But who?

20 A. Whoever wrote this apparently had the facts.  
21 My job, when I'm helping, I'm just encouraging  
22 everybody to get out and vote --

23 Q. I understand.

24 A. -- for the candidate of their choice.

25 Q. Is there anybody at the -- at -- in NAACP

1 Galveston branch that I should talk to about this  
2 question that might have an answer other than you?

3 A. Yeah. Mary Patrick, president. Her and --  
4 she -- she would be the main one who would have the  
5 answer. Hadder, whose name was on here --

6 Q. Uh-huh.

7 A. -- I don't think he would.

8 Q. As far as you -- you're concerned you rely on  
9 the statement just as it's made?

10 A. I -- if -- if -- if the president made the  
11 statement they made it -- I'm sure she -- she works in  
12 education. She works with all the people, all races.  
13 And she know.

14 Q. Uh-huh.

15 A. You know, she's over GISD. And so is a lot  
16 of our other members.

17 Q. All right. Have you talked to her about any  
18 of that, about whether their -- the specific statement  
19 in the complaint, which is that the -- the Latino and  
20 Black voters are politically cohesive?

21 A. She say yes.

22 Q. You've spoken to her about that?

23 A. Uh-huh.

24 Q. And she said yes?

25 A. Uh-huh.

1 Q. What was the basis for that?

2 A. Some program that she works with, with GISD.

3 Q. What was the program?

4 A. I can't think of the name of it, but it's

5 GISD. They do a lot of studies and stuff over there.

6 And wherever they got this knowledge from, this is what

7 they actually believe. This is what they research.

8 That's what they found.

9 Q. And you're specifically --

10 A. I wasn't a part of it.

11 Q. You're specifically talking about what's in

12 paragraph 90 --

13 A. 91 or 92.

14 Q. 92?

15 A. Uh-huh.

16 Q. You think that came from a JSD report?

17 A. I -- I think it came from some of the

18 employees. And I don't know that -- also, NAACP

19 members -- I'm sorry.

20 Q. Uh-huh.

21 A. The NAACP members said they -- it says

22 "Alternative plans, including with one with district,

23 based upon the benchmark Precinct 3, with one voting

24 precinct shifted from the benchmark to the 3 for the

25 purpose of balance of population, can be drawn in the

1 Black, Latino."

2 So I'm -- I'm sure she didn't just put this  
3 out here without knowing that it was true. I don't  
4 think she would have done that.

5 Q. Okay. But in terms of your testimony today  
6 you -- you -- you're not giving -- you don't any  
7 additional facts to add to the conversation, true?

8 A. No, I don't.

9 Q. The same would be true for paragraph 92 in  
10 relation to the political cohesiveness of Black and  
11 Latino voters?

12 A. No.

13 Q. I'm sorry. Did you sorry?

14 A. Oh, I'm sorry.

15 Q. I mean, did you answer --

16 A. You asked another question?

17 Q. Yes, ma'am. I said, is --

18 A. I was reading this stuff. I'm sorry.

19 Q. That -- that's fine if you need to read it.

20 We'll -- I'll wait on you. But --

21 A. No. What -- what's your question?

22 Q. The question was, is -- is the same answer  
23 true in relation to the allegations in paragraph 92,  
24 where it states that Black and Latino voters are --

25 A. Oh, yes.

1 Q. -- politically cohesive?

2 A. That's the same answer.

3 Q. And you don't have any additional facts to  
4 add to the conversation?

5 A. I don't have any additional facts. But I  
6 will say Ms. Patrick is not one that takes stuff  
7 lightly. She's going to make sure it's true, you know.

8 Q. Is it your understanding that Ms. Patrick  
9 played the principal -- principal role in dealing with  
10 the -- the lawsuit?

11 A. That's my understanding.

12 Q. Did you have any conversations with her about  
13 the process, about dealing with the lawsuit, changing  
14 responses? Not specific changes, but just dealing with  
15 the whole process?

16 MS. CHEN: And just only to the extent  
17 that you don't reveal any confidential attorney-client  
18 communications you can answer his question.

19 MR. RUSSO: Yeah.

20 Q. (BY MR. RUSSO:) And I'll -- I'll -- with that  
21 understanding -- I don't -- I don't want to know the  
22 specifics, we changed, and, if. That's not what I'm  
23 asking you.

24 Did she talk to you about just being involved  
25 in drafting the lawsuit and making changes, and that

1 kind of thing?

2 A. She didn't talk to me about being involved,  
3 but we did go over this. She was in on some of the  
4 meetings.

5 Q. Okay. Prior to filing suit?

6 A. No.

7 Q. Or during the deposition prep?

8 A. Right.

9 Q. Okay.

10 A. Correct.

11 Q. All right. Was your counsel present at those  
12 meetings?

13 A. Yes.

14 Q. All right. Paragraph 93, which is the next  
15 page, it states -- the first sentence begins "Those  
16 analyses also show that Anglo voters in Galveston  
17 County." Do you see that?

18 A. Yes. Including the newly to Precinct 1, 2  
19 and 4. "And each and all contains a portion of the  
20 benchmark that's 3." Yes.

21 Q. Right. And then it -- it said -- goes on to  
22 say "Overwhelmingly vote for the same candidates as  
23 other Anglo voters, and vote sufficiently as a block."

24 A. To defeat the Black and Latino --

25 Q. Right.

1 A. I -- I see it.

2 Q. Yeah. You see -- so my question is  
3 relatively similar. Do you have any independent  
4 understanding of -- of the truth or falsity of that  
5 statement?

6 A. No, I wasn't involved in the process.

7 Q. Okay. So as you sit here -- as you sit here  
8 today you have no additional facts you can add to the  
9 conversation related to whether that statement is true  
10 or false, true?

11 A. No. No additional facts.

12 Q. All right. So -- you could set that aside  
13 for a second. You talked about just the sort of racial  
14 demographics in Galveston County. And I think you said  
15 you were more comfortable in Galveston itself?

16 A. Yeah.

17 Q. Do you have an understanding, sitting here,  
18 as to -- if I gave you an area, that you could tell me  
19 what the demographics are, say, in the city of La  
20 Marque?

21 A. No, I couldn't tell you anything about La  
22 Marque. I can tell you probably if you go around Lake  
23 Road, it used to be demographically, a lot of Black  
24 people, but it's not anymore.

25 Q. In La Marque?

1           A.    In La Marque.  But I don't really know any of  
2   the other areas.

3           Q.    Do you know -- do you know why -- let's stick  
4   with La Marque for a minute.  Do you know why the --  
5   you think the population in La Marque -- the  
6   African-American is --

7           A.    A lot of them passed away.

8           Q.    They passed away.  Okay.  Then are you -- I  
9   think you would agree that Galveston is -- the city of  
10   Galveston is the area you're probably most familiar  
11   with?

12          A.    Yes.

13          Q.    Is that true?

14          A.    Most definitely.

15          Q.    But could you provide sort of demographic  
16   information on any given area within the city?

17          A.    Most on the east end.  We have a lot of White  
18   people that live on the east end, until you get to like  
19   25th Street.  And when you pass 25th you come on down  
20   to 43rd.  Then you have mostly Blacks, but a mixture of  
21   Blacks and Hispanics.

22                   And then when you go from 43rd to 53rd you  
23   have the same population, but you have more Blacks in  
24   -- in that area.

25          Q.    Uh-huh.

1 A. Especially on the north side, you know. And  
2 then when you pass 53rd to 61st there's a lot of  
3 businesses in that area, you know. And there's not as  
4 many people living there unless you cross over on the  
5 side where it's LK&M. And everything over there is  
6 mostly Blacks, White and Hispanics. Now, when you pass  
7 M and a half, and you go on up to the seawalls, where  
8 you're going to find more Whites. You're going to find  
9 some Blacks and Hispanics in those areas, as well.

10 Q. Uh-huh. Is it -- can you -- can you do --  
11 you have sort of committed to memory any specific  
12 numbers, demographics on a particular area?

13 A. No. I'm just telling you from the streets  
14 I've walked, and for where I've campaigned to help with  
15 the voters --

16 Q. Yeah.

17 A. -- and what I've seen.

18 Q. I understand. And, again, it's -- I think I  
19 understand. It's a feeling you have, right?

20 A. It's a feeling.

21 Q. I got it. But nothing specific, 24 percent  
22 of the --

23 A. Not specific. I've walked those streets  
24 many, many days.

25 Q. Right.

1           A.    I don't do it anymore because there's too  
2 many cracks in the sidewalk and I fell one time.  When  
3 I was younger I did.

4           Q.    Have you seen the -- you know, changes in  
5 Galveston, in certain areas in terms of demographics --

6           A.    I've seen the --

7           Q.    -- in the past ten years?

8           A.    I've seen the demographics.  I've seen the  
9 population decrease.  I've seen that we had -- I know  
10 that we have 4,500 Airbnbs.  Bed and bath --

11          Q.    Uh-huh.

12          A.    -- on the weekend, and it has hurt our  
13 population because those houses are off the market.  
14 Nobody can rent them now, nobody can buy them.

15          Q.    Are you talking about a specific racial  
16 population or are you talking about just --

17          A.    No.  I'm just talking about population in  
18 general.

19          Q.    People in general?

20          A.    Just in general.  We've lost a lot of that.  
21 And even though we did come back with public housing we  
22 didn't -- we came back with the 569 units --

23          Q.    Uh-huh.

24          A.    -- that we lost after Ike.  We didn't -- we  
25 didn't bring back the units that we lost before Ike.

1 So Galveston has lost a lot of its population. I see  
2 on the east end a lot of those houses still haven't  
3 been rehabbed.

4 All of the student housing that UTMB had, I  
5 see a lot of it is still vacant, you know. They -- it  
6 hasn't been rehabbed. And I know I'm not supposed to  
7 be adding a lot of stuff, but I'm going to add this one  
8 little comment.

9 I think UTMB needs to supply their own  
10 housing, and not depend on public housing, to have  
11 housing for their students.

12 Q. We'll, we -- we'll -- we'll stop you there  
13 because they're not here to defend themselves.

14 A. I love them, but they --

15 MS. CHEN: Well, we'll note the  
16 position in Ms. Toliver's individual capacity.

17 THE WITNESS: They needs to have a lot  
18 of housing.

19 Q. (BY MR. RUSSO:) Understood. So specifically  
20 in the area, in -- in the city of Galveston, was  
21 Precinct 3 prior to --

22 A. Uh-huh.

23 Q. -- 2021. Specifically in that area. I mean,  
24 did you notice changes in that area in terms of  
25 demographics, certain races moving in, certain races

1 | moving out --

2 | | A. Uh-huh.

3 | | Q. -- population growth? What's your estimate?

4 | | A. I would think that we have way more -- not  
5 | way more, but we have more Whites that's moving into  
6 | that area. And the reason being is because of cost of  
7 | living. Rent has skyrocketed.

8 | | Q. Uh-huh.

9 | | A. So people are living places that they  
10 | wouldn't ordinarily live because they can't afford to  
11 | live where they want to live.

12 | | Q. Yeah.

13 | | A. So -- but the predominate amount of people in  
14 | those areas are Blacks and Hispanic.

15 | | Q. Okay. But your -- your estimate is over the  
16 | past five, 10 years there's an increase in --

17 | | A. It has changed some.

18 | | Q. Different population --

19 | | A. But not enough to --

20 | | Q. -- in every demographic?

21 | | A. Yes, it's -- it's changed some.

22 | | Q. Okay. Is there a -- do you have any idea  
23 | about the demographic, the political demographics --

24 | | A. No, I don't.

25 | | Q. -- in that area? Okay. What about voter

1 turnout -- turnout in Galveston County? Do you have  
2 any feeling about which areas of the county turn out  
3 more? Have you ever looked at that?

4 A. No, I don't.

5 Q. And do you know -- let me go ahead. I know  
6 she's about to jump on me. But do you know, on behalf  
7 of NAACP Galveston, have they were done a -- are you  
8 aware of any research that NAACP Galveston has done  
9 related to voter turnout in particular?

10 A. No.

11 MS. CHEN: Objection, asked and  
12 answered.

13 THE WITNESS: Sorry.

14 Q. (BY MR. RUSSO:) So can you explain to me what  
15 you feel, if -- if any -- what are the differences  
16 between the needs of the individuals who lived in the  
17 prior Precinct 3, in the City of Galveston, and the  
18 other areas of Galveston?

19 A. I would think that the -- the needs -- the  
20 needs. What do you mean by "the needs? "

21 Q. Well, are they -- do they -- do the people  
22 that reside within the old Precinct 3 and the people  
23 that reside in the rest of the City of Galveston have  
24 different interests that have to be -- need -- need to  
25 sort of be considered?

1 A. Well, most of the --

2 MS. VALL-LLOBERA: Objection,  
3 speculation.

4 Q. (BY MR. RUSSO:) You can answer.

5 A. Most of the people in old Precinct 3 were low  
6 income, so they need a lot of help that other people  
7 wouldn't need. Like, for example, you don't need to  
8 send a lot of food trucks to the west end of Galveston.

9 You know, like if you're getting food you  
10 don't need to send a lot of food trucks to that area,  
11 whereas to where the old Precinct 3, they needed food  
12 trucks. They needed help with food and water, and  
13 everything.

14 Q. Uh-huh.

15 A. It just -- because you had more people that  
16 did service jobs. I mean, they worked. Like I  
17 remember when I first started working with housing,  
18 it's like "Oh, them people don't work."

19 I found out they had two, three jobs, but it  
20 didn't equal one of your salaries, I'm sure. So even  
21 though they went to work -- like my housekeeper told me  
22 one day, the housekeeper at UTMB, she says, "Ms. Pat, I  
23 work two weeks, and I can't pay my rent."

24 We don't all have that problem. Thank the  
25 Lord. One check, I could pay my rent. She had two

1 | checks. And she needed some money from the third check  
2 | to help pay her rent.

3 | So, yes, it's different. The needs are  
4 | different, the recreation is different. We need more  
5 | parks, we need more activity, you know. You need more  
6 | clothing, you need more food.

7 | You know, we have a clothing drive. We have  
8 | school clothes drive. Everybody don't need school  
9 | clothes. But in Precinct 3 the majority of people  
10 | can't afford school clothes.

11 | Q. Uh-huh.

12 | A. That's a luxury. You know, like for -- on  
13 | the south side every -- most people can't afford school  
14 | clothes for their kids. So, yes, it's a difference in  
15 | the needs.

16 | Q. You said south side. Are you -- South  
17 | Broadway, is that what you were saying?

18 | A. South Broadway.

19 | Q. Yeah.

20 | A. Uh-huh. Actually, the north side goes from  
21 | Avenue A to M and a half. And then the south side goes  
22 | from M and a half to the Boulevard. And then, you  
23 | know, West End. You know, we have do west and  
24 | everything.

25 | Q. Uh-huh.

1 A. So, yes, I would definitely say Precinct 3  
2 needs are definitely different.

3 Q. Uh-huh. And is that -- is that -- most of  
4 the things I heard you mention relate to an income  
5 level. Is that the principle issue? Is it the -- the  
6 folks that live in that area just don't have as -- as  
7 high an income?

8 A. They don't have the income. If we all had  
9 the same income we could all live a life.

10 Q. Uh-huh.

11 A. But unfortunately we don't all have the same  
12 income.

13 Q. Right. Well, I mean, would you agree that  
14 whether it's, you know, Black residents, Latino  
15 residents, White residents, that if they experience low  
16 income they probably have same issues? Would you  
17 agree?

18 A. I agree.

19 Q. And that's going to be true regardless of the  
20 race?

21 A. If you have low income you're going to have  
22 different needs. You're -- you're going to have  
23 needs that other people don't have.

24 Q. Uh-huh. So -- and, again, the needs that we  
25 were just discussing as an issue -- issue of need on an

1 income level, not necessarily a racial level?

2 A. If your income is low, whether you're Black,  
3 White, Hispanic, Jews -- I don't care what you are. If  
4 you're poor you're poor. If your income is low you're  
5 economically disadvantaged. You're economically  
6 disadvantaged.

7 Q. Uh-huh.

8 A. And your needs are going to be greater.

9 Q. Yeah. So do you see any benefit to having --  
10 looking at the -- I'm referring to the new Precinct 2,  
11 which now covers all of Galveston Island.

12 A. Uh-huh.

13 Q. Do you see any benefits to having all of  
14 Galveston in one precinct?

15 A. It's --

16 MS. CHEN: In as far as individual  
17 capacity or representation of NAACP?

18 Q. (BY MR. RUSSO:) Well, do you know the answer  
19 for the NAACP? What's the NAACP's answer to the  
20 question of --

21 A. They -- I -- I was just looking at that paper  
22 you sent me about not including Bolivar, taking Bolivar  
23 off.

24 Q. Uh-huh.

25 A. Because we know that Bolivar is completely

1 different from Galveston. So that Precinct 2 includes  
2 Bolivar, correct?

3 Q. It does.

4 A. It does, so --

5 Q. It does.

6 A. -- that makes a big difference.

7 Q. Okay. Well, let me -- let me pose a question  
8 to you. And then we'll -- we'll -- we'll focus on it,  
9 the -- from the NAACP Galveston branch's understanding  
10 of it, if you know.

11 A. Okay.

12 Q. If -- from their point of view, is -- do you  
13 see any benefit to having just the city of Galveston,  
14 the entire Island, in one precinct, represented by one  
15 commissioner?

16 A. I don't know why they would do that. I  
17 don't.

18 MS. CHEN: Objection, incomplete  
19 hypothetical.

20 A. No. Yeah, I don't -- I really don't know the  
21 answer to that question.

22 Q. (BY MR. RUSSO:) Okay.

23 A. As far as NAACP.

24 Q. What about you as an individual Galveston  
25 resident?

1 A. I feel that was unnecessary.

2 Q. It's unnecessary to have one -- just I want  
3 to make sure I understand your answer. It's  
4 unnecessary to have one commissioner for the entire  
5 Island?

6 A. To Precinct 2, to complete the entire  
7 Island -- Island in Bolivar.

8 Q. Uh-huh.

9 A. Because it dilutes the population for what  
10 we're trying to do equal for everybody.

11 Q. Right. Well, just stick with me on the  
12 Island of Galveston?

13 A. Okay.

14 Q. And we'll deal with Bolivar. And I -- I  
15 realize it's in the same precinct. But my question is,  
16 from your perspectives, and you've lived here your  
17 whole life, do you see any benefit to all of Galveston  
18 Island having one commissioner representative on county  
19 government?

20 MS. CHEN: Objection, incomplete  
21 hypothetical.

22 Q. (BY MR. RUSSO:) You can answer.

23 A. No. I don't -- I don't really understand all  
24 that. But -- so it's kind of hard to answer that  
25 question. I'm just going to say I don't understand

1 that, where it would be beneficial.

2 Q. Okay. It -- it's really -- I'm not trying to  
3 trick you. I just wanted to know if you had a -- a few  
4 on it. And if -- if you don't, you don't. The -- you  
5 -- but you do -- I mean, you -- you do have an  
6 intention to reach out to Commissioner Giusti at some  
7 point?

8 A. Yes. I would like to know him and meet him,  
9 definitely.

10 Q. Yeah. He might turn out to be a good  
11 commissioner for you, wouldn't you agree?

12 A. I don't know, but he might.

13 MS. CHEN: Objection, speculation.

14 A. I have to meet him and find out.

15 Q. (BY MR. RUSSO:) Yeah. Does the NAACP believe  
16 there's a sort of -- a history of official  
17 discrimination in Galveston County? And by official  
18 I'm referring to sort of the state entities.

19 A. I can't answer that question.

20 Q. Okay. Well -- now, what about --

21 A. I think my brain is tired.

22 Q. Yeah, I get it. Mine is, as -- as well.

23 MS. CHEN: You want to take a break?

24 Q. (BY MR. RUSSO:) Mine is, as well.

25 THE WITNESS: Yeah.

1 MS. CHEN: We can take a short break.

2 THE WITNESS: Okay.

3 MS. CHEN: You -- you're all right  
4 with that?

5 MR. RUSSO: Yeah, I'm fine with that.

6 THE WITNESS: It's -- it's been a long  
7 day.

8 THE VIDEOGRAPHER: Going off the  
9 record, 3:35.

10 (Off the record.)

11 THE VIDEOGRAPHER: Going back on the  
12 record, 3:50 p.m.

13 Q. (BY MR. RUSSO:) Okay. I had another question  
14 about -- related to the allegations in the case. I  
15 don't think we need to refer to the complaint. We  
16 might, but let me just try to see if I can do it this  
17 way. Do you know anything about racially polarized  
18 voting?

19 A. No.

20 Q. Okay. Fair enough. Did you -- are you  
21 aware, as the representative for Galveston NAACP, of  
22 any research that the branch has done on socioeconomic  
23 disparities between different races? And we'll start  
24 at Galveston, the City of Galveston?

25 A. No.

1 Q. Okay. What about in Galveston County?

2 A. I know about some that has been done for  
3 other members that work other jobs. And they come to  
4 NAACP meetings, and they present.

5 Q. They're NAACP members that do their work,  
6 research?

7 A. It's not -- they are -- they are members of  
8 the NAACP. And they do research for different  
9 organizations. And they present to us.

10 Q. Can you give me an example of who -- of -- of  
11 the type of research you're talking about, or  
12 organization?

13 A. Like, for example --

14 THE WITNESS: Is it okay to call the  
15 organization name?

16 MS. CHEN: Yeah.

17 A. Nia Culture.

18 Q. (BY MR. RUSSO:) Niel?

19 A. N-I-A, Nia Culture with Sue Johnson.

20 Q. Okay.

21 A. They do a lot of research and stuff.

22 Q. And do -- do they look at a specific area,  
23 health, education, or is it just general?

24 A. Mostly educational with her. Mostly  
25 education.

1 Q. I think I've seen a couple of those. They're  
2 on the internet?

3 A. Yes.

4 Q. Yeah. Do they principally look at GISD or  
5 all districts?

6 A. Mainly GISD. I didn't see anybody else.

7 Q. And are -- are one or both of those  
8 individuals are they on the -- are they on the board or  
9 do you have some association with GISD?

10 A. No, she's not on the board.

11 Q. What -- does she have an association --

12 A. Well, yeah, she -- she was. She was working  
13 with the youth. Sue Johnson, you know, she works with  
14 Nia Culture.

15 Q. Uh-huh.

16 A. And they do -- what is that program they do  
17 in the summer with all of the kids?

18 Q. Uh-huh.

19 A. I can't think of the name of it right now.

20 Q. Okay. That's okay. I -- I -- I just -- I'm  
21 trying to refresh my own memory of that, so that --

22 A. But if you go to her site you'll see it.

23 Q. Yeah. I think I've seen that. Thank you.  
24 Any others that you can think of? And -- socioeconomic  
25 studies related to racial inequality?

1 A. No.

2 Q. Okay. Do you, on -- on behalf of the --  
3 let's stick with the branch --

4 A. Okay.

5 Q. -- testimony. Are -- do you believe there's  
6 a history of official, sort of governmental,  
7 discrimination in Galveston County?

8 A. Yes.

9 Q. And so can -- what examples are you thinking  
10 about there?

11 A. It's just that -- you know, like I said  
12 earlier, it's just been -- I've -- I've been here for a  
13 long time. So it's just been a long line of  
14 discrimination. You know, when I think about  
15 discrimination I think about segregated schools.

16 Q. Uh-huh.

17 A. Having old text books. When I went to  
18 Central we got textbooks that was left over. The  
19 students had used them three or four years. So they  
20 were not in the best condition.

21 And I think that -- I don't know if the  
22 county have anything to do with that or not. I would  
23 think that they would. A lot of discrimination -- like  
24 you go -- I don't know where you live, but in a lot of  
25 the influential neighborhoods the streets are paved.

1 They're good.

2 Our neighborhoods, there's potholes

3 everywhere. And trying to get my house you could ruin

4 a whole car.

5 Q. Uh-huh.

6 A. So I feel like the -- the -- the county could

7 do better with that. The entrance to the McDonald's

8 over there on 53rd, there's so many wrecks there all

9 the time.

10 Q. Let me see.

11 A. 53rd and Broadway.

12 Q. I got you. Yes, yes, yes. I'm with you.

13 A. The congestion. Right now the

14 county's working in front of our church, on 37th.

15 They've had construction there for like the last three

16 or four months.

17 We can't -- people don't even want to come to

18 church because there's nowhere to park. So, yes, I --

19 I don't -- and I could be wrong, but I don't think I

20 am.

21 I don't think they do that in all

22 neighborhoods. Like for one example -- and I'm going

23 to be short. I was at Joe -- not Joe's house. I was

24 at Steve McIntyre's house.

25 And so I say, "Steve, you better tell them

1 | they parked on the wrong side of the street, they  
2 | better move their car," and he said, "Pat, they don't  
3 | do that here."

4 | I was like, "Oh." Because they give us  
5 | tickets, they tow the car off, you know. So, yes, I  
6 | think that it's -- it's still a lot that exists, you  
7 | know. Steve had educated me on a lot of that stuff,  
8 | you know, Steve was a lawyer. You know Steve?

9 | Q. I do.

10 | A. He's a very -- very nice guy. But it's just  
11 | certain things that happen in certain neighborhoods  
12 | that don't happen in other neighborhoods.

13 | Q. And do you attribute that to sort of a  
14 | discriminatory position? You know, protecting certain  
15 | neighborhoods versus others?

16 | A. Right.

17 | Q. Is that kind of where you're headed with  
18 | that?

19 | A. Right. Right. I feel like the -- we -- the  
20 | county could do better, that the city could do better.  
21 | We just need to do better.

22 | Q. Have you ever expressed those concerns to the  
23 | city officials?

24 | A. No. I expressed it just to my pastor.

25 | Q. Okay.

1           A.    I have -- I go to city council meetings.  I  
2    have -- well, I have been.  I was one at one last week.  
3    I haven't been to one lately.  I was at -- at one last  
4    week, with the discussion about the parks board.

5           Q.    Uh-huh.

6           A.    And what's going on with the city manager,  
7    all that kind of stuff, and the -- and Juneteenth.  So  
8    I like to attend the meetings because they're so  
9    educational.  You just learn what's going on in your  
10   city.

11          Q.    Yeah.  Sometimes too much.

12          A.    They can go on for a long time.  But I  
13   actually -- actually went to the workshop.  And I know  
14   you guys probably don't get to go.  But at the workshop  
15   that morning is when they really discuss everything  
16   before they bring it to the city council meeting,  
17   before the public.

18          Q.    Right.  So do you -- do you know, of the  
19   things that you -- you talked about, the -- the central  
20   aside, because I think that was a little bit older in  
21   time, right?

22          A.    Uh-huh.

23          Q.    But the other things -- I think you mentioned  
24   street issues?

25          A.    Lights.

1 Q. And --

2 A. And my neighbors keep saying --

3 Q. Lights.

4 A. -- "Pat, why don't you tell them to put some  
5 streetlights out here?" I'm, like, "Why don't you tell  
6 them."

7 Q. And those --

8 A. Streetlights.

9 Q. Yeah. Those are -- would you agree those are  
10 -- the -- the items you mentioned are principally City  
11 of Galveston issues; would you agree?

12 A. Yeah. Some of them are -- yeah, they are  
13 city and county. I think they all responsible.

14 Q. Yeah. Have you -- have you ever discussed  
15 any of those issues with the county?

16 A. With the --

17 Q. With the county?

18 A. With District 1 City Council. Right now it's  
19 Sharon -- Sharon Lewis. She's with the City Council  
20 District 1. And then before her it was Amy Bly. And  
21 Amy, she was really a take action person. I had a  
22 complaint, you know, let her know and she really tried  
23 to fix it.

24 Q. Uh-huh. Did you ever talk to any of the  
25 county commissioners about any of those issues?

1 A. No.

2 Q. Do you have a belief as to whether -- if the  
3 county commissioners could help any of those situations  
4 that they would do what they could?

5 A. I imagine, if they could. I'm not going to  
6 say they wouldn't. I don't --

7 Q. Yeah. That's what I want to -- I mean, do  
8 you have any --

9 A. I think -- like I see the city council people  
10 more --

11 Q. Uh-huh.

12 A. -- than I see the county commissioner. So I  
13 don't really go to a lot of their meetings. I go to  
14 most city council meetings. Housing meetings. There's  
15 only so many meetings you can go to, so much you can  
16 do. But --

17 Q. Okay.

18 A. School board.

19 Q. Is -- is there anything else that you would  
20 -- that -- that comes to mind, you think, about, sort  
21 of official or state-driven discrimination in Galveston  
22 County? Any other example?

23 A. I don't think it's any more than anywhere  
24 else, you know. I do feel comfortable, more  
25 comfortable, going to businesses here in Galveston than

1 I to into some other places.

2 Like my family lives in Beaumont. And when  
3 you go across Bolivar, going to -- in that direction,  
4 you might lose your life going to the bathroom over  
5 there.

6 You know, we have tried to stop when we're  
7 traveling and use the restroom. They tell us to keep  
8 moving.

9 Q. You're saying in the -- over on the Bolivar  
10 Peninsula?

11 A. Uh-huh.

12 Q. Is that into Jefferson County?

13 A. Not just -- not just -- yeah, going all the  
14 way into Jefferson County.

15 Q. Okay.

16 A. From the -- when we leave Galveston, going on  
17 up to -- what is that island? Highland.

18 Q. Highland?

19 A. Uh-huh. When you make that turn. You know,  
20 once you turn on Highland, turn left, there's hardly  
21 anything there until you get to Winnie.

22 Q. Understood. Okay. And so that --

23 A. So you better use the restroom before you  
24 leave home.

25 Q. Yeah. There -- there's --

1           A.    It's not as bad as it used to be, but it's  
2 still an issue.

3           Q.    Okay.  Are there -- have you had any -- other  
4 than sort of the feeling, have you had any particular  
5 run-ins with -- with officers out in Winnie, Jefferson  
6 County folks?

7                       MS. CHEN:  Objection, misstates  
8 testimony.

9           A.    No.  I drive the speed limit.  I try not to  
10 get stopped at all.

11           Q.    (BY MR. RUSSO:) Okay.  All right.  Just in  
12 general, is it -- do you have any thought, belief, as  
13 to whether the Black voters vote for the same candidate  
14 in a -- you know, given -- particular race?

15                       MS. CHEN:  Objection, asked and  
16 answered.

17           Q.    (BY MR. RUSSO:) Yeah, you can answer.

18           A.    Repeat that question.

19           Q.    And generally speaking, is it your belief  
20 that Black voters vote for the same candidate in a  
21 particular race?

22                       MS. CHEN:  Objection.  In -- in her  
23 personal capacity or a friend of NAACP?

24           Q.    (BY MR. RUSSO:) Personal is fine.

25           A.    It just depends on what the issues are.

1 Q. Okay. So then they -- I guess the -- from  
2 your perspective the -- the -- the actual vote depends  
3 on the issues, not just the candidate, agreed?

4 A. Not just the candidate.

5 Q. You mentioned earlier that -- that one of the  
6 things that you would like to see -- and I think it was  
7 on behalf of the NAACP, but I don't want to misstate.  
8 One of the things that you want to see is a -- a -- a  
9 minority candidate -- not minority candidate --  
10 minority commissioner on city -- commissioners court?  
11 It's late for all of us.

12 A. Yes.

13 MS. CHEN: Objection, misstates  
14 testimony.

15 Q. (BY MR. RUSSO:) Do you recall that  
16 discussion, discussing that topic?

17 A. Uh-huh.

18 Q. Is there any particular reason why you  
19 believe that's important, to have a minority candidate  
20 -- a minority commissioner on the county commission?

21 A. I think it's always important to have  
22 somebody that look like you on the county commission,  
23 on the City Hall, in your schools, your churches.  
24 Whether you are. It's just very uncomfortable being  
25 the only one.

1 Q. Uh-huh.

2 A. I mean, why shouldn't we just have one, at  
3 least? I prefer we had two. I want a Black and a  
4 Hispanic.

5 Q. Do you have any understanding or belief as to  
6 why there's not a Hispanic county commissioner?

7 A. I can't understand that because Hispanics are  
8 the majority of the population.

9 Q. Yeah. So as you sit here today you don't  
10 have an explanation for why it is, that there's no --

11 A. I don't have an explanation.

12 Q. There's no minority -- there's no Hispanic on  
13 the county commission?

14 A. Not that I know of.

15 Q. Have you ever talked to any of the folks at  
16 LULAC about that?

17 A. No.

18 Q. Do they ever express to you that same concern  
19 or question?

20 A. No.

21 Q. Have you -- have you personally seen any --  
22 or recall any instances of sort of discriminatory  
23 conduct against individuals in Galveston County over  
24 the past five years?

25 A. Have I personally seen?

1 Q. Yes, ma'am.

2 A. I've heard so much. Let me think of what  
3 I've actually seen. I saw the man with the horse  
4 incident. I saw him on television, where they had him  
5 walking in between the house -- walk in between the  
6 horses --

7 Q. Uh-huh.

8 A. -- on the seawall -- I mean on the strand  
9 with that particular incident. I didn't -- I wasn't  
10 there to see it personally, but I did see it on  
11 television and that was to the extreme.

12 I mean, they was in -- it was in -- within  
13 the log -- it was still on the logbooks. But, I mean,  
14 that's what I was told. But like I told you about  
15 myself, about my incident --

16 Q. Right. I -- I remember you telling me.

17 A. About my personal incident. I can tell you  
18 that my children, when they went off to college and  
19 came home, they couldn't get hired in Galveston. They  
20 had to leave and go find jobs elsewhere.

21 And especially my oldest. She had a degree  
22 in communication. And there were several positions  
23 open. And they wouldn't call her for an interview.  
24 And, you know, that's why so many people -- and I don't  
25 know if you all experienced it with your children, too.

1 They go off to college and they can't come home. They  
2 can't find a job.

3 Q. Yeah.

4 A. And they have to move somewhere else. I  
5 don't have any children live here. I have three. And,  
6 but I just say thank God I have my sisters.

7 Q. Well, do you -- do you attribute that -- that  
8 sort of not finding a job to a lack of industry on the  
9 island or is it --

10 A. It's a lack of --

11 Q. -- is it a racial issue?

12 A. It's -- I think it's both.

13 Q. Okay.

14 A. It's a lack of industry, and then it's also a  
15 racial injury -- issue. And some companies are just  
16 individually owned and they just hire family members.

17 Q. Uh-huh.

18 A. And it's just harder to get in, to get a job.

19 Q. In -- in relation to the -- your -- is there  
20 any specific instance that you would reference in  
21 connection with your -- your kids getting a job? Like  
22 were -- were they turned away for a particular reason  
23 that you're aware of?

24 A. No, no. They never even got an interview.

25 And so -- you know, most of my nieces and nephews, they

1 don't live here, either. They have -- they had to go  
2 other places to find jobs. And that was even before,  
3 with the rent. Now it's going to be even harder.

4 Q. Yeah. But that's been an issue in Galveston  
5 for a while, though; wouldn't you agree? I mean,  
6 there's a limited amount of space here, agreed?

7 A. Maybe, but, you know, after Ike we lost a lot  
8 of our population, but we also lost a lot of our  
9 housing.

10 Q. Right. Where do -- where do the -- your  
11 older -- where do your kids live? Are they in  
12 Galveston County? I know where Ervin lives, so not  
13 him.

14 A. No, no.

15 Q. But the others?

16 A. Joyce is in Houston and Yolanda's in  
17 Nashville.

18 Q. Okay. Had they ever made residence in  
19 Galveston County, other than after -- let me -- let me  
20 strike that question.

21 After they graduated from high school  
22 and went on to college, have they ever come back and  
23 lived in Galveston County?

24 A. They come -- they came back to find jobs.  
25 And after they couldn't they had to move on.

1 Q. Okay. Did any of them spend as --

2 A. Not Ervin, but both the girls.

3 Q. I know he didn't come back.

4 A. Okay.

5 Q. And I know why. He found a home. It's  
6 a beautiful city, Austin, by the way. Okay. And we  
7 talked about the needs of -- I'm trying to clean up  
8 here. So we talked about the needs of individuals  
9 located in old Precinct 3.

10 A. Uh-huh.

11 Q. And we talked about, I think, the low income  
12 -- problems that -- that low income individuals deal  
13 with. Are there any other needs that you can think of,  
14 that are particularized to individuals that live in old  
15 Precinct 3?

16 A. Like I was saying, streetlights, roads. You  
17 know, taking care, or better care.

18 Q. Yeah. Do you see -- is there any -- is the  
19 -- is there difference between the needs of the -- that  
20 you're aware of, between the Black residents within  
21 those areas, and the Latino residents within those  
22 areas?

23 A. No. I don't see any difference.

24 Q. You don't --

25 A. Because everybody needs streetlights and --

1     yeah.

2             Q.    Okay.

3             A.    Everybody needs those.

4             Q.    All right.  And what -- let's -- let's take  
5     it a little further, if you can answer.  What about  
6     Black residents that were still in old Precinct 3, but  
7     that lived in, say, Texas City, and those that lived in  
8     -- in Galveston Island?  Do you see any difference in  
9     needs between those two sets of folk?

10            A.    I don't really know because I don't know  
11     Texas City.  I don't want to live in Texas City because  
12     I don't like driving by the plants.  All that  
13     pollution.  But to each their own.

14            Q.    The same would be true with the Latino  
15     residents in those two area?

16            A.    I don't -- like -- like I say, I don't really  
17     know about Texas City.  I can't really speak on that.  
18     I I can just speak on -- I had a good chiropractor over  
19     there.

20            Q.    A good --

21            A.    Chiropractor.

22            Q.    Chiropractor?

23            A.    Uh-huh.  But I don't go there often.

24            Q.    All right.  So I'm going to ask a broad  
25     question related to Galveston County first.

1 A. Okay.

2 Q. And so as -- as -- as is -- exist in  
3 Galveston County, do you think that the needs of the  
4 Latino population and the needs of the Black population  
5 are -- are the same?

6 MS. CHEN: Can we clarify, individual  
7 or NAACP capacity?

8 Q. (BY MR. RUSSO:) NAACP?

9 A. Yes.

10 Q. And what's the basis for that? Why do you  
11 think that?

12 A. Because they're all just about the same level  
13 of income. Some a little bit better. And they just  
14 have greater needs. Have greater needs, especially in  
15 times of catastrophic -- when something happens.

16 Q. And greater needs than the non-minority  
17 groups, I guess, is what you're saying?

18 A. Just -- you're asking about the Precinct 3?  
19 You know, just take for example when Hurricane -- I  
20 came. I was able to get myself off the island. Most  
21 people in that precinct couldn't.

22 I was able to provide food for myself, and  
23 housing for myself. If you don't have the income you  
24 can't do that.

25 Q. Uh-huh.

1           A.    You know.  So it doesn't matter.  If you're  
2   Hispanic, you're White, you're Black, if you don't have  
3   the means you can't do it.  People are like, "Why they  
4   can't their self off the island?"

5                    Because they don't have enough money.  When  
6   they get through paying their bills they don't have  
7   anything left to save.  They can't save 10 percent,  
8   title 10 percent.  They need 100 percent just to live  
9   on, plus some.

10          Q.    Uh-huh.  Okay.  All right.  I think that's  
11   consistent with what we talked about earlier, about  
12   those being sort of the income-related needs?

13          A.    Yes.

14          Q.    Agreed?

15          A.    And that's why the City has to provide buses  
16   to help them to get off the island when there's a  
17   hurricane, because they can't themselves off.

18          Q.    Right.  Is it your feeling that Galveston  
19   County has been unresponsive to the needs of the Black  
20   community in Galveston County?

21          A.    I don't know how to answer that question.  I  
22   think -- you really want my opinion?

23          Q.    Yes, ma'am.

24                    MS. CHEN:  Your -- individual opinion  
25   or NAACP opinion?

1 MR. RUSSO: Well, I want the -- I need  
2 to hear it for the NAACP's view of it first.

3 A. I don't really know the NAACP view of it.

4 Q. Okay.

5 A. But my view is if everybody would make a  
6 decent wage, and work 40 hours a week, you should have  
7 enough money that you can pay your rent and your  
8 utility bills, and buy you some kind of an automobile  
9 to get around in.

10 And if not, then the city -- if they're going  
11 to have all these low paying jobs they need to have  
12 buses running every 15 minutes so the people can hop on  
13 the bus and go where they need to go.

14 If the bus running every hour you can't get  
15 to work, you can't get your children to the day care.  
16 It's just problematic. It just doesn't make sense. So  
17 could we do better? Yes.

18 Us it discriminatory? Yes, because the wages  
19 are discriminatory. You know, like, when I worked at  
20 the hospital you have a nurse that makes \$20 dollars an  
21 hour, you have a nurse that makes \$40 an hour. It's  
22 discriminatory. It's life. It -- it -- it happens.

23 Q. In that instance were you -- are you talking  
24 -- speaking about a nurse that -- that specifically you  
25 relate -- differentiating between these two nurses by

1 | race? Is that the idea?

2 | A. Yeah. There's people -- you know, for  
3 | example, my sister was even told. She was the union  
4 | clerk. And they had another union clerk in that was  
5 | White.

6 | Q. Uh-huh.

7 | A. And they paid her way more money than they  
8 | paid them. And they asked why. And they said they can  
9 | pay who they want what they want. So it's  
10 | discriminatory. It needs to stop. In this day and  
11 | time it shouldn't be still going on.

12 | Q. Uh-huh.

13 | A. If I'm going to be in there, why should I  
14 | want the city to bill affordable housing for you. Why  
15 | don't I just pay you enough money so you can afford to  
16 | buy your own house. Why should you have to live in  
17 | Section 8 and get a voucher, and all that, when you're  
18 | working 40 hours a week.

19 | Q. Is there -- do -- do you attribute what you  
20 | just -- the issues you just spoke about, are -- are any  
21 | of those attribute to -- attributable to Galveston  
22 | County, the county --

23 | A. That's the only county I ever lived in.

24 | Q. The Galveston County government and what they  
25 | deal with?

1           A. Well, it's -- it's everything -- everything  
2 really -- it goes to the government. It starts with  
3 the government, you know. We pay our income tax. You  
4 probably pay three, four bills.

5           You probably take on three-fourths, and  
6 another fourth go for income tax and Social Security.  
7 I know when I was working that's the way it was. So I  
8 feel like -- I know it's a long answer.

9           But I feel like we just need to do better.  
10 If we want better we have to do better. If we don't  
11 want discrimination we have to stop it.

12          Q. Yeah. And I wasn't -- I guess maybe my  
13 question was bad. I was trying to focus on one  
14 governmental entity, the city -- the county --

15          A. You're trying to focus on the county  
16 commission. So we just have to really -- I think that  
17 what we really need to do is just get the job  
18 description, and what the county commissioners are  
19 supposed to be doing, what are they really responsible  
20 for.

21          Q. Uh-huh.

22          A. I know a lot about city, but not about  
23 county.

24          Q. Okay. Well, that's fair. I -- I understand  
25 what you're saying. Is it your -- your feeling, you

1 | individually, that the Galveston County -- let's just  
2 | -- let's take Joe Giusti, for instance. Do you think  
3 | Commissioner Giusti intended to discriminate against  
4 | minorities in adopting plan -- map 2 in his vote on  
5 | November 12th of 2021?

6 | A. Whether he did it intentionally or not he did  
7 | it.

8 | Q. Okay. You -- so -- and let me make sure I  
9 | understand. You think discrimination occurred, but  
10 | whether he intended to do it you don't know?

11 | A. I don't know.

12 | Q. Would the same be true with the other  
13 | commissioners, and their vote?

14 | A. You know --

15 | Q. They voted for the maps.

16 | A. That's right. That's right.

17 | Q. Okay. So what you're saying -- okay. Go  
18 | ahead.

19 | A. I think from the statement of the county  
20 | judge, Mark Henry, it was -- he was intentionally. But  
21 | the other one say -- he didn't say anything, so I don't  
22 | know what they were thinking.

23 | Q. Uh-huh. All right.

24 | A. But from his statement was "We know what we  
25 | done, and we don't care what you think about it."

1 That's the way I felt. And I'm sure that's the way the  
2 NAACP felt. And NAACP from Galveston, Texas City, and  
3 Dickinson was all represented at that meeting.

4 Q. Uh-huh.

5 A. Plus the Black Nurses Association was  
6 represented there, also. And a lot of the nurses  
7 belong to those branches, too.

8 Q. And under -- other than, I guess, Mark Henry,  
9 the -- your -- your view of it is you're not prepared  
10 to say that the other commissioners were intentionally  
11 discriminating in their vote, correct?

12 A. Uh-uh. I'm not prepared to say. They went  
13 along with him. They -- you know, they voted for it.  
14 And your vote is powerful.

15 Q. Is it -- is it your view, that -- let's take  
16 Commissioner Giusti, for instance. Just didn't pay  
17 enough attention to the maps and their effect?

18 A. I don't know.

19 MS. CHEN: Objection, speculation.

20 A. I don't know. You know, we're all guilty  
21 sometimes, voting for stuff, and not reading it all,  
22 and not paying attention. But I -- I -- I would think  
23 that since they had to take time to re-draw those maps  
24 -- or whoever helped them, that they knew what they  
25 were doing.

1 Q. (BY MR. RUSSO:) You -- are -- are you  
2 suggesting -- saying that the commissioners knew what  
3 they were doing?

4 A. (Witness nodding.) I'm -- I'm suggesting that  
5 the commissioners definitely knew what they were doing  
6 when they re-drew those maps. And they -- they saw  
7 those maps, whoever did the maps. I don't know. That  
8 they saw them before we saw them.

9 So I -- I'm -- they wouldn't have done it if  
10 they wouldn't have known what they were doing. I mean,  
11 that's -- that's their job, to know.

12 Q. Yeah. Have you -- have you had any  
13 conversations with anybody other -- other than counsel?

14 A. No.

15 Q. I wouldn't say counsel. But have you -- have  
16 you heard any explanations for why they did what they  
17 did?

18 A. No, sir. I haven't.

19 Q. Have you asked any of them?

20 A. No, I haven't even seen them.

21 Q. So as you sit here today you don't really  
22 know why they believe map 2 was the right choice for  
23 them?

24 MS. CHEN: Objection, misstates  
25 testimony.

1 Q. (BY MR. RUSSO:) You can answer.

2 A. I don't know.

3 Q. In terms of Mark Henry's, you -- you said you  
4 thought he acted intentionally?

5 A. Yes.

6 Q. What is it that makes you believe that?

7 A. His statement.

8 Q. At the -- at the hearing?

9 A. At the hearing.

10 Q. And the statement was -- the -- the statement  
11 you're referring to is something like "I don't care  
12 what" -- tell me what it was again.

13 A. I don't know his exact words. It was  
14 something like he doesn't care how many of us come up  
15 there, what we have to say, his mind was already made  
16 up, what he was going to do.

17 Q. Is there anything else that makes you think  
18 that -- that Judge Henry was intending -- intending to  
19 discriminate and -- and --

20 A. No. Before that day, no, absolutely not. He  
21 surprised me.

22 Q. All right. Yeah. We're -- we're -- we're  
23 getting pretty close.

24 MR. RUSSO: So let me go ahead and  
25 mark this.

1 THE REPORTER: Sure.

2 Q. (BY MR. RUSSO:) Do you need a break?

3 A. No, I'm okay.

4 Q. Okay.

5 A. I'm going to keep y'all here until 7:00

6 o'clock. It's 4:42.

7 MR. RUSSO: We'll get that marked.

8 THE REPORTER: Okay.

9 MR. RUSSO: That's 8?

10 THE REPORTER: Yes.

11 (Exhibit No. 8 marked.)

12 MR. RUSSO: 2.

13 THE REPORTER: Okay.

14 THE WITNESS: Okay. Thank you.

15 Q. (BY MR. RUSSO:) So I'll represent to you that

16 -- I'm sorry -- you're ready -- that what's been marked

17 as Toliver 8, and was handed to you by the court

18 reporter, are responses to interrogatory questions that

19 we -- that defendants sent to NAACP.

20 A. Okay.

21 Q. Are you aware of what an interrogatory is?

22 A. The same as, I guess, what happened, what

23 they feel.

24 Q. Yeah. Yeah. It's -- it's -- interrogatories

25 are a list -- list of questions that --

1 A. Okay.

2 Q. -- that we sit down and write and say,  
3 "Answer this question and provide it" --

4 A. Okay.

5 Q. -- "to the opposite side."

6 A. So that's all it is?

7 Q. Yes, ma'am. And then as a -- when you  
8 receive the discovery -- that -- that type of question,  
9 then counsel looks at it, the parties look at it, get  
10 together and answer, object to it, as there are  
11 objections in here, and then provide a response.

12 A. Okay. Oh, okay.

13 Q. So that's the responses by NAACP that were  
14 provided in -- in this case. And so my first question  
15 to you is: Have you seen those before today?

16 A. I don't think so. This is with the Bay Area.  
17 Terry Petteway, United States. I don't think this was  
18 in the one that I received. So --

19 Q. Okay. And if you look at the back, if -- the  
20 very back -- one, two, three, four, five, six pages.  
21 There's six pages of certifications signed by various  
22 people. So you've got to go to the last -- last few  
23 pages.

24 A. Okay.

25 Q. And you'll see that there's -- there's

1 certifications by Edna Courville --

2 A. Uh-huh.

3 Q. -- Mary Patrick, Barbara Rice Anders --

4 A. Okay.

5 Q. -- Robert Quintero, Leon Phillips, Joe

6 Compian. See those?

7 A. Uh-huh.

8 Q. Okay. And the certifications, I think  
9 they're are all the same, generally. But they're  
10 basically -- they say, "I declare under penalty of  
11 perjury, under the laws of the United States of  
12 America, that the foregoing is true and correct to the  
13 best of my knowledge," right?

14 A. Okay.

15 Q. And so -- and then the individuals signed --  
16 signed those, basically saying "What's in the  
17 interrogatory response is true to best of my  
18 knowledge."

19 A. Okay.

20 Q. See that? So I want talk to you just about a  
21 -- an interrogatory. Let's see a couple of these, not  
22 many?

23 A. Okay.

24 Q. If you look at page 9 --

25 A. Interrogatory 1.

1 Q. -- Interrogatory No. 1 at the -- the top.  
2 The interrogatory itself, that states -- the -- the  
3 question we ask is "Identify all persons or entities  
4 who have investigated or who you have knowledge of  
5 plaintiff's allegations in or the facts of this  
6 lawsuit." Do you see that?

7 A. I'm sorry. I missed what you said. Which  
8 one is you reading? Oh, okay. Again, Okay. I see it.

9 Q. Yeah. So go ahead and read that and just so  
10 you -- and tell me if it's accurate. Not -- not the  
11 whole thing. Just tell me if the -- if Interrogatory 1  
12 is asking to identify all persons or entities --  
13 entities who have investigated or who have knowledge of  
14 plaintiff's allegations.

15 A. Okay. And those are the ones that you have  
16 here listed?

17 Q. Right. Well -- so -- and the -- and the  
18 response to that is -- NAACP provided a response with  
19 various entities. Do you see that?

20 A. Uh-huh.

21 Q. And my question is: Do you know -- do you  
22 have any idea why you're not on here?

23 A. I wasn't -- I wasn't -- that's what I want to  
24 know, why I'm up in here. (Laughter.) No, I don't. I  
25 see Mary Patrick is on here. And she is apparently the

1 representative for our branch.

2 She is the president. Okay. And then a -- a  
3 list of other witnesses. Oh, okay. Because of  
4 November 12th. Yeah. Okay. And I was at that  
5 hearing.

6 Did all of my -- okay. Okay. So November  
7 12th. I'm really exhausted. What is it that you want  
8 me to know off of this?

9 Q. Well -- so my -- my question is, is it -- I  
10 mean, you -- you see, you're not listed on here at all?

11 A. No.

12 MS. CHEN: Mr. -- she's -- she is  
13 listed in terms of being an individual who testified,  
14 or attended the November 12, 2021 hearing. And y'all  
15 had a sign up list of folks who were there. So that's  
16 how you would have gotten her name.

17 MR. RUSSO: Okay.

18 MS. CHEN: And we also intend to  
19 supplement these responses.

20 MR. RUSSO: No -- no problem.

21 Q. (BY MR. RUSSO:) I -- I just -- I'm not  
22 suggesting any foul play. I just want to know what is  
23 -- would you -- looking at the list on page 9 of NAACP  
24 plaintiffs and counsel, and experts, you see that list,  
25 it starts "Galveston branch."

1 A. Galveston branch. Uh-huh.

2 Q. And then there's a -- a list of people under  
3 there?

4 A. -- Dickinson, Black.

5 Q. Yeah. Do you think those -- there are --  
6 there are individuals here that have more knowledge  
7 about the NAACP Galveston branch than you?

8 A. Of course.

9 Q. Who on this list do you think that would be?

10 A. The president.

11 Q. Mary -- Ms. Patrick?

12 A. Uh-huh.

13 Q. And then there's also a -- so then Rice --  
14 Ms. Rice is the president of Mainland branch, right?

15 A. Right --

16 Q. Is she still there?

17 A. I don't know if she's still they president.  
18 She was at that time, on the -- when this all occurred.

19 Q. Okay. And then what about Ms. Lofton? Is  
20 she still the president of Dickinson?

21 A. I don't even know her.

22 Q. All right. What about Mr. Quintero? Is he  
23 president of LULAC, that you know of?

24 MS. CHEN: Mr. Russo, I don't see how  
25 this is relevant or necessary.

1           A.    Mr. -- oh.  At that time I think Lillie  
2    Aleman was president.  Is this the new president,  
3    Robert Quintero?  He's the new president.  Because  
4    Lillie Aleman, she stepped down.

5           Q.    (BY MR. RUSSO) All right.

6           A.    I heard his name, but I never saw it in  
7    writing, Quintero.

8           Q.    Okay.  In preparation from you -- for your  
9    deposition today, did you speak with any of the  
10   individuals listed -- other than the organization, did  
11   you speak to any of these individuals?

12          A.    Only Mary Patrick when we were in the  
13   deposition preparation.

14          Q.    Okay.  And what -- what did -- what was she  
15   able to -- was she able to provide you information  
16   useful for today?

17          A.    You say was -- was she able to provide?

18          Q.    Yes, ma'am.

19          A.    I just went through these questions that  
20   y'all have.  We just went through them.  She -- she did  
21   have some information.  She -- yeah, most definitely.  
22   Most definitely.

23          Q.    Okay.  Was there anything specific that you  
24   recall, that she was able to let you know?

25                    MS. CHEN:  To the extent you can

1 answer without revealing anything we shared, and  
2 attorney-client conversations --

3 THE WITNESS: Okay.

4 MS. CHEN: -- you can answer his  
5 question.

6 THE WITNESS: What -- well, things  
7 that she said in there?

8 MS. CHEN: Uh-huh.

9 A. Yeah. She answered -- she had a lot of  
10 valuable information.

11 Q. (BY MR. RUSSO:) Okay.

12 A. Because she was present for some stuff that I  
13 wasn't.

14 Q. Right. Was -- was there anything specific  
15 that we -- whether we've already talked about it or  
16 otherwise, that she was able to provide you information  
17 related to the preparation for the deposition that you  
18 thought was useful?

19 A. Yes.

20 Q. What was that?

21 A. Those studies. And I can't remember. I'm so  
22 -- my brain is tired. Okay. Well, y'all have been  
23 questioning me all day. But, yeah, some of the --  
24 okay. Where is the packet, that we was at? Let's go  
25 back to number 1.

1 MS. CHEN: And just a reminder to only  
2 answer if it doesn't reveal any confidences from our  
3 attorney-client conversations.

4 A. Well, she was just able to help reinforce  
5 some of this stuff, to make sure that I had a really  
6 good understanding so -- you know, to prepare for the  
7 day.

8 Q. (BY MR. RUSSO) Okay. And -- but is there any  
9 -- in looking at the list -- I see you have the list in  
10 front of you, on Exhibit 1. Go ahead and look through  
11 that. And is there any -- any -- look at that list of  
12 things.

13 Is there anything, sitting here right now,  
14 that you can say, "Yeah, Ms. Patrick helped me with  
15 this area and this area?"

16 A. Yes. She did let me know when the deposition  
17 was going to occur, what time to be here. She  
18 explained -- she let me know about the "you" was going  
19 to mean NAACP, what time was the examination. We did  
20 discuss some of the facts, and some communication I  
21 wasn't a part of.

22 Q. Okay.

23 A. And we just went back and forth on what we do  
24 for our organizations, for fundraising, scholarships,  
25 and stuff like that.

1 Q. Okay.

2 A. Just refresh our memory. And I had pictures  
3 of some of the events. And some of the facts about the  
4 Black and Latino voters in Galveston County. That's H.

5 Q. And specifically on 8, what -- what -- what  
6 information did she provide you that you felt --  
7 thought was pertinent to this case?

8 A. Just about the cohesiveness -- cohesive --  
9 because I didn't really know about that.

10 THE WITNESS: Is that good? Could I  
11 say that?

12 Q. (BY MR. RUSSO:) Yeah. So the -- the --

13 THE WITNESS: I don't want to say the  
14 wrong thing.

15 Q. (MR. RUSSO:) And was -- and that -- did that  
16 -- was that the cohesiveness related to a study  
17 somewhere? Was that the one that was related to a  
18 study?

19 A. Uh-huh. I think so.

20 Q. And as we --

21 A. I'm going to tell you the whole truth. Right  
22 now I don't what I'm saying. I'm mentally exhausted.

23 Q. Okay. So there's only two -- two more --  
24 well is there anything else? If you want to -- finish  
25 scanning that list.

1 A. It's like --

2 Q. And if there's anything else that she -- she  
3 provided you information for.

4 A. I'm sure there is, but I don't know what in  
5 particular.

6 Q. Say that again. I'm sorry.

7 A. I'm sure there is because we did a lot of  
8 talking and -- and stuff.

9 Q. Okay. Would -- would you rather me sort of  
10 look at -- review the list and talk to you about what  
11 those areas might be? Where were you, at 8?

12 MS. CHEN: She was at 10 H.

13 MR. RUSSO: Oh, 10 H.

14 THE WITNESS: This is so long, excuse  
15 me. I've still got this running all them.

16 MS. CHEN: She has already answered,  
17 saying that she doesn't remember the specifics because  
18 they -- they talked about -- they talk about --

19 MR. RUSSO: Uh-huh.

20 MS. CHEN: -- many things.

21 MR. RUSSO: Yeah. I'm trying to make  
22 it easy, if I can just find an area.

23 Q. (BY MR. RUSSO:) Was there -- did y'all have  
24 any discussion about any research or analysis of voting  
25 patterns of minorities?

1 A. Well, we didn't do the research. We just  
2 like -- we didn't -- the NAACP didn't do the research.

3 Q. Did not?

4 A. Uh-uh.

5 Q. No. Did she mention any -- any -- were --  
6 were there any studies or outside research that the  
7 NAACP --

8 A. Not that I know of.

9 Q. -- all right. What about any -- any  
10 complaints of discrimination within -- let's see --  
11 based on race or membership?

12 A. Racial membership?

13 Q. On race or membership in a language minority  
14 group in Galveston County?

15 A. No. What -- what are you talking  
16 about, joining the NAACP?

17 Q. No, no, no. So number 17, it says "Any  
18 complaint of discrimination based on race, or  
19 membership in a language minority group in Galveston  
20 County, or by any counsel, agency, or official."

21 A. Not that I know of. I don't remember.

22 Q. Okay. And then what about number -- so  
23 number 18 is sort of a new area. Do you -- what do you  
24 know about the retention agreement for counsel, lawyers  
25 in this case? Have you seen one?

1           A.    Sarah, she's a -- Sarah's a lawyer, right  
2 here, right?

3           Q.    Right.  But do you know, is there an  
4 agreement between Ms. CHEN and her firm, and the -- and  
5 NAACP related to representation in this case?

6           A.    They had to have an agreement.  She represent  
7 us, huh?

8           Q.    My understanding is she represents you.  I  
9 think she would agree.

10          A.    Yeah.

11          Q.    But my question to you is, do you -- have you  
12 seen any agreements between the two parties?

13          A.    I don't know.  I think this is it, isn't it?  
14 The agreement -- we had this plaintiff stuff.  This is  
15 all -- that everybody agreed on.

16          Q.    Yeah.

17          A.    I'm sure they wouldn't have put it in black  
18 and white if they didn't agree on it.

19          Q.    Well, what I was looking for was, you know,  
20 is there -- what rates are being charged and --

21          A.    Oh, I don't know.  No, sir.

22          Q.    -- how -- how is the expenses being dealt  
23 with.  I don't know.

24          A.    I have no idea.

25          Q.    No clue.  Okay.  Did -- do -- do you know

1 what that is? Do you know what rates, what are -- what  
2 you're being charged for the -- the case?

3 MS. VALL-LLOBERA: Objection,  
4 privileged.

5 MR. RUSSO: That's not privileged.

6 MS. VALL-LLOBERA: Yeah. On a first  
7 amendment basis and financial --

8 MR. RUSSO: That is not privileged,  
9 particularly when you are asking for fees in this case.  
10 It should have been produced.

11 Q. (BY MR. RUSSO:) And so the question -- and --  
12 and -- and I think you're --

13 A. No, I do not know.

14 Q. That's -- that's what I figured you were  
15 going to say. Last thing. Well, do you know anything  
16 -- or what do you know? What is the NAACP Galveston  
17 branch's retention schedule for documents and  
18 documentation? Is there a time after which material is  
19 just thrown away or discarded, that you know of?

20 A. Not that I know of.

21 Q. Okay. Do you know how long emails are kept?

22 A. The secretary would know that.

23 Q. Is there a separate, yeah, server or place  
24 where NAACP materials are kept, emails are kept and  
25 stored?

1 A. They -- NAACP have an email address.

2 Dr. Scott have it. I'm sure she could -- takes care of  
3 all that.

4 Q. Okay. Is --

5 A. She's probably the one who gave you all the  
6 letters that you have that -- it's best probably  
7 Dr. Scott.

8 Q. Yeah. That may be true. I -- I was just  
9 hoping you might be able to let me know if there's a  
10 schedule --

11 A. No.

12 Q. -- by which documents run off the -- they get  
13 destroyed?

14 A. No not that I know of.

15 Q. Okay.

16 A. I tear mine up when the meeting over.

17 Q. Yeah. Oh, you tear yours up?

18 A. It's too many meetings. I can't keep all  
19 that stuff.

20 Q. All right.

21 A. The -- my email has it. I can pull it up. I  
22 can pull it up in my email, you know. I put in a  
23 search.

24 Q. Uh-huh.

25 A. If it's something I really need to know.

1 Q. That's -- that's an interesting question. It  
2 brings up a -- did -- did the officers, president, vice  
3 president, secretary -- do you have your own NAACP  
4 email address?

5 A. No. Only -- I just have my personal email  
6 address.

7 Q. Okay. All right. Do you know, is -- does  
8 anybody have one of those, a -- a -- an @NAACP.org or  
9 something like that, is what I was asking about.

10 A. If so it's going to be the president's  
11 secretary.

12 Q. Okay. As you sit here, can you think of any  
13 documents that you might have that relate to this case  
14 that you haven't already provided to counsel?

15 A. No. I didn't even know all these existed.

16 Q. All right. What about the 20 -- 2011 and '12  
17 redistricting --

18 A. Joe Compian and Steve McIntyre handled the  
19 majority of that.

20 Q. Okay. Can you think of any materials you  
21 might have sitting around your -- your house that  
22 hasn't been already provided?

23 A. No. If they were my baby girl done got rid  
24 of them a long time ago. She says it's too much junk  
25 over there.

1 Q. Yeah. Just --

2 A. No, I don't think so.

3 Q. I understand. Okay.

4 MR. RUSSO: I'm going to pass the  
5 witness. I appreciate your time.

6 THE WITNESS: Thank you. Appreciate  
7 y'all time.

8 MS. CHEN: And no questions from us.  
9 We'll reserve for trial.

10 THE WITNESS: Thank you.

11 MS. CHEN: Can we please sign and --  
12 review -- review and sign the transcript? Thank you.

13 MR. RUSSO: And I'm going to hold you  
14 to telling Ervin I said hi.

15 THE WITNESS: The whole packet.

16 THE REPORTER: Okay. Did you just  
17 want the read and sign, no copy?

18 MS. CHEN: And we'll order a copy as  
19 well. You can send it to me, to my email.

20 THE REPORTER: To the email, okay.

21 THE VIDEOGRAPHER: Off the record,  
22 4:39.

23 (Off the record.)

24 (Proceedings concluded.)

8                               REPORTER'S CERTIFICATE  
9                               ORAL/VIDEOTAPED DEPOSITION OF  
                                  PATRICIA TOLIVER  
                                  MARCH 28, 2023

10           I, NILDA CODINA, Notary in and for the State of  
11           Texas, hereby certify to the following:

12           That the witness, PATRICIA TOLIVER, was duly sworn  
13           by the officer and that the transcript of the oral  
14           deposition is a true record of the testimony given by  
15           the witness;

16           I further certify that pursuant to FRCP Rule 30  
17           (e)(1) that the signature of the deponent:

18           \_\_\_\_\_X\_\_\_\_\_ was requested by the deponent or a party  
19           before the completion of the deposition and returned  
20           within 30 days from the date of receipt of the  
21           transcript. If returned, the attached Changes and  
22           Signature Page contains any changes and the reason  
23           therefor;

24           \_\_\_\_\_ was not requested by the deponent or a  
25           party before the completion of the deposition.

1 I further certify that I am neither attorney nor  
2 counsel for, related to, nor employed by any of the  
3 parties to the action in which this testimony was  
4 taken.

5 Further, I am not a relative or employee of any  
6 attorney of record in this cause, nor do I have a  
7 financial interest in the action.

8 Subscribed and sworn to on this 20th day of April,  
9 2023.

1 P-R-O-C-E-E-D-I-N-G-S

2 THE VIDEOGRAPHER: Good morning.

3 We are going on the record at 9:01 a.m.,  
4 April 14th, 2023. This is the video  
5 recorded deposition of Jessica Trounstine,  
6 taken in the matter of Terry Petteway, et  
7 al, versus Galveston County, Texas, et al,  
8 filed in the United States District Court,  
9 Southern District of Texas, Case Number  
10 3:22-cv-00057, Consolidated.

11 My name is Emmanuel Pezoa from  
12 the firm Veritext Legal Solutions. The  
13 court reporter is Desirae Jura from the firm  
14 Veritext Legal Solutions.

15 Will counsel please state their  
16 appearances and affiliations for the record?

17 MR. SHEEHY: Yes, good morning.

18 My name is Shawn Sheehy at the law firm of  
19 Holtzman & Vogel for the defendants,  
20 Galveston County.

21 MS. JAYARAMAN: Good morning. My

1 name is Tharuni Jayaraman on behalf of the  
2 United States. And I am joined by my  
3 colleagues, Catherine Meza and Toby Moore.

4 THE VIDEOGRAPHER: Will the court  
5 reporter please swear in the witness?

6 WHEREUPON --

7 JESSICA TROUNSTINE,  
8 a Witness called for examination, having  
9 been first duly sworn, was examined and  
10 testified as follows:

11 EXAMINATION

12 BY MR. SHEEHY:

13 Q. Will the witness please say and  
14 spell your name for the record?

15 A. Yes, my name is Jessica  
16 Trounstine, J-E-S-S-I-C-A,  
17 T-R-O-U-N-S-T-I-N-E.

18 Q. Professor Trounstine, good  
19 morning. My name is Shawn Sheehy. I'm an  
20 attorney at the law firm of Holtzman & Vogel  
21 in Washington, D.C., and I represent the

1 defendants in this action Galveston County,  
2 et al., and I am joined by my colleague, Ms.  
3 Sharon Norwood.

4 A. Good morning.

5 Q. Good morning. Professor  
6 Trounstine, where do you reside?

7 A. I reside in Merced, California.

8 Q. Have you ever lived in Texas?

9 A. I have never lived in Texas.

10 Q. Have you -- prior to this case,  
11 have you ever studied elections in Texas?

12 A. Can you clarify if you mean in my  
13 academic work?

14 Q. Well, we'll start out with that.  
15 In your academic work, have you ever studied  
16 elections in Texas?

17 A. I have, yes.

18 Q. Okay. Have those studies been  
19 published?

20 A. Yes, I published a book called  
21 Political Monopolies in American Cities, and

1       there are several Texas cities included in  
2       my analysis.

3             Q.       Off the top of your head, do you  
4       recall which Texas cities?

5             A.       I know Austin is in the data set,  
6       Houston is in the data set, Dallas is in the  
7       data set. Those are the cities that I  
8       recall in the data set.

9             Q.       Is Galveston County in that data  
10       set?

11            A.       Galveston County is not in that  
12       data set.

13            Q.       All right. And approximately  
14       when was that book published?

15            A.       I published that book in 2008.

16            Q.       And did that book discuss  
17       racially polarized voting?

18            A.       The book discusses voting along  
19       racial lines, but it does not use the  
20       terminology racially polarized voting.

21            Q.       In your analysis of elections for

1 that book, did you conduct racially  
2 polarized voting analysis?

3 A. I did not conduct racially  
4 polarized voting analysis for that book.

5 Q. All right. So just I want to go  
6 over a few ground rules. Have you had your  
7 deposition taken before?

8 A. No, I have never been deposed.

9 Q. So for everyone on Zoom, I know  
10 we have a stenographer, but is anybody else  
11 on this call recording in any other way?

12 MS. JAYARAMAN: The United States  
13 is not.

14 MR. SHEEHY: And no other counsel  
15 for either the Petteway Plaintiffs or the  
16 NAACP Plaintiffs have joined? Hearing none.

17 MS. REYES: Bernadette Reyes for  
18 Petteway Plaintiffs, I'm not recording.

19 MR. SHEEHY: Thank you, Ms.  
20 Reyes.

21 BY MR. SHEEHY:

1 Q. Professor Trounstine, I know that  
2 Zoom has a mute function. And I am going to  
3 ask you not to use the mute function today  
4 unless it is clear we have gone on break.  
5 Does that sound fair to you?

6 A. That sounds fair to me.

7 MS. JAYARAMAN: Counsel, just to  
8 clarify, we're working through my log in for  
9 the audio, so I will not mute unless we're  
10 going on break.

11 MR. SHEEHY: Okay. Thank you  
12 very much.

13 BY MR. SHEEHY:

14 Q. The other time where it would be  
15 okay to go on mute, Professor, is if you  
16 need to consult with counsel over a  
17 privilege, okay? Is that understood?

18 A. Okay. That's understood, thank  
19 you.

20 Q. And where are you sitting for  
21 this deposition right now?

1           A.     I am sitting in a conference room  
2     in the San Francisco U.S. Attorney's Office  
3     on the ninth floor.

4           Q.     And other than Ms. Jayaraman and  
5     Ms. Meza, is anybody else in the room with  
6     you who is not on camera?

7           A.     Ms. Meza is not in the room.  
8     Toby Moore is in the room, but not on  
9     camera.

10          Q.     Okay. Do you have any  
11     applications open on your computer right  
12     now?

13          A.     I have Zoom open on the computer.  
14     This is Toby Moore's computer that I'm  
15     using. The Zoom application is open and an  
16     application to receive files is open.

17          Q.     And that's the Veritext exhibit  
18     share file?

19          A.     Yes.

20          Q.     Do you have a phone or tablet or  
21     any other device within eyesight that

1 someone could use to communicate with you?

2 A. I do not. I have a phone in my  
3 bag, but it is turned off and it is not  
4 within my eyesight.

5 Q. Okay. Excellent. Let's go ahead  
6 and mark our first exhibit today. This will  
7 be the subpoena for your deposition,  
8 Professor Trounstine.

9 A. Okay, I'm going to try to access  
10 the exhibit share.

11 Q. No worries. We're all learning  
12 this together, so we'll get through it.

13 A. I apologize. May I ask for help  
14 to pull up this the file share system.

15 (Trounstine Exhibit No. 1 was  
16 identified for the record.)

17 THE WITNESS: Thank you.

18 BY MR. SHEEHY:

19 Q. So we have put on Zoom a document  
20 that is marked Exhibit 1. And this is the  
21 subpoena and notice for your deposition

1 today. We can go ahead and scroll down for  
2 you.

3 Have you seen this deposition  
4 notice and subpoena before your deposition  
5 today?

6 A. I have.

7 Q. Okay.

8 A. Yes.

9 Q. All right. Well, I will be  
10 asking you a series of questions today about  
11 the opinions that you put in your report,  
12 your corrected report dated March 15th,  
13 2023. Does that sound fair?

14 A. Yes, that sounds good.

15 Q. If, at any time today, my  
16 questions are unclear, please let me know,  
17 and I can explain or I can rephrase or we  
18 can try to come to some understanding. Does  
19 that sound fair?

20 A. That sounds fair.

21 Q. Okay. But if you answer a

1 question that I ask you, I am going to  
2 assume that you understood my question.  
3 Does that sound fair?

4 A. That sounds fair.

5 Q. Okay. While I am asking you  
6 questions today, your attorney, Ms.  
7 Jayaraman, may object. But those objections  
8 are for later. I will still need an audible  
9 answer to my questions. Does that sound  
10 fair?

11 A. May I ask a clarifying question?

12 Q. Please do.

13 A. Are all objections -- do I answer  
14 with all objections?

15 Q. So if --

16 A. I continue to answer your  
17 question -- sorry.

18 Q. No, no, that's fine. If your  
19 attorney objects to my question, you will  
20 still need to answer the question. If your  
21 attorney instructs you not to answer a

1 question on the basis of privilege, then do  
2 not answer the question.

3 A. Okay, that makes sense, thank  
4 you.

5 Q. You're welcome. So you'll hear  
6 the actual instruction, I instruct you not  
7 to answer the question on the basis of --  
8 whatever privilege. So that will be the  
9 indicator to you.

10 A. Okay, thank you.

11 Q. You're welcome. This is not a  
12 marathon, all right? If you need to take a  
13 break at any time today, please let me know.  
14 This is a deposition in a civil action, so I  
15 would like to be civil. Whenever you want  
16 to take a break, just let me know and we'll  
17 go ahead on break, okay? Does that sound  
18 fair?

19 A. That sounds fair.

20 Q. My only caveat to that will be is  
21 if I have asked you a question, and we are

1 still waiting for an answer to the question,  
2 I will wait until you answer my question  
3 before we can go on break. Does that sound  
4 fair?

5 A. I understand. That sounds fair.

6 Q. Okay. Do you understand that you  
7 are under oath today?

8 A. I understand that I am under  
9 oath.

10 Q. You understand that the oath you  
11 took has the same effect as if you were  
12 testifying in court?

13 A. I understand that, yes.

14 Q. Is there any reason that you can  
15 think of today where you would not be able  
16 to answer truthfully and fully to the  
17 fullest extent of your abilities?

18 A. I cannot think of any reason for  
19 that.

20 Q. Okay. So I will just say, part  
21 of the break schedule for today, we are on

1 the East Coast, so it is noon. You are on  
2 the West Coast, so it is 9:13 a.m. We'll  
3 work together to try and take just one lunch  
4 break today. Does that sound fair?

5 A. Okay.

6 Q. I am pretty good about going into  
7 the afternoon, so I will try to get to as  
8 close to noon Pacific time as I can. Does  
9 that sound fair?

10 A. That's terrific, thank you.

11 Q. Of course. How did you prepare  
12 for your deposition today?

13 A. I prepared by rereading my notes  
14 and my opinions, my submissions, as well as  
15 my rebuttal report.

16 Q. Now, when you say your notes,  
17 what are you referring to, that you reviewed  
18 your notes?

19 A. I took detailed notes in the  
20 preparation of my report, where I have  
21 analyzed the material before me prior to

1 creating the report, writing the report.

2 And I reviewed the notes that I took in  
3 preparation of the report, as well as the  
4 report itself.

5 Q. Are there any considerations in  
6 your notes that did not make it into your  
7 report?

8 MS. JAYARAMAN: Objection, form.  
9 Objection, calls for information protected  
10 by 26(b)(iv)(C), and I'm instructing the  
11 witness not to answer.

12 MR. SHEEHY: Counsel, Federal  
13 Rule of Civil Procedure 26(b), I think it is  
14 (iv)(C), allows me to get information that  
15 is either assumptions or considerations that  
16 the expert considered, but ultimately either  
17 did not include in their report or did  
18 include in their report.

19 MS. JAYARAMAN: If you use the  
20 word consideration in lieu of assumption, so  
21 maybe rephrasing the question a little will

1 help.

2 BY MR. SHEEHY:

3 Q. Are there any assumptions that  
4 are contained in your notes that are not  
5 contained in your March 15th, 2023 corrected  
6 report?

7 A. No.

8 Q. Okay. Is there any data that you  
9 considered that are contained in your notes,  
10 but not contained in your March 15th, 2023  
11 corrected report?

12 A. As I explain in the report, I  
13 considered, but did not include Republican  
14 primaries in my final report. But my notes  
15 do contain analysis for the Republican --  
16 the 2022 gubernatorial primary, which led me  
17 to decide not to include Republican  
18 primaries in my report.

19 MR. SHEEHY: I mean, I think  
20 we're entitled to see that, Ms. Jayaraman.  
21 We can talk about that offline, but I think

1 we're entitled to see that data that is not  
2 otherwise included in her report.

3 MS. JAYARAMAN: Why don't we talk  
4 about it offline, like you said?

5 MR. SHEEHY: Okay. What is your  
6 position as to data that was considered, but  
7 not placed in her report? What is your  
8 position that that is protected from  
9 discovery?

10 MS. JAYARAMAN: We think it goes  
11 towards draft report that are protected by  
12 26(b)(iv)(C), but like I said, we're happy  
13 to talk about it more later if you would  
14 like.

15 MR. SHEEHY: Okay.

16 MS. JAYARAMAN: Because it goes  
17 to thought process in putting together her  
18 report, which is protected.

19 MR. SHEEHY: Well, but  
20 26(b)(iv)(C) is the exception to the work  
21 product protection, and this falls under the

1 exception, but I'll continue with the  
2 deposition. We can talk offline.

3 BY MR. SHEEHY:

4 Q. Professor Trounstine, was there  
5 anything else that you considered, but was  
6 not placed in your report?

7 A. No, there was nothing else that I  
8 considered that did not make it into my  
9 report.

10 Q. Okay. So in preparation for your  
11 deposition today, you reviewed your notes?

12 A. Yes.

13 Q. You reviewed your March 15th,  
14 2023 corrected report?

15 A. Yes.

16 Q. And you reviewed your April 7th,  
17 2023 rebuttal report, correct?

18 A. That's correct.

19 Q. Okay. Did you meet with your  
20 attorneys in preparation for your deposition  
21 today?

1 A. I did.

2 Q. And who specifically did you meet  
3 with?

4 A. I met with Tharuni Jayaraman,  
5 additionally Toby Moore. And there were  
6 other attorneys on the call, I believe, but  
7 I did not interact with them, and they were  
8 not on video. So I don't know who they  
9 were.

10 Q. What leads you to conclude that  
11 they were attorneys on the call?

12 A. Oh, I apologize. I don't know  
13 their role at the DOJ. I don't know their  
14 role.

15 Q. What leads you to conclude that  
16 they were from the -- they were all from the  
17 Department of Justice, those who were  
18 participating on the phone call?

19 A. My understanding is that the  
20 Teams meeting, the link that was used for  
21 that meeting was provided to me by the

1 Department of Justice, and I suppose this is  
2 was also an assumption that they only would  
3 have invited only other Department of  
4 Justice employees to participate, but I  
5 don't know.

6 Q. Okay. That might be something  
7 else we can discuss later.

8 Have you spoken about this case  
9 with anybody else, other than counsel for  
10 the Department of Justice?

11 A. I have not.

12 Q. In preparation for your -- first,  
13 your January 27th, 2023 report, did you  
14 consult with anybody about the opinions  
15 expressed in that report?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: I'm sorry, so can  
18 you repeat the question one more time?

19 BY MR. SHEEHY:

20 Q. Of course, absolutely. In  
21 preparation for your January 27th, 2023

1 report, your original report, did you  
2 consult with anyone in developing the  
3 opinions expressed in that report?

4 A. I did not consult with anyone in  
5 developing the opinions. The opinions were  
6 all developed by me in my office, myself.

7 Q. Okay. What about your March  
8 15th, 2023 corrected report? In preparation  
9 for that report, did you consult with anyone  
10 about the opinions expressed in that report?

11 A. I did not consult with anyone  
12 about the opinions expressed in that report.

13 Q. In preparation for the reports  
14 that you filed in this case, have you spoken  
15 with Professor Oskooii?

16 A. I have not spoken with Professor  
17 Oskooii.

18 Q. Do you know Professor Oskooii?

19 A. No, I don't believe I have ever  
20 met him.

21 Q. In preparing the reports that you

1 have submitted in this case, have you spoken  
2 with Professor Barreto?

3 A. I have not spoken with Professor  
4 Barreto.

5 Q. Do you know Professor Barreto?

6 A. I don't believe I have ever met  
7 him, but I can't be sure about that.

8 Q. When were you retained by the  
9 United States in this case?

10 A. I was retained in March of 2022  
11 for this case.

12 Q. And when did you begin working on  
13 your January 27th, 2023 report?

14 A. I began working on that report  
15 basically in March, immediately after I was  
16 retained, I began reading about Galveston  
17 County, and learning about the structure of  
18 government in Galveston County. And trying  
19 to understand how elections operate in  
20 Galveston County was the first step that I  
21 took in March of 2022.

1 Q. And how many hours did you spend  
2 drafting your January 27th, 2023 report?

3 A. I am not sure how many hours I  
4 spent prior to drafting that report. I  
5 would need to go back to my invoices to  
6 check.

7 Q. Okay. Would you say you spent  
8 approximately 50 hours drafting that report?

9 A. For the January report, I'm  
10 really not sure how many hours I logged  
11 prior to the filing of that report. I'm  
12 sorry, I would have to go back to my  
13 invoices.

14 Q. No worries. That's fine. We can  
15 come back to that if we need to.

16 A. Okay, great.

17 Q. When you were retained in March  
18 of 2022 by the United States, what did the  
19 United States ask you to do?

20 A. The United States asked me to  
21 analyze racially polarized voting in

1 Galveston County to determine whether and if  
2 there was racially polarized voting, the  
3 extent of political cohesion in Galveston  
4 County, and to analyze the impact that any  
5 redistricting -- that the redistricting that  
6 had occurred would have on the ability for  
7 black and Latino voters to elect a candidate  
8 of their choice.

9 Q. Okay. And what is your  
10 understanding of the term racially polarized  
11 voting as it applies in Galveston County?

12 MS. JAYARAMAN: Objection, form.

13 THE WITNESS: Could you -- could  
14 you restate the question, please?

15 BY MR. SHEEHY:

16 Q. Of course. In this case, which  
17 alleges a section 2 violation in Galveston  
18 County for the commissioner's court  
19 redistricting, what is your understanding of  
20 the term racially polarized voting in the  
21 context of this case?

1           A.     I -- I'm not sure how to answer  
2           that question.  I don't know what the  
3           attorneys indicate by racially polarized  
4           voting.  I can talk about what -- how I  
5           define racially polarized voting in this  
6           case, and in analysis in general.  Would  
7           that be a helpful way to answer the  
8           question?

9           Q.     I think we're getting close, so  
10          let me try this.

11          A.     Okay.

12          Q.     Let me try this.

13          A.     Okay.

14          Q.     In drafting your January 27th,  
15          2023 report, what was your definition of  
16          racially polarized voting?

17                 MS. JAYARAMAN:  Counsel, would it  
18          be okay if she looked at a copy of her  
19          report before answering?

20                 MR. SHEEHY:  I'm fine to put up  
21          the report, but I would like to get an

1 answer to that question first, and you know,  
2 we can go from there.

3 THE WITNESS: In my January  
4 report, which I don't have with me, nor did  
5 I review it in advance of this deposition, I  
6 can't be certain of the way that I defined  
7 racially polarized voting in that report.  
8 It would be helpful if I could see that  
9 report. I can talk about how I defined it  
10 in the March corrected report, which did  
11 have the same definition. I just don't want  
12 to say something under oath that is  
13 incorrect.

14 MR. SHEEHY: That's fine. Let's  
15 go ahead -- we can put up the March 15th,  
16 2023 corrected report. This will be marked  
17 as Trounstine Exhibit 2.

18 MS. JAYARAMAN: Counsel,  
19 Professor Trounstine actually has a clean,  
20 unmarked hard copy with her. Can she refer  
21 to that, rather than trying to scroll on

1 screen? Would that be okay with you?

2 MR. SHEEHY: Let me ask the  
3 witness.

4 BY MR. SHEEHY:

5 Q. Professor Trounstine, do you have  
6 a copy of your March 15th, 2023 corrected  
7 report in front of you?

8 A. I do, and it is unmarked. It has  
9 no marks on it at all.

10 MR. SHEEHY: Yes, that's fine.

11 THE WITNESS: Great. Thank you.  
12 I'm a very physical person.

13 MR. SHEEHY: No worries at all.

14 (Trounstine Exhibit No. 2 was  
15 identified for the record.)

16 THE WITNESS: Okay, I am ready to  
17 answer now officially. I just want to make  
18 sure, again, that I don't say anything  
19 that's incorrect.

20 So my definition of racially  
21 polarized voting requires several steps.

1 First, I analyze whether, in each election,  
2 black voters were cohesive, and then I  
3 analyze whether Latino voters were cohesive.  
4 I make a note for each election that stated  
5 whether black or Latino voters in each  
6 election were cohesive. And then I noted  
7 whether white voters selected a different  
8 candidate than black or Latino voters  
9 cohesively picked for their first choice  
10 candidate.

11 In those elections in which there  
12 was black cohesion and white voters selected  
13 a different first choice candidate were  
14 marked as polarized. Additionally,  
15 elections where Latino voters were cohesive  
16 and white voters selected a different first  
17 choice candidate were also marked as  
18 polarized. Then I added them all up and  
19 came up with -- I'm sorry.

20 BY MR. SHEEHY:

21 Q. No, please go ahead. I'm sorry I

1 interrupted you. Go ahead.

2 A. So I tabulated the number of  
3 polarized elections for -- in total, in  
4 the -- in all of the cases that I analyzed.

5 Q. Now, just -- I want to make sure  
6 that I understand your definition of  
7 racially polarized voting. In a scenario  
8 where African Americans vote for candidate A  
9 cohesively, but --

10 A. Yes.

11 Q. -- Latinos vote cohesively for  
12 candidate B, and white voters vote  
13 cohesively with Latinos for candidate B, are  
14 you categorizing that election as racially  
15 polarized?

16 A. Yes, that would be categorized as  
17 racially polarized in my definition.

18 Q. Okay. Let's go to page 25 of  
19 Exhibit 2, if we could, please?

20 A. I'm not seeing a page 25. Hang  
21 on. Is this in the appendix?

1 Q. I'm sorry, I think it's page 16  
2 in your report. It's the last page. I'm  
3 just wanting you to verify your signature.

4 A. Oh, yes.

5 Q. Okay.

6 A. Yes, I'm there. That's my  
7 signature.

8 Q. Okay. And is this -- and I guess  
9 here, I'll just ask you to take a look at  
10 what we've published to you just to make  
11 sure that this is a true and accurate copy  
12 of your March 15th, 2023 report.

13 A. I need to find that in the  
14 Veritext file. Is that what you would like  
15 me to look at?

16 Q. Yes, please. We'll share that  
17 with you. And there you go. So you are now  
18 looking at Exhibit 2, which is a copy of  
19 your March 15th, 2023 report.

20 A. Yes, I am seeing that.

21 Q. I know you made a few

1 corrections. I believe paragraph 14 was one  
2 area of your corrections. Do you just want  
3 to verify those corrections are reflected  
4 here?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I would be happy to  
7 figure out where my corrections were located  
8 exactly, if I could see my original report.  
9 But, yes, this is a corrected report.

10 BY MR. SHEEHY:

11 Q. This is a correct copy of your  
12 March 15th, 2023 report?

13 A. Yes, it is.

14 Q. Okay. And you said you reviewed  
15 this report prior to your deposition today?

16 A. I did.

17 Q. Setting aside the rebuttal report  
18 that you submitted on April 7th, is there  
19 anything that you would add to this report,  
20 your March 15th, 2023 corrected report?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: Do you mean is  
2 there anything -- any analysis I would like  
3 to add to this report?

4 BY MR. SHEEHY:

5 Q. Yeah, I guess I just want to make  
6 sure that this March 15th, 2023 corrected  
7 report reflects all of your opinions that  
8 you intend to express in this case, setting  
9 aside your April 7th rebuttal report?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I see this report  
12 as the foundation for any analysis that I  
13 would be asked to produce in this case. But  
14 it's hard for me to predict in the future  
15 whether the DOJ would ask me to produce  
16 additional analysis. But this is the  
17 foundation. This is where my -- my analysis  
18 begins, and this is the opinion that I have  
19 asserted at this point.

20 BY MR. SHEEHY:

21 Q. And if you were to develop

1 additional opinions -- again, setting aside  
2 your April 7th, 2023 report -- would you  
3 reduce those opinions to writing like you  
4 did in this report?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I would if that was  
7 what I was asked to do, or if I was on the  
8 stand and asked a question and unable to  
9 respond in writing, I would still expect to  
10 respond. But I guess I'm not -- I've never  
11 done this before, so I'm not exactly sure  
12 what you're asking, I'm sorry.

13 BY MR. SHEEHY:

14 Q. I guess, Professor, just so you  
15 understand, I want to make sure that between  
16 your March 15th, 2023 report and your April  
17 7th, 2023 rebuttal report, those capture all  
18 of the opinions that you intend to express  
19 in this case?

20 MS. JAYARAMAN: Objection, asked  
21 and answered.

1 MR. SHEEHY: That's a different  
2 question.

3 BY MR. SHEEHY:

4 Q. But go ahead, Professor.

5 A. This is -- this is all -- these  
6 are all the opinions that I have developed  
7 at this point. So I can't predict what  
8 would happen -- what will happen going  
9 forward. But at this point, this is -- this  
10 is the -- this is the result of my analysis  
11 and my opinions.

12 Q. Okay. So discovery in this case  
13 closes on April 21st, so next Friday.

14 A. Okay.

15 Q. Do you intend to submit another  
16 report as of right now?

17 MS. JAYARAMAN: Objection, asked  
18 and answered.

19 MR. SHEEHY: It's a separate  
20 question.

21 THE WITNESS: I have not been

1 working on another report.

2 BY MR. SHEEHY:

3 Q. Okay. And if --

4 A. So unless something happens  
5 between now and next week.

6 Q. Well, if I don't receive a report  
7 from you by April 21st, safe for me to say,  
8 the March 15th, 2023 corrected report and  
9 the April 7th, 2023 rebuttal report captures  
10 the universe of opinions you intend to  
11 express in this case?

12 A. I would like to, again, say that  
13 this would form the foundation of anything  
14 that I say in this case. But I -- it's hard  
15 for me to imagine how testimony will go.  
16 And if I was asked the question in -- on the  
17 stand, where I was required to respond under  
18 oath, I would like to not perjure myself.

19 Q. None of us would want that. None  
20 of us would want that.

21 A. Okay.

1 Q. We have agreement there. So I  
2 guess what I'm understanding is, these  
3 opinions expressed in your March 15th, 2023  
4 report and your April 7th, 2023 rebuttal  
5 report capture the universe of opinions you  
6 intend -- that you are expressing in this  
7 case unless a question during trial requires  
8 you to provide additional analysis?

9 A. That is my understanding of how  
10 this will proceed. Again, if I'm asked  
11 something -- I didn't know before you just  
12 said it, when discovery ends. But if I was  
13 asked to analyze something between now and  
14 when discovery ends, I would produce  
15 additional analysis. But at this point, I  
16 do not expect that to happen.

17 Q. Well, I think if you submit  
18 another report between now and then, Ms.  
19 Jayaraman and I are going to have another  
20 discussion of something else to talk about.  
21 Fair enough.

1 A. Okay, I'll leave it to you.

2 MR. SHEEHY: Let's put Trounstine  
3 Exhibit 3 up.

4 BY MR. SHEEHY:

5 Q. This will be a copy of your April  
6 7th, 2023 report.

7 A. Okay.

8 Q. Do you have a physical copy of  
9 that report available to you?

10 A. I do have an unmarked physical  
11 copy available.

12 Q. And we'll do the same thing  
13 again. We'll just ask you to verify that  
14 what we are publishing to you in the exhibit  
15 share is a true and accurate copy of your  
16 April 7th, 2023 rebuttal report.

17 A. Yes, this is my rebuttal report.  
18 (Trounstine Exhibit No. 3 was  
19 identified for the record.)

20 BY MR. SHEEHY:

21 Q. And on page 2 of your report,

1 that's an accurate copy of your signature?

2 A. It is.

3 Q. And does this report reflect all  
4 of your opinions that you intend to express  
5 in response to Professor Alford's March  
6 17th, 2023 report?

7 A. This -- I think my answer is  
8 similar to my last answer, in that this  
9 provides the foundation for any analysis or  
10 any testimony that I might give on Professor  
11 Alford's report. But there are other things  
12 that may come up in trial where I might need  
13 to answer that aren't included in this  
14 report, and so I am not -- I'm not sure.  
15 But this is -- this report captures my  
16 opinions at this time, and my rebuttal to  
17 Professor Alford's report.

18 Q. So a similar line of questioning,  
19 then. If I don't receive another rebuttal  
20 report, does this April 7th, 2023 rebuttal  
21 report capture all of your opinions in

1 response to Professor Alford unless you are  
2 asked to express an additional opinion on  
3 the witness stand?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: As I understand the  
6 way that trials operate, and the way that  
7 the rules of discovery, I understand that to  
8 be the case. But, again, I'm -- I have not  
9 participated in a trial before.

10 BY MR. SHEEHY:

11 Q. Okay. All right. And did you  
12 review your April 7th, 2023 rebuttal report  
13 in preparation for your deposition today?

14 A. I did.

15 Q. Can you look at paragraph 4 of  
16 your rebuttal report, please?

17 A. Yes.

18 Q. So here it says, "In developing  
19 my research design, I selected the EI  
20 Compare Package in R for my analysis. The  
21 package used the ei.reg.bayes command

1       instead of the ei.MD.bayes command that  
2       Professor Alford discusses. I made this  
3       selection based on prior conversations that  
4       I had had with one of the authors of the EI  
5       Compare Package who informed me that their  
6       package used the ei.reg.bayes command  
7       because it has a faster processing time than  
8       the ei.MD.bayes."

9                     Did I read that correctly?

10       A.       Yes, you read that correctly.

11       Q.       Okay. Who was the person that  
12       you had a conversation with that you  
13       mentioned here in paragraph 4?

14       A.       His name is Loren Collingwood.  
15       He is a professor at the University of New  
16       Mexico, I believe.

17       Q.       And when did you have that  
18       conversation?

19       A.       I have notes on this in my email,  
20       but I don't remember the date. It was  
21       several years ago.

1 Q. Okay. In your analysis, you used  
2 three methods to determine whether racially  
3 polarized voting exists in Galveston County,  
4 correct?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I used three  
7 different estimators or commands in R to  
8 generate racially polarized voting -- sorry,  
9 to generate vote choice estimates, yes.

10 BY MR. SHEEHY:

11 Q. The iterative King's EI is one of  
12 those methods?

13 A. One second, please.

14 Q. Of course.

15 A. I just want to make sure that I  
16 say the names properly.

17 Q. I think you mentioned it in your  
18 appendix around page 14.

19 A. Yes. I used King's Ecological  
20 Inference.

21 Q. And is that the iterative version

1 or not?

2 A. I believe it is, but in order to  
3 be absolutely certain of that, I would like  
4 to pull up my R code.

5 Q. Okay. It doesn't say in Appendix  
6 14? Let's go to 14. Well, we can figure  
7 that out perhaps on break and come back to  
8 it.

9 You ran Goodman's estimator using  
10 the eiPack; is that correct?

11 A. Again, I feel anxious answering  
12 questions about my R code without my R code  
13 in front of me. So saying which commands I  
14 used without having my R code in front of me  
15 makes me feel like I might -- I might state  
16 something imprecisely. I run them in  
17 regression, whether I run it through --  
18 which package I run it through, I would need  
19 to double check my R code.

20 Q. Okay. Maybe we can do that when  
21 we go on lunch break. Does that sound fair?

1           A.     Am I allowed access to my  
2 computer over lunch break?

3           Q.     I mean, I will be fine with you  
4 just double-checking the -- whether or not  
5 King's EI you used was the iterative, and  
6 then you ran Goodman's using the eiPack, and  
7 the rows by column using the eiPack.

8           A.     Okay, I will double check.

9           Q.     I will be fine with you accessing  
10 your code for that limited purpose.

11          A.     Okay.

12          Q.     For both -- well, for your RxC  
13 analysis, rows by column, you reference  
14 Rosen 2001 and Lau, et al. 2006; is that  
15 correct?

16          A.     Yes, they both published on that  
17 topic, yes.

18          Q.     And you stand by your rebuttal  
19 report that you used the ei.reg.bayes  
20 command instead of the ei.MD.bayes command?

21          A.     I do stand by that, yes, that is

1 what I used.

2 Q. Okay. Are you aware of any  
3 other -- are you aware of any other experts  
4 that rely on the ei.reg.bayes, rather than  
5 ei.MD.bayes to assess racially polarized  
6 voting?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: It's not common in  
9 published political science research to  
10 present the commands that are used to  
11 generate analyses. So I would actually want  
12 to go back and -- and read some of the work  
13 that I was thinking of here.

14 And I would need the  
15 corresponding authors to find out what  
16 commands they used to generate their  
17 estimates. That is not something that --  
18 unless it's a methodology publication that  
19 political scientists would reveal in their  
20 published work. So I can't answer that  
21 question because I -- because I don't know

1 which commands different scholars have used  
2 to generate their analyses.

3 BY MR. SHEEHY:

4 Q. When a political scientist, for  
5 example, publishes a study on racially  
6 polarized voting analysis, they don't reveal  
7 what method they used for their estimates?

8 MS. JAYARAMAN: Objection, form.

9 THE WITNESS: So first to say,  
10 there's -- there's not really published work  
11 that -- there's very limited work in  
12 political science on racially polarized  
13 voting. That's not the kind of question or  
14 puzzle that is frequently something that  
15 political science publications would  
16 actually publish.

17 So -- and the limited work that  
18 does exist, a scholar would state the  
19 equation that they use or they might state  
20 the -- the underlying assumptions or the  
21 methodology or the research designs, but

1 they wouldn't publish the command that they  
2 used, and the program that they use.

3 And so R is a statistical  
4 program, but there are other statistical  
5 programs like Stata, Python, that can be  
6 used to run analyses. And it would be very  
7 uncommon, in my opinion, to see a published  
8 work state how they conducted the analysis.

9 Now, there is sort of a new wave  
10 of -- the new revolution in political  
11 science where people are posting their code  
12 and their data when they publish their  
13 papers. But that's a relatively recent  
14 innovation. So it's possible if a paper was  
15 published, you know, asking a particular  
16 question, where you could go to the Harvard  
17 data-verse, and download their data,  
18 download their codes, and see what package  
19 they used to run those estimations. And --  
20 but that's -- but that's a separate step  
21 from just reading the publication.

1 BY MR. SHEEHY:

2 Q. Have you reviewed expert reports  
3 analyzing racially polarized voting? Have  
4 you?

5 A. I reviewed Professor Alford's  
6 report, and he analyzes racially polarized  
7 voting.

8 Q. Have you reviewed any other  
9 expert reports analyzing racially polarized  
10 voting?

11 A. Not that I can recall.

12 Q. Okay. Let's go to paragraph 5 of  
13 your April 7th, 2023 rebuttal report. It  
14 says here --

15 A. Yes.

16 Q. -- "there is no reason to believe  
17 that any particular command in the R  
18 programming language would produce higher or  
19 lower estimates of racially polarized voting  
20 or bias the estimates in any other way."

21 Did I read that correctly?

1 A. Yes, you did read that correctly.

2 Q. Do you stand by that assertion in  
3 paragraph --

4 A. I do --

5 Q. -- 5?

6 A. I do, yes.

7 Q. Okay.

8 A. There's no reason, in advance, to  
9 expect that one particular command is going  
10 to produce evidence of racially polarized  
11 voting or not produce estimates that are  
12 consistent with racially polarized voting in  
13 advance of seeing the data. So I stand by  
14 that completely.

15 Q. Okay. Let's go ahead and put  
16 Professor Alford's report up. We'll mark  
17 this as Exhibit 4.

18 (Trounstine Exhibit No. 4 was  
19 identified for the record.)

20 BY MR. SHEEHY:

21 Q. Do you see Exhibit 4 placed up on

1 the share screen, Professor?

2 A. It's loading.

3 Q. Okay, just let us know when you  
4 see Exhibit 1 -- or I'm sorry, Exhibit 4.

5 A. I see it there, yes.

6 Q. Okay. And if we could go to page  
7 20, please.

8 A. It's going to take me a minute.  
9 I don't have a physical copy of this, so I  
10 will scroll on the screen and then come back  
11 to looking at you.

12 Q. Okay.

13 A. All right. 28 of Professor  
14 Alford's report?

15 Q. No, I'm sorry. It's page 20 of  
16 Professor Alford's report. And we're  
17 sharing the screen, that might be a little  
18 easier for everybody.

19 A. Okay.

20 Q. And we'll get down to page 20,  
21 and it's Table 5. There we go.

1 Do you see Table 5 --

2 A. Mm-hmm.

3 Q. -- of Professor Alford's report  
4 in front of you?

5 A. Yes, I do.

6 Q. And Table 5 is entitled Combined  
7 Rows By Column Estimates From Dr.  
8 Trounstine's Tables on Pages A-30 Through  
9 A-35 With Additional Replication Results.

10 Did I read that correctly?

11 A. Yes.

12 Q. Okay. In preparing your rebuttal  
13 report for April 7th, 2023, did you review  
14 Table 5 of Professor Alford's report?

15 A. I read through the whole report,  
16 yes.

17 Q. And did you check to see that his  
18 Trounstine RxC EI estimate numbers in Table  
19 5 accurately reflect the numbers you have on  
20 pages A-30 through A-35 in your report?

21 A. I checked several of the figures,

1 but I did not check in detail every number  
2 that he presented. I trust that Professor  
3 Alford put the numbers in properly.

4 Q. Okay. So let's take a look at  
5 this first election, and that's city council  
6 1, November 3rd, 2020.

7 A. Yes.

8 Q. So here, we have your estimates  
9 that Latinos were cohesive for Mr. Johnson.

10 A. Yes, correct.

11 Q. African Americans were cohesive  
12 for Tarris L. Woods, correct?

13 A. Yes.

14 Q. And white voters were cohesive  
15 for Mr. Johnson as well, correct?

16 A. Yes, correct.

17 Q. And the numbers that you reported  
18 for these -- the cohesive numbers that you  
19 reported was 47.86 for Latinos, correct?

20 A. Yes.

21 Q. 51.25 for African Americans,

1 correct?

2 A. Yes.

3 Q. And 62.13 for white voters,

4 correct?

5 A. Yes.

6 Q. Okay. So then if we go to the  
7 replication numbers, there's an 11-point  
8 drop for Latino voters, correct? 36.3 for  
9 Latinos for Mr. Johnson?

10 A. Yes.

11 Q. And 41.2 percent for African  
12 Americans for Mr. Johnson?

13 A. That's what the table says, yes.

14 Q. And 41.7 percent African  
15 Americans for Tarris L. Woods?

16 A. Yes, that's what he reports.

17 Q. And 54.6 percent for white voters  
18 for Mr. Johnson, correct?

19 A. Yes.

20 Q. So I mean, here, we're not really  
21 finding that cohesion that we find in your

1 estimates, correct?

2 MS. JAYARAMAN: Objection, form.

3 BY MR. SHEEHY:

4 Q. I mean, in the replication  
5 numbers, we have 41.7 and 41.2 percent  
6 between Tarris L. Woods and Mr. Johnson for  
7 African Americans, correct?

8 A. So those are the numbers that  
9 Professor Alford reports, yes.

10 Q. Okay. And you conclude in your  
11 numbers that Latinos are cohesive, African  
12 Americans are cohesive, and white voters are  
13 cohesive. But with these replication  
14 numbers, I mean, really only white voters  
15 here are cohesive, correct?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: So I need to go --  
18 if you would like me to reanalyze Professor  
19 Alford's estimates using my definition and  
20 cohesion threshold, I will need some time to  
21 do that. I'm very happy to do that, but I

1 can't do that on the fly. I would need to  
2 have in front -- thresholds as well as to  
3 make notes for every election. And again,  
4 I'm very happy to do that, but I can't do  
5 that without pen and paper in front of me or  
6 without a computer in front of me.

7 BY MR. SHEEHY:

8 Q. Well, I mean, you didn't respond  
9 to this table in your April 7th, 2023  
10 report. And I guess I'm trying to find  
11 out -- you say that you stand by the  
12 comment, there is no reason to believe that  
13 any particular command in R programming  
14 would produce higher or lower estimates of  
15 racially polarized voting. I'm questioning  
16 here --

17 A. Let me --

18 Q. I'm questioning here that  
19 certainly the replication numbers are a lot  
20 different than your numbers in this  
21 election?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: The numbers are  
3 different. That's -- that's true. But  
4 whether or not there is more or less  
5 racially polarized voting using Professor  
6 Alford's estimate versus my estimate is an  
7 unanswered question at this point.

8 And I can go through all of  
9 Professor Alford's estimates and determine  
10 which election, using his command, would be  
11 racially polarized versus my command would  
12 be racially polarized. And there would be  
13 differences, I'm sure. But it's not clear  
14 to me, just looking at just one single  
15 election, or even just -- even this one  
16 table in front of me, what percentage of  
17 Professor Alford's races -- what percentage  
18 of conclusions that I drew would switch  
19 given Professor Alford's command.

20 So again, I stand by the  
21 statement that if -- in advance, if you

1 would asked me whether the MD.bayes command  
2 or the reg.bayes command would produce more  
3 races that were racially polarized or fewer  
4 races that were racially -- fewer races that  
5 were racially polarized, I would not have  
6 been able to guess or to determine in  
7 advance which one that would be.

8           There will be differences,  
9 absolutely. And that's the point, I think,  
10 that you're making here, which is that the  
11 point estimates here for different commands  
12 do look different. But that doesn't  
13 determine, you know, whether or not there's  
14 racially polarized voting, it's a separate  
15 step of analyses that I would need to take.

16           Q. Well, let's go to the next  
17 election. It's just two candidates, Mr.  
18 Quiroga and Jason Hardcastle, Galveston City  
19 Council 4, also from November 3rd, 2020.

20           A. Mm-hmm.

21           Q. Here, you report in your RxC

1 estimate 64.4.percent for white voters. And  
2 that's the only cohesive --

3 A. Right.

4 Q. -- cohesive group in this  
5 election. But then we look at the  
6 replication RxC EI estimate by Professor  
7 Alford, and Latinos get a 24 percent  
8 increase in their cohesive, but then African  
9 Americans and white voters are not cohesive.

10 A. Right.

11 Q. And actually, the white voters  
12 flip. You have 64. --

13 MS. JAYARAMAN: I --

14 BY MR. SHEEHY:

15 Q. 64.42 percent for white voters  
16 under your analysis for Mr. Quiroga,  
17 correct?

18 A. That's correct.

19 Q. And then that flips under  
20 Professor Alford's analysis, 47.8 percent,  
21 correct?

1           A.     It drops to 47.8 percent, yes.

2           Q.     So you would agree with me that  
3 depending upon the type of command you  
4 run -- or let me rephrase that.

5                     You would agree with me that the  
6 command that you run for your racially  
7 polarized voting analysis could alter  
8 whether or not an election is racially  
9 polarized, correct?

10                    MS. JAYARAMAN: Object to form.

11                    THE WITNESS: The commands that  
12 you run will change the point estimates, as  
13 you can see in this table. But whether or  
14 not collectively there are more or fewer  
15 racially polarized elections, I -- given one  
16 command versus the other, I can't say  
17 without additional analysis.

18                    BY MR. SHEEHY:

19           Q.     So under the command that you  
20 ran, the ei.reg.bayes, under that command,  
21 some elections will be racially polarized,

1 but under the ei.MD.bayes command, elections  
2 that you find polarized may not be polarized  
3 under the different command?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: So the example that  
6 you just gave, the Quiroga example, I don't  
7 count that as a polarized election, but  
8 Professor Alford does.

9 BY MR. SHEEHY:

10 Q. I don't think that he does. It's  
11 just that you have 75.5 percent for Latinos,  
12 correct?

13 A. That's what Professor Alford  
14 estimates.

15 Q. Yes, for Professor Alford's  
16 estimate. Whereas Latinos are not cohesive  
17 under your estimate, correct?

18 A. That's correct. And so that  
19 election in my analysis is not counted as  
20 racially polarized in my total tabulations.  
21 But if I were to use Professor Alford's

1 commands, that would be counted as a  
2 racially polarized election.

3 And so, again, I would need to go  
4 through all of Professor Alford's -- I would  
5 need to redo my entire report using a  
6 different command in order to know whether  
7 that one command or another produces  
8 different amounts of racially polarized  
9 voting. I just don't know the answer to  
10 that.

11 Q. Let's take a look further down,  
12 the November 8th, 2016 League City, City  
13 Council 4 election between Todd Kinsey and  
14 Rudy Salcedo. Are you there?

15 A. I see that, yes.

16 Q. So here you report that Latinos  
17 and African Americans are cohesive for Rudy  
18 Salcedo, 77.55 percent for Latinos and 96.26  
19 percent for African Americans. Correct?

20 A. That's my report, yes.

21 Q. And then for white voters, 68.58

1 percent for Todd Kinsey, correct?

2 A. Yes.

3 Q. But then for Professor Alford's  
4 analysis, there is no cohesion, correct?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: Professor Alford's  
7 estimates do not appear to meet my  
8 definition of cohesion in that election.

9 BY MR. SHEEHY:

10 Q. In fact, the African American  
11 support actually flips. You have under your  
12 analysis, 96.26 African American support for  
13 Rudy Salcedo, correct?

14 A. That's -- those are my estimates,  
15 yes, that's correct.

16 Q. And then under Professor Alford's  
17 analysis, it's 49.3 percent African American  
18 support for Rudy Salcedo, correct?

19 A. Yes, that's what Professor Alford  
20 reports.

21 Q. I mean, that's a, what, 46-point

1 difference between African American support  
2 under your numbers and African American  
3 support under Professor Alford's numbers?

4 A. (Nodding head.)

5 Q. Is that correct?

6 A. The point estimates are  
7 different, yes.

8 Q. And the point estimates are  
9 different by approximately 46 points?

10 A. In that election for that group,  
11 yes.

12 Q. Okay. I studied Latin and Greek,  
13 Professor, so I'm asking a math question, I  
14 need you to confirm for me.

15 A. Yes, yes, for black voters,  
16 the -- Professor Alford's estimates differ  
17 by about 40 points from mine.

18 Q. Okay.

19 A. 50 points, yes.

20 Q. And that happens again in the  
21 Texas City election for mayor, correct? The

1 November 3rd, 2020 election between Dredrick  
2 Johnson and Phil Roberts? You have --

3 MS. JAYARAMAN: Objection.

4 BY MR. SHEEHY:

5 Q. You have -- for your estimates,  
6 you have 88.23 percent for Latinos, correct,  
7 for Mr. Johnson?

8 A. Yes.

9 Q. And 81.7 percent African American  
10 support for Mr. Johnson?

11 A. Yes, that is what my estimates  
12 show.

13 Q. And then the white support for  
14 Mr. Roberts is at 65.55 percent?

15 A. Yes, those are my estimates.

16 Q. And then under Mr. -- under  
17 Professor Alford's estimates, the Latino  
18 numbers flip, correct? You get --

19 MS. JAYARAMAN: Objection.

20 BY MR. SHEEHY:

21 Q. You get 53.5 percent Latino

1 support for Phil Roberts, correct?

2 A. That's what I -- that's what he  
3 reports, yes.

4 Q. And the African American support  
5 remains cohesive at 75 percent for Mr.  
6 Dredrick, correct?

7 A. Yes.

8 Q. And then with white voters,  
9 there's not cohesion, but majority support  
10 for Mr. Johnson, correct?

11 A. That's what Professor Alford  
12 reports, yes.

13 Q. So your model shows this election  
14 as racially cohesive -- forgive me. Try  
15 that one again.

16 Your model shows racially  
17 polarized voting for the election between  
18 Phil Roberts and Dredrick Johnson on  
19 November 3rd, 2020, correct?

20 A. Yes, that is correct.

21 Q. But Professor Alford's model does

1 not show racially polarized voting in this  
2 election, correct?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: According to the  
5 estimates that Professor Alford has  
6 reported, I would not code that election as  
7 racially polarized.

8 MS. JAYARAMAN: Counsel, we have  
9 gone for a little more than an hour, I want  
10 to make sure you finish this line, but could  
11 we take a break after that, please?

12 MR. SHEEHY: Professor  
13 Trounstine, how are you doing? Do you want  
14 to take a break?

15 THE WITNESS: It would be great  
16 if we could take a short break.

17 MR. SHEEHY: I'm more than happy  
18 to do that. We can go ahead and take a  
19 break. Why don't we say ten minutes, and  
20 we'll come back at 10:26 a.m., Pacific time.

21 THE VIDEOGRAPHER: We are now off

1 the record. The time is 10:17 a.m.

2 (Brief Recess.)

3 THE VIDEOGRAPHER: We are now on  
4 the record. The time is 10:27 a.m.

5 BY MR. SHEEHY:

6 Q. Professor Trounstine, good  
7 afternoon and welcome back. Do you  
8 understand that you are still under oath? I  
9 did not hear you, actually.

10 A. Sorry. I understand that I am  
11 still under oath.

12 Q. Excellent. Thank you. During  
13 the break, did you discuss the substance of  
14 your testimony with anyone?

15 A. I did not.

16 Q. So let's go to paragraph 28 of  
17 your March 15th, 2023 report.

18 A. Okay.

19 Q. Actually, before we go there, I  
20 think I just have one other question. You  
21 don't need to put it in front of you, but

1 just one more question about Professor  
2 Alford's report.

3 After going through your  
4 estimates and Professor Alford's estimates,  
5 do you still stand by your point in your  
6 April 7th, rebuttal report that there's no  
7 reason to believe that any particular  
8 command in the R programming language would  
9 produce higher or lower estimates of  
10 racially polarized voting?

11 A. Yes, I stand by that statement.

12 Q. Okay. So to paragraph 28 of your  
13 March 15th, 2023 report, Exhibit 2. You say  
14 here that "In statistical terms, cohesion is  
15 a continuous" -- "because cohesion is a  
16 continuous, not a discrete, variable, there  
17 is no universally-accepted approach for  
18 determining cohesiveness."

19 Did I read that correctly?

20 A. Yes, you did.

21 Q. Okay. And if we flip to page 5,

1 paragraph 28 continues. You have a  
2 footnote, footnote 7, and it says in  
3 footnote 7 on page 5, "The large literature  
4 on cohesion in political science focuses  
5 more on cohesion among legislators than on  
6 cohesion among voters. That literature  
7 tends to define cohesion as stability in  
8 majority coalitions over time."

9 Did I read that correctly?

10 A. Yes, you read that correctly.

11 Q. And I think you referenced that  
12 point earlier today, that there is not a lot  
13 of political science literature on racially  
14 polarized voting. Do I understand your  
15 testimony correctly?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: Yes, there is not a  
18 lot of published research in political  
19 science on racially polarized voting.

20 BY MR. SHEEHY:

21 Q. Okay. Now, in paragraph 30, you

1 propose a 60 percent threshold for racially  
2 polarized voting, correct?

3 A. I use a 60 percent threshold for  
4 cohesion.

5 Q. Yes, thank you for correcting me,  
6 yes. So in paragraph 30, you define  
7 cohesion of a group if that group votes 60  
8 percent or more for a particular candidate,  
9 correct?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: Yes, I use a  
12 threshold of 60 percent for counting up the  
13 number of races that exhibit cohesion.

14 BY MR. SHEEHY:

15 Q. So in a single election, if  
16 African Americans vote 60 percent for  
17 candidate A and Latinos vote 60 percent for  
18 candidate A, you would say in that election,  
19 based upon this definition, Latinos and  
20 African Americans voted cohesively, correct?

21 A. Well, I would say, on the one

1 hand, black voters voted cohesively, and on  
2 the other hand, Latino voters voted  
3 cohesively in that election you just  
4 described.

5 Q. Okay. Okay, you cite an article  
6 by Lichtman and Herbert from 1993 for your  
7 60 percent threshold, correct?

8 A. Yes.

9 Q. Okay, let's pull up that article.  
10 This will be Exhibit 5.

11 (Trounstine Exhibit No. 5 was  
12 identified for the record.)

13 BY MR. SHEEHY:

14 Q. And let me know when you can see  
15 Exhibit 5.

16 A. I can see it.

17 Q. So let's go to page 5 of this  
18 article. So if you see in the second full  
19 paragraph of this article, it says, "Social  
20 science literature relied on by the Supreme  
21 Court in a variety of civil rights contexts,

1 including voting rights, provides no  
2 consensus for specifying a minimum level of  
3 cohesive minority voting. But the social  
4 science literature does point to a threshold  
5 above which the minority threshold would be  
6 one at which, based on American political  
7 history, voting reaches landslide  
8 proportions: a majority of about 60 percent  
9 or greater in a context for a single  
10 position. Over time, usual minority support  
11 for minority candidates at or above the 60  
12 percent level should be sufficient proof of  
13 minority group cohesion. The 60 percent  
14 'landslide standard' applies only to  
15 contests for single positions."

16 Did I read that correctly?

17 A. You did.

18 Q. Okay. So what I'm understanding  
19 you to say now is that you agree with what  
20 is written here that over time, usual  
21 minority support for minority candidates at

1 or above 60 percent should be sufficient  
2 proof of minority group cohesion, correct?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: That's not how I'm  
5 using this article. I'm -- I don't agree  
6 with that statement.

7 BY MR. SHEEHY:

8 Q. Okay. You don't agree with the  
9 article's statement that over time usual  
10 support -- usual minority support for  
11 minority candidates at or above the 60  
12 percent level should be sufficient proof of  
13 minority group cohesion?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: I'm -- my reliance  
16 on this article as a source for the 60  
17 percent threshold is what I am -- that's why  
18 I'm citing this article, as other published  
19 scholars have used the 60 percent threshold  
20 as a reasonable threshold for cohesion.

21 BY MR. SHEEHY:

1 Q. But is your disagreement with  
2 this article that this article suggests 60  
3 percent over time establishes cohesion? Is  
4 that your disagreement with this article?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: There might be  
7 several reasons why I disagree with things  
8 in this article. What I am using the  
9 article to do is provide support for my  
10 decision to use the 60 percent threshold in  
11 tabulating the number of races in Galveston  
12 County that exhibited cohesion.

13 BY MR. SHEEHY:

14 Q. And when you are tabulating the  
15 number of elections that exhibited cohesion,  
16 you're looking at each individual election  
17 to see if Latinos voted 60 percent or more  
18 for candidate A, correct?

19 MS. JAYARAMAN: Objection, form.

20 THE WITNESS: In a two candidate  
21 race, I use a 60 percent threshold, yes.

1 BY MR. SHEEHY:

2 Q. Okay. So in an election  
3 involving candidate A versus candidate B, if  
4 Latinos voted 60 percent for candidate A,  
5 you would say that Latinos voted cohesively  
6 in that election, correct?

7 A. That's correct.

8 Q. Okay. And then for your report,  
9 you counted up each individual election  
10 where, in my example, Latinos voted 60  
11 percent or more for candidate A, correct?

12 A. That is correct.

13 Q. Okay. All right. Are you aware  
14 if the Supreme Court has adopted a threshold  
15 for establishing cohesion?

16 MS. JAYARAMAN: Objection.

17 THE WITNESS: I am not aware of  
18 that.

19 BY MR. SHEEHY:

20 Q. Are you using the 60 percent  
21 threshold as a standard for the court to

1 adopt?

2 MS. JAYARAMAN: Objection, form.

3 THE WITNESS: I am merely using  
4 the 60 percent threshold to tabulate  
5 elections that are considered cohesive or  
6 not cohesive in my analysis of the races --  
7 of the elections in Galveston County.

8 BY MR. SHEEHY:

9 Q. You're merely using the 60  
10 percent threshold as a method to tabulate  
11 the number of elections where there's  
12 cohesion, correct?

13 A. That's correct.

14 Q. Okay. I guess I would like to  
15 understand sort of why 60 percent. For me,  
16 the way I see it, 60 percent vote for  
17 candidate A, but 40 percent are voting for  
18 candidate B; that's still quite a large  
19 number of people who are saying candidate A  
20 is not my candidate of choice, correct?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: It depends what you  
2 mean by large. I consider, in a  
3 presidential race, if one of the candidates  
4 wins 60 percent of the vote, that in my  
5 understanding of elections is very strong --  
6 a blowout victory, a substantial majority in  
7 favor of a single candidate.

8 BY MR. SHEEHY:

9 Q. I guess the way I'm thinking  
10 about it is this way. Let's say you have  
11 10,000 votes cast by Latinos in an election.  
12 6,000 vote for candidate A and 4,000 vote  
13 for candidate B. 4,000 people out of 10,000  
14 are saying candidate A is not my candidate  
15 of choice. It seems to me there's a good  
16 number of people who are saying that's not  
17 my candidate of choice, correct?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: I guess this is a  
20 matter of opinion, and my opinion is that 60  
21 percent indicates strong support for a

1 single candidate.

2 BY MR. SHEEHY:

3 Q. In paragraph 30 of your report,  
4 you say, the farther away from 50 percent a  
5 candidate's vote share is, the clearer is  
6 the electorate's preference for that  
7 candidate and the more cohesive is that  
8 group.

9 Did I read that correctly?

10 A. You read that correctly, yes.

11 Q. So why is 10 percent from no  
12 cohesion, 50 percent, sufficiently far away  
13 from 50 percent?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: As they say in the  
16 report, that Herbert and Lichtman suggest  
17 that 60 percent represents a clear  
18 preference. And I adopt this standard for  
19 the tabulation of races as well.

20 BY MR. SHEEHY:

21 Q. Why is 10 percent from 50

1 sufficiently far away from no cohesion?

2 MS. JAYARAMAN: Objection, asked  
3 and answered.

4 THE WITNESS: It is the threshold  
5 that I selected. One can select different  
6 thresholds, but that was the one I selected  
7 for my analysis.

8 BY MR. SHEEHY:

9 Q. Okay. What about Professor  
10 Alford's threshold? Professor Alford  
11 suggests that 75 percent should be the  
12 threshold because it's in between no  
13 cohesion at 50 percent and perfect cohesion  
14 at 1 percent. Is 75 percent a reasonable  
15 threshold?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: If that's what  
18 Professor Alford assesses is reasonable in  
19 his analysis. What's reasonable in my  
20 analysis is 60 percent.

21 BY MR. SHEEHY:

1 Q. But I'm asking you, do you think  
2 that 75 percent is a reasonable number --  
3 let me rephrase.

4 Do you think 75 percent is a  
5 reasonable threshold for establishing  
6 racially polarized voting?

7 MS. JAYARAMAN: Objection, asked  
8 and answered.

9 THE WITNESS: According to my  
10 statement here in paragraph 30, the farther  
11 away from 50 percent that we are -- we are  
12 looking for a threshold away from 50  
13 percent. 60 percent is the threshold that I  
14 selected that is far enough away from 50  
15 percent to signal cohesion of a group.

16 BY MR. SHEEHY:

17 Q. Okay. Is it your opinion that 75  
18 percent is an unreasonable threshold?

19 MS. JAYARAMAN: Objection, form.

20 THE WITNESS: It is a difference  
21 of opinion about what constitutes a

1 reasonable threshold. I selected 60 percent  
2 as a reasonable threshold.

3 BY MR. SHEEHY:

4 Q. And you would say that 75 percent  
5 is also a reasonable threshold?

6 MS. JAYARAMAN: Objection, asked  
7 and answered.

8 THE WITNESS: I use the 60  
9 percent threshold in my analysis throughout  
10 all the analyses that I ran. That's the  
11 threshold that I selected as the reasonable  
12 threshold -- threshold.

13 BY MR. SHEEHY:

14 Q. Okay, my question to you is, do  
15 you think that 75 percent is a reasonable  
16 threshold for establishing cohesion?

17 MS. JAYARAMAN: Objection, asked  
18 and answered.

19 THE WITNESS: That is not the  
20 threshold that I selected.

21 BY MR. SHEEHY:

1 Q. Okay.

2 A. In my analysis, a reasonable  
3 threshold is 60 percent.

4 Q. Okay. But you are not disputing  
5 that Professor Alford's analysis of cohesion  
6 at 75 percent is reasonable, correct?

7 MS. JAYARAMAN: Objection, asked  
8 and answered.

9 MR. SHEEHY: That question was  
10 not asked.

11 THE WITNESS: Professor Alford  
12 has a different threshold that he uses for  
13 his analysis. It is not the threshold that  
14 I use. In my opinion, 60 percent is the  
15 reasonable threshold to use for the  
16 analysis.

17 BY MR. SHEEHY:

18 Q. Okay. But you're not saying that  
19 Professor Alford's threshold is  
20 unreasonable, correct?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: I guess I'm not  
2 really sure what you mean by reasonable, how  
3 you're using it here.

4 BY MR. SHEEHY:

5 Q. Well, what do you understand the  
6 term reasonable to mean?

7 A. I was using it to say that this  
8 is a threshold that makes sense for  
9 calculating cohesion in a given election.  
10 And I selected 60 percent as the threshold  
11 that makes sense given what I understand  
12 about elections in American politics.

13 Q. And, therefore, do you think that  
14 75 percent as a threshold for cohesion is  
15 unreasonable?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: That is not a  
18 threshold that I would -- that I have used  
19 in my analysis.

20 BY MR. SHEEHY:

21 Q. In your analysis in this case?

1 A. Correct.

2 Q. Professor Alford used 75 percent  
3 as a threshold in his report, correct?

4 A. I understand that.

5 Q. Okay.

6 A. Yes.

7 Q. Do you think his use of 75  
8 percent as a threshold for cohesion is  
9 unreasonable?

10 MS. JAYARAMAN: Objection, asked  
11 and answered.

12 THE WITNESS: I have used what I  
13 believe is a reasonable threshold, which is  
14 60 percent.

15 BY MR. SHEEHY:

16 Q. And you reviewed Professor  
17 Alford's March 17th, 2023 report, correct?

18 A. I did review his report, yes.

19 Q. And you filed a rebuttal report  
20 responding to Professor Alford's report,  
21 correct?

1 A. I did.

2 Q. And you didn't mention in your  
3 rebuttal report anything about Professor  
4 Alford's 75 percent threshold, did you?

5 A. My rebuttal report does not  
6 discuss the threshold.

7 Q. Okay.

8 A. No.

9 Q. On paragraph 32 of your March  
10 15th, 2023 report, you talk about elections  
11 with three or more candidates, correct?

12 A. Yes.

13 Q. And you say that, "Cohesiveness  
14 is established when the share of votes  
15 delivered to the group's preferred candidate  
16 was at least 1.2 times an equal division of  
17 the vote for effective candidates."  
18 Correct?

19 A. Yes.

20 Q. So I think the example you give  
21 is in a four-candidate election,

1 cohesiveness is established if, in your  
2 example, Latinos vote for a candidate A at  
3 30 percent, correct?

4 A. Yes, that is how I calculate  
5 cohesion in multi-candidate races, yes.

6 Q. Okay. But what about in an  
7 election with five candidates? Wouldn't  
8 that be -- wouldn't you say that if a  
9 Latino -- forgive me.

10 Wouldn't you say in that  
11 situation that Latino voters are cohesive if  
12 just 24 percent of Latinos vote for a  
13 specific candidate?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: You'll have to  
16 forgive me, I can't do that math on the fly.  
17 So if I could have a calculator, I could  
18 tell you what the threshold would be for  
19 different numbers of candidates in an  
20 election. If we could work on that  
21 together.

1 BY MR. SHEEHY:

2 Q. You know what? I am more than  
3 happy to do some math together. That would  
4 be fine. If you have a calculator available  
5 to you, we can go ahead and just confirm  
6 that.

7 MS. JAYARAMAN: Counsel, a  
8 calculator would have to be on someone's  
9 phone.

10 MR. SHEEHY: Professor, so long  
11 as you tell me no one is texting you about  
12 your testimony, I'm fine with you using the  
13 calculator on your phone.

14 THE WITNESS: Okay.

15 MS. JAYARAMAN: So she is going  
16 to go get it.

17 MR. SHEEHY: That's fine. We can  
18 go off the record.

19 THE VIDEOGRAPHER: We are now off  
20 the record. The time is 10:53 a.m.

21 (Brief Recess.)

1 THE VIDEOGRAPHER: We are now on  
2 the record. The time is 10:54 a.m.

3 THE WITNESS: Okay.

4 BY MR. SHEEHY:

5 Q. All right. Professor, you have  
6 your cell phone calculator?

7 A. I do.

8 Q. And I will ask if anybody texts  
9 you about your testimony, just to please let  
10 me know. Does that sound fair?

11 A. That sounds fair.

12 Q. Okay. So what we were talking  
13 about is, is that if it's a five-candidate  
14 race, the equal votes across candidates  
15 would be 20 percent, correct? Five --

16 A. Correct.

17 Q. -- times 20 is 100 and thus  
18 cohesion would be at 1.2 times 20 percent,  
19 correct?

20 A. Correct.

21 Q. Under your definition.

1 A. Correct.

2 Q. And that equals 24 percent?

3 A. Correct.

4 Q. Okay. So my question to you is,  
5 how is 24 percent establishing cohesion when  
6 76 percent are voting for other candidates?

7 A. So -- I'm trying to figure out  
8 how to determine a threshold for cohesion in  
9 multi-candidate races is complicated because  
10 they are not equivalent to two-candidate  
11 races.

12 So I -- I grant that it's -- 24  
13 percent voting for a single candidate in a  
14 five-candidate race sounds unlike 60  
15 percent, but in fact, mathematically, it's  
16 equivalent. And in order to be able to  
17 compare races where there are two candidates  
18 and races where there are five candidates, I  
19 needed to adjust the threshold in order to  
20 make the analyses comparable.

21 I'm analyzing elections across

1 lots of different kinds of jurisdictions and  
2 with different kinds of rules surrounding  
3 the elections. And so this allows me to  
4 compare races for city council to races for  
5 county judge or even for governor when there  
6 are only two candidates versus five  
7 candidates. This is a substantial  
8 philosophical puzzle in this kind of work.

9 Q. Okay. But 76 percent of the  
10 voters are saying that candidate who got 24  
11 percent is not my candidate of choice,  
12 correct?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: Collectively, 76  
15 percent of voters are selecting other  
16 candidates. But they're not selecting a  
17 candidate. If they were selecting a single  
18 other candidate, that would obviously be  
19 cohesive for that candidate.

20 So the question is to figure out  
21 a threshold above which I can count a

1 particular election as cohesive. And the  
2 way that I do that is to use the 60 percent  
3 threshold as a guideline for all other races  
4 and the mathematical equivalent to 60  
5 percent in a five-candidate race is 24  
6 percent.

7 BY MR. SHEEHY:

8 Q. But here in this scenario, we  
9 have -- in the two-candidate race where  
10 you're using the 1.2 threshold, so 60  
11 percent, 40 percent, there we have a  
12 majority at least voting for candidate A at  
13 60 percent, correct?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: Well, it depends on  
16 the electoral rules. But 60 percent is  
17 above a simple majority in that race.

18 BY MR. SHEEHY:

19 Q. Yes. So we're saying in a  
20 two-candidate race, Latinos vote 60 percent  
21 for candidate A, under your definition,

1       Latinos are cohesive in that election,  
2       correct?

3             A.       Correct.

4             Q.       And 60 percent is a majority,  
5       correct?

6             A.       Yes.

7             Q.       But in this case, with five  
8       candidates, the majority -- vast majority,  
9       75 percent, 76 percent -- are saying  
10       somebody else is our candidate of choice,  
11       not this one?

12             MS. JAYARAMAN:  Objection, form.

13             THE WITNESS:  I'm a little  
14       confused about how you're -- the analogy  
15       you're making here, because in a  
16       five-candidate race, nobody would need to  
17       get above 60 percent in order to win the  
18       election.

19             BY MR. SHEEHY:

20             Q.       So the point that I am making is,  
21       is that there is still this sizeable

1 majority of 76 percent who are saying we  
2 support a different candidate. Correct?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: No, 76 percent are  
5 selecting other candidates.

6 BY MR. SHEEHY:

7 Q. Yes.

8 A. Not a single other candidate.

9 Q. Yes.

10 A. Collectively, other candidates.

11 Q. 76 percent are saying different  
12 candidates are our candidate of choice,  
13 correct?

14 A. Yes, in the example that you  
15 gave.

16 Q. Yes. And with your threshold for  
17 multi-candidate races, the 1.2 times vote  
18 share -- let me rephrase it this way.

19 For your 60 percent threshold,  
20 you cited the Herbert and Lichtman article,  
21 correct?

1 A. Correct.

2 Q. For this threshold, for  
3 multi-candidate elections, you did not cite  
4 any political science journal, did you?

5 A. No, I do not have a citation for  
6 that calculation.

7 Q. Okay. And just you're not  
8 proposing -- you're not proposing to the  
9 court that it adopt your threshold of 1.2  
10 times vote share, correct?

11 MS. JAYARAMAN: Objection, form.

12 THE WITNESS: I am not making a  
13 proposal to the court. I am tabulating  
14 cohesive and non-cohesive races using this  
15 particular threshold.

16 BY MR. SHEEHY:

17 Q. Okay. So let's talk about the --  
18 let's talk about the racially polarized  
19 voting definition. Is it your understanding  
20 that for racially polarized voting to occur  
21 in Galveston County, you need cohesion among

1 African American voters, correct?

2 MS. JAYARAMAN: Objection to  
3 form.

4 THE WITNESS: The way that I  
5 tabulated racial -- racially polarized  
6 voting was either black voters are cohesive  
7 or Latino voters are cohesive, and the white  
8 voters selected a different first pick  
9 candidate.

10 BY MR. SHEEHY:

11 Q. Even when -- and I think you  
12 testified earlier, you find racially  
13 polarized voting when, for example, white  
14 voters are cohesive for candidate A, African  
15 American voters are cohesive for candidate  
16 A, and Latino voters are cohesive for  
17 candidate B, you would code that as a  
18 racially polarized election?

19 A. I would, yes.

20 Q. Okay. Are you aware of  
21 allegations in this case that African

1 American and Latinos are cohesive together  
2 in commissioner precinct 3 in Galveston  
3 County?

4 MS. JAYARAMAN: Objection to  
5 form.

6 THE WITNESS: Sorry, I'm not  
7 aware of particular allegations.

8 BY MR. SHEEHY:

9 Q. So let's go to paragraph 34,  
10 which is on page 6 of your report.

11 A. Okay.

12 Q. And this is your March 15th, 2023  
13 report. Here, in this paragraph, you're  
14 describing how to determine if Latino and  
15 African American voters are voting  
16 cohesively, correct?

17 MS. JAYARAMAN: Objection, form.

18 THE WITNESS: This -- in this  
19 paragraph, I am describing how I categorize  
20 when black and Latino voters were  
21 politically cohesive, and I say that I

1 looked to see whether the two groups  
2 selected the same first choice candidate in  
3 general elections.

4 BY MR. SHEEHY:

5 Q. Okay. So in this same paragraph,  
6 you're saying it's more appropriate to  
7 analyze intergroup coordination in general  
8 elections rather than in primaries, because  
9 primary elections are the arena in which  
10 groups that have similar ideologies or  
11 political orientations vie to determine  
12 their nominee for the general election.  
13 Voters usually support the candidate in the  
14 general election who shares their political  
15 orientation regardless of whether that  
16 candidate was the voter's preferred  
17 candidate in the primary election.

18 Did I read that correctly?

19 A. You did.

20 Q. Okay. And then in paragraph 35,  
21 you say, "in most cases in the United

1 States, racial ethnic cohesiveness will find  
2 its expression through the two-party system.  
3 Indeed, it would be difficult to  
4 conceptualize racial or ethnic cohesion  
5 within a single group or between two groups  
6 that did not manifest itself by a clear  
7 partisan preference. In other words, the  
8 fact that Latino and black voters tend to  
9 support candidates from one party is a  
10 reflection of their cohesion, not an  
11 alternative explanation for it."

12 Did I read that correctly?

13 A. You did.

14 Q. Okay. Is it your position, based  
15 upon your analysis, that African Americans  
16 generally support Democratic candidates?

17 MS. JAYARAMAN: Objection to  
18 form.

19 THE WITNESS: That is not an  
20 analysis I specifically conducted. The data  
21 are available in my tables to show that, and

1 I do discuss in the report that black voters  
2 generally support the Democratic party  
3 nationwide. But the question that you  
4 asked, I did not analyze specifically here.

5 BY MR. SHEEHY:

6 Q. Okay. So my question wasn't  
7 terribly clear, so I'll try that again.

8 In the context of this paragraph,  
9 okay, so in most cases in the United States  
10 nationally, it's your position that African  
11 Americans generally support Democratic  
12 candidates?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: So, again, I  
15 didn't -- I didn't analyze that to see  
16 whether or not black and Latino -- how black  
17 voters voted in Galveston, which party that  
18 black voters in Galveston voted for. But,  
19 yes, generally in the United States black  
20 voters support the Democratic party.

21 BY MR. SHEEHY:

1 Q. Okay. And when you say that in  
2 paragraph 34, that voters usually support  
3 the candidate and the general election who  
4 shares their political orientation, when you  
5 say political orientation, are you saying  
6 the candidate, or party for that matter,  
7 that agrees with the voter on various  
8 issues?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: What I mean by  
11 political orientation is that phrase is  
12 meant to capture broadly preferences and  
13 ideologies that are politically relevant.  
14 And so what I -- what I mean by that  
15 statement is that voters will select the  
16 candidate who shares their priorities,  
17 preferences, and ideologies in an election  
18 in the general election, typically.

19 BY MR. SHEEHY:

20 Q. So, for example, African  
21 Americans generally support Democratic

1 candidates. They vote for those candidates  
2 who share their political orientation in the  
3 general election, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: In the United  
6 States, generally, there is a pattern that  
7 black voters tend to support Democratic  
8 candidates.

9 BY MR. SHEEHY:

10 Q. And Democratic candidates  
11 represent the political orientation of  
12 African Americans generally in the United  
13 States, correct?

14 A. Research suggests that that is  
15 the case, yes. That is not my analysis.

16 Q. I'm just trying to understand  
17 this sentence in paragraph 34 combined with  
18 paragraph 35. That's all I'm trying to  
19 understand.

20 A. Okay.

21 Q. And so nationally, generally, the

1 Democratic party represents -- represents  
2 the issues that are important to African  
3 American voters, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: Research generally  
6 shows that that is the case.

7 BY MR. SHEEHY:

8 Q. So, for example, African American  
9 voters tend to agree, generally, on the  
10 national level, with the Democratic party's  
11 position on taxes, correct?

12 MS. JAYARAMAN: Objection, form.

13 THE WITNESS: I can't answer that  
14 question. I'm sorry, but I would need to  
15 draw on -- I would need to -- to have access  
16 to political science research to be able to  
17 confirm a specific assertion like that.

18 BY MR. SHEEHY:

19 Q. Okay. I guess I'm just trying to  
20 understand this sentence. Voters usually  
21 support the candidate in the general

1 election who shares their political  
2 orientation.

3 And so Democratic voters  
4 generally at a national level vote for  
5 Democratic candidates because those  
6 candidates share the political orientation  
7 of African Americans. Am I understanding  
8 that statement?

9 MS. JAYARAMAN: Objection.

10 THE WITNESS: That's how I  
11 intended that statement to read.

12 BY MR. SHEEHY:

13 Q. Okay. And by political  
14 orientation, you mean position on -- the  
15 party or candidate's position on various  
16 issues from taxes, on foreign policy, social  
17 issues, et cetera, correct?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: I mean, issues and  
20 ideology. But this varies enormously at  
21 different levels of government. So that is

1 a general statement. So my general  
2 statement encapsulates all the different  
3 kinds of elections that we might talk about,  
4 whereas your statement was a bit more  
5 specific.

6 BY MR. SHEEHY:

7 Q. Okay. But political orientation,  
8 you're referring to ideology. So by  
9 ideology, you mean conservative,  
10 progressive, liberal, correct?

11 A. That's correct.

12 MS. JAYARAMAN: Objection, form.

13 BY MR. SHEEHY:

14 Q. And issues -- we've discussed  
15 what we're talking about when we say issues,  
16 correct?

17 MS. JAYARAMAN: Objection, form.

18 THE WITNESS: This is not really  
19 what I was asked to analyze in Galveston, so  
20 I'm a little uncomfortable talking sort of  
21 in general terms. The statement -- I stand

1 by the statement that voters tend to select  
2 the candidate who shares their political  
3 orientation regardless of who they selected  
4 in the primary.

5 BY MR. SHEEHY:

6 Q. And again, what you're saying is  
7 voters are going to support the candidates  
8 who share their ideological preference,  
9 correct?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I prefer the term  
12 political orientation, which is broader.

13 BY MR. SHEEHY:

14 Q. Okay. So included within  
15 political orientation -- did the lights go  
16 out?

17 THE WITNESS: Can you hang on a  
18 second? The lights went out in here.

19 MR. SHEEHY: We can go off the  
20 record. That's fine.

21 THE VIDEOGRAPHER: We are now off

1 the record. The time is 11:15 a.m.

2 (Brief Pause.)

3 MR. SHEEHY: We can go back on.

4 THE VIDEOGRAPHER: We are now on  
5 the record. The time is 11:16 a.m.

6 MR. SHEEHY: So we're back on the  
7 record. Looked like just the lights in the  
8 room where Professor Trounstine is went out.  
9 I'm happy we're back, a very quick fix.

10 BY MR. SHEEHY:

11 Q. So political orientation is  
12 broader. So my question to you is,  
13 political orientation includes ideology, it  
14 includes issues. Does it include anything  
15 else?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: It could.

18 BY MR. SHEEHY:

19 Q. Okay, what else?

20 A. It could include other -- in  
21 Galveston or generally?

1 Q. I'll take generally first, and  
2 then we can talk about Galveston.

3 A. So it could be something like a  
4 valence issue about how we treat our enemies  
5 at war, right? And those are issues but  
6 they're valence issues tend to be different  
7 than other kinds of issues. So, you know,  
8 voters will prefer a candidate who is closer  
9 to them on whatever dimension the voter  
10 deems to be important. It could be  
11 demographics, it could be their approach to  
12 governing, it could be something like their  
13 willingness to create friends across the  
14 aisle or to create partnerships with other  
15 kinds of members of the government.

16 It could be at the local level,  
17 something about the relationship between the  
18 city council and the bureaucracy. So  
19 generally, the research suggests that voters  
20 will try to pick the candidate who shares --  
21 who comes closest to their ideal point on

1       whatever dimension -- dimension or  
2       dimensions the voter prioritizes in that  
3       particular election.

4               But the research on this is quite  
5       detailed and fairly broad, so there's not a  
6       single answer I can give to this question,  
7       other than to say political orientation  
8       captures the voters' view and we can expect  
9       that the voters -- that voters will select  
10      the candidate who comes closest to sharing  
11      their -- that voter's political orientation.  
12      Generally speaking. It's not always the  
13      case but generally speaking that's the case.

14             Q.     Okay. So just to have a succinct  
15      idea of what you mean by political  
16      orientation. We have ideology, we have  
17      issues, we have what I'm going to take as  
18      referring to salient issues. So how --  
19      whatever the salient issue of the day is,  
20      whatever the candidate's position is if it  
21      closely mirrors that of the voter, correct?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: Generally,  
3 political science research suggests that  
4 voters will select the candidate who comes  
5 closest to their preferences however the  
6 voter defines that preference.

7 BY MR. SHEEHY:

8 Q. Okay. And that would include the  
9 three issues I've mentioned, sort of  
10 ideology, I guess we'll call global issues,  
11 salient issues, for the specific issue of  
12 the day. Anything else?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: It could include  
15 other things. You know, it could include --  
16 yeah, it could include more than what you've  
17 just listed.

18 BY MR. SHEEHY:

19 Q. Okay. And what else could it  
20 include?

21 A. It could include the gender of

1 the candidate or other demographic  
2 characteristics of the candidate. It could  
3 include the neighborhood of the candidate.  
4 There's some research in that. It could  
5 include the governance style as I've  
6 suggested before or the sort of procedural  
7 orientation of the candidate, the way in  
8 which they build coalitions can be important  
9 to voters.

10 So lots of -- voters are a  
11 diverse bunch and they'll choose the  
12 candidate who comes closest to their views  
13 on whatever dimension the voters -- the  
14 voter deems to be relevant for the election.

15 Q. So governance style and the  
16 ability to build coalitions is one  
17 consideration, correct?

18 A. Could be.

19 Q. Okay. So, I mean, that would  
20 just I would say maybe effectiveness. Would  
21 you agree with me on that?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: For some voters,  
3 effectiveness would be accurately captured.

4 BY MR. SHEEHY:

5 Q. Okay.

6 A. Would accurately capture their  
7 desire in a leader. Some voters want to  
8 select the tallest person.

9 Q. Governance style also could be  
10 ideology, correct, conservative approach to  
11 government, progressive approach to  
12 government? Is that what you mean by  
13 governance style?

14 A. That's not what I meant just now.  
15 But ideology could be a political  
16 orientation that voters are making a  
17 decision based upon.

18 Q. So -- and I'm suggesting that  
19 governance style could include ideology,  
20 correct?

21 MS. JAYARAMAN: Objection, calls

1 for speculation.

2 THE WITNESS: I don't have any  
3 research to draw on that would answer that  
4 question particularly.

5 BY MR. SHEEHY:

6 Q. Okay. So given all of what  
7 political orientation means in paragraph 34,  
8 are you able to pinpoint why a particular  
9 voter is voting for a particular candidate?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I don't have access  
12 to any survey data that would allow me to  
13 answer that question.

14 BY MR. SHEEHY:

15 Q. So the answer to my question  
16 would be no, then, correct?

17 MS. JAYARAMAN: Objection to  
18 form.

19 THE WITNESS: I am -- I do not  
20 have information about why voters select a  
21 particular candidate in Galveston County

1 elections.

2 BY MR. SHEEHY:

3 Q. And you're not expressing an  
4 opinion as to why voters are selecting  
5 particular candidates in elections in  
6 Galveston County?

7 A. It is my opinion that voters in  
8 Galveston are selecting candidates who share  
9 their political orientation.

10 Q. Okay. Now, when we are looking  
11 at cohesion between African Americans and  
12 Latinos collectively -- so collective  
13 cohesion between Latinos and African  
14 Americans -- are you suggesting that if the  
15 first choice candidate receives 60 percent  
16 of the Latino vote and 98 percent of the  
17 African American vote, the two groups are  
18 cohesive?

19 MS. JAYARAMAN: Objection, form.

20 THE WITNESS: Sorry, could you  
21 restate the hypothetical one more time?

1 BY MR. SHEEHY:

2 Q. Of course. So under your  
3 definition of cohesion, if African Americans  
4 vote for candidate A at 98 percent and  
5 Latinos vote for candidate A at -- if  
6 Latinos vote for candidate A at 60 percent,  
7 are you saying that African Americans and  
8 Latinos voted collectively cohesively?

9 A. I would say that they chose the  
10 same first choice candidate.

11 Q. But would you say in that  
12 election, Latinos and African Americans were  
13 collectively cohesive?

14 A. That is not a tabulation that I  
15 created for this analysis. The tabulation  
16 that I conducted for this analysis is to  
17 determine the number of elections where  
18 black and Latino voters shared the same  
19 first-choice candidate.

20 Q. Okay. I guess I'm not sure where  
21 there is a disconnect. So I guess if you

1 could explain to me, then, if Latinos vote  
2 for candidate A at 60 percent and African  
3 Americans vote for candidate A at 98  
4 percent, why are they not cohesive  
5 collectively?

6 MS. JAYARAMAN: Objection to  
7 form.

8 THE WITNESS: I did not analyze  
9 the extent to which black and Latino voters  
10 as a single group voted in elections. That  
11 was not the analysis that I conducted. So  
12 that's why I can't answer the question.

13 MR. SHEEHY: Okay. So let's  
14 bring up Exhibit 4. And if we can go to  
15 table 1. And that's on page 13.

16 BY MR. SHEEHY:

17 Q. Do you see Dr. Alford's report in  
18 front of you, Professor Trounstine?

19 A. I see it, yes.

20 Q. And table 1 is the combined RxC  
21 estimates from your tables on pages A-17

1 through A-21 and then A-25 and 26?

2 A. Okay, yes.

3 Q. Okay. And did you review these  
4 numbers in preparation for your April 7th,  
5 2023 rebuttal report?

6 A. I read through these tables, yes.

7 Q. Do you have any reason to dispute  
8 Professor Alford's numbers that he put here  
9 from your report?

10 A. I do not have any reason to  
11 dispute those numbers.

12 Q. Okay. So these are the 12  
13 partisan elections that you analyzed,  
14 correct?

15 A. I think that's inclusive, but I  
16 would need to double-check.

17 Q. Okay. Well, I mean, we could go  
18 through this, I guess, relatively quickly,  
19 counting them. You have the county sheriff  
20 election is one, correct?

21 A. Yes.

1 Q. District court judge 405 is two;

2 U.S. House District 14 is three, correct?

3 A. Yes.

4 Q. County judge election is four,

5 correct?

6 A. Yes.

7 Q. And then 2010 county judge

8 election is five, correct?

9 A. Yes.

10 Q. And then commissioner precinct 4

11 is six, correct?

12 A. Yes.

13 Q. Commissioner precinct 3. Did I

14 just say that one? Commissioner precinct 2

15 is eight, correct?

16 A. Yes.

17 Q. The second commissioner precinct

18 2 is nine, that's commissioner precinct 2

19 from 2010?

20 A. Yes, that's -- that's in this

21 table, yes.

1 Q. And then the commissioner  
2 precinct 1 November 12th.

3 A. Uh-huh, yes.

4 Q. And then the county judge  
5 elections from 2002 and 2014, correct?

6 A. Yes, those are all in his tables.

7 Q. And those are all of the -- those  
8 are the 12 partisan elections that you  
9 analyzed?

10 A. That's what I'm not sure of. I  
11 would need to go back to my report and  
12 ensure that the 12 -- that this table  
13 captures all of the partisan elections that  
14 I analyzed. So I can do that, but I just  
15 need a few minutes to do that.

16 Q. No -- I mean, that's fine. I  
17 trust Dr. Alford and if we find that he  
18 missed one, we can make that point.

19 Okay. So let's look at the 2006  
20 election for commissioner precinct 2. You  
21 see that it's Albert Choate and Bryan Lamb?

1 A. Yes, I see that.

2 Q. And in that election, you would  
3 conclude that there is no racially polarized  
4 voting, correct?

5 A. Sorry, Choate and Lamb in 2006?

6 Q. Yes.

7 A. I do say that there is racially  
8 polarized voting in that election.

9 Q. So Albert Choate received 15.2  
10 percent from Latinos, correct?

11 A. 15. -- 12.

12 Q. 15.12 from Latinos, correct?

13 A. Correct.

14 Q. And then 27.21 percent from  
15 African Americans, correct?

16 A. Correct.

17 Q. And then 57.16 percent from white  
18 voters, correct?

19 A. Correct.

20 Q. And this is a two-person  
21 election, correct?

1 A. That's correct.

2 Q. And that's 57.16 percent is below  
3 your 60 percent threshold, correct?

4 A. So I do not categorize whites as  
5 cohesive in that election.

6 Q. Okay. And because whites are not  
7 cohesive in that election, you don't  
8 categorize this as racially polarized  
9 voting, correct?

10 A. No, that's incorrect.

11 Q. Okay.

12 A. An election is counted as  
13 racially polarized, as I explained on page 6  
14 of my report.

15 Q. Okay. So page 6 of your  
16 report -- I think you mean page 5, right?

17 A. No, paragraph 36 on page 6 of my  
18 report.

19 Q. Oh, I see. Okay. Gotcha. So  
20 your definition for racially polarized  
21 voting is when either black or Latinos vote

1 was cohesive, and white voters voted for a  
2 different candidate regardless of whether  
3 white voters were cohesive. Do I understand  
4 that correctly?

5 A. That's correct.

6 Q. Okay.

7 A. Yes.

8 Q. And in this election, the 2006  
9 Albert Choate-Bryan Lamb election, the  
10 candidate of choice of the Latinos and  
11 African Americans, Bryan Lamb, won, correct?

12 A. It appears that's how I coded it,  
13 yes.

14 Q. Yes, you have a 1 on the line for  
15 Lamb.

16 A. Yes.

17 Q. Okay. And then in the Ryan  
18 Dennard-Winston Cochran election, you code  
19 this one as racially polarized where the  
20 Latinos are pretty evenly divided in this  
21 election, correct?

1           A.     They are a close vote for both  
2 candidates, yes, in that election.

3           Q.     Ryan Dennard receives 50.49  
4 percent of the Latino vote; is that correct?

5           A.     Yes.

6           Q.     And Ryan Dennard is a Republican  
7 in this election?

8           A.     It appears so.

9           Q.     And then Winston Cochran is a  
10 Democrat in this election, and he receives  
11 49.45 percent of the vote, Latino vote,  
12 correct?

13          A.     Yes, that's correct.

14          Q.     Okay. And then the African  
15 American vote was 80.88 percent for Winston  
16 Cochran, the Democrat, correct?

17          A.     Yes, that's correct.

18          Q.     And then the white vote was 75.73  
19 percent for Dennard, correct?

20          A.     Yes.

21          Q.     So white voters were cohesive

1 here at 75.73 percent and although not  
2 cohesive a majority of Latino voters  
3 supported Dennard as well, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: The point estimates  
6 indicate that above a simple majority of  
7 Latino voters voted for Ryan Dennard, yes.

8 BY MR. SHEEHY:

9 Q. And you code this as a racially  
10 polarized voting election?

11 A. I do.

12 Q. Okay. The November 4th, 2014  
13 county judge election at the bottom, this is  
14 Mark Henry and William "Bill" young,  
15 correct?

16 A. Yes, correct.

17 Q. And in this election white voters  
18 and Latino voters were cohesive for Judge  
19 Henry, correct?

20 A. That's what my estimates say,  
21 yes.

1 Q. And African Americans were  
2 cohesive for William Bill Young, correct?

3 A. Yes.

4 Q. And you code this election as  
5 racially polarized, correct?

6 A. I do.

7 Q. And the Latino voters and white  
8 voters voted together for Judge Henry, the  
9 Republican candidate, correct?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: Latino voters and  
12 white voters in my analysis both supported  
13 Mark Henry, the Republican candidate, in  
14 that election.

15 BY MR. SHEEHY:

16 Q. White voters at 80.4 percent,  
17 correct?

18 A. Correct.

19 Q. And Latino voters at 62.18  
20 percent, correct?

21 A. Yes, correct.

1 Q. So white voters and Latino voters  
2 voted together for a Republican, correct?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: Both white voters  
5 and Latino voters supported the Republican  
6 candidate, Mark Henry, yes.

7 BY MR. SHEEHY:

8 Q. Okay. And African Americans  
9 supported the independent candidate, William  
10 Young, correct?

11 A. Yes.

12 Q. But you still code this as  
13 racially polarized, correct?

14 A. Yes --

15 MS. JAYARAMAN: Objection, form.

16 BY MR. SHEEHY:

17 Q. I guess I'm just trying to  
18 understand why you categorize an election  
19 where white voters and a minority group  
20 support the same candidate but a different  
21 minority group supports another candidate,

1 why would you categorize that as a racially  
2 polarized election?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: The way that I  
5 define polarization going into the report  
6 was to say, I am going to determine whether  
7 each of the minority groups that I analyzed,  
8 blacks and Latinos, are cohesive in their  
9 preference for a candidate. And then I'm  
10 going to look to see whether or not white  
11 voters are in opposition or voting for a  
12 different candidate than either of those  
13 groups.

14 And so racial polarization is I  
15 count the race as racially polarized when it  
16 meets that definition, and this race meets  
17 that definition. So that's -- that's how I  
18 define polarization in this report.

19 BY MR. SHEEHY:

20 Q. Even though it means that you  
21 could have racially polarized voting where

1 white voters and a minority group actually  
2 agree on one candidate, correct?

3 MS. JAYARAMAN: Objection, asked  
4 and answered.

5 MR. SHEEHY: That question wasn't  
6 asked.

7 THE WITNESS: Racial polarization  
8 does -- is defined in my report as either  
9 blacks voting cohesively against the  
10 candidate, that whites -- white voters have  
11 chosen a different candidate; or, Latino  
12 voters are voting cohesively and white  
13 voters have selected a different candidate.

14 So there's lots of -- there's  
15 different patterns that can occur. But  
16 this, the definition of when an election  
17 is -- has a cohesive vote for black voters, a  
18 cohesive vote for Latino voters, either/or,  
19 and white voters have selected a different  
20 candidate that I count that election as  
21 polarized.

1 BY MR. SHEEHY:

2 Q. Even though there's no  
3 polarization in this election with Judge  
4 Henry and Bill Young between white voters  
5 and Latino voters?

6 MS. JAYARAMAN: Objection, form.

7 THE WITNESS: This race is not  
8 counted as a race in which Latino and white  
9 voters choose different candidates. That's  
10 correct.

11 BY MR. SHEEHY:

12 Q. But you're still categorizing it  
13 as racially polarized even though a minority  
14 group and white voters have banded together  
15 to support a candidate?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: I have counted it  
18 as polarized because it meets my definition  
19 of polarization, which is that black voters  
20 in this election voted cohesively for a  
21 candidate who was different than the

1 preferred candidate of white voters. That's  
2 how I counted this race as polarized.

3 BY MR. SHEEHY:

4 Q. Okay. All right, let's go to  
5 page 18 of Alford's report, table 3.

6 MS. JAYARAMAN: Counsel, would  
7 this be a good time for a lunch break by any  
8 chance?

9 MR. SHEEHY: Professor  
10 Trounstine, it's 11:42 in California. I'll  
11 say for me that would be way too early for  
12 lunch but I'll leave the decision up to you.

13 THE WITNESS: It would be great  
14 if we could take a lunch break. I got up  
15 really early.

16 MR. SHEEHY: Fair enough. Why  
17 don't we say -- it's 2:43, I think it is, on  
18 the East Coast, why don't we come back at  
19 3:45 East Coast time, 12:45 Pacific. Does  
20 that sound fair?

21 THE WITNESS: That's great.

THE VIDEOGRAPHER: We are now off  
the record. The time is 11:45 a.m.  
(Luncheon recess 11:45 p.m.)

1 A-F-T-E-R-N-O-O-N S-E-S-S-I-O-N

2 (12:45 p.m. PT)

3 THE VIDEOGRAPHER: We are now on  
4 the record. The time is 12:45 p.m.

5 EXAMINATION (resumed.)

6 BY MR. SHEEHY:

7 Q. Professor Trounstine, do you  
8 understand that you are still under oath?

9 A. I understand that I am still  
10 under oath.

11 Q. Good afternoon, welcome back.  
12 During the break, did you discuss the  
13 substance of your testimony with anyone?

14 A. I did not.

15 Q. Okay. I would like to direct  
16 your attention to page 18 of Professor  
17 Alford's report, Table 3. We looked at this  
18 earlier insofar as comparing your RxC  
19 estimates with the replication RxC  
20 estimates. But I want to go through just  
21 your numbers this go-around. Do you have

1 page 18 in front of you?

2 A. I see it up on the screen, yes.

3 Q. Okay. So that first election,  
4 the Attorney General election, May 24th,  
5 2022. Do you see that one?

6 A. Yes.

7 Q. And that was between Joe Jaworski  
8 and Rochelle Mercedes Garza; is that  
9 correct?

10 A. Yes.

11 Q. And with your numbers, Latino  
12 voters voted 73.55 percent for Ms. Garza,  
13 correct?

14 A. That's correct.

15 Q. And African American voters and  
16 white voters voted 77.5 percent and 73.62  
17 percent respectively for Joe Jaworski,  
18 correct?

19 A. Correct.

20 Q. And did you code this as an  
21 example of a racially polarized election?

1           A.     I would have coded that as  
2 racially polarized, yes.

3           Q.     Okay. And in this election,  
4 Latinos and black voters supported different  
5 candidates, correct?

6           A.     According to my estimates, yes.

7           Q.     Next election, comptroller of  
8 public accounts, that election also in May  
9 of 2022 between Luis Angel Vega and Janet  
10 Dudding; is that correct?

11          A.     Yes.

12          Q.     And in that election, Latino  
13 voters voted 81.25 percent for Luis Angel  
14 Vega, correct?

15          A.     Correct.

16          Q.     And African American voters voted  
17 67.21 percent for Janet Dudding, correct?

18          A.     Correct.

19          Q.     And white voters voted 82.05  
20 percent for Janet Dudding as well, correct?

21          A.     Correct.

1 Q. And in this election, black  
2 voters and white voters supported the same  
3 candidate, correct?

4 A. That is correct.

5 Q. And Latino voters supported a  
6 different candidate, correct?

7 A. According to my estimates, yes.

8 Q. And you coded this as an example  
9 of racially -- an example of a racially  
10 polarized voting election?

11 A. I did.

12 Q. How about the lieutenant governor  
13 election, Mike Collier, Carla Brailey, and  
14 Michelle Beckley, the lieutenant governor  
15 primary, March 1st, 2022. Latino voters for  
16 Michelle Beckley 49.99 percent, correct?

17 A. Correct.

18 Q. And Carla Brailey received 55.18  
19 percent of the African American vote,  
20 correct?

21 A. Correct.

1 Q. And white voters supported Mike  
2 Collier at 49.88 percent, correct?

3 A. That's correct.

4 Q. And you would have coded this  
5 election as racially polarized?

6 A. That is correct.

7 Q. Even though Latinos and African  
8 Americans didn't agree on one candidate in  
9 this election?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: My definition of  
12 polarized voting requires that either black  
13 or Latino voters vote cohesively, and that  
14 white voters chose a different candidate  
15 than either black or Latino cohesive voters.  
16 And this election meets that definition.

17 BY MR. SHEEHY:

18 Q. Okay. And similar results in the  
19 March 1st, 2022 comptroller of the public  
20 accounts election, the Latino voters  
21 supported Luis Angel Vega at 68.82 percent,

1 correct?

2 A. Yes.

3 Q. And African Americans supported  
4 Janet Dudding at 45.9 percent, correct?

5 A. That's correct.

6 Q. And 61.21 percent of white voters  
7 also supported Janet Dudding, correct?

8 A. Correct.

9 Q. And you would classify this as an  
10 election where racially polarized voting  
11 occurred?

12 A. I would classify it in that way,  
13 yes.

14 Q. Even though African Americans and  
15 white voters both cohesively supported Janet  
16 Dudding?

17 MS. JAYARAMAN: Objection, form.

18 THE WITNESS: My definition of  
19 polarized voting concerns whether or not  
20 either black or Latino voters voted  
21 cohesively, and whether white voters

1 selected a different candidate than either  
2 black or Latino cohesive voters. And this  
3 election meets that definition.

4 BY MR. SHEEHY:

5 Q. Okay. If we go to page 19 of  
6 Professor Alford's report, this is table 4,  
7 and this is combining pages Appendix 22  
8 through 24 from your March 15th, 2023  
9 corrected report, correct?

10 A. Correct.

11 Q. And this is the Galveston County  
12 commissioner Democratic primary, correct?

13 A. That appears to be how Professor  
14 Alford has labeled this table, yes.

15 Q. The first one March 12th, 2002,  
16 Eddie Janek and Rosie Morales, Latinos are  
17 supporting Rosie Morales at 61.49 percent;  
18 is that correct?

19 A. That's correct.

20 Q. African American voters are  
21 supporting Eddie Janek at 59.69 percent,

1 correct?

2 A. That's correct.

3 Q. And that's just shy of your 60  
4 percent threshold, correct?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I do not classify  
7 black voters as voting cohesively in that  
8 election.

9 BY MR. SHEEHY:

10 Q. If black voters supported Eddie  
11 Janek at 60 percent, would you have  
12 classified black voters as cohesive in this  
13 election?

14 A. Yes.

15 Q. Okay. But at 59.69 percent, you  
16 are not classifying them as cohesive in this  
17 election?

18 A. That is correct.

19 Q. And then the white voters  
20 supported 61.21 percent for Eddie Janek,  
21 correct?

1 A. That's correct.

2 Q. And you would classify this as a  
3 racially polarized election?

4 A. I did classify this as a racially  
5 polarized election, yes.

6 Q. Okay. In the March 9, 2004  
7 primary election, you have Latinos and  
8 African Americans cohesively supporting  
9 different candidates, correct?

10 A. Are you referring to the election  
11 between Patrick Doyle, John Ford, Tom  
12 Butler, Larry Edrozo, and Dianna Puccetti?

13 Q. Yes.

14 A. And black voters selected Dianna  
15 Puccetti as their first choice candidate in  
16 that election.

17 Q. And it was 45.55 percent support  
18 for the Latino candidate of choice, correct?

19 A. That is correct.

20 Q. And 52.43 percent for Dianna  
21 Puccetti for African Americans, correct?

1 A. That is correct.

2 Q. And you classified this as  
3 racially polarized voting?

4 A. This is classified as a racially  
5 polarized election.

6 Q. Okay. And then in the Patrick  
7 Doyle-John Ford election, April 13, 2004,  
8 Latinos are cohesive for John Ford and  
9 African Americans are not cohesive for  
10 either candidate, correct?

11 A. That is correct.

12 Q. And white voters voted 74.11  
13 percent for Patrick Doyle, correct?

14 A. Correct.

15 Q. Okay. And you classified this as  
16 a racially polarized election?

17 A. Yes, that is classified as a  
18 racially polarized election.

19 Q. In the next election, Bryan Lamb,  
20 Robert Cheek, Nick Stepchinski, and John  
21 Bertolino from March 7, 2006. Latino voters

1 supported John Bertolino at 49.80 percent,  
2 correct?

3 A. Correct.

4 Q. And African Americans supported  
5 Robert Cheek with 40.78 percent, correct?

6 A. Correct.

7 Q. And white voters supported Bryan  
8 Lamb at 58.41 percent, correct?

9 A. Yes, that is correct.

10 Q. And you classified this election  
11 as a racially polarized election?

12 A. Yes, this would be classified as  
13 a racially polarized election.

14 Q. Okay. What about this next one  
15 between March 4, 2008, Stephen Holmes,  
16 Eugene Lewis, and Robert Hutchins? Latino  
17 voters were not cohesive in this election,  
18 correct?

19 A. That is correct.

20 Q. African Americans voted 53.1  
21 percent for Stephen Holmes, correct?

1           A.     That is correct.

2                   MS. JAYARAMAN:   One second,  
3     please.  There's -- the computer that I'm on  
4     is trying to restart.  Can we go off the  
5     record?

6                   THE VIDEOGRAPHER:  We are now off  
7     the record.  The time is 1:00 p.m.

8                   (Brief Pause.)

9                   THE VIDEOGRAPHER:  We are now on  
10    the record.  The time is 1:01 p.m.

11                  BY MR. SHEEHY:

12                 Q.     So we were talking about the  
13    March 4, 2008 Democratic primary election  
14    for Galveston County Commissioner, correct?

15                 A.     Correct.

16                 Q.     And we're talking about the  
17    Latino voters in this election were not  
18    cohesive, correct?

19                 A.     That is correct.

20                 Q.     The African American voters voted  
21    53.1 percent for Commissioner Holmes,

1 correct?

2 A. Yes, that is correct.

3 Q. And white voters voted 66.53  
4 percent for Commissioner Holmes, correct?

5 A. That is correct.

6 Q. So I take it here you would not  
7 classify this as a racially polarized  
8 election, correct?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: This election is  
11 not categorized as racially polarized.

12 BY MR. SHEEHY:

13 Q. And then the last election  
14 between Commissioner Holmes and James  
15 Hobgood, May 29, 2012, that election is not  
16 racially polarized as well, correct?

17 A. Correct, that election is not  
18 racially polarized.

19 Q. I should rephrase. You did not  
20 classify that election as racially  
21 polarized, correct?

1 A. Correct.

2 Q. Okay. So, let's see. By my read  
3 of this Table 4, page 19, Professor  
4 Trounstine, the only election where Latinos  
5 and African Americans are cohesive for the  
6 same candidate is the last one for  
7 Commissioner Holmes and James Hobgood,  
8 correct?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: Can you give me one  
11 second to look at table 9 of my report?

12 BY MR. SHEEHY:

13 Q. Sure. We can do that. Table 9  
14 of your report.

15 A. Sorry, table 1. Page 9.

16 Q. Table 1, page 9. Okay, I have it  
17 up. I don't think we need to put it up on  
18 the screen, we both have it.

19 A. So one more time, can you repeat  
20 your question?

21 Q. Yes. In Table 4 of Exhibit 4,

1 which is Professor Alford's March 17th, 2023  
2 report, page 19 of that report. In that  
3 table, the only election where Latinos and  
4 African Americans are cohesive in supporting  
5 the same candidate is the May 29, 2012  
6 election, correct?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: Cohesiveness in  
9 support of the same candidate is not a  
10 category of elections that I tabulated to  
11 draw the conclusions for my report.

12 BY MR. SHEEHY:

13 Q. Okay. On this table, page 19,  
14 Table 4, the May 29, 2012 election between  
15 Stephen Holmes and James Hobgood is the only  
16 election where Latinos and African Americans  
17 supported the same candidate, correct?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: There are other  
20 elections where Latinos and African American  
21 voters supported the same candidate.

1 BY MR. SHEEHY:

2 Q. So let me phrase it this way.

3 The election on May 29, 2012 is the only  
4 election where a majority of Latinos and a  
5 majority of African Americans supported the  
6 same candidate?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: Again, that is not  
9 a, a tabulation that I made to draw  
10 conclusions from my report.

11 BY MR. SHEEHY:

12 Q. On page 19 of John Alford's  
13 report, from March 17th, 2023, this is the  
14 only election where you have bolded both the  
15 Latino candidate of choice and the African  
16 American candidate of choice where it's the  
17 same candidate, correct?

18 A. That is correct.

19 Q. And in your tabulations, what  
20 does the bold indicate?

21 A. It indicates that that group

1 voted cohesively for their candidate of  
2 choice.

3 Q. Okay. Now, the elections that we  
4 looked at on page 18 of Alford's report and  
5 page 19 of Alford's report, those were both  
6 the Democratic primary elections that you  
7 analyzed, correct?

8 A. Could you go back to page -- the  
9 previous page so I could see Table 3 one  
10 more time.

11 Q. Actually, why don't we take it  
12 one at a time since we have this page up  
13 already, that will make it easier.

14 The elections that you analyzed  
15 that are depicted here on page 19 of  
16 Professor Alford's March 17th, 2023 report,  
17 these are the Democratic primary elections  
18 for Galveston County Commissioner, correct?

19 A. That's correct.

20 Q. And if we go to page 18, please.  
21 And this is Table 3 on page 18 from

1 Professor Alford's report. These are the  
2 exogenous primary elections that you  
3 analyzed, correct?

4 A. I need to go back to my report in  
5 order to ensure that I'm answering this  
6 question properly.

7 Q. Okay.

8 A. So could I do that?

9 Q. You have your report in front of  
10 you, correct?

11 A. I have a copy of it here, yes.

12 Q. Okay. So it looks like these are  
13 taken from pages A-27 through 29 in your  
14 appendix.

15 A. Yes, these are primary election  
16 results.

17 Q. Okay. And does the same pattern  
18 appear on page 18 Table 3 of Professor  
19 Alford's report where Latino and African  
20 American voters were each individually as a  
21 group cohesive for one candidate?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: Can you please  
3 restate that question? I didn't quite  
4 understand what you were asking.

5 BY MR. SHEEHY:

6 Q. You know what, Professor? I  
7 didn't understand what I was asking either,  
8 good point.

9 Let's make this easy. The  
10 commissioner of general land office election  
11 from May 24, 22, between Sandragrace  
12 Martinez and Jay Kleberg, that is the only  
13 election on this page where Latinos and  
14 African Americans were both cohesive for the  
15 same candidate, correct?

16 MR. SHEEHY: Objection, form.

17 THE WITNESS: On this page,  
18 Latino voters and black voters voted  
19 cohesively for Sandragrace Martinez in that  
20 election.

21 BY MR. SHEEHY:

1 Q. And there's no other election  
2 where Latinos and African Americans voted  
3 cohesively for the same candidate, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: In this table there  
6 are no other races that are shown where  
7 black and Latino voters selected the same  
8 first choice candidate cohesively.

9 BY MR. SHEEHY:

10 Q. Okay.

11 A. In my estimate, not by Professor  
12 Alford's estimate.

13 Q. Correct. We're just talking  
14 about your estimates. And since you have  
15 appendix A-27 and 28 of your report up, look  
16 at them side by side, the Latino vote is  
17 bolded at 86.23, the African American vote  
18 is bolded at 74.47. And on appendix 29, the  
19 white vote is bolded at 64.30, correct?

20 A. Yes.

21 Q. And for different candidates the

1 white vote went for Jay Kleberg, correct?

2 A. Correct.

3 Q. Okay. And the African American  
4 and Latino vote went for Sandragrace  
5 Martinez, correct?

6 A. That is correct.

7 Q. Okay. Let's go to page 13 of  
8 Professor Alford's report, table 1. Do you  
9 see table 1 on page 13 from Professor  
10 Alford's March 15th, 2023 report in front of  
11 you?

12 A. I see that, yes.

13 Q. And this is the combined RxC  
14 estimates for your tables on appendix 17  
15 through appendix 21 and appendix 25 and 26,  
16 correct?

17 A. Correct.

18 Q. Okay. And in this one, the  
19 Latino and African American voters were both  
20 individually as a group cohesive for Mark  
21 Salinas for the county sheriff, correct?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: In the county  
3 sheriff race, black voters cohesively  
4 supported Mark Salinas and Latino voters  
5 cohesively supported Mark Salinas.

6 BY MR. SHEEHY:

7 Q. And the district court judge 405,  
8 Latinos supported Teresa Hudson cohesively  
9 and African Americans supported Teresa  
10 Hudson cohesively, correct?

11 A. That is correct.

12 Q. And in both of these first two  
13 elections, county sheriff and district court  
14 judge, the candidate of choice for Latino  
15 and African American voters was a  
16 Democratic, correct?

17 A. In the county sheriff race, a  
18 Latino Democrat, yes, and in the district  
19 court judges race a black Democrat, yes.

20 Q. Yes. In the U.S. house district  
21 race, district 14, Randy Weber and Adrienne

1 Bell, African American and Latino voters  
2 were both cohesive as their own group for  
3 Adrienne bell, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: Each group voted  
6 cohesively for the black candidate who is a  
7 Democrat, Adrienne bell.

8 BY MR. SHEEHY:

9 Q. County judge from November 7,  
10 2006, Latino voters voted cohesively for  
11 James Yarbrough, correct?

12 A. That is correct.

13 Q. And African Americans voted  
14 cohesively for James Yarbrough?

15 A. That is correct.

16 Q. And James Yarbrough is a  
17 Democrat, correct?

18 A. That is correct.

19 Q. And county judge election in  
20 2010, Latino voters voted cohesively for the  
21 Democrat James Yarbrough?

1 A. Yes.

2 Q. And African Americans voted  
3 cohesively for James Yarbrough?

4 A. Yes.

5 Q. And, again, James Yarbrough is a  
6 Democrat, correct?

7 A. That is correct.

8 Q. And then commissioner precinct 4,  
9 November 5, 2002, Latinos voted cohesively  
10 for the Democrat Chris John Mallios,  
11 correct?

12 A. That is correct.

13 Q. And African Americans voted  
14 cohesively for the Democrat Chris John  
15 Mallios, correct?

16 A. That is correct.

17 Q. In the November 2nd, 2004  
18 commissioner court precinct election for  
19 commissioner precinct 3, that was  
20 commissioner Stephen Holmes, an African  
21 American, correct?

1 A. Correct.

2 Q. And Lewis Parker, Jr., also an  
3 African American, correct?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: I put both of those  
6 candidates as black, yes.

7 BY MR. SHEEHY:

8 Q. And the Latinos, Latino voters  
9 voted cohesively for Stephen Holmes, the  
10 African American Democrat, correct?

11 A. That is correct.

12 Q. And the African American voters  
13 voted cohesively for Commissioner Holmes,  
14 the African American Democrat?

15 A. They voted cohesively for Stephen  
16 Holmes who is one of the African American  
17 candidates in the race, and he is a  
18 Democrat, yes.

19 Q. And Lewis Parker, Jr. received --  
20 Lewis Parker, Jr., who is an African  
21 American Republican, received 72.79 percent

1 from white voters, correct?

2 A. In that election, yes.

3 Q. Commissioner precinct 2 election,  
4 November 7, 2006, Albert Choate, Bryan Lamb,  
5 Bryan Lamb -- or, Latinos voted cohesively  
6 for the Democrat Bryan Lamb, correct?

7 A. That is correct.

8 Q. And African American voters voted  
9 cohesively for the Democrat Bryan Lamb?

10 A. That is correct.

11 Q. Commissioner precinct 2 election  
12 from November 10, 2002, the Latino vote  
13 voted cohesively for the Democrat Bryan  
14 Lamb?

15 A. That is correct.

16 Q. And the African American voters  
17 voted cohesively for the Democrat Bryan  
18 Lamb, correct?

19 A. That is correct.

20 Q. The commissioner precinct 1  
21 election, November 6, 2012, the Latino vote

1 was not cohesive in this election, correct?

2 A. That --

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: In that election, I  
5 did not code Latino voters as voting  
6 cohesively, that is correct.

7 BY MR. SHEEHY:

8 Q. And the African American vote was  
9 cohesive for Winston Cochran, the Democrat,  
10 correct?

11 MS. JAYARAMAN: Counsel, we can't  
12 see the top, the headings in the table.

13 THE WITNESS: Yes, that is  
14 correct.

15 BY MR. SHEEHY:

16 Q. The county judge election between  
17 James Yarbrough and Dan Murphy, Latino  
18 voters were cohesive for the Democrat James  
19 Yarbrough, correct?

20 A. That is correct.

21 Q. And African American voters were

1 cohesive for James Yarbrough the Democrat,  
2 correct?

3 A. I'm sorry, you were fuzzy right  
4 then for a minute. My internet might be  
5 unstable. Could you repeat that, please?

6 Q. Of course. The African American  
7 vote was cohesive for James Yarbrough, the  
8 Democrat, correct?

9 A. Yes, that is correct.

10 Q. And in this election it looks  
11 like white voters also voted cohesively for  
12 James Yarbrough, the Democrat, correct?

13 A. That is correct, according to my  
14 calculations.

15 Q. And this is November 5, 2002,  
16 correct?

17 A. Yes.

18 Q. And this election featured a  
19 Democrat versus Dan Murphy, who is a  
20 libertarian, correct?

21 MS. JAYARAMAN: Counsel, you're

1 breaking up quite a bit on our end.

2 MR. SHEEHY: I'm not sure what's  
3 causing that but thank you for letting me  
4 know. Is this more clear now?

5 MS. JAYARAMAN: Unfortunately  
6 not. And we're dialed in by phone so I  
7 don't think it's an internet issue on our  
8 end for the audio.

9 MR. SHEEHY: Okay. Let me know  
10 if this gets better here.

11 BY MR. SHEEHY:

12 Q. So Dan Murphy was the libertarian  
13 candidate, correct?

14 A. Correct.

15 Q. And the last election on here,  
16 Mark Henry and William Young, the Latino  
17 vote went for the Republican Mark Henry,  
18 correct?

19 A. That is correct.

20 Q. And Latinos were cohesive in  
21 favor of Mark Henry, correct?

1 A. That is correct.

2 Q. And Mark Henry is a Republican,  
3 right?

4 A. That is how I have him coded,  
5 yes.

6 Q. And William Young is an  
7 independent, correct?

8 A. That is how I have him coded,  
9 yes.

10 Q. And African American voters voted  
11 cohesively for William Young, correct?

12 A. That is correct.

13 Q. Ms. Jayaraman, how is the  
14 connection? Is it getting better?

15 MS. JAYARAMAN: It is. Yes.  
16 We'll let you know if it starts dropping  
17 again.

18 MR. SHEEHY: Okay.

19 BY MR. SHEEHY:

20 Q. So I think we saw in the primary  
21 elections that we just went through both the

1 commissioner court precinct Democratic  
2 primaries and the exogenous Democratic  
3 primary elections. African American and  
4 Latino voters were cohesive together. I  
5 know we're talking separate cohesion. Let  
6 me phrase it this way. In the primary  
7 elections that we went through, both  
8 commissioner court precinct elections and  
9 exogenous elections, primary elections, we  
10 saw only on two occasions where Latino  
11 voters and African American voters were  
12 cohesive as their own group for the same  
13 candidate, correct?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: That was the  
16 conversation that we had. But that did  
17 not -- that was not part of the analysis  
18 that I conducted in my report nor was it  
19 part of the analysis that I conducted to  
20 draw conclusions in my report.

21 BY MR. SHEEHY:

1 Q. Okay. But that is what your  
2 tables show, correct?

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: That is what we  
5 discussed here in the deposition.

6 BY MR. SHEEHY:

7 Q. Okay. And then when we take a  
8 look at table 1 on page 13 with the partisan  
9 elections, correct, by my count we've got  
10 one, two, three, four, five, six, seven,  
11 eight, nine, ten elections where African  
12 Americans and Latinos are cohesive for the  
13 same candidate, correct?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: So, again, that --  
16 this is not an analysis that I conducted.  
17 In my report you have -- we have talked  
18 about this in this deposition, and the  
19 tables I think are pretty clear in what they  
20 show for this conversation, that that didn't  
21 come into play in my analysis in the report.

1 BY MR. SHEEHY:

2 Q. I mean, you have the list in  
3 front of you where we're talking about the  
4 elections that are up on the screen in front  
5 of you right now. So we just went through  
6 this together. So county sheriff is one  
7 election where Latinos and African Americans  
8 supported the same candidate at a cohesive  
9 rate, correct?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: The county sheriff  
12 election is one in which the Latino voters  
13 voted cohesively for Mark Salinas and black  
14 voters voted cohesively for Mark Salinas.

15 BY MR. SHEEHY:

16 Q. The same thing for Teresa Hudson  
17 on November 3rd, 2020?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: Latino voters voted  
20 cohesively for Teresa Hudson, black voters  
21 voted cohesively for Teresa Hudson.

1 BY MR. SHEEHY:

2 Q. Next election, the same thing for  
3 Adrienne Bell?

4 A. Could you clarify? I just want  
5 to make sure what you're asking. When you  
6 say same thing, could you clarify what  
7 you're asking?

8 Q. So when I ask these questions,  
9 you usually are responding that Latinos are  
10 cohesive. In this example, Latinos are  
11 cohesive for Adrienne Bell and African  
12 Americans are cohesive for Adrienne Bell,  
13 correct?

14 A. Yes, that is correct.

15 Q. So that's three times where we  
16 see that pattern, correct?

17 A. We are -- looked at three  
18 elections in this table.

19 Q. Okay.

20 A. Where Latino and black voters  
21 vote cohesively for the same candidate.

1 Q. Next one, African Americans voted  
2 cohesively for James Yarbrough, correct?

3 A. Correct.

4 Q. Latino voters voted for James  
5 Yarbrough, too, correct?

6 A. Yes, that is correct.

7 Q. And they were cohesive, right?

8 A. That is correct.

9 Q. Okay, so that's four. Next  
10 election, African Americans voted cohesively  
11 for James Yarbrough, correct?

12 A. That is correct.

13 Q. Latinos voted cohesively for  
14 James Yarbrough, too, correct?

15 A. That is correct.

16 Q. Okay. And that's five. Next  
17 election, African Americans voted cohesively  
18 for Chris John Mallios, correct?

19 A. That is correct.

20 Q. And Latinos voted cohesively for  
21 Chris John Mallios, correct?

1 A. That is correct.

2 Q. So that's six. African Americans  
3 voted cohesively for Commissioner Holmes,  
4 correct?

5 A. Correct.

6 Q. And Latino voters voted  
7 cohesively for Commissioner Holmes, correct?

8 A. In the November 2004 elections  
9 for commissioner precinct 3, yes, that is  
10 correct.

11 Q. So that's seven. The next  
12 election, Albert Choate-Bryan Lamb, African  
13 Americans voted cohesively for Bryan Lamb,  
14 correct?

15 A. Yes.

16 Q. And Latino voters voted  
17 cohesively for Bryan Lamb, correct?

18 A. That is correct.

19 Q. Next election, November 2nd,  
20 2010, African American voters voted  
21 cohesively for Bryan Lamb, correct?

1 A. Yes, that is correct.

2 Q. And Latino voters voted  
3 cohesively for Bryan Lamb, correct?

4 A. That is correct.

5 Q. And then in this next one, there  
6 is no cohesion for Latino voters, correct?

7 A. That is correct.

8 Q. So then the next election James  
9 Yarbrough, African Americans voted  
10 cohesively for James Yarbrough, correct?

11 A. Yes, that is correct.

12 Q. And Latino voters voted  
13 cohesively for James Yarbrough, correct?

14 A. Yes, that is correct.

15 Q. So I have ten elections is what I  
16 have counted on this page where Latinos vote  
17 for one candidate cohesively, and African  
18 Americans voted cohesively for the same  
19 candidate, correct?

20 A. On this page of Professor  
21 Alford's report, yes, there are ten

1 elections that fit the pattern that you have  
2 just described.

3 Q. And there are 12 elections on  
4 this page? One, two, three, four, five,  
5 six -- 11, 12. Do you agree with me there  
6 are 12 elections on this page?

7 A. I do.

8 Q. Okay. What do you make of the  
9 fact that in the Mark Henry-William Young  
10 election, this is one of the elections where  
11 Latinos are cohesive for Mark Henry, but  
12 African Americans are cohesive for a  
13 different candidate, William Young, correct?

14 A. Yes.

15 MS. JAYARAMAN: Objection, form.

16 BY MR. SHEEHY:

17 Q. What do you make of the fact that  
18 this is not a Republican versus Democrat  
19 election but a Republican versus independent  
20 election?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: I would need to do  
2 a lot more analysis and research to  
3 understand the pattern of elections and the  
4 candidate recruitment process to learn more  
5 about why there is a Democratic candidate in  
6 this particular election. So I don't make  
7 anything of it yet. I would need to do a  
8 little bit more reading and analysis to  
9 answer that question appropriately.

10 BY MR. SHEEHY:

11 Q. Okay. So given what we have seen  
12 here in the partisan elections versus the  
13 primary elections, don't we see agreement  
14 between African American candidate of choice  
15 and Latino candidate of choice far more  
16 frequently in the partisan elections?

17 MS. JAYARAMAN: Objection, form.

18 THE WITNESS: In order to really  
19 answer that question, I would want to go  
20 back to all of my tables, go back to all of  
21 my analyses, and make sure that I have

1 captured all of the elections in each of the  
2 different categories that we have talked  
3 about to properly answer that question.

4 So I'm not ready to say that yet.  
5 I need to tabulate -- I would need to  
6 tabulate the elections in a different way.  
7 That's not a question that I asked in  
8 conducting my report. And so in order to  
9 really answer the question, I would need to  
10 sit down with the tables and with the data  
11 and make a tabulation like what you  
12 requested here.

13 BY MR. SHEEHY:

14 Q. Okay. But just based upon the  
15 numbers on table 1, page 13 of Professor  
16 Alford's report, which is replicating your  
17 partisan elections in your appendix,  
18 partisan ID is part of -- let me come back  
19 to that.

20 Let me ask you this: Do you  
21 think it reasonable to conclude that when

1 you remove the Democrat partisan ID, Latinos  
2 and African Americans vote for different  
3 candidates?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: I am not prepared  
6 to agree with that statement. Again, I  
7 would need to go back to my tables and my  
8 analysis. I have non-partisan elections in  
9 my analysis as well, before I could give an  
10 accurate answer to that question.

11 BY MR. SHEEHY:

12 Q. Okay. Let's go to page 14 of  
13 your report, your March 15th corrected  
14 report.

15 A. Okay, I'm on page 14. That's  
16 Table 2.

17 Q. Table 2, Commissioner Precinct 3  
18 Reconstituted Election Analysis - Adopted  
19 Map versus Illustrative Map.

20 So here you're comparing the 2006  
21 county judge election results under the

1 adopted map for commissioner precinct 3 and  
2 the illustrative map for commissioner  
3 precinct 3, correct?

4 A. That's correct.

5 Q. Okay. I'm curious how you ran  
6 this analysis. Did you take 2006 voting age  
7 population and put them within the  
8 commissioner precinct 3 boundaries for the  
9 adopted map and the illustrative map? Is  
10 that how you ran that analysis?

11 MS. JAYARAMAN: Objection, form.

12 THE WITNESS: Give me one minute  
13 to read over my report first. Just a  
14 second.

15 BY MR. SHEEHY:

16 Q. That's fine.

17 A. Okay. I'm ready to answer your  
18 question. Could you repeat it, please?

19 Q. Yes. How did you run this  
20 analysis for the 2006 election? Did you --  
21 did you take the 2006 voting age population

1 and place that population in commissioner  
2 precinct 3 for both the adopted map and  
3 illustrative map?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: I added up all the  
6 votes for the VTDS that were contained  
7 within precinct 3 of the adopted map.

8 BY MR. SHEEHY:

9 Q. And I'm assuming by VTD, you  
10 meant voter tabulation district?

11 A. Yes, sorry for using an acronym.

12 Q. No, that's fine.

13 A. So was the VTDS that you used the  
14 2006 VTDS or the adopted map VTDS.

15 MS. JAYARAMAN: Objection, form.

16 THE WITNESS: I used the adopted  
17 map boundaries to determine which VTDS to  
18 add up. Does that answer the question?

19 BY MR. SHEEHY:

20 Q. The VTDS that you included in  
21 commissioner precinct 3, were they the VTDS

1 from 2006?

2 A. They're the VTDs that were  
3 included within the boundaries of precinct 3  
4 in the adopted map.

5 Q. So the current voter tabulation  
6 districts, correct?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: Yes.

9 BY MR. SHEEHY:

10 Q. But you used -- but you used the  
11 voting age population from 2006 in those  
12 voter tabulation districts?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: I'm not  
15 understanding your question. I'm sorry.

16 BY MR. SHEEHY:

17 Q. That's fine.

18 A. I'm using the vote -- I'm using  
19 the vote total to determine the percentages.

20 Q. But using voting age population  
21 from 2006, correct?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: I still -- I still  
3 don't think I'm understanding what you're  
4 asking. I'm only analyzing the votes that  
5 were reported by the county recorder.

6 BY MR. SHEEHY:

7 Q. Okay, so you're using the votes  
8 counted by the county recorder from 2006,  
9 correct?

10 A. Correct.

11 Q. Okay. Next, how are you  
12 determining the African American, Latino,  
13 and white population to conduct this  
14 analysis?

15 MS. JAYARAMAN: Objection, form.

16 THE WITNESS: The demographic  
17 populations that you've just listed are not  
18 contained in this table. I still think I'm  
19 not understanding. I'm sorry.

20 BY MR. SHEEHY:

21 Q. Somewhere in your report, I

1 thought you said that -- right here, Table  
2 2. The candidate preferred by African  
3 American and Latino voters noted in bold  
4 would have lost the election had they run in  
5 commissioner precinct 3 under the adopted  
6 map.

7 So how do you -- how do you know  
8 the candidate of choice for African  
9 Americans and Latinos in the 2006 election?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I used my estimates  
12 that were presented in my appendix table to  
13 determine the candidate of choice for all of  
14 these elections.

15 BY MR. SHEEHY:

16 Q. Okay. But James Yarbrough was a  
17 county judge election, correct?

18 A. There was an election in 2006  
19 between Chris Stevens and James Yarbrough  
20 for county judge.

21 Q. Yes, that election. So that

1 election was county-wide, correct?

2 A. Yes, that's correct.

3 Q. And the tables in your  
4 appendix -- going to the county judge.

5 So the tables on appendix A-20,  
6 2006 county judge election, I was taking  
7 this to be county-wide information here,  
8 correct?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: In the table that I  
11 presented on page A-20, I am estimating that  
12 preferred candidate for all African American  
13 and Latino voters in the county.

14 BY MR. SHEEHY:

15 Q. Okay. But not commissioner  
16 precinct 3, correct?

17 MS. JAYARAMAN: Objection, form.

18 THE WITNESS: Commissioner  
19 precinct 3 is included in that tabulation.

20 BY MR. SHEEHY:

21 Q. Included but not the only piece

1 of Galveston County, correct?

2 MS. JAYARAMAN: Objection, form.

3 THE WITNESS: That is correct

4 that there is -- precinct 3 only constitutes

5 a subset of the county.

6 BY MR. SHEEHY:

7 Q. And so when you say that the

8 Latino vote for Galveston elections for

9 county judge, the Latino vote is 96.37

10 percent for James Yarbrough on Appendix 20,

11 how am I supposed to know whether or not

12 James Yarbrough was the candidate of choice

13 for Latinos in commissioner precinct 3?

14 MS. JAYARAMAN: Objection, form.

15 BY MR. SHEEHY:

16 Q. And I'm referring back to Table

17 2.

18 A. I denote James Yarbrough as the

19 candidate of choice for Latinos using my

20 estimate from table -- the table presented

21 on A-20.

1 Q. Okay. So you're extrapolating  
2 the county-wide support for James Yarbrough  
3 to match support for James Yarbrough in  
4 commissioner precinct 3, correct?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I used my  
7 county-wide estimate that I show on -- in  
8 Table A-20 to determine the candidate of  
9 choice who is bolded in Table 2.

10 BY MR. SHEEHY:

11 Q. Isn't it possible that Latino  
12 voters in commissioner precinct 3 would have  
13 supported Chris Stevens?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: I don't know the  
16 answer to that.

17 BY MR. SHEEHY:

18 Q. And did you conduct the same  
19 analysis for the four other elections  
20 presented on Table 2, page 14 of your  
21 report?

1 MS. JAYARAMAN: Objection, form.

2 THE WITNESS: I use the same  
3 research design for all of the elections  
4 shown in Table 2.

5 BY MR. SHEEHY:

6 Q. You referred to the county-wide  
7 estimates in your appendix, and based on the  
8 county-wide estimates in the appendix, you  
9 made a determination who the candidate of  
10 choice was in Table 2?

11 A. That is correct.

12 Q. Professor, I think I'm actually  
13 going to ask your permission, if you're  
14 fine, if we could take maybe a ten-minute  
15 break. Would that be okay?

16 THE WITNESS: That would be  
17 great.

18 THE VIDEOGRAPHER: We are now off  
19 the record. The time is 1:52 p.m.

20 (Recess 1:52 p.m. to 2:06 p.m.)

21 THE VIDEOGRAPHER: We are now on

1 the record. The time is 2:06 p.m.

2 MR. SHEEHY: Thank you very much,  
3 Professor.

4 BY MR. SHEEHY:

5 Q. A question for you. We're going  
6 back to table 1 of Professor Alford's report  
7 on page 13. And these are the partisan  
8 elections that we just went through,  
9 correct?

10 A. I see that on the screen, yes.

11 Q. Okay. And we agreed that there  
12 are, in elections where the Latino column in  
13 your RxC EI estimate and the African  
14 American column are bold -- are both bold,  
15 that occurs ten times, correct?

16 A. Do you mean -- so there are 11  
17 elections in which Latino voters voted  
18 cohesively and black voters voted  
19 cohesively.

20 Q. Did I miss one? I thought there  
21 were ten.

1           A.     I just want to clarify what you  
2     just asked, which was how many elections are  
3     there where there is a bold candidate in the  
4     Latino column and a bold candidate in the  
5     black column.

6           Q.     So we just went through and  
7     agreed that there are ten elections where  
8     both the Latino column and African American  
9     column contained bold numbers, correct?

10          A.     Are -- the analysis you were  
11     conducting previously was whether or not  
12     they were cohesively voting for the same  
13     candidate.

14          Q.     Correct.

15          A.     That was the discussion I  
16     understood we were having.

17          Q.     Correct. And we agreed that  
18     there were ten of those elections, correct?

19          A.     That is correct.

20          Q.     Out of the 12 elections reported  
21     on this table, correct?

1           A.     That is correct.

2           Q.     And it's your opinion that voters  
3     in Galveston County are voting for  
4     candidates based upon shared political  
5     orientation, correct?

6           MS. JAYARAMAN:  Objection, form.

7           THE WITNESS:  My assumption is  
8     that generally voters vote for a candidate  
9     who shares their political orientation.

10          BY MR. SHEEHY:

11          Q.     And it's your opinion that that  
12     is happening in these 10 out of the 12  
13     elections, correct?

14          MS. JAYARAMAN:  Objection, form.

15          THE WITNESS:  No, I wouldn't  
16     agree with that statement.

17          BY MR. SHEEHY:

18          Q.     Okay.  Earlier you testified that  
19     it was your opinion that voters in Galveston  
20     County were voting for candidates based upon  
21     shared political orientation, correct?

1 A. Yes, that is correct.

2 Q. Okay. Isn't that what is  
3 happening here, that Latino and African  
4 American voters, in the elections in Table  
5 1, are voting for candidates based upon  
6 shared political orientation, correct?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: My presumption is  
9 that all of the elections feature situations  
10 in which voters vote for the candidate who  
11 shares their political orientation.

12 BY MR. SHEEHY:

13 Q. Okay. And the same would be true  
14 for white voters on Table 1 of page 13 of  
15 Professor Alford's report?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: I think I'm not  
18 quite understanding this line of  
19 questioning. Can you ask one more time,  
20 please?

21 BY MR. SHEEHY:

1 Q. Of course. So in the elections  
2 on this page, 12 elections, page 13 of John  
3 Alford's report containing your appendix  
4 pages A-17 through A-21, A-25, and A-26, is  
5 it your opinion that white voters in  
6 Galveston County are voting for Republican  
7 candidates because Republican candidates  
8 share their political orientation?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: It is not possible  
11 for me to say why white voters are voting  
12 the way that they do in Galveston County.  
13 My presumption is that, generally speaking,  
14 voters vote for candidates who share their  
15 political orientation.

16 BY MR. SHEEHY:

17 Q. And you don't have any reason to  
18 believe that's not occurring in Galveston  
19 County, correct?

20 MS. JAYARAMAN: Objection, form.

21 THE WITNESS: I expect that

1 voters in Galveston County are voting for  
2 the candidates who share their political  
3 orientation.

4 BY MR. SHEEHY:

5 Q. Okay. So I want to switch topics  
6 here. So I want to talk briefly about  
7 standard errors, which you report in the  
8 elections in your appendix, correct?

9 A. I do report standard errors for  
10 all of the estimates, yes.

11 Q. I think there are a few estimates  
12 that you don't report standard errors for,  
13 but we can look at those.

14 MS. JAYARAMAN: Objection to  
15 form.

16 BY MR. SHEEHY:

17 Q. Well, I mean, we can -- so, for  
18 example, on Appendix A-30, do you have that  
19 in front of you?

20 A. I do.

21 Q. You see the November 3rd, 2020

1 election for La Marque City Council?

2 A. I see that yes.

3 Q. And your RxC column, you have an  
4 N/A for all three estimates. You have an  
5 N/A for the standard error column, correct?

6 A. Correct.

7 Q. Okay. So why didn't you report a  
8 standard error for that election?

9 A. The standard errors are  
10 calculated by the computer program that I  
11 run, and no standard errors were reported  
12 for that election.

13 Q. So let me ask a couple questions  
14 here about the standard error.

15 With standard errors, the smaller  
16 the number, the smaller the standard error,  
17 the better, correct?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: That's not exactly  
20 how to -- how I think about standard errors.

21 BY MR. SHEEHY:

1 Q. All right. So let me ask it this  
2 way. A standard error of zero or close to  
3 it would indicate that the estimated value  
4 is exactly or nearly exactly the true value,  
5 correct?

6 MS. JAYARAMAN: Objection, form.

7 THE WITNESS: That's not true.  
8 That's not a statement I would agree with.  
9 So we can never know the truth if we are  
10 estimating something. But these are --  
11 standard errors are appropriate to  
12 particular analyses.

13 BY MR. SHEEHY:

14 Q. So I guess my point, though, is  
15 that -- and this is why I said exactly or  
16 nearly exactly the true value. So, again,  
17 the lower the standard error is, the closer  
18 to the true value it is. Would you agree  
19 with that?

20 A. I do not agree with that, no.

21 Q. Okay. So a low standard error --

1 would you agree that having a low number for  
2 a standard error, a standard error of one,  
3 is a good thing?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: That's -- it's too  
6 broad of a statement. I would need to know  
7 what hypothesis you were testing and what  
8 your predetermined significance level was in  
9 order to determine how to answer that  
10 question.

11 BY MR. SHEEHY:

12 Q. How do you define standard error?

13 A. Standard error is defined as the  
14 standard deviation of the population divided  
15 by the square root of the sample size. And  
16 if -- yes, that's how it's defined.

17 Q. Okay. And when you run that  
18 calculation, is the value of an estimate  
19 better if you have a lower standard error?

20 MS. JAYARAMAN: Objection, form.

21 THE WITNESS: If you are

1 conducting a hypothesis test, smaller  
2 standard errors are more likely to allow you  
3 to reject a null hypothesis.

4 BY MR. SHEEHY:

5 Q. Maybe we can do some comparison  
6 here, rather than talking about it in the  
7 abstract. So, for example, if we go to  
8 appendix 18 in your report.

9 A. Yes.

10 Q. So this is the general elections  
11 for county commissioners, African American  
12 vote. You see --

13 A. Yes, I'm on that table.

14 Q. Okay. You see the November 7th,  
15 2006 election, Bryan Lamb and Albert Choate?

16 A. Yes.

17 Q. And you have an estimate of 72.15  
18 for Bryan Lamb in your RxC, correct?

19 A. Yes, that is correct.

20 Q. Now, your standard error, though,  
21 is 19.49, correct?

1           A.     That is the reported standard  
2 error, yes.

3           Q.     Okay. And if you see in the  
4 election above for Commissioner Stephen  
5 Holmes, 99.16 percent is your RxC estimate,  
6 correct?

7           A.     Yes, that's correct.

8           Q.     And your standard error is 0.93,  
9 correct?

10          A.     That's correct.

11          Q.     Okay. So given the difference  
12 here between the standard error, do you have  
13 more certainty in your point estimate for  
14 Commissioner Holmes than you do in your  
15 point estimate for Bryan Lamb?

16          A.     No, I do not have differences in  
17 certainty about those two estimates. These  
18 are the estimates, this is the population  
19 data.

20          Q.     But if you were to calculate a  
21 confidence interval, your confidence

1 interval at 95 percent for Commissioner  
2 Holmes' election would be a lot tighter,  
3 wouldn't it?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: I do not conduct --  
6 create 95 percent confidence intervals here,  
7 because I am not hypothesis testing here.  
8 So that would be, in my view, an  
9 inappropriate way to use the statistic.

10 I present the standard error so  
11 that interested readers can see what the  
12 standard deviation of the population divided  
13 by a third event is in each of these cases.  
14 If the standard deviation changes, then the  
15 standard error changes. If N changes, the  
16 standard error also changed.

17 So there's a variety of different  
18 reasons why we would see different sized  
19 standard errors across all of these  
20 different elections.

21 Precinct number 3 is different

1 than precinct number 2. So I don't draw any  
2 conclusions about the veracity of these  
3 point estimates. They are simply the point  
4 estimates. These are the estimates of the  
5 vote.

6 BY MR. SHEEHY:

7 Q. Well, let's take another example,  
8 then. Let's go to appendix 30, if we could,  
9 please.

10 A. Okay, I'm there.

11 Q. Your standard error for the ER  
12 Johnson election is 27.96, correct?

13 A. Yes, for the point estimate for  
14 the Latino vote for ER Johnson is 27.96,  
15 yes.

16 Q. And thank you for clarifying  
17 that. Now, if we were to calculate a -- if  
18 we were to calculate the confidence interval  
19 at 95 percent, we would multiply the 27.96  
20 by 1.96, correct?

21 A. The calculation of 95 percent

1 confidence interval is given by the equation  
2 that you just presented, which is plus or  
3 minus 1.96 times the standard error of the  
4 estimate.

5 Q. Okay. So if we were to -- okay.  
6 So if we were to multiply 27.96 by 1.96, we  
7 would get somewhere in the neighborhood of  
8 above 50; is that right? I'll pull out my  
9 calculator. If you want to pull yours out,  
10 you may.

11 A. Okay, I'll go get it. 54.8 is  
12 the total that I get.

13 Q. Okay. And then if you add 54.8  
14 to 47.86, you get 102, correct, 102.66?

15 A. Well, I would not create a 95  
16 percent confidence interval around that  
17 estimate. So if you add those two numbers  
18 together, yes, you get the number -- I can  
19 do it.

20 Yes. 47.86 plus whatever number  
21 I said just a minute ago, 57, is 102.66.

1 Q. And then if you subtract 47.86  
2 minus 54.8, you get negative 6.94, correct?

3 A. Yes.

4 Q. And that would give a 95 percent  
5 confidence interval of between negative 6.94  
6 to 102.66, correct?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: I would not create  
9 a 95 percent confident interval around a  
10 population estimate like this.

11 BY MR. SHEEHY:

12 Q. Okay, but if you did, the  
13 confidence interval would be negative 6.94  
14 to 102.66, correct?

15 MS. JAYARAMAN: Objection, form.

16 THE WITNESS: If I was running a  
17 different analysis and my coefficient on a  
18 hypothesis test was 47.86, then, yes, the 95  
19 percent confidence interval would be as you  
20 suggest. But I would not do that in this  
21 case, and I have not done that in this case.

1 BY MR. SHEEHY:

2 Q. Okay. But this confidence  
3 interval is not identical, but I mean, it  
4 closely tracks your EI and Goodman  
5 estimates, correct?

6 MS. JAYARAMAN: Objection, form.

7 THE WITNESS: I'm not sure I  
8 understand that question. Could you repeat  
9 that, please?

10 BY MR. SHEEHY:

11 Q. Your Goodman estimate is 6.08,  
12 correct?

13 A. Yes, that's correct.

14 Q. With a standard error of 95.3?

15 A. Yes.

16 Q. And your EI is 94.33, correct?

17 A. That is the EI estimate, yes.

18 Q. So, I mean, these three estimates  
19 kind of run the entire scope from 0 to 100,  
20 correct?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: As we discussed  
2 earlier, different commands will produce  
3 different point estimates for codings.

4 BY MR. SHEEHY:

5 Q. Okay. And that range between  
6 6.08 for your Goodman estimate and 94.33 for  
7 your EI estimate, while not as large is  
8 similar to the confidence interval at 95  
9 percent, correct?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I'm not  
12 understanding the -- this line of  
13 questioning. I didn't compare my estimates  
14 across the different types of estimators. I  
15 used the RxC estimates in order to draw the  
16 conclusions for my report, and it would be  
17 inappropriate to use a 95 percent confidence  
18 interval on an estimate in -- in -- in one,  
19 drawn from one command to compare that to  
20 estimates from different commands.

21 So I wasn't hypothesis testing in

1 these tables, and so that's why I don't  
2 include 95 percent confidence interval.

3 BY MR. SHEEHY:

4 Q. Aren't you running your EI and  
5 Goodman tests as kind of checks on your RxC  
6 to make sure that your RxC estimates are  
7 not -- or to ensure that your RxC estimates  
8 are trustworthy?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: I wouldn't agree  
11 with that statement on an individual  
12 election basis. I ran the different  
13 commands in order to holistically determine  
14 whether or not patterns were similar  
15 regardless of the estimator that I used.

16 BY MR. SHEEHY:

17 Q. Okay. But you say that you  
18 wouldn't use a 95 percent confidence  
19 interval. Would you use a 90 percent  
20 confidence interval?

21 A. I would not use confidence

1 intervals around these point estimates.

2 Q. Do you think it wrong to use  
3 confidence intervals in racially polarized  
4 voting analysis?

5 MS. JAYARAMAN: Objection, form.

6 THE WITNESS: I would not agree  
7 with that statement, no.

8 BY MR. SHEEHY:

9 Q. Okay. So it's correct to use  
10 confidence intervals when analyzing racially  
11 polarized voting but not required. Is that  
12 your position?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: I can't speak to a  
15 general statement like that. I would need  
16 more specific information about a particular  
17 set of elections that were being analyzed  
18 and the questions that were being asked of  
19 those elections, both individually and  
20 holistically, in order to determine the  
21 appropriateness of different statistical

1 methods.

2 BY MR. SHEEHY:

3 Q. When analyzing racially polarized  
4 voting in Galveston County, is it your  
5 position that it's inappropriate to use  
6 confidence intervals?

7 A. I did not make a choice to use  
8 confidence intervals in this report, because  
9 I was not hypothesis testing.

10 Q. Are confidence intervals only  
11 appropriate when hypothesis testing?

12 A. Confidence intervals are  
13 appropriate when you have a sample that is  
14 drawn from the population, such as a survey,  
15 or when you are hypothesis testing. And  
16 neither one of these circumstances applies  
17 to the table that you see before you in the  
18 appendix.

19 Q. So in that case, when analyzing  
20 elections for racially polarized voting,  
21 it's your position that it's inappropriate

1 to report confidence intervals, correct?

2 A. I cannot --

3 MS. JAYARAMAN: Objection, form.

4 THE WITNESS: I do not agree with  
5 that statement, holistically. It depends.

6 BY MR. SHEEHY:

7 Q. What does it depend on?

8 MS. JAYARAMAN: Objection, form.

9 THE WITNESS: It would depend on  
10 the data that were being used and the  
11 questions that were being asked.

12 BY MR. SHEEHY:

13 Q. Okay. Galveston County elections  
14 and is there racially polarized voting?

15 MS. JAYARAMAN: Objection, form.

16 THE WITNESS: Using the data that  
17 I used for the analysis in this report, I do  
18 not report 95 percent confidence intervals.

19 BY MR. SHEEHY:

20 Q. And you don't because this is not  
21 a survey, nor is it a hypothesis, correct?

1 A. I agree with that statement.

2 Q. And that's why you're not  
3 reporting confidence intervals?

4 A. These estimates are point  
5 estimates that are drawn from the  
6 population, and there is not a hypothesis  
7 that I am testing when I am presenting these  
8 data.

9 Q. Okay. But you don't think it  
10 wrong from a statistical point of view to  
11 use confidence intervals when analyzing  
12 Galveston County election data to determine  
13 racially polarized voting?

14 MS. JAYARAMAN: Objection, form.

15 THE WITNESS: I can only speak to  
16 my analysis. My analysis -- in my analysis,  
17 I chose not to present 95 percent confidence  
18 intervals.

19 BY MR. SHEEHY:

20 Q. You reviewed racially polarized  
21 voting analysis in other jurisdictions,

1 correct?

2 MS. JAYARAMAN: Objection, form.

3 THE WITNESS: I have analyzed  
4 elections in other jurisdictions. Is that  
5 the question that you asked?

6 BY MR. SHEEHY:

7 Q. My question was, have you  
8 conducted racially polarized voting analysis  
9 in other jurisdictions?

10 A. I have.

11 Q. And have you produced confidence  
12 intervals for your analysis of those  
13 elections?

14 A. I don't recall whether or not I  
15 did or not.

16 Q. So it's possible that in other  
17 racially polarized voting election analysis  
18 that you've conducted, that you've  
19 determined confidence intervals should be  
20 reported?

21 MS. JAYARAMAN: Objection, form.

1                   THE WITNESS: I have conducted  
2 hypothesis tests with respect to racially  
3 polarized voting. And if I did that, I  
4 would report 95 percent confidence  
5 intervals.

6                   BY MR. SHEEHY:

7                   Q. And what is the difference  
8 between hypothesis testing for racially  
9 polarized voting and generating estimates as  
10 you've done here in Galveston County?

11                  A. Hypothesis testing requires  
12 analyzing the relationship between two  
13 continuous variables and making a statement,  
14 a mental model, if you will, about how you  
15 expect one variable to vary when the other  
16 variables there. And that is mostly what I  
17 do in my political science research.

18                  This -- the analysis that I have  
19 conducted here is different. This -- the  
20 task here was to produce estimates of racial  
21 group cohesion and racially polarized voting

1 drawn from those estimates.

2 So there is -- I am not  
3 hypothesis testing in the data that are  
4 presented here in the tables in the  
5 appendix.

6 Q. Aren't you hypothesizing, though,  
7 when it comes to how you're generating these  
8 estimates? You use -- for elections from  
9 2010 to the present, you use citizen voting  
10 age population, correct?

11 MS. JAYARAMAN: Objection, form.

12 THE WITNESS: Can you say that  
13 one more time? I just want to make sure I  
14 answer accurately.

15 BY MR. SHEEHY:

16 Q. You used citizen voting age  
17 population data when you were analyzing  
18 elections from 2010 to the present, correct?

19 A. Yes, I used citizen voting age  
20 population at the block level aggregated to  
21 voting districts to conduct the analysis

1 here, yes.

2 Q. You did not use registered  
3 voters, correct?

4 A. That is correct.

5 Q. And so there could be citizens  
6 who are of voting age who are not registered  
7 voters, correct?

8 MS. JAYARAMAN: Objection, form.

9 THE WITNESS: There could be  
10 citizens who are not registered to vote in  
11 any jurisdiction, yes.

12 BY MR. SHEEHY:

13 Q. Okay. So aren't you  
14 hypothesizing about the voter turnout and  
15 results in these elections?

16 MS. JAYARAMAN: Objection, form.

17 THE WITNESS: That is not the  
18 task that I am completing in these analyses.

19 BY MR. SHEEHY:

20 Q. Okay. Let me go to -- if we can  
21 go to appendix 21, your general elections

1 for county judge.

2 A. Okay.

3 Q. Now, if we look at -- and I'm  
4 sorry, page A-20, appendix A-20. So general  
5 elections for county judge, Latino vote.

6 A. Okay, I'm there.

7 Q. You see the standard errors  
8 reported at the bottom for the Mark Henry -  
9 William Young election?

10 A. Yes, I see those.

11 Q. So your standard error for  
12 William Young is actually the same as your  
13 estimate 37.86, correct?

14 A. I'm sorry -- right, Latinos.  
15 Yes.

16 Q. And then your standard error for  
17 your EI is 73.33, correct?

18 A. That's what it says.

19 Q. Now, I guess my question to you  
20 is, when I -- when I went through these  
21 pages, and I'll represent to you that 37.86

1 was the highest standard error reported for  
2 RxC. Do you know why the standard error is  
3 so high in this election?

4 MS. JAYARAMAN: Objection, form.

5 THE WITNESS: No, I don't know  
6 why.

7 BY MR. SHEEHY:

8 Q. What would cause a standard error  
9 to be between 20 and 30?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: I don't know how to  
12 answer that question. Standard -- a  
13 standard error is literally just a standard  
14 deviation of the population which is the sum  
15 of the square deviation from the mean,  
16 square rooted, divided by N minus 1 --  
17 divided by the square root of N. So it's  
18 just driven by the data. It is a number  
19 that is described variation in the data.

20 BY MR. SHEEHY:

21 Q. Described variation in the data.

1           A.       That's what the standard error  
2       is.

3           Q.       Okay. So at 37.86, is that  
4       informing me that there is a lot of  
5       variation in the data?

6           MS. JAYARAMAN: Objection, form.

7           BY MR. SHEEHY:

8           Q.       And on this page, we could say it  
9       this way. The November 4th, 2014 election,  
10       William Young for Latino vote has a standard  
11       error of 37.86. Then in the commissioner --  
12       or Judge Henry and Yarbrough election,  
13       November 22nd, 2010, the standard error is  
14       4.74 and 4.76.

15          A.       Those are the figures that are  
16       presented in that table, yes.

17          Q.       Now, is this telling me that  
18       there is substantially less variation in the  
19       data for the Mark Henry-James Yarbrough  
20       election?

21          MS. JAYARAMAN: Objection, form.

1 THE WITNESS: I would need to do  
2 additional analysis to compare across  
3 elections in the way that you're comparing  
4 them.

5 BY MR. SHEEHY:

6 Q. Does the standard error of 37.86  
7 in the Mark Henry-William Young election,  
8 does that at all question the accuracy of  
9 the point estimates reported?

10 MS. JAYARAMAN: Objection, form.

11 THE WITNESS: The point estimate  
12 is the point estimate that was given by my  
13 analysis.

14 BY MR. SHEEHY:

15 Q. Do we have less confidence in  
16 that point estimate of 37.86 than we would  
17 in, say, the election above it, James  
18 Yarbrough, 93.57 with a standard error of  
19 4.74?

20 MS. JAYARAMAN: Objection, form.

21 THE WITNESS: I would need to do

1 additional analysis in order to compare the  
2 cross selections in the way that you're  
3 doing.

4 BY MR. SHEEHY:

5 Q. Well, in the same election,  
6 William Young, 37.86 -- with a standard  
7 error of 37.86. Mark Henry --

8 A. I'm sorry, I --

9 Q. 62.18, with a standard error of  
10 7.57. So in this election, do we have more  
11 confidence in the 62.18 than we do in the  
12 37.86?

13 MS. JAYARAMAN: Objection, form.

14 THE WITNESS: That's not the  
15 conclusion that I would draw. I would not  
16 draw a conclusion about confidence in the  
17 estimate.

18 BY MR. SHEEHY:

19 Q. Are you saying that it is a valid  
20 conclusion to draw?

21 A. That is not the conclusion that I

1 would draw.

2 Q. But are you saying that a  
3 contrary conclusion, such as mine, that we  
4 have less confidence in the William Young  
5 point estimate than we do in the Mark Henry  
6 point estimate, are you saying that my  
7 conclusion, although you disagree with it,  
8 is valid?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: I do not agree with  
11 that statement.

12 BY MR. SHEEHY:

13 Q. Okay. So this is in the same  
14 election. What do you conclude, if  
15 anything, given the high standard error for  
16 William Young and the 30-point lower  
17 standard error for Mark Henry?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: I conclude that the  
20 standard error is larger for Bill Young.  
21 That is what I conclude.

1 BY MR. SHEEHY:

2 Q. And from that, do you infer  
3 anything further?

4 A. I do not.

5 Q. There's nothing else to infer  
6 from this standard error of 37.86, other  
7 than that it's larger than 7.57?

8 MS. JAYARAMAN: Objection, form.

9 THE WITNESS: What I can learn  
10 from this table is that that is a larger  
11 standard error. That Bill Young has a  
12 larger standard error from Mark Henry.

13 BY MR. SHEEHY:

14 Q. And can you infer anything else  
15 other than the size of the standard error is  
16 larger than the standard error for Mark  
17 Henry?

18 MS. JAYARAMAN: Objection, form.

19 THE WITNESS: The only conclusion  
20 that I draw looking at this table is that  
21 Bill Young has a larger standard error on

1 the estimate than Mark Henry does for Latino  
2 voters.

3 BY MR. SHEEHY:

4 Q. Let's go to page 22 of Professor  
5 Alford's report, please. We're looking at  
6 figure 5 on page 22 of Professor Alford's  
7 report. Do you see that, Professor?

8 A. Yes, I see that.

9 Q. And figure 5 is entitled  
10 "Reproduction of Trounstine's Chart on Page  
11 11 titled 'Chart 1: Endogenous Elections in  
12 Galveston County Reveal Racial  
13 Polarization," correct?

14 A. That is correct.

15 Q. And does this chart appear to be  
16 the same chart that you have on page 11 of  
17 your report?

18 A. Yes, it appears to be replicated.

19 Q. So it appears to me that if I am  
20 looking at this chart that if black and  
21 Latino voters are 20 percent of the share of

1 eligible voters, which is your horizontal  
2 line on the bottom, this is at the point  
3 which districts are predicted to elect  
4 minority preferred candidates, correct?

5 MS. JAYARAMAN: Objection to  
6 form.

7 THE WITNESS: No, because these  
8 data are at the VTD level, and when  
9 candidates are elected they are elected in  
10 the aggregate, not at the VTD level. So  
11 this chart does not say what you just said.

12 BY MR. SHEEHY:

13 Q. Okay. So then let me see if I  
14 can understand.

15 If black and Latino voters, or if  
16 the black and Latino share of eligible  
17 voters is 20 percent of a voting tabulation  
18 district, the share of votes for a preferred  
19 candidate in that VTD cluster here kind of  
20 around 50 percent, correct?

21 MS. JAYARAMAN: Objection, form.

1 THE WITNESS: I mean, I --  
2 eyeballing it, that is -- it's hard to do,  
3 but I can absolutely run an analysis where I  
4 look at the average share of eligible voters  
5 and the share of votes that a preferred  
6 candidate, in a table form. But it's a  
7 little hard to eyeball it here.

8 BY MR. SHEEHY:

9 Q. So 20 percent black and Latino  
10 share of eligible voters and then these  
11 circles are voting tabulation districts. Is  
12 that what these little circles are?

13 A. Yes, that's correct.

14 Q. So at 20 percent of black and  
15 Latino share of eligible voters, we're  
16 getting VTDs where 80 percent of the vote  
17 goes to preferred candidates?

18 A. There are some VTDs that display  
19 that pattern, yes. And there are others  
20 that display the opposite pattern where  
21 there's 20 percent of the eligible voters

1 are black and Latino and a very small share,  
2 say 20 or 30 percent of the vote goes to the  
3 preferred candidate in those VTDS, the  
4 cluster of circles down in the bottom left.

5 Q. Right, I see the cluster there.  
6 I also see the cluster at 80. I see the  
7 cluster at 60, and I see clusters below your  
8 progression line as well, correct?

9 MS. JAYARAMAN: Objection, form.

10 THE WITNESS: The figure of the  
11 chart shows that there is a range of vote  
12 totals in the VTDS across the spectrum.

13 BY MR. SHEEHY:

14 Q. And there is a cluster -- I mean,  
15 I can't really count them, but there is a  
16 cluster on the 80 percent line, correct?

17 MS. JAYARAMAN: Objection, form.

18 BY MR. SHEEHY:

19 Q. At the 20 percent --

20 A. There appear to be.

21 Q. At the 20 percent horizontal and

1 at the 80 percent vertical, there appear to  
2 be a cluster of voting tabulation districts  
3 going for the preferred candidate of choice  
4 for minorities, correct?

5 A. Wait, you said 20 percent  
6 horizontal and 80 percent vertical?

7 Q. Yes, the bottom line --

8 A. So -- oh, sorry. I was  
9 misunderstanding. So 20 percent of the X  
10 factor and your -- we're talking about how  
11 many voting districts appear at point 8 on  
12 the Y axis, is that my understanding?

13 Q. Yes.

14 A. I don't know how many there are  
15 in that. That fall into that category. I  
16 could count them.

17 Q. Okay. But there is a good  
18 cluster there, correct?

19 MS. JAYARAMAN: Objection, form.

20 THE WITNESS: There are some  
21 voting districts, according to this chart,

1 where black and Latino voters make up 20  
2 percent of the population, and the share of  
3 votes for their preferred candidates is  
4 somewhere around 80 percent. There are some  
5 voting districts where that statement is  
6 correct.

7 BY MR. SHEEHY:

8 Q. Okay.

9 A. There are many more, it appears,  
10 where that's not correct.

11 Q. And just to make it clear, these  
12 circles on this chart represent voter  
13 tabulation districts, correct?

14 A. That is correct.

15 Q. Okay. And on this chart, are all  
16 of Galveston County's voter tabulation  
17 districts depicted on this chart?

18 A. I would need to go back and  
19 double check whether or not that's true. So  
20 I don't want to answer that without double  
21 checking the answer.

1 Q. Okay. The title of the chart is  
2 endogenous elections in Galveston County  
3 reveal racial polarization. So does that  
4 refresh your recollection that each one of  
5 these circles represents one of the voter  
6 tabulation districts in Galveston County?

7 MS. JAYARAMAN: Objection, form.

8 THE WITNESS: Each circle does,  
9 in fact, represent a voter tabulation  
10 district in Galveston County.

11 BY MR. SHEEHY:

12 Q. And does this chart contain all  
13 of the voter tabulation districts in  
14 Galveston County?

15 A. I'll need to go back to the data  
16 and ensure that that is the -- to determine  
17 the answer to that question.

18 Q. Okay. I'm just looking on page  
19 11 of your report to see if you say, one way  
20 or the other, if it's all of the voting  
21 tabulation districts.

1                   But you're not sure if these are  
2 all of the voting tabulation districts in  
3 Galveston County, correct?

4                   MS. JAYARAMAN: Objection, form.

5                   THE WITNESS: I'm not sure  
6 without going back to the data, correct.

7                   BY MR. SHEEHY:

8                   Q.     Okay. Going back to the standard  
9 error numbers. Does low turnout impact the  
10 standard error?

11                  MS. JAYARAMAN: Objection, form.

12                  THE WITNESS: I don't know the  
13 answer to that question without conducting  
14 additional analysis.

15                  BY MR. SHEEHY:

16                  Q.     Okay. In that case, it might  
17 impact -- having low voter turnout might  
18 impact the standard error, correct?

19                  MS. JAYARAMAN: Objection, form.

20                  THE WITNESS: I don't know.

21                  BY MR. SHEEHY:

1 Q. So, Professor, I'm going to ask  
2 you, I think one more time if I could take a  
3 break. Is that fine with you?

4 THE WITNESS: Yes, that's fine  
5 with me.

6 MR. SHEEHY: Excellent. Let's go  
7 off the record. We'll take a ten-minute  
8 break and we'll be right back.

9 THE VIDEOGRAPHER: We are now off  
10 the record. The time is now 3:01 p.m.

11 (Brief Recess.)

12 THE VIDEOGRAPHER: We are now on  
13 the record. The time is 3:05 p.m.

14 MR. SHEEHY: Professor  
15 Trounstine, thank you very much for your  
16 time today. I don't have any more questions  
17 for you.

18 MS. JAYARAMAN: Counsel, I will  
19 need about a ten-minute break to just gather  
20 my thoughts, if you don't mind.

21 MR. SHEEHY: That will be fine,

1 thank you.

2 THE VIDEOGRAPHER: We are now off  
3 the record. The time is 3:05 p.m.

4 (Brief Recess.)

5 THE VIDEOGRAPHER: We are now on  
6 the record. The time is 3:12 p.m.

7 MS. JAYARAMAN: I have a couple  
8 questions, Professor.

9 EXAMINATION

10 BY MS. JAYARAMAN:

11 Q. Have you reviewed Professor  
12 Alford's rebuttal report?

13 A. I have reviewed his report.

14 Q. And was your rebuttal report  
15 intended to address every point in Professor  
16 Alford's report with which you disagreed?

17 A. No, it was not my -- it was not.

18 Q. What was the intention of your  
19 rebuttal report?

20 A. The intention of my rebuttal  
21 report was to highlight two errors that I

1 believed -- believed Professor Alford made  
2 in the report. One, that he  
3 mischaracterized a mistake that I had made,  
4 and I wanted to correct that. And secondly,  
5 that there was a typo in his report.

6 Q. And does Professor Alford produce  
7 his own estimate of racial block voting in  
8 his report?

9 MR. SHEEHY: Objection to form.

10 THE WITNESS: Professor Alford  
11 presents different estimates in his report.

12 BY MS. JAYARAMAN:

13 Q. And with those estimates, does he  
14 include confidence intervals?

15 MR. SHEEHY: Objection to form.

16 THE WITNESS: Not that I recall.

17 MS. JAYARAMAN: I don't have any  
18 further questions, but we would like to read  
19 and sign.

20 MR. SHEEHY: If I could do a  
21 brief redirect.

EXAMINATION

BY MR. SHEEHY:

Q. Professor, do you intend to submit any additional rebuttal report in this case?

A. At this time, I do not intend to submit an additional report, no.

Q. Okay.

MR. SHEEHY: I have no further questions. Thank you.

THE VIDEOGRAPHER: We are off the record at 3:15 p.m., and this concludes the testimony given by Jessica Trounstine.

(Reading and signing reserved.)

(Deposition concluded 3:15 p.m.)

4 RE: Honorable Terry Petteway Et Al. v. Galveston County Et Al.

5 4/14/2023, Professor Jessica Trounstine (#5835079)

6 The above-referenced transcript is available for  
7 review.

8 Within the applicable timeframe, the witness should  
9 read the testimony to verify its accuracy. If there are  
10 any changes, the witness should note those with the  
11 reason, on the attached Errata Sheet.

12 The witness should sign the Acknowledgment of  
13 Deponent and Errata and return to the deposing attorney.  
14 Copies should be sent to all counsel, and to Veritext at  
15 cs-midatlantic@veritext.com.

16  
17 Return completed errata within 30 days from  
18 receipt of testimony.

19 If the witness fails to do so within the time  
20 allotted, the transcript may be used as if signed.

19 MR. HOLT: Dallin Holt on behalf of the  
20 defendants.

21 MS. PRATHER: Kelly Greenwood Prather --

22 MR. GEAR: Bruce Gear on behalf --

23 MS. PRATHER: Sorry.

24 MR. GEAR: I'm sorry.

25 MS. PRATHER: Kelly Greenwood Prather for

1 the --

2 MR. GEAR: Bruce Gear on --

3 MS. PRATHER: -- witness --

4 MR. GEAR: -- behalf of the -- we'll get it  
5 right.

6 MS. PRATHER: Go ahead.

7 MR. GEAR: Bruce Gear on behalf of the  
8 Department of Justice Voting Section.

9 THE REPORTER: You want to go ahead and  
10 announce?

11 MS. PRATHER: Oh, you want me to say it  
12 again? Okay. Kelly Greenwood Prather on behalf of the  
13 witness, Roxy Hall Williamson.

14 THE REPORTER: Is that it? Okay.

15 EXAMINATION

16 BY MS. RICHARDSON:

17 Q. All right, Ms. Williamson. As I just said, my  
18 name is Valencia Richardson on behalf of the Petteway  
19 plaintiffs; and I'll be asking your questions today, just  
20 the first pass.

21 So, just to get started, have you ever been  
22 deposed before?

23 A. I have not.

24 Q. Okay. Well, some -- just some general ground  
25 rules: As you see, you're being video recorded, and the

1 court reporter right beside you is also transcribing  
2 everything we say. So, in order to facilitate like a  
3 clean transcript, it's helpful if you don't say "uh-huhs"  
4 or nod your head. If there is like a yes or no question,  
5 say yes or no or just answer the question depending on  
6 the -- on the question; and then even though we're being  
7 video recorded, like I said, the -- the transcript will  
8 be -- will be recording all the verbal responses. That's  
9 why it's important to get everything as clean as possible.

10 Also, we can take breaks as much as you  
11 want. I'll probably want to take a break as well. And my  
12 only request is that you finish answering a question, and  
13 then we'll take the break. And we can -- if you need to  
14 stop and take a break at any point, just let me know.  
15 And -- or just let any of us know who are questioning you,  
16 and we will -- we will do that. Okay?

17 And then if you don't understand a question,  
18 let me know; otherwise, I'll assume you understood it and  
19 will be able to answer it. Does that all sound good?

20 A. Yes.

21 Q. Fantastic. Okay.

22 Can you state your name for the record?

23 A. Roxy Hall Williamson.

24 Q. Do you understand that you're under oath today?

25 A. I do.

1 Q. Did you bring any documents with you to the  
2 deposition today?

3 A. Other than my subpoena, no.

4 Q. Did you review any documents to prepare for the  
5 deposition?

6 A. I did not.

7 Q. Okay.

8 MS. RICHARDSON: I'm just going to very  
9 quickly mark as Exhibit 1 the deposition subpoena. So,  
10 this will be Exhibit 1.

11 There you go.

12 (Exhibit 1 marked)

13 MR. HOLT: And I just had a thought.

14 Sorry. This is --

15 MS. RICHARDSON: No worries.

16 MR. HOLT: -- Dallin Holt.

17 With the Zoom participants we might need to  
18 be logged in --

19 MS. RICHARDSON: Uh-huh.

20 MR. HOLT: -- and put our exhibits in the  
21 Zoom chat box. How do we want to go about that?

22 MS. RICHARDSON: Ummm, we can share the  
23 exhibits with them maybe on the next break; or if we want,  
24 you do -- would you prefer to have the exhibits share  
25 within realtime?

1 MR. HOLT: I'm -- I'm okay with whatever  
2 they want. If they -- if they're okay without getting  
3 them -- and everyone is, I think. My only concern would  
4 be DOJ maybe having some representation. They might want  
5 the exhibits. But it's up to them, if they're okay  
6 getting them afterwards. If they want them realtime, I  
7 can -- I don't...

8 MS. RICHARDSON: Bruce, do you have a  
9 preference as to how exhibits are shared for you?

10 MR. GEAR: Whatever is easiest for you; but  
11 if, you know, you can share them while you're discussing  
12 them, that would be very helpful.

13 MS. RICHARDSON: Okay. Well, I can just  
14 send them over as I'm discussing them.

15 Or do one of you mind sending them over to  
16 Bruce as I'm --

17 MR. HOLT: If we want to have like an e-mail  
18 chain --

19 MS. RICHARDSON: Yeah.

20 MR. HOLT: -- we just do a reply all, just  
21 have it on just a running e-mail chain, I think that might  
22 work.

23 MS. RICHARDSON: Yeah. And we can -- that's  
24 fine.

25 MR. HOLT: Awesome.

1 MS. RICHARDSON: Sounds good.

2 MS. CHEN: I'll do that.

3 MS. RICHARDSON: All right. Thanks.

4 All right. So, everyone has a copy.

5 Q. (By Ms. Richardson) And Ms. Williamson, is that  
6 your deposition subpoena we're looking at?

7 A. I -- yes. This is what I received.

8 Q. Okay. Thank you so much. Only question for  
9 that.

10 And are you taking any medications that  
11 might affect your testimony today?

12 A. I am currently on Trigrisso, which is a  
13 chemotherapy drug; however, I don't believe that it  
14 impairs my thought processes. I go about my everyday life  
15 as usual. I have not so far had any issues with the  
16 medication.

17 Q. Okay. Thank you.

18 Ms. Williamson, what race or ethnicity do  
19 you identify as?

20 A. I identify as black, African-American.

21 Q. And how long have you lived in Galveston County?

22 A. I've been in Galveston County since 2018.

23 Q. Where have you lived in Galveston County?

24 A. In La Marque, Texas, and on the island proper,  
25 Galveston Island, the city.

1 Q. Before Galveston where did you live?

2 A. Atlanta, Georgia.

3 Q. And that's where you're from originally?

4 A. Originally born on Galveston Island but moved to  
5 Atlanta my junior year of high school.

6 Q. Okay. And where do you currently live?

7 A. La Marque, Texas, with my parents.

8 Q. And would you mind just stating your address for  
9 the record.

10 A. 716 Hackberry, H-a-c-k-b-e-r-r-y, Street,  
11 La Marque, Texas, 77568.

12 Q. Can you describe your family's history in  
13 Galveston County?

14 A. Yes. My mother has been a resident since the mid  
15 '90s off and on. Again, we were in Atlanta for a while;  
16 and then she moved back as I was matriculating, doing  
17 undergraduate studies at Savannah State.

18 Q. Do you have any other family in Galveston?

19 A. My grandparents lived there my whole life until  
20 they both passed.

21 Q. For how long was that that your grandparents  
22 lived there?

23 A. Whoo. Let's see. They moved there. My mother  
24 was 11, which would have been the early '60s; and so, they  
25 each passed respectively mid '80s and mid '90s.

1 Q. Beginning with around high school, can you  
2 describe your educational background for us?

3 A. Sure. Like I said before, my mother moved us to  
4 Atlanta my junior year of high school, which was 1986. I  
5 graduated 1987 from J.C. Murphy High School in Atlanta,  
6 Georgia; and I subsequently went on later that fall to  
7 Savannah State to matriculate. I graduated from Savannah  
8 State University in 1993 and just been living life ever  
9 since then.

10 Q. And what's your current occupation?

11 THE WITNESS: (Coughing.) Excuse me.

12 A. Currently I do -- I'm a writer, freelance writer.

13 Q. (By Ms. Richardson) How often do you freelance?

14 A. I currently contribute to the CULTURE CLASH

15 MAGAZINE in Galveston, Texas. I do that bimonthly.

16 Currently that's the only publication that I'm working  
17 with right now.

18 Q. How long have you been writing?

19 A. Since 1988.

20 Q. Have you held any other jobs?

21 A. Oh, I've done quite a bit. I've bartended. I  
22 was a stay-at-home mom for a long time; so, I did  
23 different part-time jobs during that time raising my  
24 daughter.

25 Q. Have you ever held any jobs -- other jobs in

1 Galveston?

2 A. I was at a hotel briefly hostessing, but that's  
3 about it in Galveston.

4 Q. What year was that if you remember?

5 A. That was 2018-2019.

6 Q. What do you write about?

7 A. Community events and community issues. It's  
8 always about community.

9 Q. Can you give us some examples?

10 A. I did a piece for the CULTURE CLASH MAGAZINE  
11 about if Galveston appreciates its African-American  
12 history as far as we have several monuments to Jack  
13 Johnson. We have different black history surrounding  
14 Juneteenth and those types of things. So, I wrote from a  
15 community standpoint about how we appreciate those things  
16 in the community.

17 Q. Have you been involved in any community  
18 organizations or associations in Galveston County?

19 A. I am a member of Alpha Kappa Alpha Sorority,  
20 Incorporated. I'm also a member of the Knights of Peter  
21 Clater -- Claver Ladies Auxiliary as well as I just help  
22 out with organizations like the Black Nurses of Galveston  
23 County. They feed the hungry every fifth Saturday of the  
24 month. My mother is a member; so, I help out kind of  
25 because she makes me. But --

1 Q. I understand.

2 A. -- it's what I do for the community. So...

3 Q. Are you involved in an organization called  
4 GIVERS?

5 A. I am. I am the founder of GIVERS. We  
6 concentrate -- well, the acronym stands for Galveston  
7 Island Voter Education Resource and Services; and my  
8 platform is to bring voter education to Galveston County.

9 Q. What's the organization's mission?

10 A. The mission is to preserve, expand and defend  
11 voting rights.

12 Q. When was GIVERS founded?

13 A. December, 2020.

14 Q. And why did you found GIVERS?

15 A. Well, upon doing some community work with my  
16 mother and some of her colleagues, I was charged by that  
17 group of women to try to bridge some of the educational  
18 gaps in the community when it comes to voting and voting  
19 rights. The community felt as if their voices weren't  
20 being clearly heard and partly because they don't feel the  
21 resources to educate the community about their rights to  
22 vote and how redistricting and those things affect their  
23 votes, that they were getting enough of that. So, I was  
24 charged with attempting to bridge that gap in the  
25 community.

1 Q. And can you describe what community you're  
2 referring to that GIVERS serves?

3 A. Primarily black, Hispanic and other marginalized  
4 communities that are not necessarily seen as the  
5 mainstream when it comes to voter access.

6 Q. Does GIVERS work with any other organizations in  
7 the county?

8 A. Well, we're attempting to build those bridges. I  
9 primarily work with the Texas Grassroots Alliance, which  
10 covers all of Texas as well as some other groups. We have  
11 an Indivisible group in Galveston called Krewe GAIA,  
12 Galveston Art in Action -- excuse me -- which they use  
13 arts as a way of facilitating voter education in those  
14 types of events.

15 Other than those folks, not really. It's  
16 just sort of me and a few of the other people, like I  
17 said, across the state trying to bridge that gap and bring  
18 those resources to Galveston County.

19 Q. Does GIVERS rely on volunteers?

20 A. Yes, which we have none right now. We're working  
21 on that.

22 Q. Have you ever worked for any political campaigns  
23 in Galveston?

24 A. Not directly, though I have helped the county  
25 Democrats electioneer and get out voter education

1 | information.

2 | Q. What kinds of activities did you do with the  
3 | county Democrats?

4 | A. Voter registration mainly.

5 | Q. All right. For which elections? Do you recall?

6 | A. Everything from 2020 until now, local, state,  
7 | national.

8 | Q. Have you volunteered in any elections in  
9 | Galveston County in any other way?

10 | A. No, other than electioneering, passing out  
11 | information. That's about it.

12 | Q. Have you ever served as a poll worker?

13 | A. Oh, I have. I'm sorry. I have. And I also work  
14 | with the early ballot -- Early Voting Ballot Board.

15 | Q. When did you work for the Early Voting Ballot  
16 | Board?

17 | A. I've done pretty much every election from 2020  
18 | until now.

19 | Q. And what -- what kind of volunteer work do you do  
20 | with the Early Voting Ballot Board?

21 | A. Well, that -- the ballot board isn't volunteer.  
22 | The County pays us, and I primarily work with the  
23 | signature verification team.

24 | Q. All right. And what do you? Do you help with  
25 | the signature matching process?

1 | A. We do.

2 | Q. Are there any other interactions with voters that  
3 | you have in that role?

4 | A. No. No, that's strictly behind closed doors. We  
5 | are recorded, and we are very -- it's very strict process  
6 | with handling the ballots.

7 | Q. Have you ever worked for the County in any other  
8 | capacity?

9 | A. I have not.

10 | Q. All right. What commissioners court precinct do  
11 | you live in?

12 | A. Currently, right now, it would have been  
13 | Commissioner Stephen Holmes' precinct, Precinct 2 or 3? I  
14 | don't remember right off. I want to say it's Precinct 2.

15 | Q. Are you saying --

16 | A. My parents' house.

17 | Q. -- under the current map it's --

18 | A. "Under the current map" confuses me. By the  
19 | original map it was current -- it was Commissioner Stephen  
20 | Holmes' precinct.

21 | Q. And by "original map" you mean the map that was  
22 | adopted before 2021 --

23 | A. Yes.

24 | Q. -- just for clarification?

25 | A. Yes.

1 Q. Okay.

2 Do you know who currently represents your  
3 district in the commissioners court?

4 A. I can't remember his name right now. I want to  
5 say it's Commissioner -- is it Giusti? I don't know. I  
6 may have my names mixed up. I don't remember right off  
7 the top.

8 Like I said, that current map confuses me.  
9 I'm not really sure who represents who.

10 Q. So, you see -- are you referring to Joe Giusti?  
11 His name confuses me, too.

12 A. I think. I can't speak. I can't confidently  
13 give his name right now, the current -- whoever the  
14 current -- current commissioner is.

15 Q. That's okay.

16 Did you take training to become a deputy  
17 voting registrar in Texas?

18 A. I did.

19 Q. How long have you been a voter registration  
20 registrar?

21 A. Since 2018.

22 Q. Okay. Have you ever worked with any groups to  
23 register voters in Galveston County?

24 THE WITNESS: (Coughing.) Excuse me.

25 A. Like I said, I've done several different voter

1 | registration events throughout the county with different  
2 | groups, primarily with the Galveston Island Democrats or  
3 | the county Democrats at large, but I have done some  
4 | registration at different events. We had a Juneteenth  
5 | event last summer, I think; and we had several booths up.  
6 | And I sort of -- I helped out where I was needed.

7 | Q. (By Ms. Richardson) When you register voters, do  
8 | you get a chance to speak with those voters?

9 | A. I do. I do, and that's what led to wanting to  
10 | bring a more nonpartisan, nonaffiliated platform to  
11 | educate voters because they have lots of questions, lots  
12 | of questions.

13 | Q. Did you get a chance to speak to any of the black  
14 | residents in Galveston County during those efforts?

15 | A. Actually I did. Primarily when I was a fellow  
16 | with the Southern Coalition for Social Justice, I held a  
17 | town hall; and I had several other opportunities to speak  
18 | directly with voters about their issues with the County,  
19 | especially with the maps.

20 | And like I said, we had several  
21 | opportunities where we had different events that were set  
22 | up to specifically allow citizens to come forth and speak  
23 | about how they felt the maps were being drawn, if they  
24 | felt that they had enough input or had enough opportunity  
25 | to have input. And we've done at least one at a church.

1 Like I said, we've -- you know, I had a town hall; and  
2 we've offered different Zoom opportunities for citizens to  
3 speak on those issues.

4 Q. During those efforts as both an SG -- SCSJ fellow  
5 as well as your voter registration efforts, did you get a  
6 chance to speak with Latino voters?

7 A. A few I did. And we had -- we didn't get a lot  
8 of input as I would have liked, but the few that I spoke  
9 to were very concerned about how the maps were being drawn  
10 and whether they would have enough opportunity to speak on  
11 their own behalf.

12 Q. In your efforts to register voters -- just  
13 speaking about voter registration -- have you been able to  
14 get a sense of voters' political preferences?

15 A. I try to stay as nonpartisan as possible.

16 Excuse me.

17 Some people would be upfront and forthright  
18 about which parties they par -- partic- -- they were  
19 siding with, but mostly people were more concerned about  
20 issues than they were about parties. And I think that was  
21 to me the highlight of my work. I really was able to hear  
22 more about their issues as opposed to how they felt about  
23 any particular party in the county.

24 Q. Do you regularly attend commissioners court  
25 meetings?

1 A. I do my best, yes, ma'am.

2 Q. Do you know how often those meetings occur?

3 A. Monthly I believe.

4 Q. How often do you get a chance to participate?

5 A. Recently not as much as possible, but typically  
6 every time I get an alert, I would Zoom in or be there in  
7 person.

8 Q. Okay. So, you just mentioned your -- just  
9 briefly your experience about speaking to voters about  
10 redistricting issues. Can you describe some more about  
11 your experience with redistricting issues in Galveston  
12 County?

13 A. Yes, ma'am. Well, when I was first brought into  
14 the -- I guess brought into the fold, that redistricting  
15 was happening in Galveston County. It's something that --  
16 like I said, I did a lot of work with my mother and her  
17 black nurses group; and that was a group that was very  
18 concerned because of the work that they do and because a  
19 lot of the people that were really showing great concern  
20 were the seniors in the precinct.

21 A lot of the resources, their backyard  
22 barbecue that Commissioner Holmes would have for them once  
23 a year in October just -- they were very concerned about  
24 if those resources that they were accustomed to getting in  
25 the precinct, would they change because of the maps; would

1 | any of that impair the activities that they were so  
2 | accustomed to having in the precincts and how would that  
3 | affect their polling places? That was a big concern as  
4 | well.

5 | Q. And this black nurses group, do the members  
6 | primarily reside in the former Precinct 3?

7 | A. Quite a bit of them do. Quite a bit of them do,  
8 | and they were very concerned with how the process would  
9 | affect just the different things that they're -- they were  
10 | accustomed to having. Like I said, their resources, would  
11 | that change; which community center they could use; would  
12 | that, you know, affect any of those kinds of things?

13 | Q. What sorts of resources were they concerned  
14 | about?

15 | A. Mainly -- I know for certain like my mother was  
16 | one of the ones that she uses the community center a lot,  
17 | from their bingo games to receiving groceries and that  
18 | kind of thing. So, they were, you know, concerned if they  
19 | would have to change community centers; or would they  
20 | still -- would the county still receive those resources  
21 | for them to get their groceries and, you know, their  
22 | rides. Like if they -- like my mother drives; but if she  
23 | were for whatever reason unable to drive to her community  
24 | center, they were offering bus services for them to get  
25 | there to take care of certain things.

1 | So, those, I guess, to other people wouldn't  
2 | seem so major; but to them those are major access points  
3 | for them to get whatever they needed from the County. And  
4 | Commissioner Holmes always made sure that they had these  
5 | things in place.

6 | Q. So, the black nurses group, they relied on  
7 | Stephen Holmes to provide those county resources?

8 | A. Well --

9 | MR. HOLT: Objection -- objection, form.

10 | Q. (By Ms. Richardson) You may answer.

11 | A. Okay. I would say not so much him providing the  
12 | resources but he was definitely a touchstone. Even  
13 | people -- a couple of people that I spoke to that didn't  
14 | necessarily live in his precinct were concerned about his  
15 | precinct because if they were not able to contact their  
16 | commissioner, Commissioner Holmes' office was open to  
17 | everyone in the county, not necessarily just his people in  
18 | his precinct.

19 | Q. Can you describe any organizations you were  
20 | associated with during the redistricting process in  
21 | Galveston County?

22 | A. The NAACP, League of Women Voters. Trying to  
23 | think who else. Those are the two I primarily worked in  
24 | conjunction with.

25 | Q. And you mentioned being a fellow for SCSJ. Did

1 | that also involve the redistricting process?

2 | A. It did. That was primarily what we did as  
3 | fellows.

4 | Q. Okay. Can you describe that fellowship?

5 | A. Very interesting. We were trained to use our  
6 | local resources to connect with the community in order  
7 | for -- to build maps that the community felt were fair and  
8 | equitable.

9 | Q. My -- am I right the name of the fellowship is  
10 | the CROWD fellowship?

11 | A. CROWD fellowship, yes.

12 | Q. Okay. And how long did you serve in that role?

13 | A. A year.

14 | Q. And what did you do as a CROWD fellow?

15 | A. As a CROWD fellow we were trained with the  
16 | Maptitude software as well as other free software like  
17 | Dave's Redistricting to learn the logistics and the actual  
18 | hands-on building of the maps with the -- with the  
19 | software.

20 | Q. And what were the goals of your fellowship?

21 | A. The goals were to do our best to work with the  
22 | community to build maps that the community felt were fair  
23 | and equitable. That was basically -- that was basically  
24 | the work.

25 | Q. How would you describe fair and equitable maps?

1 A. Well, being sure that if we had any  
2 majority/minority districts that those districts were  
3 preserved as best as possible; making sure that if the  
4 current maps were not considered equitable by the  
5 community that the community had a voice in building a map  
6 that they felt expressed their -- their voices, that they  
7 were able to elect the candidates that they chose and that  
8 they wanted elect in their areas.

9 And my work wasn't confined to Galveston  
10 County. We worked with NAACP units throughout the state.

11 Q. Was your work -- did your work involve advocacy  
12 regarding the commissioners court maps in 2021?

13 A. It did.

14 Q. Okay. Did you develop any community contacts in  
15 that role?

16 A. I did.

17 Q. How did you go about developing those contacts?

18 A. I was fortunate. Again, my mother and her  
19 colleagues are very -- were very much about advo- --  
20 advocacy and made sure that they put me in touch with  
21 people like Miss Lucille McGaskey that were -- that are  
22 just like the stalwarts of the community that have  
23 actually been in the community for decades and decades and  
24 had all of the first-hand knowledge that I personally  
25 didn't have to contribute to the process of building the

1 maps and just making sure that their voices were heard in  
2 the process.

3 Q. And just really quickly: It's been about a half  
4 an hour. Are you okay for now? Are you -- are you okay  
5 to go?

6 A. Okay. We can keep going.

7 Q. Okay.

8 What organizations did you come into contact  
9 with when you were advocating for redistricting issues?

10 A. Mainly the NAACP and the League of Women Voters.

11 Q. Did those contacts work as a coalition?

12 A. We did.

13 Q. Did those contacts include black residents of  
14 Galveston County?

15 A. Yes.

16 Q. Did those contacts also include Latino residents  
17 of Galveston County?

18 A. Not as much as I would have liked; but the  
19 invitation was open to them, yes.

20 Q. Did those residents work as a coalition?

21 A. They worked well together.

22 Q. Did your role include educating voters?

23 A. It did.

24 Q. How did you go about educating re-voters [Sic]  
25 about the 2021 redistricting process?

1 | A. And that's where the town hall came in, different  
2 | Zoom conferences that we had with community members. And  
3 | those were really my only two especially because of COVID.  
4 | We were pretty much confine- -- confined to Zoom meetings  
5 | to get that information out about the redistricting that  
6 | was happening.

7 | Any questions that the community had, I was  
8 | open and available pretty much all the time, any time, for  
9 | them to contact me and get the basic information they  
10 | needed to attend city council meetings and the county  
11 | commissioner meetings to just give them sort of a -- what  
12 | am I -- the word I'm looking for -- not a playbook but  
13 | definitely just some basics to answer basic questions for  
14 | them if they were confused about the process or -- excuse  
15 | me -- how to go about making their input possible, whether  
16 | it was sending in written testimony to the commissioners  
17 | court or showing up on Zoom or in person to give whatever  
18 | information that they wanted to give or speak however they  
19 | want to speak concerning the maps.

20 | Q. And you hosted those town halls about  
21 | redistricting?

22 | A. Some of them I didn't. Some of them Stephanie  
23 | Swanson with League of Women Voters assisted with as well.

24 | Q. The County did not hold those meetings?

25 | A. The County did not hold a lot of -- I want to say

1 | we had the one big meeting, public hearing in the annex  
2 | here in League City, and it was overflowing with people  
3 | because it was like the one and only time that they could  
4 | get in in person to speak about the maps that were being  
5 | created.

6 | Q. Were the town home [sic] meetings that you hosted  
7 | well attended?

8 | A. They were. I only had one, but it was very well  
9 | attended.

10 | Q. Who attended that meeting?

11 | A. Mainly just community members.

12 | Q. Did black residents attend those meetings?

13 | A. Yes.

14 | Q. Did Latino residents attend those meetings?

15 | A. A few, yes.

16 | Q. Okay. Did any organi- -- organizational  
17 | representatives attend those meetings?

18 | A. Like I said, NAACP, League of Women Voters and me  
19 | representing SCSJ; but other than us, no. It was just  
20 | us -- me, Miss Lucille McGaskey and a couple of other  
21 | community members that really did a hustle with pulling  
22 | out and binding it together and getting them as much  
23 | information as they needed for the process.

24 | Q. During that town hall that you held, did any  
25 | residents express concerns about the commissioners court

1 | maps?

2 | MR. HOLT: Objection to the -- to form.

3 | Q. (By Ms. Richardson) And you may answer it.

4 | A. Yes.

5 | Q. Can you describe some of those concerns?

6 | A. Well, they were concerned with, first of all, how  
7 | the county would bring -- would combine the coastal region  
8 | and then take away the district that they -- the precinct  
9 | that they -- that was already well formed. And with  
10 | combining the coastal region and sort of chopping up that  
11 | other precinct, that meant that they no longer had a  
12 | majority/minority district at all in the area to represent  
13 | the black and Latino residents that really worked really  
14 | hard to have their voices heard and to maintain that  
15 | precinct.

16 | Q. Can you describe the -- your understanding of  
17 | what the coastal precinct looks like?

18 | A. Basically they took all of -- what is that --  
19 | Bolivar Peninsula and combined it with the Galveston beach  
20 | area to make one big -- to unify that area, which is  
21 | primarily -- from what I understand -- is mainly a white  
22 | population. And the precinct that Commissioner Holmes had  
23 | was really the only slice of the county that was  
24 | majority/minority. So, the other -- combining that  
25 | coastal region washed out their votes basically.

1 Q. Washed out whose votes, just to clarify.

2 A. The minority vote.

3 Q. When did you learn of the plan to create this  
4 coastal precinct?

5 A. I started the fellowship in June of '21, June  
6 of -- so, I want to say I heard about the map maybe  
7 July/August of that year.

8 Q. How did you hear about the plans to create a new  
9 coastal precinct?

10 A. Commissioners court.

11 Q. All right. Commissioners court meetings?

12 A. Uh-huh. Yes.

13 Q. During your outreach efforts with voters, do you  
14 recall any discussions about the need for a coastal  
15 precinct?

16 A. No.

17 Q. Are you aware of any communications regarding the  
18 creation of a coastal precinct?

19 A. Well, what -- how I really found out about the  
20 maps that were going to be used was -- it was brought to  
21 my attention by a community member that county  
22 commissioners had posted the two maps that they wanted on  
23 a Facebook page that read "Keep the county red," and they  
24 had the two -- their two maps that they were proposing on  
25 the -- on the Facebook page.

1 Q. Do you remember which Facebook page that was?

2 A. It was the county commissioners Facebook page;  
3 and if not the general page, it was Mark Henry's page.

4 Q. Can you describe sort of the types of industries  
5 and businesses, your understanding of those industries and  
6 businesses in Gal- -- on Galveston Island?

7 A. A lot of development happening there, primarily  
8 hotels, hospitality, restaurants. I'm sure coming through  
9 the ports -- I can't say for sure, but I'm -- I'm pretty  
10 sure there is lots of oil and gas. Not really sure what's  
11 all in those tankers, but it's quite a bit of business  
12 happening in Galveston.

13 Q. Can you describe -- the same that's -- your  
14 understanding of the types of businesses and industries  
15 that operate on Bolivar?

16 A. I'm not really sure about Bolivar and how the  
17 industry plays a role in that. I couldn't answer that for  
18 you concretely.

19 Q. That's okay.

20 Based on your knowledge and experience of  
21 the area, do you believe that Galveston Island residents  
22 and Bolivar residents share common interests?

23 MR. HOLT: Objection, form.

24 Q. (By Ms. Richardson) You may answer.

25 A. I don't. I don't. They are two different worlds

1 from what I understand.

2 Q. Can you explain what you mean by that?

3 A. As far as the Bolivar Peninsula, other than they  
4 have a couple of schools there that are part of the GISD  
5 makeup, I don't really know of how the peninsula really  
6 connects to Galveston Island at large other than they have  
7 beaches like we have beaches.

8 Q. And going back to your CROWD fellowship, did --  
9 you said that your role was not exclusive to Galveston  
10 County; is that correct?

11 A. Not exclusively Galveston County.

12 Q. Did your role extend to all redistricting in  
13 Galveston County?

14 A. Yes.

15 Q. So, that includes the school board, the city  
16 council, the --

17 A. Yes.

18 Q. -- the commissioners court?

19 A. Yes.

20 Q. Okay. Did you propose a map for the  
21 commissioners court?

22 A. I did not. However, I understand that  
23 Commissioner Holmes had a map that he proposed that fell  
24 into the realm of what we thought was a good map.

25 Q. Did you see that map?

1 A. I saw it when he proposed it at the meeting.

2 Q. Did you make any attempts to ascertain just any  
3 redistricting criteria used by the county to draw the  
4 commissioners court maps?

5 MR. HOLT: Objection, form.

6 A. We did. We contacted the county attorney? Yes.  
7 We contacted the county attorney I believe. And I don't  
8 remember what the feedback was, but we didn't get a lot of  
9 feedback from those initial contacts to get more  
10 information about the actual drawing of the maps.

11 Q. (By Ms. Richardson) Did you reach out to any  
12 other county officials about the map-making process?

13 A. Other than Commissioner Holmes, no, I didn't  
14 personally.

15 MS. RICHARDSON: I think now is a good time  
16 to take a five-minute break if you don't mind.

17 Can we go off the record?

18 THE VIDEOGRAPHER: Off the record at 10:46.

19 (Recess taken)

20 THE VIDEOGRAPHER: We're back on the record  
21 at 11:09.

22 Q. (By Ms. Richardson) Okay, Ms. Williamson. I have  
23 a couple questions I should have asked you earlier.

24 Did you do anything to prepare for your  
25 testimony today?

1 A. I did not.

2 Q. Did you speak to anyone about your testimony?

3 A. No.

4 Q. I should say did you speak -- you spoke to your  
5 lawyer -- your counsel --

6 A. Other than her --

7 Q. -- Ms. Prather, correct?

8 A. Other than Ms. Prather, no.

9 Q. Okay. Let's see.

10 I wanted to go back to your work with  
11 GIVERS. Did you do voter registration work -- do you do  
12 voter registration work, I should say, with GIVERS?

13 A. I do.

14 Q. Can you describe some of those voter registration  
15 efforts?

16 A. The last one I did was at Wright Cuney Recreation  
17 Center, which is in what we consider a vulnerable  
18 neighborhood. And basically I had some literature for  
19 college students that wanted to vote; and I also gave out  
20 information to just the regular residents in the area,  
21 especially the elderly who were depending on mail-in  
22 voting.

23 Q. Did you do that for the most recent election?

24 A. I did.

25 Q. And did you do this for prior elections, that

1 work?

2 A. I have been involved in other voter registration  
3 events, but I did not do them personally myself like I did  
4 this last one with GIVERS.

5 Q. Can you describe the other voter registration  
6 work you were involved in?

7 A. We -- I would show up and help out with whoever  
8 had a booth and help them register voters.

9 Q. So, you would personally volunteer?

10 A. Uh-huh. Or I would provide the voter  
11 registration applications for them.

12 Q. Are you a member of the Galveston chapter of the  
13 NAACP?

14 A. I am.

15 Q. Did you do voter registration work with the  
16 Galveston chapter of the NAACP?

17 A. Actually I missed their voter registration drive;  
18 but I would typically help out, yes.

19 Q. What kind of activities would do with the  
20 Galveston NAACP?

21 A. Just help whoever was interested complete their  
22 forms and turn them in to the county registrar.

23 Q. When would you do those activities?

24 A. Trying to think. When was the last one they did?  
25 It wasn't on a regular basis, just, I guess, whenever. I

1 want to say the last one I did was -- it was a community  
2 event, an Umoja Festival -- Umoja Festival given by  
3 Ms. Lawanda Ward; and they had opportunities for folks to  
4 register to vote at that event. It was a summer thing,  
5 Juneteenth-ish time.

6 Q. Do you recall working with other organizations  
7 that serve minority communities in those activities?

8 A. Other than, like I said, NAACP and the League of  
9 Women Voters, no. Gulf Coast Black Nurses, the  
10 sororities/fraternity events, that's about it.

11 Q. Sororities and fraternities. Do you do work with  
12 AKA?

13 A. I did.

14 Q. Okay. Do you do voter registration work with  
15 AKA?

16 A. Yes.

17 Q. Can you describe some of those activities?

18 A. Again, just showing up wherever they had their  
19 booth set up to help out with getting folks to come and  
20 register and giving them information about registration  
21 and SB 1, the Texas laws concerning voting.

22 Q. Have you ever done work with the Galveston  
23 chapter of Lulac?

24 A. Not directly, not me directly.

25 Q. What kinds of contacts do you have with Lulac?

1 A. I know Mr. Robert Quintero, Miss Lillie Aleman.

2 I know those two contacts. That's about it, though.

3 Q. I'd like to also go back to the proposed maps for  
4 commissioners court. When did you first see the proposed  
5 maps for the commissioners court proposed by the County?

6 A. I want to say it was around August, around August  
7 maybe, August/September because we didn't have a lot of  
8 time to -- we didn't have a lot of time to really deal  
9 with those maps, but I want to say it was around  
10 August/September-ish that I -- either I saw the Facebook  
11 post -- I know I definitely saw the article in the  
12 newspaper, the DAILY NEWS. I want to say that was around  
13 September maybe. I would have to look at my phone to tell  
14 you because I actually took a picture of the news article.

15 But I didn't have any direct -- I didn't  
16 directly get the maps myself. It came from third-party  
17 sources.

18 Q. How did you first see the maps?

19 A. Like I said, either I saw the first ones on that  
20 Facebook post and/or the news article. It all ran about  
21 the same time.

22 Q. Okay.

23 A. It wasn't too far, you know, like on the dates;  
24 but it was August/September-ish that I started getting  
25 wind of the proposed maps.

1 Q. But you did see them for the first time either on  
2 the news article or the Facebook page?

3 A. Yes. Yes. And I want to say it was the Facebook  
4 post before the article came out. I don't -- I can't  
5 remember the exact dates right off the top my head right  
6 now. I would have to look in my notes.

7 Q. Do you recall the November, 2021, meeting for the  
8 commissioners court maps?

9 A. I do, in the League City annex, yes.

10 Q. Are you aware of whether the commissioners court  
11 invited members of the public to participate in the  
12 redistricting process?

13 MR. HOLT: Objection, form.

14 Q. (By Ms. Richardson) You may answer.

15 A. We got the notice very 11th hour, which required  
16 some hustling for some of the elderly that wanted to make  
17 the meeting as far as making sure they had rides and were  
18 able to access the meeting.

19 Q. Can you describe what you mean by the "11th  
20 hour"?

21 A. We were watching for the post. I believe they're  
22 supposed to be posted 72 hours before, and it was maybe  
23 that Monday? I think I got the notice late that  
24 Sunday-ish, something like that. It wasn't a full  
25 24 hours before the meeting was actually held that I

1 received official notice that the meeting was happening.

2 Q. How did you receive the notice?

3 A. Actually Miss Lucille McGaskey called me to make  
4 sure that I saw that the meeting was happening.

5 Q. Were you keeping track of a potential meeting  
6 beforehand?

7 A. We were. Well, I was because I knew that -- that  
8 it needed to be posted on the county Web site; and I had  
9 been monitoring the Web site to get the notice.

10 Q. For how long had you been monitoring the Web  
11 site?

12 A. For at least two days.

13 Q. Are you aware of whether the commissioners court  
14 published any criteria for how the commissioners court  
15 would draw the -- the proposed maps?

16 MR. HOLT: Objection, form.

17 A. I don't believe I received a criteria for the  
18 maps. Give me a moment. I'm trying to go through my  
19 Rolodex because the meeting was announced at the last  
20 possible moment.

21 I don't remember when the criteria was  
22 posted. I think it was eventually, but I don't remember  
23 when.

24 Q. (By Ms. Richardson) Did you take any other steps  
25 to determine the timelines for the commissioner court

1 | redistricting process?

2 | A. I mainly did as much as I could to monitor the  
3 | Web site for their postings, and that was about it on my  
4 | part as far as keeping up with when the meetings would be  
5 | held or when there would be some public -- or when the  
6 | opportunity for the public input would happen.

7 | Q. Did you speak with any county officials about the  
8 | redistricting timeline?

9 | A. I did not.

10 | Q. Did you speak with other Galveston residents  
11 | about the redistricting timeline?

12 | A. I did.

13 | Q. What did you -- who did you speak to?

14 | A. Again, it was conversing with Lucille McGaskey;  
15 | and between the two of us, we tried to keep the lines of  
16 | communication open and be sure that we were both getting  
17 | information as we needed it.

18 | Q. During that period were you attempting to educate  
19 | voters about the redistricting process?

20 | A. Yes.

21 | Q. What attempts did you make to educate voters  
22 | about the redistricting process?

23 | A. Well, we had at least one meeting that we had in  
24 | Pastor King's church where we had some representation from  
25 | the Texas Civil Rights Project come and talk to us about

1 what was happening.

2 Q. Did res- -- other res- -- how many residents  
3 attended about?

4 A. We had about maybe 30, 40 residents.

5 Q. They express any concerns about the redistricting  
6 process?

7 A. They did.

8 Q. Can you describe those concerns?

9 A. Again, they were just really concerned mainly  
10 about the polling, how that would affect their polling  
11 places, how that would affect the community centers, how  
12 that would affect just what they would do on a daily basis  
13 when it comes to having access to the community center,  
14 access to their polling places, would they stay the same,  
15 would they change, which there was an issue about the  
16 polling places at one point.

17 Q. Did any county officials attend that meeting?

18 A. No.

19 Q. Did your attempts include notifying residents  
20 about the redistricting meeting?

21 A. Yes.

22 Q. Can you describe the attempts you made to notify  
23 voters about the redistricting meeting?

24 A. We made flyers. We made -- well, mainly --  
25 again, because we were mainly meeting per Zoom, we made

1 | the Canva notices to send out via e-mail and -- primarily  
2 | via e-mail in our e-mail chains and circles to make sure  
3 | that everyone -- or in text message -- to make sure that  
4 | everyone that was in- -- interested in being involved had  
5 | the opportunity to make it to the event.

6 | Q. And just for the record can you describe what a  
7 | Canva notice is?

8 | A. Oh, I'm sorry. It's like digital flyers.  
9 | Digital flyers.

10 | Q. All right. And you created those digital flyers?

11 | A. I did.

12 | Q. And you sent those digital flyers about the  
13 | redistricting meeting to residents?

14 | A. The NAACP chapter, our residents. Again,  
15 | everyone that was on my list that wanted to participate  
16 | and I had e-mail addresses for and/or phone numbers for, I  
17 | reached out to them to let them know what was going on.

18 | Q. Based on your attempts to educate voters about  
19 | the redistricting process, what effect, if any, did -- for  
20 | the lack of redistricting criteria have on your ability to  
21 | educate voters?

22 | MR. HOLT: Objection, form.

23 | A. It was difficult to give accurate information,  
24 | but I did the best I could with what was available to us  
25 | on the Web site. I took most everything I needed to have

1 from the Web site from what was posted for the general  
2 public; and I would use my platform to guide them to the  
3 Web site, to encourage them to sort of do their own  
4 research and do their -- you know, participate. I wasn't  
5 just giving the answers to the test. I would just guide  
6 them to where the information would come from and how to  
7 best use it to form their own -- if they had anything they  
8 wanted to say, I would help out with -- with them  
9 writing -- well, not writing it but guide them on the  
10 information I was using to help them with their talking  
11 points when they were ready to participate or have  
12 something to say about what was going on with the maps.

13 Q. (By Ms. Richardson) And given the time frame you  
14 described about the notification of the November, 2021,  
15 meeting, did that time frame have any effect on your  
16 ability to notify voters about that meeting?

17 A. It did.

18 MR. HOLT: Objection, form.

19 A. It made it really hard -- sorry.

20 It made it --

21 Q. (By Ms. Richardson) Go ahead.

22 A. -- really hard --

23 Q. That's okay.

24 A. It made it really difficult to give timely  
25 information that was -- that they would be able to access

1 | in time to get to the meeting, which I pulled it off; but  
2 | it was very hard because it just wasn't enough time to  
3 | really galvanize and mobilize the community the way they  
4 | were expecting to have that information relayed to them.

5 | Q. And then just before I ask my next question: So,  
6 | he'll -- I'll ask a question, and maybe Mr. Holt will  
7 | object. And so, just before I -- you answer, just give  
8 | a -- one second to give him a chance to object; and then  
9 | you can answer.

10 | A. I'm sorry.

11 | Q. Oh, no, no. No worry. No --

12 | MR. HOLT: You're just fine.

13 | Q. (By Ms. Richardson) You're just fine, yeah.

14 | MR. HOLT: Thank you.

15 | Q. (By Ms. Richardson) That's all.

16 | MR. HOLT: Try to do it as fast as I can,  
17 | but you're pretty quick at answering the questions --

18 | MS. RICHARDSON: Yeah.

19 | MR. HOLT: -- so, good job.

20 | Q. (By Ms. Richardson) Yeah. If you just pause for  
21 | one second, see if he wants to object; and then you can  
22 | answer.

23 | A. Yes, ma'am. Will do.

24 | Q. Absolutely. Thank you so much.

25 | But to follow up on that, how did you notify

1 voters within that time frame of the November, 2021,  
2 special session?

3 A. That was, again, Lucille McGaskey is -- was my  
4 touchstone for everything. She knows everybody. And we  
5 had a really -- we were very -- we coordinated very well  
6 as far the text messages and the e-mails went out. Like I  
7 would it get out as fast as I could. She would make sure  
8 that especially our elderly that weren't -- that did not  
9 have e-mail capabilities would get the -- get the phone  
10 calls and the text messages to let them know what was  
11 going on, what time it was going on and get everybody to  
12 the annex as fast as possible.

13 Q. Can you describe the issues concerning the  
14 elderly attending the meeting?

15 A. We had one gentleman who -- he need -- he had a  
16 walker and needed the extra time and the extra help  
17 getting to the facility. And for a lot of our elderly, it  
18 was just about making sure they had transportation and/or  
19 whatever they needed to get their -- their walkers, their  
20 wheelchairs, that type of thing.

21 Q. How did you ensure the elderly residents were  
22 able to attend the meeting?

23 A. Again, making sure they had been noted -- the  
24 information, the time and the place so they could work out  
25 with their helpers or their caretakers to get there.

1 Q. Did you take any other steps to ensure that  
2 residents were able to attend the meeting?

3 MR. HOLT: Objection, form.

4 A. Other than getting them the information, I didn't  
5 personally drive anyone to the meeting. So, just making  
6 sure -- again, like my counterpart, Miss Lucille McGaskey,  
7 just made sure that everyone had the information; and if  
8 there were any issues with transportation, the community  
9 took care of it themselves.

10 Q. (By Ms. Richardson) The community members you  
11 reached out to, did they receive any other notice from the  
12 county about the meeting?

13 A. No, not that I know of. No.

14 Q. Before the November meeting did you speak to  
15 Commissioner Holmes about the redistricting process?

16 A. Briefly I did, and it seemed that he was getting  
17 information basically as we were getting information. He  
18 didn't seem to have any advance notice of anything that we  
19 didn't know.

20 Q. What do you recall Commissioner Holmes saying  
21 about the redistricting process?

22 MR. HOLT: Objection here -- objection to  
23 the form of the question.

24 A. He didn't really say a lot. Again, it was  
25 basically information that -- as he got the information,

1 | we were to -- really getting the information at the same  
2 | time. So, he wasn't really giving us anything extra. He  
3 | wasn't -- he didn't seem to know anything, again, in  
4 | advance of anything that we knew at the same time.  
5 | Assumed that we were getting all the same information the  
6 | same time in realtime.

7 | Q. (By Ms. Richardson) Did you attend any events  
8 | with Commissioner Holmes regarding the redistricting  
9 | process?

10 | A. Not with him per se, no. Most of the events that  
11 | I attended were just very community heavy and were really  
12 | handled within the community itself. We didn't really  
13 | have any of the other commissioners or Commissioner Holmes  
14 | doing anything special about the redistricting or meeting  
15 | with us about the redistricting.

16 | Q. When were you able to speak with Commissioner  
17 | Holmes about the redistricting process?

18 | A. I spoke with him maybe the week before the  
19 | November meeting and basically just asking the basic  
20 | questions: What he knew, if there was anything that he  
21 | knew that would be helpful to us to give to the community;  
22 | and he didn't have any prior knowledge to anything that  
23 | was going on.

24 | Q. At any point in the redistribution process, did  
25 | you become aware that the proposed maps were posted on the

1 | commissioners court Web site?

2 | A. I did. I don't remember who told me that they  
3 | were there. I want to say it was Miss Lucille, but I saw  
4 | them for myself. I looked it up when I received the text  
5 | message that there was something floating around on  
6 | Facebook.

7 | Q. So, when you saw the Facebook message, you went  
8 | to the commissioners court Web site?

9 | A. I did. Yes, I did.

10 | Q. Did you review the proposed maps that were posted  
11 | on the Web site?

12 | A. I did.

13 | Q. Okay. How were the maps presented on the Web  
14 | site?

15 | A. It was the two that were proposed and the  
16 | side-by-side on the map -- I mean on the Web site. And it  
17 | had a -- like I said, it had the disclaimer, "keep  
18 | Galveston County red"; and it had those two maps.

19 | Q. Were the maps interactive?

20 | A. No.

21 | Q. Were they static images on the Web site?

22 | A. They were.

23 | MR. HOLT: I'm going to object to the form.

24 | MS. RICHARDSON: You object to the previous

25 | que- -- this --

1 MR. HOLT: Yeah, the one she just answered

2 in --

3 MS. RICHARDSON: Yeah.

4 MR. HOLT: Thanks.

5 Q. (By Ms. Richardson) Okay. Did the maps include

6 any demographic data for the commissioners court

7 precincts?

8 A. Not that I remember.

9 Q. Did you get a chance to review proposed maps

10 before they were posted on the Web site?

11 A. No.

12 Q. Did you take any steps to educate Galveston

13 residents about the maps after they were posted on the Web

14 site?

15 A. We had a brief -- I had a brief meeting with

16 Miss Lucille McGaskey and a couple of other community

17 members that we talked amongst ourselves about how the

18 maps looked, what they -- what they thought it would do to

19 their current precinct and their opinions about how that

20 would affect their polling places moving forward.

21 Q. Did any of those members of the community express

22 concerns about the proposed maps?

23 A. They did.

24 MR. HOLT: Objection, form.

25 A. They did. They did.

1 Q. (By Ms. Richardson) Can you describe some of the  
2 concerns you recall?

3 MR. HOLT: Objection, form.

4 A. Again, it was mainly -- their main concern was  
5 their polling places and how that would affect where they  
6 could vote and how they could vote.

7 Q. (By Ms. Richardson) Can you describe what you  
8 mean, "where they could vote and how they could vote"?

9 MR. HOLT: Objection, form.

10 A. Well, there were polling places that were in  
11 question that at one point the county commissioners were  
12 eliminating some and adding some. And I believe that  
13 directly came from how the proposed maps would sort of  
14 gerrymander and move some of those polling places.

15 And that particular meeting, it was myself.  
16 It was Tierr'ishia Gibson, the county chair, the  
17 Democratic county chair, and Miss Loretta Davis. We  
18 happened to go to that county commissioner meeting where  
19 they were trying to remove some of the Democratic-leaning  
20 polling places and add more redder-leaning polling places.

21 And that ended up -- they didn't remove the  
22 ones that they were trying to remove; but the ones that  
23 they were trying to remove were some of the main concerns  
24 of the constituents earlier before those maps were voted  
25 on, which one of the places, if I remember correctly, was

1 one of the community centers in Dickinson which had been a  
2 longtime polling place that they were trying to remove.  
3 And I don't believe they re- -- in the -- at the end of  
4 the day, I don't believe it was removed; but it was  
5 definitely one of the ones that were -- the county  
6 commissioners were contemplating removing.

7 Q. (By Ms. Richardson) Do you recall when those  
8 decisions were made?

9 A. That meeting was in November. So, this meeting I  
10 want to say was before the primary. So, I want to say it  
11 was maybe February, 2022? It was before the March  
12 primaries.

13 Q. And do you recall whether the county notified  
14 voters about the decision to change polling places?

15 MR. HOLT: Objection, form.

16 A. No notice that I know of.

17 Q. (By Ms. Richardson) Let's go back to the November  
18 meeting. Did you attend the November, 2021, special  
19 session?

20 A. I did.

21 Q. What was that meeting about?

22 A. It was the one opportunity the community had to  
23 give their input about the proposed maps.

24 Q. What did you witness at the meeting?

25 A. I witnessed quite a few upset citizens that felt

1 | that they didn't have enough time and enough information  
2 | before those maps were voted on, and they were voted on at  
3 | the end of that meeting.

4 | Q. Who was in attendance at the special session?

5 | A. Could you be more specific?

6 | Q. Who was in attendance in the crowd for the  
7 | special session?

8 | A. Mainly -- mostly the black residents of  
9 | Precinct 3.

10 | Q. Do you recall if any of the residents spoke at  
11 | the meeting?

12 | A. Quite a few of them did, yes.

13 | Q. Can you describe some of the concerns that were  
14 | expressed at the special session meeting?

15 | MR. HOLT: Objection, form.

16 | A. They were very concerned about their votes being  
17 | diluted.

18 | Q. (By Ms. Richardson) Can you describe specifically  
19 | what you mean by "their votes being diluted"?

20 | A. With the proposed maps, there was no longer a  
21 | majority/minority district. So, they felt that's the way  
22 | the population was accounted for in Galveston County, that  
23 | their votes just would -- they wouldn't have the same  
24 | leverage that they had before to elect someone that they  
25 | wanted to elect for that commissioner's seat.

1 Q. Who did they want to elect for that  
2 commissioner's seat?

3 A. Well, currently Stephen Holmes is the favorite  
4 guy; or at least they have that avenue. If it were not  
5 him, another person of color or person of their choice.

6 Q. Was the crowd at the special session comprised of  
7 minority residents in Galveston County?

8 A. Yes.

9 MR. HOLT: Objection, form.

10 A. Mainly, yes.

11 Q. (By Ms. Richardson) Okay. What did the meeting  
12 room space look like?

13 A. The annex is tiny. It was -- it was overflowing.  
14 There were people in hallways. There were people sitting  
15 on the floor. I was one of the folks that was sitting on  
16 the floor. It was full, and the space is not very big.

17 Q. Can you approximate about how many residents you  
18 recall seeing at the meeting?

19 A. Wow. If I had to round it out, there had to  
20 be -- there was more than 50, 60 people in that space,  
21 maybe 50 plus, 60 plus. There were a lot of people. They  
22 were in the parking lot. They were in the hallways. They  
23 were all over the annex, which the annex was a concern  
24 because of where it's located. A lot of people felt that  
25 was suspicious; that it was held there instead of the

1 | normal space on the island, in Galveston, where that  
2 | facility is a little larger and had a little more space  
3 | for people to -- to attend.

4 | Q. Can you describe more why you -- what you mean by  
5 | residents thought the location was suspicious?

6 | MR. HOLT: Objection, form.

7 | THE WITNESS: (Coughing.) Excuse me.

8 | A. Typically when things are held in the annex, it's  
9 | not because they want the residents to show up and  
10 | participate. That's just typically where things are held  
11 | when it's not being encouraged for a lot of people to show  
12 | up and attend.

13 | Q. (By Ms. Richardson) Do you have any examples of  
14 | that in other meetings?

15 | MR. HOLT: Objection, form.

16 | A. I wish I'd have brought my notes because I have  
17 | all this in my other notes. I can't think of the other  
18 | meeting right here, but it was something similar: The  
19 | notice wasn't given in a timely fashion. It was held in  
20 | the -- it was originally supposed to be held in Galveston,  
21 | but then it was pushed to the annex at the last minute.  
22 | And according to the residents, this typically happens  
23 | when they feel the county commissioners are not being  
24 | transparent in what they're doing regardless of what it  
25 | is.

1 Q. (By Ms. Richardson) Can you describe the  
2 Galveston Island space you're referring to?

3 A. It is in the courthouse in the county seats; and  
4 again, it's just more of an auditorium type room as  
5 opposed to the little, small space that's offered at the  
6 League City annex.

7 Q. Are -- in your experience are residents more  
8 familiar with the Galveston Island location?

9 MR. HOLT: Objection, form.

10 A. I wouldn't say "more familiar" because they're  
11 familiar with both; however, they feel that things are  
12 more on the up-and-up when things are being held in the  
13 Galveston County lo- -- in the Galveston Island location  
14 as opposed to the League City annex location.

15 Q. (By Ms. Richardson) Do you recall people at the  
16 November meeting opposed or supported the plan for the  
17 commissioners court map?

18 MR. HOLT: Objection, form.

19 A. The majority of the residents were opposed to the  
20 proposed maps.

21 Q. (By Ms. Richardson) Did the commissioners respond  
22 to the concerns expressed at the November special session?

23 MR. HOLT: Objection, form.

24 A. Not particularly. They listened, and they voted.

25 Q. (By Ms. Richardson) Did any of the commissioners

1 | speak at the November special session?

2 | A. Yes, Commissioner Holmes did. He was the only  
3 | objection.

4 | Q. Can you describe what Commissioner Holmes  
5 | discussed at the special session?

6 | MR. HOLT: Objection, form.

7 | A. Basically just how the proposed maps removed his  
8 | precinct. It just basically gutted out his precinct.

9 | Q. (By Ms. Richardson) You said earlier that you  
10 | regularly attend commissioners court meetings; is that  
11 | correct?

12 | A. Yes.

13 | Q. Was this any different from other meetings you  
14 | attended in the past?

15 | MR. HOLT: Objection, form.

16 | A. Yes.

17 | Q. (By Ms. Richardson) Can you describe the  
18 | differences between the special session and the other  
19 | meetings you've attended in the past?

20 | A. The community participation. Like it was triple  
21 | what it normally would have been.

22 | Q. Were there any differences in the notice given  
23 | for the special session as compared to other meetings in  
24 | the past?

25 | MR. HOLT: Objection, form.

1 A. Yes. The past meetings, we seemed to have -- we  
2 would have the 72-hour notice posted on the Web site; and  
3 this particular meeting we did not have that same time  
4 frame. Like I said, I didn't receive the -- I didn't see  
5 the notice until it was less than 24 hours before the  
6 meeting.

7 Q. (By Ms. Richardson) Where have past commissioners  
8 court meetings been located compared to the November  
9 special session?

10 A. The Galveston Island location at the courthouse.

11 Q. Based on your experience, is the League City  
12 location easy to access if you are a member of Precinct 3?

13 MR. HOLT: Objection, form.

14 A. No.

15 Q. (By Ms. Richardson) Can you describe why it --

16 A. Lots of construction. It's been going on in that  
17 area for a little while. It's kind of tucked away kind  
18 of.

19 Q. Do Precinct 3 residents have better access to the  
20 Galveston Island location?

21 MR. HOLT: Objection, form.

22 A. I believe so.

23 Q. (By Ms. Richardson) Can you describe why?

24 A. It's just easier. There's plenty of parking.  
25 There's no real crazy construction going on around the

1 courthouse.

2 Q. You mentioned earlier the decision to -- the  
3 decision to relocate polling places that occurred earlier  
4 this year; is that correct?

5 A. Yes.

6 Q. Was there a meeting about that decision?

7 A. Not that I know of because I actually made it to  
8 the commissioners court meeting about it. Like I got the  
9 last-minute notice, and I want to say Tierr'ishia Gibson  
10 and Miss Loretta Davis contacted me to let me know that  
11 they were on their way. They didn't realize it was  
12 happening, how it was happening and could I meet them  
13 there so I could observe what was happening; and I did.

14 Q. How much time before that polling place meeting  
15 did you have before attending it?

16 A. The evening before it happened. Again, less than  
17 24 hours.

18 Q. Where was that meeting held?

19 A. The annex, League City annex.

20 Q. Can you describe more about the -- what the --  
21 what decision was being made about the polling locations?

22 A. Some were being removed; some were being added.  
23 I believe at the end of that session, though, the ones  
24 that they had planned to remove were no longer removed.  
25 Or maybe one was still removed, but primarily it was about

1 removing some and adding some.

2 Q. Did you speak with Commissioner Holmes about the  
3 polling location --

4 A. I did not --

5 Q. -- decision?

6 A. -- personally, no. I was there as an observer.

7 Q. Did you speak prior to that meeting about -- to  
8 Stephen Holmes about --

9 A. I did not.

10 Q. Okay. Did you talk to anyone about the November  
11 special session after the meeting ended?

12 A. I spoke with my SCSJ coalition. We talked about  
13 it.

14 Q. Did you speak with any community members about  
15 the meeting?

16 A. Me and Miss McGaskey got together afterwards and  
17 sort of had a decompression session about what happened  
18 and seeing ourselves on "Rachel Maddow."

19 Q. You were on "Rachel Maddow"?

20 A. We made "Rachel Maddow." That November meeting  
21 made national news, yes, which we still stunned. We were  
22 like "wow."

23 Q. Did you speak with the Department of Justice  
24 about the meeting?

25 A. I did.

1 Q. What did you speak with the Department of Justice  
2 about?

3 A. I spoke with Mr. Bruce Gear about basically what  
4 we were talking about today, how -- did we -- how much  
5 notice we had, who attended, how we would mobilize and  
6 coordinate it to attend the meeting. Actually had hair  
7 then.

8 MS. RICHARDSON: I'm going to mark our  
9 second exhibit.

10 And copy for you.

11 Oh, she has it. Never mind.

12 Q. (By Ms. Richardson) Ms. Williamson, I'll -- I --  
13 I'd like you to look over that exhibit.

14 A. Oh, wow. It's me. This is me, yes.

15 MS. RICHARDSON: Okay. That's -- marking  
16 that as Exhibit 2.

17 (Exhibit 2 marked)

18 Q. (By Ms. Richardson) Ms. Williamson, I'll  
19 represent to you this is a -- the Department of Justice  
20 complaint that you made. Does the description of the  
21 complaint on page 2 of the exhibit sound correct to you?

22 A. It does. It sounds just like me. It's me, yes.  
23 Wow.

24 Q. Was that the conversation you had about the  
25 November special session?

1 A. It is. Actually I did this in realtime. The  
2 meeting was ending; and Commissioner Holmes actually  
3 encouraged those of us who felt the need to go ahead and  
4 lodge our complaints then, at the end of meeting. So, I  
5 did mine in realtime. I did it right there before I left  
6 the annex.

7 Q. Why did you report the November special session?

8 A. Because from my knowledge and from the work that  
9 I had done in the community -- community, the maps were  
10 egregious. They were an egregious assault on the  
11 district, the precinct, completely removed the precinct --  
12 precinct and made it something unrecognizable. And as a  
13 voting rights advocate, I felt that I needed to speak on  
14 behalf -- well, I was asked to as well from a couple of  
15 community members to advocate on their behalf and submit  
16 the complaint.

17 Q. Ms. Williamson, is having minority representation  
18 on the commissioners court important?

19 MR. HOLT: Objection, form.

20 A. Yes.

21 Q. (By Ms. Richardson) Why do you say yes?

22 A. In order for the constituents to feel heard and  
23 to be able -- to have the ability and access to candidates  
24 of their choice, it is very important that they have the  
25 ability to elect someone who they feel represents them in

1 | the county commissioners court.

2 | Q. Do you believe that minority voters currently  
3 | have representation on the commissioners court?

4 | A. With the current maps, no.

5 | Q. Why?

6 | A. Because as of that next commissioner's vote, it  
7 | would be very difficult with how things are set up now for  
8 | a candidate chosen by the people to be elected the way  
9 | that it's currently set up under the new maps just because  
10 | of how the population is meted out in the county.

11 | Q. Do you believe that minority voters had  
12 | representation on the commissioners court based on the  
13 | prior map?

14 | A. I do.

15 | Q. Who do you think represented the min- --  
16 | represented minority voters on the prior map?

17 | A. Initially it was Wayne Johnson. Now it's  
18 | Commissioner Stephen Holmes.

19 | Q. Why Commissioner Stephen Holmes?

20 | A. He's an advocate for the people. Like I said  
21 | before, he doesn't just answer to his constituents. He  
22 | answers for all of the residents in Galveston County, and  
23 | he does things like the backyard barbecue for the senior  
24 | citizens that they enjoy every October where he just sort  
25 | of gives them an opportunity to participate at one of the

1 | local recreational centers. They dance. They have food.  
2 | They have music. My mom is one of his "Stevettes," which  
3 | they actually come together, some elderly ladies come  
4 | together. They line dance and they entertain the other  
5 | residents and they have a good time. And as far as I  
6 | know, there's no other commissioner that caters to his  
7 | residents and the constituents the way that Commissioner  
8 | Holmes does as well as speak on their behalf.

9 |                   For example, when there was some concern  
10 | about the Confederate statues in Galveston County, he was  
11 | the only commissioner that actually spoke on behalf of the  
12 | people as far as wanting to have them removed.

13 |           Q. Do you believe Commissioner Armstrong represents  
14 | the interests of minority voters in Galveston County?

15 |           A. I do not.

16 |           Q. Why not?

17 |           A. Based on his self-proclaimed knowledge of how  
18 | things were happening during the COVID breakout [sic], he  
19 | was not representative of how the community felt the COVID  
20 | situation should have been handled.

21 |           Q. Were you familiar with Commissioner Armstrong  
22 | before his appointment to the commissioners court?

23 |           A. Vaguely. Only his stance on hydrochloroquine  
24 | [sic] during the COVID.

25 |           Q. Have you had interactions with Dr. Armstrong in

1 | your community work -- based work before his appointment

2 | to the commissioners court?

3 | A. I have not.

4 | Q. Did you have any interactions with him regarding

5 | the redistricting of the commissioners court?

6 | A. No, ma'am.

7 | MS. RICHARDSON: Let's see what time is it.

8 | I think we're going to break for lunch in a second. Okay.

9 | So, it's 11:55. So, we should break for lunch.

10 | Q. (By Ms. Richardson) But just a couple more  
11 | questions before we head off to lunch if that's okay.

12 | A. That's fine. Thank you.

13 | Q. Ms. Williamson, you said you were taking a chemo  
14 | medication; is that correct?

15 | A. I am.

16 | Q. Can you describe why you're taking chemo  
17 | medication?

18 | A. I am currently pushing through Stage 4 lung  
19 | cancer.

20 | Q. How long have you been dealing with lung cancer?

21 | A. I had emergency brain surgery in May. I received  
22 | my diagnosis in June.

23 | Q. All righty.

24 | MS. RICHARDSON: I think we can break.

25 | THE VIDEOGRAPHER: All right. Off the

1 record at 11:56.

2 (Break taken)

3 THE VIDEOGRAPHER: We're back on the record  
4 at 12:44.

5 Q. (By Ms. Richardson) All right, Ms. Williamson, we  
6 are back.

7 I just had a clarifying question about your  
8 CROWD fellowship. Do you recall the term of that  
9 fellowship with the date that it started and ended?

10 A. The exact date, no; but it was June, 2021, to  
11 July, 2022.

12 Q. You spoke earlier about a backyard barbecue that  
13 Stephen Holmes attends; is that correct?

14 A. He actually sponsors it.

15 Q. Can you explain more about the backyard barbecue?

16 A. Yes, it's fun; but it's a community event that he  
17 holds every year basically showing his appreciation for  
18 his constituents, mainly the elderly. I believe his  
19 mother lives in the precinct; and like I said, my mother  
20 participates. Most -- most of the seniors, especially the  
21 black seniors in the area, look forward to it every year.  
22 They win prizes. They play bingo. They dance. It's just  
23 a whole, wonderful community event.

24 Q. Why is that event important to the community?

25 A. I believe mainly as with most things, being

1 Texan, it's just one of those proud traditions that have  
2 happened every year, and it's something that they look  
3 forward to. It's something that they prep for; and it's  
4 always just a really, really good time for them -- for  
5 everybody to come together as a community and just enjoy  
6 each other and have a good time.

7 Q. When you say "community," who primarily attends  
8 the backyard barbecue?

9 A. Primarily our elder black residents.

10 Q. Are most of those residents members of --  
11 residents of Precinct 3?

12 A. Yes.

13 Q. Okay. Do the commissioners hold similar events  
14 for residents of Precinct 3?

15 A. Not that I know of. This is the only one that  
16 stands out that I can -- that I know happens every year.  
17 Well, post COVID. Other than during COVID.

18 Q. Uh-huh.

19 Earlier you mentioned that you didn't reach  
20 out to the commissioners before the November meeting; is  
21 that correct?

22 A. Correct.

23 Q. Why didn't you reach out to the commissioners?

24 A. It wasn't in my, I guess, purview of what I was  
25 doing. I was mainly a community liaison. So, I did

1 | primar- -- I requested certain things from certain people  
2 | as it came across my desk; but primarily my goal was to  
3 | work with the community and just be their advocate and  
4 | liaison during the process.

5 | Q. Why didn't you reach out to the commissioners to  
6 | help you liaise with the community?

7 | A. That's a good question. It just -- it wasn't --  
8 | it was a timing kind of thing. Like I said, because of  
9 | the COVID things, we weren't meeting a lot of folks in  
10 | person. And just during the different Zoom calls and  
11 | things that we were doing as a collaborative, other people  
12 | were tasked with reaching out to the commissioners. That  
13 | wasn't one of my personal tasks to take up.

14 | Q. Before your experience in 2021, did you have any  
15 | awareness of the prior redistricting in Galveston County?

16 | A. I did not.

17 | Q. Okay. Do you recall a campaign called "Keep  
18 | Galveston Red"?

19 | MR. HOLT: Objection, form.

20 | A. Vaguely, yes.

21 | Q. (By Ms. Richardson) Is the Keep Galveston Red  
22 | campaign the campaign you referred to earlier on regarding  
23 | the Facebook post?

24 | A. Yes.

25 | Q. Okay. Where did you first see the Keep Galveston

1 Red campaign?

2 A. On Facebook.

3 Q. Who did you see publishing that campaign?

4 A. I want to say it was Mark Henry's office, Judge  
5 Henry's office.

6 Q. Did you see it in the news?

7 MR. HOLT: Objection, form.

8 A. I saw it in the newspaper.

9 Q. (By Ms. Richardson) What did you understand the  
10 phrase "Keep Galveston Red" to mean?

11 MR. HOLT: Objection, form.

12 A. I understood it to mean that those particular  
13 commissioners were doing their best to keep the county  
14 Republican or over- -- overwhelmingly Republican.

15 Q. (By Ms. Richardson) What did you understand the  
16 campaign's goals to be?

17 MR. HOLT: Objection, form.

18 A. For one of the two maps that they were proposing  
19 to be voted on and approved.

20 Q. (By Ms. Richardson) What did you think about the  
21 Keep Galveston Red campaign?

22 A. I thought it was horrible. I thought the voters  
23 should be allowed to make their choice about not only the  
24 maps but who they chose to represent them.

25 Q. Do you think this campaign represented the

1 interests of minority Galveston residents?

2 MR. HOLT: Objection, form.

3 A. It did not.

4 Q. (By Ms. Richardson) Why?

5 A. Because it essentially wanted a map that  
6 disproportionately and intentionally discriminated against  
7 the majority/minority voters in the district.

8 Q. On what basis -- what do you form your opinion  
9 on?

10 A. Based on how they vote. And though -- that  
11 particular precinct voted heavily Democratic; hence,  
12 Commissioner Stephen Holmes holding that seat. That was  
13 the one place that they could get a candidate that they  
14 felt represented them.

15 Q. Why do you view this campaign as negative for  
16 minority Galveston residents?

17 MR. HOLT: Objection, form.

18 A. Because it basically wiped out the one district  
19 that they had, that they felt that their voices were being  
20 heard and that they felt that they could vote for a  
21 candidate of their choice. And that campaign was  
22 antithetical to that mission.

23 Q. (By Ms. Richardson) Why was that campaign  
24 antithetical to that mission?

25 A. Because keeping the county red meant that those

1 | people that wanted to vote in opposition to that would not  
2 | have a fair opportunity to do so.

3 | Q. What is your understanding about the history of  
4 | racism in Galveston County?

5 | MR. HOLT: Objection, form.

6 | A. It's long, and it's deep. From the Confederate  
7 | statues to just how things are done in the county that --  
8 | I just -- I personally feel that it's unfair how the  
9 | current maps misrepresent what the majority of a lot of  
10 | the voters want in the county -- excuse me -- the majority  
11 | of the minority voters in the county.

12 | Q. (By Ms. Richardson) Can you describe what you  
13 | mean by long and deep?

14 | A. Galveston County has made the news a lot in the  
15 | last few years, and it hasn't been for their  
16 | overwhelmingly just and balanced representation of its  
17 | residents. There -- I don't -- I'm trying to pull  
18 | something specific to mind. There are just lots of  
19 | instances where some of the residents of the county don't  
20 | feel represented and they don't feel heard because of how  
21 | things happen in the county because of how lopsided  
22 | certain groups are represented compared to others.

23 | Q. Is the commissioners court important to making  
24 | decisions that affect minority residents in Galveston  
25 | County?

1 MR. HOLT: Objection, form.

2 A. Yes, they make most of the crucial decisions that  
3 determine where resources go. For instance, Galveston  
4 County has a lot of flood areas. The county commissioners  
5 make the decisions about which areas will receive repair  
6 in infrastructure and those types of resources.

7 Q. (By Ms. Richardson) Earlier you mentioned that  
8 when you register voters, they sometimes tell you the  
9 issues they're concerned about; is that correct?

10 A. Yes.

11 MR. HOLT: Objection, form.

12 A. Yes.

13 Q. (By Ms. Richardson) What issues were voters  
14 concerned about?

15 MR. HOLT: Objection, form.

16 A. During COVID the commissioners decided to send  
17 millions of dollars to the border wall, during COVID.  
18 Quite a few of the voters that I was able to connect with  
19 during that time were very concerned. They did not want  
20 that to happen, but it happened anyway.

21 Q. (By Ms. Richardson) Were there other issues that  
22 voters were concerned about?

23 MR. HOLT: Objection, form.

24 A. Like I said earlier, their polling places were  
25 the main concern about the maps; but it was issues like

1 | the -- the border wall and those types of -- where their  
2 | money is going, how the money is being spent, those were  
3 | concerns as well.

4 | Q. (By Ms. Richardson) Did you understand those  
5 | issues to be consistent across the black and Hispanic  
6 | communities in Galveston County?

7 | A. I did.

8 | Q. Can you explain how?

9 | A. They don't feel that they -- their objection to  
10 | what was happening was being heard or being taken  
11 | seriously.

12 | THE WITNESS: (Coughing.) Excuse me.

13 | Q. (By Ms. Richardson) Who didn't take those issues  
14 | seriously?

15 | A. That the county commissioners didn't. There were  
16 | quite a few people -- namely, I want to say Mr. Bill Keese  
17 | and a couple of other constituents -- that actually  
18 | protested the money being sent to the border wall as  
19 | opposed to taking care of the needs of the residents  
20 | during the COVID epidemic that they spoke out verbally  
21 | against it.

22 | Q. The residents who spoke out, were they primarily  
23 | black or Latino?

24 | A. Actually Mr. Keese is white. But there was kind  
25 | of a really good mix coalition that spoke out against the

1 funds being appropriated other places outside of the  
2 county.

3 Q. Are there other -- can you recall -- strike that.

4 Can you recall other instances where the  
5 black and Hispanic communities raised a concern to the  
6 county commission?

7 MR. HOLT: Objection, form.

8 A. Other than to the maps, not at this time. I  
9 can't recall anything at this time. I think I named  
10 everything.

11 Q. (By Ms. Richardson) You mentioned Luc- -- Lucille  
12 McGaskey throughout this deposition. Who is Lucille  
13 McGaskey?

14 A. A community member, one of the constituents of  
15 Commissioner Holmes.

16 Q. What did you work on together?

17 A. Primarily everything dealing with the  
18 redistricting at the time, communicating with other  
19 community members about meetings or information, keeping  
20 in touch with one another, if we saw anything in the news  
21 or on the Web site that was concerning or that we felt the  
22 community needed to know about.

23 Q. Did you work with Ms. McGaskey on other issues  
24 related to voting?

25 A. No.

1 MR. HOLT: Objection, forms.

2 A. No, just mainly the redistricting information.  
3 She is a longtime resident and has far more historical  
4 information than I do. So, I relied on her quite a bit  
5 when it came to any of the redistricting efforts back in  
6 2010, 2011, all the things that came before I was  
7 involved.

8 Q. (By Ms. Richardson) Earlier you mentioned that  
9 members of Precinct 3 were concerned about access to the  
10 recreational center; is that correct?

11 A. Yes.

12 Q. Can you name that correc- -- that recreational  
13 center?

14 A. Oh, yes. Well, let me think. It was between the  
15 Nessler center, which is on this side of 45, and Carbide  
16 Park I want to say is the other one. I can't recall the  
17 name of the center preci- -- it might be Wayne Johnson;  
18 but it's at Carbide Park, the other one.

19 And what I'm saying specifically is, for  
20 instance, my mother lives in the precinct. She was able  
21 to go to the Nessler center to do certain things, but now  
22 she's forced to cross 45 to go to the other rec center  
23 because that's where her district is -- that's a part of  
24 her district I want to say. So, they're -- they are to  
25 use that center to get their -- just whatever resources

1 | that they need. Like I know she plays bingo, and she goes  
2 | there to get different information about groceries and the  
3 | food bank and that kind of stuff.

4 |           So, the -- the center that's closer to her,  
5 | she can go there; but she wouldn't get the free resources  
6 | that she would get other than the one that's assigned to  
7 | her, if I'm getting that correct. But that's -- because  
8 | she has to travel further to get to that other recreation  
9 | center.

10 |       Q. Do residents frequently use the recreational  
11 | center in your --

12 |       A. They do.

13 |       Q. -- experience?

14 |       A. Yes, ma'am, they do. They do a lot.

15 |       Q. What kinds of communities does the rec center  
16 | primarily serve?

17 |       A. Our elderly black, Hispanic, just mainly  
18 | everybody that was in that precinct.

19 |       Q. And during your work registering voters, did you  
20 | reach out to residents who were serviced by that rec  
21 | center?

22 |       A. Not precisely that recreation center though I did  
23 | cater to those residents that needed mail-in ballots and  
24 | that type of information. I would go door to door to make  
25 | sure that they had the information that they need.

1 Q. Who would you primarily reach out to to go to  
2 talk about mail-in voting?

3 A. Elderly voters, disabled voters. All the voters  
4 that qualify for the mail-in balloting, which in Texas is  
5 very strict. So, it was only a certain population.

6 Q. During your CROWD fellowship you mentioned that  
7 you were trained on map-making software; is that correct?

8 A. Yes.

9 Q. What did you use the map-making software for?

10 A. The Maptitude is used primarily to build maps  
11 with the-- your voter -- what do you call it -- your CVAP  
12 and your VAP, your voter numbers, your -- how the numbers  
13 laid out. So, you would use that data to put into the  
14 Maptitude to build the maps.

15 Q. Is that how you personally used the software?

16 A. Yes.

17 Q. On what occasions did you use Maptitude?

18 A. We used it during our community mapping, which we  
19 get with some community members. We have community  
20 mapping interviews with them and try to highlight any  
21 historical areas, historical landmarks, everything that  
22 was important to them in that community that needed to be  
23 a part of the mapping process is how I used it.

24 Q. Did you meet with community members to use the  
25 map-making software?

1 A. We'd use phone interviews or Zoom interviews,  
2 yes.

3 Q. Did you meet one on one with members of the  
4 Galveston community?

5 A. Yes.

6 Q. Did you meet -- or strike that.

7 Who did you primarily meet with?

8 A. Again, just the residents that were interested in  
9 the process, that wanted to learn about the redistricting  
10 process. And that could be whoever in the community. If  
11 they were interested, I provided the information.

12 Q. How did you publicize this option to Galveston  
13 residents?

14 A. Again, e-mails, text messages, phone calls.

15 Q. Did you seek to obtain information from the  
16 County to help you use Maptitude?

17 MR. HOLT: Objection, form.

18 A. Hmm. We reached out to -- and I say "we"  
19 because I'm talking about the collaborative. It was  
20 myself, Stephanie Swanson and Bindu Jose was my team.  
21 We -- we reached out to the county attorney for any of the  
22 mapping information that we needed, but primarily I  
23 personally just used the Web site and any of the  
24 information that I could find during my research.

25 Q. (By Ms. Richardson) Was it difficult to obtain

1 information from the County about the map -- about the  
2 map-making process?

3 MR. HOLT: Objection, form.

4 A. Not particularly because my -- my personal  
5 questions were very general; and again, it was primarily  
6 information that was already available on the Web site.

7 Q. (By Ms. Richardson) Do you remember the name of  
8 the county attorney you spoke with or who -- yeah.

9 A. I don't. I do not. Again, my notes. I wish I  
10 had thought about bringing my notebook. I have better  
11 notes than what's in my head right now.

12 Q. No worries.

13 Let's see. Have you personally ever asked  
14 the commissioners court for anything?

15 A. I have not.

16 Q. Why not?

17 A. Wasn't in my purview.

18 Q. Have you ever asked for any personal issues that  
19 you have had personally, not in any professional capacity?

20 MR. HOLT: Objection, form.

21 A. No, I haven't.

22 Q. (By Ms. Richardson) Why not?

23 A. No need. I didn't have any particular issues at  
24 the time.

25 Q. Do you feel like you could reach out to the

1 | county commission if you had a personal need?

2 | MR. HOLT: Objection, form.

3 | A. I don't. Other than the one commissioner, I  
4 | don't have a relationship with any of the other ones.

5 | Q. (By Ms. Richardson) Why not?

6 | MR. HOLT: Objection, form.

7 | A. Unavailable. The one time that I did reach out,  
8 | they were unavailable; and I took my issue to the  
9 | commissioner that would respond.

10 | Q. (By Ms. Richardson) What was the -- can you  
11 | describe the one time you reached out to a member of the  
12 | commissioners court?

13 | THE WITNESS: (Coughing.) Excuse me.

14 | A. I tried calling the office because there was  
15 | major flooding in a park near my house, and I was trying  
16 | to get more information about the park. I never received  
17 | a call back. I never received anything back. So, I just  
18 | took it to someone that I thought could answer my  
19 | question.

20 | Q. (By Ms. Richardson) Who did you reach out to in  
21 | the commissioners court?

22 | A. I actually spoke with the secretary of County  
23 | Commissioner Holmes, and she was able to answer my  
24 | question for me.

25 | Q. But before that who did you reach out to on the

1 | commissioners court?

2 | A. It would have been my representative, which I  
3 | think is Commissioner Giusti's office.

4 | Q. What was Commissioner Giusti's response?

5 | A. I didn't ever get a response.

6 | Q. Have you attempted to reach out to Commissioner  
7 | Giusti since?

8 | A. Not since then, no.

9 | Q. Have you ever felt represented by Commissioner  
10 | Giusti?

11 | MR. HOLT: Objection, form.

12 | A. No.

13 | Q. (By Ms. Richardson) Why have you never felt  
14 | represented?

15 | MR. HOLT: Objection, form.

16 | A. Things in Galveston County are very polarizing,  
17 | and I'm not a fan of our county Republican party.

18 | Q. (By Ms. Richardson) Why not?

19 | A. They don't seem to prioritize all of the  
20 | constituents, only a certain group of constituents.

21 | Q. Which group of constituents are you referring to?

22 | A. Primarily the --

23 | MR. HOLT: Objection, form.

24 | A. Primarily their white constituents.

25 | Q. (By Ms. Richardson) Do you believe that Galveston

1 County Republicans represent the interests of minority  
2 residents in Galveston County?

3 MR. HOLT: Objection, form.

4 A. I do not.

5 Q. (By Ms. Richardson) Why not?

6 A. It's just apparent in how they handle things in  
7 the county.

8 Q. Can you explain more by what you mean by "how  
9 they handle things in the county"?

10 A. Primarily -- like I was speaking before about  
11 the -- the moneys that were spent out of county that  
12 primarily many constituents, not just the black and brown,  
13 were against; and it seems to fall on deaf ears. They  
14 sent the manpower and the money even against the will of  
15 the people.

16 Q. Okay. I just have like one more -- one or two  
17 more questions, and then I will close my direct.

18 Ms. Williamson, so, I can represent the  
19 trial is scheduled next summer in 2023 more or less. We  
20 don't have the exact date yet, but that's about the  
21 approximate time that trial will be scheduled. Is it  
22 possible that your medical condition will prevent you from  
23 appearing in person in trial next year?

24 A. I'm praying that it doesn't. I'm doing  
25 everything my doctors tell me to do. I hope to be here

1 for a good, long time.

2 Q. And I'm -- just to follow up, your medical  
3 condition is the Stage 4 cancer; is that correct?

4 A. It is.

5 Q. Okay. All right.

6 MS. RICHARDSON: I will -- I think -- I --  
7 yeah. I'll close.

8 Does NAACP have anything they'd like to  
9 correct or follow up?

10 MS. VALL-LLOBERA: No.

11 MS. RICHARDSON: Bruce, do you have a few  
12 questions on behalf of DOJ?

13 MR. GEAR: I have a few questions, just a  
14 few follow-up questions.

15 EXAMINATION

16 BY MR. GEAR:

17 Q. Again, my name is Bruce Gear. I represent the  
18 United States of America. And dur- -- during the  
19 deposition would you mind if I refer to you as Roxy; or  
20 would you prefer Ms. Williamson?

21 A. Roxy is just fine.

22 Q. Okay, Roxy. So, you spoke a lot -- testified a  
23 lot about being a CROWD fellow; and I'd like to get a  
24 better sense of exactly what your task was as a CROWD  
25 follow as it pertains to Galveston. Can you explain that

1 | to me?

2 | A. Yes, sir. I -- in my collective -- which  
3 | included myself, Stephanie Swanson with the League of  
4 | Women Voters and Bindu Jose, which was the other fellow --  
5 | Bindu was a bit more proficient in building the maps than  
6 | I was. So, I was tasked with being a community liaison;  
7 | and most of my work was -- it comprised me just being an  
8 | advocate and a liaison for the community, basically  
9 | mobilizing them and getting them information as it was  
10 | needed for us to fulfill our duties as far as building the  
11 | community maps.

12 | Q. How did you determine what information the  
13 | community needed as a -- as a liaison?

14 | A. The community told me what they were interested  
15 | in; and as they told me or had questions for me, I would  
16 | do the research and return to them what the answers to  
17 | their questions and/or the information they needed to ask  
18 | further questions or to become more involved in the  
19 | process.

20 | Q. So, you were a CROWD fellow for approximately one  
21 | year, correct?

22 | A. Yes. Yes, sir.

23 | Q. And why did you -- strike that.

24 | Your focus was on Galveston?

25 | A. Galveston was one of the areas, yes; but I was --

1 | my primary working relationship was with the different  
2 | NAACP units across the state that were interested in the  
3 | redistricting process because it was happening all over  
4 | the state. I did a lot of work in Galveston because I  
5 | live in Galveston, and that was one of the counties on my  
6 | list. But I was not exclusively working with Galveston.

7 | Q. So, your -- your work in Galveston, was that  
8 | voluntary? Were you assigned to focus on the Galveston  
9 | area? How did that work?

10 | A. Yes. Once the coalition came together, Galveston  
11 | was one of the counties that I was assigned to, yes.

12 | Q. And what were you told about Galveston as far as  
13 | your assignment?

14 | A. Well, the assignment was basically to look at the  
15 | current maps and for us to glean as much as possible from  
16 | the community to either preserve the map that was in place  
17 | or build out other minority/majority community --  
18 | majority/minority maps that would be feasible to be used  
19 | for the county.

20 | Q. And so, you talked about developing community  
21 | contacts in Galveston. How did you go about doing that?

22 | A. I'd -- a lot of the work was sort of done for me.  
23 | Like I mentioned before, Miss Lucille McGaskey, my mother,  
24 | some of the other constituents in the precinct, in  
25 | Commissioner Holmes' precinct, actually reached out to me

1 and -- because Galveston was on my list as one of the  
2 counties to work with. I was already poised to take their  
3 questions and help them out as much as I could as far as  
4 getting what they needed to advocate for themselves during  
5 the process.

6 Q. And so, what kind of network did you set up to  
7 receive the questions from the community?

8 A. We had e-mail chains. We had text -- texting  
9 groups. We used the telephone.

10 Q. And so, in your -- during your communication with  
11 the community, what type of concerns did they specifically  
12 relate to you regarding the 2021 redistricting process?

13 MR. HOLT: Objection, form.

14 A. They were very concerned about their polling  
15 places. They were concerned about mainly the polling  
16 places. That was like the No. 1 thing. They wanted to  
17 know how those things would be affected by the proposed  
18 maps.

19 Q. (By Mr. Gear) And during your work as a liaison,  
20 did you have an office space? Did you have a -- did you  
21 work out of your home? How did that work?

22 A. I did not have an office space. I did work from  
23 home and the library.

24 Q. And I believe you testified that the majority of  
25 your work was done through the Internet, Zoom, those types

1 of apps?

2 A. Yes.

3 Q. You also testified that you attended several  
4 events, one of them was the Juneteenth event.

5 A. Yes.

6 Q. Do you recall that?

7 A. I do, yes.

8 Q. And was that something that you organized, or did  
9 someone else organize that event?

10 A. No, it was another community member, Miss Lawanda  
11 Ward.

12 Q. And what function did you -- did you play during  
13 the Juneteenth event?

14 A. I was support staff. There was several booths  
15 set up by different organizations; and I helped out with  
16 the applications, providing the voter requisition  
17 applications as well as delivering them once they were  
18 completed to the county chair -- I mean not the county  
19 chair -- excuse me -- to Cheryl Johnson's office. Sorry.  
20 That's where we turn in all --

21 Q. That's the -- that's the registrar for the  
22 county?

23 A. Yes.

24 Q. Cheryl Johnson? Okay.

25 You also talked about a church event?

1 A. Yes.

2 Q. Do you recall that?

3 A. Yes. Pastor King --

4 Q. Do you recall which church?

5 A. I'm sorry. Pastor King opened up --

6 Q. Go ahead. I'm sorry.

7 A. Pastor King opened up his church. For the life  
8 of me, it's escaping -- the name of the church is escaping  
9 me right now, but it was Pastor William King's church in  
10 Dickinson. And he opened it up for us to have an  
11 informational with the legal representation from the Texas  
12 Civil Rights Project where we talked to the community  
13 about what was happening with the redistricting.

14 Q. What type of attendance did you -- if you recall,  
15 what type of attendance did you have --

16 A. It was --

17 Q. -- during that event?

18 A. It was pretty well attended. I can't -- I don't  
19 know the number right off top, but I -- I want to say we  
20 had at least 30 to 40 people there.

21 Q. Did you set up that event, or did someone else?

22 A. I helped coordinate it.

23 Q. And when you were setting up or coordinating the  
24 event, what segments of the Galveston County population  
25 did you reach out to?

1           A.    It was primarily for the residents of Precinct 3,  
2 Commissioner Holmes' precinct.

3           Q.    And who are -- who are primarily the residents of  
4 Precinct 3?

5           A.    There are black and brown residents of  
6 Precinct 3.

7           Q.    And when you say "brown," you mean Latino or  
8 Hispanic?

9           A.    Yes, sir.

10          Q.    And so, just turning to your role as a community  
11 liaison, what information were you sharing with the black  
12 and brown community?

13          A.    Primarily any information that I could glean from  
14 the commissioners meetings as well as whatever they had  
15 posted on their Web site along with the different mapping  
16 techniques and mapping information that I was learning  
17 from the Southern Coalition for Social Justice.

18          Q.    And so, you -- you trained on Maptitude, correct?

19          A.    I did.

20          Q.    Did -- were you in a position to provide that --  
21 that program to people in the community? How did you --  
22 how did you work with them, if you did, with the  
23 Maptitude?

24          A.    I use it primarily. With the community I use it  
25 primarily to do the community mapping, which as I was

1 saying earlier, was primarily just really trying to get an  
2 idea of any historical content, any historical markers,  
3 any of those things that could be used to better map out  
4 what the community saw as a fair and equitable map as far  
5 as their precinct was concerned.

6 Q. And so, during your testimony you -- you  
7 testified about vulnerable communities. Do you recall  
8 that?

9 A. Yes.

10 Q. Now, I have to admit that I am not from  
11 Galveston. Could you give me a better sense of where  
12 these vulnerable communities are in Galveston County?

13 A. Yes. For Galveston Island specifically, it would  
14 be District 1, which is Councilwoman Sharon Lewis'  
15 district which is that neighborhood around Wright Cuney  
16 Recreational Center where your lower to low-income  
17 residents live.

18 In Precinct 3, in Commissioner Holmes'  
19 precinct, that would have been considered the Carver Park  
20 area where those longtime homeowners and residents have  
21 been there for generations, primarily black residents.

22 Q. And so, the Wright Cuney Recreation Center. Can  
23 you tell me what that population consists of in that area?

24 A. Mainly black and Hispanic homes and apartment  
25 buildings.

1 Q. And in your efforts as a community advocate, did  
2 you reach out to both black and Hispanic populations in  
3 the Wright Cuney area?

4 A. I did.

5 Q. And how did you go about doing that?

6 A. Door to door, deep canvassing. We called  
7 residents. We'd -- I did a lot of just in-person door to  
8 door knocking on doors.

9 Q. And during your door-to-door knocking, did you go  
10 by yourself? Did you have any other individuals with you?

11 A. Sometimes it would be me by myself, and sometimes  
12 it would be me and a couple of other community members  
13 that were interested and want to come and volunteer and  
14 help out.

15 Q. And in your door-to-door knocking, did you have  
16 anyone that spoke Spanish along with you at any time?

17 A. I did occasionally. I only had it happen once  
18 but -- well twice; but yes, we tried to provide those  
19 opportunities where we could.

20 Q. Communicate with people in Spanish?

21 A. Yes. I do not speak Spanish. So, I was always  
22 willing to have anyone to come help that could speak  
23 Spanish. All of my literature was English and Spanish as  
24 well.

25 Q. And in the organizations that you worked with,

1 | were there Spanish speakers also associated with the  
2 | organizations during your community advocacy?

3 | A. As far as I know, yes.

4 | Q. Was there a specific effort to reach out to both  
5 | the black and Hispanic community?

6 | A. There was. I was the fellow for the black  
7 | community and Bindu Jose was our representative for the  
8 | Hispanic community.

9 | Q. And you worked with Bindu Jose?

10 | A. Yes, we were a fellow -- fellows -- we were  
11 | fellow fellows.

12 | Q. And can you tell me what that work with -- am I  
13 | saying his name correctly, Hindu?

14 | A. Bindu, B-i-n-d-u.

15 | Q. Bindu.

16 | A. Bindu Jose.

17 | Q. Thanks.

18 | A. He --

19 | Q. Can you tell me exactly what that work consisted  
20 | of --

21 | A. Yes, because we --

22 | Q. -- with Bindu?

23 | A. I'm sorry.

24 | We didn't live in the same area; so, it was  
25 | a lot of Zoom meetings.

1 Q. Okay.

2 A. COVID slowed down a lot of our in-person work.  
3 So, a lot of it was via Zoom and/or e-mail.

4 Q. So, during the 2021 redistricting process, you  
5 testified about trying to understand the timelines  
6 established for the redistricting. How did you go about  
7 doing that?

8 A. Again, that was mainly just research that we did.  
9 If anything was posted on the Web site, if anything was  
10 said in a meeting, I tried to keep up with those things.  
11 Though I didn't have a very clear idea of the timeline, it  
12 was pretty general when it came to how we were trained to  
13 use the redistricting information and mapping information  
14 through our Maptitude and the Dave's Redistricting and  
15 other platforms that we used for the mapping.

16 Q. So, by looking at the county Web site, was it  
17 difficult to determine the -- the timelines for  
18 redistricting in 2021?

19 A. It was hard to glean. And like I said, it was  
20 only maybe the one here -- meeting time where the public  
21 was actually invited to participate. Part of my job was  
22 really trying to work out how we could get more time to  
23 get more information about the timeline and about when the  
24 meetings would be held for specifically the redistricting,  
25 and it wasn't as clear as I would have liked it to be. It

1 | was a little difficult to get that information in a timely  
2 | manner.

3 | Q. So, other than trying to tempt that -- or glean  
4 | that information from the county Web site, what other  
5 | resources did you use to try to understand the timeline  
6 | for redistricting?

7 | MR. HOLT: Objection, form.

8 | A. Well, mainly I really relied a lot on Stephanie  
9 | Swanson for that information. She and the legal team with  
10 | Southern Coalition for Social Justice did a lot of that  
11 | legwork for us. So, when we -- when I did my community --  
12 | connecting with the community, a lot of that information  
13 | was already given to me.

14 | Q. (By Mr. Gear) And you may have testified to this,  
15 | but I -- I don't recall: Did you reach out to any of the  
16 | county commissioners or their staff regarding the  
17 | redistricting timelines?

18 | A. I didn't personally. I believe Miss Stephanie  
19 | Swanson did the bulk of that reaching out.

20 | Q. Did you communicate with Ms. Swanson regarding  
21 | her success on determining the timelines --

22 | A. Yes, sir.

23 | Q. -- when she reached out?

24 | A. We had weekly meetings.

25 | Q. And what did you learn from that discussion with

1 Ms. Swanson?

2 MR. HOLT: Objection, form.

3 A. It was very difficult to get that information,  
4 and a lot of times we didn't get it until the last  
5 possible moment according to how they were supposed to  
6 post it on the Web site.

7 Q. (By Mr. Gear) So, you were asked a few questions  
8 about Bolivar, the Bolivar Peninsula. Do you recall those  
9 questions?

10 A. Yes.

11 Q. Have you ever been to Bolivar Peninsula?

12 A. Yes, a few times.

13 Q. So, what -- what do you know about Bolivar?

14 A. Not a lot.

15 Q. I mean, as far as --

16 A. Not a lot.

17 Q. Go ahead. I'm sorry.

18 A. Not a lot. Lots of beach. That's the pathway --  
19 one of the pathways to travel to Louisiana, which is  
20 basically when I caught the ferry, I was headed to  
21 Louisiana. So, the bulk of what I know about Bolivar is  
22 just what I would see passing through.

23 Q. Do you know what the population is made up of on  
24 Bolivar?

25 A. From what I understand, it's mainly a white

1 population.

2 Q. Do minorities -- African-Americans, Hispanics --  
3 frequent Bolivar?

4 MR. HOLT: Objection, form.

5 A. Not that I know of.

6 Q. (By Mr. Gear) What type of events, community  
7 events, do they have on Bolivar?

8 MR. HOLT: Object --

9 Q. (By Mr. Gear) -- if you're aware?

10 MR. HOLT: Objection, form.

11 A. The only one that stands out in my mind is the  
12 Jeep festival or Jeep something that they have there.  
13 It's a Jeep beach party. Everybody is in their Jeeps.  
14 But other than that I don't know much else about Bolivar.

15 Q. (By Mr. Gear) You -- you were asked about  
16 communities of interest. Do you believe -- based on your  
17 experience, do you believe that Bolivar and Galveston  
18 Island same -- share the same communities of interest?

19 MR. HOLT: Objection, form.

20 A. I don't think so, not with the minority  
21 constituents, no.

22 Q. (By Mr. Gear) Why do you -- why do you believe  
23 that?

24 THE WITNESS: (Coughing.) Excuse me.

25 A. Just from I've been able to observe on my own.

1 | There's not a lot of cross-pollinization as far as I can  
2 | tell.

3 | Q. (By Mr. Gear) And at some point you -- you  
4 | learned that the commissioners were proposing a map that  
5 | included both Galveston Island and the Bolivar Peninsula.  
6 | Do you recall testifying to that?

7 | A. I do.

8 | Q. During your efforts as a CROWD fellow, your  
9 | education outreach, did you have any occasion to speak  
10 | with any residents of Galveston County regarding concerns  
11 | about joining both Bolivar and Galveston Island together?

12 | MR. HOLT: Objection, form.

13 | A. I -- I did hear quite a bit about it; and from  
14 | what I -- the information that I could gather, there  
15 | weren't any people that were in favor of bringing that  
16 | constituency into the overall -- how they pulled it  
17 | together on the map. I didn't -- no one was in favor of  
18 | that.

19 | Q. (By Mr. Gear) In 2021 did you hear any discussion  
20 | about the need for the creation of a coastal precinct?

21 | MR. HOLT: Objection, form.

22 | A. No.

23 | Q. (By Mr. Gear) And during the November 12th, 2021,  
24 | special session -- which you attended, correct?

25 | A. Yes.

1 Q. -- did you hear any concerns expressed about the  
2 creation of a coastal precinct combining Bolivar and  
3 Galveston Island together?

4 MR. HOLT: Objection, form.

5 A. I -- I -- I remember hearing at least a couple of  
6 people speak against it, and there was one Caucasian lady  
7 that spoke in support of it.

8 Q. (By Mr. Gear) Did -- did you speak during this  
9 special session?

10 A. I did, but not concerning Bolivar.

11 Q. What position did you take regarding the proposed  
12 plans during the special session?

13 A. I was against the proposed maps.

14 Q. Can you tell me why?

15 A. Because the proposed maps annihilated  
16 Commissioner Holmes' precinct, and I knew that would be  
17 detrimental to the community at large.

18 Q. Can -- can you explain to me why you believed the  
19 annihilation of Commissioner Holmes' precinct would be  
20 detrimental to the minority community?

21 A. Because from the research and data I had, that  
22 was the only majority/minority area in the county where  
23 the voters felt that they could elect a candidate of their  
24 choice.

25 Q. And in your opinion why is it important that the

1 | minority community in Precinct 3 had the ability to elect  
2 | their candidate of choice?

3 | A. Though it wasn't balanced, it served as at least  
4 | one avenue that that community could feel heard and  
5 | represented; and that is the only county commissioner that  
6 | represents that population.

7 | Q. So, Commissioner Holmes is only one voice on the  
8 | county commission?

9 | A. (Nodding head affirmatively.)

10 | Q. What -- why was that a voice -- in your opinion  
11 | why was that voice important to the minority community?

12 | MR. HOLT: Objection, form.

13 | A. One voice is better than no voices.

14 | Q. (By Mr. Gear) What do you mean by that?

15 | A. Even though he was the only voice, he typically  
16 | voted and was vocal about things and issues that were  
17 | brought to him from the community. He was vocal about  
18 | what they wanted or what they didn't want, and he was  
19 | unapologetic in taking that stance.

20 | Q. What, if any, efforts did he make to communicate  
21 | issues that concerned minority community to the minority  
22 | community?

23 | A. His office is pretty open -- open door. Like I  
24 | stated earlier, you didn't necessarily have to be a  
25 | constituent in his particular precinct. If you were a

1 resident of Galveston County, his office was open to hear  
2 you pretty much all the time. He was one of the lone  
3 voices that stood with the community when they wanted to  
4 remove the Confederate statues. He's the only -- the lone  
5 voice when it came to this redistricting. He was the only  
6 one that stood with the community and understood why it  
7 was important for them to have him in that position  
8 because as it stands now, there was no one that will speak  
9 on behalf or advocate for the minorities in the district  
10 or in the -- the county.

11 Q. There are three other commissioners other than  
12 Commissioner Holmes. To your knowledge have any of those  
13 commissioners come in to the minority precincts to discuss  
14 concerns related to the minority population of Galveston  
15 County?

16 MR. HOLT: Objection, form.

17 A. Not to my knowledge.

18 Q. (By Mr. Gear) During the redistricting process in  
19 2021, did any of the other commissioners other than  
20 Commissioner Holmes specifically reach out to the minority  
21 community to discuss issues related to redistricting?

22 A. Not to my knowledge.

23 Q. You testified that Commissioner Holmes attended  
24 events like the backyard barbecue and the Juneteenth  
25 events. Did -- to your knowledge did any other

1 | commissioners attend any of -- any of those events that  
2 | were attended by the minority community?

3 | A. No.

4 | Q. Based on your experience as a CROWD fellow, as a  
5 | community advocate, do you believe that the commissioners  
6 | did a good job in reaching out to the minority community  
7 | to address their concerns related to redistricting?

8 | MR. HOLT: Objection, form.

9 | A. No.

10 | Q. (By Mr. Gear) And what are you basing that on?

11 | A. My experience and what I saw, and I did not see  
12 | any of those efforts being made during that process.

13 | Q. What about by Commissioner Holmes? Did he make  
14 | any efforts to reach out to the minority community during  
15 | the 2021 redistricting process?

16 | A. I don't know what efforts he made. I just -- I  
17 | know a lot of people were -- kept his door open in his  
18 | office. He was getting a lot of feedback from the  
19 | community.

20 | Q. Do you know if Commissioner Holmes was  
21 | responsible -- responsive to that feedback he was  
22 | receiving from the community?

23 | MR. HOLT: Objection, form.

24 | A. He was.

25 | Q. (By Mr. Gear) I want to shift your attention to

1 | the November 12th, 2021, special session. You talked  
2 | about -- or you testified to a lot of construction going  
3 | on around the annex. Can you expand on that a little bit  
4 | more and explain to me what type of construction was going  
5 | on?

6 | A. Well, I'm not exactly sure what it was, but I  
7 | know that they're doing -- they were doing -- I don't know  
8 | if they were redoing the building or what was happening;  
9 | but there's just a lot of construction around the  
10 | structure of the building itself.

11 | Q. Did that construction impact the parking around  
12 | the annex on November 12th?

13 | MR. HOLT: Objection, form.

14 | A. I'm sure it did because there was like nowhere to  
15 | park, and it -- it was hard to find the place. The  
16 | construction -- it kind of sits back in a like little -- I  
17 | don't know -- like a little -- it just sits off the  
18 | street. So, it was very difficult to determine if there  
19 | was adequate parking, if there wasn't.

20 | I personally took an Uber to the site; so, I  
21 | didn't have to worry about parking. But I heard from a  
22 | lot of the people that were there that it was very hard to  
23 | park and very difficult to even kind of get close to the  
24 | building.

25 | Q. (By Mr. Gear) You testified that there were

1 | people in hallways and people outside the building. Was  
2 | there enough capacity in the room itself where the hearing  
3 | was being conducted to hold those people?

4 | A. There was not.

5 | Q. And so, was there any type of sound system or  
6 | audio that was set up to address the issue of overflow --

7 | A. There was not. That's --

8 | Q. -- that you recall?

9 | A. -- a good question.

10 | There was not.

11 | Q. In comparison, the Galveston Island courthouse  
12 | versus the League City annex, which one would you say is  
13 | the larger facility?

14 | A. I would say the courthouse in Galveston.

15 | Q. And so, I -- and I've only got a few more  
16 | questions.

17 | As a -- as a fellow and in your efforts to  
18 | educate the community as a community liaison, do you have  
19 | an opinion as to what the impact of the adopted plan in  
20 | 2021, the commissioners court plan, will have on the  
21 | minority community?

22 | MR. HOLT: Objection, form.

23 | A. In my opinion it's sad. You already have a  
24 | population of people that didn't felt -- feel that they  
25 | were heard or even thought about in the first place; and

1 | now according to the -- the newly adopted maps, that  
2 | just -- it makes my job as a community advocate that much  
3 | harder when it comes to getting people to register to vote  
4 | because they already feel their vote doesn't matter. And  
5 | if their vote doesn't matter, then they can't see  
6 | themselves in the mapping process. It just -- it just  
7 | makes everything hard when it comes to even offering them  
8 | different resources and different information platforms  
9 | for them to better educate themselves to be better  
10 | equipped to vote and to be very equipped to participate in  
11 | their local government.

12 | Q. (By Mr. Gear) And so, after the special session,  
13 | the 2021 -- November 12th, 2021, special session, did you  
14 | attend any other events or conduct any other events where  
15 | you could assess the mood of the minority community --

16 | MR. HOLT: Objection, form.

17 | Q. (By Mr. Gear) -- related to redistricting?

18 | MR. HOLT: Objection, form.

19 | A. Not specifically about redistricting, but the  
20 | voter education piece has been a highlight since then as  
21 | some of the community mem- -- community members have  
22 | approached me about possibly doing some more information  
23 | sessions before the -- the next -- before the Texas  
24 | legislative session starts in January to hopefully give  
25 | them just more information about just whatever is about to

1 come down the line as the new -- as the next 88th  
2 legislative session begins.

3 They are still very interested in  
4 redistricting and what that means for the coming elections  
5 and just really trying to get an understanding of how the  
6 SB 1 bill and those things will continue to affect them in  
7 their area.

8 Q. (By Mr. Gear) So -- and I think this is my last  
9 question: Just regarding vulnerable communities, can you  
10 give me an idea, someone who is not a resident of  
11 Galveston, where you believe the vulner -- vulnerable  
12 communities are in Galveston County?

13 A. Well, I mentioned earlier I only know the two --  
14 I know there are more. I don't know specifically where  
15 they are; but like I was saying before, the community  
16 around the Wright Cuney community center as well as the  
17 community around the Carver -- Carver Park area on the  
18 mainland. And a lot of that is just -- you know, a lot of  
19 people have been dislocated because of the recent storms  
20 in the last few years with no pathway to go back to the  
21 island; and they feel a bit disgruntled about it still and  
22 a little upset about how the new maps will affect any of  
23 that moving forward.

24 Q. And Wright -- the Wright Cuney Recreation Center  
25 and Carver Park, are those in Precinct 3?

1 A. Carver Park is.

2 Q. Commissioner Holmes' -- Commissioner Holmes'  
3 precinct?

4 A. Yes. Carver Park is.

5 MR. GEAR: I don't think I have any  
6 additional questions.

7 MS. RICHARDSON: I think NAACP counsel has a  
8 couple of follow-up now.

9 MS. VALL-LLOBERA: Yes.

10 EXAMINATION

11 BY MS. VALL-LLOBERA:

12 Q. Roxy, we've been -- excuse me -- Ms. Williamson,  
13 we've been going for about an hour now; but if you -- if  
14 you feel okay, I have just a couple -- a few more  
15 clarifying questions.

16 A. Okay. Roxy is fine, and I'm good.

17 Q. Okay. Thank you.

18 (Discussion off the written record)

19 Q. (By Ms. Vall-Llobera) I just have a few follow-up  
20 questions.

21 So, earlier today you testified that you  
22 learned about the maps sometime shortly before the  
23 meeting, the proposed maps, correct?

24 A. Yes.

25 Q. Can you describe how you felt when you saw them?

1 A. Crestfallen. It just seemed that --

2 THE WITNESS: (Coughing.) Excuse me.

3 A. It just seems like it was just intentionally bad  
4 for the minority communities involved. It just seemed to  
5 just annihilate anything that looked reasonable as far as  
6 keeping -- just keeping that precinct intact as much as  
7 the community desired it to be.

8 Q. (By Ms. Vall-Llobera) Earlier you testified that  
9 you learned about the November 12th, 2021, meeting shortly  
10 before it occurred; is that correct?

11 A. Correct.

12 Q. How did you get to the meeting?

13 A. I Ubered or took a Lyft.

14 Q. And why?

15 A. At the time my car was under repair, and I had to  
16 come from Galveston Island to the mainland. So, I got a  
17 ride to my mom's house; and my mom and I Ubered to the  
18 meeting.

19 Q. And how far is it from Galveston, the main  
20 island, to where the -- to annex -- to the annex where the  
21 meeting took place?

22 A. At least 20 miles maybe plus or minus a few.

23 Q. You also testified that when you got there, the  
24 location was crowded, there were people in the hallway  
25 sitting on floors. How did you feel when you got to the

1 | meeting?

2 |       A.   A little overwhelmed. It was very, very crowded.  
3 | I was elated that so many people had come out to speak for  
4 | themselves because that was my job, to empower the  
5 | community to advocate for themselves. So, to see all of  
6 | them actually come out and participate, it really made me  
7 | feel like I had done my work. But it was very, very, very  
8 | difficult because of a few of the elderly that looked like  
9 | they really had to go through a lot to make that happen  
10 | that day.

11 |       Q.   Did you recognize the community members, any of  
12 | the community members that were present?

13 |       A.   A few of them I did, yes. I'm still getting to  
14 | know them, too; but yeah, a few of them I do know.

15 |       Q.   Did people testify at this meeting?

16 |       A.   Yes.

17 |       Q.   Do you have a sense for how many people  
18 | testified?

19 |       A.   Hmmm. I don't. It was quite a few, though. For  
20 | whatever the time would allow, as many people spoke as  
21 | were allowed.

22 |       Q.   Did the commissioners end the testifying  
23 | before -- let me rephrase.

24 |                    Did everybody get to testify that wanted to?

25 |       A.   I believe so.

1 Q. And you testified as well, correct?

2 A. I did.

3 Q. How long did you speak for?

4 A. Two minutes. I did not stick to script. I was  
5 very upset by the end of that meeting; so, I was very  
6 blunt with my remarks.

7 Q. How did the commissioners and the judge react to  
8 your testimony?

9 MR. HOLT: Objection, form.

10 A. No reaction.

11 Q. (By Ms. Vall-Llobera) Were the commissioners and  
12 the judge paying attention as you spoke?

13 MR. HOLT: Objection, form.

14 A. That's subjective. Commissioner Holmes was very  
15 engaged. The other commissioners did not look as engaged.

16 Q. (By Ms. Vall-Llobera) Did the commissioners or  
17 the judge respond to your comments?

18 A. No.

19 Q. Did they respond to the comments of others?

20 A. No.

21 Q. How did you feel upon leaving that meeting?

22 A. Frustrated.

23 MS. VALL-LLOBERA: I think those are all my  
24 questions.

25 MS. RICHARDSON: Ms. Williamson, do you want

1 to take a break before defendants start with their  
2 questions?

3 THE WITNESS: No, let's go.

4 MS. RICHARDSON: Okay.

5 MR. HOLT: That sounds good.

6 THE WITNESS: We're on a roll. We're on a  
7 roll now. Let's roll it out.

8 EXAMINATION

9 BY MR. HOLT:

10 Q. Okay, Ms. Williamson. Would you like me to call  
11 you Roxy?

12 A. Roxy is fine.

13 Q. Okay, Roxy. Well, my name is Dallin Holt. I'm  
14 one of the attorneys that represents the  
15 counter-defendants in this -- the litigation that's  
16 currently pending. If at any time while I'm talking to  
17 you -- I know lunch was roughly an hour ago -- if you need  
18 to use the rest room or get a break otherwise, just please  
19 let me know. I'm more than happy to stop.

20 A. Okay.

21 Q. Now, what I want to do first is just kind of go  
22 through a few things that you already testified to today  
23 to get some clarifications; and then I have some documents  
24 and some other questions that I want to go through with  
25 you. Is that -- is that okay?

1 A. That's fine.

2 Q. Okay. You had -- in speaking about Precinct 3 --  
3 I think it was regarding the makeup of Precinct 3 -- you  
4 made a statement that said "though it wasn't balanced,"  
5 and you continued on with the statement. What did you  
6 mean by that statement -- referring to Precinct 3 -- that  
7 "though it wasn't balanced." What did you -- what is  
8 "it"?

9 A. Well, I meant the commissioners court and with  
10 Commissioner Holmes being the only -- at the time being  
11 the only voice of community, I felt that was unbalanced.  
12 It was four against one all the time.

13 Q. Okay. So, you're referring to the partisan  
14 makeup of the commission?

15 A. Yes.

16 Q. Okay. Got it. Thank you.

17 You mentioned earlier that you would get  
18 alerts about commissioner court meetings. Do you remember  
19 that?

20 A. Uh-huh. Yes.

21 Q. Who would send you these alerts?

22 A. I have my notifications set on Facebook; so, when  
23 they would go live, I would get the notification from  
24 Facebook that they were preparing to go live. And they  
25 still were offering this -- what am I trying say? On the

1 Web site they go live on their Web site with the meetings.

2 So, I have my computers and my phone set with the alerts.

3 Q. Okay. So, when the commission would go live --

4 A. Right.

5 Q. -- you would get a notice that the meeting was  
6 starting?

7 A. Yes.

8 Q. Okay. And this was for every meeting?

9 A. Pretty much, yes.

10 Q. During your --

11 MR. HOLT: Excuse me.

12 Q. (By Mr. Holt) During your fellowship, was that a  
13 paid fellowship?

14 A. Yes.

15 Q. Approximately how much did they pay you?

16 A. 1600 a month.

17 Q. Okay. Was there a -- an hour requirement that  
18 you had to spend a certain number of hours?

19 A. Yes.

20 Q. Would you report those hours to somebody, turn in  
21 a time sheet?

22 A. Not necessarily a time sheet but we had weekly  
23 meetings, and we had other things that we did as a unit  
24 that would account for our time.

25 Q. Did you ever get bonuses for any type of --

1 A. No. It was just a flat fellowship rate.

2 Q. And -- and when you started it, was it under the  
3 impression that it was going to last for the one-year  
4 term?

5 A. Yes.

6 Q. And you referenced the -- the meeting that was  
7 held at Pastor King's church. Do you remember that?

8 A. Yes.

9 Q. Who was it that organized that meeting?

10 A. It was actually a combination of community  
11 people. It was Miss Lucille McGaskey, myself -- I don't  
12 remember her name, but she actually opened up the church  
13 for us. She worked for the church. She didn't -- she  
14 just handled the facility. We handled coordinating the  
15 people.

16 Q. Whose idea was it to have the meeting in the  
17 first place?

18 A. Mine.

19 Q. And do you remember approximately when this  
20 meeting was held?

21 A. Hmm. September, 2021?

22 Q. And you had said it was held via Zoom?

23 A. Well, that was in person. That was an in-person  
24 meeting at the church.

25 Q. Was there a computer there that allowed people to

1 watch remotely?

2 A. No, no. It was in person.

3 Q. Do you know if this was recorded?

4 A. No, it wasn't recorded.

5 Q. And you mentioned that the Texas Civil Rights  
6 Project presented, correct?

7 A. Well, they had representation there.

8 Q. Were they the ones -- did they offer -- did they  
9 get -- provide a presentation?

10 A. Not a presentation but they were there to answer  
11 any questions that the community had, especially if it was  
12 anything dealing with any legalities of what the  
13 redistricting looked like.

14 Q. Did you ask them to come participate in this  
15 meeting?

16 A. Yes I did.

17 Q. By "them" I mean Texas Civil Rights Project.

18 A. Yes. Yes.

19 Q. Were there any type of printed materials that  
20 were handed out at the meeting?

21 A. No, not at that meeting.

22 Q. Was there any types of PowerPoint presentations  
23 that were used?

24 A. No.

25 MR. HOLT: Sorry. Just going through my

1 notes here.

2 Q. (By Mr. Holt) You had shared that you don't have  
3 a good, positive view of Commissioner Armstrong, correct?

4 MS. RICHARDSON: Objection to form.

5 A. I don't know if I would say it's not a positive.  
6 I don't know him well enough to really have any real  
7 opinions on him personally; but what I've seen of him,  
8 especially dealing with the community, he's not well  
9 known -- he's not known well enough to offer any kind of  
10 ad- -- ad- -- advocacy for the community.

11 Q. (By Mr. Holt) Do you --

12 A. They know of him, but they don't know him.

13 Q. Have you ever tried to speak with him?

14 A. I have not.

15 Q. Has he done anything that gives you the  
16 impression that he does not want to represent the minority  
17 voters in Galveston County?

18 A. He hasn't done anything; so, I haven't seen him  
19 do anything in the community at all. So, I don't know how  
20 to answer that question.

21 Q. Do you think it would be fair to give him the  
22 opportunity to serve before individuals form opinions on  
23 how he will act as a commissioner?

24 MS. RICHARDSON: Objection to form.

25 MS. VALL-LLOBERA: Objection to form.

1 A. Well, I believe since he was appointed as opposed  
2 to elected, that would be up to the community how they  
3 receive him.

4 Q. (By Mr. Holt) Okay. And you would agree that  
5 Mr. Armstrong identifies as black, correct?

6 A. I do. And I also know that he identifies as  
7 Republican.

8 Q. Okay. What is it about him being a Republican  
9 that made you want to -- to add that?

10 A. That's just some -- some of -- if I were to say  
11 any criticism at all that I've heard from the community,  
12 that would be one because his appointment means that there  
13 are no -- there's no Democratic representation. And for  
14 the people that we're talking about, many of them lean  
15 Democratic.

16 Q. Do you feel that black Republicans somehow betray  
17 their community?

18 A. Not at all. That's part of the history of  
19 politics in Galveston. A majority of the population that  
20 we're talking about started out as Lincoln Republicans.  
21 So, that doesn't make a difference here nor there.

22 Q. And what is it about Commissioner Armstrong's  
23 political ideology that -- that makes you uncomfortable?

24 A. Me personally? None at all but from the  
25 community, it's mainly based on how he responded to the

1 COVID epidemic.

2 Q. And he's a doctor, correct?

3 A. Yes, he is.

4 Q. Have you ever visited him --

5 A. No, I haven't.

6 Q. -- in a medical capacity?

7 A. No, I haven't.

8 Q. Now, you had said earlier that -- and I'm

9 paraphrasing here -- that the November meeting was the

10 only time residents could provide comment on the -- the

11 maps. Do you remember saying something rough- -- roughly

12 along those lines?

13 A. I do.

14 MS. RICHARDSON: Objection to form.

15 A. I do. I do.

16 Q. (By Mr. Holt) But you would agree that the weeks

17 and months prior to this meeting that the public had the

18 ability to comment through a Web site and Facebook,

19 correct?

20 A. Yes.

21 Q. So, would you agree that prior to the November

22 meeting there were opportunities for the public to comment

23 on the maps?

24 A. I would say that there was ample opportunity for

25 them to respond and participate as they saw fit.

1 Q. Did you know of anyone who attempted to leave a  
2 comment on the Web site that was unable to do so?

3 A. No, but I do know some elderly constituents who  
4 did not have access to computers that wanted to  
5 participate; and there weren't enough in-person  
6 opportunities for them to do that.

7 Q. Okay. Were they able to attend the in-person  
8 meeting?

9 A. The one in November, yes.

10 Q. And you mentioned --

11 A. But there weren't any prior to that that they  
12 were able to attend, no.

13 Q. And you mentioned earlier that everyone who  
14 wanted to speak at the November meeting was given an  
15 opportunity to speak?

16 A. If they were on the sign-in list, they were  
17 allowed to speak, yes.

18 Q. So, are you aware of anyone, either at the  
19 November meeting or in the prior Internet comment period,  
20 that was -- that wanted to leave a comment that was unable  
21 to do so?

22 A. Not that I know of, no.

23 Q. Okay. Now, Commissioner Holmes is still an  
24 elected county commissioner, correct?

25 A. Yes.

1 Q. And he won't be up for reelection until the end  
2 of 2024, correct?

3 A. Correct.

4 Q. Do you know who was going to run to replace him  
5 as a commissioner?

6 A. Have no idea.

7 Q. Do you know if that individual who will run will  
8 or will not represent the interests of the minority  
9 community in Galveston County?

10 A. I would hope that they would. However, I think  
11 that's contingent on how the maps are laid out who would  
12 be eligible or who would step up into that space to run.

13 Q. So, you would -- would you agree that at this  
14 stage it's too early to know exactly who's going to be  
15 there come January of 2025 and what their relationship  
16 with the minority community will be?

17 MS. RICHARDSON: Objection to form.

18 A. Hmm. Interesting. I could agree to that. It  
19 would be too hard to know at this point.

20 Q. (By Mr. Holt) You would agree that there are many  
21 differences between the Republican party and the  
22 Democratic party, correct?

23 A. Today --

24 MR. GEAR: Objection, form.

25 A. Today, yes.

1 THE WITNESS: Oh, sorry.

2 A. Today, yes.

3 Q. (By Mr. Holt) What are some of those differences?

4 A. Hmm. That's a good question. I don't know if I  
5 can name them all right here, but what stands out in my  
6 mind right now is just the -- how constituents feel they  
7 are able to be represented by either party.

8 Q. Okay. You would agree they would have different  
9 tax policies, for example?

10 A. I can agree there are some policy differences,  
11 yes.

12 Q. Different strategies regarding foreign policy,  
13 correct?

14 A. Yes.

15 Q. Or different social policies, correct?

16 A. Correct.

17 Q. You would agree that there are many reasons --  
18 many different reasons by -- why someone would identify  
19 themselves as a Republican or a Democrat, correct?

20 A. Correct.

21 Q. And would you also agree that it's -- there's  
22 never -- there's not one, single issue that can easily  
23 explain one political ideology versus the other?

24 A. I can agree with that.

25 Q. But it's complicated to explain why someone is a

1 Democrat versus a Republican?

2 A. I can agree with that.

3 Q. Okay. So, do you think it's a fair assessment to  
4 make blanket statements regarding either political party  
5 on what they do -- what those members of that party do or  
6 do not believe?

7 A. I can agree.

8 MR. GEAR: Objection to form.

9 Q. (By Mr. Holt) You doing okay?

10 A. I am.

11 Q. So, I'm going to jump into some documents here;  
12 and I'll do my best for those on Zoom to e-mail these out  
13 as we discuss them.

14 MR. HOLT: So, I think we are on 3? Is that  
15 correct?

16 THE REPORTER: Yes.

17 (Exhibit 3 marked)

18 MR. HOLT: And some of these I have enough  
19 copies; some of them I don't. I apologize. But I will  
20 e-mail this out right now. Just respond to Sarah's  
21 e-mail. Sorry, guys. Give me a sec. Okay. I just  
22 e-mailed that out to everyone on Zoom. Okay.

23 Q. (By Mr. Holt) Okay, Roxy. Do you recognize what  
24 this is?

25 A. I recognize the e-mail.

1 Q. It is an e-mail from you to various individuals;  
2 is that correct?

3 A. Correct.

4 Q. It looks like you sent it on Thursday,  
5 November 4th, 2021; is that correct?

6 A. Correct.

7 Q. Now, I want to go through -- sorry. This might  
8 be kind of tedious, but I want to try to understand who  
9 those individuals are that you e-mailed this to. Okay?

10 A. Okay.

11 Q. And so, to the extent you know, wonderful. To  
12 the extent you don't know, I'm not asking you to try to  
13 divine what someone's e-mail is from an e-mail back in  
14 2021.

15 So, who is Ruth12340992?

16 A. I do not remember.

17 Q. Okay. What about musemm@sbcglobal.net?

18 A. I do not know.

19 Q. Okay. What about bjrice@academicplanet.com?

20 A. I don't remember.

21 Q. Stholmes1@aol.com?

22 A. That would be Stephen Holmes.

23 Q. Is that his personal e-mail address?

24 A. I believe it is.

25 Q. Okay. And then following that, it says Holmes,

1 Stephen. Would that -- would that have populated as his  
2 official e-mail address?

3 A. Yes, it would have.

4 Q. And then the next one is  
5 sharonlewis@GalvestonTX.gov.

6 A. Yes, that's city councilwoman Sheryl -- Sharon  
7 Lewis.

8 Q. Okay. And going on to the carbon copy folks  
9 here, kimjyancy@gmail.com?

10 A. Yes. That would be city councilwoman Yancy in  
11 La Marque.

12 Q. And that's her personal e-mail address?

13 A. It is.

14 Q. Jonathan Warren?

15 A. A community member.

16 Q. Do you often work with Mr. Warren?

17 A. On some other community efforts, I do.

18 Q. And what type of activities do you engage with  
19 Mr. Warren?

20 A. He works a lot with the youth in Nia cultural  
21 center in Galveston.

22 Q. Okay. What does he do professionally?

23 A. I'm not exactly sure. I know that he works with  
24 the youth. That's all I know.

25 Q. Okay. Did you engage with him regularly on

1 redistricting for Galveston County for the 2021 cycle?

2 A. He was one of the people that were int- -- that  
3 was interested in the process in order to explain it to  
4 some of his students and their parents.

5 Q. Okay. Now, going on the next one,  
6 djjohnson\_76@yahoo.com, do you remember who that is?

7 A. I can't remember right off the top of my head,  
8 no.

9 Q. Patriciatoliver67@gmail.com, do you know who that  
10 is?

11 A. I do. Patricia Toliver, she is one of the nurses  
12 in the Gulf Coast -- Galveston County Gulf Coast Black  
13 Nurses Association.

14 Q. Forgive me. I said "Patricia T. Oliver." You  
15 just said her hame is Patricia Toliver?

16 A. Toliver. It is.

17 Q. Okay. Excellent.

18 And you do you speak with her often  
19 regarding redistricting in Galveston County?

20 A. I did.

21 Q. The next one is lmcgrewl@sbcglobal. Who is that?

22 A. Yes. That would be Lillian McGrew. She's  
23 another black nurse.

24 Q. Okay. And then shawnp?

25 A. That's actually a friend of mine, Miss Shawn

1 Patton Mitchell, just a community member, interested  
2 community member.

3 Q. Okay. Brittneywalker@live.com?

4 A. Brittney is a part of my sorority, Alpha Kappa  
5 Alpha Sorority, Incorporated; and she was on one of our  
6 committees, our political action committees in the  
7 sorority.

8 Q. Okay. Do you engage with her often about  
9 redistricting in Galveston County?

10 A. Not often. Another individual that was  
11 interested in the process, in assisting me in  
12 disseminating information to the sorority about the  
13 process.

14 Q. Going on, the next one there is  
15 jreneaka24@gmail.com?

16 A. Another sorority member.

17 Q. Okay. And Janice Matthews?

18 A. Janice Matthews is actually the grand lady of my  
19 ladies auxiliary group at church and another interested  
20 community member.

21 Q. Okay. And what church is that at?

22 A. Holy Rosary Catholic Church.

23 Q. Okay. And lillian@hotmail.com?

24 A. I'm not sure which Lillian that would be.

25 Q. That's a great e-mail address. She got in early

1 on Hotmail.

2 J.compian@gmail.com?

3 A. Joe Compian.

4 Q. Who is Joe?

5 A. He is actually -- he was -- he is or was a city  
6 council member with La Marque as well, Hispanic and a part  
7 of Lulac I believe.

8 Q. Did you speak with him often about redistricting  
9 in 2021?

10 A. Not often but a couple of times. He was one of  
11 the people that I reached out to to help us bridge the gap  
12 with the Hispanic community to get their input for the  
13 maps.

14 Q. So, ins- -- aside from including him as a carbon  
15 copy on e-mails, do you recall any times you spoke with  
16 him or engaged with him?

17 A. I spoke with him in person at a Tejano Democrats  
18 meeting once during that era, during that time.

19 Q. Okay. Any other times?

20 A. No.

21 Q. Okay. The next one is lthierry@utmb.edu?

22 A. Mr. Hank Thierry.

23 Q. Okay. Who is Mr. Hank?

24 A. He's a member of the Alpha Phi Alpha fraternity  
25 in the area and another concerned citizen that was helping

1 with disseminating information.

2 Q. Okay. And then Ian C. Barrett?

3 A. I can't remember who that is.

4 Q. Okay. Lawanda Ward?

5 A. Miss Ward, yes. She -- community member,  
6 coordinates Juneteenth in her "Ujamaa," "Ujamaa" festival  
7 that she has during the fall. Community member as well.

8 Q. And you spoke about Ms. Ward earlier in the  
9 deposition today, correct?

10 A. Yes.

11 Q. And this is that same --

12 A. That's the same Miss Ward, yes.

13 Q. Okay. And Corlie Jackson?

14 A. Yes. Miss Jackson, good friends, community  
15 member, knows a lot of the history of Galveston. She and  
16 her husband used to do a lot of work with St. Vincent's  
17 House. She's very active in the community, very involved  
18 in the process.

19 Q. Okay. And then riversgalveston@gmail.com?

20 A. That would be Miss Connie Rivers, who is  
21 currently the president of the Galveston Island Democrats.

22 Q. Okay. And do you engage with her often in your  
23 work as a fellow?

24 A. Not as often as I would have liked to. She's  
25 another one that is rich with information about Galveston

1 and Galveston County, but she was one of the people that  
2 were -- was interested in the redistricting process.

3 Q. Okay. Then mcafee.manessal -- vanessal?

4 A. Vanessa McAfee, yes. She's another one, used to  
5 be a part of the county Democratic party, very involved  
6 with voter registration, was very interested in the  
7 redistricting process.

8 Q. Okay. And I'm looking here at whking --

9 A. That would be Pastor William King whose church I  
10 mentioned earlier.

11 Q. Got it.

12 Then keith@henryactiontoday?

13 A. That would be Mr. Keith Henry who just recently  
14 ran for office, the House District 23 seat that Miss Terry  
15 Wilson just won [sic].

16 Q. Okay. Did you work on his campaign?

17 A. I did not work on his campaign, but he was  
18 another point of contact with whom -- contacting the  
19 community members in Precinct 3, and he did a lot of work  
20 with helping with mobilizing that community as well.

21 Q. Okay. And I apologize for the redundancy on  
22 this. It will be --

23 A. No worries.

24 Q. We won't do this on everything.

25 Looks like pdrjvj@aol.com?

1           A.    And actually that is Miss Deborah Jones,  
2    ex-schoolteacher, very involved in the community, very  
3    knowledgable community member as well; and I believe she  
4    lives in the precinct in question.

5           Q.    Then Henry Keith, is that just a second --

6           A.    That's just a --

7           Q.    -- e-mail?

8           A.    -- second e-mail for him, yes.

9           Q.    And then Heidi Gordon?

10          A.    Heidi Gordon used to be a president of the Texas  
11    Democratic Women of Galveston County, another concerned  
12    citizen and very active in the community.

13          Q.    And then ibc@gitx@gmail?

14          A.    I don't remember. Oh, yes, I do. If I'm  
15    correct, that is Mr. Ken McPherson, another community  
16    activist.

17          Q.    Okay. Brandon Williams?

18          A.    Brandon Williams and Jonathan Warren used to work  
19    together. And I'm not exactly sure what they each do with  
20    the youth, but they work extensively with the youth in  
21    Galveston.

22          Q.    Okay. Jesse Gaines?

23          A.    Mr. Gaines is NAACP, one of the officers with the  
24    Texas state NAACP.

25          Q.    Stephanie Swanson?

1 A. League of Women Voters.

2 Q. And then Hilary Harris Klein?

3 A. One of the attorneys for the Southern Coalition  
4 for Social Justice.

5 Q. How did you become associated with Ms. Klein?

6 A. She is -- was on my coalition team with my  
7 fellowship.

8 Q. And regarding your 2021 redistricting work, did  
9 you often communicate with Ms. Klein?

10 A. I did.

11 Q. Was she a supervisor?

12 A. No, just a team member.

13 Q. Okay. Is there -- what do you recall about those  
14 conversations with Ms. Klein?

15 A. Not a lot. Again, she was a part of the legal  
16 counsel. So, we had a little communication but not a lot  
17 just one-on-one with me and her. It was typically with  
18 the team at large.

19 Q. Okay. Did she help organize the meeting at  
20 Pastor King's church?

21 A. No, she didn't help organize that.

22 Q. Was she there? Was she present at the meeting?

23 A. She wasn't present, no.

24 Q. Okay. And then Candela Cerpa?

25 A. She is one of the trainers with the Southern

1 Coalition for Social Justice. She was one of the  
2 redistricting trainers.

3 Q. Okay. Now, just a few more names; and then we'll  
4 get into some more substance here. I want to go through  
5 some of the plaintiffs in this litigation, and just let me  
6 know if you know them. We'll kind of explore your  
7 relationship with them.

8 A. Okay.

9 Q. Terry Petteway, do you know who Terry Petteway  
10 is?

11 A. I've only met the Petteways a couple of times.

12 Q. What comes --

13 A. I don't know them well.

14 Q. And what comes to mind when you think of -- when  
15 you hear "Terry Petteway"?

16 A. We've done some Democratic work together.

17 Q. Are they -- are the Petteways active in the  
18 Democratic party?

19 MS. RICHARDSON: Object to form.

20 A. As far as I know, they were.

21 Q. (By Mr. Holt) Is there any reason they still  
22 wouldn't be?

23 A. I would have no idea. I don't know them  
24 personally that way.

25 Q. Okay. How about Derreck Rose?

1 A. Derreck Rose is a constable in Galveston County.

2 Q. Do you -- have you communicated with Mr. Rose?

3 A. Not specifically about redistricting but we have  
4 worked together. I used to be a part of the black  
5 coalition that he was a part of.

6 Q. Okay. And as far as you know, is he a member of  
7 the Democratic party?

8 A. As far as I know? I don't really know.

9 Q. Okay. A Michael Montez?

10 A. I don't know that name.

11 Q. Penny Pope?

12 A. I know Ms. Pope; but that's a family connection,  
13 not necessarily anything dealing with the redistricting  
14 work.

15 Q. You never had a conversation with her regarding  
16 the 2021 redistricting in --

17 A. Not with her --

18 Q. -- Galveston County?

19 A. -- personally, no.

20 Q. Okay. All I would ask is -- I know you can  
21 probably anticipate what I'm going to say in my questions,  
22 but if you would just -- it's easier for the court  
23 reporter if we don't talk over each other. I will do my  
24 best to not talk over you. I think she'll just be  
25 grateful for that.

1                   How about Sonny James? Do you know Sonny  
2 James?

3           A.    I don't.

4           Q.    A Roosevelt Henderson?

5           A.    I don't.

6           Q.    Okay. And are you involved with the  
7 Dickinson-Bay Area Branch of the NAACP?

8           A.    I've visited them a few times, yes.

9           Q.    Okay. How about the Galveston branch of the  
10 NAACP?

11          A.    I'm a member.

12          Q.    And the Mainland branch of the NAACP?

13          A.    I know of them, but I don't know any of them.

14          Q.    How do these different branches coordinate their  
15 work one with another?

16          A.    That, I couldn't tell you because I don't -- I  
17 don't work between the branches. I visited the Dickinson  
18 one before I became a member of the one in Galveston.  
19 That's as much as I know.

20                   MS. RICHARDSON: Mr. Holt, I just want to  
21 put on -- just to clarify the record: Roosevelt Henderson  
22 isn't a party to the current complaint as he died before  
23 the filing of this current complaint.

24                   MR. HOLT: Understood.

25                   MS. RICHARDSON: Yeah.

1 MR. HOLT: Thank you.

2 The Court has him listed as a plaintiff --

3 MS. RICHARDSON: Yeah. It's clear they  
4 haven't --

5 MR. HOLT: -- in the new litigation but --

6 MS. RICHARDSON: They didn't remove his  
7 name. Yeah.

8 MR. HOLT: -- yeah. Anyway, yeah. Thank  
9 for that clarification.

10 MS. RICHARDSON: Yeah.

11 Q. (By Mr. Holt) How about Edna Courville?

12 A. I don't know Miss Courville.

13 Q. And Joe Compian, you had mentioned he was on  
14 this --

15 A. Yes.

16 Q. -- e-mail?

17 A. Yes.

18 Q. Again, how often did you -- do you communicate  
19 with Joe?

20 A. Not very often. Again, he was one of the people  
21 that it was advised that I contact if I wanted to get more  
22 information about the Hispanic community and how we could  
23 get them involved in the redistricting process.

24 Q. Who advised you to contact Joe?

25 A. My mother did actually. She used to work with

1 | him on the Interfaith Council some years ago.

2 | Q. Okay. Did you ever speak with Joe about this  
3 | litigation?

4 | A. No. Not the litigation, no.

5 | Q. Leon Phillips?

6 | A. I know Mr. Phillips, yes.

7 | Q. In what capacity do you know Mr. Phillips?

8 | A. Community activism.

9 | Q. Have you worked with him directly on  
10 | redistricting in --

11 | A. No.

12 | Q. -- Galveston County?

13 | A. Not directly. We spoke a couple times about the  
14 | city redistricting but not the county redistricting.

15 | Q. What -- what did he speak to regarding the city  
16 | redistricting?

17 | A. We had spoke specifically about District 1,  
18 | Councilwoman Lewis' district, and just making sure that  
19 | they understood what redistricting was and how the process  
20 | worked.

21 | Q. So, you helped educate Mr. Phillips?

22 | A. I did.

23 | Q. Okay. And what interactions have you had with  
24 | the U.S. Department of Justice regarding redistricting in  
25 | Galveston?

1 A. Other than speaking with Mr. Gear and his  
2 colleagues, that's all.

3 Q. How many times did you speak with Mr. Gear?

4 A. A few times?

5 Q. Who was it that initiated --

6 A. Once in person.

7 Q. -- that?

8 Who was it that initiated that conversation?

9 A. He did.

10 Q. How did he first reach out to you?

11 A. E-mail.

12 Q. Do you know how he got your e-mail?

13 A. Probably from my complaint that I sent in, and I  
14 wouldn't be surprised if he spoke to other community  
15 members that my name came up.

16 Q. So, prior to submitting your complaint, had you  
17 ever communicated with the Department of Justice regarding  
18 redistricting?

19 A. No.

20 Q. In your conversations with Mr. Gear, did he  
21 discuss any potential future litigation surrounding the maps  
22 in Galveston?

23 A. No, our first interview was just talking to me  
24 about what I knew about the process and what I knew about  
25 Galveston.

1 Q. And then did he follow up again with you?

2 A. We met when he was here in person. I interviewed  
3 with him by myself. And then I was able to take part in  
4 another meeting, but it was not just myself. It was me  
5 and some other community members.

6 Q. But approximately when was Mr. Gear in Galveston?

7 A. Oh, I don't remember. It was -- I don't  
8 remember. I'd have to look at my calendar. I don't  
9 remember.

10 Q. Do you remember --

11 A. I would have to look it up.

12 Q. Do you remember if anyone else came with him from  
13 the Department of Justice?

14 A. He had another attorney with him, I believe, yes.

15 Q. Okay. Do you know -- did they record your  
16 conversations?

17 A. I'm not sure.

18 Q. Approximately how long was the conversation that  
19 you had with them?

20 A. About an hour.

21 Q. Did he give you any representations of why it was  
22 that he was in Galveston?

23 A. Well, I know it was primarily from the complaints  
24 that several of us had lodged; and he was doing his due  
25 diligence.

1 Q. Okay. Did he say what he was going to do with  
2 the information that you provided him?

3 A. Not to me, no.

4 Q. Did he say to somebody else?

5 A. I wouldn't know. I don't know.

6 Q. Approximately how many people do you know -- do  
7 you know -- strike that.

8 Do you know how many people he met with when  
9 he visited here?

10 A. I have no idea.

11 Q. Do you know how many days he was in Galveston?

12 A. A few.

13 Q. Two or three?

14 A. Maybe three.

15 Q. Okay. Are you doing okay? You want to keep  
16 going?

17 A. Yeah.

18 Q. Okay. Just let me know when you need to take a  
19 break.

20 Okay. I want to go back to Exhibit 3. Do  
21 you still have that in front of you?

22 A. I do.

23 Q. At the top of the e-mail in the text -- the text  
24 of the body, it says "the Galveston city council  
25 redistricting workshop." Do you see that?

1 A. I do.

2 Q. What is -- what was the Galveston city council  
3 redistricting workshop?

4 A. City council was doing their own city  
5 redistricting at the time as well.

6 Q. Okay. So, this was a -- a meeting hosted by the  
7 Galveston city council?

8 A. It was. I was sharing the link.

9 Q. Okay. Did you participate in this video -- I  
10 mean in this training?

11 A. I want to say that I did while I'm watching Zoom.

12 Q. Okay. Now, as you go lower in the e-mail, looks  
13 like this was -- you were doing a "reply all" earlier to  
14 and earlier e-mail where it says "Good afternoon,  
15 Galveston County." Do you see that?

16 A. Uh-huh. I do.

17 Q. Okay. And then the first asterisk there, it  
18 says: For those of you prepared to sign onto the advocacy  
19 letter, please forward your logos and signatories to me or  
20 Steph Swanson. Do you see that?

21 A. I do.

22 Q. What is this advocacy letter that you refer to in  
23 here?

24 A. We were preparing ourselves -- me mainly and the  
25 community members that I was working with at the time --

1 to possibly do a sign-on to a letter stating our -- how do  
2 I -- how do I put that -- stating our support of getting a  
3 map that was -- how did I say the -- a community map that  
4 was agreed to by the community to be advocated for as we  
5 were preparing for the next -- whenever this next meeting  
6 was supposed to come about -- for us to have our public  
7 comment and possibly build a map that we could possibly  
8 present as well as the letter with all the different  
9 groups -- League of Women Voters, NAACP, the other  
10 organizations that we were working with -- to advocate for  
11 a good map to present.

12 Q. Okay. And then you say at the end of that, first  
13 asterisk: This assists with establishing important  
14 information for litigation if necessary. Do you see that?

15 A. I do.

16 Q. What did you mean by that?

17 A. At this point we had been told that there was a  
18 possibility that everything that we did in the meeting may  
19 not come out as we were hoping and if not that there was a  
20 possibility to have the community members advocate and  
21 possibly fight the maps that were eventually approved.

22 Q. Who had told you those things?

23 THE WITNESS: (Coughing.) Excuse me.

24 A. Well, within my coalition they had talked about  
25 if the maps -- if it came down to it, the maps would have

1 to be -- would have to go to court, that the community  
2 would have to be prepared to advocate if it were possible  
3 that we go to court behind the maps.

4 Q. (By Mr. Holt) Do you know who specifically was  
5 telling you those things?

6 A. Not specifically but I know that it was a part of  
7 the training that we were doing with the fellowship; and  
8 that's why we were working on community-based things, to  
9 prepare the community to fight for a map if they didn't  
10 like the ones that were being presented.

11 Q. Okay. In this group that we went through on the  
12 two on the cc lines on this e-mail, aside from Ms. Klein  
13 is there another attorney that was part of this -- your  
14 e-mail group?

15 A. No. No, not this particular group. No.

16 Q. Was Ms. Klein --

17 A. Well, Mr. Gaines is an attorney with the NAACP.  
18 He is an attorney by trade, but I don't believe that was  
19 the capacity that he was in in this particular e-mail.

20 Q. Okay. Was Ms. Klein asking you to help gather  
21 information that would be important for litigation?

22 A. I don't believe it was her specifically. Again,  
23 I want to say it just came from our coalition group that  
24 we were talking in generals [sic] about, you know, how  
25 would we prepare the community moving forward.

1 Q. Are you an attorney?

2 A. I am not.

3 Q. How do you know what important information is  
4 needed for litigation?

5 A. Well, basically it was whatever Steph Swanson was  
6 having me and Bindu work on at the time.

7 Q. Do you know who Steph Swanson was working with  
8 regard -- in regards to potential future litigation?

9 A. Well, other than Ms. Klein here, Ms. Sarah Chen  
10 and whoever they were talking to with her group of League  
11 of Women Voters, I couldn't tell you specifically who  
12 those people were.

13 Q. So, is it safe to say that at least a week prior  
14 to voting on the maps that there was already talk about  
15 preparing for litigation?

16 MS. RICHARDSON: Objection, form.

17 MS. VALL-LLOBERA: Objection, privilege.

18 A. It wasn't --

19 MS. VALL-LLOBERA: And if you could,  
20 actually pause --

21 THE WITNESS: Okay.

22 MS. VALL-LLOBERA: -- before answering.

23 But object to privilege, too, and to the  
24 sidebar.

25 MR. HOLT: I don't think you guys represent

1 her, then any communication you had with her would be --  
2 would have been waived from your organizations.

3 MS. VALL-LLOBERA: There --

4 MS. CHEN: We'll -- we'll save that  
5 objection for when -- for anything that he addresses to  
6 the clients.

7 MS. PRATHER: Could you --

8 MR. HOLT: Are we okay?

9 MS. RICHARDSON: -- repeat the question.

10 THE WITNESS: Thank you. I was going to ask  
11 that.

12 MS. RICHARDSON: If you can, pause for a  
13 second before you answer.

14 MR. HOLT: Can you read back, please? It  
15 got a little intense there for a sec.

16 THE REPORTER: "QUESTION: Is it safe to say  
17 that at least a week prior to voting on the maps that  
18 there was already talk about preparing for litigation?"

19 MS. CHEN: Objection, form.

20 MS. RICHARDSON: Objection to form.

21 MR. GEAR: Objection, form.

22 MR. HOLT: Anybody else?

23 MS. VALL-LLOBERA: Objecting based on  
24 privilege.

25 MR. HOLT: I assume --

1 THE WITNESS: Do I answer it?

2 MR. HOLT: Yeah.

3 MS. CHEN: For now we'll instruct you not to  
4 answer.

5 And can we ask for a quick recess?

6 MR. HOLT: Yeah, but she's not your client  
7 at all. I don't -- you can't really instruct her not to  
8 answer. You don't have privilege with her. That's what I  
9 don't understand here.

10 MS. CHEN: Let's --

11 MR. HOLT: We can talk. We can -- if we  
12 want to have any type of substantive discussion, I'd  
13 prefer that we have it on the record regarding privilege.

14 MS. PRATHER: Well, since there is a  
15 question about privilege, then I instruct you not to  
16 answer the question; and we'll let the Court decide --  
17 resolve whether that -- the privilege communication should  
18 prevent her from answering this question.

19 MR. HOLT: I'd just like to know the legal  
20 basis for the privilege objection.

21 MS. VALL-LLOBERA: She was a contractor with  
22 the NAACP.

23 MR. HOLT: She was a contractor with the  
24 NAACP?

25 MS. VALL-LLOBERA: And you're asking about

1 potential litigation conversations between her and her  
2 coalition, which includes the NAACP, during a time which  
3 she was employed by them.

4 Q. (By Mr. Holt) Okay. Aside from any conversations  
5 you had with the NAACP --

6 MS. PRATHER: Or her attorney.

7 Q. (By Mr. Holt) -- or your attorney or -- were you  
8 aware of any efforts to prepare for litigation?

9 MS. PRATHER: Objection, form.

10 MS. RICHARDSON: I'll also object to form.

11 MR. HOLT: I'm just -- I mean, she talks  
12 about preparing for litigation in this e-mail that she  
13 clearly sent to members that were not part of the NAACP.  
14 I'm just trying to explore what it is she's saying in this  
15 communication where she brings up litigation where there  
16 are many people that are not covered by NAACP's privilege.

17 MS. CHEN: You were asking about other  
18 communications, not this one involving litigation.

19 MR. HOLT: Okay.

20 Q. (By Mr. Holt) The litigation that is referenced  
21 in your e-mail, what type of litigation are you  
22 preparing -- that you reference in Exhibit 3?

23 A. And from my point of view and from this e-mail, I  
24 didn't have any idea what kind of litigation. All I knew  
25 was if litigation were to become necessary that my job was

1 to help the community get themselves together in order to  
2 be prepared for whatever was coming down the line.

3 Q. Okay. Your second asterisk here, you say: The  
4 Honorable Commissioner Stephen Holmes will be speaking on  
5 redistricting this evening.

6 Do you see that?

7 A. I do.

8 Q. Did you attend that meeting?

9 A. I did not actually. It wasn't a meeting that I  
10 coordinated. I want to say that was something that was  
11 done by the county chair, and she asked that I share the  
12 information.

13 Q. Was this a Zoom meeting?

14 A. I want to say it was a Zoom meeting.

15 Q. Do you know if anyone recorded this meeting?

16 A. I don't know.

17 Q. Who was it that set it up? You said the  
18 Democratic party chair?

19 A. I think Tierr'ishia Gibson set up that meeting.

20 Q. Okay. Who was it that arranged for Commissioner  
21 Holmes to speak at the meeting? Do you have that  
22 information?

23 A. I don't. All I know is I received the  
24 information from Tierr'ishia Gibson.

25 Q. If you turn to the next page, it says "talking

1 points on map proposals." Do you see that?

2 A. I do.

3 Q. And then it has a link to where you can comment,  
4 to submit public comments. Do you see that there?

5 A. Yes.

6 Q. Are you aware of anyone that clicked on this link  
7 that was unable to leave a comment that wanted to?

8 A. I don't know.

9 Q. Who wrote these talking points?

10 A. I want to say that Miss Swanson composed them. I  
11 shared them.

12 Q. Were you involved in the drafting of these at  
13 all, editing or commenting on them?

14 A. No. I just shared the information.

15 Q. Okay. Do you know if Commissioner Holmes gave  
16 input on these talking points?

17 A. I don't remember.

18 Q. Do you believe that a black Republican running  
19 for office in Galveston County supports the interests of  
20 the black community?

21 MS. RICHARDSON: Object to form.

22 MS. VALL-LLOBERA: Object to form.

23 MR. GEAR: Objection, form.

24 Q. (By Mr. Holt) Let me rephrase that: Is it  
25 possible that a black Republican running for office in

1 Galveston County could support the interests of the black  
2 community in Galveston?

3 MS. RICHARDSON: Object to form.

4 MR. GEAR: Objection, form.

5 A. I suppose anything's possible.

6 Q. (By Mr. Holt) Okay. What about Hispanic  
7 Republicans?

8 MS. RICHARDSON: Object to form.

9 Q. (By Mr. Holt) Latino Republicans?

10 MR. GEAR: Objection.

11 A. Again, I suppose any of it is possible. Whether  
12 it's likely or not, I don't know.

13 Q. (By Mr. Holt) Okay.

14 (Exhibit 4 marked)

15 MR. HOLT: Now, pass out another exhibit  
16 here. This is Exhibit 4. I apologize. I didn't print  
17 off as many copies of this one. I can send it out on an  
18 e-mail here.

19 THE WITNESS: Okay. This was the meeting  
20 here.

21 MR. HOLT: Give me just a second here.

22 Okay. Just sent that out.

23 Q. (By Mr. Holt) Do you recognize what this is?

24 A. I do.

25 Q. What is it?

1 A. It was the notice about the meeting that I was  
2 e-mailing about. That was -- that was the asterisk,  
3 No. 2.

4 Q. Okay. So, this is the Commissioner Holmes  
5 meeting?

6 A. Uh-huh.

7 Q. And you did not --

8 A. Yes.

9 Q. You did not attend this meeting?

10 A. I did not.

11 Q. So, are you aware of what Commissioner Holmes  
12 said at that meeting? Was it ever communicated to you?

13 MS. VALL-LLOBERA: Objection, form.

14 A. I can't speak on what he said specifically, no.

15 MS. RICHARDSON: I'm sorry. I'm doing this  
16 a little late, but I'm also going to object to the lack of  
17 foundation to this exhibit. I'm not sure what we -- if we  
18 laid the foundation about what this is or who it came  
19 from.

20 Q. (By Mr. Holt) Would you agree that this message  
21 was attached to the exhibit we marked as Exhibit 3?

22 A. This looks more like a text message between me  
23 and Heidi. It wasn't attached to this original e-mail,  
24 no.

25 Q. Okay. But this is the meeting that you were

1       referencing, Exhibit 3?

2           A.     But -- right. I did make a reference to it under  
3 Asterisk 2. That was the meeting that I was asked to  
4 share the information about in the e-mail.

5           Q.     Looking back at Exhibit 3 on the e-mail that was  
6 sent at 3:08 p.m. on November 4th -- do you see that?

7           A.     Yes.

8           Q.     -- was this attached to that e-mail?

9           A.     This document?

10          Q.     Yes.

11          A.     Again, it appears to me to be a text message, not  
12 an e-mail.

13          Q.     So, a screen shot of a text message, correct?

14          A.     A screen shot of a text message, yes.

15          Q.     Okay. And you don't recall attaching it to --

16          A.     No.

17          Q.     -- the e-mail on November 4th at 3:08 p.m.?

18          A.     No.

19                   MS. RICHARDSON: Okay. I'm going to  
20 maintain my objection for lack of foundation to this  
21 exhibit.

22          A.     Yeah. No, it's not a part of that original  
23 e-mail.

24                   MR. HOLT: Okay. We got one more here.

25                   Marking this as Exhibit 5.

1 (Exhibit 5 marked)

2 MR. HOLT: I'll e-mail this one out here.  
3 Just give me one second.

4 Q. (By Mr. Holt) Do you recognize what the e-mail  
5 is?

6 A. Yes.

7 Q. What is it?

8 A. It is one of my attempts to get information to  
9 and from the community about redistricting.

10 Q. Is this in reference to the redistricting in  
11 Galveston County or a different redistricting?

12 A. Actually this seems to refer to the Texas  
13 legislative process. I want to say this is another  
14 special session called, and we were getting ready to  
15 submit redistricting testimony.

16 Q. Okay. And you said --

17 A. Not just for Galveston County but for the process  
18 in general.

19 Q. Okay. And did you send this e-mail?

20 A. I did.

21 Q. And you would agree that Stephen Holmes is cc'd  
22 on this e-mail, correct?

23 A. Yes.

24 Q. So, you would agree that as early as  
25 September 11th, 2021, you had communications with

1 Commissioner Holmes regarding redistricting in Texas?

2 A. Well, I wasn't directly speaking with him, though  
3 I did cc him on all of my communications as I was working  
4 through the community so he would be aware of what I was  
5 doing.

6 Q. Okay. Okay.

7 MR. HOLT: Let's move on to another one  
8 here. I'll mark this one as Exhibit 6.

9 (Exhibit 6 marked)

10 MR. HOLT: I'll e-mail this out. Just give  
11 me a moment.

12 And for those on Zoom, I may or may not have  
13 attached the wrong e-mail to the last one; but there's two  
14 September 11th e-mails. So, I apologize. So, the one  
15 that I'm sending out now is another September 11th e-mail.  
16 I apologize.

17 Q. (By Mr. Holt) Okay. Do you recognize the e-mail  
18 that has been given to you marked as Exhibit 6?

19 A. I do.

20 Q. And what is it?

21 A. It is me requesting information about the  
22 redistricting, the city council discussions on  
23 redistricting and any open hearings and dates and  
24 locations for redistricting.

25 Q. Okay. So, let's first look at the forwarded

1 message that was sent on Saturday, September 11th, at  
2 3:22 p.m. Do you see that?

3 A. I do.

4 Q. And this looks like an e-mail that you sent to  
5 citymanager@GalvestonTX.gov and Mbarnett@GalvestonTX.gov.  
6 Do you --

7 A. Yes.

8 Q. Do you agree with that?

9 A. Yes.

10 Q. Do you remember sending this e-mail?

11 A. I do.

12 Q. What is it that you're specifically requesting  
13 from the County?

14 A. I'm requesting, No. 1, city council discussions  
15 about redistricting; No. 2, open hearings, dates and  
16 locations for redistricting. And I say, "We hope to  
17 encourage the community in this important discussion.  
18 Will there be any opportunity for Zoom testimony given the  
19 enormously high COVID rates we are experiencing?"

20 And I'm thanking them for any information,  
21 guidance and updates.

22 Q. Okay. And then in -- approximately two minutes  
23 after this e-mail was sent, you forwarded it to  
24 Commissioner Holmes, correct?

25 A. I did.

1 Q. And it looks like this is sent to Holmes,  
2 Stephen; and based on Exhibit 3, you had stated that was  
3 his official e-mail address.

4 A. Yes.

5 Q. Do you remember that?

6 A. Yes.

7 Q. Okay. So, you would agree that you sent this to  
8 Commissioner Holmes officially --

9 A. To his office, yes.

10 Q. When did you send something -- was there -- when  
11 would you send something to his personal e-mail address  
12 versus his official e-mail address?

13 A. Hmm. I would make no distinction. I just --  
14 however it populated in my -- as I was sending e-mails is  
15 where I sent it. I didn't make any real distinction about  
16 that.

17 Q. Okay. And you said to Commissioner Holmes,  
18 "Thank you for any information you can provide."

19 A. Right. I was requesting information from all of  
20 those entities in the e-mail.

21 Q. Had you communicated with him in person or over  
22 the telephone that this was coming before you forwarded it  
23 to him?

24 A. No. I want to say I might have spoken to his  
25 secretary. I did most of my communications with her as

1 far as trying to get any information; or if I needed to  
2 contact him or pass him a message from the coalition, I  
3 would go through his secretary.

4 Q. Okay. So, you would agree that at least, you  
5 know, as early as September 11th, 2021, you were  
6 communicating with Commissioner Holmes regarding --

7 A. I was gathering --

8 Q. -- redis- --

9 A. -- information from him and whoever would give me  
10 information, yes.

11 Q. Okay. And you just had stated earlier that the  
12 first time you spoke with Commissioner Holmes about  
13 redistricting was the week before the --

14 A. That I spoke --

15 Q. -- the public meeting?

16 A. -- with him personally, yes; but I had been  
17 trying to work with everyone I could work with to get the  
18 information, yes.

19 Q. How long before the November, 2021, meeting had  
20 you been communicating with Commissioner Holmes through  
21 e-mail?

22 A. I want to say maybe since that July, August --  
23 probably that August.

24 Q. Okay. And was -- did he provide you any helpful  
25 information?

1 A. No, because as I mentioned before, most of the  
2 information that he could give me, we were all getting it  
3 about the same time, his office along with my coalition.  
4 He wasn't -- he wasn't any help as far as having any  
5 information coming straight for the commissioners court,  
6 no. I was not able to get that information.

7 Q. Okay. And prior to the November special meeting,  
8 were you aware of any time where Commissioner Holmes  
9 attempted to place the topic of Galveston County  
10 redistricting on the agenda for a commiss- -- county  
11 commission meeting?

12 A. I'm not sure about that.

13 Q. Have you ever --

14 A. I know that we had asked him to, but I'm not  
15 sure.

16 Q. Do you know if that ever happened?

17 A. If he -- I'm not sure how that would have worked  
18 out.

19 Q. What did you --

20 A. I would have to go back and look at my notes from  
21 meetings.

22 Q. When did you ask him to do that?

23 A. Probably about August before I started really  
24 gathering the information that I needed for my work that I  
25 was doing with the Maptitude and my coalition.

1 Q. And you mentioned you also get alerts for  
2 meetings for Galveston County.

3 A. Uh-huh.

4 Q. Were you aware of any meeting --

5 A. Yeah.

6 Q. -- prior to the November, 2021, meeting where  
7 redistricting was discussed?

8 A. No. That would be the purpose for this e-mail  
9 because I was still trying to get information about a  
10 timeline or how they were going about setting up the  
11 meetings for those discussions.

12 Q. So, you would agree that Commissioner Holmes did  
13 not put redistricting on an agenda for the Galveston  
14 County meeting?

15 A. I don't know --

16 MS. VALL-LLOBERA: Objection, form.

17 A. -- if I can agree to that.

18 MR. GEAR: Objection, form.

19 A. I don't know if I can agree to that because I  
20 know that, again, he was one voice against four others;  
21 so, him attempting to do it in -- whether it made the  
22 agenda or not, I couldn't speak on any of that.

23 Q. (By Mr. Holt) Okay.

24 MR. HOLT: Okay. We'll move on to what I'm  
25 marking as Exhibit 7.

1 Q. (By Mr. Holt) You doing okay, Ms. Williamson?

2 A. I'm good. Thank you.

3 (Exhibit 7 marked)

4 MS. RICHARDSON: I might actually need a  
5 break soon.

6 (Discussion off the written record)

7 THE VIDEOGRAPHER: Off the record at 2:49.

8 (Recess taken)

9 THE VIDEOGRAPHER: Back on the record at  
10 3:09.

11 Q. (By Mr. Holt) While we were on break,  
12 Ms. Williamson, did you speak with anyone besides your  
13 attorney about your deposition?

14 A. No.

15 Q. I'm going to hand you what's been marked as  
16 Exhibit 7.

17 MR. HOLT: I've sent that out to e-mail  
18 already. Oh, sorry, guys. There's two pages to this. I  
19 think I handed you the second page. Did I?

20 MS. RICHARDSON: You handed us this.

21 MR. HOLT: There's that back, page 2 of it;  
22 so. There you go.

23 Q. (By Mr. Holt) Okay. Do you recognize what has  
24 been marked at Exhibit 7?

25 A. The one page? Yeah.

1 MR. HOLT: My apologies. I thought I had  
2 stapled everything together. Okay. I think everyone's  
3 got it now.

4 Q. (By Mr. Holt) Do you recognize what's been marked  
5 as Exhibit 7?

6 A. I do.

7 Q. What is that?

8 A. An invitation to the Zoom meeting.

9 Q. And what is that Zoom meeting?

10 A. Not saying much.

11 Q. Do you remember? It looks like Stephanie Swanson  
12 scheduled a Zoom meeting regarding Galveston County. Is  
13 that what -- is that what it says there?

14 A. Yes.

15 Q. And this is an e-mail that you received from  
16 Stephanie Swanson?

17 A. Yes.

18 Q. And then you just a few minutes after receiving  
19 this e-mail from Ms. Swanson forwarded it to Commissioner  
20 Holmes, correct?

21 A. Yes.

22 Q. Why -- do you remember why you forwarded it to  
23 Commissioner Holmes?

24 A. I don't remember other than -- I don't remember.

25 Q. And do you remember attending this meeting?

1 A. I do.

2 Q. Do you remember what was said there or who spoke?

3 A. I don't. I want to -- I don't. I know that  
4 Miss Swanson was talking about what we were -- the work we  
5 were doing here, but I don't remember specifics.

6 Q. Did Miss Swanson typically record her Zoom  
7 meetings?

8 A. Hmmm. Maybe? I'm not sure about this one.

9 Q. Would they ever -- Miss Swanson ever circulate a  
10 recording of a meeting or a training after the fact for  
11 those people who are not able to attend it live?

12 A. Sometimes --

13 Q. And you don't --

14 A. -- yes.

15 Q. -- you don't -- do you recall if it was done for  
16 this meeting?

17 A. I don't. I would need more context.

18 Q. Did you ever receive any of those recorded  
19 meetings that you were unable to attend --

20 A. Occasionally.

21 Q. -- regarding redistricting in Galveston County?

22 A. Not necessarily redistricting but different  
23 trainings, yes.

24 Q. Okay. And you don't remember why you forwarded  
25 this to Commissioner Holmes?

1 A. I don't.

2 Q. But you agree that you did, correct?

3 A. I did.

4 (Exhibit 8 marked)

5 Q. (By Mr. Holt) Okay. I'm going to hand you what's  
6 marked as Exhibit 8.

7 MR. HOLT: Let me get this circulated real  
8 fast. Okay. I just sent that out through e-mail.

9 Okay. Sorry.

10 MS. RICHARDSON: It's all right.

11 MR. HOLT: Did it again.

12 MS. RICHARDSON: Oh, that makes more sense  
13 now.

14 MR. HOLT: Mind if I see that back there?  
15 I'm sorry. There's a second page. When I printed it, it  
16 looks like it -- someone unchecked the box here.

17 There you go, ma'am.

18 MS. VALL-LLOBERA: Thank you.

19 Q. (By Mr. Holt) Okay. Do you recognize this,  
20 Ms. Williamson?

21 A. I do.

22 Q. What is it?

23 A. It is an e-mail where we -- hmmm. Give me a  
24 minute.

25 This looks like it has to do with the ad- --

1 advocacy groups we were trying to get together for --  
2 oh -- the ad- -- advocacy letter we were sending to the  
3 commissioners court.

4 Q. Let's look at this, the first e-mail underneath  
5 the forwarded message. Do you see that?

6 A. Uh-huh.

7 Q. And it's an e-mail from Stephanie Swanson to  
8 yourself and Sarah Chen. Do you see that?

9 A. I do.

10 Q. And do you believe this to be the Sarah Chen  
11 that's sitting with us today at this -- at the deposition?

12 A. I do.

13 Q. Okay. Did you engage with Ms. Chen often  
14 regarding redistricting of Galveston County?

15 MS. VALL-LLOBERA: Objection, privilege.

16 MR. HOLT: Is the Texas Civil Rights Project  
17 the same as NAACP?

18 MS. VALL-LLOBERA: The NAACP is a client.

19 MR. HOLT: Okay. Help me understand here.  
20 So, NAACP is a client of --

21 MS. VALL-LLOBERA: The Texas Civil Rights  
22 Project.

23 MR. HOLT: The Texas Civil Rights Project?  
24 And you're claiming that -- that --

25 MS. VALL-LLOBERA: Ms. Williamson --

1 MR. HOLT: -- that therefore makes  
2 communications with Ms. Williams -- Ms. Williamson  
3 privileged?

4 MS. VALL-LLOBERA: Yes.

5 MR. HOLT: Okay.

6 Q. (By Mr. Holt) Okay. We'll just talk about this  
7 communication here. You would agree that this was an  
8 e-mail from Ms. Swanson to yourself and Ms. Chen, correct?

9 A. Yes.

10 Q. And it -- it says, "Here is the letter to send to  
11 Galveston County commissioners court. Do we want to add a  
12 reference to the 2011 retrogression?"

13 What did you mean by that? I mean, what do  
14 you believe Ms. Swanson meant by that?

15 MS. PRATHER: Objection, form.

16 You can answer if you can.

17 A. From what I understood, this was in reference to  
18 the last redistricting cycle.

19 Q. (By Mr. Holt) Okay. And I will represent that I  
20 did click on the Google doc that's on the second page, and  
21 it was no longer there. Do you remember what that  
22 document was?

23 A. Verbatim, no, I don't.

24 Q. Okay. And there in the last paragraph it says,  
25 "Roxy, how many groups do you think would be interested in

1 signing on?" Do you recall how many groups were  
2 interested in signing on?

3 MS. VALL-LLOBERA: Objection, privilege.

4 MR. HOLT: I mean, I just -- I mean, you're  
5 not representing her at this deposition. I don't see how  
6 you -- I understand you can bring that objection, but I  
7 don't think you can instruct her not to answer. This is  
8 in an e-mail that she forwarded to Commissioner Holmes.  
9 So, any type of privilege would have been waived. I  
10 just -- I think I should be able to talk about this e-mail  
11 specifically. That's all I'm trying to do.

12 MS. RICHARDSON: What was the question  
13 again?

14 MR. GEAR: Excuse me, and for the record,  
15 are we talking about Exhibit 8?

16 MR. HOLT: Yes.

17 MS. VALL-LLOBERA: I -- I believe that is  
18 the --

19 MR. HOLT: Did I e-mail the wrong exhibit  
20 here?

21 MR. GEAR: I think you did.

22 MR. HOLT: Tuesday, October 26th?

23 MS. RICHARDSON: I -- the e-mail we're  
24 looking at is from -- is a forwarded e-mail to Stephen  
25 Holmes on Tuesday, October 26th.

1 MR. HOLT: And on the bottom of that page,  
2 there is an e-mail she forwarded, right? No, nope.

3 MR. GEAR: No.

4 MR. HOLT: Give me one minute here, guys, I  
5 am so sorry.

6 MS. RICHARDSON: Oh, yeah, the one that you  
7 put in the e-mail is different than the one that you just  
8 gave us.

9 MR. HOLT: Oh, goodness. Okay. Let me just  
10 break for two minutes here. I'm going to make sense of  
11 this. My apologies, guys. I'm really sorry.

12 THE VIDEOGRAPHER: Off the record at 3:20.

13 (Recess taken)

14 THE VIDEOGRAPHER: We're back on the record  
15 at 3:24.

16 MR. HOLT: Okay. I apologize for my lack of  
17 organization. I had circulated the correct exhibit in the  
18 conference room but attached the incorrect exhibit. And I  
19 have now sent out an e-mail titled "Corrected Exhibit 8."  
20 It's my understanding that that matches with the  
21 conversation that we've been having; is that correct? Any  
22 objections to that?

23 THE PLAINTIFFS: (No response.)

24 MR. HOLT: Hearing none, we'll move forward  
25 here. And that --

1 MS. VALL-LLOBERA: Counsel, before we  
2 proceed, can the court reporter read the last question  
3 that I objected to?

4 MR. HOLT: Sure.

5 THE REPORTER: QUESTION" -- sorry.

6 "QUESTION: And there in the last paragraph  
7 it says, 'Roxy, how many groups do you think would be  
8 interested in signing on?' Do you recall how many groups  
9 were interested in signing on?"

10 MS. VALL-LLOBERA: I withdraw my objection.

11 MR. HOLT: Okay. Thank you.

12 Q. (By Mr. Holt) Do you remember how many groups  
13 signed onto this letter?

14 A. I do not.

15 Q. Do you remember what this letter was?

16 A. Not specifically but what I remember is it was  
17 definitely a letter asking about the timeline of the  
18 redistricting and possibly what would be the opportunities  
19 for the public to have their input.

20 Q. Okay. And let's look up at the top e-mail, an  
21 e-mail that you sent to Commissioner Holmes on  
22 October 26th, 2021. Do you see that?

23 A. I do.

24 Q. And is this -- is this an e-mail -- is this the  
25 correct e-mail that you sent to Commissioner Holmes on

1 that day?

2 A. It is.

3 Q. Why did you forward this e-mail to Commissioner  
4 Holmes?

5 A. I was asked to.

6 Q. By whom?

7 A. Stephanie Swanson.

8 Q. And you say, "Here's the original e-mail." Had  
9 you spoken with him about this on the telephone or  
10 somewhere else that he had requested the original e-mail?

11 A. No. That was just -- that's my form of how I  
12 conduct my business. I didn't assume that he knew what I  
13 was talking about; so, I wanted to include the original  
14 e-mail so he would know what I was referring to.

15 Q. You hadn't had a prior conversation with him  
16 about this letter?

17 A. No, not with the letter. I think I was just  
18 getting in touch with him to let him know that the letter  
19 was coming and this is what I was asking along with giving  
20 him information about possibly the letter that we were  
21 working on.

22 Q. Okay. And you said, "I'm hoping to get enough  
23 Galveston County citizen groups to step up and sign on. I  
24 was hoping you could offer some suggestions."

25 Do you recall any suggestions that

1 Commissioner Holmes gave you of groups that would sign  
2 onto this?

3 A. I do not.

4 Q. And this e-mail was on October 26th, 2021,  
5 correct?

6 A. Yes.

7 Q. So, you would agree that as early as  
8 October 26th, 2021, you were communicating with  
9 Commissioner Holmes regarding redistricting in Galveston  
10 County?

11 A. Yes. I was attempting to let him know the work  
12 that I was doing and the efforts we were making to  
13 galvanize the community, yes.

14 (Exhibit 9 marked)

15 MR. HOLT: Now I'm going to move on to  
16 Ex- -- what I have marked as Exhibit 9. And I believe I  
17 already e-mailed this out, but I will send another e-mail  
18 properly identifying it. Just give me one minute here.

19 Okay. I just sent that out.

20 Q. (By Mr. Holt) Do you recognize this e-mail,  
21 Ms. Williamson?

22 A. Yes. Now it's making sense.

23 Q. What is this e-mail that's dated Tuesday,  
24 October 26th, 2021, at 2:27 p.m. Central Time?

25 A. As I said before, I was alerting him of the

1 letter that we were working on and getting as much  
2 information as I could. And as stated in the previous  
3 e-mail by Miss Swanson, we were asking if he knew of any  
4 other groups or people that we needed to include in  
5 distributing this letter or getting them to take part and  
6 participate in the ad- -- advocacy that was going on.

7 Q. Okay. So -- so, let's look down at Exhibit 9 to  
8 the first e-mail there. Looks like it was sent on  
9 October 26th at 6:55 a.m. Do you see that?

10 A. Uh-huh. I do.

11 Q. You say, "Good morning, Commissioner Holmes.  
12 Steph Swanson and the groups are putting together a letter  
13 of advocacy to be distributed to the county judge and  
14 commissioners. Are there any community leaders you would  
15 recommend to assist and possibly sign onto the letter? I  
16 appreciate any information you can provide. Thank you.  
17 Yours in service, Roxy."

18 Would you agree that's an accurate  
19 reflection of what is in the e-mail?

20 A. I agree.

21 Q. And then Commissioner Holmes responded on  
22 October 26th at 2:27 p.m. Central Time: "Hey, Roxy. I  
23 don't have anyone in particular" -- I'm assuming he wanted  
24 to say I want the letter sent to. "Do you have a copy of  
25 the letter?" Do you see that?

1 A. I do.

2 Q. And then that -- so, that was at 2:27 p.m.

3 Let's go back to Exhibit 8 where you  
4 forwarded him the e-mail from October 25th. You forwarded  
5 that at 2:57 p.m. on October 26th saying "Here's the  
6 original e-mail."

7 A. Right.

8 Q. Do you see that?

9 A. I do.

10 Q. So, would you agree that the e-mail at the top of  
11 the page on Exhibit 8 is in response to the request for  
12 more information from Commissioner Holmes on Exhibit 9?

13 A. Yes.

14 Q. Okay. And do you remember what was in that  
15 letter?

16 A. Again, not specifically other than we were  
17 advocating to have an opportunity to present better maps.

18 Q. Okay. What --

19 A. Possibly.

20 Q. What input did you get from Commissioner Holmes  
21 on this letter?

22 A. That, I cannot recall. I don't remember me  
23 personally getting any information from him.

24 Q. Were there times that you would e-mail  
25 Commissioner Holmes and then he would follow up with a

1 phone call?

2 A. No. Typically if I e-mailed, he would respond in  
3 kind like he did here.

4 Q. But you don't recall any edits or comments  
5 Commissioner Holmes provided for this letter?

6 A. No, I don't remember anything like that. No.

7 Q. Do you know if you still have a copy of the  
8 letter that you sent to Commissioner Holmes?

9 A. I would have to look. I don't know.

10 Q. Were you instructed by someone to send this  
11 letter to Commissioner Holmes?

12 A. It was between Steph Swanson and I that -- as she  
13 asked in the e-mail -- I responded how she asked me in the  
14 e-mail.

15 Q. And did you regularly engage with Commissioner  
16 Holmes regarding proposed communications to his colleagues  
17 on the commission?

18 A. No, I want to belie- -- I want to say that this  
19 was the one time that we did the letter to the whole  
20 commissioner -- the judge and the commissioners.

21 Q. Was the letter -- do you remember if it was also  
22 addressed to Commissioner Holmes?

23 A. I'm not sure if it was addressed individually or  
24 how it was addressed or sent. I would have to see the  
25 letter to --

1 Q. Was he --

2 A. -- tell you.

3 Q. Did he sign onto the letter?

4 A. No, I don't believe he signed onto it.

5 Q. But he saw it and had an opportunity to input on  
6 it before it was submitted to his colleagues on the  
7 commission?

8 A. Or at least he had a chance to see it, yes.

9 Q. Okay.

10 (Exhibit 10 marked)

11 Q. (By Mr. Holt) I'm going to hand you what's marked  
12 as Exhibit 10.

13 MR. HOLT: I'll send that out through e-mail  
14 here. Just give me one moment.

15 So, I'm going to attach, everyone, just  
16 ECF 48. It's a copy of defendants' motion to dismiss that  
17 was filed against the United States on the 14th of June,  
18 2022; and what I have marked as Exhibit 10 was Exhibit B  
19 to that filing. For reference that's pages 60 through 62  
20 of the PDF as we view it in the PDF reader.

21 Just waiting for that to send.

22 Q. (By Mr. Holt) Okay, Ms. Williamson. Do you  
23 recognize what has been marked as Exhibit 10?

24 A. Not really.

25 Q. If I represent to you that it is a article

1 written by John Wayne Ferguson for the DAILY NEWS entitled  
2 "Galveston County Democrats Call for Action before Federal  
3 Lawyers Arrive," dated Oct- -- April 9th of 2022, would  
4 that be correct?

5 A. Yes.

6 Q. And I'll represent again that this was attached  
7 as Exhibit B to the defendants' motion to dismiss.

8 MS. RICHARDSON: And I'm just -- of the -- I  
9 don't think I've gotten Exhibit 10 in the e-mail yet.

10 MR. HOLT: It's --

11 MS. RICHARDSON: Might -- did it send  
12 already?

13 MR. HOLT: It's coming, and I'll reference  
14 again it's Document 48-2 --

15 MS. RICHARDSON: Oh, there we go.

16 MR. HOLT: -- of the ECS [sic] filing. It  
17 was just a -- kind of a larger PDF. I'm sorry.

18 MS. RICHARDSON: No worries.

19 Q. (By Mr. Holt) Looking on pages 60 through 62 --

20 MR. GEAR: I haven't received it yet either.

21 MS. RICHARDSON: Yeah.

22 MR. GEAR: United States.

23 MR. HOLT: It should be coming.

24 MS. RICHARDSON: It literally just came in  
25 for me. So...

1 MR. HOLT: I'll wait a minute. Just  
2 everyone let me know when you have it pulled up.

3 (Brief pause)

4 MR. HOLT: Those folks on Zoom, have you  
5 been able to get a copy of that yet?

6 MR. GEAR: We just received it.

7 MR. HOLT: Okay. I'll wait for you guys to  
8 open it up here real quick.

9 MR. GEAR: And what pages did you refer to?  
10 I'm sorry.

11 MR. HOLT: It's page 60 through 62 of the  
12 PDF, which is at the very end, Exhibit B to the filing.

13 We all there?

14 MS. RICHARDSON: Oh, I see. So, you --

15 MR. GEAR: Yes.

16 MS. RICHARDSON: This is the full motion to  
17 dismiss that --

18 MR. HOLT: Yeah.

19 MS. RICHARDSON: -- I e-mailed -- oh, okay.  
20 And then this is --

21 MR. HOLT: Yeah.

22 MS. RICHARDSON: -- just the exhibit on it.

23 MR. HOLT: Yes, that is correct.

24 MS. RICHARDSON: Okay.

25 MR. HOLT: Okay.

1 Q. (By Mr. Holt) So, I want to draw your attention  
2 to the second paragraph of the -- the news story where it  
3 says: Galveston Democratic party chairwoman, Tierr'ishia  
4 Gibson, and the justice -- said the Justice Department was  
5 scheduled to visit in coming weeks and the party, quote,  
6 needed to be prepared for the next level, close quote, of  
7 the challenge to the precinct map.

8 Do you see that there?

9 A. I do.

10 Q. Do you know what was meant by needed to prepare  
11 for the next level --

12 MS. RICHARDSON: Objection to form.

13 Q. (By Mr. Holt) -- of the challenge to the precinct  
14 map?

15 MS. PRATHER: Same objection.

16 MR. GEAR: Objection, form.

17 A. I don't know what she meant by that.

18 Q. (By Mr. Holt) You would agree that as early as  
19 April 8th, 2022, the Galveston County Democratic party was  
20 aware that the Justice Department was coming to visit  
21 Galveston regarding the maps?

22 MS. RICHARDSON: Objection, form.

23 MS. VALL-LLOBERA: Objection to form.

24 MR. GEAR: Objection, form.

25 Q. (By Mr. Holt) You would agree that's what it says

1 in the article?

2 A. According to what it says in the article, yes.

3 Q. Do you have any reason to believe that this  
4 article would not be true?

5 MS. PRATHER: Objection, form.

6 MS. RICHARDSON: Object to form.

7 MR. GEAR: Same objection.

8 A. No, I can only speak for what I knew at the time;  
9 and there was no confirmation that the Justice Department  
10 was coming. There were high hopes that the Justice  
11 Department was coming.

12 Q. (By Mr. Holt) Did you meet with the Justice  
13 Department when they came to Galveston in person?

14 A. I did.

15 Q. Do you remember approximately when that was?

16 A. I don't, for whatever reasons. I can't remember.  
17 I don't remember.

18 Q. Would it have been early in the summer of 2022?

19 MS. PRATHER: Objection, form.

20 MS. RICHARDSON: Object to form.

21 A. Possibly. I don't remember the exact date, no.

22 Q. (By Mr. Holt) You said --

23 A. I don't remember the exact date.

24 Q. You said earlier they came for about three days;  
25 is that right?

1 A. Yes. I remember that much.

2 Q. At least two attorneys with the Justice  
3 Department came?

4 A. Yes.

5 Q. Did they bring any additional staff with them?

6 A. I don't know.

7 Q. Are you aware of anyone that heeded the counsel  
8 of Miss Gibson and reached out to the Justice Department  
9 to share their stories and experiences?

10 A. Other than Lucille McGaskey and Corlie Jackson, I  
11 don't know.

12 Q. You don't know. You're not aware of anyone else  
13 that they spoke with?

14 A. I don't know.

15 Q. Did you help arrange or coordinate any meetings  
16 with the Department of Justice?

17 A. No. I showed up for my time, and that was about  
18 all I did.

19 Q. Do you know who it was that helped them arrange  
20 for their meetings?

21 A. I don't.

22 Q. Who was it that arranged your meeting with the  
23 Department of Justice?

24 A. As far as I know, Mr. Gear reached out to me  
25 individually, personally, and arranged our time together.

1 Q. Do you know how you got his information? I --  
2 I'll just state for the record you had previously stated  
3 that you believe that he got your information through your  
4 comment that you submitted to the Department of Justice,  
5 correct?

6 A. Yes.

7 Q. I'm going to go back to Exhibit 2, which was a  
8 copy of your comment. Do you have access to that?

9 A. I do.

10 Q. And what -- on the very top left there, it  
11 says -- has a receive date. What was that date?

12 A. November 12th, 2021.

13 Q. Had you communicated with the Department of  
14 Justice regarding what was going on in Galveston County  
15 prior to November 12th, 2021?

16 A. I had not.

17 Q. Did you communi- -- when you visited with them  
18 when they visited, was it before or after November 12th,  
19 2021?

20 A. After.

21 Q. So, do you know if the Justice Department had  
22 visited Galveston County prior to November 12th, 2021?

23 A. I don't --

24 MS. PRATHER: Objection --

25 A. -- know.

1 MS. PRATHER: Objection form.

2 Q. (By Mr. Holt) Okay. You would agree that  
3 Miss Gibson in this article stated that they would be --  
4 they are scheduled to visit in the coming weeks, correct?

5 A. According to the article, yes.

6 Q. And do you have any reason to believe that that  
7 visit did not happen?

8 MS. RICHARDSON: Object to form.

9 MR. GEAR: Object to form.

10 MS. PRATHER: Agreed. Same objection.

11 MR. GEAR: Asked and answered.

12 A. No.

13 (Exhibit 11 marked)

14 Q. (By Mr. Holt) I'm going to hand you what's marked  
15 as Exhibit 11.

16 MR. HOLT: I will e-mail it out here. Just  
17 give me one minute.

18 Okay. I've sent that out. I'll wait a  
19 minute for it to be received by everyone.

20 Q. (By Mr. Holt) Okay, Ms. Williamson. What do  
21 you -- do you -- do you have the documents marked  
22 Exhibit 11 in front of you?

23 A. I do.

24 Q. Do you recognize this document?

25 A. I do.

1 Q. What is that?

2 A. It is my written testimony for the senate  
3 redistricting hearings.

4 Q. Okay. And this -- I'll represent I was able to  
5 pull this down from the senate's Web site prior to this  
6 deposition. It looks like --

7 MS. RICHARDSON: Mr. -- for clarification,  
8 you mean the Texas state senate?

9 MR. HOLT: Yes. Yes, the Texas state  
10 senate.

11 Q. (By Mr. Holt) So, this comment was sent on looks  
12 like October 14th of 2021; is that correct?

13 A. Yes.

14 Q. And what was this message, what was this comment  
15 in regards to?

16 A. The digital access to the hearings.

17 Q. What was your position regarding the digital  
18 access to the hearings?

19 A. It was hard, and it was disheartening to sit on  
20 line all day and be kicked off and not allowed to -- be  
21 allowed back in to testify.

22 Q. And you attached -- if you go to the next page  
23 from this, you were able to provide them a written  
24 testimony, correct?

25 A. Yes.

1 Q. Had you prepared a statement that you were going  
2 to read on the record for the meeting?

3 A. I had.

4 Q. And so, this is the -- this was the statement  
5 that you had prepared but were unable to give as you were  
6 kicked off of the Zoom?

7 A. Well, it was actually a revision of the original  
8 statement because I was forced to submit it on line as  
9 opposed to be able to read it.

10 Q. Okay. I want to go to the last page of this  
11 exhibit where -- I'm looking at the -- the top paragraph  
12 there, four lines up where it says, "This is why  
13 identifying intentional discrimination" -- and you have  
14 bolded that -- "in the creation of district maps,  
15 continuously standing firm to ensure maps and school  
16 districts, city councils, other municipal positions while  
17 also developing culturally diverse curricula is essential  
18 to our quality of life across the state."

19 What -- when you use the term "intentional  
20 discrimination" in this statement, what did you understand  
21 that term to mean?

22 A. There are various practices and/or the lack of  
23 certain access. It just seemed -- it seems that not only  
24 locally but statewide that some of these things were put  
25 in place to intentionally discriminate against people who

1 had barriers to access, be it broadband, be it printers at  
2 home. The whole process of being able to testify for the  
3 state legislative session, it was very hard; and if I  
4 didn't have the resource I had, it would have been very  
5 difficult to print the affidavit, sign it, scan it, send  
6 it back. Like it's a whole process that seemed very  
7 intentional to keep certain people out of the process.

8 Q. Okay. And this was --

9 A. And this was my opinion and my testimony  
10 regarding that.

11 Q. Understood. You say "intentional discrimination  
12 in the creation of district maps." Again, not referring  
13 necessarily to the meeting access but to the actual  
14 creation of the district maps, what did you have in mind?  
15 What type of things that had happened or situations did  
16 you have in mind that you believe showed intentional  
17 discrimination in the creation of district maps?

18 A. Well, it's pretty much the way I stated it here:  
19 Regardless of the extreme growth of the state, which was  
20 primarily black and brown, it seemed that the creation of  
21 the maps, the creation of the timelines, all of those  
22 things were not done with the input of the community.  
23 They were done in some other space, and the community was  
24 not allowed to participate in those things. And that was  
25 from my experience working with several different groups

1 across the state. It wasn't just in Galveston. It was  
2 proliferating all throughout the state.

3 Q. Okay. Let's go back to the first page of your  
4 statement there; so, page 2 of this exhibit. In the  
5 second paragraph you say, "I am passionate about the  
6 nonpartisan" -- and you bolded "nonpartisan" -- "process  
7 of voting and the history of voting rights at home and  
8 globally."

9 What did you mean about "the nonpartisan  
10 process of voting"?

11 A. I thoroughly believe that the process should be  
12 absent of partisan thumbs on the scale. And in Texas and  
13 with the work that I was doing up until that point, it  
14 seemed like our more heavily Republican areas, the process  
15 was so much more difficult to be a part of; and that was  
16 some of the feeling behind the process needs to be as  
17 transparent and nonpartisan as possible.

18 Q. Do you believe that partisanship should play a  
19 role in the drawing of -- of maps in the redistricting  
20 process?

21 A. Where -- where those things are necessary, yes,  
22 but not in the aspect of being accessible to all the  
23 citizens that are involved.

24 Q. What do you mean by "where those things are  
25 necessary"?

1           A.    Well, there's a place for everything.  There's a  
2 place for partisanship but not in intentionally blocking  
3 certain groups of people from participating in the -- in  
4 any of the process.

5           Q.    Do you believe that a Republican controlled  
6 legislative body should be able to pass maps that favor  
7 their party?

8                   MS. RICHARDSON:  Object to form.

9                   You can --

10                  MR. GEAR:  Object to form.

11                  MS. RICHARDSON:  -- answer.

12           A.    I do not.  I don't believe --

13           Q.    (By Mr. Holt) Do you --

14           A.    -- they should be able to do that, no.

15           Q.    Do you believe that a Democratic controlled  
16 legislature should be able to pass maps that favor their  
17 party?

18           A.    I do --

19                   MS. RICHARDSON:  Objection.

20                  MR. GEAR:  Object to form.

21           A.    I do not.  Same answer:  I do not.

22           Q.    (By Mr. Holt) How do you personally identify  
23 intentional racial discrimination to distinguish itself  
24 from party politics?  How do you view those as different,  
25 and how do you identify what is party and what is racial

1 discrimination?

2 MS. RICHARDSON: Object to form; compound  
3 question.

4 MR. GEAR: Same objection.

5 MS. RICHARDSON: You can answer if you  
6 understand it.

7 A. I don't. Could you clarify what you mean by  
8 party versus racial -- because I know in redistricting  
9 that they both play a part. So, what would be the  
10 distinction?

11 Q. (By Mr. Holt) You personally, how do you  
12 identify -- in looking at a process in redistricting, how  
13 do you identify what is based on partisan politics versus  
14 what you called in this statement "intentional  
15 discrimination"? How do you tell the difference between  
16 those two?

17 A. Well, in light of the mapping that we're talking  
18 about, it was pretty clear that the lines were moved and  
19 certain things were included to actually do both: Ensure  
20 a white majority as well as ensure that the Republican  
21 party would benefit from the new maps.

22 Q. Are you aware of any type -- any communications  
23 or anything that led you to believe that the commission  
24 was drawing the maps to confirm a -- to ensure a white  
25 majority versus a high-performing Republican precinct?

1 MS. VALL-LLOBERA: Objection to form.

2 MS. RICHARDSON: Same objection.

3 MR. GEAR: Same objection.

4 A. I would just take it as how things -- just how --  
5 the makeup of the county and how the maps were drawn to  
6 ensure that -- for instance, the combining of all that,  
7 the beach, the Bolivar Peninsula with Galveston, the  
8 island -- that was to ensure that those white majorities  
9 would have the majority vote.

10 Q. (By Mr. Holt) You stated earlier that those areas  
11 were also heavy Republican areas, correct?

12 A. They are.

13 Q. So, how do you know the commission was doing it  
14 based on race as opposed to simply trying to shore up the  
15 Republican base in that precinct?

16 MS. VALL-LLOBERA: Objection to form.

17 MS. PRATHER: I agree, same objection.

18 MS. RICHARDSON: I agree, same objection.

19 A. I believe it did both.

20 MR. GEAR: Same objection.

21 MR. HOLT: Let's move on to Exhibit 12.

22 (Exhibit 12 marked)

23 MR. HOLT: Just a minute here.

24 Q. (By Mr. Holt) Do you see what's marked as  
25 Exhibit 12, Ms. Williamson?

1 A. I do.

2 Q. I will apologize. When it printed this out, it  
3 printed the hyperlink that overlaid the bottom text. I'll  
4 represent to you that this is a news article from  
5 Eyewitness News entitled, "Some Women of Color Frustrated  
6 by Biden's Presidential Bid." Do you see that?

7 A. I do.

8 Q. Do you remember being interviewed for this  
9 article?

10 A. I do.

11 Q. How did that interview come to be?

12 A. I want to say I was at an event. I was at the  
13 event. I was at an event, and I don't remember who the  
14 reporter was stopped me and asked me some questions.

15 Q. I'm looking at the second paragraph on -- on the  
16 page 1 of 3 here. And it says: "At the She the People  
17 forum, billed as the first presidential forum focused on  
18 women of color, Roxy D. Hall Williamson's shoulder slumped  
19 at the mention of Biden, who made his campaign  
20 announcement on Thursday." Do you see that there?

21 A. I do.

22 Q. And then it says -- quoting you: "'I know that  
23 we have been cultured to feel that only the white man can  
24 save us,' the La Marque, Texas, organizer said Wednesday.  
25 'I just don't feel like Biden is our answer.'" Do you

1 remember giving that statement?

2 A. I do.

3 Q. Do you agree that not all candidates of a  
4 particular party are created equal?

5 MS. RICHARDSON: Object to form.

6 MS. VALL-LLOBERA: Objection to form.

7 MR. GEAR: Objection.

8 Q. (By Mr. Holt) By "created equal" I mean in terms  
9 of their policies and how they go about things.  
10 Candidates are different in their views even though they  
11 belong to the same party. Would you agree with --

12 MR. GEAR: Same objection.

13 Q. (By Mr. Holt) -- that statement?

14 MS. RICHARDSON: Same objection.

15 MS. VALL-LLOBERA: Objection to form.

16 A. I agree.

17 Q. (By Mr. Holt) Did you support President Biden  
18 when he ran in the presidential primary?

19 A. Yes.

20 Q. Despite what you said here in this statement?

21 A. Yes.

22 Q. Okay. You went on to talk about how you strongly  
23 disagreed with his handling of the Anita Hill hearings.  
24 You say there -- looking about a third -- two thirds of  
25 the way down paragraph saying: "Williamson said that she

1 was, quote, still salty about the role Biden played on the  
2 hearing and that it wasn't okay then; and it's not okay  
3 now." Do you remember saying that?

4 A. I do.

5 Q. Did you support a different candidate besides  
6 President Biden in the primary?

7 MS. VALL-LLOBERA: Objection to form.

8 MS. RICHARDSON: Objection to form.

9 A. Ask -- I'm sorry.

10 Q. (By Mr. Holt) Did you support a different  
11 candidate besides President Biden -- then candidate  
12 Biden --

13 MS. PRATHER: Objection, form.

14 MS. VALL-LLOBERA: Objection to form.

15 Q. (By Mr. Holt) -- in the Democratic/Republican  
16 primary?

17 MS. RICHARDSON: Same objection.

18 A. I did.

19 Q. (By Mr. Holt) What is the process you go through  
20 in a Democratic primary of determining which candidate to  
21 support, all being members of the same party?

22 MS. RICHARDSON: Objection to form.

23 MS. VALL-LLOBERA: Objection to form.

24 MR. GEAR: Objection.

25 MS. PRATHER: And objection to relevance.

1 I'm not really sure why it's relevant what her personal  
2 process is to decide her primary candidate.

3 Q. (By Mr. Holt) You can still answer.

4 A. I'm a pretty complicated being. I don't fly  
5 party flags. I don't support people just based on the  
6 party they're in. I look at their policies. I look at  
7 their voting record. I look at what they do in their  
8 local communities. It's a whole vetting process for me.

9 Q. Do you believe President Biden was the candidate  
10 of choice of black and Hispanic and Latino voters in  
11 Galveston County during the Democratic primary?

12 MS. PRATHER: Objection, form and relevance.

13 MS. RICHARDSON: Same objection.

14 MR. GEAR: Same objection.

15 A. Actually for a majority of some of the community  
16 that I work with, that was their candidate of choice. It  
17 just wasn't mine.

18 Q. (By Mr. Holt) Okay. Is -- was there one  
19 candidate that was the candidate of choice --

20 MS. PRATHER: Objection.

21 Q. (By Mr. Holt) -- for black voters in Galveston  
22 County?

23 MS. VALL-LLOBERA: Objection to form.

24 MS. PRATHER: Yeah.

25 MR. GEAR: Objection to form.

1 MS. RICHARDSON: Same form objection.

2 MS. PRATHER: And relevance.

3 Q. (By Mr. Holt) You can answer.

4 A. They voted for him.

5 Q. I guess what I'm trying to get at here is you

6 would agree -- and you stated this earlier -- that

7 partisan issues are important in this, correct?

8 A. I agree.

9 Q. And are you able to say with confidence that

10 simply because the party attached to someone's name that

11 they represent a particular community, or they don't

12 represent a particular community?

13 MS. RICHARDSON: Objection to form.

14 MS. VALL-LLOBERA: Objection to form.

15 MR. GEAR: Objection.

16 A. The only thing I can speak to that in this

17 instance for the majority of the people that I work with

18 in Galveston County, Biden was their choice. And Biden

19 was who they voted for, and that's who they got.

20 Q. (By Mr. Holt) Do you believe that a partisan

21 affiliation is all you need to know in determining whether

22 a candidate will represent a minority community?

23 A. No.

24 Q. How is it more complicated than that?

25 MS. RICHARDSON: Objection to form.

1 Q. (By Mr. Holt) Is it more complicated than that?

2 A. Voters are more complicated than that.

3 MR. HOLT: Can we just go on break for like  
4 two minutes?

5 MS. RICHARDSON: Sure.

6 MR. HOLT: And I'm pretty close to wrapping  
7 it up.

8 THE VIDEOGRAPHER: Off the record at  
9 4:00 p.m.

10 (Recess taken)

11 THE VIDEOGRAPHER: We're back on the record  
12 at 4:05.

13 MR. HOLT: Ms. Williamson, I just want to  
14 thank you for your candidness; and I -- I'm going to go  
15 ahead and pass you on to the other folks, more questions  
16 for you. But I -- we sincerely wish you the best. And  
17 you're certainly in our prayers; and we hope that we see  
18 you this summer, absolutely.

19 THE WITNESS: I appreciate that. Thank you.

20 MS. RICHARDSON: Thank you. And I only have  
21 like a handful of questions to ask you.

22 THE WITNESS: Okay.

23 MS. RICHARDSON: I promise, I promise, I  
24 promise.

25 THE WITNESS: I have a question, too. Where

1 did you find this article? Somehow I missed it.

2 MR. HOLT: Just Googled your name, and it  
3 popped up as one of the first searches. So...

4 THE WITNESS: I remember that interview, but  
5 I don't remember seeing the actual article. So, wow.

6 MR. HOLT: I'd like to say I'm like a crack  
7 researcher. But you have a unique name, and it popped  
8 right up.

9 THE WITNESS: I'll have to tell my mama.

10 MS. RICHARDSON: All right. Totally forgot  
11 to put my mic on. All righty.

12 FURTHER EXAMINATION

13 BY MS. RICHARDSON:

14 Q. Ms. Williamson, so, you mentioned earlier that  
15 the public comments were the only other method of  
16 addressing concerns about the proposed maps other than the  
17 November special session; is that correct?

18 A. Yes. As far as I can remember, yes; and there  
19 are only a handful of opportunities to submit any public  
20 writing -- written testimony submissions.

21 Q. Do you recall how many opportunities there were  
22 to provide the written testimony?

23 A. I don't recall.

24 Q. And on the whole, in your opinion, were public  
25 comments on the Web site as a -- suf- -- were a lone and

1 | sufficient method of addressing the concerns about the  
2 | maps?

3 | MR. HOLT: Objection, form.

4 | A. I don't because, again, a lot of our elderly  
5 | population did not have access to the Web site or  
6 | computers in order for them to participate that way.

7 | Q. (By Ms. Richardson) I'd like to go back to  
8 | Exhibit 3 -- if I can find my copy of Exhibit 3. Here we  
9 | go.

10 | Ms. Williamson, I direct you to the first  
11 | paragraph of that November 4th, 2021, e-mail at 3:08 p.m.  
12 | starting with "For those of you." Do you see that?

13 | A. Yes.

14 | Q. Okay. Could you just read that paragraph for us?

15 | A. Yes. "For those of you prepared to sign onto the  
16 | advocacy letter, please forward your logos and signatories  
17 | to me or Steph Swanson so we can update the letter  
18 | illustrating the depth of our community support. This  
19 | assists with establishing important information for  
20 | litigation if necessary."

21 | Q. What was the purpose of the advocacy letter?

22 | A. The ad- -- the advo- -- eh -- advocacy letter --  
23 | if I can say it -- was to show a concerted effort with the  
24 | different grassroots groups in the area that were  
25 | concerned about the redistricting and wanted to have some

1 input.

2 Q. And that last clause in the last sentence, "if  
3 necessary," that signifies -- what does that signify?

4 A. For me at the time it was -- it was not a forgone  
5 conclusion that litigation would be necessary; but based  
6 on the information from the 2010-2011 redistricting  
7 experiences of the community that we were working with,  
8 though they -- it wasn't a forgone conclusion. They  
9 wanted to be more prepared than they were in the last  
10 decade to participate in the process.

11 Q. So, is it safe to say that the preference would  
12 not have been litigation?

13 A. No --

14 MR. HOLT: Objection to form.

15 A. No, the pro- -- the preference was that the map  
16 could have been a feasible map and one that the community  
17 would have had an opportunity to not only input but help  
18 build. And that's not what happened.

19 Q. (By Ms. Richardson) Earlier in your conversation  
20 with Mr. Holt, you also said that Commissioner Holmes  
21 could not provide any information to you through your  
22 e-mail correspondence. Am I recalling that correctly?

23 A. Yes.

24 Q. Okay. Why couldn't Commissioner Holmes provide  
25 any information to you?

1 MR. HOLT: Objection, form.

2 A. Because as far as we knew, he was intentionally  
3 being locked out of some of those meetings. He did not  
4 get the information according to, I guess, how they  
5 disseminate information across the court. He was not  
6 receiving that information in a timely manner. So, in  
7 some cases it seemed that we were getting the information  
8 before his office was getting the information. I don't  
9 know to what extent that went; but I know for my purposes  
10 and the work I was doing, it was very difficult to get  
11 information. And he did not have privy to anything that  
12 we didn't have privy to, which seemed problematic since he  
13 was one of the commissioners.

14 Q. (By Ms. Richardson) And then finally: Just based  
15 on your understanding of the new commissioner court map,  
16 in 2024 do you believe that it is possible for a minority  
17 candidate of choice to win in Precinct 3?

18 MR. HOLT: Objection, form.

19 A. As I stated earlier, anything is possible; but it  
20 will probably not be probable.

21 Q. (By Ms. Richardson) Why won't it be probable?

22 A. Because of how the current maps are set up, it  
23 would be very difficult for a candidate of the community's  
24 choice to break through the barriers of just how the  
25 voting blocks are set up with the new maps.

1 Q. Is that true of Precinct 1 as well?

2 A. I believe that's pretty true of all of the  
3 precincts as the current maps have them laid out.

4 MS. RICHARDSON: I have no further  
5 questions.

6 FURTHER EXAMINATION

7 BY MS. VALL-LLOBERA:

8 Q. Roxy, I have a couple of additional questions for  
9 you but not too many.

10 MR. GEAR: Your microphone.

11 MR. HOLT: Your microphone.

12 MS. VALL-LLOBERA: Oh, thank you.

13 MS. RICHARDSON: Thank you. We'll get it  
14 right.

15 MS. VALL-LLOBERA: Just a few more minutes  
16 to try.

17 Q. (By Ms. Vall-Llobera) Roxy, I have a few  
18 additional questions for you related to Commissioner  
19 Armstrong's connections to the community.

20 So, to your knowledge has Commissioner  
21 Armstrong ever attended the yearly barbecue event that  
22 occurs in October?

23 A. Not that I know of, no.

24 Q. Before or after his appointment?

25 A. No.

1 Q. Has Commissioner Armstrong -- excuse me.

2 Did Commissioner Armstrong attend the  
3 November 12th, 2021, special session to your knowledge?

4 A. Not that I know of, no.

5 Q. To your knowledge has Commissioner Armstrong  
6 attended any other sessions of the commissioners court  
7 before his appointment?

8 MR. HOLT: Objection, form.

9 A. Not that I know of, no.

10 Q. (By Ms. Vall-Llobera) Has Commissioner Armstrong  
11 ever attended any of your training sessions as a CROWD  
12 fellow?

13 A. No.

14 Q. To your knowledge has Commissioner Armstrong  
15 attended any other community events?

16 A. Not to my knowledge, no.

17 MR. HOLT: Objection, form.

18 Q. (By Ms. Vall-Llobera) To your knowledge did  
19 Commissioner Armstrong attend any community events put on  
20 by the black and Latino communities before his  
21 appointment?

22 A. Not --

23 MR. HOLT: Objection, form.

24 A. -- to my knowledge.

25 Q. (By Ms. Vall-Llobera) Since his appointment has

1 Commissioner Armstrong ever reached out to you personally  
2 regarding community outreach?

3 A. No.

4 Q. To your knowledge -- well, has Commissioner  
5 Armstrong ever reached out to you regarding anything?

6 A. No.

7 Q. And to your knowledge has he reached out to other  
8 community leaders -- leaders in the African-American or  
9 Latino minority population --

10 MR. HOLT: Objection, form.

11 Q. (By Ms. Vall-Llobera) -- to build relationship?

12 MR. HOLT: Objection, form.

13 A. Not to my knowledge.

14 MS. VALL-LLOBERA: No further questions.

15 THE REPORTER: Is that it?

16 MS. RICHARDSON: Does the United States have  
17 questions?

18 MR. GEAR: I have -- I have one follow-up  
19 question.

20 FURTHER EXAMINATION

21 BY MR. GEAR:

22 Q. To your knowledge during Commissioner Armstrong's  
23 appointment process, did he reach out to the minority  
24 community in Galveston to either educate them about the  
25 process or to identify himself to the community?

1 MR. HOLT: Objection, form.

2 A. Not to my knowledge.

3 MR. GEAR: I have no further questions.

4 MR. HOLT: Nothing from defendants.

5 MS. RICHARDSON: Plaintiffs rest as well.

6 THE VIDEOGRAPHER: Off the record at 4:15.

7 THE REPORTER: People on Zoom please send me  
8 your appearances and if you need a copy. Like Mr. Gear?

9 MS. RICHARDSON: We just need one copy for  
10 the plaintiffs.

11 MR. HOLT: We need a copy for the defendants  
12 as well.

13 THE REPORTER: Okay.
