

IN THE SUPREME COURT OF OHIO

League of Women Voters of Ohio, *et al.*,

Relators,

v.

Ohio Redistricting Commission, *et al.*,

Case No. 2021-1193

Respondents.

Motion of Relators for Scheduling Order

Relators hereby move this Court to adopt the proposed schedule for the Scheduling Order to be issued pursuant to Section 14.03(B) of the Rules of the Ohio Supreme Court.

Time is of the essence. An operative apportionment plan establishing the districts for the General Assembly must be in place by January 30, 2022, in order for individual candidates to meet the February 2, 2022, candidate filing deadline.

On September 16, 2021 (just past midnight), the Ohio Redistricting Commission adopted reapportionment plans for the State’s House districts and Senate districts (together, the “Challenged Plan”). The Challenged Plan violates Article XI, Section 6 of the Ohio Constitution which mandates partisan fairness for any General Assembly map. Many of the Respondents conceded that the Commission fell short. Compl. at ¶¶ 76-78, *League of Women’s Voters, et al. v. DeWine, et al.*, No. 2021-1193 (Ohio Sept. 23, 2021). Should Relators prevail, revised apportionment plans must be enacted by the Redistricting Commission following an order of this Court identifying the constitutional defects of the originally enacted maps. Ohio Const., art. XI, § 9(B).

This motion seeks an expedited schedule for discovery, expert reports, and the submission of merit briefs. The motion also requests oral argument. Relators respectfully submit that this expedited schedule is necessary to ensure that a remedy can be provided prior to the candidate filing deadline.

Respectfully submitted,

/s/ Freda J. Levenson

** Pro Hac Vice Motion Forthcoming*

Memorandum In Support

On September 23, 2021, Relators filed this lawsuit challenging the Ohio Redistricting Commission's new apportionment plans for the State's House districts and Senate districts (together, the "Challenged Plan"). The litigation is governed by the Supreme Court of Ohio Rule of Practice 14.03.

A. The Reapportionment and Election Schedules

The Challenged Plan was introduced just after 11 pm on September 15, 2021, and enacted just after midnight on September 16, 2021. As soon as it was introduced, Relators worked diligently to assess and quantify its deviation from the requirements of Article XI. Following Relators' analysis of its serious constitutional defects, Relators worked expeditiously to prepare and file their Complaint, and did so on September 23. They concurrently provided courtesy copies to Respondents. This alacrity was necessary, due to the deadlines imposed by the election schedule.

In Ohio, the candidate filing deadline is currently February 2, 2022 (90 days before the May 3, 2022 unified primary). *See* Ohio Rev. Code § 3513.05. Accordingly, the districts in which the candidates file must be finalized prior to February 2, 2022.

B. Relators' Pre-Suit Diligence

Recognizing that time would be short between the enactment of a plan and the candidate filing deadline, Relators pressed forward long before the enactment of a plan with comprehensive public records requests (and related litigation).

Relators began seeking key records from individuals publicly known to be involved in the redistricting process more than *seven months* prior to the initiation of this case. In particular, Relators submitted records requests to individuals in the Ohio House of Representatives, Senate, Governor's Office, Secretary of State's Office, Auditor of State's Office, Legislative Service

Commission, and the Ohio University Voinovich School of Leadership and Public Affairs (“GVS”), including individuals on the Ohio Redistricting Commission. *See* Appendix A for a more detailed timeline of key events related to Relators’ pre-lawsuit diligence.

Relators pre-suit records requests sought many of the items Relators are now compelled to seek through discovery. Relators repeated, renewed, and detailed their requests in the weeks leading up to Respondents’ consideration and issuance of the Challenged Plan, in order to capture relevant documents that may have been developed at various stages of that process.

Upon receiving only limited or delayed responses from many of the request recipients, Relators were compelled to follow up multiple times to ensure the request recipients provided responsive records in a timely manner. Relators also sought to revise and clarify their requests as appropriate and negotiate with recipients regarding any objections.

Faced with continued delay and unjustified objections from the House of Representatives, Relators even pursued litigation in an effort to secure the public records sought. This step proved necessary to prompt the House to produce any records at all for multiple request recipients, including Speaker Bob Cupp. Although the parties have now undergone extensive mediation regarding Relators’ requests, the House has persisted in refusing to undertake the necessary steps to identify all records responsive to Relators’ requests. Nevertheless, out of diligence, Relators continue to press their challenges against the House.

Despite all of Relators’ efforts, Respondents have not provided many critical documents in response to Relators’ public records requests. In particular, Respondents have yet to provide Relators with comprehensive records, including communications, related to the Redistricting Commission’s deliberations.

Moreover, several critical documents necessarily did not exist until recently, some as recently as just the past week. Given Respondents' frequent delays thus far in providing documents, Relators cannot expect to receive documents they have recently requested in time to pursue the expedited timeline this case requires. Other documents may pre-date or post-date (and thus would not be covered by) Relators' earlier-served public records requests. Expedited discovery is therefore still required. In addition, certain depositions and expert disclosures are needed for the resolution of this case.

C. Proposed Litigation Schedule

If successful on their claims, Relators have asked this Court to order the Redistricting Commission to adopt a new General Assembly district plan, as contemplated in Article XI, Section 9(B). In order to ensure that such relief can be both granted and implemented prior to the February 2, 2022 candidate filing deadline, Relators propose the following case schedule:

DEADLINE	DESCRIPTION
September 24	Service of Relators' document requests and interrogatories
October 1	Relators' expert disclosures
October 8	Production by Respondents of all documents and interrogatory responses
October 15	Respondents' expert disclosures
October 22	Relators' rebuttal expert disclosures
October 29	Discovery cutoff (including completion of all depositions)
November 5	Concurrent submission of evidence by all parties
November 10	Relators' merits brief
November 17	Respondents' merits brief, evidentiary objections, including <i>in limine</i> and/or Daubert motions
November 17	Relators' evidentiary objections, including <i>in limine</i> and/or Daubert motions
November 24	Relators' reply brief
November 24	Relators' responses to Respondents' evidentiary objections, including <i>in limine</i> and/or Daubert motions
November 24	Respondents' responses to Relators' evidentiary objections (including <i>in limine</i> motions and/or Daubert motions)

D. Proposed Discovery Plan

1. The Requested Document Production and Interrogatory Responses

To facilitate timely discovery in this matter, Relators are serving discovery, and this motion, the day following the filing of their Complaint, for which Relators request responses (including the actual documents themselves) by October 8, 2021. Consistent with their public records requests, Relators' discovery requests (*see* Exhibits 1-2 for examples of the discovery to

be served) relate to specific aspects of the Redistricting Commission's deliberations, including communications, as well as the technical data considered and/or relied on by the Redistricting Commission to draw the Challenged Map. Relators' discovery requests seek, among other things, information that was sought prior to filing of the Complaint, but which the Respondents have failed to provide to Relators.

2. Expert Disclosures

Relators have already provided initial expert affidavits setting forth opinions in support of their Complaint. These opinions provide expert analysis: (1) regarding the partisan bias of the Challenged Plan and (2) that alternative maps illustrate that the Challenged Plan was not mandated by the provisions of the Ohio Constitution. Per Relators' proposed schedule, Relators will produce additional disclosures on October 1, 2021 consisting of a more detailed analysis of the Challenged Plan's constitutional violations.

Relators propose that Respondents provide their expert reports on October 15, 2021, with Relators' rebuttal disclosures due on October 22, 2021. This proposed disclosure schedule allows both parties to review the relevant disclosures and take expert depositions, if requested, prior to the proposed October 29, 2021 discovery cutoff.

3. Resolution of Discovery Disputes

In order to facilitate the timely resolution of discovery disputes, Relators propose that all discovery disputes, to the extent any arise, be submitted to a Master Commissioner, with each party submitting a short (five-page maximum) letter brief on the disputed issue, with any opposition to be filed within 48 hours.

E. Oral Argument

Per the proposed schedule, all briefing should be completed by November 24, 2021. Relators are available for oral argument at the Court's convenience.

* * *

In light of the considerations detailed above, Relators respectfully request the Court issue a scheduling order adopting Relator's proposed litigation and discovery schedules.

Respectfully submitted,

Jul. 27, 2021	After Relators, in the interest and spirit of cooperation, sought clarity about the GVS recipients' overbreadth and vagueness objections, a representative for the GVS representatives stated only that: "Throughout your request, you include the phrase 'all records related to.'" This is an example of the portion of your request that is vague and overbroad." <i>See</i> Ex. 10, Email from Shelly Bean to J. Collin Marozzi (Jul. 27, 2021, 9:11 AM).

Collin Marozzi to Minority Leader Emilia Sykes, Ohio House of Reps. (Aug. 18, 2021, 12:08 PM). XIX, § 1; (5) “[a]ll records referring or relating to consultants, firms, vendors, or other third parties involved in drawing state legislative or</p>

Aug. 30-31, 2021	<p>Relators follow up with the offices of Governor DeWine, Auditor Faber, Secretary LaRose, and GVS regarding outstanding records requests. <i>See</i> Ex. 17, Email from J. Collin Marozzi to Molly Elkins, Ohio Governor’s Office (Aug. 31, 2021, 9:34 AM)</p>
Sept. 3, 2021	<p>Relators submit a fourth round of requests, which mirror the August 24 requests, to Governor DeWine, Majority Leader Huffman, Speaker Cupp, Secretary LaRose, Auditor Faber, and a small number of individuals associated with their offices. <i>See, e.g.</i>, Ex. 18, Email from J. Collin Marozzi to Josh Sabo, et al. (Sept. 3, 2021, 10:55 AM). Relators submit a second round of requests to Minority Leader Sykes, Minority Leader Yuko, and Senator Sykes, also mirroring the August 24 requests. Ex. 19, Email from J. Collin Marozzi to Minority Leader Emilia Sykes (Sept. 3, 2021, 10:55 AM).</p> <p>Separately, Relators file an application for partial dismissal and notice of partial failure of settlement in their mandamus action against the House. App. for Partial Dismissal</p>

	and Notice of Partial Failure of Settlement, <i>State ex rel. Marozzi v. Ohio House of Reps.</i> , No. 2021-0847 (Ohio Sept. 3, 2021). The parties settled Relators' privilege claims related to the February 3 requests, but were unable to resolve their dispute regarding the House's denial of certain requests as vague and overbroad. <i>Id.</i>
Sept. 9, 2021	Relators submit a fourth round of requests, which mirror the August 24 requests, to Governor DeWine, Majority Leader Huffman, Speaker Cupp, Secretary LaRose, Auditor Faber, and a small number of individuals associated with their offices. <i>See, e.g.</i> , Ex. 20, Email from J. Collin Marozzi to Josh Sabo (Sept. 9, 2021, 3:35 PM). Relators submit a third round of requests to Minority Leader Sykes, Minority Leader Yuko, and Senator Sykes, also mirroring the August 24 requests. <i>See</i> , Ex. 21, Email from J. Collin Marozzi to Minority Leader Emilia Sykes (Sept. 9, 2021, 3:35 PM).
Sept. 22, 2021	Relators submit a fifth round of requests, which essentially mirror the August 24 requests, to Governor DeWine, Majority Leader Huffman, Speaker Cupp, Secretary LaRose, Auditor Faber, and a small number of individuals associated with their offices. <i>See, e.g.</i> , Ex. 22, Email from J. Collin Marozzi to Josh Sabo (Sept. 22, 2021, 6:53 AM). Relators submit a third round of requests to Minority Leader Sykes, Minority Leader Yuko, and Senator Sykes, also mirroring the August 24 requests. Ex. 23, Email from J. Collin Marozzi to Minority Leader Emilia Sykes (Sept. 22, 2021, 6:53 AM). Relators make clear that these requests are meant to cover the information and communications related to the Commission's preparation, deliberation, and adoption of the final General Assembly map on September 16, 2021.
Sept. 22, 2021	Relators move to amend their mandamus complaint against the Ohio House of Representatives to cover the House's inadequate and otherwise unduly delayed responses to Relators' August and September records requests. Mot. for Leave to Amend Compl., <i>State ex rel. Marozzi v. Ohio House of Reps.</i> , No. 2021-0847 (Ohio Sept. 22, 2021).

6. The term “DOCUMENT” means anything that contains information in any form and that is in YOUR possession, custody, or control, including, but not limited to, e-mails, text messages, papers (whether handwritten, printed, or typed), memoranda, letters and other correspondence, notes, agendas, notebook entries, bulletins, graphs, charts, maps, drawings, surveys, data, summaries, telegrams, calendar entries, diaries, spreadsheets, graphics and presentation documents, photographs, images, text files, transaction logs, reports of any kind, minutes of meetings, estimates, receipts, invoices, checks, bids, proposals, licenses, reports to or COMMUNICATIONS with government entities, financial statements, ledger entries, microfilm, microfiche, computer printouts, computer files, cards, tape recordings, disks, flash drives, and other sources of electronically or magnetically maintained information, regardless of who prepared or created the document. A draft or non-identical copy is a separate document within the meaning of this term. The term “DOCUMENT” refers to any document now or at any time in Respondent’s possession, custody or control. A PERSON is deemed in control of a DOCUMENT if the PERSON has any ownership, possession, or custody of the DOCUMENT, or the right to secure the DOCUMENT or a copy thereof from any person or public or private entity having physical possession thereof.

7. The term “PERSON” includes an individual, general or limited partnership, joint stock company, unincorporated association or society, municipal or other corporation, incorporated association, limited liability partnership or company, the State of Ohio or an agency or subdivision thereof, a court, and any governmental entity or official in or outside the State of Ohio.

8. The terms “YOU” and “YOUR” mean Respondent, and any employees, staff, officers, agents, or representatives of Respondent, individually and/or in their official capacity as a member of the Ohio Redistricting Commission and/or Ohio Governor.

9. The following rules of construction apply to all Requests:

- a. The terms “all” and “any” shall each be construed as encompassing any and all;
- b. All uses of the word “each” include “every” (and *vice versa*);
- c. The connective terms “and” and “or” shall be construed either disjunctively or conjunctively as necessary to bring within the scope of the Interrogatories all responses that might otherwise be construed to be outside of its scope;
- d. Use of the singular form of any word includes the plural (and *vice versa*);
- e. The term “including” shall be construed without limitation;
- f. The use of a verb in any tense encompasses the use of the verb in all tenses;
- g. References to employees, staff, members, officers, directors, agents, or representatives includes both current and former employees, staff, members, officers, directors, agents, or representatives; and
- h. References to any entity includes all of that entity’s employees, staff, members, officers, directors, agents, or representatives.

INSTRUCTIONS

1. Each Request shall be construed according to its most inclusive meaning so that if information or a DOCUMENT is responsive to any reasonable interpretation of the Request, the information or DOCUMENT is responsive.
2. If YOU object to any part of a Request and refuse to answer that part, identify that portion to which YOU object and respond to the remaining portion of the Request.
3. If YOU object to the scope or time period of a Request and refuse to respond for that scope or time period, please state YOUR objection and respond to the Request for the scope or time period YOU believe is appropriate.
4. If You object to any Request as vague or unclear, assume a reasonable meaning, state what the assumed meaning is, and respond to the Request according to the assumed meaning.
5. If YOU object to any Request as overbroad, provide a response that narrows the Request in a way that eliminates the purported over-breadth, state the extent to which YOUR response has narrowed the Request, and respond to the narrowed Request.
6. If YOU withhold any DOCUMENT on the claim of privilege, state the specific factual and legal basis for doing so. Such information should be supplied in sufficient detail to permit the Relators to assess the applicability of the privilege claimed. If YOU claim privilege or protection over part of a DOCUMENT, redact that portion which is privileged or protected and produce the remainder of the DOCUMENT to the fullest extent possible.
7. These Requests are continuing in nature, and YOUR responses to these Requests must be promptly supplanted when appropriate or necessary in accordance with Ohio Rule of Civil Procedure 26(E).

8. If YOU are unable to respond to any of the Requests fully and completely, after exercising due diligence to obtain the information necessary to provide a full and complete response, so state, and answer each such Request to the fullest extent possible, specifying the extent of YOUR knowledge and YOUR inability to answer the remainder, and setting forth whatever information or knowledge YOU may have concerning the unanswered portions thereof and efforts YOU made to obtain the requested information. If YOU have no information responsive to a Request, then YOU shall so state.

9. All DOCUMENTS are to be produced in electronic form. DOCUMENTS produced electronically should be produced in native format with all metadata intact. For any election or voter data file, please produce in CSV format if available. If this is not available, please produce in PDF format. For other DOCUMENTS, to the extent DOCUMENTS can be accurately represented in black and white, they should be produced in single-page Tagged Image File Format (“TIFF”), together with any related field-delimited load files (e.g., Concordance DAT, CSV, OPT, LOG). Each TIFF document shall be produced with an image load file in standard Opticon (*.log) format that reflects the parent / child relationship and also includes the beginning Bates number; ending Bates number; beginning Attachment Bates number; ending Attaching Bates number; custodian; date sent (for email messages); date modified (for email and non-email messages) where information is available; author (for email and non-email messages); and subject (for email messages). The TIFF images shall also be accompanied by extracted text or, for those files that do not have extracted text upon being processed (such as hard copy DOCUMENTS), optical character recognition (“OCR”) text data; such extracted text or OCR text data shall be provided in document level form and named after the TIFF image. DOCUMENTS that contain redactions shall be OCR’d after the redaction is applied to the

image, and the OCR will be produced in place of extracted text at the document level.

Notwithstanding the foregoing, the parties may negotiate a separate production format (including native format) for any DOCUMENTS not reasonably producible or readable as standard image files, such as audio files or large spreadsheets.

10. For DOCUMENTS produced in TIFF format that originated in electronic form, metadata shall be included with the data load files described above and shall include (at a minimum) the following information: file name (including extension); original file path; page count; creation date and time; last saved date and time; last modified date and time; author; custodian of the DOCUMENT (that is, the custodian from whom the DOCUMENT was collected or, if collected from a shared drive or server, the name of the shared drive or server); and MD5 hash value. In addition, for email documents, the data load files shall also include the following metadata: sent date; sent time; received date; received time; “to” name(s) and address(es); “from” name and address; “cc” name(s) and address(es); “bcc” name(s) and address(es); subject; names of attachment(s); and attachment(s) count. All images and load files must be named or put in folders in such a manner that all records can be imported without modification of any path or file name information.

11. If a responsive COMMUNICATION, DOCUMENT, or tangible thing has been prepared in copies that are not identical, or if additional copies have been made that are no longer identical, or if original identical copies are no longer identical by reason of subsequent notations on the front or back of pages thereto, each non-identical copy is a separate COMMUNICATION, DOCUMENT, or tangible thing and shall be produced.

12. Produce any password-protected DOCUMENTS with any applicable passwords.

Dear Mr. Marozzi:

Unfortunately I was unavailable to discuss your request today due to it being a session and committee day. I am happy to discuss your request at some point on Monday if that works for you. We are denying Requests 6-9 because they simply do not give us enough information for our offices to accurately search through their records. We have no way of knowing who all of the employees/agents are for the entities found in these requests. Nor do our offices keep updated lists of every person associated with these entities. If you would like to give us names to search for and further narrow your requests, our offices can begin processing these requests.

Subject: Follow Up to 2/3/2021 Public Records Request

Dear Mr. Marozzi:

This email is a follow up to your 2/3/2021 public records request. We are continuing to process Requests 1-5.

Requests 6-9 are denied. These requests are denied because they are overly broad and ambiguous and do not provide enough information to allow us to identify responsive records based on the manner in which the office organizes and accesses the records it keeps. “[I]t is the responsibility of the person who wishes to inspect and/or copy records to identify with reasonable clarity the records at issue.” *State ex rel. Zidonis v. Columbus State Community College*, 133 Ohio St.3d 122, 2012-Ohio-4228, 976 N.E.2d 861, ¶ 21. A requester must identify the records sought so that the public office can identify responsive records based on the manner in which it ordinarily maintains and accesses the public records it keeps. *State ex rel. Zauderer v. Joseph*, 62 Ohio App.3d 752 (10th Dist. 1989). Our offices do not keep or maintain lists of employees/staff/agents of the organizations listed in Requests 6-9. Thus, we have no way of identifying which communications are responsive to your request.

In the event you would like to revise your request and provide us with specific names to search, you may do so and our office will process it in accordance with Ohio public records law. Please note that as the House of Representatives is in a partial work from home status, there may be a delay with the processing of your request.

Hi Collin,

We're still working to process your request. However, we've finished processing your request for 3 of the individuals/offices you named. Attached are records from Rep. Ginter's office. No records were redacted or withheld. Additionally, we've attached Heather Blessing's responsive records. Some records were withheld pursuant to attorney-client privilege. Finally, after conducting a search, the office of Rep. Jones determined that they had no records responsive to your request. Please note that upon review, we have determined that the portion of your revised Requests 6-9 for records pertaining to the following terms is denied as overly vague and broad:

Re: Public Records Request

Dear Counsel:

I write in reference to public records requests made by the ACLU of Ohio policy counsel Collin Marozzi on February 3, 2021 with respect to information concerning redistricting following the 2020 Census.

At this time, several requests remain outstanding in violation of the Ohio Public Records Act. In particular, no responses have been provided for the requests to Speaker Bob Cupp, Representative Rick Carfgana, Representative Bill Seitz, and Ms. Christine Morrison. As you know, Ohio law requires that, upon request, public officials provide copies of public records “within a reasonable period of time.” R.C. 149.43(B)(1). Courts have found delays of as few as six days to be unreasonable. *See, e.g., State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Ed.*, 776 N.E.2d 82, 91 (Ohio 2002). In this case, the missing responses are more than four months late, a delay which counsel has not justified—and cannot justify.

At the same time, counsel has asserted objections to and/or withheld records responsive to certain other requests. On March 30, 2021, counsel informed Mr. Marozzi that portions of Ms. Heather Blessing’s records were withheld pursuant to the attorney-client privilege and/or work-product doctrine; on May 14, 2021, counsel informed Mr. Marozzi that portions of Ms. Sheila Boehner’s records were withheld on the same basis. As you are no doubt aware, factual documents are not rendered privileged merely because they are sent by or to an attorney. Moreover, as the United States District Court for the Southern District of Ohio has recently held, data and maps related to redistricting are not protected from discovery given that they are created incidental to the legislature’s “statutory duty to draft . . . [a] map.” *Ohio A. Philip Randolph Inst. v. Smith*, No. 1:18cv357, 2018 WL 6591622, at *5 (S.D. Ohio Dec. 15, 2018). To ensure that this claim of privilege was validly made, we ask that you explain the basis for its assertion, including why the withheld documents constituted legal advice and, as relevant, the parties between whom the withheld records were conveyed.

Similarly, on May 14, 2021, counsel informed Mr. Marozzi that portions of Ms. Boehner’s records were withheld pursuant to “legislative privilege,” citing R.C. 101.30. To ensure that this claim of “privilege” was validly made, we ask that you also explain the basis for its assertion,

COVINGTON

Josh Sabo

June 17, 2021

Page 2

including why the withheld documents constitute “legislative documents”, as defined in the statute, and how they arise out of the confidential relationship between legislative staff and the general assembly, also as defined in the statute.

Finally, on March 30, 2021, counsel denied certain portions of the public records requests submitted “as overly vague and broad.” Please explain the basis for this determination with respect to the identified search terms. We reserve the right to challenge this determination at a later date. However, in the spirit of the Ohio Public Records Act, which “contemplates that the requester and the public-records custodian cooperate in fulfilling a request,” *State ex rel. Morgan v. Strickland*, 906 N.E.2d 1105, 1109 (Ohio 2009), we request that you instead produce records pertinent to the following terms:

- draw* /5 (district* OR map* OR border* OR precinct* OR block* OR tract* OR VTD)
- map* /5 (district* OR border* OR precinct* OR block* OR tract* OR VTD)
- apportion* /5 (district* OR map* OR precinct* OR border* OR tract* OR block* OR VTD)
- “task force” /5 (vote* OR voting OR district* OR redistrict* OR map* OR VTD)

Should your office elect not to search for documents responsive to these terms, please explain the basis for this decision and propose an alternative to which you may be amenable.

We ask that you respond in writing to this letter by June 23, 2021. Further, we ask that you provide all remaining records responsive to our request by the same date. Please send the requested records as electronic PDFs to the undersigned, Brady Bender (bbender@cov.com), and Collin Marozzi (cmarozzi@acluohio.org). We are willing to receive records in batches as they are identified.

Sincerely,

/s/

[EXTERNAL]

Dear Ms. Bender:

This email responds to your June 17, 2021 letter to our office, as well the February 3, 2021 [revised February 26, 2021] public records to named Ohio House members and staff from your client, Colin Marozzi.

In your letter, you state that in regards to providing copies of records to requesters, some courts have found delays of as few as six days to be unreasonable. In the case you cited [*State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Ed.*, 776 N.E.2d 82, 91 (Ohio 2002)], the local board of education received a public records request for the applications of 5 candidates for the position of school district treasurer. The scope of the request in that case is not analogous to the present public records request from your client. First, your client revised his request more than 3 weeks after his original request following a phone discussion between him and House legal counsel. Second, your client requested that ten named individuals and their staff search all records in their custody for multiple different requests for a timespan that spanned months. Finally, during the time that the request was received and processed until May 25, 2021, the House was in periods of full and partial “work from home” status while processing previously received public records requests. Some of our earliest communications with Mr. Marozzi advised him of the potential for a delayed response due to these conditions. At present, we have fulfilled 70% of your client’s requests. Please find attached responsive records from Rep. Rick Carfagna’s office; no records were redacted or withheld. We are continuing to process records for Speaker Cupp, Rep. Seitz, and Christine Morrison.

You additionally ask that our office explain the basis for withholding certain records pursuant to attorney-client privilege, why the documents constituted legal advice, and the parties between whom the withheld records were held. You additionally note that “factual documents are not protected from discovery.” For the purposes of clarification, we are responding to Mr. Marozzi’s request as a public records request under R.C. 149.43 and not a discovery request. The records of Heather Blessing referenced in my email of March 30, 2021 were withheld under R.C. 149.43(A)(1)(v) as attorney-client privileged communications defined in R.C. 101.301 and R.C. 2317.021 (see also *State ex rel. Lanham v. DeWine*, 135 Ohio St.3d 191, 2013-Ohio-199, 985 N.E.2d 467).

Further, you ask that our office explain the basis for withholding certain records pursuant to legislative privilege, why the documents constitute “legislative documents,” and how they arise out of the confidential relationship between legislative staff and the General Assembly. The records of Sheila Boehner referenced in my email of Mary 14, 2021 documents were withheld pursuant to R.C. 101.30. Legislative documents are defined in R.C. 101.30(A)(1) and the confidential relationship between legislative staff and the General Assembly is described in R.C. 101.30(B).

Finally, your letter provides what appears a shorter list of terms and combinations of terms to search including “draw”, “map”, “apportion,” and “task force” in proximity to other terms including “district”, “map”, “border”, “precinct”; “block;” “tract”; or “VTD.” We previously denied a request to search for records pertaining to these terms as overly broad on March 30, 2021, and continue to deny this request. “[I]t is the responsibility of the

person who wishes to inspect and/or copy records to identify with reasonable clarity the records at issue.” *State ex rel. Zidonis v. Columbus State Community College*, 133 Ohio St.3d 122, 2012-Ohio-4228, 976 N.E.2d 861, ¶ 21. A requester must identify the records sought so that the public office can identify responsive records based on the manner in which it ordinarily maintains and accesses the public records it keeps. *State ex rel. Zauderer v. Joseph*, 62 Ohio App.3d 752 (10th Dist. 1989).

Our offices do not organize their records under these broad terms, combination of terms, or subjects. The word “district” alone would capture almost every email issuing from a state representative’s office, as the email signature commonly identifies the name of the district served by the member. . Other words like “map*” and “draw*” would cause similar problems. As we mentioned have stated to your client, records referencing those terms will likely be captured his existing requests for records pertaining to redistricting. In general, our offices organize their records by member, and within each member office, by specific subjects, bill numbers, and constituent cases. Mr. Marozzi, or you on his behalf, may revise his requests to include additional, narrower criteria so that we can more easily identify the records you request. Please find attached the current records retention schedule for the Ohio House of Representatives which further demonstrates how records are ordinarily maintained and accessed by our offices.

We will continue to process the remainder of Mr. Marozzi’s request in accordance with Ohio law.

Hello Mr. Marozzi,

We are in the progress of retrieving and reviewing the records that are specified in your request dated June 7, 2021. Included in your four-part request is "monthly progress reports." We have reviewed and are now releasing the available monthly progress reports from February 1, 2021 until the date of your request, June 7, 2021. Please see attached.

Throughout your request, you include the phrase "all records related to." This is an example of the portion of your request that is vague and overbroad.

We will continue to work on the remainder of your request and provide on a rolling production basis.

Re: Renewed Redistricting Records Requests

Dear Counsel:

I write to you on behalf of Mr. J. Collin Marozzi, Policy Strategist at the ACLU of Ohio, to renew public records requests first submitted in February 2021 pertaining to redistricting following the 2020 Census. Attached please find supplemental requests mirroring those submitted in February, but for records created after the period of time covered by Mr. Marozzi's prior requests, through today's date. Request 5, in particular, covers "information that could be used for the purposes of redistricting," including "shape files, other digital files, and other information pertaining to precinct names, precinct lines, partisan indexes, population shifts, or changing census block lines, also known as voting district (VTD), for the 2018 election, 2020 election, and upcoming redistricting cycle." For the avoidance of any doubt, this request includes such data sets developed, analyzed, and/or provided by Ohio University in the course of their work on the Ohio Common and Unified Redistricting Database, as well as communications pertaining to those datasets.

As a general matter, we understand that the redistricting process is active and ongoing. On Friday, August 16, 2021, the Ohio Redistricting Commission ("the Commission") will meet for the first time. We anticipate that the U.S. Census Bureau will deliver data to aid in the production of legislative district maps on August 16, 2021. If the Commission fails to adopt a final general assembly district plan prior to September 1, 2021, it must then introduce a proposed plan for consideration in public hearings, and it must adopt a final plan by September 15, 2021. Ohio Const. art. XI, § 8. Given this timeline, we expect that Ohio officials, including the targets of Mr. Marozzi's requests, are currently actively working on redistricting matters. Any e-mails, reports, data sets, computer files, maps, or other documents produced or used in this process are presumptively public records under Ohio Public Records Law.

As Ohio law acknowledges, "open access to government papers is an integral entitlement of the people, to be preserved with vigilance and vigor." *State ex rel. Rogers v. Dep't of Rehab. & Corr.*, 122 N.E.3d 1208, 1217 (Ohio 2018) (quotations omitted). Moreover, "open government serves the public interest and our democratic system." *Id.* at 1211. Few records are more central to the public interest or the democratic system than those developed in the redistricting process, and there can be no doubt that the people are entitled to access those records. Accordingly, Mr. Marozzi anticipates vigilantly and vigorously pressing for access to relevant redistricting records

in the weeks to come, including by submitting multiple additional requests and litigating, as necessary.

In recognition of the shared goal of preserving public records entitlements, and in the interest of efficiency, we write today in hopes that the House recipients of the public records requests and Mr. Marozzi might come to a mutual agreement regarding his current and future records requests. As you are well aware, data from the Census Bureau is due to be received on August 16, 2021, a General Assembly map is to be produced by September 1, 2021 and quite possibly again on September 15, 2021. All such maps, and documents related to their creation (including computer files and data sets) are plainly public records that should be produced immediately. While we are prepared to take whatever steps that might be required to obtain such materials, under such the proposed agreement, the House recipients of the records requests would agree to timely supply relevant records to Mr. Marozzi without requiring successive and time-intensive requests, negotiation, and/or litigation to secure those records. This would reduce the burden upon both parties in the midst of a busy period.

We would appreciate the opportunity to speak with you regarding the possibility of such an agreement. Thank you for your efforts to respect and preserve the principle of open government.

Sincerely,

/s/

Mr. Butchello,

Could you please advise me as to when I can expect to begin receiving responses? As I stated previously, I am happy to receive the records in batches and as they are identified. As you likely know, Ohio law requires public officials to respond to requests for public records within a reasonable period of time. Ohio Rev. Code Ann. § 149.43(B)(7). Indeed, courts have found delays of as few as six days to be unreasonable. *See State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Ed.*, 776 N.E.2d 82, 91 (Ohio 2002). Given the great public interest in records developed in the current, fast-moving redistricting process, I anticipate vigilantly and vigorously pressing for timely responses in the weeks to come.

As always, I am happy to get on the phone to discuss further.

Best,

- 3.) All shapefiles considered, used, and/or prepared for the development of the CURD, including, without limitation, the shapefiles for precincts and/or VTDs as they have existed at the time of each of the state-wide elections that are a part of the CURD.

Re: Renewed Redistricting Records Requests

Dear Ms. Bean:

I write to you on behalf of Mr. J. Collin Marozzi, Policy Strategist at the ACLU of Ohio, regarding public records requests first submitted in June 2021 pertaining to redistricting following the 2020 Census.

First, attached please find supplemental requests that cover the same general topics as those previously submitted, but for records created after the period of time covered by Mr. Marozzi's prior requests, through today's date, as well as a request for certain mapping and data set records provided to the U.S. Census Bureau in March 2020. The supplemental requests cover the final Ohio Common and Unified Redistricting Database (CURD) that we understand was delivered by the Ohio University George Voinovich School of Leadership and Public Affairs (GVS) to the Legislative Service Commission (LSC) on or about August 13, 2021. Mr. Marozzi requests an immediate production of the CURD and any election data sets prepared as part of GVS's work on the CURD, and in whatever form they were provided to the LSC (whether in a database, spreadsheet, or other set of computer files). For the avoidance of any doubt, the requests for such data sets include, without limitation:

- 1.) any block-level datasets developed and/or used by GVS for the CURD, including those that disaggregate precinct or VTD-level election results to the block level;
- 2.) any datasets used to assemble the block-level datasets in (1), including but not limited to:
 - a. census demographic data and shapefiles and
 - b. voter lists of current and previously-registered voters in Ohio;
- 3.) precinct-level or VTD-level election returns from the past 10 years, and corresponding shapefiles;
- 4.) all records related to, or consisting of, the linkage of voter party affiliation to the CURD;

COVINGTON

Shelly M. Bean

- 5.) all equivalency files and/or datasets considered, used, and/or prepared to aggregate or disaggregate data between different geographic units for purposes of building the CURD, as well as a description of how those equivalency files and/or datasets were used to do the aggregation or disaggregation; and
- 6.) all shapefiles considered, used, and/or prepared for the development of the CURD, including, without limitation, the shapefiles for precincts and/or VTDs as they have existed at the time of each of the state-wide elections that are a part of the CURD.

Second, regarding Mr. Marozzi's requests first submitted in June, we are concerned that your office is considering your response to those requests closed, despite apparent gaps in your provision of responsive records. In particular, our review of the few documents you have provided suggests that there are additional responsive documents that have not been provided. As just two examples:

- The March 2021 progress report provided notes meetings with State officials, including the Secretary of State, regarding the delivery of Census Bureau data, what and how election results would be added to the CURD database, and the progress of the project. Any and all materials developed and circulated surrounding this meeting would be responsive to Mr. Marozzi's requests, including any written reports, communications, datasets, or slide decks, yet we have not received any such documentation.
- The April 2021 progress report provided notes conversations with legal counsel for the Ohio Senate and Minority Caucus regarding what voting history data would be linked to Census data. Again, materials surrounding these meetings would be responsive to Mr. Marozzi's requests, including the above-named categories of documents, yet none of those have been provided. In particular, the report indicates that "GVS began to prepare linkable spreadsheets of voting results for five elections" after these conversations. Those linkable spreadsheets qualify as a responsive record under the language of the request.

There are numerous other examples suggesting the existence of additional responsive materials throughout those materials that have been provided thus far. Given this, we ask that you renew your search for responsive materials.

For the avoidance of any doubt, any e-mails, reports, data sets, computer files, maps, or other documents produced or used in the development of the CURD and the broader redistricting process are presumptively public records under Ohio Public Records Law and are responsive to Mr. Marozzi's prior and/or renewed requests. As Ohio law acknowledges, "open access to government papers is an integral entitlement of the people, to be preserved with vigilance and vigor." *State ex rel. Rogers v. Dep't of Rehab. & Corr.*, 122 N.E.3d 1208, 1217 (Ohio 2018) (quotations omitted). Moreover, "open government serves the public interest and our democratic system." *Id.* at 1211. Few records are more central to the public interest or the democratic system than those developed in the redistricting process. Accordingly, Mr. Marozzi

anticipates vigilantly and vigorously pressing for access to relevant redistricting records in the weeks to come, including by submitting multiple additional requests and litigating, as necessary.

Third, on June 22, 2021, you informed Mr. Marozzi that portions of his request were broad and vague. In Mr. Marozzi's response that day, he asked you to identify those portions and any specific format the requests should be provided in to facilitate timely production. On July 27, you identified the phrase "all records related to" as "an example of the portion of your request that is vague and overbroad." In the first instance, we disagree that any portion of the requests are vague or overbroad. The responses identify specific subjects, specific involved parties, and a specific time period, providing more than adequate narrowing under Ohio law. Moreover, your July 27 response did not provide Mr. Marozzi the opportunity to revise his public records request required under R.C. 149.43(B)(2) or "inform[] the requester of the manner in which records are maintained by the public office and accessed in the ordinary course of the public office's or person's duties" such that he may revise those requests. Nevertheless, as Mr. Marozzi previously offered, we remain willing to discuss whether there are ways to better target these requests. We would appreciate the opportunity to discuss this by phone. In advance of that conversation, we ask that you specifically identify any portions of the request that you are denying based on vagueness or overbreadth objections and provide guidance on how these could be narrowed or a format we could use to enable the records to be timely located.

We would appreciate the opportunity to speak with you regarding the issues outlined above. While we are prepared to take whatever steps that might be required to obtain responsive materials, we would prefer to come to an agreement on these requests and thus avoid further time-intensive negotiations and/or litigation to secure these records. Thank you for your efforts to respect and preserve the principle of open government.

Sincerely,

/s/

Hello Leader Sykes,

Attached is a public records request for your office. As stated in the request, I am willing to receive records on a rolling basis. Please respond to this email as an acknowledgment of receipt of the request.

As a general matter, I understand that the redistricting process is active and ongoing, and the timeline is condensed from here on out for you and other Ohio officials. Few records are more central to the public interest or the democratic system than those developed in the redistricting process, and the people of Ohio are entitled to access those records. For example, I understand the Ohio University Voinovich School of Leadership and Public Affairs delivered the Ohio Common Unified Redistricting Database (CURD) developed for the 2020 redistricting process to the Ohio Legislative Service Commission last week. I respectfully request delivery of a copy of the CURD, and any and all related correspondence and/or data sets.

I also write today in hopes that we may come to a mutual agreement regarding my current and future records requests. As the redistricting processes move forward, I hope you'll be amenable to the timely supply of relevant records without requiring successive and time-intensive records requests, negotiation, and the like to secure those records. Such an agreement might reduce the burden upon all of us in the midst of a busy period.

Thank you for your efforts and consideration,

Hello Ms. Elkins,

I again write to enquire as to the status of my records request dated August 3, 2021. What is the status of my request and when can I expect to begin receiving records. It has now been nearly a month since I submitted the request.

Additionally, I submitted a renewed records request on August 24, 2021, and have yet received an acknowledgment of receipt. As always, I am willing to receive records on a rolling basis and happy to discuss the request by phone.

Subject: RE: Public Records Request

Ms. Elkins and Mr. McCullough,

I write to follow up on my records requests dated August 3, 2021, as it has been nearly two weeks since the request was submitted.

Could you please advise me as to when I can expect to begin receiving responses? As I stated previously, I am happy to receive the records in batches and as they are identified. As you likely know, Ohio law requires public officials to respond to requests for public records within a reasonable period of time. Ohio Rev. Code Ann. § 149.43(B)(7). Indeed, courts have found delays of as few as six days to be unreasonable. *See State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Ed.*, 776 N.E.2d 82, 91 (Ohio 2002). Given the great public interest in records developed in the current, fast-moving redistricting process, I anticipate vigilantly and vigorously pressing for timely responses in the weeks to come.

As always, I am happy to get on the phone to discuss further. I would also be eager to discuss the possibility of coming to an agreement about records provisions going forward.

Best,

J. Collin Marozzi, MAP
