## DOCUMENTS PRODUCED IN DISCOVERY – APPENDIX OF EXHIBITS

### Volume 2 of 13

### **Index of Documents**

ITEM	FILE NAME	BATES RANGE
4	AOS_000204	AOS_000204-478
5	AOS_000563	AOS_000563-564
6	AOS 000565	AOS 000565
7	AOS_000578	AOS_000578-595

#### **Population Thresholds**

House: 119,186

95% = 113,227

105% = 125,145

Senate: 357,559

95% = 339,680

105% = 375,436

#### **Overview of Analyses**

- Without more detailed data at the precinct level we cannot say with certainty that any of the 16 submitted maps meet constitutional muster particularly the issues of township and municipal borders and political party leanings. However, there were some very solid submissions that could be constitutional with more information provided.
  - Kennedy Submission used Districtr system to build maps while he did not have precinct level data to be able to perform a full analysis, the districts were compact and seemed at a county-level to satisfy many requirements
  - Senate Dems (Sykes) Submission overall might have issues meeting political party guidelines because only provided 4 years of data, not 10; maps do not drill down to municipal and township boundary lines – Jacobsen argues unconstitutionally split Trumbull county and some other issues
  - OCRC (Brock) Submission the narrative provided with the maps was useful, but without the source data and maps with precinct-level data, we are unable to determine whether it meets the township/muni boundary requirements and the political leanings required by the Constitution
  - Wise Submission used Dave's Redistricting software visually appears to have some issues with the 3 H in 1 S rule and does not drill down to precinct level data as many others didn't; he did also submit an analysis of his map vs Sykes vs OCRC

#### **Points to Remember**

We appreciate the public's input in this very important process.

Looking at all of the maps submitted, unconstitutional elements or inadequate information was provided to get to the level of detail necessary. Elements of the maps submitted were useful and provided valuable insight.

The scorecard we developed does not address all the extra "triggers" that can be put in place to reach a map should a constitutional provision be un-achievable.

Year	President US Senate		Governor		Attorney General		Auditor		Secretary of State		Treasurer of State			
Party	R	D	R	D	R	D	R	D	R	D	R	D	R	D

House: 119,186 Senate: 357,559	Meets Criteria	Does Not Meet Criteria	Notes
99 House Districts			
33 Senate Districts			
House Districts Population: no less than 95% nor more than 105% of 119,186			
Senate Districts composed of 3 contiguous House Districts			
Each boundary is single nonintersecting continuous line (districts are contiguous territories)			
Counties with populations greater than a House district allowed will be part of only one adjoining House district			*if population is greater than 2 House districts then can be 3 House districts, and so on
Any county that meets House population must be one whole district			
Where feasible, no county shall be split more than once			
Split the smallest possible number of municipal corporations and townships whose contiguous portions contain a population of more than 50% but less than 100% of one ratio of representation	·		*keeping "communities" as whole as possible
District boundaries shall use the boundaries of counties, municipalities, and townships as they exist at the time of the Census			
Where it is not feasible to keep political subdivisions whole in a district, not more than one municipal corporation or township may be split per district			
If a county has one House district, then it must be in one Senate district as well			
For senators that have 2 years remaining when maps will be finalized, their district shall keep the same number and contain the largest portion of the population of their current district			*see list
No plan shall be drawn to primarily favor or disfavor a political party			
Statewide proportion of districts shall favor political parties closely to the statewide preferences of the voters of Ohio based on the state and federal partisan general election results during the last 10 years			
Districts shall be compact

## Article XI, Section 1 | Ohio Redistricting Commission

Jhio Constitution / Article XI General Assembly Redistricting

Effective: 2021

- (A) The Ohio redistricting commission shall be responsible for the redistricting of this state for the general assembly. The commission shall consist of the following seven members:(1) The governor;
- (2) The auditor of state;
- (3) The secretary of state;
- ( ) One person appointed by the speaker of the house of representatives;
  - (5) One person appointed by the legislative leader of the largest political party in the house of representatives of which the speaker of the house of representatives is not a member;
  - (6) One person appointed by the president of the senate; and
  - (7) One person appointed by the legislative leader of the largest political party in the senate of which the president of the senate is not a member.

No appointed member of the commission shall be a current member of congress.

he legislative leaders in the senate and the house of representatives of each of the two largest political parties represented in the general assembly, acting jointly by political party,

shall appoint a member of the commission to serve as a co-chairperson of the commission.

- (3)(1) Unless otherwise specified in this article or in Article XIX of this constitution, a simple majority of the commission members shall be required for any action by the commission.
- (2)(a) Except as otherwise provided in division (B)(2)(b) of this section, a majority vote of the members of the commission, including at least one member of the commission who is a member of each of the two largest political parties represented in the general assembly, shall be required to do any of the following:
- (i) Adopt rules of the commission;
- (ii) Hire staff for the commission;
- (iii) Expend funds.
- section, on the manner in which funds should be expended, each co-chairperson of the commission shall have the authority to expend one-half of the funds that have been appropriated to the commission.
- (3) The affirmative vote of four members of the commission, including at least two members of the commission who represent each of the two largest political parties represented in the general assembly shall be required to adopt any general assembly district plan. For the purposes of this division and of Section 1 of Article XIX of this constitution, a member of the commission shall be considered to represent a political party if the member was appointed to the commission by a member of that political party or if, in the case of the governor, the auditor of state, or the secretary of state, the member is a member of that political party.

(C) At the first meeting of the commission, which the governor shall convene only in a year ending in the numeral one, except as provided in Sections 8 and 9 of this article and in ections 1 and 3 of Article XIX of this constitution, the commission shall set a schedule for the adoption of procedural rules for the operation of the commission.

The commission shall release to the public a proposed general assembly district plan for the boundaries for each of the ninety-nine house of representatives districts and the thirty-three senate districts. The commission shall draft the proposed plan in the manner prescribed in this article. Before adopting, but after introducing, a proposed plan, the commission shall conduct a minimum of three public hearings across the state to present the proposed plan and shall seek public input regarding the proposed plan. All meetings of the commission shall be open to the public. Meetings shall be broadcast by electronic means of transmission using a medium readily accessible by the general public.

he commission shall adopt a final general assembly district plan not later than the first day of September of a year ending in the numeral one. After the commission adopts a final plan, the commission shall promptly file the plan with the secretary of state. Upon filing with the secretary of state, the plan shall become effective.

Four weeks after the adoption of a general assembly district plan or a congressional district plan, whichever is later, the commission shall be automatically dissolved.

(D) The general assembly shall be responsible for making the appropriations it determines necessary in order for the commission to perform its duties under this article and Article XIX of this constitution.

## Article XI, Section 2 | Representation

Jhio Constitution / Article XI General Assembly Redistricting

Effective: 2021

Each house of representatives district shall be entitled to a single representative in each general assembly. Each senate district shall be entitled to a single senator in each general assembly.

# Article XI, Section 3 | Requirements for drawing House of epresentatives districts

Ohio Constitution / Article XI General Assembly Redistricting

Effective: 2021

- (A) The whole population of the state, as determined by the federal decennial census or, if such is unavailable, such other basis as the general assembly may direct, shall be divided by the number "ninety-nine" and by the number "thirty-three" and the quotients shall be the ratio of representation in the house of representatives and in the senate, respectively, for ten years next succeeding such redistricting.
- (B) A general assembly district plan shall comply with all of the requirements of division (B) of this section.
- (1) The population of each house of representatives district shall be substantially equal to the ratio of representation in the house of representatives, and the population of each senate district shall be substantially equal to the ratio of representation in the senate, as provided in division (A) of this section. In no event shall any district contain a population of less than ninety-five per cent nor more than one hundred five per cent of the applicable ratio of representation.
- (2) Any general assembly district plan adopted by the commission shall comply with all applicable provisions of the constitutions of Ohio and the United States and of federal law.
- (3) Every general assembly district shall be composed of contiguous territory, and the pundary of each district shall be a single nonintersecting continuous line.
- (C) House of representatives districts shall be created and numbered in the following order

AOS\_000223

of priority, to the extent that such order is consistent with the foregoing standards:

- Proceeding in succession from the largest to the smallest, each county containing population greater than one hundred five per cent of the ratio of representation in the house of representatives shall be divided into as many house of representatives districts as it has whole ratios of representation. Any fraction of the population in excess of a whole ratio shall be a part of only one adjoining house of representatives district.
- (2) Each county containing population of not less than ninety-five per cent of the ratio of representation in the house of representatives nor more than one hundred five per cent of the ratio shall be designated a representative district.
- (3) The remaining territory of the state shall be divided into representative districts by combining the areas of counties, municipal corporations, and townships. Where feasible, no ounty shall be split more than once.
- (D)(1)(a) Except as otherwise provided in divisions (D)(1)(b) and (c) of this section, a county, municipal corporation, or township is considered to be split if any contiguous portion of its territory is not contained entirely within one district.
- (b) If a municipal corporation or township has territory in more than one county, the contiguous portion of that municipal corporation or township that lies in each county shall be considered to be a separate municipal corporation or township for the purposes of this section.
- (c) If a municipal corporation or township that is located in a county that contains a municipal corporation or township that has a population of more than one ratio of representation is split for the purpose of complying with division (E)(1)(a) or (b) of this

section, each portion of that municipal corporation or township shall be considered to be a separate municipal corporation or township for the purposes of this section.

- (2) Representative districts shall be drawn so as to split the smallest possible number of municipal corporations and townships whose contiguous portions contain a population of more than fifty per cent, but less than one hundred per cent, of one ratio of representation.
- (3) Where the requirements of divisions (B), (C), and (D) of this section cannot feasibly be attained by forming a representative district from whole municipal corporations and townships, not more than one municipal corporation or township may be split per representative district.
- (E)(1) If it is not possible for the commission to comply with all of the requirements of divisions (B), (C), and (D) of this section in drawing a particular representative district, the ommission shall take the first action listed below that makes it possible for the commission to draw that district:
- (a) Notwithstanding division (D)(3) of this section, the commission shall create the district by splitting two municipal corporations or townships whose contiguous portions do not contain a population of more than fifty per cent, but less than one hundred per cent, of one ratio of representation.
- (b) Notwithstanding division (D)(2) of this section, the commission shall create the district by splitting a municipal corporation or township whose contiguous portions contain a population of more than fifty per cent, but less than one hundred per cent, of one ratio of representation.
- (c) Notwithstanding division (C)(2) of this section, the commission shall create the district

by splitting, once, a single county that contains a population of not less than ninety-five per cent of the ratio of representation, but not more than one hundred five per cent of the ratio representation.

- (d) Notwithstanding division (C)(1) of this section, the commission shall create the district by including in two districts portions of the territory that remains after a county that contains a population of more than one hundred five per cent of the ratio of representation has been divided into as many house of representatives districts as it has whole ratios of representation.
- (2) If the commission takes an action under division (E)(1) of this section, the commission shall include in the general assembly district plan a statement explaining which action the commission took under that division and the reason the commission took that action.
- district, the commission shall not be considered to have violated division (C)(1), (C)(2), (D) (2), or (D)(3) of this section, as applicable, in drawing that district, for the purpose of an analysis under division (D) of Section 9 of this article.

# Article XI, Section 4 | Requirements for drawing Senate districts hio Constitution / Article XI General Assembly Redistricting

Effective: 2021

- (A) Senate districts shall be composed of three contiguous house of representatives districts.
- (B)(1) A county having at least one whole senate ratio of representation shall have as many senate districts wholly within the boundaries of the county as it has whole senate ratios of representation. Any fraction of the population in excess of a whole ratio shall be a part of only one adjoining senate district.
- (2) Counties having less than one senate ratio of representation, but at least one house of presentatives ratio of representation, shall be part of only one senate district.
- (3) If it is not possible for the commission to draw representative districts that comply with all of the requirements of this article and that make it possible for the commission to comply with all of the requirements of divisions (B)(1) and (2) of this section, the commission shall draw senate districts so as to commit the fewest possible violations of those divisions. If the commission complies with this division in drawing senate districts, the commission shall not be considered to have violated division (B)(1) or (2) of this section, as applicable, in drawing those districts, for the purpose of an analysis under division (D) of Section 9 of this article.
- (C) The number of whole ratios of representation for a county shall be determined by ividing the population of the county by the ratio of representation in the senate determined under division (A) of Section 3 of this article.

(D) Senate districts shall be numbered from one through thirty-three and as provided in ection 5 of this article.

# Article XI, Section 5 | Changes in boundaries of Senate districts hio Constitution / Article XI General Assembly Redistricting

Effective: 2021

At any time the boundaries of senate districts are changed in any general assembly district plan made pursuant to any provision of this article, a senator whose term will not expire within two years of the time the plan becomes effective shall represent, for the remainder of the term for which the senator was elected, the senate district that contains the largest portion of the population of the district from which the senator was elected, and the district shall be given the number of the district from which the senator was elected. If more than one senator whose term will not so expire would represent the same district by following the provisions of this section, the plan shall designate which senator shall represent the district and shall designate which district the other senator or senators shall represent for the alance of their term or terms.

### Article XI, Section 6 | Additional district standards

Jhio Constitution / Article XI General Assembly Redistricting

Effective: 2021

The Ohio redistricting commission shall attempt to draw a general assembly district plan that meets all of the following standards:

- (A) No general assembly district plan shall be drawn primarily to favor or disfavor a political party.
- (B) The statewide proportion of districts whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political party shall correspond closely to the statewide preferences of the voters of Ohio.
- (C) General assembly districts shall be compact.

Nothing in this section permits the commission to violate the district standards described in Section 2, 3, 4, 5, or 7 of this article.

# Article XI, Section 7 | Political subdivision boundaries to be used Thio Constitution / Article XI General Assembly Redistricting

Effective: 2021

Notwithstanding the fact that boundaries of counties, municipal corporations, and townships within a district may be changed, district boundaries shall be created by using the boundaries of counties, municipal corporations, and townships as they exist at the time of the federal decennial census on which the redistricting is based, or, if unavailable, on such other basis as the general assembly has directed.

### Article XI, Section 8 | Impasse procedure

hio Constitution / Article XI General Assembly Redistricting

Effective: 2021

(A)(1) If the Ohio redistricting commission fails to adopt a final general assembly district plan not later than the first day of September of a year ending in the numeral one, in accordance with Section 1 of this article, the commission shall introduce a proposed general assembly district plan by a simple majority vote of the commission.

- (2) After introducing a proposed general assembly district plan under division (A)(1) of this section, the commission shall hold a public hearing concerning the proposed plan, at which the public may offer testimony and at which the commission may adopt amendments to the proposed plan. Members of the commission should attend the hearing; however, only a corum of the members of the commission is required to conduct the hearing.
- (3) After the hearing described in division (A)(2) of this section is held, and not later than the fifteenth day of September of a year ending in the numeral one, the commission shall adopt a final general assembly district plan, either by the vote required to adopt a plan under division (B)(3) of Section 1 of this article or by a simple majority vote of the commission.
- (B) If the commission adopts a final general assembly district plan in accordance with division (A)(3) of this section by the vote required to adopt a plan under division (B)(3) of Section 1 of this article, the plan shall take effect upon filing with the secretary of state and shall remain effective until the next year ending in the numeral one, except as provided in ection 9 of this article.

- (C)(1)(a) Except as otherwise provided in division (C)(1)(b) of this section, if the commission adopts a final general assembly district plan in accordance with division (A)(3) of this ection by a simple majority vote of the commission, and not by the vote required to adopt a plan under division (B)(3) of Section 1 of this article, the plan shall take effect upon filing with the secretary of state and shall remain effective until two general elections for the house of representatives have occurred under the plan.
- (b) If the commission adopts a final general assembly district plan in accordance with division (A)(3) of this section by a simple majority vote of the commission, and not by the vote required to adopt a plan under division (B) of Section 1 of this article, and that plan is adopted to replace a plan that ceased to be effective under division (C)(1)(a) of this section before a year ending in the numeral one, the plan adopted under this division shall take effect upon filing with the secretary of state and shall remain effective until a year ending in the numeral one, except as provided in Section 9 of this article.
- (2) A final general assembly district plan adopted under division (C)(1)(a) or (b) of this section shall include a statement explaining what the commission determined to be the statewide preferences of the voters of Ohio and the manner in which the statewide proportion of districts in the plan whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political party corresponds closely to those preferences, as described in division (B) of Section 6 of this article. At the time the plan is adopted, a member of the commission who does not vote in favor of the plan may submit a declaration of the member's opinion concerning the statement included with the plan.
- (D) After a general assembly district plan adopted under division (C)(1)(a) of this section leases to be effective, and not earlier than the first day of July of the year following the year in which the plan ceased to be effective, the commission shall be reconstituted as provided

in Section 1 of this article, convene, and adopt a new general assembly district plan in accordance with this article, to be used until the next time for redistricting under this rticle. The commission shall draw the new general assembly district plan using the same population and county, municipal corporation, and township boundary data as were used to draw the previous plan adopted under division (C) of this section.

# Article XI, Section 9 | Jurisdiction of Supreme Court; effect of etermination of unconstitutionality

Ohio Constitution / Article XI General Assembly Redistricting

Effective: 2021

- (A) The supreme court of Ohio shall have exclusive, original jurisdiction in all cases arising under this article.
- (B) In the event that any section of this constitution relating to redistricting, any general assembly district plan made by the Ohio redistricting commission, or any district is determined to be invalid by an unappealed final order of a court of competent jurisdiction then, notwithstanding any other provisions of this constitution, the commission shall be reconstituted as provided in Section 1 of this article, convene, and ascertain and determine general assembly district plan in conformity with such provisions of this constitution as are then valid, including establishing terms of office and election of members of the general assembly from districts designated in the plan, to be used until the next time for redistricting under this article in conformity with such provisions of this constitution as are then valid.
- (C) Notwithstanding any provision of this constitution or any law regarding the residence of senators and representatives, a general assembly district plan made pursuant to this section shall allow thirty days for persons to change residence in order to be eligible for election.
- (D)(1) No court shall order, in any circumstance, the implementation or enforcement of any general assembly district plan that has not been approved by the commission in the manner rescribed by this article.
- (2) No court shall order the commission to adopt a particular general assembly district plan

or to draw a particular district.

- the commission does not comply with the requirements of Section 2, 3, 4, 5, or 7 of this article, the available remedies shall be as follows:
- (a) If the court finds that the plan contains one or more isolated violations of those requirements, the court shall order the commission to amend the plan to correct the violation.
- (b) If the court finds that it is necessary to amend not fewer than six house of representatives districts to correct violations of those requirements, to amend not fewer than two senate districts to correct violations of those requirements, or both, the court shall declare the plan invalid and shall order the commission to adopt a new general assembly astrict plan in accordance with this article.
- (c) If, in considering a plan adopted under division (C) of Section 8 of this article, the court determines that both of the following are true, the court shall order the commission to adopt a new general assembly district plan in accordance with this article:
- (i) The plan significantly violates those requirements in a manner that materially affects the ability of the plan to contain districts whose voters favor political parties in an overall proportion that corresponds closely to the statewide political party preferences of the voters of Ohio, as described in division (B) of Section 6 of this article.
- (ii) The statewide proportion of districts in the plan whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political arty does not correspond closely to the statewide preferences of the voters of Ohio.

### Article XI, Section 10 | Severability

Jhio Constitution / Article XI General Assembly Redistricting

Effective: 2021

The various provisions of this article are intended to be severable, and the invalidity of one or more of such provisions shall not affect the validity of the remaining provisions.

Senate and House Republicans

House: 119,186 Senate: 357,559	Meets Criteria	Does Not Meet Criteria	Notes
99 House Districts	X		
33 Senate Districts	X		
House Districts Population: no less than 95% nor more than 105% of 119,186	X		
Senate Districts composed of 3 contiguous House Districts	X		
Each boundary is single nonintersecting continuous line (districts are contiguous cerritories)	×		
Counties with populations greater than a House district allowed will be part of only one adjoining House district	×		*if population is greater than 2 House districts then can be 3 House districts, and so on 13 water 95% have 2 split
Any county that meets House population must be one whole district	7		
Where feasible, no county shall be split more than once	X		seems like done then feasible
Split the smallest possible number of municipal corporations and townships whose contiguous portions contain a population of more than 50% but less than 100% of one ratio of representation	?		*keeping "communities" as whole as possible analysis not completed yet
District boundaries shall use the boundaries of counties, municipalities, and townships as they exist at the time of the Census	X		
Where it is not feasible to keep political subdivisions whole in a district, not more than one municipal corporation or township may be split per district	X		visually appears accurate
If a county has one House district, then it must be in one Senate district as well	X		
For senators that have 2 years remaining when maps will be finalized, their district shall keep the same number and contain the largest portion of the population of their current district	X		*see list
No plan shall be drawn to primarily favor or disfavor a political party	?,		
Statewide proportion of districts shall favor political parties closely to the statewide preferences of the voters of Ohio based on the state and federal partisan general election results during the last 10 years	7,		only had limited data to check - not 10 years
Districts shall be compact	?.		a few (circled) appear to have some harrow connectors

## PROPOSED GENERAL ASSEMBLY DISTRICT PLAN AS SUBMITTED ON SEPTEMBER 9, 2021

Pursuant to the 2020 U.S. Census, the population of Ohio as of April 1, 2020 was 11,799,448. The target population for each district is therefore 119,186.

## PROPOSED GENERAL ASSEMBLY DISTRICT PLAN AS SUBMITTED ON SEPTEMBER 9, 2021

Ohio's 33 Senate districts are comprised of the following Ohio House districts.

```
Senate District 1:
                           House Districts 81, 82, 83
Senate District 2:
                           House Districts 43, 76, 89
Senate District 3:
                           House Districts 4, 5, 6
Senate District 4:
                           House Districts 44, 45, 46
Senate District 5:
                           House Districts 38, 39, 80
Senate District 6:
                           House Districts 35, 36, 37
Senate District 7:
                           House Districts 27, 54, 55
Senate District 8:
                           House Districts 28, 29, 30
Senate District 9:
                           House Districts 24, 25, 26
Senate District 10:
                           House Districts 70, 71, 75
Senate District 11:
                           House Districts 40, 41, 42
Senate District 12:
                           House Districts 84, 85, 86
Senate District 13:
                           House Districts 51, 52, 53
Senate District 14:
                           House Districts 62, 63, 90
Senate District 15:
                           House Districts 1, 2, 3
Senate District 16:
                           House Districts 10, 11, 12
                                                         Assigned to Senator Cirino - still has Lake
Senate District 17:
                           House Districts 91, 92, 93
Senate District 18:
                           House Districts 56, 57, 99
Senate District 19:
                           House Districts 60, 61, 98
Senate District 20:
                           House Districts 73, 74, 97
                                                         Assigned to Senator Romanchuk - Richland now
Senate District 21:
                           House Districts 19, 20, 21
Senate District 22:
                           House Districts 66, 67, 78
Senate District 23:
                           House Districts 13, 14, 18
                                                         Assigned to Senator Dolan - Chagrin Falls now
Senate District 24:
                           House Districts 15, 16, 17
Senate District 25:
                           House Districts 7, 8, 9
                                                         Assigned to Senator Reineke - still has Sen e ca
Senate District 26:
                           House Districts 77, 87, 88
Senate District 27:
                           House Districts 22, 23, 31
Senate District 28:
                           House Districts 32, 33, 34
Senate District 29:
                           House Districts 47, 48, 49
Senate District 30:
                           House Districts 94, 95, 96
Senate District 31:
                           House Districts 50, 68, 69
                                                         Assigned to Senator O'Brien - Ashtabula now
Senate District 32:
                           House Districts 64, 65, 72
Senate District 33:
                           House Districts 58, 59, 79
```

All of the above assignments of Senators are made pursuant to Section 5, Article XI of the Ohio Constitution.

Vernon Sykes - Senate Dems

House: 119,186 Senate: 357,559	Meets Criteria	Does Not Meet Criteria	Notes
99 House Districts	X		
33 Senate Districts	X		
House Districts Population: no less than 95% nor more than 105% of 119,186	X		
Senate Districts composed of 3 contiguous House Districts	X		
Each boundary is single nonintersecting continuous line (districts are contiguous territories)	X		
Counties with populations greater than a House district allowed will be part of only one adjoining House district	X		*if population is greater than 2 House districts then can be 3 House districts, and so on
Any county that meets House population must be one whole district	7,		
Where feasible, no county shall be split more than once	X		
Split the smallest possible number of municipal corporations and townships whose contiguous portions contain a population of more than 50% but less than 100% of one ratio of representation		?	*keeping "communities" as whole as possible  Son & have munitary and township lines
District boundaries shall use the boundaries of counties, municipalities, and townships as they exist at the time of the Census		?	same as above
Where it is not feasible to keep political subdivisions whole in a district, not more than one municipal corporation or township may be split per district		?	same as above
If a county has one House district, then it must be in one Senate district as well	X		
For senators that have 2 years remaining when maps will be finalized, their district shall keep the same number and contain the largest portion of the population of their current district	?		*see list may have issue with SD10 if Clark has most population
No plan shall be drawn to primarily favor or disfavor a political party	?		
Statewide proportion of districts shall favor political parties closely to the statewide preferences of the voters of Ohio based on the state and federal partisan general election results during the last 10 years	?		2016-2020 pol data
Districts shall be compact	?		see SD 17 - to Hamilton

Split the smallest possible number of municipal corporations and townships whose contiguous portions contain a population of more than 50% but less than 100% of one ratio of representation		?	*keeping "communities" as whole as possible  no municipal and township lines
District boundaries shall use the boundaries of counties, municipalities, and townships as they exist at the time of the Census	¥	?,	same as above
Where it is not feasible to keep political subdivisions whole in a district, not more than one municipal corporation or township may be split per district		7	same as above
If a county has one House district, then it must be in one Senate district as well		?	no county lines
For senators that have 2 years remaining when maps will be finalized, their district shall keep the same number and contain the largest portion of the population of their current district		×	*see list  potentially ittle with  proposed M. HAffman  and Dolan districts
No plan shall be drawn to primarily favor or disfavor a political party		?	claims to have more seats in play than OCRC to
Statewide proportion of districts shall favor political parties closely to the statewide preferences of the voters of Ohio based on the state and federal partisan general election results during the last 10 years		7,	
Districts shall be compact	X		

8/29/21:

Geoff Wise's Ohio House redistricting map can be found at:

https://davesredistricting.org/join/2167e2ee-ba01-4ee0-bb29-7080df3b9a9d

I started from another citizen's "KMS" House map, which looks very pleasing, but doesn't have the fairest seats(votes) curve.

My philosophy here is to get the seats-votes curve to cross closely to the 50% votes = 50 seats for the Republicans, and a smooth curve from there as far as how quickly the GOP picks up seats as its statewide results hover around 55% - 60%. I tried to keep districts compact, but I did modify some boundaries to enhance minority representation in Toledo and to increase the number of competitive districts -- up to 33.

The file names should be self-explanatory; but if not, call me at 513-476-2480 or email at geoffw72@gmail.com. Several of the files can be used as a starting point to import into davesredistricting.org to conduct your analysis.

I will separately submit a plan to bundle these into Senate districts. My plan there will be to create as many competitive districts as possible while delivering 17 seats to the Republicans as they cross the 50% threshold. I should have that to you within a couple days.

Respectfully,

Geoff Wise, Ph.D.

Geoff's Ohio House map #1 : overall state

## Comparison of OCRC, Sykes, and Wise district plans

Geoff Wise, Ph.D. Cincinnati, OH Submitted 9/7/21

## Background

- Article XI of the Ohio Constitution substantially reforms the 2021 process for drawing Ohio Statehouse boundaries
  - The process is charged to an Ohio Redistricting Commission (ORC) comprised of 7 state leaders, with the intent of bipartisan collaboration that does not favor or disfavor a party
  - Multiple constraints were added to minimize slicing of counties, large municipalities, and communities of color
  - Delay in receipt of US Census data has compressed the time to finalize maps
- The ORC has not produced a map by the 9/1/21 deadline
  - The 8/31/21 public meeting of the ORC failed to even set a timetable for meeting the second-round 9/15 deadline
- Several maps were submitted via the ORC's public input portal by 9/1
  - Of particular note were two maps from:
    - ORC co-chair Vernon Sykes (Democrat)
    - the Ohio Citizens' Redistricting Commission, a left-leaning public advocacy group associated with the constitutional reform advocates
  - These maps were guided by Article XI principles, but have some drawbacks

## Why another map?

- The dynamics of the 8/31/21 ORC meeting suggest we are far from a collaborative bipartisan process to meet the mandated deadline
  - As of 9/5/21, there have been no plans proposed from the Republican members of the ORC
- I have analyzed the Sykes and OCRC maps and determined that they have emphasized proportionality over district competitiveness.
  - They also appear unclear on Senate incumbency
- I am therefore proposing a more competitive map that also strikes a more natural balance between GOP and Dem interests.
- To correct weaknesses in my pre-9/1/21 submission, I have redrawn several districts to increase minority empowerment and minimize big-city splits, and specified Senate incumbency

Sykes Visual comparison - Statehouse OCRC Wise AOS\_000306

## Visual comparison – State senate

**OCRC** Wise

**Sykes** 

5

## Quantitative analysis methodology

- My maps, tweaked from my 8/31 submission to improve minority representation, were generated in Dave's Redistricting Analysis (DRA), a common platform for re-districting efforts
- To compare key metrics of map quality, the Sykes and OCRC maps were loaded into DRA from the .csv / .txt files posted to redistricting.ohio.gov/public-input
- According to DavesRedistricting.org, DRA uses the 2020 Census for precinct shape and demographics. The anticipated GOP/Dem two-party vote splits are a composite of the 2016 and 2020 presidential elections, the 2016 and 2018 U.S. Senate elections, and the 2018 Governor + Attorney General election.
- I have a personal contact at DRA who would be happy to walk the ORC through any questions on the analysis algorithms.

## Analysis: competitiveness, minority power

We can significantly increase the number of competitive districts

## Detail: Competitive districts

#### **Ohio House**

	Wise	OCRC	Sykes
>55% Dem	22	28	26
50-55% Dem	23	14	17
Likely DEM	22 - 50	28 - 46	26 - 48
45 – 55%	28	18	22
50-55% GOP	5	4	5
>55% GOP	49	53	51
Likely GOP	49 – 77	53 – 71	51 - 73

#### **Ohio Senate**

	Wise	OCRC	Sykes
>55% Dem	9	11	11
50-55% Dem	5	3	3
Likely DEM	5 - 18	11 - 16	11 - 15
45 – 55%	9	5	4
50-55% GOP	4	2	1
>55% GOP	15	17	18
Likely GOP	15 – 24	17 – 21	18 - 22

More seats in play = stronger campaigns & candidates = better government.

### Analysis – District shape

Know It When You See It scores	Wise	OCRC	Sykes
House KIWYSI compactness	56	56	52
Senate KIWYSI compactness	53	62	48

#### For the Senate, I get dinged for:

19: capturing city of Delaware with a N. Columbus district

4: bundling SE Butler w/ N. Hamilton

14: Keeping S. Ohio river area together

# of Big City splits	Wise	OCRC	Sykes
Columbus	10	10	11
Cleveland	3	7	3
Cincinnati	3**	4	2
Toledo	2	2	2
Akron	1	3	1
Dayton	1	2	1
Parma	0	0	0
Canton	0	0	0
Youngstown	0	0	0
Lorain	0	0	0
Hamilton	0	0	0

<sup>\*\*</sup> A tiny piece of Cincinnati was used to foster a competitive GOP district in eastern Hamilton County.

Rural county splits*	Wise	OCRC	Sykes
House	15	21	12
Senate	7	9	6

<sup>\*</sup>Splits are inevitable in urban and suburban ecounties

05\_000316

#### Analysis: partisan bias

- The main focus of map-making is how votes will translate into seats
  - Often illustrated as a x-y plot of votes → seats (see next 2 pages)
  - Precincts can be "horse-traded" to manipulate this within the politically relevant range
    - To achieve a biased "gerrymandered" result
    - To enforce legal requirements
    - To correct for random fluctuations
  - Making districts more competitive will make the seats more responsive (stronger than proportional) to vote swings
  - Mandating proportionality will
    - Force a "bend" in the votes-seats curve
    - Make it harder for GOP- or Dem-leaning (unbalanced) states to achieve 50% seats at 50% votes
- All three plans have reasonable predicted votes → seats in the politically relevant range
  - Refer back to slide 9 for expected seats table
  - See next two pages for seats-vote curve comparisons

## Analysis: Partisan bias via seats(votes) curves

## Analysis: Partisan bias via seats(votes) curves

#### Comments on design choices

- District-drawing creates tradeoffs among representation, district shape, partisan bias and competitiveness
- Adhering to municipal non-splitting will drive down compactness and the flexibility to tradeoff other considerations
- Increasing the number of competitive seats naturally makes the seats more responsive to votes (greater than proportional)
- Given the "creative" shapes of 2011 districts and the above constraints, it is unrealistic to also solve perfectly for Senate incumbency

# Why OCRC scores better on Senate representation for nonwhites: Dayton option

to fo dist. Den pop not

My map pulls district 37 in with 71 & 72 to form a GOP-leaning competitive district. 38+39+40 form a competitive Dem-leaning district with a 32.4% Black population, which is strong but does not qualify as a minority district.

OCRC's map combines 70, 71, 72

Dayton-area House districts into one
37.5% Black Dem-heavy Senate district, surrounded by an irregular, elongated
GOP-dominated district (69 + 73 + 74)

I decided to split Dayton's 2 Statehouse districts into separate Senate districts to increase competition and compactness. The ORC is welcome to reverse the Senate assignments of 37 and 39 if keeping communities together is higher priority.

OCRC's excessive partitioning of Cleveland and Akron may have also been done to boost minority vote power.

14

# Assigning Senate "incumbency" (Article XI, Section 5)

"At any time the boundaries of senate districts are changed in any general assembly district plan made pursuant to any provision of this article, a senator whose term will not expire within two years of the time the plan becomes effective shall represent, for the remainder of the term for which the senator was elected, the senate district that contains the largest portion of the population of the district from which the senator was elected, and the district shall be given the number of the district from which the senator was elected. If more than one senator whose term will not so expire would represent the same district by following the provisions of this section, the plan shall designate which senator shall represent the district and shall designate which district the other senator or senators shall represent for the balance of their term or terms."

The extreme 2011 Senate district shapes create problems for assigning old districts to new ones. For 11 districts in my plan, the mapping appears straightforward; see next page. For most other districts, it is less clear-cut but there appears to be a lead choice.

The unavoidable problem is in Cuyahoga County. The 2011 map packed Dems (with addition of a western Lake County House district) into three deep blue Senate districts to create a snaky, near-tossup district 24, making it difficult to map onto compact shapes..

See next page for details and a possible solution.

# Putting OH Senators in their places

Colored = Wise plan Black district lines: 2011 map

- = reasonable 1:1 match
- ? = imperfect. ? placed in area that seems best overlap
- = "orphan" seat

Hamilton, Franklin, Lucas, and Montgomery counties can be mapped reasonably well.

See next page for addressing Cuyahoga County and the "orphan" seat.

### Fixing incumbency problems from 2011 gerrymandering

- Unfortunately, both Senate districts 22 and 26 are held by Senators whose terms continue into 2024, with hometowns in the new #26.
  - Reineke (22) in Tiffin
  - Romanchuk (26) in Ontario
- Ideally, one of these Senators (tentatively Reineke) could agree to represent new #22 through 2024.
- Additionally, Sen. Dolan (current snake#24) must find a new home among new #21,23,24,25. The remaining 3 new seats will then open for 2023.
- Current Senators for districts
   4, 8, 12, 14, 18, 20, 22, 26, 28, 30 have imperfect
   but less problematic new assignments
  - see previous page

2 26

Wise

2011

Wise

Cuyahoga detail 26

#### Assessing political viability

- Publicly available technology has advanced to the point that an obviously biased map will be detected and rejected.
- Voters will reward a transparent process that is faithful to Article XI. The reverse of this statement is also true.
- Therefore, it is in the ORC's best interest to follow both the spirit and letter of Article XI
  - GOP members of the ORC may believe they will be punished for adopting a plan proposed by Democrats or left-leaning think tanks
  - The best chance for a 10-year map (accepted by both parties) is a GOP-led proposal that is demonstrably fair

### Files to accompany this submission

- .csv file of precincts → districts for both House and Senate
- Excel file with raw statistical data supporting this analysis

## Communities of Interest

## City of Beavercreek

Beavercreek is the largest city in Greene County, with a population of approximately 47,000. It has grown rapidly in the past 40 years. The economy is dominated by Wright-Patterson Air Force Base and associated defense contractors, resulting in a population that is more affluent and better educated than surrounding areas. The population can be describes as primarily white, with good jobs and conservative views buoyed by strong affiliations with church and/or military communities.

## Beavercreek Township

Beavercreek Township is a mix of rural, suburban, and commercial areas. The bulk of the population and most of the commercial development lie within the bounds of the City of Beavercreek. The eastern third of the township is primarily farmland, interspersed with small residential subdivisions.

# **Important Places**

#### Soin Medical Center

Large hospital; Part of Kettering Health Network

#### **Wright State University**

A state university with an enrollment of about 12,000 students. It offers a full range of undergraduate and graduate degree programs, including a medical school.

## **Wright-Patterson Air Force Base**

A large military facility and the region's largest employer. It is a center for research and contracting for the Air Force.

#### **Fairfield Commons**

Large shopping mall

## **Clark State Community College**

https://districtr.org/COI/27781

AOS\_000361

2/4

Large Catholic parish with parochial school

## **Hindu Temple of Dayton**

St. Luke Catholic Church

https://districtr.org/COI/27781

Hindu temple located in Beavercreek, Ohio. It serves the Hindu community of the Greater Dayton Area.

The Church of Jesus Christ of Latter - Day Saints - Beavercreek Ward

Mormon congregation

**First Baptist Church of Kettering** 

Large Baptist church attended by many Beavercreek residents

Masjid Al Huda - Islamic Society of Greater Dayton

Sunni mosque

**The Vineyard Church** 

Large evangelical church

https://districtr.org/COI/27776

AOS\_000364

Civic Commons), a long, grassy expanse with trails and trees. Part of the 'civic heart' of Kettering, along with the government buildings nearby.

# **Communities of Interest**

## West Kettering

An upper middle income community of higher education residents. Housing is predominantly single-family homes with few multi-unit buildings. The neighborhood is stable in the sense that many residents are long-term, and resident change-over happens in waves. Many families reside here due to the proximity to Dayton, and the high quality of schools and affordable housing.

## North-east Kettering

A lower-income community with fewer single-family units and many rentals and apartment buildings, leading to higher resident turn-over. Residents are historically Appalachian in origin. Many families reside here due to the proximity to Dayton, and the high quality of schools and affordable housing.

## South-east (and West) Kettering

In terms of income and housing stock, SE Kettering is intermediate, between the other two adjacent neighborhoods. Many families reside here due to the proximity to Dayton, and the high quality of schools and affordable housing.

# **Important Places**

#### **Fraze Pavilion**

Popular open-air concert venue with weekly widely-attended concerts. Attached to Lincoln Park (formally Civic Commons), a long, grassy expanse with trails and trees. Part of the 'civic heart' of Kettering, along with the government buildings nearby.

#### **Kettering rec center**

The citizens' recreational center, offers swimming, ice skating, water park, an athletic gym. Co-located with a senior center. Many classes are offered for a wide variety of ages and interests (travel, cooking, yoga, safety training and certifications, etc.).

#### **Rosewood Art Center**

Kettering Children's Choir is located here. Art classes offered for local residents.

https://districtr.org/COI/27776

Del	lco	pa	rk
		Pu	

The largest and most popular park in Kettering. Home to the 4th of July celebration, athletic fields, picnic shelters, playgrounds, etc.
Dayton community golf course
Owned by Dayton, but located in Kettering, popular site for golfing and winter sledding.
Hills and Dales
A MetroPark that wraps around the community golf course. Wooded trails, picnic shelters, and a small pond are popular attractions for families.
South Dale School
!!Rosalie: please add a description!!!
Kettering medical center
Largest employer in the city, and head-quarters of the Kettering Health Network. Kettering college is attache to the medical center (nursing degrees, physicians assistants, radiology, etc.)
The Greene shopping center
Large open-air shopping mall with many shops, cinema, and restaurants. Also houses several apartment complexes.
Miami valley research park
High technology research and manufacturing center spanning Montgomery and Greene counties. Site contains major employers including Kodak Digital printing, Reynolds and Reynolds, Community Blood and Fissue Center, and several defense contractors associated with Wright Pattterson AFB.
NCR country club
NCK COUITE y Club

https://districtr.org/COI/27776

#### Fuyao Glass America

Automotive glass manufacturing center on the site of the old GM plant. Featured in ''American Factory," a documentary film by Higher Ground. Major site of local employment.

#### Habitat environmental center

Their mission is to provide comprehensive environmental education, build leadership skills, and to foster stewardship, appreciation and a sense of responsibility for the natural world through ongoing programs, classes, camps, and speakers for the residents of Kettering.

#### Polen Farm

A beautiful and historic 19th century farmhouse and barn situated on 15 picturesque acres is a favorite with area residents for weddings, receptions, meetings, luncheons, small conferences, retreats, reunions and other social affairs.

#### **Kennedy Park**

Attached to Polen Farm, features tennis courts and other outdoor activities.

## Kettering business park

The Kettering Business Park is home to nearly 2,500 employees. Companies like Synchrony Financial and Alternate Solutions Health Network, after investing tens of millions of dollars in their facilities, are thriving. Kettering Health Network opened their multi-million-dollar operations command center in January 2019. Amazon opened a major distribution center in the business park in 2019. Kettering Municipal courts serving the cities of Kettering, Moraine, Centerville and Washington Township.

#### **David's cemetery**

A large historic cemetery and local landmark.

#### **Kettering Fairmont high school**

Local public high school with a community fitness center attached.

#### **Archbishop Alter High School**

## Jefferson Twp

Jefferson Township (JT) is a community of about 6710 residents, of which 55% are African American and 38% are Caucasian. The median age is 44, and the median household income is \$47,292.

Community members described JT as a diverse area full of neighborly, friendly, and supportive people. Many residents have lived in JT for the long-term and share a strong loyalty to the community. Residents appreciated the quiet, peace, serenity, and beauty of the surroundings. JT does face a number of significant issues, however, including a general deterioration of the community, unresponsive government, dog nuissances, unkempt properties (often of first-time home-owners who do not have the experience to properly care for a home), a large number of rental properties with non-local owners, potholes that go unrepaired for long periods of time, an increase in traffic volume, abandoned automobiles, feral animals, unfavorable parking regulations, and poor zoning enforcement. Residents also lamented the lack of local police, resulting in poor enforcement of violations that they may not allow in their own neighborhood.

The community has a need for additional resources, including childcare support, infrastructure (roads) improvements, recreational opportunities for children (closed parks, basketball courts with rims removed, and no swimming pools in the entire west side area), improved internet infrastructure, and a community meeting room. Participants believe that funds are available, but that there is a need for motivated organized citizens to advocate for public resources.

#### Cornerstone

Cornerstone comprises the small part of Centerville that lies within Greene County. Because it is in a different county, it will likely be considered a separate entity for redistricting purposes. Currently, the area is entirely commercial, but multifamily housing is under development.

### Centerville AND Washington Twp

Centerville and Washington Twp. are interconnected communities occupying the southeast part of Montgomery County. They share a common school system, park district, and library system, which are highly valued by the residents. Centerville is incorporated as a city, with its own government and taxing authority, police force, public works department, and planning and zoning functions. Washington Twp. provides these services for the residents of the unincorporated parts of the township through a separate governing body and taxing authority. In addition, the township provides fire protection and EMS for both Centerville and the unincorporated areas, as well as maintaining recreation facilities and programs and a senior center that serve all residents of the township.

The two communities share very similar demographics. They are upper middle-class suburban communities, primarily residential with some commercial development, professional offices, and a small amount of light industry. Diversity is limited, but there is an engaged Asian community. There are numerous senior living facilities, and a relatively large population of senior citizens.

### Centerville proper

Centerville and Washington Twp. are interconnected communities occupying the southeast part of Montgomery County. They share a common school system, park district, and library system, which are highly valued by the residents. Centerville is incorporated as a city, with its own government and taxing authority, police force, public works department, and planning and zoning functions.

### **Washington Township**

Centerville and Washington Twp. are interconnected communities occupying the southeast part of Montgomery County. They share a common school system, park district, and library system, which are highly valued by the residents. Washington Twp. provides these services for the residents of the unincorporated parts of the township through a separate governing body and taxing authority. In addition, the township provides fire protection and EMS for both Centerville and the unincorporated areas, as well as maintaining recreation facilities and programs and a senior center that serve all residents of the township.

### Centervile historical Museum

The Centerville Historical Society was founded in 1966. The Society later changed its name to the Centerville Washington Township Historical Society to include the unincorporated area to tell the complete story of our community and fulfill the mission of the organization. In 2016 the Society changed its name to Centerville-Washington History. Centerville-Washington History maintains and operates three different museums and a Research Center in the Centerville community. Their offices are located at 89 West Franklin Street in Centerville.

### Centerville High School

3. Centerville High School is a comprehensive public high school serving about 2,700 students in grades 9-12 who reside in Centerville-Washington Township. CHS offers a rigorous curriculum with the purpose of preparing students for college and careers, as well as co-curricular programs. With combined efforts of home and community, the mission of the high school is to graduate responsible and motivated citizens prepared for post-high school education and careers.

### **Grant Nature Park**

### **Stubbs Park**

6. Leonard E. Stubbs Memorial Park and the Centerville Community Amphitheater is located west of State Route 48 along the north side of W. Spring Valley Rd. next to the Centerville Police Building. Stubbs Park provides numerous amenities to the public including state-of-the-art playground equipment, walking trails, a disc golf course and an inline skating rink.

### St Rt 48 and Whipp Rd

7. The intersection of State Route 48 and Whipp Road hosts a variety of businesses and amenities: the Washington Square Shopping Center at 6177 Far Hills Avenue which includes Dorothy Lane Market and Up and Running specialty store and others; CVS Drugstore and various gasoline stations.

### **Primary Village South**

Centerville City School District primary school serving the southern part of the district. Enrollment of approximately 700 students includes preschool, kindergarten and first grade.

### Chevy Chase

https://districtr.org/COI/42912

Chevy Chase Park is a family low income housing apartment complex subsidized by the federal Department of Housing and Urban Development. It includes 232 two and three bedroom units with rent subsidies available for qualifying families.

### Miami Valley Hospital South

Miami Valley Hospital South is a satellite campus of Miami Valley Hospital, operated by Premier Health, It offers emergency care, a wide range of outpatient services, and limited inpatient care.

### **Church of the Incarnation School**

Church of Incarnation and School: The Roman Catholic parish serving Centerville and Washington Township. The parish school serves over 800 students from preschool through 8th grade.

#### **Fairhaven Church**

A large church located in northern Centerville, with other campuses in Beavercreek, Clayton, and Springboro. It is affiliated with the Christian & Missionary Alliance (C&MA) denomination.

### Pleasant Hill Swim Club - Centerville

Neighborhood non profit, membership owned Swim and Tennis Clubs throughout Centerville/Washington Township serve as social, community, and recreational centers for friends and families of all ages. Swim Clubs predominantly draw their membership from surrounding neighborhoods.

#### Black Oak Swim Club - Centerville

Neighborhood non profit, membership owned Swim and Tennis Clubs throughout Centerville/Washington Township serve as social, community, and recreational centers for friends and families of all ages. Swim Clubs predominantly draw their membership from surrounding neighborhoods.

### **Dunsinane - Centerville**

Neighborhood non profit, membership owned Swim and Tennis Clubs throughout Centerville/Washington Township serve as social, community, and recreational centers for friends and families of all ages. Swim Clubs predominantly draw their membership from surrounding neighborhoods.

Dunsinane draws its membership from both Centerville and Washington Township neighborhoods.

### **Communities of Interest**

### Oakwood and surrounding region

Oakwood is a community of (to generalize) largely white, prosperous, and highly-educated residents\*. Compared to its neighboring communities Oakwood skews toward young families, with school-age children outnumbering retirees 2-to-1. Oakwood has a mix of well-cared-for and unique WWII-vintage homes and ample tree coverage. The relatively high density, rectilinear street layout, sidewalks, and a dedicated commercial district (anchored by a grocery store) results in a high degree of walkability and bikeability. Some of the neighboring regions to the south and west of Oakwood-proper share a similar 'feel,' and there is frequent mutual cross-community use of parks and recreation resources, as well as some public services.

Oakwood residents place a very high value on quality education, and the school district has an excellent reputation. The schools are supported by very high property taxes, and in general the city government operates on a high-tax / high-service model. Three major positive features of Oakwood are the school district, walkability, and safety. The Oakwood register is the local weekly newspaper which enjoys high readership.

Oakwood residents identified a number of challenges in the community. Over the last several decades the demographics of the city have been trending away from its roots as a dominant White Christian community, and recent events have highlighted racial bias in police enforcement and scrutiny of citizens. This has activated both a negative opinion of Oakwood in parts of the surrounding communities, as well as a growing awareness of and concern about social disparities among the residents, many of whom are seeking changes in some of the traditional characteristics of the city. High taxes, high home values, few multi-family units, and resistance to new housing developments shut out lower-income families, and limit the socioeconomic and racial diversity of the city. Finally, despite being an inner-ring suburb and having many residents that commute to several common locations (U Dayton, WPAFB), Oakwood's public transit is relatively sparse and infrequent.

### South East Oakwood

The south-east section of Oakwood is somewhat distinct from the surrounding parts of the city, in that the houses tend to be more modest with smaller lots and all blocks are composed of straight streets with sidewalks and, resulting in greater walkability. This is also the approximate boundary between the two elementary schools' territories, which was named as a defining feature of social life in Oakwood, especially for young families. Otherwise, the description provided for the broader Oakwood community also applies here.

## **Important Places**

### **Wright Memorial Public Library**

A beautiful Tudor building with stained glass windows, and original wood work, the building is a registered historic landmark. Serves the community with traditional and digital library and information services.

**Wright Patterson Air Force Base** 

The largest single-site of employment in the state of Ohio. Many Oakwood residents are employed here, or by a business or organization whose prosperity is closely tied to the activities at the base.

### **Communities of Interest**

## Valley View and New Lebanon Community

This community is bound together by a shared school system and related concerns. Participating residents \*feel strongly\* that this community needs common representation.

More granular municipality-level community descriptions are provided below:

#### CITIZEN INPUT FOR GERMANTOWN:

"[I love the] volunteer involvement of our citizens, groups, and organizations. From the Lions and Rotary Clubs to the churches, businesses and business owners, student groups at our schools, and individual citizens Germantown is always ready to help out and lend a helping hand at all times. [I also love] the community unity, camaraderie, and volunteerism within the City.

"Germantown has many places and items in our town that makes us a special place such as the annual Pretzel Festival, the Homer Kern lions, the historic Covered Bridge, and the history of Germantown being the hub of tobacco and whiskey trade in the 1800's."

Germantown issues and concerns include aging infrastructure (dating from 1920s) and historical structures, a need to allow for controlled new residential construction, a need for new commercial growth, and a need for a occupant to make productive use of the primary and intermediate school buildings soon to be vacated since those Valley View schools are moving out of the city.

"Our local concerns in Germantown currently are road repairs, which are badly needed, and school funding. Everyone has been taxed to death because the state keeps cutting the monies to locals and so the locals have to keep asking for monies from their citizens.

"Valley View is starting to build a whole new school complex. It took many years to get the levy passed. The state is giving them 60% but we still are short budget wise. The newest school is the high school which opened in 1968. The community has been torn apart because of this levy."

### CITIZEN INPUT FOR NEW LEBANON:

One thing I love about our community is the good schools and good grocery store. People caring to know one another makes us a special place. Our main issues/concerns are in having the resources to maintain and improve our parks, roads a schools since we don't have a large tax base. "Back in the day" a lot of folks here worked for GM, etc., but those jobs aren't around anymore. We had more farmers too.

"I see us a "bedroom community" of Dayton. I believe, and I could be dead wrong, that a large number of people in our community still travel to outlying area for employment. I know the school is a big employer too."

### CITIZEN INPUT FOR FARMERSVILLE:

"Farmersville is a small rural town with wide open spaces and yet is close enough to more developed cities for residents to have access to the arts, concerts, fine dining, and other services not available in our town.

"I love the rural setting. I like the open spaces and

https://districtr.org/COI/43237

AOS\_000392

9/5/21, 10:50 AM Districtr

the small town - one main street with small businesses.

"It's a small town where many people have stayed long term. There are family owned farms, small shops and no big business. Farmersville is out in the country but close enough to Dayton and it's larger suburbs to enjoy the amenities that city life offers and still return home to the corn/soy bean fields and the horses, cows and quiet."

Issues and concerns: "Internet access in this area is spotty at best – slow speeds and regular drops in service. At this time there are only a couple of internet service providers if you live outside of town. Small tax base from business so Valley View school has an income tax."

### Bedroom Community West

This community\* was defined to capture the broader region of people with jobs in or closer to Dayton, but who want the greater space and quieter surroundings of a suburban / rural setting. The region is broader than, but also includes, the Valley View & New Lebanon community, and the color shown there is the superposition of both colors.

\*We do not mean to include portions of Miamisburg, Carlisle, or West Carollton; however districtR lacks the resolution (whole voting precincts only) to exclude those areas. Similarly, we do not mean to exclude border-portions of Brookville, Trotwood, or Jefferson Twp school districts, but encountered the same limitation in map resolution there as well.

## **Important Places**

### Farmersville pool and community center

Families use the recreation center for family and community events. The center has sports facilities as well, which are valued widely in the community.

**Dixie Elementary School** 

Dixie Middle School

**Dixie High School** 

### Valley View High School

The high school serves students from both Farmersville and Germantown. The site is also a shared community meeting place and resource.

https://districtr.org/COI/43237

9/5/21, 10:50 AM Districtr

### Kercher community park / Weber park

This park features tennis courts, disc golf, baseball diamonds, and more. It is a well used, well maintained community park. A bike trail passes nearby to the park, and offers nice views of the Tobacco barn. Kayaking also occurs in the nearby creek, and is well used when the water level allows.

#### Barker field

This is the site for high school football, soccer, and junior high football games, track meets, and select soccer team competitions.

#### **Veterans Memorial Park**

This military memorial park has a train caboose, a depot, an old tall-house, and a basketball court. The local swimming pool is adjacent. It is also the site of the Pretzel Festival at the end of September, as well as other community events.

### Police, EMS, and fire stations

### City Town Hall

This was formerly called municipal building. It hosts the City Manager, and the taxes and utilities offices. City council meetings and community meetings are held here.

### **Dupps Manufacturing buildings**

This manufacturing site produces rendering equipment which is sold for use in processing offal and animal byproducts.

### Germantown public library

This is a Carnegie Library - it is in the district to serve the Valley View school district.

### Germantown historical society

Farmersville United Church of Christ
St Andrews Lutheran Church
Local churches, including St Andrews, often provide meals to students outside of school, and act as a general resource center for food, clothing, and other supplies.
New Lebanon Methodist Church
This church is known for a high degree of community outreach. It collects and donates clothing and food items, and operates a 'clothing closet.'
St Johns United Church of Christ (Germantown)
The church operates a food pantry, child care center and pre-school.
New Lebanon Church of Christ
Also serves as a polling place and hosts other community outreach events.

### **Communities of Interest**

### Trotwood

https://districtr.org/COI/31003

Trotwood sees itself as a very friendly and close-knit community whose demographics are a of broad cross-section of the area as a whole: urban, suburban, and rural residents both African American and white. Residents described a well-kept and moderately dense community with a good relationship with law enforcement and a reasonably responsive local government.

Trotwood participants described several problematic issues that they would like their state and federal representation to address. Participants felt strongly that because they share a district with Preble county in their state Senate and House, their needs were neglected in favor of those of the rural majority in their district. They believe that if they were to be included with more urban or suburban areas, that would be a more natural fit and result in more effective representation. Other topics of concern were a need for commercial development of locally-owned businesses; the community needs a grocery store with fresh foods; that the school district's reputation did not adequately represent the true quality of the education provided which could dissuade new residents; voting accessibility; deteriorating roads; gun violence; areas of blight; inconsistent code enforcement; school funding disparities; lack of a community center; too-permissive laws regarding nuisances (e.g. fireworks); and infrastructure reliability (mainly water and electricity delivery).

Important Places
Sycamore State Park
Large, beautiful, and underutilized park. Part of both Trotwood and Perry twp.
Salem Ave Corridor
Epicenter of Trotwood. A central node for local traffic. Lacking in commercial development, with an important mall having closed recently.

Statewide proportion of districts shall favor political parties closely to the statewide preferences of the voters of Ohio based on the state and federal partisan general election results during the last 10 years		?	same as alove

\* unconstitutional - Cuyahoga has 9 whole districts & 3 that bleed into other counties, but based on population Cuyahoga needs 10 whole House

#### Description of my proposed Ohio General Assembly maps

The maps were created using the Districtr system at districtr.org, a product of the MGGG Redistricting Lab of Tufts University (mggg.org). My Ohio House district plan can be viewed at <a href="https://districtr.org/plan/41134">https://districtr.org/plan/41134</a> and the Senate district plan can be viewed at <a href="https://districtr.org/plan/41493">https://districtr.org/plan/41493</a>.

They use the data of the 2020 US census for the more than 9000 block groups in Ohio. Each block group was assigned to one of 99 House districts. The plan aimed to respect county lines insofar as possible, to create compact and natural districts, and to balance the populations of the districts.

Following the requirements of the Ohio Constitution, two counties — Richland and Wayne — qualified as single House districts. The greatest upward deviation of from the ideal population of 119,186 is for Richland County, which has 4.82% more people. The greatest downward deviation is for district 28 of the plan, consisting of two intact adjacent counties (Sandusky and Seneca), which together contain 4.38% fewer people than the ideal. Note that these 7 districts consist of unbroken counties: Districts 1, 2, 4, 7, 25, 28, and 29. The following counties consist of districts which are not broken across county lines: Franklin, Hamilton, Lake, Richland, and Wayne.

The Senate map was created from the House map by consolidating three adjacent House districts to create each Senate district. Again care was taken to create compact districts,\ and to avoid crossing county lines, insofar as this was feasible.

# **ABOUT**

THE OHIO CITIZENS REDISTRICTING COMMISSION

The Ohio Citizens Redistricting Commission (OCRC) is sponsored by the Ohio Organizing Collaborative (OOC), Ohio State Conference of the National Association for the Advancement of Colored People (NAACP), and the A. Philip Randolph Institute (APRI) of Ohio. The OCRC worked in partnership with the Kirwan Institute for the Study of Race and Ethnicity at The Ohio State University, More Equitable Democracy, Skylight and MGGG Redistricting Lab at Tufts University.

OHIO CITIZENS REDISTRICTING COMMISSION

3

## **ABOUT THE COMMISSION**

#### **OVERVIEW**

The Ohio Citizens Redistricting Commission (OCRC) is an independent, diverse, non-partisan commission made up of 16 volunteer members, including interested citizens, academics, community leaders, current and former elected officials, attorneys, and more. Members were deliberately chosen to reflect the diversity of Ohio, and include persons of color, persons of all ages and backgrounds, persons from the LGBTQ community, and persons from different regions of the state.

#### **GOALS OF THE COMMISSION**

The OCRC has three main goals:

- Model a thorough and robust engagement process for developing legislative districts, including reaching out specifically to minority and underrepresented communities,
- Develop and demonstrate citizen-derived principles of redistricting, and
- Draw "unity maps", meaning maps based on constitutional requirements, citizen-derived principles of redistricting, and an aggregation of a wide variety of preferences that came out of public input.

#### **PURPOSE OF THIS REPORT**

The OCRC developed this report summarizing how these goals were achieved to submit as public testimony to the Ohio Redistricting Commission.

#### **COMMISSION MEMBERS**

Some members of the Commission helped to write the constitutional amendment that Ohio voters approved in 2015 and that spells out the criteria upon which the Commission's unity maps are based. Commission members were invited to apply by representatives of the OCRC sponsor organizations the Ohio Organizing Collaborative, Ohio State Conference of the NAACP, and APRI of Ohio. The following members were selected and serve on the commission.

Ohio Association of Public School
Employees, Central OH Region

The OCRC partnered with the Kirwan Institute for the Study of Race and Ethnicity at The Ohio State University and MGGG Redistricting Lab at Tufts University for data collection, analysis, and community mapping, with More Equitable Democracy for district mapping and analysis, and with Skylight for web-based community engagement. The following individuals participated in this work:

#### **Mapping & Data Analysis Team Members**

- Dr. Ranthony Edmonds, Department of Mathematics, Ohio State -- Data Analysis
- Dr. Matthew Kahle, Department of Mathematics, Ohio State -- Data Analysis
- Dr. Vladimir Kogan, Political Science, Ohio State -- Politics/Policy
- Michael Outrich, Kirwan Institute, Ohio State -- Ohio Community Mapping
- Dr. Glennon Sweeney, Kirwan Institute, Ohio State -- Ohio Community Mapping
- Dr. Moon Duchin, MGGG Redistricting Lab, Tufts University -- Project Manager
- Elizabeth Kopecky, MGGG Redistricting Lab, Tufts University -- Project Manager
- Derrick Smith, Applied Statistics, Ohio Organizing Collaborative -- Data Analysis
- Colin Cole, More Equitable Democracy -- District Mapping and Analysis
- Bill Baugh, More Equitable Democracy -- District Mapping and Analysis
- Louis Libert, Skylight -- Digital Designer & User Experience Lead
- 7 OHIO CITIZENS REDISTRICTING COMMISSION

## **COMMISSION PROCESS AND TIMELINE**

#### **Commission Announced**

On Wednesday, May 12, 2021, the formation and membership of the OCRC was announced to the general public via statewide media release and on social media. The public was encouraged to become involved in the work of the OCRC and to watch for further updates and developments.

### **Public Engagement and Hearings**

Public hearings were held virtually throughout the state with a quorum of OCRC members present to give an overview of the amendments to the Ohio Constitution for 2021 regarding the redistricting process, to encourage attendees to participate in the community mapping project, and to receive feedback about what they would like to see happen in the 2021 redistricting process as it relates to their communities or region of the state. The OCRC was also interested to hear how communities, and particularly minority and underrepresented communities, have been impacted in the last decade under gerrymandered districts, and to hear feedback about what specifically witnesses would recommend moving forward to have better political and community representation.

Each public hearing featured a few guest speakers, like a prominent local elected official or community leader, and then the meeting was opened up for citizen witnesses to testify. A total of 494 Ohio citizens registered to attend these public hearings. Many of these citizens came representing large subgroups and/or membership lists of other citizens. Recordings of all public hearings can be viewed on our OCRC website at <a href="https://www.ohredistrict.org/past-hearings">www.ohredistrict.org/past-hearings</a>.

The OCRC held all public hearings after business hours to optimize accessibility, and virtually to ensure safe participation. Hearings were held on the following dates and times:

- · May 13, 2021 at 6pm for an organizational meeting and redistricting briefing.
- · May 27, 2021 at 6pm for Northwest Ohio (Toledo and Lima).
- · June 10, 2021 at 6pm for Greater Cleveland (Cleveland, Lorain, Euclid, Parma).
- · June 24, 2021 at 6pm for Northeast Ohio (Akron, Canton, Youngstown).
- · July 8, 2021 at 6pm for Southeast Ohio (Athens, Portsmouth, East Liverpool, Chillicothe).
- · July 22, 2021 at 6pm for Southwest Ohio (Cincinnati, Dayton).
- August 12, 2021 at 6pm for Central Ohio (Columbus, Marion, Mansfield, Newark, Lancaster).
- August 26, 2021 at 5:30pm for a presentation on our proposed unity maps and to receive feedback and questions.
- August 27, 2021 at 5:30pm for a presentation on our proposed unity maps and to receive feedback and questions.

www.ohredistrict.org

8

### **Commission Work Sessions and Work Groups**

The first organizational meeting of the commission took place on May 13, 2021 at 6pm. Members received a briefing about the commission's objectives and about the guidelines laid out in the Ohio Constitution for drawing state legislative and congressional districts.

Commission work sessions took place virtually via Zoom on the following dates:

- May 27, 2021 following the completion of the public hearing.
- · June 10, 2021 following the completion of the public hearing.
- · June 24, 2021 following the completion of the public hearing.
- July 8, 2021 following the completion of the public hearing.
- · July 22, 2021 following the completion of the public hearing.
- · July 29, 2021 to discuss and adopt mapping criteria framework.
- August 12, 2021 following the completion of the public hearing.
- August 20, 2021 to discuss draft unity maps.
- August 22, 2021 to discuss draft unity maps. The OCRC voted unanimously to propose draft unity maps to the public.
- August 29, 2021 to discuss proposed unity maps, feedback on proposed maps, and the draft report to be submitted to the Ohio Redistricting Commission. The OCRC voted unanimously to adopt the final commission report and unity maps.

Commission officers met weekly on Mondays beginning on May 3rd.

The OCRC established four workgroups to facilitate the work of the commission and report back to the full commission. All workgroups met as needed and workgroup leads would report in at full commission work sessions. The working groups are:

OHIO CITIZENS REDISTRICTING COMMISSION

### **Community Mapping Project**

The MGGG Redistricting Lab built a project team based at The Ohio State University and supported by a network of grassroots organizations to collect and synthesize Community of Interest (COI) input for the OCRC. One of the major guiding principles of this team was to ensure that narratives, needs, and concerns from a diverse range of Ohioans were included in the process. They emphasized concerted outreach to minority and underrepresented communities in their approach.

This team used Districtr, a free community web tool developed by MGGG to enable users to create both COI regions and "points of interest" paired with narratives about community issues and needs. There were 2,350 submissions received through the Districtr portal.

Prioritizing Communities of Interest is generally considered to be essential to drawing fair districts, but in practice, it is prohibitively difficult to implement without local community knowledge. This community mapping project collected spatialized testimony from the public, which featured not only narrative descriptions of the communities, but mapping describing their geography.

Districtr users could work remotely or join video conference-based workshops led by members of our outreach partner organizations. The Commission received public input in many modalities: collection at in-person meetings when possible, in virtual public meetings, submitted through Districtr.org, OCRC website and email or even via social media.

OHIO CITIZENS REDISTRICTING COMMISSION

10

### **Proposed Unity Maps Introduced to the Public**

On August 25, the OCRC released proposed unity maps for the Ohio House and Ohio Senate via statewide media and social media for public comment and input. The unity maps were based on constitutional requirements, citizen-derived principles of redistricting, and an aggregation of a wide variety of preferences that came out of public input. These unity maps incorporated the 2020 Census data released two weeks earlier on August 12. Input was requested at two scheduled public hearings or via email to the commission.

# Final Report and Unity Maps Submitted to Ohio Redistricting Commission

The OCRC submitted their final report and unity maps to the Ohio Redistricting Commission on September 1, 2021.

### OHIO HOUSE OF REPRESENTATIVES UNITY MAP

#### OHIO HOUSE OF REPRESENTATIVES UNITY MAP

The OCRC adopted this Ohio House of Representatives Unity Map based on constitutional requirements, citizen-derived principles of redistricting, and an aggregation of a wide variety of preferences that came out of public input. There are also additional considerations that the OCRC used to better understand how best to deliver real pathways to representation through new district lines for all of Ohio's communities.

#### **EQUAL POPULATION**

Under Article XI, Section 3(A) of the Ohio Constitution, the population of Ohio house and senate districts cannot vary more than  $\pm 5\%$  of what is called a 'ratio of representation,' which is calculated by taking the whole population of the state and dividing it by the number of districts in the house. Districts must be drawn using the whole population of the state as determined by the most recent census – that is, every person who lives in Ohio must be used to determine the size of each district, not just adults, voters, or citizens. The 2020 Census whole population of Ohio is 11,808,848. Thus each of Ohio's 99 house districts must contain between 113,317 and 125,245 persons.

See Exhibit A for a listing of the population of each district on the proposed map. All districts have between 113,317 and 125,245 persons as required by the Ohio Constitution.

#### REPRESENTATIONAL FAIRNESS

Article XI, Section 6 of the Ohio Constitution states that, "No General Assembly district plan shall be drawn primarily to favor or disfavor a political party." Further, "The statewide proportion of districts whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political party shall correspond closely to the statewide preferences of the voters of Ohio."

In the five general elections that have taken place over the past decade, Republican candidates for President, U.S. Senator, Governor, Secretary of State, Auditor, Attorney General and Treasurer have received 54.3% of the votes cast by Ohio voters, while Democratic candidates for those offices have received 45.7% of the votes cast. To ensure that one political party is not unduly favored over another, the partisan make-up of Ohio's districts should mirror the partisan make-up of Ohio's voters.

Exhibit C contains a memo from OCRC member Dr. Richard Gunther displaying these calculations using official results from the Ohio Secretary of State from 2012, 2014, 2016, 2018, and 2020.

12

www.ohredistrict.org

Our proposed map has 55 districts (55.56% of the districts) that lean over 50% Republican and 44 districts (44.44% of districts) that lean over 50% Democratic.

This 56% Republican/44% Democratic ratio closely aligns with the 54%/46% representational fairness ratio required by the Ohio Constitution.

#### **KEEPING COMMUNITIES TOGETHER**

State house districts were drawn to protect Ohio's communities by keeping them together as much as practically possible and in line with the constitutional requirements to minimize the splitting of counties, townships, and cities. These requirements are as follows:

- Proceeding in succession from the largest to the smallest, each county must be drawn with
  as many whole districts within county boundaries as can be drawn. Any remaining fraction of
  the county's population must be part of only one adjoining house district. [Ohio Constitution
  Article XI, Section 3(C)(1)]
  - Franklin, Cuyahoga, Hamilton, Summit, Montgomery, Lucas, Butler, Stark, Lorain, Mahoning, Lake, Warren, Clermont, Trumbull, Delaware, Medina, Licking, Greene, Portage, Fairfield, Clark, and Wood counties trigger this requirement. Our proposed map complies with this requirement.
- Counties with a population between 113,317 and 125,245 must be drawn as whole house districts and cannot be split apart. [Ohio Constitution Article XI, Section 3(C)(2)]
  - Richland and Wayne counties trigger this requirement. Our proposed map complies with this requirement.
- The remaining portions of the state must be joined together in house districts and, where possible, counties should not be split more than once when drawing house districts. [Ohio Constitution Article XI, Section 3(C)(3)]
  - · Our proposed map complies with this requirement.
- If a municipality or township has territory in more than one county, the portion of that municipality or township shall be considered a separate municipality or township for the purposes of these sections. [Ohio Constitution, Article XI, Section 3(D)(1)(b).]
  - · Our proposed map adopts this assumption where applicable.
- If a municipality or township within one county has a population of more than one house district, the split portions are considered separately and not splits. [Ohio Constitution, Article XI, Section 3(D)(1)(c).]
  - Columbus, Cleveland, Cincinnati, Toledo, Dayton, and Akron trigger this requirement.
     Our map minimizes these splits and complies with this requirement.
- House districts must be drawn by splitting as few cities and townships whose contiguous portions have a population of 59,641 to 119,281.[3(D)(2)]
  - The cities of Parma, Canton, Youngstown, Lorain, and Hamilton trigger this
    requirement. Our proposed map does not split any of these cities and therefore
    complies with the requirement.

OHIO CITIZENS REDISTRICTING COMMISSION

13

- If the above splitting rules cannot be met when drawing a house district by including whole cities or townships, the district cannot split more than one city or township. [3(D)(3)]
  - · Our proposed map complies with this requirement.

Using qualitative community of interest data collected by the OCRC and compiled by MGGG, the number of communities of interest kept together within district boundaries were maximized.

#### ADDITIONAL CONSIDERATIONS

#### **INCUMBENCY PROTECTION**

Incumbency protection as a criterion for state legislative districts, formerly Article XI, Section 7, was removed from the Ohio Constitution by overwhelming majorities in both houses of the legislature and ratified by over 70 percent of the voters in 2015. The removal of that criterion was an important priority to reformers for any agreement on state legislative redistricting, since preservation of the previous district boundaries was tantamount to making inevitable the preservation of the previous gerrymander.

#### MINORITY REPRESENTATION

Districts were reviewed to understand the extent to which minority voters can meaningfully influence elections. Following county and political subdivision split rules allowed communities of color to be drawn into compact districts and at the same time avoided packing and cracking. Minority vote dilution by packing or cracking was avoided. Packing is when minority voters are artificially concentrated into a small number of districts so that their overall electoral influence is weakened. Cracking splits minority communities and spreads minority voters thinly into many districts in which they have little or no electoral influence.

The Commission reviewed proposed maps to ensure that minority voters were fairly represented. The proposed map has 15 districts with a substantial opportunity for Black voters to be represented electorally. Exhibit B provides Black Voting Age Population (BVAP) numbers for those 15 districts and shows their location on relevant maps.

www.ohredistrict.org

# PROPOSED STATE LEGISLATIVE UNITY MAPS OHIO HOUSE OF REPRESENTATIVES

The following map meets all of the relevant constitutional requirements. Those requirements include provisions that dictate how or if a political subdivision (including counties, townships, and municipalities) is allowed to be split apart and that require representational fairness in the proportion of seats likely to go to each major political party based on statewide state and federal partisan elections in the last decade.

	Key
Dark Blue	Likely Democratic (60% +)
Light Blue	Lean Democratic (53-59%)
Pale Blue	Democratic Tossup (50-52%)
Pale Red	Republican Tossup (50-52%)
Light Red	Lean Republican (53-59%)
Dark Red	Likely Republican (60%+)

www.ohredistrict.org

### **OHIO STATE SENATE UNITY MAP**

#### **OHIO SENATE UNITY MAP**

The OCRC adopted this Ohio Senate Unity Map based on constitutional requirements, citizenderived principles of redistricting, and an aggregation of a wide variety of preferences that came out of public input. There are also additional considerations that the OCRC used to better understand how best to deliver real pathways to representation through new district lines for all of Ohio's communities.

#### **EQUAL POPULATION**

Under Article XI, Section 3(A) of the Ohio Constitution, the population of Ohio House and Senate districts cannot vary more than  $\pm 5\%$  of what is called a 'ratio of representation,' which is calculated by taking the whole population of the state and dividing it by the number of districts in the senate. Districts must be drawn using the whole population of the state as determined by the most recent census – that is, every person who lives in Ohio must be used to determine the size of each district, not just adults, voters, or citizens. The 2020 Census whole population of Ohio is 11,808,848. Thus each of Ohio's 33 senate districts must contain between 339,951 and 375,735 persons.

See Exhibit A for a listing of the population of each district on the proposed map. All districts have between 339,951 and 375,735 persons as required by the Ohio Constitution.

#### REPRESENTATIONAL FAIRNESS

Article XI, Section 6 of the Ohio Constitution states that, "No General Assembly district plan shall be drawn primarily to favor or disfavor a political party." Further, "The statewide proportion of districts whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political party shall correspond closely to the statewide preferences of the voters of Ohio."

In the five general elections that have taken place over the past decade, Republican candidates for President, U.S. Senator, Governor, Secretary of State, Auditor, Attorney General and Treasurer have received 54.3% of the votes cast by Ohio voters, while Democratic candidates for those offices have received 45.7% of the votes cast. To ensure that one political party is not unduly favored over another, the partisan make-up of Ohio's districts should mirror the partisan make-up of Ohio's voters.

16

www.ohredistrict.org

Exhibit C contains a memo from OCRC member Dr. Richard Gunther displaying these calculations using official results from the Ohio Secretary of State from 2012, 2014, 2016, 2018, and 2020.

Our proposed map has 18 districts (54.54% of the districts) that lean over 50% Republican and 14 districts (45.46% of districts) that lean over 50% Democratic.

This 55% Republican/45% Democratic ratio closely aligns with the 54%/46% representational fairness ratio required by the Ohio Constitution.

#### **KEEPING COMMUNITIES TOGETHER**

State senate districts were drawn to protect Ohio's communities by keeping them together as much as practically possible and in line with the constitutional requirements to minimize the splitting of counties, townships, and cities. These requirements are as follows:

- Senate districts shall be composed of three contiguous house of representatives districts. [Ohio Constitution Article XI, Section 4(A)]
  - · Our proposed map complies with this requirement.
- Each county must be drawn with as many whole senate districts within county boundaries as can be drawn. Any remaining fraction of the county's population that exceeds 375,735 must be part of only one adjoining senate district. [Ohio Constitution Article XI, Section 4(B)(1)]
  - Franklin, Cuyahoga, Hamilton, Summit, Montgomery, Lucas, Butler, and Stark counties trigger this requirement. These counties in our proposed map all have at least one senate district wholly within the county and only one adjoining district with the remainder of the population in that county. Therefore our map complies with this constitutional requirement.
- Counties not large enough to contain one whole senate district but that have at least one house district shall be part of only one senate district [Ohio Constitution Article XI, Section 4(B)(2)]
  - Lorain, Mahoning, Lake, Warren, Clermont, Trumbull, Delaware, Medina, Licking, Greene, Portage, Fairfield, Clark, Wood, and Richland counties trigger this requirement.
     These counties in our proposed map are each contained within one senate district.
     Therefore our map complies with the constitutional requirement.

Using qualitative community of interest data collected by the OCRC and compiled by MGGG, the number of communities of interest kept together within district boundaries were maximized.

**OHIO CITIZENS REDISTRICTING COMMISSION**

#### ADDITIONAL CONSIDERATIONS

#### INCUMBENCY PROTECTION

Incumbency protection as a criterion for state legislative districts, formerly Article XI, Section 7, was removed from the Ohio Constitution by overwhelming majorities in both houses of the legislature and ratified by over 70 percent of the voters in 2015. The removal of that criterion was an important priority to reformers for any agreement on state legislative redistricting, since preservation of the previous district boundaries was tantamount to making inevitable the preservation of the previous gerrymander.

#### MINORITY REPRESENTATION

Districts were reviewed to understand the extent to which minority voters can meaningfully influence elections. Following county and political subdivision split rules allowed communities of color to be drawn into compact districts and at the same time avoided packing and cracking. Minority vote dilution by packing or cracking was avoided. Packing is when minority voters are artificially concentrated into a small number of districts so that their overall electoral influence is weakened. Cracking splits minority communities and spreads minority voters thinly into many districts in which they have little or no electoral influence.

The Commission reviewed proposed maps to ensure that minority voters were fairly represented. The proposed map has six districts where Black voters have a substantial opportunity to be represented electorally. Exhibit B provides Black Voting Age Population (BVAP) numbers for those 6 districts and shows their location on relevant maps.

# PROPOSED STATE LEGISLATIVE UNITY MAPS OHIO STATE SENATE

The following map meets all of the relevant constitutional requirements. Those requirements include provisions that dictate how or if a political subdivision (including counties, townships, and municipalities) is allowed to be split apart and that require representational fairness in the proportion of seats likely to go to each major political party based on statewide state and federal partisan elections in the last decade.

	Key
Dark Blue	Likely Democratic (60% +)
Light Blue	Lean Democratic (53-59%)
Pale Blue	Democratic Tossup (50-52%
Pale Red	Republican Tossup (50-52%)
Light Red	Lean Republican (53-59%)

AOS\_000450

#### **EXHIBIT C: REPRESENTATIONAL FAIRNESS MEMO**

#### Oral Presentation of Article XI, Section 6(B)

"The statewide proportion of districts whose voters, based on statewide state and federal partisan general election results during the last ten years, favor each political party shall correspond closely to the statewide preferences of the voters of Ohio."

#### How Section 6(B) is Intended to Work

The first step is to calculate the statewide preferences of the voters of Ohio as reflected in ballots cast for the candidates of each major party for President, United States Senator, Governor, Secretary of State, Attorney General, Auditor and Treasurer over the past decade. That calculation (based on the official election results as published by the Ohio Secretary of State) is presented in the following table.

#### Votes for Statewide Offices over the Past Decade

Democratic Candidates	2012	2014	2016	2018	2020
President	2,697,260		2,394,164		2,679,165
Senator	2,645,901		1,996,908		
Governor		1,009,359		2,067,847	
Sec of State		1,074,475		2,049,944	
Attorney General		1,178,426		2,084,593	
Auditor		1,149,305		2,006,204	
Treasurer		1,323,325		2,022,016	

GRAND TOTAL of votes cast for Democratic candidates 2012-2020: 28,378,892

Republican Candidates	2012	2014	2016	2018	2020
President	2,593,779		2,841,005		3,154,834
Senator	2,371,230		3,118,567		
Governor		1,944,848		2,231,917	
Sec. of State		1,811,020		2,210,356	
Attorney General		1,882,048		2,272,440	
Auditor		1,149,305		2,152,769	
Treasurer		1,724,060		2,304,444	

GRAND TOTAL of votes cast for Republican candidates 2012-2020: 33,759,622

Democratic share of votes cast for statewide offices (28,378,892÷62,141,514) = 45.7%

Republican share of votes cast for statewide offices  $(33,762,622 \div 62,141,514) = 54.3\%$ 

www.ohredistrict.org

26

#### **EXHIBIT C: REPRESENTATIONAL FAIRNESS MEMO**

Thus, the grand total of votes for Republican and Democratic candidates for statewide offices over the past decade indicates that Ohio voters supported Republican candidates over Democratic candidates by a margin of 54.3% vs. 45.7%.

Accordingly, for the map to be representationally fair, that is, not gerrymandered, the share of Ohio House of Representatives districts whose voters lean toward Republican candidates should be as close to 54.3% as possible, while 45.7% of these districts should lean toward Democratic candidates.

The second step is to create a partisan index for each of the districts that have been drawn based on the same statewide election results. This involves aggregating those same data for each of the districts in the map. This step determines the likely partisan lean in each district.

This seems like a lot of work, but computer programs used to draw district maps can easily accomplish this task.

Then simply count the number of districts that lean toward one party or the other.

After this has been done, it will be easily possible to determine which maps most closely correspond to the partisan preferences of Ohio's voters over the previous decade.

Using these data, the goal should be to create a map in which 54% of the districts have a pro-Republican partisan index and 45.7% have a pro-Democratic partisan index based on the last decade's election results.

Note that Section 6(B) of Article XI does not imply that each individual district should internally mirror this statewide ratio, which cannot occur because of how Republican and Democratic voters are unevenly distributed across the state.

Instead, it is the *statewide* share of districts leaning toward one party or another (based upon previous voting behavior over the previous decade) that should correspond to this statewide pattern of partisan preferences.

# **ACKNOWLEDGEMENTS**

Thank you to all of our partners, contributors and every fellow Ohioan who lifted their voice in this process. Democracy is a practice that requires all of us.

#### **SPECIAL THANKS:**

Proposed State House Map

Columbus Area Inset of Proposed State House Map

Cincinnati Area Inset of Proposed State House Map

Cleveland Area Inset of Proposed State House Map

This proposed map creates 10 minority-majority districts, and an additional 5 districts which are at least 40% minority.

In 2016, former President Donald Trump carried 54 districts with over 55% of the vote, while Hillary Clinton carried 25 by the same number. This left 20 districts in the competitive 45-55% range for either candidate with them breaking for an additional 8 Democratic seats and 12 Republican seats. With Hillary Clinton winning 43% of the vote in Ohio, this gives Democrats 37% of the seats.

In the 2018 Senate race, Senator Sherrod Brown carried 41 districts with over 55% of the vote, while former Representative Jim Renacci carried 37 by the same number. This left 21 districts in the competitive 45-55% range for either candidate with them breaking for an additional 11 Democratic seats and 10 Republican seats. With Senator Brown winning 53% of the vote, this would give Democrats 52% of the seats.

In 2020, former President Donald Trump carried 54 districts with 55% of the vote, while President Joe Biden carried 28 by the same number. This left 17 districts in the competitive 45-55% range for either candidate with them breaking for an additional 12 Democratic seats and 5 Republican seats. With President Biden winning 45% of the vote in Ohio, this would give Democrats 40% of the seats.

Obviously, individual candidates do not fare exactly the same as the tops of their ticket, which could work either favorably or unfavorably for either party if this map was adopted. Any map which is adopted, however, will undeniably give Republicans a competitive advantage because their candidates will enjoy an incumbency advantage from this past decade's extreme gerrymander and one-party rule.

The Sustainable Westerville community group drew a community of interest map using Districtr software. Sustainable Westerville considers their community to be the Westerville City School District.

Our community of interest is currently divided by the 4 Ohio House and 3 Senate districts shown above.

8/21/2021 District

#### **Communities of Interest** - Description from Districtr of our Community Map

#### Westerville City School District

This map was created by eight members of Sustainable Westerville, and encompasses the Greater Westerville Area which is approximately the Westerville City School District. This is the area that Sustainable Westerville considers their community.

The community shares many things including the Westerville Library. What brings people together is the schools. But many students in the southern portion do not identify with the Uptown and Uptown events such as 4th Friday. There is considerable diversity in SES (socioeconomic status). Higher income in northern areas. Many churches and places of worship.

Policy Concerns: Affordable housing (truly affordable). Representation of all constituents in this area. Equity. Sustainability. Diversity. Inclusion. Access to resources and facilities, programming. Not a lot of diversity in Uptown. Officials need to listen to students. Policing. Physical barriers to green space such as highways. Bike trails under highways don't feel safe and get flooded. Access to grocery stores below Rt. 270 in southwest corner. Food insecurity. Public transportation issues - maintaining bike paths.

What we love about our community - diversity is improving. Can see the past - still have a few old barns (Everal Barn). Parks are dotted throughout - Inniswood, City Parks, Hoover. Best of small town.

Outdoor recreation, bike trails. School district. Easy access to health care and necessary services. Restaurants. (But a question is: does everyone in our community feel these things are accessible to them.)

#### Re: Council Manager system:

https://districtr.org/COI/38038

On January 1, 1916, Westerville became the first village in Ohio to adopt a Council Manager form of government. following a July 31, 1915 poll in which Westerville voters decisively voted by a nearly two to one margin in favor of such.

#### Re: City Charter: (from the City's web page)

In 1964, Westerville Residents adopted a Home Rule Charter, which gives the municipal government greater local control and flexibility than the statutory form. Ohio statute governs only on matters which Westerville's Charter does not address.

Sustainable Westerville is a group of local citizens who are interested in working together on initiatives that improve the spaces in which we live, work, learn, and play. We advocate for the three legs of sustainability: social, economic, and environmental. Find us at sustainablewesterville.org and @sustainablewesterville on Instagram and Facebook. This map shows the approximate area of Westerville City School District.

8/21/2021

Districtr

## **Important Places**

#### Uptown

https://districtr.org/COI/38038

Captures essence of what is unique about Westerville. Still has historical buildings. Where all municipal government buildings are located. History is evident - Temperance Movement, Hanby House, Underground Railroad. Place to bring family who have never been to Westerville. Otterbein Campus can be considered part of the Uptown
Alum Creek Park North
"Choo Choo Park" Popular park. Ampitheatre. Basketball courts
Hoover Dam - Reservoir Park
Draws people from all over including people from Columbus. Columbus water supply from the reservoir.
Inniswood Metro Gardens
Popular botanical garden and nature preserve.
Westerville Central HS
Theatre productions. Sporting events made available. Parking cones out for practicing parallel parking. Westerville Library uses Central for big author events.
Westerville North High School
Community resource similar to Westerville Central HS

https://districtr.org/COI/38038

8/21/2021 Districtr

Following intense efforts by Westerville City officials, St. Ann's hospital relocated to Westerville in 1984, becoming Westerville's first and only full fledged hospital. It has been serving the Westerville community ever since.

Sheila Willamowski

Hello! Are you close?

**Emily Kaylor** 

Auditor is running 15-20 minutes late

Sheila Willamowski

Okay. We started about 8 mins ago. Leader Sykes just arrived as well.

**Emily Kaylor** 

**Thanks** 

Wed, Sep 15, 2:00 PM

Come to speakers

On my way

Wed, Sep 15, 6:00 PM

Minority sent a map to Emily and I that incorporated the suggestions you and the Sec made yesterday evening. They didn't do what you asked them to do (interests, etc), they just adjusted their map.

Call with MW at 7:30

Huffman wants to talk

## Done 2 of 2

Article XI, Section 8(C)(2) Statement

Pursuant to Article XI, Section 8(C)(2) of the Ohio Constitution, the Ohio Redistricting Commission issues the following statement:

The Commission determined that the statewide preferences of the voters of Ohio predominately favor Republican candidates.

The Commission considered statewide state and federal partisan general election results during the last ten years. There were sixteen such contests. When considering the results of each of those elections, the Commission determined that Republican candidates won thirteen out of sixteen of those elections resulting in a statewide proportion of voters favoring statewide Republican candidates of 81% and a statewide proportion of voters favoring statewide Democratic candidates of 19%. When considering the number of votes cast in each of those elections for Republican and Democratic candidates, the statewide proportion of voters favoring statewide Republican candidates is 54% and the statewide proportion of voters favoring statewide Democratic candidates is 46%. Thus, the statewide proportion of voters favoring statewide Republican candidates is between 54% and 81% and the statewide proportion of voters favoring statewide Democratic candidates is between 19% and 46%. The Commission obtained publicly available geographic data for statewide partisan elections in 2016, 2018, and 2020. Publicly available geographic data for those elections was not available for elections in 2012 and 2014. Using this data, the Commission adopted the final general assembly district plan, which contains 85 districts (64.4%) favoring Republican candidates and 47 districts (35.6%) favoring Democratic candidates out of a total of 132 districts. Accordingly, the statewide proportion of districts whose voters favor each political party corresponds closely to the statewide preferences of the voters of Ohio.

The final general assembly district plan adopted by the Commission complies with all of the mandatory requirements of Article XI, Sections 2, 3, 4, 5, and 7 of the Ohio Constitution. The Commission's attempt to meet the aspirational standards of Article XI, Section 6 of the Ohio Constitution did not result in any violation of the mandatory requirements of Article XI, Sections 2, 3, 4, 5, and 7 of the Ohio Constitution.

What are the red green maps mean again?

. LTE U

It shows which counties in the state le. The red ones

They have some type of additional criteria that it gets so many house districts or so many senate districts within the boundaries of the county. or in the case of Richland and Wayne County red means it is a single county house district

So I thought del county couldn't have been split outside? Why is del red?

Trying to reconcile why

Message

So I thought del county couldn't have been split outside? Why is del red?

Trying to reconcile why certain maps are not valid

Delaware County must have one whole contain house district within its boundaries and the remainder of Delaware County can only go into one adjoining house district and additionally Delaware County must in its entirety be contained within one Senate District

How did groups draw
Franklin districts solely
within county ... one map
tales and combines
Delaware and Union

Franklin county can be drawn to be 11 for house

Message

Franklin county can be drawn to be 11 for house district but for the Senate District pairing it would have to pair with one adjoining house district some where.

We took Franklin and Union population together and created 12 house districts

Senate Democrats took Franklin and Pickaway population together and created 12 house districts

Ok so why didn't we draw house district

How far off is Union from stand-alone

Union county is 62,784 people which is only .52 house ratios

Union county is 62,784 people which is only .52 house ratios

Are you 10-2

Really...

Really Union can add to 60k left over fc to create a whole new district

So if you combine the populations of Franklin and Union County you get enough people to be 11.64 house districts

If on average you draw them 3% light from the ideal population target you can make those 11.64 house districts. Be 12 house districts and then you make 4 senate districts
